CURRICULUM VITAE

I was born on 8 April 1958 at Komiža (Vis island), Croatia. I received my primary and secondary education in Split, and in 1976 enrolled in the Faculty of Science of the University of Zagreb, Department of Physics.

In 1981 I graduated and obtained my degree as graduate engineer of physics, field of study: Geophysics with Meteorology.

My first employment was in 1982 at the Oceanographic Department of the Hydrographic Institute. Between 2000 and 2004 I performed the duties of the Head of Department. In 2004 I took up the post of Assistant Director for Oceanography and Scientific Development at the Hydrographic Institute of the Republic of Croatia. I was appointed as Director of the Institute in March 2014, and have performed this duty to date.

In the period between 2004 and 2009 I was a member of the Governing Council of the Hydrographic Institute of the Republic of Croatia.

My professional career as oceanographer started with multidisciplinary cruises in the Adriatic Sea onboard *s/v "Andrija Mohorovičić"*. I gained valuable experimental experiences during continuous oceanographic measurements on oil and gas exploration platforms.

In 1984 I enrolled in the postgraduate study of natural sciences at the Faculty of Science of the University of Zagreb, field of study Oceanography. In April 1988 I received my master's degree defending the master's thesis under the title "Influence of Atmosphere on Forced Sea Level Oscillations on Eastern Coast of the Adriatic Sea". In October 2004 I earned my doctor's degree with the dissertation entitled "Barotropic and Baroclinic Waves in Wider Area of Lastovo Channel".

I further improved my professional capabilities during short training courses at "Deutsches Hydrographisches Institut", Hamburg, "Institut fuer Meereskunde", Kiel, "METU Institute", Erdemli, "Istituto per lo Studio della Dinamica delle Grandi Masse", Venice, "Naval Postgraduate School", Monterey (USA) and Norwegian Hydrographic Service, Stavanger. I have been involved as member of the expert group of the International Hydrographic Organization (IHO), Monaco, and the Mediterranean Science Commission (CIESM), Monaco.

In the period between 2005 and 2009 I performed the duties of project manager in CRONO HIP Project (Croatian-Norwegian Hydrographic Information Project), through

which the Hydrographic Institute of the Republic of Croatia significantly modernized its "production line" from the hydrographic survey by modern multibeam echosounder, and implementation of sophisticated database of hydrographic, nautical and oceanographic data, to the production of electronic navigational charts (ENC) and paper navigational charts from the same database.

During two ordinary sessions of the International Hydrographic Conference I was a member of the Croatian delegation, while at the 5th Extraordinary International Hydrographic Conference that took place in Monaco in October 2014, I was the head of the Croatian delegation.

I have published 136 scientific and professional papers (as author and co-author), 87 of which in international peer-reviewed scientific journals/proceedings. Moreover, I have participated in more than 250 studies and project reports of the Hydrographic Institute of the Republic of Croatia in the field of hydrography, geophysics and oceanology.

During my professional career I have participated in the work of expert teams for the delimitation of maritime boundaries of the Republic of Croatia, based on the accepted legal principles detailed in the United Nations Convention on the Law of the Sea.

I was supervisor in the production of eight environmental impact studies, as well as associate author of some 20 environmental impact studies.

2. Scientific projects

2.1 Manager and assistant manager of international projects

Assistant manager of "East Adriatic Coastal Experiment" project within American-Croatian cooperation.

Assistant manager of "European Sea Level Service – Research Infrastructure (ESEAS-RI)" project within the so-called Fifth framework programme of the European Commission.

Assistant manager of "Internal Tidal Hydrodynamics and Ambient Characteristics" project within American-Croatian cooperation.

Leading expert for physical oceanography in "Coastal cities water pollution control project, IBRD 7226/HR; Part C1: Strengthening of coastal water monitoring network" of the Ministry of Environmental Protection, Construction and Physical Planning.

2.2 Active participation in the realization of scientific projects

I actively participated in the realization of the following scientific projects financed by the Ministry of Science, Education and Sports of the Republic of Croatia:

1. "Atmosphere – Adriatic System" (chief researcher Prof. Mirko Orlić, Ph.D.)
2. "Modern Nautical Cartography" (**chief researcher Nenad Leder, Ph.D.**)
3. "Croatian National Monitoring Programme – Adriatic Project" (project manager Nenad Smodlaka, Ph.D.)
4. Radioecology of the Adriatic Sea and Coastal Areas (project manager Zdenko Franić, Ph.D.)

3. Other projects

1. 2005-2009 CRONO HIP Project (Croatian-Norwegian Hydrographic Information Project), project manager
2. 2007 – 2009 Coastal cities water pollution control project IBRD 7226/HR, Part C1: Strengthening of coastal water monitoring network, leading expert for physical oceanography
3. 2008 – 2009 Coastal cities water pollution control project IBRD 7226/HR, Part C1: J Strengthening of coastal water monitoring network – Monitoring system of Hrvatske vode laboratory", project assistant manager
4. 2009 – 2010 Rijeka Gateway project – Wave Condition Monitoring within Port of Rijeka – Zagreb Pier, project manager
5. 2009 – 2010 "Hydrographic characteristics of the Adriatic Sea" project – Hrvatske vode, project manager
6. 2012 – 2013 "Sea flooding in coastal areas" project – Hrvatske vode, project manager
7. 2013 – ongoing. Coastal cities water pollution control project 2 IBRD 7640/HR, PART 3.2 Sea water quality monitoring, MENP/M-C-1 Consulting services for the definition of the Monitoring and Observation system for ongoing assessment of the Adriatic Sea, project assistant manager
8. 2013 – ongoing. "Joint Actions for Sea Pollution Prevention – JASPPer", IPA Cross-border Programme Croatia – Montenegro, project manager

4. Scientific associations

Member of the following professional and scientific associations:

1. Expert group of the International Hydrographic Organization (IHO), Monaco
2. Mediterranean Science Commission (CIESM), Monaco
3. Croatian Meteorological Society
4. Croatian Maritime Law Association.
