

Mr. Hendra Siry (Indonesia)
2006-2007 United Nations – The Nippon Foundation of Japan Fellow

Bio-sketch

Mr. Hendra is a Planner with the Agency for Marine and Fisheries Research (AMFR), Ministry of Marine Affairs and Fisheries (MMAF), Indonesia. He holds a Bachelor in Marine Science from the University of Riau, Indonesia and a Masters in Urban Environmental Management from the Asian Institute of Technology, Thailand. Upon completion of his Bachelor, Mr. Hendra began working for the Directorate General of Regional Development (DGRD) – Ministry of Home Affairs to support the promotion of policies for regional development through institutional strengthening and facilitation processes. In 2001, he was transferred and appointed as Head of Program Development Section at AMFR. In this post, his duties include arranging and synchronizing research programs and budgeting among the research center and research unit components within the MMAF. He has been intensively involved in facilitating and supporting the planning and implementation of research projects on marine and fisheries.

Fellowship Host Institutions and Supervisors

1. Department of Environmental, Earth and Ocean Sciences, University of Massachusetts at Boston (Prof. John A Duff)
2. The Division for Ocean Affairs and the Law of the Sea, Office of Legal Affairs of the United Nations (DOALOS)

Research Abstract

Making Decentralized Coastal Zone Management Work for the Southeast Asian Region: Comparative Perspectives

Mr. Hendra's research is a comparative study on decentralized coastal zone management in the Philippines, Indonesia and Malaysia. The research aims to understand governance systems and decentralized practices in coastal zone management, and to explore the lesson learned, the principal attributes/forces, and the implications for future decentralized coastal zone management policy in Southeast Asia region.
