IRAQI METEROLOGICAL ORGANIZATION Requirrements of weather observation instruments

Code	Item Description	Unit	Qty	Complem Entray items
07-60-00001	1- Upper air observation automatic radio sond system			
	complete with all options, spares, consumables for			
	3 years operation, installation and training			
07-60-00002	2- Meteorological Balloon, Weight 10 gm. 50gm, 100gm			
	150 gm, 200 gm, 300gm, 500gm, 750gm,10000gm,			
	(color-red, yellow).			
07-60-00003	3- Various surface meteorological instrument with acc-			
	essories, spares and consumables including install-			
	ation and training.			
07-60-00004	4- Agrometerological automatic observation station,			
	comprising all meteorological sensors, data logger			
	Pcbased pentium type IBM compatible, 12 V DC			
	battery operation with Solar panels for battery charging			
07-60-00005	5- Marine automatic meteorological station including all			
	measuring sensors and data handling hard and soft-			
	ware.			
07-60-00006	6- A complete runway automatic weather observation			
	station for int. airport of category CAT III A.Dual run-			
	way complete with spare parts, installation and trai-			
	ning.			
07-60-00007	7- A complete runway automatic weather observation			
	station for int. airport of category CAT II A. complete			
	with spare parts, installation and training.			
07-60-00008	8- Weather radar system, comprising a computer, color			
	monitor and all necessary accessories spare parts			
	complete with installation and training.			
07-60-00009	9- Complete meteorological Satellite Receving stations			
	comprising the following main features:			
	- PDUS/ HRIT, MDD, SADIS, HRPT and MSG(Meteosat			
	second generation) and the coming European			
	Polar Orbiting Satellite.			
	- Work terminals in addition to the server terminal.			
	- Connection to GTS and AFTN net works.			
	- Laser jet printers, A3 size and A4 size.			
	Key Unit and other services charges for two years			
	transmission to be paid to ((Eumetsat)) or any other			
	satellite owner.			

IRAQI METEROLOGICAL ORGANIZATION Requirrements of weather observation instruments

	Item Description		
07-60-00010	10. Wind tunnel for calibrating wind instruments with		
0, 00 00010	accessories consumables and spares.		
07-60-00011	11. Wireless, Two way, fast speed data link, 10-20 Km		
	ranges complete with spares.		
07-60-00012	12. Miscellaneous Mechanical, Electrical, and Electronic		
	measuring and test instruments.		
07-60-00013	13. Seismological observation system with consumables		
	spares and training.		
07-60-00014	14. HF/SSB Radiotelephone, 500 W PEP, base station, 2-15 MHz, USB, 6 channels, simplex .220 V Ac, 50 Hz main		
	operation, one of them is a stand by C/w. Spare parts,		
	plus a suitable bidirectional Antenna, 100-600 Km.		
07-60-00015	15. HF antenna for item 16, (100-600) Km range c/w pole		

07-60-00016 16. HF/SSB Radiotelephone 2-15 MHz, 150 W PEP 12 VDC- battery operation c/w 10 AMP. Battery charger(ordinary type) and spares. 07-60-00017 17. Electric gasoline driven generator , 3 KVA, 220 V AC 50hZ with spares. 07-60-00018 18. Electrolytic hydrogen generator of 3 ma/hr production rate c/w spares, installation materials and consumables for 5 years. 07-60-00019 19. Calibration equipment for temperature ,relative humidity, pressure, measuring rain gauge and recording instruments. 07-60-00020 20. Supply, installation and commissioning of meteorological message switching system (MMSS) comprising the following main feature: - Connection with the WMO GTS and AFTN net works. 07-60-00021 21. Miscellaneous, including suitable software. 01-60-00021 21. Miscellaneous office equipment's (photocopiers PC with Peripheralsetc. IRAQI METEROLOGICAL ORGANIZATION Requirrements of weather observation instruments IRAQI METEROLOGICAL ORGANIZATION Requirrements of weather observation instruments Item Description 22. 220 V Stabilizers, and UPS s 1.2 KVA and 5 KVA. 23. Spare parts for central air-conditioning system 07-60-00024 24. Motor for fan coils for airconditioning system						
battery operation c/w 10 AMP. Battery charger(ordinary type) and spares. 07-60-00017 17. Electric gasoline driven generator , 3 KVA, 220 V AC 50hZ with spares. 07-60-00018 18. Electrolytic hydrogen generator of 3 m3/hr production rate c/w spares, installation materials and consumables for 5 years. 07-60-00019 19. Calibration equipment for temperature , relative humidity, pressure, measuring rain gauge and recording instruments. 07-60-00020 20. Supply, installation and commissioning of meteorological message switching system (MMSS) comprising the following main feature: -Connection with the WMO GTS and AFTN net works. 0. Conforms to WMO recommendation standards and ICAO regulations. Conforms to WMO recommendation standards and ICAO regulations. 0. Dual system in live and hot standby station. - Ten user terminals, including all peripherals i.e.Modems , Plotters, Printers, Scanners, UPSetc. 07-60-00021 21. Miscellaneous office equipment's (photocopiers PC with Peripheralsetc. IRAQI METEROLOGICAL ORGANIZATION Requirrements of weather observation instruments Item Description 07-60-00022 22. 220 V Stabilizers, and UPS s 1.2 KVA and 5 KVA. 23. Spare parts for central air-conditioning system (4 Air cooled water chillers, out door installation 208 Kw per unit). 23. Spare parts for central air-conditioning system (4 Air cooled water chillers, out door installation 208 Kw per unit).						
and spares. 07-60-00017 17. Electric gasoline driven generator , 3 KVA, 220 V AC 50hZ with spares. 07-60-00018 18. Electrolytic hydrogen generator of 3 m3/hr production rate c/w spares, installation materials and consumables for 5 years. 07-60-00019 19. Calibration equipment for temperature ,relative humidity, pressure, measuring rain gauge and recording instruments. 07-60-00020 20. Supply, installation and commissioning of meteorological message switching system (MMSS) comprising the following main feature: -Connection with the WMO GTS and AFTN net works. - Conforms to WMO recommendation standards and ICAO regulations. - Conforms to WMO recommendation standards and ICAO regulations. - Connection to SADIS, MDD, PDUS and HARPT satellite receiving station including suitable software. - Dual system in live and hot standby station. - Ten user terminals, including all peripherals i.e.Modems , Plotters, Printers, Scanners, UPS etc. 07-60-00021 21. Miscellaneous office equipment's (photocopiers PC with Peripheralsetc. IRAQI METEROLOGICAL ORGANIZATION Requirrements of weather observation instruments 07-60-00022 22. 220 V Stabilizers, and UPS s 1.2 KVA and 5 KVA. 07-60-00023 23. Spare parts for central air-conditioning system (4 Air cooled water chillers, out door installation 208 Kw per unit).						
07-60-00017 17. Electric gasoline driven generator , 3 KVA, 220 V AC 50hZ with spares. 07-60-00018 18. Electrolytic hydrogen generator of 3 m3/hr production rate c/w spares, installation materials and consumables for 5 years. 07-60-00019 19. Calibration equipment for temperature ,relative humidity, pressure, measuring rain gauge and recording instruments. 07-60-00020 20. Supply, installation and commissioning of meteorological message switching system (MMSS) comprising the following main feature: -Connection with the WMO GTS and AFTN net works. - Conforms to WMO recommendation standards and ICAO regulations. - Connection to SADIS, MDD, PDUS and HARPT satellite receiving station including suitable software. - Dual system in live and hot standby station. - Ten user terminals, including all peripherals i.e.Modems , Plotters, Printers, Scanners, UPSetc. 11. Miscellaneous office equipment's (photocopiers PC with Peripheralsetc. IRAQI METEROLOGICAL ORGANIZATION Requirrements of weather observation instruments 12. Spare parts for central air-conditioning system (4 Air 07-60-00023 22. 220 V Stabilizers, and UPS s 1.2 KVA and 5 KVA. 23. Spare parts for central air-conditioning system (4 Air 07-60-00023 23. Spare parts						
with spares. 07-60-00018 18. Electrolytic hydrogen generator of 3 m3/hr production rate c/w spares, installation materials and consumables for 5 years. 07-60-00019 19. Calibration equipment for temperature ,relative humidity, pressure, measuring rain gauge and recording instruments. 07-60-00020 20. Supply, installation and commissioning of meteorological message switching system (MMSS) comprising the following main feature: -Connection with the WMO GTS and AFTN net works. - Conforms to WMO recommendation standards and ICAO regulations. - Connection to SADIS, MDD, PDUS and HARPT satellite receiving station including suitable software. - Dual system in live and hot standby station. - Ten user terminals, including all peripherals i.e.Modems , Plotters, Printers, Scanners, UPSetc. 07-60-00021 21. Miscellaneous office equipment's (photocopiers PC with Peripheralsetc. IRAQI METEROLOGICAL ORGANIZATION Requirrements of weather observation instruments Item Description 22. 220 V Stabilizers, and UPS s 1.2 KVA and 5 KVA. 23. Spare parts for central air-conditioning system (4 Air cooled water chillers, out door installation 208 Kw per unit) .						
07-60-00018 18. Electrolytic hydrogen generator of 3 m3/hr production rate c/w spares, installation materials and consumables for 5 years. 07-60-00019 19. Calibration equipment for temperature ,relative humidity, pressure, measuring rain gauge and recording instruments. 07-60-00020 20. Supply, installation and commissioning of meteorological message switching system (MMSS) comprising the following main feature: -Connection with the WMO GTS and AFTN net works. - Conforms to WMO recommendation standards and ICAO regulations. - Conforms to WMO recommendation standards and ICAO regulations. - Connection to SADIS, MDD, PDUS and HARPT satellite receiving station including suitable software. - Dual system in live and hot standby station. - Ten user terminals, including all peripherals i.e.Modems , Plotters, Printers, Scanners, UPSetc. - 21. Miscellaneous office equipment's (photocopiers PC with Peripheralsetc. IRAQI METEROLOGICAL ORGANIZATION Requirrements of weather observation instruments Item Description 07-60-00022 22. 220 V Stabilizers, and UPS s 1.2 KVA and 5 KVA. 22. 220 V Stabilizers, and UPS s 1.2 KVA and 5 KVA. 07-60-00022 22. 220 V Stabilizers, out door installation 208 Kw per unit).						
production rate c/w spares, installation materials and consumables for 5 years. 07-60-00019 19. Calibration equipment for temperature ,relative humidity, pressure, measuring rain gauge and recording instruments. 07-60-00020 20. Supply, installation and commissioning of meteorological message switching system (MMSS) comprising the following main feature: 07-60-00020 20. Connection with the WMO GTS and AFTN net works. 07-60-00023 21. Conforms to WMO recommendation standards and ICAO regulations. 02-00000000000000000000000000000000000						
consumables for 5 years. 07-60-00019 19. Calibration equipment for temperature ,relative humidity, pressure, measuring rain gauge and recording instruments. 07-60-00020 20. Supply, installation and commissioning of meteorological message switching system (MMSS) comprising the following main feature: - Connection with the WMO GTS and AFTN net works. - Conforms to WMO recommendation standards and ICAO regulations. - Connection to SADIS, MDD, PDUS and HARPT satellite receiving station including suitable software. - Dual system in live and hot standby station. - Ten user terminals, including all peripherals i.e.Modems , Plotters, Printers, Scanners, UPSetc. 07-60-00021 21.
