

"Employment-intensive public investments: a catalyst for poverty reduction: Creating jobs through employment, environmental and social protection policies and strategies"

United Nations Headquarters, New York
Conference Room A
8-11 May 2017

Mito Tsukamoto,
Sr Specilaist Employment
Intensive Investment
Programme (EIIP)
tsukamoto@ilo.org

WORLD ECONOMIC & SOCIAL OUTLOOK 2017

- 201 million unemployed in 2017
- 2.7 million more in 2018
- 1.4 billion (42% of total employment) considered to be vulnerable forms of employment
- 70 million youth unemployed in 2017 (1 in 8 youth in LAC, Caribbean and Sub Saharan Africa)
- 80% lack social protection and working poverty

INEQUALITY GAPS IN THE FUTURE?

- Economic performance in 2016 with global GDP growth hitting a six-year low at 3.1%
- Inability of economy to

- (i) generate sufficient number of jobs,
- (ii) improve the quality of employment for those employed,
- •(iii) ensure that the growth is inclusive

FURTHER EXACERBATED BY

- Climate Change (rapid / slow onset disaster)
- Protracted conflicts (stemming food and water security)
- Technological changes and Future of work
- Donor fatigue
- Culture of dependency

Increasing economic, social and environmental inequality leading to social unrest

WHAT DO WE NEED TO DO?

- Good practices:
 - Address un(der)employment and discouraged workers;
 - Address root causes;
 - Strengthen economic, social and climate resilience;
 - Strengthen and build local and national capacities (from design to monitoring);
 - Direct budget support and national programmes;
 - Integrated stratgies
 - Coordinated and joint programmes to deliver on collective outcomes (globally and locally);

Design Ell multi-sectoral national public employment programes (PEP)

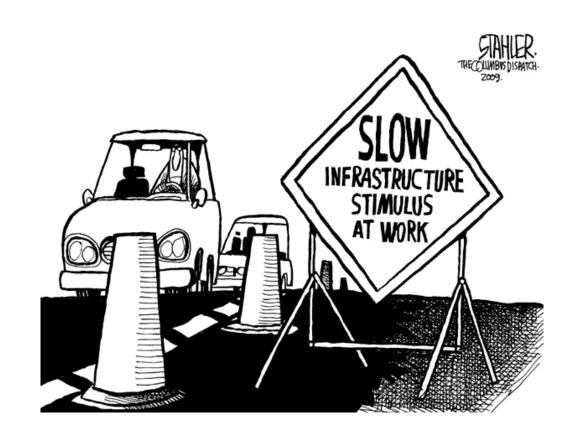

WHAT DO WE MEAN BY PEP?

- An (LI/LB) employment-intensive investment approach;
- Nationally financed PWPs (e.g. humanitarian-development);
- Multi-sectoral (e.g. agriculture, environment, infrastructure, social);
- Addressing the effects AND root causes of inequality;
- A rights-based approach (e.g. Employment Guaratee, Social Protection Floor);
- Addressing many SDGs at the same time;
- Complementarity between employment-social protection;
- Better targeting of vulnerable;
- CB for employability and sustainability through EI approaches;
- Not the expansion of civil service.

THE ROLE OF THE STATE / GOVERNMENT?

PEPs are based on the belief that government has an active role to play

- In addressing un(der)employment
- Work as a right that government has to realize consistently offering stability and predictability...
- Role of government to be dynamic: responsive to poverty, economic cycles, crises and disasters
- Provides a legal (or implicit) guarantee of work
- Work at minimum conditions (minimum wages and standards)
- A permanent alternative: no one will take up work at worse wages and conditions
- Individuals or households can participate over extended periods – predictability and stability
- Aims to "distort" the labour market by creating a floor
- Acts as "quasi" unemployment insurance (informal sector, minimum wage earners)

PEPS AS PART OF THE SOCIAL SECURITY

Higher levels of protection

NATIONAL SOCIAL SECURITY SYSTEM

NATIONAL SOCIAL PROTECTION FLOOR: nationally defined basic social security guarantees

access to essential health care including maternity care

basic income security for children

basic income security for persons in active age unable to earn sufficient income

basic income security for persons in old age

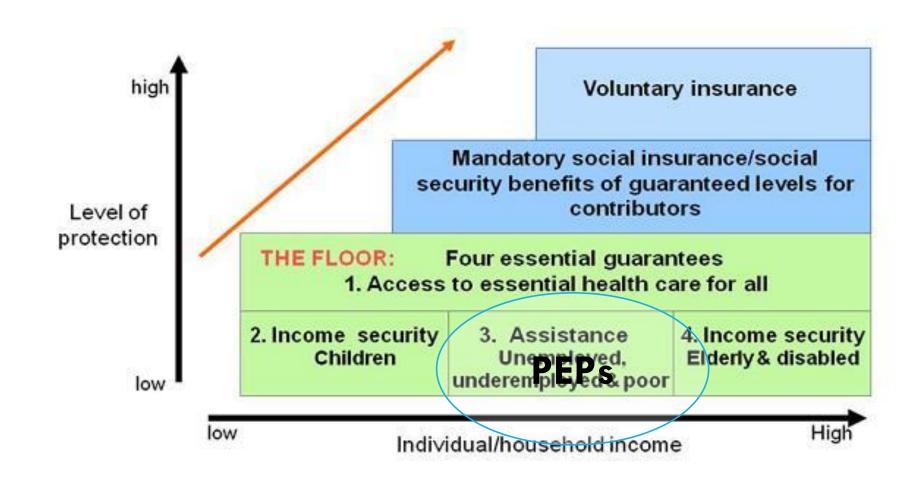

can be achieved through different means, including through employment guarantee and other public employment schemes

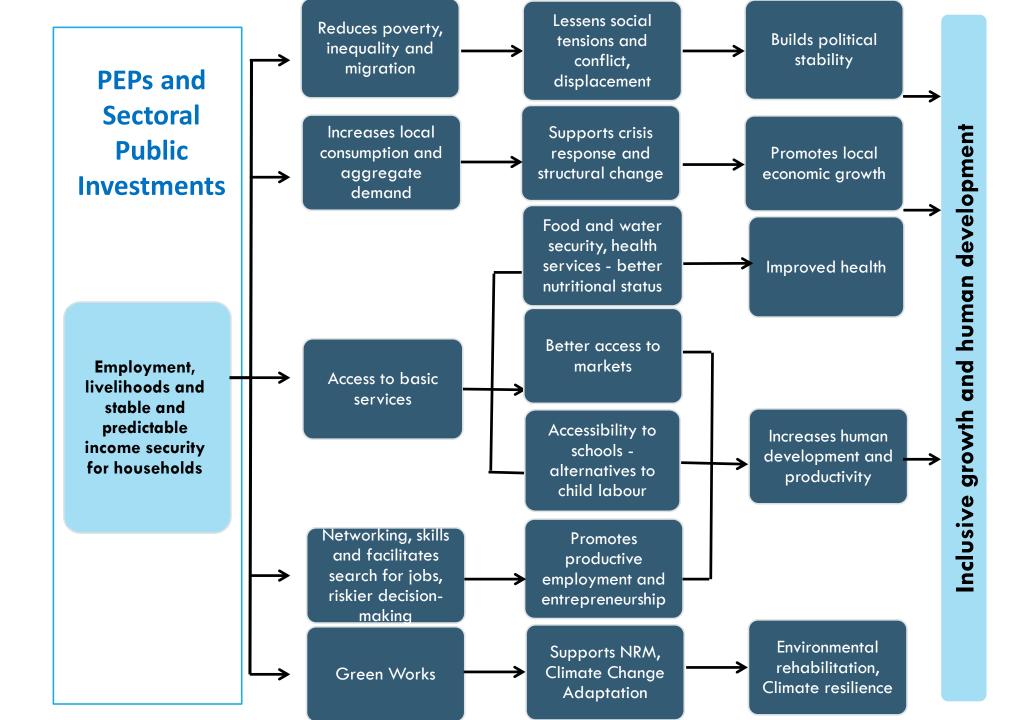

Current reality: Very limited access : around 80 % of world population have no access to adequate social protection -> ILO campaign

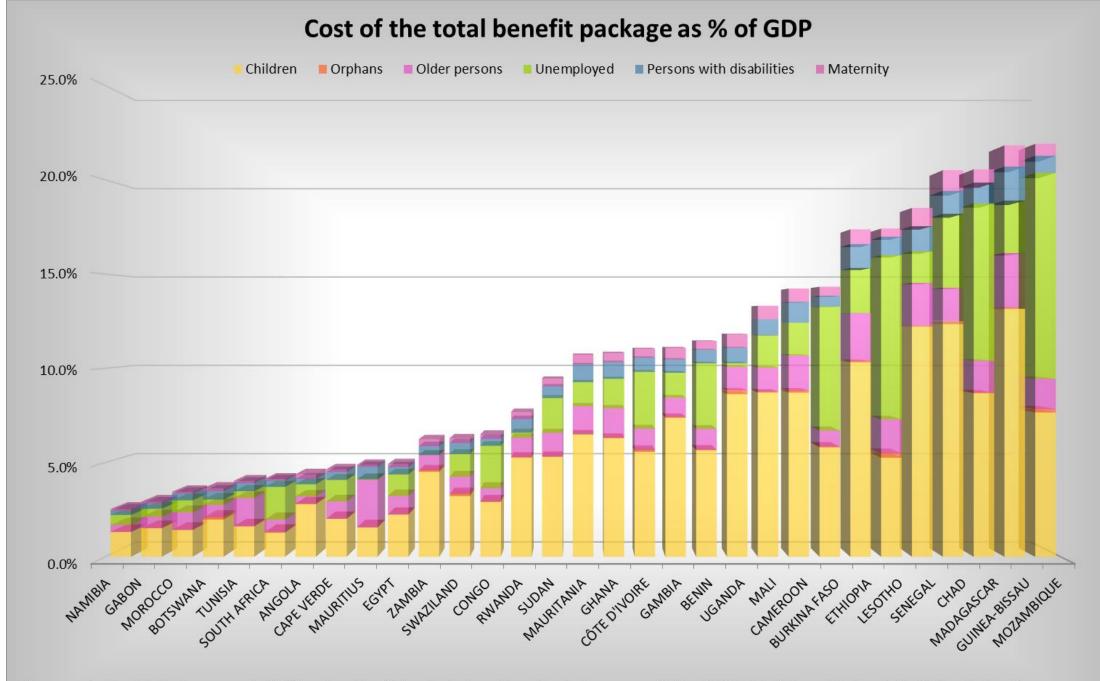

SOME KEY PRINCIPLES:

- Universality of protection, based on social solidarity
- Progressive realization
- Adequacy and predictability of benefits
- Coherence with social, economic and employment policy
- HOW? Diversity of schemes:
- contributory –non contributory,
- based on employment, based on residence,
- universal-targeted, conditionalunconditional, categorical, etc.
- diversity of risk and groups covered, eligibility criteria, financing mechanisms, rights entitlements, etc

PEPS AS PART OF SOCIAL PROTECTION FLOOR (SPF)

^{*}The assumption for administration expenses is of 15% for universal benefits in a standard year of operation. Such expenses are significantly higher in initial years of implementation. For targetted benefits, administration charges are assumed at 30% of benefit expenses based on relevant evidence (Cf. guidebook for additional explanations)

PEPS AS AN AGENT FOR TRANSFORMATION

Providing Employment (work for participants)

Social Protection (income/cash transfers for participants)

Public infrastructure and/or social goods and services

Green Works natural resources management, regeneration and rehabiliation, increased biodiversty

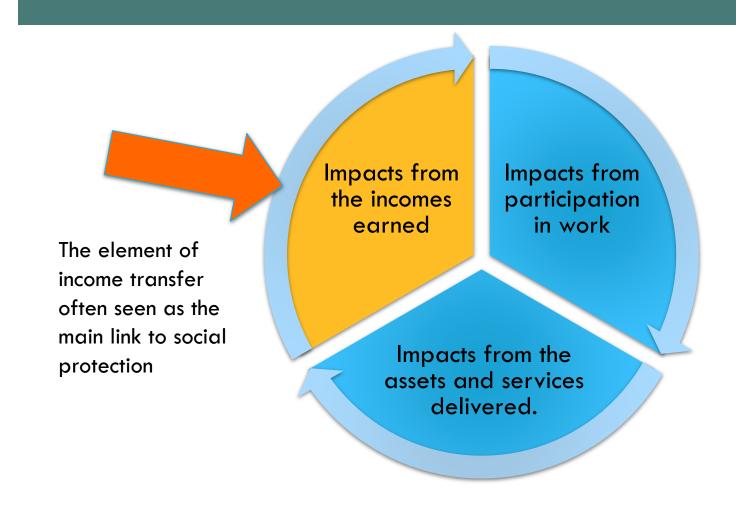

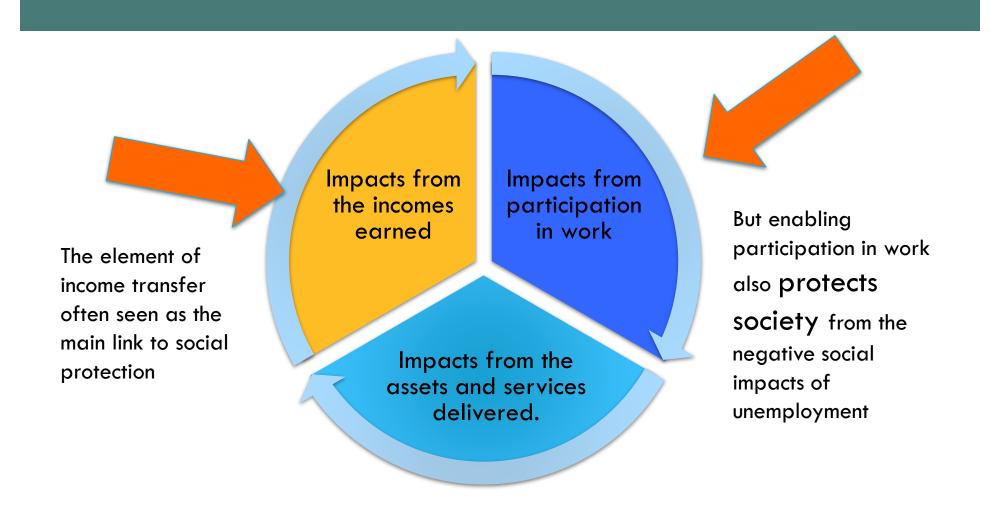

Design is key: The starting point or main priority has important impacts on the form the programme takes

Addressing all through **public investments**, potential for better synergies and impacts, and a more rationalized use of limited national funds

PUBLIC EMPLOYMENT: AN INSTRUMENT OF SOCIAL PROTECTION

PUBLIC EMPLOYMENT: AN INSTRUMENT OF SOCIAL PROTECTION

PUBLIC EMPLOYMENT: AN INSTRUMENT OF SOCIAL PROTECTION

And with good design, public employment can directly support key areas of public/social policy

PEP RATIONALE & SCALE

• Mahatma Ghandi National Rural Employment Guarantee Act (MGNREGA)

- Rationale: providing wage employment opportunities in rural areas (policy of inclusive growth);
- •Scale: Programme and budget need to grow and shrink with demands for employment of rights holders (55 millions HH in 645 districts in 2011/12)

Expanded Public Works Programme (EPWP 3)

- Rationale: draw unemployed in productive work + skills
- •Scale: Programme size based on investment requirements to address "backlogs" (Infrastructure and service deficits), not employment or social needs (1 m job opportunities in 2004-08, 2nd Phase
- 4.5m job opportunities 2009-13, 3rd Phase 6m job opportunities 2014-19

Productive Safety Net Programme (PSNP 4)

- Rationale: Smoothen household consumption to bridge production deficits in chronically food insecure farming households
- •Scale: Aims to cover all chronically food insecure, no more no less (8 million people up to 2020)

Focus on employment impact and income security without compromising quality of built infrastructure, assets, or services

Focus on local multi-sectoral investment and basic income security without compromising employment or conditions of work

GREEN WORKS

outside of PEPs: e.g. contributed security systems, cash transfers, social health protection

PWP / PEP TYPOLOGY

eg. MGNREGA,

eg. PSNP

Employi ALMP

Reducing Un(der)emp

Typically outside of PEPs: e.g. Finance, Multinational Enterprises,

PERS

eg. EPWP

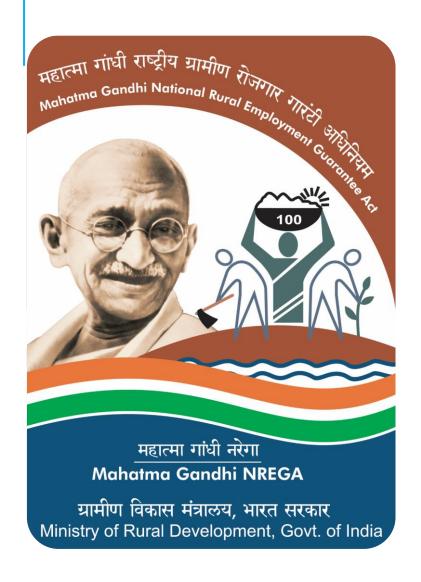

GREEN WORKS

Infrast ure, assets, and ices through al investments

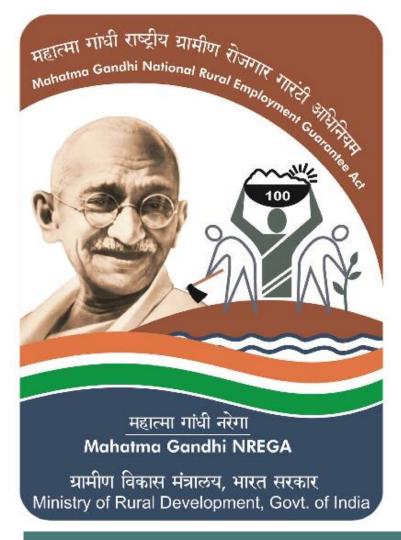

pically outside of PEPs: e.g.
Energy / Electricity, ICT, large public
works

Focus on type of sectoral investments and their employment impact without compromising quality of investment in human capital

BASIC PREMISE

- 1) Poverty is not the fault of the poor
- 2) Inequality brings down growth:
 More Equal Societies Almost Always Do Better
- 3) A country grows on the strength of its domestic market

A right to work

MGNREGA: A MAJOR POLICY INNOVATION

From a right to work when work is available

to

A right to work when work is **needed**.

Shifts the focus to putting the needs of people first: which is what rights are supposed to do.

Shifts the onus of employment creation from the economy to society A significant contribution to the decommodification of labour

PEPS AND INFRASTRUCTURE

PEPS AND ENVIRONMENT.

PEP AND EARLY CHILDHOOD DEVELOPMENT, YOUTH, ARTS

PEPS AND THE CARE SECTOR

The uneven burden of care: an unresolved gender issue

Paying for such work in PEPs gives it social recognition – and an economic value.

Institutionalizing community-based care, augmenting often-stretched health systems.

With strong career path opportunities into the health system.

Strengthening the social dimension of social protection...

PEPS AND THE REFUGEE CRISIS

- 1.Providing work <u>for locals</u> to augment support services and infrastructure in areas with high concentrations of refugees
 - Greece
 - Egypt
- 2.Providing work for <u>locals and</u> <u>refugees together</u>
 - Jordan
 - Lebanon

TIME TO SCALE UP: MGNREGA

Features	2006/2007	2008/2009	2009/2010	2011/2012
Expenditure in billion US\$ (expenditure)	1.4 (73%)	4.5 (73%)	6.2 (76%)	6.5 (73%)
Number of districts covered	200	619	619	645
Number of households	21 million	45 million	53 million	55 million
Number of WD in millions	90.5	216	284	257

COSTS OF ADAPTATION

TABLE 1. Annual Adaptation Costs in Developing Countries

Assessment	Annual Cost	Year
UNDP 2007	\$86 billion	2015
UNFCCC 2007	\$28–67 billion	2030
World Bank 2006	\$9–41 billion	present
Oxfam 2007	\$50 billion +	present
Stern Review 2006	\$4–37 billion	present
Sources: UNDP (2007, p. 19	92-194): Agrawala and Fank	chauser (2008, p. 69)

COSTS OF IMPLEMENTING A PEP

Programme	Expenditure (millions USD) for given year	Expenditure as % of GDP	Nr of work opportunities	Work opportunities as % of Labour force
NREGA (India 09/10)	7 587	0.46%	52.6 million	9.7%
PSNP (Ethiopia 08/09)	360	1.2%	1.5 million	4.8%
EPWP (South Africa 09/010)	3 952	1.1%	643 000	2.8%
KKV (Kenya 09)	43	0.12%	300 000	
CfWTEP (Liberia 09)	1.5	0.17%	8 500	0.8%*
Jefes (Argentina 2003)	3 056	0.9%	2 210 000	13.0%
Kosovo 2010 (projected)	3	0.1%	5 000	0.6%
FAIMO (Cape Verde)	10.8 (1998), 19.7 (1992)	Between 2% (1998) and 5% (1992)	15 000 to 20 000	11.5% (2000)

RECOMMENDATIONS

- Support countries to achieve Full Employment through multi-sectoral PEPs
 - UN's 1st Expert Group Report «National and International Measures for Full Employment» (ECOSOC resolution 290 (XI), 15 August 1950)
 - ILO Employment Policy Convention, 1964 (No.122) on Full Employment 111/187 countries ratified
 - Employer of Last Resort (ELR), Employment Guarantee Scheme (EGS), Social Protection Floor (SPF), SDGs
 legal predictability, transparency and stability
- 2) Build policy coherence: effective integrated multi-sectoral strategies (economic, social and environmental empowering and impacts)
- 3) Strengthen local and national institutions
- 4) Local resource-based approached (LRB): local multipliers through owernship, participation, materials and indigenous / traditional knowledg
- 5) Self targeting most vulnerable or through single registry

INTER-AGENCY SOCIAL PROTECTION ASSESSMENTS

(ISPA) supported by the following partners

Australian Government

Department of Foreign Affairs and Trade

THE ISPA CONSTELLATION

Over the next 5 years, over 20 ISPA tools are proposed to be developed, covering social protection SYSTEM, PROGRAM & DELIVERY mechanisms.

SYSTEM

Instrument)

SPPOT (Social Protection Policy Options Tool)

Social Protection Financing

Food Security

& Nutrition

PROGRAM

Cash Transfers

In-kind Transfers

Eligibility & Enrollment

& Appeals

Communication, Information & Evaluation & Awareness

Case Management

ISPA tool application process

Request for the assessment and preparatory phase:

- Inception meeting
- Stakeholder analysis and coordination of development partners

Getting started:

- Formation of the assessment team and steering committee
- Training on tool application and adaptation of the tool

Launch of the assessment:

- Orientation meeting: agree on objectives and process

Data collection:

- Desk review, pre-population of the questionnaire
- Stakeholder consultations, site visits, focus groups discussions

Assessment:

- Completion of assessment matrix and drafting of country report

Finalization:

- Consultative workshop
- Revision of matrix and report, delivery to the government

COUNTRY EXPERIENCES:

The currently available ISPA tools have already been piloted in various countries.

WHAT WORKS AND WHY?

«Multiple WINs»

- -Based on collaborative and transparent approaches to building systems
- -Harmonization of indicators, language and understanding of multiple objectives of PWPs
- -Stronger collaboration between agencies and stakeholders
- -Consistency between global and local actors
- **-Flexible** 'living' version to be adapted and updated based on national context and needs
- -National ownership

HIGHLIGHTS OF SOME ILO PUBLICATIONS related to Employment-Intensive Investment Approaches

EMPLOYMENT INTENSIVE INVESTMENT PROGRAMME (EIIP)

Green Works

Approaches

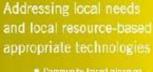

Promoting forestry, irrigation, soil, water & flood protection at the heart of recovery and reconstruction

- Restoring and protecting productive copacity of lands
- Resilient infrastructure and climate

- Community-based planning.

Short-term programmes to Employment Guarantee Schemes (EGS)

- Employment without compromising quality of assets
- Basic income security without compromising conditions of work
- Multi-sectoral investments without compromising human

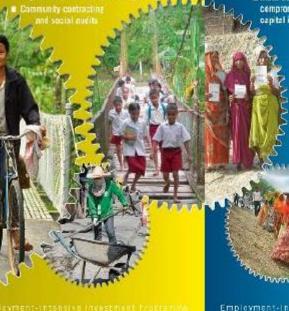

Development of construction industries and employment intensive infrastructure investments

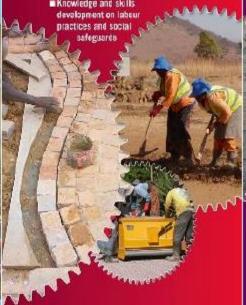

- ■Exabling environment and delivery systems
- Contracting identification and registration, contracts management and management

Analysing the employment impact of public investment and sectoral policies

- Assessing the employment impact of cublic investment
- Policy advice for developing strategies and programmes for job creation through public investments
- National espacities for enhancin the employment outcomes

Towards acceptable wages for public employment programmes: A guide for conducting studies for wage setting and estimating labour supply response, ILO Employment Working Paper No. 15 (2013) www.ilo.org/wcmsp5/groups/public/---ed.../publication/wcms_223867.pdf
