TEXT:

The General Assembly,

Recalling its resolutions 53/70 of 4 December 1998 and 54/49 of 1 December 1999,
Recalling also its resolutions on the role of science and technology in the context of international security, in which, inter alia, it recognized that scientific and technological developments could have both civilian and military applications and that progress in science and technology for civilian applications needed to be maintained and encouraged,

Noting that considerable progress has been achieved in developing and applying the latest information technologies and means of telecommunication,

Affirming that it sees in this process the broadest positive opportunities for the further development of civilization, the expansion of opportunities for cooperation for the common good of all States, the enhancement of the creative potential of mankind and additional improvements in the circulation of information in the global community,

Recalling in this connection the approaches and principles outlined at the Information Society and Development Conference, held at Midrand, South Africa, from 13 to 15 May 1996,

Bearing in mind the results of the Ministerial Conference on Terrorism, held in Paris on 30 July 1996, and the recommendations it made,¹

Noting that the dissemination and use of information technologies and means affect the interests of the entire international community and that optimum effectiveness is enhanced by broad international cooperation,

Expressing concern that these technologies and means can potentially be used for purposes that are inconsistent with the objectives of maintaining international stability and security and may adversely affect the security of States in both civil and military fields,

Noting the contribution of those Member States that have presented their assessments on issues of information security to the Secretary-General pursuant to paragraphs 1 to 3 of resolutions 53/70 and 54/49,

Taking note of the reports of the Secretary-General containing those assessments,²

The General Assembly,

Recognizing that scientific and technological developments can have both civilian and military applications and that progress in science and technology for civilian applications needs to be maintained and encouraged,

Concerned that military applications of scientific and technological developments can contribute significantly to the improvement and upgrading of advanced weapon systems and, in particular, weapons of mass destruction,

Aware of the need to follow closely the scientific and technological developments that may have a negative impact on international security and disarmament, and to channel scientific and technological developments for beneficial purposes,

Cognizant that the international transfers of dual-use as well as high-technology products, services and know-how for peaceful purposes are important for the economic and social development of States,

Also cognizant of the need to regulate such transfers of dual-use goods and technologies and high technology with military applications through multilaterally negotiated, universally applicable, non-discriminatory guidelines,

Expressing concern over the growing proliferation of ad hoc and exclusive export control regimes and arrangements for dual-use goods and technologies, which tend to impede the economic and social

development of developing countries,

Recalling that in the Final Document of the Twelfth Summit of Heads of State or Government of Non-Aligned Countries, held at Durban, South Africa, from 29 August to 3 September 1998,¹ it was noted with concern that undue restrictions on exports to developing countries of material, equipment and technology for peaceful purposes persist,

Emphasizing that internationally negotiated guidelines for the transfer of high technology with military applications should take into account the legitimate defence requirements of all States and the requirements for the maintenance of international peace and security, while ensuring that access to high-technology products and services and know-how for peaceful purposes is not denied,

1. *Affirms* that scientific and technological progress should be used for the benefit of all mankind to promote the sustainable economic and social development of all States and to safeguard international security, and that international cooperation in the use of science and technology through the transfer and exchange of technological know-how for peaceful purposes should be promoted;

ensuring lasting security for their peoples,

Convinced that nuclear weapons pose the greatest threat to mankind and to the survival of civilization,

Welcoming the progress achieved in recent years in both nuclear and conventional disarmament,

Noting that, despite recent progress in the field of nuclear disarmament, further efforts are necessary towards the achievement of general and complete disarmament under effective international control,

Convinced that nuclear disarmament and the complete elimination of nuclear weapons are essential to remove the danger of nuclear war,

Determined to abide strictly by the relevant provisions of the Charter of the United Nations on the non-use of force or threat of force,

Recognizing that the independence, territorial integrity and sovereignty of non-nuclear-weapon States need to be safeguarded against the use or threat of use of force, including the use or threat of use of nuclear weapons,

Considering that, until nuclear disarmament is achieved on a universal basis, it is imperative for the international community to develop effective measures and arrangements to ensure the security of non-nuclear-weapon States against the use or threat of use of nuclear weapons from any quarter,

Recognizing that effective measures and arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons can contribute positively to the prevention of the spread of nuclear weapons,

Bearing in mind paragraph 59 of the Final Document of the Tenth Special Session of the General Assembly,¹ the first special session devoted to disarmament, in which it urged the nuclear-weapon States to pursue efforts to conclude, as appropriate, effective arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, and desirous of promoting the implementation of the relevant provisions of the Final Document,

Recalling the relevant parts of the special report of the Committee on Disarmament² submitted to the General Assembly at its twelfth special session,³ the second special session devoted to disarmament, and of the special report of the Conference on Disarmament submitted to the Assembly at its fifteenth special session,⁴ the third special session devoted to disarmament, as well as the report of the Conference on its 1992 session,⁵

Recalling also paragraph 12 of the Declaration of the 1980s as the Second Disarmament Decade, contained in the annex to its resolution 35/46 of 3 December 1980, which states, inter alia, that all efforts should be exerted by the Committee on Disarmament urgently to negotiate with a view to reaching agreement on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

Noting the in-depth negotiations undertaken in the Conference on Disarmament and its Ad Hoc Committee on Effective International Arrangements to Assure Non-Nuclear-Weapon States against the Use or Threat of Use of Nuclear Weapons,⁶ with a view to reaching agreement on this question,

Taking note of the proposals submitted under the item in the Conference on Disarmament, including the drafts of an international convention,

Taking note further of the unilateral declarations made by all the nuclear-weapon States on their policies of non-use or non-threat of use of nuclear weapons against the non-nuclear-weapon States,

Noting the support expressed in the Conference on Disarmament and in the General Assembly for the elaboration of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, as well as the difficulties pointed out in evolving a common approach acceptable to all,

Taking note of Security Council resolution 984 (1995) of 11 April 1995 and the views expressed on it,

Recalling its relevant resolutions adopted in previous years, in particular resolutions 45/54 of 4 December 1990, 46/32 of 6 December 1991, 47/50 of 9 December 1992, 48/73 of 16 December 1993, 49/73 of 15 December 1994, 50/68 of 12 December 1995, 51/43 of 10 December 1996, 52/36 of 9 December 1997, 53/75 of 4 December 1998 and 54/52 of 1 December 1999,

2. *Notes with satisfaction* that in the Conference on Disarmament there is no objection, in principle, to the idea of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, although the difficulties with regard to evolving a common approach acceptable to all have also been pointed out;
3. *Appeals* to all States, especially the nuclear-weapon States, to work actively towards an early agreement on a common approach and, in particular, on a common formula that could be included in an international instrument of a legally binding character;
4. *Recommends* that further intensive efforts be devoted to the search for such a common approach or common formula and that the various alternative approaches, including, in particular, those considered in the Conference on Disarmament, be further explored in order to overcome the difficulties;
5. *Recommends also* that the Conference on Disarmament actively continue intensive negotiations with a view to reaching early agreement and concluding effective international arrangements to assure the non-nuclear-weapon States against the use or threat of use of nuclear weapons, taking into account the widespread support for the conclusion of an international convention and giving consideration to any other proposals designed to secure the same objective;
6. *Decides* to include in the provisional agenda of its fifty-sixth session the item entitled "Conclusion of effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons".

TEXT:

The General Assembly,

Recognizing the common interest of all mankind in the exploration and use of outer space for peaceful purposes,

Reaffirming the will of all States that the exploration and use of outer space, including the Moon and other celestial bodies, shall be for peaceful purposes and shall be carried out for the benefit and in the interest of all countries, irrespective of their degree of economic or scientific development,

Reaffirming also the provisions of articles III and IV of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies,¹

Recalling the obligation of all States to observe the provisions of the Charter of the United Nations regarding the use or threat of use of force in their international relations, including in their space activities,

Reaffirming paragraph 80 of the Final Document of the Tenth Special Session of the General Assembly,² in which it is stated that in order to prevent an arms race in outer space further measures should be taken and appropriate international negotiations held in accordance with the spirit of the Treaty,

Recalling its previous resolutions on this issue, and taking note of the proposals submitted to the General Assembly at its tenth special session and at its regular sessions, and of the recommendations made to the competent organs of the United Nations and to the Conference on Disarmament,

Recognizing that prevention of an arms race in outer space would avert a grave danger for international peace and security,

Emphasizing the paramount importance of strict compliance with existing arms limitation and disarmament agreements relevant to outer space, including bilateral agreements, and with the existing legal regime concerning the use of outer space,

Considering that wide participation in the legal regime applicable to outer space could contribute to enhancing its effectiveness,

Noting that the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, taking into account its previous efforts since its establishment in 1985 and seeking to enhance its functioning in qualitative terms, continued the examination and identification of various issues, existing agreements and existing proposals, as well as future initiatives relevant to the prevention of an arms race in outer space,³ and that this contributed to a better understanding of a number of problems and to a clearer perception of the various positions,

Noting also that there were no objections in principle in the Conference on Disarmament to the re-establishment of the Ad Hoc Committee, subject to re-examination of the mandate contained in the decision of the Conference on Disarmament of 13 February 1992,⁴

Emphasizing the mutually complementary nature of bilateral and multilateral efforts in the field of preventing an arms race in outer space, and hoping that concrete results will emerge from those efforts as soon as possible,

Convinced that further measures should be examined in the search for effective and verifiable bilateral and multilateral agreements in order to prevent an arms race in outer space, including the weaponization of outer space,

Stressing that the growing use of outer space increases the need for greater transparency and better information on the part of the international community,

Recalling in this context its previous resolutions, in particular resolutions 45/55 B of 4 December 1990, 47/51 of 9 December 1992 and 48/74 A of 16 December 1993, in which, inter alia, it reaffirmed the importance of confidence-building measures as means conducive to ensuring the attainment of the objective of the prevention of an arms race in outer space,

Conscious of the benefits of confidence- and security-building measures in the military field,

Recognizing that negotiations for the conclusion of an international agreement or agreements to prevent an arms race in outer space remain a priority task of the Ad Hoc Committee and that the concrete proposals on confidence-building measures could form an integral part of such agreements,

1. *Reaffirms* the importance and urgency of preventing an arms race in outer space and the readiness of all States to contribute to that common objective, in conformity with the provisions of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies;²

2. *Reaffirms its recognition*, as stated in the report of the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, that the legal regime applicable to outer space by itself does not guarantee the prevention of an arms race in outer space, that this legal regime plays a significant role in the prevention of an arms race in that environment, that there is a need to consolidate and reinforce that regime and enhance its effectiveness, and that it is important to comply strictly with existing agreements, both bilateral and multilateral;

3. *Emphasizes* the necessity of further measures with appropriate and effective provisions for verification to prevent an arms race in outer space;

4. *Calls upon* all States, in particular those with major space capabilities, to contribute actively to the objective of the peaceful use of outer space and of the prevention of an arms race in outer space and to refrain from actions contrary to that objective and to the relevant existing treaties in the interest of maintaining international peace and security and promoting international cooperation;

5. *Reiterates* that the Conference on Disarmament, as the single multilateral disarmament negotiating forum, has the primary role in the negotiation of a multilateral agreement or agreements, as appropriate, on the prevention of an arms race in outer space in all its aspects;

6. *Invites* the Conference on Disarmament to complete the examination and updating of the mandate contained in its decision of 13 February 1992,⁵ and to establish an ad hoc committee as early as possible during the 2001 session of the Conference;

7. *Recognizes*, in this respect, the growing convergence of views on the elaboration of measures designed to strengthen transparency, confidence and security in the peaceful uses of outer space;

8. *Urges* States conducting activities in outer space, as well as States interested in conducting such activities, to keep the Conference on Disarmament informed of the progress of bilateral and multilateral negotiations on the matter, if any, so as to facilitate its work;

9. *Decides* to include in the provisional agenda of its fifty-sixth session the item entitled "Prevention of an arms race in outer space".

TEXT:

The General Assembly,

Recalling its resolutions 50/60 of 12 December 1995 and 52/30 of 9 December 1997 on compliance with arms limitation and disarmament and non-proliferation agreements and its resolution 54/54 A of 1 December 1999 on preservation of and compliance with the Treaty on the Limitation of Anti-Ballistic Missile Systems,

Recognizing the historical role of the Treaty on the Limitation of Anti-Ballistic Missile Systems of 26 May 1972 between the United States of America and the Union of Soviet Socialist Republics¹ as a cornerstone for maintaining global peace and security and strategic stability, and reaffirming its continued validity and relevance, especially in the current international situation,

Stressing the paramount importance of full and strict compliance with the Treaty by the parties,

Recalling that the provisions of the Treaty are intended as a contribution to the creation of more favourable conditions for further negotiations on limiting strategic arms,

Mindful of the obligations of the parties to the Treaty under article VI of the Treaty on the Non-Proliferation of Nuclear Weapons,²

Concerned that the implementation of any measures undermining the purposes and provisions of the Treaty affects not only the security interests of the parties, but also those of the whole international community,

Recalling the widespread concern about the proliferation of weapons of mass destruction and their means of delivery,

1. *Calls* for continued efforts to strengthen the Treaty on the Limitation of Anti-Ballistic Missile Systems and to preserve its integrity and validity so that it remains a cornerstone in maintaining global strategic stability and world peace and in promoting further strategic nuclear arms reductions;

2. *Calls also* for renewed efforts by each of the States parties to preserve and strengthen the Treaty through full and strict compliance;

3. *Calls upon* the parties to the Treaty, in accordance with their obligations under the Treaty, to limit the deployment of anti-ballistic missile systems, to refrain from the deployment of anti-ballistic missile systems for the defence of the territory of their country, not to provide a base for such a defence and not to transfer to other States or deploy outside their national territory anti-ballistic missile systems or their components limited by the Treaty;

TEXT:

The General Assembly,

Noting its resolutions 53/77 Y of 4 December 1998 and 54/54 G of 1 December 1999,

Expressing its deep concern at the continued risk for humanity represented by the possibility that nuclear weapons could be used,

Noting the advisory opinion of the International Court of Justice, on the *Legality of the Threat or Use of Nuclear Weapons*, issued at The Hague on 8 July 1996,¹

Noting also that three States continue to operate unsafeguarded nuclear facilities and have not acceded to the Treaty on the Non-Proliferation of Nuclear Weapons, and concerned at the continued retention of the nuclear-weapons option by those three States,

Declaring that nuclear test explosions carried out in 1998 by two of the States that have not renounced the nuclear-weapons option do not in any way confer a nuclear-weapon State status or any special status whatsoever,

Noting that, despite achievements in bilateral and unilateral arms reductions, the total number of nuclear weapons deployed and stockpiled still amount to many thousands,

Welcoming the significant progress achieved in nuclear weapon reductions made unilaterally or bilaterally under the Strategic Arms Reduction Treaty (START) process, as a step towards nuclear disarmament,

Welcoming also the ratification of the Treaty on Further Reduction and Limitation of Strategic Offensive Arms (START II)² by the Russian Federation as an important step in the efforts to reduce strategic offensive weapons, and noting that completion of ratification of START II by the United States of America remains a priority,

Concerned that negotiations on nuclear arms reductions are not actively under way,

Welcoming the significant unilateral reduction measures taken by other nuclear-weapon States, including the closing down and dismantling of nuclear-weapon-related facilities,

Welcoming also the efforts of several States to cooperate in making nuclear disarmament measures irreversible, in particular through the adoption of initiatives on the verification, management and disposition of fissile material declared excess to military purposes,

Noting the declaration by the nuclear-weapon States that none of their nuclear weapons are targeted at any State,

Underlining the necessity of strict compliance by all parties with their obligations under the Treaty on the Non-Proliferation of Nuclear Weapons,³

Noting the United Nations Millennium Declaration,⁴ in which the heads of State and Government resolved to strive for the elimination of weapons of mass destruction, in particular nuclear weapons, and to keep all options open for achieving this aim, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers,

Welcoming the Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,⁵

Taking into consideration the unequivocal undertaking by the nuclear-weapon States, in the Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, to accomplish the total elimination of their nuclear arsenals leading to nuclear disarmament, to

which all States parties to the Treaty are committed under article VI of the Treaty,⁶

Underlining the need for action to achieve a world free from nuclear weapons,

Determined to pursue practical steps for systematic and progressive efforts to implement article VI of the Treaty on the Non-Proliferation of Nuclear Weapons and paragraphs 3 and 4 (c) of the decision on principles and objectives for nuclear non-proliferation and disarmament of the 1995 Review and Extension Conference of the Parties to the Treaty,⁷

1. *Agrees* on the importance and urgency of signatures and ratifications, without delay and without conditions and in accordance with constitutional processes, to achieve the early entry into force of the Comprehensive Nuclear-Test-Ban Treaty;⁸

2. *Calls* for the upholding of a moratorium on nuclear-weapon-test explosions or any other nuclear explosions pending entry into force of the above-mentioned Treaty;

3. *Agrees* on the necessity for negotiations in the Conference on Disarmament on a non-discriminatory, multilateral and internationally and effectively verifiable treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices, in accordance with the report of the Special Coordinator of 1995⁹ and the mandate contained therein, taking into consideration both nuclear disarmament and nuclear non-proliferation objectives, and urges the Conference on Disarmament to agree on a programme of work which includes the immediate commencement of negotiations on such a treaty, with a view to their conclusion within five years;

4. *Agrees also* on the necessity of establishing within the context of the Conference on Disarmament an appropriate subsidiary body with a mandate to deal with nuclear disarmament, and urges the Conference to agree on a programme of work which includes the immediate establishment of such a body;

5. *Calls* for the principle of irreversibility to apply to nuclear disarmament, nuclear and other related arms control and reduction measures;

6. *Calls also* for the early entry into force and full implementation of the Treaty on Further Reduction and Limitation of Strategic Offensive Arms (START II)² and the conclusion of START III as soon as possible, while preserving and strengthening the Treaty on the Limitation of Anti-Ballistic Missile Systems¹⁰ as a cornerstone of strategic stability and as a basis for further reductions of strategic offensive weapons, in accordance with the provisions of that Treaty;

7. *Calls further* for the completion and implementation of the Trilateral Initiative between the United States of America, the Russian Federation and the International Atomic Energy Agency;

8. *Calls* for steps to be taken by all nuclear-weapon States that would lead to nuclear disarmament in a way that promotes international stability and, based upon the principle of undiminished security for all, for:

(a) Further efforts to be made by the nuclear-weapon States to reduce their nuclear arsenals unilaterally;

(b) Increased transparency by the nuclear-weapon States with regard to nuclear weapons capabilities, and the implementation of agreements pursuant to article VI of the Treaty on the Non-Proliferation of Nuclear Weapons³ and as a voluntary confidence-building measure to support further progress on nuclear disarmament;

(c) The further reduction of non-strategic nuclear weapons, based on unilateral initiatives and as an integral part of the nuclear arms reduction and disarmament process;

(d) Concrete agreed measures to reduce further the operational status of nuclear weapons systems;

(e) A diminishing role for nuclear weapons in security policies so as to minimize the risk that these weapons will ever be used and to facilitate the process of their total elimination;

(f) The engagement, as soon as appropriate, of all the nuclear-weapon States in the process leading to the total elimination of their nuclear weapons;

9. *Calls also* for arrangements by all nuclear-weapon States to place, as soon as practicable, the fissile material designated by each of them as no longer required for military purposes under the International Atomic Energy Agency or other relevant international verification arrangements for the disposition of such material for peaceful purposes in order to ensure that such material remains permanently outside military programmes;

10. *Reaffirms* that the ultimate objective of the efforts of States in the disarmament process is general and complete disarmament under effective international control;

11. *Calls* for regular reports, within the framework of the strengthened review process for the Non-Proliferation Treaty, by all States parties on the implementation of article VI of the Treaty on the Non-Proliferation of Nuclear Weapons and paragraph 4 (c) of the decision on principles and objectives for nuclear non-proliferation and disarmament of the 1995 Review and Extension Conference of the Parties to the Treaty,⁷ and, in this regard, recalls the advisory opinion of the International Court of Justice of 8 July 1996;¹

12. *Agrees* to pursue the further development of the verification capabilities that will be required to provide assurance of compliance with nuclear disarmament agreements for the achievement and maintenance of a nuclear-weapon-free world;

13. *Calls upon* all States not yet party to the Treaty on the Non-Proliferation of Nuclear Weapons to accede to the Treaty as non-nuclear-weapon States, promptly and without condition, in particular those States that operate unsafeguarded nuclear facilities, and also calls upon those States to bring into force the required comprehensive safeguards agreements, together with additional protocols, consistent with the Model Protocol Additional to the Agreement(s) between State(s) and the International Atomic Energy Agency for the Application of Safeguards approved by the Board of Governors of the International Atomic Energy Agency on 15 May 1997,¹¹ for ensuring nuclear non-proliferation, and to reverse clearly and urgently any policies to pursue any nuclear weapons development or deployment and refrain from any action that could undermine regional and international peace and security and the efforts of the international community towards nuclear disarmament and the prevention of nuclear weapons proliferation;

14. *Calls upon* those States that have not yet done so to conclude full-scope safeguards agreements with the International Atomic Energy Agency and to conclude additional protocols to their safeguards agreement on the basis of the Model Protocol;

15. *Notes* the paramount importance of effective physical protection of all nuclear material, and calls upon all States to maintain the highest possible standards of security and physical protection of nuclear materials;

16. *Notes also* that the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons agreed that legally binding security assurances by the five nuclear-weapon States to the non-nuclear-weapon States parties to the Treaty strengthen the nuclear non-proliferation regime, and that it called upon its Preparatory Committee to make recommendations on this

issue to the 2005 Review Conference;¹²

17. *Reaffirms* the conviction that the establishment of internationally recognized nuclear-weapon-free zones on the basis of arrangements freely arrived at among the States of the region concerned enhances global and regional peace and security, strengthens the nuclear non-proliferation regime and contributes towards realizing the objective of nuclear disarmament, and supports proposals for the establishment of nuclear-weapon-free zones where they do not yet exist, such as in the Middle East and South Asia;

18. *Affirms* that a nuclear-weapon-free world will ultimately require the underpinning of a universal and multilaterally negotiated legally binding instrument or a framework encompassing a mutually reinforcing set of instruments;

19. *Acknowledges* the report of the Secretary-General on the implementation of General Assembly resolution 54/54 G,¹³ and requests him, within existing resources, to prepare a report on the implementation of the present resolution;

20. *Decides* to include in the provisional agenda of its fifty-sixth session the item entitled "Towards a nuclear-weapon-free world: the need for a new agenda", and to review the implementation of the present resolution at that session.

TEXT:

The General Assembly,

Desirous of stressing the urgency of promoting concerted international efforts at disarmament and non-proliferation, especially in the field of nuclear weapons and other weapons of mass destruction and their delivery systems, with a view to strengthening international security and enhancing sustainable economic and social development,

Conscious of the need, more than a decade after the end of the cold war and at the start of the twenty-first century, to combat the negative effects of cultures of violence and complacency in the face of current dangers in this field through long-term programmes of education and training,

1. *Requests* the Secretary-General to prepare, with the assistance of a group of qualified governmental experts, a study on disarmament and non-proliferation, that would have the following aims:

(a) To define contemporary disarmament and non-proliferation education and training, taking into account the need to promote a culture of non-violence and peace;

(b) To assess the current situation of disarmament and non-proliferation education and training at the primary, secondary, university and postgraduate levels of education, in all regions of the world;

(c) To recommend ways to promote education and training in disarmament and non-proliferation at all levels of formal and informal education, in particular the training of educators, parliamentarians, municipal leaders, military officers and government officials;

(d) To examine ways to utilize more fully evolving pedagogic methods, particularly the revolution in information and communications technology, including distance learning, to enhance efforts in disarmament education and training at all levels, in the developed and the developing world;

(e) To recommend ways in which organizations of the United Nations system with special competence in disarmament or education or both can harmonize and coordinate their efforts in disarmament and non-proliferation education;

(f) To devise ways to introduce disarmament and non-proliferation education into post-conflict situations as a contribution to peace-building; and considers that the group of experts should invite representatives of organizations of the United Nations system with special competence in disarmament or education or both to participate in its work, and should also invite university educators, disarmament and peace-related institutes and non-governmental organizations that have special qualifications in education and training or in the field of disarmament and non-proliferation to make written and oral presentations to it;

2. *Also requests* the Secretary-General to report to the General Assembly at its fifty-seventh session on this question.

Emphasizing the need to advance efforts towards wider cooperation and better coordination in the struggle against the stockpiling, proliferation and widespread use of small arms through the common understanding reached at the meeting on small arms held at Oslo on 13 and 14 July 1998⁴ and the Brussels Call for Action adopted by the International Conference on Sustainable Disarmament for Sustainable Development, held at Brussels on 12 and 13 October 1998,⁵

6. *Expresses its full support* for the appeal launched by the Assembly of Heads of State and Government of the Organization of African Unity at its thirty-fifth ordinary session for a coordinated African approach, under the auspices of the Organization of African Unity, to the problems posed by the proliferation, illicit circulation of and traffic in small arms, bearing in mind the experiences and activities of the various regions in this regard;⁷

TEXT:

The General Assembly,

Recalling its resolutions 51/45 N of 10 December 1996, 52/38 G of 9 December 1997, 53/77 M of 4 December 1998 and 54/54 H of 1 December 1999,

Convinced that a comprehensive and integrated approach towards certain practical disarmament measures, such as, inter alia, arms control, particularly with regard to small arms and light weapons, confidence-building measures, demobilization and reintegration of former combatants, demining and conversion, often is a prerequisite to maintaining and consolidating peace and security and thus provides a basis for effective rehabilitation and social and economic development in areas that have suffered from conflict,

Noting with satisfaction that the international community is more than ever aware of the importance of such practical disarmament measures, especially with regard to the growing problems arising from the excessive and destabilizing accumulation and proliferation of small arms and light weapons, which pose a threat to peace and security and reduce the prospects for economic development in many regions, particularly in post-conflict situations,

Stressing that further efforts are needed in order to develop and effectively implement programmes of practical disarmament in affected areas,

Taking note of the report of the Secretary-General prepared with the assistance of the Group of Governmental Experts on Small Arms,¹ and in particular the recommendations contained therein, as an

important contribution to the consolidation of the peace process through practical disarmament measures,

Taking into account the deliberations at the 2000 substantive session of the Disarmament Commission in Working Group II on agenda item 5, entitled “Practical confidence-building measures in the field of conventional arms”,² and encouraging the Disarmament Commission to continue its efforts aimed at the identification of such measures,

1. *Stresses*, in the context of the present resolution, the particular relevance of the “Guidelines on conventional arms control/limitation and disarmament, with particular emphasis on consolidation of peace in the context of General Assembly resolution 51/45 N”,³ adopted by the Disarmament Commission by consensus at its 1999 substantive session;

2. *Takes note* of the report of the Secretary-General on the consolidation of peace through practical disarmament measures,⁴ submitted pursuant to resolution 51/45 N, and once again encourages Member States, as well as regional arrangements and agencies, to lend their support to the implementation of recommendations contained therein;

3. *Welcomes* the activities undertaken by the group of interested States that was formed in New York in March 1998, and invites the Group to continue to analyse lessons learned from previous disarmament and peace-building projects, as well as to promote new practical disarmament measures to consolidate peace, especially as undertaken or designed by affected States themselves;

4. *Encourages* Member States, including the group of interested States, to lend their support to the Secretary-General in responding to requests by Member States to collect and destroy small arms and light weapons in post-conflict situations;

5. *Decides* to include in the provisional agenda of its fifty-sixth session the item entitled “Consolidation of peace through practical disarmament measures”.

Welcoming the adoption by the Disarmament Commission at its 1999 substantive session of a text entitled "Establishment of nuclear-weapon-free zones on the basis of arrangements freely arrived at among the States of the region concerned",¹

Determined to pursue the total elimination of nuclear weapons,

Determined also to continue to contribute to the prevention of the proliferation of nuclear weapons in all its aspects and to the process of general and complete disarmament under strict and effective international control, in particular in the field of nuclear weapons and other weapons of mass destruction, with a view to strengthening international peace and security, in accordance with the purposes and principles of the Charter of the United Nations,

The General Assembly,

Recalling its resolutions 49/75 I of 15 December 1994, 50/70 F of 12 December 1995, 51/45 C of 10 December 1996, 52/38 F of 9 December 1997, 53/77 AA of 4 December 1998 and 54/54/ U of 1 December 1999,

Recalling also that, there being a consensus to do so in each case, three special sessions of the General Assembly devoted to disarmament were held in 1978, 1982 and 1988, respectively,

Bearing in mind the Final Document of the Tenth Special Session of the General Assembly,¹ adopted by consensus at the first special session devoted to disarmament, which included the Declaration, the Programme of Action and the Machinery for disarmament,

Bearing in mind also the objective of general and complete disarmament under effective international control,

Taking note of paragraph 145 of the Final Document of the Twelfth Conference of Heads of State or Government of Non-Aligned Countries, held at Durban, South Africa, from 29 August to 3 September 1998,² which supported the convening of the fourth special session of the General Assembly devoted to

disarmament, which would offer an opportunity to review, from a perspective more in tune with the current international situation, the most critical aspects of the process of disarmament and to mobilize the international community and public opinion in favour of the elimination of nuclear and other weapons of mass destruction and of the control and reduction of conventional weapons,

Taking note also of the report of the 1999 substantive session of the Disarmament Commission³ and of the fact that no consensus was reached on the item entitled "Fourth special session of the General Assembly devoted to disarmament",

Desiring to build upon the substantive exchange of views on the fourth special session of the General Assembly devoted to disarmament during the 1999 substantive session of the Disarmament Commission,

Reiterating its conviction that a special session of the General Assembly devoted to disarmament can set the future course of action in the field of disarmament, arms control and related international security matters,

Emphasizing the importance of multilateralism in the process of disarmament, arms control and related international security matters,

Noting that, with the recent accomplishments made by the international community in the field of weapons of mass destruction as well as conventional arms, the following years would be opportune for the international community to start the process of reviewing the state of affairs in the entire field of disarmament and arms control in the post-cold-war era,

Taking note of the report of the Secretary-General⁴ regarding the views of States Members of the United Nations on the objectives, agenda and timing of the fourth special session of the General Assembly devoted to disarmament,

The General Assembly,

Bearing in mind that the use of nuclear weapons poses the most serious threat to mankind and to the survival of civilization,

Reaffirming that any use or threat of use of nuclear weapons would constitute a violation of the Charter of the United Nations,

Convinced that the proliferation of nuclear weapons in all its aspects would seriously enhance the danger of nuclear war,

Convinced also that nuclear disarmament and the complete elimination of nuclear weapons are essential to remove the danger of nuclear war,

Considering that, until nuclear weapons cease to exist, it is imperative on the part of the nuclear-weapon States to adopt measures that assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

Considering also that the hair-trigger alert of nuclear weapons carries unacceptable risks of unintentional or accidental use of nuclear weapons, which would have catastrophic consequences for all mankind,

Emphasizing the imperative need to adopt measures to avoid accidental, unauthorized or unexplained incidents arising from computer anomaly or other technical malfunctions,

Conscious that limited steps relating to detargeting have been taken by the nuclear-weapon States and that further practical, realistic and mutually reinforcing steps are necessary to contribute to the improvement in the international climate for negotiations leading to the elimination of nuclear weapons,

Mindful that reduction of tensions brought about by a change in nuclear doctrines would positively impact on international peace and security and improve the conditions for the further reduction and the elimination of nuclear weapons,

Reiterating the highest priority accorded to nuclear disarmament in the Final Document of the Tenth Special Session of the General Assembly¹ and by the international community,

Recalling that in the advisory opinion of the International Court of Justice on the *Legality of the Threat or Use of Nuclear Weapons*² it is stated that there exists an obligation for all States to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

Welcoming the call in the United Nations Millennium Declaration³ to seek to eliminate the dangers posed by weapons of mass destruction and the resolve to strive for the elimination of weapons of mass destruction, particularly nuclear weapons, including the possibility of convening an international

conference to identify ways of eliminating nuclear dangers,

1. *Calls* for a review of nuclear doctrines and, in this context, immediate and urgent steps to reduce the risks of unintentional and accidental use of nuclear weapons;
2. *Requests* the five nuclear-weapon States to take measures towards the implementation of paragraph 1 of the present resolution;
3. *Calls upon* Member States to take the necessary measures to prevent the proliferation of nuclear weapons in all its aspects and to promote nuclear disarmament, with the objective of eliminating nuclear weapons;
4. *Takes note* of the report⁴ prepared by the Advisory Board on Disarmament Matters and submitted by the Secretary-General in pursuance of paragraph 4 of General Assembly resolution 54/54 K of 1 December 1999, including the need for the Board to continue its discussions on the subject;
5. *Requests* the Secretary-General, within existing resources, to continue to seek inputs from the Advisory Board on Disarmament Matters on information with regard to specific measures that would significantly reduce the risk of nuclear war, including the proposal contained in the United Nations Millennium Declaration for convening an international conference to identify ways of eliminating nuclear dangers, and to report thereon to the General Assembly at its fifty-sixth session;
6. *Decides* to include in the provisional agenda of the fifty-sixth session the item entitled "Reducing nuclear danger".

The General Assembly,

Recalling its resolutions 45/58 P of 4 December 1990, 46/36 I of 6 December 1991, 47/52 J of 9 December 1992, 48/75 I of 16 December 1993, 49/75 N of 15 December 1994, 50/70 K of 12 December 1995, 51/45 K of 10 December 1996, 52/38 P of 9 December 1997, 53/77 O of 4 December 1998 and 54/54 N of 1 December 1999 on regional disarmament,

Believing that the efforts of the international community to move towards the ideal of general and complete disarmament are guided by the inherent human desire for genuine peace and security, the elimination of the danger of war and the release of economic, intellectual and other resources for peaceful pursuits,

Affirming the abiding commitment of all States to the purposes and principles enshrined in the Charter of the United Nations in the conduct of their international relations,

Noting that essential guidelines for progress towards general and complete disarmament were adopted at the tenth special session of the General Assembly,¹

Taking note of the guidelines and recommendations for regional approaches to disarmament within the context of global security adopted by the Disarmament Commission at its 1993 substantive session,²

Welcoming the prospects of genuine progress in the field of disarmament engendered in recent years as a result of negotiations between the two super-Powers,

Taking note of the recent proposals for disarmament at the regional and subregional levels,

Recognizing the importance of confidence-building measures for regional and international peace and security,

Convinced that endeavours by countries to promote regional disarmament, taking into account the specific characteristics of each region and in accordance with the principle of undiminished security at the lowest level of armaments, would enhance the security of all States and would thus contribute to international peace and security by reducing the risk of regional conflicts,

1. *Stresses* that sustained efforts are needed, within the framework of the Conference on Disarmament and under the umbrella of the United Nations, to make progress on the entire range of disarmament issues;

2. *Affirms* that global and regional approaches to disarmament complement each other and should therefore be pursued simultaneously to promote regional and international peace and security;

3. *Calls upon* States to conclude agreements, wherever possible, for nuclear non-proliferation, disarmament and confidence-building measures at the regional and subregional levels;

4. *Welcomes* the initiatives towards disarmament, nuclear non-proliferation and security undertaken by some countries at the regional and subregional levels;

5. *Supports and encourages* efforts aimed at promoting confidence-building measures at the regional and subregional levels in order to ease regional tensions and to further disarmament and nuclear non-proliferation measures at the regional and subregional levels;

6. *Decides* to include in the provisional agenda of its fifty-sixth session the item entitled "Regional disarmament".

The General Assembly,
Recalling its resolutions 48/75 J of 16 December 1993, 49/75 O of 15 December 1994, 50/70 L of 12 December 1995, 51/45 Q of 10 December 1996, 52/38 Q of 9 December 1997, 53/77 P of 4 December 1998 and 54/54 M of 1 December 1999,

Recognizing the crucial role of conventional arms control in promoting regional and international peace and security,

Convinced that conventional arms control needs to be pursued primarily in the regional and subregional contexts since most threats to peace and security in the post-cold-war era arise mainly among States located in the same region or subregion,

Aware that the preservation of a balance in the defence capabilities of States at the lowest level of armaments would contribute to peace and stability and should be a prime objective of conventional arms control,

Desirous of promoting agreements to strengthen regional peace and security at the lowest possible level of armaments and military forces,

Noting with particular interest the initiatives taken in this regard in different regions of the world, in particular the commencement of consultations among a number of Latin American countries and the proposals for conventional arms control made in the context of South Asia, and recognizing, in the context of this subject, the relevance and value of the Treaty on Conventional Armed Forces in Europe,¹ which is a cornerstone of European security,

Believing that militarily significant States and States with larger military capabilities have a special responsibility in promoting such agreements for regional security,

Believing also that an important objective of conventional arms control in regions of tension should be to prevent the possibility of military attack launched by surprise and to avoid aggression,

1. *Decides* to give urgent consideration to the issues involved in conventional arms control at the regional and subregional levels;

2. *Requests* the Conference on Disarmament, as a first step, to consider the formulation of principles that can serve as a framework for regional agreements on conventional arms control, and looks forward to a report of the Conference on this subject;

3. *Decides* to include in the provisional agenda of its fifty-sixth session the item entitled "Conventional arms control at the regional and subregional levels".

TEXT:

The General Assembly,

Recalling its resolution 54/54 R of 1 December 1999,
Expressing its appreciation to the Secretary-General for his report,¹

Recognizing the human suffering caused by illicit trafficking in small arms and that Governments bear the responsibility of intensifying their efforts by developing an understanding of the issues and practical ways of addressing the problem,

Bearing in mind the interface among violence, criminality, drug trafficking, the illicit trade in

diamonds, terrorism and illicit trafficking in small arms and light weapons,

Stressing the importance of ongoing efforts to elaborate an international convention against transnational organized crime, including a protocol to combat the illicit manufacturing of and illicit trafficking in firearms, their parts and components and ammunition, within the framework of the Commission on Crime Prevention and Criminal Justice,

Convinced of the importance of national, regional and international measures to combat illicit trafficking in and illicit circulation of small arms and light weapons, including those suited to indigenous regional approaches,

Welcoming in this regard the decision by the Council of Ministers of the Organization of African Unity, to convene an African Ministerial Conference on the illicit proliferation, circulation and trafficking of small arms and light weapons at Bamako in November 2000, the establishment of the Consultative Committee by the States parties to the Inter-American Convention against the Illicit Manufacturing of and Trafficking in Firearms, Ammunition, Explosives and Other Related Materials, the decision by the Council of Ministers of the Southern African Development Community to conclude its negotiations on a protocol on the control of firearms, ammunition and other related materials in the region of the Southern African Development Community, the decision by the States members of the Economic Community of West African States to implement their agreement on a moratorium on the importation, exportation and manufacture of small arms and light weapons in West Africa,² and the adoption by the European Union of the Programme for Preventing and Combating Illicit Trafficking in Conventional Arms and the other initiatives it has taken, such as the Joint Action on Small Arms³ that has been endorsed by several Member States not members of the European Union,

Noting in this regard the commitments made by the Foreign Ministers of the Group of Eight industrialized countries, contained in the Miyazaki Initiatives for Conflict Prevention,⁴ the Foreign Ministers of the Euro-Atlantic Partnership Council, the members of the Stability Pact for South-Eastern Europe in its Joint Declaration on Responsible Arms Transfers, the members of the Organization for Security and Cooperation in Europe at the Istanbul Summit, the members of the South Pacific Forum in the Nadi Framework of principles, and by participants in the Great Lakes Region and Horn of Africa Conference on the Proliferation of Small Arms in the Nairobi Declaration on the Problem of the Proliferation of Illicit Small Arms and Light Weapons in the Great Lakes Region and the Horn of Africa,

Noting also that several regional and subregional workshops, seminars and conferences were held and that individual States have undertaken initiatives to promote measures to combat illicit trafficking in and illicit circulation of small arms and light weapons,

Welcoming the assistance provided by States in support of bilateral, regional and multilateral initiatives aimed at addressing illicit trafficking in small arms and light weapons and, in this regard, welcoming also the establishment of the United Nations Development Programme Trust Fund for Support to Prevention and Reduction of the Proliferation of Small Arms, the United Nations Trust Fund for the Consolidation of Peace through Practical Disarmament Measures and the United Nations Global and Regional Disarmament Trust Fund,

Welcoming also the preparatory process for the 2001 United Nations Conference on the Illicit Trade in Small Arms and Light Weapons in All Its Aspects, bearing in mind the recommendations made by the Secretary-General in his report on small arms,⁵ prepared with the assistance of the United Nations Group of Governmental Experts on Small Arms, as well as the views of Member States on the objectives, scope, agenda, dates and venue of the Conference,⁶

Recalling the presidential statement issued by the Security Council on 24 September 1999⁷ and its request therein to the Secretary-General to develop, with the assistance of technical experts and the support of Member States, a reference manual for use in the field on ecologically safe methods of

weapons, ammunition and explosives destruction in order better to enable Member States to ensure the disposal of weapons, ammunition and explosives voluntarily surrendered by civilians or retrieved from former combatants,

Considering that the United Nations could, through a coordinated approach, collect, share and disseminate information to Member States on useful and successful practices to prevent the illicit trafficking in small arms and light weapons, and mindful of the role of the mechanism for coordinating action on small arms in this regard,

Recalling that the United Nations Regional Centre for Peace and Disarmament in Africa and the United Nations Regional Centre for Peace, Disarmament and Development in Latin America and the Caribbean, respectively, held workshops on illicit trafficking in small arms at Lomé and Lima in 1999, and noting with appreciation the regional seminar held at Jakarta on 3 and 4 May 2000 under the auspices of the United Nations Regional Centre for Peace and Security in Asia and the Pacific,

Mindful of the impact of surplus small arms and light weapons on the illicit trade in these weapons, and welcoming the practical measures taken by States to destroy surplus weapons and confiscated or collected weapons, in accordance with the recommendations of the Secretary-General in his report on small arms,

1. *Requests* the Secretary-General to continue his broad-based consultations, within available financial resources and with any other assistance provided by States in a position to do so, and to provide the 2001 United Nations Conference on the Illicit Trade in Small Arms and Light Weapons in All Its Aspects with information on the magnitude and scope of illicit trafficking in small arms and light weapons, measures to combat illicit trafficking in and circulation of small arms and light weapons, and the role of the United Nations in collecting, collating, sharing and disseminating information on illicit trafficking in small arms and light weapons;

2. *Encourages* States to promote regional and subregional initiatives and requests the Secretary-General, within available financial resources, and those States in a position to do so, to assist States in undertaking such initiatives to address the illicit trafficking in small arms and light weapons in affected regions, and invites the Secretary-General to utilize these initiatives as part of his consultations;

3. *Encourages also* States in a position to do so to take appropriate national measures to destroy surplus, confiscated or collected small arms and light weapons, and to provide, on a voluntary basis, information to the Secretary-General on the types and quantities of arms destroyed as well as the methods of their destruction, and requests the Secretary-General to circulate this information annually to all States;

4. *Invites* States in a position to do so to continue to provide assistance, bilaterally, regionally and through multilateral channels, such as the United Nations, in support of measures associated with combating illicit trafficking in small arms and light weapons, including assistance, in response to requests by States, in collecting and destroying surplus, confiscated or collected small arms and light weapons;

5. *Invites* the Secretary-General to provide advisory and financial assistance, within available financial resources and with any other assistance provided by States in a position to do so, in response to requests by States, in support of measures associated with combating illicit trafficking in small arms and light weapons, including assistance in collecting and destroying surplus, confiscated or collected small arms and light weapons;

6. *Requests* the Secretary-General to report to the General Assembly at its fifty-sixth session on the implementation of the present resolution;

Recognizing that the enhancement of international peace and security and the promotion of nuclear disarmament mutually complement and strengthen each other,

Reaffirming the crucial importance of the Treaty on the Non-Proliferation of Nuclear Weapons¹ as the cornerstone of the international regime for nuclear non-proliferation and as an essential foundation for the pursuit of nuclear disarmament,

Recalling the progress made by the nuclear-weapon States in the reduction of their nuclear weapons unilaterally or through negotiation, and the efforts made towards nuclear disarmament and non-proliferation by the international community,

Reaffirming the conviction that further advancement in nuclear disarmament will contribute to consolidating the international regime for nuclear non-proliferation, ensuring international peace and security,

Bearing in mind the recent nuclear tests, as well as the regional situations, which pose a challenge to international efforts to strengthen the global regime of non-proliferation of nuclear weapons,

Taking note of the report of the Tokyo Forum for Nuclear Non-Proliferation and Disarmament,² bearing in mind the various views of Member States on the report,

Welcoming the successful adoption of the Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,³ which contains, inter alia, an unequivocal undertaking by the nuclear-weapon States to accomplish the total elimination of their nuclear arsenals, leading to nuclear disarmament to which all States parties are committed under article VI of the Treaty on the Non-Proliferation of Nuclear Weapons,

1. *Reaffirms* the importance of achieving the universality of the Treaty on the Non-Proliferation of Nuclear Weapons,¹ and calls upon States not parties to the Treaty to accede to it as non-nuclear-weapon States without delay and without conditions;

2. *Also reaffirms* the importance for all States parties to the Treaty on the Non-Proliferation of Nuclear Weapons, to fulfil their obligations under the Treaty;

3. *Stresses* the central importance of taking the following practical steps for the systematic and progressive effort to implement article VI of the Treaty on the Non-Proliferation of Nuclear Weapons, and paragraphs 3 and 4 (c) of the decision on principles and objectives for nuclear non-proliferation and disarmament of the 1995 Review and Extension Conference of the Parties to the Treaty:⁴

(a) The early signature and ratification of the Comprehensive Nuclear-Test-Ban Treaty⁵ by all States, especially by those States whose ratification is required for its entry into force, with a view to its early entry into force before 2003, as well as a moratorium on nuclear-weapon-test explosions or any other nuclear explosions pending its entry into force;

(b) The immediate commencement of negotiations in the Conference on Disarmament and the conclusion as early as possible before 2005 of a non-discriminatory, multilateral and internationally and effectively verifiable treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices, in accordance with the report of the Special Coordinator of 1995⁶ and the mandate contained therein, taking into consideration both nuclear disarmament and non-proliferation objectives and, pending its entry into force, a moratorium on the production of fissile material for nuclear weapons;

(c) The establishment of an appropriate subsidiary body of the Conference on Disarmament in the context of establishing a programme of work, with a mandate to deal with nuclear disarmament;

(d) The inclusion of the principle of irreversibility to apply to nuclear disarmament, nuclear and other related arms control and reduction measures;

(e) The early entry into force and full implementation of the Treaty on Further Reduction and Limitation of Strategic Offensive Arms (START II)⁷ and the conclusion of START III as soon as possible, while preserving and strengthening the Treaty on the Limitation of Anti-Ballistic Missile Systems of 26 May 1972 between the United States of America and the Union of Soviet Socialist Republics⁸ as a cornerstone of strategic stability and as a basis for further reductions of strategic offensive weapons, in accordance with its provisions;

(f) Steps by all nuclear-weapon States leading to nuclear disarmament in a way that promotes international stability, and based on the principle of undiminished security for all:

(i) Further efforts by all nuclear-weapon States to continue to reduce their nuclear arsenals, unilaterally or through negotiation;

(ii) Increased transparency by the nuclear-weapon States with regard to the nuclear weapons capabilities and the implementation of agreements pursuant to article VI of the Treaty on the Non-Proliferation of Nuclear Weapons and as voluntary confidence-building measures to support further progress in nuclear disarmament;

(iii) The further reduction of non-strategic nuclear weapons, based on unilateral initiatives and as an integral part of the nuclear arms reduction and disarmament process;

(iv) Concrete agreed measures to further reduce the operational status of nuclear weapons systems;

(v) A diminishing role for nuclear weapons in security policies so as to minimize the risk that these weapons will ever be used and to facilitate the process of their total elimination;

(vi) The engagement, as soon as appropriate, of all nuclear-weapon States in the process leading to the total elimination of their nuclear weapons;

4. *Recognizes* that the realization of a world free of nuclear weapons will require further steps by the nuclear-weapon States, including:

(a) The continuation of the nuclear disarmament process beyond START III;

(b) Deeper reductions by all nuclear-weapon States, unilaterally or through negotiation, in nuclear weapons in the process of working towards their elimination;

5. *Invites* the nuclear-weapon States to keep the States Members of the United Nations duly informed of the progress or efforts made towards nuclear disarmament;

6. *Welcomes* the ongoing efforts in the dismantlement of nuclear weapons, notes the importance of the safe and effective management of the resultant fissile materials and calls for arrangements by all nuclear-weapon States to place, as soon as practicable, the fissile material designated by each of them as no longer required for military purposes under the International Atomic Energy Agency or other relevant international verification arrangements for the disposition of such material for peaceful purposes in order to ensure that such material remains permanently outside military programmes;

7. *Stresses* the importance of further development of the verification capabilities, including International Atomic Energy Agency safeguards, that will be required to provide assurance of compliance with nuclear disarmament agreements for the achievement and maintenance of a nuclear-weapon-free world;

8. *Calls upon* all States to redouble their efforts to prevent the proliferation of nuclear and other weapons of mass destruction, including their means of delivery, confirming and strengthening, if necessary, their policies not to transfer equipment, materials or technology that could contribute to the proliferation of those weapons;

9. *Also calls upon* all States to maintain the highest possible standards of security, safe custody, effective control and physical protection of all materials that could contribute to the proliferation of weapons of mass destruction;

10. *Stresses* the importance of the Model Protocol Additional to the Agreement(s) between State(s) and the International Atomic Energy Agency for the Application of Safeguards⁹ with a view to enhancing nuclear non-proliferation, and encourages all States which have not done so to conclude an additional protocol with the International Atomic Energy Agency as soon as possible;

11. Welcomes the adoption by the General Conference of the International Atomic Energy Agency on 22 September 2000 of resolution GC(44)/RES/19, which contains elements of a plan of action to promote and facilitate the conclusion and entry into force of safeguards agreements and additional protocols, and calls for the early and full implementation of that resolution;

12. Encourages the constructive role played by civil society in promoting nuclear non-proliferation and nuclear disarmament.

The General Assembly,

Recalling its resolution 49/75 E of 15 December 1994 on a step-by-step reduction of the nuclear threat, and its resolutions 50/70 P of 12 December 1995, 51/45 O of 10 December 1996, 52/38 L of 9

December 1997, 53/77 X of 4 December 1998 and 54/54 P of 1 December 1999 on nuclear disarmament,

Reaffirming the commitment of the international community to the goal of the total elimination of nuclear weapons and the establishment of a nuclear-weapon-free world,

Bearing in mind that the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction of 1972¹ and the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction of 1993² have already established legal regimes on the complete prohibition of biological and chemical weapons, respectively, and determined to achieve a nuclear weapons convention on the prohibition of the development, testing, production, stockpiling, loan, transfer, use and threat of use of nuclear weapons and on their destruction, and to conclude such an international convention at an early date,

Recognizing that there now exist conditions for the establishment of a world free of nuclear weapons;

Bearing in mind paragraph 50 of the Final Document of the Tenth Special Session of the General Assembly,³ the first special session devoted to disarmament, calling for the urgent negotiation of agreements for the cessation of the qualitative improvement and development of nuclear-weapon systems, and for a comprehensive and phased programme with agreed time-frames, wherever feasible, for the progressive and balanced reduction of nuclear weapons and their means of delivery, leading to their ultimate and complete elimination at the earliest possible time,

Noting the reiteration by the States parties to the Treaty on the Non-Proliferation of Nuclear Weapons⁴ of their conviction that the Treaty is a cornerstone of nuclear non-proliferation and nuclear disarmament and the reaffirmation by the States parties of the importance of the decision on strengthening the review process for the Treaty,⁵ the decision on principles and objectives for nuclear non-proliferation and disarmament,⁵ the decision on the extension of the Treaty⁵ and the resolution on the Middle East,⁵ adopted by the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,

Reiterating the highest priority accorded to nuclear disarmament in the Final Document of the Tenth Special Session of the General Assembly and by the international community,

Recognizing that the Comprehensive Nuclear-Test-Ban Treaty⁶ and any proposed treaty on fissile material for nuclear weapons or other nuclear explosive devices must constitute disarmament measures, and not only non-proliferation measures,

Welcoming the entry into force of the Treaty on the Reduction and Limitation of Strategic Offensive Arms (START I),⁷ to which Belarus, Kazakhstan, the Russian Federation, Ukraine and the United States of America are States parties,

Welcoming also the ratification of the Treaty on Further Reduction and Limitation of Strategic Offensive Arms (START II)⁸ by the Russian Federation and looking forward to its early entry into force and its full implementation and to an early commencement of START III negotiations,

Noting with appreciation the unilateral measures by the nuclear-weapon States for nuclear arms limitation, and encouraging them to take further such measures,

Recognizing the complementarity of bilateral, plurilateral and multilateral negotiations on nuclear disarmament, and that bilateral negotiations can never replace multilateral negotiations in this respect,

Noting the support expressed in the Conference on Disarmament and in the General Assembly for

the elaboration of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, and the multilateral efforts in the Conference on Disarmament to reach agreement on such an international convention at an early date,

Recalling the advisory opinion of the International Court of Justice on the *Legality of the Threat or Use of Nuclear Weapons*, issued on 8 July 1996,⁹ and welcoming the unanimous reaffirmation by all Judges of the Court that there exists an obligation for all States to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

Mindful of paragraph 114 and other relevant recommendations in the Final Document of the Twelfth Conference of Heads of State or Government of the Non-Aligned Countries, held at Durban, South Africa, from 29 August to 3 September 1998,¹⁰ calling upon the Conference on Disarmament to establish, on a priority basis, an ad hoc committee to commence negotiations in 1998 on a phased programme of nuclear disarmament and for the eventual elimination of nuclear weapons with a specified framework of time,

Recalling paragraph 72 of the Final Document of the Thirteenth Ministerial Conference of the Movement of Non-Aligned Countries, held at Cartagena on 8 and 9 April 2000,¹¹

1. *Recognizes* that, in view of recent political developments, the time is now opportune for all the nuclear-weapon States to take effective disarmament measures with a view to the elimination of these weapons;

2. *Also recognizes* that there is a genuine need to diminish the role of nuclear weapons in security policies to minimize the risk that these weapons will ever be used and to facilitate the process of their total elimination;

3. *Urges* the nuclear-weapon States to stop immediately the qualitative improvement, development, production and stockpiling of nuclear warheads and their delivery systems;

4. *Also urges* the nuclear-weapon States, as an interim measure, to de-alert and deactivate immediately their nuclear weapons and to take other concrete measures to further reduce the operational status of their nuclear weapon systems;

5. *Reiterates its call upon* the nuclear-weapon States to undertake the step-by-step reduction of the nuclear threat and to carry out effective nuclear disarmament measures with a view to the total elimination of these weapons;

6. *Calls upon* the nuclear-weapon States, pending the achievement of the total elimination of nuclear weapons, to agree on an internationally and legally binding instrument on the joint undertaking not to be the first to use nuclear weapons, and calls upon all States to conclude an internationally and legally binding instrument on security assurances of non-use and non-threat of use of nuclear weapons against non-nuclear-weapon States;

7. *Urges* the nuclear-weapon States to commence plurilateral negotiations among themselves at an appropriate stage on further deep reductions of nuclear weapons as an effective measure of nuclear disarmament;

8. *Underlines* the importance of applying the principle of irreversibility to the process of nuclear disarmament, nuclear and other related arms control and reduction measures;

9. *Welcomes* the positive outcome of the 2000 Review Conference of the States Parties to the Treaty on the Non-Proliferation of Nuclear Weapons and the unequivocal undertaking by the nuclear-

weapon States, in the Final Document of the Conference, to accomplish the total elimination of their nuclear arsenals leading to nuclear disarmament, to which all States parties are committed under article VI of the Treaty,¹² and the reaffirmation by the States parties that the total elimination of nuclear weapons is the only absolute guarantee against the use or threat of use of nuclear weapons,¹³ and calls for the full and effective implementation of the steps set out in the Final Document;

10. *Calls* for the immediate commencement of negotiations in the Conference on Disarmament, on a non-discriminatory, multilateral and internationally and effectively verifiable treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices on the basis of the report of the Special Coordinator¹⁴ and the mandate contained therein;

11. *Urges* the Conference on Disarmament to agree on a programme of work which includes the immediate commencement of negotiations on such a treaty with a view to their conclusion within five years;

12. *Calls* for the conclusion of an international legal instrument or instruments on adequate security assurances to non-nuclear-weapon States;

13. *Calls* for the early entry into force and strict observance of the Comprehensive Nuclear-Test-Ban Treaty;

14. *Expresses its regret* that the Conference on Disarmament was unable to establish an ad hoc committee on nuclear disarmament at its 2000 session, as called for in General Assembly resolution 54/54 P;

15. *Reiterates its call upon* the Conference on Disarmament to establish, on a priority basis, an ad hoc committee to deal with nuclear disarmament early in 2001 and to commence negotiations on a phased programme of nuclear disarmament leading to the eventual elimination of nuclear weapons;

16. *Calls* for the convening of an international conference on nuclear disarmament in all its aspects at an early date to identify and deal with concrete measures of nuclear disarmament;

17. *Requests* the Secretary-General to submit to the General Assembly at its fifty-sixth session a report on the implementation of the present resolution;

18. *Decides* to include in the provisional agenda of its fifty-sixth session the item entitled "Nuclear disarmament".

TEXT:

The General Assembly,

Recalling its resolution 54/54 B of 1 December 1999,

Reaffirming its determination to put an end to the suffering and casualties caused by anti-personnel mines, which kill or maim hundreds of people every week, mostly innocent and defenceless civilians and especially children, obstruct economic development and reconstruction, inhibit the repatriation of refugees and internally displaced persons, and have other severe consequences for years after emplacement,

Believing it necessary to do the utmost to contribute in an efficient and coordinated manner to facing the challenge of removing anti-personnel mines placed throughout the world, and to assure their destruction,

Wishing to do the utmost in ensuring assistance for the care and rehabilitation, including the social and economic reintegration, of mine victims,

Welcoming the entry into force on 1 March 1999 of the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-personnel Mines and on Their Destruction,¹ and noting with

satisfaction the work undertaken to implement the Convention and the substantial progress made towards addressing the global landmine problem,

Recalling the First Meeting of the States Parties to the Convention, held at Maputo from 3 to 7 May 1999, and the reaffirmation made in the Maputo Declaration² of a commitment to the total eradication of anti-personnel mines,

Recalling also the Second Meeting of States Parties to the Convention, held at Geneva from 11 to 15 September 2000, and the Declaration of the Second Meeting of States Parties reaffirming the commitment to completely and fully implement all provisions of the Convention,³

Noting with satisfaction the addition of States that have ratified or acceded to the Convention, bringing the total number of States that have formally accepted the obligations of the Convention to one hundred and eight,

Emphasizing the desirability of attracting the adherence of all States to the Convention, and determined to work strenuously towards the promotion of its universalization,

Noting with regret that anti-personnel mines continue to be used in conflicts around the world, causing human suffering and impeding post-conflict development,

1. *Invites* all States that have not signed the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-personnel Mines and on Their Destruction¹ to accede to it without delay;

2. *Urges* all States that have signed but not ratified the Convention to ratify it without delay;

3. *Stresses* the importance of the full and effective implementation of, and compliance with, the Convention;

4. *Urges* all States parties to provide the Secretary-General with complete and timely information, as required in article 7 of the Convention in order to promote transparency and compliance with the Convention;

5. *Invites* all States that have not ratified the Convention or acceded to it to provide, on a voluntary basis, information to make global mine action efforts more effective;

6. *Renews its call upon* all States and other relevant parties to work together to promote, support and advance the care, rehabilitation and social and economic reintegration of mine victims, mine awareness programmes, and the removal of anti-personnel mines placed throughout the world and the assurance of their destruction;

7. *Invites and encourages* all interested States, the United Nations, other relevant international organizations or institutions, regional organizations, the International Committee of the Red Cross and relevant non-governmental organizations to participate in the programme of inter-sessional work established at the First Meeting of States Parties to the Convention and further developed by the Second Meeting of States Parties to the Convention;

The General Assembly,

Recalling its resolutions 49/75 K of 15 December 1994, 51/45 M of 10 December 1996, 52/38 O of 9 December 1997, 53/77 W of 4 December 1998 and 54/54 Q of 1 December 1999,

Convinced that the continuing existence of nuclear weapons poses a threat to all humanity and

that their use would have catastrophic consequences for all life on Earth, and recognizing that the only defence against a nuclear catastrophe is the total elimination of nuclear weapons and the certainty that they will never be produced again,

Reaffirming the commitment of the international community to the goal of the total elimination of nuclear weapons and the creation of a nuclear-weapon-free world,

Mindful of the solemn obligations of States parties, undertaken in article VI of the Treaty on the Non-Proliferation of Nuclear Weapons,¹ particularly to pursue negotiations in good faith on effective measures relating to cessation of the nuclear arms race at an early date and to nuclear disarmament,

Recalling the principles and objectives for nuclear non-proliferation and disarmament adopted at the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,²

Welcoming the unequivocal undertaking by the nuclear-weapon States to accomplish the total elimination of their nuclear arsenals leading to nuclear disarmament,

Recalling also the adoption of the Comprehensive Nuclear-Test-Ban Treaty in its resolution 50/245 of 10 September 1996, and expressing its satisfaction at the increasing number of States that have signed and ratified the Treaty,

Recognizing with satisfaction that the Antarctic Treaty³ and the treaties of Tlatelolco,⁴ Rarotonga,⁵ Bangkok⁶ and Pelindaba⁷ are gradually freeing the entire southern hemisphere and adjacent areas covered by those treaties from nuclear weapons,

Noting the efforts by the States possessing the largest inventories of nuclear weapons to reduce their stockpiles of such weapons through bilateral agreements or arrangements and unilateral decisions, and calling for the intensification of such efforts to accelerate the significant reduction of nuclear-weapon arsenals,

Recognizing the need for a multilaterally negotiated and legally binding instrument to assure non-nuclear-weapon States against the threat or use of nuclear weapons,

Reaffirming the central role of the Conference on Disarmament as the single multilateral disarmament negotiating forum, and regretting the lack of progress in disarmament negotiations, particularly nuclear disarmament, in the Conference on Disarmament during its 2000 session,

Emphasizing the need for the Conference on Disarmament to commence negotiations on a phased programme for the complete elimination of nuclear weapons with a specified framework of time,

Desiring to achieve the objective of a legally binding prohibition of the development, production, testing, deployment, stockpiling, threat or use of nuclear weapons and their destruction under effective international control,

Recalling the advisory opinion of the International Court of Justice on the *Legality of the Threat or Use of Nuclear Weapons*, issued on 8 July 1996,⁸

Taking note of the relevant portions of the note by the Secretary-General⁹ relating to the implementation of resolution 54/54 Q,

1. *Underlines once again* the unanimous conclusion of the International Court of Justice that there exists an obligation to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control;

2. *Calls once again upon* all States immediately to fulfil that obligation by commencing multilateral negotiations in 2001 leading to an early conclusion of a nuclear weapons convention prohibiting the development, production, testing, deployment, stockpiling, transfer, threat or use of nuclear weapons and providing for their elimination;

3. *Requests* all States to inform the Secretary-General of the efforts and measures they have taken on the implementation of the present resolution and nuclear disarmament, and requests the Secretary-General to apprise the General Assembly of that information at its fifty-sixth session;

4. *Decides* to include in the provisional agenda of its fifty-sixth session the item entitled "Follow-up to the advisory opinion of the International Court of Justice on the *Legality of the Threat or Use of Nuclear Weapons*".

TEXT:

The General Assembly,

Having considered the report of the Secretary-General on the United Nations disarmament fellowship, training and advisory services programme,¹

Recalling its decision, contained in paragraph 108 of the Final Document of the Tenth Special Session of the General Assembly,² the first special session devoted to disarmament, to establish a programme of fellowships on disarmament, as well as its decisions contained in annex IV to the Concluding Document of the Twelfth Special Session of the General Assembly,³ the second special session devoted to disarmament, in which it decided, inter alia, to continue the programme,

Noting with satisfaction that the programme has already trained an appreciable number of public officials selected from geographical regions represented in the United Nations system, most of whom are now in positions of responsibility in the field of disarmament affairs in their respective countries or Governments,

Recalling all the annual resolutions on the matter since the thirty-seventh session of the General Assembly, in 1982, including resolution 50/71 A of 12 December 1995,

Noting with satisfaction that the programme as designed continues to enable an increasing number of public officials, in particular from the developing countries, to acquire more expertise in the sphere of disarmament,

Believing that the forms of assistance available to Member States, in particular to developing countries, under the programme will enhance the capabilities of their officials to follow ongoing deliberations and negotiations on disarmament, both bilateral and multilateral,

1. *Reaffirms* its decisions contained in annex IV to the Concluding Document of the Twelfth Special Session of the General Assembly³ and the report of the Secretary-General⁴ approved by the Assembly in its resolution 33/71 E of 14 December 1978;

2. *Expresses its appreciation* to the Governments of Germany and Japan for inviting the 1999 and 2000 fellows to study selected activities in the field of disarmament, and to the Government of the United States of America for having organized in 1999 a specific study programme in the field of disarmament thereby contributing to the fulfilment of the overall objectives of the programme;

3. *Expresses its appreciation also* to the International Atomic Energy Agency, the Organization for the Prohibition of Chemical Weapons, the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Organization and the Monterey Institute of International Studies for having organized specific study programmes in the field of disarmament in their respective areas of competence, thereby contributing to the objectives of the programme;

4. *Commends* the Secretary-General for the diligence with which the programme has continued to be carried out;

5. *Requests* the Secretary-General to continue to implement annually the Geneva-based programme within existing resources and to report thereon to the General Assembly at its fifty-seventh session;

The General Assembly,

Recalling its resolution 54/55 E of 1 December 1999 regarding the maintenance and revitalization of the three United Nations regional centres for peace and disarmament,

Recalling also the reports of the Secretary-General on the United Nations Regional Centre for Peace and Disarmament in Africa,¹ the United Nations Regional Centre for Peace and Disarmament in Asia and the Pacific² and the United Nations Regional Centre for Peace, Disarmament and Development in Latin America and the Caribbean,³

Reaffirming its decision, taken in 1982 at its twelfth special session, to establish the United Nations Disarmament Information Programme, the purpose of which is to inform, educate and generate public understanding and support for the objectives of the United Nations in the field of arms control and disarmament,⁴

Bearing in mind its resolutions 40/151 G of 16 December 1985, 41/60 J of 3 December 1986, 42/39 D of 30 November 1987 and 44/117 F of 15 December 1989 on the regional centres for peace and disarmament in Nepal, Peru and Togo,

Recognizing that the changes that have taken place in the world have created new opportunities as well as posed new challenges for the pursuit of disarmament and, in this regard, bearing in mind that the regional centres for peace and disarmament can contribute substantially to understanding and cooperation among the States in each particular region in the areas of peace, disarmament and development,

Noting that in paragraph 146 of the Final Document of the Twelfth Conference of Heads of State or Government of Non-Aligned Countries, held at Durban, South Africa, from 29 August to 3 September 1998, the heads of State or Government welcomed the decision adopted by the General Assembly on maintaining and revitalizing the three regional centres for peace and disarmament in Nepal, Peru and Togo,⁵

TEXT:

The General Assembly,

Convinced that the use of nuclear weapons poses the most serious threat to the survival of mankind,

Bearing in mind the advisory opinion of the International Court of Justice of 8 July 1996 on the *Legality of the Threat or Use of Nuclear Weapons*,¹

Convinced that a multilateral, universal and binding agreement prohibiting the use or threat of use of nuclear weapons would contribute to the elimination of the nuclear threat and to the climate for negotiations leading to the ultimate elimination of nuclear weapons, thereby strengthening international peace and security,

Conscious that some steps taken by the Russian Federation and the United States of America towards a reduction of their nuclear weapons and the improvement in the international climate can contribute towards the goal of the complete elimination of nuclear weapons,

Recalling that, in paragraph 58 of the Final Document of the Tenth Special Session of the General Assembly,² it is stated that all States should actively participate in efforts to bring about conditions in international relations among States in which a code of peaceful conduct of nations in international affairs could be agreed upon and that would preclude the use or threat of use of nuclear weapons,

Reaffirming that any use of nuclear weapons would be a violation of the Charter of the United Nations and a crime against humanity, as declared in its resolutions 1653 (XVI) of 24 November 1961, 33/71 B of 14 December 1978, 34/83 G of 11 December 1979, 35/152 D of 12 December 1980 and 36/92 I of 9 December 1981,

Determined to achieve an international convention prohibiting the development, production, stockpiling and use of nuclear weapons, leading to their ultimate destruction,

Stressing that an international convention on the prohibition of the use of nuclear weapons would be an important step in a phased programme towards the complete elimination of nuclear weapons, with a specified framework of time,

Noting with regret that the Conference on Disarmament, during its 2000 session, was unable to undertake negotiations on this subject as called for in General Assembly resolution 54/55 D of 1 December 1999,

1. *Reiterates its request* to the Conference on Disarmament to commence negotiations in order to reach agreement on an international convention prohibiting the use or threat of use of nuclear weapons under any circumstances;

2. *Requests* the Conference on Disarmament to report to the General Assembly on the results of those negotiations.

The General Assembly,

Bearing in mind its relevant resolutions,

Taking note of the relevant resolutions adopted by the General Conference of the International Atomic Energy Agency, the latest of which is resolution GC(44)RES/28, adopted on 22 September 2000,

Cognizant that the proliferation of nuclear weapons in the region of the Middle East would pose a serious threat to international peace and security,

Mindful of the immediate need for placing all nuclear facilities in the region of the Middle East under full-scope safeguards of the International Atomic Energy Agency,

Recalling the decision on principles and objectives for nuclear non-proliferation and disarmament adopted by the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons of 11 May 1995,¹ in which the Conference urged universal adherence to the Treaty as an urgent priority and called upon all States not yet parties to the Treaty to accede to it at the earliest date, particularly those States that operate unsafeguarded nuclear facilities,

Recognizing with satisfaction that, in the Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,² the Conference undertook to make determined efforts towards the achievement of the goal of universality of the Treaty on the Non-Proliferation of Nuclear Weapons,³ and called upon those remaining States not parties to the Treaty to accede to it, thereby accepting an international legally binding commitment not to acquire nuclear weapons or nuclear explosive devices and to accept International Atomic Energy Agency safeguards on all their nuclear activities, and underlined the necessity of universal adherence to the Treaty and of strict compliance by all parties with their obligations under the Treaty,

Recalling the resolution on the Middle East adopted by the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons on 11 May 1995,⁴ in which the Conference noted with concern the continued existence in the Middle East of unsafeguarded nuclear facilities, reaffirmed the importance of the early realization of universal adherence to the Treaty and called upon all States in the Middle East that had not yet done so, without exception, to accede to the

Treaty as soon as possible and to place all their nuclear facilities under full-scope International Atomic Energy Agency safeguards,

Noting that Israel remains the only State in the Middle East that has not yet become party to the Treaty on the Non-Proliferation of Nuclear Weapons,

Concerned about the threats posed by the proliferation of nuclear weapons to the security and stability of the Middle East region,

Stressing the importance of taking confidence-building measures, in particular the establishment of a nuclear-weapon-free zone in the Middle East, in order to enhance peace and security in the region and to consolidate the global non-proliferation regime,

Emphasizing the need for all parties directly concerned to consider seriously taking the practical and urgent steps required for the implementation of the proposal to establish a nuclear-weapon-free zone in the region of the Middle East in accordance with the relevant resolutions of the General Assembly and, as a means of promoting this objective, inviting the countries concerned to adhere to the Treaty on the Non-Proliferation of Nuclear Weapons, and pending the establishment of the zone, to agree to place all their nuclear activities under International Atomic Energy Agency safeguards,

Noting that one hundred and sixty States have signed the Comprehensive Nuclear-Test-Ban Treaty,⁵ including a number of States in the region,

1. *Welcomes* the conclusions on the Middle East of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons;⁶

2. *Reaffirms* the importance of Israel's accession to the Treaty on the Non-Proliferation of Nuclear Weapons³ and placement of all its nuclear facilities under comprehensive International Atomic Energy Agency safeguards, in realizing the goal of universal adherence to the Treaty in the Middle East;

3. *Calls upon* that State to accede to the Treaty on the Non-Proliferation of Nuclear Weapons without further delay and not to develop, produce, test or otherwise acquire nuclear weapons, and to renounce possession of nuclear weapons, and to place all its unsafeguarded nuclear facilities under full-scope International Atomic Energy Agency safeguards as an important confidence-building measure among all States of the region and as a step towards enhancing peace and security;

4. *Requests* the Secretary-General to report to the General Assembly at its fifty-sixth session on the implementation of the present resolution;

5. *Decides* to include in the provisional agenda of its fifty-sixth session the item entitled "The risk of nuclear proliferation in the Middle East".

Bearing in mind all the previous declarations and commitments, as well as all the initiatives taken by the riparian countries at the recent summits, ministerial meetings and various forums concerning the question of the Mediterranean region,

Recognizing the indivisible character of security in the Mediterranean and that the enhancement of cooperation among Mediterranean countries with a view to promoting the economic and social development of all peoples of the region will contribute significantly to stability, peace and security in the region,

Recognizing also the efforts made so far and the determination of the Mediterranean countries to intensify the process of dialogue and consultations with a view to resolving the problems existing in the Mediterranean region and to eliminating the causes of tension and the consequent threat to peace and security, and their growing awareness of the need for further joint efforts to strengthen economic, social, cultural and environmental cooperation in the region,

Recognizing further that prospects for closer Euro-Mediterranean cooperation in all spheres can be enhanced by positive developments worldwide, in particular in Europe, in the Maghreb and in the Middle East,

Reaffirming the responsibility of all States to contribute to the stability and prosperity of the Mediterranean region and their commitment to respecting the purposes and principles of the Charter of the United Nations, as well as the provisions of the Declaration on Principles of International Law concerning Friendly Relations and Cooperation among States in accordance with the Charter of the United Nations,

Noting the peace negotiations in the Middle East, which should be of a comprehensive nature and represent an appropriate framework for the peaceful settlement of contentious issues in the region,

Expressing its concern at the persistent tension and continuing military activities in parts of the Mediterranean that hinder efforts to strengthen security and cooperation in the region,

Taking note of the report of the Secretary-General,²

2. *Expresses its satisfaction* at the continuing efforts by Mediterranean countries to contribute actively to the elimination of all causes of tension in the region and to the promotion of just and lasting solutions to the persistent problems of the region through peaceful means, thus ensuring the withdrawal of foreign forces of occupation and respecting the sovereignty, independence and territorial integrity of all countries of the Mediterranean and the right of peoples to self-determination, and therefore calls for full adherence to the principles of non-interference, non-intervention, non-use of force or threat of use of force and the inadmissibility of the acquisition of territory by force, in accordance with the Charter and the relevant resolutions of the United Nations;

4. *Recognizes* that the elimination of the economic and social disparities in levels of development and other obstacles, as well as respect and greater understanding among cultures, in the Mediterranean

area will contribute to enhancing peace, security and cooperation among Mediterranean countries through the existing forums;

7. *Encourages* the Mediterranean countries to strengthen further their cooperation in combating terrorism in all its forms and manifestations, international crime and illicit arms transfers, and illicit drug production, consumption and trafficking, which pose a serious threat to peace, security and stability in the region and therefore to the improvement of the current political, economic and social situation and which jeopardize friendly relations among States, hinder the development of international cooperation and result in the destruction of human rights, fundamental freedoms and the democratic basis of pluralistic society;

8. *Requests* the Secretary-General to submit a report on means to strengthen security and cooperation in the Mediterranean region;

agenda of its fifty-fifth session the item entitled “Comprehensive Nuclear-Test-Ban Treaty”,

Encouraged by the signing of the Treaty by one hundred and sixty States, including forty-one of the forty-four needed for its entry into force, and welcoming also the ratification of sixty-five States, including thirty of the forty-four needed for its entry into force,

Recalling its endorsement, in resolution 54/63, of the Final Declaration of the Conference on Facilitating the Entry into Force of the Comprehensive Nuclear-Test-Ban Treaty,¹ held at Vienna from 6 to 8 October 1999 to promote the entry into force of the Treaty at the earliest possible date,

1. *Stresses* the importance and urgency of signature and ratification, without delay and without conditions and in accordance with constitutional processes, to achieve the early entry into force of the Comprehensive Nuclear-Test-Ban Treaty;

2. *Welcomes* the contributions by the States signatories to the work of the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization, in particular to its efforts to ensure that the Treaty’s verification regime will be capable of meeting the verification requirements of the Treaty upon its entry into force, in accordance with article IV of the Treaty;

3. *Urges* States to maintain their moratoria on nuclear weapons test explosions or any other nuclear explosions, pending the entry into force of the Treaty;

4. *Calls upon* all States that have not yet signed the Treaty to sign and ratify it as soon as possible and to refrain from acts that would defeat its object and purpose in the meanwhile;

5. *Calls upon* all States that have signed but not yet ratified the Treaty, in particular those whose ratification is needed for its entry into force, to accelerate their ratification processes with a view to their early successful conclusion;

6. *Urges* all States to remain seized of the issue at the highest political level;
