Welcome to the LDCs Information Portal

This portal aims at improving the capacity of LDCs to access and benefit from the special **international support measures** adopted by the international development community for countries included in the LDC category.

Information on the availability of existing international support measures for LDCs is spread over a wide range of sources and are often not easy to locate. This site gives users access to a unique catalogue of data on the availability and utilization of the international support measures. These measures fall into three main areas:

- **International Trade**
- **Official Development Assistance (including development financing and technical cooperation)**
- **Other forms of assistance**

For those countries graduating from the category, the site also provides the necessary tools to assess the likely impact of graduation and assist in developing strategies for the possible phasing out of the support associated with LDC status.

Handbook on the Least Developed Country Category: Inclusion, Graduation and Special Support Measures

This Handbook by the Committee for Development Policy aims at promoting a better understanding of the LDC category and the benefits derived from membership therein. It contains a comprehensive explanation of the criteria, procedures and methodology used by the Committee for Development Policy for establishing which countries are eligible for inclusion in, or recommended for graduation from, the LDC category. It also provides an overview of the international support measures that can be derived from having least developed country status and the implications of graduation from the list in terms of the potential loss of such measures.

This is a Test Blog Entry

OBJECTIVE OF THE PORTAL

A consolidated platform with all relevant information related to the **international support measures** specifically made available for the category

- Improve LDCs' capacity to access information on existing support measures and to make use of such measures
- Building capacity in graduating countries in preparing strategies for a smooth transition

PORTAL STRUCTURE

Five content areas for information retrieval and analysis

least developed countries
information portal

| data retrieval | survey results | macro-model | e-learning | online networking |
|----------------------------|---|---------------------|--------------------|---|
| » bilateral oda | » ldc's | » small islands | » case studies | » blog |
| » multilateral oda | » bilateral donors and trading partners | » scenario analysis | » learning modules | » forum |
| » wto provisions for ldc's | » multilateral donors | | » reports | » contact ldc's |
| » market access for ldc's | | | | » contact bilateral development partners |
| | | | | » contact trading partners |
| | | | | » contact multilateral development partners |

CONCLUSIONS FROM ANALYSIS OF EXISTING SUPPORT MEASURES

General shortcomings with existing measures

- Design flaws
 - including several not attuned to LDC conditions
- Gaps in delivery
- Lack of coherence
- Under funded
- Disconnected to goals
- Difficult to locate and access
- Some measures more used/useful than others
- Requirements too difficult to meet
- Incoherence in global policy making
 - Support measures offset by measures taken elsewhere

WHAT CAN PORTAL DO TO HELP?

- Consolidate access of information on availability, utilization and obstacles
- Increase awareness of measures and conditions
- Assist in identifying gaps in access and delivery
- Support institutional capacity building to apply for and access the measures
- Enhance ownership of the measures
- Providing tools to become more pro-active, including in preparing for smooth transition

Enhanced use of the measures
