Explanatory notes	iv
Executive summary	v
Chapter I	
Global economic outlook	1
Prospects for the world economy in 2014-2015	1
Global growth continues to face headwinds	1
Inflation outlook remains benign	8
High unemployment remains a key challenge	8
Trends in international finance and trade	10
Capital inflows to emerging economies declining	10
Currencies of developing countries under depreciation pressures	12
Prices of primary commodities on a moderate downtrend	14
International trade flows remain sluggish	15
Global imbalances narrowing to a benign level	16
Uncertainties and risks	17
Uncertainties and risks associated with QE	18
Vulnerability of emerging economies to external shocks	21
Remaining risks in the euro area	25
Uncertainties and risks from lingering budget issues in the United States	26
Policy challenges	27
Fiscal policy	27
Monetary policy	28
Policy challenges in managing the risks associated with the unwinding of QE	29
International policy coordination	30
Chapter II	
International trade	33
Commodity markets	41
Food and agricultural commodities	41
Minerals, ores and metals	43
Oil prices	44
Terms of trade and trade shocks	47
Trade in services	50
Trade policy developments	55
The multilateral trading system: the Bali “mini” Package and variable geometry of trade agreements	56

	<i>Page</i>
Regional trade agreements: major initiatives, uncertain outcomes and implications	57
Unilateral trade liberalization: a mixed picture	62
Conclusions and ways forward	63
 Chapter III	
International finance for development	65
Global imbalances and international reserves accumulation	66
Trends in international private capital flows	68
Trends in cross-border capital flows	70
Management of volatile capital flows and other policy measures	76
Strengthening international financial regulation	79
Reforms to the banking system	79
Progress in implementing reforms of the banking system	80
Implications of new regulations for financing sustainable development	82
Progress in regulating shadow banking	84
Derivatives	85
Regulating the credit rating agency industry	86
Financial inclusion	87
International development cooperation and official flows	88
Official development assistance	88
South-South and regional cooperation	89
Innovative sources of international finance for development	90
Illicit capital flows and international tax cooperation	92
Additional measures to enhance international financial stability	93
Global liquidity mechanisms and a financial safety net	93
Increased multilateral surveillance	94
Sovereign debt distress	94
 Chapter IV	
Regional developments and outlook	99
Developed market economies	99
North America	99
The United States: improved growth prospects, but downside risks remain	99
Canada: in tandem with the United States	101
Developed Asia and the Pacific	102
Japan: out of deflation, but high public debt remains	102
Australia and New Zealand: solid growth driven by exports and investment	104
Europe	104
Western Europe: recession ends, but growth remains weak	104
The new EU members: tentative green shoots of recovery	108
Economies in transition	111
South-Eastern Europe: moderate growth, but high unemployment and possible financial vulnerabilities	113
The Commonwealth of Independent States: slowdown follows tepid recovery	115

	<i>Page</i>
Developing economies	118
Africa: strengthening overall growth with diverse performance across subregions	118
East Asia: growth projected to pick up slightly.	124
South Asia: lack-lustre growth in 2013, but gradual recovery projected	128
Western Asia: solid growth overall despite the fallout from military conflicts . . .	132
Latin America and the Caribbean: growth to accelerate in 2014-2015	134

Boxes

I.1. Major assumptions for the baseline forecast.	3
I.2. Prospects for the least developed countries	5
I.3. Spillover effects of unconventional monetary policies in major developed countries	19
I.4. Growth slowdown in the BRICS.	21
II.1. Maritime trade: the role of the global liner shipping network	36
II.2. The impact of China's structural changes on its major trading partners	39
II.3. The strategic importance of rare earth metals	45
II.4. Effects of increased oil production in the United States of America on exporters of similar grade	46
II.5. International tourism.	54
II.6. Global value chains: policy implications for developing countries.	60
III.1. Innovative sources of financing: the case of forests	90
III.2. Sub-Saharan African sovereign bonds: an alternative source of development finance or a looming debt crisis?	96
IV.1. Capital flow volatility in the transition economies and new EU member States	111
IV.2. Fostering the interface between mining and manufacturing in Africa to accelerate and sustain growth	121
IV.3. Social welfare programmes to promote inclusive development in the Asia-Pacific region	127
IV.4. Twin deficits in Latin America and the Caribbean	137

Figures

I.1. Growth of world gross product, 2007-2015	3
I.2. Growth of per capita GDP by level of development, 2000-2015	5
I.3. Unemployment rates in selected countries, January 2007-September 2013 . . .	9
I.4. Daily yield spreads on emerging market bonds, January 2007 to 14 November 2013	11
I.5. Dollar exchange rates among major currencies, January 2007 to 14 November 2013	13
I.6. Dollar exchange rates of selected emerging economies, January 2007 to 14 November 2013	14
I.7. Price indices of commodities, 2000-2015	15
I.8. Index of world merchandise trade, January 2006-August 2013.	16
I.9. Global imbalances, 1997-2014	17
I.10. Current-account imbalances for selected countries	23
