

**UNITED NATIONS EXPERT GROUP MEETING
ON RECENT AND FUTURE TRENDS IN FERTILITY**

New York, 2 - 4 December 2009

LIST OF PRESENTATIONS

Tomáš Sobotka (Vienna Institute of Demography, Austria). *European fertility trends and prospects.*

Gerda Neyer (Stockholm University, Sweden). *Effects of family policies on childbearing behaviour in developed countries.*

Hans-Peter Kohler, Mikko Myrskylä (University of Pennsylvania, USA), Francesco C. Billari (Bocconi University). *Advances in development reverse fertility declines.*

Gavin W. Jones (National University of Singapore, Singapore). *Recent fertility trends, policy responses and fertility prospects in low fertility countries of East and Southeast Asia.*

Gu Baochang (Renmin University of China, China), Yong Cai (University of North Carolina, USA). *Fertility prospects in China.*

Ryuichi Kaneko (National Institute of Population and Social Security Research, Japan). *Fertility prospects in Japan.*

Sergio DellaPergola (Hebrew University Jerusalem, Israel). *Fertility prospects in Israel: Ever below replacement level?*

Laila El-Zeini (Cairo University, Egypt). *Fertility transition in Egypt and Morocco.*

John B. Casterline (Ohio State University, USA). *Fertility prospects in the Arab region.*

Suzana Cavenaghi, José Eustáquio Diniz Alves (ENCE/IBGE, Brazil). *Diversity of childbearing behaviour within population in the context of below replacement fertility in Brazil.*

Guiomar Bay, Tim Miller (UN/ECLAC, Chile). *Latin American fertility decline: Differences and commonalities.*

Luis Rosero-Bixby (Universidad de Costa Rica, Costa Rica). *Recent trends in Latin American fertility.*

Carl Haub (Population Reference Bureau, USA). *Fertility in India trends and prospects.*

Zeba A. Sathar, Batool Zaidi (Population Council, Pakistan). *Prospects of fertility decline in Pakistan.*

Terence H. Hull (Australian National University, Australia). *Fertility prospects in South-Eastern Asia.*

Tom A Moultrie, Takudzwa S Sayi (Centre for Actuarial Research, University of Cape Town, South Africa), Ian M Timæus (Centre for Population Studies, LSH&TM, London, Great Britain). *Stopping, spacing and postponing: The future of the African fertility decline.*

Jean-Pierre Guengant (IRD Ouagadougou, Burkina Faso), John F. May (World Bank, Washington, D.C, USA). *Proximate determinants of fertility in sub-Saharan Africa and their possible use in fertility projection.*

Hania Zlotnik (Population Division/DESA, United Nations). *Projecting fertility: A history.*

Leontine Alkema (National University of Singapore, Singapore), Adrian Raftery, Sam Clark (University of Washington, Seattle, USA), Patrick Gerland, François Pelletier and Thomas Buettner (Population Division/DESA, United Nations). *Probabilistic projections of the total fertility rate.*

Patrick Gerland (Population Division/DESA, United Nations). *Comparison between Bayesian approach and World Population Prospects 2008 projections of total fertility.*

Gerhard K. Heilig, Nan Li (Population Division/DESA, United Nations). *A Stochastic version of the World Population Prospects - based on Bayesian projections of total fertility and life expectancy.*
