Summary

The forty-ninth session of the Commission on Population and Development was held at United Nations Headquarters on 17 April 2015 and from 11 to 15 April 2016. Its special theme was “Strengthening the demographic evidence base for the post-2015 development agenda”.

The Commission considered the report of the Bureau of the Commission on its intersessional meetings (E/CN.9/2016/2), which detailed the work of organizing the session. The Commission also considered five reports of the Secretary-General and a note by the Secretariat.

The report of the Secretary-General on “Strengthening the demographic evidence base for the post-2015 development agenda” (E/CN.9/2016/3), prepared by the Population Division, provides an overview of the current demographic evidence base and emphasizes the need to strengthen capacity to support the review of the Sustainable Development Goals. An overall message is that the achievement of these Goals will depend critically on the availability of reliable, accessible and timely evidence about demographic patterns and trends for all countries.

The report of the Secretary-General on “Programmes and innovations to strengthen the demographic evidence base for the implementation of the Programme of Action of the International Conference on Population and Development and the 2030 Agenda for Sustainable Development” (E/CN.9/2016/4), prepared by the United Nations Population Fund (UNFPA), highlights the experiences of countries in strengthening the demographic evidence base. It identifies key shortfalls in national data systems that need to be addressed in order for countries to fulfil the aspirations of the 2030 Agenda and the Programme of Action.

The report of the Secretary-General on “Monitoring the flow of financial resources to support the implementation of the Programme of Action of the International Conference on Population and Development” (E/CN.9/2016/5), prepared by UNFPA, discusses trends in both donor and domestic funding over time. It describes the challenges in producing precise and reliable estimates on the relevant flows from available data and recommends that the Commission should review and provide future guidance on this report.

The report of the Secretary-General on “World demographic trends” (E/CN.9/2016/6), prepared by the Population Division,

provides an overview of global demographic trends. The world's population was 7.3 billion in 2015 and is projected to reach 8.5 billion by 2030, with most of the increase occurring in Africa and Asia. There is a great diversity in recent population trends and expected future trajectories across countries and major geographic areas, driven primarily by differences in levels of fertility. While some countries will experience a decline in population size between 2015 and 2030, in others the population will increase by over 50 per cent. A difficulty for the achievement of the 2030 Agenda is that much of the population growth between 2015 and 2030 will be concentrated in countries facing the largest challenges in ending poverty and hunger and ensuring health, education and equality for all.

The Commission also reviewed the report of the Secretary-General on "Programme implementation and progress of work in the field of population in 2015: Population Division, Department of Economic and Social Affairs" (E/CN.9/2016/7), and took note of the proposed strategic framework for 2018-2019 for subprogramme 5, Population, of programme 7, Economic and social affairs (E/CN.9/2016/CRP.1). This report reviews the activities and outputs of the Population Division, focusing on its contributions to the global demographic evidence base as well as its secretariat support of intergovernmental processes, including the annual sessions of the Commission on Population and Development.

A note by the Secretariat on the "Future organization and methods of work of the Commission on Population and Development" (E/CN.9/2016/8), prepared by the Population Division in consultation with Member States, UNFPA and others, provides an overview of the current functioning and methods of work of the Commission. It presents the findings from the consultation process and puts forward a set of recommendations to strengthen the work of the Commission and its contribution to the Economic and Social Council.

On 11 April, the Commission heard a keynote address on "The demographic evidence base and indicators for the 2030 Agenda: a global overview", delivered by Lisa Bersales, National Statistician of the Philippines and co-chair of the Inter-agency and Expert Group on SDG Indicators. On 12 April, the Commission heard a keynote address on "Integration of traditional and new data sources and technologies: from censuses to big data" by Andrew Tatem, Professor, University of Southampton, United Kingdom. Each keynote address was followed by an interactive discussion moderated by the Chair. Keynote speakers emphasized that population data, per se, include critically important indicators for the review of the Sustainable Development Goals, and

moreover that many other indicators require population data as inputs. In addition, population trends are intertwined with many aspects of sustainable development.

The Commission also held an interactive panel discussion on “Uses of the demographic evidence base for policy planning and programme monitoring”, moderated by Bill Miller of Global Connections Television and with the following panellists: Eduardo Clark, Office of the President, Mexico; Vladimir Shkolnikov, Max Planck Institute for Demographic Research, Germany; John Ssekamatte, National Planning Authority, Uganda; and Ann Starrs, Guttmacher Institute, USA.

On 14 April, the Commission heard a statement by a Vice-President of the Economic and Social Council, Ambassador Frederick Musiiwa Makamure Shava (Zimbabwe). The Vice-President noted that understanding population dynamics is central to ensuring the achievement of the Sustainable Development Goals. The review of the Commission’s methods of work was important, especially in light of General Assembly resolutions 68/1 and 70/1, which called on the functional commissions to contribute to the work of the Council and its high-level political forum.

The major outcomes of the forty-ninth session were a resolution on the Commission’s future organization and methods of work, proposed for adoption by the Economic and Social Council, and a resolution on the special theme of the session.

In addition, the Commission decided that the theme of its fiftieth session will be “Changing population age structures and sustainable development”, and that the theme for its fifty-first session will be decided in 2017, pending decisions on the theme of the Economic and Social Council for 2018 and on the cycle of review of the Sustainable Development Goals in the high-level political forum. The Commission agreed on the provisional agenda for its fiftieth session and approved the draft report on its forty-ninth session.

The significance of this session of the Commission is twofold. It was the first time that the Commission had reviewed its methods of work in the past decade, and this review took place soon after the adoption of the 2030 Agenda. In addition, the Commission focused, for the first time in its modern history (since 1994), on Chapter XII of the Programme of Action, by considering the importance of demographic evidence for the implementation of the Programme of Action and the review of the 2030 Agenda.

While reaffirming the Commission's mandate to monitor, review and assess the implementation of the Programme of Action, Member States affirmed that the Commission will contribute to the review of the 2030 Agenda, within its existing mandate. Member States also affirmed that the resolutions and decisions of the Commission will be negotiated and that relevant non-governmental organizations and civil society make an important contribution to the work of the Commission. Member States decided that the Commission may further review its methods of work in view of the follow-up and review process of the 2030 Agenda.

Member States reiterated that the availability of high-quality, accessible, timely and reliable disaggregated demographic data is essential for planning and implementing policies and programmes to achieve the Programme of Action and the 2030 Agenda. They emphasized the importance of the 2020 round of censuses and urged Governments to make special efforts to strengthen civil registration and vital statistics and health information systems, as well as national capacities to conduct household surveys.

Furthermore, Governments were encouraged to adopt open-data policies allowing for the dissemination of public-use, geo-referenced and anonymized micro-data from various sources with respect for confidentiality. Also, national authorities were advised to leverage new data sources, including Big Data, and technology to improve the efficiency of data collection, processing and dissemination.

Member States called on the Secretary-General to continue his substantive work on population and development and to pursue further improvements in the accessibility and timeliness of disaggregated population data. They called on UNFPA to continue its work in assisting countries to strengthen the demographic evidence base.

Chapter I

Matters calling for action by the Economic and Social Council or brought to its attention

A. Draft decision and draft resolution

1. The Commission recommends to the Economic and Social Council the adoption of the following draft decision and draft resolution:

(A) Report of the Commission on Population and Development on its forty-ninth session and provisional agenda for its fiftieth session*

The Economic and Social Council

(a) Takes note of the report of the Commission on Population and Development on its forty-ninth session;¹

(b) Approves the provisional agenda for the fiftieth session of the Commission as set out below:

Provisional agenda

1. Election of officers.²
2. Adoption of the agenda and other organizational matters.

Documentation

Provisional agenda for the fiftieth session of the Commission

* For the discussion, see chap. VII.

¹ *Official Records of the Economic and Social Council, 2016, Supplement No. 5 (E/2016/25).*

² In accordance with Economic and Social Council decision 2005/213, the Commission, immediately following the close of its forty-ninth session, held the first meeting of its fiftieth session for the sole purpose of electing the new Chair and other members of the Bureau, in accordance with rule 15 of the rules of procedure of the functional commissions of the Council.

Note by the Secretariat on the organization of the work of the session

3. General debate.

- (a) Actions for the further implementation of the Programme of Action of the International Conference on Population and Development at global, regional and national levels
- (b) Special theme of the fiftieth session of the Commission based on the Programme of Action of the International Conference on Population and Development and the key actions for its further implementation.

Documentation

Report of the Secretary-General on the theme of the fiftieth session of the Commission

Report of the Secretary-General on the monitoring of population programmes, focusing on the theme of the fiftieth session of the Commission

Report of the Secretary-General on the flow of financial resources for assisting in the further implementation of the Programme of Action of the International Conference on Population and Development

4. Programme implementation and future programme of work of the Secretariat in the field of population.

Documentation

Report of the Secretary-General on programme implementation and progress of work in the field of population in 2016: Population Division, Department of Economic and Social Affairs

Note by the Secretary-General on the draft programme of work for the period 2015-2019: subprogramme 5, Population, of programme 7, Economic and social affairs

5. Provisional agenda for the fifty-first session of the Commission.

Documentation

Note by the Secretariat containing the provisional agenda for the fifty-first session of the Commission

6. Adoption of the report of the Commission on its fiftieth session.

(B) Future organization and methods of work of the Commission on Population and Development

The Economic and Social Council,

Recalling its decision 2015/252 of 22 July 2015, in which it decided that the Commission on Population and Development should review the functioning of its methods of work at its forty-ninth session in 2016, with a view to further enhancing the impact of the work of the Commission and its contribution to the Economic and Social Council,

Recalling also the Council's resolution 1995/55 of 28 July 1995 and decision 2005/213 of 31 March 2005, as well as decisions 2004/2 and 2005/2 and resolution 2006/1 of the Commission on Population and Development on its methods of work,

Recalling General Assembly resolution 68/1 of 20 September 2013, which called for the harmonization and coordination of the agendas and programmes of work of the functional commissions, and emphasized the need to strengthen the Economic and Social Council in the integrated and coordinated follow-up of the outcomes of all major United Nations conferences and summits in the economic, social, environmental and related fields, and further recalling the Council's resolution 1981/83 regarding its instruction to its subsidiary bodies to rationalize their agendas and programmes of work, resolution 1982/50 recommending that the documentation and programme of work of the subsidiary bodies of the Council be rationalized in order to enable them to effectively implement the mandates entrusted to them, and resolution 1983/163 regarding the integration or consolidation of documents that deal with related or similar themes with a view to rationalizing documentation, without negatively impacting their technical quality, as necessary,

Recognizing the key role the Council plays in achieving a balanced integration of the three dimensions of sustainable development,

Recalling the Programme of Action³ of the International Conference on Population and Development and the key actions for its further implementation⁴,

Recalling General Assembly resolution 49/128 of 19 December 1994, in which it was decided that the General Assembly, through its role in policy formulation, the Economic and Social Council, through its role in overall guidance and coordination, and a revitalized Commission on Population and Development shall constitute a three-tiered intergovernmental mechanism that will play the primary role in the follow-up to the implementation of the Programme of Action,

Recalling also General Assembly resolution 65/234 of 22 December 2010 on the follow-up to the International Conference on Population and Development beyond 2014, in which the General Assembly decided to extend the Programme of Action and the key actions for its further implementation⁵ beyond 2014 and ensure its follow-up in order to fully meet its goals and objectives,

Welcoming the adoption of General Assembly resolution 70/1 of 25 September 2015, entitled “Transforming our world: the 2030 Agenda for Sustainable Development”, and stressing the importance of the implementation of this new ambitious Agenda,

Emphasizing the breadth of experience of non-governmental organizations in the follow-up to the Programme of Action and the key actions for its further implementation⁶ and the need to continue to promote their effective participation in and valuable contribution to the work of the Commission, in accordance with the rules of procedure of the functional commissions of the Economic and Social Council,

³ *Report of the International Conference on Population and Development, Cairo, 5-13 September 1994* (United Nations publication, Sales No. E.95.XIII.18), chap. I, resolution 1, annex.

⁴ General Assembly resolution S-21/2, annex; *Official Records of the General Assembly, Twenty-first Special Session*, 1. Supplement No. 3 (A/S-21/5/Rev.1); and A/S-21/PV.9.

⁵ Resolution S-21/2, annex.

⁶ General Assembly resolution S-21/2, annex.

1. *Reaffirms* the Programme of Action¹ of the International Conference on Population and Development and the key actions for its further implementation², and the outcomes of its reviews, and notes the outcome documents of the regional review conferences, stressing that the outcome documents of the regional review conferences provide region-specific guidance on population and development beyond 2014 for each region that adopted the particular outcome document;

2. *Also reaffirms* the primary mandate of the Commission, derived from General Assembly resolution 49/128 of 19 December 1994, which stated that the Commission would monitor, review and assess the implementation of the Programme of Action of the 1994 International Conference on Population and Development at the national, regional and international levels and would advise the Economic and Social Council thereon;

3. *Further reaffirms* the central role of the Commission in coordinating the review and assessment of the key actions for the further implementation of the Programme of Action of the ICPD, including addressing gaps and challenges to implementation;

4. *Affirms* that the Commission will contribute to the follow up and review of the 2030 Agenda for Sustainable Development, within its existing mandate, and that the Commission's contribution should reflect the integrated nature of the Goals as well as their interlinkages between them;

5. *Decides* that the Commission will streamline its agenda and programme of work by consolidating agenda items, and by rationalizing related documentation and reports without negatively impacting their technical quality, with a view to enable it to effectively perform its mandate and to increase complementarity and avoid duplication;

6. *Decides also* that the Commission shall continue its current practice of selecting one special theme for each annual session based on progress, gaps, recurrent challenges and evolving issues relevant to population and development based on the ICPD Programme of Action and the key actions to accelerate its further implementation, while also taking into account the 2030 Agenda for Sustainable Development, with a view to fully implementing all its mandated tasks and contributing to the work of the Economic and Social Council,

including by building synergies and in the context of its working methods, as appropriate, taking into account the thematic annual focus of the Council and of the High Level Political Forum under its auspices in accordance with resolutions 67/290 and 68/1 as part of a multi-year work programme;

7. *Decides further* to include under the item of the general debate two sub-items, one focusing on actions for the further implementation of the Programme of Action of the ICPD at global, regional and national levels, and one focusing on the special theme of the Commission;

8. *Encourages* all States, in their statements in the general debate, to give emphasis to national and regional experiences, achievements, challenges and lessons learned;

9. *Notes* the contribution of non-governmental organizations and other civil society actors toward the implementation of the Programme of Action of the International Conference on Population and Development and the Key Actions for its further implementation and reaffirms that they should continue, in accordance with the rules of procedure of the Economic and Social Council and with ECOSOC resolution 1996/31 of 25 July 1996, to be given the opportunity to actively participate in the work of the Commission;

10. *Requests* the Secretariat, in collaboration with UNFPA and other relevant stakeholders, to continue to convene expert meetings and informal technical briefings on the special theme prior to the session;

11. *Requests also* the Bureau to make all efforts to improve the communication with the Member States by, inter alia, circulating the minutes of their meetings, in a cumulative form, to the members of their respective regional group within ten days after the meeting;

12. *Affirms* that the resolutions and decisions of the Commission will be negotiated, and that the outcome of the discussions on the special theme will continue to contain substantive and action-oriented recommendations for furthering the implementation of the Programme of Action and the key actions for its

further implementation beyond 2014 and encourages the Bureau to take the necessary steps in this regard;

13. *Emphasizes* the importance of regional groups nominating their representatives as early as possible, but no later than the last day of an annual session, so that the election of Bureau members for the next session at the closure of the current session can proceed on schedule, thereby facilitating the active participation by all Bureau members throughout the process of preparing the next session;

14. *Encourages* the regional commissions of the United Nations to continue to contribute to the work of the Commission, in collaboration, where appropriate, with other intergovernmental organizations, especially regional organizations, and other United Nations entities;

15. *Reaffirms* the complementary roles of the Population Division of the Department of Economic and Social Affairs and the United Nations Population Fund (UNFPA), within their existing mandates, in supporting the efficient work of the Commission;

16. *Decides* that the Commission may, upon request from Member States, further review its methods of work in view of the follow-up and review process of the 2030 Agenda for Sustainable Development.

B. Matters brought to the attention of the Council

3. The following resolution and decisions adopted by the Commission are brought to the attention of the Council:

Resolution 2016/1

Strengthening the demographic evidence base for the 2030 Agenda for Sustainable Development*

The Commission on Population and Development,

Recalling the Programme of Action of the International Conference on Population and Development⁷ and the key actions for its further implementation,⁸ and previous resolutions of the Commission of Population and Development,

Recalling also the outcomes of relevant United Nations high-level meetings, conferences and summits including the 2005 World Summit Outcome,⁹ and the Beijing Declaration and Platform for Action,¹⁰

Reaffirming General Assembly resolution 70/1 of 25 September 2015, entitled “Transforming our world: the 2030 Agenda for Sustainable Development”, in which it adopted a comprehensive, far-reaching and people-centred set of universal and transformative Sustainable Development Goals and targets, its commitment to working tirelessly for the full implementation of this Agenda by 2030, its recognition that eradicating poverty in all its forms and dimensions, including extreme poverty, is the greatest global challenge and an indispensable requirement for sustainable development, its commitment to achieving sustainable development in its three dimensions —economic, social and environmental—in a balanced and integrated manner, and to building upon the achievements of the Millennium Development Goals and seeking to address their unfinished business,

Reaffirming also General Assembly resolution 69/313 of 27 July 2015 on the Addis Ababa Action Agenda of the Third International Conference on Financing for Development, which is an integral part of the 2030 Agenda for Sustainable Development, supports and complements it, helps to contextualize its means of implementation targets with concrete policies and actions, and reaffirms the strong political commitment to address the challenge of financing and creating an enabling environment at all levels for sustainable development in the spirit of global partnership and solidarity,

* For the discussion, see chap. II.

⁷ See *Report of the International Conference on Population and Development, Cairo, 5-13 September 1994* (United Nations publication, Sales No. E.95.XIII.18).

⁸ See General Assembly resolution S-21/2, annex; *Official Records of the General Assembly, Twenty-first Special Session, Supplement No. 3 (A/S-21/5/Rev.1)*; and A/S-21/PV.9.

⁹ General Assembly resolution 60/1.

¹⁰ *Report of the Fourth World Conference on Women, Beijing, 4-15 September 1995* (United Nations publication, Sales No. E.96.IV.13), chap. I, resolution I, annexes I and II.

Recalling the Paris agreement under the United Nations Framework Convention on Climate Change,

Recalling also the Universal Declaration of Human Rights¹¹ and the obligations of States parties to the International Covenant on Civil and Political Rights,¹² the International Covenant on Economic, Social and Cultural Rights,¹³ the Convention on the Elimination of All Forms of Discrimination against Women,¹⁴ the Convention on the Rights of the Child,¹⁵ the Convention on the Rights of Persons with Disabilities,¹⁶ the International Convention on the Elimination of All Forms of Racial Discrimination,¹⁷ and the International Convention on the Protection of the Rights of All Migrant Workers and Members of Their Families¹⁸

Recognising that the 2030 Agenda is guided by the purposes and principles of the Charter of the United Nations, including full respect for international law, and is grounded in the Universal Declaration of Human Rights, international human rights treaties, the Millennium Declaration and the 2005 World Summit Outcome and that it is informed by other instruments such as the Declaration on the Right to Development,

Taking into consideration the report of the Secretary-General on critical milestones towards coherent, efficient and inclusive follow-up and review at the global level¹⁹, and recognizing that the availability of, and access to, high-quality disaggregated data is essential for measuring progress toward and achieving the Sustainable Development Goals,

Reaffirming that the promotion, protection and respect for human rights and fundamental freedoms for all, which are universal, indivisible, interdependent and interrelated, should be mainstreamed into all policies and programmes aimed at the eradication of poverty, and achieve sustainable development,

¹¹ General Assembly resolution 217 A (III).

¹² See General Assembly resolution 2200 A (XXI), annex.

¹³ See General Assembly resolution 2200 A (XXI), annex.

¹⁴ United Nations, Treaty Series, vol. 1249, No. 20378.

¹⁵ Ibid., vol. 1577, No. 27531.

¹⁶ Ibid., vol. 2515, No. 44910.

¹⁷ Ibid., vol. 660, No. 9464.

¹⁸ Ibid., vol. 2220, No. 39481.

¹⁹ A/70/684.

Reaffirming also that sustainable development is a central goal in itself and that sustainable development in its economic, social and environment aspects constitutes a key element of the overarching framework of the United Nations,

Reaffirming further that eradicating poverty in all its forms and dimensions, including extreme poverty, is the greatest global challenge and an indispensable requirement for sustainable development,

Reaffirming also the commitment to gender equality and the empowerment of all women and girls in the ICPD Programme of Action and the 2030 Agenda for Sustainable Development, stressing that the achievement of full human potential and of sustainable development is not possible if women and girls continue to be denied the full realization of their human rights and opportunities; and that population and sustainable development policies and the collection and utilization of data therein should respect human rights and the empowerment of women and girls, without distinction of any kind,

Stressing the importance of protecting the achievements of the International Conference on Population and Development and of responding to progress, gaps, recurrent challenges and evolving issues relevant to population and development and to the changing development environment, acknowledging that the Programme of Action of the ICPD and the key actions for its further implementation have laid a foundation for sustainable development and that the full, effective and accelerated implementation of the Programme of Action of the ICPD will contribute significantly to the implementation of the 2030 Agenda for Sustainable Development that will leave no one behind,

Acknowledging the largest generation of adolescents and youth ever in history and cognizant that different demographic trends and age structures directly impact their lives and have various impacts on development, depending on circumstances in each country, and on the size of investments required to ensure the health and development of current and future generations, and recognizing the evolving capacities, needs, contributions and challenges of adolescents and youth, and that classifications and definitions of age groups vary in accordance with each country's national legislation,

Emphasizing that population issues are interlinked with sustainable development at the subnational, national, regional and global levels, requiring a multi-stakeholder and international approach, and acknowledging the need to integrate population dynamics and the use of population data into development planning, including its implications for human rights, dignity, quality of life and poverty eradication, at all levels, in order to achieve sustainable development, focused in particular on the needs of the poorest and those in vulnerable situations,

Noting that to meet current costs and emerging needs in the area of AIDS prevention, treatment, care and support, as well as reproductive cancer screening and treatment requires additional funding,

Recognizing that ill health and deaths related to malaria, Zika, and other vector-borne diseases throughout the world, particularly among women, children, adolescents and youth, can be substantially reduced with political commitment and commensurate resources if the public is educated and sensitized, and appropriate health services are made available, particularly in countries where these diseases are endemic,

Recognizing also that health is a precondition for economic and social development, and aware that sexual and reproductive health and reproductive rights are central to the realization of social justice and to the achievement of global, regional and national commitments for sustainable development,

Recalling the specific challenges faced by women and girls in humanitarian settings, including an increased risk of physical and sexual violence, reduced access to essential health care services, including sexual and reproductive health, education and other social services, and recognizing the importance of high quality data collection in humanitarian settings with respect for confidentiality,

Acknowledging the important link between migration and development, and recognizing that migration brings both opportunities and challenges to countries of origin, transit and destination, to migrants and to the global community, and recognizing also the responsibility of States to promote and protect the human rights and fundamental freedoms of all

migrants effectively, regardless of their migration status, especially that of women and children,

Aware that migration has increased in volume, scope, complexity and impact since the adoption of the Programme of Action of the International Conference on Population and Development, and that migration is an intrinsic feature of a globalizing world in which economic, social, cultural, demographic, political and environmental factors all play an important role,

Stressing that reliable, timely, high-quality, accessible and disaggregated demographic data need to be a central focus of any effort to strengthen statistical systems for the review and follow-up to the International Conference on Population and Development and for reviewing progress toward the Sustainable Development Goals, and the importance of the collection, analysis and dissemination of population data and statistics disaggregated by income, sex, age, race, ethnicity, migratory status, disability, geographic location and other characteristics relevant in national contexts for policy formulation by all countries,

Noting the importance of non-governmental organizations and other civil society actors in advancing the implementation of the Programme of Action and the key actions for its further implementation,²⁰ including through current mechanisms and the exploration of new data sources and technologies for data collection,

Noting also that countries will be implementing the 2030 Agenda from different starting points regarding levels of fertility, mortality and urbanization, and of persons entering the older age range and eventually needing support of various kinds and that national strategies should take account of these demographic realities in order to determine the resources required to achieve the 2030 Agenda for Sustainable Development,

Stressing that population and housing censuses are designed to generate valuable disaggregated statistics and indicators for assessing the situation of women and men, and various population groups, such as boys and girls, adolescents and youth, older persons, local communities, indigenous peoples and populations of African descent, persons with

²⁰ General Assembly Resolution S-21/2, annex.

disabilities, migrants, refugees, internally displaced persons and stateless persons, and changes therein,

Acknowledging that household surveys have served as a major source of data for development planning and policy decisions, and that the demand for data from household surveys will increase in order to assess the progress gaps and challenges in achieving the 2030 Agenda for Sustainable Development,

Noting that further progress towards the implementation of the Programme of Action, the key actions for its further implementation and other sustainable development goals and responses to challenges relevant to population and development at the regional, national and local levels will require special efforts to strengthen civil registration and vital statistics, and health information systems, as well as censuses, household surveys, population registers and other relevant administrative data sources, and to develop the capacity of relevant national institutions and mechanisms to generate, analyse and disseminate high quality, qualitative and quantitative, accessible, timely, reliable and disaggregated demographic data from all available sources, with respect to confidentiality as needed to monitor progress and ensure accountability,

Taking note of the report of the Secretary-General on strengthening the demographic evidence base for the post-2015 development agenda,²¹ and the report of the Secretary-General on programmes and innovations to strengthen the demographic evidence base for the implementation of the Programme of Action of the International Conference on Population and Development and the 2030 Agenda for Sustainable Development,²²

1. *Reaffirms* the Programme of Action¹ of the International Conference on Population and Development and the key actions for its further implementation,² and the outcomes of its reviews, and notes the outcome documents of the regional review conferences, stressing that the outcome documents of the regional review conferences provide region-specific guidance on population and development beyond 2014 for each region that adopted the particular outcome document;

²¹ E/CN.9/2016/3.

²² E/CN.9/2016/4.

2. *Also reaffirms* the sovereign right of each country to implement the recommendations of the Programme of Action or other proposals in the present resolution, consistent with national laws and development priorities, with full respect for the various religious and ethical values and cultural backgrounds of its people, and in conformity with universally recognized international human rights;

3. *Stresses* that the full implementation of the Programme of Action and the key actions for its further implementation as well as the Beijing Declaration and Platform for Action is integrally linked to global efforts to eradicate poverty in all its forms and dimensions, promote, protect and respect human rights, and achieve sustainable development and that population dynamics are all important for development, including for achieving the 2030 Agenda for Sustainable Development and the Addis Ababa Action Agenda of the Third International Conference on Financing for Development;

4. Recognizes the need to address persistent inequalities and discrimination on any grounds, which hamper the achievement of the goals and objectives of the Programme of Action of the International Conference on Population and Development and the key actions for its further implementation, especially for people in vulnerable situations;

5. Reiterates that the availability of high-quality, accessible, timely and reliable disaggregated demographic data is essential for planning and implementing policies and programmes to achieve the Programme of Action of the International Conference on Population and Development and the 2030 Agenda for Sustainable Development, for the measurement of progress, gaps and recurrent challenges in implementation, to ensure that no one is left behind;

6. *Urges* Governments to monitor their progress towards the implementation of the Programme of Action, the key actions for its further implementation and the sustainable development goals at the regional, national and local levels, and in this regard, to make special efforts to strengthen their civil registration and vital statistics and health information systems, and to develop the capacity of relevant national institutions and mechanisms to generate, analyse and disseminate high quality, accessible, timely, reliable disaggregated population data from all available official data sources, including population censuses, civil registration, household

surveys, population registers and other relevant administrative records, with respect for confidentiality, for the formulation and implementation of sustainable and inclusive population and development policies that respect, promote and protect human rights and aim at the achievement of gender equality and the empowerment of women and girls;

7. *Stresses* that of all the administrative data, health-related data are among the most critical to the full and effective implementation of the Beijing Platform for Action and the Programme of Action of the International Conference on Population and Development and the achievement of universal access to sexual and reproductive health and reproductive rights and urges Member States and relevant stakeholders to strengthen health management information systems;

8. *Encourages* Governments, international organizations, including of the United Nations system, international financial institutions and other relevant stakeholders, to assist developing countries in addressing gaps and challenges relevant to population and development and the changing development environment through technical assistance and capacity-building in order to accelerate the implementation of the Programme of Action and the key actions for its further implementation;

9. *Stresses* that population and housing censuses for a country as a whole and for each administrative area therein are one of the primary sources of data needed for formulating, implementing and monitoring the effectiveness of policies and programmes aimed at, inter alia, inclusive sustainable development, poverty eradication and gender equality and the empowerment of women and girls;

10. *Emphasizes* the importance of the 2020 World Population and Housing Census Programme for the planning and evaluation of development programmes, especially in the context of the 2030 Agenda for Sustainable Development, and calls for full-fledged support to the Programme by Member States and the international community;

11. *Urges* Governments to strengthen systems for the universal, reliable, and timely registration of birth, marriage, divorce, death, among other vital events, for linking the registration of vital events with the production of vital statistics, for assessing and improving over time the coverage, timeliness and accuracy of data generated by

that system and to promote the use of civil registration for collecting information on causes of death according to the international classification of diseases established by the World Health Organization;

12. *Also urges* all States parties to intensify their efforts to comply with their obligations under the Convention on the Rights of the Child to preserve the child's identity, including nationality, name and family relations, as recognized by law, reminding States of their obligation to register the birth of all children without discrimination of any kind, including late birth registration, and to ensure that registration procedures are universal, accessible, simple, expeditious and effective and provided at minimal or no-cost, in accordance with the goal to provide legal identity for all;

13. *Stresses* the importance of collecting and disseminating sex-disaggregated data and statistics on the minimum set of gender indicators such as unpaid care and domestic work, labour force participation and other social and economic status, and participation and leadership in political and economic life and the core set of violence against women and girls indicators adopted by the UN Statistical Commission in 2013, including on harmful practices such as child, early and forced marriage and female genital mutilation, and furthermore encourages the UN Statistical Commission to continue to support the implementation of a robust, transformative, inclusive, transparent and ambitious indicator framework for monitoring progress toward sustainable development;

14. *Also stresses* and encourages data collection, analysis and dissemination on adolescents to fill critical data gaps and inform effective policy development, including by fully utilizing disaggregated data and statistics;

15. *Encourages* Governments to collect, analyse and disseminate data on women and girls between the ages of 10-14 and over age 49, with due consideration to the confidentiality principle and professional ethics, to fill critical data gaps, and inform effective policy development;

16. *Emphasises* the importance of accessible, timely and reliable disaggregated qualitative data, research and analyses to complement quantitative population data, based primarily on official data sources, that are essential for evidence-based policy development, monitoring, review and follow-up;

17. *Stresses* that Governments should strengthen national capacities to conduct household surveys and encourages all data producers to implement existing standards and practices of data management, in particular legal and ethical standards and safeguards for the protection of confidentiality and privacy rights, including with respect to documentation, dissemination and archiving;

18. *Urges* Governments where relevant to promote the development of populations of African descent, local communities and indigenous peoples including by implementing public policies, establishing standards and creating institutions to guide and implement policies, plans and programmes at the sectoral level, and stresses the importance of disaggregated data collection and analysis for the implementation of these policies;

19. *Calls upon* the United Nations system and invites other relevant international organizations and multilateral institutions, as appropriate, to enhance their capacity and cooperation in the development of methodologies for the collection and processing of statistical data on international migration and refugee flows, and on the situation of migrants and refugees and asylum seekers, in particular women and girls, in countries of origin, transit and destination, and to assist Member States in their capacity-building efforts in this regard;

20. *Also calls upon* Governments and the United Nations system and other organizations to strengthen the collection and dissemination of data on ageing and older persons in order to adopt a life-cycle approach, and on persons living with disabilities;

21. *Urges* national authorities to leverage new data sources, including Big Data, and technology to improve the efficiency of data collection, processing and dissemination, to institute geo-referencing as a standard practice in all forms of demographic data collection, and to make

the corresponding spatial datasets publicly available in digital form with respect for confidentiality;

22. *Encourages* Governments to adopt open-data policies allowing the dissemination of public-use, geo-referenced and anonymized micro-data from censuses, household surveys, civil registration, population registers, health information systems and other relevant administrative records with respect for confidentiality;

23. *Reiterates* that demographic data are a public good, that the collection of these data is underfunded, especially in developing countries, reaffirms the commitment in the 2030 Agenda for Sustainable Development to support developing countries in strengthening the capacity of national statistical offices, other relevant governmental institutions, and data systems to ensure access to high-quality, timely, reliable and disaggregated data, and encourages developed countries, the United Nations System as well as other relevant international organizations and multilateral institutions to provide technical and financial support, upon request, and encourages further North-South, South-South and triangular cooperation, to strengthen national capacities to implement best practices of data management, including identifying needs related to population statistics, to help develop sustained systems of data collection, processing, dissemination and analysis in order to ensure access to high-quality, timely, reliable and disaggregated data;

24. *Urges* Governments to strengthen health systems, in particular health information systems, to promote physical and mental health and well-being, and extend life expectancy for all, achieve universal health coverage and access to quality health care to ensure that no one is left behind; to accelerate the progress made to date in reducing newborn, child and maternal mortality by ending all such preventable deaths before 2030; to ensure universal access to sexual and reproductive health-care services, including for family planning, information and education; to accelerate the pace of progress made in fighting malaria, HIV/AIDS, tuberculosis, hepatitis, Ebola, Zika and other communicable diseases and epidemics, including by addressing growing anti-microbial resistance and the problem of neglected diseases affecting developing countries; to prevent and treat non-communicable diseases, including behavioural, developmental and neurological disorders, which constitute a major challenge for sustainable development;

25. *Encourages* Governments, international organizations, including the United Nations system, international financial institutions, civil society, private sector, academia and other relevant stakeholders to assist developing countries in strengthening their capacities to monitor progress towards the implementation of the Programme of Action of the International Conference on Population and Development, the key actions for its further implementation, and the 2030 Agenda for Sustainable Development at the global, regional, national, and sub-national levels by improving the collection, dissemination and utilization of data and statistics disaggregated by income, sex, age, race, ethnicity, migratory status, disability, geographic location and other characteristics relevant in national contexts, mindful of a gender perspective from population censuses, civil registration, household surveys, population registers, and other relevant administrative records;

26. *Emphasizes* the importance of building and sustaining partnerships with regard to the collection, dissemination and use of demographic data, and capacity building among Governments, relevant civil society stakeholders and private sector actors, in particular academia and small and medium enterprises, including for the successful, participatory, and transparent review of progress toward the implementation of the Programme of Action of the International Conference on Population and Development, the key actions for its further implementation, and the 2030 Agenda for Sustainable Development, and invites all Governments, the United Nations system and other relevant international organizations, as well as the private sector and non-governmental organizations, to support these activities;

27. *Stresses* the importance to take into account population trends and projections in national, rural and urban development strategies and policies as well as the strengthening of capacity for data collection at the local and sub-national levels and in this context looking forward to the Third International Conference on Housing and Sustainable Urban Development (Habitat III) to be held in Quito, Ecuador in October 2016;

28. *Acknowledges* the role played by civil society organizations, including women and youth groups, in the implementation of the 2030 Agenda for Sustainable Development and the Programme of Action of the International Conference on Population and Development and the key actions for its further implementation, and encourages their active participation and contribution in the review of progress of the

implementation of the Programme of Action and in the follow up and review processes of the 2030 Agenda for Sustainable Development;

29. *Encourages* the Secretary General, in consultation with Member States and partnership with other stakeholders, to develop initiatives aimed at improving the demographic evidence base at the national level, including through regional and South-South cooperation, triangular and North-South cooperation, in order to assist Member States in mainstreaming the consideration of population issues in national development strategies and in the implementation of the 2030 Agenda for Sustainable Development;

30. *Calls upon* Governments and United Nations agencies, as appropriate, to actively support increased capacity and participation of young people in the use of population data, taking into account gender equality and representation of youth of various backgrounds, to contribute to the implementation, monitoring and evaluation of, as appropriate, international, regional, national and local development strategies and policies that affect young people;

31. *Also calls upon* the United Nations Population Fund to continue to play a crucial role, within its mandate, in assisting countries to strengthen the demographic evidence base, based on their needs and in consultation with them, to enable countries to achieve the full and effective implementation of the goals and objectives contained in the Programme of Action of the International Conference on Population and Development and the key actions for its further implementation beyond 2014, and in the 2030 Agenda for Sustainable Development;

32. *Requests* the Secretary-General to continue his substantive work on population and development, including on the interactions between population dynamics, inequalities and the achievement of the internationally agreed development goals, to pursue further improvements in the accessibility and timeliness of disaggregated population data for use by Member States, the United Nations system, civil society and academia, and in collaboration with the United Nations system and relevant organizations outside the United Nations, civil society and academia to continue assessing and reporting on progress towards the full implementation of the Programme of Action of the International Conference on Population and Development, the key actions for its further implementation, and the 2030 Agenda for Sustainable Development.

Decision 2016/101

Special themes for the Commission on Population and Development in 2017 and 2018

The Commission on Population and Development,

(a) Decides that the special theme for its fiftieth session in 2017 shall be “Changing population age structures and sustainable development”;

(b) Also decides to postpone the decision on the special theme for its fifty-first session in 2018 until its fiftieth session pending the decisions on the annual theme of the Economic and Social Council for 2018 and on the cycle of review of the 2030 Agenda for Sustainable Development by the high-level political forum.

Decision 2016/102

Documents considered by the Commission on Population and Development at its forty-ninth session**

The Commission on Population and Development takes note of the following documents:

(a) Report of the Secretary-General entitled “Programme implementation and progress of work in the field of population in 2015: Population Division, Department of Economic and Social Affairs”,²³

(b) Note by the Secretariat on the proposed strategic framework for the period 2018-2019: subprogramme 5, Population, of programme 7, Economic and social affairs.²⁴

** For the discussion, see chap. VI.

²³ [E/CN.9/2016/7](#).

²⁴ [E/CN.9/2016/CRP.1](#).

Chapter II

Actions for the further implementation of the Programme of Action of the International Conference on Population and Development

4. The Commission held a general discussion on item 3 of its agenda, “Actions for the further implementation of the Programme of Action of the International Conference on Population and Development”, at its 2nd meeting, on 11 April 2016. It had before it the following documents:

(a) Report of the Secretary-General on Strengthening the demographic evidence base for the post-2015 development agenda ([E/CN.9/2016/3](#));

(b) Report of the Secretary-General on Programmes and innovations to strengthen the demographic evidence base for the implementation of the Programme of Action of the International Conference on Population and Development and the post-2030 Agenda for Sustainable Development ([E/CN.9/2016/4](#));

(c) Report of the Secretary-General on Monitoring the flow of financial resources to support the implementation of the Programme of Action of the International Conference on Population and Development ([E/CN.9/2016/5](#)).

5. At the 2nd meeting, on 11 April, introductory statements were made by the Chief of the Demographic Analysis Branch of the Population Division, Department of Economic and Social Affairs and the Director of the Technical Division, United Nations Population Fund.

6. At its 2nd meeting, on 11 April, the Commission heard statements by representatives of Germany and the Russian Federation.

Keynote addresses and panel discussions

7. At its 2nd meeting, on 11 April, the Commission heard a keynote statement on the theme “The demographic evidence base and indicators for the 2030 Agenda: a global overview”, which was delivered by Lisa Bersales, Professor and Chief Statistician of the Philippines and Co-Chair of the Inter-Agency and Expert Group on Sustainable Development Goals Indicators. Ms. Bersales emphasized that population data are critically important, as many SDGs and targets require population information as

inputs. Moreover, trends in demographic indicators are intertwined with many aspects of socio-economic development. The Commission then engaged in an interactive discussion in which representatives of Uganda and Japan, as well as observers for the Sudan and the League of Arab States participated.

8. At its 4th meeting, on 12 April, the Commission heard a keynote statement on the theme “Integration of traditional and new data sources and technologies: from censuses to big data” by Andrew Tatem, Professor, University of Southampton, United Kingdom. Mr. Tatem discussed how the use of new data sources, including household surveys, satellite and GIS data, and cellphone data, can be used to complement censuses and other traditional data sources for mapping and monitoring many of the indicators of the 2030 Agenda for Sustainable Development. Representatives of Germany, the United States, Japan and the Russian Federation, as well as observers for

Cuba, Guinea, Afghanistan and Togo participated in the interactive debate following the keynote presentation. Both keynote statements were moderated by the Chair of the session, Mwaba Patricia Kasese-Bota.

9. At its 6th meeting, on 13 April, the Commission held an interactive discussion on “Integrating population issues into sustainable development”, with the following panellists: Eduardo Clark, Office of the President, Mexico; Vladimir Shkolnikov, Max Planck Institute for Demographic Research, Germany; John Ssekmatte, National Planning Authority, Uganda; Ann Starrs, Guttmacher Institute, USA. The discussion was moderated by Bill Miller of Global Connection Television. Panellists pointed out that data used for the review of the 2030 Agenda should be easily accessible and freely available, and that capacity-building in the analysis and use of the data had to be strengthened. In the interactive discussion, representatives of Uganda, the United States of America, Peru and the Plurinational State of Bolivia, as well as observers for Cuba and the Sudan participated.

Action taken by the Commission

Special themes for the Commission on Population and Development in 2016 and 2017

10. At its 9th meeting, on 15 April, the Commission had before it a draft decision entitled “Special themes for the Commission on Population and Development in 2017 and 2018” (E/CN.9/2016/L.4), submitted by the Chair on the basis of informal consultations.

11. Also at its 9th meeting, the Commission adopted the draft decision (see chap. I, sect. B, decision 2016/101).

Strengthening the demographic evidence base for the 2030 Agenda for Sustainable Development

12. At its 9th meeting, on 15 April, the Commission had before it the text of a draft resolution entitled “Strengthening the demographic evidence base for the 2030 Agenda for Sustainable Development”, submitted by the Chair on the basis of informal consultations and circulated in English only.

13. Before the adoption of the draft resolution, the representative of Nigeria made a statement.

14. The Chair then also made a statement and informed that the Secretariat did not have enough time to assess any budgetary implications of this draft resolution, which would therefore be prepared and provided to the Economic and Social Council at the time of its consideration of the draft resolution.

15. At the same meeting, the Commission adopted the draft resolution (see chap. I, sect. B, resolution 2016/1), as orally revised.

16. After the adoption of the draft resolution, statements were made by representatives of the Islamic Republic of Iran, the Russian Federation, the Netherlands (on behalf of the European Union and its member States), South Africa, Brazil, the United States, Norway and Malaysia, as well as by observers for Qatar, Canada, Trinidad and Tobago and Guyana. The observer for the Holy See also made a statement.

17. The co-facilitators of the informal consultations on the special theme of the session and on the special themes for 2017 and 2018, Nadine Skale, Vice-Chair (Germany), and Franklyn Fawundu (Sierra Leone), made statements.

Chapter III

General debate on national experience in population matters: strengthening the demographic evidence base for the post-2015 development agenda

18. The Commission held a general discussion on item 4 of its agenda, “General debate on national experience in population matters: strengthening the demographic evidence base for the post-2015 development agenda”, at its 3rd to 7th meetings, from 11 to 14 April 2016. Inputs to this discussion included statements submitted by non-governmental organizations²⁵ ([E/CN.9/2016/NGO/1-20](#)).

19. At its 3rd meeting, on 11 April, the Commission heard statements by representatives of Uganda (on behalf of the African group), the Netherlands (on behalf of the European Union and its member States), Bangladesh, Egypt, Nigeria, Mexico, Zambia, South Africa, the United States, Brazil, the Philippines, the Republic of Moldova, Pakistan, Mongolia and the Netherlands, as well as by observers for Thailand (on behalf of the Group of 77 and China), Honduras, Afghanistan, Poland, the Lao People’s Democratic Republic, India, Guatemala, Indonesia, Kenya, Myanmar, the Niger, Qatar and Finland.

20. At its 4th meeting, on 12 April, the Commission heard statements by representatives of Belarus, Madagascar, Sierra Leone, the Islamic Republic of Iran, Israel and Denmark, as well as observers for Lebanon, Canada, Sri Lanka, Colombia, Swaziland, the Maldives, Botswana, Togo, Turkey and Cabo Verde.

21. At its 5th meeting, on 13 April, the Commission heard statements by representatives of Uruguay, China, Belgium, Japan, Jamaica, Malaysia, Switzerland, Norway, Burundi, the United Republic of Tanzania, the Russian Federation, Uganda, and Argentina, as well as observers for Ukraine, the Sudan, Tunisia, Suriname, Nepal, Morocco, Cameroon, Cuba, Italy, Jordan, Côte d’Ivoire, the Gambia, Sweden, France, Malawi, and South Sudan.

22. At its 6th meeting, on 13 April, the Commission heard statements by representatives of Peru, Romania and Liberia, as well as by observers for Costa Rica, Azerbaijan, the Federated States of Micronesia and Ghana. In addition, it heard statements by observers for the Holy See, the State of Palestine and the League of Arab States. Statements were also made by

²⁵ Only non-governmental organizations in consultative status with the Economic and Social Council or accredited to the forty-ninth session of the Commission were permitted to participate in the forty-ninth session of the Commission.

representatives of the United Nations Entity for Gender Equality and the Empowerment for Women (UN-Women), the Economic Commission for Europe and the International Labour Organization.

23. At the same meeting, statements were also made by representatives of the following non-governmental organisations: International Catholic Committee of Nurses and Medico-Social Assistants and Stichting dance4life.

24. Statements in the exercise of the right of reply were made by representatives of Armenia and Azerbaijan.

25. At its 7th meeting, on 14 April, the Commission heard statements by representatives of the following non-governmental organizations: Asian-Pacific Resource and Research Centre for Women, International Federation for Family Development, Inter-European Parliamentary Forum on Population and Development, Stichting Rutgers WPF, Minnesota Citizens Concerned for Life Inc. Education Fund, Catholic Family and Human Rights Institute Inc., Global Helping to Advance Women and Children, Fundación para Estudio Investigación de la Mujer, Poverty Elimination and Community Education Foundation, World Young Women's Christian Association, International Planned Parenthood Federation, Franciscans International, Women's Global Network for Reproductive Rights, World Youth Alliance, FEMM Foundation, Global Foundation for Democracy and Development and the International Federation of Medical Student's Association.

Chapter IV

General debate on the contribution of population and development issues to the Economic and Social Council in 2016, on “Implementing the post-2015 development agenda: moving commitments to results”

26. The Commission jointly considered item 5 of its agenda, “General debate on the contribution of population and development issues to the Economic and Social Council theme in 2016 on ‘Implementing the post-2015 development agenda: moving from commitments to results’”, and item 7 of its agenda, “Review of the functioning of the methods of work of the Commission”, at its 7th meeting, on 14 April 2016, and heard an address by the Vice-President of the Economic and Social Council on the contribution of population and development issues to the theme of the 2016 Economic and Social Council meeting.

Chapter V

Review of the functioning of the methods of work of the Commission

27. Also at the 7th meeting, the Chief of the Migration Section of the Population Division of the Department of Economic and Social Affairs, introduced a note by the Secretariat as contained in document [E/CN.9/2016/8](#). The Commission then heard statements by representatives of Peru, Argentina, the Netherlands (on behalf of the European Union and its member States) and China, as well as observers for Indonesia, Maldives and Cuba. Representatives of the United Nations Office for Disaster Risk Reduction and the Economic Commission for Latin America and the Caribbean also made statements.

Action taken by the Commission

Documents considered by the Commission under agenda item 7

28. At its 7th meeting, on 14 April, the Commission had before it the text of a draft resolution entitled “Future organization and methods of work of the Commission on Population and Development”, submitted by the Chair on the basis of informal consultations and circulated in English only.

29. The Chair then made a statement to inform that the Secretariat did not have enough time to assess any budgetary implications of this draft resolution, which would therefore be prepared and provided to the Economic and Social Council at the time of its consideration of the draft resolution.

30. At the same meeting, the Commission adopted the draft resolution as orally revised (see chap. I, sect. A). The representative of Brazil made a statement.

Chapter VI

Programme implementation and future programme of work of the Secretariat in the field of population

31. At its 8th meeting, on 15 April 2016, the Commission held a general discussion on item 6 of its agenda, “Programme implementation and future programme of work of the Secretariat in the field of population”. It had before it the following documents:

(a) Report of the Secretary-General on “World demographic trends” ([E/CN.9/2016/6](#));

(b) Report of the Secretary-General entitled “Programme implementation and progress of work in the field of population in 2015: Population Division, Department of Economic and Social Affairs” ([E/CN.9/2016/7](#));

(c) Note by the Secretary-General on the proposed strategic framework for the period 2018-2019: subprogramme 5, Population of programme 7, Economic and social affairs ([E/CN.9/2016/CRP.1](#)).

32. At the same meeting, the Commission heard introductory statements by the Chief of the Population Estimates and Projections Section and the Senior Population Affairs Officer in the Office of the Director, Population Division, Department of Economic and Social Affairs.

33. Statements were made by representatives of the United States, Germany, China and Japan. The representative of the United Nations Economic Commission for Africa also made a statement.

Action taken by the Commission

Documents considered by the Commission under agenda item 6

34. At its 9th meeting, on 15 April, on the proposal of the Chair, the Commission took note of a number of documents submitted under agenda item 6 (see chap. I, sect. B, decision 2016/102).

Chapter VII

Provisional agenda for the fiftieth session of the Commission

35. At its 9th meeting, on 15 April, the Commission had before it the provisional agenda for the fiftieth session of the Commission ([E/CN.9/2016/L.2](#)) and its revisions.

36. The co-facilitators of the informal consultations on the Commission's methods of work and on the provisional agenda for its fiftieth session, Oana Rebedea, Vice-Chair (Romania), and Iara Beekma Reis (Plurinational State of Bolivia), made statements.

37. The Commission then approved the provisional agenda as revised (see chap. I, sect. A).

Chapter VIII

Adoption of the report of the Commission on its forty-ninth session

38. At its 9th meeting, on 15 April, the Commission adopted the draft report on the forty-ninth session of the Commission ([E/CN.9/2016/L.3](#)) and authorized the Vice-Chair and Rapporteur, Mr. Ebrahim Alikhani (Islamic Republic of Iran), to finalize it, in consultation with the Secretariat.

Chapter IX

Organization of the session

A. Opening, closing and duration of the session

39. The Commission on Population and Development held its forty-ninth session at United Nations Headquarters on 17 April 2015 and from 11 to 15 April 2016. The Commission held 9 meetings (1st to 9th).

40. At the 2nd meeting, on 11 April 2015, the session was opened by the Chair of the Commission, Mwaba Patricia Kasese-Bota (Zambia), who also made a statement. At the same meeting, the Commission heard statements by the Secretary-General of the United Nations, the Executive Director of the United Nations Population Fund and the Director of the Population Division, Department of Economic and Social Affairs.

42. During the closing, the Assistant Secretary-General for Economic Development, the Executive Director of the United Nations Population Fund and the Chair made a statement.

B. Attendance

42. The session was attended by 46 States members of the Commission. Observers for other States Members of the United Nations and 2 non-Member States, representatives of organizations and other entities of the United Nations system and observers for intergovernmental and non-governmental organizations also attended²⁵. The list of delegations is available in document [E/CN.9/2016/INF/1](#).

C. Election of officers

43. At its 1st and 2nd meetings, on 17 April 2015 and 11 April 2016, the Commission elected the following officers by acclamation:

Chair:

Mwaba Patricia Kasese-Bota (Zambia)

Vice-Chairs:

Nadine Skale (Germany)

Ebrahim Alikhani (Islamic Republic of Iran)

Patricia Chemor Ruiz (Mexico)

Oana Rebedea (Romania)

44. At its 2nd meeting, on 11 April, the Commission designated the Vice-Chair, Ebrahim Alikhani (Islamic Republic of Iran), to serve also as Rapporteur for the session.

45. At the same meeting, the Chair designated the Vice-Chairs, Nadine Skale (Germany) and Oana Rebedea (Romania), as well as Franklyn Fawundu (Sierra Leone) and Iara Beekma Reis (the Plurinational State of Bolivia), as facilitators for the informal consultations.

D. Report of the Bureau of the Commission on its intersessional meetings

46. At the 2nd meeting, the Chair introduced the report of the Bureau of the Commission on its intersessional meetings ([E/CN.9/2016/2](#)).

47. At the same meeting, the Commission took note of the report of the Bureau.

E. Agenda

48. At its 2nd meeting, the Commission adopted the provisional agenda ([E/CN.9/2016/1](#)), which read:

1. Election of officers.
2. Adoption of the agenda and other organizational matters.
3. Actions for the further implementation of the Programme of Action of the International Conference on Population and Development.
4. General debate on national experience in population matters: strengthening the demographic evidence base for the post-2015 development agenda.
5. General debate on the contribution of population and development issues to the Economic and Social Council theme in 2016 on “Implementing the post-2015 development agenda: moving from commitments to results”.

6. Programme implementation and future programme of work of the Secretariat in the field of population.

7. Review of the functioning of the methods of work of the Commission.

8. Provisional agenda for the fiftieth session of the Commission.

9. Adoption of the report of the Commission on its forty-ninth session.

49. At the same meeting, the Commission approved the organization of work of the session ([E/CN.9/2016/L.1](#)).

F. Documentation

50. The list of documents before the Commission at its forty-ninth session is available at

<http://www.un.org/en/development/desa/population/commission/sessions/2016/index.shtml>.
