In the country profiles, data on selected demographic and socio-economic indicators are presented for 1985, 1995, 2005 and 2013, or the closest years. For period indicators such as annual growth rate, total fertility, infant mortality rate and net migration rate, average annual rates for corresponding periods 1980–1985, 1990–1995, 2000–2005 and 2010–2015 are presented. Data on population indicators were compiled during October and November 2013 from the following sources:

**Percentage of births attended by trained health professional:** The World Bank. Available from http://data.worldbank.org/indicator/SH.STA.BRTC.ZS.

**Percentage of obese among adults aged 20 years or over:** World Health Organization. *Global Health Observatory Data Repository*. Available from http://apps.who.int/gho/data/#
