#### Introduction

The General Assembly will be conducting in 2012 the first-ever quadrennial comprehensive policy review of UN operational activities for development.

As an input to this important intergovernmental process, the UN Secretariat is seeking the views of current and former UN Resident Coordinators and country team members on a number of issues that impact the relevance, effectiveness and efficiency of UN development operations in programme countries.

This survey is divided into two parts:

**Part A** is for the UN Resident Coordinators and UNCT members. This part of the survey is designed to be completed in approximately 15 minutes.

Please note that the last two questions in this section are only for UN RCs and UNCT members in countries with a Peacekeeping or Special Political Mission.

**Part B** is to be completed only by UN Resident Coordinators in programme countries that formulated an UNDAF in either 2010 or 2011. This part of the survey is also designed to be completed in approximately 15 minutes.

The term 'UN agencies' is used in the questionnaire as shorthand for UN funds, programmes, departments and specialized agencies.

The software allows the questionnaire to be saved and reopened at a later stage on the same computer.

Responses and comments will be treated in **strict confidence**. The reporting will not contain any data or statement from which a reader can identify you, your organization or the country where you are working. Responses will be amalgamated by groups of countries.

If you have any questions, please contact Agust Olafur Agustsson at agustsson@un.org.
