

Russian delegation to the Fifth Committee

Second resumed part of 66th session

Closure of the session – June 12, 2012

Comments before adopting draft resolution on MINUSTAH (Haiti)

Russian delegation has supported the consensus draft resolution. However, we would like to comment on one particular issue.

We note that next year it will be difficult for us to support the agreed language on local procurement. We are sure that any procurement activities shall be performed under the existing financial rules and regulations. We also expect comprehensive discussion of the issue of local procurement and other procurement reforms at our 67th session.
