

MY World Global Results

Heat Map for votes on "Reliable Energy at Home"

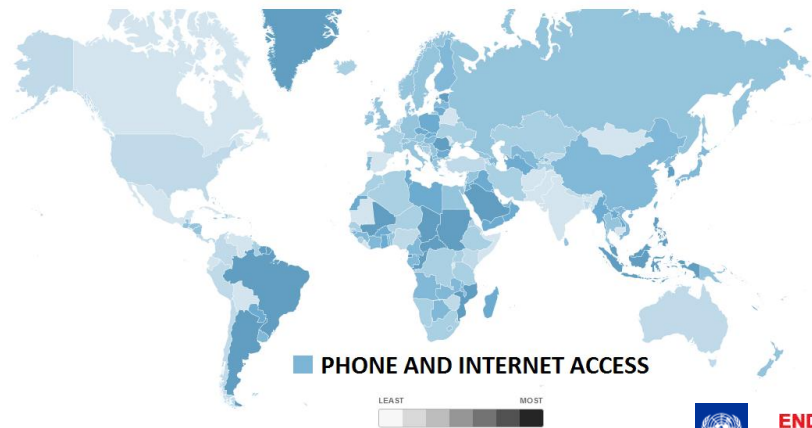

The Global Conversation shows the strong relationship between Cooperation and Development. There is also a strong connection between Sustainability, Partnerships, Local Issues, Trade, and Cooperation.

The Equator Initiative dataset shows award-winning sustainable development solutions from local communities. Environmental Conservation, Poverty, Women, Agriculture, and Biodiversity are key issues strongly connected to Cooperation in the implementation of solutions at the local level.

World Map of Post-2015 Conversations on Twitter

The World Map of Twitter Conversations shows a real-time breakdown of online twitter activity around "Phone and Internet Access" in the context of the Post-2015 Agenda. The database examines real-time global twitter posts and presents the results against the each of the sixteen MY World priorities.
