THE FOOD THINK TANK

# Zero Hunger Challenge 2014

Food Tank is a think tank focused on feeding the world better. We conduct research and cultivate networks of people, organizations, and content to push for food system change.

**Below is an overview of Food Tank: The Food Think Tank's participation in the Zero Hunger Challenge.**

## **GOAL 1: Zero stunted children less than two years**

- Food Tank is highlighting the importance of preventing malnutrition through access to affordable, nutritious, healthy food and safe water as well as combating malnutrition through sustainable farming practices.

## **GOAL 2: 100 percent access to adequate food all year round**

- Food Tank is an independent voice amplifying the voice of others who are seeking solutions to our broken food system through stories of hope, success, and innovation in creating global access to adequate food.

## **GOAL 3: All food systems are sustainable**

- Food Tank's work emphasizes how farmers aren't just farmers--they're business women and men, they're innovators, they're teachers in their communities, and they're environmental stewards who are providing nutrient dense crops to eaters while also protecting natural resources.

## **GOAL 4: 100 percent increase in smallholder productivity and income**

- Food Tank is helping democratize innovation ensuring that farmers, policy-makers, youth, and businesses have the resources and tools they need to ensure not only adequate access to food, but also that agricultural production is sustainable, nutritious, and resilient.

## **GOAL 5: Zero lost or waste of food**

- Food Tank is highlighting how small, medium, and large-scale farmers, food manufacturers, food retailers, restaurants, schools, and other institutions are working to reduce loss in the fields and on plates.

**Food Tank is proud to be a partner of the Zero Hunger Challenge!**
