

Survey of programme countries on UN operational activities for

Introduction

Welcome to this survey on UN development cooperation, requested by the UN General Assembly.

The aim of the survey is to give programme countries an opportunity to provide feedback, with a view to improving the performance of the UN development system. The survey report will serve as an important input to the 2012 quadrennial comprehensive policy review of the General Assembly of UN operational activities for development.

The survey respondents are senior government officials responsible for or closely associated with coordinating UN development cooperation at the country level. You may wish to consult with colleagues in order to answer certain questions. As an aid to these consultations, we have provided a copy of the questionnaire that can be printed out.

Please be sure to submit the official response online. The software allows the questionnaire to be saved and reopened at a later stage on the **same computer**. Only one questionnaire may be completed per country.

Responses and comments will be treated in strict confidence. The reporting will not contain any data or statement from which a reader can identify the source. Responses will be amalgamated by groups of countries.

Please contact the UN Resident Coordinator or Agust O Agustsson at agustsson@un.org for any questions.

Thank you for your cooperation!

Topic 1 - Relevance

In the context of this survey, relevance is about matching the needs and priorities of your country with the mandates and capacities of the UN.

The term 'UN agencies' is used in the questionnaire as shorthand for UN funds, programmes and specialized agencies.

You will note that some of the questions are phrased as statements. In these cases, please indicate how much you agree or disagree with the statement.

1. The activities of the UN and your country's development needs and priorities are:

Very closely aligned Closely aligned Somewhat aligned Not aligned at all

Please provide any additional comments

2. The efforts of the UN are focused on assisting your country in achieving the Millennium Development Goals (MDGs): *(The main areas of the MDGs are: end poverty and hunger, universal education, gender equality, child health, maternal health, combat HIV/AIDS, environmental sustainability and global partnership)*

Strongly agree Somewhat agree Somewhat disagree Strongly disagree Don't know

Please provide any additional comments:

3. The introduction of the United Nations Development Assistance Framework (UNDAF), or an alternative UN planning framework, has enabled the Government to ensure that the UN's activities are closely aligned with your national plans and strategies: *(The UNDAF is an instrument for joint planning of UN agencies at the country level. Other similar UN planning tools include One Plan/One Programme formats and "integrated strategic frameworks" in some countries in transition from relief to development)*

Strongly agree Somewhat agree Somewhat disagree Strongly disagree Not applicable

Please provide any additional comments:
