
- The Government of the Democratic People’s Republic of Korea has established the National multi-year Plan for Reforestation and Plantation of its entire land by the year 2012.
- In 2011, the DPRK Government plans various activities in celebration of the IYF including, inter alia, planting over 1 billion trees throughout the country, raising awareness of the climate change and the role of forests through publication and mass media (radio, TV, etc.), introduction of visual posters about reforestation, organizing lectures, seminars and the fine-art competition of forest-loving children.

The Permanent Mission of the Democratic People’s Republic of Korea to the United Nations avails itself of this opportunity to renew to the Secretariat of the United Nations the assurances of its highest consideration.
