

Quadrennial programme of work of the United Nations Forum on Forests for the period 2017-2020

1. The United Nations Forum on Forests carries out its core functions on the basis of the United Nations strategic plan for forests 2017-2030. The Forum's quadrennial programme of work represents its contribution to implementing the strategic plan and sets the agenda for each session of the Forum within the quadrennium.
2. The quadrennial programme of work identifies thematic and operational priorities, priority actions and resource needs.
3. The quadrennial programme of work reflects the linkage between odd-year and even-year sessions of the Forum. As a general rule:
 - (a) Odd-year sessions focus on discussions on implementation and technical advice, including exchange of experiences among Member States, CPF member organizations, regional and subregional organizations, major groups and other relevant stakeholders, and the science-policy interface. The output of odd-year sessions is a chair's summary report of these discussions, including possible proposals, that is reported to the Forum at its subsequent sessions in the even-year for further consideration and recommendations.
 - (b) Even-year sessions focus on policy dialogue, development and decision-making, taking into account the discussions and proposals of the previous session. The substantive output of even-year sessions is a concise Forum resolution or decision on the next steps;
 - (c) Odd-year and even-year sessions for a given biennium are thematically linked. Thematic and operational priorities, priority actions and resource needs for each biennium are identified by the Forum on the basis of the global goals and targets contained in the UN Strategic Plan, taking into account the annual themes and Sustainable Development Goals under review by the high-level political forum on sustainable development.
 - (d) The Forum sessions and their outcomes, as well as intersessional work should maximize impact and relevance of the work of the Forum.
4. Intersessional activities, including CLIs and other similar initiatives can contribute to the 4POWs and the implementation of the UNSPF.
5. The twelfth and fourteenth sessions of the Forum focus on technical advice and the thirteenth and fifteenth sessions on policy dialogue, development and decision-making (see tables 1-4 below).
6. Given that the twelfth session of the Forum, in 2017, is the first session following the adoption of Economic and Social Council resolution 2015/33 and the strategic plan, it is transitional in nature and may take decisions on matters called for in the resolution as needed to facilitate the Forum's work.
