NOTE: The five scenarios are briefly as follows:

- I - Corresponds to the medium variant of the official United Nations population projections (*World Population Prospects 1998 Revision*);
- II - This scenario amends the medium variant by assuming no migration after 1995;
- III - This scenario keeps the total population figure constant at the highest level that it would reach in absence of migration after 1995.
- IV - This scenario keeps the number of persons aged 15-64 constant at the highest level that it would reach in absence of migration after 1995.
- V - This scenario keeps the ratio of persons aged 15-64 to persons aged 65 and above at the highest level that it would reach in absence of migration after 1995.
