EXECUTIVE SUMMARY	1
<i>Chapter</i>	
I. INTRODUCTION: THE ISSUES	5
II. LITERATURE REVIEW	9
III. THE APPROACH: METHODOLOGY AND ASSUMPTIONS	13
IV. RESULTS	
A. Overview	19
B. Country results	29
1. France.....	31
2. Germany	37
3. Italy	43
4. Japan	49
5. Republic of Korea.....	55
6. Russian Federation.....	61
7. United Kingdom of Great Britain and Northern Ireland.....	67
8. United States of America.....	73
9. Europe	79
10. European Union	85
V. CONCLUSIONS AND IMPLICATIONS.....	93
REFERENCES.....	97
SELECTED BIBLIOGRAPHY	99

TABLES

<i>No.</i>		
1.	Net number of migrants by country or region and scenario, 2000-2050	2
I.1.	Countries whose population is expected to decline between 2000 and 2050: changes in the total population and in the proportion aged 65 years or older	6
I.2.	Values of the potential support ratio (PSR) by projection variant	7
III.1.	Percent distribution of net number of migrants by age and sex, model pattern	17
IV.1.	Total fertility rates, 1950 to 2050, by country or region.....	23
IV.2.	Total population (zero migration after 1995), 1950 to 2050, by country or region.....	23
IV.3.	Potential support ratio (zero migration after 1995), 1950 to 2050, by country or region	23
IV.4.	Net number of migrants, 1995-2050, by scenario and country or region	24

<i>No.</i>		<i>Page</i>
IV.5.	Potential support ratio in 1995, and in 2050 by scenario and country or region.....	24
IV.6.	Average annual net number of migrants between 2000 and 2050, per million inhabitants in 2000, by scenario and country or region	25
IV.7.	Per cent of post-1995 migrants and their descendants in total population in 2050, by scenario and country or region.....	25
IV.8.	Net annual migration flows, 1990 to 1998	26
IV.9.	Migrant stock (foreign-born), 1990.....	26
IV.10.	Upper limit of working-age needed to obtain in 2050 the potential support ratio observed in 1995, scenario II, by country or region	27
IV.11.	Total population in 1995 and in 2050, and growth rates by scenario, by country or region	27
IV.12.	Population indicators for France by period for each scenario.....	33
IV.13.	Population indicators for Germany by period for each scenario.....	39
IV.14.	Population indicators for Italy by period for each scenario	45
IV.15.	Population indicators for Japan by period for each scenario	51
IV.16.	Population indicators for the Republic of Korea by period for each scenario	57
IV.17.	Population indicators for Russian Federation by period for each scenario.....	63
IV.18.	Population indicators for the United Kingdom of Great Britain and Northern Ireland by period for each scenario.....	69
IV.19.	Population indicators for the United States of America by period for each scenario	75
IV.20.	Population indicators for Europe by period for each scenario	81
IV.21.	Population of the member countries of the European Union, 1995 and 2050, scenario I.....	85
IV.22.	Population indicators for the European Union by period for each scenario.....	88

FIGURES

<i>No.</i>		
1.	Average annual net number of migrants between 2000 and 2050 to maintain size of working-age population, per million inhabitants in 2000.....	3
I.1.	Per cent change in total population for selected countries and regions, 2000-2050.....	8
III.1.	Per cent distribution of male immigrants by age in Australia, Canada, United States and model pattern.....	16
III.2.	Per cent distribution of female immigrants by age in Australia, Canada, United States of America and model pattern	16
III.3.	Age-sex pyramid of immigrants, model pattern	17
IV.1.	Average annual net number of migrants between 2000 and 2050 to maintain size of working-age population per million inhabitants in 2000.....	28
IV.2.	Average annual net number of migrants between 2000 and 2050 by scenario for the European Union	28
IV.3.	France, age-sex structures by scenario for 2000, 2025 and 2050.....	34
IV.4.	Population of France in 2050, indicating those who are post-1995 migrants and their descendants, by scenario	36
IV.5.	Germany, age-sex structures by scenario for 2000, 2025 and 2050.....	40
IV.6.	Population of Germany in 2050, indicating those who are post-1995 migrants and their descendants, by scenario	42
IV.7.	Italy, age-sex structures by scenario for 2000, 2025 and 2050.....	46
IV.8.	Population of Italy in 2050, indicating those who are post-1995 migrants and their descendants, by scenario	48
IV.9.	Japan, age-sex structures by scenario for 2000, 2025 and 2050	52
IV.10.	Population of Japan in 2050, indicating those who are post-1995 migrants and their descendants, by scenario	54
IV.11.	Republic of Korea, age-sex structures by scenario for 2000, 2025 and 2050.....	58

<i>No.</i>		<i>Page</i>
IV.12.	Population of the Republic of Korea in 2050, indicating those who are post-1995 migrants and their descendants, by scenario	60
IV.13.	Russian Federation, age-sex structures by scenario for 2000, 2025 and 2050.....	64
IV.14.	Population of the Russian Federation in 2050, indicating those who are post-1995 migrants and their descendants, by scenario	66
IV.15.	United Kingdom, age-sex structures by scenario for 2000, 2025 and 2050	70
IV.16.	Population of the United Kingdom in 2050, indicating those who are post-1995 migrants and their descendants, by scenario	72
IV.17.	United States, age-sex structures by scenario for 2000, 2025 and 2050.....	76
IV.18.	Population of the United States in 2050, indicating those who are post-1995 migrants and their descendants, by scenario	78
IV.19.	Europe, age-sex structures by scenario for 2000, 2025 and 2050	82
IV.20.	Population of Europe in 2050, indicating those who are post-1995 migrants and their descendants, by scenario	84
IV.21.	Population of the European Union in 2050, indicating those who are post-1995 migrants and their descendants, by scenario	89
IV.22.	European Union, age-sex structures by scenario for 2000, 2025 and 2050	90

ANNEX TABLES

<i>No.</i>		
A.1.	France, <i>1998 Revision</i>	104
A.2.	France, replacement migration scenarios	106
A.3.	Germany, <i>1998 Revision</i>	108
A.4.	Germany, replacement migration scenarios.....	110
A.5.	Italy, <i>1998 Revision</i>	112
A.6.	Italy, replacement migration scenarios.....	114
A.7.	Japan, <i>1998 Revision</i>	116
A.8.	Japan, replacement migration scenarios	118
A.9.	Republic of Korea, <i>1998 Revision</i>	120
A.10.	Republic of Korea, replacement migration scenarios.....	122
A.11.	Russian Federation, <i>1998 Revision</i>	124
A.12.	Russian Federation, replacement migration scenarios.....	126
A.13.	United Kingdom of Great Britain and Northern Ireland, <i>1998 Revision</i>	128
A.14.	United Kingdom of Great Britain and Northern Ireland, replacement migration scenarios	130
A.15.	United States of America, <i>1998 Revision</i>	132
A.16.	United States of America, replacement migration scenarios	134
A.17.	Europe, <i>1998 Revision</i>	136
A.18.	Europe, replacement migration scenarios.....	138
A.19.	European Union, <i>1998 Revision</i>	140
A.20.	European Union, replacement migration scenarios.....	142

Explanatory notes

Symbols of United Nations documents are composed of capital letters combined with figures.

Various symbols have been used in the tables throughout this report, as follows:

Two dots (..) indicate that data are not available or are not separately reported.

An em dash (—) indicates that the population is less than 500 persons.

A hyphen (-) indicates that the item is not applicable.

A minus sign (-) before a figure indicates a decrease.

A full stop (.) is used to indicate decimals.

Years given refer to 1 July.

Use of a hyphen (-) between years, for example, 1995-2000, signifies the full period involved, from 1 July of the beginning year to 1 July of the end year.

The following abbreviations are used in the present report:

EC	European Community
EU	European Union
PSR	Potential support ratio
TFR	Total fertility rate

Details and percentages in tables do not necessarily add to totals because of rounding.

Countries and areas are grouped geographically into six major areas: Africa; Asia; Europe; Latin America and the Caribbean; Northern America; and Oceania. Those major areas are further divided geographically into 21 regions. In addition, the regions are classified as belonging, for statistical convenience, to either of two general groups: more developed and less developed regions. The less developed regions include all regions of Africa, Asia (excluding Japan), Latin America and the Caribbean, Melanesia, Micronesia and Polynesia. The more developed regions comprise Northern America, Japan, Europe and Australia/New Zealand.

The European Union comprises 15 countries: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxembourg, Netherlands, Portugal, Spain, Sweden and United Kingdom.

Europe comprises 47 countries and areas: Albania, Andorra, Austria, Belarus, Belgium, Bosnia and Herzegovina, Bulgaria, Channel Islands, Croatia, Czech Republic, Denmark, Estonia, Faeroe Islands, Finland, France, Germany, Gibraltar, Greece, Holy See, Hungary, Iceland, Ireland, Isle of Man, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Malta, Monaco, Netherlands, Norway, Poland, Portugal, Republic of Moldova, Romania, Russian Federation, San Marino, Slovakia, Slovenia, Spain, Sweden, Switzerland, The former Yugoslav Republic of Macedonia, Ukraine, United Kingdom, and Yugoslavia.
