GREEN GROWTH CAPACITY DEVELOPMENT

Aneta Nikolova, D. Eng.
Environment and Development Policy Section
Environment and Development Division, ESCAP

Green Growth

Green Growth Capacity Development Programme

Description

- Emphasizes policies, tools, and techniques tailored to Asia-Pacific
- Builds individual and organizational capabilities

Objectives

- Introduce Green Growth as an approach to address SD challenges
- Application of Green Growth policies and tools in socio-economic policy planning

Green Growth

ESCAP Regional GGCD

- Since 2005; close to 1000 policy makers
- ESCAP, SINGG, KOICA, AIT and UK High Commission with partners
- 10 regional policy dialogues;
- 15 National and 5 Regional Training of Trainers Seminars; 6 Leadership seminars
- On-line e-Learning Facility
- Pilot applications in Kazakhstan, Cambodia, Samoa, Fiji;

Green Growth

On-line e-Learning Facility

- New version launched in October 2011
- Zero-emissions and cost-effective
- Policy makers, NGO, education and private sector from Thailand, Cambodia, Indonesia, Bhutan, Laos, Philippines, Kazakhstan, Viet Nam, Pakistan, Mongolia, Brunei, China, Malaysia, India, Timor Leste, Nepal, Japan
- Each participant becomes a member of a virtual network of Green Growth Champions

Green Growth

Current activities

- Partnering with ESCWA to **train policy makers in West Asian** countries using the e-learning facility
- 4 Green Growth **on-site ToT** seminars in 2012: Thailand, Malaysia, the Philippines, Vietnam, and 3 more in 2013: Brunei, Laos PDR and Myanmar
- Creation of **National e-learning nodes/centers** to continue national training activities;
- Building a regional “**Green Growth Champions network**”

Green Growth

Training Agenda

- Two parts: on-site and on-line
- **On-site:** Introduction to the on-line e-learning facility with hands-on sessions on all training modules
- **On-line:** 4 weeks of self-paced training (+quizzes and discussion forums) and one week of case study development
