Item 7 of the provisional agenda*

**Future work of the Permanent Forum, including issues
of the Economic and Social Council and emerging issues**

Study on indigenous peoples and corporations

Note by the secretariat

Summary

During its seventh session, the United Nations Permanent Forum on Indigenous Issues appointed three of its members as Special Rapporteurs to conduct a study on indigenous peoples and corporations to examine existing mechanisms and policies relating to corporations and indigenous peoples, and review good practices. The mandate of the Special Rapporteurs was extended during the eighth session, and the Permanent Forum asked them to submit a written report to it at its ninth session, in 2010. The secretariat hereby transmits a note by the Special Rapporteurs appointed to conduct a study on indigenous peoples and corporations.

* E/C.19/2010/1.

1. Although there have been substantial developments in the promotion and protection of the human rights of indigenous peoples in recent years, indigenous peoples around the world continue to suffer violations of their human rights and fundamental freedoms on a regular basis. This is especially the case in the context of extractive industries, such as those involving mineral, oil or gas extraction, which disproportionately impact indigenous peoples. Corporations involved in extractive industries are today often involved in abuses of the rights of indigenous peoples to their lands, territories and resources, their civil and political rights and their right to development. Such violations occur in all regions of the world and, more often than not, are permitted and tolerated by States.

2. In addressing the United Nations Permanent Forum on Indigenous Issues, indigenous peoples have consistently stressed the crucial need to address human rights issues related to extractive industries. In response, during its seventh session, the Permanent Forum appointed three of its members, Elisa Canqui Mollo, Carlos Mamani Condori and Pavel Sulyandziga, as Special Rapporteurs to conduct a study on indigenous peoples and corporations. The study is to examine existing mechanisms and policies relating to corporations and indigenous peoples, and will review good practices. The mandate of the Special Rapporteurs was extended during the eighth session, and the Permanent Forum asked them to submit a written report to it at its ninth session, in 2010.

3. The Special Rapporteurs have agreed upon an outline for the study and have each provided separate papers as conference room papers. For the eighth session of the Forum, Ms. Canqui Mollo submitted a paper on the impact of corporations on the lives and territories of indigenous peoples,¹ and Mr. Mamani Condori submitted a paper on indigenous peoples and companies: colonial rights and relations.² For the ninth session, Mr. Sulyandziga submitted a paper on indigenous peoples and industrial companies: problems, opportunities and prospects.³

4. In addition to appointing its Special Rapporteurs, the Permanent Forum, during its seventh session, adopted a recommendation concerning the holding of an expert workshop on extractive industries. The international expert group workshop was organized by Tebtebba Foundation, in cooperation with the secretariat of the Permanent Forum, and was held from 27 to 29 March 2009 in Manila. The report of the workshop⁴ was submitted as a conference room paper to the eighth session of the Permanent Forum.

5. The Permanent Forum also convened an international workshop on Perspectives of relationships between indigenous peoples and industrial companies in Salekhard, Russian Federation, in 2007. The workshop was co-organized by the Administration of the Yamal-Nenets Autonomous Okrug, the Association of Indigenous Peoples of the North, Siberia and the Far East of the Russian Federation and the secretariat of the Permanent Forum, with support from the Public Chamber of the Russian Federation (see E/C.19/2008/5/Add.6).

6. Given the complexity and magnitude of the study, the Special Rapporteurs have agreed to submit their individual contributions to the Permanent Forum

¹ E/C.19/2009/CRP.11 (Spanish only), available at www.un.org/esa/socdev/unpfii/documents.

² E/C.19/2009/CRP.14 (Spanish only), *ibid.*

³ E/C.19/2010/CRP.1 (Russian only), *ibid.*

⁴ E/C.19/2009/CRP.8, *ibid.*

together with a draft outline of the study (see annex I). The Special Rapporteurs have also submitted a select bibliography of key United Nations documents related to the private sector and the rights of indigenous peoples (see annex II). Finally, the Special Rapporteurs recommend that the Permanent Forum consider appointing a Special Rapporteur at its tenth session, in 2011, to continue the mandate of this study.

Annex I

Draft outline of the study on indigenous peoples and corporations

- I. Introduction
 - A. Indigenous peoples' relationships with the land (environment, water, forests, mountains);
 - B. Overview of the relationship between corporations, States and indigenous peoples. General impacts of the activities of corporations on indigenous peoples.
- II. Private-sector industries operating in indigenous lands and territories; descriptions/examples of specific conflicts in each of these areas:
 - A. Extractive industries (mining, oil, logging, etc.);
 - B. Agriculture/ethanol industries;
 - C. Pharmaceutical and cosmetic industries;
 - D. Hydroelectric and other mega-projects.
- III. International law and the policies of international institutions
 - A. International law, including the United Nations Declaration on the Rights of Indigenous Peoples, and the duty to consult and free, prior and informed consent:

Relevant decisions of United Nations treaty bodies, the Inter-American Court of Human Rights, the Inter-American Commission on Human Rights and other international bodies. Relevant work of the Special Rapporteur, including his report on mega-projects and on his visit to Panama;
 - B. International institutions

Policies of the international financial institutions (World Bank, Inter-American Development Bank, Asian Development Bank and others).
- IV. Domestic law — examples of legislation implementing relevant international law.
- V. Indigenous peoples' approaches, organization and strategies

In spite of developments in international law, there has been little change in the behaviour of States and corporations with respect to their operations within indigenous territories. How are indigenous peoples organizing around this issue, and what strategies are being used?
- VI. Promising practices (An analysis of documented cases will be presented. Those cases should provide guidelines for policymaking and programme and project planning and execution. The purpose of this section will be to present and promote creative, successful and sustainable solutions to indigenous peoples' relationships with corporations.)

- A. Ideally, two cases per region;
- B. To be included in the report, the case should have involved a consultation process; included practices on the environment and social compensation; and had beneficial results for indigenous peoples.

VII. Conclusions and recommendations.
