

1st Brainstorming (Venice, 18 september 2004)

SOCIAL Actions

1. Water

- Access to the city water system for all the citizens
- Access to the city drainage system for all the citizens
- Consumption reduction of bottled mineral water
- Education at the multi steps use of the water
- Bonus for the installation of more efficient systems

2. Biodiversity

3. Climate change and air quality

4. Land use patterns

5. Local mobility system

6. Waste management

7. Availability of local spaces and services

8. Population, education, safety

- High-density urban model
- Definition of the max/min population density
- Punishing unlawful building stock practices
- Support childrens adoptions
- Bonus for the access at the High Schools (no-obligatory schools)

9. Contacts and relationship

10. Employment and enterprises
