Tuesday May 9, 2006

1.30 pm – 7.45 pm

Dag Hammarskjöld Library at the UN

Opening and welcome by Co-Chairs of the UNCSD 14 Bureau at 1.30 pm

1.45 pm – 3.00 pm

Recipient presentations

2006 World Business Awards

in support of the Millennium Development Goals

ICC, IBLF and UNDP

ICC, IBLF and UNDP are proud to include presentations of the ten recipients of the 2006 World Business Awards during the UN CSD 14 Day of Business and Industry.

This year the business-led projects, chosen from 73 nominations, representing 33 countries, include a micro enterprise fund in South Asia, a pro-poor sustainable housing initiative in Mexico, an innovative public health programme based on access to affordable energy in rural Mozambique and a special hygiene program aimed at children in Turkey.

3.15 pm – 7.45 pm

Business Action for Energy (ICC, WBCSD & WEC)

Shaping a sustainable energy future

Companies are working proactively through industry sectors and associations, as well as public-private partnerships, to address local and global energy dilemmas on the ground. **Business Action for Energy (BAE)** features examples of what is being done. It has also developed a set of Key Energy Messages which need to be addressed as part of the policy discussions.

The **CSD 14 Day of Business & Industry - co-organized by the UN and BAE** - invites you to debate the gaps and ways forward with regard to shaping a sustainable energy future in three panels, focusing on technology, climate change and development.

3.15 pm – 4.30 pm **Energy Technology**

Energy technologies and efficiencies are at the heart of the 3A's of the World Energy Council.

Accessibility, Availability and Acceptability will be the theme of this panel.

4.45 pm – 6.00 pm **Energy and Climate Change**

Climate change issues have been and are part of business strategies, management, and operations.

The panel will discuss achievements and why urgent action has to start now in order to achieve a sustainable carbon emission stabilisation level in the future.

6.15 pm – 7.30 pm **Energy for Development**

Energy plays a crucial role in enhancing economic growth, human development, and the achievement of the MDGs.

The main theme addressed by the panelists will be around the economic environment, which allows business and other actors to make effective and lasting investments in the energy infrastructure.

Please join us for the **Business & Industry Day Cocktail** at 7.45 pm outside the Dag Hammarskjöld Library
