

# Natural Resources FORUM

A United Nations Sustainable Development Journal

## Call for Papers for a Special Series on Sustainable Consumption and Production Patterns, Transport, Chemicals, Waste Management and Mining

The *Natural Resources Forum*, a quarterly journal issued by the United Nations Department of Economic and Social Affairs (DESA) and published by Wiley-Blackwell, calls for papers for a new special series over the 2009-2011 period on themes to be considered by the United Nations Commission of Sustainable Development at its 18th and 19th sessions:

- **Sustainable Consumption and Production Patterns**
- **Transport**
- **Chemicals**
- **Waste Management**
- **Mining**

The *Natural Resources Forum* focuses on inter-linked, multidisciplinary policy issues related to sustainable development, particularly in developing countries and countries in transition.

Researchers and practitioners interested in sending articles for this series are invited to first submit an abstract. Articles should be original in nature and between 6,000 and 8,000 words in length.

All papers are peer reviewed by experts in the fields concerned. Revisions may be requested before final acceptance. Abstracts on the above issues should be received **no later than 31 December 2008**.

Contributions to the journal are accepted at the [Natural Resources Forum](http://mc.manuscriptcentral.com/nrf) manuscript submission site at <http://mc.manuscriptcentral.com/nrf>
