Millennium Development Goals: 2008 Progress Chart

In 2000, all 189 Member States of the United Nations adopted the Millennium Declaration. The Declaration set out a collective vision for the future: a world with less poverty, hunger and disease, greater survival prospects for mothers and their infants, education for all, equal opportunities for women, an improved physical environment and a partnership between developed and developing countries to achieve these objectives. The eight Millennium Development Goals provide a framework of time-bound targets by which progress towards the fulfillment of the commitments in the Millennium Declaration is being measured.

The Declaration established 2015 as the target date for achievement of most of its quantifiable commitments. Half the period to this target date has now passed. This chart provides an assessment of

progress towards a number of the key targets relating to each Goal. Trends are assessed on the basis of data between 1990 and the most recent year for which information was available as of June 2008, when this chart was prepared.

The progress chart operates on two levels. The words in each box indicate the present degree of compliance with the target. The colours show progress towards the target according to the legend below:

- Already met the target or very close to meeting the target.
- Progress sufficient to reach the target if prevailing trends persist.
- Progress insufficient to reach the target if prevailing trends persist.
- No progress or deterioration.
- Missing or insufficient data.

* The available data for maternal mortality do not allow a trend analysis. Progress in the chart has been assessed by the responsible agencies on the basis of proxy indicators.

For the regional groupings and country data, see mdgs.un.org. Due to new data and revised methodologies, this Progress Chart is not comparable with previous versions.

Country experiences in each region may differ significantly from the regional average; for an indication of these differences, see *2008 Progress Chart: Country Progress Within Regions*.
