

Economic Commission for Africa (ECA)

“Integrating the Economic, Social and Environmental Pillars of Sustainable Development in Africa”

The presentation by ECA focuses on the integration of the three pillars of Sustainable Development, and its importance for Africa and the World at large. It provides examples of regional efforts to integrate the three pillars, and outlines some of the challenges faced in this regard. The presentation also highlights the role of ECA in promoting the balanced integration of the three pillars. It emphasizes the expectations of Africa from the Rio+20 processes and the progress of regional preparations for Rio+20.
