Note to the reader

In order to facilitate Member States early assessment of the work of the General Assembly in the field of disarmament, the Department for Disarmament Affairs has prepared a provisional reference document containing resolutions and decisions on disarmament adopted at the fifty-sixth session. Bold type in the list of sponsors indicates the State that introduced the draft resolution or decision. The texts reproduced here are the latest versions in the corresponding Rapporteur's Reports (A/56/---). The United Nations will issue *Official Records of the General Assembly, Fifty-sixth Session* at a later stage, which will contain the final edited text of the resolutions and decisions adopted and will note the modifications in the voting patterns that Member States have requested be officially recorded. The *United Nations Disarmament Yearbook*, vol. 26: 2001 will also, of course, contain this fuller, more up-to-date information.

The General Assembly,

Recalling its resolutions 53/72 of 4 December 1998 and 54/43 of 1 December 1999 on objective information on military matters, including transparency of military expenditures,

Also recalling its resolution 35/142 B of 12 December 1980, which introduced the United Nations system for the standardized reporting of military expenditures, and its resolutions 48/62 of 16 December 1993, 49/66 of 15 December 1994, 51/38 of 10 December 1996 and 52/32 of 9 December 1997, calling upon all Member States to participate in it, and its resolution 47/54 B of 9 December 1992, endorsing the guidelines and recommendations for objective information on military matters and inviting Member States to provide the Secretary-General with relevant information regarding their implementation,

Noting that since then national reports on military expenditures and on the guidelines and recommendations for objective information on military matters have been submitted by a number of Member States belonging to different geographic regions,

Convinced that the improvement of international relations forms a sound basis for promoting further openness and transparency in all military matters,

Also convinced that transparency in military matters is an essential element for building a climate of trust and confidence between States worldwide and that a better flow of objective information on military matters can help relieve international tension and is therefore an important contribution to conflict prevention,

Noting the role of the United Nations standardized reporting on military expenditure, as instituted through its resolution 35/142 B, as an important instrument to enhance transparency in military matters,

Conscious that the value of the reporting system would be enhanced by a broader participation of Member States,

Welcoming, therefore, the report of the Secretary-General on ways and means to implement the guidelines and recommendations for objective information on military matters,¹ including, in particular, how to strengthen and broaden participation in the United Nations system for the standardized reporting of military expenditures,

Recalling that the guidelines and recommendations for objective information on military matters recommended certain areas for further consideration, such as the improvement of the United Nations system for the standardized reporting of military expenditures,

Noting the efforts of several regional organizations to promote transparency of military expenditures, including standardized annual exchanges of relevant information among their member States,

1. *Calls upon* Member States to report annually, by 30 April, to the Secretary-General their military expenditures for the latest fiscal year for which data are available, using, preferably and to the extent possible, the reporting instrument as recommended in its resolution 35/142 B or, as appropriate, any other format developed in conjunction with similar reporting on military expenditures to other international or regional organizations, and, in the same context, encourages Member States that have no information to provide to submit nil returns;
2. *Recommends* the guidelines and recommendations for objective information on military matters to all Member States for implementation, fully taking into account specific political, military and other conditions prevailing in a region, on the basis of initiatives and with the agreement of the States of the region concerned;
3. *Encourages* relevant international bodies and regional organizations to promote transparency of military expenditures and to enhance complementarity among reporting systems, taking into account the particular characteristics of each region, and to consider the possibility of an exchange of information with the United Nations;
4. *Takes note* of the report of the Secretary-General on objective information on military matters, including transparency of military expenditures;²
5. *Requests* the Secretary-General, within available resources:
 - (a) To continue the practice of sending an annual note verbale to Member States requesting the submission of data to the reporting system, together with the reporting format and related instructions, and to publish in a timely fashion in appropriate United Nations media the due date for transmitting data on military expenditures;
 - (b) To circulate annually the reports on military expenditures as received from Member States;
 - (c) To continue consultations with relevant international bodies with a view to ascertaining requirements for adjusting the present instrument, with a view to encouraging wider participation, and to make recommendations, based on the outcome of those consultations and taking into account the views of Member States, on necessary changes to the content and structure of the United Nations system for the standardized reporting of military expenditures;

(d) To encourage relevant international bodies and organizations to promote transparency of military expenditures and to consult with those bodies and organizations with emphasis on examining possibilities for enhancing complementarity among international and regional reporting systems and for exchanging related information between those bodies and the United Nations;

(e) To encourage the United Nations regional centres for peace and disarmament in Africa, in Asia and the Pacific, and in Latin America and the Caribbean to assist Member States in their regions in enhancing their knowledge of the standardized reporting system;

(f) To promote international and regional/subregional symposia and training seminars to explain the purpose of the United Nations system for the standardized reporting of military expenditures and to give relevant technical instructions;

(g) To report on experiences gained during such symposia and training seminars;

6. *Encourages* Member States:

(a) To inform the Secretary-General about possible problems with the United Nations system for the standardized reporting of military expenditures and their reasons for not submitting the requested data;

(b) To provide the Secretary-General, in time for deliberation by the General Assembly at its fifty-eighth session, with their views and suggestions on ways and means to strengthen and broaden participation in the United Nations system for the standardized reporting of military expenditures, including necessary changes to its content and structure;

The General Assembly,

Recognizing that scientific and technological developments can have both civilian and military applications and that progress in science and technology for civilian applications needs to be maintained and encouraged,

Concerned that military applications of scientific and technological developments can contribute significantly to the improvement and upgrading of advanced weapons systems and, in particular, weapons of mass destruction,

Aware of the need to follow closely the scientific and technological developments that may have a negative impact on international security and disarmament, and to channel scientific and technological developments for beneficial purposes,

Cognizant that the international transfers of dual-use as well as high-technology products, services and know-how for peaceful purposes are important for the economic and social development of States,

Also cognizant of the need to regulate such transfers of dual-use goods and technologies and high technology with military applications through multilaterally negotiated, universally applicable, non-discriminatory guidelines,

Expressing concern about the growing proliferation of ad hoc and exclusive export control regimes and arrangements for dual-use goods and technologies, which tend to impede the economic and social development of developing countries,

Recalling that in the Final Document of the Twelfth Conference of Heads of State or Government of Non-Aligned Countries, held at Durban, South Africa, from 29 August to 3 September 1998,¹ it was noted with concern that undue restrictions on exports to developing countries of material, equipment and technology for peaceful purposes persist,

Emphasizing that internationally negotiated guidelines for the transfer of high technology with military applications should take into account the legitimate defence requirements of all States and the requirements for the maintenance of international peace and security, while ensuring that access to high-technology products and services and know-how for peaceful purposes is not denied,

1. *Affirms* that scientific and technological progress should be used for the benefit of all mankind to promote the sustainable economic and social development of all States and to safeguard international security and that international cooperation in the use of science and technology through the transfer and exchange of technological know-how for peaceful purposes should be promoted;

2. *Invites* Member States to undertake additional efforts to apply science and technology for disarmament-related purposes and to make disarmament-related technologies available to interested States;

3. *Urges* Member States to undertake multilateral negotiations with the participation of all interested States in order to establish universally acceptable, non-discriminatory guidelines for international transfers of dual-use goods and technologies and high technology with military applications;

4. *Encourages* United Nations bodies to contribute, within existing mandates, to promoting the application of science and technology for peaceful purposes;

5. *Decides* to include in the provisional agenda of its fifty-seventh session the item entitled "Role of science and technology in the context of international security and disarmament".

The General Assembly,

Bearing in mind the need to allay the legitimate concern of the States of the world with regard to ensuring lasting security for their peoples,

Convinced that nuclear weapons pose the greatest threat to mankind and to the survival of civilization,

Welcoming the progress achieved in recent years in both nuclear and conventional disarmament,

Noting that, despite recent progress in the field of nuclear disarmament, further efforts are necessary towards the achievement of general and complete disarmament under effective international control,

Convinced that nuclear disarmament and the complete elimination of nuclear weapons are essential to remove the danger of nuclear war,

Determined to abide strictly by the relevant provisions of the Charter of the United Nations on the non-use of force or threat of force,

Recognizing that the independence, territorial integrity and sovereignty of non-nuclear-weapon States need to be safeguarded against the use or threat of use of force, including the use or threat of use of nuclear weapons,

Considering that, until nuclear disarmament is achieved on a universal basis, it is imperative for the international community to develop effective measures and arrangements to ensure the security of non-nuclear-weapon States against the use or threat of use of nuclear weapons from any quarter,

Recognizing that effective measures and arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons can contribute positively to the prevention of the spread of nuclear weapons,

Bearing in mind paragraph 59 of the Final Document of the Tenth Special Session of the General Assembly,¹ the first special session devoted to disarmament, in which it urged the nuclear-weapon States to pursue efforts to conclude, as appropriate, effective arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, and desirous of promoting the implementation of the relevant provisions of the Final Document,

Recalling the relevant parts of the special report of the Committee on Disarmament² submitted to the General Assembly at its twelfth special session,³ the second special session devoted to disarmament, and of the special report of the Conference on Disarmament submitted to the Assembly at its fifteenth special session,⁴ the third special session devoted to disarmament, as well as the report of the Conference on its 1992 session,⁵

Recalling also paragraph 12 of the Declaration of the 1980s as the Second Disarmament Decade, contained in the annex to its resolution 35/46 of 3 December 1980, which states, inter alia, that all efforts should be exerted by the Committee on Disarmament urgently to negotiate with a view to reaching agreement on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

Noting the in-depth negotiations undertaken in the Conference on Disarmament and its Ad Hoc Committee on Effective International Arrangements to Assure Non-Nuclear-Weapon States against the Use or Threat of Use of Nuclear Weapons,⁶ with a view to reaching agreement on this question,

Taking note of the proposals submitted under the item in the Conference on Disarmament, including the drafts of an international convention,

Taking note also of the relevant decision of the Twelfth Conference of Heads of State or Government of Non-Aligned Countries, held at Durban, South Africa, from 29 August to 3 September 1998,⁷ as well as the relevant recommendations of the Organization of the Islamic Conference,

Taking note further of the unilateral declarations made by all the nuclear-weapon States on their policies of non-use or non-threat of use of nuclear weapons against the non-nuclear-weapon States,

Noting the support expressed in the Conference on Disarmament and in the General Assembly for the elaboration of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, as well as the difficulties pointed out in evolving a common approach acceptable to all,

Taking note of Security Council resolution 984 (1995) of 11 April 1995 and the views expressed on it,

Recalling its relevant resolutions adopted in previous years, in particular resolutions 45/54 of 4 December 1990, 46/32 of 6 December 1991, 47/50 of 9 December 1992, 48/73 of 16 December 1993, 49/73 of 15 December 1994, 50/68 of 12 December 1995, 51/43 of 10 December

1. *Reaffirms* the urgent need to reach an early agreement on effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons;

2. *Notes with satisfaction* that in the Conference on Disarmament there is no objection, in principle, to the idea of an international convention to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons, although the difficulties with regard to evolving a common approach acceptable to all have also been pointed out;

3. *Appeals* to all States, especially the nuclear-weapon States, to work actively towards an early agreement on a common approach and, in particular, on a common formula that could be included in an international instrument of a legally binding character;

4. *Recommends* that further intensive efforts be devoted to the search for such a common approach or common formula and that the various alternative approaches, including, in particular, those considered in the Conference on Disarmament, be further explored in order to overcome the difficulties;

5. *Recommends also* that the Conference on Disarmament actively continue intensive negotiations with a view to reaching early agreement and concluding effective international arrangements to assure the non-nuclear-weapon States against the use or threat of use of nuclear weapons, taking into account the widespread support for the conclusion of an international convention and giving consideration to any other proposals designed to secure the same objective;

6. *Decides* to include in the provisional agenda of its fifty-seventh session the item entitled "Conclusion of effective international arrangements to assure non-nuclear-weapon States against the use or threat of use of nuclear weapons".

TEXT:

The General Assembly,

Recognizing the common interest of all mankind in the exploration and use of outer space for peaceful purposes,

Reaffirming the will of all States that the exploration and use of outer space, including the Moon and other celestial bodies, shall be for peaceful purposes and shall be carried out for the benefit and in the interest of all countries, irrespective of their degree of economic or scientific development,

Reaffirming also the provisions of articles III and IV of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies,¹

Recalling the obligation of all States to observe the provisions of the Charter of the United Nations regarding the use or threat of use of force in their international relations, including in their space activities,

Reaffirming paragraph 80 of the Final Document of the Tenth Special Session of the General Assembly,² in which it is stated that in order to prevent an arms race in outer space further measures should be taken and appropriate international negotiations held in accordance with the spirit of the Treaty,

Recalling its previous resolutions on this issue, and taking note of the proposals submitted to the General Assembly at its tenth special session and at its regular sessions, and of the recommendations made to the competent organs of the United Nations and to the Conference on Disarmament,

Recognizing that prevention of an arms race in outer space would avert a grave danger for international peace and security,

Emphasizing the paramount importance of strict compliance with existing arms limitation and disarmament agreements relevant to outer space, including bilateral agreements, and with the existing legal regime concerning the use of outer space,

Considering that wide participation in the legal regime applicable to outer space could contribute to enhancing its effectiveness,

Noting that the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, taking into account its previous efforts since its establishment in 1985 and seeking to enhance its functioning in qualitative terms, continued the examination and identification of various issues, existing agreements and existing proposals, as well as future initiatives relevant to the prevention of an arms race in outer space,³ and that this contributed to a better understanding of a number of problems and to a clearer perception of the various positions,

Noting also that there were no objections in principle in the Conference on Disarmament to the re-establishment of the Ad Hoc Committee, subject to re-examination of the mandate contained in the decision of the Conference on Disarmament of 13 February 1992,⁴

Emphasizing the mutually complementary nature of bilateral and multilateral efforts in the field of preventing an arms race in outer space, and hoping that concrete results will emerge from those efforts as soon as possible,

Convinced that further measures should be examined in the search for effective and verifiable bilateral and multilateral agreements in order to prevent an arms race in outer space, including the weaponization of outer space,

Stressing that the growing use of outer space increases the need for greater transparency and better information on the part of the international community,

Recalling in this context its previous resolutions, in particular resolutions 45/55 B of 4 December 1990, 47/51 of 9 December 1992 and 48/74 A of 16 December 1993, in which, inter

alia, it reaffirmed the importance of confidence-building measures as means conducive to ensuring the attainment of the objective of the prevention of an arms race in outer space,

Conscious of the benefits of confidence- and security-building measures in the military field,

Recognizing that negotiations for the conclusion of an international agreement or agreements to prevent an arms race in outer space remain a priority task of the Ad Hoc Committee and that the concrete proposals on confidence-building measures could form an integral part of such agreements,

1. *Reaffirms* the importance and urgency of preventing an arms race in outer space and the readiness of all States to contribute to that common objective, in conformity with the provisions of the Treaty on Principles Governing the Activities of States in the Exploration and Use of Outer Space, including the Moon and Other Celestial Bodies;¹

2. *Reaffirms its recognition*, as stated in the report of the Ad Hoc Committee on the Prevention of an Arms Race in Outer Space, that the legal regime applicable to outer space does not in and of itself guarantee the prevention of an arms race in outer space, that the regime plays a significant role in the prevention of an arms race in that environment, that there is a need to consolidate and reinforce that regime and enhance its effectiveness and that it is important to comply strictly with existing agreements, both bilateral and multilateral;

3. *Emphasizes* the necessity of further measures with appropriate and effective provisions for verification to prevent an arms race in outer space;

4. *Calls upon* all States, in particular those with major space capabilities, to contribute actively to the objective of the peaceful use of outer space and of the prevention of an arms race in outer space and to refrain from actions contrary to that objective and to the relevant existing treaties in the interest of maintaining international peace and security and promoting international cooperation;

5. *Reiterates* that the Conference on Disarmament, as the single multilateral disarmament negotiating forum, has the primary role in the negotiation of a multilateral agreement or agreements, as appropriate, on the prevention of an arms race in outer space in all its aspects;

6. *Invites* the Conference on Disarmament to complete the examination and updating of the mandate contained in its decision of 13 February 1992⁴ and to establish an ad hoc committee as early as possible during the 2002 session of the Conference;

7. *Recognizes*, in this respect, the growing convergence of views on the elaboration of measures designed to strengthen transparency, confidence and security in the peaceful uses of outer space;

8. *Urges* States conducting activities in outer space, as well as States interested in conducting such activities, to keep the Conference on Disarmament informed of the progress of bilateral and multilateral negotiations on the matter, if any, so as to facilitate its work;

9. *Decides* to include in the provisional agenda of its fifty-seventh session the item entitled "Prevention of an arms race in outer space".

The General Assembly,

Recalling its resolutions 50/60 of 12 December 1995 and 52/30 of 9 December 1997 on compliance with arms limitation and disarmament and non-proliferation agreements and its resolutions 54/54 A of 1 December 1999 and 55/33 B of 20 November 2000 on preservation of and compliance with the Treaty on the Limitation of Anti-Ballistic Missile Systems,¹

Recognizing the historical role of the Treaty on the Limitation of Anti-Ballistic Missile Systems of 26 May 1972 between the United States of America and the Union of Soviet Socialist Republics as a cornerstone for maintaining global peace and security and strategic stability, and reaffirming its continued validity and relevance, especially in the current international situation,

Stressing the paramount importance of full and strict compliance with the Treaty by the parties,

Recalling that the provisions of the Treaty are intended as a contribution to the creation of more favourable conditions for further negotiations on limiting strategic arms,

Mindful of the obligations of the parties to the Treaty under article VI of the Treaty on the Non-Proliferation of Nuclear Weapons,²

Concerned that the implementation of any measures undermining the purposes and provisions of the Treaty affects not only the security interests of the parties, but also those of the whole international community,

Recalling the widespread concern about the proliferation of weapons of mass destruction and their means of delivery,

1. *Calls* for continued efforts to strengthen the Treaty on the Limitation of Anti-Ballistic Missile Systems¹ and to preserve its integrity and validity so that it remains a cornerstone in maintaining global strategic stability and world peace and in promoting further strategic nuclear arms reductions;

2. *Calls also* for renewed efforts by each of the States parties to preserve and strengthen the Treaty through full and strict compliance;

3. *Calls upon* the parties to the Treaty, in accordance with their obligations under the Treaty, to limit the deployment of anti-ballistic missile systems, to refrain from the deployment of anti-ballistic missile systems for the defence of the territory of their country, not to provide a base for such a defence and not to transfer to other States or deploy outside their national territory anti-ballistic missile systems or their components limited by the Treaty;

4. *Considers* that the implementation of any measure undermining the purposes and the provisions of the Treaty also undermines global strategic stability and world peace and the promotion of further strategic nuclear arms reductions;

5. *Urges* all Member States to support efforts aimed at stemming the proliferation of weapons of mass destruction and their means of delivery;

6. *Supports* further efforts by the international community, in the light of emerging developments, towards safeguarding the inviolability and integrity of the Treaty, which is in the strongest interest of the international community;

7. Welcomes the ongoing dialogue between the Russian Federation and the United States of America on a new strategic framework premised on openness, mutual confidence and real opportunities for cooperation, which is of paramount importance, especially in a changing security environment, and hopes that this dialogue will successfully lead to substantial reductions in offensive nuclear forces and contribute to the maintenance of international stability;

8. Decides to include in the provisional agenda of its fifty-seventh session the item entitled "Preservation of and compliance with the Treaty on the Limitation of Anti-Ballistic Missile Systems".

TEXT:

The General Assembly,

Bearing in mind that the use of nuclear weapons poses the most serious threat to mankind and to the survival of civilization,

Reaffirming that any use or threat of use of nuclear weapons would constitute a violation of the Charter of the United Nations,

Convinced that the proliferation of nuclear weapons in all its aspects would seriously enhance the danger of nuclear war,

Convinced also that nuclear disarmament and the complete elimination of nuclear weapons are essential to remove the danger of nuclear war,

Considering that, until nuclear weapons cease to exist, it is imperative on the part of the nuclear-weapon States to adopt measures that assure non-nuclear-weapon States against the use or threat of use of nuclear weapons,

Considering also that the hair-trigger alert of nuclear weapons carries unacceptable risks of unintentional or accidental use of nuclear weapons, which would have catastrophic consequences for all mankind,

Emphasizing the imperative need to adopt measures to avoid accidental, unauthorized or unexplained incidents arising from computer anomaly or other technical malfunctions,

Conscious that limited steps relating to detargeting have been taken by the nuclear-weapon States and that further practical, realistic and mutually reinforcing steps are necessary to contribute to the improvement in the international climate for negotiations leading to the elimination of nuclear weapons,

Mindful that reduction of tensions brought about by a change in nuclear doctrines would positively impact on international peace and security and improve the conditions for the further reduction and the elimination of nuclear weapons,

Reiterating the highest priority accorded to nuclear disarmament in the Final Document of the Tenth Special Session of the General Assembly¹ and by the international community,

Recalling that in the advisory opinion of the International Court of Justice on the *Legality of the Threat or Use of Nuclear Weapons*² it is stated that there exists an obligation for all States to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

Welcoming the call in the United Nations Millennium Declaration³ to seek to eliminate the dangers posed by weapons of mass destruction and the resolve to strive for the elimination of weapons of mass destruction, particularly nuclear weapons, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers,

1. *Calls* for a review of nuclear doctrines and, in this context, immediate and urgent steps to reduce the risks of unintentional and accidental use of nuclear weapons;

2. *Requests* the five nuclear-weapon States to take measures towards the implementation of paragraph 1 of the present resolution;

3. *Calls* upon Member States to take the necessary measures to prevent the proliferation of nuclear weapons in all its aspects and to promote nuclear disarmament, with the objective of eliminating nuclear weapons;

4. *Takes note* of the report⁴ prepared by the Advisory Board on Disarmament Matters and submitted by the Secretary-General in pursuance of paragraph 5 of General Assembly resolution 55/33 N of 20 November 2000, in particular the seven recommendations highlighted for further action;

5. *Requests* the Secretary-General to take steps towards the implementation of the seven recommendations identified in the report of the Advisory Board that would significantly reduce the risk of nuclear war, including the proposal contained in the United Nations Millennium Declaration for convening an international conference to identify ways of eliminating nuclear dangers, and to report thereon to the General Assembly at its fifty-seventh session;

6. *Decides* to include in the provisional agenda of its fifty-seventh session the item entitled "Reducing nuclear danger".

The General Assembly,

Recalling its resolutions 49/75 I of 15 December 1994, 50/70 F of 12 December 1995, 51/45 C of 10 December 1996, 52/38 F of 9 December 1997, 53/77 AA of 4 December 1998, 54/54 U of 1 December 1999 and 55/33 M of 20 November 2000,

Recalling also that, there being a consensus to do so in each case, three special sessions of the General Assembly devoted to disarmament were held, in 1978, 1982 and 1988, respectively,

Bearing in mind the Final Document of the Tenth Special Session of the General Assembly,¹ adopted by consensus at the first special session devoted to disarmament, which included the Declaration, the Programme of Action and the Machinery for disarmament,

Bearing in mind also the objective of general and complete disarmament under effective international control,

Taking note of paragraph 145 of the Final Document of the Twelfth Conference of Heads of State or Government of Non-Aligned Countries, held at Durban, South Africa, from 29 August to 3 September 1998,² which supported the convening of the fourth special session of the General Assembly devoted to disarmament, which would offer an opportunity to review, from a perspective more in tune with the current international situation, the most critical aspects of the process of disarmament and to mobilize the international community and public opinion in favour of the elimination of nuclear and other weapons of mass destruction and of the control and reduction of conventional weapons,

Taking note also of the report of the Disarmament Commission on its 1999 substantive session³ and of the fact that no consensus was reached on the item entitled "Fourth special session of the General Assembly devoted to disarmament",

Desiring to build upon the substantive exchange of views on the fourth special session of the General Assembly devoted to disarmament during the 1999 substantive session of the Disarmament Commission,

Reiterating its conviction that a special session of the General Assembly devoted to disarmament can set the future course of action in the field of disarmament, arms control and related international security matters,

Emphasizing the importance of multilateralism in the process of disarmament, arms control and related international security matters,

Noting that, with the recent accomplishments made by the international community in the field of weapons of mass destruction as well as conventional arms, the following years would be opportune for the international community to start the process of reviewing the state of affairs in the entire field of disarmament and arms control in the post-cold-war era,

Noting also the United Nations Millennium Declaration,⁴ in which heads of State and Government resolved to strive for the elimination of weapons of mass destruction, particularly nuclear weapons, and to keep all options open for achieving this aim, including the possibility of convening an international conference to identify ways of eliminating nuclear dangers,

Taking note of the report of the Secretary-General⁵ regarding the views of Member States on the objectives, agenda and timing of the fourth special session of the General Assembly devoted to disarmament,

1. *Decides*, subject to the emergence of a consensus on its objectives and agenda, to convene the fourth special session of the General Assembly devoted to disarmament;

2. *Requests* the Secretary-General to seek the views of Member States on the objectives, agenda and timing of the special session and to report to the General Assembly at its fifty-seventh session;

Welcoming the adoption by the Disarmament Commission at its 1999 substantive session of a text entitled "Establishment of nuclear-weapon-free zones on the basis of arrangements freely arrived at among the States of the region concerned",¹

Determined to pursue the total elimination of nuclear weapons,

Determined also to continue to contribute to the prevention of the proliferation of nuclear weapons in all its aspects and to the process of general and complete disarmament under strict and effective international control, in particular in the field of nuclear weapons and other weapons of mass destruction, with a view to strengthening international peace and security, in accordance with the purposes and principles of the Charter of the United Nations,

The General Assembly,

Recalling its resolutions 45/58 P of 4 December 1990, 46/36 I of 6 December 1991, 47/52 J of 9 December 1992, 48/75 I of 16 December 1993, 49/75 N of 15 December 1994, 50/70 K of 12 December 1995, 51/45 K of 10 December 1996, 52/38 P of 9 December 1997, 53/77 O of 4 December 1998, 54/54 N of 1 December 1999 and 55/33 O of 20 November 2000 on regional disarmament,

Believing that the efforts of the international community to move towards the ideal of general and complete disarmament are guided by the inherent human desire for genuine peace and security, the elimination of the danger of war and the release of economic, intellectual and other resources for peaceful pursuits,

Affirming the abiding commitment of all States to the purposes and principles enshrined in the Charter of the United Nations in the conduct of their international relations,

Noting that essential guidelines for progress towards general and complete disarmament were adopted at the tenth special session of the General Assembly,¹

Taking note of the guidelines and recommendations for regional approaches to disarmament within the context of global security adopted by the Disarmament Commission at its 1993 substantive session,²

Welcoming the prospects of genuine progress in the field of disarmament engendered in recent years as a result of negotiations between the two super-Powers,

Taking note of the recent proposals for disarmament at the regional and subregional levels,

Recognizing the importance of confidence-building measures for regional and international peace and security,

Convinced that endeavours by countries to promote regional disarmament, taking into account the specific characteristics of each region and in accordance with the principle of undiminished security at the lowest level of armaments, would enhance the security of all States and would thus contribute to international peace and security by reducing the risk of regional conflicts,

1. *Stresses* that sustained efforts are needed, within the framework of the Conference on Disarmament and under the umbrella of the United Nations, to make progress on the entire range of disarmament issues;

2. *Affirms* that global and regional approaches to disarmament complement each other and should therefore be pursued simultaneously to promote regional and international peace and security;

3. *Calls upon* States to conclude agreements, wherever possible, for nuclear non-proliferation, disarmament and confidence-building measures at the regional and subregional levels;

4. *Welcomes* the initiatives towards disarmament, nuclear non-proliferation and security undertaken by some countries at the regional and subregional levels;

5. *Supports and encourages* efforts aimed at promoting confidence-building measures at the regional and subregional levels to ease regional tensions and to further disarmament and nuclear non-proliferation measures at the regional and subregional levels;

6. *Decides* to include in the provisional agenda of its fifty-seventh session the item entitled "Regional disarmament".

The General Assembly,

Recalling its resolutions 48/75 J of 16 December 1993, 49/75 O of 15 December 1994, 50/70 L of 12 December 1995, 51/45 Q of 10 December 1996, 52/38 Q of 9 December 1997, 53/77 P of 4 December 1998, 54/54 M of 1 December 1999 and 55/33 P of 20 November 2000,

Recognizing the crucial role of conventional arms control in promoting regional and international peace and security,

Convinced that conventional arms control needs to be pursued primarily in the regional and subregional contexts since most threats to peace and security in the post-cold-war era arise mainly among States located in the same region or subregion,

Aware that the preservation of a balance in the defence capabilities of States at the lowest level of armaments would contribute to peace and stability and should be a prime objective of conventional arms control,

Desirous of promoting agreements to strengthen regional peace and security at the lowest possible level of armaments and military forces,

Noting with particular interest the initiatives taken in this regard in different regions of the world, in particular the commencement of consultations among a number of Latin American countries and the proposals for conventional arms control made in the context of South Asia, and recognizing, in the context of this subject, the relevance and value of the Treaty on Conventional Armed Forces in Europe,¹ which is a cornerstone of European security,

Believing that militarily significant States and States with larger military capabilities have a special responsibility in promoting such agreements for regional security,

Believing also that an important objective of conventional arms control in regions of tension should be to prevent the possibility of military attack launched by surprise and to avoid aggression,

1. *Decides* to give urgent consideration to the issues involved in conventional arms control at the regional and subregional levels;

2. *Requests* the Conference on Disarmament to consider the formulation of principles that can serve as a framework for regional agreements on conventional arms control, and looks forward to a report of the Conference on this subject;

3. *Requests* the Secretary-General, in the meantime, to seek the views of Member States on the subject and to submit a report to the General Assembly at its fifty-seventh session;

4. *Decides* to include in the provisional agenda of its fifty-seventh session the item entitled "Conventional arms control at the regional and subregional levels".

TEXT:

The General Assembly,

Recalling its resolutions 54/54 B of 1 December 1999 and 55/33 V of 20 November 2000,

Reaffirming its determination to put an end to the suffering and casualties caused by anti-personnel mines, which kill or maim hundreds of people every week, mostly innocent and defenceless civilians and especially children, obstruct economic development and reconstruction, inhibit the repatriation of refugees and internally displaced persons, and have other severe consequences for years after emplacement,

Believing it necessary to do the utmost to contribute in an efficient and coordinated manner to facing the challenge of removing anti-personnel mines placed throughout the world, and to ensure their destruction,

Wishing to do the utmost in ensuring assistance for the care and rehabilitation, including the social and economic reintegration, of mine victims,

Welcoming the entry into force on 1 March 1999 of the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-personnel Mines and on Their Destruction,¹ and noting with satisfaction the work undertaken to implement the Convention and the substantial progress made towards addressing the global landmine problem,

Recalling the First Meeting of States Parties to the Convention, held at Maputo from 3 to 7 May 1999, and the reaffirmation made in the Maputo Declaration² of a commitment to the total eradication of anti-personnel mines,

Recalling also the Second Meeting of States Parties to the Convention, held at Geneva from 11 to 15 September 2000, and the Declaration of the Second Meeting of States Parties reaffirming the commitment to completely and fully implement all provisions of the Convention,³

Recalling further the Third Meeting of States Parties to the Convention, held at Managua from 18 to 21 September 2001, and the Declaration of the Third Meeting of States Parties reaffirming the unwavering commitment both to the total eradication of anti-personnel mines and to addressing the insidious and inhumane effects of those weapons,

Noting with satisfaction that additional States have ratified or acceded to the Convention, bringing the total number of States that have formally accepted the obligations of the Convention to one hundred and twenty-two,

Emphasizing the desirability of attracting the adherence of all States to the Convention, and determined to work strenuously towards the promotion of its universalization,

Noting with regret that anti-personnel mines continue to be used in conflicts around the world, causing human suffering and impeding post-conflict development,

1. *Invites* all States that have not signed the Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-personnel Mines and on Their Destruction¹ to accede to it without delay;

2. *Urges* all States that have signed but not ratified the Convention to ratify it without delay;

3. *Stresses* the importance of the full and effective implementation of, and compliance with, the Convention;

4. *Urges* all States parties to provide the Secretary-General with complete and timely information, as required under article 7 of the Convention, in order to promote transparency and compliance with the Convention;

5. *Invites* all States parties that have not ratified the Convention or acceded to it to provide, on a voluntary basis, information to make global mine action efforts more effective;

6. *Renews its call upon* all States and other relevant parties to work together to promote, support and advance the care, rehabilitation and social and economic reintegration of mine victims, mine awareness programmes, and the removal of anti-personnel mines placed throughout the world and the assurance of their destruction;

Recognizing the progress made by the nuclear-weapon States in the reduction of their nuclear weapons unilaterally or through negotiations, including the START process, and the efforts made towards nuclear disarmament and non-proliferation by the international community,

Reaffirming the conviction that further advancement in nuclear disarmament will contribute to consolidating the international regime for nuclear non-proliferation, ensuring international peace and security,

Bearing in mind the recent nuclear tests, as well as the regional situations, which pose a challenge to international efforts to strengthen the global regime for non-proliferation of nuclear weapons,

Taking note of the report of the Tokyo Forum for Nuclear Non-Proliferation and Disarmament,² bearing in mind the various views of Member States on the report,

Welcoming the successful adoption of the Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,³ and stressing the importance of implementing its conclusions,

Also welcoming the successful convening of the International Symposium for Further Reinforcement of International Atomic Energy Agency Safeguards: Towards Universalization of Additional Protocol, recently held in Tokyo, and sharing the hope for continued efforts to hold similar symposiums in other regions for strengthening the International Atomic Energy Agency

safeguards system, including universalization of its safeguards agreements, and the additional protocols thereto,

Encouraging the Russian Federation and the United States of America to continue their intensive consultations on the interrelated subjects of offensive and defensive systems and to complete them with a view to enhancing international peace and security,

Calling for efforts towards the success of the Conference on Facilitating the Entry into Force of the Comprehensive Nuclear-Test-Ban Treaty, to be convened in accordance with article XIV of the Treaty,

1. *Reaffirms* the importance of achieving the universality of the Treaty on the Non-Proliferation of Nuclear Weapons,⁵⁷ and calls upon States not parties to the Treaty to accede to it as non-nuclear-weapon States without delay and without conditions;

2. *Also reaffirms* the importance for all States parties to the Treaty on the Non-Proliferation of Nuclear Weapons to fulfil their obligations under the Treaty;

3. *Stresses* the central importance of the following practical steps for the systematic and progressive efforts to implement article VI of the Treaty on the Non-Proliferation of Nuclear Weapons, and paragraphs 3 and 4 (c) of the decision on principles and objectives for nuclear non-proliferation and disarmament of the 1995 Review and Extension Conference of the Parties to the Treaty.⁴

(a) The importance and urgency of signatures and ratifications, without delay and without conditions and in accordance with constitutional processes, to achieve the early entry into force of the Comprehensive Nuclear-Test-Ban Treaty as well as a moratorium on nuclear-weapon-test explosions or any other nuclear explosions pending the entry into force of that Treaty;

(b) The establishment of an ad hoc committee in the Conference on Disarmament as early as possible during its 2002 session to negotiate a non-discriminatory, multilateral and internationally and effectively verifiable treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices, in accordance with the statement of the Special Coordinator in 1995 and the mandate contained therein, taking into consideration both nuclear disarmament and non-proliferation objectives, with a view to its conclusion within five years and, pending its entry into force, a moratorium on the production of fissile material for nuclear weapons;

(c) The establishment of an appropriate subsidiary body with a mandate to deal with nuclear disarmament in the Conference on Disarmament as early as possible during its 2002 session in the context of establishing a programme of work;

(d) The inclusion of the principle of irreversibility to apply to nuclear disarmament, nuclear and other related arms control and reduction measures;

(e) An unequivocal undertaking by the nuclear-weapon States, as agreed at the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons, to accomplish the total elimination of their nuclear arsenals, leading to nuclear disarmament, to which all States parties to the Treaty are committed under article VI of the Treaty;

(f) Deep reductions by the Russian Federation and the United States of America in their strategic offensive arsenals, while placing great importance on the existing multilateral treaties, with a view to maintaining and strengthening strategic stability and international security;

(g) Steps by all the nuclear-weapon States leading to nuclear disarmament in a way that promotes international stability, and based on the principle of undiminished security for all:

(i) Further efforts by all the nuclear-weapon States to continue to reduce their nuclear arsenals unilaterally;

(ii) Increased transparency by the nuclear-weapon States with regard to their nuclear weapons capabilities and the implementation of agreements pursuant to article VI of the Treaty and as voluntary confidence-building measures to support further progress on nuclear disarmament;

(iii) The further reduction of non-strategic nuclear weapons, based on unilateral initiatives and as an integral part of the nuclear arms reduction and disarmament process;

(iv) Concrete agreed measures to reduce further the operational status of nuclear weapons systems;

(v) A diminishing role for nuclear weapons in security policies to minimize the risk that these weapons will ever be used and to facilitate the process of their total elimination;

(vi) The engagement, as soon as appropriate, of all nuclear-weapon States in the process leading to the total elimination of their nuclear weapons;

(h) Reaffirmation that the ultimate objective of the efforts of States in the disarmament process is general and complete disarmament under effective international control;

4. *Recognizes* that the realization of a world free of nuclear weapons will require further steps, including deeper reductions in nuclear weapons by all nuclear-weapon States in the process of working towards achieving their elimination;

5. *Invites* the nuclear-weapon States to keep the States Members of the United Nations duly informed of the progress or efforts made towards nuclear disarmament;

6. *Emphasizes* the importance of a successful Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons in 2005 as the first Preparatory Committee is convened in 2002;

7. *Welcomes* the ongoing efforts in the dismantlement of nuclear weapons, notes the importance of the safe and effective management of the resultant fissile materials and calls for arrangements by all the nuclear-weapon States to place, as soon as practicable, the fissile material designated by each of them as no longer required for military purposes under the International Atomic Energy Agency or other relevant international verification and arrangements for the disposition of such material for peaceful purposes in order to ensure that such material remains permanently outside military programmes;

8. *Stresses* the importance of further development of the verification capabilities, including International Atomic Energy Agency safeguards, that will be required to provide assurance of compliance with nuclear disarmament agreements for the achievement and maintenance of a nuclear-weapon-free world;

9. *Calls upon* all States to redouble their efforts to prevent and curb the proliferation of nuclear and other weapons of mass destruction, confirming and strengthening, if necessary, their policies not to transfer equipment, materials or technology that could contribute to the proliferation

of those weapons, while ensuring that such policies are consistent with the obligations of States under the Treaty;

10. *Also calls upon* all States to maintain the highest possible standards of security, safe custody, effective control and physical protection of all materials that could contribute to the proliferation of nuclear and other weapons of mass destruction in order, inter alia, to prevent those materials from falling into the hands of terrorists;

11. *Welcomes* the adoption and stresses the importance of resolution GC(45)/RES/13,⁵ adopted on 21 September 2001 by the General Conference of the International Atomic Energy Agency in which it is recommended that the Director General of the Agency, its Board of Governors and member States continue to consider implementing the elements of the plan of action outlined in resolution GC(44)/RES/19,⁶ adopted on 22 September 2000 by the General Conference of the International Atomic Energy Agency, to promote and facilitate the conclusion and entry into force of safeguards agreements and additional protocols, and calls for the early and full implementation of that resolution;

TEXT:

The General Assembly,

Recalling its resolutions 51/45 N of 10 December 1996, 52/38 G of 9 December 1997, 53/77 M of 4 December 1998, 54/54 H of 1 December 1999 and 55/33 G of 20 November 2000,

Convinced that a comprehensive and integrated approach towards certain practical disarmament measures often is a prerequisite to maintaining and consolidating peace and security and thus provides a basis for effective post-conflict peace-building, namely the rehabilitation and social and economic development in areas that have suffered from conflict; such measures are, inter alia, collection and responsible disposal, preferably through destruction, of weapons obtained through illicit trafficking or illicit manufacture as well as of weapons and ammunition declared by competent national authorities to be surplus to requirements, particularly with regard to small arms and light weapons, unless another form of disposition or use has been officially authorized and provided that such weapons have been duly marked and registered; confidence-building measures; disarmament, demobilization and reintegration of former combatants; demining; and conversion,

Noting with satisfaction that the international community is more than ever aware of the importance of such practical disarmament measures, especially with regard to the growing problems arising from the excessive accumulation and uncontrolled spread of small arms and light weapons, which pose a threat to peace and security and reduce the prospects for economic development in many regions, particularly in post-conflict situations,

Stressing that further efforts are needed in order to develop and effectively implement programmes of practical disarmament in affected areas so as to complement, on a case-by-case basis, peacekeeping and peace-building efforts,

Taking note of the report of the Secretary-General prepared with the assistance of the Group of Governmental Experts on Small Arms,¹ and in particular the recommendations contained therein, as an important contribution to the consolidation of the peace process through practical disarmament measures,

Taking into account the deliberations at the 2001 substantive session of the Disarmament Commission in Working Group II on agenda item 5, entitled "Practical confidence-building measures in the field of conventional arms",² and encouraging the Disarmament Commission to continue its efforts aimed at the identification of such measures,

Welcoming the Programme of Action adopted by the United Nations Conference on the Illicit Trade in Small Arms and Light Weapons in All Its Aspects,³ which should be implemented expeditiously,

1. *Stresses*, in the context of the present resolution, the particular relevance of the “Guidelines on conventional arms control/limitation and disarmament, with particular emphasis on consolidation of peace in the context of General Assembly resolution 51/45 N”,⁴ adopted by the Disarmament Commission by consensus at its 1999 substantive session;

2. *Takes note* of the report of the Secretary-General on the consolidation of peace through practical disarmament measures, submitted pursuant to resolution 51/45 N,⁵ and once again encourages Member States, as well as regional arrangements and agencies, to lend their support to the implementation of recommendations contained therein;

3. *Welcomes* the activities undertaken by the group of interested States that was formed in New York in March 1998, and invites the group to continue to analyse lessons learned from previous disarmament and peace-building projects, as well as to promote new practical disarmament measures to consolidate peace, especially as undertaken or designed by affected States themselves;

4. *Encourages* Member States, including the Group of Interested States, to lend their support to the Secretary-General in responding to requests by Member States to collect and destroy small arms and light weapons in post-conflict situations;

5. *Requests* the Secretary-General to submit to the General Assembly at its fifty-seventh session a report on the implementation of the present resolution, taking into consideration the activities of the Group of Interested States in this regard;

6. *Decides* to include in the provisional agenda of its fifty-seventh session the item entitled “Consolidation of peace through practical disarmament measures”.

Continuing to take the view that an enhanced level of transparency in armaments contributes greatly to confidence-building and security among States and that the establishment of the United Nations Register of Conventional Arms¹ constitutes an important step forward in the promotion of transparency in military matters,

Welcoming the consolidated report of the Secretary-General on the Register,² which includes the returns of Member States for 2000,

Welcoming also the response of Member States to the request contained in paragraphs 9 and 10 of resolution 46/36 L to provide data on their imports and exports of arms, as well as available background information regarding their military holdings, procurement through national production and relevant policies,

Stressing that the continuing operation of the Register and its further development should be reviewed in order to secure a Register that is capable of attracting the widest possible participation,

(b) Requests the Secretary-General, with the assistance of a group of governmental experts to be convened in 2003, on the basis of equitable geographical representation, to prepare a report on the continuing operation of the Register and its further development, taking into account the work of the Conference on Disarmament, the views expressed by Member States and the reports of the Secretary-General on the continuing operation of the Register and its further development, with a view to a decision at its fifty-eighth session;

5. *Also requests* the Secretary-General to implement the recommendations contained in his 2000 report on the continuing operation of the Register and its further development and to ensure that sufficient resources are made available for the Secretariat to operate and maintain the Register;

6. *Invites* the Conference on Disarmament to consider continuing its work undertaken in the field of transparency in armaments;

TEXT:

The General Assembly,

Recalling its resolution 49/75 E of 15 December 1994 on a step-by-step reduction of the nuclear threat, and its resolutions 50/70 P of 12 December 1995, 51/45 O of 10 December 1996, 52/38 L of 9 December 1997, 53/77 X of 4 December 1998, 54/54 P of 1 December 1999 and 55/33 T of 20 November 2000 on nuclear disarmament,

Reaffirming the commitment of the international community to the goal of the total elimination of nuclear weapons and the establishment of a nuclear-weapon-free world,

Bearing in mind that the Convention on the Prohibition of the Development, Production and Stockpiling of Bacteriological (Biological) and Toxin Weapons and on Their Destruction of 1972¹

and the Convention on the Prohibition of the Development, Production, Stockpiling and Use of Chemical Weapons and on Their Destruction of 1993² have already established legal regimes on the complete prohibition of biological and chemical weapons, respectively, and determined to achieve a nuclear weapons convention on the prohibition of the development, testing, production, stockpiling, loan transfer, use and threat of use of nuclear weapons and on their destruction, and to conclude such an international convention at an early date,

Recognizing that there now exist conditions for the establishment of a world free of nuclear weapons,

Bearing in mind paragraph 50 of the Final Document of the Tenth Special Session of the General Assembly,³ the first special session devoted to disarmament, calling for the urgent negotiation of agreements for the cessation of the qualitative improvement and development of nuclear-weapon systems, and for a comprehensive and phased programme with agreed time frames, wherever feasible, for the progressive and balanced reduction of nuclear weapons and their means of delivery, leading to their ultimate and complete elimination at the earliest possible time,

Noting the reiteration by the States parties to the Treaty on the Non-Proliferation of Nuclear Weapons⁴ of their conviction that the Treaty is a cornerstone of nuclear non-proliferation and nuclear disarmament and the reaffirmation by the States parties of the importance of the decision on strengthening the review process for the Treaty,⁵ the decision on principles and objectives for nuclear non-proliferation and disarmament,⁵ the decision on the extension of the Treaty⁵ and the resolution on the Middle East,⁵ adopted by the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,

Reiterating the highest priority accorded to nuclear disarmament in the Final Document of the Tenth Special Session of the General Assembly and by the international community,

Recognizing that the Comprehensive Nuclear-Test-Ban Treaty⁶ and any proposed treaty on fissile material for nuclear weapons or other nuclear explosive devices must constitute disarmament measures, and not only non-proliferation measures,

Welcoming the entry into force of the Treaty on the Reduction and Limitation of Strategic Offensive Arms (START I),⁷ to which Belarus, Kazakhstan, the Russian Federation, Ukraine and the United States of America are States parties,

Welcoming also the ratification of the Treaty on Further Reduction and Limitation of Strategic Offensive Arms (START II)⁸ by the Russian Federation, and looking forward to its early entry into force and its full implementation and to an early commencement of START III negotiations,

Noting with appreciation the unilateral measures by the nuclear-weapon States for nuclear arms limitation, and encouraging them to take further such measures,

Recognizing the complementarity of bilateral, plurilateral and multilateral negotiations on nuclear disarmament, and that bilateral negotiations can never replace multilateral negotiations in this respect,

Noting the support expressed in the Conference on Disarmament and in the General Assembly for the elaboration of an international convention to assure non-nuclear-weapon States

against the use or threat of use of nuclear weapons, and the multilateral efforts in the Conference on Disarmament to reach agreement on such an international convention at an early date,

Recalling the advisory opinion of the International Court of Justice on the *Legality of the Threat or use of Nuclear Weapons*, issued on 8 July 1996,⁹ and welcoming the unanimous reaffirmation by all Judges of the Court that there exists an obligation for all States to pursue in good faith and bring to a conclusion negotiations leading to nuclear disarmament in all its aspects under strict and effective international control,

Mindful of paragraph 114 and other relevant recommendations in the Final Document of the Twelfth Conference of Heads of State or Government of Non-Aligned Countries, held at Durban, South Africa, from 29 August to 3 September 1998,¹⁰ calling upon the Conference on Disarmament to establish, on a priority basis, an ad hoc committee to commence negotiations in 1998 on a phased programme of nuclear disarmament and for the eventual elimination of nuclear weapons with a specified framework of time,

Recalling paragraph 72 of the Final Document of the Thirteenth Ministerial Conference of the Movement of Non-Aligned Countries, held at Cartagena, Colombia, on 8 and 9 April 2000,¹¹

Bearing in mind the principles and guidelines on the establishment of nuclear-weapon-free zones, adopted by the Disarmament Commission at its substantive session of 1999,¹²

Welcoming the United Nations Millennium Declaration,¹³ in which heads of State and Government resolve to strive for the elimination of weapons of mass destruction, in particular nuclear weapons, and to keep all options open for achieving this aim, including the possibility of convening an international conference to identify ways and means of eliminating nuclear dangers,

Seized of the danger of the use of weapons of mass destruction, particularly nuclear weapons, in terrorist acts and the urgent need for concerted international efforts to control and overcome it,

1. *Recognizes* that, in view of recent political developments, the time is now opportune for all the nuclear-weapon States to take effective disarmament measures with a view to the elimination of these weapons;
2. *Also recognizes* that there is a genuine need to diminish the role of nuclear weapons in security policies to minimize the risk that these weapons will ever be used and to facilitate the process of their total elimination;
3. *Urges* the nuclear-weapon States to stop immediately the qualitative improvement, development, production and stockpiling of nuclear warheads and their delivery systems;
4. *Also urges* the nuclear-weapon States, as an interim measure, to de-alert and deactivate immediately their nuclear weapons and to take other concrete measures to reduce further the operational status of their nuclear weapon systems;
5. *Reiterates its call upon* the nuclear-weapon States to undertake the step-by-step reduction of the nuclear threat and to carry out effective nuclear disarmament measures with a view to the total elimination of these weapons;
6. *Calls upon* the nuclear-weapon States, pending the achievement of the total elimination of nuclear weapons, to agree on an internationally and legally binding instrument on the joint undertaking not to be the first to use nuclear weapons, and calls upon all States to

conclude an internationally and legally binding instrument on security assurances of non-use and non-threat of use of nuclear weapons against non-nuclear-weapon States;

7. *Urges* the nuclear-weapon States to commence plurilateral negotiations among themselves at an appropriate stage on further deep reductions of nuclear weapons as an effective measure of nuclear disarmament;

8. *Underlines* the importance of applying the principle of irreversibility to the process of nuclear disarmament, nuclear and other related arms control and reduction measures;

9. *Welcomes* the positive outcome of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons and the unequivocal undertaking by the nuclear-weapon States, in the Final Document of the Review Conference, to accomplish the total elimination of their nuclear arsenals leading to nuclear disarmament, to which all States parties are committed under article VI of the Treaty,¹⁴ and the reaffirmation by the States parties that the total elimination of nuclear weapons is the only absolute guarantee against the use or threat of use of nuclear weapons,¹⁵ and calls for the full and effective implementation of the steps set out in the Final Document;

10. *Calls* for the immediate commencement of negotiations in the Conference on Disarmament, on a non-discriminatory, multilateral and internationally and effectively verifiable treaty banning the production of fissile material for nuclear weapons or other nuclear explosive devices on the basis of the report of the Special Coordinator¹⁶ and the mandate contained therein;

11. *Urges* the Conference on Disarmament to agree on a programme of work which includes the immediate commencement of negotiations on such a treaty with a view to their conclusion within five years;

12. *Calls* for the conclusion of an international legal instrument or instruments on adequate security assurances to non-nuclear-weapon States;

13. *Calls also* for the early entry into force and strict observance of the Comprehensive Nuclear-Test-Ban Treaty;⁶

14. *Expresses its regret* that the Conference on Disarmament was unable to establish an ad hoc committee on nuclear disarmament at its 2001 session, as called for in General Assembly resolution 55/33 T;

15. *Reiterates its call upon* the Conference on Disarmament to establish, on a priority basis, an ad hoc committee to deal with nuclear disarmament early in 2002 and to commence negotiations on a phased programme of nuclear disarmament leading to the eventual elimination of nuclear weapons;

16. *Calls* for the convening of an international conference on nuclear disarmament in all its aspects at an early date to identify and deal with concrete measures of nuclear disarmament;

17. *Requests* the Secretary-General to submit to the General Assembly at its fifty-seventh session a report on the implementation of the present resolution;

18. *Decides* to include in the provisional agenda of its fifty-seventh session the item entitled "Nuclear disarmament".

Convinced that the continuing existence of nuclear weapons poses a threat to all humanity and that their use would have catastrophic consequences for all life on Earth, and recognizing that the only defence against a nuclear catastrophe is the total elimination of nuclear weapons and the certainty that they will never be produced again,

Reaffirming the commitment of the international community to the goal of the total elimination of nuclear weapons and the creation of a nuclear-weapon-free world,

Mindful of the solemn obligations of States parties, undertaken in article VI of the Treaty on the Non-Proliferation of Nuclear Weapons,¹ particularly to pursue negotiations in good faith on effective measures relating to cessation of the nuclear-arms race at an early date and to nuclear disarmament,

TEXT:

The General Assembly,

Convinced that the use of nuclear weapons poses the most serious threat to the survival of mankind,

Bearing in mind the advisory opinion of the International Court of Justice of 8 July 1996 on the *Legality of the Threat or Use of Nuclear Weapons*,¹

Convinced that a multilateral, universal and binding agreement prohibiting the use or threat of use of nuclear weapons would contribute to the elimination of the nuclear threat and to the climate for negotiations leading to the ultimate elimination of nuclear weapons, thereby strengthening international peace and security,

Conscious that some steps taken by the Russian Federation and the United States of America towards a reduction of their nuclear weapons and the improvement in the international climate can contribute towards the goal of the complete elimination of nuclear weapons,

Recalling that, in paragraph 58 of the Final Document of the Tenth Special Session of the General Assembly,² it is stated that all States should actively participate in efforts to bring about conditions in international relations among States in which a code of peaceful conduct of nations in international affairs could be agreed upon and that would preclude the use or threat of use of nuclear weapons,

Reaffirming that any use of nuclear weapons would be a violation of the Charter of the United Nations and a crime against humanity, as declared in its resolutions 1653 (XVI) of 24 November 1961, 33/71 B of 14 December 1978, 34/83 G of 11 December 1979, 35/152 D of 12 December 1980 and 36/92 I of 9 December 1981,

Determined to achieve an international convention prohibiting the development, production, stockpiling and use of nuclear weapons, leading to their ultimate destruction,

Stressing that an international convention on the prohibition of the use of nuclear weapons would be an important step in a phased programme towards the complete elimination of nuclear weapons, with a specified framework of time,

Noting with regret that the Conference on Disarmament, during its 2001 session, was unable to undertake negotiations on this subject as called for in General Assembly resolution, 55/34 G of 20 November 2000,

1. *Reiterates its request* to the Conference on Disarmament to commence negotiations in order to reach agreement on an international convention prohibiting the use or threat of use of nuclear weapons under any circumstances;

2. *Requests* the Conference on Disarmament to report to the General Assembly on the results of those negotiations.

TEXT:

The General Assembly,

Bearing in mind its relevant resolutions,

Taking note of the relevant resolutions adopted by the General Conference of the International Atomic Energy Agency, the latest of which is resolution GC(45)RES/18, adopted on 21 September 2001,

Cognizant that the proliferation of nuclear weapons in the region of the Middle East would pose a serious threat to international peace and security,

Mindful of the immediate need for placing all nuclear facilities in the region of the Middle East under full-scope safeguards of the International Atomic Energy Agency,

Recalling the decision on principles and objectives for nuclear non-proliferation and disarmament adopted by the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons on 11 May 1995,¹ in which the Conference urged universal adherence to the Treaty as an urgent priority and called upon all States not yet parties to the Treaty to accede to it at the earliest date, particularly those States that operate unsafeguarded nuclear facilities,

Recognizing with satisfaction that, in the Final Document of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons,² the Conference undertook to make determined efforts towards the achievement of the goal of universality of the Treaty on the Non-Proliferation of Nuclear Weapons,³ and called upon those remaining States not parties to the Treaty to accede to it, thereby accepting an international legally binding commitment not to acquire nuclear weapons or nuclear explosive devices and to accept International Atomic Energy Agency safeguards on all their nuclear activities, and underlined the necessity of universal adherence to the Treaty and of strict compliance by all parties with their obligations under the Treaty,

Recalling the resolution on the Middle East adopted by the 1995 Review and Extension Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons on 11 May 1995,⁴ in which the Conference noted with concern the continued existence in the Middle East of unsafeguarded nuclear facilities, reaffirmed the importance of the early realization of universal adherence to the Treaty and called upon all States in the Middle East that had not yet done so, without exception, to accede to the Treaty as soon as possible and to place all their nuclear facilities under full-scope International Atomic Energy Agency safeguards,

Noting that Israel remains the only State in the Middle East that has not yet become party to the Treaty on the Non-Proliferation of Nuclear Weapons,

Concerned about the threats posed by the proliferation of nuclear weapons to the security and stability of the Middle East region,

Stressing the importance of taking confidence-building measures, in particular the establishment of a nuclear-weapon-free zone in the Middle East, in order to enhance peace and security in the region and to consolidate the global non-proliferation regime,

Emphasizing the need for all parties directly concerned to consider seriously taking the practical and urgent steps required for the implementation of the proposal to establish a nuclear-weapon-free zone in the region of the Middle East in accordance with the relevant resolutions of the General Assembly and, as a means of promoting this objective, inviting the countries concerned to adhere to the Treaty on the Non-Proliferation of Nuclear Weapons and, pending the establishment of the zone, to agree to place all their nuclear activities under International Atomic Energy Agency safeguards,

Noting that one hundred and sixty-one States have signed the Comprehensive Nuclear-Test-Ban Treaty,⁵ including a number of States in the region,

1. *Welcomes* the conclusions on the Middle East of the 2000 Review Conference of the Parties to the Treaty on the Non-Proliferation of Nuclear Weapons;⁶
2. *Reaffirms* the importance of Israel's accession to the Treaty on the Non-Proliferation of Nuclear Weapons⁵ and placement of all its nuclear facilities under comprehensive International Atomic Energy Agency safeguards, in realizing the goal of universal adherence to the Treaty in the Middle East;
3. *Calls upon* that State to accede to the Treaty on the Non-Proliferation of Nuclear Weapons without further delay and not to develop, produce, test or otherwise acquire nuclear weapons, and to renounce possession of nuclear weapons, and to place all its unsafeguarded nuclear facilities under full-scope International Atomic Energy Agency safeguards as an important confidence-building measure among all States of the region and as a step towards enhancing peace and security;
4. *Requests* the Secretary-General to report to the General Assembly at its fifty-seventh session on the implementation of the present resolution;
5. *Decides* to include in the provisional agenda of its fifty-seventh session the item entitled "The risk of nuclear proliferation in the Middle East".

TEXT:

The General Assembly,

Recalling its previous resolutions on the subject, including resolution 55/38 of 20 November 2000,

Reaffirming the primary role of the Mediterranean countries in strengthening and promoting peace, security and cooperation in the Mediterranean region,

Bearing in mind all the previous declarations and commitments, as well as all the initiatives taken by the riparian countries at the recent summits, ministerial meetings and various forums concerning the question of the Mediterranean region,

Recognizing the indivisible character of security in the Mediterranean and that the enhancement of cooperation among Mediterranean countries with a view to promoting the economic and social development of all peoples of the region will contribute significantly to stability, peace and security in the region,

Recognizing also the efforts made so far and the determination of the Mediterranean countries to intensify the process of dialogue and consultations with a view to resolving the problems existing in the Mediterranean region and to eliminating the causes of tension and the consequent threat to peace and security, and their growing awareness of the need for further joint efforts to strengthen economic, social, cultural and environmental cooperation in the region,

Recognizing further that prospects for closer Euro-Mediterranean cooperation in all spheres can be enhanced by positive developments worldwide, in particular in Europe, in the Maghreb and in the Middle East,

Reaffirming the responsibility of all States to contribute to the stability and prosperity of the Mediterranean region and their commitment to respecting the purposes and principles of the Charter of the United Nations, as well as the provisions of the Declaration on Principles of International Law concerning Friendly Relations and Cooperation among States in accordance with the Charter of the United Nations,¹

Noting the peace negotiations in the Middle East, which should be of a comprehensive nature and represent an appropriate framework for the peaceful settlement of contentious issues in the region,

Expressing its concern at the persistent tension and continuing military activities in parts of the Mediterranean that hinder efforts to strengthen security and cooperation in the region,

Taking note of the report of the Secretary-General,²

1. *Reaffirms* that security in the Mediterranean is closely linked to European security as well as to international peace and security;
2. *Expresses its satisfaction* at the continuing efforts by Mediterranean countries to contribute actively to the elimination of all causes of tension in the region and to the promotion of just and lasting solutions to the persistent problems of the region through peaceful means, thus ensuring the withdrawal of foreign forces of occupation and respecting the sovereignty, independence and territorial integrity of all countries of the Mediterranean and the right of peoples to self-determination, and therefore calls for full adherence to the principles of non-interference, non-intervention, non-use of force or threat of use of force and the inadmissibility of the acquisition of territory by force, in accordance with the Charter and the relevant resolutions of the United Nations;
3. *Commends* the Mediterranean countries for their efforts in meeting common challenges through coordinated overall responses, based on a spirit of multilateral partnership, towards the general objective of turning the Mediterranean basin into an area of dialogue, exchanges and cooperation, guaranteeing peace, stability and prosperity, and encourages them to strengthen such efforts through, inter alia, a lasting multilateral and action-oriented cooperative dialogue among States of the region;
4. *Recognizes* that the elimination of the economic and social disparities in levels of development and other obstacles, as well as respect and greater understanding among cultures in the Mediterranean, area will contribute to enhancing peace, security and cooperation among Mediterranean countries through the existing forums;
5. *Calls upon* all States of the Mediterranean region that have not yet done so to adhere to all the multilaterally negotiated legal instruments related to the field of disarmament and non-

proliferation, thus creating the necessary conditions for strengthening peace and cooperation in the region;

6. *Encourages* all States of the region to favour the necessary conditions for strengthening the confidence-building measures among them by promoting genuine openness and transparency on all military matters, by participating, inter alia, in the United Nations system for the standardized reporting of military expenditures and by providing accurate data and information to the United Nations Register of Conventional Arms;³

7. *Encourages* the Mediterranean countries to strengthen further their cooperation in combating terrorism in all its forms and manifestations, taking into account the relevant resolutions of the United Nations, international crime and illicit arms transfers and illicit drug production, consumption and trafficking, which pose a serious threat to peace, security and stability in the region and therefore to the improvement of the current political, economic and social situation and which jeopardize friendly relations among States, hinder the development of international cooperation and result in the destruction of human rights, fundamental freedoms and the democratic basis of pluralistic society;

8. *Requests* the Secretary-General to submit a report on means to strengthen security and cooperation in the Mediterranean region;

9. *Decides* to include in the provisional agenda of its fifty-seventh session the item entitled "Strengthening of security and cooperation in the Mediterranean region".

TEXT:

The General Assembly,

Recalling that, in its resolution 1911 (XVIII) of 27 November 1963, it expressed the hope that the States of Latin America would take appropriate measures to conclude a treaty that would prohibit nuclear weapons in Latin America,

Recalling also that, in the same resolution, it voiced its confidence that, once such a treaty was concluded, all States, and in particular the nuclear-weapon States, would lend it their full cooperation for the effective realization of its peaceful aims,

Considering that, in its resolution 2028 (XX) of 19 November 1965, it established the principle of an acceptable balance of mutual responsibilities and obligations between nuclear-weapon States and those that do not possess such weapons,

Recalling that the Treaty for the Prohibition of Nuclear Weapons in Latin America and the Caribbean (Treaty of Tlatelolco)¹ was opened for signature at Mexico City on 14 February 1967,

Noting with satisfaction the holding on 14 February 1997 of the eleventh special session of the General Conference of the Agency for the Prohibition of Nuclear Weapons in Latin America and the Caribbean in commemoration of the thirtieth anniversary of the opening for signature of the Treaty of Tlatelolco,

Recalling that, in its preamble, the Treaty of Tlatelolco states that military denuclearized zones are not an end in themselves but rather a means for achieving general and complete disarmament at a later stage,

Recalling also that, in its resolution 2286 (XXII) of 5 December 1967, it welcomes with special satisfaction the Treaty of Tlatelolco as an event of historic significance in the efforts to prevent the proliferation of nuclear weapons and to promote international peace and security,

Recalling further that in 1990, 1991 and 1992 the General Conference of the Agency for the Prohibition of Nuclear Weapons in Latin America and the Caribbean approved and opened for signature a set of amendments² to the Treaty of Tlatelolco,¹ with the aim of enabling the full entry into force of that instrument,

Recalling resolution C/E/RES.27 of the Council of the Agency for the Prohibition of Nuclear Weapons in Latin America and the Caribbean,³ in which the Council called for the promotion of cooperation and consultations with other nuclear-weapon-free zones,

Noting with satisfaction that the Treaty of Tlatelolco is now in force for thirty-two sovereign States of the region,

Also noting with satisfaction that the amended Treaty of Tlatelolco is fully in force for Argentina, Barbados, Brazil, Chile, Colombia, Costa Rica, Ecuador, Guyana, Jamaica, Mexico, Panama, Paraguay, Peru, Suriname, Uruguay and Venezuela,

1. *Welcomes* the concrete steps taken by some countries of the region during recent years for the consolidation of the regime of military denuclearization established by the Treaty for the Prohibition of Nuclear Weapons in Latin America and the Caribbean (Treaty of Tlatelolco);¹

2. *Urges* the countries of the region that have not yet done so to deposit their instruments of ratification of the amendments to the Treaty of Tlatelolco approved by the General

Conference of the Agency for the Prohibition of Nuclear Weapons in Latin America and the Caribbean in its resolutions 267 (E-V), 268 (XII) and 290 (E-VII);

3. *Decides* to include in the provisional agenda of its fifty-eighth session the item entitled "Consolidation of the regime established by the Treaty for the Prohibition of Nuclear Weapons in Latin America and the Caribbean (Treaty of Tlatelolco)".
