

The Ministers and Heads of Delegations that participated in the High-Level Segment of the substantive session of 2003 of the Economic and Social Council, held from 30 June to 2 July 2003 adopted a declaration with the following references to least-developed countries, landlocked developing countries and small island developing states. (E/2003/L.9* dated 3rd July 2003)

9. We invite members of the World Trade Organization to implement the commitments regarding trade-related technical assistance and capacity-building for developing countries, in particular the least developed countries, so that they can benefit from liberalized trade opportunities and adopt measures to reduce supply-side constraints, including by improving productivity and product diversification and enhancing competitiveness and community-based entrepreneurial capacity. We urge them to facilitate the accession of developing countries to the Organization, in particular the least developed countries and countries with economies in transition, taking into account the individual level of development of each country that applies for membership. In this regard, we welcome the recent agreement of the Organization to facilitate the accession of the least developed countries.
11. We urge developed countries that have not done so to make concrete efforts towards the target of 0.7 per cent of gross national product as official development assistance to developing countries and 0.15 to 0.20 per cent of gross national product of developed countries to least developed countries, as reconfirmed at the Third United Nations Conference on Least Developed Countries, and we encourage developing countries to build on progress achieved in ensuring that official development assistance is used effectively to help achieve development goals and targets. We acknowledge the efforts of all donors, commend those donors whose official development assistance contributions exceed, reach or are increasing towards the targets, and underline the importance of undertaking to examine the means and time frames for achieving the targets and goals.
34. We recognize the special needs of the least developed countries and reaffirm our commitment to the implementation of outcomes of the Third United Nations Conference on Least Developed Countries, in particular the elements related to rural development, enhanced market access and provision for enhanced technical assistance and support for capacity-building.
35. Recognizing also the special challenges in rural development faced by small island developing States, we reaffirm our commitment to the implementation of the Programme of Action for the Sustainable Development of Small Island Developing States and emphasize in this regard the importance of the international meeting to be held in Mauritius in 2004. Noting also that the geographical situation of the landlocked developing countries is an added constraint on their efforts to promote rural

development, we call for the implementation of specific actions related to the particular needs of those countries.
