Global E-commerce 2002:
E-commerce and E-government Operations - in a World at Risk

Conference at a Glance:

In the wake of the 9-11 terrorist attacks on NYC and Washington, it's clear: We MUST protect and sustain E-commerce and E-government initiatives from disruption due to terrorist or security breaches!

Global E-commerce 2002 boasts a FULL TWO-DAYS of intensive Diplomatic and Executive Level Presentations, and Expert Panels. Speakers will detail the latest developments on E-commerce and E-government Initiatives, and the latest Alternative Solutions to Security, Cyber Security, Network Assurance, Cyber/Bio/Terrorism, and Disaster Management Applications.

When and Where:

Tuesday and Wednesday, all-day February 26-27, 2002
United Nations Premises: E 46th Street at 1st Avenue, NYC, Conference Room 4

Special and Guest Speakers:

Ivan Simonovic
Permanent Rep. of Croatia to the UN; and,
President, UN ECOSOC

Bob F. Jalang'o
Permanent Rep. of Kenya to the UN; and,
Chairman, UN ECOSOC Working Group on Informatics

Steve Forbes
President & CEO, Forbes, and Editor-in-Chief,
Forbes Magazine

Robert Weaver
Assistant Agent-in-Charge,
NY Electronics Crime Task Force,
US Secret Service

Mike Lackey
President, AIT,
and the AIT Forum

Bernard B. Kerik, K.B.E.
Former Commissioner,
New York City Police Department

Expert Speakers from the Following Sectors:

Platinum Sponsors	Gold Sponsors	Media Sponsors	University Speakers
ADT	Accenture	CIO	Brown University
IBM	CASI-RUSCO	Computerworld	Dowling College
	Compaq	CP&M	New York University
	Concord	Forbes	Yale University School

Diplomat/Executive Briefing: Cyberthreat Response and Reporting

Our Diplomat and Chief Executive Officer (CEO) Level Briefing is always a Conference Highlight!

This Briefing will cover "Cyberthreat Response and Reporting." The US Secret Service, UN ECOSOC Working Group on Informatics, CIO Magazine, Forbes, and AIT, will co-lead the Briefing. We'll highlight the most pressing issues for senior level executives, whether the executives are running a Nation's or a Corporation's Knowledge Systems and Services.

This Briefing is open to all "Global E-commerce 2002" attendees. See page 5 for details.

Conference Overview

Global E-commerce 2002:
E-commerce and E-government Operations - in a World at Risk

Mike Lackey, President, AIT Global Inc.

In the wake of the 9-11 terrorist attacks on NYC and Washington, it's clear: We MUST protect and sustain E-commerce and E-government initiatives from disruption due to terrorist or security breaches!

Global E-commerce 2002 boasts a FULL TWO-DAYS of intensive and Hi-level Presentations and Expert Panels, designed especially for Diplomats, Officials, and Senior Management Executives in the Private Sector. Speakers will detail the latest developments on E-commerce and E-government Initiatives, and the latest Alternative Solutions to Security, Cyber Security, Network Assurance, Cyber/Bio/Terrorism, and Disaster Management Applications.

Global E-commerce 2002 will detail the strategic relationship between E-commerce, E-government, E-security, Security, Counter Terrorism, and Networking Management. Presenters will offer different ideas and concepts, to help you to grasp the high points of what's needed for your Nation or corporation to succeed. We'll cover software tools, various aspects of E- and physical security, and ways to design or use networks so they best complement your E- initiatives.

We invite you to take advantage of our expert speakers and to bring your questions. You'll have ample opportunities to speak and network with them.

Global E-commerce:
Opportunities and Challenges

Abbie Lundberg, Editor in Chief, CIO Magazine

CIO's Abbie Lundberg, editor-in-chief, Ambassador Percy Mangoaela, and AIT's Mike Lackey co-hosted the information-filled Special Diplomat and CEO Briefing that was a component part of the Global InfoSec 2001 Conference, that took place March 30, 2001.

The Internet and E-commerce will enable the developing world to participate in the global economy in three ways: as consumers, as sellers of goods, and as participants in the global workforce. But if developing countries are to participate as more than just the world's last-line consumers and lowest-cost workers, they must overcome a number of barriers. The most basic of these is the lack of reliable, affordable, widespread telecommunications services. In many areas, even more fundamental support structures must be provided as well – clean water, ample food, education, environmental controls and basic health care.

And that's just the beginning. To move beyond the most basic participation in the global economy, developing countries must wrestle with the difficult issues of how to open their markets to foreign trade and investment while preserving their national integrity. They must stabilize their own financial markets and legal systems. Countries with telecommunications' monopolies must open these systems to competition.

The Internet itself can help jumpstart these nascent efforts by providing access to incredible amounts of information and expert advice on everything from building wells and roads to health care, agriculture and technology. E-learning offers access to the world's educational resources.

Clearly, providing reliable and affordable Internet access is a necessary cost of entry, but it's still just a first step.

Notes From the Chairman

E-commerce:
A Tool Toward the Attainment of Sustainable Global Development

Bob F. Jalang'o,
Ambassador/Permanent Representative & Chairman of Working Group on Informatics
Kenya Mission to UN, New York.

The tragic events of September 11, 2001 in New York and Washington have confirmed the vulnerabilities of our commercial and military installations and facilities. They can be dealt a devastating blow in the twinkling of an eye by suicidal terrorists. These determined people, in fact, utilize modern technologies to plan, coordinate and execute terror and fear. It is abundantly clear that governments have to maximize the use of the same ICT tools to protect and sustain all the E-commerce and government initiatives, and private and public sector ventures from unnecessary disruption.

Cosponsors Carol Lackey, AIT, and Ambassador Bob F. Jalang'o at the conclusion of a recent and informative AIT-UN Ambassadors' Working Breakfast.

The need for increased contingency planning and management can no longer be taken for granted, even by small organizations, permanent missions, or even our own young and developing governments.

What about the chain of devastating events that can be caused by cyber terrorism, that can destroy or corrupt invaluable databases of an organization? Or a simple, but incurable virus that is transmitted via the Internet to multiple websites and e-mails, some of which mutate, multiply or incubate and then attack with subsequent ferocity.

We therefore laud the launching of the ICT Task Force last November by the UN Secretary General thereby fulfilling the mandate contained in the ministerial declaration of the high level segment of ECOSOC, and adopted by the Council in July 2000. It is our hope that the Task Force will work closely with all the stakeholders: the public and private sectors, and civil society, and to make specific recommendations for bridging the digital divide with a view to improving global economic and social development.

The Global E-commerce 2002 Conference, to take place on 26-27 February 2002 in New York, is therefore timely for policy makers, administrators and managers who will have two days of extensive sessions from executive speakers on: E-commerce, E-government, Security (personal, physical and data); cyber and counter terrorism; Networking; Disaster Planning and Management and many more.

I am confident that our development partners will continue to support various ICT initiatives being undertaken to enhance and improve productivity in economic and social sectors in our member states. This conference offers that unique opportunity for exchange of views between experts, users and policy makers.

Global E-commerce 2002, Morning Schedule, Feb. 26

E-commerce and E-government Operations - in a World at Risk, Feb. 26, 2002
United Nations Premises, Conference Room 4
Morning Schedule, through Special Luncheon in Honor of Ambassadors

9.00-9.30	**Registration**
9.30-10.00	Welcome and Opening Remarks: Bob F. Jalang'o, Ambassador and Permanent Representative of Kenya to the United Nations; and, Chairman, UN ECOSOC Working Group on Informatics. Mike Lackey, President, AIT and the AIT Forum.
10.00-10.25	Ivan Simonovic, Ambassador and Permanent Representative of the Republic of Croatia to the United Nations; and, President, UN ECOSOC, will offer a vision – a vision that will focus on the achievement of a global society for E-commerce. He will explain why ECOSOC views the business of E-commerce not as an end unto itself, but as a means toward peace and security, sustainable development, and the promotion of health and education. Finally, Ambassador Simonovic will brief the audience on the progress of the United Nations ICT Task Force, created by ECOSOC decision less than a year ago.
10.25-10.50	Stephen Mendonca, Vice President, E-government Strategy & Solutions, Compaq, will discuss "Leveraging the Power of E-government." E-government is a powerful catalyst for progress and national leadership. As governments respond to new demands for cost reduction and online delivery of citizen services, they must adapt quickly to the new Internet paradigm or fall behind. E-government offers a variety of starting points, but meaningful results require strategic planning and the right infrastructure. Learn from the best practices.
10.50-11.15	Break
11.15-12.05	Expert Panel: Moderator – Michael Meehan, Senior Writer, E-commerce, ComputerWorld Magazine. Topic: "E-security as an Enabler in an E-commerce World." Bring questions! Panelists: Douglas A. Batt, VP and General Counsel, Concord Communications; Gerry Abdella, Director, NACS, Compaq; Denis Gilhooly, Senior Advisor to the UNDP Administrator; Marilyn McMillan, CITO, New York University; Alan Simpson, President, IntelBriefing.com
12.05-12.30	Hap Brakely, Global Industry Managing Partner, Media & Entertainment Industry Practice, Accenture, will discuss "Global Digital Entertainment Markets that Require Acceptance of an Orderly and Secure Distribution Infrastructure System." Music and movies speak the international language of entertainment. Borderless products require security, in their digital format, to establish an orderly worldwide market. Accenture speaks to creation and management of digital assets along with security infrastructure issues that government, markets and copyright owners must construct to maximize access sought by the consumers of the world.
12.30-1.00	Steve Forbes, President & CEO, Forbes, Inc., and Editor-in-Chief, Forbes Magazine. This Briefing will provide a high level presentation on "Growth and Technology - What is Coming for the Global Economy?"
1.00-1.15	FOR Special Invitees to Special Luncheon in Honor of UN Ambassadors: Please move to DDR, West Terrace. ~~~~~~ FOR Private Sector Attendees: Please take lunch outside of the UN at any of a number of nearby and excellent restaurants on the East Side. Please keep your UN Security Passes and return to the UN promptly at 2.20.
1.15-2.20	Special Luncheon in Honor of United Nations Ambassadors: Delegates Dining Room, West Terrace. Hosted by Ambassador Jalang'o and Mike Lackey, AIT. By Ambassadorial Invitation only. Sponsored by Platinum Sponsor IBM. Special Luncheon Speaker Ed Harbour, Executive-in-Charge, WebSphere Commerce, IBM, will discuss "E-commerce and its Impact on Developing Nations." Ed will explain why Businesses interested in offering goods and services to new customers, whether in the next village or on the other side of the globe, will find that E-commerce not only provides support for safe, secure transactions, but delivers a purchasing experience that is sensitive to the subtleties of global cultural needs.
2.20-2.30	Attendees return to Conference Room 4 for Afternoon Keynote Presentations.

E-commerce and E-government Operations - in a World at Risk, Feb. 26, 2002
United Nations Premises, Conference Room 4
Afternoon Schedule

2.30-2.35	Welcome Back: New York State Governor, George E. Pataki, will be represented by James Kelly, Assistant Director of Technology/Administration, New York State Office of Public Security. He, Ambassador Jalang'o, and Mike Lackey, AIT, will welcome the attendees to the afternoon's sessions.
2.35-3.00	Douglas A. Batt, Vice President and General Counsel of Concord Communications, Inc., will discuss "The Growth and Management of the Global Internet Infrastructure." You will learn why the Internet can be a powerful tool for facilitating economic, political and social development. Will the future growth and management of the global Internet infrastructure fulfill or frustrate this promise?
3.00-3.25	Bob Weaver, Assistant Special Agent-in-Charge, New York Electronic Crimes Task Force, United States Secret Service, New York Field Office. Bob will firmly link overall Security Measures to E-commerce and E-government, with an excellent overview on the "Systemic Approach to Physical and Cyber Security." He will provide tips on the Best of Breed Practices, as they apply to a coordinated effort with Information Technologies and the Physical Security staff.
3.25-3.50	Break
3.50-4.15	Jocelyne Attal, VP of Marketing, Application & Integration Middleware, IBM, will discuss "E-government - Improving Service Levels through Universal Access and Efficiency." She explains how governments can obtain benefits today using Internet technologies; what is E-business and E-government; the role of government and the private sector in transforming to E-business; examples of increasing service levels, real benefits, security and productivity concerns; and high level technology challenges a strong E-business infrastructure can address.
4.15-5.05	Expert Panel: Moderator - Martin LaMonica, Executive Editor, InfoWorld Magazine. Topic: "Can E-security Make or Break Global E-commerce and E-government Networks?" Bring questions! Panel Members: Hap Brakely, Global Industry Managing Partner, Media & Entertainment Industry Practice, Accenture; Sandra Carter, VP, WebSphere Marketing and Channel Execution, IBM; Dr. Ron Black, VP IT and Distance Learning, Dowling College, Chris Morgan, Chief, Internet Services, UNDP.
5.05-6.00	We invite you to stay for our "Diplomat and Chief Executive Officer (CEO) Level Briefing," that is always a Conference Highlight! This Briefing will cover "Cyberthreat Response and Reporting." We'll highlight the most pressing issues for senior level executives, whether the executives are running a Nation's or a Corporation's Knowledge Systems and Services. The US Secret Service's Bob Weaver, UN ECOSOC Working Group on Informatics' Ambassador Jalang'o, Forbes' Victoria Murphy, CIO's Gary Beach and Abbie Lundberg, and AIT's Mike Lackey will lead this Briefing. This Briefing is open to all attendees at "Global E-commerce 2002."
6.00-6.15	End of day statements: Ambassador Jalang'o and Mike Lackey, AIT.

Global E-commerce 2002, Morning Schedule, Feb. 27

E-commerce and E-government Operations - in a World at Risk, Feb. 27, 2002
United Nations Premises, Conference Room 4
Morning Schedule, through Special Luncheon in Honor of Ambassadors

9.00-9.30	**Registration**
9.30-10.00	Welcome and Opening Remarks: Toshiyuki Niwa, Assistant Secretary General for Central Support Services, will be represented by Michael Clark, Officer-in-Charge of the Integrated Management Information Service, Information Technology Services Division. He, Ambassador Jalang'o, and Mike Lackey, AIT, will welcome the attendees to the day's sessions.
10.00-10.25	Richard Mavrogeanes, founder, chief technology officer, president and chairman of VBrick Systems, will discuss "Using Television To Create A Secure Environment." With recent advances in video and networking technologies, many organizations have converged the delivery of visual information with their data networks to create not only a more secure environment for workers, but also one that is more productive. This presentation will detail how organizations can greatly benefit from these technologies.
10.25-10.50	Sandra England, Executive Vice President of Business Development and Strategic Research, Network Associates. In her presentation, Sandra will focus on "Threats to and Solutions for Security and Reliability of the Online World." Sandra's talk will outline a Blueprint Strategy for ensuring security and reliability.
10.50-11.15	Break
11.15-12.05	Expert Panel: Moderator - Andy Hagg, executive editor, CP&M, will discuss the "Physical and Cyber Security Threats Organizations Commonly Face; and, how Proper Disaster Management can Effectively Address Those Threats." Terry Benzel, VP, Advanced Security Research, Network Associates, Richard Mavrogeanes, founder, chief technology officer, president and chairman, VBrick, Norman A. Willox Jr., Chief Officer for Privacy, Industry and Regulatory Affairs, LexisNexis, Dr. Charlotte Bell, MD, Associate Professor, Department of Anesthesiology, Yale University School of Medicine, Thierry Beniflah, ICT Specialist, Bureau for Crises Prevention and Recovery, UNDP.
12.05-12.30	Chris Jones, Senior Vice President, Risk Solutions, LexisNexis Group, will discuss "Identity Fraud: The Underlying Dilemma of Growing Global Terrorism." A false identification almost always underpins the commission of fraud, money laundering, and terrorist acts. Jones will discuss informational and technical solutions that have been used or proposed and technical and societal objections to the solutions. Importantly, he will show how limited knowledge of their effectiveness needs to be addressed.
12.30-1.00	Bernard B. Kerik, K.B.E., former Commissioner, New York City Police Department, Sponsored by ADT, will provide an executive look at the workings of the NYPD in the face of the 9-11 terrorist actions.
1.00-1.15	FOR Special Invitees to Special Luncheon in Honor of UN Ambassadors: Please move to DDR, West Terrace. ~~~~~~ FOR Private Sector Attendees: Please take lunch outside of the UN at any of a number of nearby and excellent restaurants on the East Side. Please keep your UN Security Passes and return promptly at 2.20.
1.15-2.20	Special Luncheon in Honor of United Nations Ambassadors: Delegates Dining Room, West Terrace. By Ambassadorial Invitation only. Hosted by Ambassador Jalang'o and Mike Lackey, AIT. Sponsored by Platinum Sponsor ADT. Special Guest Speaker, Sponsored by ADT: Bernard B. Kerik, K.B.E., former Commissioner, New York City Police Department. Commissioner Kerik, K.B.E., the 40th Commissioner in the illustrious history of the New York City Police Department, will discuss "How Accountability in Government can Increase Tourism, Decrease Waste and Taxes, and Reduce Crime."
2.20-2.30	Return to Conference Room 4 for Afternoon Keynote Presentations.

Global E-commerce 2002, Afternoon Schedule, Feb. 27

E-Commerce and E-government Operations - in a World at Risk, Feb. 27, 2002
United Nations Premises, Conference Room 4
Morning Schedule, through Luncheon in Honor of Ambassadors

2.30-2.35	Welcome Back: Nitin Desai, Under Secretary General, United Nations Department of Economic and Social Affairs (DESA), will be represented by Sarbuland Khan, Director, Division for Economic and Social Council Support and Coordination, DESA. He, Ambassador Jalang'o, and Mike Lackey, AIT, will welcome the attendees to the afternoon sessions.
2.35-3.00	Rich Anderson, Vice President of Advanced Technology for CASI-RUSCO, will address "The State of Electronic Security Systems in the Post 9-11 World." The recent events have brought into sharp focus the necessity for physical premises security. This presentation discusses the importance of electronic security systems for the protection of personnel, infrastructure and information. Also overviewed are the latest technologies available for these integrated security systems.
3.00-3.25	Break
3.25-4.15	Expert Panel: Moderator – Neil A. Weinberg, Senior Editor, Forbes Magazine. Topic: "Designing the Proper Physical and Cyber Security Measures for Your Situation" Panelists: Robert Biscardi, Service Director, ADT; Rich Anderson, VP, CASI-RUSCO; Anne Oribello, InfoSec Officer, Brown University, Michael Dudley, Chief of Legal Support Section, UNOPS.
4.15-4.30	Bob Magnuson, President and Chief Executive Officer (CEO), Infoworld Magazine. Bob will discuss "IT Security For the Enterprise," based on studies conducted in Infoworld's $23,000,000 test center - the only independent test center among IT Publications. He will provide insight, based on an exclusive Infoworld Test Center Report, for executives who are responsible for all-inclusive IT Security for their Enterprise – or Nation!
4.30-4.45	Closing Statements: Mark Malloch Brown, Administrator, United Nations Development Program (UNDP), will be represented by Denis Gilhooly, Director and Policy Advisor to the Administrator.
4.45-5.00	Conclusion Ambassador Jalang'o, and Mike Lackey, AIT.

Global E-commerce 2002 Presenters

We are pleased to introduce you to our wide-ranging array of E-commerce and IT Experts, who will help to make this conference as successful as possible for you.

SPECIAL GUEST SPEAKERS:

Ivan Simonovic is Ambassador and Permanent Representative of the Republic of Croatia to the United Nations; and, President, UN ECOSOC

Steve Forbes is President & Chief Executive Officer of Forbes, and Editor-in-Chief of Forbes Magazine. Mr. Forbes assumed his position in 1990. Since that time, Forbes has expanded, launching a variety of new publications and businesses. They include: Forbes FYI, the irreverent lifestyle supplement; Forbes ASAP Featuring Best of the Web, the technology supplement for management decision-makers; Forbes Global, the magazine's international publication, introduced in 1998; a Japanese-language edition of Forbes; Forbes Brasil, a Portuguese-language edition serving South America's largest economy; and the Gilder Report.

Bernard B. Kerik, K.B.E., (Sponsored by ADT) is the former Commissioner, New York City Police Department. Commissioner Kerik was the 40th Commissioner in the illustrious history of the New York City Police Department. Commissioner Kerik is known worldwide as one of the Heroes who helped New York City and the United States address and deal with the terrorist activities of 9-11, and beyond.

Bob Weaver is the Assistant Special Agent-in-Charge, New York Electronic Crimes Task Force, United States Secret Service, New York Field Office. With over twenty-five years government service, Bob has served in law enforcement from Washington, D.C., to New Haven, CT.

BUSINESS SECTOR PRESENTERS:

ADT Platinum Sponsorship Presenter, Platinum Keynote: Bernard B. Kerik K.B.E., (Sponsored by ADT) is the former Commissioner, New York City Police Department. Commissioner Kerik was the 40th Commissioner in the illustrious history of the New York City Police Department. Commissioner Kerik is known worldwide as one of the Heroes who helped New York City and the United States address and deal with the terrorist activities of 9-11, and beyond. Commissioner Kerik is the Featured Presenter at the Special Luncheon in Honor of United Nations Ambassadors, on February 27.
Panelist: Robert Biscardi, Service Director, ADT.

Accenture Gold Sponsorship Presenter: Hap Brakely is the Global Managing Partner for the Media & Entertainment Practice for Accenture. In addition, he is a member of the Communications and High Tech Global Operating Committee as well as leading the global CHT Netsourcing and Digital Content Services initiatives.

CASI-RUSCO Gold Sponsorship Presenter: Rich Anderson is Vice President of Advanced Technology for CASI-RUSCO. He is responsible for the company's overall business and marketing strategies.

Compaq Gold Sponsorship Presenters: Stephen Mendonca, Ph.D., is Vice President for Global E-Government Strategies & Solutions at Compaq. He joined Compaq in 1997, after a career at IBM. He believes in the transforming influence of high-tech disciplines like E-business, E-learning, and E-governance in bridging the digital divide.
Panelist: Gerry Abdella, Dir. NACS, Compaq Computer Corporation.

Concord Communications Gold Sponsorship Presenter: Douglas A. Batt is Vice President and General Counsel of Concord Communications, Inc. He has served as a speaker for the Institute for International Studies and is a faculty member of the Practicing Law Institute.

IBM Platinum Sponsorship Presenter, Platinum Keynote: Jocelyne Attal, Vice President, spearheads IBM's global marketing strategy for WebSphere, an industry leading software platform for E-business. She joined IBM in 1997, served as VP, Worldwide Channel Sales and Marketing for IBM Software and is a member of the World Economic Forum's Global Leaders for Tomorrow.
Special Luncheon Speaker: Ed Harbour is the Executive-in-Charge of the IBM WebSphere Commerce family, including worldwide solutions for E-commerce, secure order and payment, relationship marketing, and business integration. Ed joined IBM in 1981 and has global business experience in over 15 countries.
Panelist: Sandra Carter, Vice President, WebSphere Marketing and Channel Execution, IBM Software Group, has worldwide responsibility for market strategy and execution for the WebSphere brand, IBM's award-winning middleware platform. Sandy joined IBM in 1989 and was formerly VP of E-commerce marketing for electronic commerce products.

Network Associates Gold Sponsorship Presenters: Sandra England is the EVP, Business Development and Strategic Research. She is responsible for the company's overall business strategy, including development of strategic partnerships, mergers and acquisitions, and NAI Labs, the company's advanced security research organization.
Panelist: Terry Benzel is the VP, Advanced Security Research. As Director of NAI Labs, she leads the nation's premier advanced security research laboratory, with a staff of 100 researchers performing leading-edge research on security issues two to five years in the future.

LexisNexis Group Gold Sponsorship Presenter: Chris Jones is senior vice president, Risk Solutions, LexisNexis Group. He is responsible for development of products and consulting services to manage risk through fraud detection and prevention, identity verification, pre-employment screening and due diligence.

Global E-commerce 2002 Presenters

Panelist: Norman A. Willox Jr. is Chief Officer for Privacy, Industry and Regulatory Affairs for LexisNexis Group, including global industry relations. Among his other responsibilities, Willox is chairman and founder of the National Fraud Center where he was CEO for over 10 years.

VBrick Systems Gold Sponsorship Presenter: Richard Mavrogeanes, founder, chief technology officer, president and chairman of VBrick Systems (which recently received $22 million in funding), has been in the communications industry for some 30 years. Prior to founding VBrick, he was VP of Marketing at Switched Network Technologies.

UN PRESENTERS:
UNDP Presenters: Denis Gilhooly is the Senior Advisor to the UNDP Administrator, and Director for ICT for Development.
Sarbuland Khan is the Director, Division for Economic and Social Council Support and Coordination, DESA.
Michael Clark is the Officer-in-Charge of the Integrated Management Information Service, Information Technology Services Division.
Chris Morgan, Chief, Internet Services, UNDP.
Thierry Beniflah, ICT Specialist, Bureau for Crises Prevention and Recovery, UNDP.
Michael Dudley, Chief of Legal Support Section, UNOPS.

NEW YORK STATE PRESENTER:
James Kelly, Assistant Director of Technology/Administration, New York State Office of Public Security.

KNOWLEDGE SECTOR PRESENTERS:
CIO Presenters: Gary Beach, Group Publisher, brings over seventeen years of information technology (IT) publishing experience and knowledge to his role as group publisher.
Abbie Lundberg, editor in chief of the award-winning CIO magazine, has over 14 years experience in business and technology journalism.

IntelBriefing.com Presenter: Alan Simpson, global satellite news pioneer, is President of Washington, D.C. based Communication Links, Inc., and the popular ComLinks.com.

Computerworld Presenter: Michael Meehan, Senior Writer, E-commerce, Computerworld Magazine, has been a journalist covering global IT (information technology) and political issues for the past seven years.

Contingency Planning & Management (CP&M) Presenter: Andy Hagg, executive editor, for CP&M, Witter Publishing's Contingency Management magazine, a journal that covers the technology products, services, information, and management strategies that support business continuity.

InfoWorld Presenters: Bob Magnuson, President and Chief Executive Officer, has spent 25 years in the media business, as a reporter, editor and executive. For six years he was business editor of the Los Angeles Times, responsible for technology coverage, before serving in a number of senior executive roles.
Martin LaMonica Executive Editor, InfoWorld. With over ten years of IT journalism experience, Martin plans the day-to-day news and features operations at InfoWorld Media Group.

Forbes Presenters: Neil A. Weinberg, Senior Editor, Forbes Magazine, has been a journalist covering technology, finance, business, economics, and politics, for over 14 years.
Victoria Murphy, as a Senior Reporter, covers Internet and software security, plus mall businesses and financial fraud. Represents Forbes, on occasion, on the Forbes TV business show, "Forbes on Fox."

UNIVERSITY PRESENTERS:
Brown University: Anne Oribello, Information Security Officer

Dowling College: Dr. Ron Black, Vice President for Technology & Distance Learning.

New York University: Marilyn McMillan, Chief Information Technology Officer

Yale University School of Medicine: Charlotte Bell, MD, Associate Professor, Department of Anesthesiology

Global E-commerce 2002: Profiles

ORGANIZING AND SPECIAL GROUPS:

The UN ECOSOC Working Group on Informatics (www.un.org and www.un.org/ecosocdev/):
The UN ECOSOC Working Group on Informatics has the following global mission: 1. To sensitize Nations to the gravity of the Digital Divide; 2. To help determine the impact of Information and Communications Technologies (ICT) on the economic and social development of Developing Countries, and on Nations in transition from command to market-based economies; 3. To analyze and emphasize solutions to meet global challenges created by the rapid growth of ICT.

AIT Global Inc. (www.aitglobal.com): AIT, founded in 1986 with the State University of New York at Farmingdale, is a global association of information technologies professionals that organizes high-level Information, Communication, and Technology (ICT), and Security, Conferences for its Membership - Forbes 500 IT professionals - and for UN Ambassadors, Ministers, Diplomats, and others in the UN Community.

UN ECOSOC (United Nations Economic and Social Council) (http://www.un.org/esa/coordination/ecosoc/charter.htm):
The Economic and Social Council was established as the principal organ, under the authority of the General Assembly, to promote: (a) higher standards of living, full employment, and conditions of economic and social progress and development; (b) solutions of international economic, social, health, and related problems; and international cultural and educational cooperation; and (c) universal respect for, and observance of, human rights and fundamental freedoms for all without distinction as to race, sex, language, or religion.

United Nations ICT Task Force (http://www.unicttaskforce.org)
The objective of the Task Force is to "provide overall leadership to the United Nations role in helping to formulate strategies for the development of information and communication technologies and putting those technologies at the service of development and, on the basis of consultations with all stakeholders and Member States, forging a strategic partnership between the United Nations system, private industry and financing trusts and foundations, donors, programme countries and other relevant stakeholders in accordance with relevant United Nations resolutions."

PRIVATE SECTOR SPONSORS:

ADT (www.adt.com): Platinum Sponsor ADT, formed in 1874, is the electronic security industry's leader. This leadership, along with a spirit of innovation and attention to customer service, continues to set ADT apart. As you look at ADT's remarkable corporate history, you will come to understand their justifiable pride in being part of a lasting and important enterprise.

Accenture (www.accenture.com): Gold Sponsor Accenture is the world's leading provider of management and technology consulting services and solutions, with more than 75,000 people in 46 countries delivering a wide range of specialized capabilities and solutions to clients across all industries. Under its strategy, Accenture is building a network of businesses to meet the full range of any organization's needs -- consulting, technology, outsourcing, alliances and venture capital.

CASI-RUSCO (www.casi-rusco.com): Gold Sponsor CASI-RUSCO, based in Boca Raton, FL has been the most respected name in the security industry for more than 35 years. Today, CASI-RUSCO offers the most concentrated experience in the access control industry and a customer base of thousands of the world's most prestigious companies with installations in over 370 of the Fortune 1000 and 195 of the Global 500.

Compaq Computer Corporation (www.compaq.com): Gold Sponsor Compaq is a leading global provider of enterprise technology and solutions. Compaq designs, develops, manufactures and markets hardware, software, solutions and services, including enterprise storage and computing solutions, fault-tolerant business-critical solutions, communication products, and personal computers, in over 200 countries.

Concord Communications, Inc. (www.Concord.com): Gold Sponsor Concord Communications develops the world's most widely used integrated software products for automating IT fault and performance management. Concord Communications' eHealth Suite* makes information technology infrastructures run at top performance by continuously fine-tuning systems, networks and applications.

IBM (www.ibm.com): Platinum Sponsor IBM is a global corporation that develops and manufactures advanced information technologies and translates them into customer value through professional solutions and services businesses worldwide. Its Software Division includes the WebSphere family of award winning products and solutions for E-commerce and E-security. These address many of the Global Business and Governmental concerns the conference attendees face.

LexisNexis (www.lexisnexis.com): Gold Sponsor LexisNexis™ is the global leader in providing comprehensive, authoritative news, business and legal information solutions to academic, corporate, government and legal markets, and is a member of Reed Elsevier plc. The LexisNexis services combine searchable access to over 3 billion documents from thousands of sources with leading-edge systems and tools for managing and evaluating this content.

Network Associates Inc. (www.nai.com): With headquarters in Santa Clara, Calif., Gold Sponsor Network Associates, Inc. is a leading supplier of network security and availability solutions. Network Associates is comprised of three product groups: McAfee, delivering world-class anti-virus and security products; Sniffer, a leader in network availability and system security; and Magic, providing web-based service desk solutions.

VBrick Systems, Inc. (www.vbrick.com): Based in Wallingford, Connecticut, Gold Sponsor VBrick develops, manufactures and supports MPEG hardware and software products and systems that deliver DVD-quality video and audio through existing broadband networks, enabling organizations to make one- and two-way video an essential part of their operations.

Global E-commerce 2002: Profiles

KNOWLEDGE SECTOR SPONSORS:

CIO Magazine (www.cio.com): CIO, International Data Group's staple bi-monthly magazine for IT executives, bridges the gap by bringing CIOs and Senior Executives the insight and experience of their peers through CIO's trademark case-study approach.

Forbes Magazine (www.forbes.com): Forbes is a major media company providing business information services and lifestyle editorial content to serve the needs of business leaders, professionals, investors and affluent consumers.

InfoWorld Magazine (www.infoworld.com): In print weekly and online daily, InfoWorld provides in-depth technical analysis on key products, solutions and technologies for sound buying decisions and business gain.

Computerworld Magazine (www.computerworld.com): Computerworld is the flagship weekly newspaper of International Data Group, one of the largest publishers of IT magazines and newspapers in the world.

IntelBriefing.com (www.intelbriefing.com): IntelBriefing.com creates media, information, and business intelligence resources, and networks. It operates ComLinks.com, the leading Technology Network News, on the Internet.

CP&M (www.contingencyplanning.com): CP&M is the comprehensive source for business continuity information, through its monthly publication, annual conference and exhibition, and interactive website.

Security Magazine (www.securitymagazine.com): A Business-to-Business Magazine, Security Magazine is specifically targeted to buyers of electronic security services.

UNITED NATIONS PARTICIPANTS:

United Nations Development Program – UNDP (www.un.org): UNDP is directly involved at the country level in ICT for Development, at both the policy and project making level. UNDP coordinates closely with the G-8 Dot Force and the UN ICT Task Force.

United Nations Office for Project Services – UNOPS (www.un.org): UNOPS is the only self-financing system in the UN System, providing Project Management and Execution.

UNITED STATES SECRET SERVICE PARTICIPANT:

US Secret Service, The New York Electronic Crimes Task Force (NYECTF) (www.ustreas.gov): The New York Electronic Crimes Task Force represents the flagship of the Secret Service's nationwide effort to protect consumers from computer crime.

NEW YORK STATE PARTICIPANT:

New York State Office of Public Security (www.state.ny.us): The Office coordinates all State efforts to detect, identify, address, respond to and prevent terrorists acts from occurring within the State.

UNIVERSITY PARTICIPANTS:

Brown University (www.brown.edu): Founded in 1764, Brown University is the seventh oldest college in the nation. In 1969 the "New Curriculum" was introduced which removed the requirements of specific courses outside a student's field of concentration and has been recognized as a major curriculum innovation.

Dowling College (www.dowling.edu): Dowling was founded in 1955 as an independent co-educational liberal arts college with a current enrollment of over 6000 students with undergraduate and graduate degree programs in business, education, aviation, science, and the arts.

New York University (www.nyu.edu): Founded in 1831, New York University is one of the largest private universities in the United States. The University, which includes 14 schools and colleges, occupies six major centers in Manhattan.

Yale University School of Medicine (www.yale.edu): Founded in 1810, the Yale University School of Medicine is one of the world's leading centers for biomedical research, ranking among the top five academic institutions receiving federal research funding.

Highlights From Some Recent Conferences
(see www.aitglobal.com, for more information)

July 5-7, 2000: UN ECOSOC High Level IT Summit, United Nations HQs, NYC. AIT worked closely within the guidelines set by Ambassador Makarim Wibisono (Indonesia), ECOSOC President, to assist in the setting up of the IT Exhibits and in coordinating the ECOSOC presentations by many of the IT Expert Speakers who presented at ECOSOC 2000. Business Sector Executives who exhibited and presented with AIT at the High Level IT Summit included Biodata, Checkpoint, Compaq, Compunell, Dell, Hewlett Packard, Lernout & Hauspie, Nortel Networks, SABA, and Trend Microsystems

Many thousands of attendees viewed the IT Summit Exhibit Area.

AIT worked with Ambassador Wibisono to develop the unique opening ceremonies for the IT Exhibits at the IT Summit.

Ambassador Wibisono, Deputy Secretary-General Louise Fréchette, and AIT's Mike Lackey visiting the IT Exhibitors.

March 30, 2001:   The Global InfoSec 2001 Conference; Securing E-networks Conference, was a smashing success, attracting 600 plus attendees from the UN and Private Sectors, including 60 Ambassadors and additional Diplomats representing the needs of 80 Nations and Business Sector Executives from 20 (US) states. Registrants from as far away as Switzerland and Portugal braved the pouring rain and wind to get into the UN for the conference. Ambassador Percy Mangoaela, Chairman of the UN ECOSOC Working Group on Informatics, his staff, and UN Secretariat Staff made every effort to ensure the success of this conference. Business Sector Executives who exhibited and presented at the Conference included Accenture, Exodus, Gartner, ITT Industries, Network Systems & Services, KeyBridge, and Siemens. Knowledge Sector professionals from CIO, ComputerWorld, Forbes, InfoWorld, and SpiesCafe.com complemented them.

Special Guest Speaker Howard A. Schmidt, international president of the Information Systems Security Association (ISSA) gave a scintillating presentation on Information Assurance to the Diplomats and Private Sector executives in the audience.

The audience becomes a "part of" the proceedings as soon as the program starts!

AIT organized four UN Ambassador Working Breakfast Seminars in 201: Three were with Ambassador Mangoaela, the former Chairman of the UN ECOSOC Working Group on Informatics, and one was with Ambassador Jalang'o. The first took place on January 30, 2001, at the Danish Mission; the second took place on April 10 at the German Mission; the third took place on June 12, at the Australian Mission, while the Japanese Mission hosted the fourth on November 27, 2001. Topics included Information Security, E-government, and E-education. Business Sector Technology Leaders included Accenture, ADT, KPMG LLP, KeyBridge, Columbia University, NYU, Forbes, CIO, ComputerWorld, InfoWorld, and the NY Times.

AIT's Business Seminars included programs on Computer Telephone Integration (CTI) at New York University, Information Security at Columbia University, and Voice Over Internet Protocol (Convergence) at Syska & Hennessey. Technology Leaders included executives from NYU, Columbia, Syska & Hennessey, Nortel, the FBI, Computerworld, and more.
