

## **Social Protection, Including Floors:**

**A preeminent strategy to eradicate poverty and achieve sustainable development for all**

**Friday, February 2, 2018**

**United Nations HQ, Conference Room 3**

The Civil Society Forum has been planned by the NGO Committee for Social Development in joint sponsorship with UN-DESA Division for Social Policy and Development and Friedrich-Ebert-Stiftung (FES). This Forum has been organized to prepare civil society participants to engage at the 56<sup>th</sup> Session of the Commission for Social Development (29 January to 7 February 2018 at the UNHQ in New York) as well as in ongoing discussions related to implementation of social protection, including floors, at national and local levels. This space is to create an inclusive dialogue to foster cooperation between Member States, Civil Society and the United Nations, and to unify behind a common vision in furtherance of the Sustainable Development Goals. Specifically, how social protection can help fulfil this objective. Following from last year, speakers are invited to address and critique the priority theme for the Commission: *Strategies for the eradication of poverty to achieve sustainable development for all*. The aim is for participants to develop concrete recommendations for the Commission, hone their understanding of the relationship between poverty eradication and social protection, see their efforts link with the HLPF focus on the SDGs, and to galvanize and engage meaningfully both with governments in New York, and at the grassroots.

***In the final analysis, social protection is founded on the most basic and universal conceptions of human worth. While the specifics of its implementation and administration must be subject of rigorous, objective deliberation, the underlying premise is not controversial. It is a question of value, and it speaks to the sort of society which all fair-minded people wish to live in – one in which fears of being unable to even survive would no longer darken any person's horizons.***
