Land Ownership

- Women in Pakistan have a legal right to own land under statutory, religious, and customary law.

- In the Previous, Land Reforms Failed to Allot Land Titles to Women as a Right

- Major initiative of present Government 2010 Awarded of State Land to Landless women Haris in Sindh Province
Impact of Microfinance & Benazir Income Support Programme (BISP)

Increase in Income:
- 90% higher income for active borrowers vs. non-borrowers or new borrowers

+ Increase in female borrowers to 55% of total borrowers, allowing greater female economic empowerment
+ Increase in individual borrowers, growing entrepreneurial activity
...With different institutional Models

Infrastructure

- 8 Microfinance Banks (MFBs)
- 4 Rural Support Programs (RSPs)
- 9 Specialized Microfinance Institutions (MFIs)
- 8 NGOs
% of Women Microfinance Borrowers

60% rural coverage

- Percentage of rural women borrowers to total rural borrowers – 56%
- Percentage of rural women borrowers to total borrowers – 25%
BISP - gives the female heads of the eligible families PK Rs. 1,000 per month. Experiences from cash transfer and conditional cash transfer programs elsewhere have shown that transferring cash to women in households can increase their decision-making power (Schultz 1990; Thomas 1990; Gitter and Barham 2008).

Level of support being provided through BISP is minimal and has been designed to **supplement income from a job, never replace it.**

The injection of cash into particularly poor communities is helping stimulate the local economy.
Some studies have shown that the vast bulk of the money is spent on necessities such as food, school supplies, and clothing.

A study by PIDE* clearly indicates that families with BISP assistance are able to increase their monthly expenditure on food items.

USAID funded impact evaluation of the program found 98.69% beneficiaries receiving transfers, 60.2% of grant use decided by the female beneficiary (July 2011).

This evidence supports the implementation of such cash transfer programs in different countries of region to mitigate the impact of global financial crisis at household level.
Govt. Initiatives to Empower Women

The Government taking measure

- BISP
- Microfinance
- To train women in preserving and processing of various fruits, vegetables and livestock
- Assist rural women in marketing their products
