ANNEX

For the purpose of this Law, the low-water lines as marked on large-scale charts officially recognized by Burma shall be the baselines for measuring the breadth of the territorial sea, the contiguous zone, the continental shelf and the exclusive economic zone of Burma.

Provided that, where by reason of the geographical conditions prevailing on the coasts of Burma or of the economic requirements of the coastal regions straight baselines have been drawn between fixed points on the mainland on islands or rocks, measurement shall be made from such baselines. The fixed points between which such straight baselines shall be drawn are indicated in detail in the following schedule:
