(b) define the sea-ward limits of each of those historic bays to be the limits determined in accordance with the Schedule.

THE SCHEDULE

1. In this Schedule:

"low-water" means Lowest Astronomical Tide; "straight line" means geodesic.

2. (1) Where, in relation to the definition of the sea-ward limits of an historic bay for the purposes of this Proclamation, straight lines referred to in clause 4 join 2 different points on the low-water line of the same island, the sea-ward limits of that historic bay between these points are defined by the line constituted by a line following the low-water line of the sea-ward part of the coast of the island between those points.

(2) In sub-clause (1), a reference to the sea-ward part of the coast of an island is a reference to that part of the coast of the island that includes the most sea-ward point of the island.

3. Where, for the purposes of this Schedule, it is necessary to determine the position on the surface of the Earth of a point of reference to the Australian Geodetic Datum:

(a) that position shall be determined by reference to a spheroid having its centre at the centre of the Earth and a major (equatorial) radius of

6 378 160 metres and flattening of <u>100</u> and by reference to the position of the Johnston Geodetic Station in the Northern Territory; and

29825

(b) the Johnston Geodetic Station shall be taken to be situated at Latitude 25° 56'54.5515" South and at Longitude 133° 12'30.0771" East and to have a ground level of 571.2 metres above the spheroid referred to in paragraph (a).

4. (1) For the purposes of sub-clause (2):

(a) items 1, 2 and 3 in the relevant table relate to Anxious Bay;

(d) items 6 and 7 in the relevant table relate to Rivoli Bay.

(2) Subject to clause 2, the sea-ward limits of a bay declared by this Proclamation to be an historic bay are defined by the straight line, or straight lines, as the case may be, constituted by joining each to each the 2 points on the low-water line of the coast that are on or closest to the points of latitude and longitude specified in Column 2 of the item or each of the items in the relevant table that relate to the bay (being points of latitude and longitude determined by reference to the Australian Geodetic Datum).

(3) For the purposes of this clause, the following is the relevant table:
