PART II
MARITIME AREAS OF BELIZE

Territorial sea

3. (1) Subject to sub-sections (2) and (3) of this Section, the territorial sea of Belize comprises those areas of the sea having, as their inner limits, the baseline of the territorial sea and, as their outer limits, a line measured seaward from that baseline, every point of which is 12 nautical miles from the nearest point of that baseline.

(2) Subject to sub-section (3) below, the territorial sea of Belize from the mouth of Sarstoon River to Ranguana Caye comprises those areas of the sea having as their inner limits the baseline of the territorial sea as measured from the features listed in the Schedule to this Act, and as their outer limits, a line measured seaward from that baseline every point of which is 3 nautical miles from the nearest point of that baseline.

(3) (a) For the avoidance of doubt it is hereby declared that the purpose of the limitation of the territorial sea from the mouth of Sarstoon River to Ranguana Caye as described in sub-section (2) above is to provide a framework for the negotiation of a definitive agreement on territorial differences with the Republic of Guatemala.

(b) Any such agreement as is referred to in (a) above shall be put to a referendum by the electors for their approval or otherwise, and if approved by a majority vote, shall form the basis for the final delimitation of the territorial sea in the area of the sea from the mouth of Sarstoon River to Ranguana Caye.
(c) In the event any such agreement fails to receive approval by a majority vote in the referendum, the delimitation of the territorial sea in the said area shall be effected on the basis of international law.

(4) Except as is otherwise provided in sub-sections (2) and (3) above, wherever the equidistance line between Belize and an adjacent State is less than 12 nautical miles from the nearest point of the baseline of the territorial sea, the delimitation of the territorial sea shall, if possible, be effected by agreement between Belize and the adjacent State; but to the extent that if no such agreement is effected, that equidistance line shall constitute the outer limits of the territorial sea.

**Baseline of territorial sea**

4. (1) Except as otherwise provided in sub-sections (2), (3) and (4) of this Section, the baseline from which the breadth of the territorial sea adjacent to Belize is measured shall be the low-water line along the coast of the mainland of Belize as well as the coasts of all islands and cayes that form part of Belize.

(2) For the purposes of this Section a low-tide elevation which lies wholly or partly within the breadth of sea which would be territorial sea if all low-tide elevations were disregarded for the purpose of the measurement of the breadth thereof shall be treated as an island.

(3) (a) The baseline from which the breadth of the territorial sea is measured between Ambergris Caye - SE and Sarstoon River shall consist of the series of loxodromes drawn so as to join successively, in the order in which they are there set out, points situated on the low-water line on or adjacent to the features listed in the Schedule to this Act.

(b) The provisions of sub-section (3) (a) of this Section shall be without prejudice to the operation of paragraphs (1) and (2) of this Section in relation to any island or low-tide elevation which for the purposes of those sub-sections is treated as if it were an island, being an island or low-tide elevation which lies to seaward of the baseline specified in sub-section (3) (a) of this Section.

(4) (a) In the case of the sea adjacent to a coast off which there are fringing reefs, the baseline from which the breadth of the territorial sea is measured shall be the seaward limit of the low-water line of the fringing reefs.

(b) Where there is a break or passage through the fringing reefs referred to in sub-section (4) (a) of this Section, the baseline from which the breadth of the territorial sea is measured shall be a straight line joining the seaward entrance points of that break or passage.

(5) For the purpose of delimiting the territorial sea, the outermost permanent harbour works which form an integral part of any harbour system shall be treated as forming part of the coast, but for that purpose offshore installations and artificial islands shall not be considered as permanent harbour works.
Internal waters

5. The internal waters of Belize comprise any areas of water that are on the landward side of the baseline of the territorial sea.

Exclusive economic zone

6. Subject to Section 7, the exclusive economic zone of Belize comprises those areas of the sea that are beyond and adjacent to the territorial sea having, as their outer limits, a line, measured seaward from the baseline of the territorial sea, every point of which is 200 nautical miles distant from the nearest point of that baseline.

Delimitation of exclusive economic zone

7. (1) Wherever the equidistance line between Belize and an adjacent State is less than 200 nautical miles from the nearest point of the baseline of the territorial sea, the delimitation of the exclusive economic zone shall be effected between Belize and the adjacent State on the basis of international law in order to achieve an equitable settlement.

(2) Pending the delimitation of the exclusive economic zone pursuant to sub-section (1) of this Section, the equidistance line between Belize and the adjacent State shall constitute the outer limits of the exclusive economic zone.

(3) Subject to sub-section (4) of this Section, for the purpose of implementing any agreement under subsection (1) of this Section, the National Assembly may, from time to time, by Resolution supported by a two-thirds majority declare that the exclusive economic zone shall not extend to any specified area of the sea, seabed or subsoil that would otherwise be included therein by virtue of Section 6, and such resolution, while it remains in force, shall have effect notwithstanding any other provision of this Act.

(4) Any agreement with the Republic of Guatemala made pursuant to sub-section (1) of this Section which provides that:

(a) Belize shall claim less than what it is otherwise entitled to claim under international law; or

(b) the exclusive economic zone of Belize shall not extend to any specified area of the sea, seabed or subsoil that would otherwise be included therein by virtue of Section 6; or

(c) there shall be joint exploitation or participation within Belize's exclusive economic zone

shall be subject to approval of the electors in a referendum.

        referred to in Section 9 (c) (iii); or

(b) within the limits of the territorial sea engage in any of the

(4) Every Regulation made by the Minister under sub-section (3) above shall be laid before the National Assembly as soon as may be after the making thereof and shall be subject to negative resolution.

Engaging in proscribed activities prohibited

13. (1) No foreign vessel shall, while in the territorial sea, without the permission of a competent authority given to the master of the vessel, engage in any proscribed activity.

(d) sea lanes or traffic separation schemes.

Evidence of charts

15. A document purporting to be certified by the Minister or by a person designated by him for this purpose to be a true copy of a chart or list of geographical coordinates prepared pursuant to Section 14, shall be received in any proceedings as evidence of any matter shown in the document, but without prejudice to the right to adduce evidence in rebuttal.

23 to maritime areas of Belize, or any part thereof.

(2) For the purposes of the exercise of any jurisdiction and powers
pursuant to sub-section (1) of this Section, a court is a court of competent

cognisance of the offence concerned if it had been committed
within the limits of its ordinary criminal jurisdiction; and

(b) for the purposes of any proceedings, other than criminal
proceedings, if it would have jurisdiction if the act, omission
or other matter giving rise to the proceedings had occurred or
arisen within the limits of its ordinary jurisdiction.

(3) The Minister, after consultation with the Attorney-General, may make
rules for carrying out or giving effect to this Section.

(4) The jurisdiction and powers conferred by this Section are in

search any vessel, or enter, inspect and search any
installation, which he has reasonable cause to believe is being
used for or in connection with the commission of the offence;

(b) arrest, with or without a warrant, any person on board the
vessel, or on the installation, referred to in sub-section (1)
(a) of this Section or found elsewhere in Belize, whom he has
reasonable cause to believe has committed an offence against
that Section;

(c) detain the vessel, referred to in sub-section (1) (a) of this
Section if he has reasonable cause to believe that an offence
against that Section has been committed by the owner or master
of the vessel; and

Statement by the Minister for Foreign Affairs of Belize,
delivered on 3 April 1992

On 17 January 1992, the House of Representatives passed the Maritime Areas Act, which became law on 24 January 1992 when it was signed by the Governor General, after its passage by the Senate.

The Act makes provision for the territorial sea, internal waters and exclusive economic zone of Belize. In this Act, Belize for the first time exercises its legal right under international law to claim a territorial sea of twelve miles. This does for most of its coastline, but in the southern area between Ranguana Caye and the mouth of the Sarstoon River the historic three miles of territorial sea is maintained.

The law makes it clear, however, that Belize is not giving up its right to claim that area of sea in the south between the outer limit of the territorial sea as presently declared and the median line between Belize's baseline and those of adjacent States as its territorial sea. For the moment, however, Belize is declaring that area as part of its exclusive economic zone, to the exclusion of any other State. The maritime boundary between Belize and Guatemala and between Belize and Honduras, therefore, remains the aforesaid median line.

The Maritime Areas Act explicitly states that the purpose of maintaining the three mile territorial sea in the aforesaid area is "to provide a framework for the negotiation of a definitive agreement on territorial differences with the Republic of Guatemala". This is in the context of Guatemala's recognition, on 5 September 1991, of the independent State of Belize - an unconditional and irrevocable act by which Guatemala acknowledged Belize's frontiers as defined in our Constitution. By necessary implication, Guatemala also agreed to respect the sovereignty and territorial integrity of Belize in accordance with international law and the Charter of the United Nations.

The Belize Constitution, however, does not define the limits of Belize's territorial sea; this is left for the legislature to enact. It had not done so yet, however, because of the fact that if Belize were to claim all the territorial seas it has a right to in the south, it would require Guatemala to pass through Belize's territorial seas to get to the high seas, whereas it has been accustomed to doing so without entering Belize's traditional three-mile territorial sea. Belize has long since declared its willingness to negotiate an agreement to accord Guatemala such territorial seas as are necessary to provide her with unimpeded access to the high seas, and it refrained from defining its territorial sea pending an agreement.

After Guatemala took the bold move of recognizing Belize, however, the National Assembly of Belize, as an act of good faith indicating its willingness to pursue such negotiations to a successful conclusion, passed the Maritime Areas Act. It is made clear, however, that the three mile limit in the area indicated is a temporary measure that merely restricts the negotiations to that area, and the Act explicitly states that any agreement emerging from the negotiations must first be put to a referendum in Belize.
If a majority of electors approve it, that shall form the basis for the final
delimitation of the territorial sea in the area indicated. If such an
agreement is not approved by a referendum, then "the delimitation of the
territorial sea in the said area shall be effected on the basis of
international law." In either case, the Act will be amended accordingly.

It is encouraging to put on record the fact that for some time now
relations between Belize and Guatemala have been typified by respect and
understanding, particularly after diplomatic relations were established
between our two countries on 11 September 1991. An incident that occurred in
early February demonstrates the quality of this new relationship. After an
advertisement appeared in an oil magazine published in Texas, inviting
tenders for exploration in certain areas and the accompanying map showed an
area which Belize has claimed as its exclusive economic zone under the
aforementioned Act, I sought clarification from the Guatemalan Government.
Guatemala's Foreign Minister, Gonzalo Menendez Park, wrote me a letter the
following day, 13 February 1992, indicating that the Ministry of External
Affairs had not been consulted regarding the description of the area, that it
was an involuntary error and that this area would not be allotted to any
tenderer. He further assured me that the next tender notice due to be
published in June would only contain areas already duly delimited so as not
to give rise to any misinterpretations.

This response makes it clear to the Government of Belize that the
Guatemalan Government understands and accepts the effect of the Maritime
Areas Act, i.e. that by it Belize does not abandon its right to claim the
affected area as its territorial sea, but merely reserves it for negotiation,
and in the meanwhile its status is that it is part of Belize's exclusive
economic zone.

With regard to adjacent States, as well as to all States of the world,
therefore, the situation of the affected area is that Belize has declared
that area as part of Belize’s exclusive economic zone.

With this clear understanding it is possible to proceed to negotiations,
which will hopefully lead, within a reasonable time, to mutually acceptable
agreements that will enable Guatemala to formally drop its claim with regard
to Belize and allow our two countries to enjoy the friendly and respectful
relations that both our peoples have long desired.

For the purpose of giving effect to this Act the jurisdiction and powers of the Courts of Jamaica and officers thereof and of any constable or other person authorized to perform the duties of a constable shall extend to the Zone in like manner as if the Zone constituted a part of the territorial sea of Jamaica.

Minister may make order regarding issue or revocation of licence

11. (1) Where the Minister thinks fit he may, by order published in the Gazette, provide that any licence applicable to or within the Zone:

(a) shall not be issued without his concurrence; and

(b) shall only be issued or revoked in such circumstances and subject to such conditions as may be specified in the order.
(2) An order under subsection (1) shall make provision for the appointment of an advisory committee to advise the Minister in relation to licences affecting the Zone.

Person prejudiced by order of forfeiture may apply to Court for revocation

12. (1) Where under subsection (3) of section 6 or subsection (3) or (4) of section 7 a Court makes an order for the forfeiture of a vessel and any person is prejudiced by the making of that order, that person may make an application to that Court for the revocation of the order and, if the Court is satisfied that it is just so to do, the Court may, upon such terms and conditions, if any, as it thinks fit, revoke the order.

(2) An application under subsection (1) shall be made within three months of the date of the order, so, however, that where the applicant satisfies the Court that, in the special circumstances of the case, it was not reasonably practicable for him to make such application within the period of three months, the time (whether expired or not) for making that application may be extended by the Court as it thinks fit.

Powers and duties of Marine Officers

13. (1) A Marine Officer shall have, in the Zone, power to:

(i) seize any cargo on the vessel; and

(ii) detain the master or person in charge of the vessel.
(3) Where a vessel, net, gear, tackle or other equipment is seized or a person detained under subsection (2), a Marine Officer shall, as soon as practicable thereafter, take all reasonable measures to ensure that the vessel, net, gear, tackle or other equipment is taken to the nearest convenient port and that the person detained is brought before a Resident Magistrate to answer a charge in connection with the offence that gave rise to the seizure or detention.

(4) A Marine Officer shall take all reasonable steps to ensure that any cargo seized is kept in good condition, so, however, that the Marine Officer may, if he thinks it necessary, dispose of any cargo in order to avoid spoilage of that cargo.

(5) Where a Marine Officer seized cargo, which at the time of seizure is spoilt, he shall, as soon as is convenient thereafter, dispose of the spoilt cargo.

(6) Where a Marine Officer disposes of cargo pursuant to subsection (4) or subsection (5) he shall issue a receipt to the master or person in charge of the vessel and the receipt shall state the date of disposal, the quantity and condition of cargo disposed of and the amount, if any, realized.

(a) in the case of a vessel which is not registered in Jamaica or of a person who is not a citizen of Jamaica, a Resident Magistrate shall determine, pending hearing of the charge, the amount of security (whether by way of bond or otherwise) to be given for the release of the vessel or person and on the giving of such security the vessel or person shall be released;

(b) in the case of a vessel which is registered in Jamaica or a person who is a citizen of Jamaica, the Court shall determine, pending hearing of the charge, whether the vessel or person ought to be released and, if released, the amount of security to be given for such release.

(2) Where under subsection (2) of section 13 a vessel, net, gear, tackle or other equipment or any cargo is seized, then:

(a) if the item seized has not been claimed within a period of thirty days of such seizure, a Resident Magistrate may order the forfeiture of that item; and
(b) upon the conviction of any person who permitted the use of, or is in charge of, any such item, the Court may, upon the application of the prosecution, order the forfeiture of any such item, if the Court is satisfied that:

(i) the item was used in the commission of the offence or was otherwise connected with the offence; and

(ii) the circumstances of the case are such that it is just so to order.

(3) Where a person is brought before a Resident Magistrate pursuant to subsection (3) of section 13 to answer a charge and is acquitted of the charge:

(a) any item seized in connection with the alleged offence and not forfeited pursuant to subsection (2) (a) of this section shall be returned to him; and

17. In any action or other legal proceedings brought against the Crown or any Marine Officer or person acting in his aid in respect of any act done in pursuance or execution or intended execution of this Act or the regulations the plaintiff shall not recover unless he alleges in his pleading and proves at the trial that such act was done either maliciously or without reasonable or probable cause.
18. (1) Any person who:

MEMORANDUM OF OBJECTS AND REASONS

The concept of an Exclusive Economic Zone evolved as a result of the claims of certain States consequent on rapid technological advances in the mining of offshore mineral resources. This Zone sought to encompass, beyond the existing twelve miles territorial sea, an additional one hundred and eighty-eight miles from the seaward limit of the territorial sea.

Jamaica, as a participant of conferences dealing with the Law of the Sea, has accepted that there is a need to protect the marine environment in such a Zone.

Jamaica, having adopted the Convention on the Law of the Sea, now seeks, in the protection of her marine resources, to enact legislation to give effect to this and also to adhere to the provisions relating to an Exclusive Economic Zone contained in the Convention.

Consequently this Bill seeks to:

(a) establish an Exclusive Economic Zone;

(b) make provision for the manner in which exploration of and exploitation for the resources of the Zone may be carried out;

(c) prescribe penalties for any breaches of the Act;

(d) permit the making of regulations in relation to activities in the zone; and

(e) make consequential amendments to other Acts.

David Coore,
Minister of Foreign Affairs and Foreign Trade

Agreement between the Government of Peru and the Government of Bolivia concerning the Participation of Bolivian Enterprises in the Ilo Industrial Free Zone

The Government of the Republic of Peru and the Government of the Republic of Bolivia,

Bearing in mind the Agreement adopted by Peru and Bolivia on 27 May 1991,

Considering that the development of the South American region requires the linking of the Pacific and Atlantic watersheds and access thereto by land-locked countries;

Also considering that the achievement of this objective of subregional integration requires practical actions that demonstrate Latin American solidarity,

Convinced of the need to promote investment, industrial development and bilateral trade through a common and dynamic process of integration,

Aware that an industrial free zone for Bolivian enterprises at Ilo will contribute to the socio-economic progress of both countries,

Have agreed to conclude this Agreement.

**Article 1**

The Government of Peru and the Government of Bolivia have agreed that the latter shall designate a development enterprise to participate in the Ilo industrial free zone within the framework of the provisions of Legislative Decree No. 704, which governs the functioning of that zone.

**Article 2**

Accordingly, the Government of Bolivia shall facilitate the establishment of a development enterprise in which Bolivian individuals and/or public and/or private corporations shall have majority interest, to which the Board of Directors of the Ilo industrial free zone shall transfer the administration of an area to be agreed upon within that zone for a period of 50 years, renewable for identical periods by mutual agreement between the Parties, subject to the conclusion of the respective contract.

The development enterprise, in which Bolivian corporations or individuals shall have a majority interest, may adopt any form of incorporation, including that of the Andean multinational enterprise, and shall be required, in order to initiate its operations, to register in the Peruvian register.
Article 5

For the final determination of the area, which may be approximately 163.5 hectares, the use of which is to be granted by the Board of Directors of the Ilo industrial free zone, reference shall be the results of the feasibility study to be carried out in implementation of the Agreement adopted by the two countries on 27 May 1991.

Article 6

Prior to the completion of that study, the Board of Directors shall transfer to the development enterprise the land areas required for the start-up of the administrative and development activities of the above-mentioned industrial free zone.

Article 7

The development enterprise may use said land areas solely for the purposes and objectives of the industrial free zone; the contract to be concluded does not imply the transfer of ownership of said areas to the development enterprise.

Article 8

For purposes of improving the infrastructure and equipment of the port of Ilo, the Government of Bolivia shall assist Peru in obtaining the financing it may require from multilateral or commercial credit institutions. For its part, the Government of Peru shall make available the areas required for building the infrastructure enabling Bolivia to use such port facilities as sheds and locked and open warehouses.
Article 12

The two Governments agree to promote and develop the measures they have taken to facilitate the transit of persons, vehicles and goods across their respective territories via various roads and highways, both those now fit for use and those which will be rendered usable in future as free transit routes, including multimodal transport systems.

Article 13

The Government of Bolivia shall, in accordance with its legislation, grant to the Government of Peru facilities in the Puerto Suarez area similar to those granted by Peru in the port of Ilo pursuant to article 11 of this Agreement.

To that end, the Government of Bolivia agrees to take the measures necessary to give effect to the provision stated in the foregoing paragraph.

Article 14

With a view to improving the use of the existing transport infrastructure between the two countries, including the Matarani-La Paz railway-lake corridor and the Santa Cruz-Puerto Suarez railway, the Government of Peru and the Government of Bolivia shall grant to each other similar facilities for the operation of intermodal and/or multimodal transport systems between their countries and for the carriage of freight from third countries transiting through their respective territories.

Letter dated 3 February 1992 from the Minister for Foreign Affairs and Worship of Bolivia addressed to the Secretary-General 1/

[Original: Spanish]

I have the honour to address you and thus initiate the epistolary contact between the Permanent Mission of Bolivia to the United Nations and you, who have recently taken up your functions as Secretary-General of our Organization. The occasion is therefore doubly welcome. My purpose in writing is to bring to your attention and, through you, to that of the Members of the United Nations, the great satisfaction felt in my country at the signing of a binational project of friendship, cooperation and integration agreed to by the Presidents of Peru and Bolivia, Mr. Alberto Fujimori and Mr. Jaime Paz Zamora, and consisting of six agreements signed on 24 January 1992 in Ilo, Peru, by the Foreign Ministers of the two countries.

Such a significant event was a cause of joy among the people in Bolivia, which was echoed by the honourable representatives to the Senate and Chamber of Deputies, both of which issued statements extolling such memorable action for integration and instructed this Mission to make public their gratitude for the "noble gesture made before the world by the President of Peru, Alberto Fujimori". Going beyond traditional rhetoric, he and the President of Bolivia, Jaime Paz Zamora, together moved into the camp of "creative and imaginative realism" by putting into effect "their political and historical will, rooted in profoundly Latin American values".

Accordingly, I request that you have this letter circulated as a document of the General Assembly at its forty-seventh session under the item entitled "Law of the Sea", for the information of all Members of our Organization.

(Signed) Carlos ITURRALDE BALLIVIAN
Minister for Foreign Affairs and Worship

Peru offers land-locked Bolivia "corridor" to port 1/

Land-locked Bolivia's 113-year-old dream of an exit to the Pacific is set to become reality today when Bolivian and Peruvian presidents Jaime Paz Zamora and Alberto Fujimori meet in the southern Peruvian port of Ilo to sign a bilateral agreement.

Peru's President Alberto Fujimori has made an offer of free transit for Bolivian products through a "corridor" leading to Ilo from the Bolivian frontier town of Desaguadero. Under Mr. Fujimori's proposal, Bolivia would be permitted to import and export via Ilo with no customs formalities; Ilo would become a free zone with full industrial and commercial facilities; and Bolivians could even purchase their own seaside residences in a new tourist resort on Peruvian soil.

The Peruvian proposal has been enthusiastically greeted in Bolivia, which has been land-locked since it lost territory to Chile in the 1879 War of the Pacific.

In return for the concessions, Peru would gain access to the Atlantic, via the network of roads and railways which link Desaguadero to the Bolivian capital, La Paz, and thence to Brazil, Paraguay and northern Argentina. Ilo, which is less than 300 miles from La Paz, hopes to lure lucrative Bolivian trade away from the northern Chilean port of Arica.

President Fujimori's plan gives priority to Ilo as the principal port for Peruvian and Bolivian (and ultimately Brazilian) exports to the Pacific Rim countries. It is a deep-water port with good basic infrastructure but will require substantial investment.

The Bolivian President called the meeting one of "transcendental importance". "This is a signal to the rest of the continent," he said, "that there's a new way of managing affairs."

III. OTHER INFORMATION

A. Convention on the Territorial Sea and the Contiguous Zone.
   Done at Geneva on 29 April 1958

   Accession by Lithuania

Attention: Treaty Services of Ministries of Foreign Affairs and
of international organizations concerned

The Secretary-General of the United Nations, acting his capacity as
depository, communicates the following:

On 31 January 1992, the instrument of accession by the Government of
Lithuania to the above-mentioned Convention was deposited with the
Secretary-General.

The instrument contains the following declaration:

[Original: English]

"In acceding to the Geneva Convention on the Territorial Sea and the
Contiguous Zone the Government of the Republic of Lithuania declares
the establishing of the procedure for the authorization of the
passage of foreign warships through its territorial waters for the
warships of those States which have established the procedure for
the authorization of the passage of foreign warships through its
territorial waters".

In accordance with its article 29 (2), the Convention entered into force
for Lithuania on the thirtieth day after the date of deposit of the
instrument, i.e., on 1 March 1992.

The Permanent Mission of the Kingdom of Belgium to the United Nations presents its compliments to the Secretariat of the Organization and has the honour to refer to the collection of National Legislation on the Continental Shelf which was published in 1989 by the Office for Ocean Affairs and the Law of the Sea. 1/

The Permanent Mission of Belgium would be grateful if the Secretariat would amend the following data regarding Belgian legislation on the continental shelf, in both the French and the English versions.

Taking the English version as a reference, it should be noted:

1. In part II, on page 48, the Royal Decree referred to was dated 16 May 1977 and not 16 May 1974. The Royal Decree of 16 May 1977 has not to date been amended. The phrase "as amended by the Royal Decree of 22 April 1983" should therefore be deleted.

2. In part III, on page 50, the Royal Decree of 7 October 1974 was amended by the Decree of 22 April 1983, on page 54. This should therefore be mentioned in the title, and the amendment should be incorporated into the text itself.

3. Accordingly, part IV, on page 54, could be deleted.

4. The same errors appear in the French text, with the exception of the date of the Royal Decree in part II, which is correct.
