General Assembly workshop to discuss implementation of paragraphs 113, 117 and 119 to 124 of resolution 64/72, paragraphs 121, 126, 129, 130 and 132 to 134 of resolution 66/68 and paragraphs 156, 171, 175, 177 to 188 and 219 of resolution 71/123 on sustainable fisheries, addressing the impacts of bottom fishing on vulnerable marine ecosystems and the long-term sustainability of deep-sea fish stocks.

Discussion Panel on "Impacts of bottom fishing on vulnerable marine ecosystems and the long-term sustainability of deep-sea fish stocks".

Segment 1: Impacts of bottom fisheries on vulnerable marine ecosystems and the long-term				
sustainability of deep-sea fish stocks (2 August 2022; 10am-1pm)				
Mr. Marcelo Vasconcellos	Food and Agriculture Organization (FAO)	The Perspective of the Food and Agriculture Organization on the impacts of bottom fisheries on vulnerable marine ecosystems and the long-term sustainability of deep-sea fish stocks		
Mr. Eugene Nixon	International Council for the Exploration of the Sea (ICES)	The experience of International Council for the Exploration of the Sea on the impacts of bottom fisheries on vulnerable marine ecosystems and the long-term sustainability of deep-sea fish stocks		
Mr. Thomas Blasdale	Northwest Atlantic Fisheries Organization (NAFO)	The experience of Northwest Atlantic Fisheries Organization on the impacts of bottom fisheries on vulnerable marine ecosystems and the long-term sustainability of deep-sea fish stocks		
Ms. Amy Baco-Taylor	Florida State University	Civil society perspective on the impacts of bottom fisheries on vulnerable marine ecosystems and the long-term sustainability of deep-sea fish stocks		
Mr. Matthew Gianni	Deep-Sea Conservation Coalition (DSCC)	The experience of Deep-Sea Conservation Coalition on the impacts of bottom fisheries on vulnerable marine ecosystems and the long-term sustainability of deep-sea fish stocks		

Segment 2: Progress made by States in addressing the impacts of bottom fisheries on vulnerable marine ecosystems and the long-term sustainability of deep-sea fish stocks, in particular through the implementation of relevant paragraphs of resolutions 64/72, 66/68 and 71/123 (2 August 2022; 3pm to 4:30pm)

	Crain	The eventioned of Casin on the presence mode
Ms. Teresa Molina	Spain	The experience of Spain on the progress made
Schmid		by States in addressing the impacts of bottom
		fisheries on vulnerable marine ecosystems and
		the long-term sustainability of deep-sea fish
		stocks, in particular through the
		implementation of relevant paragraphs of
		resolutions 64/72, 66/68 and 71/123
Ms. Sally Truong	Department of	The experience of Australia on the progress
	Agriculture, Fisheries	made by States in addressing the impacts of
	and Forestry	bottom fisheries on vulnerable marine
	Australia	ecosystems and the long-term sustainability of
		deep-sea fish stocks, in particular through the
		implementation of relevant paragraphs of
		resolutions 64/72, 66/68 and 71/123
Mr. Paul Lansbergen	President	An industry perspective on the progress made
	Fisheries Council of	by States in addressing the impacts of bottom
	Canada,	fisheries on vulnerable marine ecosystems and
	International Coalition	the long-term sustainability of deep-sea fish
	of Fisheries	stocks, in particular through the
	Associations	implementation of relevant paragraphs of
		resolutions 64/72, 66/68 and 71/123

Segment 3: Focus on the experience and special requirements of developing States in addressing the impacts of bottom fisheries on vulnerable marine ecosystems and the long-term sustainability of deep-sea fish stocks, in particular through the implementation of relevant paragraphs of resolutions 64/72, 66/68 and 71/123 (2 August 2022; 4:30pm-6pm) Mr. Marcelo Food and Agriculture The perspective of the Food and Agriculture Vasconcellos Organization (FAO) Organization Mr. Kharim Saddler **Fisheries Assistant** The experience of Saint Kitts and Nevis on the Department of Marine experience and special requirements of Resources developing States C.A Paul Southwell Industrial Site Saint Kitts & Nevis

Segment 4: Progress made by regional fisheries management organizations and arrangements in				
addressing the impacts of bottom fisheries on vulnerable marine ecosystems and the long-term sustainability of deep-sea fish stocks, in particular through the implementation of relevant				
Mr. Darius Campbell	North East Atlantic Fisheries Commission (NEAFC)	The experience of NEAFC in addressing the impacts of bottom fisheries on vulnerable marine ecosystems and the long-term sustainability of deep-sea fish stocks, in particular through the implementation of relevant paragraphs of resolutions 64/72, 66/68 and 71/123		
Ms. Kerrie Robertson (pre-recorded)	Cook Islands Chairperson of Intersessional Bottom Fishing Working Group South Pacific Regional Fisheries Management Organisation (SPRFMO)	The experience of SPRFMO in addressing the impacts of bottom fisheries on vulnerable marine ecosystems and the long-term sustainability of deep-sea fish stocks, in particular through the implementation of relevant paragraphs of resolutions 64/72, 66/68 and 71/123		
Mr. Thomas Blasdale	Northwest Atlantic Fisheries Organization (NAFO)	The experience of NAFO on the progress in addressing the impacts of bottom fisheries on vulnerable marine ecosystems and the long- term sustainability of deep-sea fish stocks, in particular through the implementation of relevant paragraphs of resolutions 64/72, 66/68 and 71/123		
Mr. Dirk Welsford (pre-recorded)	Science Convenor, Australian Government Department of Climate Change, Energy the Environment and Water, Chair of Scientific Committee Commission for the Conservation of Antarctic Marine Living Resources (CCAMLR)	The progress made by CCAMLR since 2016 in addressing the impacts of bottom fisheries on vulnerable marine ecosystems and the long- term sustainability of deep-sea fish stocks, in particular through the implementation of relevant paragraphs of resolutions 64/72, 66/68 and 71/123		
Mr. Nicola Ferri	General Fisheries Commission of the Mediterranean (GFCM)	The experience of GFCM in addressing the impacts of bottom fisheries on vulnerable marine ecosystems and the long-term sustainability of deep-sea fish stocks, in particular through the implementation of relevant paragraphs of resolutions 64/72, 66/68 and 71/123		

Ms. Lizette Voges (pre- recorded)	South East Atlantic Fisheries Organisation	The experience of SEAFO in addressing the impacts of bottom fisheries on vulnerable
	(SEAFO)	marine ecosystems and the long-term sustainability of deep-sea fish stocks, in particular through the implementation of relevant paragraphs of resolutions 64/72, 66/68 and 71/123

Segment 5: Opportunities and challenges in further addressing the impacts of bottom fisheries on vulnerable marine ecosystems and long-term sustainability of deep-sea fish stocks (3 August 2022; 3pm to 5:30pm)				
Mr. James Brown	New Zealand Ministry for Primary Industries (MPI)	Opportunities and challenges in further addressing the impacts of bottom fisheries on vulnerable marine ecosystems and long-term sustainability of deep-sea fish stocks: New Zealand reflections		
Ms. Ellen Kenchington	Senior Benthic Ecologist Fisheries and Ocean Canada (DFO)	The experience of Canada on scientific support for assessing the impacts of bottom fisheries on vulnerable marine ecosystems and the long- term sustainability of deep-sea fish stocks		
Ms. Lissette Victorero	Research Fellow Department of Marine Biology, Norwegian Institute for Water Research	A review of impact assessments for deep-sea fisheries on the high seas against the FAO Deep-sea Fisheries Guidelines		
Mr. Ivan Lopez van der Veen	International Coalition of Fisheries Associations (ICFA)	The perspective of International Coalition of Fisheries Associations on opportunities and challenges in further addressing the impacts of bottom fisheries on vulnerable marine ecosystems and long-term sustainability of deep-sea fish stocks
