DESCRIPTION OF REQUIREMENTS

The United Nations Office at Nairobi (UNON), on behalf of the United Nations Human Settlements Programme (UN-Habitat) Afghanistan, invites qualified, experienced, and reputable road construction firms to submit Expressions of Interest (EOI) for participation in the upcoming tender for the Construction of Paved Roads with Roadside Drainages in Kabul and Herat Provinces, Afghanistan.

Project Back ground:

In October 2023, a series of devastating earthquakes struck Herat Province in western Afghanistan, causing widespread destruction across nine districts and directly affecting more than 275,000 individuals. The disaster severely damaged critical infrastructure, including residential buildings, schools, healthcare facilities, and water supply networks, leaving thousands of families vulnerable and in urgent need of assistance. In response, UN-Habitat launched a recovery initiative focused on rebuilding and retrofitting community infrastructure using the “Building Back Better (BBB)” approach. This approach emphasizes not only reconstruction but also enhancing resilience to future disasters through improved design, materials, and community engagement.

The project aims to enhance the living environment and urban resilience in Kabul and Herat through the construction of paved roads with proper roadside drainage systems, implemented in close consultation with local communities.

The works under this project include the following in Kabul and Herat Provinces:

- Construction of paved roads (asphalt or concrete) in selected areas of Kabul and Herat;
 - Installation of roadside drainage systems for improved stormwater management;
 - Adoption of climate-resilient and sustainable construction practices under the Building Back Better (BBB) approach;
 - Community engagement to ensure participatory implementation and local ownership;
 - Compliance with UN and national safety, environmental, and social safeguards.
- Kabul Province: Construction and improvement of about 6.2 km of paved urban roads with roadside drainage systems in selected neighborhoods of Kabul.
- Herat Province: Construction of paved roads with roadside drainages in earthquake-affected areas of Herat City and nearby communities.

This requirement will be for three (3) locations in Kabul split into 3 lots covering PD14, PD16 and PD17.
