DESCRIPTION OF REQUIREMENTS

The United Nations Office at Geneva (UNOG) is currently working with a private foundation to build a new Visitors' Centre within its compound, at the Palais des Nations. In the future building, called the "Portail des Nations" (PDN), to be situated close to the emblematic "Place des Nations" in Geneva, the general public will be informed of the important role of multilateralism and of the work of the United Nations, with a special focus on the UN family in Geneva. This unique center will boast a state-of-the-art exhibition, a café, a bookshop, and seminar rooms. The building will house UNOG's Visitor Service and will be the departure point for guided tours of the Palais des Nations. This new facility is planned to be inaugurated in late 2023 / 2024.

The purpose of this RFI is to conduct a market survey to obtain information that can be used to identify available or potential solutions / suppliers to run the daily operations of this new Centre.

This new Visitors' Centre will allow UNOG to attract more visitors, improve the quality of their experience, improve the UN's public communication, while dissociating the entrance of the visitors from the one of UN staff members. The Centre will include an interactive "trail" with several thematic rooms on multilateralism, the UN's ideals and activities. The building will also contain several rooms for pedagogical activities. In parallel, the Centre will be the starting point of the guided tours of the Palais des Nations; there will be an option for experiencing a virtual tour of the Palais des Nations for visitors who do not wish/cannot join a guided tour of the historical buildings. The bookshop on site will allow visitors to obtain general and technical UN publications, as well as gift items, merchandising related to UN priorities and themes.

Indicative floor plan of the Visitor's Centre: See attached file

Operating modalities:

A market study was done in 2019 which indicated that, in the worst case, the Portail des Nations would attract 250,000 visitors per year, and in the best case 350,000 visitors per year. The working assumptions are based on 198,200 visitors in year 1; 238,800 in year 2; 262,700 in year 3; 257,500 in year 4; and 244,600 in year 5. When considering the operational modalities of the Centre, there are five (5) income streams:

1. The Palais des Nations guided tour operation through the sale of tickets;
2. The UN Bookshop;
3. The in-building experience of the interactive trail through sale of tickets;
4. Activities on offer in the briefing rooms (which includes the rental operation of the briefing rooms);
5. A café.

UNOG intends to outsource income streams 2, 3, 4 and 5 (i.e. bookshop, interactive trail, briefing rooms, and café). According to UNOG's estimates, the model is financially viable. It should be noted that at Centre's opening the interactive trail will be fully equipped, and the café will already have some appliances.

For information, income stream 1 will be managed by UNOG. Income stream 2 is currently outsourced to a vendor and as such might not be subject to an outsourcing contract at the same time and vendor as income streams 3 to 5. Income streams 2 to 5 will all be outsourced and could be awarded to different vendors (split awards).

Ticket pricing aspects:

Visitors will be able to purchase a ticket for the guided tour of the Palais des Nations (which would include access to the interactive trail), or a ticket to visit the interactive trail only. The assumption is that approx. 60% of the overall number of visitors will be taking the guided tour and experience the interactive trail, while approx. 40% of the overall number of visitors will experience the interactive trail only. Thus, all visitors will be visiting the interactive trail.

Concerning ticketing prices, the combined tickets for individual visitors range from CHF 14.50 for children to CHF 27.50 for adults, and from CHF 13 per person for school groups to CHF 18 per person for commercial groups. The pricing structure was subject to a market study to ensure that they are supportable to visitors and allow for operational solvability. UNOG expects the introduction of special tickets and arrangements in order to make the combined offer (trail offer and guided tour) more accessible to certain groups, in particular schools and universities.

The external provider in charge of income streams 3, 4, and 5 will be expected to:

- Cover salaries costs of personnel working in the Portail (in conformity with Swiss law);
- Update the interactive trail experience;
- Maintain the interactive trail equipment;
- Cover operational expenses for educational activities and events;
- Cover pre-opening salaries;
- Cover pre-opening marketing costs;
- Cover 50% of the overall cleaning costs, with UNOG covering the remaining 50%.

The purpose of this RFI is to obtain information that can be used to identify available or potential solutions / suppliers to run the daily operations of this new Centre. In this regard UNOG would like to engage with the market to better understand if its intent to outsource income streams 3, 4 and 5 of the Visitor Centre is 1) of interest; 2) if the UN's expectations are in line with market expectations, and 3) obtain feedback from the market on the envisaged operating model and collect suggestions of business model / cost-profit sharing mechanism.
