Media and Social Media Guidance Note

ABOUT INTERNATIONAL DAY

The General Assembly, in its resolution 72/165 (2017), established 21 August as the International Day of Remembrance of and Tribute to the Victims of Terrorism in order to honor and support the victims and survivors of terrorism and to promote and protect the full enjoyment of their human rights and fundamental freedoms.

The theme of this fourth commemoration of the International Day is “Connections”, for at the individual level, victims have had to find creative ways to stay connected while being isolated from each other, from their families, friends and communities; at the national level, Member States have had to learn from each other and share good practices to continue supporting victims; and at the international level, the international community connects with victims by standing in solidarity.

ABOUT THE COMMEMORATION

On 20 August 2021, from 9:00 to 11:00 am EDT, a virtual event entitled, “Surviving Terrorism: The Power of Connections” will be held with the participation of the United Nations Secretary-General Mr. António Guterres. The event will feature testimonies from victims of terrorism and closing remarks from Under-Secretary-General of the UN Office of Counter-Terrorism, Mr. Vladimir Voronkov.

A film produced by the UN Counter-Terrorism Centre (UNCCT), entitled “Surviving Terrorism: The Power of Connections” will be launched featuring testimonies of victims and survivors of terrorism from across the world and ending with a collective ode on connections. This will be followed by an interactive discussion with victims and representatives of victims’ associations to discuss the importance of connections and how victims of terrorism have been impacted by the COVID-19 pandemic.
KEY MESSAGES ON CONNECTIONS

CONNECTION

is intrinsic to human nature, creating a bond among people and giving them a sense of belonging to each other and to the community. This is particularly true for victims of terrorism. Connections allows victims to feel heard, reduces isolation, increases the sense of hope, facilitates the healing process and helps people see the future in a positive way.

INTERACTION AND PEER SUPPORT

brings people together so that victims of terrorism can share their experiences and good practices and develop a common bond. By participating in peer support groups, victims are able to better cope with their trauma and the loss of loved ones.

COVID-19 IMPACTED VICTIMS

ability to heal through social connectedness, peer support and the togetherness that comes from attending in-person memorial events. The pandemic has also had an impact on the availability of much needed support services, however, victims have found creative ways to stay connected online.

THE UNITED NATIONS

plays a crucial role in connecting stakeholders, bringing Member States, civil society and victims together to facilitate dialogue, cooperation and partnerships at all levels with victims at the centre.

SPREAD THE WORD

Please tag @UN_OCT and use main hashtags #UNiteforVictimsofTerrorism and #VictimsofTerrorism whenever possible.
TRELLO

Feel free to use the material of UNOCT to raise awareness of International Day in your posts. More visual assets related to the event are available on this Trello Board.

Photos and/or videos taken from the International Day event may be used on the UNOCT’s social media accounts and website. If you do not wish to appear in photos, or do not want your photos on social media, please contact Ms. Laurence Gerard (gerardl@un.org).
