

International Day of Persons with Disabilities

United Nations HQ

3th December 2019

**INTER
Campus**

Mission

Since 1997 Inter Campus gives back the **Right To Play** to thousands of needy children, using the values of sport and the game of football as an educational tool in thirty Countries in the world.

Inter Campus contributes to the development of the local communities, supporting **educational, social** and **sanitary protection** programs carried out by local partners. Moreover, Inter Campus promotes social **integration** among differing ethnic groups and cultures.

Mission

L'abilità is a non-profit organisation active in Milano since 1998.

Its mission is providing wellbeing to children with special needs as well as offering a reliable support to parents while promoting a greater awareness on **the rights of children with disabilities**.

L'abilità is **networked to social and health services**, schools, public entities as well as private groups.

Process

Every child with or without disability needs to play and live in an educational environment. It's the opportunity given to children to stay **together**, in their difference, playing, finding strategies to *understand* the world and communicate one to one or in a group that makes real inclusion.

A new play

Our Aim

Children with and without intellectual disabilities play together with a ball

Expertise

Inter Campus Staff and L'abilità Onlus Team are working together for a new way to make all the children feel better.

Innovation

We study how to make more understandable to children who are playing together with a ball through pedagogical methods and strategies tailored to children with intellectual disabilities.

Leisure Skills and Inclusion

Our goal is the improvement of leisure skills and inclusion because all the children can play and have to play together.

How we work for inclusion
