

The Least Developed Country Category: **2024 Country Snapshots**

April 2024

UN DESA

The mission of the Department of Economic and Social Affairs of the United Nations Secretariat (UN DESA) is to promote and support international cooperation in the pursuit of sustainable development for all. UN DESA's work addresses a range of cross-cutting issues that affect peoples' lives and livelihoods, such as social policy, poverty eradication, employment, social inclusion, inequalities, population, indigenous rights, macroeconomic policy, development finance and cooperation, public sector innovation, forest policy, climate change and sustainable development. To this end, UN DESA: analyses, generates and compiles a wide range of data and information on development issues; brings together the international community at conferences and summits to address economic and social challenges; supports the formulation of development policies, global standards and norms; supports the implementation of international agreements, including the 2030 Agenda for Sustainable Development; and assists States in meeting their development challenges through a variety of capacity development initiatives. In carrying out its work, UN DESA engages with a variety of stakeholders around the world--non-governmental organizations, civil society, the private sector, research and academic organizations, philanthropic foundations and intergovernmental organizations--as well as partner organizations in the United Nations system.

CDP

The Committee for Development Policy (CDP) is a subsidiary body of the United Nations Economic and Social Council (ECOSOC). It provides inputs and independent advice to the Council on a wide range of issues that are relevant for the implementation of the 2030 Agenda for Sustainable Development. The CDP is also responsible for reviewing the status of least developed countries (LDCs) and for monitoring their progress during and after graduation from the category.

Acknowledgements

This publication reflects a collaborative effort of the Committee for Development Policy and the United Nations Department of Economic and Social Affairs. It relied on the support of the secretariat of the CDP under the general supervision of Roland Mollerus, Secretary of the Committee, who counted on excellent substantive support from Annette Becker and Matthias Bruckner.

SUMMARY

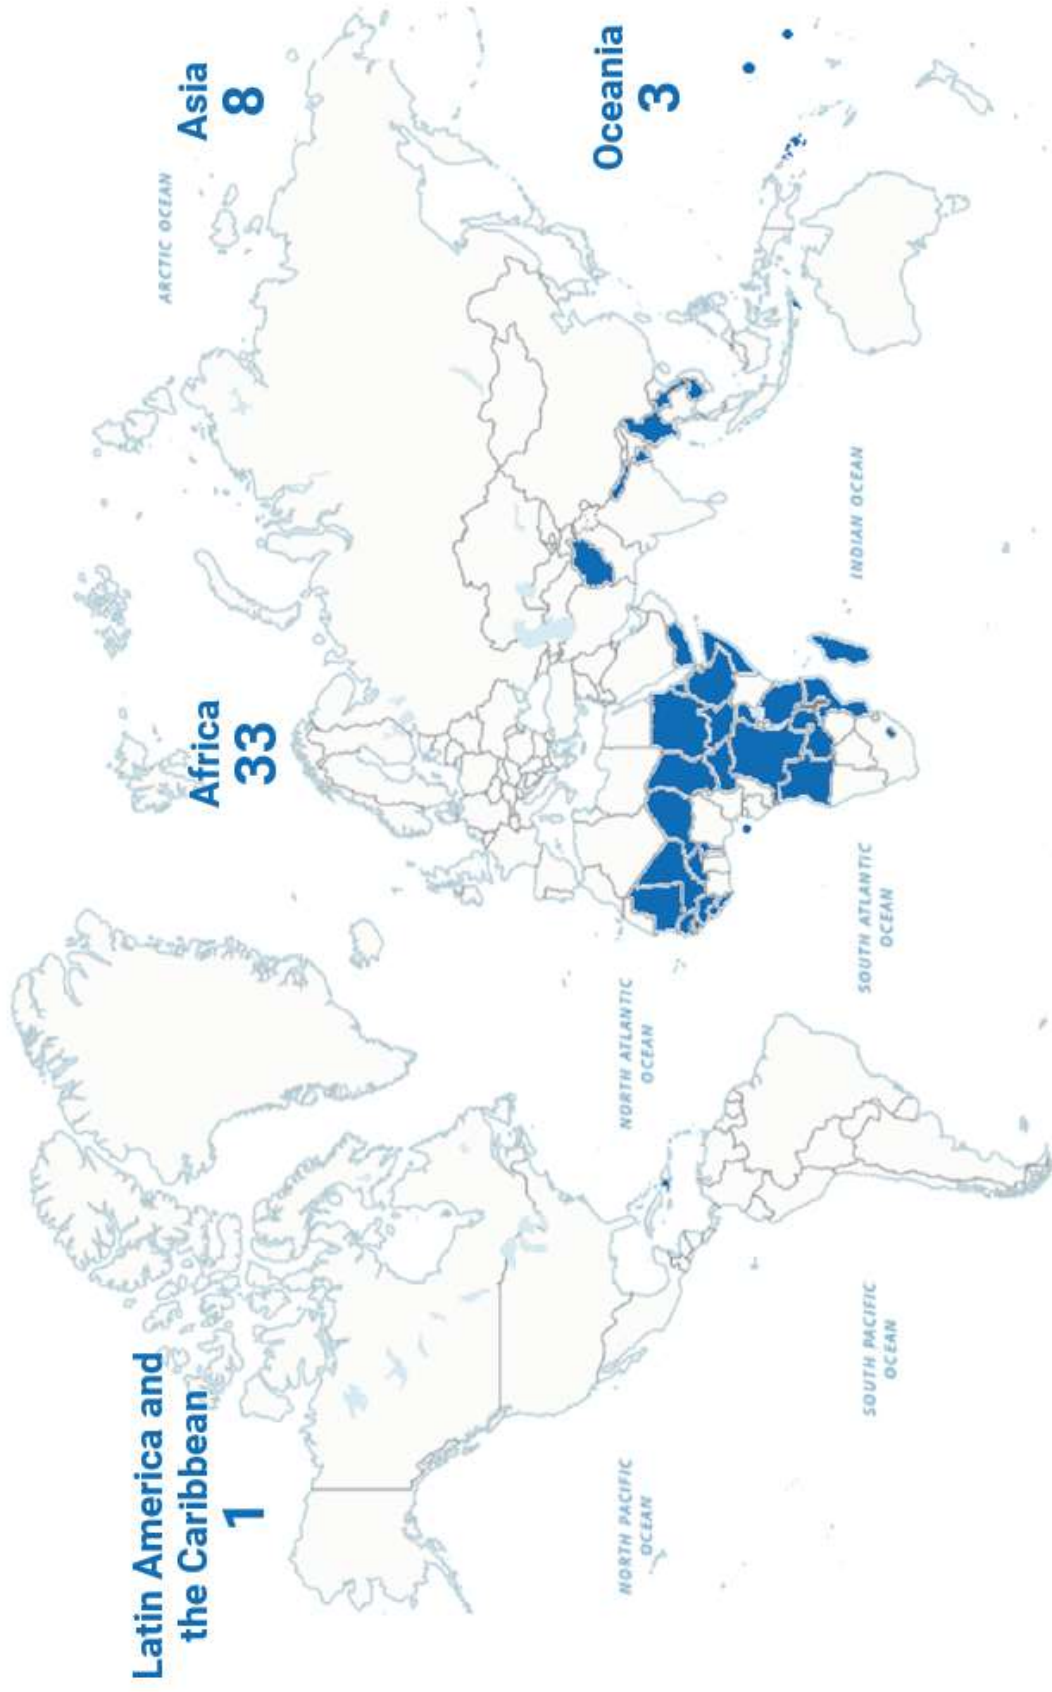

The *2024 Country Snapshots* compile the key statistical data used by the Committee for Development Policy (CDP) at the 2024 triennial review of the least developed country (LDC) category.

LDCs are defined as low-income countries suffering from structural impediments to sustainable development. To identify LDCs, the CDP uses three criteria: gross national income (GNI) per capita; a human assets index (HAI); and an economic and environmental vulnerability index (EVI). HAI and EVI are indices composed of six and eight indicators, respectively. These fourteen indicators, together with the indices for per capita GNI, HAI and EVI, are presented in two-page profiles for each of the 45 countries classified as LDCs in 2024, thus providing a snapshot of each country's situation at the 2024 triennial review. The snapshots also illustrate the gaps in progress towards the LDC graduation thresholds for each country, while comparing individual outcomes with corresponding results for all LDCs and developing countries. Additionally, each snapshot provides a short overview on the country's LDC status and applicable reports and resolutions related to inclusion into and graduation from the LDC category.

A brief introduction to the LDC category and the inclusion and graduation procedures precedes the country snapshots.

More detailed information on the LDCs, the inclusion and graduation procedures, and the complete dataset from the 2024 triennial review can be found on the CDP website at <http://bit.ly/CDP-LDCs>.

The LDC Category

The LDC category

LDC definition

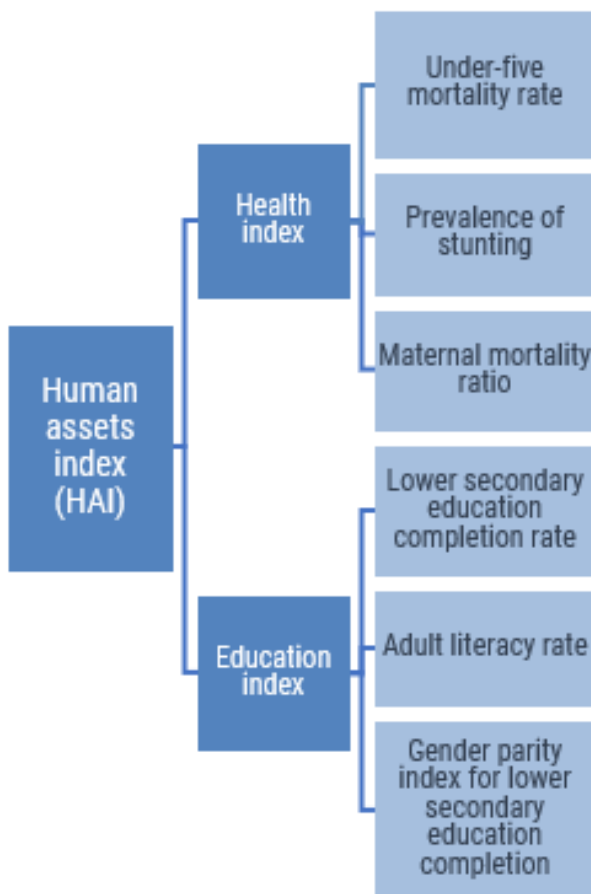

- ❖ Low-income countries confronting severe structural impediments to sustainable development.

LDC identification criteria

- ❖ Income (GNI per capita).
- ❖ Human assets index (HAI).
- ❖ Economic and environmental vulnerability index (EVI).

Composition of HAI

- ❖ All HAI indicators carry a weight of 1/6.

LDC review

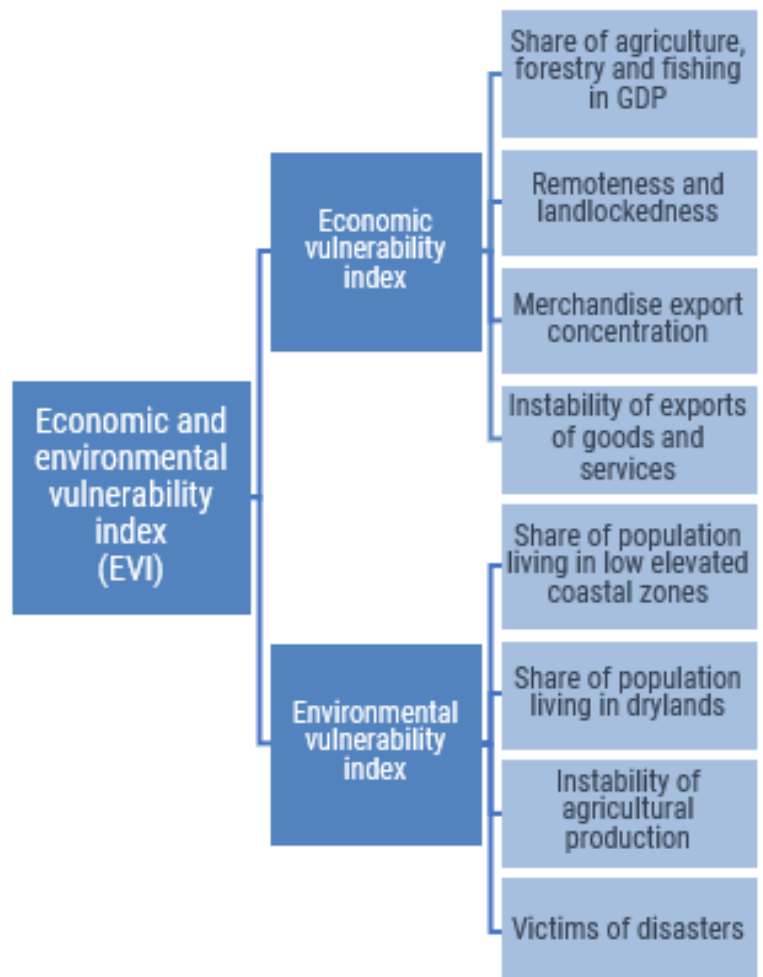

- ❖ List of LDCs reviewed triennially by the Committee for Development Policy (CDP).
- ❖ Currently 45 countries are included in the list of LDCs.

Measures in favour of LDCs

- ❖ Exclusive access to specific international support in the areas of trade, development assistance, and general support: <https://www.un.org/ldcportal/>.

Composition of EVI

- ❖ All EV indicators carry a weight of 1/8.

Inclusion into the LDC category

Inclusion eligibility

- ❖ Inclusion threshold must be met for all three criteria (GNI per capita, HAI, EVI) at one triennial review.

Inclusion thresholds (2024 triennial review)

- ❖ GNI per capita: \$1,088 or below
- ❖ HAI: 60 or below
- ❖ EVI: 36 or above

Inclusion procedure

- ❖ UN DESA formally notifies country of eligibility finding.
- ❖ CDP submits inclusion recommendation to the UN Economic and Social Council (ECOSOC).
- ❖ ECOSOC endorses the recommendation by the CDP.
- ❖ Country formally notifies the Secretary-General of its acceptance.
- ❖ General Assembly takes note of the ECOSOC recommendation.
- ❖ Inclusion takes effect immediately.

Graduation from the LDC category

Graduation eligibility

- ❖ Graduation threshold must be met for two of the three criteria (GNI per capita, HAI, EVI) at two consecutive triennial reviews.

Graduation thresholds (2024 triennial review)

- ❖ GNI per capita: \$1,306 or above
- ❖ HAI: 66 or above
- ❖ EVI: 32 or below

Graduation procedure

- ❖ After LDC has met the graduation criteria for the first time, UNCTAD prepares a vulnerability profile and UN DESA prepares an ex-ante impact assessment and as inputs to the CDP's decision-making process.
- ❖ Country is invited to present its views on the possibility of graduation at the CDP expert group meeting preceding the next triennial review and in writing at the CDP Plenary.
- ❖ CDP recommends the country for graduation based on the LDC criteria and additional country-specific information (supplementary graduation indicators, an assessment based on the inputs by UN DESA, UNCTAD and other UN entities, country view).
- ❖ Any recommendation for graduation includes a statement on length of preparatory period and suggestions for policy priorities and support needs for a smooth transition.
- ❖ ECOSOC endorses the recommendation of the CDP.
- ❖ General Assembly takes note of the decision of ECOSOC.
- ❖ Graduation takes effect at the end of the preparatory period (three years or an extended period of up to five years in case of country-specific circumstances) after the decision by the General Assembly.

Preparation for graduation

- ❖ During the preparatory period before graduation is effective, country still belongs to the LDC category and is entitled to receive all benefits available to LDC.
- ❖ Country is invited to prepare a transition strategy in cooperation with development partners.
- ❖ CDP monitors development progress of the country and the preparation of the transition strategy through its enhanced monitoring mechanism (EMM).

Smooth transition from the LDC category

- ❖ After graduation is effective, country no longer belongs to the LDC category.
- ❖ LDC-specific support should be phased out gradually and in a predictable manner after graduation.
- ❖ Country implements the transition strategy, supported by development partners.
- ❖ CDP monitors development progress of the country and the implementation of the transition strategy through its EMM for three consecutive years after graduation takes effect, then triennially at two triennial reviews.
