

COVID-19 government responses in LDCs – status report of 15 July 2020

For how many of the 47 LDCs have measures been recorded?

Timing of recorded policy responses by governments in LDCs

Stringency index
 The Stringency index is calculated using nine indicators, combining various measures of government responses, to capture a variation in containment and closure policies only. It records the number and strictness of government policies, not the appropriateness or effectiveness of a country's response.

Legend:

Stringency Index

Stay at home order

- No measures
- Recommended
- Required with exceptions
- Required without exceptions

Workplace closure

- No measures
- Recommended
- Required for some sectors
- Required except essential sectors

School closure
