For how many of the 46 LDCs have measures been recorded?

42

Stringency index
The Stringency index is calculated using nine indicators, combining various measures of government responses, to capture a variation in containment and closure policies only. It records the number and strictness of government policies, not the appropriateness or effectiveness of a country’s response.

Legend:
- **Stringency Index**
  - Least stringent (0)
  - Most stringent (100)

- **Stay at home order**
  - No measures
  - Recommended
  - Required with exceptions
  - Required without exceptions

- **Workplace closure**
  - No measures
  - Recommended
  - Required for some sectors
  - Required except essential sectors

- **School closure**
  - No measures
  - Recommended
  - Required for some levels
  - Required for all levels
