|------------------------------|--|
| I. Gross domestic product | Gross domestic product by country (annual percentage change) |
| II. Consumer price inflation | Consumer price inflation by country (annual percentage change) |

Disclaimer:

The online statistical annex was prepared by the Economic Analysis and Policy Division (EAPD) of the Department of Economic and Social Affairs of the United Nations Secretariat (UN DESA). It is based on data and information available up to **26 April 2024**. Data up to 2022 are obtained from the Statistics Division of UN DESA and national sources. Estimates for 2023 and forecasts for 2024 and 2025 are produced by EAPD, partly guided by the EAPD World Economic Forecasting Model (WEFM). They do not represent a consensus view of the five United Nations regional commissions, the United Nations Conference on Trade and Development (UNCTAD), United Nations Funds, Programmes, Specialized Agencies and other Entities and Bodies, and do not reflect the views of the Member States. Data presented in the *World Economic Situation and Prospects as of mid-2024* may differ from those published by other organizations for several reasons, including differences in timing, sample composition and aggregation method. Historical data may differ from those in previous editions of the *World Economic Situation and Prospects* report because of revisions and changes in the availability of data for individual countries.

World Economic Situation and Prospects as of mid-2024

Statistical Annex I

Gross domestic product
