**Integrated Civil Society Organizations System**

The integrated Civil Society Organizations (iCSO) System, developed by the Department of Economic and Social Affairs (DESA), facilitates interactions between civil society organizations and DESA. The system provides online registration of general profiles for civil society organizations, including address, contacts, activities and meeting participation, facilitates the application procedure for consultative status with the Economic and Social Council (ECOSOC), and assists accredited NGOs in submitting quadrennial reports and in designating representatives to the United Nations.

DESA has also developed CSO Net - the Civil Society Network, a web portal devoted to non-governmental organizations in association with the United Nations, and to members of United Nations agencies, funds and programmes, to promote best practices in the field of economic and social development. The portal gives users the opportunity to publish news and to engage and moderate discussion forums. It facilitates online pre-registration to UN conferences open for civil society participation and allows for submission of NGO statements to the Economic and Social Council.

Please use the simple or advanced search to find out more about civil society organizations in our large database of over 24,000 entries. The advanced search allows many combinations, including by organization name and type, region and country, consultative status, language, geographic scope, fields of activity and meeting participation.
