<p>4. World Food Summit (13-17 November 1996)</p>	<p>Rome Declaration on World Food Security and World Food Summit Plan of Action</p>	<p>World Food Summit Plan of Action</p> <p>....</p> <p>9. The multi-dimensional nature of the follow-up to the World Food Summit includes actions at the national, intergovernmental and inter-agency levels. The international community, and the UN system, including FAO, as well as other agencies and bodies according to their mandates, have important contributions to the implementation of the World Food Summit Plan of Action. The FAO Committee on World Food Security (CFS) will have responsibility to monitor the implementation of the Plan of Action.</p> <p>COMMITMENT SEVEN</p> <p>We will implement, monitor, and follow-up this Plan of Action at all levels in cooperation with the international community.</p> <p>.....</p> <p>57. The multi-dimensional nature of the follow-up to the World Food Summit includes actions at the national, intergovernmental and inter-agency levels. In addition to the indispensable mobilization of national efforts, the effective implementation of the World Food Summit Plan of Action requires strong international cooperation and a monitoring process at the national, regional and global levels, using existing mechanisms and fora for its operation. To allow for better cooperation, the information regarding the different actors in the field of food security and agriculture, fisheries, forestry and rural development and their activities and resources needs to be</p>

		<p>improved, where appropriate. Setting realistic targets and monitoring progress towards them call for reliable and relevant information and analysis which are still often unavailable at the national and international levels. For the follow-up to the World Food Summit, coordination and cooperation within the UN system, including the Bretton Woods institutions, is vital and should take into account the mandate of FAO and other relevant organizations. Bearing in mind UNGA Resolution 50/109, the outcome of the World Food Summit should be included in the follow-up to major international UN conferences and summits, including the implementation of their respective programmes of action in conformity with UNGA Resolution 50/227 and ECOSOC Resolution 1996/36, in order to promote sustainable food security for all as a fundamental element of the UN system's effort to eradicate poverty. In this context, the implementation of the World Food Summit Plan of Action requires actions at the intergovernmental level, in particular through the CFS and at the inter-agency level through the Administrative Committee on Coordination (ACC). In the field, the representatives of all UN agencies should work within the UN resident coordinators' system to support country-level implementation of the World Food Summit Plan of Action.</p> <p>59. Objective 7.2: To improve sub-regional, regional, and international cooperation and to mobilize, and optimize the use of, available resources to support national efforts for the earliest possible achievement of sustainable world food security.</p> <p>(b) Encourage relevant agencies within the UN system to initiate, inter alia within the framework of the ACC, consultations on the further elaboration and definition of a food insecurity and vulnerability information and mapping system to be developed in a coordinated manner; member countries and their institutions and other organizations, as appropriate, should be included in the development, operation and use of the system; FAO should play a catalytic role in this effort, within the framework of the ad hoc inter-agency task forces on the follow-up of the UN conferences. The results of that work should be reported to the UN Economic and Social Council (ECOSOC) through the ACC;</p>
<p>5. Fourth UN Conference on the Least Developed Countries (9-13 May 2011)</p>	<p>Istanbul Declaration (A/CONF.219/L.1) and the Programme of Action for the Least Developed Countries for the Decade 2011–2020 (A/CONF.219/3/Rev.1)</p>	<p><u>A/CONF.219/3/Rev.1</u> Endorsed by <u>A/RES/65/280</u></p> <p>...</p> <p>150. At the global level, the implementation and monitoring mechanisms established after the Brussels Programme of Action should be strengthened and improved for the effective implementation of the Programme of Action. The General Assembly should continue to monitor the implementation of this Programme of Action on an annual basis under the specific item on its agenda.</p> <p>151. The Economic and Social Council is invited to continue to include periodically an agenda item during its annual substantive session on the review and coordination of the implementation of this Programme of Action. Periodic reviews of progress made and constraints confronted by least developed countries should be conducted by the Economic and Social Council to allow for focused interactions. The Economic and Social Council is invited to include the review of the implementation of the Programme of Action in its annual ministerial reviews, as required. The Development Cooperation Forum should keep reviewing trends in international development cooperation, as well as policy coherence for development, including for least developed countries.</p>

Meeting	Outcome Document	Mandate on follow-up
		<p>152. Consideration of each annual review in the General Assembly and the Economic and Social Council should include, inter alia, (a) follow-up, monitoring and assessment of progress in the implementation of the Programme of Action at the national, subregional, regional and global levels through reporting by Governments, as well as by the secretariats and intergovernmental bodies of the United Nations system and of other relevant subregional, regional and international organizations and institutions; (b) fostering international cooperation in support of the Programme of Action, including coordination among donors and among organizations referred to above; and (c) elaborating new policies and measures in the light of changing domestic and external circumstances facing least developed countries.</p> <p>153. The governing bodies of the United Nations funds and programmes and other multilateral organizations, including the Bretton Woods institutions and international financial institutions, are invited to contribute to the implementation of the Programme of Action and to integrate it into their work programmes, as appropriate and in accordance with their respective mandates. These organizations are invited to participate fully in reviews of the Programme of Action at the national, subregional, regional and global levels.</p> <p>154. The Secretary-General of the United Nations is requested to ensure the full mobilization and coordination of all parts of the United Nations system to facilitate coordinated implementation and coherence in the follow-up and monitoring of the Programme of Action at the national, subregional, regional and global levels. The coordination mechanisms available, such as the United Nations System Chief Executives Board for Coordination and the United Nations Development Group, should be broadly utilized and the inter-agency consultative group should be kept active in this regard.</p> <p>155. The Office of the High Representative for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States should continue to fulfil its functions to assist the Secretary-General for the effective follow-up and monitoring of the implementation of the Programme of Action and the full mobilization and coordination of all parts of the United Nations system, with a view to facilitating the coordinated implementation of and coherence in the follow-up and monitoring of the Programme of Action for the least developed countries at the country, regional and global levels, and to assist in mobilizing international support and resources for the implementation of the Programme of Action for least developed countries. To this end, it should continue its awareness-raising and advocacy works in favour of least developed countries in partnership with the relevant part of the United Nations, as well as with parliaments, civil society, the media, academia and foundations, and to provide appropriate support to group consultations of least developed countries. With a view to ensuring the effective implementation of the functions of OHRLS and strengthening its capabilities and its effectiveness, as well as the effectiveness of the United Nations system support provided to least developed countries, the Secretary-General is requested to prepare a report, in consultation with Member States and the relevant specialized agencies, funds, programmes and regional commissions, taking into account the work done by the United Nations system, and to submit it with recommendations to the General Assembly at its sixty-seventh session.</p> <p>156. The United Nations Conference on Trade and Development (UNCTAD) should continue to address the challenges faced by least developed countries through conducting intergovernmental consensus-building,</p>

		<p>especially in the Trade and Development Board, and to contribute to the implementation of the Programme of Action also through its technical assistance to least developed countries. The United Nations General Assembly is invited to consider conducting a comprehensive high-level midterm review on the implementation of the Programme of Action. The General Assembly, towards the end of the decade, is also invited to consider holding a Fifth United Nations Conference on the Least Developed Countries, in order to make a comprehensive appraisal of the implementation of this Programme of Action and to decide on subsequent action.</p>

We encourage the members of the United Nations Group on the Information Society to contribute to the reports.</p> <p>68. We also call for the continuation of the work of the United Nations Group on the Information Society in coordinating the work of United Nations agencies, according to their mandates and competencies, and we invite the regional commissions to continue their work in implementation of the World Summit on the Information Society action lines and their contribution to the reviews thereof, including through regional reviews.</p> <p>69. We recognize that the World Summit on the Information Society Forum has been a platform for discussion and sharing of best practices in the implementation of the World Summit outcomes by all stakeholders, and it should continue to be held annually.</p> <p>70. We acknowledge the importance of data and statistics to support information and communications technology for development, and call for further quantitative data to support evidence-based decision-making, as well as for the inclusion of information and communications technology statistics in national strategies for the development of statistics and in regional statistical work programmes, and for strengthening local statistical capacity and targeted training by Governments and all other relevant stakeholders. The activities of the Partnership on Measuring Information and Communications Technology for Development have made a valuable contribution to data gathering and dissemination and should be continued.</p> <p>71. We recognize that, in the preparation of this review, a number of challenges and opportunities have been identified, requiring longer-term consultations to determine appropriate responses, and that the pace of the development of information and communications technologies necessitates higher-level consideration of progress achieved and future action. We accordingly request the General Assembly to hold a high-level meeting on the overall review of the implementation of the outcomes of the World Summit on the Information Society in 2025, involving the input and participation of all stakeholders, including in the preparatory process, to take stock of progress on the outcomes of the World Summit and identify both areas of continued focus and challenges. We recommend that the outcome of the high-level meeting be an input into the review process for the 2030 Agenda for Sustainable Development.</p>
14. Comprehensive High-level Midterm Review of the Implementation of the Istanbul Programme of Action for the Least Developed Countries for the Decade 2011–2020	Political Declaration of the Comprehensive High-level Midterm Review of the Implementation of the Istanbul Programme of Action for the Least Developed Countries for the Decade 2011–2020	<p>A/RES/70/294</p> <p>114. We reiterate that the Office of the High Representative for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States should continue to fulfil its functions to assist the Secretary-General in the effective follow-up and monitoring of the implementation of the Istanbul Programme of Action and the full mobilization and coordination of all parts of the United Nations system, with a view to facilitating the coordinated implementation of and coherence in the follow-up and monitoring of the Programme of Action at the country, regional and global levels, and should continue to assist in mobilizing international support and resources for the implementation of the Programme of Action. To this end, it should continue its awareness-raising and advocacy work in favour of the least developed countries, in partnership with the relevant parts of the United Nations system, as well as with parliaments, civil society, the media,</p>

We reiterate our request to the Secretary-General to ensure the full mobilization and coordination of all parts of the United Nations system to facilitate coordinated implementation and coherence in the follow-up and monitoring of the Istanbul Programme of Action at the national, subregional, regional and global levels. The coordination mechanisms available, such as the United Nations System Chief Executives Board for Coordination and the United Nations Development Group, should be broadly utilized and the inter-agency consultative group should be kept active in this regard.</p> <p>116. We reiterate the importance of effective linkages in the follow-up and review arrangements of all relevant United Nations conferences and processes, including on the least developed countries, small island developing States and landlocked developing countries.</p> <p>117. We reiterate our invitation to the governing bodies of the United Nations funds and programmes and other multilateral organizations and international financial institutions to contribute to implementing the Istanbul Programme of Action and to integrate it into their work programmes, as appropriate and in accordance with their respective mandates. These organizations are invited to participate fully in reviews of the Programme of Action at the national, sub-regional, regional and global levels. We are concerned that the share of expenditure for the operational activities for development of the United Nations system in the least developed countries is declining. We invite the governing bodies of the organizations of the United Nations development system and other multilateral organizations to prioritize allocations to the least developed countries, as appropriate and in accordance with their respective mandates.</p> <p>118. We reiterate that treating the least developed countries as a group on the basis of their low per capita income, human asset development and economic vulnerability remains the fundamental premise for special measures in their favour, and that wider recognition of least developed country status could stimulate and facilitate better integration of the Istanbul Programme of Action into development policies. We invite the Committee for Development Policy to look into the reasons and consequences of the non-application of the least developed country category by some United Nations development system organizations and to include its findings on this matter in its annual report to the Economic and Social Council.</p> <p>...</p> <p>120. We encourage the General Assembly to consider holding the Fifth United Nations Conference on the Least Developed Countries in 2021.</p>

We believe that a comprehensive refugee response should be developed and initiated by the Office of the United Nations High Commissioner for Refugees, in close coordination with relevant States, including host countries, and involving other relevant United Nations entities, for each situation involving large movements of refugees. This should involve a multi-stakeholder approach that includes national and local authorities, international organizations, international financial institutions, civil society partners (including faith-based organizations, diaspora organizations and academia), the private sector, the media and refugees themselves. A comprehensive framework of this kind is annexed to the present declaration.</p> <p>.....</p> <p>88. We recognize that arrangements are needed to ensure systematic follow-up to and review of all of the commitments we are making today. Accordingly, we request the Secretary-General to ensure that the progress made by Member States and the United Nations in implementing the commitments made at today's high-level meeting will be the subject of periodic assessments provided to the General Assembly with reference, as appropriate, to the 2030 Agenda for Sustainable Development.</p> <p>89. In addition, a role in reviewing relevant aspects of the present declaration should be envisaged for the periodic High-level Dialogues on International Migration and Development and for the annual report of the United Nations High Commissioner for Refugees to the General Assembly.</p> <p>90. In recognition of the need for significant financial and programme support to host countries and communities affected by large movements of refugees and migrants, we request the Secretary-General to report to the General Assembly at its seventy-first session on ways of achieving greater efficiency, operational effectiveness and system-wide coherence, as well as ways of strengthening the engagement of the United Nations with international financial institutions and the private sector, with a view to fully implementing the commitments outlined in the present declaration.</p> <p>...</p>
