

The demographic evidence base and indicators for the 2030 Agenda: a global overview

Monday, 11 April 2016 (12:00 pm – 1:00 pm)

United Nations Headquarters, Conference room 4, Conference Building

This session will provide a global overview of the importance and integration of demographic data in the 2030 Agenda for Sustainable Development, particularly in the Sustainable Development Goals, targets and indicators. Demographic evidence is essential to measure progress in numerous development goals and targets. National capacities to collect, disseminate and analyse demographic data need to be strengthened

Keynote Speaker

Lisa Bersales

National Statistician of the Philippines
