ABOUT THE PROGRAM:
The United Nations observance of the International Day of Persons with Disabilities aims to promote an understanding of disability issues and mobilize support for the rights and well-being of persons with disabilities. The NGO Committee on Ageing is observing this International Day with a discussion of disability and ageing issues. How can access to services and other assistance help older persons maximize their coping skills with physical and cognitive disabilities associated with the older years? The meeting will begin with a brief business discussion of the work of the NGO Committee on Ageing.
