A Nexus Approach For The SDGs

Interlinkages between the goals and targets*

* Goal 17 is understood to be linked to all the goals in addressing means of implementation and will therefore not be considered separately.
Access to food for the poor, end malnutrition, support small scale farming, ensure equitable use of resources (2.1, 2.2, 2.3, 2.5)

Universal health coverage, end epidemics (3.8, 3.3)

Universal access to equitable and quality education (4.1)

Gender sensitive development strategies, equal rights and access to resources and services for men and women (1.b, 1.4, 5.1)

Access to drinking water (6.1)

Access to energy (7.1)

Upgrade slums, access to transport systems, reduce number of deaths by disasters with focus on the poor (11.1, 11.2, 11.5)

Income growth at the bottom, policies to achieve greater equality (10.1, 10.4)

Equal rights to economic resources for the poor, support small enterprises and entrepreneurship, access to financial services (1.4, 8.3, 8.10)

Resilience and adaptive capacity of the poor to climate related extreme events (1.5, 13.1)

Biodiversity in poverty reduction strategies (15.9)

Explicitly linked

Substantially linked
Access to food for the poor, end malnutrition, support small scale farming, ensure equitable use of resources (2.1, 2.2, 2.3, 2.5)

End malnutrition (2.2)

Nutritional needs adolescent girls, pregnant and lactating women, increase income female small scale food producers, end discrimination in all forms (2.2, 2.3, 5.1)

Food production that maintains ecosystems, equitable share of genetic resources, combat desertification (2.4, 2.5, 15.3, 15.6)

Food waste and food security (12.3)

Access to food especially for the vulnerable, double income of small-scale food producers, women, indigenous, family farmers, equal access to land (2.1, 2.3)

Food production systems that strengthen capacity for adaptation to climate change (2.4)

Sustainable food production systems, increased agricultural productivity and income (2.3, 2.4)

Access to quality early childhood development (4.2)

Nutritional needs adolescent girls, pregnant and lactating women, increase income female small scale food producers, end discrimination in all forms (2.2, 2.3, 5.1)

Water use efficiency and water scarcity (6.4)
3. GOOD HEALTH AND WELL-BEING

- **No Poverty (1)**
  - Universal health coverage, end epidemics (3.8, 3.3)

- **Zero Hunger (2)**
  - End malnutrition (2.2)

- **Quality Education (4)**
  - Universal access to sexual and reproductive health-care services, including education, quality early childhood development (3.7, 4.2)

- **Gender Equality (5)**
  - Universal access to sexual and reproductive health services and rights (3.7, 5.6)

- **Reduced Inequalities (10)**
  - Universal health coverage and access to health care services (3.8)

- **Clean Water and Sanitation (6)**
  - Sanitation and hygiene, improved water quality (6.2, 6.3)

- **Sustainable Cities and Communities (11)**
  - Universal access to sexual and reproductive health services and rights (3.7, 5.6)

- **Responsible Consumption and Production (12)**
  - Sound management of chemicals and wastes to minimize adverse impact on human health (12.4)

- **Reduce deaths and injuries from traffic accidents, reduce illness from air pollution, access to safe transportation (3.6, 3.9, 11.2)**
1. **No Poverty**
   - Universal access to equitable and quality education (4.1)

2. **Zero Hunger**
   - Access to quality early childhood development (4.2)

3. **Good Health and Well-being**
   - Universal access to sexual and reproductive health-care services, including education, quality early childhood development (3.7, 4.2)

4. **Quality Education**
   - Eliminate gender disparities in education, education on gender equality, gender sensitive learning environments, literacy, end discrimination (4.5, 4.6, 4.7, 4b, 5.1)
   - Promote a culture of peace and non-violence, ensure effective and accountable institutions, participatory and responsive decision-making (4.7, 16.6, 16.7)
   - Improve education and awareness on climate change (13.3)

5. **Gender Equality**
   - Skills for employment, decent jobs and entrepreneurship, reduce number of youth out of employment or education (4.4, 8.6)

6. **Peace and Justice Strong Institutions**
   - Education and information on sustainable development (4.7, 12.8)

7. **Climate Action**
   - Skills for employment, decent jobs and entrepreneurship, reduce number of youth out of employment or education (4.4, 8.6)

8. **Decent Work and Economic Growth**
   - Equal access for all to education, especially the vulnerable, equality of opportunity, political, economic and social inclusions (4.5, 10.2., 10.3)

9. **Responsible Consumption and Production**
   - Skills for employment, decent jobs and entrepreneurship, reduce number of youth out of employment or education (4.4, 8.6)

10. **Reduced Inequalities**
    - Skills for employment, decent jobs and entrepreneurship, reduce number of youth out of employment or education (4.4, 8.6)
Nutritional needs adolescent girls, pregnant and lactating women, increase income female small scale food producers, end discrimination in all forms (2.2, 2.3, 5.1)

Universal access to sexual and reproductive health services and rights (3.7, 5.6)

Gender sensitive development strategies, equal rights and access to resources and services for men and women (1.b, 1.4, 5.1)

Nutritional needs adolescent girls, pregnant and lactating women, increase income female small scale food producers, end discrimination in all forms (2.2, 2.3, 5.1)

End discrimination, reduce violence against women and girls (5.1, 5.2, 16.1)

Eliminate gender disparities in education, education on gender equality, gender sensitive learning environments, literacy, end discrimination (4.5, 4.6, 4.7, 4b, 5.1)

Improve sanitation and hygiene with special attention to the needs of women and girls (6.2)

Raise capacity for climate change planning and management including focusing on women (13.b)

Equal pay for equal work, protect female migrants workers, recognize care and domestic work (8.5, 8.8, 5.4)

Social, economic and political inclusion irrespective of sex, end discrimination, equal participation and decision making (10.2, 5.1, 5.5)

Access to public transport and public space with particular attention to women (11.2, 11.7)

Gender sensitive development strategies, equal rights and access to resources and services for men and women (1.b, 1.4, 5.1)

Universal access to sexual and reproductive health services and rights (3.7, 5.6)
Definitively linked
Substantially linked

1. **NO POVERTY**
   - Access to drinking water (6.1)

2. **ZERO HUNGER**
   - Water use efficiency and water scarcity (6.4)

3. **GOOD HEALTH AND WELL-BEING**
   - Sanitation and hygiene, improved water quality (6.2, 6.3)

4. **GENDER EQUALITY**
   - Improve sanitation and hygiene with special attention to the needs of women and girls (6.2)

5. **LIFE ON LAND**
   - Protect and restore water-related ecosystems (6.6)

6. **CLIMATE ACTION**
   - Improve water quality by reducing pollution (6.3)

7. **RESPONSIBLE CONSUMPTION AND PRODUCTION**
   - Increase recycling and safe reuse of water, reduce release of chemicals and waste into water, reduce waste generation (6.3, 12.4, 12.5)

8. **SUSTAINABLE CITIES AND COMMUNITIES**
   - Equitable access to drinking water, access to adequate and equitable sanitation and hygiene (6.1, 6.2)

9. **INDUSTRY, INNOVATION AND INFRASTRUCTURE**
   - Integrated water resource management, quality, reliable, sustainable and resilient infrastructure (6.5, 9.1)

10. **REDUCED INEQUALITIES**
    - Assure access to drinking water (6.1)
Increase share renewables energies, increase energy efficiency (7.1, 7.2)

Universal access to energy (7.1)

Increase share renewables energies, increase energy efficiency, upgrade infrastructure, increased resource use efficiency, and clean technologies (7.1, 7.2, 9.4)

Explicitly linked

Substantially linked
Sustainable food production systems, increased agricultural productivity and income (2.3, 2.4)

Skills for employment, decent jobs and entrepreneurship, reduce number of youth out of employment or education (4.4, 8.6)

Equal pay for equal work, protect female migrant workers, recognize care and domestic work (8.5, 8.8, 5.4)

Increase sharing renewables energies, increase energy efficiency (7.1, 7.2)

Decouple economic growth from environmental degradation in accordance with sustainable consumption and production framework (8.4)

Full and productive employment, secure working environments (for those in precarious employment), end youth unemployment, eliminate child labor, increase income growth at the bottom (8.5 8.6, 10.1)

Inclusive and sustainable industrialization, access small-scale industrial and other enterprises to financial services (9.2, 9.3, 8.3)

Equal rights to economic resources for the poor, support small enterprises and entrepreneurship, access to financial services (1.4, 8.3, 8.10)

Decent work and economic growth
Integrated water resource management, quality, reliable, sustainable and resilient infrastructure (6.5, 9.1)

Increase share renewables energies, increase energy efficiency, upgrade infrastructure, increased resource use efficiency, and clean technologies (7.1, 7.2, 9.4)

Make industries sustainable, increase resource –use efficiency, adopt clean and environmentally sound technologies, strengthen technological and science capacity of developing countries (9.4, 9.5, 12a)

Resilient infrastructure, adaptive capacity (9.1, 13.1)

Quality, reliable, sustainable and resilient infrastructure (9.1)

Infrastructure with a focus on affordable and equitable access to all (9.1)

Inclusive and sustainable industrialization, access small-scale industrial and other enterprises to financial services (9.2, 9.3, 8.3)

Explicitly linked

Substantially linked
Income growth at the bottom, policies to achieve greater equality (10.1, 10.4)

Access to food especially for the vulnerable, double income of small-scale food producers, women, indigenous, family farmers, equal access to land (2.1, 2.3)

Equal access for all to education, especially the vulnerable, equality of opportunity, political, economic and social inclusion (4.5, 10.2, 10.3)

Social, economic and political inclusion irrespective of sex, end discrimination, equal participation and decision making (10.2, 5.1, 5.5)

Fair and equitable sharing of benefits from genetic resources (15.6)

Universal access to drinking water, access to adequate and equitable sanitation and hygiene (6.1, 6.2)

Equitable access to drinking water, access to adequate and equitable sanitation and hygiene (6.1, 6.2)

Universal access to public spaces, access to adequate, safe and affordable housing and basic services (11.7, 11.1)

Infrastructure with a focus on affordable and equitable access to all (9.1)

Full and productive employment, secure working environments (for those in precarious employment), end youth unemployment, eliminate child labor, increase income growth at the bottom (8.5, 8.6, 10.1)

Inclusion, equality of opportunity, enhanced participation of developing countries (in global governance), safe migration (10.2, 10.3, 10.6, 10.7, 16.8)

Social, economic and political inclusion irrespective of sex, end discrimination, equal participation and decision making (10.2, 5.1, 5.5)
Universal access to public spaces, access to adequate, safe and affordable housing and basic services (11.7, 11.1)

Upgrade slums, access to transport systems, reduce number of deaths by disasters with focus on the poor (11.1, 11.2, 11.5)

Reduce deaths and injuries from traffic accidents, reduce illness from air pollution, access to safe transportation (3.6, 3.9, 11.2)

Access to public transport and public space with particular attention to women (11.2, 11.7)

Assure access to drinking water (6.1)

Quality, reliable, sustainable and resilient infrastructure (9.1)

Inclusive urbanization, capacities for participatory human settlement planning and management (11.3)

Sustainable public transport reduce adverse environmental impact of cities, improve air quality, municipal and other waste management (11.2, 11.6)

Explicitly linked

Substantially linked

No Poverty

Peace and Justice Strong Institutions

Responsible Consumption and Production

Reduced Inequalities

Industry, Innovation and Infrastructure

Good Health and Well-being

Gender Equality

Clean Water and Sanitation
Food waste and food security (12.3)

sound management of chemicals and wastes to minimize adverse impact on human health (12.4)

education and information on sustainable development (4.7, 12.8)

Explicitly linked

Sustainable management and efficient use of natural resources (12.2)

Raise awareness and education on climate change and sustainable consumption and production (12.8, 13.3)

prevent and reduce marine pollution (14.1)

Increase recycling and safe reuse of water, reduce release of chemicals and waste into water, reduce waste generation (6.3, 12.4, 12.5)

Increase share renewables energies, increase energy efficiency (7.1, 7.2)

Decouple economic growth from environmental degradation in accordance with sustainable consumption and production framework (8.4)

Sustainable public transport reduce adverse environmental impact of cities, improve air quality, municipal and other waste management (11.2, 11.6)

Make industries sustainable, increase resource –use efficiency, adopt clean and environmentally sound technologies, strengthen technological and science capacity of developing countries (9.4, 9.5, 12a)

Sustainable management and efficient use of natural resources (12.2)

Raise awareness and education on climate change and sustainable consumption and production (12.8, 13.3)

Increase share renewables energies, increase energy efficiency (7.1, 7.2)

Decouple economic growth from environmental degradation in accordance with sustainable consumption and production framework (8.4)

Sustainable public transport reduce adverse environmental impact of cities, improve air quality, municipal and other waste management (11.2, 11.6)

Make industries sustainable, increase resource –use efficiency, adopt clean and environmentally sound technologies, strengthen technological and science capacity of developing countries (9.4, 9.5, 12a)
Raise capacity for climate change planning and management including focusing on women (13.b)

Resilience and adaptive capacity of the poor to climate related extreme events (1.5, 13.1)

Food production systems that strengthen capacity for adaptation to climate change (2.4)

Improve education and awareness on climate change (13.3)

Raise capacity for climate change planning and management including focusing on women (13.b)

Resilient infrastructure, adaptive capacity (9.1, 13.1)

Minimize and address impacts of ocean acidification (14.3)

Increase share renewables energies, increase energy efficiency (7.1, 7.2)

Improve water quality by reducing pollution (6.3)
Increase economic benefits to SIDs and LDCs from sustainable use of marine resources, promote sustainable tourism (14.7, 8.9)

Prevent and reduce marine pollution (14.1)

Minimize and address impacts of ocean acidification (14.3)

Fight illegal, unreported and unregulated fishing, accountable and transparent institutions (14.4, 16.6)
Biodiversity in poverty reduction strategies (15.9)

Food production that maintains ecosystems, equitable share of genetic resources, combat desertification (2.4, 2.5, 15.3, 15.6)

Protection of forests (15.2)

Sustainable management and efficient use of natural resources (12.2)

Fair and equitable sharing of benefits from genetic resources (15.6)

Protect and restore water-related ecosystems (6.6)

Protection of forests (15.2)
Promote a culture of peace and non-violence, ensure effective and accountable institutions, participatory and responsive decision-making

Fight illegal, unreported and unregulated fishing, accountable and transparent institutions

Inclusive urbanization, capacities for participatory human settlement planning and management

End discrimination, reduce violence against women and girls

Inclusion, equality of opportunity, enhanced participation of developing countries (in global governance), safe migration

Promote a culture of peace and non-violence, ensure effective and accountable institutions, participatory and responsive decision-making
