
Result 2: governments implement fiscal policies and gender-responsive budgeting to promote gender equality[3]

Programme performance in 2024 and target for 2026

17.40 The subprogramme's work contributed to an additional 1,115 partners, including civil society organizations, parliaments and audit institutions, with strengthened capacities to design and implement fiscal policies and gender-responsive budgeting to enable the strengthened tracking, allocation and expenditure of public resources for gender equality, which met the planned target.

17.41 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 17.4).

Table 17.4
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
853 partners have strengthened capacities for fiscal policies and gender-responsive budgeting to promote gender equality	An additional 950 partners have strengthened capacities for fiscal policies and gender-responsive budgeting to promote gender equality	An additional 1,115 partners have strengthened capacities for fiscal policies and gender-responsive budgeting to promote gender equality	An additional 1,200 partners have strengthened capacities for fiscal policies and gender-responsive budgeting to promote gender equality	An additional 1,300 partners have strengthened capacities for fiscal policies and gender-responsive budgeting to promote gender equality

[3] General Assembly resolution 69/313, annex.

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Central and local governments prioritized and allocated budgets for services, including vocational activities and sustainable infrastructure	Sectoral ministries strengthened gender analysis[a] in sectoral plans and budgets	Civil society organizations, parliaments and audit institutions use gender analysis[a] in their functions	Local governments strengthen links between women's needs at the grass-roots level and local budget priorities	Finance ministries have efficient and effective systems to track public spending on gender equality

[a] See General Assembly resolution 77/181.

Result 3: Governments adopt national action plans to prevent violence against women and girls

Proposed programme plan for 2026

17.42 Violence against women and girls is one of the world's most prevalent human rights violations, with one in three women worldwide subjected to either physical and/or sexual intimate partner violence or non-partner sexual violence in their lifetime.[4] In recent decades, an increasing number of countries have introduced national action plans to address violence against women and girls and promote gender equality.

Lessons learned and planned change

17.43 The lesson for the subprogramme was the need to provide targeted support to Member States on the prevention of violence against women and girls, considering that many policies and strategies focus on responding to violence after it occurs, rather than addressing its root causes. In applying the lesson, the subprogramme will provide policy guidance, technical support and capacity strengthening, upon request, to Governments and key stakeholders to formulate national action plans and incorporate prevention into policies.

17.44 Expected progress towards the objective is presented in the performance measure below (see figure 17.VI).

Figure 17.VI
Performance measure: number of countries that have adopted national action plans to prevent violence against women and girls with the support of the Entity (cumulative)

Deliverables

17.45 Table 17.5 lists all deliverables of the subprogramme.

Table 17.5
Subprogramme 2: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**11**	**11**	**9**	**10**
Reports for:				
1. The General Assembly, including on violence against women, trafficking in women, the world survey on the role of women in development, women in development, improvement in the situation of women and girls in rural areas and violence against women migrant workers	5	5	3	4
2. The Security Council on women and peace and security	1	1	1	1
3. The Commission on the Status of Women, including on priority themes and the confidential list	5	5	5	5
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**73**	**72**	**75**	**80**
4. On the Safe Cities Free of Violence Against Women and Girls and Safe Cities and Safe Public Spaces initiatives	73	72	75	80
Seminars, workshops and training events (number of days)	**37**	**136**	**96**	**145**
5. Courses on gender equality and macroeconomics	6	14	6	15
Workshops on:				
6. Women and peace and security	1	45	30	45
7. Gender-responsive budgeting	5	10	10	15
8. Gender statistics	25	67	50	70
Publications (number of publications)	**1**	**–**	**2**	**2**
9. Inventory of United Nations activities to end violence against women	1	–	1	1
10. *Progress of the World's Women*	–	–	1	1
Technical materials (number of materials)	**8**	**12**	**8**	**12**
11. On the priority themes/issues decided by the Commission on the Status of Women	1	1	1	1
12. On essential services to respond to violence against women and on integrating gender equality into macroeconomic policies	6	10	6	10
13. On the implementation of Security Council resolution 1325 (2000) on women and peace and security and its agenda	1	1	1	1
C. Substantive deliverables				

Consultation, advice and advocacy: technical advice to requesting Member States and non-governmental organizations on access to financial markets and services for women, gender-responsive budgeting, gender-responsive development plans at the national and local levels, and gender equality policies, strategies and action plans; technical advice to strengthen the role of national women's machinery in the development, implementation and monitoring of gender equality policies, strategies and action plans; country-level advice and assistance on the implementation of the women and peace and security agenda; consultation on priority themes and issues in preparation for the session of the Commission on the Status of Women; technical advice to requesting ministries of finance, planning and women's affairs on integrating a gender perspective into policies on macroeconomics, social protection systems, decent work and the care economy, environmental degradation and climate change to achieve the Sustainable Development Goals.

Databases and substantive digital materials: Global Database on Violence against Women.

Category and subcategory	2024 planned	2024 actual	2025 planned	2026 planned

D. Communication deliverables

Outreach programmes, special events and information materials: brochures and pamphlets on gender equality and for the promotion of the Commission on the Status of Women.

External and media relations: press releases on various topics related to women, including UN-Women publications.

Digital platforms and multimedia content: web platforms on financing for gender equality, the political participation of women, gender equality and HIV/AIDS and gender-responsive climate policies.[a]

Library services: documentation of the institutional memory related to UN-Women.

[a] See General Assembly resolution 76/300.

B. Proposed post and non-post resource requirements for 2026

Overview

17.46 The proposed regular budget resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 17.6 to 17.8.

Table 17.6

17.47 Additional details on the distribution of the proposed resources for 2026 are reflected in tables 17.9 to 17.11 and figure 17.VII.

17.48 As shown in tables 17.9 (1) and 17.10 (1), the overall resources proposed for 2026 amount to $11,413,000, reflecting a decrease of $30,400 compared with the approved budget for 2025. Resource changes result from technical adjustments. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

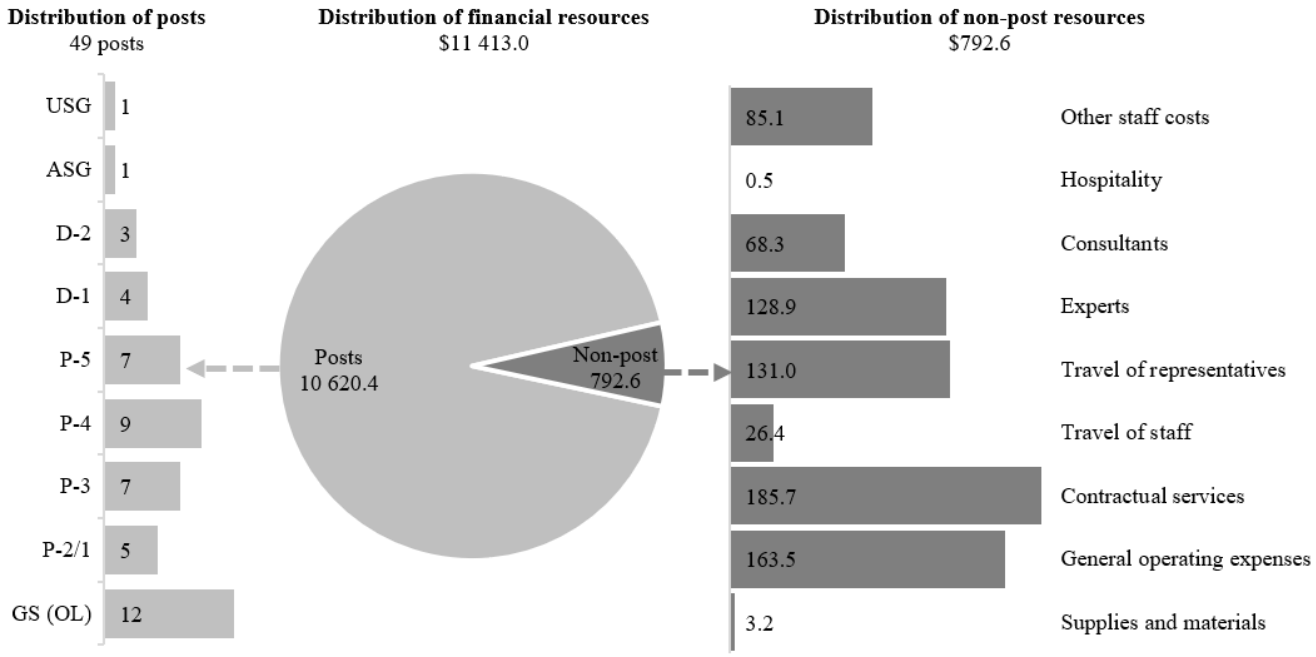
Figure 17.VII
Distribution of proposed resources for 2026
(Number of posts/thousands of United States dollars)



Explanation of variances by factor, component and subprogramme

Overall resource changes

Technical adjustments

17.49 As shown in table 17.9 (1), resource changes reflect a decrease of $30,400, which relates to subprogramme 2, Policy and programme activities. The decrease of $30,400 relates to the removal of non-recurrent provisions associated with the request by the General Assembly in its resolution 78/150 that the Secretary-General report to the Assembly at its eightieth session on achieving gender equality and empowering all women and girls for realizing all Sustainable Development Goals; the amount was approved for 2025, but was not allotted, and is not required in 2026.

Extrabudgetary resources

17.50 As reflected in tables 17.9 (2) and 17.10 (2), extrabudgetary resources are estimated at $515,000,000. The resources would complement regular budget resources and would be used mainly to provide for 471 posts (1 Assistant Secretary-General, 4 D-2, 20 D-1, 85 P-5, 61 P-4, 49 P-3, 8 P-2/1, 76 National Professional Officer and 167 General Service (Other level)) to mainly provide the functions of support for overall executive direction and management, including the planning, coordination, management and assessment of the programme of work and the strategic plan of UN-Women and the production of the programme's deliverables. In addition, non-post resources would be used under subprogramme 1 to facilitate engagement with intergovernmental bodies. Under subprogramme 2, resources are expected to support Member States, upon request, in implementing their national commitments to eliminating discrimination against women and girls, empowering women and achieving equality between women and men as partners and beneficiaries of sustainable development, human rights of women and girls, humanitarian action and peace and security.

17.51 The extrabudgetary resources under the present section are subject to the oversight of the Executive Board of UN-Women.

Policymaking organs

17.52 The resources proposed under this component would provide for the policymaking organs as shown in table 17.12.

Table 17.12
Policymaking organs
(Thousands of United States dollars)

Policymaking organ	*Additional information*	*2025 approved*	*2026 estimate*

Executive direction and management

17.54 The executive direction and management component comprises the Office of the Under-Secretary-General/Executive Director and the Independent Evaluation and Audit Services.

17.55 The overall responsibilities of the executive direction and management component include:

(a) Assisting and supporting the Under-Secretary-General/Executive Director in the overall executive direction and management of UN-Women, including the planning, coordination, management and assessment of the programme of work of UN-Women;

(b) Facilitating inter-office cooperation in the implementation of organizational priorities, workplans and administrative matters;

(c) Ensuring the timely implementation of decisions and coordination of inputs from all organizational units to the activities of the Office;

(d) Coordinating and providing guidance for the support of the intergovernmental process, operational activities in the field and United Nations system coordination efforts;

(e) Providing strategic policy support and support in managing communications with Member States, the United Nations system and civil society, and coordinating organizational efforts for advocacy by expanding partnerships and seizing new opportunities to promote gender equality and the empowerment of women;

(f) Providing, through its Independent Evaluation and Audit Services, independent assurance and advice to the Under-Secretary-General/Executive Director on UN-Women programmes, controls, business systems and processes;

(g) Through the Strategy, Planning, Resources and Effectiveness Division, integrating corporate strategy, resource management and performance measurement and monitoring corporate performance and budget implementation to support improved decision-making and governance to manage for results, while ensuring increased transparency and accountability.

17.56 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, UN-Women continues to integrate environmental management practices into its operations. Moreover, UN-Women continues to improve its environmental sustainability policy with the aim of integrating its operational environmental guidelines, internal policies and procedures into a comprehensive corporate environmental sustainability framework. UN-Women is continuously adapting its cloud strategy by using cloud-based platforms to centralize environmental data and improve collaboration across the organization. By eliminating data centres at headquarters and country offices and managing all information technology infrastructure in the cloud, UN-Women has significantly reduced the environmental impact of its information technology operations. In addition, UN-Women has been promoting remote work and virtual meetings to reduce its carbon footprint. The organization has also enhanced its use of videoconferencing and other online collaboration tools for meetings involving remote offices to help to reduce travel. Furthermore, UN-Women has implemented enterprise resource planning and workflow automation solutions, along with digital signature solutions and digital document management systems, to continuously reduce paper usage.

17.57 Information on the timely submission of documentation and advance booking for air travel is reflected in table 17.14. Senior management remains committed to the implementation of the advance purchasing and travel policy. In 2024, UN-Women achieved a 72 per cent compliance rate for travel tickets financed by regular budget resources, a significant improvement from the 2023 compliance rate of 31 per cent. This progress reflects better oversight and integration of travel planning into each division's annual workplan. Despite these improvements, compliance remains affected by last-minute travel requests from Governments, civil society and other partners for UN-Women officials to attend events, resulting in late bookings that hinder full adherence to advance booking policies. To address challenges associated with advance planning for travel, UN-Women has reinforced travel oversight and advance planning, requiring senior management approval with justification for late travel requests. To further improve cost efficiencies and advance planning, UN-Women has introduced a new protocol, where business class tickets will not be issued for tickets purchased less than 21 days in advance, even for entitled travelers. UN-Women remains focused on optimizing travel spending through strengthened risk management measures and policy enforcement, ensuring efficient resource utilization while supporting the organization's mission.

Programme support

17.61 The programme support component comprises the Management and Administration Division, the Human Resources Division and, partially, the Strategy, Planning, Resources and Effectiveness Division of UN-Women.

17.62 The main responsibilities of the programme support component include:

(a) Assisting the Under-Secretary-General/Executive Director in discharging responsibilities in the areas of finance and budget, administrative services, procurement and facilities management, information technology services, security, operational oversight and accountability, audit coordination and human resources;

(b) Providing administrative and operational support for the implementation of the programme activities of UN-Women.

17.63 The proposed regular budget resources for 2026 amount to $769,600 and reflect no change compared with the approved budget for 2025. Additional details on the distribution of the proposed resources for 2026 are reflected in table 17.18 and figure 17.XI.

I. Economic Commission for Africa

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

18.1 The Economic Commission for Africa (ECA) is responsible for promoting the economic and social development of its members, fostering intraregional integration and promoting international cooperation for the development of Africa. The mandate derives from the priorities established in relevant General Assembly resolutions and decisions, and Economic and Social Council resolution 671 A (XXV).

18.2 ECA provides innovative solutions, together with demand-driven and tailor-made policy and technical advice, grounded in evidence, to its members and regional economic communities to strengthen their social and economic resilience and achieve the goals of the 2030 Agenda for Sustainable Development and Agenda 2063: The Africa We Want, of the African Union. ECA is well positioned to support member States, within its mandate, in the implementation of relevant commitments and actions outlined in the Pact for the Future (General Assembly resolution 79/1). ECA also works to build the capacity of its members to formulate and implement policies for sustainable development, including through the implementation of the regular programme for technical cooperation and United Nations Development Account projects.

Strategy and external factors for 2026

18.3 In 2026, ECA will concentrate on five strategic directions:

(a) Deploying knowledge to support policymaking to drive the development agenda of Africa and foster infrastructure development, including in the areas of energy; technology, innovation and connectivity; and climate action and food security;

(b) Formulating policy options, including macroeconomic policies, to accelerate sustainable industrialization and economic diversification;

(c) Enhancing the mainstreaming of data and statistics, designing and implementing financing models and leveraging them for the development of human, physical and social infrastructure assets;

(d) Supporting deeper regional integration and the development of regional public goods, focusing on social inclusion and considering synergies between the economic and social development programmes of Africa;

(e) Advocating a common position for Africa at the global level and developing regional responses as a contribution to global governance issues.

18.4 Within its existing mandate, and in line with the actions and decisions contained in the Pact for the Future and the commitments contained in the Global Digital Compact and the Declaration on Future Generations, ECA will pay particular attention to supporting member States in leveraging technology and artificial intelligence for economic and social development and promoting digital cooperation, as well as further developing sustainable regional value chains for economic diversification, harnessing the demographic dividend and increasing engagement with young people in the design of policies and programmes.

18.5 In pursuing these strategic directions, ECA will employ its convening function, through the provision of multilateral and multi-stakeholder platforms; its think tank function, by conducting interdisciplinary

research and the analysis of key challenges facing its members and Africa as a whole, while promoting peer learning and development; and its operational function, through the provision of tailor-made policy and technical advice to its members, including in cooperation with other entities of the United Nations system. In line with action 45 (a) of the Pact for the Future, ECA will further strengthen its institutional capabilities to better support member States in delivering on its mandates.

18.6 With regard to cooperation with other entities, ECA will continue its close cooperation with the African Union Commission and will build upon its existing strategic partnerships with regional and subregional organizations, central banks, universities, think tanks and civil society and private sector organizations and forge new partnerships towards the fulfilment of the 2030 Agenda and Agenda 2063. Regarding South-South and triangular cooperation, ECA will leverage partnerships premised on the principle of enhancing complementarity and impact.

18.7 With regard to inter-agency coordination and liaison, ECA will continue to work through the Regional Collaborative Platform for Africa and its opportunity and issue-based coalitions, and will enhance collaboration with regional United Nations entities, the Department of Economic and Social Affairs, the United Nations Conference on Trade and Development, resident coordinators and country teams.

18.8 With regard to the external factors, the overall plan for 2026 is based on the following planning assumptions:

(a) Members of ECA and regional economic communities continue to cooperate among and between themselves for harmonized action, focusing on implementation of the 2030 Agenda and Agenda 2063 and operationalization of the African Continental Free Trade Area;

(b) The Africa Regional Forum for Sustainable Development, the Conference of African Ministers of Finance, Planning and Economic Development, and the subregional intergovernmental committees of experts and senior officials continue to provide policy advice to ECA on emerging priorities.

18.9 The Commission integrates a gender perspective in its operational activities, deliverables and results, as appropriate, by promoting further alignment and coherence between global, regional and national frameworks on gender equality and the empowerment of women and girls. Moreover, subprogramme 6 will continue to provide technical support to the Commission's other subprogrammes to integrate a gender perspective in their work.

18.10 In line with the United Nations Disability Inclusion Strategy, ECA will pursue the implementation of measures to ensure the inclusion of persons with disabilities, through its programme design, implementation and evaluation, including the provision of reasonable accommodation for conference and workshop participants.

Legislative mandates

18.11 The list below, which was reviewed in preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

57/2	United Nations Declaration on the New Partnership for Africa's Development
61/234	Enhancing the role of the subregional offices of the Economic Commission for Africa
67/302	Cooperation between the United Nations and the African Union
69/313	Addis Ababa Action Agenda of the Third International Conference on Financing for Development
70/1	Transforming our world: the 2030 Agenda for Sustainable Development
71/1	New York Declaration for Refugees and Migrants
73/195	Global Compact for Safe, Orderly and Regular Migration

76/258	Doha Programme of Action for the Least Developed Countries
76/298	Implementation of the recommendations contained in the report of the Secretary-General on the causes of conflict and the promotion of durable peace and sustainable development in Africa
77/331	Cooperation between the United Nations and the International Organization of la Francophonie
77/334	Follow-up to the United Nations Conference on the Midterm Comprehensive Review of the Implementation of the Objectives of the International Decade for Action, “Water for Sustainable Development”, 2018–2028
78/1	Political declaration of the high-level political forum on sustainable development convened under the auspices of the General Assembly
78/139	Financial inclusion for sustainable development
78/162	Development cooperation with middle-income countries
79/1	The Pact for the Future
79/146	Implementation of the outcome of the World Summit for Social Development and of the twenty-fourth special session of the General Assembly
79/149	Inclusive development for and with persons with disabilities
79/170	The right to development
79/171	The right to food
79/178	Human rights and extreme poverty
79/190	Preventing and combating corrupt practices and the transfer of proceeds of corruption, facilitating asset recovery and returning such assets to legitimate owners, in particular to countries of origin, in accordance with the United Nations Convention against Corruption
79/194	Information and communications technologies for sustainable development
79/195	International trade and development
79/196	International financial system and development
79/197	External debt sustainability and development
79/198	Promoting investments for sustainable development
79/199	Follow-up to and implementation of the outcomes of the International Conferences on Financing for Development
79/201	Entrepreneurship for sustainable development
79/202	Promoting sustainable consumption and production patterns for the implementation of the 2030 Agenda for Sustainable Development, building on Agenda 21
79/203	Follow-up to and implementation of the SIDS Accelerated Modalities of Action (SAMOA) Pathway and the Mauritius Strategy for the Further Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States
79/205	Disaster risk reduction
79/208	Implementation of the Convention on Biological Diversity and its contribution to sustainable development
79/210	Harmony with Nature
79/211	Ensuring access to affordable, reliable, sustainable and modern energy for all
79/215	Towards a New International Economic Order
79/216	Role of the United Nations in promoting development in the context of globalization and interdependence
79/218	Follow-up to the Fifth United Nations Conference on the Least Developed Countries
79/219	Follow-up to the Third United Nations Conference on Landlocked Developing Countries
79/220	Promotion of sustainable and resilient tourism, including ecotourism, for poverty eradication and environmental protection
79/221	Implementation of the Third United Nations Decade for the Eradication of Poverty (2018–2027)
79/222	Industrial development cooperation
79/223	Women in development
79/225	Eradicating rural poverty to implement the 2030 Agenda for Sustainable Development
79/226	Quadrennial comprehensive policy review of operational activities for development of the United Nations system
79/228	Towards global partnerships: a principle-based approach to enhance cooperation between the United Nations and all relevant partners
79/233	Programme of Action for Landlocked Developing Countries for the Decade 2024–2034
79/234	Promotion of international cooperation to combat illicit financial flows and strengthen good practices on assets return to foster sustainable development
79/236	South-South cooperation
79/263	New Partnership for Africa’s Development: progress in implementation and international support

Economic and Social Council resolutions

671 A (XXV)	Establishment of an Economic Commission for Africa
2014/5	Promoting empowerment of people in achieving poverty eradication, social integration and full employment and decent work for all
2021/10	Socially just transition towards sustainable development: the role of digital technologies on social development and well-being of all
2024/5	Social dimensions of the New Partnership for Africa's Development
2024/13	Assessment of the progress made in the implementation of and follow-up to the outcomes of the World Summit on the Information Society
2024/18	Doha Programme of Action for the Least Developed Countries for the decade 2022–2031

Economic Commission for Africa resolutions

748 (XXVIII)	Population, family and sustainable development
819 (XXXI)	Promotion of energy resources development and utilization in Africa
822 (XXXI)	Implementation of the treaty establishing the African Economic Community: strengthening regional economic communities; rationalization and harmonization of the activities of regional and subregional communities
862 (XLII)	Enhancing domestic resource mobilization
874 (XLIII)	Strengthening the subregional offices of the United Nations Economic Commission for Africa
907 (XLVI)	Industrialization for an emerging Africa
909 (XLVI)	Realizing and harnessing the demographic dividend in Africa
914 (XLVII)	African regional integration index
922 (XLVII)	Industrialization for inclusive and transformative development in Africa
928 (XLVIII)	Implementing Agenda 2063: planning, mobilizing and financing for development
931 (XLVIII)	Data revolution and statistical development
934 (XLVIII)	Vienna Programme of Action for Landlocked Developing Countries for the Decade 2014–2024
935 (XLVII)	Least developed countries in Africa
937 (XLIX)	Mainstreaming the 2030 Agenda for Sustainable Development and Agenda 2063 into national strategic frameworks, action plans and programmes
938 (XLIX)	Integrated reporting and follow-up on sustainable development
939 (XLIX)	Africa Regional Forum on Sustainable Development
941 (XLIX)	Organization of an annual African regional review of progress in the implementation of the outcomes of the World Summit on Information Society
960 (LI)	Harnessing the potential of the African Continental Free Trade Area and creating fiscal space for jobs and economic diversification
965 (LII)	Luxembourg Protocol to the Convention on International Interests in Mobile Equipment on Matters Specific to Railway Rolling Stock
966 (LII)	Review of the intergovernmental structure of the Economic Commission for Africa pursuant to its resolution 943 (XLIX) and resolution 957 (LI)
967 (LII)	Progress in the implementation of the Programme of Action for the Least Developed Countries for the Decade 2011–2020 and preparation for the Fifth United Nations Conference on the Least Developed Countries
968 (LII)	Fiscal policy, trade and the private sector in a digital era: a strategy for Africa
969 (LII)	Digitization and the digital economy initiative
972 (LIII)	African Continental Free Trade Area
973 (LIII)	Data and statistics
974 (LIII)	Civil registration and vital statistics
975 (LIII)	Sustainable industrialization and diversification of Africa in the digital era in the context of the coronavirus disease pandemic
977 (LIII)	Economic Commission for Africa support for least developed countries in the context of the Fifth United Nations Conference on the Least Developed Countries
978 (LIII)	Midterm review of the Vienna Programme of Action for the Landlocked Developing Countries for the Decade 2014–2024
979 (LIII)	African Institute for Economic Development and Planning
2023/4	Accelerating sustainable development through regional integration and trade
2023/11	African High-level Working Group on the Global Financial Architecture
2023/13	Strengthening the cooperation between the Economic Commission for Africa and the African Union Commission to address development challenges in Africa
2024/1	Strengthening tax cooperation for enhanced domestic resource mobilization
2024/4	Optimizing African tax regimes concerning information and communications technology for economic growth and job creation

Subprogramme 1
Macroeconomic policy, finance and governance

General Assembly resolutions

48/180	Entrepreneurship and privatization for economic growth and sustainable development	65/123	Cooperation between the United Nations, national parliaments and the Inter Parliamentary Union
51/191	United Nations Declaration against Corruption and Bribery in International Commercial Transactions	65/146	Innovative mechanisms of financing for development
54/197	Towards a stable international financial system, responsive to the challenges of development, especially in the developing countries	65/286	Implementing the smooth transition strategy for countries graduating from the list of least developed countries
58/4	United Nations Convention against Corruption	66/209	Promoting the efficiency, accountability, effectiveness and transparency of public administration by strengthening supreme audit institutions
64/193	Follow-up to and implementation of the Monterrey Consensus and the outcome of the 2008 Review Conference (Doha Declaration on Financing for Development)	66/256	The United Nations in global governance
		79/235	Promotion of inclusive and effective international tax cooperation at the United Nations

Economic and Social Council resolutions

2005/3	Public administration and development

Economic Commission for Africa resolutions

879 (XLIV)	Governing development in Africa: the role of the State in economic transformation	916 (XLVII)	Illicit financial flows

Subprogramme 2
Regional integration and trade

General Assembly resolutions

70/293	Third industrial development decade for Africa (2016–2025)	78/138	Commodities

Economic Commission for Africa resolutions

847 (XL)	Aid for trade	891 (XLV)	Accelerating regional integration and boosting intra-African trade
867 (XLIII)	Assessment of progress on regional integration in Africa		

Subprogramme 3
Technology, innovation, connectivity and infrastructure development

General Assembly resolutions

70/125	Outcome document of the high-level meeting of the General Assembly on the overall review of the implementation of the outcomes of the World Summit on the Information Society	76/294	Political declaration of the high-level meeting on improving global road safety
		78/160	Science, technology and innovation for sustainable development

Economic and Social Council resolutions

2024/14	Science, technology and innovation for development

Economic Commission for Africa resolutions

887 (XLIV)	Enhancing science and technology for development in Africa	2023/1	Enhancing energy security and ensuring a just energy transition in Africa
969 (LII)	Digitization and the digital economy initiative	2023/3	Digital transformation for a secure, inclusive and sustainable common future

Subprogramme 4
Data and statistics

General Assembly resolutions

68/261	Fundamental Principles of Official Statistics	69/282	World Statistics Day

Economic and Social Council resolutions

131 (VI)	Coordination of cartographic services of specialized agencies and international organizations	2016/27	Strengthening institutional arrangements on geospatial information management
476 (XV)	International cooperation on cartography	2022/24	Enhancing global geospatial information management arrangements
2013/21	Fundamental Principles of Official Statistics	2024/2	An inclusive and representative Statistical Commission to leave no one behind
2015/10	2020 World Population and Housing Census Programme		

Economic Commission for Africa resolutions

758 (XXVIII)	The role of cartography, remote sensing and geographic information systems (GIS) in sustainable development	882 (XLIV)	Implementation of the African Charter on Statistics and the Strategy for the Harmonization of Statistics in Africa
849 (XL)	Statistics and statistical capacity-building in Africa	911 (XLVI)	Statistics and statistical development
		2023/2	Data and statistics

Subprogramme 5
Climate change, food security and natural resources

General Assembly resolutions

76/300	The human right to a clean, healthy and sustainable environment	79/206	Protection of global climate for present and future generations of humankind
78/144	Agricultural technology for sustainable development	79/227	Agriculture development, food security and nutrition
79/144	Oceans and the law of the sea		

Economic Commission for Africa resolutions

818 (XXXI)	Promotion of mineral resources development and utilization in Africa	989 (LIV)	Carbon certification
877 (XLIII)	Towards realizing a food-secure Africa	2023/5	Accelerating food systems transformation in Africa
884 (XLIV)	Climate change and sustainable development in Africa	2023/6	Climate finance mobilization to accelerate a green recovery
919 (XLVII)	Green economy and structural transformation in Africa	2023/7	Advancing the sustainable debt coalition initiative in Africa and beyond
975 (LIII)	Sustainable industrialization and diversification of Africa in the digital era in the context of the coronavirus disease pandemic	2023/8	Great Blue Wall Initiative
982 (LIV)	Financing the recovery of Africa and beyond		

Subprogramme 6
Gender equality and women's empowerment

General Assembly resolutions

63/157	Future operation of the International Research and Training Institute for the Advancement of Women	76/142	Follow-up to the Fourth World Conference on Women and full implementation of the Beijing Declaration and Platform for Action and the outcome of the twenty-third special session of the General Assembly
69/147	Intensification of efforts to eliminate all forms of violence against women and girls	78/180	Violence against women migrant workers
69/236	World Survey on the Role of Women in Development	78/181	Improvement of the situation of women and girls in rural areas
70/131	Convention on the Elimination of All Forms of Discrimination against Women	78/188	The girl child
70/176	Taking action against gender-related killing of women and girls	79/153	Intensifying global efforts for the elimination of female genital mutilation
75/157	Women and girls and the response to the coronavirus disease (COVID-19)	79/154	Trafficking in women and girls

Economic and Social Council resolutions

2003/44	Agreed conclusions of the Commission on the Status of Women on women's participation in and access of women to the media, and information and communication technologies and their impact on and use as an instrument for the advancement and empowerment of women	2011/5	The role of the United Nations system in implementing the internationally agreed goals and commitments in regard to gender equality and the empowerment of women
2004/4	Review of Economic and Social Council agreed conclusions 1997/2 on mainstreaming the gender perspective into all policies and programmes in the United Nations system	2024/3	Mainstreaming a gender perspective into all policies and programmes in the United Nations system
		2024/4	Promoting care and support systems for social development
		2024/6	Fostering social development and social justice through social policies to accelerate progress on the implementation of the 2030 Agenda for Sustainable Development and to achieve the overarching goal of poverty eradication

Subprogramme 8
Economic development and planning

Economic and Social Council resolutions

2013/2	Refocusing and recalibrating the Economic Commission for Africa to support Africa's structural transformation	2023/17	Reinforcing the role of the African Institute for Economic Development and Planning in assisting members of the Economic Commission for Africa in strengthening development planning and improving their capacity to formulate and manage effective public sector policies for structural transformation and sustainable development
2018/22	African Institute for Economic Development and Planning		

Economic Commission for Africa resolutions

58 (IV)	Establishment of the African Institute for Economic Development and Planning	2023/10	African Institute for Economic Development and Planning
858 (XLI)	Special Meeting of the Governing Council of the African Institute for Economic Development and Planning		

Subprogramme 9
Poverty, inequality and social policy

General Assembly resolutions

65/312	Outcome document of the High-level Meeting of the General Assembly on Youth: Dialogue and Mutual Understanding	71/256	New Urban Agenda
		78/177	Follow-up to the Second World Assembly on Ageing
66/290	Follow-up to paragraph 143 on human security of the 2005 World Summit Outcome	78/179	Policies and programmes involving youth

Deliverables

18.12 Table 18.1 lists all cross-cutting deliverables of the programme.

7. Overview of economic and social conditions in Africa for the Conference of African Ministers of Finance, Planning and Economic Development and the Committee of Experts of the Economic Commission for Africa	1	1	1	1
8. On the African Union-United Nations Framework for the Implementation of Agenda 2063 and the 2030 Agenda	1	1	1	1
C. Substantive deliverables				
Consultation, advice and advocacy: advocacy and advisory services on the African Union-United Nations Framework for the Implementation of Agenda 2063 and the 2030 Agenda.				
D. Communication deliverables				
Outreach programmes, special events and information materials: information materials on regional integration and emerging socioeconomic issues for awareness-raising with members of ECA.				

Evaluation activities

18.13 The following evaluations completed in 2024 have guided the proposed programme plan for 2026:

(a) Synthesis review of evaluation results for regional economic commissions: contributions to economic development, conducted by the Office of Internal Oversight Services;

(b) Four project evaluations conducted by ECA in the areas of debt, taxation and financing for development; social protection; the demographic dividend and gender equality; and pooled procurement of essential drugs and local pharmaceutical production through the African Continental Free Trade Area.

18.14 In response to the results of the evaluations referenced above, the Commission will strengthen its collaboration with resident coordinators and United Nations country teams, in a more structured manner, to enhance coherence in the support provided to member States. ECA will also strengthen the monitoring and evaluation of its projects and programmes and integrate lessons learned to improve programming. For instance, in response to the recommendations from the project evaluation on pooled procurement of essential drugs and local pharmaceutical production, a more robust knowledge management system will be developed as part of the next phase of the project.

18.15 The following evaluations to be conducted by ECA are planned for 2026:

(a) Seven project evaluations on ECA support in the areas of tourism and transport; land governance; public finance; gender statistics; improving data for national public health initiatives; and international migration;

(b) Evaluation of subprogramme 4, Data and statistics.

Programme of work

Subprogramme 1
Macroeconomic policy, finance and governance

Objective

18.16 The objective, to which this subprogramme contributes, is to achieve structural transformation and inclusive growth in Africa through strengthened and effective development planning, macroeconomic policy analysis, enhanced economic governance and management, and innovative public and private sector financing.

Strategy

18.17 To contribute to the objective, the subprogramme will:

(a) Provide technical assistance, capacity-building and policy advice to members of ECA on:

(i) Tracking progress in the implementation of the 2030 Agenda, Agenda 2063 and the Doha Programme of Action for the Least Developed Countries, and designing, implementing and monitoring their national development plans;

(ii) Designing and implementing policy frameworks that promote transparency and accountability in public financial management, including debt management, and resource mobilization and allocation to build resilience to shocks;

(iii) Identifying priority growth sectors and promoting the development and implementation of initiatives to improve their competitiveness, attract investment and stimulate entrepreneurship;

(iv) Developing and deepening their domestic capital markets and developing innovative and sustainable financing solutions for mobilizing additional resources to meet development financing needs and increase financial resilience;

(b) Convene platforms for policy dialogue on matters related to macroeconomic policy, economic governance, financing and development planning, including the annual session of the Conference of African Ministers of Finance, Planning and Economic Development;

(c) Publish policy-relevant knowledge products underpinned by research and macroeconomic modelling tools and produce, upon request, forecasts with recommendations for responding to the impacts of external shocks.

18.18 The above-mentioned work is expected to result in:

(a) More coordinated and integrated policy design and implementation by members of ECA;

(b) Accelerated and sustainable graduation of African countries from the least developed country category;

(c) Increased mobilization of resources and capital for development and investment in priority areas;

(d) Improved debt management and reduced debt vulnerabilities among members of ECA;

(e) An enabling environment that allows for improved access to markets and a diversified investor base with an increased appetite for domestic currency debt markets.

Programme performance in 2024

A common African position on financing for development

18.19 Africa faces significant gaps in development financing, which hinders progress towards the 2030 Agenda and Agenda 2063. Millions of people still lack access to essential services, such as education, healthcare and infrastructure. Bridging these financing gaps is critical to unlocking the full potential of Africa and to accelerating development and achieving inclusive and sustainable growth for the continent. The International Conference on Financing for Development offers a vital opportunity for African nations to influence financing frameworks to better address their unique challenges. To leverage this platform effectively, it is essential for African countries to establish a common position and agree on priority areas. To this end, the subprogramme, in collaboration with the African Union Commission, the African Tax Administration Forum, the African Development Bank, the United Nations Conference on Trade and Development and the Department of Economic and Social Affairs, conducted regional consultations on financing for development. The consultations facilitated exchange of experience and contributed to the identification of priority actions, including in the areas of domestic resource mobilization, international trade, debt sustainability and addressing systemic challenges to financing for development.

18.20 Progress towards the objective is presented in the performance measure below (see table 18.2).

Table 18.2
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	ECA members reviewed the Addis Ababa Action Agenda, identifying gaps and emerging issues related to financing for development	ECA members agreed on a common position for Africa and drafted an outcome document highlighting key priorities ahead of the Fourth International Conference on Financing for Development

Planned results for 2026

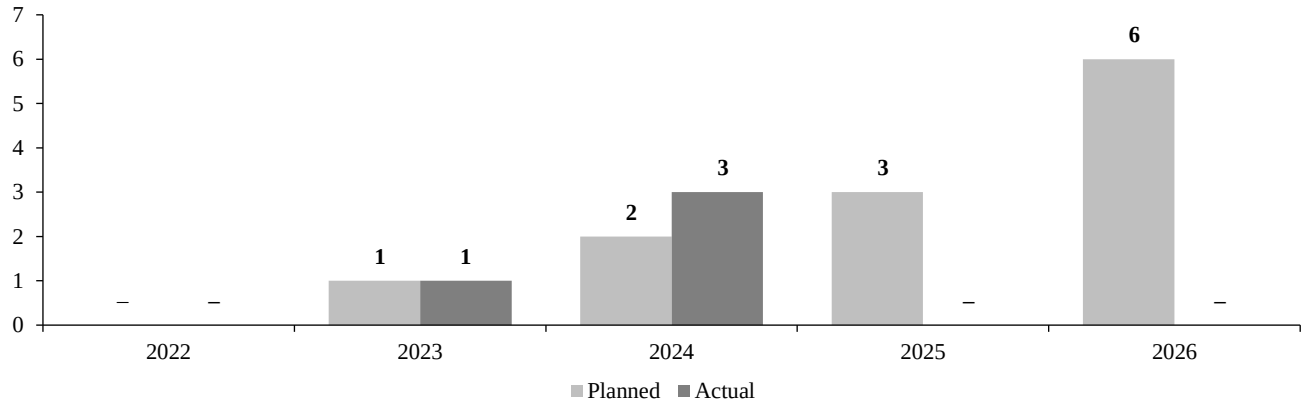
Result 1: enhanced economic governance and improved tax policy and administration for the mobilization of public resources

Programme performance in 2024 and target for 2026

18.21 The subprogramme's work contributed to the implementation of recommendations on improved tax policy and administration by two additional members of ECA (Uganda and Zambia), for a total of three members of ECA, which exceeded the planned target of two members of ECA.

18.22 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 18.I).

Figure 18.I
Performance measure: number of members of ECA implementing recommendations on improved tax policy and administration (cumulative)



Result 2: members of ECA apply innovative approaches to mobilize domestic resources and external private capital

Programme performance in 2024 and target for 2026

18.23 The subprogramme's work contributed to two members of ECA (Botswana and United Republic of Tanzania) reviewing and updating the legal and regulatory frameworks of the money market to increase liquidity in their financial systems, which met the planned target.

18.24 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 18.3).

Table 18.3
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
First issuance of 8- and 10-year bonds in local currency in Angola	Uganda designed a strategic plan and road map for the development of its local currency bond market Development of the first securities	The United Republic of Tanzania adopted an interest rate-based monetary policy framework Botswana implemented the	Two members of ECA design a programme to develop their financial systems with a view to mobilizing additional resources	Two members of ECA initiate implementation of their programmes to increase finance for development

	exchange in Ethiopia Strengthened governance and improved sovereign risk management in Guinea and Mauritania	Bank of Botswana (Amendment) Act, which included measures on the establishment of the Monetary Policy Committee and a deposit insurance scheme		

Result 3: enhanced macroeconomic forecasting and development planning for inclusive and sustainable growth

Proposed programme plan for 2026

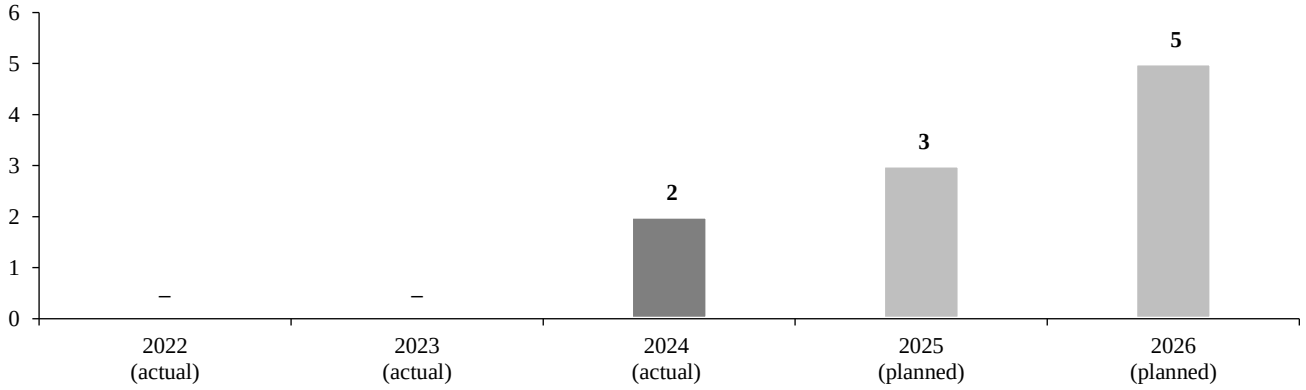
18.25 Utilization of robust macroeconomic models is a critical foundation for macroeconomic management and effective development planning. The subprogramme has supported members of ECA in the development of tailored macroeconomic analysis while also providing technical assistance and policy advice for the development of national development plans. The subprogramme also utilizes a comprehensive macroeconomic analysis tool and an integrated planning and reporting toolkit to build the capacity of member States to generate accurate macroeconomic forecasts and integrate global and regional priorities into national plans.

Lessons learned and planned change

18.26 The lessons for the subprogramme were the importance of effective macroeconomic analysis that uses reliable data to ensure accurate macroeconomic forecasting and reporting in the development and implementation of national development plans and the need to further strengthen the capacities of member States to apply economic policy analysis in the formulation of their national development plans. In applying the lessons, the subprogramme will support member States in engaging in more accurate macroeconomic forecasting, in order to plan and monitor national development plans, and ensure their alignment with international commitments.

18.27 Expected progress towards the objective is presented in the performance measure below (see figure 18.II).

Figure 18.II
Performance measure: number of members of ECA applying macroeconomic analysis tools in the development of national development plans (cumulative)



Deliverables

18.28 Table 18.4 lists all deliverables of the subprogramme.

Table 18.4
Subprogramme 1: deliverables for the period 2024–2026, by category and subcategory

14. Africa Sustainable Development Report	1	1	1	1
15. Economic Report on Africa	1	1	1	1
16. Economic Governance Report	–	–	1	–
Technical materials (number of materials)	**14**	**14**	**14**	**7**
17. On emerging economic issues and challenges to growth and development in Africa	3	2	3	1
18. Policy briefs on emerging issues related to macroeconomic analysis, economic governance and public finance	3	3	3	1
19. Africa economic performance and outlook report	4	3	4	2
20. Sovereign credit rating outlook	–	2	2	2
21. On market access and private sector financing, investment and partnerships	2	2	1	1
22. On purchase-agreement markets among African regulators and market stakeholders	2	2	1	–

Category and subcategory	2024 planned	2024 actual	2025 planned	2026 planned
C. Substantive deliverables				
Consultation, advice and advocacy: advisory services to seven members of ECA and regional bodies on emerging macroeconomic issues, development planning and economic governance issues.				
D. Communication deliverables				
Outreach programmes, special events and information materials: annual African Economic Conference; Pan-African Conference on Illicit Financial Flows and Taxation.				

Subprogramme 2
Regional integration and trade

Objective

18.29 The objective, to which this subprogramme contributes, is to strengthen regional cooperation and integration among members of ECA through increased trade flows, improved industrialization and increased investment.

Strategy

18.30 To contribute to the objective, the subprogramme will:

(a) Provide advisory services and technical assistance to members of ECA on market access and business opportunities arising from the African Continental Free Trade Area to minimize potential adverse effects (such as import surges, dumping and customs revenue loss risks) in the context of the implementation of their national strategies, and multilateral and bilateral trade issues;

(b) Develop and disseminate knowledge products and provide technical assistance to identify opportunities for diversification, value addition and the development of manufacturing and industrial clusters for members of ECA in support of the Action Plan for the Accelerated Industrial Development of Africa, contributing to the achievement of Sustainable Development Goals 9 and 17;

(c) Provide training, with a particular focus on least developed countries, landlocked developing countries and regional economic communities, on the implementation of existing regional cooperation frameworks;

(d) Provide advisory services and technical assistance to members of ECA and regional economic communities on regional integration, national, regional and continental competition policies, intellectual property policies and measures for investment facilitation.

18.31 The above-mentioned work is expected to result in:

(a) Improved implementation by countries of their respective strategies for the operationalization of the African Continental Free Trade Area;

(b) More coherent, coordinated and responsive interfaces between the African Continental Free Trade Area and the free trade areas and customs unions of the regional economic communities;

(c) More coherent trade and industrialization policies aligned with the 2030 Agenda and Agenda 2063;

(d) Accelerated industrialization and increased diversification of productive capacities and production patterns;

(e) Reduced transaction risks and intermediation costs for members of ECA;

(f) An improved business environment characterized by enhanced opportunities for private sector operators to leverage transboundary opportunities and improved market access conditions for African trade of goods and services, as well as the free movement of capital and people.

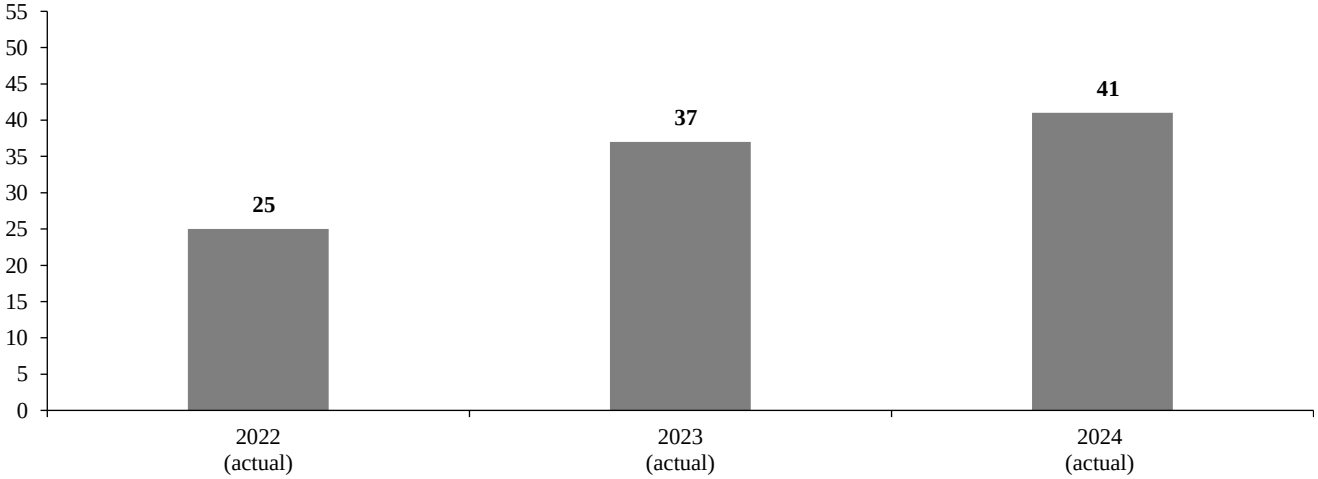
Programme performance in 2024

Members of ECA improved readiness for continental trade integration

18.32 National strategies for the implementation of the African Continental Free Trade Area help to identify priority products or services in each African country with high export potential to other African markets and to define concrete steps to achieve such exports. These strategies also outline risks and opportunities for integration into regional and global value chains, as well as vulnerable sectors and products that may require special consideration and support measures. The subprogramme has provided extensive support to members of ECA in formulating national strategies for implementation of the African Continental Free Trade Area, including through facilitation of multi-stakeholder consultations, policy advice on alignment with national development plans and technical assistance to conduct rigorous assessment of trade competitiveness and regulatory constraints. In 2024, building on work undertaken in previous years, the subprogramme supported Equatorial Guinea, Eswatini, Liberia and Morocco in the finalization and validation of their national implementation strategies; it also supported the Arab Maghreb Union in the development of a subregional strategy on trade integration. The strategy of Equatorial Guinea was designed to leverage the country's energy resources to expand intra-African trade and attract investment in downstream industries. The strategy of Eswatini targeted export diversification through enhanced trade facilitation and digital trade systems, whereas the strategy of Liberia emphasized trade infrastructure upgrades and the competitiveness of small and medium-sized enterprises. The strategy of Morocco prioritized strengthening industrial and agroprocessing value chains to capitalize on the country's export potential, while the plan of the Arab Maghreb Union was focused on the reduction of non-tariff barriers and the harmonization of customs procedures among its member States. These strategies mark a critical step towards realizing the objectives of the African Continental Free Trade Area, supporting industrialization, job creation and sustainable development across the continent.

18.33 Progress towards the objective is presented in the performance measure below (see figure 18.III).

Figure 18.III
Performance measure: number of countries that finalized and validated national strategies for the implementation of the African Continental Free Trade Area (cumulative)



Planned results for 2026

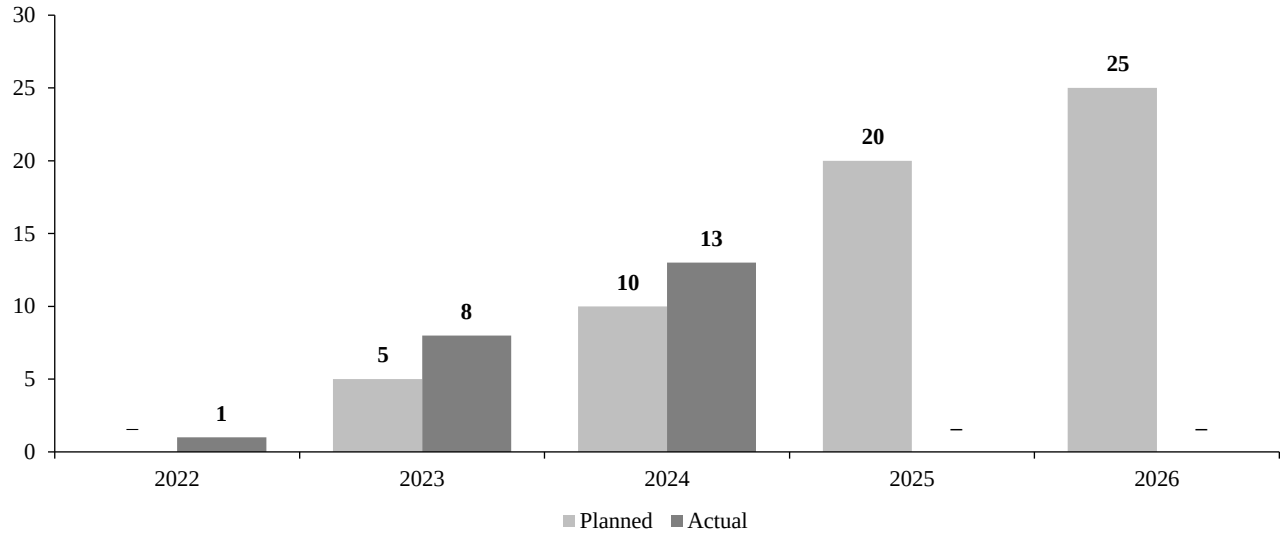
Result 1: members of ECA implement priority areas of their strategies for the implementation of the Agreement Establishing the African Continental Free Trade Area related to industrialization

Programme performance in 2024 and target for 2026

18.34 The subprogramme's work contributed to the implementation by five additional members of ECA of the priority areas of their national strategies for the implementation of the Agreement Establishing the African Continental Free Trade Area, for a total of 13, which exceeded the planned target of 10 members of ECA.

18.35 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 18.IV).

Figure 18.IV
Performance measure: number of members of ECA implementing the priority areas of their national strategies for the implementation of the Agreement Establishing the African Continental Free Trade Area related to industrialization (cumulative)



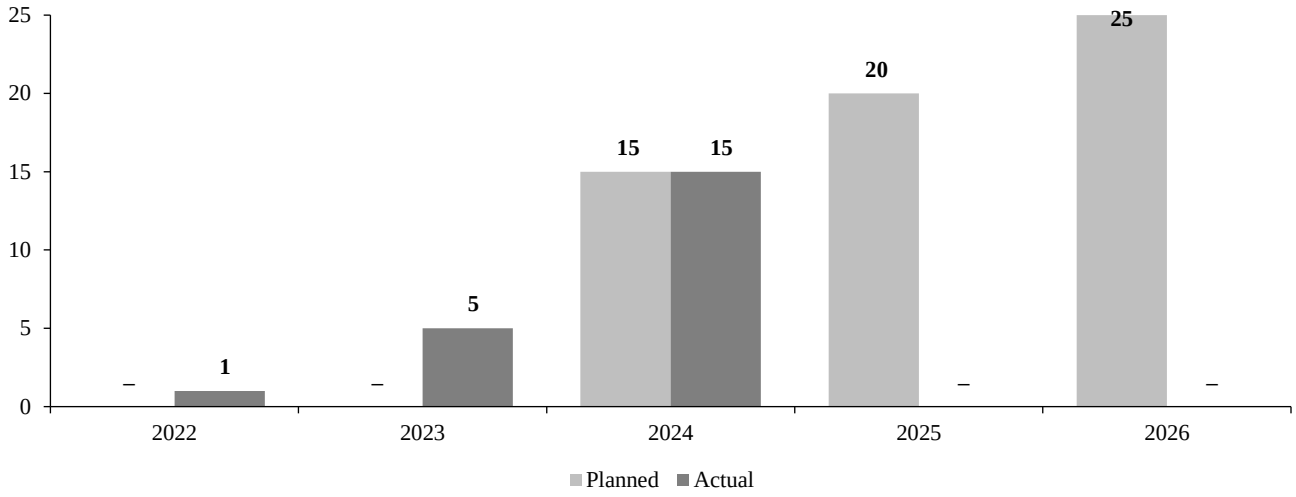
Result 2: sustainable trade strategies to mitigate the impact of climate change

Programme performance in 2024 and target for 2026

18.36 The subprogramme's work contributed to the adoption by an additional 10 countries of sustainable trade strategies that include considerations related to climate change, for a total of 15 countries, which met the planned target.

18.37 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 18.V).

Figure 18.V
Performance measure: number of members of ECA adopting sustainable trade strategies that include considerations related to climate change (cumulative)



Result 3: members of ECA adopt measures to de-risk investments in regional value chains and special economic zones

Proposed programme plan for 2026

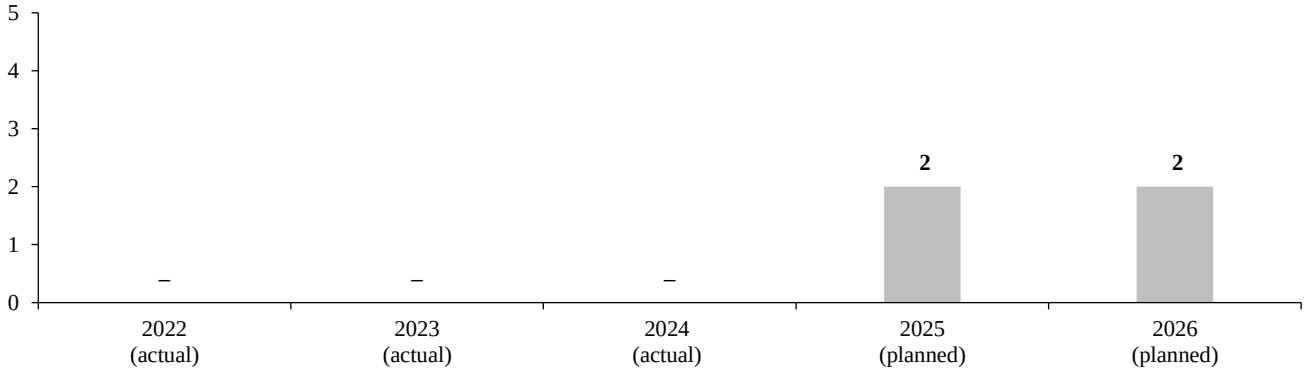
18.38 The number of special economic zones on the African continent has expanded considerably in the past three decades, to approximately 240. These zones contributed to increased foreign direct investment inflows during their initial operation, but sustaining that level of inflows has proved challenging, owing to, in part, a focus on extractive industries, limited diversification and restriction of investment within national boundaries. In response, new special economic zones have been identified, with the aim of fostering horizontal and vertical linkages in supply chains, capitalizing on cross-border complementarities, and promoting local and regional sourcing, and which are aligned closely with national and regional development goals.

Lessons learned and planned change

18.39 The lessons for the subprogramme were the need to foster greater regional collaboration in the development and operation of special economic zones and the establishment of regional value chains and the need to provide greater support to member States in de-risking investments, including through diversification. In applying the lessons, the subprogramme will facilitate increased communication and cooperation among member States to promote the development of cross-border special economic zones; it will also develop knowledge products and provide capacity-building support on diversification with a view to expanding such zones beyond the extractive industries. Furthermore, the subprogramme will facilitate policy dialogues involving member States and investors on the de-risking of investments and on solutions to address potential investor concerns.

18.40 Expected progress towards the objective is presented in the performance measure below (see figure 18.VI).

Figure 18.VI
Performance measure: number of ECA member States adopting measures to de-risk investments in regional value chains and special economic zones (annual)



Deliverables

18.41 Table 18.5 lists all deliverables of the subprogramme.

Table 18.5
Subprogramme 2: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**3**	–	**2**	**2**
1. Report for the Committee on Private Sector Development, Regional Integration, Trade, Infrastructure, Industry and Technology	1	–	1	1
2. Report on the status of implementation of the Vienna Programme of Action for Landlocked Developing Countries for the Decade 2014–2024 for the Conference of African Ministers of Finance, Planning and Economic Development and updates on the status of international and intra-African trade for the Committee on Private Sector Development, Regional Integration, Trade, Infrastructure, Industry and Technology	2	–	1	1
Substantive services for meetings (number of three-hour meetings)	**3**	–	**3**	–
3. Meetings of the Committee on Private Sector Development, Regional Integration, Trade, Infrastructure, Industry and Technology	3	–	3	–
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**7**	**5**	**4**	**6**
4. On boosting intra-African trade by enhancing the capacity of members of ECA and regional economic communities to increase the African share of international trade	1	1	1	1
5. On inclusive and equitable African trade arrangements	1	–	–	–
6. On deepening African trade integration through effective implementation of the Agreement Establishing the African Continental Free Trade Area	1	–	–	–
7. Fellowship programme for enhancing the capacity of young African scholars in the areas of industrialization, investment, regional integration, trade and markets	1	1	1	1
8. On the trade model	1	1	1	1
9. On operationalization of the Agreement Establishing the African Continental Free Trade Area: strategic interventions in investment, services competition policy, digitalization, regional trade and integration	1	1	1	3

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
10. On the opportunities created by the African Continental Free Trade Area for the pooled procurement of essential drugs and products and local pharmaceutical production for the continent	1	1	–	–
Seminars, workshops and training events (number of days)	**10**	**10**	**10**	**10**
11. Training events on trade economics, regional integration and capacity-building for trade policy and structural transformation, aid for trade, basic and intermediate trade modelling and advanced trade modelling	10	10	10	10
Publications (number of publications)	**3**	**2**	**2**	**2**
12. Topical issue report on the second phase of the African Continental Free Trade Area negotiations	1	–	1	1
13. On assessing regional integration in Africa	1	1	–	–
14. On revisiting policy, legislation and institutions for industrial development in Africa	1	1	1	1
Technical materials (number of materials)	**11**	**8**	**11**	**10**
15. On investments	3	3	3	3
16. On topical international and intraregional trade issues	5	5	5	5
17. On the African Union integration agenda	1	–	1	1
18. On industrialization in Africa	2	–	2	1

C. Substantive deliverables

Consultation, advice and advocacy: advisory services to members of ECA and regional or subregional cooperation groups in the context of the New Partnership for Africa's Development and the Framework for a Renewed United Nations-African Union Partnership on Africa's Integration and Development Agenda 2017–2027; analytical advice for the implementation of the Vienna Programme of Action.

Databases and substantive digital materials: Africa Regional Integration Index; regional digital trade integration database; digital services trade restrictiveness database.

D. Communication deliverables

Outreach programmes, special events and information materials: information materials on regional integration and trade; information kits; high-level policy dialogue on trade.

Digital platforms and multimedia content: content for the subprogramme's social media accounts on regional integration and trade.

Subprogramme 3
Technology, innovation, connectivity and infrastructure development

Objective

18.42 The objective, to which this subprogramme contributes, is to advance inclusive growth, sustainable development and economic transformation in Africa through science, technology and innovation, improved connectivity, logistics and infrastructure development.

Strategy

18.43 To contribute to the objective, the subprogramme will:

(a) Conduct policy research and analysis on:

(i) Digital trends on the continent, including those related to the economic impact of new and emerging technologies and technology-driven solutions for sustainable development;

(ii) The state of energy, transport and information and communications technology infrastructure at the national and regional levels and the impact of logistics and connectivity on economic development;

(b) Provide technical assistance and advisory services to members of ECA, the African Union and its bodies, and subregional organizations on:

(i) The design and implementation of regulatory frameworks that promote digital public infrastructure, digital systems and policies related to technology and innovation, including principles for good digital identification, data governance, information and communications technology security, financial technology and responsible use of artificial intelligence;

(ii) The design and implementation of policies and strategies to bridge technological and innovation gaps and promote digital inclusivity and digital connectivity across the continent;

(iii) The development of an academic and entrepreneurial ecosystem for science, technology and innovation through partnerships and capacity-building initiatives with a view to developing a critical mass of researchers, experts and innovators for evidence-based decision-making and innovation-driven growth in member States;

(iv) The implementation of the Programme for Infrastructure Development in Africa and the design of regulatory frameworks to enhance private sector investment in infrastructure while managing risk;

(v) The development of transport infrastructure and services, including transport facilitation, norms and standards, regulations, road safety and asset management, with a particular focus on the liberalization of intra-African air transport in the context of the Single African Air Transport Market and the digitalization of transport infrastructure;

(vi) The development of infrastructure to improve energy access, advance market development and foster the transition to renewable sources of energy.

18.44 The above-mentioned work is expected to result in:

(a) Improved digital ecosystems across the continent, enabling the implementation of better policy and regulatory frameworks that enhance the use of digital public infrastructure, innovation and digital systems;

(b) Strengthened and enhanced digital inclusivity and connectivity in members of ECA and across the continent, through effective policies and strategies, reducing technological disparities and ensuring broader access to digital resources and innovations;

(c) A strengthened science, technology and innovation ecosystem with a greater number of capacity-building initiatives, leading to a critical mass of researchers, experts and innovators driving evidence-based decision-making and innovation-driven growth;

(d) Increased efficiency and safety of the African transport sector;

(e) Increased energy access and innovative financing for energy infrastructure;

(f) Increased private sector investment in new and emerging technologies and public infrastructure.

18.45 In doing so, the subprogramme will support members of ECA in making progress towards Sustainable Development Goals 1, 2, 3, 4, 5, 7, 8, 9, 10, 11, 13 and 17.

Programme performance in 2024

Member States committed to actions to achieve a people-centred, inclusive and development-oriented information society

18.46 The goal of the World Summit on the Information Society is the establishment of a people-centred, inclusive and development-oriented information society. With 2025 marking 20 years since its inception, and in accordance with General Assembly resolution 70/125, the subprogramme provided support to members of ECA in the regional review of the overall implementation of the outcomes of the Summit. In 2024, the subprogramme, in collaboration with the Government of the United Republic of Tanzania, convened a review workshop in Dar es Salaam, United Republic of Tanzania, to evaluate the progress made in Africa over nearly two decades. Some 150 stakeholders representing 37 member States participated. Member States assessed achievements and identified gaps, with a focus on national-level implementation of the Summit's action lines. They also established new priorities for the digital future of Africa. A significant outcome of the workshop was the adoption of a declaration on the regional review process. In that declaration, member States highlighted, among other points, the need to prioritize capacity-building, education and digital skills development to unlock the potential of artificial intelligence and digital public infrastructure; digitalize government services; promote entrepreneurship, in particular for women, young people and persons with disabilities; and harmonize legal and policy frameworks to support cross-border data-sharing and e-commerce. In addition, member States were called upon to adopt, with the support of ECA, the African Union and regional economic communities, multi-stakeholder processes to fast-track the implementation of nine key initiatives identified in the declaration.

18.47 Progress towards the objective is presented in the performance measure below (see table 18.6).

Table 18.6
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	37 member States adopted a declaration on the regional review of the implementation of the outcomes of the World Summit on the Information Society, outlining key commitments and priorities for the digital future of Africa

Planned result for 2026

Result 1: increased use of new technologies by members of ECA, reinforced by robust regulatory frameworks

Programme performance in 2024 and target for 2026

18.48 The subprogramme's work contributed to the African Union Commission endorsing the Continental Artificial Intelligence Strategy and the African Digital Compact, which met the planned target.

18.49 The performance measure below presents progress towards the objective and the target for 2026 (see table 18.7).

Table 18.7
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
African Research Centre for Artificial Intelligence established by the Congo	–	Continental Artificial Intelligence Strategy and African Digital Compact endorsed by the African Union Commission	Two regional transport corridor authorities use data generated through artificial intelligence to manage their infrastructure assets	Two countries apply artificial intelligence to road safety One member State develops a national artificial intelligence strategy

Result 2: members of ECA leverage technology and innovation to manage their transport and energy infrastructure

Proposed programme plan for 2026

18.50 Harnessing the natural resources of Africa through technology can provide a pathway for the transition to renewable sources of energy. The use of innovative technology solutions for energy storage and management can help to address intermittency issues associated with solar and wind power, ensuring a consistent and reliable energy supply. Similarly, innovative technology solutions in the transport sector can help to address such challenges as limited access to affordable and reliable transport, traffic congestion and pollution, paving the way towards more sustainable transportation systems. The subprogramme has supported member States in this regard, including through the development of a methodology for using satellite imagery and artificial intelligence to monitor transport corridors, as well as through the development of software for assessing regulatory openness, attractiveness and readiness for private investment in the electricity value chain.

Lessons learned and planned change

18.51 The lesson for the subprogramme was the need to provide targeted technical assistance to facilitate the adoption of technology solutions to upgrade energy and transport infrastructure. In applying the lesson, the subprogramme will provide technical assistance with regard to applying technology platforms to improve the management of transport and energy assets of member States and their institutions. The subprogramme will also provide capacity-building support to enable regional and national institutions to leverage innovation in policies, actions and measures aimed at improving access to energy and strengthening transport systems.

18.52 Expected progress towards the objective is presented in the performance measure below (see table 18.8).

Table 18.8
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Egypt, Kenya and Madagascar utilized web-based platforms to monitor transport corridors Madagascar used GIS and satellite imagery to assess its energy resources	Two countries apply digital technologies in managing their transport and energy infrastructure assets	Two additional countries apply digital technologies in managing their transport and energy infrastructure assets

Deliverables

18.53 Table 18.9 lists all deliverables of the subprogramme.

Table 18.9
Subprogramme 3: deliverables for the period 2024–2026 by category and subcategory

36. Policy brief on low-emission hydrogen technology and application in Africa	–	–	2	1
37. Performance assessment of the Single African Air Transport Market	–	–	1	1
38. Regulatory readiness assessment for the electric vehicle market	–	–	3	1

C. Substantive deliverables

Consultation, advice and advocacy: advisory services to members of ECA and regional bodies on issues related to technology, innovation, connectivity and infrastructure development, including road safety, corridor management and use of digital tools, and digital identification.

D. Communication deliverables

Outreach programmes, special events and information materials: booklet on digital transformation and emerging technologies; booklet on energy infrastructure finance and development; brochures, newsletters, flyers, briefs and information kits on technology-related issues for members of ECA and implementing partners.

External and media relations: press releases, podcasts and videos on relevant issues.

Digital platforms and multimedia content: websites, social media and platforms on technology and infrastructure.

Subprogramme 4
Data and statistics

Objective

18.54 The objective, to which this subprogramme contributes, is to strengthen the production, dissemination and use of credible data, statistics and geospatial information at the national, regional and global levels for evidence-based policy and decision-making.

Strategy

18.55 To contribute to the objective, the subprogramme will:

(a) Support African national statistical systems in transforming their data governance and management methods by digitalizing the data collection, compilation and dissemination process for statistical areas, including censuses and civil registration systems, and provide

technical assistance and training in the design and implementation of national strategies for the development of statistics and national spatial data infrastructure with related integrated geospatial information frameworks;

(b) Maintain and regularly update databases that are accessible for public use, with available harmonized data, statistics and geospatial information disaggregated by location on such topics as African economies, demographics, social indicators, the environment and other statistics needed for monitoring and reporting on the implementation of the 2030 Agenda and Agenda 2063;

(c) Provide training and make platforms available for the exchange of best practices among members of ECA and their respective statistical agencies;

(d) Integrate policy advice and sustained capacity-building activities on data, statistics and geospatial information to support members of ECA in enhancing monitoring and reporting on the implementation of the 2030 Agenda and Agenda 2063;

(e) Enhance communication and advocacy to members of ECA on the use of statistics and geospatial information.

18.56 The above-mentioned work is expected to result in:

(a) Improved capacity, resilience and efficiency of national statistical systems, including the uptake of innovative tools and technologies to collect comparable statistics at various levels of disaggregation, and improved statistical operations, including the conduct of censuses and surveys and administrative data processing and analysis, and dissemination of timely data;

(b) Improved uptake of geospatial information management, closer collaboration between components and stakeholders of the national spatial data infrastructures, and better integrated geospatial information frameworks;

(c) Enhanced monitoring and reporting on the implementation of the 2030 Agenda and Agenda 2063.

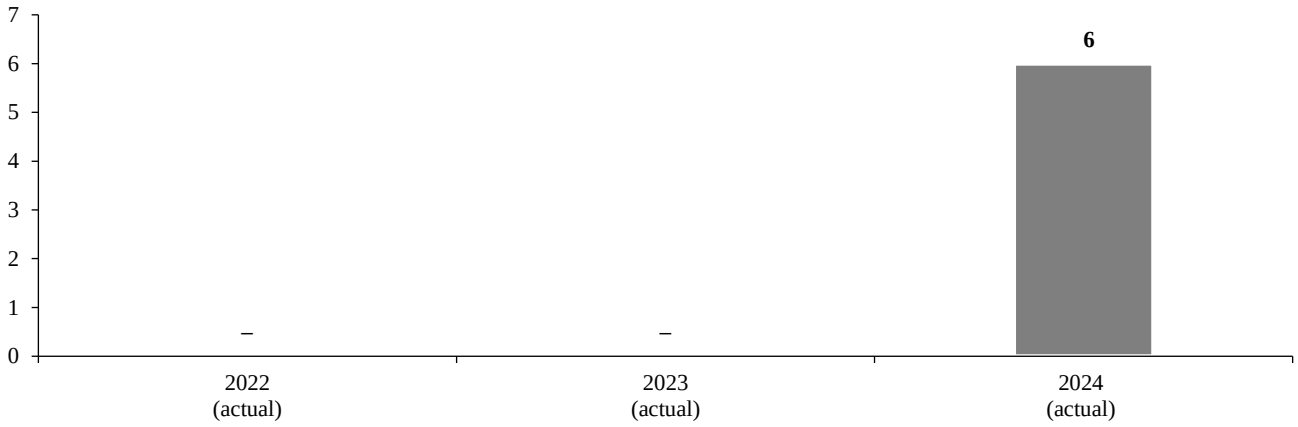
Programme performance in 2024

Strengthened monitoring of the Sustainable Development Goals and improved dissemination of data

18.57 Monitoring and reporting on the Sustainable Development Goals are crucial for identifying progress and challenges and provide the insights needed to inform evidence-based decision-making on policies and the allocation of resources. Moreover, researchers, academia, civil society and development partners also rely on good-quality and relevant data on the Goals. The subprogramme has assisted requesting member States in developing national reporting platforms for the Goals using Open SDG, an open source platform that enables the creation of an online website for disseminating data on the Goals. The website can be multilingual and is designed with users and accessibility in mind. Disaggregated data and metadata can be reported in a variety of formats, and can be downloaded as tables, charts and maps. Other frameworks, such as national development plans, can also be reported on, using the same functionalities. Such platforms also enable the harmonization and standardization of monitoring and reporting on progress made, enabling more accurate and comparable assessments of regional and global progress. In 2024, the subprogramme organized policy dialogues on monitoring and reporting on the Goals, including statistical concepts and data sources, and provided technical assistance and capacity-building to 10 member States in establishing Open SDG as a national reporting platform. As a result of this support, six member States established Open SDG platforms and have standardized monitoring and reporting on the Goals.

18.58 Progress towards the objective is presented in the performance measure below (see figure 18.VII).

Figure 18.VII
Performance measure: number of members of ECA that have established a standardized national reporting platform on the Sustainable Development Goals (annual)



Planned results for 2026

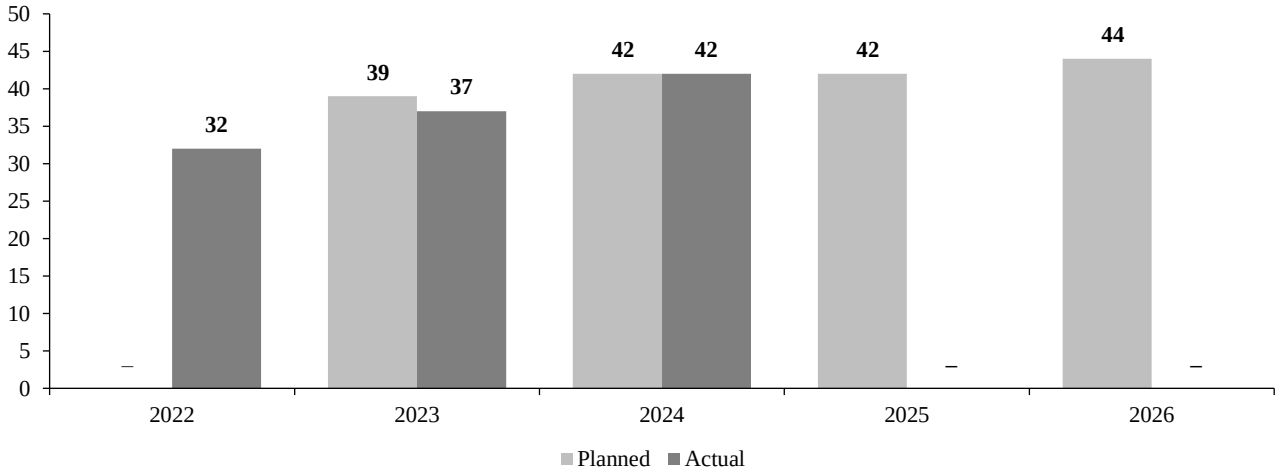
Result 1: members of ECA produce and disseminate comparable economic statistics

Programme performance in 2024 and target for 2026

18.59 The subprogramme's work contributed to the adoption and application by five additional members of ECA of the recommended international standards and methodology in economic statistics, for a cumulative total of 42 members of ECA, which met the planned target.

18.60 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 18.VIII).

Figure 18.VIII
Performance measure: number of members of ECA having adopted and applied the recommended international standards and methodology (2008 System of National Accounts and extensions) in economic statistics (cumulative)



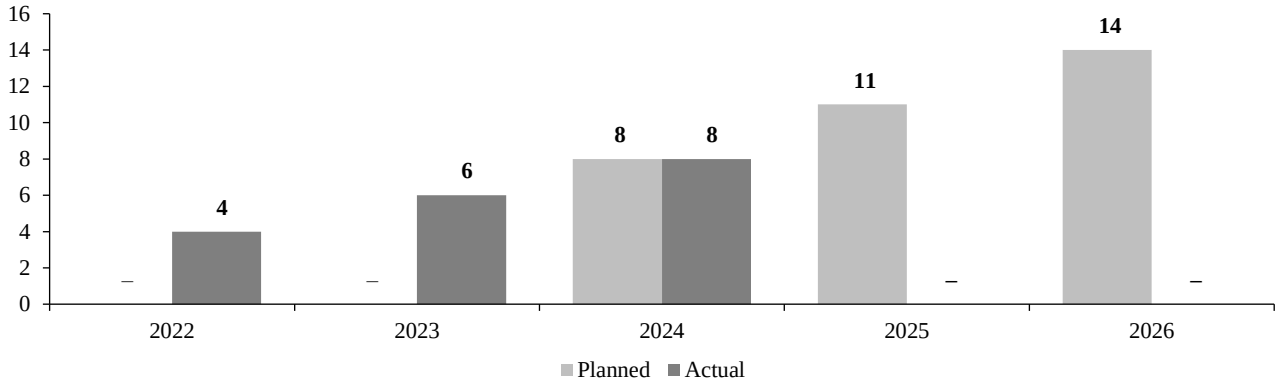
Result 2: progress towards integrated statistical and geospatial information frameworks

Programme performance in 2024 and target for 2026

18.61 The subprogramme's work contributed to two additional members of ECA applying the strategic pathways of the United Nations Integrated Geospatial Information Framework to improve their national statistical frameworks and address challenges in the collection, processing, analysis and dissemination of data, which met the planned target.

18.62 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 18.IX).

Figure 18.IX
Performance measure: number of members of ECA applying at least one of the strategic pathways of the United Nations Integrated Geospatial Information Framework (cumulative)



Result 3: improved civil registration and vital statistics systems

Proposed programme plan for 2026

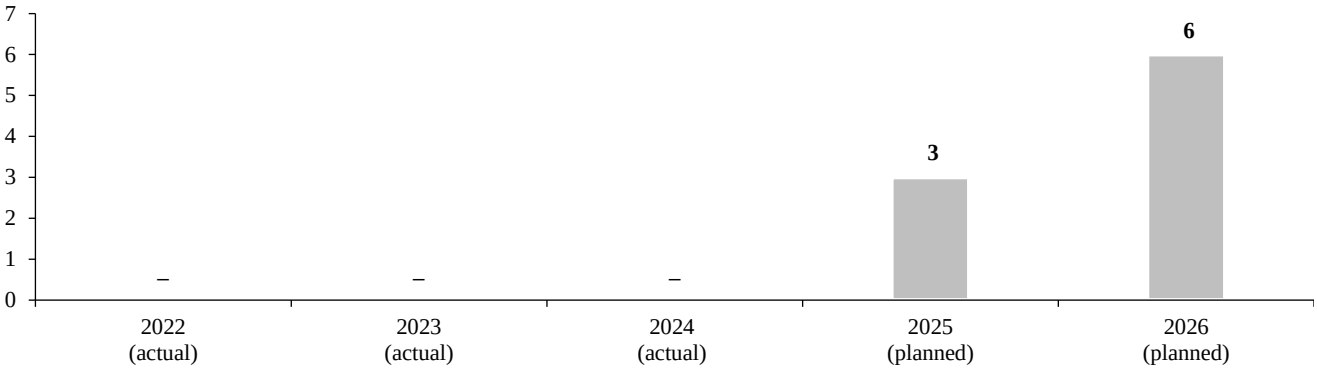
18.63 Civil registration and vital statistics systems are crucial for both individuals and Governments, providing legal identity, access to services and valuable data to inform policymaking and national development planning. Civil registration and vital statistics systems across Africa exhibit fragmentation and are constructed according to diverse standards and specifications. This variability complicates the provision of standardized technical assistance for common challenges.

Lessons learned and planned change

18.64 The lesson for the subprogramme was the need to provide tailored support for the harmonization of civil registration and vital statistics systems, and for their digitalization, considering that harmonization and digitalization will increase operational functionality, create efficiencies and improve service delivery by increasing access to digital registration services for populations in remote areas. The experiences of countries such as Rwanda and South Africa, which have developed innovative information technology systems, demonstrate that it is possible to significantly enhance the coverage of civil registration and vital statistics systems through the application of technological innovations and tools. In applying the lesson, the subprogramme will provide technical support for the digitalization of civil registration and vital statistics systems, in accordance with the recommendations from the Conference of African Ministers responsible for Civil Registration. In addition, the subprogramme will focus on developing the technical capacity of national officials to manage and sustain the use of these systems. The subprogramme will also develop a standardized digital asset that can be referenced and adopted across countries, to better align civil registration and vital statistics systems across the continent.

18.65 Expected progress towards the objective is presented in the performance measure below (see figure 18.X).

Figure 18.X
Performance measure: number of members of ECA adopting innovative technology applications in civil registration and vital statistics systems (cumulative)



Deliverables

18.66 Table 18.10 lists all deliverables of the subprogramme.

Table 18.10
Subprogramme 4: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**7**	**7**	**2**	**7**
Reports on:				
1. Statistical capacity development, to the Statistical Commission for Africa	1	1	–	1
2. Progress in population and housing censuses, to the Statistical Commission for Africa	1	1	–	1
3. State of a gender perspective and social development statistics, to the Statistical Commission for Africa	1	1	–	1
4. Integration of geospatial and statistical data, to the Statistical Commission for Africa	1	1	–	1
5. Implementation of the 2008 System of National Accounts, to the Statistical Commission for Africa	1	1	–	1
6. Implementation of civil registration and vital statistics, to the Conference of African Ministers Responsible for Civil Registration	1	1	1	1
7. Geospatial information management, to the Regional Committee of United Nations Global Geospatial Information Management for Africa at its tenth, eleventh and twelfth meetings	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	**14**	**10**	**13**	**15**
8. Statistical Commission for Africa	1	1	–	1
9. Conference of African Ministers Responsible for Civil Registration	4	–	4	1
10. Regional Committee of United Nations Global Geospatial Information Management for Africa	8	8	8	12
11. Advisory Expert Group on National Accounts	1	1	1	1
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**16**	**12**	**16**	**19**
12. On sectoral statistics, including agricultural, health, energy and employment statistics	2	2	1	2
13. On the data warehouse	1	1	1	1
14. On the environmental-economic accounting initiative	1	1	1	–

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
15. On the development of supply-use tables, intraregional input-output tables and trade-in-value-added model	1	1	1	1
16. On technical assistance on gross domestic product updating and rebasing in members of ECA	1	1	1	1
17. On leading African countries to participate in the global updating and related testing of the 2008 System of National Accounts programme	1	1	1	1
18. On consumer price index data collection, compilation and application	1	1	1	1
19. African programme on a gender perspective and statistics	1	–	1	1
20. African programme on population and housing censuses	–	–	1	1
21. On the establishment of a digital identity platform for Africa	1	–	–	–
22. On mainstreaming and implementing the United Nations Integrated Geospatial Information Framework and harmonizing with the African Geodetic Reference Frame	3	3	2	3
23. On the Global Strategy to Improve Agricultural and Rural Statistics (second phase)	–	–	1	–
24. Africa Programme on Accelerated Improvement of Civil Registration and Vital Statistics Systems	–	–	1	1
25. On the development of a data science campus	1	–	1	1
26. On support for African countries in the implementation of the 2030 Agenda and Agenda 2063	1	–	1	1
27. Fellowship programme for young African scholars to build their capacity in data and statistics	1	1	1	1
28. On the performance data management dashboard	–	–	–	1
29. On census and survey data tools and dissemination	–	–	–	2
Seminars, workshops and training events (number of days)	**98**	**62**	**92**	**48**
30. Workshop on a statistical data exchange system for national statistical offices	5	1	5	2
31. Training events on statistical leadership for heads and senior experts of national statistical offices and line ministries responsible for the production of statistics	5	5	5	2
32. Workshop on modernizing statistical systems in Africa for the leaders and managers of national statistical offices	5	–	5	2
33. Workshop on population and housing censuses and progress on related population and housing censuses for experts and managers of national statistical offices and planning commissions	2	2	2	2
34. Regional workshops on gender statistics for experts in national statistical offices and line ministries	2	2	2	2
35. Workshops on civil registration and vital statistics for experts of national ministries responsible for the production of civil registration and vital statistics data	4	4	4	2
36. Workshop on measuring and monitoring Sustainable Development Goal indicators related to demographic and social statistics for experts in national statistical offices	–	–	3	–
37. Training events on national accounts, environmental and economic statistics and accounting for national statistical offices and ministries of finance	15	11	15	3
38. Regional seminars on the consumer price index, agricultural statistics and energy statistics	20	6	20	2
39. Training workshop on geospatial knowledge infrastructure and fundamental geospatial datasets for monitoring the Sustainable Development Goals	10	10	5	10
40. Workshop on the strategy for the integration of statistical and geospatial information for national mapping agencies and statistical offices	5	5	5	5
41. Training events on the development of national action plans on the United Nations Integrated Geospatial Information Framework for national mapping agencies	5	5	5	5
42. Training events on geospatial knowledge infrastructure with innovative geospatial responses and solutions for a post-pandemic recovery	5	–	–	5
43. Training events on big data and data science for the modernization of the production of economic statistics	5	5	5	2
44. Advisory Expert Group on National Accounts meeting	–	–	1	1
45. Technical workshop on environmental statistics	5	1	5	–

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
46. Technical workshop on environmental-economic accounting	5	5	5	3
Publications (number of publications)	**3**	**2**	**3**	**2**
47. Africa Sustainable Development Report	1	1	1	1
48. African Development Bank Statistics Pocketbook	1	1	1	–
49. Africa Statistics Flash	1	–	1	1
Technical materials (number of materials)	**4**	**3**	**3**	**10**
50. African regional geospatial databases, online services and geoportals	1	1	1	1
51. African atlas of spatial statistics	1	1	–	1
52. African Statistical Yearbook	1	1	1	1
53. Compendium of Intra-African and Related Foreign Trade Statistics	1	–	1	1
54. Census and survey results issues tracker, monitoring dashboard, communication, dissemination, and knowledge management toolkit	–	–	–	4
55. Automated country data harvester	–	–	–	1
56. Performance data management dashboard	–	–	–	1

C. Substantive deliverables

Consultation, advice and advocacy: technical advice on civil registration and vital statistics, on the 2025 planned population and housing censuses for members of ECA, on Sustainable Development Goal indicators and on developing integrated geospatial information frameworks at the national and regional levels.

Technical advice to members of ECA on matters related to digitalization, statistical management, economic statistics, survey and census and data science.

Technical advice to three members of ECA on geospatial-related matters.

Databases and substantive digital materials: ECA statistical data portal (ECAStats), providing data for members of ECA; geospatial databases (2), online applications, services and platforms (2); Africa GeoPortal.

D. Communication deliverables

Outreach programmes, special events and information materials: African Statistics Day; annual Africa Symposium on Statistical Development; dissemination of information through outreach programmes and mobile applications.

Subprogramme 5
Climate change, food security and natural resources

Objective

18.67 The objective, to which this subprogramme contributes, is to enhance climate resilience, achieve food security, and advance inclusive and sustainable development by harnessing land, natural resources, and the green and blue economies.

Strategy

18.68 To contribute to the objective, the subprogramme will:

(a) Conduct policy research and analysis, and provide technical assistance and advisory services to members of ECA on:

(i) Extractives-led production linkages and the design and implementation of mineral policies, strategies and plans that consider economic, environmental and social aspects and matters related to gender equality, in line with the principles of the Africa Mining Vision;

(ii) The circular economy,[1] the development of the green economy in the context of sustainable development and poverty eradication, including the conduct of voluntary national and local reviews, and the blue economy, in line with the Africa Blue Economy Strategy of the African Union;

(iii) Climate resilience and disaster vulnerability of African economies, societies, ecosystems and agrifood systems and the integrated implementation of climate action;

(iv) Modelling of the economic impacts of climate change and private sector investments for the implementation of nationally determined contributions;

(v) Land governance, including policy and regulatory reforms for land tenure security, in particular for women and young people, and the use of the Framework and Guidelines on Land Policy in Africa and geographic information system-based tools to support decision-making regarding responsible land-based investments by the private sector;

(vi) Agriculture and food systems transformation, through financing, insurance and de-risking investment, youth and women entrepreneurship in agriculture, regional value chains, common agro-parks and agro-industrialization;

(b) Provide technical advice to the African Union Commission, regional economic communities and intergovernmental organizations on sustainable development planning and policy formulation in the context of the second 10-year implementation plan of Agenda 2063;

(c) Convene peer-learning policy dialogues and regional consensus-building platforms and support African universities and research institutions in knowledge generation in the above-mentioned areas.

18.69 The above-mentioned work is expected to result in:

(a) Sustainable and diversified economies in African countries rich in natural resources;

(b) Development of policies, strategies and plans in agriculture and natural resource sectors to enable the transition to environmentally sustainable and climate-resilient economies;

(c) Improved competitiveness, productivity, value addition and trade in agricultural goods and services;

(d) Resilient, inclusive and nutrition-oriented food systems;

(e) Inclusive land-based investments in agriculture and other natural resource sectors, in accordance with the African Union guiding principles for large-scale land-based investments in Africa;

(f) Improved land tenure security, in accordance with the African Union framework and guidelines on land policy in Africa.

Programme performance in 2024

Strengthened regional capacity for utilization of article 6 of the Paris Agreement

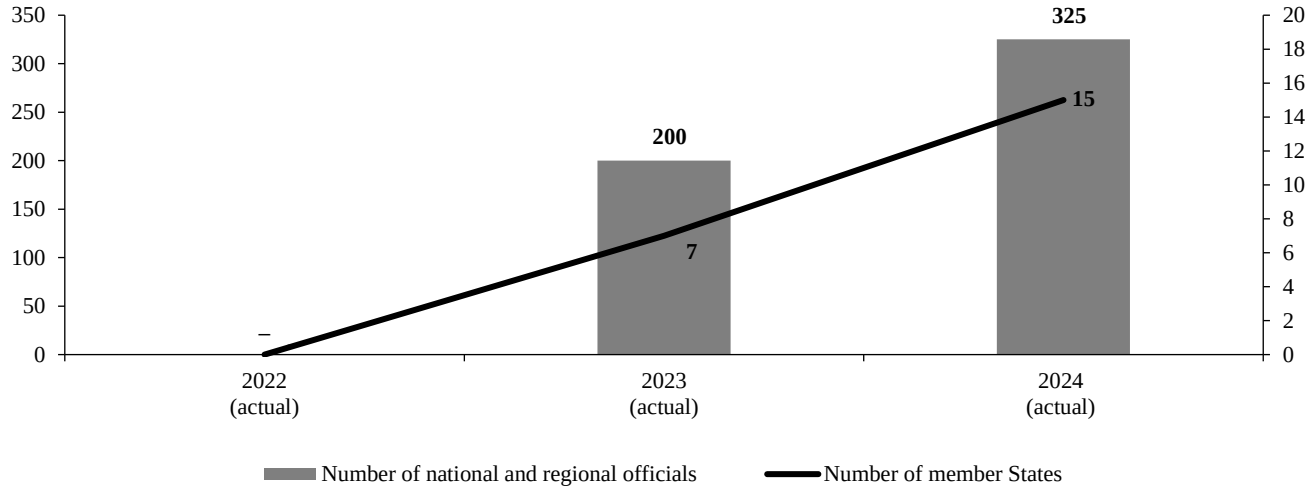
18.70 Article 6 of the Paris Agreement sets out how countries can pursue voluntary cooperation to reach their climate targets. It enables international cooperation to address climate change and can unlock financial support for developing countries. Article 6 establishes a mechanism to contribute to the mitigation of greenhouse gas emissions and support sustainable development, while also enabling non-market approaches to assist in the implementation of nationally determined contributions. In 2023, the subprogramme partnered with the African Group of Negotiators to strengthen regional capacity to utilize article 6, including through various training and awareness-raising events. In 2024, the subprogramme provided capacity-building support on policies and regulatory frameworks

[1] United Nations Environment Assembly resolution 5/11.

linked to article 6 to national United Nations Framework Convention on Climate Change focal points and regional experts.

18.71 Progress towards the objective is presented in the performance measure below (see figure 18.XI).

Figure 18.XI
Performance measure: number of national and regional officials with strengthened capacity to utilize article 6 of the Paris Agreement (cumulative)



Planned results for 2026

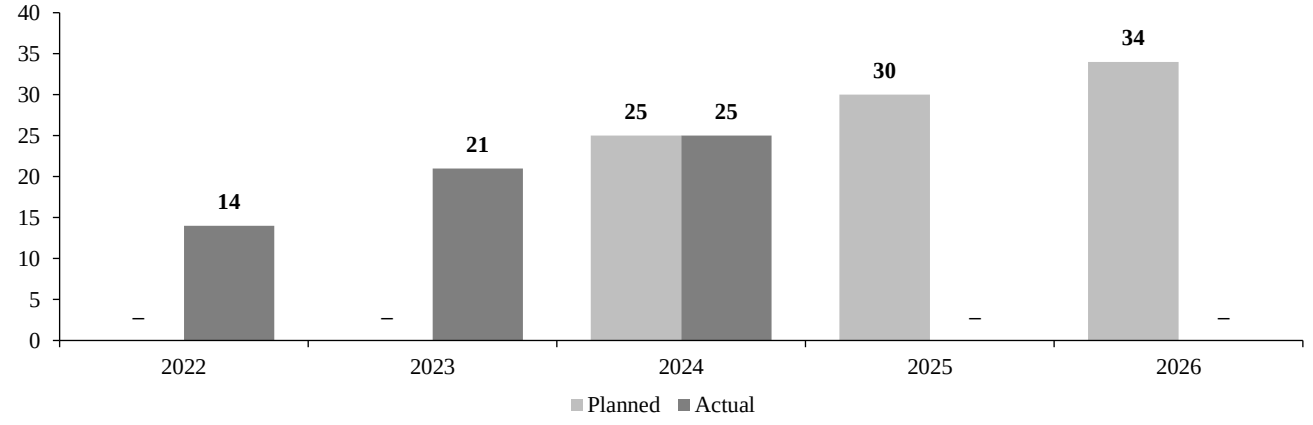
Result 1: members of ECA develop and implement national and regional policy and cooperation frameworks for the sustainable use of natural resources

Programme performance in 2024 and target for 2026

18.72 The subprogramme's work contributed to the adoption of four policy frameworks by members of ECA for the sustainable use of natural resources, which met the planned target.

18.73 Progress toward the objective and the target for 2026 are presented in the performance measure below (see figure 18.XII).

Figure 18.XII
Performance measure: number of policy frameworks adopted by members of ECA for the sustainable use of natural resources (cumulative)



Result 2: resilient and inclusive agrifood systems

Proposed programme plan for 2026

18.74 The ability of Africa to address food insecurity is hampered by insecure land rights, land degradation and low use of agricultural inputs, technologies, mechanization and practices that increase productivity and build resilience to climate and disaster risks. The subprogramme has engaged in advocacy, developed evidence and tools and strengthened the capacities of member States to develop policies, strategies and programmes to promote value chains, agro-parks, land rights and investments, gender equality, youth entrepreneurship and agricultural insurance.

Lessons learned and planned change

18.75 The lesson for the subprogramme was the importance of fostering synergies and coherence in policy development and implementation. In applying the lesson, the subprogramme will establish platforms for greater collaboration among national and regional authorities, as well as with the private sector, civil society and academia, to enable more collaborative approaches to policy development and implementation. The subprogramme will also provide support to enable meaningful integration of its guidelines and tools into strategies, policies and programmes, with a particular focus on agricultural value chains, agro-parks, land governance and management, and the resilience of food systems to climate and other shocks.

18.76 Expected progress towards the objective is presented in the performance measure below (see table 18.11).

Table 18.11
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Twelve members of ECA designed policies and programmes to support land reforms	Two members of ECA implemented policies in line with outcomes of the Specialized Technical Committee on Agriculture, Rural Development, Water and Environment of the African Union on the United Nations Food Systems Summit	Two additional members implemented policies in line with the outcomes of the Specialized Technical Committee	One member of ECA or one regional economic community develops a policy framework to enhance land governance and management	One member of ECA or one regional economic community develops a policy framework on resilient and inclusive agrifood systems

Deliverables

18.77 Table 18.12 lists all deliverables of the subprogramme.

Table 18.12
Subprogramme 5: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**3**	**3**	**3**	**3**
1. Report on the Africa Regional Forum on Sustainable Development to inform the high-level political forum on sustainable development	1	1	1	1
2. Report to the Africa Regional Forum on Sustainable Development on the implementation of the Sustainable Development Goals	1	1	1	1
3. Report to the Africa Regional Forum on Sustainable Development on inclusive green economy policies in the context of structural transformation and sustainable development in the region	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	**8**	**8**	**8**	**8**
4. Africa Regional Forum on Sustainable Development, in preparation for the high-level political forum on sustainable development	8	8	8	8
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**7**	**2**	**12**	**12**
5. Technical support for selected members of ECA to review and improve their mineral-led local content, policies and legal and regulatory frameworks	1	1	1	1
6. On strengthening the capacity of members of ECA in the development of regional carbon and biodiversity credit markets and green, circular and blue economies to advance inclusive and resource-efficient economic diversification and sustainable development	2	–	2	2
7. Technical support for the Africa Regional Forum on Sustainable Development in the area of the green economy in the context of sustainable development and poverty eradication and the blue economy in preparation for the high-level political forum on sustainable development	1	1	1	1
8. Fellowship programme for young African scholars to enhance their capacity in policy research, analysis and advocacy in relevant areas	2	–	2	2
9. On climate, land, energy and water strategies	1	–	2	2
10. On regional agricultural value chains and the development of agro-poles in accordance with African Union guidelines	–	–	1	1
11. Conference on land policy in Africa	–	–	1	1
12. On supporting women's land tenure security and entrepreneurship through policy, legal and institutional reforms and integrating a gender perspective in land and agriculture	–	–	1	1
13. On regional organizations and institutions of higher learning to enhance skills and knowledge on land, agriculture and food systems	–	–	1	1
Seminars, workshops and training events (number of days)	**24**	**6**	**57**	**60**
14. On building resilient, inclusive and sustainable food systems in Africa	–	–	1	1
15. Training event on an inclusive, green and sustainable economy in the context of sustainable development and poverty eradication and structural transformation for experts and policymakers	1	–	1	1
16. Training event on climate change and development for decision makers, legislators, parliamentarians, planners, the media, civil society organizations and other communities of practice	5	5	2	2
17. Training event on global climate negotiations to strengthen the capacity of young African climate professionals	10	–	5	5
18. Workshops on climate change, the green and blue economies, land and natural resources in the context of sustainable development and poverty eradication	8	1	9	10
19. Training event on value chains, land, agribusiness, land-based investment and infrastructure	–	–	4	4
20. Training event on promoting regional value chains and agro-parks in Africa	–	–	6	6
21. Training event on building resilient, inclusive and sustainable food systems in Africa	–	–	3	3
22. Training event on decision-support and mapping tools for investing in agrifood systems	–	–	9	9

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
23. Seminars for agribusiness stakeholders to promote investment in agrifood systems	–	–	3	3
24. Training event on developing agriculture-related insurance schemes	–	–	3	3
25. Training event on strengthening land tenure security and entrepreneurship through policy, legal and institutional reforms	–	–	6	6
26. Training event on the political economy of land governance in Africa	–	–	5	5
27. Regional workshop on voluntary national and local reviews	–	–	–	1
28. Regional workshop for major groups and other stakeholders	–	–	–	1
Publications (number of publications)	**7**	**4**	**12**	**13**
29. On an inclusive green economy and structural transformation	1	1	1	1
30. On climate change and development in Africa	2	1	1	1
31. On the state of the climate in Africa	–	–	1	1
32. On emerging issues and trends in climate change, the green economy in the context of sustainable development and poverty eradication, the blue economy and natural resources	2	1	3	3
33. Path to 2030–2063: outlook on resources for the transformation of Africa	1	–	1	1
34. On land, agribusiness, land-based investment and infrastructure	1	1	1	1
35. Africa regional overview of food security and nutrition	–	–	1	1
36. On assessing the potential for policy and legislative reforms to enhance index-based insurance schemes for agriculture in Africa	–	–	1	1
37. On strengthening the case for increased public spending on agrifood systems	–	–	1	1
38. Macroeconomic analysis in support of accelerating agrifood systems transformation	–	–	1	1
39. On harnessing mineral resources for socioeconomic development	–	–	–	1
Technical materials (number of materials)	**14**	**4**	**21**	**20**
40. Guidelines related to local policies and strategies aligned with the Africa Mining Vision, including on mineral supply chain development for small and medium-sized enterprises, value addition, empowerment of women and entrepreneurship	–	–	1	–
41. Compendium of climate change experts in Africa	1	1	1	1
42. Mapping of institutions along the climate information services value chain	1	–	1	1
43. On climate change and development in Africa	5	1	5	5
44. On the implementation of climate research for development platforms in Africa	1	–	1	1
45. Quality analysis of climate information for a development policy, decision support and management practice programme	1	–	1	1
46. On infrastructure and capacity for climate information services projects	1	–	1	1
47. On strengthening climate governance and policy implementation	1	–	1	1
48. Africa climate resource platform and information service	1	1	1	1
49. Documentation for meetings of the African Union and the African Union Development Agency in the areas of new technologies and innovation, the environment and natural resources, the green economy in the context of sustainable development and poverty eradication and climate change in the context of the 2030 Agenda and Agenda 2063	1	1	1	1
50. Tools and methods for country natural capital accounts and managing investments in the blue economy	1	–	1	1
51. On land, agribusiness, land-based investment and infrastructure	–	–	2	2
52. Toolkit for participatory mapping of land tenure systems for inclusive land-based investment opportunities for agriculture and agribusiness in Africa	–	–	1	1
53. On national action plans for the development of agro-poles	–	–	1	1
54. Guidelines for developing viable agricultural insurance programmes	–	–	1	1
55. Guidelines for strengthening women land tenure security in Africa	–	–	1	1

Category and subcategory	2024 planned	2024 actual	2025 planned	2026 planned

C. Substantive deliverables

Consultation, advice and advocacy: advisory services to three members of ECA and two regional and subregional cooperation groups on the green and blue economies, climate resilience, mineral-based development, land governance and agricultural transformation, on promoting agriculture-related insurance schemes to build resilience against climatic shocks and on developing frameworks for viable land taxation for enhanced domestic resource mobilization by members of ECA.

D. Communication deliverables

External and media relations: press releases, podcasts and videos related to the issuance of major publications and events.

Digital platforms and multimedia content: websites, social media and platforms on the environment; social media posts for each major event, workshop, publication and policy brief; interactive map on large-scale land-based investments.

Subprogramme 6
Gender equality and women's empowerment

Objective

18.78 The objective, to which this subprogramme contributes, is to achieve gender equality and women's empowerment in Africa, by accelerating the pace of implementation by members of ECA and their reporting on their global and regional commitments related to gender equality and the empowerment of women and girls and to enhance their implementation of policies and programmes for the empowerment of women and girls.

Strategy

18.79 To contribute to the objective, the subprogramme will:

(a) Undertake policy research, provide technical advice, and build capacity on issues relating to gender equality and women's empowerment;

(b) Promote women's economic empowerment, placing particular emphasis on financial inclusion and focusing on the development and implementation of the financial regulatory frameworks of members of ECA;

(c) Provide technical support to members of ECA, including national machineries for gender equality and line ministries, on integrating a gender perspective into their sectoral development policies and programmes;

(d) Roll out the African Gender and Development Index and the Africa Gender Index, in collaboration with partners, in the remaining countries that have not yet implemented them, and provide technical support to members of ECA in measuring progress and reporting on the status of implementation of global and regional commitments on gender equality.

18.80 The above-mentioned work is expected to result in:

(a) Strengthened integration of a gender perspective into planning, budgeting, financing and implementation of national policies and programmes;

(b) Improved understanding of and response by policymakers to global and regional frameworks on gender equality and women's empowerment, for the alignment of national development outcomes and the fulfilment of national commitments;

(c) Increased opportunities, greater economic empowerment and improved livelihoods for women and girls across Africa, through smart policies and tools designed to address existing and emerging discrepancies in gender equality;

(d) Enhanced financial access and opportunities for women by strengthening the financial regulatory frameworks to promote their economic empowerment.

Programme performance in 2024

Members of ECA take stock of progress made in achieving gender equality and women's empowerment

18.81 Pursuant to resolution 2022/5 of the Economic and Social Council, African member States undertook a regional review in 2024 of the achievements made in implementing the Beijing Declaration and Platform for Action. The review assessed progress, identified challenges, highlighted achievements and outlined strategies for the full realization of gender equality and the empowerment of women and girls. The subprogramme contributed to the national-level review reports and facilitated the adoption of a common African position on the status of women related to the review. This was achieved through the provision of technical and advisory support to assist ECA members in conducting comprehensive national-level reviews and in preparing the regional report, which synthesized insights from 42 national review reports and survey data. The report highlighted key achievements over the past five years and prioritized actions to accelerate the implementation of the Beijing Declaration. The subprogramme also convened a ministerial conference on the Africa regional review. As a result, a common African position on the review was adopted by ministers of member States of the African Union in charge of gender and women's affairs. This common position informed the global report that was considered at the sixty-ninth session of the Commission on the Status of Women in March 2025.

18.82 Progress towards the objective is presented in the performance measure below (see table 18.13).

Table 18.13
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Members of ECA adopted a common African position on the 30-year review of the implementation of the Beijing Declaration and Platform of Action

Planned results for 2026

Result 1: members of ECA measure, monitor and report on implementation of global and regional commitments on gender equality

Programme performance in 2024 and target for 2026

18.83 The subprogramme's work contributed to the institutionalization by three members of ECA (Burundi, Mozambique and Zimbabwe) of the African Gender and Development Index in their national statistical systems to design, report and monitor programmes and progress made in achieving selected targets of Sustainable Development Goal 5, which met the planned target.

18.84 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 18.14).

Table 18.14
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Two members of ECA employed the revised African Gender and Development Index to monitor and review their commitments to gender equality	Five members of ECA (Burundi, Lesotho, Mozambique, South Sudan and Zimbabwe) employed the African Gender and Development Index to design, report and monitor programmes and progress made in achieving selected targets of Sustainable Development Goal 5	Three members of ECA (Burundi, Mozambique and Zimbabwe) institutionalized the African Gender and Development Index in national statistical systems to enable them to monitor and report on progress made in achieving selected targets of Sustainable Development Goal 5	Three members of ECA incorporate the African Gender and Development Index into their monitoring and reporting systems for strengthened commitments to gender equality	Three members of ECA develop gender monitoring frameworks for reporting and accountability

Result 2: members of ECA integrate a gender perspective into fiscal policy

Programme performance in 2024 and target for 2026

18.85 The subprogramme's work contributed to five members of ECA taking stock of the institutional mechanisms required for strengthening gender-sensitive fiscal policy, which met the planned target.

18.86 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 18.15).

Table 18.15
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Increased knowledge of members of ECA on the investment needs for achieving Sustainable Development Goal 5	Five members of ECA (Ethiopia, Kenya, Rwanda, Uganda and United Republic of Tanzania) took stock of the institutional mechanisms required for strengthening gender-sensitive fiscal policy	Five members of ECA establish a mechanism to better integrate a gender perspective into fiscal policies	Three members of ECA integrate a gender perspective into their fiscal strategies

Result 3: members of ECA take action to improve the financial inclusion of women

Proposed programme plan for 2026

18.87 According to the 30-year review of the implementation of the Beijing Declaration and Platform for Action and the 2023 Africa Gender Index report, women in Africa continue to face structural and systemic barriers that limit their involvement in formal labour markets and restrict their access to finance and credit. The subprogramme supports member States in improving financial access and opportunities for women. For example, in 2024, the subprogramme held a workshop on financial

inclusion for businesswomen that increased their awareness of and provided practical guidance on accessing financial services. The subprogramme has also engaged in advocacy with 34 members of ECA to promote the economic and financial inclusion of women and youth.

Lessons learned and planned change

18.88 The lesson for the subprogramme was that strategic and targeted efforts are required to better understand the challenges concerning and barriers to ensuring women's financial inclusion. Despite legal reforms, disparities between men and women in financial access persist. In applying the lesson, the subprogramme will provide support to member States to conduct research and analysis in order to gain a deeper understanding of key constraints. On the basis of the findings, the subprogramme will develop practical solutions and convene high-level policy dialogues, and provide technical and advisory services to members of ECA to enable them to enhance the financial inclusion of women.

18.89 Expected progress towards the objective is presented in the performance measure below (see table 18.16).

Table 18.16
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Thirty-four members of ECA enhanced understanding on policies that promote gender equality in financial services African businesswomen increased their awareness of and gained practical guidance on accessing financial services	Two members of ECA conduct a situation analysis to identify constraints on and opportunities for strengthening the financial inclusion of women	Two members of ECA establish a mechanism to enhance the financial inclusion of women, including by integrating financial inclusion into national planning processes

Deliverables

18.90 Table 18.17 lists all deliverables of the subprogramme.

Table 18.17
Subprogramme 6: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**–**	**–**	**3**	**–**
1. Report to the Committee on Social Policy, Poverty and Gender on the work of the subprogramme	–	–	2	–
2. Final outcome report of the Committee on Social Policy, Poverty and Gender	–	–	1	–
Substantive services for meetings (number of three-hour meetings)	**–**	**–**	**1**	**–**
3. Biennial session of the Committee on Social Policy, Poverty and Gender	–	–	1	–

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**4**	**3**	**3**	**2**
4. On mainstreaming a gender perspective in national plans, policies and programmes in countries that request technical advisory services	2	2	1	–
5. On supporting members of ECA in using the subprogramme's measurement tools to report on their gender equality commitments	1	1	1	–
6. On supporting members of ECA in integrating a gender perspective into fiscal policy	–	–	1	1
7. On enhancing the capacity of members of ECA to address the gender digital divide and positively reimagine a gender perspective in the economic and digital transformation of African countries	1	–	–	–
8. On supporting members of ECA in developing gender-sensitive financial regulatory frameworks	–	–	–	1
Seminars, workshops and training events (number of days)	**16**	**16**	**10**	**20**
9. Workshop on the African Women's Report	2	2	2	2
10. Training event on the African Gender and Development Index	4	4	4	4
11. Workshop on integrating a gender perspective into fiscal policy	–	–	2	2
12. Workshop on policies and programmes to address the gender digital divide	10	10	–	–
13. Customized capacity-building event for members of ECA on sectoral policies	–	–	2	4
14. Validation workshop on the financial inclusion situation analysis reports	–	–	–	4
15. Dissemination workshops on the findings of financial inclusion situation analysis	–	–	–	4
Publications (number of publications)	**–**	**–**	**2**	**1**
16. African Women's Report based on thematic and topical issues	–	–	1	–
17. Synthesis report on the 30-year review of the implementation of the Beijing Declaration and Platform for Action in Africa	–	–	1	–
Technical materials (number of materials)	**3**	**2**	**2**	**1**
18. Technical notes on the Africa Gender Index and the African Gender and Development Index	1	1	–	–
19. On climate change and gender equality and women's empowerment in Africa	1	–	–	–
20. Policy briefs and notes on gaps in and opportunities for integrating a gender perspective into fiscal policy and financial regulatory frameworks	–	–	1	2
21. Policy brief on gender equality in the economic and digital transformation of African countries	1	1	–	–
22. Policy brief on integrating a gender perspective into relevant sectoral policies	–	–	1	–
C. Substantive deliverables				
Consultation, advice and advocacy: one special event on International Women's Day (2026) and the 16 Days of Activism against Gender-based Violence campaign.				
D. Communication deliverables				
Digital platforms and multimedia content: the subprogramme's knowledge platform accessed by at least 300 experts.				
External and media relations: three press releases relating to events hosted by the subprogramme.				

Subprogramme 7
Subregional activities for development

Component 1
Subregional activities in North Africa

Objective

18.91 The objective, to which this component contributes, is to advance inclusive growth and sustainable development in North Africa through strengthened economic diversification, fiscal management, regional integration and a better recognition of migrant workers' economic contributions.

Strategy

18.92 To contribute to the objective, the component will:

(a) Develop evidence-based policies, strategies and reforms and provide technical assistance related to economic diversification, fiscal management and resilient and inclusive economies;

(b) Provide advisory services and hold subregional consultations on the mobilization of domestic resources and the implementation of the Agreement Establishing the African Continental Free Trade Area, in partnership with ministries of trade and the African Union;

(c) Provide technical assistance and training for selected African countries on migration data collection and analysis and evidence-based policy formulation to mainstream and leverage migrants' economic contributions, through data collection and analysis;

(d) Conduct research on challenges facing middle-income countries in North Africa, in particular those relating to development and climate finance, human capital and employment creation in North Africa, with a focus on strategic areas such as digitalization and the green economy in the context of sustainable development and poverty eradication.

18.93 The above-mentioned work is expected to result in:

(a) Adoption of evidence-based macroeconomic policies and structural reforms by members of ECA to improve fiscal space and enhance productive employment, redirecting resource allocations towards sectors that have a high potential for inclusive and sustainable development;

(b) Policies and strategies that foster regional integration, enhance productivity and create new jobs in higher-skilled and sustainable sectors;

(c) Development of evidence-based policies and actions by members of ECA that leverage the contributions of migrants to sustainable development.

Programme performance in 2024

Member States adopt the Rabat Declaration on Middle-Income Countries

18.94 Addressing the needs and specific challenges of middle-income countries is critical for the achievement of the 2030 Agenda. Having attained middle-income status, many middle-income countries in North Africa have found it difficult to sustain the dynamism of their economic development and their progress in increasing incomes. This is often associated with growing difficulties in sustaining levels and types of investment that can generate continued improvements in their productivity and adequate employment growth. In 2024, the component, in collaboration with the Government of Morocco and the United Nations Development Programme, organized a high-level ministerial conference that brought together 32 countries, 23 United Nations development agencies and other international and regional institutions to discuss solutions to address the development challenges faced by middle-income countries, including financing gaps. The conference led to the

adoption of the Rabat Declaration, which contains a set of action-oriented and innovative solutions and stresses the importance of South-South cooperation and triangular cooperation in addressing the development needs of middle-income countries. The Declaration also included a commitment to develop a strategic action plan for middle-income countries covering the period 2025–2030, in collaboration with the United Nations system and other stakeholders.

18.95 Progress towards the objective is presented in the performance measure below (see table 18.18).

Table 18.18
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Member States adopted the Rabat Declaration on Middle-Income Countries, which contains action-oriented and innovative solutions to address development challenges faced by middle-income countries

Planned results for 2026

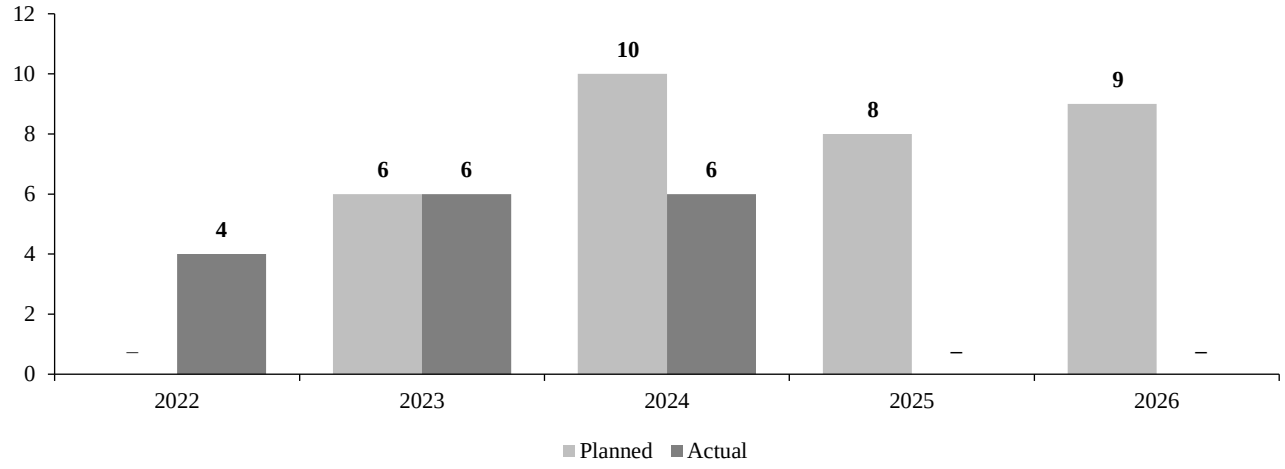
Result 1: developing evidence-based policies and actions that leverage migrants' economic contributions

Programme performance in 2024 and target for 2026

18.96 The component's work contributed to the provision of advisory services and technical support to identify key priorities related to enhancing migrants' economic contributions in two additional members of ECA (Ghana and Tunisia), which did not meet the planned target of four additional members of ECA developing evidence-based policies to leverage migrants' economic contributions. The target was not met due to the additional support from ECA required to integrate the positive contributions of migration in national plans and policies.

18.97 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 18.XIII).

Figure 18.XIII
Performance measure: number of countries developing evidence-based policies to leverage migrants' economic contributions (cumulative)



Result 2: members of ECA mobilize finance for sustainable development

Programme performance in 2024 and target for 2026

18.98 The component's work contributed to one country (Egypt) implementing measures to reduce tax evasion and illicit financial flows revenues, which met the planned target. The technical support and advisory services helped the Ministry of Finance of Egypt to establish a committee to support the Anti-Money Laundering and Terrorism Financing Unit in addressing tax evasion and illicit financial flows.

18.99 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 18.19).

Table 18.19
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
The Sudan Taxation Chamber conducted training to strengthen the capacity of its institutions to collect revenues	Libya adopted tax collection principles and practices that led to a 60 per cent increase in revenues from stamp duties	Egypt implemented measures to reduce tax evasion and illicit financial outflows	One country introduces an electronic taxation system	One country generates tax revenues from newly established taxpayer offices

Result 3: members of ECA accelerate inclusive and sustainable growth through increased productivity, diversification and value addition

Proposed programme plan for 2026

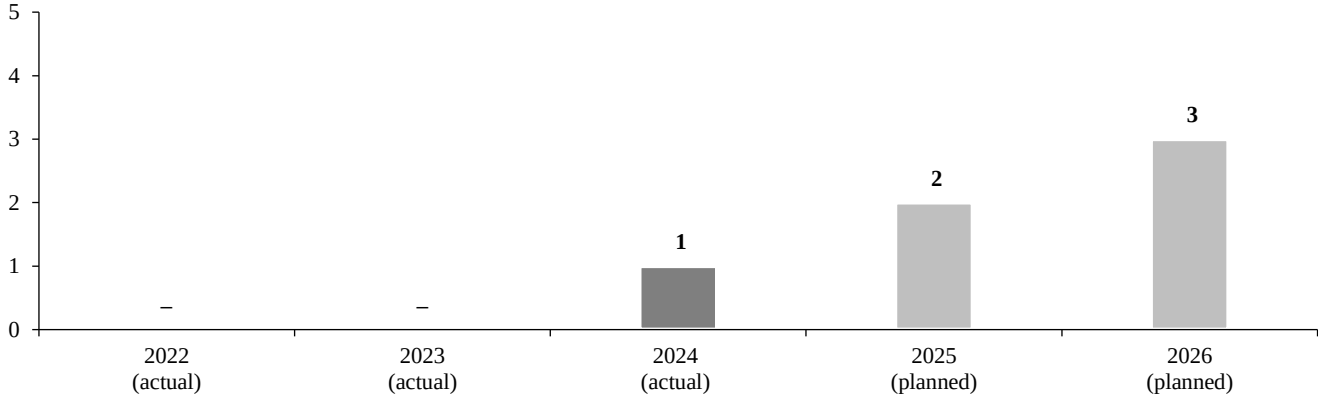
18.100 Six of the seven member States in the North African subregion covered by the component are now classified as middle-income countries. The subregion as a whole is characterized by slow growth and relatively high unemployment rates. To address these challenges, the component has been supporting countries to build and enhance capacities for structural transformation, productivity gains, technology adoption and innovation, and human skills development, and to mobilize adequate and affordable finance and address climate challenges. Accelerating and sustaining inclusive growth and job creation is a priority for all North African countries, as evidenced by their requests for assistance from the component in this regard.

Lessons learned and planned change

18.101 The lesson for the component was that member States needed further support to be able to undertake fundamental policy shifts and actions in order to move from an investment-driven economy to an innovation-driven knowledge economy. In applying the lesson, the component will develop knowledge products, provide advisory services and engage in capacity-building to support the development of national industrial policies. Such policies would guide industrial transformation, diversification and value addition and support the building of human and technological capabilities. The component will also provide support to member States in leveraging private capital for investment in renewable sources of energy and in digitalization.

18.102 Expected progress towards the objective is presented in the performance measure below (see figure 18.XIV).

Figure 18.XIV
Performance measure: number of policy measures adopted by member States to promote increased productivity, diversification and value addition (cumulative)



Deliverables

18.103 Table 18.20 lists all deliverables of the component.

Table 18.20
Subprogramme 7, component 1: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies

21. Labour market and demographic trends, employment and entrepreneurship	1	1	–	–
22. Structural transformation and distortions in North Africa	–	1	–	–
23. Trade, regional integration and inclusive growth	–	–	1	1
24. Impacts of armed conflict on food security and mitigation plan for Tunisia	1	1	–	–
25. Climate change and employment challenges in North Africa	1	–	–	–
26. Developing financial markets and enhancing the fiscal space	–	–	1	1
27. Challenges facing middle-income countries in North Africa	–	–	1	1
Technical materials (number of materials)	**5**	**2**	**1**	**2**
28. On employment	1	–	–	–
29. On migration	2	1	1	1
30. On private sector development in North Africa	1	1	–	–
31. On challenges facing middle income countries in North Africa	1	–	–	1

C. Substantive deliverables

Consultations, advice and advocacy: advisory services to North African members of ECA or regional economic communities on regional integration, migration issues, development finance and the middle-income trap.

D. Communication deliverables

Digital platforms and multimedia content: one knowledge management hub; three maintained platforms: content management system, collaborative space and customer relationship management of communities of practice.

External and media relations: press releases, newsletters, briefings and social media.

Component 2
Subregional activities in West Africa

Objective

18.104 The objective, to which this component contributes, is to advance inclusive development in West Africa by strengthening countries' capacity to integrate challenges related to demographic dynamics into their policies and planning processes and achieve regional integration.

Strategy

18.105 To contribute to the objective, the component will:

(a) Provide knowledge, tools and policy recommendations on the acceleration of a demographic transition and related implications for sustainable development and climate resilience, including population dynamics, migration, health and mortality, ageing and living conditions, gender equality and the empowerment of women and girls, youth, and sustainable peace and resilience in West Africa, among others;

(b) Engage in high-level policy dialogues and provide technical support and capacity-strengthening to countries on regional integration issues, including the implementation of the

Agreement Establishing the African Continental Free Trade Area, development planning, and the development of budgeting frameworks that are sensitive to a demographic dividend with special emphasis on the empowerment of women and young people.

18.106 The above-mentioned work is expected to result in:

(a) Demographic dividend dimensions mainstreamed in national planning, programming and budgeting processes;

(b) Deepened regional economic and monetary integration through the operationalization of Vision 2050 of the Economic Community of West African States;

(c) Accelerated implementation of the 2030 Agenda and Agenda 2063 by member States of ECA and regional organizations, including enhanced capacities in development planning;

(d) Accelerated implementation of the Agreement Establishing the African Continental Free Trade Area in Africa, with women and young people empowered to seize the opportunities of the Agreement.

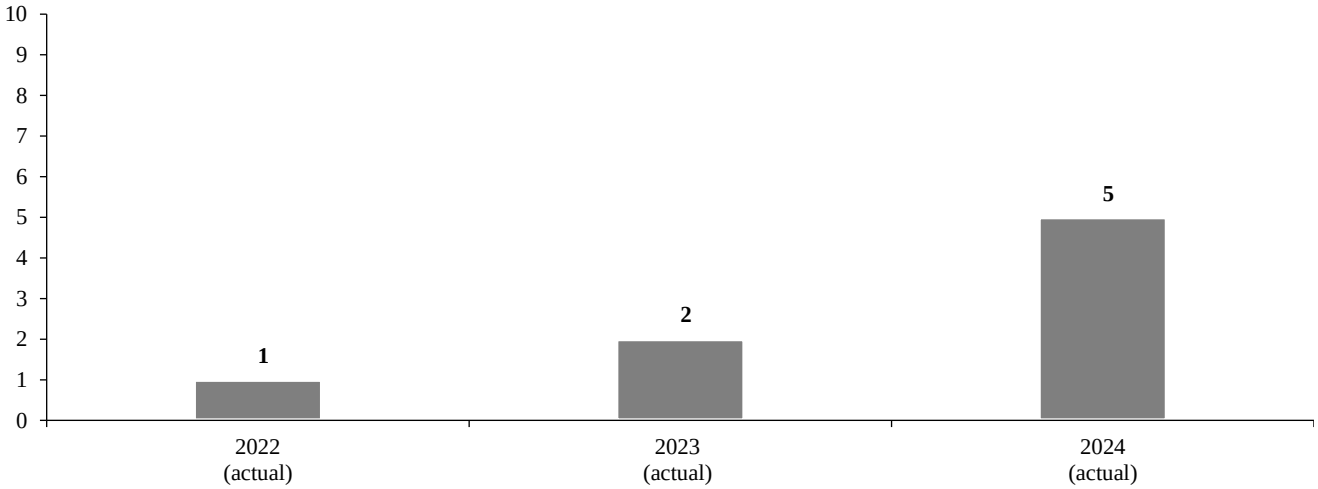
Programme performance in 2024

Members of ECA integrate the demographic dividend into national budgeting processes

18.107 The West Africa demographic profile offers a vital demographic dividend opportunity that could be more effectively harnessed through the strategic allocation of resources. In 2024, the component continued to strengthen national capacities in budgeting sensitive to the demographic dividend and engaged policymakers from line ministries (e.g. budget, planning, employment, education and health) and members of parliament on applying approaches sensitive to the demographic dividend in their national budgeting processes. This work was undertaken with a view to supporting member States in ensuring that their 2025 national budgets reflect sensitivity to the demographic dividend. As a result of these efforts, three countries (Burkina Faso, Niger and Togo) integrated demographic dividend-related issues into their 2025 budgetary programming documents, laying the foundation for its integration in the 2025 national budgets of those countries.

18.108 Progress towards the objective is presented in the performance measure below (see figure 18.XV).

Figure 18.XV
Performance measure: number of countries that integrated the demographic dividend into their budgetary planning and programming documents (cumulative)



Planned results for 2026

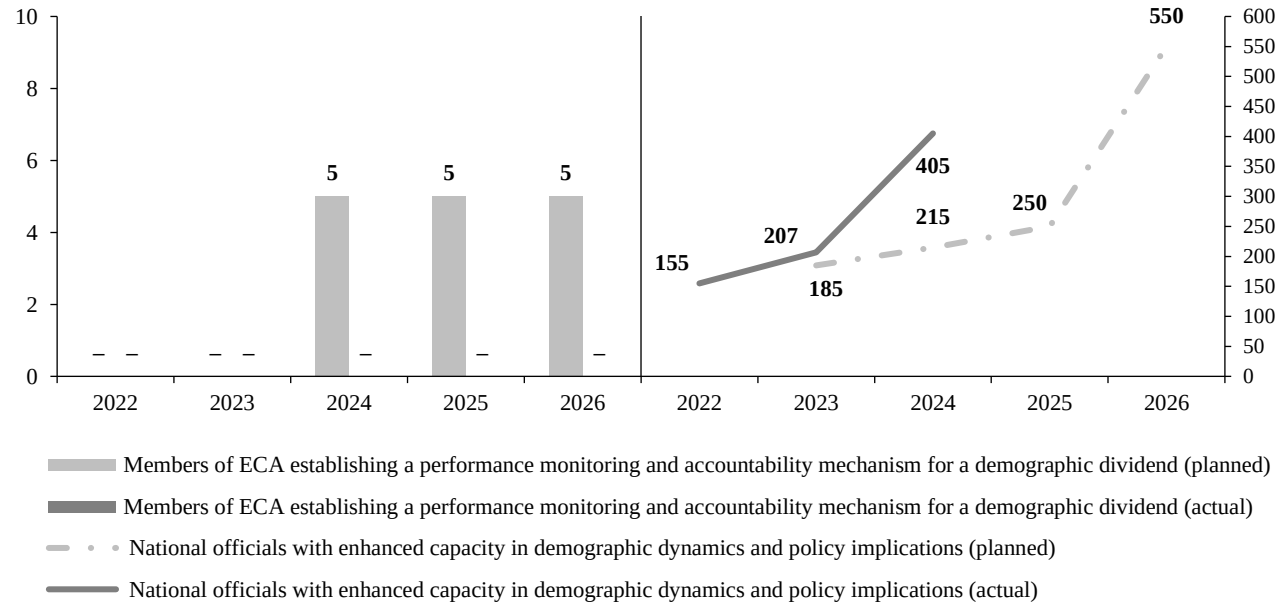
Result 1: regional performance monitoring and accountability mechanism to monitor and report on progress in the implementation of the African Union road map on harnessing the demographic dividend through investments in youth

Programme performance in 2024 and target for 2026

18.109 The component's work contributed to the enhanced capacity of an additional 198 national officials in the use of demo-economics and planning tools, for a cumulative total of 405 national officials, which exceeded the planned target of 237. The component's work also contributed to a stocktaking survey to inform the development of a regional monitoring and accountability mechanism for the implementation of the African Union road map, which did not meet the planned target of five members of ECA establishing a performance monitoring and accountability mechanism for a demographic dividend. The target was not met due to the need for further analysis and advocacy with members of ECA for its establishment.

18.110 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 18.XVI).

Figure 18.XVI
Performance measure: number of national officials acquiring enhanced capacity in demographic dynamics and policy implications and number of members of ECA establishing a performance monitoring and accountability mechanism for a demographic dividend (cumulative)



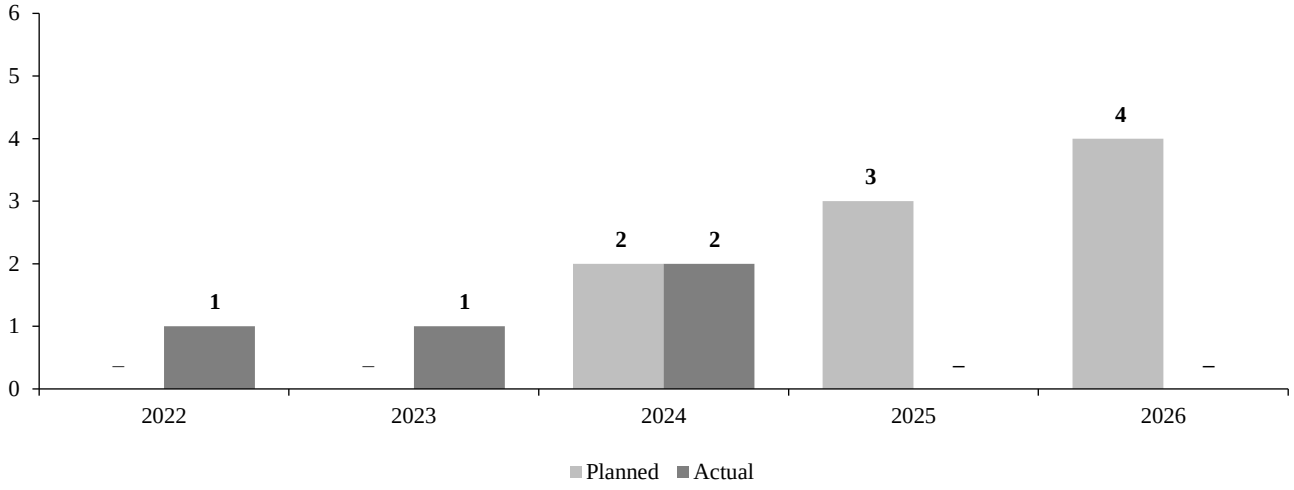
Result 2: members of ECA assess debt sustainability and develop longer-term fiscal strategies

Programme performance in 2024 and target for 2026

18.111 The component's work contributed to two members of ECA (Ghana and Liberia) developing long-term fiscal strategies to address debt, which met the planned target.

18.112 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 18.XVII).

Figure 18.XVII
Performance measure: number of members of ECA developing longer-term fiscal strategies to address debt (cumulative)



Result 3: increased operationalization of national African Continental Free Trade Area strategies

Proposed programme plan for 2026

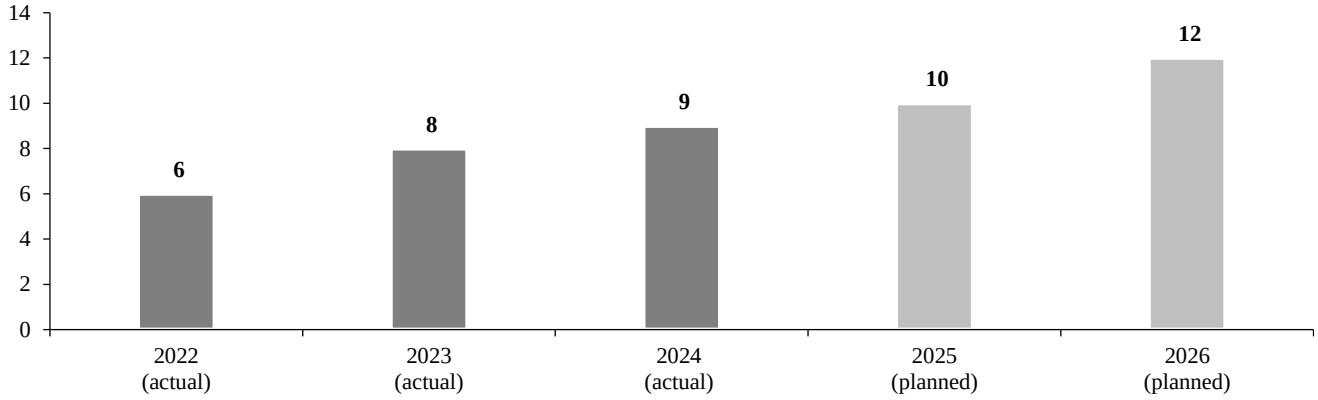
18.113 The component has supported member States in the West African region in operationalizing their national African Continental Free Trade Area strategies and has worked to foster cross-regional collaboration in this regard. Key examples of support include capacity-building of over 1,200 stakeholders, including women and youth entrepreneurs as key drivers of economic diversification; development of trade information tools and intra-Africa market access tools; and conducting research and analysis to inform member States in the formulation and implementation of their national African Continental Free Trade Area strategies.

Lessons learned and planned change

18.114 The lesson for the component, based on a pilot project involving eight countries in West and North Africa, was the importance of cross-border and cross-regional collaboration. The pilot project enabled these countries to establish strong and inclusive institutional mechanisms to coordinate and monitor the implementation of the African Continental Free Trade Area. In applying the lesson, the component will prioritize peer-learning initiatives and cross-border exchanges for mutual learning. The component will also support member States in West Africa to mobilize additional resources to accelerate implementation of national African Continental Free Trade Area strategies and enhance the capacities of small and medium-sized enterprises to trade under the African Continental Free Trade Area.

18.115 Expected progress towards the objective is presented in the performance measure below (see figure 18.XVIII).

Figure 18.XVIII
Performance measure: number of West African countries that have implemented priority areas of their national African Continental Free Trade Area strategies (cumulative)



Deliverables

18.116 Table 18.21 lists all deliverables of the component.

Table 18.21
Subprogramme 7, component 2: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*

10. On sustainable economic and social transformation in West Africa	1	1	–	–
11. On demographic dynamics for development	1	1	1	1

C. Substantive deliverables

Consultation, advice, and advocacy: advisory support to members of the Economic Community of West African States.

D. Communication deliverables

Outreach programmes, special events and information materials: events for parliamentary networks and events for the launch of flagship reports and related publications.

External and media relations: press releases; quarterly newsletter (*Kakaki News*) and other communication materials to the media.

Digital platforms and multimedia content: West African subregion-specific content for the ECA website.

Library services: exhibition of ECA knowledge products through various channels and information on the ECA main repository.

Component 3
Subregional activities in Central Africa

Objective

18.117 The objective, to which this component contributes, is to expand the manufacturing and high-value service sectors and increase the share of tradeable and manufactured goods in total exports, deepen regional value chains and improve the competitiveness and productivity of local economies in order to accelerate inclusive and sustainable economic diversification and structural transformation in Central Africa.

Strategy

18.118 To contribute to the objective, the component will:

(a) Provide technical assistance and advisory services to members and regional economic communities of ECA in Central Africa on:

(i) Formulating and implementing national and subregional development plans and economic diversification strategies with a focus on intra-Central African trade and creating a business climate conducive to employment creation and resilient to external shocks;

(ii) Translating their national strategies for the implementation of the Agreement Establishing the African Continental Free Trade Area into specific and bankable projects, using market access information and trade opportunity data, with a particular focus on the agricultural, energy and pharmaceutical sectors;

(iii) Transforming transport corridors into development corridors, in line with the Central Africa consensual transport plan;

(iv) Developing information and communications technology infrastructure and regulatory frameworks required for the digital transition, including support for the establishment of technology innovation centres, in collaboration with the ECA Centre of Excellence on Digital Identity, Trade and Economy within subprogramme 3;

(v) Harmonizing trade instruments of the Economic Community of Central African States and the Central African Economic and Monetary Community (CEMAC) while developing

a unified master plan for industrial development and economic diversification in Central Africa;

(b) Collaborate with the private sector, subregional think tanks and regional economic communities in the above-mentioned areas;

(c) Train members of ECA and United Nations country teams in the use of the ECA integrated planning and reporting toolkit.

18.119 The above-mentioned work is expected to result in:

(a) Strengthened regional value chains and industrial clusters, integrated with local economies, and expanded manufacturing and high-value service sectors;

(b) Integration of the relevant economic diversification-related goals and targets of the 2030 Agenda and Agenda 2063 into national development strategies and plans, common country assessments and United Nations sustainable development cooperation frameworks;

(c) Increased productivity of local firms and economies, including adoption of new technologies;

(d) Strengthened role of the private sector in economic diversification in Central Africa.

Programme performance in 2024

Members of ECA implement projects for improved industrialization and economic diversification

18.120 The year 2024 marked the fourth year of the Decade for Economic Diversification in Central Africa (2021–2030), which has a goal of transitioning subregional economies from commodity dependence to manufacturing and services for sustainable, inclusive and resilient growth. The component supports this shift through a demand-driven programme of research, technical advice, capacity-building, policy support and investment advocacy. In 2022, CEMAC adopted the Master Plan for Industrialization and Economic Diversification. During 2023 and 2024, the component supported member States in the region to operationalize the Master Plan at the national level, including by providing technical advice, hosting communities of practice and supporting the conduct of feasibility studies. As a result of those efforts, four member States (Cameroon, Chad, Congo and Gabon) launched projects in 2024 to implement the Master Plan, covering areas such as wood processing, beef value chain development, industrial fertilizers and the digital economy. In July 2024, the Commission of CEMAC and ECA also signed a memorandum of understanding to strengthen their partnership framework and advance economic diversification in the subregion.

18.121 Progress towards the objective is presented in the performance measure below (see table 18.22).

Table 18.22
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
CEMAC adopted the Master Plan for Industrialization and Economic Diversification	–	Four members of ECA (Cameroon, Chad, Congo and Gabon) launched projects to implement the Master Plan for Industrialization and Economic Diversification at the national level

Planned results for 2026

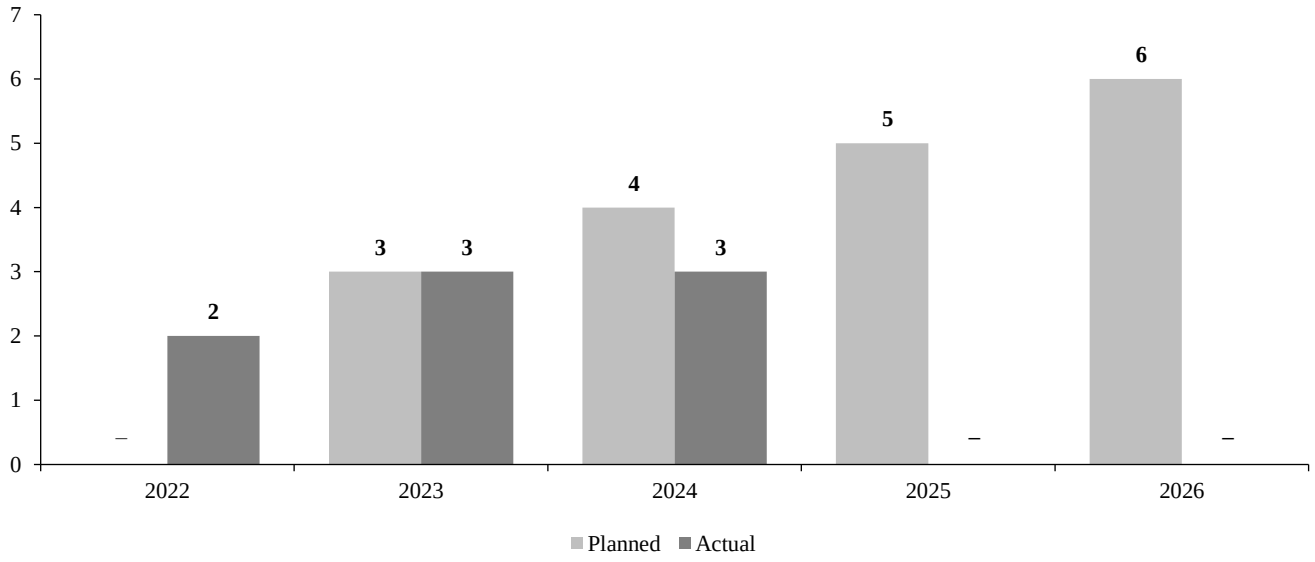
Result 1: bankable projects implemented in support of inclusive and sustainable industrialization and economic diversification

Programme performance in 2024 and target for 2026

18.122 The component's work contributed to the continued implementation of three bankable projects and the initiation of one additional project to establish a special economic zone in Gabon, for a cumulative total of three bankable projects implemented, which did not meet the planned target of four projects. The target was not met due to the time required to conduct and validate pre-feasibility studies prior to mobilizing financing and initiating implementation.

18.123 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 18.XIX).

Figure 18.XIX
Performance measure: number of bankable projects implemented in the Central African subregion (cumulative)



Result 2: members of ECA develop special economic zones for sustainable and inclusive economic diversification

Programme performance in 2024 and target for 2026

18.124 The component's work contributed to four members of ECA (Cameroon, Congo, Democratic Republic of the Congo and Gabon) assessing their value chains for the development or enhancement of new-generation special economic zones, which exceeded the planned target of three members of ECA.

18.125 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 18.23).

Table 18.23
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Three members of ECA (Cameroon, Congo and Democratic Republic of the Congo) established new-generation special economic zones to promote value addition to their natural resources	Four members of ECA (Cameroon, Congo, Democratic Republic of the Congo and Gabon) assessed their value chains for the development or enhancement of new-generation special economic zones	Two members of ECA conclude pre-feasibility studies for the development of new-generation special economic zones	One member of ECA operationalizes a new special economic zone

Result 3: Central African members of ECA enhance natural asset assessments and capitalization

Proposed programme plan for 2026

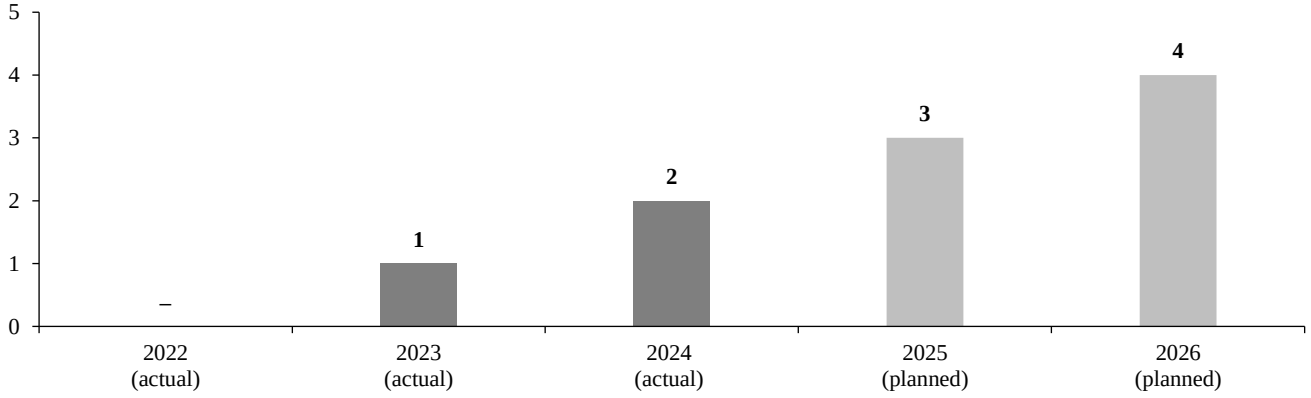
18.126 In support of the economic diversification ambitions of Central African members of ECA, the component has actively advocated for greater accounting and capitalization of the subregion's abundant natural assets. However, investment in natural capital is often stymied by limited data and inadequate assessments, restricting accurate valuations, effective planning and sustainable management. The component supports members of ECA in promoting natural capital accounting in the subregion and in conducting economic impact assessments of natural assets.

Lessons learned and planned change

18.127 The lesson for the component was that sequential capacity-building workshops are more effective at fostering country-level understanding and ownership of quantitative tools than stand-alone knowledge products and publications. This approach is critical, as integrating natural capital accounting can take multiple years and requires high-level commitment. In applying the lesson, the component will implement its newly developed strategy, which is based on five phases: (i) establishing high-level policy commitment; (ii) conducting baseline assessments; (iii) pilot implementation; (iv) developing plans for data integration; and (v) the effective elaboration of economic environmental accounts and revaluation of national wealth. As part of this approach, the component will collaborate with national statistical offices, relevant ministries and other partners to organize training that fully equips officials to independently conduct future analytical updates using natural capital accounting methodologies and tools.

18.128 Expected progress towards the objective is presented in the performance measure below (see table 18.XX).

Figure 18.XX
Performance measure: number of countries better equipped to independently apply natural capital accounting methods to conduct economic impact assessment of natural assets (cumulative)



Deliverables

18.129 Table 18.24 lists all deliverables of the component.

Table 18.24

11. On the economic diversification process in Central Africa: harnessing opportunities for sustainable consumption and production and greenhouse gas emission reduction and economic diversification strategies	–	1	–	1
12. On accelerating the effective implementation of national strategies on the Agreement Establishing the African Continental Free Trade Area: strengthening sustainability and inclusiveness	–	2	1	1
13. On enhancing digital economy integration in central Africa, emphasizing the role of the fourth industrial revolution and the African Continental Free Trade Area	–	2	1	1
14. On a comprehensive needs assessment of national statistical systems in Central Africa	–	2	1	1
Technical materials (number of materials)	**1**	**2**	**3**	**3**
15. Policy briefs on emerging issues in Central Africa	1	2	3	3

C. Substantive deliverables

Consultation, advice and advocacy: advisory services to and policy dialogues with members of ECA on the African Continental Free Trade Area.

D. Communication deliverables

Outreach programmes, special events and information materials: dissemination of information on economic diversification and on change leadership in at least four member countries of the subregion.

Digital platforms and multimedia content: maintenance of at least seven websites, digital platforms and two communities of practice on economic diversification, industrialization and the Sustainable Development Goals.

Component 4
Subregional activities in East Africa

Objective

18.130 The objective, to which this component contributes, is to achieve deeper regional integration in East Africa by advancing the operationalization of the African Continental Free Trade Area, increasing intraregional investments, harnessing the blue economy and enhancing regional tourism.

Strategy

18.131 To contribute to the objective, the component will:

(a) Provide support to countries and regional economic communities, through knowledge production, technical assistance, capacity-building and policy dialogues, on the development and effective implementation of their national and regional strategies for the implementation of the Agreement Establishing the African Continental Free Trade Area African Continental Free Trade Area, and the negotiation and arrangements concerning outstanding protocols and instruments on the Area;

(b) Foster the development of regional value chains in food and agriculture through value chain analyses and the dissemination of information to public and private sector stakeholders about investment opportunities;

(c) Build the capacity of the private sector to take part in operationalizing the African Continental Free Trade Area, through information and awareness-raising workshops on the functionalities of the instruments and protocols;

(d) Engage in policy dialogue and provide training to promote transboundary investments and cost-effective trade logistics, including the creation and use of digital platforms and commodity exchanges to reduce asymmetries of information;

(e) Convene a subregional forum on issues related to the blue economy, including its potential to diversify goods and services and to operationalize the African Continental Free Trade Area, assess the socioeconomic potential of the blue economy and conduct market analyses for small and medium-sized enterprises, while keeping in mind the need to protect natural resources;

(f) Support members of ECA in the development of national tourism strategies, in line with the recommendations set out in the African tourism strategy and provide training on the production of high-quality tourism statistics in the subregion.

18.132 The above-mentioned work will help members of ECA to make progress towards the achievement of Sustainable Development Goals 5, 7, 8, 11, 12, 13, 14 and 17.

18.133 The above-mentioned work is expected to result in:

(a) National development planning frameworks incorporating and amplifying blue economy policies and strategies;

(b) Standardized methodologies for tourism data collection and analysis in the subregion;

(c) Increased market diversification and economic resilience to external shocks, related in particular to the blue economy, the tourism sector and food-related value chains;

(d) Deeper regional integration and improved connectivity of landlocked countries;

(e) Higher levels of intraregional trade in goods and services;

(f) Harmonization of investment regimes and investment promotion strategies, and improved regulatory frameworks governing investment.

Programme performance in 2024

A new sustainable tourism master plan launched by the Intergovernmental Authority on Development

18.134 Tourism is a significant sector across many economies in East Africa and constitutes a key component of sustainable development. In 2023, the component convened a regional consultative workshop to review lessons learned from the implementation of the Intergovernmental Authority on Development (IGAD) Sustainable Tourism Master Plan (2013–2023) to inform the development of the new master plan. The workshop brought together regional officials from IGAD, national representatives, development partners and stakeholders from the tourism sector to assess progress made and identify gaps to be addressed. This led to the development of a road map to guide the development of the new master plan. Building on the insights from the workshop and through further support provided by the component, IGAD launched the Sustainable Tourism Master Plan 2024–2034, which maps an ambitious path towards enhanced regional cooperation in the area of tourism and strengthening IGAD members' position in the global tourism market. Building on the success of the previous Sustainable Tourism Master Plan (2013–2023), during which tourism's contribution to the regional economy rose from 3.8 per cent to 11.4 per cent, the new plan focuses on leveraging IGAD members' rich cultural heritage, diverse landscapes and unique assets to drive socioeconomic growth. It emphasizes cross-border cooperation, capacity-building, infrastructure development and environmental sustainability, and highlights the need to address issues such as deforestation and marine preservation.

18.135 Progress towards the objective is presented in the performance measure below (see table 18.25).

Table 18.25
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	Road map for the new intergovernmental sustainable tourism master plan developed and agreed	IGAD launched its new Sustainable Tourism Master Plan covering the period 2024–2034

Planned results for 2026

Result 1: members of ECA shift from formulation to implementation of their African Continental Free Trade Area national strategies

Programme performance in 2024 and target for 2026

18.136 The component's work contributed to two additional members of ECA (Burundi and Djibouti) implementing their national strategies on the Agreement Establishing the African Continental Free Trade Area, which exceeded the planned target of one additional country.

18.137 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 18.26).

Table 18.26
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
An additional three countries (Comoros, Somalia and South Sudan) and one regional economic community (IGAD) formulated strategies for the implementation of the Agreement Establishing the African Continental Free Trade Area Two out of 14 countries (Kenya and Rwanda) started implementation of their national strategies on the Agreement Establishing the African Continental Free Trade Area	Two additional countries (Uganda and United Republic of Tanzania) implemented their national strategies on the Agreement Establishing the African Continental Free Trade Area	Two additional countries (Burundi and Djibouti) implemented their national strategies on the Agreement Establishing the African Continental Free Trade Area	One additional country implements its national strategy on the Agreement Establishing the African Continental Free Trade Area	One additional country implements its national strategy on the Agreement Establishing the African Continental Free Trade Area

Result 2: members of ECA and regional organizations develop investment promotion strategies

Programme performance in 2024 and target for 2026

18.138 The component's work contributed to one regional economic community (the East African Community) adopting the East African Community Blue Economy Strategy and Action Plan, which contains a component on investment promotion, which met the planned target.

18.139 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 18.27).

Table 18.27
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Northern Corridor Transit and Transport Coordination Authority developed a strategic plan to guide investment	Tourism investment guide developed by Burundi	The East African Community adopted the East African Community Blue Economy Strategy and Action Plan	One member of ECA develops a national strategy for investment promotion	One additional member of ECA develops a national strategy for investment promotion

Result 3: members of ECA implement regional frameworks on tourism and the blue economy

Proposed programme plan for 2026

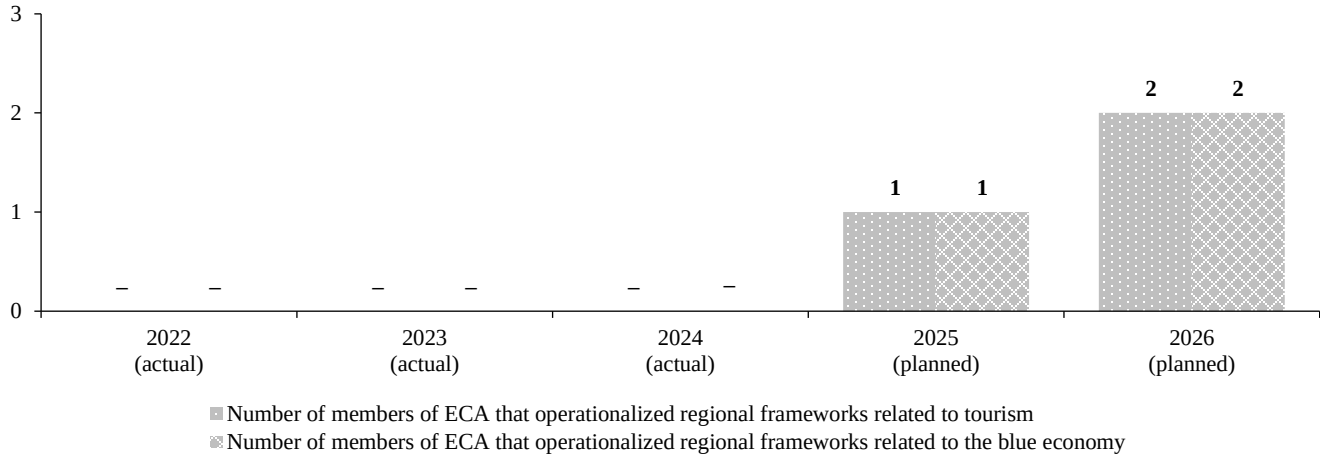
18.140 Tourism and the blue economy are vital drivers of sustainable economic growth, job creation, biodiversity conservation and resilience in coastal and maritime regions. The component works to strengthen the capacity of member States to harness the potential of the blue economy and tourism. With the component's support, Ethiopia, Kenya, Rwanda, Seychelles, Uganda and the United Republic of Tanzania finalized tourism satellite accounts, setting the foundation for the sustainable growth of the sector; and Djibouti, Seychelles and the United Republic of Tanzania customized the blue economy valuation toolkit for their national contexts to enable the effective management of blue economy resources. In 2024, the component supported the development of the IGAD Sustainable Tourism Master Plan and the East African Community Blue Economy Strategy and Action Plan.

Lessons learned and planned change

18.141 The lesson for the component was that working through regional blocs such as IGAD and the East African Community can help to accelerate the adoption and implementation of policies at the national level. In applying the lesson, the component will continue to expand its collaborative efforts with regional economic communities, leveraging their platforms for broader reach, synergy and policy coherence across member States.

18.142 Expected progress towards the objective is presented in the performance measure below (see figure 18.XXI).

Figure 18.XXI
Performance measure: number of members of ECA that operationalized regional development frameworks related to tourism and the blue economy at the national level (cumulative)



Deliverables

18.143 Table 18.28 lists all deliverables of the component.

Table 18.28
Subprogramme 7, component 4: deliverables for the period 2024–2026, by category and subcategory

20. On trade and tourism development in East Africa	–	–	2	1
21. On regional integration and implementation of the African Continental Free Trade Area	–	–	2	2
C. Substantive deliverables				
Consultation, advice and advocacy: advisory services to seven member States and/or regional organizations.				
D. Communication deliverables				
Outreach programmes, special events and information materials: distribution of information publications.				
External and media relations: quarterly engagements with national and regional media outlets.				
Digital platforms and multimedia content: monthly web-based information bulletins on global outreach.				

Component 5
Subregional activities in Southern Africa

Objective

18.144 The objective, to which this component contributes, is to deepen regional integration and strengthen capacities to achieve inclusive industrialization for the reduction of poverty and inequality in Southern Africa.

Strategy

18.145 To contribute to the objective, the component will:

(a) Undertake policy research and analysis on inclusive and sustainable industrialization, regional integration and trade, private sector development, and poverty and inequality, provide technical assistance to members of ECA, regional economic communities and intergovernmental organizations and disseminate best practices at the subregional and national levels in Southern Africa;

(b) Develop and disseminate policy tools and guidelines for the promotion of inclusive and sustainable industrialization, including value addition, manufacturing and value chain development, at the national and subregional levels in Southern Africa;

(c) Support members of ECA in the implementation of Vision 2050 of the Southern African Development Community (SADC) and its regional indicative strategic development plan for 2020–2030, thereby contributing to the achievement of Sustainable Development Goals 1, 8, 9 and 10 and related goals of Agenda 2063;

(d) Collaborate with partners, including the African Union Southern Africa Regional Office, SADC, the Common Market for Eastern and Southern Africa (COMESA), the African Development Bank, the African Export-Import Bank, private sector associations and research institutions:

(i) To strengthen the capacities of members of ECA to advance inclusive and sustainable industrialization and regional integration through implementation of the SADC industrialization strategy and road map (2015–2063), the SADC Regional Energy Access Strategy and Action Plan (2020–2030), the COMESA industrial policy (2015–2030), the African Continental Free Trade Area and the free trade areas of the regional economic communities;

(ii) To provide technical support for the development of strategies and guidelines for the integration of considerations related to climate change into industrialization and trade policies in Southern Africa;

(e) Build the capacities of members of ECA and the private sector:

(i) To address the challenges and opportunities of the green economy in the context of sustainable development and poverty eradication, and to increase productive capacities, in particular, given the situation of energy resource deficiency in the region and the impact of climate change on key sectors;

(ii) To address the impact of external shocks, by rolling out initiatives aimed at supporting their recovery and strengthening their resilience to future shocks;

(iii) To leverage digitalization, science, technology and innovation to facilitate growth, business development and enhanced productivity and competitiveness.

18.146 The above-mentioned work is expected to result in:

(a) Enhanced implementation of the SADC Vision 2050 and indicative strategic plan, the SADC industrialization strategy and road map and the COMESA industrial policy;

(b) Economic diversification and transformation through value addition and the development of sustainable regional value chains, accelerated by transboundary industrial clusters, hubs and special economic zones in selected members of ECA;

(c) Harmonization of national industrial policies with regional industrial frameworks and integration of considerations related to the environment and sustainability;

(d) Accelerated implementation of the Agreement Establishing the African Continental Free Trade Area and the free trade agreements of the regional economic communities, increased intraregional trade in goods and services and enhanced regional integration in Southern Africa;

(e) Increased resilience and competitiveness of the private sector and micro, small and medium-sized enterprises and enhanced participation in industry and trade in Southern Africa;

(f) Evidence-based policy responses related to poverty, inequality and vulnerability situations in Southern Africa through informed analyses of trends and causal factors.

Programme performance in 2024

Advanced integrated development planning in the Southern African Development Community region through digital solutions

18.147 Cooperation among countries on development planning enhances coherence between global, continental and regional development frameworks and national development plans, while also facilitating the monitoring of progress in achieving the agreed development objectives. The component provided technical support and advisory services to SADC member States towards the design and deployment of an online portal for the SADC National Planning Entities Platform, a forum established to foster cooperation on integrated development planning among the ministries, commissions or agencies responsible for national development planning in the 16 members of SADC. The online portal is a tool with multimedia archiving and retrieval functionality for data- and information-sharing on development priorities and emerging issues of common interest to facilitate cooperation among the national planning entities. Furthermore, the component delivered capacity-building training, through which officials (administrators, planners and other technical users) from SADC member States and officials from the SADC secretariat were equipped with technical knowledge and skills for using the digital tool.

18.148 Progress towards the objective is presented in the performance measure below (see table 18.29).

Table 18.29
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
The SADC National Planning Entities Platform was revived and operationalized	National planning entities of members of SADC engaged in consultations on a tool to facilitate information-sharing on development planning	Officials from SADC member States and the SADC secretariat utilize the online portal for the SADC National Planning Entities Platform to exchange information and experience on development planning

Planned results for 2026

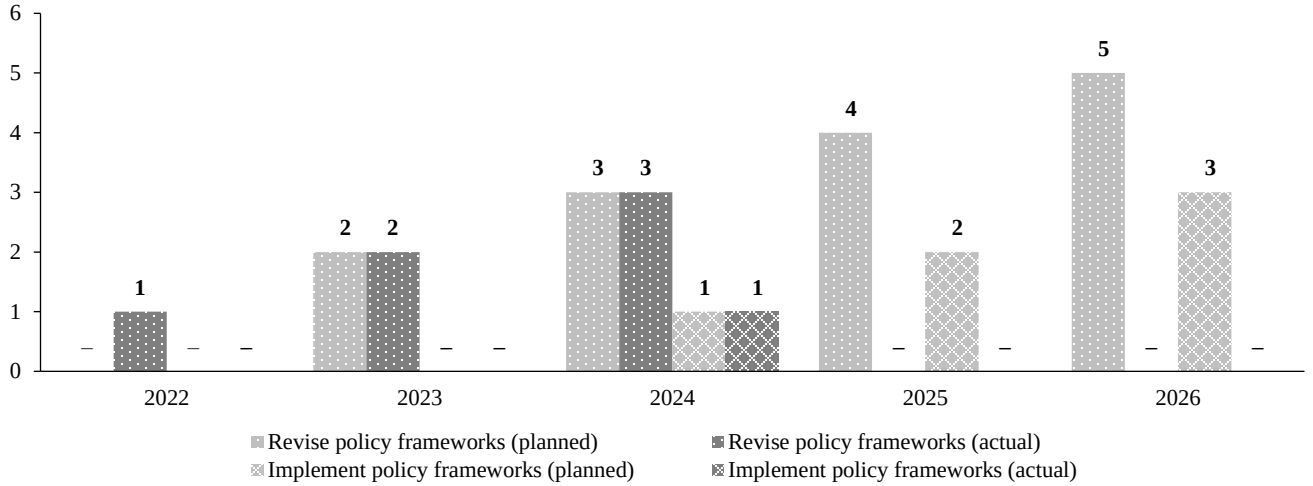
Result 1: Southern African members of ECA revise and implement their national industrial policy frameworks in line with regional industrialization strategies

Programme performance in 2024 and target for 2026

18.149 The component's work contributed to the revision by Lesotho of its national industrial policy and the implementation of national industrial policy in Zimbabwe, which met the planned targets.

18.150 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 18.XXII).

Figure 18.XXII
Performance measure: number of Southern Africa members of ECA revising and implementing their national industrial policy frameworks in line with regional industrialization strategies (cumulative)



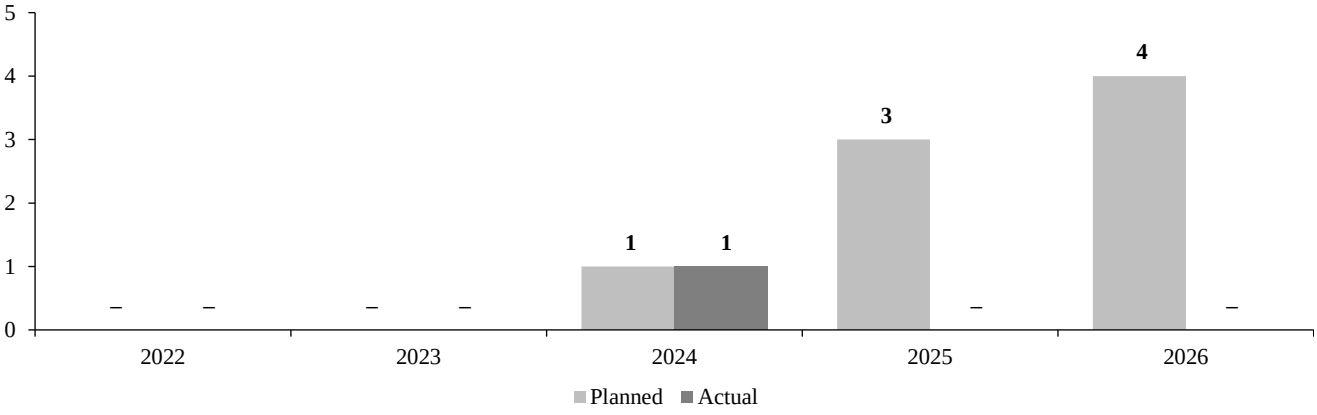
Result 2: accelerating the transition towards more sustainable economies in Southern Africa

Programme performance in 2024 and target for 2026

18.151 The component's work contributed to one policy intervention developed by Mauritius (business information portal on renewable energy technologies) to support the transition towards more sustainable economies, which met the planned target.

18.152 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 18.XXIII).

Figure 18.XXIII
Performance measure: number of policy interventions developed by countries and regional economic communities in Southern Africa to support the transition towards more sustainable economies (cumulative)



Result 3: inclusive industrialization through value chain development in Southern Africa

Proposed programme plan for 2026

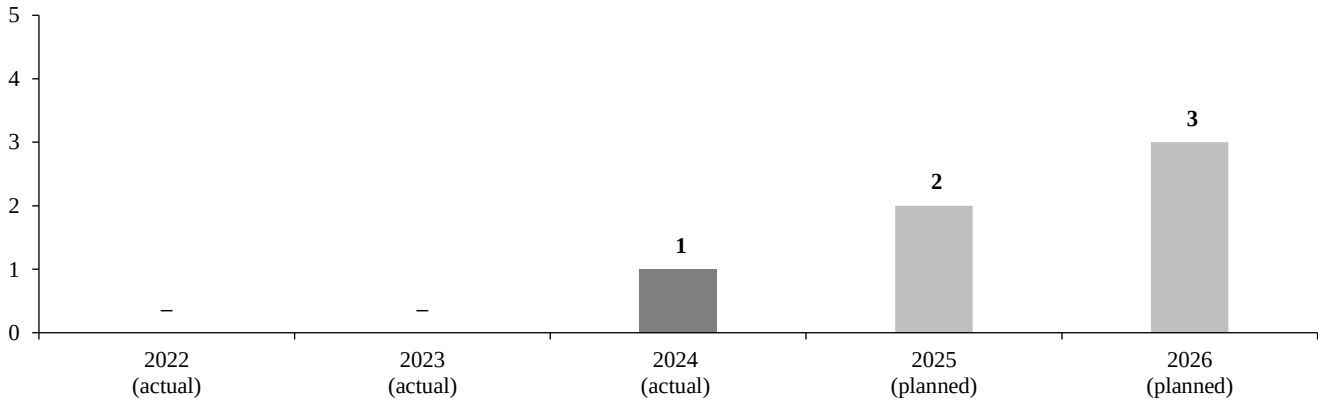
18.153 Southern Africa is characterized by commodity-dependent economies with low levels of value addition. In this context, value chain development has been recognized as a crucial driver of inclusive industrialization, in view of its potential for expanding production possibilities and enhancing the utilization of both natural and human resources. Value chain development is an important lever of industrialization and therefore an essential contributor to broad-based economic growth and job creation, and is critical for poverty and inequality reduction. The component has been providing technical support to members of ECA aimed at strengthening their capacities to develop and implement policy interventions on value chain development and inclusive industrialization. The component has also produced knowledge products to support value chain development and inclusive industrialization.

Lessons learned and planned change

18.154 The lesson for the component was that the development of regional value chains requires strengthened cooperation among member States, collaboration among development partners and the sustained engagement of the private sector. In applying the lesson, the component will strengthen institutional coordination and continued engagement with member States and the private sector in supporting regional value chain development. Furthermore, the component will place more emphasis on providing technical assistance and capacity-building for the development of regional value chains and related interventions such as the establishment of special economic zones in supporting the industrialization agenda.

18.155 Expected progress towards the objective is presented in the performance measure below (see figure 18.XXIV).

Figure 18.XXIV
Performance measure: number of Southern African countries that develop policy frameworks on value chain development (cumulative)



Deliverables

18.156 Table 18.30 lists all deliverables of the component.

Table 18.30

C. Substantive deliverables

Consultation, advice, and advocacy: advisory services, upon request by members of ECA and regional economic communities, on inclusive industrialization, development of regional value chains and special economic zones, development of the private sector and micro, small and medium-sized enterprises, and implementation of the African Continental Free Trade Area Agreement.

Databases and substantive digital materials: database of economic and social statistics on the 11 members of ECA in Southern Africa.

Category and subcategory	2024 planned	2024 actual	2025 planned	2026 planned
D. Communication deliverables				
Outreach programmes, special events, and information material: production and distribution of publications.				
Digital platforms and multimedia content: subprogramme's website; content for social media accounts and communities of practice.				

Subprogramme 8
Economic development and planning

Objective

18.157 The objective, to which this subprogramme contributes, is to strengthen the development planning of African countries and to improve their capacity to formulate and manage effective public sector policies for structural transformation and sustainable development.

Strategy

18.158 To contribute to the objective, the subprogramme will:

(a) Deliver training on sectoral, national and regional development and medium- to long-term planning to address the socioeconomic impact of emerging crises, based on updated content on risk-informed economic and social policy formulation and management;

(b) Promote peer learning and collaboration among African development planners through communities of practice and broaden access to the digitized knowledge repository of the African Institute for Economic Development and Planning;

(c) Enhance countries' capacity to monitor and evaluate the implementation of the 2030 Agenda and Agenda 2063, and of national development agendas;

(d) Foster knowledge generation, cross-fertilization and knowledge-sharing through research products, fellowship programmes, development seminars and high-level policy dialogues, and also through research networks spanning multiple African countries and bringing together universities, think tanks, United Nations country teams and regional stakeholders;

(e) Support the integration of a gender perspective and youth-related issues in all relevant public policies through capacity-building programmes that also consider issues such as social inclusion, entrepreneurship, employment, the green economy in the context of sustainable development and poverty eradication, innovation and digital transformation.

18.159 The above-mentioned work is expected to result in:

(a) Increased engagement of development planners and policymakers in policy management and development planning processes that take into account global developments and emerging risks, in support of structural transformation and the increased resilience of national economies to ensure sustainable development;

(b) More effective formulation, management and influencing of public policies by officials and other stakeholders;

(c) More inclusive approaches to the formulation of development policies by members of ECA, including through the formulation of macroeconomic and social protection policies.

Programme performance in 2024

Members of ECA design policies to foster regional and international trade

18.160 Intra-African trade is a key driver of sustainable and inclusive economic growth, fostering employment opportunities, promoting gender equality and enhancing the overall welfare of African populations. The subprogramme contributes directly to these goals by supporting the implementation of the African Continental Free Trade Area through targeted capacity-building initiatives. In 2024, the subprogramme provided training to 464 participants on the establishment of inclusive, development-friendly trade arrangements, as part of its efforts to enhance the share of selected African countries in global trade. In addition, the subprogramme supported member States in developing national capacity-building policies to enhance trade within the framework of the African Continental Free Trade Area. As a result of this support, Côte d'Ivoire, Ghana, Kenya, Mozambique, Senegal, Uganda and the United Republic of Tanzania designed regional and international trade policies following country-specific capacity needs assessments conducted by the subprogramme in 2023. The policies focused on creating enabling environments for small and medium-sized enterprises and pathways to foster regional and international trade.

18.161 Progress towards the objective is presented in the performance measure below (see table 18.31).

Table 18.31
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Seven members of ECA designed policies to foster regional and international trade and create enabling environments for small- and medium-sized enterprises

Planned results for 2026

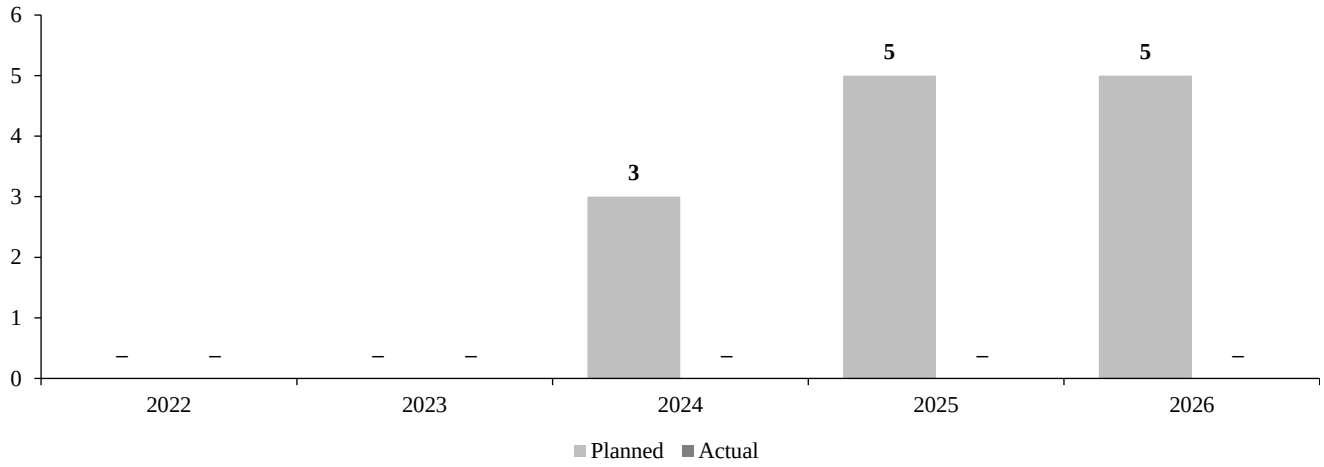
Result 1: members of ECA integrate social protection into development planning and economic analysis

Programme performance in 2024 and target for 2026

18.162 The subprogramme's work contributed to policymakers strengthening their capacity to integrate considerations related to gender equality into economic and social policies, which did not meet the planned target of three members of ECA developing policies that integrate social protection. The target was not met as additional support from ECA was required to translate identified needs into development planning processes.

18.163 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 18.XXV).

Figure 18.XXV
Performance measure: number of members of ECA whose development policies integrate social protection (annual)



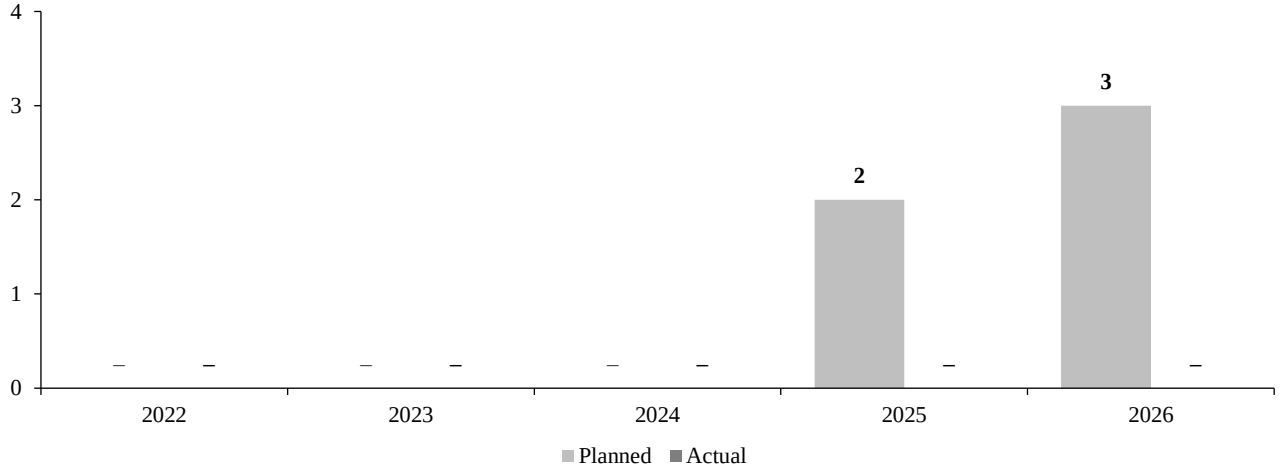
Result 2: members of ECA develop a future-ready workforce

Programme performance in 2024 and target for 2026

18.164 The subprogramme's work contributed to progress towards the planned target for 2025, with 417 officials equipped with skills in strategic foresight and system dynamics and strengthened institutional capacities to establish reskilling and upskilling programmes.

18.165 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 18.XXVI).

Figure 18.XXVI
Performance measure: number of ECA members having established reskilling and upskilling programmes (cumulative)



Result 3: strengthened localized development planning and development financing

Proposed programme plan for 2026

18.166 Localized development planning ensures that solutions are tailored to the unique needs, resources and opportunities of communities, promoting equitable growth and resilience and addressing key

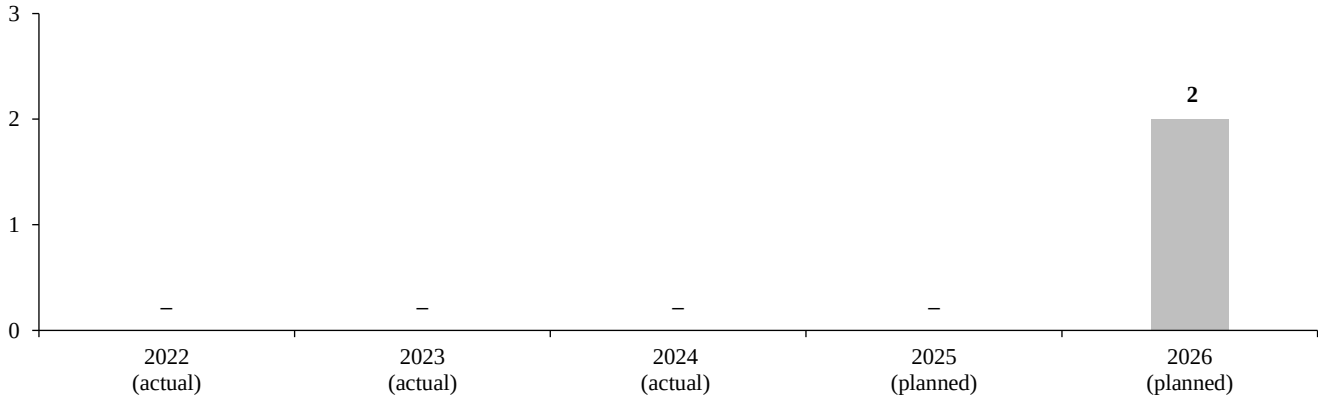
issues such as poverty, inequality and climate change. While national, regional and global frameworks provide strategic guidance, many countries face challenges in translating these into actionable, localized plans. This gap is often attributed to inadequate technical capacities, limited data for evidence-based decision-making and insufficient financial resources.

Lessons learned and planned change

18.167 The lesson for the subprogramme was that effective localized planning and development financing require deeper engagement with subnational governments and local stakeholders. Previous capacity-building programmes were often too broad and not designed to address local contexts and priorities. In applying the lesson, the subprogramme will enhance its focus on supporting local authorities to design local development initiatives and to integrate lessons learned and findings into their training and planning frameworks. Utilizing a participatory approach, it will also strengthen partnerships with local governments and community stakeholders to co-design capacity-building initiatives on development planning. Regular consultations with local actors and targeted technical assistance will ensure that development strategies are context-specific, while fostering development financing solutions tailored to local needs.

18.168 Expected progress towards the objective is presented in the performance measure below (see figure 18.XXVII).

Figure 18.XXVII
Performance measure: number of local development initiatives developed by local authorities (annual)



Deliverables

18.169 Table 18.32 lists all deliverables of the subprogramme.

Table 18.32
Subprogramme 8: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**1**	**1**	**1**	**1**
1. Report to the Conference of African Ministers of Finance, Planning and Economic Development and the Committee of Experts of the Economic Commission for Africa	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	**4**	**3**	**3**	**3**
2. Statutory meetings of the Governing Council of the African Institute for Economic Development and Planning	2	1	2	2

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
3. Meetings of the Technical Advisory Committee of the Governing Council of the African Institute for Economic Development and Planning	2	2	1	1
Conference and secretariat services for meetings (number of three-hour meetings)	**4**	**3**	**3**	**3**
4. Meetings of the Governing Council of the African Institute for Economic Development and Planning	2	1	2	2
5. Meetings of the Technical Advisory Committee of the Governing Council of the African Institute for Economic Development and Planning	2	2	1	1
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**53**	**51**	**42**	**42**
6. Projects to design and deliver a portfolio of training programmes (in English and French) on development planning and economic management, for senior and executive-level public officials from African countries	50	50	40	40
7. Projects to design and deliver master's degree programmes on industrial policy, development planning and natural resources governance for senior and executive-level public officials from African countries	1	–	1	1
8. Visiting research fellowships for policy researchers and African policy officials on development planning and economic management	2	1	1	1
Seminars, workshops and training events (number of days)	**12**	**12**	**10**	**10**
9. Seminars on development planning and economic management for African senior policymakers	12	12	10	10
Publications (number of publications)	**4**	**–**	**2**	**2**
10. On economic management and development planning	4	–	2	2
Technical materials (number of materials)	**20**	**20**	**20**	**20**
11. On economic management and development planning	20	20	20	20

C. Substantive deliverables

Consultation, advice and advocacy: advisory services to five members of ECA and three regional economic communities on economic management, development planning and capacity-building.

Databases and substantive digital materials: two communities of practice for African development planners.

D. Communication deliverables

Outreach programmes, special events and information materials: information kit for the African Institute for Economic Development and Planning high-level policy dialogues involving policymakers, the private sector and subject-matter experts on issues pertaining to African economic development and planning.

External outreach and media relations: strategic plan, training brochures, booklets, leaflets, kakemonos, banners and assorted accessories.

Library services: books, journals and other library materials on economic management and development planning in French and English.

Subprogramme 9
Poverty, inequality and social policy

Objective

18.170 The objective, to which this subprogramme contributes, is to eradicate extreme poverty and reduce inequality by ensuring that members of ECA have improved policies and strategies for social investment and productive urban job creation.

Strategy

18.171 To contribute to the objective, the subprogramme will:

(a) Develop analytical knowledge, provide technical assistance and promote regional dialogue and learning for members of ECA on designing national social policies and strategies for the eradication of extreme poverty and provision of social protection to the most vulnerable;

(b) Generate knowledge, provide technical assistance to members of ECA and organize regional dialogue and learning on strategies to leverage migration for inclusive development in Africa;

(c) Develop analytical knowledge and provide technical assistance to members of ECA in the regional implementation and appraisal of global agreements, including the Global Compact for Safe, Orderly and Regular Migration, the Madrid International Plan of Action on Ageing, 2002, the Programme of Action of the International Conference on Population and Development, the Addis Ababa Declaration on Population and Development in Africa beyond 2014 and the New Urban Agenda;

(d) Enhance knowledge and skills of members of ECA through technical assistance and facilitating regional policy learning and dialogue to promote sustainable urbanization that enhances job creation, revenues and urban social protection.

18.172 The above-mentioned work is expected to result in:

(a) Enhanced, evidence-based policy options for the provision of social protection for the economically vulnerable population;

(b) Strengthened responses by members of ECA to address migration and population and development challenges and opportunities;

(c) Increased prioritization of productive urban job creation in national development planning towards eradicating extreme poverty and reducing inequality;

(d) Improved economic and financial resilience in African cities.

Programme performance in 2024

Members of ECA monitor the state of migration in Africa

18.173 In line with General Assembly resolution 73/195, ECA conducted the second regional review of the Global Compact for Safe, Orderly and Regular Migration in October 2024, in Addis Ababa. The intergovernmental forum on the Global Compact brought together ministers from 50 African nations, United Nations agencies, civil society organizations and other stakeholders to assess achievements since the first Africa review in 2021, while also identifying regional priorities, gaps and challenges. Delays in implementation of the Global Compact, inadequate economic prospects, poor border control and limited frameworks were among the challenges discussed. To improve governance and policymaking on migration, participants advocated for increased cooperation and harmonized data-sharing procedures. Members of ECA adopted, at the forum, a common African agenda on migration, which will inform the International Migration Review Forum, scheduled to take place in 2026.

18.174 Progress towards the objective is presented in the performance measure below (see table 18.33).

Table 18.33
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Ten members of ECA adopted recommendations on improving the status of migration statistics, which informed preparations for the review of the Global Compact for Safe, Orderly and Regular Migration under thematic area four, namely data, evidence-based policies and international cooperation	Members of ECA undertook preparatory work on the second regional review of the Global Compact	Members of ECA adopted a common African agenda on the Global Compact

Planned results for 2026

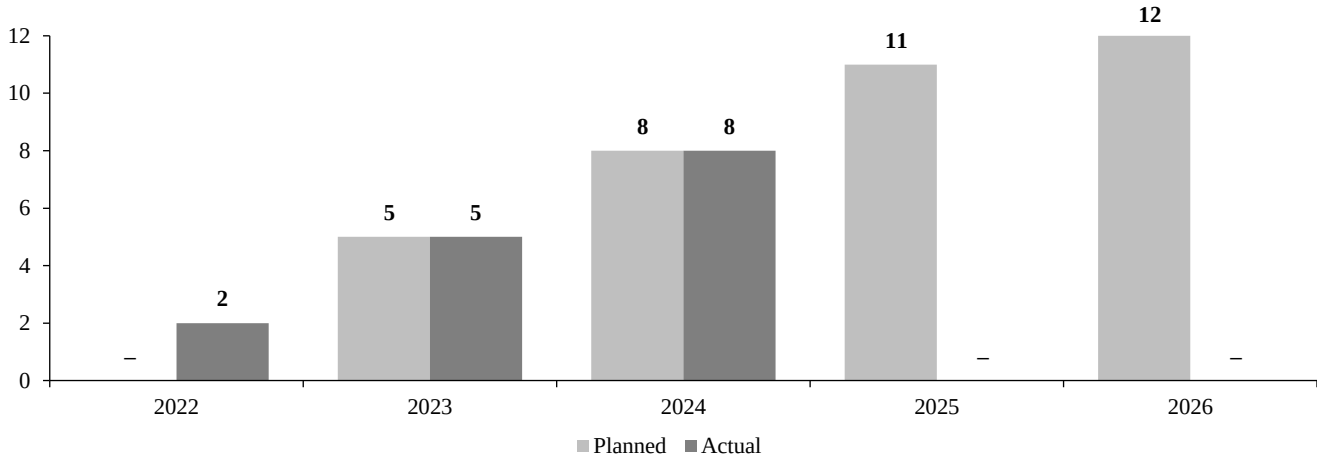
Result 1: local governments design resource mobilization policies for improved financial sustainability

Programme performance in 2024 and target for 2026

18.175 The subprogramme's work contributed to the use by three additional cities (Addis Ababa, Lusaka and Nairobi) of the gross domestic product assessment framework with methodologies, tools, dimensions and indicators to measure the size of the gross domestic product and fiscal performance of cities for a cumulative total of eight cities, which met the planned target.

18.176 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 18.XXVIII).

Figure 18.XXVIII
Performance measure: number of cities that have assessed their fiscal performance as the evidence base for designing improved fiscal policies and planning (cumulative)



Result 2: improved social protection systems for the most vulnerable

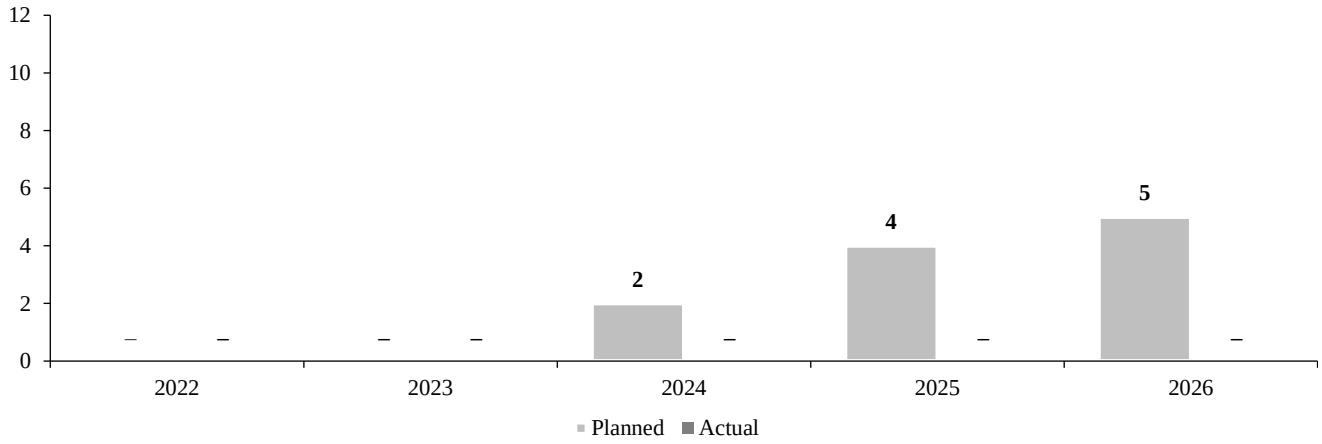
Programme performance in 2024 and target for 2026

18.177 The subprogramme's work contributed to three members of ECA (Namibia, United Republic of Tanzania and Zambia) initiating assessments of social protection systems, which did not meet the

planned target of two members having assessed their social protection systems. The target was not met owing to the need for more capacity-building by ECA before assessments could be conducted.

18.178 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 18.XXIX).

Figure 18.XXIX
Performance measure: number of members of ECA that have assessed their social protection systems (cumulative)



Result 3: strengthened national and regional reviews of population-related frameworks to promote sustainable development and leave no one behind

Proposed programme plan for 2026

18.179 Africa is undergoing major demographic shifts in the size, age structure and distribution of its population, which present several implications for sustainable development. Population dynamics, if adequately addressed, can reduce poverty and inequality, thus ensuring that no one is left behind. The subprogramme has supported members of ECA in aligning regional and national solutions with international population dynamics-related frameworks. The subprogramme has also supported members of ECA in reviewing implementation of the frameworks and advocating for African common positions at the global level.

Lessons learned and planned change

18.180 The lesson for the subprogramme was that sustained support on population dynamics is critical for policies to account for population challenges and better respond to the needs of the most vulnerable. In applying the lesson, the subprogramme will scale up its technical support to members of ECA in the implementation and review of population dynamics-related international frameworks. This will include capacity-building of policymakers in tracking population dynamics such as migration, ageing and youth to enable members of ECA to adapt their social policies to new and evolving demographic trends in Africa. The support will further include the generation and delivery of knowledge and evidence on population dynamics to inform the formulation and review of social policies.

18.181 Expected progress towards the objective is presented in the performance measure below (see table 18.34).

Table 18.34
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Governments in the Africa region agreed on modalities to undertake an assessment of the status of population dynamics in Africa at the fourth ordinary session of the African Union Specialized Technical Committee on Health, Population and Drug Control	ECA members reviewed progress and identified gaps and challenges in the implementation of international population dynamics-related frameworks and adopted a common African position on population and development	Members of ECA adopted a common African agenda on the Global Compact for Safe, Orderly and Regular Migration Outcomes of the Africa regional review of the International Conference on Population and Development informed discussions at the global 30-year Review of the Implementation of the Programme of Action of the Conference	Fifteen members of ECA prepare their voluntary national reviews on migration Members of ECA access information for developing an action-oriented political document on social development for the Second World Social Summit for Social Development	Members of ECA prepare an outcome document to share regional progress on the Global Compact for Safe, Orderly and Regular Migration at the 2026 International Migration Review Forum

Deliverables

18.182 Table 18.35 lists all deliverables of the subprogramme.

Table 18.35
Subprogramme 9: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*

16. On social protection	–	–	1	1
17. On social development	1	1	–	1
18. On migration	1	2	1	1

C. Substantive deliverables

Consultation, advice, and advocacy: advice to national policymakers in seven selected members of ECA; advice for improved capacities in policy formulation, implementation, and monitoring; policy dialogues for enhanced policy learning and exchange at the national and regional levels.

D. Communication deliverables

Outreach programmes, special events and information materials: brochures pertinent to its workshops and training programmes in social policy, and urbanization and development in two languages.

External and media relations: press and media releases on the role of cities and social policy in the development of Africa accessed by at least 200 experts.

Digital platforms and multimedia content: digital platform and visual materials on urbanization, social protection and vulnerability, and social policy, among other issues.

Annex

Programme performance in 2024[1]

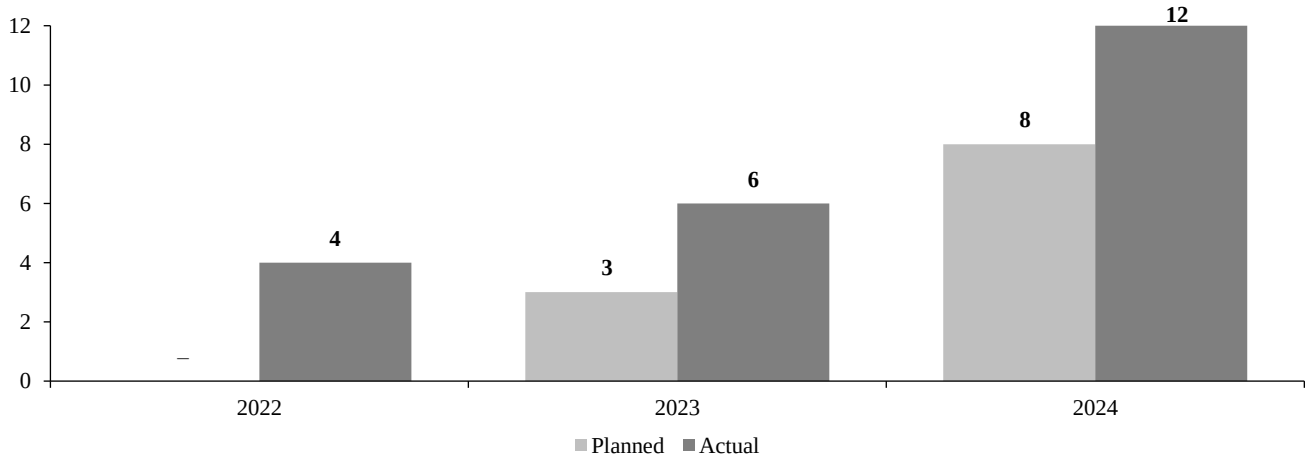
Subprogramme 3
Private sector development and finance

Result 1: increased commitment by members of ECA to liberalize air transport markets

A.1 The subprogramme's work contributed to an additional six countries (Togo, Chad, Ghana, Mozambique, Niger and Gambia) aligning their bilateral air transport agreement with the Yamoussoukro Decision on air transport liberalization, airport security and air safety in the regions of the Economic Community of West African States, for a total of 12 countries, which exceeded the planned target of eight countries.

A.2 Progress towards the objective is presented in the performance measure below (see figure A.I).

Figure A.I
Number of countries aligning their bilateral air transport agreements with the Yamoussoukro Decision (cumulative)



Deliverables

A.3 Table A.1 lists all deliverables of the subprogramme.

13. On repurchase agreement markets among African regulators and market stakeholders	2	–

Subprogramme 5
Technology, climate change and natural resources management

Result 1: members of ECA develop inclusive, climate-resilient and sustainable economies

A.4 The subprogramme's work contributed to the integration by two countries (Liberia and Zimbabwe) of climate resilience and nationally determined contributions into national development policies and plans, which did not meet the planned target of four countries. The target was not met owing to challenges in mobilizing extrabudgetary resources to expand ECA support to additional countries.

A.5 Progress towards the objective is presented in the performance measure below (see table A.2).

Table A.2
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Three countries (Eswatini, Morocco and Zimbabwe) engaged with the private sector in the implementation of nationally determined contributions	One country (Niger) integrated climate resilience in its national development policies and plans	Two additional countries implemented revised nationally determined contributions and promulgated low emissions development policies

Deliverables

A.6 Table A.3 lists all deliverables of the subprogramme.

B. Proposed post and non-post resource requirements for 2026

Overview

18.183 The Economic Commission for Africa (ECA) has embarked on the implementation of its realigned programme of work, as endorsed by its members at the fifty-sixth session of the Conference of African Ministers of Finance, Planning and Economic Development (resolutions 2024/2 and 2024/3). The realignment was proposed as the result of a reflection and analysis that culminated in early 2024 and was focused on deriving lessons learned from the vulnerabilities exposed by the coronavirus disease (COVID-19) pandemic and the multiple crises facing the African continent. The ultimate goal of the realignment was to further streamline support provided by ECA to its 54 member States in addressing emerging priorities and challenges related to the timely and effective implementation of the 2030 Agenda and the second 10-year implementation plan of Agenda 2063. The realigned programme of work was presented in the proposed programme budget for 2025 and approved by the General Assembly in its resolution 79/247.

18.184 Armed with its realigned programme of work, and in line with the actions set out in the Pact for the Future, ECA decided to re-enforce its work on technology, innovation and digital transformation; poverty and social policy; data and statistics; financing for development; climate action and food security; and regional integration, economic diversification and sustainable industrialization. To that end, the importance of the new Technology, Innovation, Connectivity and Infrastructure Development Division was reaffirmed as key to the renewed commitment of ECA to the Sustainable Development Goals.

18.185 In support of the realignment efforts, ECA carried out a spending review pursuant to paragraph 20 of General Assembly resolution 77/262, as part of its proposed budget exercise for 2026, also taking into account the United Nations 2.0 initiative of the Secretary-General, in which he had advocated institutional transformation through renewed skills, processes and culture change to ensure stronger impacts and to adapt to future challenges and opportunities. The spending review process was accompanied by a joint integrated resource planning exercise whereby all programme managers came together to discuss and agree on how to secure an optimal distribution of human, material and financial resources (both regular and extrabudgetary) in support of the strategic priorities of ECA. The spending review incorporated results from an earlier workforce planning exercise and included an in-depth analysis of the latest post complement and functional profiles, as well as non-post resource types and distribution. Furthermore, the spending review process was designed to reflect the outcomes of the review of the support architecture of ECA by the Department of Operational Support.

18.186 As part of the spending review process, ECA has reprofiled vacancies resulting from retirements to enhance efficiency and ensure better alignment with the priorities of its member States. For instance, ECA has proposed the abolishment of a P-5 post in 2026 and, in its place, the creation of a P-3 and a National Professional Officer post to help to strengthen the Technology, Innovation, Connectivity and Infrastructure Development Division under subprogramme 3, in line with its strategic priorities. During the spending review, ECA identified the need for additional General Service posts: a Research Assistant for regional integration and trade, Photographers to strengthen digital communication and a Transport Assistant for the subregional office in West Africa. To fulfil those requirements without incurring additional costs, ECA proposes the reprofiling of existing posts. In that manner, ECA is progressing towards a leaner, more agile workforce, optimizing existing resources to enhance efficiency and meet future demands.

18.187 In addition, the spending review provided an opportunity to conduct a deeper review of non-post expenditure trends over the past five years, resulting in a proposal to realign requirements among non-post objects of expenditure, reflecting efficiencies and underutilization in relation to experts, contractual services and furniture and equipment. These efficiencies supported additional requirements under consultants, travel of staff and improvement of premises that are needed for 2026.

18.188 Furthermore, the spending review exercise, including the review and analysis of the Department of Operational Support, pointed to efficiencies that could be realized through the streamlining of staff functions to free up resources that could be redirected towards ECA strategic priorities, through the utilization of existing staff capacity to expand service provision beyond ECA to other Secretariat and United Nations system entities under the Secretariat's proposed common administrative platform for the Addis Ababa duty station and through the common back office system. Opportunities were examined for maximizing the utilization of the vehicle fleet by digitalizing service delivery, offering transport services to agencies, funds and programmes, leasing low-emission vehicles as part of its fleet and exploring additional efficiency opportunities within ECA, with other Secretariat entities and United Nations system organizations in Addis Ababa and in the regional office locations. To that effect, ECA has, for example, programmed the replacement of its fully depreciated vehicles beginning in 2027 through the use of the United Nations fleet. Additional responses to the findings under the spending review will form part of the future budget proposals of ECA.

18.189 ECA will further invest in innovative technologies, in line with the Global Digital Compact and the related efforts to further mainstream the Data Strategy of the Secretary-General for Action by Everyone, Everywhere. Doing so will allow ECA to improve its programme support processes and ensure efficiencies in its delivery of training and technical support to its member States through e-learning tools, digital platforms and other leading-edge technologies. On a related note, ECA will also expand its use of frontier technologies, such as artificial intelligence, in order to reimagine its knowledge management and communications strategies, with a view to amplifying the impact of its work.

18.190 The proposed regular budget resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 18.36 to 18.41.

Table 18.36

18.191 Additional details on the distribution of the proposed resources for 2026 are reflected in tables 18.39 to 18.41 and figure 18.XXX.

Note: The following abbreviations are used in tables and figures: GS (OL), General Service (Other level); LL, Local level; NPO, National Professional Officer; USG, Under-Secretary-General.

18.192 As shown in tables 18.39 (1) and 18.40 (1), the overall resources proposed for 2026 amount to $93,456,300, reflecting a net decrease of $405,200 (or 0.4 per cent) as compared with the approved budget for 2025. Resource changes result from technical adjustments and other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

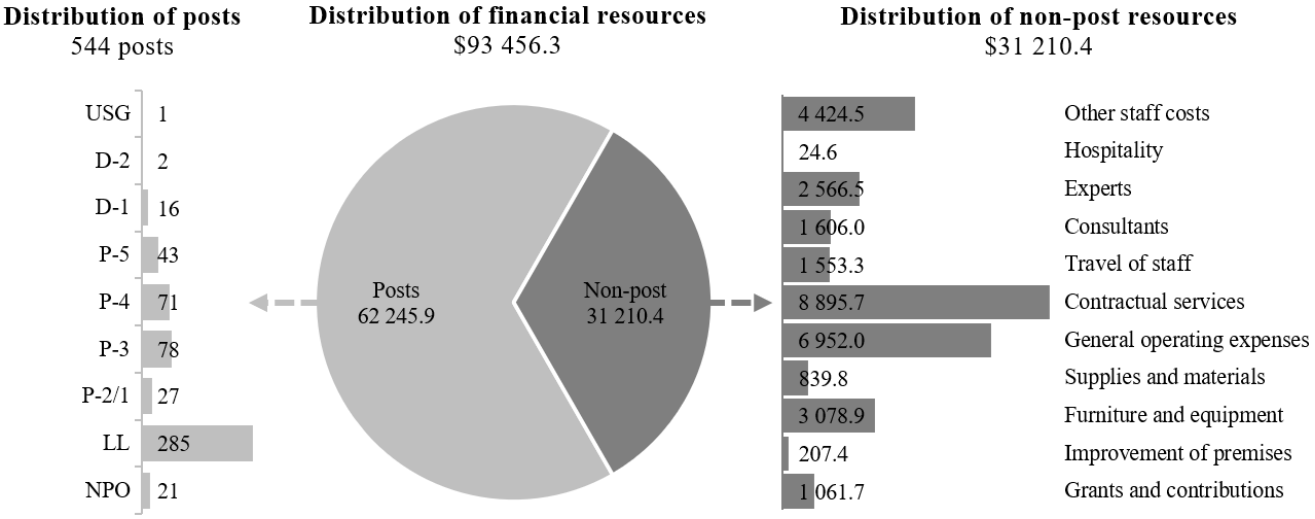
Figure 18.XXX
Distribution of proposed resources for 2026
(Number of posts/thousands of United States dollars)



Explanation of variances by factor, component and subprogramme

Overall resource changes

Technical adjustments

18.193 As shown in table 18.39 (1), resource changes reflect a decrease of $311,600 under programme support and are related to the removal of non-recurrent requirements under grants and contributions for the Africa Hall project, as approved by the General Assembly for 2025 in its resolution 79/258. Owing to the completion of the project, there are no resource requirements for 2026.

Other changes

18.194 As shown in table 18.39 (1), resource changes under other changes reflect a net decrease of $93,600. The changes will be cost-neutral overall, once the impact on the programme budget for 2027 is taken into account, except for an increase of $22,100 under contractual services related to the higher standard price of the core software package for non-field personnel outside United Nations Headquarters. More information is provided in subparagraph (k) below. The changes include: the transfer of post resources between executive direction and management and subprogramme 2; a net increase of $46,600 under subprogramme 8, relating mainly to additional support for statutory sessions of the African Institute for Economic Development and Planning; a net decrease of $101,200 under programme support, related mainly to reductions in contractual services due to reassessed needs and past underutilization, including as a result of the digitization of documents and workshop materials; and the realignments resulting from the spending review, including the conversion of long-term general temporary assistance positions to posts in order to strengthen mandate delivery in priority areas, and realignments of requirements among non-post objects of expenditure, reflecting efficiencies and underutilization under experts, contractual services and furniture and equipment that supported additional requirements under consultants, travel of staff and improvement of premises, as follows:

(a) An increase of $1,280,900 under posts and a reduction of $1,540,800 under other staff costs, which relate mainly to the conversion of 11 general temporary assistance positions to posts and a reduced dependence on temporary staff due to internal restructuring resulting from the spending review;

(b) An increase of $322,400 under consultants, which relates mainly to additional requirements for specialized expertise in addressing the programmatic complexities of subprogramme 5 with regard to meeting key deliverables;

(c) A decrease of $194,100 under experts, resulting from a reduction in in-person meetings and an increased use of virtual platforms;

(d) An increase of $88,800 under travel of staff, which relates to required in-person travel, in particular to areas where Internet access is still a challenge;

(e) A decrease of $299,200 under contractual services, due mainly to reassessed needs and past underutilization, including the digitization of documents and workshop materials;

(f) An increase of $168,800 under general operating expenses, which relates mainly to increases in non-discretionary expenditure, such as for fuel, water and electricity;

(g) A decrease of $67,700 under supplies and materials, which relates mainly to the transition to digital workflows and to sustainability and paperless initiatives;

(h) A decrease of $123,800 under furniture and equipment, which relates mainly to reduced procurement needs based on the current inventory;

(i) An increase of $135,500 under improvement of premises, which relates mainly to scheduled maintenance aimed at ensuring workplace safety and functionality;

(j) An increase of $135,600 under grants and contribution, which relates mainly to support for statutory sessions of the African Institute for Economic Development and Planning and support for the subregional office in North Africa;

(k) A net decrease of $93,600, which takes into account the future increase of $115,700 that will be reflected as a technical adjustment in the proposed programme budget for 2027 for the normalization of the costing for two new posts (1 P-3 and 1 National Professional Officer) proposed for establishment in 2026 and subject to a 50 per cent vacancy rate for the first year, in line with the established practice. The decrease also takes into account the net increase of $22,100 under contractual services related to the higher standard price of the core software package.

Extrabudgetary resources

18.195 As reflected in tables 18.39 (2) and 18.40 (2), extrabudgetary resources amount to $17,187,600, reflecting a decrease of $9,289,100 (35.1 per cent), which is due mainly to the completion of a large number of projects, in particular in the area of regional integration and trade, and anticipated reductions by the largest ECA donors. The extrabudgetary resources would complement regular budget resources and would be used mainly to provide for 75 posts (1 D-1, 1 P-4, 5 P-3, 14 National Professional Officer and 54 Local Level) to perform mainly the functions of providing technical expertise and management and administrative support for technical cooperation projects and the office operations of ECA. In addition, non-post resources would be used mainly to provide for financing technical cooperation activities in order to build the capacities of member States in areas such as enhancing regional cooperation and integration through increased trade flows, the implementation of the African Union digital trade architecture and the promotion of regional value chains.

18.196 The extrabudgetary resources under this section are subject to the oversight of the Executive Secretary of ECA, who has delegated authority from the Secretary-General.

Policymaking organs

18.197 The resources proposed under this component would provide for the policymaking organs as shown in table 18.42.

Table 18.42

Total		**565.3**	**565.3**

18.198 The proposed regular budget resources for 2026 amount to $565,300 and reflect no change compared with the approved budget for 2025. Additional details on the distribution of the proposed resources for 2026 are reflected in table 18.43 and figure 18.XXXI.

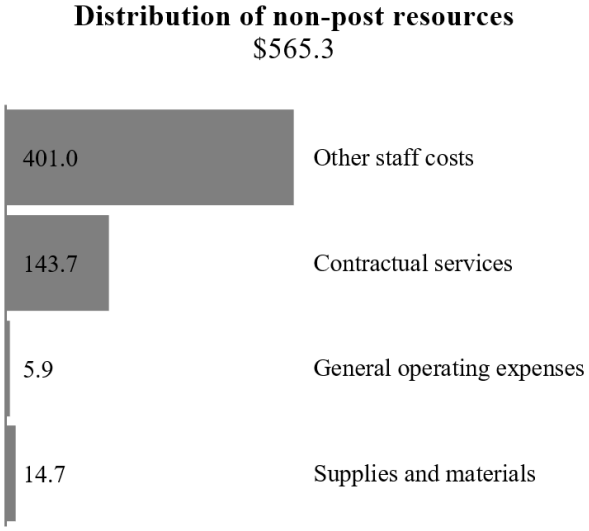
(Number of posts/thousands of United States dollars)



Executive direction and management

18.199 The executive direction and management component comprises the Office of the Executive Secretary; the Office of the Deputy Executive Secretary (Programmes); the Office of the Deputy Executive Secretary (Programme Support); the Strategic Planning, Oversight and Results Division; the Partnerships and Resource Mobilization Section; the Unit of the Secretary to the Commission; the External Communications and Media Relations Section; and business continuity.

18.200 The main responsibilities of the executive direction and management component are:

(a) Maintaining and managing effective partnerships and collaborating with major African organizations;

(b) Ensuring that the development priorities and positions of Africa on critical issues are reflected at the global level;

(c) Determining the overall strategic direction and management of the ECA secretariat, ensuring the optimal use of resources in line with best practices and promoting environmental sustainability and disability inclusion.

18.201 In accordance with the 2030 Agenda, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting

cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, ECA is integrating environmental management practices into its operations. In 2026, ECA will continue to reduce its greenhouse gas footprint and will maintain its greenhouse gas neutrality by offsetting its remaining footprint.

18.202 Information on the timely submission of documentation and advance booking for air travel is reflected in table 18.44. ECA is endeavouring to redouble its efforts to plan well in advance and raise the awareness of programme managers and member State focal points on the importance of early nomination of travellers and the policy regarding advance booking. In addition, ECA continues its corporate agreement with the airlines, which provides for extended ticketing time limits, thus mitigating the impact on the additional cost of late purchases and ensuring compliance in the future.

Table 18.44

Air tickets purchased at least two weeks before the commencement of travel	8	23	43	100	100

18.203 The proposed regular budget resources for 2026 amount to $9,939,000 and reflect a decrease of $84,300 compared with the approved budget for 2025. The proposed change is explained in paragraph 18.194. Additional details on the distribution of the proposed resources for 2026 are reflected in table 18.45 and figure 18.XXXII.

Programme support

18.217 The programme support component comprises the Division of Administration and the Publications, Conference and Knowledge Management Division.

18.218 The Division of Administration contributes to the effective implementation of the Commission's mandate by providing administrative and financial support, and promotes compliance with United Nations regulations and rules, policies and procedures. It encompasses the Office of the Director of Administration, the Human Resources Management Section, the United Nations Health Care Centre, the Supply Chain Management Section, the Facilities Management Section and the Finance and Budget Section.

18.219 The Publications, Conference and Knowledge Management Division promotes the visibility and impact of the Commission's work through its Conference Management Unit, Publications and Documentation Section, Knowledge Management Services Section and Information and Communications Technology Services Section. The Division promotes the visibility of ECA and its knowledge products through the communications and media relations activities and through the rendering of professional conference services to United Nations and non-United Nations entities.

18.220 The proposed regular budget resources for 2026 amount to $36,348,400 and reflect a net decrease of $412,800 compared with the approved budget for 2025. The proposed change is explained in paragraphs 18.193 and 18.194. Additional details on the distribution of the proposed resources for 2026 are reflected in table 18.59 and figure 18.XLVI.

II. Regional Commissions New York Office

Proposed post and non-post resource requirements for 2026

Overview

18.221 The Regional Commissions New York Office is a joint office for coordination, representation, communication and policy advice at the global level for the five regional commissions: the Economic Commission for Africa, the Economic and Social Commission for Asia and the Pacific, the Economic Commission for Europe, the Economic Commission for Latin America and the Caribbean, and the Economic and Social Commission for Western Asia. The Office supports the regional commissions in the effective implementation of relevant legislative mandates while strengthening regional-global linkages.

18.222 In pursuing its objectives, the Office carries out four interlinked functions: (a) providing strategic policy advice and coordination support to the regional commissions to navigate United Nations deliberations and global policy frameworks that have a bearing on their positioning and the implementation of their programmes; (b) fostering cross-regional learning and interregional cooperation among the regional commissions to enhance shared policy solutions and strengthen collaboration; (c) representing the regional commissions in relevant intergovernmental and inter-agency mechanisms to inform decision-making from a regional perspective and provide a link between global and regional perspectives; and (d) communicating the work of the regional commissions with key stakeholders.

18.223 In 2024, the Office played a pivotal role in strengthening the alignment of the work of the regional commissions with global policy frameworks and United Nations priorities. The Office leveraged over 270 engagement opportunities involving intergovernmental and inter-agency platforms to communicate the work of the regional commissions to key stakeholders, foster interregional cooperation, reinforce partnerships and link regional work with global initiatives.

Strategic coordination and policy advice

18.224 The Office provided targeted policy advice and coordination support to the regional commissions on global policy frameworks and processes. By strategically engaging in key global events, such as the Summit of the Future, the General Assembly Sustainability Week, the coordination segment of the Economic and Social Council, the Economic and Social Council forum on financing for development follow-up and the session of the Commission for Social Development, the Office enhanced coordination of the joint work of the regional commissions for improved coherence and policy impact. The joint work included such areas as financing for development, sustainable transport, climate action, biodiversity, critical energy transition minerals and intergenerational solidarity. The Office also provided advice on tailoring global commitments to regional needs and priorities, while leveraging the commissions' knowledge products and intergovernmental platforms to enhance policy alignment. It supported and continued to advocate for the role of the regional commissions in the follow-up and review of the 2030 Agenda. This included supporting collaboration among the regional commissions on the joint publication entitled "Key messages from the 2024 regional forums on sustainable development", consolidating and conveying the outcomes of the regional forums to the 2024 high-level political forum on sustainable development, supporting the development of harmonized Sustainable Development Goal progress dashboards and profiling innovative Sustainable Development Goal partnerships.

18.225 Working with the Coordinator of the regional commissions, the Office continued to identify and leverage opportunities in the overall follow-up and review architecture of the 2030 Agenda. In the context of the 2024 high-level political forum on sustainable development, the Office facilitated the contributions of the regional commissions to the thematic discussions on the Sustainable Development Goals, as well as the organization of the reporting session of the five Chairs of the Regional Forums. The Office supported the interventions by the Executive Secretaries during the

forum's main programme and the organization of 11 side events and five voluntary national review labs on the margins of the forum, including a voluntary national review lab on strengthening coherence between the 2030 Agenda and nationally determined contributions.

18.226 Working closely with the Coordinator, the Office also facilitated dialogue among the regional commissions aimed at the preparation of two joint policy briefs, entitled "Road to Seville: reform proposals for FfD4 from the United Nations regional commissions" and "On the road to the Second World Summit for Social Development: contributions from the regional commissions", as contributions to the preparatory processes for the Fourth International Conference on Financing for Development and the Second World Social Summit for Social Development, respectively. The Office also supported the work of the regional commissions that culminated in the launch of a joint policy brief entitled "Intergenerational relations: creating a world for all ages so that no one is left behind" during the Summit of the Future Action Days. The policy brief contains recommendations aimed at addressing the social and economic challenges of and opportunities presented by demographic shifts towards multigenerational societies across the regions and contributes to the implementation of the Pact for the Future.

18.227 With a view to informing global policy debates, the Office provided strategic advice to the regional commissions in support of their participation in global platforms for joint policy formulation and decision-making, notably the United Nations System Chief Executives Board for Coordination (CEB), the United Nations Sustainable Development Group and the steering committee for the Summit of the Future. The Office also provided substantive support and serviced the biannual meetings of the Executive Secretaries with the Deputy Secretary-General, which ensured that the regional commissions effectively and coherently supported system-wide initiatives, including through tailored support to United Nations country teams on the six transitions and the exchange of good practices. In addition to supporting the Coordinator with regard to participation in the steering committee for implementation of the Pact for the Future, the Office coordinated inputs to the working groups on the implementation of the Pact in such areas as Sustainable Development Goal delivery, reform of the international financial architecture, youth and digital technologies.

Representation and communication

18.228 During the reporting period, the Office organized the annual dialogue of the Executive Secretaries with the Second Committee of the General Assembly on the theme "Building an inclusive and sustainable digital future for accelerated implementation of the Sustainable Development Goals, with a focus on poverty eradication and advancement of gender equality: experiences from the regions". The dialogue allowed meaningful engagement with the Second Committee on regional perspectives on digital transformation and featured scalable policy interventions and opportunities to maximize its positive contribution to the advancement of the Sustainable Development Goals in the regions.

18.229 The Office coordinated the preparation of the 2024 report of the Secretary-General on regional cooperation and introduced it during the management segment of the Economic and Social Council in July, along with the outcomes of the regional commissions' intergovernmental sessions. It also facilitated the preparation of the regional session during the Council's 2024 coordination segment, providing a preview of the 2025 regional forums on sustainable development and highlighting innovative regional solutions to deliver the Sustainable Development Goals at scale and speed. The Office also supported the participation of the regional commissions in the dialogue held during the Council's 2024 operational activities for development segment, showcasing impactful efforts to address cross-border priorities and strengthen operational alignment across the United Nations development system.

18.230 In pursuit of relevant mandates and in support of the priorities of the Economic and Social Council, the Office coordinated the effective contribution of the regional commissions to special meetings in such areas as financing, taxation, youth, science, technology and innovation, as well as the harnessing of artificial intelligence for the Sustainable Development Goals.

18.231 During 2024, the Office actively contributed to the work of the CEB High-level Committee on Programmes on the use and governance of artificial intelligence and related frontier technologies and the contribution of the United Nations system to the twenty-ninth and thirtieth sessions of the Conference of the Parties to the United Nations Framework Convention on Climate Change. In addition, the Office provided advisory support to the Coordinator and supported harmonization of the positions of the regional commissions in the United Nations Sustainable Development Group, including their support for the Group's 2024 priorities. It also supported the Coordinator's participation in the meetings of the Management Committee to advance internal reform and management-related initiatives. The Office also played a role in inter-agency mechanisms established to support preparations for high-level events, such as the Summit of the Future, and the engagement of the United Nations with the Group of 20. The Office circulated weekly reports to the regional commissions highlighting relevant developments and opportunities in the intergovernmental and inter-agency mechanisms, including partnerships.

Partnerships, outreach and advocacy

18.232 During 2024, the Office undertook sustained outreach to member States and United Nations system entities based in New York focused on reinforcing the partnerships with the regional commissions and better linking contributions to system-wide initiatives. Key activities in that regard included the organization of interactive dialogues with the Executive Secretaries and permanent missions in New York, including the Group of African States, the Group of Asia-Pacific States, the Group of Asia and the Pacific Small Island Developing States and the Alliance of Small Island States, and the periodic dissemination of information products highlighting the initiatives, events and publications of the regional commissions. The Office also facilitated rounds of exchanges on regional inputs and policy recommendations with the co-facilitators for the intergovernmental preparatory process leading up to the Fourth International Conference on Financing for Development and the Second World Summit for Social Development. With the aim of amplifying the reform proposals of the regional commissions during the first and second sessions of the Preparatory Committee for the Fourth International Conference on Financing for Development, the Office supported communication efforts related to the dissemination of the policy briefs.

18.233 The Office also contributed to the strengthening of collaboration between the regional commissions and various Secretariat departments in several areas, such as financing for development, migration, population and ageing, transport and social development. In the context of status reporting for the quadrennial comprehensive policy review of operational activities for development of the United Nations system, the Office participated in a series of briefings for member States, demonstrating the progress made in leveraging regional assets to scale up country-level impact. In terms of the ongoing reform efforts, the Office continued to facilitate the inputs of regional commissions to the General Assembly review of the modalities of the Economic and Social Council and the high-level political forum on sustainable development.

Plans for 2026

18.234 The overarching goal of the Office will continue to be supporting the efforts of the regional commissions to accelerate the achievement of the Sustainable Development Goals in the last mile to 2030. The programme of work of the Office in 2026 will be informed by the outcomes of the Fourth International Conference on Financing for Development, the Second World Summit for Social Development, the 2025 United Nations Ocean Conference, the 30-year review of the implementation of the Beijing Declaration and Platform for Action, the thirtieth session of the Conference of the Parties to the United Nations Framework Convention on Climate Change, the United Nations Food Systems Summit +2 Stocktaking Moment and other global conferences scheduled for 2025. The financing for development agenda, including advancing alternative and complementary metrics for measuring progress beyond gross domestic product, reform of the international financial architecture, debt sustainability and international tax cooperation and follow-up to the Fourth International Conference on Financing for Development, as well as driving climate action in the

regions, will remain the joint work of the regional commissions and will therefore be key elements of the work of the Office.

18.235 The Office will place an emphasis on elevating the profile and awareness of the work of the regional commissions, ensuring that Member States are well informed about regional policy guidance and briefs to support their decision-making through systematic communication and advocacy efforts targeting key stakeholders. It will also make concerted efforts to strengthen links with work at the global and country levels, notably in recalibrating existing coordination and collaboration arrangements. The Office will also continue to support the follow-up and review of the 2030 Agenda, bringing regional innovations and best practices to global discussions, ensuring that outcomes of the regional forums feed into the high-level political forum on sustainable development, and contributing to the intergovernmental review of the modalities of the Economic and Social Council and the high-level political forum.

18.236 The Office will continue to provide support to the regional commissions on implementing and leveraging the work of the Pact for the Future implementation working groups for Sustainable Development Goal acceleration, as well as the United Nations 2.0 initiative of the Secretary-General. The Office will also continue to serve as secretariat for the joint work of the regional commissions, supporting the identification of avenues for joint work and the promotion of cross-regional learning, strengthening links with work at the global level and advising on enhancing impacts at the regional and national levels. The Office will also contribute to efforts towards the achievement of the Goals across the five regions through the provision of advisory and coordination support and the reinforcement of impactful partnerships.

18.237 The Office will continue to systematically convene and service regular dialogues among the regional commissions at all levels, including by servicing the annual retreat and biannual meetings with the Deputy Secretary-General, with a view to enhancing strategic alignment, internal coordination and collaboration with the United Nations system aimed at operationalizing regional frameworks at the country level through tailored and integrated support to United Nations country teams. The Office will also promote interregional cooperation through joint projects and the exchange of good practices.

18.238 The Office will identify opportunities for engagement and advocacy, including with external stakeholders, coordinate the effective participation of the regional commissions in inter-agency mechanisms and leverage key 2026 moments such as the United Nations Water Conference and the thirty-first session of the Conference of the Parties to the United Nations Framework Convention on Climate Change for strategic visibility and uptake of solutions and perspectives that foster sustainable development at the regional and national levels.

18.239 In accordance with the 2030 Agenda, in particular target 12.6 of the Sustainable Development Goals, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Office continues to integrate environmental management practices in its operations, such as by using online meetings, digital document management systems and communication materials instead of undertaking air travels and utilizing paper-based communication. Other measures include adhering to the ban on single-use plastics, optimizing the use of natural light, turning off office equipment at the end of the workday and reducing paper use.

18.240 Information on the timely submission of documentation and advance booking for air travel is reflected in table 18.60. The Office will step up its monitoring of travel and logistics with a view towards achieving earlier planning and improvement in the compliance rates in 2025 and 2026.

Table 18.60
Compliance rate
(Percentage)

	2022 actual	*2023 actual*	*2024 actual*	*2025 planned*	*2026 planned*
Timely submission of documentation	100	67	50	100	100
Air tickets purchased at least 2 weeks before the commencement of travel	–	67	50	100	100

18.241 The proposed regular budget resources for 2026 for the Office amount to $1,061,400 and reflect no change compared with the approved budget for 2025. The proposed level of resources provides for the full, efficient and effective implementation of mandates. Additional details on the distribution of the proposed resources for 2026 are reflected in table 18.61.

Annex II

Summary of proposed post changes, by component and subprogramme

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
Executive direction and management	(1)	LL	**Reassignment** of one Staff Assistant under executive direction and management as Research Assistant under subprogramme 2, Regional integration and trade	The proposed reassignment of this post from executive direction and management reflects a realignment of post resources with programmatic needs. The incumbent would be responsible for establishing and maintaining databases, independently identifying and monitoring substantive aspects of the subprogramme's work and systematically retrieving, synthesizing and compiling information from a wide range of sources.
	–	P-5	**Reassignment** from Chief of Section, Programme Budget, to Chief of Section, Programme Management	The proposed reassignment reflects an evolution in the scope, complexity and strategic importance of the role. While the current designation focuses primarily on programme formulation and oversight, the responsibilities extend beyond programme budget functions to encompass end-to-end programme management, including integrated planning, resource alignment, risk management and performance monitoring, compliance, strategic reporting and coordination across diverse substantive divisions and external partners. The incumbent plays a central role in ensuring coherence between planning frameworks, efficient delivery of programmatic activities and accountability for results. The shift would also support the broader reforms aimed at strengthening results-based management and improving the delivery of development outcomes. Given the increased leadership demands, interdivisional collaboration and strategic engagement required, the reclassification would more accurately reflect the nature and impact of the post in the current operational context of ECA.
Subprogramme 1, Macroeconomic policy, finance and governance	–	P-3	**Reassignment** of one Economic Affairs Officer as Programme Management Officer	The proposed reassignment would better align the post with the operational needs of the subprogramme in the critical areas of programme management, reporting and monitoring of results.
Subprogramme 2, Regional integration and trade	1	LL	**Reassignment** of one Staff Assistant under executive direction and management as Research Assistant under subprogramme 2, Regional integration and trade	The proposed reassignment of this post from executive direction and management reflects a realignment of post resources with programmatic needs. The incumbent would be responsible for establishing and maintaining databases, independently identifying and monitoring substantive aspects of the subprogramme's work and systematically retrieving, synthesizing and compiling information from a wide range of sources.

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
Subprogramme 3, Technology, innovation, connectivity and infrastructure development	–	LL	**Reassignment** of one Senior Public Information Assistant as Senior Research Assistant	The proposed reassignment reflects the need for alignment with the mandate and structure of the subprogramme and for increased capacity in areas such as research and coordination of support for ECA members.
	(1)	P-5	**Abolishment** of one Chief of Section	The proposed abolishment of this post, which is no longer needed, would enable two staff members with technical expertise to work on technology, digitalization and innovation-related issues instead of one staff member at the managerial level. The proposal would thus enhance efficiency and effectiveness by rationalizing and optimally using the limited available resources.
	1 1	P-3 NPO	**Establishment** of one Economic Affairs Officer (P-3) and one Programme Management Officer (NPO)	The proposed establishment would be to support key priority areas, such as technology, digitalization and innovation, in the newly formed Energy, Infrastructure and Services Section.
Subprogramme 6, Gender equality and women's empowerment	–	P-3	**Reassignment** of one Gender Affairs Officer as Economic Affairs Officer	The proposed reassignment within the subprogramme would coincide with the efficiency-driven approach of ECA operations, aimed at maximizing limited resources through the consolidation of roles. The reassignment would preserve the core functions of the Gender Affairs Officer while supporting member States in advancing gender-responsive economic policies to drive transformation and reduce poverty and inequality.
Subprogramme 7, component 1, Subregional activities in North Africa	–	D-1	**Reassignment** from Principal Coordination Officer to Principal Economic Affairs Officer	The proposed reassignment within the subprogramme would better reflect the strategic realignment of the subprogramme to increase the focus on economic issues. The incumbent would be responsible for overseeing (a) the formulation of policies and strategies aimed at fostering regional integration, enhancing productivity and creating new jobs in higher-skilled and sustainable sectors; and (b) the adoption of evidence-based macroeconomic policies and structural reforms by members of ECA aimed at improving fiscal space and enhancing productive employment, among other critical tasks.
	–	LL	**Reassignment** of one Light Vehicle Driver as Senior Programme Management Assistant	The proposed reassignment relates to the need to strengthen programme management capacity within the component, and responds to the increased programme management tasks and responsibilities.
Subprogramme 7, component 2, Subregional activities in West Africa	–	LL	**Reassignment** of one Staff Assistant as Transport Assistant	The proposed reassignment reflects the realignment of post resources to facilitate mandate implementation. The Transport Assistant would be responsible for the timely delivery and collection of mail, documents and other official items, meeting and assisting official personnel at the airport, and

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
				facilitating immigration and customs procedures to ensure smooth and efficient transit in line with protocol requirements.
Subprogramme 8, Economic development and planning	1 1 1 1 2	D-1 P-5 P-4 P-3 NPO	**Conversion** of one Principal Programme Management Officer (D-1), one Senior Training Officer (P-5), one Administrative Officer (P-4), one Librarian (P-3), one Associate Librarian (NPO); and one Associate Coordination Officer (NPO) from general temporary assistance positions to posts	The conversion, which is being proposed in the context of the spending review, is related to the need to stabilize the capacity required by the African Institute for Economic Development and Planning. The conversion would ensure continuity, stability and a more effective workforce, while ensuring alignment with organizational goals and long-term strategic planning.
Subprogramme 9, Poverty, inequality and social policy	–	D-1	**Reassignment** from Principal Programme Management Officer to Principal Economic Affairs Officer	The proposed reassignment within the subprogramme would be to ensure better alignment with the subprogramme's increased economic focus. The incumbent would be responsible for (a) the provision of enhanced, evidence-based policy guidance to economically vulnerable populations; and (b) the overall improvement of economic and financial resilience in African cities, among other critical tasks.
	–	LL	**Reclassification** from Team Assistant to Staff Assistant	The proposed reclassification is necessary due to the significant increase in the complexity, scope and autonomy of responsibilities. While the original Team Assistant classification primarily involves routine administrative support and task-based assistance and messenger services, the current duties extend to more substantive and proactive functions, including independent coordination of office administration workflows, the preparation of official correspondence, support for programme implementation processes and liaison with both internal and external stakeholders. In line with the ongoing efforts of ECA to enhance operational efficiency and streamline programme delivery under the reform of the United Nations development system, the incumbent would serve as a critical link between Professional staff, senior management and external partners. The incumbent would be regularly required to exercise judgment, prioritize competing demands and ensure the timely and accurate flow of information. These enhanced responsibilities reflect a higher level of initiative, discretion and knowledge of organizational procedures, which are more aligned with the role of Staff Assistant than that of Team Assistant. The reclassification would thus ensure appropriate recognition of the post's current contributions and alignment with established United Nations classification standards.

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
Programme support	1	P-3	**Conversion** of one Information System Officer (P-3) and one Senior Information Technology Assistant (LL) from general temporary assistance positions to posts	The Information System Officer is responsible for integrating all security system components and providing adequate network connectivity for critical applications and devices. The position is crucial for the proper functioning of security systems and the timely coordination with the Safety and Security Section and the Facilities Management Section. The position was established prior to 2015.
	1	LL		
	2	LL	**Conversion** of two Senior Staff Development Assistants from general temporary assistance positions to posts	The Senior Information Technology Assistant provides support in relation to access control system applications, video surveillance, perimeter intrusion detection, the vehicle access barrier system, and badging and visitor management systems. The position was established prior to 2015. The Senior Staff Development Assistants support the learning and development initiatives related to performance management for staff and supervisors, advisory services regarding performance management and development, senior leadership training, career development and mandatory learning for ECA secretariat staff. The positions are vital to the continued focus of ECA on initiatives related to data, digital technologies, strategic foresight and behavioural sciences. Moreover, they play a continued role in process optimization, automation and steps towards the establishment of the common back office. The positions were established prior to 2015.
	1	NPO	**Conversion** of one Human Resources Officer from a general temporary assistance position to a post	The conversion, which is being proposed in the context of the spending review, is related to the need to stabilize the capacity required under programme support. The incumbent would design, plan, monitor and provide induction orientation programmes and briefings to new staff members and advise management on training needs.
	1	P-4	**Reclassification** of one Administrative Officer (P-3) to Administrative Officer (P-4)	The proposed upward reclassification results from an increase in responsibilities. The incumbent would be responsible for facilitating preparations for common back office operations, including the establishment of ECA as a service centre, and for undertaking detailed and leading roles in human resource management and administration, data analytics, programme management, budgeting, monitoring and evaluation of business functions.
	(1)	P-3		
	–	LL	**Reclassification** of one Procurement Assistant to Senior Procurement Assistant	The proposed upward reclassification reflects the increased demand for scaling up the capacity and capabilities of ECA in its procurement advisory functions, digital

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
				transformation and process improvement implementation, in line with the Secretary-General's supply chain management reform strategy.
	–	P-4	**Reassignment** from Chief of Unit, Public Information, to Conference Services Officer	The proposed reassignment would ensure alignment with the existing job titles for the Conference Services Officer at the P-4 level under the conference services job family. The role of Chief of Unit, Public Information, as it currently stands, covers responsibilities similar to those of a Conference Services Officer, especially in areas related to the management and distribution of publications and conference materials.
	–	2 LL	**Reassignment** of two LL Camera Operators to Photographers	The proposed reassignment would ensure better alignment with current operational needs, as cameras are no longer utilized within the printing facility. With the evolution of printing technology, there has been a significant shift from traditional offset printing methods to digital on-demand printing, rendering some previous functions obsolete. The Photographers would support a wide range of high-level meetings, International Day observances and conferences. The positions require proficiency in diverse photographic techniques and the use of advanced lighting equipment, combined with a keen eye for composition, in order to produce high-quality, impactful imagery that meets the Organization's evolving communications and documentation needs.
	(1)	LL	**Abolishment** of one Senior Human Resources Assistant	The proposed abolishment results from some functions being combined and consolidated under the role of the National Professional Officer post proposed for conversion in the Human Resources Management Section.
	(1)	LL	**Abolishment** of one Heavy Machine Operator	The proposed abolishment results from the process and workflow optimization efforts of ECA for more efficient deployment of existing staff capacity.
	–	P-5	**Redeployment** of one Senior Medical Officer (P-5), one Medical Officer (P-4), one Head Nurse (P-2), one Senior Nurse (LL) and one Senior Administrative Assistant (LL), from the Human Resources Management Section to the United Nations Health Care Centre	The proposed redeployment is related to the United Nations Health Care Centre, which was a function of the Human Resources Management Section. The Centre is now a separate and independent section, hence the proposal to redeploy the relevant posts.

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

19.1 As the principal intergovernmental platform of the United Nations in the region, the Economic and Social Commission for Asia and the Pacific (ESCAP) supports its members and associate members in pursuing solutions for sustainable development. Its mandates derive from the priorities established in relevant resolutions and decisions of the General Assembly, the Economic and Social Council and the Economic and Social Commission for Asia and the Pacific.

19.2 ESCAP was established by Economic and Social Council resolution 37 (IV), and Council resolution 1895 (LVII) amended its mandate to include the social dimension of integrated development. Its intergovernmental bodies, which comprise the Commission and its sectoral committees, provide the foundation for ESCAP support to national Governments and other stakeholders in the implementation of the 2030 Agenda for Sustainable Development. Its work is also guided by General Assembly resolutions, including Assembly resolution 74/4, and the regional road map for implementing the 2030 Agenda in Asia and the Pacific, endorsed by the Commission in its resolution 73/9, which serve as reference frameworks.

19.3 In the Pact for the Future, adopted by the General Assembly in its resolution 79/1, Member States committed to 56 actions in the areas of sustainable development and financing for development, international peace and security, science, technology and innovation and digital cooperation, youth and future generations, and global governance to protect the needs and interests of present and future generations. In honouring the commitment and within its mandate, ESCAP will support its members and associate members in implementing these ambitious and transformative actions to implement the 2030 Agenda and leave no one behind. The support delivered by the Commission to member States is also provided through the regular programme of technical cooperation and Development Account projects.

Strategy and external factors for 2026

19.4 The ESCAP programme strategy ensures coherent, balanced and integrated support to member States to achieve the Sustainable Development Goals. The strategy leverages the complementarity of the Commission's three core functions, namely, research and knowledge management, the facilitation of intergovernmental consensus-building and norm-setting, and capacity-development services. In accordance with the mandate of ESCAP and in line with the Commission's comparative advantages, the strategy addresses the needs and requests of ESCAP member States and is implemented by the Commission's nine subprogrammes at the regional and subregional levels. It takes new and evolving development challenges into account and builds on lessons learned, addresses gaps and avoids duplication and overlap.

19.5 In implementing its strategy, ESCAP accords priority to supporting countries in special situations, which constitute more than half of its member States. In line with the Antigua and Barbuda Agenda for Small Island Developing States: A Renewed Declaration for Resilient Prosperity, the Doha Programme of Action for the Least Developed Countries and the Programme of Action for Landlocked Developing Countries for the Decade 2024–2034, which aim to accelerate sustainable development and resilience for countries in special situations, ESCAP will actively engage with all relevant stakeholders to support their implementation at the national, subregional and regional levels and to integrate them into strategic plans and annual work.

19.6 With few years left until 2030, the scaling up of financing and the reprioritization of scarce capital are needed to bridge the financing gap to accelerate progress towards the full implementation of the

2030 Agenda in Asia and the Pacific. To assist its member States in evidence-based macroeconomic policymaking amid fiscal constraints, rising debt vulnerabilities and tight financial conditions, ESCAP will conduct research on public debt sustainability assessments, domestic resource mobilization, affordable financing access and international cooperation on debt resolution, aiming at increasing investments in sustainable development. In 2026, ESCAP will also focus on translating the intergovernmentally agreed outcomes of the Fourth International Conference on Financing for Development to the context of the Asia-Pacific region.

19.7 Trade, investment and innovation are powerful engines for growth and sustainable development, and trade has been a key driver of economic dynamism and rising prosperity across Asia and the Pacific. To make trade more competitive, sustainable and inclusive, ESCAP will foster cooperation to assist member States in acceding to the Framework Agreement on Facilitation of Cross-border Paperless Trade in Asia and the Pacific. Recognizing the important role of the private sector in the implementation of the 2030 Agenda, ESCAP will also facilitate knowledge-sharing and regional cooperation on the promotion of enterprise and business innovation, in particular inclusive and socially responsible businesses, women-led enterprises and disability-inclusive businesses. ESCAP further plans to provide technical assistance and capacity-building on foreign direct investment (FDI) for sustainable development and to elevate the role of business in promoting gender equality and addressing environmental and social considerations.

19.8 While trade and investment can create employment, raise incomes and help to spread technology, knowledge and ideas, inclusive national social protection systems enable every person to access social protection at adequate benefit levels and enjoy an adequate standard of living throughout their lifetime. Guided by the Action Plan to Strengthen Regional Cooperation on Social Protection in Asia and the Pacific, ESCAP will support member States in their efforts to prevent and alleviate poverty and reduce vulnerability. It will strengthen capacities to develop inclusive policies that can address rising poverty, unemployment and widening inequalities in view of multiple socioeconomic and environmental challenges. To advance the rights of persons with disabilities and accelerate the implementation of the 2030 Agenda and the Convention on the Rights of Persons with Disabilities, ESCAP will assist member States in the effective implementation of the Jakarta Declaration on the Asian and Pacific Decade of Persons with Disabilities, 2023–2032, as well as the Incheon Strategy to “Make the Right Real” for Persons with Disabilities in Asia and the Pacific and the Beijing Declaration, including the Action Plan to Accelerate the Implementation of the Incheon Strategy.

19.9 Technology and innovation hold great promise to reduce inequalities and support sustainable development. To harness digital technologies for the achievement of the Goals, ESCAP will support member States’ efforts to implement the Global Digital Compact and the Astana Ministerial Declaration on Digital Inclusion and Transformation in Asia and the Pacific. In the endeavour to promote regional and subregional cooperation on digital connectivity, inclusion and transformation, the Action Plan for Implementing the Asia-Pacific Information Superhighway Initiative, 2022–2026, can serve as a reference point. ESCAP will provide technical assistance, policy analysis and capacity-building, and will facilitate the dissemination of context-specific approaches to developing and implementing digital solutions for sustainable development. It plans to enhance awareness and knowledge-sharing among members and associate members on digital innovation and on enhancing digital trust and inclusion, on leveraging emerging digital opportunities and on mitigating digital risks and challenges.

19.10 Asia and the Pacific has become a hub for science, technology and innovation, including digital technologies, that bring new and innovative solutions to pressing global problems. Geospatial information applications have come to play a more prominent role in the implementation and realization of the 2030 Agenda, with a particular focus on disaster risk reduction. Through the long-standing framework of the Regional Space Applications Programme for Sustainable Development, ESCAP brings together space agencies and relevant stakeholders to facilitate the provision of high-resolution satellite imagery and big Earth data analytical tools for consistent natural disaster risk monitoring and reduction, with a focus on countries in special situations. In 2026, ESCAP will strengthen regional and subregional cooperation mechanisms to secure financing for resilience-

building and will continue to develop a regional strategy to support the achievement of early warnings for all by 2027 by strengthening multi-hazard early warning systems in Asia and the Pacific in coordination with member States and relevant partners, as applicable.

19.11 In addressing the environmental challenges of the region, member States recognized themes of common interest in the Ministerial Declaration on Protecting Our Planet through Regional Cooperation and Solidarity in Asia and the Pacific and through the Regional Action Programme on Air Pollution. In supporting the implementation of the Declaration, ESCAP will facilitate regional cooperation for sharing best practices and knowledge to support efforts to achieve national goals of low-carbon transition and low-greenhouse-gas emission development strategies and facilitate regional cooperation programmes to protect the ocean, in order to accelerate the implementation of Commission resolution 76/1, and efforts to combat air pollution through regional dialogue and technical cooperation under the Regional Action Programme, including through capacity-building and technical advisory services.

19.12 ESCAP is also committed to promoting cooperation among member States in the region to effectively implement the energy-related Sustainable Development Goals and to provide a platform for dialogue and knowledge-sharing in order to enhance energy security and connectivity. ESCAP will support member States in implementing the Ministerial Declaration on Building a Secure, Sustainable and Interconnected Energy Future for Asia and the Pacific and will, upon request, develop national road maps for the implementation of Goal 7 and assist member States in formulating and implementing their long-term strategies on sustainable energy.

19.13 Promoting the transition to a sustainable energy system, ESCAP will also support regional cooperation on sustainable, low-emission and energy-efficient modes of transport, and will promote collaboration across various sectors of the economy to address climate change. To this end, the Regional Action Programme for Sustainable Transport Development in Asia and the Pacific (2022–2026) serves as a framework to address the negative effects generated by freight transport, including greenhouse gas emissions, and provides the basis upon which ESCAP implements capacity-building projects to strengthen regional and interregional transport connectivity and promote the integration of the environmental aspects of international supply chains and the introduction of digital and intelligent transport systems, including in urban settings.

19.14 To enhance sustainable urban development, ESCAP will support the localization of the Goals and promote integrated urban planning. It will support member States in strengthening policy and governance, increasing financing and building capacity at the national and local levels, taking into account different national circumstances and levels of development and in alignment with national priorities and policies. Enhanced coordination and cooperation between local and national authorities at all levels will facilitate the vertical integration of climate-sensitive urban development policies along with the capacity-building of cities to manage urban growth and develop local climate actions, deploy smart city technologies, build resilient infrastructure and adopt nature-based solutions, ecosystem-based approaches and other management and conservation approaches to minimize the impact of urbanization on the environment.

19.15 As ESCAP facilitates regional intergovernmental dialogues on international and regional frameworks for cooperation, it will work with member States to promote and work on intergenerational issues and anchor the outcomes of the Second World Summit for Social Development in the context of the Asia and the Pacific region to support the Declaration on Future Generations (General Assembly resolution 79/1, annex II). ESCAP will support member States, at their request and in line with national priorities, in the implementation of the outcomes of the fifth review and appraisal of the Madrid International Plan of Action on Ageing, 2002, in Asia and the Pacific, as well as the recommendations of the Commission on the Status of Women at its sixty-ninth session emanating from the 30-year review of the implementation of the Beijing Declaration and Platform for Action (Beijing+30). It will also ensure that the recommendations of the Asia-Pacific regional review of the implementation of the Global Compact for Safe, Orderly and Regular Migration will be reflected in the global deliberations.

19.16 The strategy of ESCAP is anchored in data and evidence-based analysis. The Commission's support to member States to harness the power of data to leave no one behind is driven by its resolution 75/9 on the implementation of the Declaration on Navigating Policy with Data to Leave No One Behind and will be further defined by the outcomes of the Third Ministerial Conference on Civil Registration and Vital Statistics in Asia and the Pacific. ESCAP will promote the adoption of new statistical methods to support the modernization of statistical business processes to meet the data needs of Governments and the information needs of modern societies more effectively. It will continue its support for developing a conceptual framework on data governance and invest in improving data collection, analysis and dissemination, thereby assisting member States in developing strategic foresight to manage policies that incentivize all individuals and the private sector to protect people.

19.17 By convening the annual Asia-Pacific Forum on Sustainable Development, ESCAP provides a region-wide multi-stakeholder platform for the follow-up and review of the implementation of the 2030 Agenda, focusing on peer learning and the exchange of practical solutions for achieving sustainable development. It will be convened with member States, United Nations development system entities, other international and regional organizations, the private sector and civil society, as appropriate, to inform the high-level political forum on sustainable development.

19.18 With regard to cooperation with other entities at the global, regional, national and local levels, ESCAP implements its strategy in collaboration with global, regional and subregional intergovernmental bodies and international organizations, regional and local government associations, civil society networks and the private sector in an open and transparent manner. Building on its long-standing partnerships, ESCAP will collaborate with international, regional and subregional organizations, as appropriate. It will implement joint activities with international development banks and partner with research institutes, associations and other civil society organizations, as appropriate. ESCAP will also proactively engage with its development partners to strategically implement its programme, including through North-South, South-South and triangular cooperation, as appropriate.

19.19 With regard to inter-agency coordination and liaison, ESCAP, in close coordination with the other regional commissions, will contribute to global analytical products and will implement joint projects under the Development Account. It also nurtures close ties with the Office of the High Representative for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States to provide coordinated support to the countries in special situations in the region. The subregional offices of ESCAP serve as the main point of contact for resident coordinator offices and United Nations country teams and coordinate its contributions to common country assessments and United Nations Sustainable Development Cooperation Frameworks. At the regional level, ESCAP will provide secretariat services to the Regional Collaborative Platform for Asia and the Pacific, and its subprogrammes will support issue-based coalitions. ESCAP will continue to co-lead the issue-based coalition on raising ambitions on climate action with the United Nations Environment Programme, where its expertise, geared to help the achievement of Sustainable Development Goals 7 and 13 and the implementation of the Paris Agreement, is of specific relevance.

19.20 With regard to the external factors, the overall plan for 2026 is based on the following planning assumptions:

(a) National Governments maintain and strengthen their commitment to the Commission as the principal intergovernmental platform in the region for leveraging regional cooperation to meet transboundary and common challenges;

(b) Governments and other stakeholders continue to collaborate with the Commission in undertaking the proposed programme activities with the necessary capacity and resources;

(c) Extrabudgetary funding for technical cooperation continues to be available.

19.21 ESCAP integrates a gender perspective in its operational activities, deliverables and results, as relevant and appropriate. Gender equality and the empowerment of women is a thematic area for subprogramme 6, while advancing the disaggregation of data, including disaggregation by sex, is a

focus of subprogramme 7. In the 2026 programme plan, subprogrammes 2, 6 and 7 and component 4 of subprogramme 8 specifically contribute results in this regard, while subprogrammes 2, 3 and 6 to 9 mainstream gender equality and the empowerment of women in their respective strategies. In 2026, ESCAP will also continue to implement its gender equality policy and implementation plan to further anchor the achievements to date across its programme of work.

19.22 In line with the United Nations Disability Inclusion Strategy, ESCAP is committed to mainstreaming disability perspectives and ensuring the inclusion of persons with disabilities in all its work through its implementation of the ESCAP disability inclusion policy and its action plan. Subprogramme 6 and component 1 of subprogramme 8 incorporate disability-specific interventions to protect and empower persons with disabilities and, ultimately, to build disability-inclusive societies.

19.23 To better support member States to make progress towards the Sustainable Development Goals, ESCAP will build on its existing capabilities in the areas of data, digital transformation, innovation, strategic foresight and behavioural science in line with paragraph 73 (a) of the Pact for the Future, under action 45. It will continue to nurture a supportive and inclusive environment and leverage its innovation network to generate, test and scale up novel ideas, processes, products and services. It will promote the use of strategic foresight and a more systematic approach to applying future thinking and behavioural science in its research portfolio. In alignment with its data strategy, it will continue to apply data-driven approaches to decision-making and shift its expertise, processes and technology to govern and use data from diverse sources to create additional value for member States.

Legislative mandates

19.24 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

61/16	Strengthening of the Economic and Social Council
66/288	The future we want
67/10	Cooperation between the United Nations and the Eurasian Economic Community
69/15	SIDS Accelerated Modalities of Action (SAMOA) Pathway
69/142	Realizing the Millennium Development Goals and other internationally agreed development goals for persons with disabilities towards 2015 and beyond
69/277	Political declaration on strengthening cooperation between the United Nations and regional and subregional organizations
69/283	Sendai Framework for Disaster Risk Reduction 2015–2030
69/313	Addis Ababa Action Agenda of the Third International Conference on Financing for Development (Addis Ababa Action Agenda)
70/1	Transforming our world: the 2030 Agenda for Sustainable Development
70/170	Towards the full realization of an inclusive and accessible United Nations for persons with disabilities
72/279	Repositioning of the United Nations development system in the context of the quadrennial comprehensive policy review of operational activities for development of the United Nations system
74/3	Political declaration of the high-level meeting to review progress made in addressing the priorities of small island developing States through the implementation of the SIDS Accelerated Modalities of Action (SAMOA) Pathway
74/4	Political declaration of the high-level political forum on sustainable development convened under the auspices of the General Assembly
74/306	Comprehensive and coordinated response to the coronavirus disease (COVID-19) pandemic
74/307	United response against global health threats: combating COVID-19
75/290 A	Review of the implementation of General Assembly resolution 72/305 on the strengthening of the Economic and Social Council

	Review of the implementation of General Assembly resolutions 67/290 on the format and organizational aspects of the high-level political forum on sustainable development and 70/299 on the follow-up and review of the 2030 Agenda for Sustainable Development at the global level
	Economic and Social Council
75/290 B	High-level political forum on sustainable development
76/258	Doha Programme of Action for the Least Developed Countries
76/273	Enhancing accessibility for persons with disabilities to conferences and meetings of the United Nations system
76/296	Our ocean, our future, our responsibility
77/10	The situation in Afghanistan
77/12	Cooperation between the United Nations and the Association of Southeast Asian Nations
77/21	Cooperation between the United Nations and the Organisation for Economic Co-operation and Development (OECD)
77/323	Extension of the preparatory period preceding the graduation of Solomon Islands from the least developed country category
77/330	Cooperation between the United Nations and the Economic Cooperation Organization
77/332	Cooperation between the United Nations and the Pacific Islands Forum
77/338	Cooperation between the United Nations and the Shanghai Cooperation Organization
78/1	Political declaration of the high-level political forum on sustainable development convened under the auspices of the General Assembly
78/144	Agricultural technology for sustainable development
78/147	Central Asia facing environmental challenges: fostering regional solidarity for sustainable development and prosperity
78/160	Science, technology and innovation for sustainable development
78/162	Development cooperation with middle-income countries
78/166	Operational activities for development of the United Nations system
78/178	Promoting social integration through social inclusion
78/195	Implementation of the Convention on the Rights of Persons with Disabilities and the Optional Protocol thereto: situations of risk and humanitarian emergencies
78/259	International Day of Science, Technology and Innovation for the South
78/265	Seizing the opportunities of safe, secure and trustworthy artificial intelligence systems for sustainable development
78/285	Review of the implementation of General Assembly resolution 75/290 A on the strengthening of the Economic and Social Council and resolution 75/290 B on the high-level political forum on sustainable development and the follow-up and review of the 2030 Agenda for Sustainable Development at the global level
78/311	Enhancing international cooperation on capacity-building of artificial intelligence
78/317	The Antigua and Barbuda Agenda for Small Island Developing States: A Renewed Declaration for Resilient Prosperity
79/1	The Pact for the Future
79/9	Cooperation between the United Nations and the Organization of Islamic Cooperation
79/144	Oceans and the law of the sea
79/149	Inclusive development for and with persons with disabilities
79/159	Rights of Indigenous Peoples
79/170	The right to development
79/178	Human rights and extreme poverty
79/199	Follow-up to and implementation of the outcomes of the International Conferences on Financing for Development
79/202	Promoting sustainable consumption and production patterns for the implementation of the 2030 Agenda for Sustainable Development, building on Agenda 21
79/203	Follow-up to and implementation of the SIDS Accelerated Modalities of Action (SAMOA) Pathway and the Mauritius Strategy for the Further Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States
79/212	Combating sand and dust storms
79/218	Follow-up to the Fifth United Nations Conference on the Least Developed Countries
79/219	Follow-up to the Third United Nations Conference on Landlocked Developing Countries
79/221	Implementation of the Third United Nations Decade for the Eradication of Poverty (2018–2027)
79/223	Women in development
79/225	Eradicating rural poverty to implement the 2030 Agenda for Sustainable Development
79/226	Quadrennial comprehensive policy review of operational activities for development of the United Nations system

79/227	Agriculture development, food security and nutrition
79/228	Towards global partnerships: a principle-based approach to enhanced cooperation between the United Nations and all relevant partners
79/230	Graduation of Cambodia and Senegal from the least developed country category
79/233	Programme of Action for Landlocked Developing Countries for the Decade 2024–2034
79/236	South-South cooperation

Economic and Social Council resolutions

37 (IV)	Economic Commission for Asia and the Far East
1895 (LVII)	Change of name of the "Economic Commission for Asia and the Far East" to "Economic and Social Commission for Asia and the Pacific"
1998/46	Further measures for the restructuring and revitalization of the United Nations in the economic, social and related fields
2013/19	Conclusion of the work of the Commission on Sustainable Development
2016/11	Committing to the effective implementation of the 2030 Agenda for Sustainable Development in Asia and the Pacific
2018/5	Strategies for eradicating poverty to achieve sustainable development for all
2020/5	Strengthening coordination of the statistical programmes in the United Nations system
2021/10	Socially just transition towards sustainable development: the role of digital technologies on social development and well-being of all
2022/11	A conference structure of the Economic and Social Commission for Asia and the Pacific to advance sustainable development
2023/14	Creating full and productive employment and decent work for all as a way of overcoming inequalities to accelerate the recovery from the COVID-19 pandemic and the full implementation of the 2030 Agenda for Sustainable Development
2023/31	Progress in the implementation of General Assembly resolution 75/233 on the quadrennial comprehensive policy review of operational activities for development of the United Nations system
2023/33	Support to Non-Self-Governing Territories by the specialized agencies and international institutions associated with the United Nations
2024/3	Mainstreaming a gender perspective into all policies and programmes in the United Nations system
2024/7	Report of the Committee for Development Policy on its twenty-sixth session
2024/14	Science, technology and innovation for development
2024/18	Doha Programme of Action for the Least Developed Countries for the decade 2022–2031

Economic and Social Commission for Asia and the Pacific resolutions

66/1	Incheon Declaration
66/9	Full and effective implementation of the Beijing Platform for Action and its regional and global outcomes in the Asia-Pacific region
66/15	Strengthening of the evaluation function of the secretariat of the Commission
67/14	Cooperation between the Economic and Social Commission for Asia and the Pacific and other United Nations and regional and subregional organizations serving Asia and the Pacific
68/8	Enhancing coordination within the United Nations system and cooperation with regional organizations for promoting regional development
70/11	Implementing the outcome of the Asia-Pacific Forum on Sustainable Development
71/1	Restructuring the conference structure of the Commission to be fit for the evolving post-2015 development agenda
71/4	Implementation of the SIDS Accelerated Modalities of Action (SAMOA) Pathway
72/6	Committing to the effective implementation of the 2030 Agenda for Sustainable Development in Asia and the Pacific
72/8	Fostering regional cooperation and partnerships to respond to the climate change challenge in the Asia-Pacific region
72/9	Regional cooperation to promote the conservation and sustainable use of the oceans, seas and marine resources for sustainable development in Asia and the Pacific
73/3	Advancing integrated and seamless connectivity for sustainable development in Asia and the Pacific
73/5	Strengthening Asia-Pacific's support for the United Nations Conference to Support the Implementation of Sustainable Development Goal 14
73/9	Regional road map for implementing the 2030 Agenda for Sustainable Development in Asia and the Pacific
74/1	Supporting the smooth transition of the least developed countries in Asia and the Pacific towards a sustainable graduation

74/6	Advancing disaster-related statistics in Asia and the Pacific
74/10	Implementation of the Ministerial Declaration on Enhancing Regional Economic Cooperation and Integration to Support the Implementation of the 2030 Agenda in Asia and the Pacific
75/2	Committing to strengthening the links between national, regional and global follow-up to and review of the 2030 Agenda for Sustainable Development in Asia and the Pacific
75/3	Advancing partnerships within and across regions for the sustainable development of Asia and the Pacific
75/4	Strengthening regional cooperation to tackle air pollution challenges in Asia and the Pacific
75/9	Implementation of the Declaration on Navigating Policy with Data to Leave No One Behind
76/1	Strengthening cooperation to promote the conservation and sustainable use of the oceans, seas and marine resources for sustainable development in Asia and the Pacific
76/2	Regional cooperation to address the socioeconomic effects of pandemics and crises in Asia and the Pacific
77/1	Building back better from crises through regional cooperation in Asia and the Pacific
78/1	Bangkok Declaration Commemorating the Seventy-fifth Anniversary of the Economic and Social Commission for Asia and the Pacific: A Common Agenda to Advance Sustainable Development in Asia and the Pacific
78/2	A conference structure of the Commission to advance sustainable development
79/1	Accelerating climate action in Asia and the Pacific for sustainable development
79/3	Supporting the sustainable development of least developed countries, landlocked developing countries and small island developing States in Asia and the Pacific
79/4	Accelerating the implementation of the 2030 Agenda for Sustainable Development for a better future for all in Asia and the Pacific
80/2	Sustainable development in least developed countries, landlocked developing countries and small island developing States

Subprogramme 1
Macroeconomic policy, poverty reduction and financing for development

General Assembly resolutions

78/271	Further modalities of the Fourth International Conference on Financing for Development
78/322	Multidimensional vulnerability index
79/196	International financial system and development
79/197	External debt sustainability and development
79/198	Promoting investments for sustainable development

Economic and Social Commission for Asia and the Pacific resolutions

E/CN.11/63	Statistical and economic documentation work
71/5	Implementing the outcome of the Asia-Pacific High-level Consultation on Financing for Development

Subprogramme 2
Trade, investment and innovation

General Assembly resolutions

79/195	International trade and development
79/201	Entrepreneurship for sustainable development

Economic and Social Commission for Asia and the Pacific resolutions

68/3	Enabling paperless trade and the cross-border recognition of electronic data and documents for inclusive and sustainable intraregional trade facilitation
70/5	Strengthening regional cooperation and capacity for enhanced trade and investment in support of sustainable development
70/6	Implementation of the decision of the Ad Hoc Intergovernmental Meeting on a Regional Arrangement for the Facilitation of Cross-border Paperless Trade
72/3	Statute of the Asian and Pacific Centre for Transfer of Technology

72/4	Framework Agreement on Facilitation of Cross-border Paperless Trade in Asia and the Pacific
72/12	Harnessing science, technology and innovation for inclusive and sustainable development in Asia and the Pacific
75/8	Advancing science, technology and innovation for the implementation of the 2030 Agenda for Sustainable Development in Asia and the Pacific

Subprogramme 3
Transport

General Assembly resolutions

69/213	Role of transport and transit corridors in ensuring international cooperation for sustainable development
70/197	Towards comprehensive cooperation among all modes of transport for promoting sustainable multimodal transit corridors
76/294	Political declaration of the high-level meeting on improving global road safety
77/286	World Sustainable Transport Day
78/148	Strengthening the links between all modes of transport to achieve the Sustainable Development Goals
78/290	Improving global road safety

Economic and Social Commission for Asia and the Pacific resolutions

70/7	Implementation of the Suva Declaration on Improving Maritime Transport and Related Services in the Pacific
71/6	Maritime transport connectivity for sustainable development
71/7	Adoption of the Regional Cooperation Framework for the Facilitation of International Railway Transport
71/8	Strengthening intraregional and interregional connectivity in Asia and the Pacific
72/5	Strengthening regional cooperation on transport connectivity for sustainable development in Asia and the Pacific
74/2	Promotion of the regional framework for the planning, design, development and operation of dry ports of international importance
74/3	Improving road safety in Asia and the Pacific for sustainable transport systems
78/3	Implementation of the Ministerial Declaration on Sustainable Transport Development in Asia and the Pacific

Subprogramme 4
Environment and development

General Assembly resolutions

71/222	International Decade for Action, “Water for Sustainable Development”, 2018–2028
71/256	New Urban Agenda
74/212	International Day of Clean Air for blue skies
75/212	United Nations Conference on the Midterm Comprehensive Review of the Implementation of the Objectives of the International Decade for Action, “Water for Sustainable Development”, 2018–2028
77/158	International Year of Glaciers’ Preservation, 2025
77/334	Follow-up to the United Nations Conference on the Midterm Comprehensive Review of the Implementation of the Objectives of the International Decade for Action, “Water for Sustainable Development”, 2018–2028
78/128	2025 United Nations Conference to Support the Implementation of Sustainable Development Goal 14: Conserve and sustainably use the oceans, seas, and marine resources for sustainable development
78/272	Agreement under the United Nations Convention on the Law of the Sea on the Conservation and Sustainable Use of Marine Biological Diversity of Areas beyond National Jurisdiction
78/327	Modalities of the 2026 United Nations Water Conference to Accelerate the Implementation of Sustainable Development Goal 6: Ensure availability and sustainable management of water and sanitation for all
79/208	Implementation of the Convention on Biological Diversity and its contribution to sustainable development
79/210	Harmony with Nature

Economic and Social Council resolution

2017/24	Human settlements

Economic and Social Commission for Asia and the Pacific resolutions

70/12	Strengthening efforts on human settlements and sustainable urban development for the Asia-Pacific region
71/9	Strengthening cooperation on sustainable management of water resources in Asia and the Pacific
72/2	Statute of the Centre for Sustainable Agricultural Mechanization
74/4	Implementation of the Ministerial Declaration on Environment and Development for Asia and the Pacific, 2017
79/2	Regional cooperation to accelerate climate action on oceans in Asia and the Pacific for sustainable development
79/6	Implementation of the Ministerial Declaration on Protecting Our Planet through Regional Cooperation and Solidarity in Asia and the Pacific
79/7	Advancing regional cooperation for sustainable urban development and localization of the Sustainable Development Goals in Asia and the Pacific

Subprogramme 5
Information and communications technology and disaster risk reduction and management

General Assembly resolutions

70/125	Outcome document of the high-level meeting of the General Assembly on the overall review of the implementation of the outcomes of the World Summit on the Information Society
77/289	Political declaration of the high-level meeting on the midterm review of the Sendai Framework for Disaster Risk Reduction 2015–2030
78/314	United Nations Decade on Combating Sand and Dust Storms (2025–2034)
79/87	International cooperation in the peaceful uses of outer space
79/139	International cooperation on humanitarian assistance in the field of natural disasters, from relief to development
79/194	Information and communications technologies for sustainable development
79/205	Disaster risk reduction

Economic and Social Council resolutions

2015/14	Strengthening of the coordination of emergency humanitarian assistance of the United Nations
2015/31	Establishment of the Asian and Pacific Centre for the Development of Disaster Information Management
2016/27	Strengthening institutional arrangements on geospatial information management
2018/14	Strategic Framework on Geospatial Information and Services for Disasters
2024/13	Assessment of the progress made in the implementation of and follow-up to the outcomes of the World Summit on the Information Society

Economic and Social Commission for Asia and the Pacific resolutions and decisions

61/6	Establishment of the Asian and Pacific Training Centre for Information and Communication Technology for Development
71/11	Establishment of the Asian and Pacific centre for the development of disaster information management
71/12	Strengthening regional mechanisms for the implementation of the Sendai Framework for Disaster Risk Reduction 2015–2030 in Asia and the Pacific
72/7	Regional cooperation to combat sand and dust storms in Asia and the Pacific
72/10	Regional review of the implementation of the World Summit on the Information Society action lines
72/11	Advancing disaster-related statistics in Asia and the Pacific for implementation of internationally agreed development goals
73/7	Enhancing regional cooperation for the implementation of the Sendai Framework for Disaster Risk Reduction 2015–2030 in Asia and the Pacific
75/5	Implementation of the Ulaanbaatar Declaration of the 2018 Asian Ministerial Conference on Disaster Risk Reduction

75/6	Implementation of the Ministerial Declaration on Space Applications for Sustainable Development in Asia and the Pacific and the Asia-Pacific Plan of Action on Space Applications for Sustainable Development (2018–2030)
75/7	Advancing the implementation of the Asia-Pacific Information Superhighway initiative through regional cooperation
Decision 78/6	Report of the Governing Council of the Asian and Pacific Centre for the Development of Disaster Information Management
79/8	Consideration of the modalities for the establishment of the United Nations special programme for the Aral Sea basin
79/9	Implementation of the Jakarta Ministerial Declaration on Space Applications for Sustainable Development in Asia and the Pacific
79/10	Promoting digital cooperation and inclusion through the Action Plan for Implementing the Asia-Pacific Information Superhighway Initiative, 2022–2026
80/1	Leveraging digital innovation for sustainable development in Asia and the Pacific

Subprogramme 6
Social development

General Assembly resolutions

49/128	Report of the International Conference on Population and Development
65/234	Follow-up to the International Conference on Population and Development beyond 2014
65/312	Outcome document of the High-level Meeting of the General Assembly on Youth: Dialogue and Mutual Understanding
68/4	Declaration of the High-level Dialogue on International Migration and Development
73/195	Global Compact for Safe, Orderly and Regular Migration
73/326	Format and organizational aspects of the international migration review forums
75/131	United Nations Decade of Healthy Ageing (2021–2030)
76/266	Progress Declaration of the International Migration Review Forum
77/189	Inclusive development for and with persons with disabilities
77/193	Intensification of efforts to prevent and eliminate all forms of violence against women and girls: gender stereotypes and negative social norms
78/176	Preparations for and observance of the thirtieth anniversary of the International Year of the Family
78/179	Policies and programmes involving youth
78/181	Improvement of the situation of women and girls in rural areas
78/182	Follow-up to the Fourth World Conference on Women and full implementation of the Beijing Declaration and Platform for Action and the outcome of the twenty-third special session of the General Assembly
78/211	Effective promotion of the Declaration on the Rights of Persons Belonging to National or Ethnic, Religious and Linguistic Minorities
78/318	Modalities of the “World Social Summit” under the title “the Second World Summit for Social Development”
78/324	Consideration of decision 14/1 of the Open-ended Working Group on Ageing, entitled “Recommendations regarding the identification of possible gaps in the protection of the human rights of older persons and how best to address them”
79/146	Implementation of the outcome of the World Summit for Social Development and of the twenty-fourth special session of the General Assembly
79/147	Follow-up to the Second World Assembly on Ageing
79/152	Intensification of efforts to prevent and eliminate all forms of violence against women and girls: the digital environment
79/217	International migration and development

Economic and Social Council resolutions

2016/25	Future organization and methods of work of the Commission on Population and Development
2017/12	Promoting the rights of persons with disabilities and strengthening the mainstreaming of disability in the implementation of the 2030 Agenda for Sustainable Development
2022/4	Future organization and methods of work of the Commission on the Status of Women
2022/5	Thirtieth anniversary of the Fourth World Conference on Women
2023/12	Future organization and methods of work of the Commission for Social Development

2023/15	Fourth review and appraisal of the Madrid International Plan of Action on Ageing, 2002
2024/4	Promoting care and support systems for social development
2024/6	Fostering social development and social justice through social policies to accelerate progress on the implementation of the 2030 Agenda for Sustainable Development and to achieve the overarching goal of poverty eradication

Economic and Social Commission for Asia and the Pacific resolutions and decisions

74 (XXIII)	Regional co-operation in the field of population
66/12	Sixth Asian and Pacific Population Conference
67/5	Full and effective implementation of the Madrid International Plan of Action on Ageing in the Asia-Pacific region
67/6	Enhancing accessibility for persons with disabilities at ESCAP
69/14	Implementation of the Bangkok statement on the Asia-Pacific review of the implementation of the Madrid International Plan of Action on Ageing
70/14	Enhancing participation of youth in sustainable development in Asia and the Pacific
Decision 70/22	Report of the Sixth Asian and Pacific Population Conference
71/13	Implementation of the Asian and Pacific Ministerial Declaration on Advancing Gender Equality and Women's Empowerment
74/11	Strengthening regional cooperation to tackle inequality in all its forms in Asia and the Pacific
Decision 75/7	Report of the Midterm Review of the Asia and Pacific Ministerial Declaration on Population and Development including the Chair's summary
Decision 76/8	Asia-Pacific indicator framework for monitoring progress towards the implementation of the Programme of Action of the International Conference on Population and Development and of the commitments contained in the Asian and Pacific Ministerial Declaration on Population and Development
Decision 77/6	Report of the Asia-Pacific Regional Review of Implementation of the Global Compact for Safe, Orderly and Regular Migration
79/5	Implementation of the Jakarta Declaration on the Asian and Pacific Decade of Persons with Disabilities, 2023–2032
Decision 79/6	Asia-Pacific Intergovernmental Meeting on the Fourth Review and Appraisal of the Madrid International Plan of Action on Ageing
Decision 80/5	Reports of intergovernmental bodies and meeting held since the seventy-ninth session
Decision 80/6	Working Group on the Asian and Pacific Decade of Persons with Disabilities, 2023–2032

Subprogramme 7
Statistics

General Assembly resolutions

68/261	Fundamental Principles of Official Statistics
71/313	Work of the Statistical Commission pertaining to the 2030 Agenda for Sustainable Development

Economic and Social Council resolutions

2006/6	Strengthening statistical capacity
2011/15	Revision of the statute of the Statistical Institute for Asia and the Pacific
2013/21	Fundamental Principles of Official Statistics
2017/7	Work of the Statistical Commission pertaining to the 2030 Agenda for Sustainable Development
2022/3	Ensuring that the work in the field of statistics and data is adaptive to the changing statistical and data ecosystem

Economic and Social Commission for Asia and the Pacific resolutions

246 (XLII)	Statistical services in Asia and the Pacific
65/2	Regional technical cooperation and capacity-building in statistics development in Asia and the Pacific
67/10	A core set of economic statistics to guide the improvement of basic economic statistics in Asia and the Pacific

67/11	Strengthening statistical capacity in Asia and the Pacific	71/14	Asian and Pacific Civil Registration and Vital Statistics Decade, 2015–2024
67/12	Improvement of civil registration and vital statistics in Asia and the Pacific	74/8	Accelerating the implementation of the Regional Action Framework on Civil Registration and Vital Statistics in Asia and the Pacific
69/15	Implementing the outcome of the High-level Meeting on the Improvement of Civil Registration and Vital Statistics in Asia and the Pacific	78/4	Implementation of the Ministerial Declaration on Building a More Resilient Future with Inclusive Civil Registration and Vital Statistics
69/16	A core set of population and social statistics to guide national capacity development in Asia and the Pacific		

Subprogramme 8
Subregional activities for development

General Assembly resolutions

63/260	Development-related activities	78/9	Commemoration of the twenty-fifth anniversary of the United Nations Special Programme for the Economies of Central Asia
72/283	Strengthening regional and international cooperation to ensure peace, stability and sustainable development in the Central Asian region		

Economic and Social Commission for Asia and the Pacific resolution

244 (XLI)	The Commission's Activities in the Pacific

Subprogramme 9
Energy

General Assembly resolutions

65/151	International Year of Sustainable Energy for All	78/149	The pivotal role of reliable and stable energy connectivity in driving sustainable development
69/225	Promotion of new and renewable sources of energy	79/211	Ensuring access to affordable, reliable, sustainable and modern energy for all
77/327	International Day of Clean Energy		

Economic and Social Council resolutions

2011/14	Promoting regional cooperation for enhanced energy security and the sustainable use of energy in Asia and the Pacific	2023/19	United Nations Resource Management System Principles and Requirements

Economic and Social Commission for Asia and the Pacific resolutions

64/3	Promoting renewables for energy security and sustainable development in Asia and the Pacific	70/9; 74/9	Implementation of the outcomes of the Asian and Pacific Energy Forum
67/2	Promoting regional cooperation for enhanced energy security and the sustainable use of energy in Asia and the Pacific	73/8	Strengthening regional cooperation for sustainable energy development in Asia and the Pacific
		80/3	Ministerial Declaration on Building a Secure, Sustainable and Interconnected Energy Future for Asia and the Pacific

Deliverables

19.25 Table 19.1 lists all cross-cutting deliverables of the programme.

Table 19.1
Cross-cutting deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**9**	**8**	**9**	**9**
Reports for:				
1. The Commission	3	3	3	4
2. The Asia-Pacific Forum on Sustainable Development	6	5	6	5
Substantive services for meetings (number of three-hour meetings)	**36**	**35**	**36**	**36**
Meetings of:				
3. The Commission	10	10	10	10
4. The Asia-Pacific Forum on Sustainable Development	8	7	8	8
5. The Advisory Committee of Permanent Representatives and Other Representatives Designated by Members of the Commission	6	6	6	6
6. The expert groups on least developed countries, landlocked developing countries and small island developing States	3	3	3	3
7. The Committee for Programme and Coordination	1	1	1	1
8. The Advisory Committee on Administrative and Budgetary Questions	2	2	2	2
9. The Fifth Committee	2	2	2	2
10. The Regional Collaborative Platform for Asia and the Pacific	4	4	4	4
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**2**	**2**	**1**	**1**
11. On selected issues pertinent to the sustainable development of least developed countries, landlocked developing countries and small island developing States	2	2	1	1
Seminars, workshops and training events (number of days)	**2**	**2**	**2**	**2**
12. Subregional workshops on priorities of the programmes of action for least developed countries, landlocked developing countries and small island developing States	1	1	1	1
13. Policy dialogues based on the *Asia-Pacific Countries with Special Needs Development Report*	1	1	1	1
Publications (number of publications)	**5**	**5**	**5**	**5**
14. ESCAP theme study	1	1	1	1
15. *Asia-Pacific Countries with Special Needs Development Report*	1	1	1	1
16. On the implementation of the 2030 Agenda	1	1	1	1
17. *Asia-Pacific Sustainable Development Journal*	2	2	2	2
Technical materials (number of materials)	**4**	**7**	**4**	**4**
18. On issues relevant to Asia-Pacific countries in special situations	4	7	4	4
C. Substantive deliverables				
Databases and substantive digital materials: Asia-Pacific Sustainable Development Goal partnership data portal containing more than 1,000 data sets on the Sustainable Development Goals.				
D. Communication deliverables				
Outreach programmes, special events and information materials: observance of United Nations international days, including United Nations Day; outreach programmes upon demand for the general public, including for academic organizations, for approximately 300 participants.				
External and media relations: press releases and op-ed articles on the work and activities of ESCAP; newsletter on subregional activities for development; press conferences/press briefings and press interviews for publications and events.				
Digital platforms and multimedia content: multimedia promotional content, including videos and educational materials for major publications and events; blog posts for the ESCAP website and content for ESCAP social media accounts.				

Evaluation activities

19.26 The following evaluations conducted by ESCAP and completed in 2024 have guided the proposed programme plan for 2026:

(a) Evaluation of subprogramme 9, Energy;

(b) Evaluation of the performance of ESCAP in integrating a gender perspective into its programmes and projects.

19.27 In response to the findings of the evaluations referenced above, ESCAP conducted needs assessments with member States to identify priority capacity-building initiatives on access to clean and affordable energy services. ESCAP also strengthened partnerships with Governments and national organizations to implement these initiatives at the country level for greater impact and sustainability. In addition, ESCAP initiated an update to its strategy on gender equality and the empowerment of women. This process includes reinforcing staff capacity and resource allocation to enable the enhanced integration of a gender perspective across the Commission's substantive areas of work.

19.28 The following evaluations to be conducted by ESCAP are planned for 2026:

(a) Evaluation of the implementation of the Regional Action Programme for Sustainable Transport Development in Asia and the Pacific (2022–2026);

(b) The approach taken by ESCAP to leveraging artificial intelligence to support member States.

Programme of work

Subprogramme 1
Macroeconomic policy, poverty reduction and financing for development

Objective

19.29 The objective, to which this subprogramme contributes, is to strengthen the capacity of member States to achieve stable, inclusive and sustainable economic development in Asia and the Pacific.

Strategy

19.30 To contribute to the objective, the subprogramme will support member States, including countries in special situations, in transforming their economies in a manner that is consistent with the 2030 Agenda, contributing to the achievement of Sustainable Development Goals 1, 8 to 10, 12 and 17, and promote a development approach that goes beyond the primary focus on economic growth. Specifically, the subprogramme will:

(a) Support member States in exploring, adopting and mainstreaming economic development policies and financing strategies aligned with the achievement of the Goals, through methodologies developed through and policy recommendations emerging from knowledge products, technical advisory and capacity-building efforts and the facilitation of knowledge exchange and consensus-building among member States;

(b) Undertake research, advisory and capacity-building services on country-level policymaking and regional-level sharing of policy experiences, guided by the Committee on Macroeconomic Policy, Poverty Reduction and Financing for Development of the Commission and further supported through the Consultative Group on Financing Strategies for the Sustainable Development Goals;

(c) Undertake outreach and follow-up of the subprogramme's research and knowledge products through policy dialogues and closer cooperation of members of the Consultative Group, policy

think tanks, resident coordinator offices and United Nations country teams to further integrate the subprogramme's research and capacity-building work;

(d) Provide substantive inputs to global and United Nations system-wide processes and initiatives, in particular on financing for development issues, and to task teams and publications coordinated by the Department of Economic and Social Affairs of the Secretariat.

19.31 The above-mentioned work is expected to result in:

(a) Evidence-based economic policies and development strategies for strengthened economic resilience, inclusive development and environmental sustainability;

(b) The strengthened ability of member States, in particular least developed countries, to mobilize and allocate financial resources for sustainable development, including by mainstreaming sustainable development into public and private financing;

(c) The enhanced capacity of member States to promote the transformation of their economies towards resilient, inclusive and sustainable development pathways.

Programme performance in 2024

Regulatory climate risk analysis for supervised financial institutions

19.32 Risks related to climate change, when not factored into banking policy and supervision, could also pose a risk to financial sector stability. In 2024, the subprogramme provided technical assistance to the Bank of Mongolia in developing and launching its first climate risk analysis for five systemically important banks in the country's banking sector. This places the Bank of Mongolia among the first regulators in a landlocked developing country to incorporate the management of climate risk within their prudential policy framework. Training activities were conducted for both the regulator and the participating banks to ensure that necessary capacities were developed in the financial system, which would support the sustainability and replicability of the exercise.

19.33 Progress towards the objective is presented in the performance measure below (see table 19.2).

Table 19.2
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Considerations related to climate risks were incorporated into the operations and supervisory activities of the Bank of Mongolia for the Mongolian financial system

Planned results for 2026

Result 1: engagement of member States for evidence-based and forward-looking macroeconomic policymaking aligned with the Sustainable Development Goals

Programme performance in 2024 and target for 2026

19.34 The subprogramme's work contributed to the engagement of relevant ministries from Bhutan, Cambodia, Maldives and Pakistan on the organization of substantive macroeconomic policy dialogues, which met the planned target.

19.35 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.3).

Table 19.3
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
National policy dialogues on substantive macroeconomic policy involved policymakers as participants	Relevant ministries of three member States (Cambodia, Mongolia and Sri Lanka) engaged on the organization of substantive macroeconomic policy dialogues on rethinking public debt	Relevant ministries of four member States (Bhutan, Cambodia, Maldives and Pakistan) engaged on the organization of substantive macroeconomic policy dialogues	Relevant ministries of three or more member States engage on the organization of substantive macroeconomic policy dialogues	Relevant ministries and pertinent policy institutions of three or more member States engage on the organization of substantive macroeconomic policy dialogues

Result 2: improved policymaking for macroeconomic and financing for development issues

Programme performance in 2024 and target for 2026

19.36 The subprogramme's work contributed to 86 per cent of policymakers acknowledging strengthened policy awareness on emerging macroeconomic and financing for development issues and 68 per cent acknowledging the intention to apply newly acquired policy ideas in actual policymaking and implementation, which met the planned target.

19.37 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.4).

Table 19.4
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Member States benefited from updates on policy research through the Consultative Group on Financing Strategies for the Sustainable Development Goals	Policymakers engaged in interactive discussions with experts through policy dialogues on flagship publications	86 per cent of policymakers surveyed acknowledged strengthened policy awareness on emerging macroeconomic and financing for development issues 68 per cent acknowledged the intention to apply newly acquired policy ideas in actual policymaking and implementation	At least 65 per cent of policymakers engaged acknowledge strengthened policy awareness on emerging macroeconomic and financing for development issues	At least 75 per cent of policymakers engaged acknowledge strengthened policy awareness on emerging macroeconomic and financing for development issues

Result 3: member States introduce new policy initiatives and reforms to accelerate financing for sustainable development

Proposed programme plan for 2026

19.38 The subprogramme has been building capacities of member States and has supported the enactment of policy actions to accelerate financing for the Sustainable Development Goals, including by supporting capital market regulators in accelerating the use of sustainable capital market instruments and ministries of finance and economy in developing and implementing policies to finance sustainable development.

Lessons learned and planned change

19.39 The lesson for the subprogramme was that building longer-term partnerships with government counterparts would result in better understanding of their capacity-building and analytical needs. In applying the lesson, the subprogramme will seek more consistent engagement with partners and provide targeted technical assistance to national Governments for more impactful policy actions.

19.40 Expected progress towards the objective is presented in the performance measure below (see table 19.5).

Table 19.5
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Bangladesh, Bhutan and Cambodia initiated policy changes to strengthen financing for sustainable development	Bhutan, Cambodia and Sri Lanka initiated policy changes to strengthen financing for sustainable development	Bhutan developed its Sustainability Bond Framework Cambodia issued new green bonds and began drafting a national sustainable finance road map and creating a sustainable finance task force Sri Lanka undertook a validation of its Green Bond Framework	New initiatives or reforms by three member States to strengthen financing for sustainable development	New initiatives or reforms by three member States that support the acceleration of financing for sustainable development

Deliverables

19.41 Table 19.6 lists all deliverables of the subprogramme.

Table 19.6
Subprogramme 1: deliverables for the period 2024–2026, by category and subcategory

14. Policy briefs on macroeconomic policy, poverty reduction and financing for development	4	4	4	4
15. Economic update for the Asia-Pacific region	–	–	–	4
C. Substantive deliverables				
Consultation, advice and advocacy: advocacy event on financing for development at the Economic and Social Council; side events at the Asia-Pacific Forum on Sustainable Development.				
D. Communication deliverables				
Outreach programmes, special events and information materials: presentations, videos, brochures and infographics on the *Economic and Social Survey of Asia and the Pacific* and the *Financing for Development Series*.				

Subprogramme 2
Trade, investment and innovation

Objective

19.42 The objective, to which this subprogramme contributes, is to strengthen the capacity of member States to implement policies and programmes that more effectively harness the potential of trade, investment, innovation, technology and enterprise development for inclusive and sustainable development and regional integration in Asia and the Pacific.

Strategy

19.43 To contribute to the objective, the subprogramme will:

(a) Support member States in formulating and implementing policies and measures to promote and facilitate trade, investment, innovation and enterprise development in support of inclusive and sustainable development, with a specific focus on the needs of countries in special situations, including countries on the cusp of graduation from least developed country status;

(b) Build the capacity of member States, in cooperation with global and regional partners, such as the Asian Development Bank, the United Nations Conference on Trade and Development and the World Trade Organization, to negotiate and implement trade agreements aligned with the 2030 Agenda and to design and implement trade and investment facilitation policies and measures, including through the adoption of paperless trade systems;

(c) Provide capacity-building in close cooperation with the Asian and Pacific Centre for Transfer of Technology, including workshops, training activities and policy advice; develop knowledge products on sustainable FDI, innovation, technology cooperation and transfer, innovative and emerging technologies, climate technologies, responsible and inclusive business, social enterprise, impact investment and innovative finance for women's entrepreneurship;

(d) Support member States in the areas of trade facilitation and support trade digitization, such as paperless and contactless trade, as appropriate, in particular to maintain trade flows of critical goods in times of global and regional crises;

(e) Support member States in formulating policies for sustainable FDI, infrastructure financing and micro-, small and medium-sized enterprises, with a key focus on private sector engagement through the ESCAP Sustainable Business Network and on developing initiatives through the sharing of best sustainability practices and the promotion of innovative financial and digital tools to support policy exchanges and women entrepreneurs with a view to reducing vulnerabilities;

(f) Support regional cooperation and knowledge-sharing platforms and expand expert networks in the areas of trade, investment, technology, innovation and inclusive and sustainable business, including through public-private partnerships, for knowledge transfer and peer learning.

19.44 These workstreams will support member States in making progress towards the achievement of Sustainable Development Goals 3, 5 to 9, 11, 13 and 17.

19.45 The above-mentioned work is expected to result in:

(a) Reduced trade costs and increased participation and competitiveness of companies, especially micro-, small and medium-sized enterprises, in international trade;

(b) The adoption by member States of more effective rules and procedures governing trade, leading to more efficient trade outcomes aligned with the Sustainable Development Goals;

(c) The adoption by member States of policies and measures aimed at achieving more inclusive and sustainable outcomes of private sector activities, including public-private partnerships;

(d) The integration of inclusive and sustainable practices into technology and innovation policies in the region;

(e) The increased resilience of supply chains by enabling continued trade activities and using technology and innovation to mitigate the impact of crises.

Programme performance in 2024

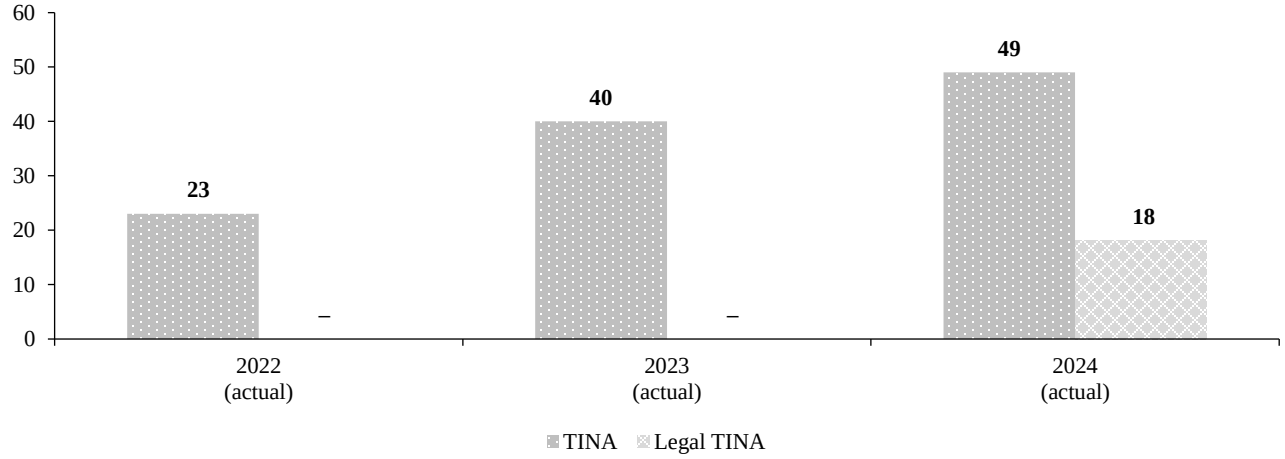
Increased access to legal drafting assistance for trade agreement negotiators

19.46 Trade among preferential trade agreement partners accounts for about half of all Asia-Pacific trade. By the end of 2023, 135 preferential trade agreements that involved at least one Asia-Pacific country included sustainable development provisions, covering labour protection, human rights, the environment and small and medium-sized enterprises. However, many developing countries face capacity challenges, and engaging international experts can be expensive.

19.47 To support ESCAP member States, particularly countries in special situations, in preparing to conduct trade negotiations, the subprogramme extended its Trade Intelligence and Negotiation Adviser (TINA) platform in 2024 to include a text explainer powered by innovative and emerging technology. TINA helps member States to negotiate trade agreements by offering comprehensive data and tailored analyses for feasibility studies and impact assessments, thereby reducing the need for costly external advice. It also supports the 2030 Agenda by promoting trade liberalization in areas such as environmental goods and plastic substitutes, and by providing guidelines on sustainable development provisions, empowering countries to advance their trade and development goals efficiently. Since the launch of the extension, ESCAP has conducted 16 in-country, subregional and regional training events in eight countries on the use of Legal TINA, the extension of the original TINA.

19.48 Progress towards the objective is presented in the performance measure below (see figure 19.I).

Figure 19.I
Performance measure: number of electronic certificates issued to trade agreement negotiators from Asia-Pacific economies on the use of the Trade Intelligence and Negotiation Adviser (TINA) (cumulative)



Planned results for 2026

Result 1: enhanced policy measures to promote inclusive business for sustainable development

Programme performance in 2024 and target for 2026

19.49 The subprogramme's work contributed to the development of six additional policy measures by the Association of Southeast Asian Nations (ASEAN), India and Sri Lanka to promote inclusive business, which met the planned target.

19.50 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.7).

Table 19.7
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Member States (Cambodia, the Philippines and Viet Nam) implemented measures to promote inclusive businesses	Viet Nam implemented an inclusive business accreditation system 10 member States endorsed a plan of action for the promotion of inclusive business in ASEAN (2023–2027), and issued a declaration on promoting inclusive business models in ASEAN	Six additional policy measures were developed by ASEAN, India and Sri Lanka to promote inclusive business	Two key policy measures to support the implementation of a plan of action for the promotion of inclusive business in South-East Asia (2023–2027) designed: (a) An inclusive business accreditation system for South-East Asia; (b) A framework to monitor and evaluate the progress of the plan of action	Two additional key policy measures to support the promotion of inclusive business in Asia and the Pacific

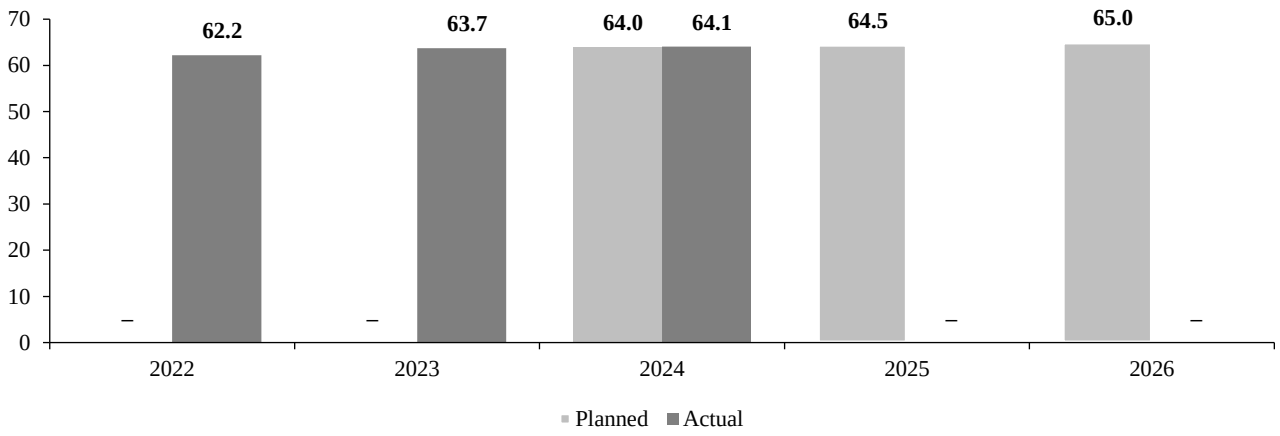
Result 2: more sustainable and efficient trade processes through increased digital and sustainable trade facilitation measures

Programme performance in 2024 and target for 2026

19.51 The subprogramme's work contributed to an increase in the implementation rate of digital and sustainable trade facilitation measures in Asia and the Pacific to 64.1 per cent, which met the planned target.

19.52 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 19.II).

Figure 19.II
Performance measure: implementation rate of digital and sustainable trade facilitation measures in Asia and the Pacific (annual)
(Percentage)



Result 3: investment promotion agencies pledge commitment to advance gender equality through foreign direct investment

Proposed programme plan for 2026

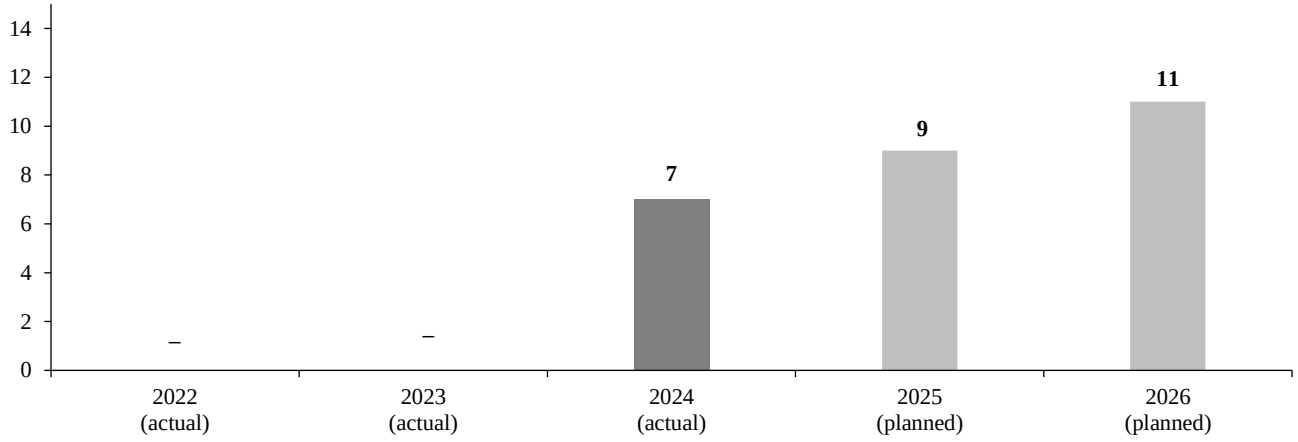
19.53 In line with recommendation 4 of the Committee on Trade, Investment, Enterprise and Business Innovation at its first session (see ESCAP/CTIEBI(1)/8), the subprogramme has been working to leverage FDI as a tool for promoting gender equality in Asia and the Pacific. Recognizing the underutilized potential of FDI in achieving Sustainable Development Goal 5, the subprogramme launched the "pledge amongst investment promotion agencies, economic development boards and ministries of investment to advance gender equity in foreign direct investment" to secure commitment from agencies directly responsible for attracting FDI to their countries.

Lessons learned and planned change

19.54 The lesson for the subprogramme was that it could expand its outreach activities to engage more investment promotion agencies in undertaking investment promotion in a gender-sensitive manner in Asia and the Pacific. In applying the lesson, the subprogramme plans to provide targeted support to potential signatories, including awareness-raising sessions, capacity-building workshops and one-on-one consultations to address concerns and highlight the benefits of the pledge, in order to increase the outreach and impact of the pledge.

19.55 Expected progress towards the objective is presented in the performance measure below (see figure 19.III).

Figure 19.III
Performance measure: number of investment promotion agencies that have formally signed the pledge (cumulative)



Deliverables

19.56 Table 19.8 lists all deliverables of the subprogramme.

Table 19.8

C. Substantive deliverables

Consultation, advice and advocacy: advisory services on trade, investment, innovation, inclusive and sustainable business; consultation on technology cooperation and transfer, and emerging and frontier technologies; advisory support for the task forces of the ESCAP Sustainable Business Network; knowledge management platform on technology transfer; regional knowledge networks linking researchers, policymakers and practitioners in trade, investment, innovation and inclusive and sustainable business, including the Asia-Pacific Research and Training Network on Trade and the United Nations Network of Experts for Paperless Trade and Transport in Asia and the Pacific; side events on trade, investment and innovation at the Asia-Pacific Forum on Sustainable Development.

Databases and substantive digital materials: e-training module on technology transfer; online courses and databases on trade, investment and innovation; the comprehensive trade cost database; the Asia-Pacific Trade and Investment Agreements Database; the online Trade Intelligence and Negotiation Adviser; trade performance indicators on non-tariff measures.

D. Communication deliverables

Outreach programmes, special events and information materials: country fact sheets, multimedia materials and briefings on trade, investment, innovation and inclusive and sustainable business; newsletter and information products on technology cooperation and transfer.

Subprogramme 3
Transport

Objective

19.57 The objective, to which this subprogramme contributes, is to achieve sustainable transport connectivity, logistics and mobility in the Asia-Pacific region.

Strategy

19.58 To contribute to the objective, the subprogramme will:

(a) Serve as the secretariat for the Intergovernmental Agreement on the Asian Highway Network, the Intergovernmental Agreement on the Trans-Asian Railway Network and the Intergovernmental Agreement on Dry Ports, and provide technical expertise to the intergovernmental deliberations of the relevant working groups, including on operational issues and issues of particular relevance to landlocked developing countries;

(b) Provide technical assistance and conduct related research and analysis on land and maritime transport, with due consideration for the specific needs of landlocked developing countries and small island developing States, focusing on enhanced operational connectivity through promoting knowledge products and best practices, including efficient operational arrangements and harmonized legal frameworks for multimodal transport, and facilitate systematic regional and, as appropriate, interregional dialogue to foster regional and interregional connectivity;

(c) Facilitate the exchange of good practices on the utilization of new and emerging technologies, and support the wider deployment of smart transport systems through the development of a regional road map and by raising awareness through knowledge products and capacity development;

(d) Undertake policy advocacy and capacity-building in the areas of sustainable urban transport and low greenhouse gas emissions and logistics, including by promoting and facilitating an accelerated transition to affordable, safe, low-emission, clean and energy-efficient transport and environmentally friendly supply chains;

(e) Provide technical assistance in the areas of road safety and inclusive transport and mobility, including through a regional plan of action for road safety and regional guidelines addressing accessibility, to support reductions in poverty and inequality and promote inclusive transport for people with different travel requirements, including but not limited to women, children, older persons, low-income transport users, rural inhabitants and persons with disabilities.

19.59 These workstreams will support member States in making progress towards the achievement of Sustainable Development Goals 3, 7, 9, 11 to 13 and 17 and the objectives of the Regional Action Programme for Sustainable Transport Development in Asia and the Pacific (2022–2026).

19.60 The above-mentioned work is expected to result in:

(a) A more sustainable, efficient and resilient transport infrastructure along the regional transport networks (Asian highways, trans-Asian railways and dry ports) and at maritime ports to support freight and, where appropriate, passenger operations that are affordable, safe, accessible and environmentally friendly;

(b) Enhanced regional land, maritime and interregional transport connectivity to preserve regional and interregional transport linkages and foster regional cooperation to support interregional and intraregional trade and people connectivity;

(c) The formulation and implementation of sustainable transport and mobility policy initiatives in member countries, including the planning and development of urban public transport systems, measures and mechanisms to promote the use of low-greenhouse-gas-emission transport and smart mobility approaches, and measures to improve transport safety and promote inclusive transport in the region.

Programme performance in 2024

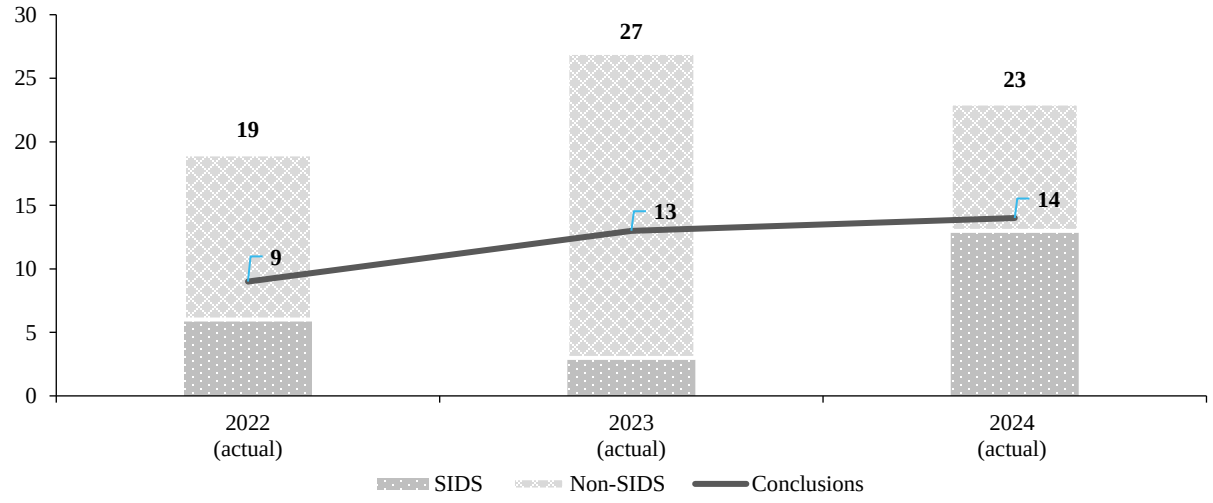
Sustainable and resilient port development to support sustainable maritime connectivity in the Pacific

19.61 Maritime and interregional transport connectivity is one of the seven thematic areas of the Regional Action Programme for Sustainable Transport Development in Asia and the Pacific (2022–2026). As shipping plays a central role in enabling international trade, the subprogramme has been promoting sustainable and resilient port development to connect small island developing States to the global economy.

19.62 In addressing the transport challenges of Pacific small island developing States and facilitating their access to global and regional supply chains, the subprogramme has been providing advisory services and offering capacity-building programmes. It has been issuing knowledge products and policy tools offering best practices on sustainable and resilient port operations, including an analysis of the state of maritime connectivity and resilient ports in South-East Asia and small island developing States in the Pacific. Since 2022, the subprogramme has been organizing systematic regional dialogues on sustainable and resilient maritime connectivity and port development. In 2024, the dialogue was organized in Fiji, which enabled the increased participation of representatives from small island developing States and allowed for more specific conclusions geared towards improving maritime connectivity in the Pacific.

19.63 Progress towards the objective is presented in the performance measure below (see figure 19.IV).

Figure 19.IV
Performance measure: number of participating countries and substantive conclusions reached at the regional dialogues on sustainable maritime connectivity (annual)



Abbreviation: SIDS, small island developing States.

Planned results for 2026

Result 1: enhanced policies for safe and inclusive transport and mobility

Programme performance in 2024 and target for 2026

19.64 The subprogramme's work contributed to Malaysia, the Philippines, Thailand and Viet Nam formulating national measures to reduce road traffic deaths and injuries by at least 50 per cent between 2021 and 2030, which exceeded the planned target of three additional member States.

19.65 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.9).

Table 19.9
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
The Regional Plan of Action for Asia and the Pacific for the Second Decade of Action for Road Safety 2021–2030 was welcomed by the Committee on Transport ESCAP member States contributed to the development of regional guidelines on enhancing social inclusion and innovations in urban transport systems in Asia-Pacific cities	Bangladesh, the Islamic Republic of Iran and the Lao People's Democratic Republic formulated national road safety policies and initiatives to improve road safety	Malaysia, the Philippines, Thailand and Viet Nam formulated national measures to reduce road traffic deaths and injuries by at least 50 per cent between 2021 and 2030	Three additional member States, including a least developed country, formulate national measures to reduce road traffic deaths and injuries by at least 50 per cent between 2021 and 2030	Two member States in the Pacific formulate national policies to improve social inclusion by means of their transport systems

Result 2: increased efficiency and resilience of transport connectivity and logistics networks in Asia and the Pacific

Programme performance in 2024 and target for 2026

19.66 The subprogramme's work contributed to three member States sharing advance information on their intention to amend the Asian Highway and Trans-Asian Railway routes involving international border crossings, which met the planned target.

19.67 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.10).

Table 19.10
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Member States proposed amendments to the coverage of the eight Asian Highway routes and eight Trans-Asian Railway routes	Member States adopted amendments to 5 Asian Highway routes and 2 Trans-Asian Railway routes	Three member States shared advance information on their intention to amend the Asian Highway and Trans-Asian Railway routes involving international border crossings	Member States consider the proposed amendments to the configuration of transport networks	Member States update policy initiatives to increase the resilience and efficiency of Asian Highway and Trans-Asian Railway routes

Result 3: accelerated transition to low-emission transport

Proposed programme plan for 2026

19.68 In response to ESCAP resolution 79/1, the subprogramme initiated a regional cooperation mechanism on low-emission and energy-efficient transport and conducted a series of subregional consultations and capacity-building workshops, with over 30 member States, to mobilize transport ministries and key stakeholders to engage in policy processes and to reduce the emissions of the transport sector.

Lessons learned and planned change

19.69 The lesson for the subprogramme was that it could further support the transition to low-emission transport by scaling up regional collaboration and advancing the discussions on several common priority areas and emerging demands. In applying the lesson, the subprogramme will leverage voluntary initiatives and case studies to promote learning and knowledge exchange among member States, and support member States in developing additional national policy frameworks for the transition to electric mobility and implementing pilot electric bus routes.

19.70 Expected progress towards the objective is presented in the performance measure below (see table 19.11).

Table 19.11
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	20 member States joined the Asia-Pacific initiative on electric mobility	Four member States establish national vertical coordination mechanisms to accelerate their transition to electric mobility	At least two member States establish pilot electric bus routes Member States consider the implementation of the regional action plan on low-emission transport at the Ministerial Conference on Transport

Deliverables

19.71 Table 19.12 lists all deliverables of the subprogramme.

Table 19.12

17. On transport connectivity and logistics	1	1	2	1
18. On mobility	1	1	1	2
C. Substantive deliverables				
Consultation, advice and advocacy: side events on transport at the Asia-Pacific Forum on Sustainable Development.				
Databases and substantive digital materials: Asian Highway database, the Trans-Asian Railway Network and the network of dry ports.				
D. Communication deliverables				
Outreach programmes, special events and information materials: infographics on road safety for regional and global access.				

Subprogramme 4
Environment and development

Objective

19.72 The objective, to which this subprogramme contributes, is to enhance the environmental sustainability of development in a holistic and integrated manner and to improve human well-being in urban and rural environments through building the capacity of member States to strengthen integrated environmental policies and sustainable management of natural resources, realize inclusive, resilient and sustainable urban development, and reduce pollution and waste.

Strategy

19.73 To contribute to the objective, the subprogramme will:

(a) Support member States, as appropriate within the existing mandate, to promote cooperation at all levels on enabling climate-sensitive urban development in line with national priorities and circumstances and continue to support the actions of members and associate members, upon request and within available resources, in the development of ambitious climate action policies and plans for mitigation and adaptation aligned with the Paris Agreement and the decisions adopted by the Commission and the Committee on Environment and Development;

(b) Promote regional cooperation on air quality management, including through the operationalization of the Regional Action Programme on Air Pollution and the commemoration of the International Day of Clean Air for blue skies, to provide opportunities for partnership-building, dialogues and the exchange of best practices, complemented by technical support to member States on the assessment of air quality, standards and data, in collaboration with relevant United Nations and international organizations;

(c) Build the capacity of national, subnational and local officials to strengthen sustainable urban planning processes; provide technical and policy support for the voluntary local review and localization of the Sustainable Development Goals; facilitate the adoption of urban resilience and local climate strategies, the application of people-centred smart city systems and the financing of climate-resilient urban infrastructure; and increase awareness of sustainable and inclusive urban solutions, including nature-based solutions, ecosystem-based approaches and other management and conservation approaches to reduce the environmental impacts of urbanization;

(d) Strengthen subregional dialogue on institutionalizing participatory approaches in environmental matters, including through the sharing of good practices, the development of common approaches and South-South cooperation;

(e) Support regional cooperation to protect ocean and marine ecosystems for sustainable development, including by coordinating the regional implementation of the United Nations Decade of Ocean Science for Sustainable Development and by, inter alia, providing participatory, multi-stakeholder dialogue platforms to support region-wide initiatives and global processes;

(f) Strengthen the adoption of sustainable agricultural technologies and practices in the region in support of food security, the resilience of rural communities and air quality management through the activities of the Centre for Sustainable Agricultural Mechanization.

19.74 The above-mentioned strategy will help to support member States in their progress towards the achievement of Sustainable Development Goals 2, 3, 6, 11 to 15 and 17.

19.75 The above-mentioned work is expected to result in:

(a) Enhanced action by member States to address climate change through accelerating the implementation of the Paris Agreement, including through sustainable, low-emission and climate-resilient development;

(b) Enhanced action by member States to improve air quality with the support of collaborative actions developed in line with the Regional Action Programme on Air Pollution;

(c) Increased sustainability and resilience of communities and a reduction of the negative impacts of urbanization;

(d) Strengthened subregional cooperation frameworks on participatory approaches in environmental matters;

(e) Strengthened regional and multi-stakeholder partnerships for the conservation and sustainable use of the ocean and marine resources and on synergies between Sustainable Development Goals 13 and 14.

Programme performance in 2024

Digitalized access to new tools, mechanisms and instruments to facilitate the localization of the Sustainable Development Goals

19.76 In its resolution 79/7, the Commission encouraged members and associate members to work together to develop initiatives aimed at achieving the localization of the Sustainable Development Goals, in particular Goal 11, at the national, subnational and local levels. In supporting member States to implement the resolution in 2024, the subprogramme worked with national, regional and local governments and their associations, businesses, community-based organizations and other local actors to collect best practices and exchange knowledge on localization, conduct voluntary local reviews and identify local climate action. It also developed the Asia-Pacific SDG Localization Platform, an online toolbox containing a range of practical and adaptable mechanisms and instruments that support the development, implementation, monitoring and review of appropriate Sustainable Development Goal actions. The subprogramme also supported the Government of Malaysia in piloting and producing its first Goal 11 national road map.

19.77 Progress towards the objective is presented in the performance measure below (see table 19.13).

Table 19.13
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Two cities utilized ESCAP guidelines to support the development of their voluntary local reviews	Member States exchanged experiences and best practices at the Asia-Pacific Urban Forum and agreed on a high-level communiqué on cooperation and priorities to localize the Goals	18 stakeholders in the Asia-Pacific Localization Partnership for Sustainable Cities contributed to the development and content of a new online localization platform Malaysia piloted and produced its first national road map on Goal 11

Planned results for 2026

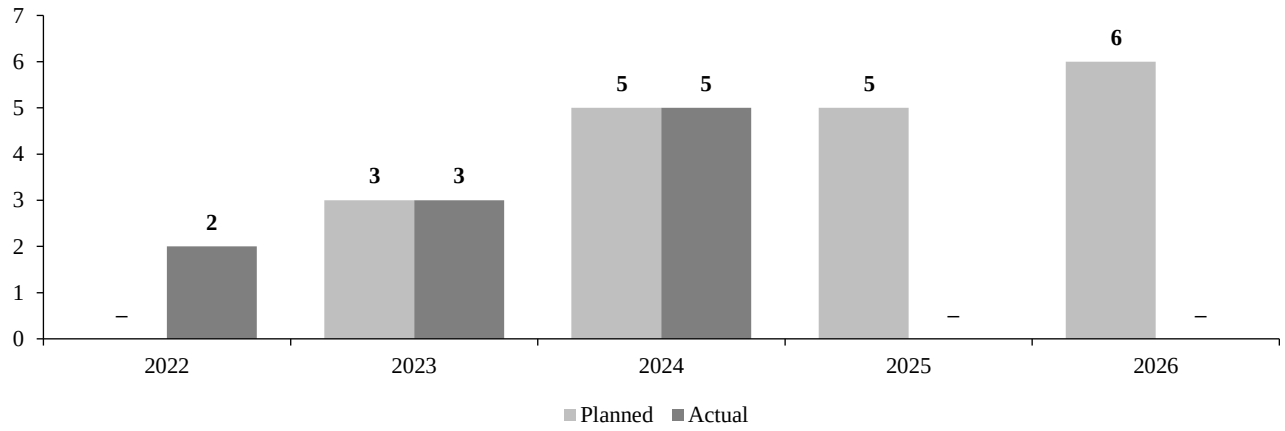
Result 1: local governments localize the Sustainable Development Goals and contribute to national climate strategies

Programme performance in 2024 and target for 2026

19.78 The subprogramme's work contributed to five cities (Chandragiri, Nepal; Surigao City, Philippines; Suva; Udon Thani, Thailand; and West Java, Indonesia) developing voluntary local reviews and/or Sustainable Development Goal localization plans, which met the planned target.

19.79 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 19.V).

Figure 19.V
Performance measure: number of cities developing voluntary local reviews and/or Sustainable Development Goal localization plans with the direct support of the Commission (annual)



Result 2: member States in Asia and the Pacific increase cooperation to advance participatory approaches on environmental matters

Programme performance in 2024 and target for 2026

19.80 The subprogramme's work contributed to the development of a draft subregional declaration by member States to promote participatory approaches on environmental matters, which met the planned target.

19.81 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.14).

Table 19.14
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Member States agreed on institutional arrangements to strengthen participatory approaches	Member States enhanced subregional cooperation to promote participatory approaches	Member States developed a draft subregional declaration to promote participatory approaches	Member States take steps to institutionalize modalities for participation	Member States adopt an instrument to institutionalize modalities for participatory approaches

Result 3: increased regional cooperation on ocean-based climate actions, including through ecosystem-based approaches and nature-based solutions

Proposed programme plan for 2026

19.82 In responding to ESCAP resolutions 76/1, 79/2 and 79/6, the subprogramme strengthened regional multi-stakeholder processes, including the Asia-Pacific Day for the Ocean, and identified key areas for national capacity-building and regional cooperation, including through the regional dialogue on ocean-based climate actions.

Lessons learned and planned change

19.83 The lesson for the subprogramme was that strengthening regional cooperation could enhance the role of ecosystem-based approaches and nature-based solutions, in particular by conserving marine ecosystems that support climate mitigation and adaptation and by placing people at the centre of these efforts. In applying the lesson, the subprogramme will increase access to capacity-building opportunities, enhance regional networking among experts and member States, develop practical guidance for Governments and other stakeholders, strengthen technical cooperation and ensure that regional perspectives contribute to the outcomes of the third United Nations Ocean Conference. The subprogramme will also promote private sector engagement and partnership development at the regional and national levels.

19.84 Expected progress towards the objective is presented in the performance measure below (see table 19.15).

Table 19.15
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Member States identified options and modalities for strengthening regional cooperation on conserving marine ecosystems	Member States contribute to regional actions, networking and regional and global dialogue on conserving marine ecosystems	Member States agree on regional actions to follow up on the outcomes of the third United Nations Ocean Conference, including on carbon dioxide sequestration and storage

Deliverables

19.85 Table 19.16 lists all deliverables of the subprogramme.

Table 19.16
Subprogramme 4: deliverables for the period 2024–2026, by category and subcategory

24. On agricultural machinery	3	3	3	3
C. Substantive deliverables				
Consultation, advice and advocacy: advisory services on the environment and development; side events on the environment and development at the Asia-Pacific Forum on Sustainable Development.				
Databases and substantive digital materials: 16 e-learning courses on the environment and the implementation of the 2030 Agenda.				
D. Communication deliverables				
Outreach programmes, special events and information materials: information material on agricultural mechanization; the International Day of Clean Air for blue skies, World Cities Day, World Environment Day and World Habitat Day.				

Subprogramme 5
Information and communications technology and disaster risk reduction and management

Objective

19.86 The objective, to which this subprogramme contributes, is to strengthen regional cooperation on information and communications technology (ICT), space technology applications and disaster risk reduction and management for resilient and sustainable development in Asia and the Pacific through the sharing of information and best practices.

Strategy

19.87 To contribute to the objective, the subprogramme will support member States in making progress towards the achievement of Sustainable Development Goals 1, 4, 5, 9 to 11, 13 to 15 and 17 by developing norms for secure and inclusive digital connectivity, geospatial data-sharing and disaster risk reduction and resilience-building, supported by policy analysis and evidence-based research. Specifically, the subprogramme will:

(a) Build capacity, especially of countries in special situations, in the above-mentioned areas, anchored in regional cooperation mechanisms that promote technical cooperation through the South-South and North-South modalities and are augmented by the programmes of the Asian and Pacific Training Centre for Information and Communication Technology for Development and the Asian and Pacific Centre for the Development of Disaster Information Management;

(b) Promote regional policy dialogue, knowledge exchange and cooperation on transboundary challenges related to connectivity and disaster risks, including those related to major development challenges such as climate change;

(c) Under the Action Plan for Implementing the Asia-Pacific Information Superhighway Initiative, 2022–2026, carry out studies on the digital divide, assess policy and regulatory frameworks and provide policy recommendations for inclusive digital transformation, supplemented by advocacy, networking and partnerships in support of regionally agreed frameworks;

(d) Guided by the Jakarta Ministerial Declaration on Space Applications for Sustainable Development in Asia and the Pacific and the Asia-Pacific Plan of Action on Space Applications for Sustainable Development (2018–2030), assist member States in harnessing recent advances in space technology applications and geospatial data, facilitate timely and expanded access to space-derived geospatial data, pool expertise and resources at the regional and subregional levels, promote the sharing of knowledge and good practices and create synergies with other existing regional initiatives, as appropriate and upon their request;

(e) Augment and leverage subregional and regional cooperation in disaster risk reduction, adaptation and climate-resilient pathways for action, including through the implementation of the activities of the Asia-Pacific Disaster Resilience Network and the ESCAP multi-donor trust fund for tsunami, disaster and climate preparedness, and disaster information management services provided by the Asian and Pacific Centre for the Development of Disaster Information Management, including the activities under the Regional Plan of Action on Sand and Dust Storms in Asia and the Pacific;

(f) Further build the resilience of human and institutional capacity, in particular by providing assistance in the facilitation of inclusive use of digital solutions, such as the use of actionable disaster risk analytics and geospatial data applications and the provision of targeted solutions for the special needs of countries that face a high disaster risk.

19.88 The above-mentioned work is expected to result in:

(a) The bridging of the digital divide, and the appropriate and secure use of digital solutions for transformation;

(b) Countries of the region applying a transformative adaptation approach to combat climate change in order to leave no one behind;

(c) Enhanced applications by member States of integrated geospatial information to support transformative adaptation and accelerate the implementation of the Sustainable Development Goals.

Programme performance in 2024

Regional consensus on digital inclusion and transformation

19.89 Asia and the Pacific is a hub for digital innovations with the potential to accelerate digital inclusion and transformation for sustainable development. The subprogramme co-organized, with the Government of Kazakhstan and with the support of partners including the Department of Economic and Social Affairs and the International Telecommunication Union, the Asia-Pacific Ministerial Conference on Digital Inclusion and Transformation, which consolidated regional consensus on digital inclusion and transformation for regional cooperation. The subprogramme collaborated with partners, including the Climate Technology Centre and Network, and shared good practices on climate change mitigation through the *Asia-Pacific Digital Transformation Report 2024: Digital Innovation for Smarter Climate Action*. Furthermore, the subprogramme supported regional policy dialogue on infrastructure connectivity, digital technologies and applications, and digital data, through the Asia-Pacific Information Superhighway initiative; facilitated negotiations between three Pacific member States to improve Internet traffic management; and provided advisory services to the Government of Indonesia on a digital transformation index.

19.90 Progress towards the objective is presented in the performance measure below (see table 19.17).

Table 19.17
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
The Committee on Information and Communications Technology, Science, Technology and Innovation endorsed the Action Plan for Implementing the Asia-Pacific Information Superhighway Initiative, 2022–2026	The Commission adopted resolution 79/10, in which it decided to convene a ministerial conference on digital inclusion and transformation	Member States adopted the Astana Ministerial Declaration on Digital Inclusion and Transformation in Asia and the Pacific Fiji, New Zealand and Samoa established the Pacific Islands Internet Exchange Incorporated to improve Internet speed and reduce costs

Planned results for 2026

Result 1: strengthened national and subregional frameworks on disaster risk reduction and climate adaptation

Programme performance in 2024 and target for 2026

19.91 The subprogramme's work contributed to two additional subregional organizations (the Asian Disaster Preparedness Centre and the Coalition for Disaster-Resilient Infrastructure) adopting

disaster risk reduction and climate adaptation frameworks and supporting the Early Warnings for All initiative, which met the planned target.

19.92 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.18).

Table 19.18
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Indonesia, the Lao People's Democratic Republic and Thailand translated the action plans into national strategies	ASEAN and the Pacific Islands Forum Secretariat and the Group of 20 adopted disaster risk reduction and climate adaptation frameworks in line with the Sendai Framework for Disaster Risk Reduction and supported the Early Warnings for All initiative	The Asian Disaster Preparedness Centre and the Coalition for Disaster-Resilient Infrastructure adopted disaster risk reduction and climate adaptation frameworks and supported the Early Warnings for All initiative	Three countries adopt national frameworks to make progress towards the Early Warnings for All initiative by 2027	Two additional countries adopt national frameworks to make progress towards the Early Warnings for All initiative by 2027

Result 2: increased adoption of digitally driven innovations to enable transformative adaptation to climate change

Programme performance in 2024 and target for 2026

19.93 In coordination with the Resident Coordinator Offices, the subprogramme's work contributed to Bhutan and Nepal making progress in achieving transformative adaptation in agriculture and the energy sector, which met the planned target.

19.94 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.19).

Table 19.19
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
All ESCAP subregions gained access to downscaled climate scenario data through the ESCAP Risk and Resilience Portal	Member States accessed an updated version of disaster risk data analytics	Bhutan and Nepal made progress in achieving transformative adaptation in agriculture and the energy sector	Two additional countries make progress in achieving transformative adaptation in agriculture or the energy sector	Member States gain access to a database of climate change adaptation best practices to enhance adaptation planning at the national and regional levels

Result 3: scaled up geospatial applications by countries in special situations for achieving the 2030 Agenda

Proposed programme plan for 2026

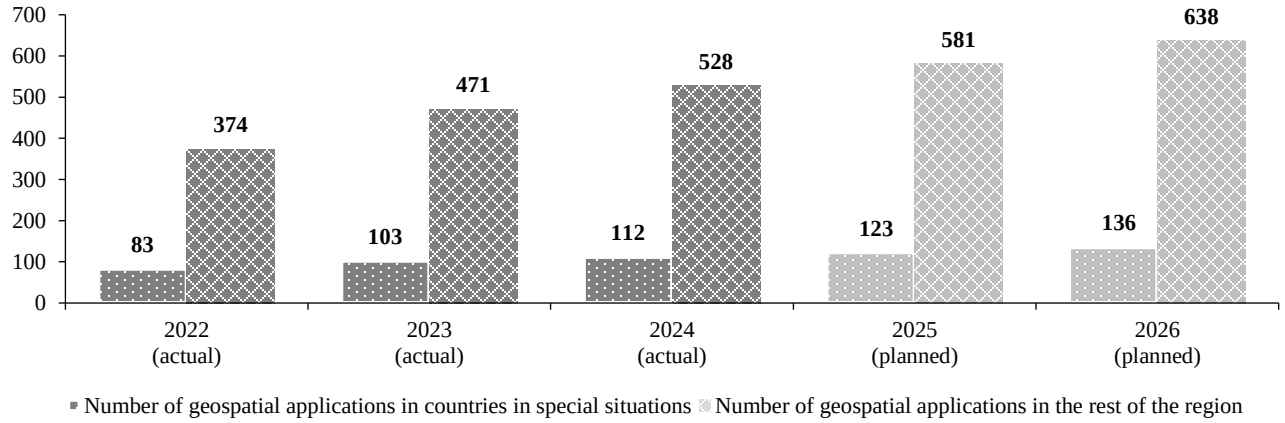
19.95 Countries have adopted policy and institutional reforms to strengthen space science and technology and their applications, including through the integration of geospatial data and solutions into sustainable development policies and practices, although at different speeds and depths across the region.

Lessons learned and planned change

19.96 The lesson for the subprogramme was that digitally driven innovations developed by ESCAP to automate flood hotspot mapping or to forecast the impacts of hazards could simplify processes, making them more available, accessible, affordable and actionable. In applying the lesson, the subprogramme will build the capacity of countries, with a particular focus on countries in special situations to leverage new technological developments and other digital innovations. With the financial and technical support from ESCAP members and through South-South modalities, the subprogramme plans to promote good geospatial practices by means of a compendium, database and dashboard of geospatial practices, implement capacity-building and technical support initiatives, and implement field projects to help countries in special situations to build their capacities to analyse and apply geospatial data.

19.97 Expected progress towards the objective is presented in the performance measure below (see figure 19.VI).

Figure 19.VI
Performance measure: number of geospatial applications in Asia and the Pacific (cumulative)



Deliverables

19.98 Table 19.20 lists all deliverables of the subprogramme.

Table 19.20
Subprogramme 5: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies

21. On space technology applications	4	6	2	3
22. Asian and Pacific Training Centre for Information and Communication Technology for Development	1	1	1	1
Seminars, workshops and training events (number of days)	**14**	**33**	–	**14**
23. On strengthening ICT human capacity for inclusive and sustainable development	14	33	–	14
Publications (number of publications)	**2**	**2**	**2**	**2**
24. On disaster information management	–	–	1	–
25. Compendium on geospatial practices for sustainable development	1	1	–	1

Category and subcategory	2024 planned	2024 actual	2025 planned	2026 planned
26. On digital transformation for sustainable development	1	1	1	1
Technical materials (number of materials)	**8**	**5**	**6**	**7**
27. Policy briefs and guidelines on disaster information management	3	–	2	3
28. On disaster risk reduction	2	2	1	1
29. Policy briefs and working papers on ICT, including infrastructure and connectivity	2	2	2	2
30. Policy brief on geospatial information applications	1	1	1	1

C. Substantive deliverables

Consultation, advice and advocacy: advisory services for working groups on disaster risk reduction and resilience, including the Issue-Based Coalition on Building Resilience; advice to the task forces of the ESCAP Sustainable Business Network; advice for committees and consultations with organizations on issues related to disaster risk reduction, space applications and ICT; briefing notes on digital development for senior government officials from ICT-related ministries and agencies; advice on data governance for risk-informed development.

Databases and substantive digital materials: ESCAP Risk and Resilience Portal; digital materials on space technology applications for regional and global access; geospatial practices database and dashboard with 50 new data entries and 10 institutional users; digital material for the development and management of disaster information databases and spatial data infrastructure; two new e-learning courses of the Asian and Pacific Training Centre for Information and Communication Technology for Development and guidance on impact-based forecasting and early warning.

D. Communication deliverables

Outreach programmes, special events and information materials: International Day of Science, Technology and Innovation for the South.

Digital platforms and multimedia content: content for the Asian and Pacific Training Centre for Information and Communication Technology for Development Virtual Academy; multimedia training content on disaster information management.

Subprogramme 6
Social development

Objective

19.99 The objective, to which this subprogramme contributes, is to realize inclusive and equitable societies that protect, empower and leave no one behind in Asia and the Pacific, with a focus on population and development, social protection, disability, and gender equality and the empowerment of women.

Strategy

19.100 To contribute to the objective, the subprogramme will bring together Governments on critical issues related to social development in the region and inform these intergovernmental processes through analysis and by drawing upon the complementary strengths of ESCAP through its regional convening power and the capacity of United Nations agencies, funds and programmes to support national implementation to advance the Sustainable Development Goals. Specifically, the subprogramme will:

(a) Support Governments in the continued implementation of the Programme of Action of the International Conference on Population and Development, the Madrid International Plan of Action on Ageing and the Global Compact for Safe, Orderly and Regular Migration by strengthening the evidence base with regard to population and development issues, with a focus on ageing, migration and population dynamics, poverty reduction and leaving no one behind;

(b) Facilitate the monitoring of the implementation of the Asian and Pacific Ministerial Declaration on Population and Development through the framework that was endorsed at the sixth session of the Committee on Social Development;

(c) Provide support to member States in identifying the population groups that are at the highest risk of being left behind through its Leave No One Behind methodology, analytical reports and capacity-building;

(d) In line with the Action Plan to Strengthen Regional Cooperation on Social Protection in Asia and the Pacific, consolidate national progress and experiences related to extending social protection coverage in periodic progress reports; develop a regional platform for member States to share good practices; and provide new and innovative analytical tools and products, as well as capacity-development tools and training sessions to Governments;

(e) Conduct research and analysis and provide capacity-building support to member States on building disability-inclusive societies, guided by the Convention on the Rights of Persons with Disabilities, the Incheon Strategy to "Make the Right Real" for Persons with Disabilities in Asia and the Pacific, and the Jakarta Declaration on the Asian and Pacific Decade of Persons with Disabilities, 2023–2032, and support other subprogrammes in mainstreaming disability inclusion;

(f) Follow up on the outcomes of the Asia-Pacific regional review of the implementation of the Beijing Declaration and Platform for Action by supporting Governments in accelerating the implementation of the Beijing Declaration and Platform for Action;

(g) Provide technical assistance in developing policies in the context of economic empowerment and entrepreneurship for women and support other subprogrammes in mainstreaming a gender perspective;

(h) Provide knowledge products, seminars and technical advice on addressing women's unpaid care burden and designing strategies and policy initiatives to improve the care economy.

19.101 The above-mentioned work will help to support member States in their progress towards the achievement of Sustainable Development Goals 1, 3, 4, 5, 8, 10, 11 and 17.

19.102 The above-mentioned work is expected to result in:

(a) The development of regional frameworks for social development;

(b) The development of responsive policies and programmes in the domain of population dynamics and social development;

(c) Enhanced skills and knowledge to enable countries to design and implement inclusive social protection policies, including to address the impact of rapid demographic transitions and climate change;

(d) Improved national policies and strategies to advance gender equality and women's empowerment, including through measures to improve the care economy and reduce women's unpaid care burden;

(e) Improved national policies and programmes in support of disability-inclusive development.

Programme performance in 2024

Regional consensus on priorities and strategies for achieving gender equality and women's empowerment in Asia and the Pacific

19.103 In 2024, the subprogramme led the regional review of progress made and challenges that remain in implementing the Beijing Declaration and Platform for Action, which culminated in the holding of the Asia-Pacific Ministerial Conference on the Beijing+30 Review in November 2024, in collaboration with the United Nations Entity for Gender Equality and the Empowerment of Women

(UN-Women). In the years leading up to the Ministerial Conference, the subprogramme supported member States in capacity development for assessing progress in critical areas of concern and building consensus on regional priorities for policy development to address emerging challenges in the context of critical transitions, through regional policy dialogue and subregional forums and workshops. Over 40 member States responded to the Beijing+30 survey and participated in the Ministerial Conference.

19.104 Progress towards the objective is presented in the performance measure below (see table 19.21).

Table 19.21
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Member States assessed progress and identified priorities for accelerating gender equality, in particular, to address issues related to climate change, environment management and disaster risk reduction	Member States assessed progress and identified priorities for accelerating gender equality, in particular, on emerging issues related to digital and technological transformation	Member States reached consensus on regional priorities and strategies to address emerging issues and accelerate the implementation of the Beijing Declaration and Platform for Action

Planned results for 2026

Result 1: advancement of data and guidance for inclusive and evidence-based policy design and implementation to reduce inequality of opportunity and leave no one behind

Programme performance in 2024 and target for 2026

19.105 The subprogramme's work contributed to Armenia, the Lao People's Democratic Republic, Nepal and Palau, which represent 44 per cent of ESCAP member States that committed to voluntary national reviews in 2024, generating their own data and evidence using the Leaving No One Behind platform to inform inclusive policymaking, which exceeded the planned target of 20 per cent.

19.106 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.22).

Table 19.22
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Five ESCAP member States (Mongolia, the Philippines, Tonga, Turkmenistan and Tuvalu) conducted national training sessions to enhance understanding and use of the Leaving No One Behind platform	Cambodia, Fiji, Maldives and Mongolia generated their own data and evidence to inform inclusive policies using the Leaving No One Behind platform	Armenia, the Lao People's Democratic Republic, Nepal and Palau, which represent 44 per cent of ESCAP member States that committed to voluntary national reviews in 2024, generated their own data and evidence using the Leaving	Six ESCAP member States that produce policy documents in 2025 use data and evidence generated by the Leaving No One Behind platform to inform inclusive policies	Six ESCAP member States that produce policy documents in 2026 use data and evidence generated by the Leaving No One Behind platform to inform inclusive policies

2022 (actual)	2023 (actual)	2024 (actual)	2025 (planned)	2026 (planned)
		No One Behind platform to inform inclusive policymaking		

Result 2: member States develop policy measures on valuing and investing in the care economy

Programme performance in 2024 and target for 2026

19.107 The subprogramme's work contributed to the adoption by the Philippines of an ordinance on valuing and investing in the care economy at the subnational level; and to Indonesia and the Lao People's Democratic Republic convening national consultations on the care economy, which exceeded the planned target of one member State developing a policy initiative on the care economy.

19.108 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.23).

Table 19.23
Performance measure

2022 (actual)	2023 (actual)	2024 (actual)	2025 (planned)	2026 (planned)
Cambodia and the Philippines developed strategies on new care economy policy initiatives	Cambodia, China and the Philippines convened national consultations on the care economy	The Philippines adopted an ordinance on valuing and investing in the care economy at the subnational level Indonesia and the Lao People's Democratic Republic convened national consultations on the care economy	Two member States adopt policy measures on the care economy	Two member States strengthen their policy measures on the care economy

Result 3: strengthened national capacity to develop inclusive population ageing policies

Proposed programme plan for 2026

19.109 The subprogramme has built capacity in 15 Asia-Pacific countries in recent years on mainstreaming policies on ageing, enhancing preparation for demographic shifts and the future of work, intergenerational relations and promoting digital literacy among older persons.

Lessons learned and planned change

19.110 The lesson for the subprogramme was that the processes and initiatives at the global level would benefit from regional-level deliberations to understand their implications and regional and localized specificities. In applying the lesson, the subprogramme will focus on bottom-up approaches and interministerial meetings with government population ageing focal points in preparation for the fifth review and appraisal of the Madrid International Plan of Action on Ageing.

19.111 Expected progress towards the objective is presented in the performance measure below (see table 19.24).

Table 19.24
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
ESCAP member States adopted recommendations for action at the regional and national levels to address the economic and social impacts of population ageing, especially on older women	Bhutan, Malaysia and Thailand addressed population ageing in policy frameworks and action plans	20 per cent of ESCAP member States used an ESCAP online repository of good practices for drafting new population ageing policies, laws, programmes and guidelines	Government population ageing focal points identify gaps and priorities concerning formulating policies on population ageing	Member States initiate the development of inclusive policies by participating in ESCAP-led initiatives

Deliverables

19.112 Table 19.25 lists all deliverables of the subprogramme.

Table 19.25
Subprogramme 6: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**5**	**7**	**3**	**4**
Reports for:				
1. The Commission	1	1	1	1
2. The Committee on Social Development	2	4	–	3

18. On disability inclusion	–	–	1	–
19. On gender equality	1	1	–	1
20. *Social Outlook for Asia and the Pacific*	1	1	–	1
21. *Asia-Pacific Migration Report 2024*	1	1	–	–
Technical materials (number of materials)	**10**	**11**	**11**	**11**
22. On gender equality	–	–	1	1
23. On disability inclusion	1	1	1	1
24. Policy brief on population and development	1	1	1	1
25. Working paper on population and development	1	1	1	1
26. Working papers on inequality	2	3	2	2
27. Policy brief on population data	1	1	1	1
28. On social development	4	4	4	4
C. Substantive deliverables				
Consultation, advice and advocacy: advisory services for working groups on issues related to social development; side events on social development at the Asia-Pacific Forum on Sustainable Development.				
Databases and substantive digital materials: online databases and resource facilities on social development for regional and global access.				
D. Communication deliverables				
Outreach programmes, special events and information materials: International Women's Day; International Day of Older Persons; International Day of Persons with Disabilities; International Day of Care and Support.				

Subprogramme 7
Statistics

Objective

19.113 The objective, to which this subprogramme contributes, is to improve the availability, accessibility and use of quality data and official statistics in support of sustainable development in Asia and the Pacific.

Strategy

19.114 To contribute to the objective, the subprogramme will:

(a) Support statistical development in the region, regional cooperation and the formulation of regional positions to advance official statistics in line with existing commitments, including "Advancing official statistics for the 2030 Agenda for Sustainable Development: a collective vision and framework for action by the Asia-Pacific statistical community", the Declaration on Navigating Policy with Data to Leave No One Behind and the Ministerial Declaration on Building a More Resilient Future with Inclusive Civil Registration and Vital Statistics;

(b) Provide technical assistance, training and capacity-building support, in collaboration with the Statistical Institute for Asia and the Pacific:

(i) To enhance national statistical capacities to produce, disseminate and communicate statistical products and services, including but not limited to gender-sensitive and sex-disaggregated data and statistics, with an emphasis on those countries left further behind, such as the least developed countries, landlocked developing countries and small island developing States;

(ii) To modernize national statistical systems and empower national statistical offices in the region to benefit from the data sources generated by the various components of national data ecosystems, including administrative data and big data produced and owned by other governmental agencies and the private sector;

(c) Provide statistical products and services, such as the *Asia and the Pacific SDG Progress Report* and the Asia-Pacific Sustainable Development Goals Gateway, that make regional data and official statistics accessible to assess progress in the Asia-Pacific region towards achieving the Sustainable Development Goals;

(d) Develop and support the production of knowledge products in the form of research papers, working papers, statistics briefs and blogs to raise awareness of and share knowledge and experience relating to official statistics;

(e) Promote cooperation and facilitate consensus-building among member States, regional entities and other partners working in data and statistics through regional and country-specific initiatives. This includes, among other things, advancing the Declaration on Navigating Policy with Data to Leave No One Behind, data governance and gender mainstreaming in cooperation with member States and development partners, which will constitute the foundation for enhanced statistical capacity in Asia and the Pacific;

(f) Expand its work to transform national statistical systems so that they are resilient to future shocks like the COVID-19 pandemic, including through virtual platforms and innovations in statistical production processes, which promote cooperation and consensus-building.

19.115 The above-mentioned work is expected to result in:

(a) The improved availability, accessibility and use of quality data and official statistics in support of sustainable development in Asia and the Pacific;

(b) The improved capacity of national statistical systems to review progress in the implementation of the 2030 Agenda;

(c) The increased use of statistics in evidence-based decision-making across the Asia-Pacific region.

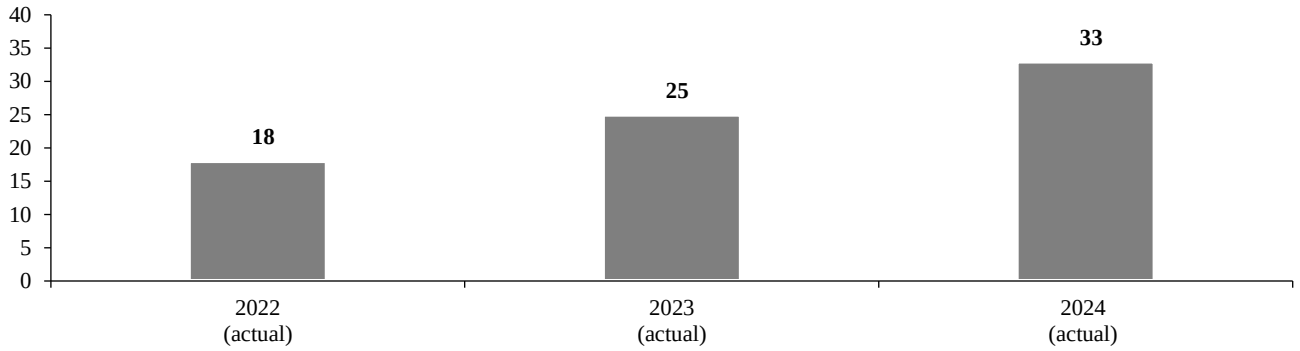
Programme performance in 2024

Innovative methods to improve the quality of official statistics

19.116 Following a decision by the ESCAP Committee on Statistics at its seventh session to feature big data for official statistics with a focus on sharing country experiences, the subprogramme initiated a specialized training programme to enhance the use of innovative methods for the compilation of consumer price indices. Experts from 33 countries participated in this programme and were trained in coding, web scraping techniques for price statistics, machine learning and small area estimation. Participants acquired Python programming skills and learned its application by scraping various websites and completing various assessment exercises. This skills development was supported by mentors from the Regional Hub on Big Data and Data Science for Asia and the Pacific, who fostered peer learning among the participants from the global South and the discussion of practical application within different country contexts.

19.117 Progress towards the objective is presented in the performance measure below (see figure 19.VII).

Figure 19.VII
Performance measure: number of countries with experts equipped to utilize big data and data science for official statistics (annual)



Planned results for 2026

Result 1: national statistical systems advance the mainstreaming of a gender perspective

Programme performance in 2024 and target for 2026

19.118 The subprogramme's work contributed to three national statistical systems (Fiji, Indonesia and the Philippines) applying gender mainstreaming in their statistical work, which exceeded the planned target of two.

19.119 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.26).

Table 19.26
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Government statisticians from 35 countries attended training courses on how to integrate a gender perspective in statistics	Cambodia and Mongolia undertook steps towards gender mainstreaming in their statistical work	Fiji, Indonesia and the Philippines applied gender mainstreaming in their statistical work	Three national statistical systems apply gender mainstreaming in their statistical work	Two additional national statistical systems apply gender mainstreaming in their statistical work

Result 2: improved data governance by national statistical offices across Asia and the Pacific

Programme performance in 2024 and target for 2026

19.120 The subprogramme's work contributed to 20 member States providing input for a compendium of country data governance practices, enabling member States to share experiences to address data governance challenges, which exceeded the planned target of 10 member States.

19.121 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.27).

Table 19.27
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
The ESCAP Committee on Statistics, at its eighth session, decided to feature data governance in its future work, with an emphasis on sharing country experiences and facilitating the provision of technical assistance	ESCAP, at its seventy-ninth session, endorsed the revised focus of the Committee on Statistics	Twenty member States contributed to a compendium of country data governance practices, enabling member States to share experiences to address data governance challenges	Five member States take steps to address data governance challenges and contribute to a compendium of country data governance practices	Six member States take steps to address data governance challenges and contribute to a compendium of country data governance practices

Result 3: establishment of national Sustainable Development Goal platforms to monitor progress towards the 2030 Agenda for Sustainable Development in Asia and the Pacific

Proposed programme plan for 2026

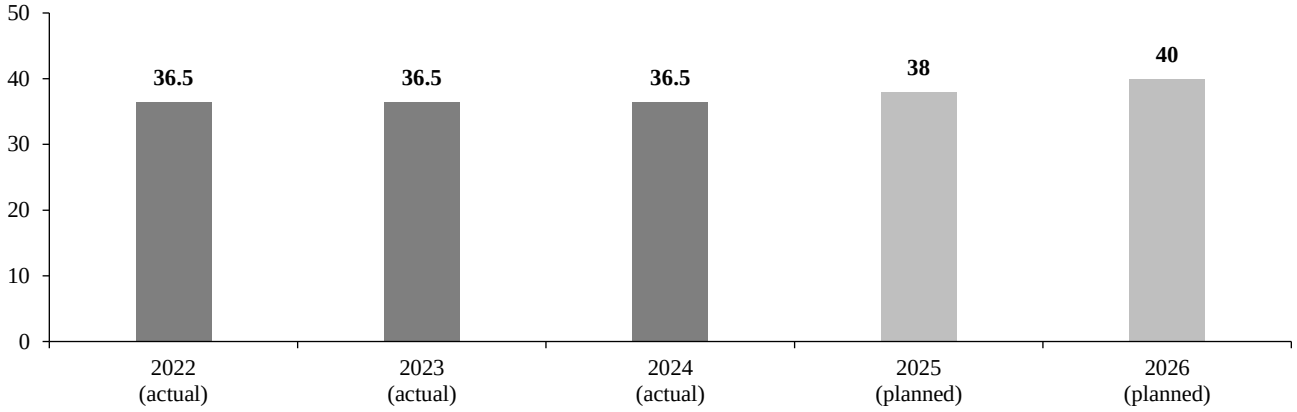
19.122 The ESCAP Committee on Statistics, at its seventh session, reinforced the need for enhancing the consistency of global and national Sustainable Development Goals data and providing technical support to countries to establish their data structure and national reporting platforms. The subprogramme launched the national Sustainable Development Goals tracker to assist member States in producing national progress assessments.

Lessons learned and planned change

19.123 The lesson for the subprogramme was that open-source solutions, such as Open SDG and the .Stat Suite platform, could offer sustainable, scalable ways for member States to build their internal capacity for reporting on the Goals. These tools are adaptable and shareable among countries, thus facilitating broader collaboration. In applying the lesson and to secure the longer-term success of these open-source solutions, the subprogramme will increase its efforts to make the tools more user-friendly and accessible. It also plans to strengthen the technical skills of staff of national statistical offices to ensure that the systems and tools can be maintained and sustained in the future.

19.124 Expected progress towards the objective is presented in the performance measure below (see figure 19.VIII).

Figure 19.VIII
Performance measure: percentage of Asia-Pacific countries with an official country-operated, dedicated online portal which can be used for reporting Sustainable Development Goals progress



Deliverables

19.125 Table 19.28 lists all deliverables of the subprogramme.

Table 19.28
Subprogramme 7: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*

Publications (number of publications)	**1**	**1**	**1**	**1**
20. *Asia and the Pacific SDG Progress Report*	1	1	1	1
Technical materials (number of materials)	**2**	**2**	**2**	**2**
21. On a variety of official statistics topics	2	2	2	2

C. Substantive deliverables

Consultation, advice and advocacy: advisory support for subregional networks on official social, economic and environmental statistics; side events on statistics at the Asia-Pacific Forum on Sustainable Development.

Databases and substantive digital materials: ESCAP statistical database accessible at the regional and global levels.

Subprogramme 8
Subregional activities for development

Component 1
Subregional activities for development in the Pacific

Objective

19.126 The objective, to which component 1 of the subprogramme contributes, is to strengthen regional cooperation and integration for sustainable development, in line with the subregional priorities of the Pacific, which include building resilience against natural disasters and climate change to reduce vulnerabilities and to improve socioeconomic conditions.

Strategy

19.127 To contribute to the objective, the component will be guided by the Antigua and Barbuda Agenda for Small Island Developing States and the Doha Programme of Action for the Least Developed Countries. In particular, it will:

(a) Provide subregional and in-country capacity development support in identifying and valuing ecosystem goods and services for the sustainable management of resources, in cooperation with subprogrammes 4 and 7;

(b) Provide technical assistance to member States and create knowledge-exchange opportunities between member States and civil society to develop nationally appropriate indicator frameworks and promote women's economic empowerment, social protection and disability policies, in cooperation with subprogramme 6;

(c) Provide technical assistance and advisory services with regard to addressing the socioeconomic challenges of the subregion and devising appropriate recovery responses through national frameworks for Sustainable Development Goal financing, national planning, sector policies

and strategies and regional cooperation on transboundary issues, in line with the outcomes of relevant assessments;

(d) Organize annual meetings and facilitate dialogues on sustainable development, including a subregional forum on sustainable development, among government officials, civil society, experts and other stakeholders, and on the sharing of information on subregional implementation efforts;

(e) Promote coordination with and collaboration among subregional intergovernmental organizations and member States for an effective representation of subregional perspectives at regional and global consultations, and provide implementation support for the Commission's subprogrammes relating to the subregion's priorities;

(f) Support the advancement of the 2050 Strategy for the Blue Pacific Continent, containing the streamlined Pacific Road Map for Sustainable Development, and serve as the focal point for the Commission's engagement with the resident coordinator system and United Nations country teams, including through substantive assistance in the implementation of the United Nations Sustainable Development Cooperation Frameworks, in particular with regard to the transboundary dimensions of sustainable development, and assist country-level programming by providing subregional perspectives and access to regional networks and facilitating South-South and triangular cooperation;

(g) Strengthen coordination with the Pacific Islands Forum Secretariat and other agencies of the Council of Regional Organizations of the Pacific to deliver the 2050 Strategy for the Blue Pacific Continent in line with the 2030 Agenda.

19.128 The above-mentioned work is expected to result in:

(a) Improved data availability for evidence-based policymaking on climate-resilient, sustainable development;

(b) Strengthened capacity of member States to implement and monitor the 2030 Agenda and subregional agendas while ensuring that no one is left behind and that development activities address socioeconomic conditions and reach people in vulnerable situations;

(c) Stronger subregional cooperation to address transboundary issues;

(d) Advanced inclusive economic development in the Pacific subregion.

Programme performance in 2024

Legislative reforms to implement the Convention on the Rights of Persons with Disabilities

19.129 Kiribati, a State Party to the Convention on the Rights of Persons with Disabilities, launched its first national disability policy and action plan in 2018 and implemented initiatives to enhance the lives of persons with disabilities, including institutional reforms promoting disability-inclusive development. In 2024, the component, jointly with subprogramme 6 and in partnership with the Pacific Islands Forum Secretariat, the Pacific Disability Forum, the Pacific Community and the Office of the United Nations High Commissioner for Human Rights, supported the Government of Kiribati in undertaking a review of the country's legislation for compliance with the Convention. It organized a workshop with stakeholders from relevant line ministries and non-governmental organizations to strengthen awareness on the Convention through the socialization and application of its principles, enhance understanding of compliance gaps in national laws, and build capacity for future reporting.

19.130 Progress towards the objective is presented in the performance measure below (see table 19.29).

Table 19.29
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Kiribati completed a comprehensive legislative review for compliance with the Convention on the Rights of Persons with Disabilities

Planned results for 2026

Result 1: advancing implementation of the 2050 Strategy for the Blue Pacific Continent for Pacific small island developing States

Programme performance in 2024 and target for 2026

19.131 The component's work contributed to the endorsement by the Pacific Islands Forum leaders of the high-level summary of the 2024 prioritized regional collective action that includes reference to the development of the Pacific Regional Framework on Climate Mobility as part of the 2050 Strategy for the Blue Pacific Continent, which met the planned target.

19.132 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.30).

Table 19.30
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Pacific Islands Forum leaders endorsed the 2050 Strategy for the Blue Pacific Continent	Pacific small island developing States developed and adopted a regional framework/plan for three of the thematic areas of the 2050 Strategy for the Blue Pacific Continent, including a regional framework on the Pacific Road Map for Economic Development	Pacific Island Forum leaders endorsed the high-level summary of the 2024 prioritized regional collective action that includes reference to the development of the Pacific Regional Framework on Climate Mobility as part of the 2050 Strategy for the Blue Pacific Continent	Pacific small island developing States agree on modalities for assessing progress in the thematic areas	At least one country implements activities aligned with the regional framework/plan

Result 2: pathways to mainstream the Antigua and Barbuda Agenda for Small Island Developing States into national development strategies

Programme performance in 2024 and target for 2026

19.133 The component's work contributed to the reflection of Pacific members' and associate members' priorities in the outcome document of the Fourth International Conference on Small Island Developing States, which met the planned target.

19.134 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.31).

Table 19.31
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Pacific members and associate members agreed on subregional challenges and priorities	Pacific members' and associate members' priorities were reflected in the outcome document of the Fourth International Conference on Small Island Developing States	Three countries identify pathways to mainstream the Antigua and Barbuda Agenda for Small Island Developing States	Two additional countries identify pathways to mainstream the Antigua and Barbuda Agenda for Small Island Developing States

Result 3: increased effectiveness in the production and use of core indicators for national, regional and global reporting

Proposed programme plan for 2026

19.135 At the sixth Pacific Forum on Sustainable Development, participants emphasized the need for guidance in developing a set of indicators that could be used to produce high-quality statistics in a timely manner to report on various regional and global frameworks and meet their own national reporting requirements. In partnership with the Pacific Community and subprogramme 7, the component issued indicator guidelines to meet this demand.

Lessons learned and planned change

19.136 The lesson for the component was that it could coordinate a subregional approach to assess the challenges of Pacific member States in executing the various monitoring and reporting requirements. In applying the lesson, the component will assist countries to establish consensus on indicator sets across the various frameworks and to collect and process data to measure and monitor the indicators.

19.137 Expected progress towards the objective is presented in the performance measure below (see table 19.32).

Table 19.32
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Pacific member States formulated a framework for aligning agendas to simplify reporting	Experts discussed solutions to align Pacific country reporting against global, regional and national frameworks	At least three member States align and enhance monitoring of national, regional and global agendas	At least three additional member States align and enhance monitoring of national, regional and global agendas

Deliverables

19.138 Table 19.33 lists all deliverables of the component.

Table 19.33
Component 1: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**1**	–	**1**	–
1. Report for the Commission	1	–	1	–
Substantive services for meetings (number of three-hour meetings)	**8**	**5**	**8**	**8**
Meetings of:				
2. Expert groups on policy and programme options to address emerging sustainable development issues in the Pacific	4	1	4	4
3. The Pacific Forum on Sustainable Development	4	4	4	4
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**2**	**4**	**2**	**2**
4. On institutional programmatic priorities of ESCAP in the Pacific	1	–	1	1
5. On economic and social development	1	4	1	1
Seminars, workshops and training events (number of days)	**2**	**2**	**2**	**2**
6. On sustainable development and building resilience in the Pacific	2	2	2	2
Technical materials (number of materials)	**1**	**1**	**1**	**1**
7. On regional cooperation and sustainable development in the Pacific	1	1	1	1
C. Substantive deliverables				
Consultation, advice and advocacy: expert advice to member States in the subregion to strengthen regional cooperation and integration for sustainable development and to build resilience against natural disasters and climate change to reduce vulnerabilities and improve socioeconomic conditions.				

Component 2
Subregional activities for development in East and North-East Asia

Objective

19.139 The objective, to which component 2 of the subprogramme contributes, is to strengthen regional cooperation for sustainable development, in line with the subregional priorities of East and North-East Asia, which includes sustainable connectivity, environmental sustainability and innovation for inclusive and resilient societies.

Strategy

19.140 To contribute to the objective, the component will:

(a) Facilitate multisectoral dialogues and promote knowledge-sharing among member States on sustainable development, environmental sustainability, trade, transport, energy and ICT connectivity, as well as on emerging technologies and their deployment in priority sectors, through regional and subregional platforms, including the North-East Asian Subregional Programme for Environmental Cooperation, the North-East Asia Clean Air Partnership and the North-East Asia Regional Power Interconnection and Cooperation Forum;

(b) Identify and promote innovative approaches to facilitate cross-border connectivity, where applicable, such as contactless cross-border trade and transport solutions, and cross-border data exchanges between railway and customs authorities, with a particular focus on Mongolia as the only landlocked developing country in North-East Asia;

(c) Develop knowledge products and foster peer-to-peer exchanges on inclusive science, technology and innovation policies and programmes with a focus on people in vulnerable situations, including on ageing societies, disaster resilience and gender equality in the technology industry;

(d) Support the implementation of a road map for sustainable power connectivity and promote intergovernmental processes for sustainable connectivity, environmental sustainability and innovation in East and North-East Asia, as relevant;

(e) Build the capacity of member States on the above-mentioned focus areas and promote coordination with and collaboration among subregional intergovernmental organizations and member States for an effective representation of subregional perspectives at regional and global consultations, as appropriate;

(f) Provide implementation support for the Commission's subprogrammes relating to the subregion's priorities and serve as the focal point for the Commission's engagement with the resident coordinator system and United Nations country teams, including through substantive assistance with regard to preparing common country assessments and United Nations Sustainable Development Cooperation Frameworks, in particular with regard to the transboundary dimensions of sustainable development, and assist country-level programming by providing subregional perspectives and access to regional networks and facilitating South-South and triangular cooperation.

19.141 These workstreams will help member States to make progress towards the achievement of Sustainable Development Goals 3, 5, 7, 9 to 11, 13 to 15 and 17.

19.142 The above-mentioned work is expected to result in:

(a) Policy coherence and coordination of connectivity initiatives among member States, for example, with regard to trade and transport facilitation;

(b) Coordinated actions among stakeholders and Governments to counter common environmental challenges, including air pollution, and to promote low greenhouse gas emissions;

(c) Improved use of science, technology and innovation in building inclusive and resilient societies in the subregion, including resilience to natural hazards;

(d) More effective formulation and implementation of policies and strategies consistent with the 2030 Agenda, including through the North-East Asia Multi-stakeholder Forums on the Sustainable Development Goals;

(e) Enhanced collaboration among Governments, the United Nations, subregional organizations and other stakeholders to address priority challenges in the subregion, as appropriate.

Programme performance in 2024

Strengthened transboundary cooperation for effective conservation

19.143 North-East Asia contains some crucial habitats of critically endangered species. For the effective conservation of feline species and migratory birds and their habitats in support of the Kunming-Montreal Global Biodiversity Framework, the component supported ecological connectivity across country borders and along the flyways of migratory birds. Guided by member States, the component has promoted subregional cooperation on biodiversity and nature conservation. A workshop on nature conservation and biodiversity for transboundary cooperation, organized in August 2024, served as a platform to connect different stakeholders and countries and to reiterate the importance

of cross-border protected areas, ecological corridors and effective habitat management in North-East Asia. It also produced a set of recommendations for the consideration of member States at the Senior Officials Meeting of the North-East Asian Subregional Programme for Environmental Cooperation.

19.144 Progress towards the objective is presented in the performance measure below (see table 19.34).

Table 19.34
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	At the twenty-sixth Senior Officials Meeting of the North-East Asian Subregional Programme for Environmental Cooperation, member States commended the progress on transboundary cooperation for biodiversity and nature conservation and highlighted the need to strengthen the linkages from local to regional and global strategies and action plans in line with the Kunming-Montreal Global Biodiversity Framework	Member States requested that the recommendations from the workshop on nature conservation and biodiversity for transboundary cooperation be reflected in the North-East Asian Subregional Programme for Environmental Cooperation strategic plan for the period 2026–2030

Planned results for 2026

Result 1: strengthened collaboration for monitoring and addressing air pollution in East and North-East Asia

Programme performance in 2024 and target for 2026

19.145 The component's work contributed to member States collaborating towards addressing air pollution through the first policy dialogue of the North-East Asia Clean Air Partnership, by supporting discussions on the strategic directions of the Science and Policy Committee of the Partnership and at the 2024 Symposium on Climate Change and Air Quality Management, which met the planned target.

19.146 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.35).

Table 19.35
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Member States approved the plan to publish a policy analysis report on air pollution in 2023 and organize two policy dialogues by 2024	Member States collaborated in addressing air pollution through the engagement of their experts in the collaborative initiatives of the North-East Asia	Member States collaborated in addressing air pollution at the first policy dialogue of the North-East Asia Clean Air Partnership, by supporting	The North-East Asia Clean Air Partnership workplan for 2026–2030 reflects strengthened collaboration for monitoring and addressing air	Members of the North-East Asia Clean Air Partnership implement the workplan for 2026–2030

2022 (actual)	2023 (actual)	2024 (actual)	2025 (planned)	2026 (planned)
	Clean Air Partnership	discussions on the strategic directions of the Science and Policy Committee of the Partnership and at the 2024 Symposium on Climate Change and Air Quality Management	pollution in East and North-East Asia	

Result 2: efficient management of cross-border railway transport and transit

Programme performance in 2024 and target for 2026

19.147 The component's work contributed to Mongolia strengthening its readiness to undertake paperless transit and transport operations through the enhanced capacity of railway and customs authorities on cross-border electronic information exchange, which met the planned target.

19.148 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.36).

Table 19.36
Performance measure

2022 (actual)	2023 (actual)	2024 (actual)	2025 (planned)	2026 (planned)
Mongolia and the Republic of Korea acceded to the Framework Agreement on Facilitation of Cross-border Paperless Trade in Asia and the Pacific	The Russian Federation acceded to the Framework Agreement on Facilitation of Cross-border Paperless Trade in Asia and the Pacific Member States adopted guiding principles on electronic information exchange among railways and control authorities	Railway and customs authorities in Mongolia built capacity on cross-border electronic information exchange to strengthen the country's readiness to undertake paperless transit and transport operations	National officials increasingly adopt electronic information exchange for more efficient cross-border railway transport and transit in North-East Asia	Member States adopt a plan for electronic information exchange for more efficient cross-border railway transport and transit in North-East Asia

Result 3: strengthened cross-border collaboration on addressing desertification and land degradation in East and North-East Asia

Proposed programme plan for 2026

19.149 Sand and dust storms negatively affect soil, air and water quality beyond country borders. To mitigate the effects of desertification and land degradation on people, their livelihoods and the environment, the component has supported member States in developing a subregional approach for the North-

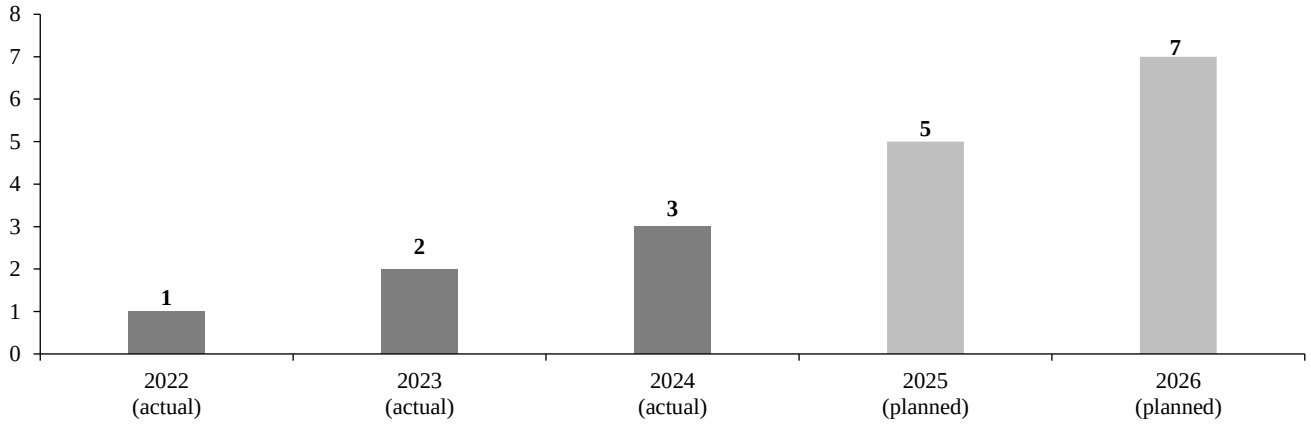
East Asian Subregional Programme for Environmental Cooperation and prepared a background paper on trends in desertification and land degradation.

Lessons learned and planned change

19.150 The lesson for the component was that it could use its expertise in research and technical cooperation to contribute to enhancing the understanding of the main causes, drivers and impacts of desertification and land degradation in North-East Asia. In applying the lesson, the component will analyse key factors for assessing, monitoring and managing the risks of desertification and land degradation. The component is planning a capacity-building workshop on policy options and a subregional forum to promote knowledge-sharing and facilitate collaboration, in support of the seventeenth session of the Conference of the Parties to the United Nations Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or Desertification, Particularly in Africa, to be held in 2026.

19.151 Expected progress towards the objective is presented in the performance measure below (see figure 19.IX).

Figure 19.IX
Performance measure: number of cross-border activities undertaken by member States on desertification and land degradation under the North-East Asian Subregional Programme for Environmental Cooperation (cumulative)



Deliverables

19.152 Table 19.37 lists all deliverables of the component.

Table 19.37
Component 2: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*

C. Substantive deliverables				
Consultation, advice and advocacy: expert advice to member States of the subregion on sustainable connectivity, environmental sustainability and innovation for inclusive and resilient societies; side events at the Commission session.				
D. Communication deliverables				
Outreach programmes, special events and information materials: newsletters, infographics and side activities on major events on sustainable connectivity, environmental sustainability and innovation for inclusive and resilient societies.				

Component 3
Subregional activities for development in North and Central Asia

Objective

19.153 The objective, to which component 3 of the subprogramme contributes, is to strengthen regional cooperation and integration for sustainable development, in line with the subregional priorities of North and Central Asia, including sustainable connectivity, economic transformation, and social inclusion and resilience, and through follow-up and review of the 2030 Agenda.

Strategy

19.154 To contribute to the objective, the component will:

(a) Provide secretariat support to and coordinate the thematic working groups of the United Nations Special Programme for the Economies of Central Asia to ensure that priorities emanating from the decisions and recommendations of the Governing Council and the Economic Forums of the Special Programme regarding trade facilitation, innovation and technology, transport, energy and digital connectivity, innovative financing and investment tools, environmental sustainability and gender equality are incorporated into their workplans;

(b) Coordinate high-level dialogues and working meetings to support landlocked developing countries in the implementation of their priorities;

(c) Support member States in the implementation of the 2030 Agenda by providing policy advice and technical assistance on subregional connectivity, helping member States to make progress towards achieving Sustainable Development Goals 7 and 9;

(d) Organize annual meetings and facilitate dialogues on sustainable development, including a subregional forum on sustainable development, among government officials, civil society, experts and other stakeholders, and on the exchange of information on the subregional achievement of the Sustainable Development Goals, helping member States to review the progress;

(e) Support voluntary national review processes at the request of member States, including the voluntary national review twinning programme, and build capacity for sustainable and resilient development;

(f) Cooperate with subregional intergovernmental organizations and institutions such as the Shanghai Cooperation Organization, the Economic Cooperation Organization, the Eurasian Economic Commission and the Eurasian Development Bank for an effective implementation of subregional priorities;

(g) Provide implementation support for the Commission's subprogrammes relating to the subregion's priorities and serve as the focal point for the Commission's engagement with the resident coordinator system and United Nations country teams, including through substantive assistance in preparing common country assessments and United Nations Sustainable Development Cooperation Frameworks, in particular with regard to the transboundary dimensions of sustainable development, and assist country-level programming by providing subregional perspectives and access to regional networks and facilitating South-South and triangular cooperation.

19.155 The above-mentioned work is expected to result in:

(a) Enhanced application by member States of, evidence-based solutions for, and strengthened subregional cooperation on, programmes to improve trade and transport facilitation as well as energy and digital connectivity;

(b) The adoption of policy options for economic transformation in the subregion;

(c) Increased knowledge-sharing in cooperation with intergovernmental organizations and bodies.

Programme performance in 2024

Towards digital transformation relating to land and multimodal transport in the subregion and beyond

19.156 Seven of the nine countries of the Central Asia subregion are landlocked developing countries. One of the challenges they face in achieving sustainable development is their limited ability to overcome structural impediments, such as high transport costs to world markets associated with a lack of access to the sea. The component, in collaboration with subprogramme 3, conducted a subregional-level study that took stock of existing policies and tools on the digital transformation of railway and multimodal transport operations in North and Central Asia and, on that basis, formulated policy recommendations for building sustainable and efficient multimodal transport systems in the digital era and conducted a capacity development programme for digital transformation relating to land and multimodal transport for transport authorities and industry stakeholders in the subregion. It also co-organized expert group meetings to develop recommendations focusing on the development of interregional transport corridors and multimodal transport, as well as access by Central Asian landlocked developing countries to seaports in Asia and the promotion of the digital transformation of railway transport through international cooperation.

19.157 Progress towards the objective is presented in the performance measure below (see table 19.38).

Table 19.38
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Uzbekistan developed a concept on the thematic scope of the regional centre for the development of transport and communications interconnection	Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan and Uzbekistan signed the Agreement on Strengthening the Interconnectedness of Land Transport in Central Asia	Transport authorities and industry stakeholders of the countries of North and Central Asia were able to plan and implement practical measures to strengthen digital transformation relating to land and multimodal transport

Planned results for 2026

Result 1: landlocked developing countries advance the implementation of the Vienna Programme of Action for Landlocked Developing Countries for the Decade 2014–2024 and the new programme of action beyond 2024

Programme performance in 2024 and target for 2026

19.158 The subprogramme's work contributed to Armenia, Azerbaijan, Kyrgyzstan and Tajikistan reporting progress towards reaching the targets of the Vienna Programme of Action, which met the planned target.

19.159 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.39).

Table 19.39
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Landlocked developing countries in the subregion agreed to strengthen collaboration in developing transport and transit corridors, facilitating energy transit and promoting digital inclusion	Dialogue was strengthened among landlocked developing countries and the International Think Tank for Landlocked Developing Countries on progress and challenges related to implementing the Vienna Programme of Action	Armenia, Azerbaijan, Kyrgyzstan and Tajikistan reported progress towards reaching the targets of the Vienna Programme of Action	Policymakers from landlocked developing countries in the subregion have increased awareness of the priority areas beyond 2024	Policymakers identify challenges and opportunities to achieve the goals related to digital connectivity of the Programme of Action for Landlocked Developing Countries for the Decade 2024–2034

Result 2: strengthened cooperation instruments of the United Nations Special Programme for the Economies of Central Asia

Programme performance in 2024 and target for 2026

19.160 The component's work contributed to countries that are participating in the United Nations Special Programme for the Economies of Central Asia reiterating their commitment to the establishment of the Special Programme's multi-partner trust fund and its steering committee for the effective management and coordination of all strategic, operational, technical and management aspects of the fund, which met the planned target.

19.161 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.40).

Table 19.40
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
The Almaty Declaration was adopted	Countries participating in the United Nations Special Programme for the Economies of Central Asia established a Special Programme fund in the United Nations multi-partner trust fund format	Countries participating in the United Nations Special Programme for the Economies of Central Asia reiterated their commitment to the establishment of the Special Programme's multi-partner trust fund and its steering committee for the effective management and coordination of all strategic, operational, technical and management aspects of the fund	The financial stability of the United Nations Special Programme for the Economies of Central Asia to implement activities is enhanced	Countries participating in the United Nations Special Programme for the Economies of Central Asia develop joint projects for the multi-partner trust fund

Result 3: member States advance digital transformation policies

Proposed programme plan for 2026

19.162 In North and Central Asia, the need for digital transformation has been amplified by rapid urbanization. Many countries of the subregion have initiated activities to tap into the potential of digital transformation, and the component has been working closely with member States and relevant stakeholders to facilitate knowledge-sharing.

Lessons learned and planned change

19.163 The lesson for the subprogramme was that exchanging experience and knowledge among subregional organizations on digital transformation for sustainable development could accelerate the identification of solutions to gaps in policy frameworks. In applying the lesson and under the umbrella of the memorandum of understanding between the Eurasian Economic Commission and ASEAN on economic cooperation, the component, jointly with component 5 of subprogramme 8,

plans to create a platform for the exchange of experience and knowledge and organize policy dialogues between member States of the two subregional organizations. It will undertake a study on the role of digital transformation for sustainable development to support member States in both subregions in their policymaking and develop policy recommendations and actions to promote digital transformation.

19.164 Expected progress towards the objective is presented in the performance measure below (see table 19.41).

Table 19.41
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Eurasian Economic Commission and ASEAN implemented a joint project to strengthen subregional cooperation on digital transformation for economic and sustainable development	Member States share best practices on digital transformation	Member States formulate policies and strategies in relation to digital transformation for sustainable development

Deliverables

19.165 Table 19.42 lists all deliverables of the component.

Table 19.42
Component 3: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies

C. Substantive deliverables				
Consultation, advice and advocacy: advocacy with member States of the United Nations Special Programme for the Economies of Central Asia on regional and subregional priority issues; side events for member States and regional organizations at the annual session of the Commission.				

Component 4
Subregional activities for development in South and South-West Asia

Objective

19.166 The objective, to which component 4 of the subprogramme contributes, is to strengthen regional cooperation and integration for sustainable development, in line with the subregional priorities of South and South-West Asia, including sustainable connectivity, women's economic empowerment and the sustainable graduation of the least developed countries.

Strategy

19.167 To contribute to the objective, the component will:

(a) Provide tailored analytical support, policy advice and technical assistance, and facilitate knowledge exchange and dialogues for member States and other stakeholders, on transboundary or common development priorities, in particular for landlocked developing countries, small island developing States and least developed countries, such as connectivity for economic corridors, disaster risk resilience, energy transition, women's economic empowerment and disability inclusion;

(b) Convene subregional consultations on sustainable development, including through the South and South-West Asia Network on the Sustainable Development Goals, to facilitate the sharing of good practices and the articulation of subregional perspectives that contribute to the relevant ESCAP knowledge products and forums, such as the Asia-Pacific Forum on Sustainable Development and the high-level political forum on sustainable development;

(c) Collaborate with subregional intergovernmental organizations for the coordination and mutual leveraging of subregional initiatives and facilitate ESCAP communication with the respective secretariats;

(d) Serve as the focal point for the Commission's engagement with the resident coordinator system and United Nations country teams, including through substantive assistance in preparing common country assessments and United Nations Sustainable Development Cooperation Frameworks, in particular with regard to the transboundary dimensions of sustainable development, and assist country-level programming by providing subregional perspectives and access to regional networks and facilitating South-South and triangular cooperation;

(e) Forge partnerships with other development partners, and private sector and civil society organizations in common areas of work, for enhanced impact in supporting member States towards their achievement of the Goals;

(f) Deepen linkages and synergies with other ESCAP subprogrammes and components in common areas of work, for enhanced harmonization and coherence in the delivery of assistance to member States.

19.168 The above-mentioned work will help member States to make progress towards achieving Goals 1, 5, 7 to 10, 12, 13 and 17.

19.169 The above-mentioned work is expected to result in:

(a) Enhanced connectivity in the subregion, especially for people in landlocked developing countries and least developed countries;

(b) Strengthened capacity of member States in the subregion, especially least developed countries, landlocked developing countries and small island developing States, to mitigate and adapt to the impact of climate change and to reduce the risk of disasters, including those induced by climate change, in particular for people in vulnerable situations;

(c) Enhanced design and implementation of policies and subregional cooperation among member States in the transition to sustainable energy accessible to people in remote areas and in marginalized situations in South and South-West Asia;

(d) Enriched exchange of experiences and best practices between governments, civil society, academia/think tanks, the private sector, United Nations agencies, subregional organizations and other international organizations and financial institutions to bridge knowledge gaps for addressing the Goals.

Programme performance in 2024

Increased use of emerging technologies for disaster risk reduction in countries in special situations

19.170 In collaboration with subprogramme 5 and the United Nations Development Programme, the component has supported the small island developing State of Maldives and the landlocked developing country of Bhutan in adopting technologies to increase resilience to hazards. The component introduced high-resolution climate projection information and geospatial techniques to support the Government of Maldives in upgrading its disaster risk profile for evidence-based policymaking in disaster risk reduction and climate change adaptation. The component also organized a training course in Bhutan on the methodology used in Maldives, which the Government of Bhutan then applied to develop its risk profile and projection database for use in disaster-resilient policymaking.

19.171 Progress towards the objective is presented in the performance measure below (see table 19.43).

Table 19.43
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Disaster management authorities in Maldives identified existing gaps in disaster risk management through the use of customized planning tools, database development and data collection	Policymakers from Maldives used customized planning tools, techniques and guidelines to facilitate the undertaking of disaster risk-related analyses for national and local planning purposes	The Government of Maldives increased the accessibility of innovative online tools for national and local disaster preparedness The Government of Bhutan applied projection techniques to issue scenario-based recommendations for adaptation and mitigation strategies

Planned results for 2026

Result 1: improved flow of goods and services at border crossing points in Eastern South Asia

Programme performance in 2024 and target for 2026

19.172 The subprogramme's work contributed to enhancing the cooperation between the land port authorities of India and Bangladesh, particularly at the Dawki-Tamabil land border crossing, resulting in extended opening hours, the facilitation of trade in new goods and the Government of India initiating actions to bring animal testing closer to the border, which met the planned target.

19.173 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.44).

Table 19.44
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
The flow of goods and services at border crossing points in Eastern South Asia is hampered due to limited transboundary connectivity in transport, energy, ICT and supply chains in those localities	Bangladesh, Bhutan, India, Nepal and one subregional organization (Bay of Bengal Initiative for Multi-Sectoral Technical and Economic Cooperation) expressed interest in working jointly to improve the transboundary flow of goods and services at border crossing points between north-east India and Bangladesh	Enhanced cooperation between the land port authorities of India and Bangladesh, particularly at the Dawki-Tamabil land border crossing	Bottlenecks at two border crossing points in Eastern South Asia are reduced, in tandem with an increase in the flow of goods and services across these points	Enhanced participation of women in cross-border trade in Eastern South Asia expressed, inter alia, through the numbers of women who engage in cross-border trade

Result 2: accelerated transition to sustainable energy

Programme performance in 2024 and target for 2026

19.174 The subprogramme's work contributed to Bangladesh, Bhutan, India and Nepal identifying priorities through a multi-country policy dialogue on regional energy connectivity, which exceeded the planned target of two countries.

19.175 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.45).

Table 19.45
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Bhutan and Pakistan issued Goal 7 road maps	The Lao People's Democratic Republic, Malaysia, Singapore and Thailand shared their experience on cross-border electricity trading with Bangladesh, Bhutan, India and Nepal	Bangladesh, Bhutan, India and Nepal identified priorities through a multi-country policy dialogue on regional energy connectivity	Two countries in the subregion draft action plans on the sustainable energy transition	One subregional organization promotes cooperation in the sustainable energy transition

Result 3: bridging the digital gap to leave no one behind in South and South-West Asia

Proposed programme plan for 2026

19.176 The digital divide, particularly for women and border communities, manifests as disparities in access to technology, Internet connectivity and digital literacy, which significantly limits opportunities for these individuals in marginalized situations. The component has been implementing training for women entrepreneurs to enhance their access to the Internet and their use of e-commerce and digital marketing. It has also worked with local communities in remote border areas to enhance cross-border trade.

Lessons learned and planned change

19.177 The lesson for the component was that partnering with the Wi-Fi programme implemented by subprogramme 5 would help to systematically upskill women in cross-border settings and contribute to closing the digital divide for women and communities in marginalized situations in border areas. In applying the lesson, the component will link the Wi-Fi programme to the land border authority of India and leverage its existing partnership at selected borders in South and South-West Asia. The component will identify the barriers for women and local communities at borders to participate in digital upskilling programmes, and will design capacity-building programmes to equip them with digital skills.

19.178 Expected progress towards the objective is presented in the performance measure below (see table 19.46).

Table 19.46
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	2,032 women were trained on digital marketing and e-commerce	Stakeholders identified priority interventions to bridge the digital divide	Stakeholders initiate a cross-country pilot project addressing the identified priorities	Stakeholders initiate an initiative on bridging the digital divide with a subregional organization

Deliverables

19.179 Table 19.47 lists all deliverables of the component.

Table 19.47
Component 4: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**1**	**–**	**1**	–
1. Report for the Commission	1	–	1	–
Substantive services for meetings (number of three-hour meetings)	**4**	**6**	**4**	**4**
2. Meetings of the South and South-West Asia Forum on the Sustainable Development Goals	4	6	4	4
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**1**	**1**	**–**	–
3. On institutional programmatic priorities of ESCAP in South and South-West Asia	1	1	–	–
Seminars, workshops and training events (number of days)	**2**	**2**	**2**	**2**
4. On thematic areas related to sustainable development	2	2	2	2
Technical materials (number of materials)	**5**	**5**	**5**	–
5. Development paper series on economic and social development	5	5	5	–
C. Substantive deliverables				
Consultation, advice and advocacy: expert advice to member States of the subregion in implementing the 2030 Agenda and promoting regional economic cooperation and integration.				

Component 5
Subregional activities for development in South-East Asia

Objective

19.180 The objective, to which component 5 of the subprogramme contributes, is to strengthen regional cooperation and integration for sustainable development, in line with the subregional priorities of South-East Asia, including sustainable connectivity, inclusive and equitable societies, the efficient management of natural resources and resilient development.

Strategy

19.181 To contribute to the objective, the component will:

(a) Coordinate high-level dialogues and working meetings to support the implementation of the next iteration of a plan of action between ASEAN and the United Nations;

(b) Further expand cooperation with ASEAN through increased engagement with the ASEAN secretariat and relevant sectoral bodies and committees, as appropriate, and on initiatives to achieve the Sustainable Development Goals and subregional goals, including through support for the implementation of the post-2025 ASEAN vision;

(c) Promote coordination with and collaboration among subregional intergovernmental organizations and member States for an effective representation of subregional perspectives at regional and global consultations;

(d) Further develop partnerships and cooperation with civil society organizations in support of people in vulnerable situations to enhance synergy and effective participation at the subregional Sustainable Development Goals forum and raise awareness of the Goals among youth through a collaboration with the Association of Pacific Rim Universities in mutual areas of interest;

(e) Provide implementation support for the Commission's subprogrammes relating to the subregion's priorities, serve as the focal point for the Commission's engagement with the resident coordinator system and United Nations country teams, including through substantive assistance in preparing common country assessments and United Nations Sustainable Development Cooperation Frameworks, in particular with regard to the transboundary dimensions of sustainable development, and assist country-level programming by providing subregional perspectives and access to regional networks and facilitating South-South and triangular cooperation;

(f) Support coordination among the various agencies and partners, with a focus on sustainable investment and finance, inclusive and equitable societies, monitoring of progress towards the Goals and enhanced engagement with ASEAN, while ensuring synergy in the implementation of the processes;

(g) Support countries in special situations in the subregion in implementing their relevant programmes of action.

19.182 The above-mentioned work will help to support member States in their progress towards the achievement of Goals 3, 5, 9, 10, 13 and 17.

19.183 The above-mentioned work is expected to result in:

(a) An enhanced policy environment to support inclusive business and investment for sustainable development in the subregion;

(b) Fairer and more equitable access to social protection, especially for those most vulnerable, such as women, youth, older persons and persons with disabilities, and strengthened disability statistics, ageing and disability policies and social protection floor costing;

(c) The improved coordination and coherence of technical assistance provided under the post-2025 ASEAN vision in the subregion.

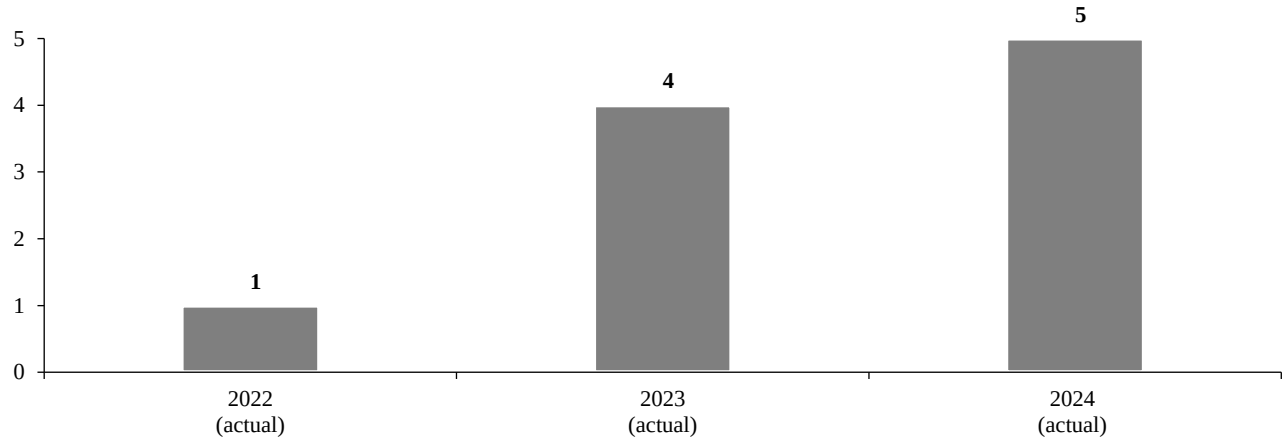
Programme performance in 2024

Increased usage of the national Sustainable Development Goal tracker to inform the voluntary national review process

19.184 ESCAP has been supporting countries in the preparation and conduct of voluntary national reviews to assess national progress towards the Sustainable Development Goals, and has developed the national Sustainable Development Goal tracker to facilitate the analysis. In 2024, the ASEAN secretariat approached subprogramme 7 and the component for support in the preparation of a session to introduce and explore the utilization of the national Sustainable Development Goal tracker across all ASEAN member States. After the session, the ASEAN secretariat requested ESCAP to avail itself to organize a full training workshop on the tracker upon request. Subsequently, the first ESCAP-ASEAN workshop on tracking progress against the Goals was held in Bangkok.

19.185 Progress towards the objective is presented in the performance measure below (see figure 19.X).

Figure 19.X
Performance measure: number of countries in the South-East Asia subregion using the national Sustainable Development Goal tracker to inform their voluntary national reviews (cumulative)



Planned results for 2026

Result 1: improved sustainable foreign direct investment strategies in the subregion

Programme performance in 2024 and target for 2026

19.186 The subprogramme's work contributed to member States discussing FDI promotion in the subregion at the ASEAN Investment Forum and its related events, which did not meet the planned target of one member State in the subregion developing a national strategy to attract sustainable FDI. The target was not met as the support to the development of the strategy was deferred to 2025 given limited capacities.

19.187 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.48).

Table 19.48
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Member States in the subregion agreed to promote intraregional sustainable FDI as a means for inclusive recovery and development	Eighty per cent of member States reported an increase in capacity to promote sustainable FDI in the subregion	Member States discussed FDI promotion in the subregion at the ASEAN Investment Forum and its related events	One additional member State in the subregion develops a national strategy to attract sustainable FDI	One additional member State in the subregion develops a national strategy to attract sustainable FDI

Result 2: aligned investment policies and regulations for the achievement of the Sustainable Development Goals

Programme performance in 2024 and target for 2026

19.188 The subprogramme's work contributed to the adoption of the ASEAN Regional Investment Promotion Action Plan 2025–2030, which serves as a workplan for ASEAN member States to

collaborate on promoting investment across the subregion and provides a framework for leveraging FDI, which met the planned target.

19.189 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.49).

Table 19.49
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Member States agreed to develop a subregional action plan on sustainable investment to accelerate the implementation of the Sustainable Development Goals	Member States adopted the ASEAN Regional Investment Promotion Action Plan 2025–2030	Member States align their investment policies with the investment priorities of the subregional action plan on sustainable investment	Member States develop the next phase of the ASEAN Regional Investment Promotion Action Plan by focusing on additional sectors

Result 3: youth engagement towards achieving the Sustainable Development Goals

Proposed programme plan for 2026

19.190 Youth can bring unique perspectives and innovative solutions to achieving the Sustainable Development Goals. In 2023, ESCAP renewed its memorandum of understanding with the Association of Pacific Rim Universities, which includes capacity-building on the Goals for students across Asia and the Pacific. The component has been working on integrating youth perspectives in the South-East Asia Multi-stakeholder Forum on the Implementation of the Sustainable Development Goals.

Lessons learned and planned change

19.191 The lesson for the component was that a more structured approach on youth engagement was required to effectively address the increased demand by universities to partake in the subregional forum. In applying the lesson, the component will support the Association of Pacific Rim Universities to create a curriculum for the promotion of the Goals, and will conduct training for students on the Goals chosen to be part of the Association's Sustainable Development Goals Education for Global Citizenship programme in a particular year.

19.192 Expected progress towards the objective is presented in the performance measure below (see table 19.50).

Table 19.50
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	10 students intervened at the subregional forum for sustainable development	20 students made statements and contributed substantively to the discussions at the subregional forum for sustainable development	Students partake in the conceptualization of a session at the subregional forum for sustainable development	Increased number of universities participating in activities to increase awareness about the Goals among their students

Deliverables

19.193 Table 19.51 lists all deliverables of the component.

Table 19.51
Component 5: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**1**	**–**	**1**	**–**
1. Report for the Commission	1	–	1	–
Substantive services for meetings (number of three-hour meetings)	**9**	**10**	**9**	**8**
Meetings of:				
2. Expert groups on policy and programme options to address emerging sustainable development issues in South-East Asia	2	2	2	–
3. The South-East Asia Multi-stakeholder Forum on the Implementation of the Sustainable Development Goals	4	6	4	4
4. ASEAN member States, the ASEAN secretariat and the ASEAN sectoral working groups on sustainable development in South-East Asia	3	2	3	–
5. The High-level Brainstorming Dialogue on Enhancing Complementarities between the ASEAN Community Vision 2025 and the 2030 Agenda for Sustainable Development	–	–	–	4
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**1**	**2**	**1**	**–**
6. On institutional programmatic priorities of ESCAP in South-East Asia	1	2	1	–
Seminars, workshops and training events (number of days)	**2**	**6**	**–**	**14**
7. On the implementation of the Plan of Action to Implement the Joint Declaration on Comprehensive Partnership between the Association of Southeast Asian Nations and the United Nations	1	2	–	3
8. On the implementation of sustainable FDI indicators	1	4	–	–
9. On sustainable investment	–	–	–	4
10. On the monitoring of progress towards the Sustainable Development Goals	–	–	–	2
11. For youth on the Sustainable Development Goals	–	–	–	3
12. On digitalization	–	–	–	2
Technical materials (number of materials)	**1**	**1**	**1**	**–**
13. On the implementation of the Plan of Action to Implement the Joint Declaration on Comprehensive Partnership between the Association of Southeast Asian Nations and the United Nations (2021–2025)	1	1	1	–
C. Substantive deliverables				
Consultation, advice and advocacy: consultations and advisory support to the subregional member States on sustainable investment and finance, inclusive and equitable societies and monitoring of progress towards the Sustainable Development Goals; consultations on enhanced engagement with ASEAN; side events at the Commission session; side events at the Asia-Pacific Forum on Sustainable Development.				

Subprogramme 9
Energy

Objective

19.194 The objective, to which this subprogramme contributes, is to ensure access to affordable, reliable, sustainable and modern energy for all in Asia and the Pacific by enhancing member States' capacity for energy access, renewable energy, energy efficiency and energy connectivity.

Strategy

19.195 To contribute to the objective, the subprogramme will enhance the evidence base for the achievement of Sustainable Development Goal 7 and Goals with interlinkages to it, and support member States in progressing towards Goal 7. Specifically, the subprogramme will:

(a) Facilitate intergovernmental dialogue and develop and disseminate evidence-based policy recommendations and guidance related to expanding access to modern energy, growing the share of renewable sources of energy in the energy mix, adopting energy-efficient technologies and approaches, and increasing energy connectivity;

(b) Provide capacity-building activities focused on facilitating planning and policy development for achieving Goal 7, including in least developed countries, based on local contexts and in alignment with national priorities, in cooperation with resident coordinator offices to leverage institutional resources and ensure the efficiency of work programme implementation;

(c) Produce and contribute to the development of knowledge products focused on broadening understanding of the benefits and implications of energy connectivity for energy security and resilience, affordability and sustainability;

(d) Provide access to up-to-date data, policy information and energy infrastructure maps through the Asia-Pacific Energy Portal and other knowledge platforms;

(e) Review regional and national progress against the targets of Goal 7 and provide support through the development and implementation of road maps and plans (Goal 7 road maps, the regional road map on power system connectivity and national cooling action plans), as applicable, and by promoting the use of modelling and policy planning tools and methodologies;

(f) Focus capacity-building efforts on the acceleration of progress towards Goal 7 targets and emissions reductions, in particular access to clean cooking fuels and technologies; sustainable cooling; the sustainability of supply chains for minerals, materials and technologies critical for energy transition; cleaner use of fossil fuels; and energy connectivity, with a special emphasis on countries in special situations;

(g) Mainstream a gender perspective by facilitating dialogue and producing knowledge products that include the energy system's impacts on women and highlight their contribution to a sustainable energy transition, working jointly with subprogramme 6.

19.196 The above-mentioned work is expected to result in:

(a) The adoption of evidence-based policies, strategies and plans to increase energy access, energy efficiency and the use of renewable sources of energy and enabling technologies at the national and subnational levels;

(b) Improved capacity to implement policies for the transition to renewable sources of energy, environmentally sound energy technologies and net-zero emissions goals, targets and ambitions;

(c) Increased capacity of policymakers and regulators to plan and implement power system connectivity initiatives that enable the scaling up of renewable energies;

(d) Greater recognition among policymakers of a gender perspective in the sustainable energy transition, including the potential for women to accelerate progress.

Programme performance in 2024

A road map for the development of a regional electricity market in Central and West Asia

19.197 The potential for multilateral power system connectivity and trade to facilitate the integration of higher shares of renewable energy in Central and West Asia has been recognized by the members of the Economic Cooperation Organization. The subprogramme developed a road map for promoting cross-border electricity connectivity using an ESCAP-designed policy framework which provides a set of principles to ensure the coherence of energy connectivity initiatives with the Goals. This road map has been recognized by relevant stakeholders for its role in revitalizing the Economic Cooperation Organization Regional Electricity Market initiative through the proposal of actions to operationalize a regional electricity market in the region.

19.198 Progress towards the objective is presented in the performance measure below (see table 19.52).

Table 19.52
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Member States finalized a set of principles to enable the assessment of connectivity projects against economic outcomes, efficiency and sustainability criteria and to ensure coherence with the Sustainable Development Goals	Member States reviewed the application of the set of principles and policy framework for sustainable power system connectivity in North-East Asia at the North-East Asia Regional Power Interconnection and Cooperation Forum, and recognized its potential to enhance the alignment of power connectivity initiatives with sustainability goals	Member States of the Economic Cooperation Organization launched a road map and established a task force for speeding up the advancement of the Economic Cooperation Organization Regional Electricity Market project

Planned results for 2026

Result 1: increased ambition of national commitments by member States towards modern and clean energy in support of Goal 7

Programme performance in 2024 and target for 2026

19.199 The subprogramme's work contributed to Bhutan, Cambodia, Fiji and Viet Nam announcing more ambitious national commitments to increase the share of energy from renewable sources, and to adopt advanced energy efficiency and enhance access to electricity and clean cooking technologies, research, technology and investments in clean energy, which met the planned target.

19.200 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 19.53).

Table 19.53
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Member States provided updates on the development of sustainable energy policies at meetings of the Expert Working Group on Universal Access to Modern Energy Services, Renewable Energy, Energy Efficiency and Cleaner Use of Fossil Fuels	Member States agreed on accelerated Sustainable Development Goal 7 actions in the areas of energy access, energy efficiency and renewable energy, in support of the 2030 Agenda and the Paris Agreement under the ministerial declaration adopted by ESCAP member States at the Third Asian and Pacific Energy Forum, in October 2023	Bhutan, Cambodia, Fiji and Viet Nam announced more ambitious national commitments to increase the share of energy from renewable sources, and to adopt advanced energy efficiency and enhance access to electricity and clean cooking technologies, research, technology and investments in clean energy	Member States in Asia and the Pacific announce commitments to close gaps on achieving Sustainable Development Goal 7 targets	Member States introduce strengthened policies to achieve Sustainable Development Goal 7 by 2030 and announce more ambitious clean energy commitments towards achieving mid-century net zero targets

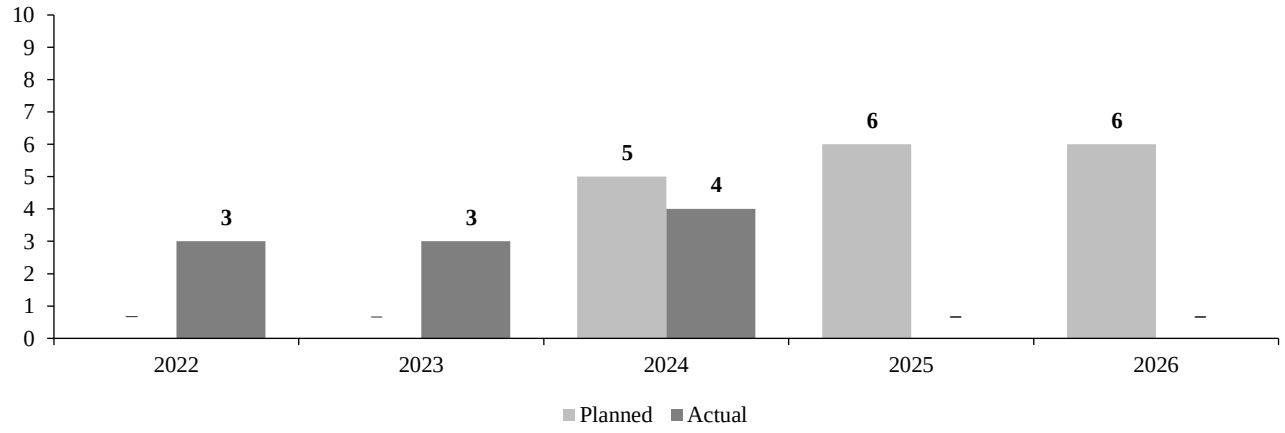
Result 2: countries adopt national cooling action plans

Programme performance in 2024 and target for 2026

19.201 The subprogramme's work contributed to the issuance of one new national cooling action plan by Indonesia in 2024, which did not meet the planned cumulative target of five national cooling action plans issued by member States. The target was not met due to challenges in gathering comprehensive data to enable sectoral assessments, modelling and scenario development, which underpin the evidence-based policy recommendations needed to finalize the other national cooling action plan.

19.202 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 19.XI).

Figure 19.XI
Performance measure: number of national cooling action plans issued by member States (cumulative)



Result 3: increased cooperation of member States in the Asia-Pacific region on cross-border power connectivity projects

Proposed programme plan for 2026

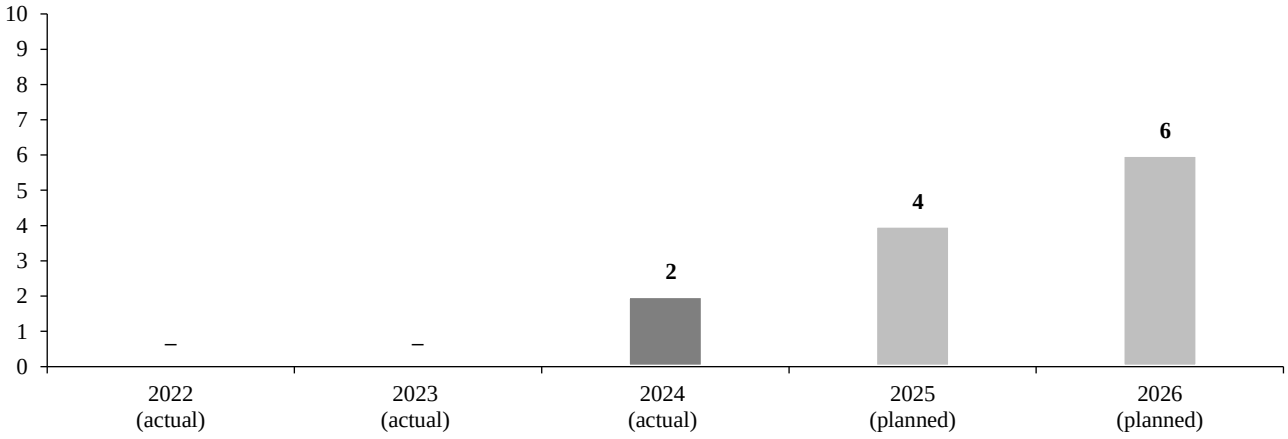
19.203 Recognizing the important role of cross-border power system connectivity in supporting access to secure, sustainable and affordable electricity, member States endorsed the regional road map on power system connectivity and its nine strategies in 2021. Subsequently, the subprogramme, through the Expert Working Group on Energy Connectivity, established milestones under the nine strategies and has worked towards supporting member States in implementing the road map and achieving the milestones.

Lessons learned and planned change

19.204 The lesson for the subprogramme, based on the latest subprogramme evaluation, was that intergovernmental deliberations created a shared understanding of the challenges of improving connectivity and garnered support for guiding principles to bolster connectivity efforts. However, it was also noted that more efforts could be made to facilitate consensus-building on subregional connectivity. In applying the lesson, the subprogramme will engage with member States through various channels of communication and increase outreach and cooperation with the subregional offices and United Nations country teams. It will also enhance consensus-building on key connectivity priorities by strengthening the intergovernmental deliberation process to develop additional milestones under the road map to guide increased cooperation among member States.

19.205 Expected progress towards the objective is presented in the performance measure below (see figure 19.XII).

Figure 19.XII
Performance measure: number of newly announced bilateral and multilateral power connectivity projects and initiatives (cumulative)



Deliverables

19.206 Table 19.54 lists all deliverables of the subprogramme.

Table 19.54
Subprogramme 9: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**1**	**1**	**2**	**1**
Reports for:				
1. The Commission	1	1	1	1
2. The Committee on Energy	–	–	1	–

Publications (number of publications)	**2**	**2**	**2**	**2**
9. On ensuring access to affordable, reliable, sustainable and modern energy for all	2	2	2	2
Technical materials (number of materials)	**4**	**4**	**5**	**4**
10. On ensuring access to affordable, reliable, sustainable and modern energy for all	4	4	5	–
11. Working papers on ensuring access to affordable, reliable, sustainable and modern energy for all	–	–	–	2
12. Policy briefs on ensuring access to affordable, reliable, sustainable and modern energy for all	–	–	–	2
C. Substantive deliverables				
Consultation, advice and advocacy: policy advice to all member States, upon request, on the implementation of Goal 7 and energy connectivity; side events on energy at the Asia-Pacific Forum on Sustainable Development.				
Databases and substantive digital materials: Asia-Pacific Energy Portal (containing more than 200 data sets, 3,000 policy documents and a mapping of more than 6,000 power plants).				
D. Communication deliverables				
Outreach programmes, special events and information materials: information materials on sustainable energy, primarily for government officials and technical experts in the region; International Day of Clean Energy.				

B. Proposed post and non-post resource requirements for 2026

Overview

19.207 The proposed regular budget resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 19.55 to 19.57.

Table 19.55
Overall: evolution of financial resources by object of expenditure
(Thousands of United States dollars)

			Changes					
Object of expenditure	*2024 expenditure*[a]	*2025 approved*	*Technical adjustments*	*New/expanded mandates*	*Other*	*Total*	*Percentage*	*2026 estimate*

[a] Includes four temporary posts (3 P-4 and 1 P-3) that were approved pursuant to General Assembly resolution 71/272.

19.208 Additional details on the distribution of the proposed resources for 2026 are reflected in tables 19.58 to 19.60 and figure 19.XIII.

19.209 As shown in tables 19.58 (1) and 19.59 (1), the overall resources proposed for 2026 amount to $58,624,300, reflecting a net increase of $125,900 (or 0.2 per cent) compared with the approved budget for 2025. Resource changes result from new and expanded mandates, and other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

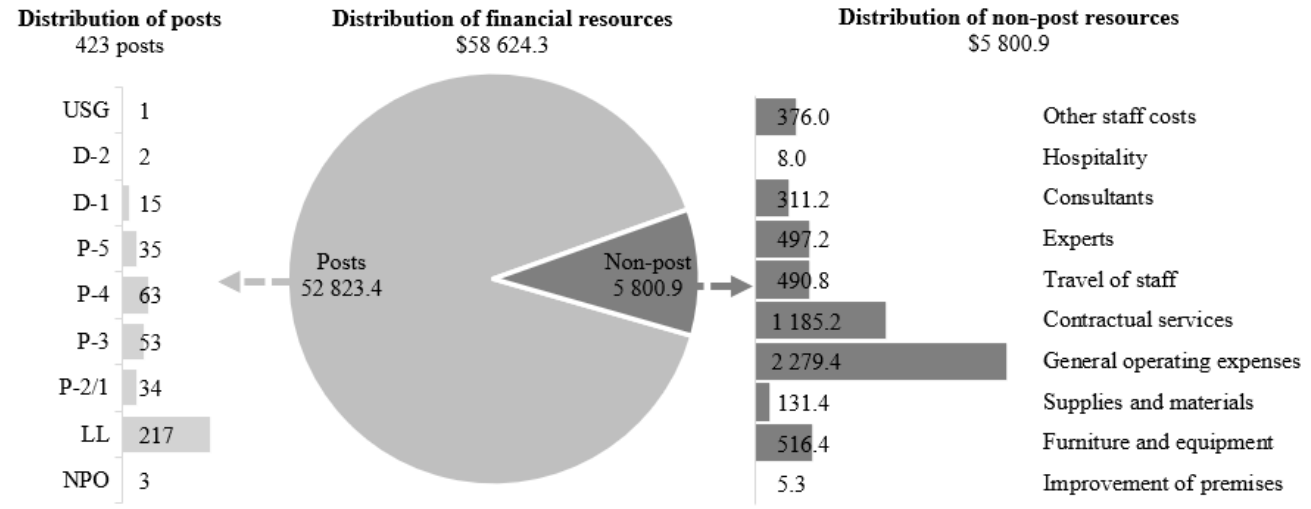
Distribution of proposed resources for 2026
(Number of posts/thousands of United States dollars)



Explanation of variances by factor, component and subprogramme

Overall resource changes

New and expanded mandates

19.210 As shown in table 19.58 (1), resource changes reflect an increase of $108,500 under executive direction and management pursuant to General Assembly resolution 78/317, as follows:

(a) An increase of $77,500 in post costs relating to the establishment of a new temporary P-2 post until 2034, which is subject to a 50 per cent vacancy rate in accordance with the established practice for newly established posts, for leading the drafting and development of the technical material for and the coordination of the expert group meeting for monitoring, evaluation and reporting for the Atlantic, Indian Ocean and South China Sea small island developing States, jointly with the Economic Commission for Africa;

(b) An increase in non-post costs under consultants ($8,300) for the preparation of inputs for the technical material on selected issues relevant to the Asia-Pacific region and one meeting of experts on small island developing States;

(c) An increase in non-post costs under experts ($10,300) for the travel of experts to a meeting to be held in Bangkok;

(d) An increase in non-post costs under travel of staff ($10,300) for staff to travel from Bangkok to Singapore, Timor-Leste and Maldives to collect information for the drafting of the technical material for and preparation of the expert group meeting for monitoring, evaluation and reporting for the Atlantic, Indian Ocean and South China Sea small island developing States;

(e) An increase in non-post costs under contractual services ($2,100) for the editing of the technical material.

Other changes

19.211 As shown in table 19.58 (1), resource changes reflect a net increase of $17,400, representing an increase under contractual services to reflect the higher standard price of the core software package for non-field personnel outside of United Nations Headquarters; the other changes, which include the conversion of four long-term general temporary assistance positions to posts, are cost neutral overall. The breakdown of changes is as follows:

(a) **Executive direction and management**. The net decrease of $3,500 is due to a decrease in requirements for consultants ($5,400), owing to the reduced number of days required for the consultancy for the theme study for ESCAP, offset in part by a net increase in requirements for contractual services ($1,900) owing to the increased resources required for the editing and design services for the theme study for the Commission;

(b) **Subprogramme 1, Macroeconomic policy, poverty reduction and financing for development**. The net increase of $2,200 relates mainly to increased requirements under experts ($11,800), owing to the organization of meetings of expert groups on financing for development, under consultants ($3,600), owing to the increased number of days required for a background study for the *Financing for Development Series* on Asia and the Pacific, and under general operating expenses ($4,300), owing to the organization of a side event during the Economic and Social Council forum on financing for development follow-up in New York and to provide technical advice to all ESCAP member States on financing for development and macroeconomic policy. Those increased requirements are offset in part by decreases under travel of staff ($700), owing to a decrease in travel cost elements required for effective engagement with member States and other stakeholders, and under contractual services ($16,800), owing mainly to the redistribution of data processing services costs on the basis of expenditure experience and to the elimination of a publication in the *Financing for Development Series*;

(c) **Subprogramme 2, Trade, investment and innovation**. The net increase of $4,100 under non-post resources relates mainly to increased requirements under experts ($10,000), owing to increased requirements in relation to a background study on private sector engagement in advancing sustainability, and under consultants ($2,000), owing to the increased number of days required for the aforementioned background study. Those increased requirements are offset in part by decreases under travel of staff ($700), owing to a decrease in travel cost elements required for effective engagement with member States and other stakeholders, and under contractual services ($7,200), owing mainly to the elimination of the publication entitled *Asia-Pacific Trade and Investment Report*;

(d) **Subprogramme 3, Transport**. The net increase of $6,600 under non-post resources relates mainly to increased requirements under contractual services ($17,600), owing mainly to a new publication on transport development in Asia and the Pacific, offset in part by decreases under experts ($7,500), owing to some experts participating in meetings in virtual mode, under consultants ($2,800), owing mainly to the reduced number of days required for transport connectivity and logistics, and under travel of staff ($700), owing to a decrease in travel cost elements required for effective engagement with member States and other stakeholders;

(e) **Subprogramme 4, Environment and development**. The net decrease of $2,400 under non-post resources relates mainly to decreased requirements under experts ($5,500), owing to some experts attending meetings in virtual mode, under consultants ($3,500), due to the reduced number of days required for the consultancy on sustainable cities, and under travel of staff ($700), owing to a decrease in travel cost elements required for effective engagement with member States and other stakeholders. Those decreased requirements are offset in part by an increase in contractual services ($7,300), owing to editing, design and other services related to the technical material on the environment and development, as well as the redistribution of data-processing services costs on the basis of expenditure experience;

(f) **Subprogramme 5, Information and communications technology and disaster risk reduction and management**. The net increase of $5,000 under non-post resources relates mainly to increased requirements under contractual services ($9,000), owing mainly to editing, design and other services related to the publication entitled *Geospatial Practices for Sustainable Development in North and Central Asia 2026: A Compendium*, as well as the redistribution of data-processing services costs on the basis of expenditure experience, offset in part by decreases under experts ($2,400), owing to a reduction in the number of experts required for expert groups on space applications and the Asia-Pacific Information Superhighway initiative, under consultants ($900), due to the planned engagement of consultants who are at a more junior level, and under travel of staff ($700), owing to a decrease in the number of days of travel required for effective engagement with member States and other stakeholders;

(g) **Subprogramme 6, Social development**. The net decrease of $10,900 under non-post resources relates mainly to decreased requirements under contractual services ($11,200), owing to the reduction of editing services for publications and analytical products and sign language interpretation services for meetings, as well as the redistribution of data-processing services costs on the basis of expenditure experience, under travel of staff ($900), owing to a decrease in the number of days of travel required for effective engagement with member States and other stakeholders, and under consultants ($3,400), due to the planned engagement of consultants who are at a more junior level. Those decreased requirements are offset in part by an increase under experts ($4,600), owing to an increase in the number of experts required for expert groups on social policies, social inclusion and population;

(h) **Subprogramme 7, Statistics**. The net decrease of $7,500 under non-post resources relates mainly to decreased requirements under experts ($3,800), due to the integration of the expert groups on the use of non-traditional and complementary data sources in official statistics and on strengthening national statistical systems for enhanced quality and trust in official statistics, under consultants ($100), owing to the planned engagement of consultants who are at a more

junior level in relation to the use of non-traditional and complementary data sources in official statistics, under travel of staff ($200), owing to a decrease in travel cost elements required for effective engagement with member States and other stakeholders, under contractual services ($2,600), owing mainly to reduced requirements for the visual design of the publication entitled *Asia and the Pacific SDG Progress Report 2026*, as well as the redistribution of data-processing services costs on the basis of expenditure experience, and under furniture and equipment ($800), owing to a change in the requirement for software for the publication entitled *Asia and the Pacific SDG Progress Report 2026*;

(i) **Subprogramme 8, component 1, Subregional activities for development in the Pacific**. The net decrease of $15,800 under non-post resources relates mainly to decreased requirements under consultants ($1,900), owing to a decrease in the number of days required for a background study on policy and programme options to address emerging sustainable development issues in the Pacific, a net decrease under contractual services ($9,400), mainly as a result of the redistribution of data-processing services costs on the basis of expenditure experience, and decreases under general operating expenses ($4,800), owing to the redeployment of resources for the Internet contract and catering services to contractual services, where expenditure is incurred, under supplies and materials ($1,500), owing to reduced requirements for stationery and office supplies, and under furniture and equipment ($500), owing to reduced requirements for the replacement of office furniture and equipment. Those decreased requirements are offset in part by an increase under travel of staff ($2,300), owing to an increase in the number of days of travel required to effectively engage with the member States and other stakeholders;

(j) **Subprogramme 8, component 2, Subregional activities for development in East and North-East Asia**. The net decrease of $3,500 under non-post resources relates mainly to decreased requirements under contractual services ($11,300), owing to the redistribution of data-processing services costs on the basis of expenditure experience, and under general operating expenses ($1,000), as a result of decreased requirements under rental and maintenance of premises. Those decreased requirements are offset in part by an increase under consultants ($7,800), owing to a consultancy being required for emerging sustainable development issues in East and North-East Asia, and under supplies and materials ($1,000), owing to increased requirements under stationery and office supplies and other supplies and materials;

(k) **Subprogramme 8, component 3, Subregional activities for development in North and Central Asia**. The net decrease of $17,200 under non-post resources relates mainly to decreased requirements under contractual services ($15,500), owing to the redistribution of data-processing services costs on the basis of expenditure experience, under consultants ($1,700), owing to the reduced number of days required for the consultancy for policy and programme options to address emerging economic and social development issues in North and Central Asia, and under travel of staff ($200), owing to a decrease in the number of days of travel required for effective engagement with member States and other stakeholders. Those decreased requirements are offset in part by an increase under experts ($200), due to an increase in the number of experts required for policy and programme options to address emerging economic and social development issues in North and Central Asia;

(l) **Subprogramme 8, component 4, Subregional activities for development in South and South-West Asia**. The net decrease of $7,700 under non-post resources relates mainly to decreased requirements under contractual services ($13,800), owing to the redistribution of data-processing services costs on the basis of expenditure experience and a decrease in the Internet bandwidth cost, and under general operating expenses ($5,000), owing to the reduced cost of the rental and maintenance of premises, since the South and South-West Asia office has joined other United Nations entities in a long-term agreement resulting in reduced costs. Those decreased requirements are offset in part by an increase under experts ($9,100), owing to a higher number of experts scheduled to attend the subregional forum on sustainable

development, and under travel of staff ($2,000), owing to an increase in the number of days of travel required to effectively engage with the member States and other stakeholders;

(m) **Subprogramme 8, component 5, Subregional activities for development in South-East Asia**. The net decrease of $500 under non-post resources relates mainly to decreased requirements under experts ($100), owing to a decrease in the number of experts required for issues and challenges related to the Sustainable Development Goals, and under consultants ($6,800), owing to a decrease in the number of days required for analytical work on issues and challenges related to the Goals. Those decreased requirements are offset in part by increases under travel of staff ($5,200), owing to an increase in the number of trips required to effectively engage with the member States and other stakeholders, and under contractual services ($1,200), owing to the redistribution of data-processing services costs on the basis of expenditure experience;

(n) **Subprogramme 9, Energy**. The net decrease of $2,100 under non-post resources relates mainly to decreased requirements under consultants ($1,900), owing to the planned engagement of consultants who are at a more junior level in relation to the energy transition and cross-border power connectivity, under travel of staff ($600), owing to a decrease in the number of trips required to effectively engage with the member States and other stakeholders, and under contractual services ($4,900), owing mainly to a decrease in design and editing services for the publication entitled *Regional Trends Report on Energy for Sustainable Development 2026*. Those decreased requirements are offset in part by an increase under experts ($5,300), owing to an increased number of experts required for the Expert Working Group on Universal Access to Modern Energy Services, Renewable Energy, Energy Efficiency and Cleaner Use of Fossil Fuels and the Expert Working Group on Energy Connectivity;

(o) **Programme support**. The net increase of $70,600 in post and non-post resources is mainly due to increased requirements under posts ($242,400), owing to the conversion of four long-term general temporary assistance positions to posts at the Local level, under consultants ($44,800), owing mainly to a change in the contractual modality of ICT support staff from contractual services to consultants, under general operating expenses ($74,800), owing mainly to the redeployment of resources from contractual services on the basis of expenditure experience and the net impact of increased costs for the rental and maintenance of buildings, offset in part by a reduction in communication costs, the building insurance fee and vehicle maintenance services, and under furniture and equipment ($52,700), owing mainly to the replacement of official vehicles. The increase is offset in part by a decrease under other staff costs ($208,600), owing to the conversion of four long-term general temporary assistance positions to posts at the Local level, under contractual services ($65,500), owing mainly to a change in the contractual modality of ICT support staff from contractual services to consultants as well as a reduction in specialized services for facilities management services, conference management services and information technology training, offset in part by the redistribution of data-processing services costs on the basis of expenditure experience and the higher standard price of the core software package for non-field personnel outside of United Nations Headquarters, under supplies and materials ($25,100), owing mainly to reduced requirements for uniforms, badges and gear, spare parts for communications and network equipment, stationery and office supplies, and under improvement of premises ($45,000), due to minimal anticipated repair work.

Extrabudgetary resources

19.212 As reflected in tables 19.58 (2) and 19.59 (2), extrabudgetary resources amount to $25,572,600. The resources would complement regular budget resources and would be used mainly to provide for 113 posts (3 D-1, 4 P-5, 7 P-4, 15 P-3, 1 P-2, 7 National Professional Officer and 76 Local level) to perform mainly the functions of providing technical expertise and management and administrative support for technical cooperation projects and the office operations of ESCAP. In addition, non-post

resources would be used for research in emerging areas, the preparation of knowledge products to inform deliberations of member States, the development of institutional and individual capacities of policymakers and the technical staff of governments for the implementation of regionally agreed frameworks and the facilitation of South-South and triangular exchanges in line with the Commission's mandates.

19.213 The extrabudgetary resources under this section are subject to the oversight of the secretariat of ESCAP, which has delegated authority from the Secretary-General.

Policymaking organs

19.214 The resources proposed under this component would provide for the policymaking organs as shown in table 19.61.

Executive direction and management

19.216 Executive direction and management is led by the Office of the Executive Secretary and supported by the Section on Sustainable Development and Countries in Special Situations. The Office provides overall policy direction and management to the secretariat to support member States through the provision of strategic analyses, policy options and capacity-building activities. The efforts are aimed at addressing key development challenges through the provision of innovative solutions for equitable and inclusive economic prosperity, social progress and environmental sustainability across Asia and the Pacific. Emerging issues in the regional development agenda will be identified, and regional concerns and priorities will be articulated at the global level.

19.217 The Office of the Executive Secretary provides guidance to divisions, subregional offices and regional institutes on the implementation of the ESCAP programme of work and on ensuring its accountability. It also provides direction on the mainstreaming of policies and strategies relating to gender equality and the empowerment of women, as well as on disability inclusion, across the programme of work and to programme support units.

19.218 The Office of the Executive Secretary provides overall direction and management with respect to the preparation of the annual theme study and the organization of the annual session of the Commission, an inclusive intergovernmental platform for regional cooperation. It also guides the implementation of reforms to the ESCAP conference structure pursuant to Commission resolution 78/2, the strengthening of organizational effectiveness and results-based management, and the implementation of United Nations system-wide change management and reform initiatives.

19.219 The Section on Sustainable Development and Countries in Special Situations supports the accelerated implementation of the 2030 Agenda in the least developed countries, landlocked developing countries and small island developing States. The Section takes a concerted approach to mainstreaming the issues faced by these groups of countries in the overall programme of work, monitors the implementation of the programmes of action for these countries and provides strategic analyses to address key development challenges. It also guides the organization of the Asia-Pacific Forum on Sustainable Development as the multi-stakeholder platform through which to discuss, review and follow up on regional priorities and needs for sustainable development.

19.220 In accordance with the 2030 Agenda, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, as well as with the Secretary-General's bulletin on the environmental policy for the United Nations Secretariat (ST/SGB/2019/7), the Office is integrating environmental management practices into its operations. In 2024, ESCAP continued its energy efficiency efforts through its office building renovation project and improvements and adjustments to facilities management systems. ESCAP achieved an energy efficiency improvement of 26 per cent compared with 2016 – its reference environmental baseline year. The energy efficiency improvements are equivalent to 13,636 tons of carbon dioxide over the eight years since the launch of the ESCAP environmental management system. ESCAP is continuing its commitment to green energy by purchasing international renewable energy certificates, allowing it to source 100 per cent of its energy consumption from solar energy produced locally in Thailand. This achievement confirms that the United Nations Secretariat 2030 targets were met as early as 2020, with this trend expected to continue into 2024 (data will be released in June 2025). In the same year, ESCAP continued its waste prevention and management efforts and achieved high rates of office waste recycling (58 per cent in 2024). Efforts included the continuation of the compound-wide ban on all main single-use catering items and the continuation of the implementation of the new waste management system that boosted recycling (centralized recycling bins, a new waste sorting area and organic waste composting). In 2024, many ESCAP meetings were conducted in a hybrid format, which positively contributed to the organization's efforts to reduce its air travel footprint. ESCAP will have achieved climate neutrality in its 2024 operations by procuring certified carbon emission reduction credits required for 2024 by June 2025 with the support of United Nations Headquarters. In 2023 and 2024, the Office expanded its environmental management system beyond ESCAP headquarters to also include ESCAP subregional offices and regional institutes. This further ensured comprehensive, systematic and monitored environmental management across ESCAP. The system serves to target energy, waste, water, sustainable meetings and travel and will address staff awareness as a cross-cutting issue for all of the identified environmental issues. In 2025, ESCAP plans to continue implementation of its environmental management system both in the programmatic and the facilities and operations areas across all its premises. It should be noted that, although ESCAP reduction trends were already in place and yielding positive environmental results before the COVID-19 pandemic, the levels of progress reached to date in some of the targeted areas may not be sustainable at the same level in the long term if building occupancy rates and air travel increase.

19.221 Information on the timely submission of documentation and advance booking for air travel is reflected in table 19.63. The advance purchase compliance rate improved from 67 per cent in 2023 to 72 per cent in 2024. Staff travel compliance increased from 75 per cent to 83 per cent, while non-staff travel compliance improved from 64 per cent to 69 per cent. To achieve and sustain these improvements, ESCAP continues to implement several measures, including the issuance of an annual travel report detailing compliance rates, quarterly monitoring and reporting to senior management, and targeted reminder emails to certifying officers and travel administrative focal points emphasizing adherence to the United Nations travel policy and advance purchase rules. Furthermore, the ESCAP Conference and General Services Section conducts daily and weekly follow-ups with travel administrative focal points to ensure the timely processing of travel requests related to planned meetings. In addition to the provision of real-time travel data and analytics, briefing and brainstorming sessions are organized to drive continued improvements in compliance.

Programme support

19.237 The programme support component assists in the implementation of the substantive programme of work of ESCAP at its headquarters in Bangkok, as well as at its subregional offices. Specifically, programme support includes:

(a) The Strategy and Programme Management Division, which focuses on improving the relevance and impact of the work of ESCAP through its functions related to strategic programme planning, management and budgeting, technical cooperation and resource mobilization, monitoring and evaluation, and partnerships, in particular collaboration with development partners;

(b) The Division of Administration, which focuses on improving operational support, including leveraging development reform by working with United Nations entities locally and in the region, as well as streamlining global administrative processes and mainstreaming measures deployed during the pandemic, through its functions related to financial resources management, service management, human resources management, ICT management services, mail services, travel services, conference management (including events management, in particular at the United Nations Conference Centre in Bangkok) and host country relation services, as well as procurement, facilities management, and commercial and general services;

(c) The Communications and Knowledge Management Section, which focuses on disseminating outreach materials to increase the accessibility and visibility of the analytical, normative and capacity-building work of ESCAP through its communication, knowledge management and information/library services. This includes media relations, social media content, web content management, exhibitions, promotional material, management of the publications programme, the purchase and management of subscriptions to electronic resources, databases and online publications, the preservation of institutional memory and the digitization of official documents, publications and records;

(d) The Conference and Documentation Services Section, which enables and facilitates multilingual communication among stakeholders, partners and member States through its mandate of providing interpretation, translation, editorial and text-processing services, including documentation management, reproduction and printing, as well as the leveraging of language-related information technology and computer-assisted translation tools.

19.238 The proposed regular budget resources for 2026 amount to $22,592,200 and reflect a net increase of $70,600 compared with the approved budget for 2025. The proposed increase is explained in paragraph 19.211 (o). Additional details on the distribution of the proposed resources for 2026 are reflected in table 19.78 and figure 19.XXIX.

Annex II

Summary of proposed post changes, by component and subprogramme

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
Executive direction and management	1	P-2	**Establishment** of one temporary Associate Economic Affairs Officer from 2026 to 2034	Pursuant to General Assembly resolution 78/317, for leading the drafting of the technical material for and the coordination of the expert group meeting for monitoring, evaluation and reporting for the Atlantic, Indian Ocean and South China Sea small island developing States, jointly with the Economic Commission for Africa.
Programme support	4	LL	**Cost-neutral conversion** of four long-term GTA positions to posts, including one Senior Telecommunications Technician and three Information Systems Assistants	The Senior Telecommunications Technician position started in 2010 and provides critical services for perimeter access control technology, from project management, design, implementation, policy management and reporting to operational support. The three Information Systems Assistant positions started in 2011 and provide custodian services for ICT asset management, computer administrative rights and service desk, including any ad hoc requests such as event set-up and office relocation. These positions also support certain important ICT infrastructure upgrades, such as: • Replacement of the obsolete perimeter intrusion detection system • Digitization of the legacy analogue video surveillance system • Firewalls • Network and server infrastructure These positions are long-term and vital for the seamless and effective operation of perimeter access control technology and ICT support and functions.

Abbreviations: GTA, general temporary assistance; ICT, information and communications technology; LL, Local level.

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

20.1 The Economic Commission for Europe (ECE) is responsible for facilitating economic integration and cooperation among its member States and promoting sustainable development and economic prosperity in the ECE region. The mandate derives from the priorities established in relevant General Assembly and Economic and Social Council resolutions and decisions, including on the workplan on reform of ECE and the outcome of the review of the 2005 reform of ECE (resolutions 2006/38 and 2013/1, respectively), and Council resolution 36 (IV). The Commission provides a regional intergovernmental platform to promote sustainable approaches, solutions and innovation pertaining to economic integration and trade, transport and mobility, environmental protection and management of natural resources, forests and the forest industry, affordable and clean energy, competitiveness and public-private partnerships, emerging social and demographic challenges and land management, while strengthening member States' capacities to measure progress towards the achievement of the 2030 Agenda for Sustainable Development and their access to timely and quality evidence for informed policymaking. ECE will support member States' commitment to take bold, ambitious, accelerated, just and transformative actions to implement the 2030 Agenda, achieve the Sustainable Development Goals and leave no one behind, as reiterated in the Pact for the Future. Considering its regional nature and membership of 56 States, ECE remains uniquely positioned and will continue to leverage its core mandated functions, namely, policy dialogue, normative work and technical cooperation, in support of the realization of the ambitions of the peoples of the ECE region for a just and prosperous future for all. The support delivered by the Commission to member States is also provided through the regular programme of technical cooperation and Development Account projects.

Strategy and external factors for 2026

20.2 The overall strategy and proposed programme of work of the Commission has been elaborated to align with the commitments outlined in the Pact for the Future, including the Global Digital Compact, and remains anchored in multilateral frameworks, such as the 2030 Agenda for Sustainable Development, the Addis Ababa Action Agenda of the Third International Conference on Financing for Development, the Programme of Action for Landlocked Developing Countries for the Decade 2024–2034 and the New Urban Agenda, which were adopted by Member States to tackle social and economic challenges through sustained and people-centred development. Furthermore, the high-level, cross-cutting theme proposed for adoption by the Commission at its seventy-first session, "Climate action and resilient infrastructure for a sustainable future", guided the proposed programme of work of the ECE secretariat.

20.3 The execution of the strategy will be realized through the intergovernmental bodies of ECE, which comprise the Commission and its sectoral committees and which remain fundamental for the ability of the ECE secretariat to deliver the support sought by national Governments and other stakeholders in their efforts to accelerate progress towards the Sustainable Development Goals. In addition, as convener of the Regional Forum on Sustainable Development, ECE will continue to serve as a region-wide, multi-stakeholder platform for the review and follow-up of the Goals, peer-to-peer learning and the exchange of practical solutions for tackling development challenges in an accelerated manner. Operationally, the ECE secretariat will continue to further strengthen its working methods, in line with paragraph 73 (a) of the Pact for the Future, under action 45, for more agile, timely and impactful support to ECE member States.

20.4 In line with the principles of the reform of the United Nations development system, ECE will continue to serve as a platform for policy dialogue to address multi-country, transboundary and regional economic, social and environmental issues, with a specific focus on both central and local

authorities, as well as other stakeholders, including civil society, youth representatives, academia and the business community. The normative work of the programme will focus on the development and implementation of international legal instruments, norms and standards in areas critical to sustainable development, and on the identification and dissemination of best practices within and beyond the region. Through technical cooperation in its areas of expertise, the programme will provide demand-driven specialized and integrated policy advice, and capacity-building aimed at expanding the use by its member States of normative work, facilitate the achievement of the Goals at the country level and achieve multiplier effects by targeting cross-border issues.

20.5 The strategy of the programme integrates sustainable development approaches and builds on synergies and the expected results of its eight subprogrammes. It leverages cross-sectoral synergies of the 2030 Agenda for Sustainable Development and collaboration across the eight subprogrammes by the ECE secretariat, the intergovernmental architecture of ECE and the broader expert community for multi-stakeholder engagement and action towards accelerating progress in achieving the Goals.

20.6 In 2026, the programme will continue to provide support to its member States in addressing the economic and environmental challenges of achieving the Goals, with a focus on the transition areas with significant catalytic and multiplier effects, including energy, food systems, digital transformations, climate change, biodiversity loss and pollution. ECE will actively contribute to the decade of action for the Goals in the region, with an enhanced focus on localization, and will follow up on the outcomes of the upcoming Fourth International Conference on Financing for Development and Second World Summit for Social Development, as applicable.

20.7 With regard to cooperation with other entities at the global, regional, national and local levels, ECE will build on its close cooperation with international and regional organizations and other regional actors to exchange knowledge, develop joint initiatives and enhance collective impact. Partnerships with the private sector and civil society organizations, think tanks and the academic sector will be strengthened to facilitate ECE policy dialogue and normative work and to engage them in the implementation of the 2030 Agenda by member States.

20.8 With regard to inter-agency coordination and liaison, ECE will continue to play a key role in coordinating regional United Nations system entities. As co-lead of the Regional Collaborative Platform for Europe and Central Asia, it will promote joint action and synergies among United Nations regional entities and their partners in addressing regional, cross-cutting policy issues, offering integrated policy advice and providing regional perspectives at the global level, including through issue-based coalitions. This work will build on continued strategic partnerships and joint initiatives established by ECE with other United Nations entities and international financial institutions. The United Nations Special Programme for the Economies of Central Asia, implemented jointly by ECE and the Economic and Social Commission for Asia and the Pacific, will serve as the major framework for cooperation with relevant stakeholders in Central Asia. At the country level, ECE will work closely with the resident coordinators and as part of the United Nations country teams to facilitate the implementation of joint programmes and projects in response to country demands, including by contributing to the planning (common country analyses), monitoring and implementation of the United Nations Sustainable Development Cooperation Frameworks. The programme will also promote interregional (including South-South) and triangular cooperation.

20.9 With regard to the external factors, the overall plan for 2026 is based on the following planning assumptions:

(a) Member States continue to guide intergovernmental processes, support the initiatives and give priority to regional and subregional cooperation and integration, with a view to achieving sustainable development;

(b) All relevant stakeholders at the national level have the political will to cooperate in implementing ECE legal instruments, norms and standards;

(c) Voluntary resources continue to be available.

20.10 ECE integrates a gender perspective into its operational activities, deliverables and results, as appropriate, in particular to support member States in the achievement of Sustainable Development Goal 5 and targets of the Goals relating to gender equality and women's empowerment. Guided by the Commission's policy and 2026 action plan on gender equality and the empowerment of women, all subprogrammes will continue to take concrete action with measurable outputs on mainstreaming a gender perspective into the Commission's normative work and further promoting the participation of women in all initiatives. ECE will also prioritize technical cooperation projects that contribute towards gender equality.

20.11 In line with the United Nations Disability Inclusion Strategy, ECE will continue to ensure that disability inclusion is mainstreamed into its operational activities, deliverables and results, as appropriate. In line with its annual disability inclusion action plan, ECE will advance disability inclusion in the relevant normative instruments and good practices, as well as its programmes and projects.

Legislative mandates

20.12 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

66/288	The future we want
67/10	Cooperation between the United Nations and the Eurasian Economic Community
67/290	Format and organizational aspects of the high-level political forum on sustainable development
69/213	Role of transport and transit corridors in ensuring international cooperation for sustainable development
69/277	Political declaration on strengthening cooperation between the United Nations and regional and subregional organizations
69/283	Sendai Framework for Disaster Risk Reduction 2015–2030
69/313	Addis Ababa Action Agenda of the Third International Conference on Financing for Development
70/1	Transforming our world: the 2030 Agenda for Sustainable Development
71/256	New Urban Agenda
71/313	Work of the Statistical Commission pertaining to the 2030 Agenda for Sustainable Development
72/279	Repositioning of the United Nations development system in the context of the quadrennial comprehensive policy review of operational activities for development of the United Nations system
73/195	Global Compact for Safe, Orderly and Regular Migration
74/4	Political declaration of the high-level political forum on sustainable development convened under the auspices of the General Assembly
74/144	Implementation of the Convention on the Rights of Persons with Disabilities and the Optional Protocol thereto: accessibility
74/216	Implementation of Agenda 21, the Programme for the Further Implementation of Agenda 21 and the outcomes of the World Summit on Sustainable Development and of the United Nations Conference on Sustainable Development
74/231; 78/162	Development cooperation with middle-income countries
75/9; 77/16	Cooperation between the United Nations and the Commonwealth of Independent States
75/12	Cooperation between the United Nations and the Black Sea Economic Cooperation Organization
75/290 A	Review of the implementation of General Assembly resolution 72/305 on the strengthening of the Economic and Social Council
	Review of the implementation of General Assembly resolutions 67/290 on the format and organizational aspects of the high-level political forum on sustainable development and 70/299 on the follow-up and review of the 2030 Agenda for Sustainable Development at the global level
	Economic and Social Council
75/290 B	Review of the implementation of General Assembly resolution 72/305 on the strengthening of the Economic and Social Council
	Review of the implementation of General Assembly resolutions 67/290 on the format and organizational aspects of the high-level political forum on sustainable development and 70/299 on the follow-up and review of the 2030 Agenda for Sustainable Development at the global level
	High-level political forum on sustainable development

77/21 Cooperation between the United Nations and the Organisation for Economic Co-operation and Development

77/280 Progress towards an accountability system in the United Nations Secretariat

77/330 Cooperation between the United Nations and the Economic Cooperation Organization

78/166 Operational activities for development of the United Nations system

78/182 Follow-up to the Fourth World Conference on Women and full implementation of the Beijing Declaration and Platform for Action and the outcome of the twenty-third special session of the General Assembly

79/1 The Pact for the Future

79/11 Cooperation between the United Nations and the Organization for Democracy and Economic Development – GUAM

79/135 Cooperation between the United Nations and the Central European Initiative

79/146 Implementation of the outcome of the World Summit for Social Development and of the twenty-fourth special session of the General Assembly

79/199 Follow-up to and implementation of the outcomes of the International Conferences on Financing for Development

79/202 Promoting sustainable consumption and production patterns for the implementation of the 2030 Agenda for Sustainable Development, building on Agenda 21

79/205 Disaster risk reduction

79/211 Ensuring access to affordable, reliable, sustainable and modern energy for all

79/214 Implementation of the outcomes of the United Nations Conferences on Human Settlements and on Housing and Sustainable Urban Development and strengthening of the United Nations Human Settlements Programme (UN-Habitat)

79/219 Follow-up to the Third United Nations Conference on Landlocked Developing Countries

79/222 Industrial development cooperation

79/223 Women in development

79/226 Quadrennial comprehensive policy review of operational activities for development of the United Nations system

79/227 Agriculture development, food security and nutrition

79/233 Programme of Action for Landlocked Developing Countries for the Decade 2024–2034

79/236 South-South cooperation

Economic and Social Council resolutions

36 (IV) Economic Commission for Europe

1998/46 Further measures for the restructuring and revitalization of the United Nations in the economic, social and related fields

2006/38 Workplan on reform of the Economic Commission for Europe and revised terms of reference of the Commission

2013/1 Outcome of the review of the 2005 reform of the Economic Commission for Europe

2023/4 Science, technology and innovation for development

2023/11 Mainstreaming a gender perspective into all policies and programmes in the United Nations system

2023/31 Progress in the implementation of General Assembly resolution 75/233 on the quadrennial comprehensive policy review of operational activities for development of the United Nations system

Economic Commission for Europe decisions

A (64) The work of the Economic Commission for Europe

A (65) Outcome of the review of the 2005 reform of ECE

A (66) Endorsement of the High-level statement on the post-2015 development agenda and expected SDGs in the ECE region

A (70) Economic and social effects of Russia's aggression against Ukraine

B (70) Digital and green transformations in support of the sustainable development in the region of the Economic Commission for Europe

C (70) Promotion of circular economy and the sustainable use of natural resources

D (70) Extension of the mandate of the Regional Forum on Sustainable Development

Subprogramme 1
Environment

General Assembly resolutions

2994 (XXVII) United Nations Conference on the Human Environment

47/193 Observance of World Day for Water

67/291 Sanitation for All

70/204 International Strategy for Disaster Reduction

71/222	International Decade for Action, “Water for Sustainable Development”, 2018–2028
73/226	Midterm comprehensive review of the implementation of the International Decade for Action, “Water for Sustainable Development”, 2018–2028
73/238	The role of the international community in the prevention of the radiation threat in Central Asia
75/212; 77/334	United Nations Conference on the Midterm Comprehensive Review of the Implementation of the Objectives of the International Decade for Action, “Water for Sustainable Development”, 2018–2028; and Follow-up
77/106	Consideration of prevention of transboundary harm from hazardous activities and allocation of loss in the case of such harm
78/156	Education for sustainable development in the framework of the 2030 Agenda for Sustainable Development
78/206	The human rights to safe drinking water and sanitation
79/172	Human rights in the administration of justice

Economic and Social Council resolution

2023/21	Implementation of the rapid response mechanism for the protection of environmental defenders under the Convention on Access to Information, Public Participation in Decision-making and Access to Justice in Environmental Matters (Aarhus Convention)

Economic Commission for Europe decisions

CEP/AC.13/2005/2	Report of the high-level meeting of environment and education ministries (2005) adopting the ECE strategy for education for sustainable development
ECE/BELGRADE.CONF/2007/4/Add.1	Statement on education for sustainable development by the ministers of education and of the environment of the ECE region adopted at the joint session on education for development of the sixth Ministerial Conference, entitled “Environment for Europe”, 2007
ECE/AC.21/2021/2-EUCHP2018924/4.3.2	Report of the High-level Meeting on Transport, Health and Environment and of the special session of the Steering Committee of the Transport, Health and Environment Pan-European Programme
ECE/ASTANA.CONF/2011/2/Add.1	Declaration: “Save water, grow green!” by ministers of the region of ECE, report of the seventh Ministerial Conference, entitled “Environment for Europe”, 2011
ECE/BATUMI.CONF/2016/2/Add.1	Declaration: “Greener, cleaner, smarter!” by ministers of the region of ECE, report of the eighth Environment for Europe Ministerial Conference, 2016
ECE/BATUMI.CONF/2016/2/Add.2	Batumi ministerial statement on education for sustainable development adopted by the high-level meeting of education and environment ministries of the region of ECE, report of the eighth Environment for Europe Ministerial Conference, 2016
ECE/CEP/2020/2	Report of the Committee on Environmental Policy on its twenty-sixth session
ECE/NICOSIA.CONF/2022/2/Add.1	Ministerial declaration of the ninth Environment for Europe Ministerial Conference
ECE/NICOSIA.CONF/2022/2/Add.2	Nicosia ministerial statement on education for sustainable development adopted by the high-level meeting of education and environment ministries of the region of ECE, report of the ninth Environment for Europe Ministerial Conference, 2022

Relevant decisions of the governing bodies of the multilateral environmental agreements of the Economic Commission for Europe

ECE/EB.AIR/154 and Add.1	Report of the Executive Body for the Convention on Long-range Transboundary Air Pollution on its forty-third session
ECE/MP.PRTR/2021/6 and Add.1	Report of the Meeting of the Parties to the Protocol on Pollutant Release and Transfer Registers to the Convention on Access to Information, Public Participation in Decision-making and Access to Justice in Environmental Matters on its fourth session
ECE/MP.PP/2021/2 and Add.1	Report of the Meeting of the Parties to the Convention on Access to Information, Public Participation in Decision-making and Access to Justice in Environmental Matters on its seventh session

ECE/MP.PP/2021/16-ECE/MP.PRTR/2021/2 and Add.1	Report of the Joint High-level Segment of the seventh session of the Meeting of the Parties to the Convention on Access to Information, Public Participation in Decision-making and Access to Justice in Environmental Matters and of the fourth session of the Meeting of the Parties to the Protocol on Pollutant Release and Transfer Registers, and the Geneva Declaration on Environmental Democracy for Sustainable, Inclusive and Resilient Development, adopted by the two Meetings of the Parties
ECE/MP.EIA/23-ECE/MP.EIA/SEA/7 and Add.1, Add.2 and Add.3	Report of the Meeting of the Parties to the Convention on Environmental Impact Assessment in a Transboundary Context on its seventh session, and the Meeting of the Parties to the Convention on Environmental Impact Assessment in a Transboundary Context serving as the Meeting of the Parties to the Protocol on Strategic Environmental Assessment on its third session

Transport

General Assembly resolutions

58/9	Global road safety crisis
68/269; 72/271; 74/299; 78/290	Improving global road safety
70/197	Towards comprehensive cooperation among all modes of transport for promoting sustainable multimodal transit corridors
72/212; 78/148	Strengthening the links between all modes of transport to achieve the Sustainable Development Goals
76/255	Integration of mainstream bicycling into public transportation systems for sustainable development
77/286	World Sustainable Transport Day
78/149	The pivotal role of reliable and stable energy connectivity in driving sustainable development

Economic and Social Council resolutions

1999/65	Reconfiguration of the Committee of Experts on the Transport of Dangerous Goods into a Committee of Experts on the Transport of Dangerous Goods and on the Globally Harmonized System of Classification and Labelling of Chemicals
2013/7	Europe-Africa fixed link through the Strait of Gibraltar
2022/2	Revised terms of reference of the Inland Transport Committee of the Economic Commission for Europe
2023/5	Work of the Committee of Experts on the Transport of Dangerous Goods and on the Globally Harmonized System of Classification and Labelling of Chemicals

Economic Commission for Europe decisions

ECE/AC.21/2014/2	Report of the High-level Meeting on Transport, Health and Environment on its fourth session
ECE/TRANS/224; ECE/TRANS/236; ECE/TRANS/240 and Corr.1; ECE/TRANS/248; ECE/TRANS/254; ECE/TRANS/270; ECE/TRANS/274; ECE/TRANS/288; ECE/TRANS/294; ECE/TRANS/304; ECE/TRANS/316; ECE/TRANS/328; ECE/TRANS/344	Reports of the Inland Transport Committee (seventy-fourth to eighty-sixth sessions)
ECE/TRANS/344, annex I	Inland Transport Committee Strategy on Reducing Greenhouse Gas Emissions from Inland Transport

B (66)	Endorsement of the Geneva Charter on Sustainable Housing
K (70)	Matters related to sustainable transport and mobility

Decisions of the treaty bodies of United Nations transport agreements

E/ECE/TRANS/505/Rev.3	1958 Agreement Concerning the Adoption of Harmonized Technical United Nations Regulations for Wheeled Vehicles, Equipment and Parts which can be Fitted and/or be Used on Wheeled Vehicles and the Conditions for Reciprocal Recognition of Approvals Granted on the Basis of these United Nations Regulations
ECE/RCTE/CONF/4	1997 Agreement concerning the adoption of uniform conditions for periodical technical inspections of wheeled vehicles and the reciprocal recognition of such inspections
ECE/TRANS/132	1998 Agreement concerning the establishment of global technical regulations for wheeled vehicles, equipment and parts which can be fitted and/or used on wheeled vehicles
ECE/TRANS/ADN/CONF/10/Add.1	European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways
ECE/TRANS/WP.30/AC.2/125	Report of the Administrative Committee for the TIR Convention 1975 on its sixty-first session
ECE/TRANS/WP.30/AC.2/147 and Corr.1	Report of the Administrative Committee for the TIR Convention 1975 on its seventy-second session
ECE/TRANS/WP.30/AC.2/157	Report of the Administrative Committee for the TIR Convention 1975 on its seventy-seventh session (February 2022): AC.2, in line with annex 11, article 5, adopted the eTIR concepts and the eTIR functional specifications, including the amendments adopted by TIB at its first session. This provides a complete legal and technical basis for those countries that are willing to implement the eTIR procedure
ECE/TRANS/WP.30/AC.2/TIB/2	Report of the Technical Implementation Body (TIB) of the Administrative Committee for the TIR Convention, 1975, on its first session: TIB for eTIR implementation, adopted version 4.3 of the eTIR technical specifications and confirmed their alignment with version 4.3 of the eTIR concepts and the eTIR functional specifications

Subprogramme 3
Statistics

General Assembly resolutions

68/261	Fundamental Principles of Official Statistics
69/282	World Statistics Day

Economic and Social Council resolutions and decisions

2006/6	Strengthening statistical capacity
2015/10	2020 World Population and Housing Census Programme
2016/27	Strengthening institutional arrangements on geospatial information management
2019/210	Report of the Statistical Commission on its fiftieth session (Statistical Commission decision 50/116: Disaster-related statistics)
2020/5	Strengthening coordination of the statistical programmes in the United Nations system
2021/7	Mainstreaming a gender perspective into all policies and programmes in the United Nations system
2021/224	Report of the Statistical Commission on its fifty-second session (Statistical Commission decisions 52/109 Migration statistics; 52/114 Household surveys)
2022/3	Ensuring that the work in the field of statistics and data is adaptive to the changing statistical and data ecosystem (paras. 4 and 9–10)
2023/325	Report of the Statistical Commission on its fifty-fourth session (Statistical Commission decisions 54/101: Global indicator framework for SDGs and targets of the 2030 Agenda; 54/107: National accounts; 54/108: Business and trade statistics; 54/109: Regional statistical development; 54/110: Environmental-economic accounting; 54/111: Fundamental Principles of Official Statistics; 54/113: Statistical capacity development; 54/116: Big data; 54/117: Price statistics; 54/118: Integration of statistical and geospatial information; 54/119: Data stewardship)
2024/312	Report of the Statistical Commission on its fifty-fifth session (Statistical Commission decisions 55/101: Fundamental Principles of Official Statistics; 55/105: Data science; 55/106: Governance statistics; 55/108: Economic statistics; 55/109: Environmental-economic accounting; 55/112: Gender statistics; 55/118: Climate change statistics; 55/120: Open data; 55/121: International Comparison Programme)

Subprogramme 4
Economic cooperation and integration

General Assembly resolutions

77/320	Impact of rapid technological change on the achievement of the Sustainable Development Goals and targets	79/198	Promoting investments for sustainable development
78/160	Science, technology and innovation for sustainable development	79/228	Towards global partnerships: a principle-based approach to enhanced cooperation between the United Nations and all relevant partners
79/194	Information and communications technologies for sustainable development		

Subprogramme 5
Sustainable energy

General Assembly resolutions

69/225	Promotion of new and renewable sources of energy	72/228	Science, technology and innovation for development

Economic and Social Council resolutions and decisions

1997/226	United Nations International Framework Classification for Energy Reserves/Resources: Solid Fuels and Mineral Commodities	2023/18	Best Practice Guidance for Effective Management of Coal Mine Methane at National Level: Monitoring, Reporting, Verification and Mitigation
2004/233	United Nations Framework Classification for Fossil Energy and Mineral Resources	2023/19	United Nations Resource Management System Principles and Requirements
2011/222	Best Practice Guidance for Effective Methane Drainage and Use in Coal Mines	2023/20	Request to strengthen the role of the secretariat of the Economic Commission for Europe in supporting member States in building resilient energy systems and modernizing resource management systems
2021/249	Best Practice Guidance for Effective Methane Recovery and Use from Abandoned Coal Mines		
2021/250	Updated United Nations Framework Classification for Resources		

Economic Commission for Europe decisions

E (79)	Building resilient energy systems	F (70)	Decision to study finance for energy-related climate change activities in the region of the Economic Commission for Europe, particularly related to critical raw materials

Subprogramme 6
Trade

General Assembly resolutions

78/144	Agricultural technology for sustainable development	79/201	Entrepreneurship for sustainable development

Economic and Social Council resolutions and decisions

1991/76	Promotion of interregional cooperation in the area of international trade facilitation	1997/225	Economic Commission for Europe Recommendation 25, entitled “Use of the UN/EDIFACT Standard”

Subprogramme 7
Forests and the forest industry

General Assembly resolutions

62/98	Non-legally binding instrument on all types of forests	78/169	Natural plant fibres and sustainable development
67/200	International Day of Forests	78/320	Fostering sustainable forest management, including afforestation and reforestation, in degraded lands, including drylands, as an effective solution to environmental challenge
71/285	United Nations strategic plan for forests 2017–2030		
71/286	United Nations forest instrument	79/208	Implementation of the Convention on Biological Diversity and its contribution to sustainable development
73/284	United Nations Decade on Ecosystem Restoration (2021–2030)		

Economic and Social Council resolutions

2015/33	International arrangement on forests beyond 2015	2020/14	Outcome of the fifteenth session of the United Nations Forum on Forests
2017/4	United Nations strategic plan for forests 2017–2030 and quadrennial programme of work of the United Nations Forum on Forests for the period 2017–2020	2024/15, annex	Quadrennial programme of work of the United Nations Forum on Forests for the period 2025–2028

Subprogramme 8
Housing, land management and population

General Assembly resolutions

65/234	Follow-up to the International Conference on Population and Development beyond 2014	79/139	International cooperation on humanitarian assistance in the field of natural disasters, from relief to development
75/131	United Nations Decade of Healthy Ageing (2021–2030)	79/147	Follow-up to the Second World Assembly on Ageing
78/172	Inclusive policies and programmes to address homelessness, including in the aftermath of the coronavirus disease (COVID-19)		

Economic and Social Council resolutions and decisions

2014/239	Report of the Commission on Population and Development on its forty-seventh session and provisional agenda for its forty-eighth session (Commission on Population and Development resolution 2014/1, Assessment of the status of implementation of the Programme of Action of the International Conference on Population and Development)	2016/25	Future organization and methods of work of the Commission on Population and Development
		2020/7	Affordable housing and social protection systems for all to address homelessness
		2020/19	Change of name and revised terms of reference of the Working Group on Ageing of the Economic Commission for Europe
		2023/15	Fourth review and appraisal of the Madrid International Plan of Action on Ageing, 2002

Human Rights Council resolutions

48/3; 54/13	Human rights of older persons

Economic Commission for Europe decisions

ECE/AC.23/2002/2/Rev.6	Regional Implementation Strategy for the Madrid International Plan of Action on Ageing, 2002	ECE/HBP/190	Report of the Committee on Housing and Land Management on its seventy-eighth session (Geneva Ministerial Declaration on Sustainable Housing and Urban Development)
B (66)	Endorsement of the Geneva Charter on Sustainable Housing	ECE/HBP/208; ECE/HBP/213	Report of the Committee on Urban Development, Housing and Land Management (eighty-second and eighty-third sessions)

ECE/AC.30/2022/2	Report of the Ministerial Conference on Ageing "A Sustainable World for All Ages: Joining Forces for Solidarity and Equality Opportunities Throughout Life"	ECE/WG.1/2023/2	Report on the sixteenth meeting of the Standing Working Group on Ageing, which adopted the Programme of Work of the Standing Working Group on Ageing, 2023–2027

Deliverables

20.13 Table 20.1 lists the cross-cutting deliverables of the programme.

Table 20.1
Cross-cutting deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**27**	**24**	**40**	**27**
1. The Economic Commission for Europe	–	–	13	–
2. Regional Forum on Sustainable Development for the region of the Economic Commission for Europe	2	2	2	2
3. The ECE Executive Committee	25	22	25	25
Substantive services for meetings (number of three-hour meetings)	**18**	**20**	**26**	**21**
4. The Economic Commission for Europe	–	–	4	–
5. Regional Forum on Sustainable Development for the region of the Economic Commission for Europe	3	4	3	4
6. The ECE Executive Committee	6	6	10	6
7. The Working Group on Gender and Sustainable Development Goals of the United Nations Special Programme for the Economies of Central Asia	2	1	2	2
8. The Fifth Committee	1	1	1	1
9. The Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
10. The Committee for Programme and Coordination	1	1	1	1
11. The Regional Collaborative Platform	4	6	4	6
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	**20**	**–**	**–**	**–**
12. Capacity-building seminars on advancement of gender equality for government officials	20	–	–	–
Publications (number of publications)	**2**	**1**	**2**	**1**
13. On gender equality and sustainable development	1	–	1	–
14. ECE annual report	1	1	1	1
C. Substantive deliverables				
Consultation, advice and advocacy: advice to and consultations with member States and United Nations country teams to facilitate implementation of the United Nations Sustainable Development Cooperation Framework process in programme countries.				
D. Communication deliverables				
Outreach programmes, special events and information materials: promotional materials; information materials for United Nations Road Safety Fund advocacy campaign and awareness-raising material; and films on ECE activities.				
External and media relations: ECE weekly newsletter; and news, approximately 200 press releases and news per year; 2 press conferences on ECE activities.				
Digital platforms and multimedia content: ECE website; ECE Executive Committee, the gender equality and the technical cooperation activities websites; and news on ECE activities on four social media platforms.				

Evaluation activities

20.14 The following evaluations completed in 2024 have guided the proposed programme plan for 2026:

(a) Office of Internal Oversight Services synthesis review of evaluation results for regional economic commissions – contributions to economic development;

(b) ECE evaluation of regular budget activities on the United Nations Framework Classification for Resources and the United Nations Resource Management System for the period 2020–2023;

(c) Final evaluations of seven field and technical cooperation projects.

20.15 In response to the results of the evaluations referenced above, subprogramme 5, Sustainable energy, will deliver training events to further build capacity on the United Nations Framework Classification for Resources and the United Nations Resource Management System, issue a publication to further increase their visibility with both ECE and non-ECE member States, and launch projects to continue to develop, implement and disseminate them as part of the deliverables of subprogramme 5. The evaluations of field and technical cooperation projects informed the preparation of new such projects.

20.16 A programme-level evaluation of ECE data use and information management approaches during the period 2020–2025, which had previously been planned for 2025 but was deferred due to liquidity-related resource constraints, is planned for 2026.

Programme of work

Subprogramme 1
Environment

Objective

20.17 The objective, to which this subprogramme contributes, is to improve environmental governance and performance for safeguarding the environment and health.

Strategy

20.18 To contribute to the objective, the subprogramme will:

(a) Support the implementation of outcomes of global and regional summits and conferences, and support and promote the implementation of multilateral environmental agreements, contributing to achieving Sustainable Development Goals 3, 6, 9, 11 to 13 and 15 to 17, through policy dialogue, normative work, capacity-building and the dissemination of environmental information (e.g., through the Shared Environmental Information System), good practices and lessons learned in the areas of air quality, water, industrial safety, public participation, impact assessment, environmental monitoring and assessment, environmental performance, education for sustainable development, and the mainstreaming of environmental concerns into other dimensions of sustainable development;

(b) Support and promote the implementation of policy tools, including the ECE Environmental Performance Review Programme, contributing to achieving mainly Goals 6, 11 to 13 and 15; the ECE Environmental Monitoring and Assessment Programme, contributing to achieving mainly Goal 17; the ECE Strategy for Education for Sustainable Development, contributing to achieving Goals 4, 12 and 13; and the Transport, Health and Environment Pan-European Programme, contributing to achieving mainly Goals 3, 11, 13 and 17;

(c) Promote synergies among ECE multilateral environmental agreements;

(d) Conduct environmental performance reviews, assisting countries in the implementation of the recommendations from those reviews, and monitor the impact of the recommendations on national policies;

(e) Using a country needs-based approach, support countries, with a focus on the Caucasus, Central Asia and Eastern and South-Eastern Europe, in environmental policymaking, monitoring, assessment and management, including by providing an intergovernmental decision-making platform, organizing capacity-building activities and providing advisory services;

(f) Work with interested non-ECE countries, including those wishing to join the multilateral environmental agreements that are open to global accession;

(g) Support member States in addressing emerging issues related to the work of the subprogramme, including those resulting from international and regional processes by, among others, providing advisory support, developing policy packages and/or recommendations and supporting countries in the development of region-wide approaches to such emerging issues (e.g., on sustainable infrastructure), including ensuring effective and inclusive access to information, public participation in decision-making and access to justice.

20.19 The above-mentioned work is expected to result in:

(a) Improved environmental governance and performance;

(b) Strengthened integration of environmental concerns into member States' sectoral policies;

(c) More effective development and implementation of environmental legislation and policies;

(d) Improved response to environmental challenges;

(e) Enhanced participation, cross-border cooperation and effective international and national cooperation;

(f) Strengthened implementation of multilateral environmental commitments and increased geographical coverage.

Programme performance in 2024

Youth empowered to drive sustainable development

20.20 Building on the implementation framework of the ECE Strategy for Education for Sustainable Development from 2021 to 2030, in 2024 the Government of Cyprus hosted a forum on the theme "Empowering youth for sustainable futures: entrepreneurship education and youth engagement", in collaboration with ECE, the State Secretariat for Education, Research and Innovation of Switzerland and the United Nations Environment Programme. The forum, which featured several young leaders and entrepreneurs as speakers, addressed critical issues related to youth policy, education, empowerment and financing, underscoring the essential role of young people in driving sustainable development. The results of the discussions contributed to the Summit of the Future side event on the theme "Empowering youth for sustainable futures: intergenerational responsibility and skills for a just transition", which facilitated intergenerational dialogue between youth, national Governments, experts in sustainability and education and the United Nations on the role of education in sustainable development and ways to equip youth with essential skills that align with evolving job market demands in sustainability sectors.

20.21 Progress towards the objective is presented in the performance measure below (see table 20.2).

Table 20.2
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Member States adopted the implementation framework of the ECE Strategy for Education for Sustainable Development from 2021 to 2030	Enhanced capacity of one member State (Georgia) in implementing the fourth priority area, on entrepreneurship, employment, innovation and education for sustainable development, of the implementation framework of the ECE Strategy for Education for Sustainable Development from 2021 to 2030	Youth perspectives shape policy dialogues and inform recommendations, commitments and strategies for inclusive and sustainable development

Planned results for 2026

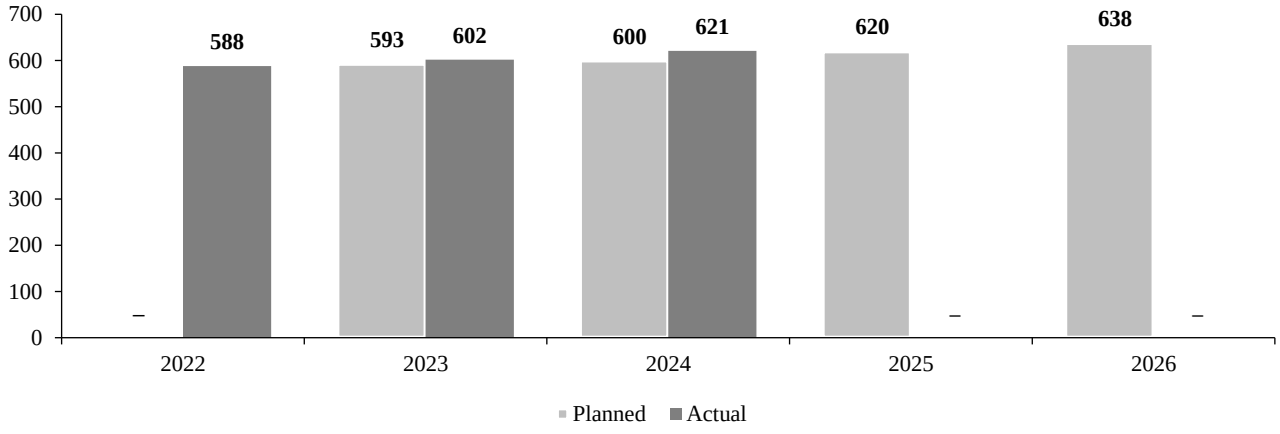
Result 1: increased number of United Nations Member States becoming Parties to multilateral environmental agreements serviced by the Economic Commission for Europe

Programme performance in 2024 and target for 2026

20.22 The subprogramme's work contributed to 621 instances of United Nations Member States becoming Parties to multilateral environmental agreements serviced by ECE, which exceeded the planned target of 600 Parties.

20.23 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 20.I).

Figure 20.I
Performance measure: number of Parties to multilateral environmental agreements serviced by the Economic Commission for Europe (cumulative)



Result 2: modernized database on pollutants to enable responsive fact-based decisions

Programme performance in 2024 and target for 2026

20.24 The subprogramme's work contributed to the draft decision on modernizing pollutant release and transfer registers being approved by the Working Group of the Parties to the Protocol on Pollutant Release and Transfer Registers, which met the planned target.

20.25 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 20.3).

Table 20.3
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Background material on modernizing pollutant release and transfer registers considered by the Working Group of the Parties to the Protocol on Pollutant Release and Transfer Registers	Draft decision on modernizing pollutant release and transfer registers agreed by the Protocol's Bureau	Draft decision on modernizing pollutant release and transfer registers approved by the Working Group of the Parties to the Protocol on Pollutant Release and Transfer Registers	Meeting of the Parties to the Protocol adopts a decision on modernizing pollutant release and transfer registers	Wide dissemination and continuous implementation of the decision on modernizing pollutant release and transfer registers by Parties and interested Member States

Result 3: strengthened pan-European environmental knowledge base for informed policymaking

Proposed programme plan for 2026

20.26 The series of pan-European environmental assessments provide up-to-date and policy-related information on the interactions between the environment and society and have been a consistent feature of the Environment for Europe process to date.

Lessons learned and planned change

20.27 The lesson for the subprogramme was that strengthening the environmental knowledge base in the region through environmental indicators and regular assessments can improve the understanding of the challenges the environment and society are and will be facing. In applying the lesson and in the context of the Tenth Environment for Europe Ministerial Conference, the subprogramme will further strengthen its approach to conducting environmental assessments and will include new indicators and up-to-date analysis as well as practical approaches to track and compare progress and inform policymaking. The subprogramme will also provide recommendations for action to prevent or reduce the implications for the environment and human health.

20.28 Expected progress towards the objective is presented in the performance measure below (see table 20.4).

Table 20.4
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	The Committee on Environmental Policy welcomed the progress made in elaborating the concept of the eighth pan-European environmental assessment	The Committee on Environmental Policy considers for approval indicators for the next assessment	The Committee on Environmental Policy considers the final draft of the eighth pan-European environmental assessment

Deliverables

20.29 Table 20.5 lists all deliverables of the subprogramme.

Table 20.5
Subprogramme 1: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**168**	**121**	**260**	**163**
1. The Committee on Environmental Policy and subsidiary bodies	16	16	20	20

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
11. The Conference of the Parties to the Convention on the Transboundary Effects of Industrial Accidents and subsidiary bodies	15	24	19	18
12. The Executive Body for the Convention on Long-range Transboundary Air Pollution and subsidiary bodies	27	23	23	21
13. The Parties to the Convention on Environmental Impact Assessment in a Transboundary Context and subsidiary bodies and the Parties to the Convention serving as the Meeting of the Parties to the Protocol on Strategic Environmental Assessment to the Convention on Environmental Impact Assessment in a Transboundary Context and subsidiary bodies	34	33	34	34
14. The Parties to the Convention on Access to Information, Public Participation in Decision-Making and Access to Justice in Environmental Matters and subsidiary bodies and the Parties to the Protocol on Pollutant Release and Transfer Register and subsidiary bodies	65	60	84	64
15. The High-level Meeting on Transport, Health and Environment and subsidiary bodies	2	2	2	2
16. The Steering Committee on Education for Sustainable Development	6	6	6	6
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	**30**	**92**	**32**	**39**
17. Workshops on environmental issues for government officials and other stakeholders in the ECE region to improve environmental governance and performance	30	92	32	39
Publications (number of publications)	**18**	**6**	**9**	**12**
18. On environmental issues and multilateral environmental agreements administered by the subprogramme	10	1	7	9
19. Progress reports and performance reviews on environmental issues	7	5	2	2
20. Multilateral environmental agreements administered by the subprogramme	1	–	–	1
C. Substantive deliverables				
Consultation, advice and advocacy: advisory services for some 100 government officials and other stakeholders of States participating in the United Nations Special Programme for the Economies of Central Asia on water, energy and other environmental issues.				
D. Communication deliverables				
Outreach programmes, special events and information materials: environmental performance review highlights.				
External and media relations: press releases on environmental issues.				
Digital platforms and multimedia content: website of the subprogramme.				

Subprogramme 2
Transport

Objective

20.30 The objective, to which this subprogramme contributes, is to advance an intraregionally and interregionally sustainable inland transport (road, rail, inland waterway and intermodality) system by making it safer, cleaner, more efficient, more inclusive and more affordable, both for freight transport and people's mobility.

Strategy

20.31 To contribute to the objective, the subprogramme will:

(a) Service the Inland Transport Committee and its 21 working parties and 13 administrative committees, as well as the Committee of Experts on the Transport of Dangerous Goods and on

the Globally Harmonized System of Classification and Labelling of Chemicals of the Economic and Social Council and more than 50 formal and informal expert networks, accounting for the central role of the Inland Transport Committee in leading and coordinating its subsidiary bodies and its extended interregional geographical scope (following the endorsement of the Committee's revised terms of reference by the Council in 2022), and promote the achievement of the objectives of the Committee's strategy until 2030 and its Strategy on Reducing Greenhouse Gas Emissions from Inland Transport;

(b) Administer the international regulatory framework for inland transport, which includes 61 United Nations legal instruments on safety, pollution, efficiency, multimodality and effectiveness, and ensure that the regulatory functions of the Inland Transport Committee are up to date with current technologies and transport innovations – such as intelligent transport systems, autonomous vehicles, digitization of customs and transport documents, and electric vehicles – and all legal instruments are open to all United Nations Member States, as appropriate, by developing new and updating existing legal instruments, as necessary, including maintaining the database of international regulatory frameworks for inland transport;

(c) Provide an intergovernmental policy dialogue platform at the annual sessions of the Inland Transport Committee to review emerging challenges and emergency situations; support consensus-building in favour of regional and interregional connectivity, and climate change mitigation and adaptation, among other matters, including through the adoption of strategies, action plans, high-level statements or resolutions on harmonized actions by member States and Contracting Parties in order to enable the full implementation of the Committee's mandate;

(d) Analyse and provide technical assistance and capacity-building on accession to and implementation of legal instruments, at the request of member States and Contracting Parties within and beyond the region;

(e) Facilitate global improvements in road safety, through policy dialogue and by contributing to the work of the Special Envoy of the Secretary-General for Road Safety and the operation of the United Nations Road Safety Fund, in cooperation with other international organizations, and provide capacity-building and advisory assistance with regard to promoting legal instruments, calls for proposals and other related activities, as appropriate;

(f) Support the efforts of member States to respond to and recover from emergency situations, including pandemics, and foster the functioning and development of national, regional and international inclusive transport systems and the implementation of the sustainable development agenda;

(g) Promote knowledge-sharing and cooperation among Governments and key stakeholders, raise awareness of emerging issues and best responses, contribute to the improved monitoring and measuring of the Sustainable Development Goals, facilitate the adaptation of legally binding instruments and frameworks to new realities, and prepare new guidance materials.

20.32 The above-mentioned work is expected to contribute to the achievement of Goals 3, 5, 6 to 9 and 11 to 13 and result in:

(a) Improvements in sustainable mobility, and in monitoring and measuring the Goals;

(b) Safer, cleaner, more efficient, more inclusive and more affordable multimodal inland transport systems for Contracting Parties to the United Nations inland transport conventions;

(c) Enhanced efforts towards net-zero emissions by 2050, guided by a strategy for reducing greenhouse gas emissions in inland transport;

(d) More efficient and resilient cross-border flows of goods and people regionally and globally;

(e) Enhanced intergovernmental cooperation in emergency situations and minimized disruptions to the continued implementation and updating of United Nations inland transport conventions.

Programme performance in 2024

Enhanced intergovernmental cooperation to accelerate the reduction of greenhouse gas emissions from inland transport

20.33 Inland transport is responsible for 72 per cent of the transport sector's total emissions,[1] driven primarily by road transport. In 2024, the Inland Transport Committee adopted its Strategy on Reducing Greenhouse Gas Emissions from Inland Transport, to support the sector to take urgent climate action and align its climate change mitigation strategies with those for civil aviation by the International Civil Aviation Organization and maritime transport by the International Maritime Organization. The subprogramme prepared a draft strategy with inputs from the Committee's working parties and coordinated intergovernmental negotiations during 2023 and 2024, which resulted in its adoption by the Committee at its eighty-sixth session (ECE/TRANS/344, annex I).

20.34 Progress towards the objective is presented in the performance measure below (see table 20.6).

Table 20.6
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	The Inland Transport Committee mandated the development of an ambitious strategy document for reducing greenhouse gas emissions from inland transport	The Inland Transport Committee adopted its Strategy on Reducing Greenhouse Gas Emissions from Inland Transport

Planned results for 2026

Result 1: increased number of new and updated legal instruments strengthening the capacity of United Nations Member States to address climate change

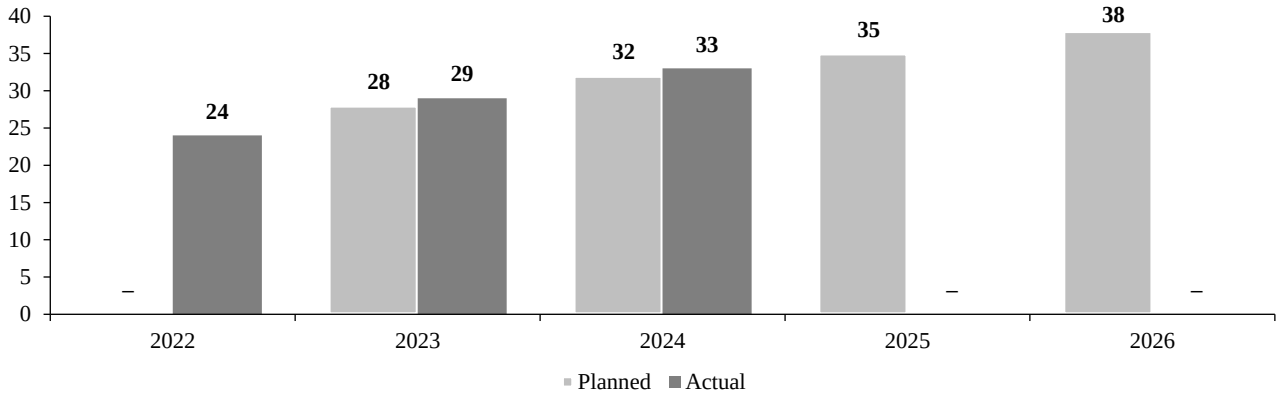
Programme performance in 2024 and target for 2026

20.35 The subprogramme's work contributed to 33 new and updated inland transport legal instruments under ECE purview entering into force, thereby improving the climate performance of the transport sector, which exceeded the planned target of 32.

20.36 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 20.II).

[1] Intergovernmental Panel on Climate Change, *Climate Change 2022: Mitigation of Climate Change – Contribution of Working Group III to the Sixth Assessment Report of the Intergovernmental Panel on Climate Change* (2022), p. 1,056.

Figure 20.II
Performance measure: number of new and updated United Nations legal instruments under ECE purview, entering into force annually and improving the climate performance of the transport sector (cumulative)



Note: The figure reflects data since the adoption of the Paris Agreement in 2015; the actual number for 2023 and the planned number for 2025 have been revised to reflect the most up-to-date information.

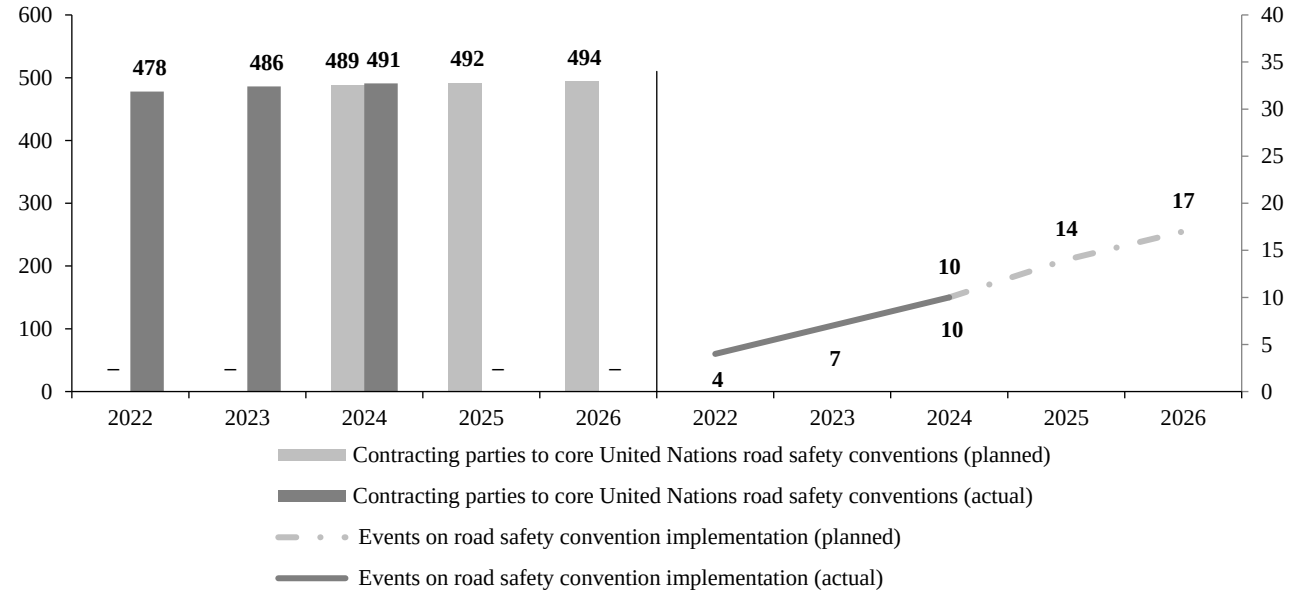
Result 2: increased accessions to core road safety conventions as an initial step to contribute to fewer worldwide road accident fatalities and injuries

Programme performance in 2024 and target for 2026

20.37 The subprogramme's work contributed to 491 accessions to core United Nations road safety conventions and 10 events on road safety convention implementation, which met the planned target.

20.38 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 20.III).

Figure 20.III
Performance measure: number of Contracting Parties to core United Nations road safety conventions and number of events during which member States share challenges and good practices on road safety convention implementation (cumulative)



Result 3: enhanced regulatory framework for sustainable inland transport systems

Proposed programme plan for 2026

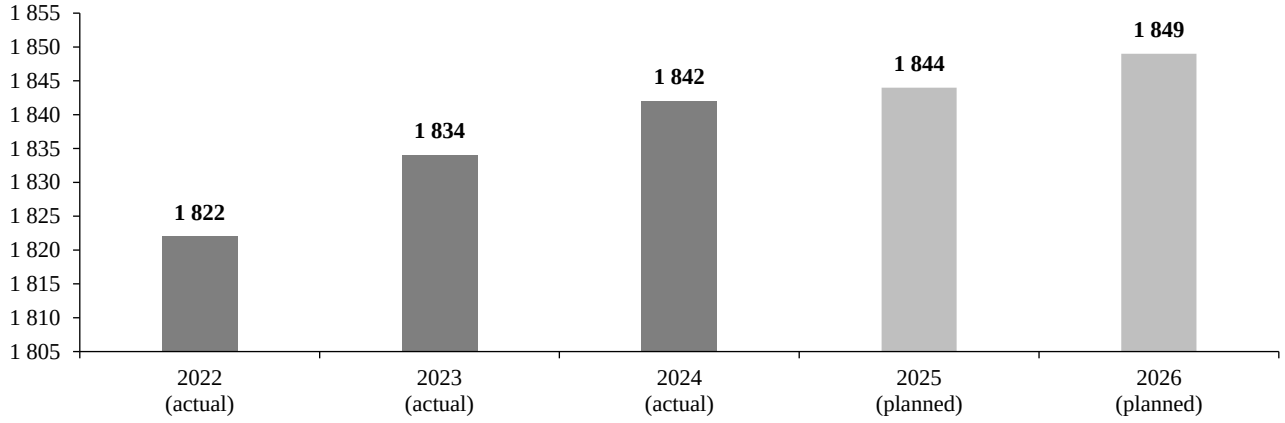
20.39 The subprogramme's work on enhancing the regulatory framework in recent years has led to the development of updates to legal instruments, policy advice and recommendations to support the efforts of member States and Contracting Parties to further develop sustainable inland transport systems within and outside the region.

Lessons learned and planned change

20.40 The lesson for the subprogramme was that its approach and focus need to be better aligned with the growing demand of member States and the potential for expanding the geographical scope. In applying the lesson, the subprogramme will scale up its efforts to support the development of sustainable inland transport systems in the region and internationally, improve their environmental performance (as a means to facilitate the circular economy and the sustainable use of natural resources) and reduce emissions, and enhance efficiency, connectivity and accessibility for all, including persons with disabilities, through the digitization of documents and procedures and the promotion of automated vehicles. The subprogramme will also enhance its regulatory support for the implementation of the Inland Transport Committee's strategy until 2030 and its Strategy on Reducing Greenhouse Gas Emissions from Inland Transport by developing tools, analysing trends and challenges and encouraging greater participation of States from outside the region.

20.41 Expected progress towards the objective is presented in the performance measure below (see figure 20.IV).

Figure 20.IV
Performance measure: number of Contracting Parties to United Nations legal instruments on transport administered by the Economic Commission for Europe (cumulative)



Deliverables

20.42 Table 20.7 lists all deliverables of the subprogramme.

Table 20.7

15. On statistics	1	1	1	1
16. On border crossing facilitation	1	1	1	1
Technical materials (number of materials)	**2**	**1**	**2**	**2**
17. Recommendations for performance evaluation of automated driving systems	1	–	1	1
18. Transport statistics – country profiles	1	1	1	1

C. Substantive deliverables

Consultation, advice and advocacy: advisory services for Contracting Parties of United Nations transport conventions administered by ECE on legal instruments relating to inland transport, facilitation of transport, border crossing, road safety, vehicle construction, and transport of dangerous goods and other special cargo.

Databases and substantive digital materials: the International TIR Data Bank for users from more than 70 Contracting Parties of the TIR Convention; TIR and eTIR portals; the eTIR international system; the International Transport Infrastructure Observatory; the Sustainable Inland Transport Connectivity Indicators online user platform; database of main standards and parameters of the E waterway network; inventory of existing European Agreement on Main International Railway Lines and European Agreement on Important International Combined Transport Lines and Related Installations standards and parameters; databases on transport statistics, road traffic accidents, transport of dangerous goods, transport of perishable foodstuffs, urban transport and transport and environment; Rail Security Observatory; digitized signs and signals (E-CoRSS) under the Convention on Road Signs and Signals; and smart and sustainable connectivity e-learning platform.

D. Communication deliverables

Outreach programmes, special events and information materials: information materials, including brochures on legal instruments and activities of the subprogramme for global and regional access.

External and media relations: press releases for the subprogramme.

Digital platforms and multimedia content: Learn ITC and other digital platforms and multimedia content on sustainable transport and mobility; and website of the subprogramme.

Subprogramme 3
Statistics

Objective

20.43 The objective, to which this subprogramme contributes, is to advance official statistics at the national and international levels for evidence-based policymaking and assessing progress towards achieving the Sustainable Development Goals and to ensure the coordination of statistical activities in the ECE region under the Conference of European Statisticians.

Strategy

20.44 The strategy of the subprogramme is guided by the priorities and needs of member States and is based on the core interlinked functions: the streamlining of international statistical work in the ECE region through policy dialogue; methodological work to develop and promote guidelines and recommendations to enhance the quality of statistics; and the statistical capacity development of ECE member States with less developed statistical systems.

20.45 To contribute to the objective, the subprogramme will:

(a) Promote in-depth statistical dialogue at the Conference of European Statisticians and expert meetings;

(b) Launch regional and country-specific initiatives related to methodological work to develop and disseminate statistical models, guidelines and recommendations to enhance the quality of statistics, to support modernization of national statistical offices and their changing role to become data stewards, and to promote the use of official statistics;

(c) Maintain and develop the ECE statistical database;

(d) Establish and strengthen partnerships between geospatial experts and statisticians to support the integration of statistical and geospatial information, in cooperation with statistical departments of other regional entities, as well as international specialized agencies active in the region;

(e) Facilitate the exchange of experiences and good practices in population and housing censuses, price statistics and environment statistics, allowing for improved timeliness and granularity of official statistics;

(f) Provide support to countries in planning and conducting their census and developing their statistical capacity, including cross-cutting topics such as statistics for the Sustainable Development Goals, statistical legislation, data collection, integration and dissemination, and human resource management.

20.46 The above-mentioned work is expected to result in:

(a) Improved statistical methodology and capacity of member States to measure and monitor the Sustainable Development Goals;

(b) Member States using innovative and efficient approaches to conducting censuses that result in the improved cost-efficiency, coverage, accuracy, comparability and timeliness of dissemination of the census results;

(c) Improved capacity by member States to provide the statistics necessary to develop evidence-based policies to advance progress against the Goals.

Programme performance in 2024

More efficient population and housing censuses

20.47 Population and housing censuses provide the baseline information used to plan public infrastructure and services, and to produce Sustainable Development Goal indicators and many other statistics where population is the denominator. The subprogramme supports countries in preparing for, conducting, processing and disseminating data from their population and housing censuses. To help to support more efficient census-taking using administrative sources, the regional census recommendations for the 2020 round (2015) were accompanied by the *Guidelines on the Use of Registers and Administrative Data for Population and Housing Censuses* (2018) and the *Guidelines for Assessing the Quality of Administrative Sources for Use in Censuses* (2021).

20.48 Progress towards the objective is presented in the performance measure below (see table 20.8).

Table 20.8
Performance measure: number of member States that have used data from administrative sources for their census

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	At the conclusion of the 2020 census round (2015–2024), 31 member States used data from administrative sources for their census in the 2020 round, compared to 19 countries in the previous (2010) round

Planned results for 2026

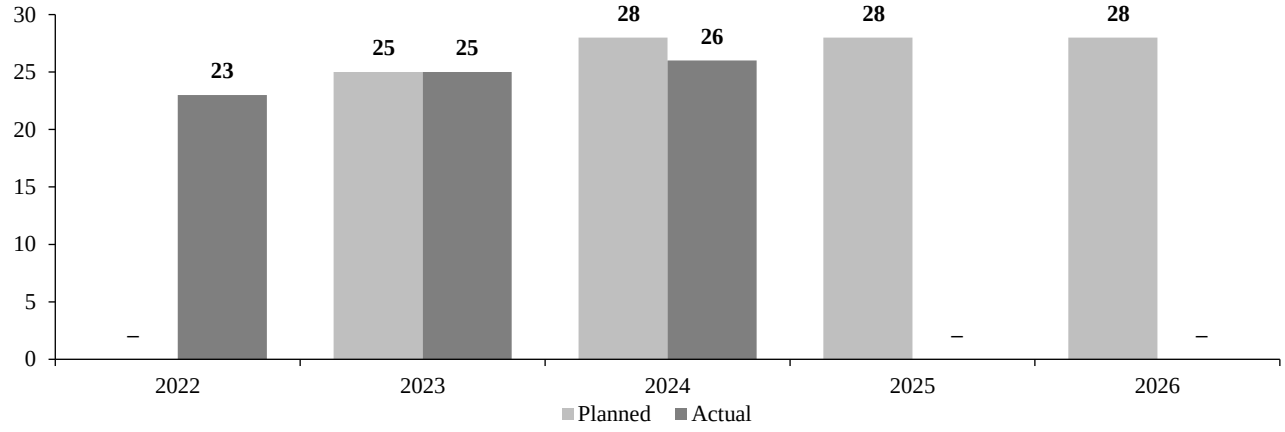
Result 1: improved environmental statistics and indicators in the Economic Commission for Europe region

Programme performance in 2024 and target for 2026

20.49 The subprogramme's work contributed to 26 member States actively improving environmental statistics and indicators by participating in the Joint Task Force on Environmental Statistics and Indicators, which did not meet the planned target of 28 member States for 2024. The target was not met due to limitations to organizing hybrid meetings which would have enabled more countries to attend.

20.50 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 20.V).

Figure 20.V
Performance measure: number of countries improving environmental statistics and indicators through the Joint Task Force on Environmental Statistics and Indicators (annual)



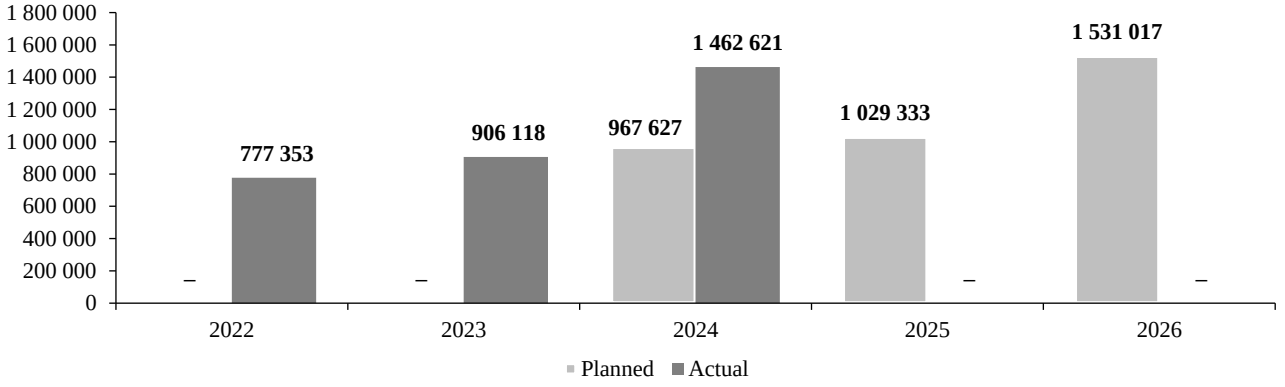
Result 2: Economic Commission for Europe statistical database for improved research and decision-making

Programme performance in 2024 and target for 2026

20.51 The subprogramme's work contributed to 1,462,621 downloads from the ECE statistical database, which exceeded the planned target of 967,627.

20.52 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 20.VI).

Figure 20.VI
Performance measure: number of downloads from the Economic Commission for Europe statistical database (annual)



Result 3: improved reporting for monitoring the Sustainable Development Goals

Proposed programme plan for 2026

20.53 The availability of indicators for monitoring the Goals supports decision-making and resource allocation by member States. The subprogramme supports national statistical offices to facilitate country-led reporting of statistics for the Goals, by developing guidance and tools for assessing progress and data availability, analysing the lessons that national statistical offices have learned from

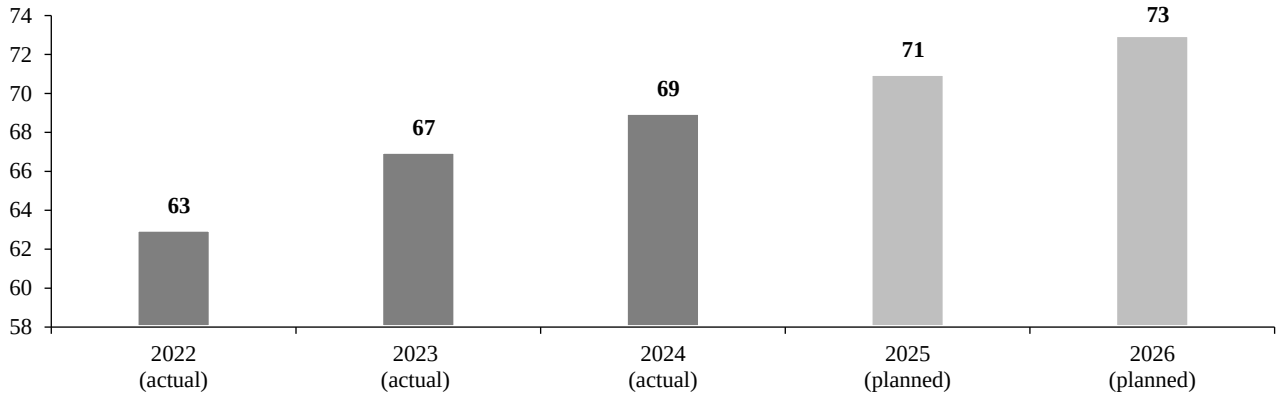
this process, and developing training material. ECE also continues to enhance its regional platform for data on these indicators and maintain a knowledge hub on statistics for the Sustainable Development Goals.

Lessons learned and planned change

20.54 The lesson for the subprogramme was that strong engagement of national experts in the development of international guidance and tools can strengthen their uptake at the national level and thereby the production of Sustainable Development Goal indicators. In applying the lesson, the subprogramme will enhance the engagement of national experts, including by facilitating peer exchanges of experience and providing self-assessment tools to assess gaps and potential improvements of data reported on the Goal indicators.

20.55 Expected progress towards the objective is presented in the performance measure below (see figure 20.VII).

Figure 20.VII
Performance measure: percentage of Sustainable Development Goal indicators that have sufficient data for assessing progress at the level of the Economic Commission for Europe region (annual)



Deliverables

20.56 Table 20.9 lists all deliverables of the subprogramme.

Table 20.9
Subprogramme 3: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**69**	**67**	**69**	**69**
1. Documentation for the Conference of European Statisticians	43	42	43	43
2. Documentation for groups of experts on statistical issues	26	25	26	26
Substantive services for meetings (number of three-hour meetings)	**85**	**84**	**85**	**85**
3. Meetings of the Conference of European Statisticians and its Bureau	13	12	13	13
4. Meetings of groups of experts on statistical issues	72	72	72	72
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**1**	**–**	**–**	**–**
5. On social and economic statistics	1	–	–	–

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
Seminars, workshops and training events (number of days)	**6**	**6**	**7**	**7**
6. Workshops on social and economic statistics	3	3	4	4
7. Workshops on innovating statistical production	3	3	3	3
Publications (number of publications)	**7**	**4**	**7**	**7**
8. On topics covering multiple statistical areas, including social, environmental and economic statistics	7	4	7	7

C. Substantive deliverables

Consultation, advice and advocacy: advisory services for more than 100 government officials and other stakeholders of up to four programme countries in the ECE region on economic, social, demographic and environment statistics, statistics for the Sustainable Development Goals, geospatial statistics and institutional issues and modernization of official statistics.

Databases and substantive digital materials: maintaining five ECE data domains.

D. Communication deliverables

External and media relations: articles for the "UNECE Weekly" and "EnvStats" newsletters for regional access.

Digital platforms and multimedia content: interactive digital workspaces and online presence on social media platforms; and website of the subprogramme.

Subprogramme 4
Economic cooperation and integration

Objective

20.57 The objective, to which this subprogramme contributes, is to strengthen policies on innovation, competitiveness and public-private partnerships for sustainable development in the ECE region.

Strategy

20.58 The strategy of the subprogramme is based on the implementation of three core interlinked functions in the subprogramme's two areas of work (innovation and competitiveness policies; and public-private partnerships): international policy dialogue; normative and analytical work; and capacity-building and the sharing of best practices and lessons learned.

20.59 To contribute to the objective, the subprogramme will:

(a) Support member States in creating a conducive business environment by developing good practices to inform innovation policy reforms in order to drive sustainable development, including through on-demand analyses of national innovation systems, policies and institutions; and through capacity-building workshops and seminars at the national and subregional levels;

(b) Build the capacity of member States in creating regulatory frameworks and public-private partnership project pipelines that can help to close the Sustainable Development Goals infrastructure financing gap, including through:

(i) The promotion of innovative modalities for financing, developing and managing critical infrastructure;

(ii) The development of international guidelines and standards to design public-private partnership projects and legal and regulatory frameworks;

(iii) The use, on demand, of a methodology to evaluate and score public-private partnership projects in support of sustainable development;

(iv) Cooperation with multilateral platforms for sustainable infrastructure (including SOURCE);[2]

(c) Focus some of its policy dialogues, analyses and recommendations, standards and capacity-building on addressing economic challenges through innovation policies and public-private partnership infrastructure projects that can facilitate innovation and develop infrastructure to make economies more resilient and sustainable.

20.60 The above-mentioned work will help member States to make progress towards achieving Sustainable Development Goals 8, 9, 12 and 17 and is expected to result in:

(a) Improved innovation-related policies and institutions for sustainable development;

(b) The improved design and operation of public-private partnerships that contribute to sustainable development projects.

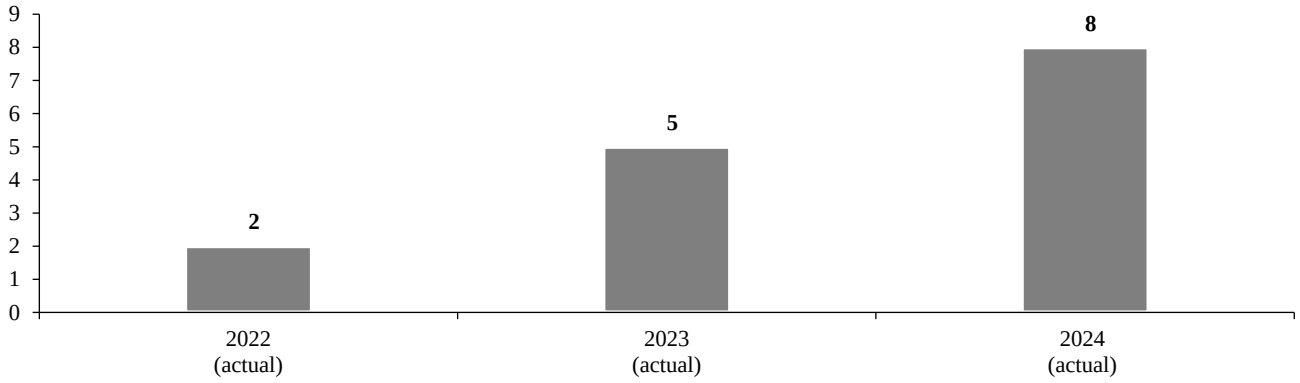
Programme performance in 2024

Member States equipped to develop infrastructure projects in support of the Goals

20.61 In 2021, the subprogramme developed the Public-Private Partnerships and Infrastructure Evaluation and Rating System (PIERS) for member States to self-assess infrastructure projects. The methodology enables member States to assess public-private partnerships for infrastructure on their contributions to the Goals against the backdrop of the three pillars of sustainable development (economic, environmental and social) by providing valuable insights on their sustainability and ways to improve it. Subsequently, the subprogramme built institutional and human capacities in requesting member States to utilize PIERS to develop infrastructure projects that are not only bankable but also sustainable. As of 2024, the work resulted in eight member States having the proficiency to utilize the PIERS methodology to ensure that public-private partnerships contribute to the Goals and remain attractive to potential investors.

20.62 Progress towards the objective is presented in the performance measure below (see figure 20.VIII).

Figure 20.VIII
Performance measure: number of United Nations Member States that are proficient in the use of the Public-Private Partnerships and Infrastructure Evaluation and Rating System methodology to ensure that public-private partnerships contribute to the Goals and are attractive to potential investors (cumulative)



[2] SOURCE is the multilateral platform for sustainable infrastructure.

Planned results for 2026

Result 1: ECE member States implement transformative innovation policies and good practices for sustainable development

Programme performance in 2024 and target for 2026

20.63 The subprogramme's work contributed to four member States (Georgia, Montenegro, Sweden and Uzbekistan) undertaking reforms or other initiatives to enhance and improve support for transformative innovation, including new governmental strategies, laws and action plans, which exceeded the planned target of three member States.

20.64 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 20.10).

Table 20.10
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Member States endorsed the establishment of an ECE transformative innovation network of innovation agencies	Member States endorsed an additional 10 good practices on transformative innovation policy	Four member States (Georgia, Montenegro, Sweden and Uzbekistan) implemented policies and good practices to stimulate transformative innovation for sustainable development	At least three additional member States implement policies and good practices to stimulate transformative innovation for sustainable development	At least four additional member States implement policies and good practices to stimulate transformative innovation for sustainable development

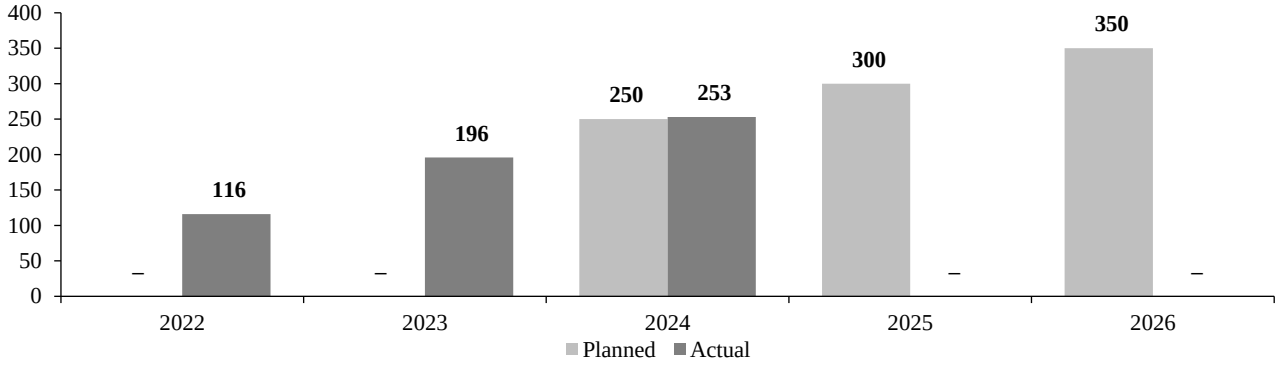
Result 2: more public-private partnership infrastructure projects assessed as compliant with the Sustainable Development Goals

Programme performance in 2024 and target for 2026

20.65 The subprogramme's work contributed to a cumulative total of 253 public-private partnership infrastructure projects having been assessed as Sustainable Development Goal-compliant using the PIERS methodology, which exceeded the planned target of 250 public-private partnership infrastructure projects.

20.66 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 20.IX).

Figure 20.IX
Performance measure: number of public-private partnership infrastructure projects assessed as Sustainable Development Goal-compliant using the Public-Private Partnerships and Infrastructure Evaluation and Rating System methodology (cumulative)



Result 3: improved innovation policies and initiatives for sustainable development

Proposed programme plan for 2026

20.67 The subprogramme has supported requesting ECE programme countries with in-depth analyses of their innovation policies, resulting in detailed recommendations for policy reforms, with tailored training programmes to build capacity.

Lessons learned and planned change

20.68 The lesson for the subprogramme was twofold: (a) there is a need to meet the increasing demand for innovation policy analysis, advice and capacity-building; and (b) even in the countries covered, the full potential of innovation to deliver breakthroughs for a better and more sustainable future remains underdeveloped. In applying the lesson, the subprogramme will support additional programme countries in the region with innovation policy analysis, advice and capacity-building and will further tailor the provision of technical assistance to programme countries, to enable them to implement relevant actions and decisions contained in the Pact for the Future.

20.69 Expected progress towards the objective is presented in the performance measure below (see table 20.11).

Table 20.11
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Seven ECE programme countries implemented policy reforms supporting innovation for sustainable development	The report entitled *Sustainable Development in the ECE Region: Facing a Headwind in 2024* found insufficient progress by member States on most Sustainable Development Goals and targets, including on innovation (Goal 9)	At least 50 policymakers and other innovation stakeholders improve their innovation policy capacities	At least 50 additional policymakers and other innovation stakeholders improve their innovation policy capacities

Deliverables

20.70 Table 20.12 lists all deliverables of the subprogramme.

Table 20.12
Subprogramme 4: deliverables for the period 2024–2026, by category and subcategory

10. Fact-finding missions for Innovation for Sustainable Development Reviews and public-private partnership needs assessments	3	2	3	3
C. Substantive deliverables:				
Consultation, advice and advocacy: advisory services under the Working Party on Public-Private Partnership and the Team of Specialists on Innovation and Competitiveness Policies reaching 30 government ministries and agencies and stakeholder entities.				
Databases and substantive digital materials: database of public-private partnership case studies from approximately 15 member States.				
D. Communication deliverables:				
External and media relations: press releases and launch events for the above publications for regional, subregional and national access.				
Digital platforms and multimedia content: website of the subprogramme.				

Subprogramme 5
Sustainable energy

Objective

20.71 The objective, to which this subprogramme contributes, is to ensure secure access to affordable, reliable, sustainable and modern energy for all and to reduce greenhouse gas emissions and the carbon footprint of the energy sector in the region.

Strategy

20.72 To contribute to the objective, the subprogramme will support international policy dialogue and cooperation among Governments, energy industries and other stakeholders to foster sustainable energy development; develop and deploy ECE policy recommendations, norms, standards, guidelines and tools on energy-related issues; and provide capacity-building and assistance to member States, at their request, through training programmes, advisory services and technical cooperation projects. Through its work, the subprogramme will contribute to ECE work on cross-sectoral collaboration areas and priorities relating to the circular economy. Specifically, the subprogramme will:

(a) Further develop normative instruments (such as best practices and principles), awareness-raising campaigns and the deployment of ECE tools through workshops, seminars and technical projects to assist member States to meet their commitments to the 2030 Agenda and the Paris Agreement with regard to reducing their environmental footprint related to energy, accelerating the deep transformation of the energy sector to meet future needs, ensuring the sustainable management of resources and assessing options to ensure energy for sustainable development;

(b) Promote policy dialogue and cooperation among member States, regional entities and other partners on sustainable energy issues;

(c) Provide technical assistance and guidance on energy transitions in the context of sustainable development, disseminate best practices and improve information-sharing;

(d) Promote collaboration among private and public stakeholders that are key to implementing national and regional policies, including with regard to normative instruments and their deployment and dissemination;

(e) Coordinate and promote efforts related to energy resilience across the ECE region and continue shaping the Platform on Resilient Energy Systems for inclusive dialogue and informed policymaking;

(f) Explore and increase understanding on energy-related climate financing in the region, including policies and mechanisms for increasing financing for low- and zero-carbon technologies, the critical raw materials needed for low-carbon and low-emissions transformations and sustainable infrastructure projects;

(g) Support countries across the region in applying the United Nations Framework Classification for Resources and the United Nations Resource Management System to ensure sustainable development of their natural resources, including access to and development of critical raw materials;

(h) Support ECE member States in enhancing their understanding of the benefits of low- and zero-carbon technology interplay for more resilient energy systems across the ECE region by deploying the ECE Carbon Neutrality Toolkit while periodically verifying and updating data;

(i) Support ECE member States in broadening and accelerating the deployment of energy efficiency measures across buildings, industry, transport and other end-use sectors while embracing sector-wide digitalization;

(j) Support and guide ECE member States in their efforts to accurately measure and report methane emissions from the energy sector and the related extractive industries, and to effectively mitigate those emissions by detecting and repairing leaks from the installed infrastructure and by capturing and destroying or utilizing gas from active, closed and abandoned coal mines;

(k) Support ECE member States in embracing the concept of "just transition", being an integrated approach to sustainable development, which brings together social progress, environmental protection and economic success into a framework of democratic governance; and increase ECE member States' understanding of that concept and its complexity and improve their capacity to plan and implement transformation strategies in accordance with its principles.

20.73 The above-mentioned work is expected to contribute to the achievement of Sustainable Development Goals 7, 12 and 13 and result in:

(a) More effective integration of sustainable energy across national policies and normative frameworks in support of the 2030 Agenda and the Paris Agreement;

(b) Enhanced dialogue and cooperation among energy actors to boost transformational investment in the energy sector and, consequently, accelerate the modernization of the energy system to meet countries' sustainable development and climate commitments;

(c) Improved access of member States to frameworks and tools required for integrated and sustainable resource management and governance that aid the progress towards a more circular economy and contribute to the food-water-energy nexus, fostering equitable and responsible resource management on a global scale;

(d) Increased systemic efficiencies and digitalization of energy system networks;

(e) Increased understanding and implementation of climate-friendly policies and mechanisms by member States, which are aimed at addressing issues such as financing for low- and zero-carbon technologies and sustainable infrastructure, and critical raw materials needed for such transformations;

(f) Improved capacity of ECE member States to design and implement policies setting up effective mechanisms for accurate measurement and reporting of methane emissions from the energy sector and the related extractive industries, as well as for their effective mitigation;

(g) Improved understanding of a "just transition" approach and increased capacity of ECE member States for its effective application in the context of national energy transition strategies, at both the planning and the implementation stages.

Programme performance in 2024

Member States commit to reducing methane emissions

20.74 To mobilize action for reducing methane emissions, the subprogramme co-organized the Global Methane Forum 2024. The event brought together over 800 decision makers, practitioners and experts from over 50 Member States. The subprogramme, taking into account Economic and Social Council resolution 2023/18, also provided Member States with guidance on setting up national monitoring, reporting and verification programmes, which are necessary to properly assess the scale of methane emissions and identify opportunities for mitigation. Six online and seven on-site capacity-building events were organized to disseminate best practices, facilitate knowledge transfer and cooperation and advocate for the importance of methane mitigation. The advocacy and technical guidance provided by the subprogramme contributed to two additional ECE member States (Azerbaijan and Tajikistan) joining the Global Methane Pledge and enabled eight United Nations Member States to develop and present road maps for reducing methane emissions.

20.75 Progress towards the objective is presented in the performance measure below (see table 20.13).

Table 20.13
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	In its resolution 2023/18, the Economic and Social Council invited Member States, international organizations and the regional commissions to consider the possibility of taking appropriate measures to ensure the application of the Best Practice Guidance for Effective Management of Coal Mine Methane at National Level: Monitoring, Reporting, Verification and Mitigation worldwide	Eight Member States presented road maps for reducing methane emissions
	Kazakhstan and Turkmenistan joined the Global Methane Pledge	Azerbaijan and Tajikistan joined the Global Methane Pledge

Planned results for 2026

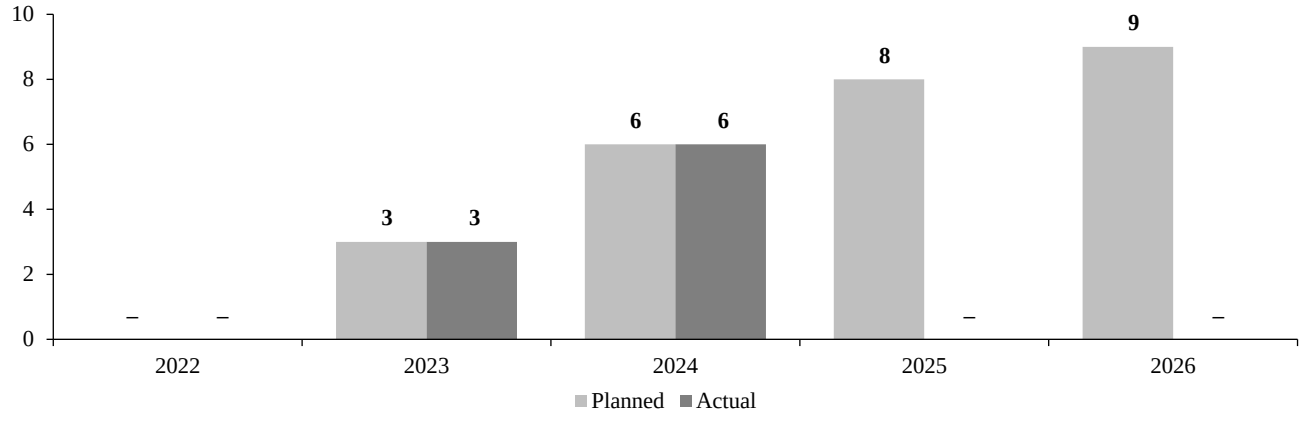
Result 1: enhanced resilience of energy systems in the Economic Commission for Europe region

Programme performance in 2024 and target for 2026

20.76 The subprogramme's work contributed to the application by six member States of mechanisms developed by ECE to enhance the resilience of energy systems, which met the planned target.

20.77 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 20.X).

Figure 20.X
Performance measure: number of member States using Economic Commission for Europe mechanisms to enhance the resilience of energy systems in the Economic Commission for Europe region (cumulative)



Result 2: more sustainable and resilient natural resource management based on the United Nations Framework Classification for Resources

Programme performance in 2024 and target for 2026

20.78 The subprogramme's work contributed to the establishment of two additional International Centres of Excellence on Sustainable Resource Management and five countries adopting the United Nations Framework Classification for Resources guidelines, which met the planned target.

20.79 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 20.14).

Table 20.14
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
International Centre of Excellence on Sustainable Resource Management established in Mexico to deploy the United Nations Framework Classification for Resources in Latin America African Union Heads of State endorsed adoption of the United Nations Framework Classification for Resources and United Nations Resource Management System as African Minerals and Energy Resources Classification and Management System Two bridging documents between the United Nations Framework Classification for Resources and China's mineral and petroleum classifications developed and endorsed	United Nations Framework Classification for Resources included in European Union's Critical Raw Materials Act One bridging document between the United Nations Framework Classification for Resources and the Russian Federation's petroleum classification updated and endorsed	Two additional International Centres of Excellence on Sustainable Resource Management established Five countries adopted the United Nations Framework Classification for Resources guidelines	Five additional countries adopt the United Nations Framework Classification for Resources guidelines Ten Member States provide input to the United Nations Framework Classification for Resources knowledge hub	Three additional International Centres of Excellence on Sustainable Resource Management established Five additional Member States provide input to the United Nations Framework Classification for Resources knowledge hub

Result 3: increased adoption of electric mobility for a sustainable energy transition

Proposed programme plan for 2026

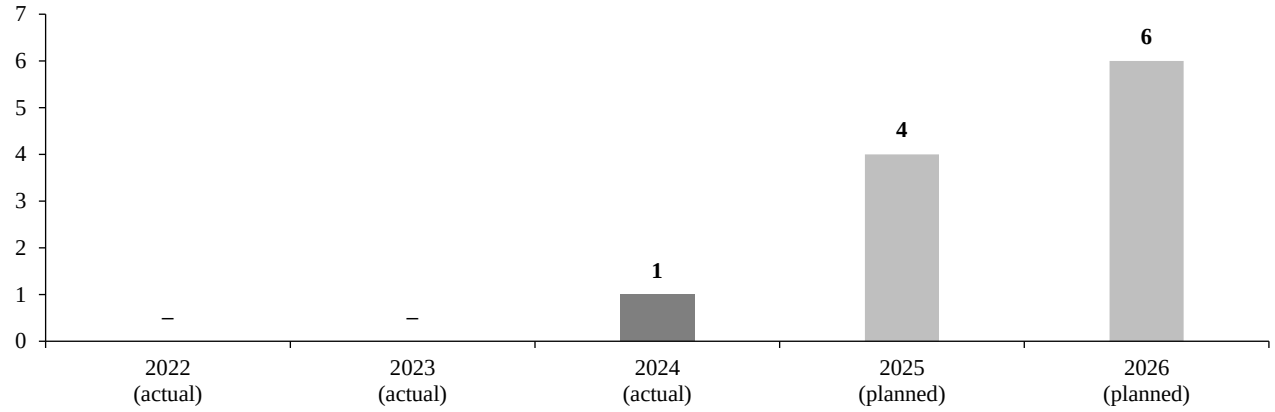
20.80 E-mobility adoption can accelerate the transition from fossil fuels to renewable energy sources in transportation, reducing carbon emissions and promoting more resilient energy systems. The subprogramme provides technical assistance to Member States to improve capacity for e-mobility adoption and enhance the expertise of policymakers in supporting the adoption of electric vehicles for the energy transition.

Lessons learned and planned change

20.81 The lesson learned for the subprogramme was that there is increased demand from Member States for technical assistance related to increasing challenges related to infrastructure, energy management and integration into the grid associated with the rapid growth in e-mobility. In applying the lesson, the subprogramme will organize workshops and dialogues on supporting e-mobility adoption and sharing best practices on the integration of e-mobility into energy systems.

20.82 Expected progress towards the objective is presented in the performance measure below (see figure 20.XI).

Figure 20.XI
Performance measure: number of Member States adopting e-mobility policies that apply Economic Commission for Europe recommendations on best practices for the integration of e-mobility into energy systems (cumulative)



Deliverables

20.83 Table 20.15 lists all deliverables of the subprogramme.

Table 20.15
Subprogramme 5: deliverables for the period 2024–2026, by category and subcategory

Outreach programmes, special events and information materials: booklets on sustainable energy and related topics, for regional access.				
External and media relations: press releases, keynote speeches and articles on the activities of the energy subprogramme.				
Digital platforms and multimedia content: website of the subprogramme.				

Subprogramme 6
Trade

Objective

20.84 The objective, to which this subprogramme contributes, is to strengthen trade facilitation and electronic business, regulatory cooperation and standardization policies, agricultural quality standards and trade-related economic cooperation for an increased impact on sustainable development in the ECE region and beyond.

Strategy

20.85 To contribute to the objective, the subprogramme will support international policy dialogue on reducing regulatory and procedural barriers to trade, including those caused by cumbersome trade procedures and paperwork, by differences in trade procedures, standards and documents, or by

divergent regulatory approaches and product standards; facilitate the development of standards and recommendations in the areas of trade facilitation and electronic business, agricultural quality standards and regulatory cooperation; and provide capacity-building and enable the sharing of best practices and lessons learned. Specifically, the subprogramme will:

(a) Promote simple, transparent and effective processes for sustainable, inclusive and resilient global trade through its normative work to develop standards and recommendations in the areas of trade facilitation and electronic business;

(b) Facilitate international policy dialogue on establishing digital trading environments and on compliance with the multilateral trading system requirements, including the dissemination of standards, recommendations and guidelines;

(c) Promote the circular economy and the sustainable use of natural resources, sustainable and resilient value chains and the enhanced traceability of supply chains (e.g., minimizing waste and maximizing the use of natural resources towards the circular economy) through studies, policy dialogues, capacity-building and technology-based pilot initiatives such as blockchain-based traceability for relevant value chains;

(d) Strengthen regulatory cooperation and promote standards and best practices in regulatory frameworks, risk management, conformity assessment and market surveillance to facilitate a predictable and harmonized regulatory environment;

(e) Provide practical ways forward for standards bodies wishing to mainstream a gender perspective into standards and throughout the quality infrastructure for trade, notably through capacity-building, sharing of best practices and dissemination;

(f) Promote up-to-date agricultural quality standards and explanatory guidelines through its normative work and promote awareness of food loss reduction through policy dialogues, partnerships with international organizations and initiatives to address food loss and waste;

(g) Identify regulatory and procedural barriers to trade and assist Governments in setting action-oriented recommendations for implementing the instruments developed by the subprogramme through analytical evidence-based studies, including with the objective of pursuing ECE-wide cross-cutting priority themes;

(h) Deepen its international policy dialogue, normative, technical assistance and capacity-building activities on the digitalization of trade processes in order to support efforts to harness the power of trade for sustainable development.

20.86 The above-mentioned work is expected to contribute to the achievement of Sustainable Development Goals 2, 5, 8, 9, 12 and 17 and to result in:

(a) Increased implementation of simplified trade processes, and the digitalization of member States' trading environments, leading to greater productivity;

(b) Increased transparency and traceability of the value chains and reduction of waste, promoting sustainable consumption and production patterns;

(c) Increased uptake of international standards, including ECE agricultural quality standards, by countries to enable the implementation of internationally harmonized regulatory processes;

(d) Improved gender equality in trade through the increased participation of women traders;

(e) Enhanced digitalization of trade procedures (e.g., progress towards the adoption of trade-related digital services such as Single Window) to support public and private sectors' efforts in member States to facilitate trade.

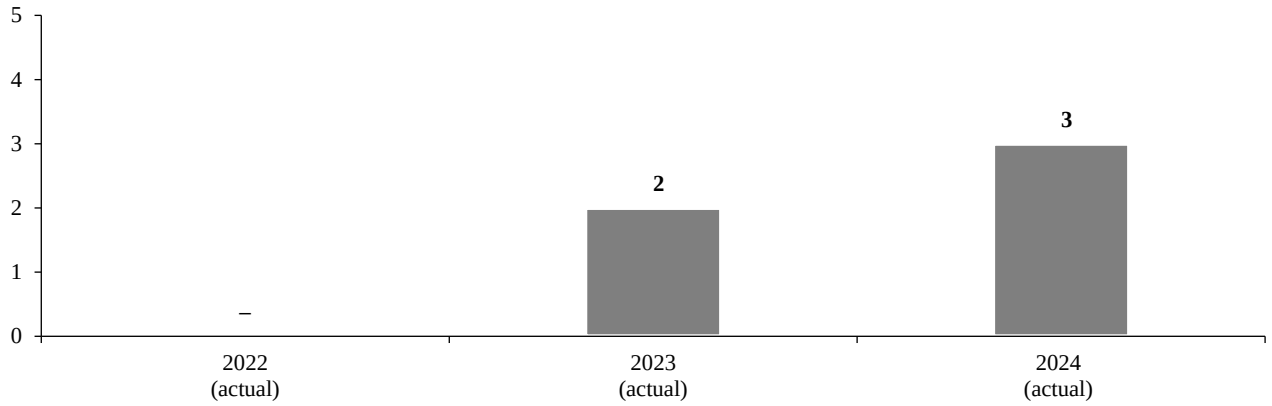
Programme performance in 2024

Trade-related policies enable transition to a more circular economy

20.87 To support member States with accelerating the transition to a more circular economy, the subprogramme has worked to assist national authorities in filling gaps and creating synergies among many initiatives, addressing key areas of trade policy, including food loss and waste reduction, traceability of value chains and related institutional arrangements. Since 2022, gap analyses have been undertaken in three countries that were key inputs to the formulation of circular economy road maps, action plans and related national strategies in priority sectors and thematic areas, with a focus on the following: (a) fostering international production networks and value chains that comply with circularity principles and improve the ability of customers to trace the products they buy, contributing to increased transparency; and (b) addressing the responsible management of waste by helping countries to substantially reduce waste generation through prevention, reduction, recycling and reuse in line with ECE guidance (e.g., code of good practice for reducing losses in the handling of fresh fruit and vegetables along international supply chains).

20.88 Progress towards the objective is presented in the performance measure below (see figure 20.XII).

Figure 20.XII
Performance measure: number of national road maps for transitioning to a more circular economy that are informed by Economic Commission for Europe guidance (cumulative)



Planned results for 2026

Result 1: mainstreaming a gender perspective into standards development organizations

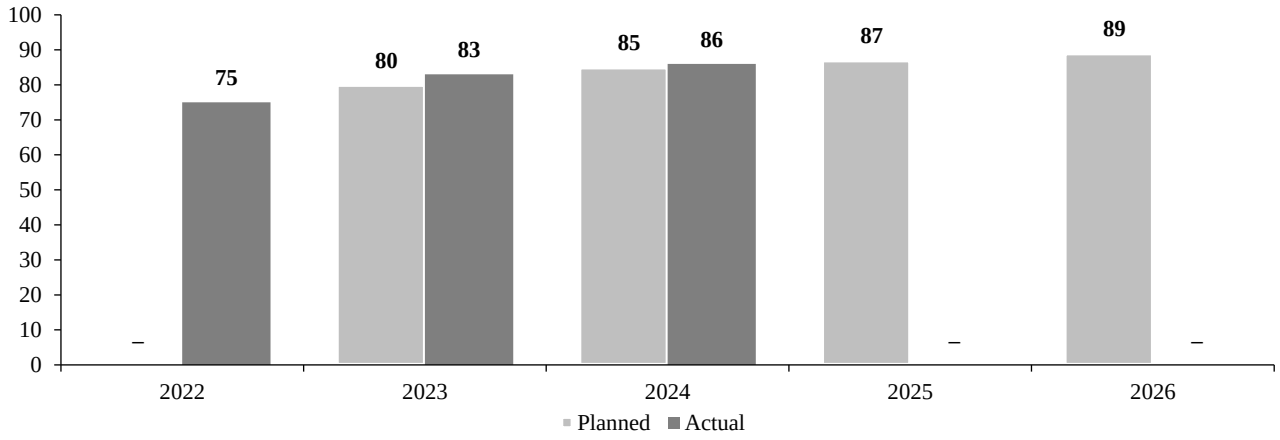
Programme performance in 2024 and target for 2026

20.89 The subprogramme's work contributed to 86 standards development organizations that have committed themselves to implementing the ECE Declaration for Gender Responsive Standards and Standards Development,[3] which exceeded the planned target of 85.

20.90 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 20.XIII).

[3] See https://unece.org/trade/wp6/Gender-Resp-Stdards-declaration.

Figure 20.XIII
Performance measure: number of standards development organizations that have committed themselves to implementing the Economic Commission for Europe Declaration for Gender Responsive Standards and Standards Development (cumulative)



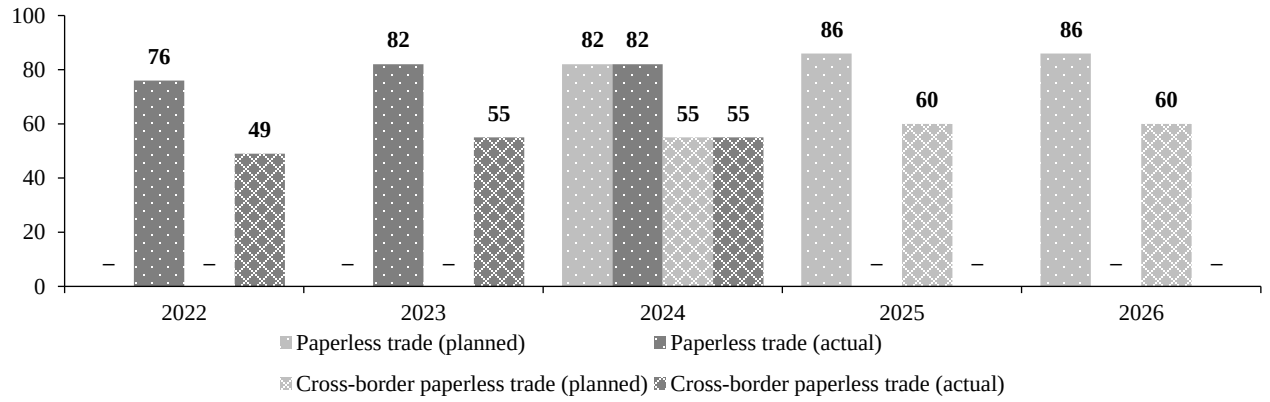
Result 2: enhanced digitalization of trade

Programme performance in 2024 and target for 2026

20.91 The subprogramme's work contributed to an average implementation rate of 82 per cent of paperless trade and an average implementation rate of 55 per cent of cross-border paperless trade among ECE member States, which met the planned target.

20.92 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 20.XIV).

Figure 20.XIV
Performance measure: average implementation rate of trade facilitation measures in the Economic Commission for Europe region
(Percentage)



Note: The data are captured every two years through the United Nations Global Survey on Digital and Sustainable Trade Facilitation (https://www.untfsurvey.org/), conducted most recently in 2023. Data for 2024 reflect achievements in 2023.

Result 3: improved transparency and traceability of value chains in critical sectors

Proposed programme plan for 2026

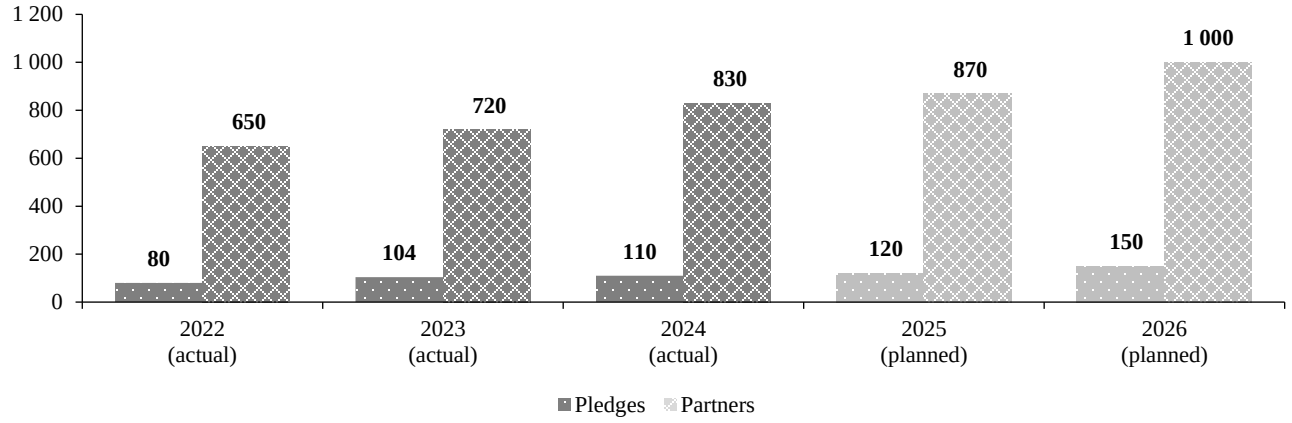
20.93 The rise in consumer awareness of the impacts of irresponsible production patterns has led several jurisdictions to adopt regulations mandating corporations to exercise due diligence along their supply chains. The subprogramme produced policy recommendations and guidelines, and piloted information exchange standards using blockchain technology to help producers to track their sustainability performance and achieve verifiable claims for products placed on markets. The sustainable value chains traceability and transparency toolbox includes the "Sustainability Pledge" call to action for industry actors to commit to measurable actions.

Lessons learned and planned change

20.94 The lesson for the subprogramme was that the subprogramme's global orientation and expertise can be further leveraged to advance the traceability and transparency of value chains in a global and fragmented context. In applying the lesson, the subprogramme will develop a global United Nations transparency protocol, supporting the interoperability of information exchange systems for digital product passports, and will further promote the Sustainability Pledge, in line with objective 4 of the Global Digital Compact, to advance responsible, equitable and interoperable data governance approaches.

20.95 Expected progress towards the objective is presented in the performance measure below (see figure 20.XV).

Figure 20.XV
Performance measure: number of industry actors that have submitted pledges for the traceability and transparency of sustainable value chains (cumulative)



Note: Pledges refers to the number of pledges submitted. Partners refers to organizations involved in the pledges. Some of the pledges are submitted by a consortium or group of partners.

Deliverables

20.96 Table 20.16 lists all deliverables of the subprogramme.

Table 20.16
Subprogramme 6: deliverables for the period 2024–2026, by category and subcategory

28. Fact-finding missions on trade facilitation and electronic business, agricultural quality standards, regulatory cooperation and standardization, and regulatory and procedural barriers to trade	3	3	3	1

C. Substantive deliverables

Consultation, advice and advocacy: advisory services to government officials and other stakeholders on trade facilitation and electronic business, agricultural quality standards, regulatory cooperation and standardization, and regulatory and procedural barriers to trade.

Databases and substantive digital materials: ECE databases for sustainable and digital trade facilitation; and annual updates to the United Nations Centre for Trade Facilitation and Electronic Business information exchange standards and related databases.

D. Communication deliverables

Outreach programmes, special events and information materials: booklets, promotional materials, fact sheets, information brochures and newsletters reaching at least 1,000 public and private sector experts.

External and media relations: press releases, publication launch events and articles in external newsletters intended for government officials and experts working on trade.

Digital platforms and multimedia content: website of the subprogramme.

Subprogramme 7
Forests and the forest industry

Objective

20.97 The objective, to which this subprogramme contributes, is to strengthen the sustainable management of trees and forests and enhance the contribution of forests and forest products to sustainable development, climate action and biodiversity in the ECE region.

Strategy

20.98 The strategy of the subprogramme is based on core interlinked functions, namely, analytical and normative work, international policy dialogue, capacity-building and communication.

20.99 To contribute to the objective, the subprogramme will:

(a) Promote cooperation for sustainable forest management, forest landscape restoration, sustainable use of forest products and services, linkages between sustainable food systems and forests, and urban and peri-urban forestry;

(b) Collect, validate and disseminate information, research and analysis related to sustainable forest management and the sustainable production, consumption and trade of wood products, including wood energy;

(c) Facilitate the exchange of national and subnational experiences and best practices and monitor progress on achieving sustainable forest management, including trade-related matters, which will help member States to measure progress towards achieving the relevant Sustainable Development Goals and the United Nations strategic plan for forests 2017–2030;

(d) Organize capacity-building seminars and webinars and prepare dedicated publications on the forest sector and wood energy, including on crisis response and solutions for more resilient economies.

20.100 The subprogramme will carry out its work in partnership with the Food and Agriculture Organization of the United Nations (FAO) and other relevant organizations and processes.

20.101 The above-mentioned work is expected to contribute to the achievement of Sustainable Development Goals 7, 11 to 13 and 15 and result in:

(a) The strengthened ability of member States to sustainably manage healthy forest ecosystems, to provide important ecosystem goods and services to benefit society, including climate mitigation and adaptation;

(b) Increased and more efficient use of sustainable forest products that contribute to the circular economy and the sustainable use of natural resources;

(c) The integration of forest resources and products into planning and recovery from economic, health and environmental shocks, to increase the resilience of member States and their most vulnerable persons.

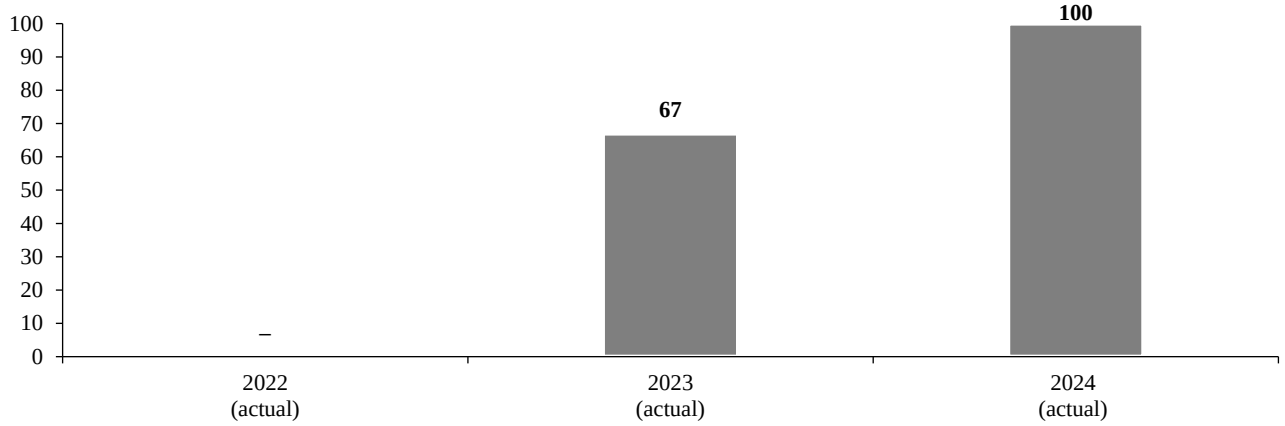
Programme performance in 2024

New data and information on the state and management of boreal forests

20.102 Boreal forests, the vast majority of which are in the ECE region, comprise 27 per cent[4] of the global forest area. They play an important role in sustaining the global ecological equilibrium, and their sustainable management can balance competing needs and strengthen long-term forest resilience. The subprogramme has worked with member States and partners from the boreal region to gather information on their progress towards sustainable forest management. The new data set with information submitted for the first time by all boreal member States is the most comprehensive new source for evidence-based management of this globally, regionally and nationally important biome.

20.103 Progress towards the objective is presented in the performance measure below (see figure 20.XVI).

Figure 20.XVI
Performance measure: information on forests and progress towards sustainable forest management in the boreal region, as measured by the percentage of Economic Commission for Europe member States with boreal forest replying to the Commission's survey on boreal forests (cumulative)



[4] See https://www.fao.org/interactive/forest-resources-assessment/2020/en/#:~:text=FRA%202020%20examines%20the%20status%20of%2C%20and%20trends,the%20ways%20in%20which%20the%20resource%20is%20changing.

Planned results for 2026

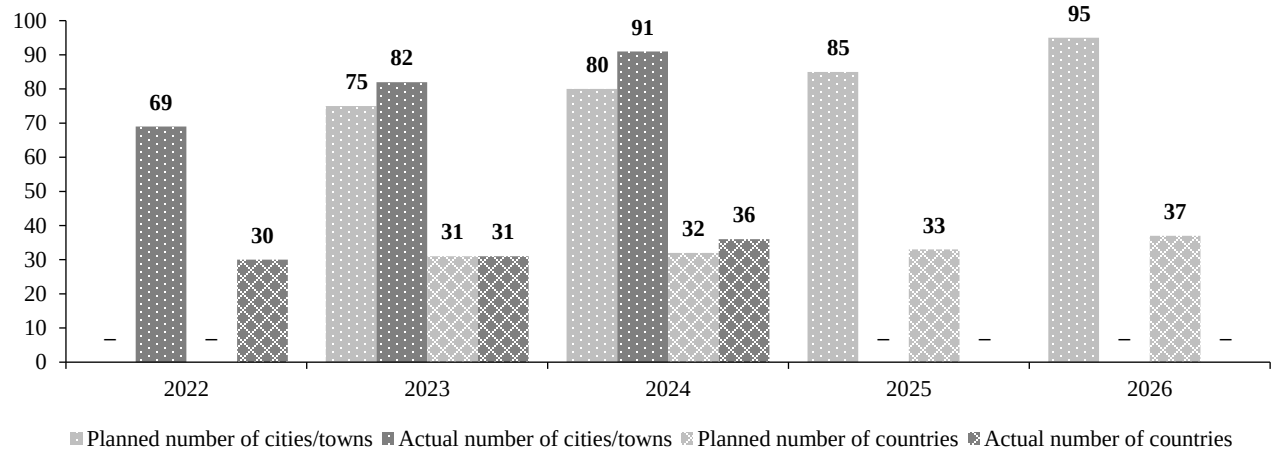
Result 1: cities and towns commit themselves to expanding sustainable urban and peri-urban forest cover

Programme performance in 2024 and target for 2026

20.104 The subprogramme's work contributed to a cumulative total of 91 cities from 36 countries that made pledges and commitments to increasing sustainable urban tree and forest cover, which exceeded the planned target of 80 cities and 32 countries.

20.105 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 20.XVII).

Figure 20.XVII
Performance measure: number of cities and towns making pledges and commitments to increasing sustainable urban tree and forest cover (cumulative)



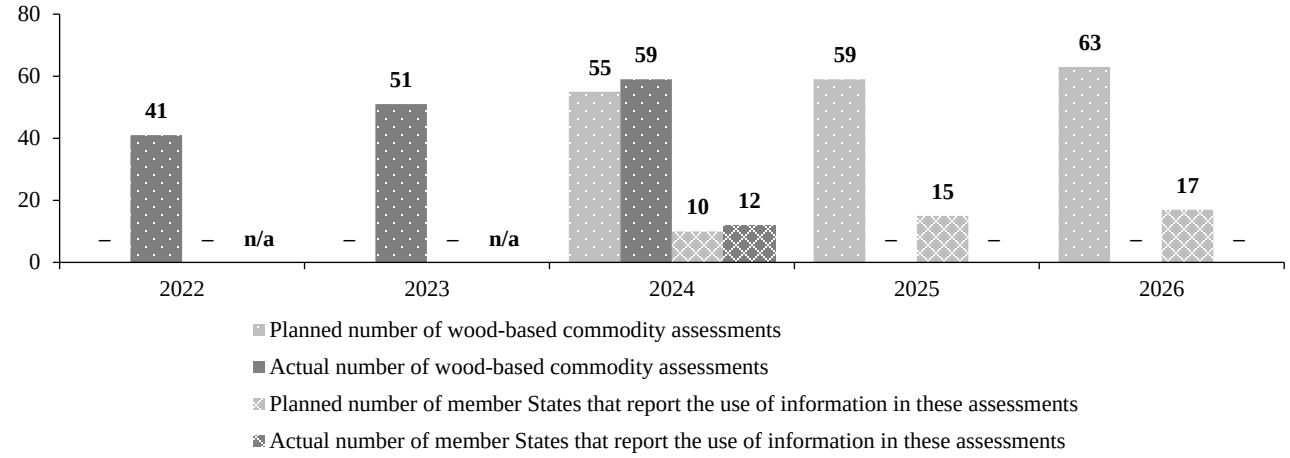
Result 2: evidence-based planning and action for the sustainable production and consumption of forest products

Programme performance in 2024 and target for 2026

20.106 The subprogramme's work contributed to 59 assessments of wood-based commodities and 12 member States that reported on the assessments' use, which exceeded the planned target of 55 assessments and 10 member States.

20.107 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 20.XVIII).

Figure 20.XVIII
Performance measure: number of assessments of wood-based commodities, regarding their production, trade and consumption, and number of member States that report the use of information from these assessments (cumulative)



Abbreviation: n/a, not applicable.

Result 3: increased access to data on forests and the forest industry

Proposed programme plan for 2026

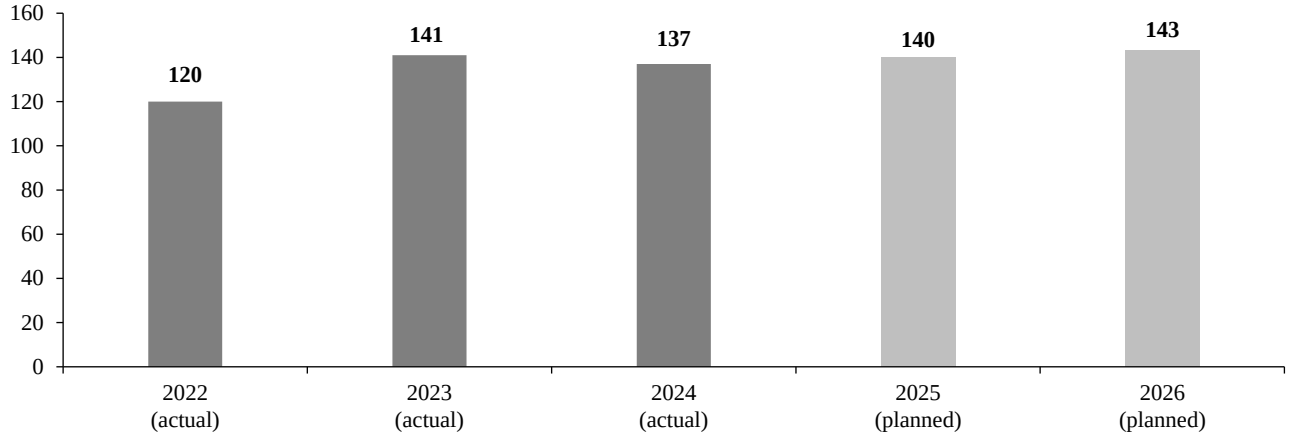
20.108 Both forests and the forest industry are closely linked with efforts to deliver sustainable development, climate and biodiversity goals. The subprogramme gathers data on forests and the forest industry to facilitate evidence-based decisions by policymakers and to inform the broader public. This approach underpins effective policymaking and action for managing forests sustainably to maximize their contribution to the environment, society and the economy.

Lessons learned and planned change

20.109 The lesson for the subprogramme was that data collection frameworks needed to be enhanced to reflect the evolving context and meet emerging data requirements and to ensure the utility of data for decision makers. In applying this lesson, the subprogramme will further strengthen efforts to enhance data collection tools and will update data requirements to help to maximize usefulness for policymakers. The subprogramme will also continue to build the capacity of national focal points to support the timely submission of good-quality statistical data that respond to the needs of policymakers and other data users.

20.110 Expected progress towards the objective is presented in the performance measure below (see figure 20.XIX).

Figure 20.XIX
Performance measure: number of replies from member States to international statistical questionnaires from ECE on forest resources, forest products and wood energy (annual)
(Number of replies to the most recent questionnaires in each series)



Deliverables

20.111 Table 20.17 lists all deliverables of the subprogramme.

Table 20.17

Category and subcategory	2024 planned	2024 actual	2025 planned	2026 planned

C. Substantive deliverables

Consultation, advice and advocacy: advisory services, forest policy dialogues at the request of countries and support for forest policy issues, for up to 3 member States.

Databases and substantive digital materials: ECE region databases on forest policies and institutions; forest products; production, consumption, removals and trade, including prices; and wood energy for global access; ECE regional databases on forest resources and forest ownership.

D. Communication deliverables

Outreach programmes, special events and information materials: events celebrating the International Day of Forests; brochures and information materials on various forest-related topics; and presentations at round tables and international forest-related events.

External and media relations: press releases for the subprogramme; and the Forest Information Billboard newsletter.

Digital platforms and multimedia content: website of the subprogramme; social media accounts; and videos and other media on forest-related topics.

Subprogramme 8
Housing, land management and population

Objective

20.112 The objective, to which this subprogramme contributes, is to strengthen member State-owned and city-level programmes and policies promoting decent, adequate, affordable, energy-efficient and healthy housing for all, smart sustainable cities, sustainable urban development and land management, and to advance evidence-based population and social cohesion policies.

Strategy

20.113 The subprogramme comprises two components: (a) housing and land management; and (b) population.

20.114 The strategy of the subprogramme is based on core interlinked functions, namely, international policy dialogue, normative work, and capacity-building and the sharing of best practices and lessons learned in all areas of the subprogramme's work.

20.115 To contribute to the objective, the housing and land management component of the subprogramme will:

(a) Support member States' national, regional and local governments and other key stakeholders in the review of progress in achieving Sustainable Development Goals 3, 5, 7, 9, 11 and 12, and build their capacities for the implementation of measures to accelerate the achievement of the Goals through technical assistance projects, thematic studies, training, exchange of experiences and best practices and policy advice on: affordable, energy-efficient and decent housing for all; housing finance; smart sustainable cities, digitalization in cities and innovative financial mechanisms for cities; land administration and management, including informal settlements; and urban strategies and programmes that integrate climate change measures and promote the climate neutrality of buildings;

(b) Support local governments in the development of evidence-based policies on sustainable housing and urban development through the application of the ECE/International Telecommunication Union key performance indicators on smart sustainable cities, indicators on urban economic resilience and the United Nations system-wide urban monitoring framework; and in the preparation of smart sustainable cities profiles and voluntary local reviews based on the assessments of achievement of the Goals;

(c) Provide assistance to national and local governments in the development of evidence-based urban and housing policies through the preparation of country profiles on urban development, housing and land management;

(d) Support the strengthening of the capacities of national Governments and local ones in the design, implementation and monitoring of urban resilience plans and sustainable urban infrastructure development projects, including those that provide support to the most vulnerable persons, especially those in informal settlements;

(e) Promote multi-stakeholder partnerships and innovative financing instruments to unlock further financing and partnerships for the implementation of these plans and projects, in collaboration with the Geneva United Nations Charter Centres of Excellence;

(f) Subject to approval by the ECE Executive Committee, organize the sixth Forum of Mayors to discuss the challenges for sustainable housing and urban development.

20.116 To contribute to the objective, the population component of the subprogramme will:

(a) Continue to facilitate cooperation among member States, regional agencies and other partners;

(b) Support national and regional review and follow-up activities to assess progress in implementing the Madrid International Plan of Action on Ageing and its Regional Implementation Strategy by providing a platform for intergovernmental policy debate on matters related to mainstreaming ageing, and facilitate communication with a wider network of experts and non-governmental organizations;

(c) Coordinate data collection on ageing indicators, including intergenerational and sex-disaggregated data, as well as policy-oriented research on ageing and intergenerational and gender relations, to support evidence-based policymaking and the monitoring of the implementation of the Madrid International Plan of Action on Ageing and its Regional Implementation Strategy;

(d) Support the development of national capacities for policy formulation and mainstreaming ageing through policy discussions, policy briefs and the showcasing of good practices from member States.

20.117 The above-mentioned work in the area of housing and land management is expected to contribute to the achievement of Goal 11 and, to a lesser extent, Goals 3, 5, 7, 9 and 12, and result in:

(a) Improved national and local policies for housing affordability, adequacy and accessibility for all; the energy efficiency and climate neutrality of buildings; and sustainable and resilient urban development;

(b) Increased capacity of national and local governments for the development of housing and urban development policies and programmes, which integrate the concepts of the 2030 Agenda for Sustainable Development, the Geneva UN Charter on Sustainable Housing and the action plan entitled *Place and Life in the ECE – A Regional Action Plan 2030: Tackling Challenges from the COVID-19 Pandemic, Climate and Housing Emergencies in the Region, City, Neighbourhood and Homes*, as well as relevant best practices, including those developed and shared by the Geneva UN Charter Centres of Excellence;

(c) Improved understanding by city authorities of their socioeconomic development priorities through the preparation of smart sustainable cities profiles and voluntary local reviews of the achievement of the Sustainable Development Goals, based on the revised guidelines for the development of voluntary local reviews in the ECE region and using ECE/International Telecommunication Union key performance indicators for smart sustainable cities, urban economic resilience indicators and a United Nations system-wide urban monitoring framework;

(d) Increased capacity of land administration authorities to develop national land administration and management systems based on thematic studies and capacity-building activities in land administration and management;

(e) More effective local urban development and housing policies and related resilience plans, in particular for people living in informal settlements.

20.118 The above-mentioned work in the area of population is expected to contribute to the achievement of Goals 1, 3 to 5, 8, 10, 11, 16 and 17 and result in:

(a) Demonstrated progress by member States in mainstreaming ageing across all policy fields and governance levels;

(b) Enhanced capacities of member States in mainstreaming ageing across all policy fields and governance levels;

(c) Policy approaches adopted by member States that advance the rights and dignity of older persons and their contribution to a sustainable and inclusive society for all ages.

Programme performance in 2024

Mental health of older persons: increased awareness, strengthened knowledge and exchange of policy strategies among member States

20.119 Recognizing that a significant share of older persons in the ECE region are affected by mental health conditions, member States committed to invest in strategies and activities to strengthen the mental health of older persons, improve the protection of older persons with mental impairments, and ensure their participation, dignity and quality of life, in line with the Rome Ministerial Declaration on Ageing of 2022. In support of their efforts, in 2024 the subprogramme published a policy brief and facilitated a regional policy dialogue on the issue to raise awareness, build knowledge and facilitate the exchange of relevant policy strategies, resulting in 11 member States sharing national experiences.

20.120 Progress towards the objective is presented in the performance measure below (see table 20.18).

Table 20.18
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Member States committed to strengthen national policy frameworks on the mental health of older persons	Member States agreed to include the topic of the mental health of older persons in the programme of work of the Standing Working Group on Ageing for 2024	Eleven member States shared national policy strategies implemented to promote, protect and care for the mental health of older persons

Planned results for 2026

Result 1: acceleration of the city-level implementation of best practices in housing and land management and urban development

Programme performance in 2024 and target for 2026

20.121 The subprogramme's work contributed to the implementation by member States of the recommendations contained in the thematic policy briefs and guidelines on housing, land management and urban development, with one country profile (Armenia) and one urban resilience-building initiative (Podgorica), which met the planned target.

20.122 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 20.19).

Table 20.19
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Place and Life in the ECE – A Regional Action Plan 2030: Tackling Challenges from the COVID-19 Pandemic, Climate and Housing Emergencies in the Region, City, Neighbourhood and Homes adopted by member States	One country profile (Albania) implemented recommendations contained in the thematic policy briefs and guidelines on housing, land management and urban development	One country profile (Armenia) and one urban resilience-building initiative (Podgorica) implemented recommendations contained in the thematic policy briefs and guidelines on housing, land management and urban development	Four countries/cities implementing recommendations contained in the thematic policy briefs and guidelines on housing, land management and urban development	Four additional countries/cities implementing recommendations contained in the thematic policy briefs and guidelines on housing, land management and urban development

Result 2: more age-sensitive and inclusive policies to respond to the opportunities and challenges of individual and population ageing

Programme performance in 2024 and target for 2026

20.123 The subprogramme's work contributed to member States, academia, civil society and the general public gaining access to the ageing policies database, containing a first set of 250 policy entries covering 39 countries, which met the planned target.

20.124 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 20.20).

Table 20.20
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Development of an ageing policies database was included in the programme of work of the Standing Working Group on Ageing	Member States agreed on the scope and design of the ageing policies database	Member States, academia, civil society and the general public gain access to the ageing policies database	At least 15 member States share ageing-related policy updates for inclusion in the ageing policies database	At least 20 member States share ageing-related policy updates for inclusion in the database

Result 3: acceleration of Sustainable Development Goal localization by local and regional governments

Proposed programme plan for 2026

20.125 With increasing urbanization, cities play an important role in achieving the 2030 Agenda for Sustainable Development. Voluntary local reviews support local and regional governments to monitor and report on progress towards the implementation of the Goals. The subprogramme has

supported localization of the Goals by updating guidelines and facilitating peer-to-peer dialogue on the development of voluntary local reviews.

Lessons learned and planned change

20.126 The lesson for the subprogramme was that piloting the guidelines in select cities before full implementation was essential to identify context-specific challenges, assess feasibility and refine guidelines based on practical insights. In applying the lesson, the subprogramme utilized the results of pilot testing to update the guidelines, and will provide practical, hands-on guidance and good practice on the development of voluntary local reviews while continuing to address emerging feedback from end users, including on data and indicators.

20.127 Expected progress towards the objective is presented in the performance measure below (see table 20.21).

Table 20.21
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Guidelines for the development of voluntary local reviews were adopted	The Committee on Urban Development, Housing and Land Management invited the ECE secretariat to update the guidelines for the development of voluntary local reviews on the basis of testing in pilot cities and feedback received	Updated regional guidelines for the development of voluntary local reviews were adopted by the Committee on Urban Development, Housing and Land Management	Three local/regional governments prepare voluntary local reviews applying the regional guidelines	Four additional local/regional governments prepare voluntary local reviews applying the regional guidelines

Deliverables

20.128 Table 20.22 lists all deliverables of the subprogramme.

Table 20.22
Subprogramme 8: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**16**	**16**	**23**	**16**
1. The Committee on Urban Development, Housing and Land Management	11	11	11	11
2. The Working Party on Land Administration	–	–	7	–
3. The Standing Working Group on Ageing	5	5	5	5
Substantive services for meetings (number of three-hour meetings)	**33**	**32**	**33**	**29**
4. The Committee on Urban Development, Housing and Land Management, its Bureau and expert bodies	18	18	14	14
5. The Working Party on Land Administration and its Bureau	6	5	10	6
6. The Standing Working Group on Ageing and its Bureau	9	9	9	9

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**3**	**2**	**2**	**2**
7. Country profiles on urban development, housing and land management	2	1	1	1
8. Road maps on mainstreaming ageing	1	1	1	1
Seminars, workshops and training events (number of days)	**10**	**13**	**10**	**10**
9. Workshops, seminars and training on urban development, housing and land management (including real estate)	8	10	8	8
10. Workshops and policy discussions on population ageing issues	2	3	2	2
Publications (number of publications)	**6**	**5**	**6**	**6**
11. Country profiles and studies on urban development, housing and land management	4	4	4	4
12. On population	2	1	2	2
Technical materials (number of materials)	**3**	**3**	**3**	**3**
13. Technical guidelines on urban development, housing and land management	2	2	2	2
14. Tools on mainstreaming ageing	1	1	1	1
Fact-finding, monitoring and investigation missions (number of missions)	**2**	**3**	**2**	**2**
15. Fact-finding missions for policymakers in preparation for and follow-up to the country profiles on urban development, housing and land management	1	1	1	1
16. Fact-finding missions to develop national capacities in designing and implementing ageing-related policies and programmes	1	2	1	1

C. Substantive deliverables

Consultation, advice and advocacy: advisory services for up to four countries regarding the country profiles on urban development, housing and land management; “generations and gender programme” advocacy to support evidence-based policymaking; and advisory services for government officials and other stakeholders to develop national capacities in designing and implementing ageing-related policies and programmes.

Databases and substantive digital materials: ageing indicators data set for global access and database on ageing-related policies.

D. Communication deliverables

Outreach programmes, special events and information materials: booklets and fact sheets.

External and media relations: press releases and social media posts.

Digital platforms and multimedia content: websites of the subprogramme.

B. Proposed post and non-post resource requirements for 2026

Overview

20.129 The proposed regular budget resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 20.23 to 20.25.

Table 20.23
Overall: evolution of financial resources by object of expenditure
(Thousands of United States dollars)

			Changes					
Object of expenditure	*2024 expenditure*[a]	*2025 approved*	*Technical adjustments*	*New/ expanded mandates*	*Other*	*Total*	*Percentage*	*2026 estimate*

20.130 Additional details on the distribution of the proposed resources for 2026 are reflected in tables 20.26 to 20.28 and figure 20.XX.

20.131 As reflected in tables 20.26 (1) and 20.27 (1), the overall net resources for 2026 amount to $40,959,500, reflecting an increase of $7,700 compared with the approved budget for 2025. Resource changes result from other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

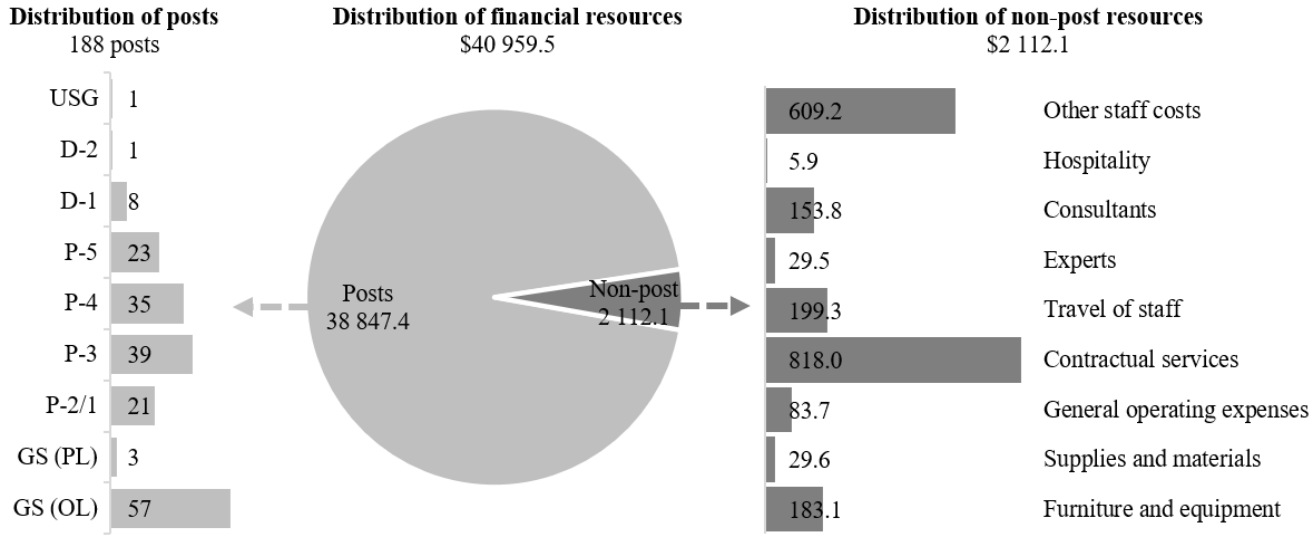
Figure 20.XX
Distribution of proposed resources for 2026
(Number of posts/thousands of United States dollars)



Explanation of variances by factor, component and subprogramme

Overall resource changes

Other changes

20.132 As shown in table 20.26 (1), resource changes reflect a net increase of $7,700, which relates to an increase under programme support that reflects a higher standard price for the core software package for non-field personnel outside of United Nations Headquarters. Other changes also reflect the within-component cost-neutral redeployment of resources between experts and consultants, mainly within executive direction and management.

Extrabudgetary resources

20.133 As reflected in tables 20.26 (2) and 20.27 (2), extrabudgetary resources amount to $26,529,900. The resources would complement regular budget resources and would be used mainly to provide for 7 posts (1 D-1, 2 P-4, 1 P-3, 3 GS (OL)) to perform mainly the functions required to support the delivery of technical cooperation projects and activities approved by ECE governing bodies. In addition, non-post resources would be used for capacity-building and technical support in relation to the ECE programme of work.

20.134 The extrabudgetary resources under the present section are subject to the oversight of the Executive Committee of ECE and the governing bodies of the conventions.

Executive direction and management

20.135 The executive direction and management component comprises the Office of the Executive Secretary, the Sustainable Development Unit and the Information Unit. It also includes the Programme Management Unit, which falls under the Programme Management and Support Services Division.

20.136 The overall responsibilities of the executive direction and management component include the following functions:

(a) To facilitate the debate among member States on the strategic direction of ECE and to develop a forward-looking strategy for adjusting ECE activities to respond to emerging and foreseeable priorities of its member States;

(b) To provide guidance and direction for the work of the ECE secretariat, and to promote transparency and interdivisional cooperation;

(c) To service meetings of the Commission and its Executive Committee and ensure the follow-up to their decisions;

(d) To provide guidance and overall coordination of ECE programme management and evaluation, including under technical cooperation, and to promote the application of evaluation findings to the subprogrammes' work;

(e) To undertake regional policy reviews relating to major cross-sectoral issues, in particular sustainable development, gender, and the 2030 Agenda and its Sustainable Development Goals;

(f) To contribute to increasing the visibility of ECE and to raising the awareness and use of ECE products through the dissemination of information about its activities;

(g) To promote synergies and cooperation with other United Nations entities active in the ECE region, including with the resident coordinator system at the country level and the United Nations Sustainable Development Group for Europe and Central Asia at the regional level;

(h) To foster and mainstream a gender perspective and disability inclusion into ECE subprogrammes;

(i) To ensure effective financial, human and information and communications technology (ICT) resources management, as well as the implementation of recommendations of oversight bodies and internal controls.

20.137 The Office of the Executive Secretary, which includes the Executive Secretary, the Deputy Executive Secretary and the Secretary of the Commission, has the overall responsibility for providing policy guidance and leadership in the ECE secretariat, including the coordination of the work of the Commission; overseeing and developing relations with Governments; coordination with the United Nations Secretariat; reporting to the General Assembly and the Economic and Social Council; overseeing and developing relations with other United Nations entities and with non-United Nations organizations, civil society and non-governmental organizations; and mainstreaming a gender perspective across all subprogrammes through the development and implementation of the ECE gender policy and action plan and the gender parity strategy.

20.138 The Programme Management Unit, under the Programme Management and Support Services Division, provides guidance and ensures overall coordination of ECE programme management (planning, monitoring, reporting and evaluation). The Unit also ensures the follow-up to and implementation of the recommendations of United Nations oversight bodies, promotes synergies between the normative and operational work of ECE and provides guidance and overall coordination of technical cooperation. The Unit coordinates with other regional commissions and United Nations entities on programmatic and technical cooperation issues in support of the resident coordinator system countries within the ECE region.

20.139 The Sustainable Development Unit provides policy advice, analysis and advocacy on cross-cutting issues relating to the implementation of, follow-up on and review of the 2030 Agenda, in partnership with other United Nations entities and stakeholders, as relevant. The Unit convenes the annual Regional Forum on Sustainable Development for the ECE region, in cooperation with the entities of the regional United Nations system, providing the regional contribution to the global follow-up on and review of the 2030 Agenda. It plays a leading role in carrying out the functions of the regional collaborative platform, which gathers the heads of the regional offices for Europe and Central Asia of the United Nations entities. The Unit leads the internal work on the alignment of ECE activities with the Sustainable Development Goals through a cross-cutting approach.

20.140 The Information Unit is responsible for implementing the ECE information strategy aimed at raising awareness and mobilizing support for the work of ECE. The Unit manages ECE relations with the media, ensures the Commission's presence on social media and provides related monitoring and analysis. It advises the Executive Secretary, senior managers and the staff of ECE on outreach and advocacy.

20.141 In 2026, the executive direction and management component will coordinate the planning of the ECE programme of work leading towards the 2027 session of the Commission and ensure monitoring of progress towards achieving planned results. In 2026 the annual exchange on evaluation will foster the use of evaluation results to improve programme planning and internal processes, which will be documented in the 2025 annual report on evaluation presented to the Executive Committee. To improve data quality and use, the component will guide and support, in cooperation with substantive divisions, the operationalization of the Data Strategy of the Secretary-General for Action by Everyone, Everywhere, based on the ECE ICT strategy and substantive divisions' related action plans. The component will support the United Nations reform implementation and accelerated action for implementing the 2030 Agenda and the outcomes of the 2024 Sustainable Development Goals Summit and of the 2024 Summit of the Future, as applicable, by improving system-wide coherence and coordination of programme delivery at the regional and country levels. This will be done, among others, through the facilitation of the implementation of the 2026 workplan of the Regional Collaborative Platform for Europe and Central Asia, ensuring a successful meeting of the Regional Forum on Sustainable Development for the ECE Region and continuing active engagement in the 17 programme countries in partnership with resident coordinator offices and United Nations country teams, including in the preparation of United Nations Sustainable Development Cooperation Frameworks, to be signed in 2026. Structured around the Goals, the 2025 technical cooperation report, to be presented to the Executive Committee, will include all the technical assistance provided to member States. The component will also continue to foster and mainstream a gender perspective by coordinating the implementation of the ECE gender action plan for 2025–2026, which will continue to act as the primary vehicle for implementation of the ECE policy for gender equality and the empowerment of women (2021–2025). In line with the United Nations Disability Inclusion Strategy, executive direction and management will continue to mainstream disability inclusion into ECE work, by reporting on the implementation of the ECE disability inclusion action plan for 2025 and planning for 2027.

20.142 In accordance with the 2030 Agenda, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, ECE is integrating environmental management practices into its

operations. ECE will continue to collaborate with the United Nations Office at Geneva on sustainability reporting and will highlight its sustainable practices in its formal reports.

20.143 Information on the timely submission of documentation and advance booking for air travel is reflected in table 20.29. The compliance rate of 97 per cent in 2024 for the timely submission of documentation relates to ECE meetings organized through the Division of Conference Management of the United Nations Office at Geneva and marks a slight increase compared with the prior period. The compliance rate of 71 per cent for air tickets purchased at least two weeks before the commencement of travel relates to all travel requests, including of staff, experts and consultants, and participants, the latter funded exclusively through extrabudgetary resources, processed by ECE in 2024 through the Travel and Logistics Unit of the United Nations Office at Geneva, and represents an increase when compared with 2023. ECE will continue to work closely with the travel and logistics counterparts on early planning to improve compliance rates in 2025 and 2026.

Table 20.29
Compliance rate
(Percentage)

	2022 actual	*2023 actual*	*2024 actual*	*2025 planned*	*2026 planned*

Programme support

20.153 The Programme Management and Support Services Division carries out activities related to programme planning, oversight, technical cooperation support, administration and common services such as budget and financial management, human resource management and information systems management and technology services for ECE. It also ensures compliance with organizational policies in these areas and liaises with United Nations Headquarters and the United Nations Office at Geneva, the designated service provider for ECE. The Division comprises the Office of the Director, which manages all aspects of programme planning, oversight and administration; the Programme Management Unit, under executive direction and management (explained in paragraph 20.138 above); and the Executive Office, which oversees and manages all aspects of administration, budget, finance, human resources and information systems.

20.154 The proposed regular budget resources for 2026 amount to $3,614,600 and reflect an increase of $7,700 compared with the approved budget for 2025. The proposed increase is explained in paragraph 20.132. Additional details on the distribution of the proposed resources for 2026 are reflected in table 20.39 and figure 20.XXX.

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

21.1 The Economic Commission for Latin America and the Caribbean (ECLAC) is responsible for fostering the economic, social and environmentally sustainable development of Latin America and the Caribbean through international cooperation, by undertaking applied research and evidence-based comparative analysis of development processes, by providing normative and operational capacity development, and by providing capacity-building, technical cooperation and advisory services in support of regional development efforts. The mandate derives from the priorities established in relevant General Assembly resolutions and decisions, as well as Economic and Social Council resolution 106 (VI), by which the Council established the Commission for the purpose of contributing to and coordinating action towards the economic and social development of the region and reinforcing economic relationships among the countries of Latin America and the Caribbean and with other regions of the world. In 1996, pursuant to ECLAC resolution 553 (XXVI), the Commission decided, inter alia, to collaborate with member States in the comprehensive analysis of development processes geared towards the design, monitoring and evaluation of public policies and the resulting provision of operational services in the fields of specialized information, advisory services, training and support for regional and international cooperation and coordination. The support delivered by the Commission to member States is also provided through the regular programme of technical cooperation and Development Account projects. In Assembly resolution 79/1 on the Pact for the Future, Member States reiterated their commitment to the 2030 Agenda for Sustainable Development and recognized that all developing countries required assistance to implement the Agenda. The Commission remains uniquely positioned to support its member States in this regard.

Strategy and external factors for 2026

21.2 The Commission will continue to support the development pillar of the United Nations, to foster economic integration at the subregional and regional levels, to support member States in the implementation of the 2030 Agenda and the achievement of the Sustainable Development Goals, the Pact for the Future, the Global Digital Compact and the international agreements stemming from the major summits and conferences in the development field, as well as to facilitate sustainable development by helping to bridge economic, social and environmental gaps within and among countries of the region and with other regions of the world.

21.3 The Commission's overall strategy for achieving the objectives of the programme is structured around 13 interdependent and complementary subprogrammes that are to be implemented using a multidisciplinary and integrated approach. The present proposed programme budget is also aimed at being responsive to the priorities, policy needs and emerging challenges of member States against a backdrop of increasing challenges and uncertainties.

21.4 To make progress towards more productive, inclusive and sustainable development and address the challenges faced by Latin America and the Caribbean, countries of the region would need to overcome three development traps: (a) low capacity for growth; (b) high inequality, low social mobility and weak social cohesion; and (c) low institutional capacities and ineffective governance. If the region is to achieve stronger growth, then productive development policies for growth, investment, productivity and broader policy space are necessary, as well as strengthened governance and technical, operational, political and prospective capabilities in the region.

21.5 At the fortieth session of the Commission, held in Lima in 2024, ECLAC presented to its member States the document *Development Traps in Latin America and the Caribbean: Vital Transformations and How to Manage Them*, in which it put forward a new proposal to analyse three transformations that can assist in the move towards a new development model: (a) productive transformation for higher, sustained, inclusive and sustainable growth; (b) transformation to reduce inequality and foster inclusion and social mobility; and (c) transformation to boost sustainability and combat climate change. The document includes various proposals for carrying out these transformations.

21.6 At the same time, the implementation of the 2030 Agenda and the achievement of the Sustainable Development Goals in Latin American and Caribbean countries has been affected by global instability, changing globalization trends and technological changes that are transforming the production paradigm. A more ambitious approach can help to drive the structural transformations required to sustain the path towards the fulfilment of the 2030 Agenda and the Goals. To accelerate progress towards achieving the Goals, ECLAC will use key entry points such as food systems, energy access and affordability, digital connectivity, education, jobs and social protection, and climate change, biodiversity loss and pollution.

21.7 ECLAC will continue to offer its value proposition to member States by combining its think-tank and thought leadership role; its convening role through its intergovernmental platforms and subsidiary bodies; and its operational role by providing technical cooperation, peer learning, and advisory and capacity-building services, anchored in data and evidence-based analysis and understanding of the realities of the region. The Commission will continue to foster a multisectoral approach to development and to give a voice to countries in special situations, such as the one least developed country in the region, landlocked developing countries and Caribbean small island developing States and middle-income countries.

21.8 The Commission will continue to offer its intergovernmental architecture for consensus-building and regional dialogues, to analyse the key means of implementation of the 2030 Agenda and share experiences in this area, and will continue to perform its role as technical secretariat for ECLAC subsidiary bodies and intergovernmental meetings. ECLAC will continue to provide integrated and comprehensive follow-up to world summits from a regional perspective and coordinate the region's approach to the implementation of the 2030 Agenda. It will also continue to act as the secretariat of the Forum of the Countries of Latin America and the Caribbean on Sustainable Development, supporting the follow-up and review process of the implementation of the 2030 Agenda at the regional level, and the reporting by the Forum to the high-level political forum on sustainable development at the global level, thereby linking the national, regional and global dimensions of the process.

21.9 With regard to cooperation with other entities at the global, regional, national and local levels, ECLAC will continue to work closely with the Governments of the region and other stakeholders, including the business community, academia and civil society, to reinforce links between national experiences and regional perspectives, comparability and exchange of good practices, and to provide effective technical cooperation services for transboundary issues. Furthermore, the Commission will continue its close coordination and collaboration with United Nations agencies, funds and programmes in the region and with the resident coordinator system, including through the Regional Collaborative Platform.

21.10 Collaboration will also continue with the Bretton Woods institutions, in particular the International Monetary Fund and the World Bank, and with other relevant organizations, such as the Organization of American States, the Inter-American Development Bank, the Ibero-American General Secretariat and the Development Bank of Latin America and the Caribbean. ECLAC will reinforce its close cooperation with various subregional integration mechanisms and strengthen its collaboration with private sector associations, non-governmental and civil society organizations, think tanks and academia to encourage policy dialogue and engagement in the implementation of the 2030 Agenda, which is driven primarily by member States. The Commission will continue its active participation to foster substantive global coordination among all participating entities in the United Nations Sustainable Development Group.

21.11 ECLAC will continue to enhance its bilateral and multilateral collaboration with partners within and outside the United Nations system, to strengthen its strategic partnerships and mobilize additional extrabudgetary resources to enhance the implementation of the programme of work and maximize its impact in beneficiary countries and at the regional level. The Commission will consolidate development partners' trust and confidence by undertaking strategic dialogues with them on a regular basis, ensuring the efficient delivery of mandates, showing concrete achievements and providing comprehensive information on the use of their contributions.

21.12 With regard to the external factors, the overall plan for 2026 is based on the following planning assumptions:

(a) The international community continues to be committed to implementing the 2030 Agenda and achieving the Sustainable Development Goals;

(b) The countries of Latin America and the Caribbean continue to support and attach high priority to multilateralism, regional and subregional cooperation and the gradual convergence of integration schemes with a view to broadening the opportunities for achieving economic, social and environmentally sustainable development;

(c) The regional and international communities support the member States of ECLAC and respond to their specific needs and concerns.

21.13 The Commission integrates a gender perspective into its operational activities, deliverables and results, as appropriate, and will continue to ensure that gender focal points (see General Assembly resolution 78/182) are consulted in programme formulation and that gender analysis (see Assembly resolution 77/181) is integrated into all areas under the Commission's mandate.

21.14 In line with the United Nations Disability Inclusion Strategy and the ECLAC Disability Inclusion Strategy 2021–2025, the Commission will continue to implement inclusive and comprehensive measures regarding accessibility, security and improvements in audiovisual technology in conference rooms, and reasonable adaptation of office spaces and furniture to facilitate the full participation of persons with disabilities in the daily work of the Commission, with a view to further advancing their inclusion.

Legislative mandates

21.15 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

58/269	Strengthening of the United Nations: an agenda for further change
59/57	A Fair Globalization: Creating Opportunities for All – report of the World Commission on the Social Dimension of Globalization

Subprogramme 6
Population and development

General Assembly resolutions

S-21/2	Key actions for the further implementation of the Programme of Action of the International Conference on Population and Development
61/295	United Nations Declaration on the Rights of Indigenous Peoples
73/195	Global Compact for Safe, Orderly and Regular Migration
75/314	Establishment of the Permanent Forum of People of African Descent
76/266	Progress Declaration of the International Migration Review Forum

Economic and Social Council decisions

2022/332	Cycle for the review and appraisal of the implementation of the Programme of Action of the International Conference on Population and Development
2022/354	Report of the Permanent Forum on Indigenous Issues on its twenty-first session and provisional agenda of its twenty-second session
2023/341	Report of the Permanent Forum on Indigenous Issues on its twenty second session and provisional agenda of its twenty-third session
2024/327	Report of the Commission on Population and Development on its fifty-seventh session and provisional agenda for its fifty-eighth session

Economic Commission for Latin America and the Caribbean resolutions

569 (XXVII)	Latin American and Caribbean Demographic Centre-Population Division of ECLAC	681 (XXXV); 723 (XXXVII); 743 (XXXVIII); 760 (XXXIX)	Regional Conference on Population and Development in Latin America and the Caribbean

Subprogramme 7
Sustainable development and human settlements

General Assembly resolutions

48/189	United Nations Framework Convention on Climate Change	71/235	Implementation of the outcome of the United Nations Conference on Housing and Sustainable Urban Development (Habitat III) and strengthening of the United Nations Human Settlements Programme (UN-Habitat)
63/281	Climate change and its possible security implications		
64/203	Convention on Biological Diversity		
69/283	Sendai Framework for Disaster Risk Reduction 2015–2030	71/256	New Urban Agenda
		76/300	The human right to a clean, healthy and sustainable environment
71/231; 79/209	Report of the United Nations Environment Assembly of the United Nations Environment Programme		

Economic and Social Council resolution

2017/24	Human settlements

Economic Commission for Latin America and the Caribbean resolutions

594 (XXIX)	World Summit on Sustainable Development	725 (XXXVII); 744 (XXXVIII)	Regional Agreement on Access to Information, Public Participation and Justice in Environmental Matters in Latin America and the Caribbean
686 (XXXV); 693 (PLEN.30); 706 (XXXVI)	Application of Principle 10 of the Rio Declaration on Environment and Development in Latin America and the Caribbean		

United Nations Environment Assembly resolutions

1/13	Implementation of Principle 10 of the Rio Declaration on Environment and Development	2/25	Application of Principle 10 of the Rio Declaration on Environment and Development in the Latin America and Caribbean Region
		5/12	Environmental aspects of minerals and metals management

Subprogramme 8
Natural resources

General Assembly resolutions

62/98	Non-legally binding instrument on all types of forests	73/226	Midterm comprehensive review of the implementation of the International Decade for Action, “Water for Sustainable Development”, 2018–2028
66/203	Report of the Governing Council of the United Nations Environment Programme on its twenty-sixth session	76/129	International Year of Sustainable Mountain Development, 2022
67/263	Reliable and stable transit of energy and its role in ensuring sustainable development and international cooperation	76/153; 78/206	The human rights to safe drinking water and sanitation
70/235; 77/248; 78/69; 79/144	Oceans and the law of the sea	78/149	The pivotal role of reliable and stable energy connectivity in driving sustainable development
71/222	International Decade for Action, “Water for Sustainable Development”, 2018–2028		

Economic and Social Council resolutions and decisions

2004/233	United Nations Framework Classification for Fossil Energy and Mineral Resources	2006/49	Outcome of the sixth session of the United Nations Forum on Forests

Economic Commission for Latin America and the Caribbean resolution

669 (XXXIV)	Activities of the Economic Commission for Latin America and the Caribbean in relation to follow-up to the Millennium Development Goals and implementation of the outcomes of the major United Nations conferences and summits in the economic, social and related fields

Subprogramme 9
Planning and public management for development

General Assembly resolutions

69/327	Promoting inclusive and accountable public services for sustainable development	71/327	The United Nations in global economic governance

Economic and Social Council resolutions

2016/26	Report of the Committee of Experts on Public Administration on its fifteenth session	2022/9	Report of the Committee of Experts on Public Administration on its twenty-first session
2017/23	Report of the Committee of Experts on Public Administration on its sixteenth session	2023/28	Report of the Committee of Experts on Public Administration on its twenty second session
2018/12	Report of the Committee of Experts on Public Administration on its seventeenth session	2024/16	Report of the Committee of Experts on Public Administration on its twenty third session
2021/12	Report of the Committee of Experts on Public Administration on its twentieth session		

Economic Commission for Latin America and the Caribbean resolutions

701 (XXXVI); 740 (XXXVIII); 757 (XXXIX); 772 (XL)	Support for the work of the Latin American and Caribbean Institute for Economic and Social Planning (ILPES)

Subprogramme 10
Statistics

General Assembly resolution

68/261	Fundamental Principles of Official Statistics

Economic and Social Council resolutions and decisions

2000/7	Establishment of the Statistical Conference of the Americas of the Economic Commission for Latin America and the Caribbean	2014/219	Report of the Statistical Commission on its forty-fifth session and the provisional agenda and dates for the forty-sixth session of the Commission
2006/6	Strengthening statistical capacity	2016/27	Strengthening institutional arrangements on geospatial information management
2013/21	Fundamental Principles of Official Statistics		

Economic Commission for Latin America and the Caribbean resolutions

649 (XXXIII); 668 (XXXIV); 678 (XXXVI); 702 (XXXVI); 721 (XXXVII); 741 (XXXVIII); 758 (XXXIX); 773 (XL)	Statistical Conference of the Americas of the Economic Commission for Latin America and the Caribbean	712 (XXXVI)	Regional integration of statistical and geospatial information

Subprogramme 11
Subregional activities in Central America, Cuba, the Dominican Republic, Haiti and Mexico

General Assembly resolutions

69/277	Political declaration on strengthening cooperation between the United Nations and regional and subregional organizations	77/177; 78/233; 79/218	Follow-up to the Fifth United Nations Conference on the Least Developed Countries
71/101 A; 78/80 A; 79/93 A	Questions relating to information: information in the service of humanity		

Economic and Social Council resolutions

2004/52	Long-term programme of support for Haiti	2022/19	Programme of action for the least developed countries for the decade 2022–2031
2011/5	The role of the United Nations system in implementing the internationally agreed goals and commitments in regard to gender equality and the empowerment of women	2024/20	Ad Hoc Advisory Group on Haiti

Economic Commission for Latin America and the Caribbean resolution

624 (XXXI)	Support for the United Nations Stabilization Mission in Haiti

Subprogramme 12
Subregional activities in the Caribbean

General Assembly resolutions

68/304	Towards the establishment of a multilateral legal framework for sovereign debt restructuring processes	73/104; 76/86; 77/130; 78/82; 79/95	Economic and other activities which affect the interests of the peoples of the Non-Self-Governing Territories
70/125	Outcome document of the high-level meeting of the General Assembly on the overall review of the implementation of the outcomes of the World Summit on the Information Society	73/292	2020 United Nations Conference to Support the Implementation of Sustainable Development Goal 14: Conserve and sustainably use the oceans, seas and marine resources for sustainable development
70/128; 76/135	Cooperatives in social development	75/122; 77/149; 78/101; 79/114	Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples
70/263	Cooperation between the United Nations and the International Organization for Migration	75/229	Promotion of sustainable tourism, including ecotourism, for poverty eradication and environment protection
70/296	Agreement concerning the Relationship between the United Nations and the International Organization for Migration	77/283	Strengthening Voluntary National Reviews through Country-led Evaluation
71/313	Work of the Statistical Commission pertaining to the 2030 Agenda for Sustainable Development	77/289	Political declaration of the high-level meeting on the midterm review of the Sendai Framework for Disaster Risk Reduction 2015–2030
73/2	Political declaration of the third high-level meeting of the General Assembly on the prevention and control of non-communicable diseases		

77/334	Follow-up to the United Nations Conference on the Midterm Comprehensive Review of the Implementation of the Objectives of the International Decade for Action, “Water for Sustainable Development”, 2018–2028
78/317	The Antigua and Barbuda Agenda for Small Island Developing States: A Renewed Declaration for Resilient Prosperity
78/327	Modalities of the 2026 United Nations Water Conference to accelerate the implementation of Sustainable Development Goal 6: ensure availability and sustainable management of water and sanitation for all

Economic and Social Council resolutions

2015/10	2020 World Population and Housing Census Programme
2020/8	Modalities for the fourth review and appraisal of the Madrid International Plan of Action on Ageing, 2002
2021/2 A and B; 2022/21; 2023/33; 2024/21	Support to Non-Self-Governing Territories by the specialized agencies and international institutions associated with the United Nations
2021/11	Report of the Committee for Development Policy on its twenty-third session
2021/27; 2024/17	United Nations Inter-Agency Task Force on the Prevention and Control of Non-communicable Diseases
2022/8	Report of the Committee for Development Policy on its twenty-fourth session
2023/10	Report of the Committee for Development Policy on its twenty-fifth session
2023/12	Future organization and methods of work of the Commission for Social Development

Subprogramme 13
Support for regional and subregional integration and cooperation processes and organizations

General Assembly resolutions

65/177; 78/166	Operational activities for development of the United Nations system
66/223	Towards global partnerships
71/318	Second High-level United Nations Conference on South-South Cooperation
77/29; 78/120; 79/139	International cooperation on humanitarian assistance in the field of natural disasters, from relief to development

Economic Commission for Latin America and the Caribbean resolutions

730 (XXXVII); 749 (XXXVIII)	Committee on South-South Cooperation
731 (XXXVII)	Seventieth anniversary of the Economic Commission for Latin America and the Caribbean
752 (PLEN.36)	Establishment of the Regional Conference on South-South Cooperation in Latin America and the Caribbean
781(XL)	Regional Conference on South-South Cooperation in Latin America and the Caribbean

Deliverables

21.16 Table 21.1 lists all cross-cutting deliverables of the programme.

Table 21.1
Cross-cutting deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**5**	**5**	**3**	**5**
1. Draft of the programme of work of the ECLAC system	1	1	1	1
2. Report on the activities of the Commission	1	1	1	1
3. Report on the session of the Commission	1	1	–	1
4. Report on the Forum of the Countries of Latin America and the Caribbean on Sustainable Development	1	1	1	1
5. Main substantive document to be discussed at the session of the Commission	1	1	–	1
Substantive services for meetings (number of three-hour meetings)	**32**	**32**	**19**	**32**
Meetings of:				
6. The Commission	15	15	–	15
7. The Committee of the Whole	–	–	2	–
8. The Forum of the Countries of Latin America and the Caribbean on Sustainable Development	10	10	10	10
9. The Regional Collaborative Platform	2	2	2	2
10. The Committee for Programme and Coordination	1	1	1	1
11. The Advisory Committee on Administrative and Budgetary Questions	2	2	2	2
12. The Fifth Committee	2	2	2	2
B. Generation and transfer of knowledge				
Publications (number of publications)	**5**	**5**	**5**	**5**
13. *CEPAL Review*	3	3	3	3
14. On the implementation of the 2030 Agenda and the Sustainable Development Goals in Latin America and the Caribbean	1	1	1	1
15. On the joint activities with agencies, funds and programmes with a presence in the region	1	1	1	1
D. Communication deliverables				
Outreach programmes, special events and information materials: booklets, fact sheets, wall charts and information kits; the *ECLAC Notes* electronic newsletter; and public information materials related to events and special observances.				
External and media relations: tours of ECLAC premises; photographic coverage of meetings and activities, and audiovisual products on the work of ECLAC; press conferences and media events for flagship publications and other relevant documents; and press releases and interviews with United Nations/ECLAC spokespersons by national and international news media.				
Digital platforms and multimedia content: regional inter-agency knowledge and data platform on the achievement of the Sustainable Development Goals; ECLAC digital repository; and social media campaigns.				

Evaluation activities

21.17 The following evaluations completed in 2024 have guided the proposed programme plan for 2026:

(a) The Office of Internal Oversight Services synthesis review of evaluation results for regional economic commissions – contributions to economic development;

(b) Evaluation of a project on Caribbean small island developing States' relevant climate change and disasters indicators (subprogrammes 10 and 12).

21.18 In response to the results of the evaluations referenced above, ECLAC has revised its offer of e-learning courses and is exploring the creation of opportunities with partner institutions to identify opportunities to sustain and scale project benefits.

21.19 The following evaluations are planned for 2026:

(a) Evaluation of the ECLAC strategy for gender mainstreaming;

(b) Evaluation of a project on inclusive public management systems for sustainable development (subprogramme 9).

Programme of work

Subprogramme 1
International trade, integration and infrastructure

Objective

21.20 The objective, to which this subprogramme contributes, is to strengthen the role of Latin America and the Caribbean in international trade and the global economy by deepening regional integration and enhancing logistics and infrastructure as a means to foster sustainable development.

Strategy

21.21 To contribute to the objective, the subprogramme will:

(a) Propose adjustments to national and regional trade policies to address emerging challenges and harness new opportunities regarding innovation and technological progress; export diversification opportunities related to nearshoring initiatives; cross-border digital trade; trade in services; global and regional value chains and internationalization of small and medium-sized enterprises; new public and private standards; gender mainstreaming; environmental sustainability; and links with other emerging issues;

(b) Evaluate the negotiation, implementation and administration of trade agreements at the bilateral, regional and multilateral levels, with a focus on regional integration initiatives and trade relations with Asia and the Pacific;

(c) Advocate for export diversification, enhancement of inter-agency coordination and public-private cooperation, institutional modernization and trade facilitation;

(d) Foster integrated logistics and mobility policies and their coordination at the subregional level, considering regional integration initiatives, including the sharing of good practices and lessons learned, to address the infrastructure investment gap in the region;

(e) Analyse logistics, trade facilitation and infrastructure development at the national and transboundary levels, in particular in landlocked developing countries and countries with special needs.

21.22 The above-mentioned work is expected to result in:

(a) National policies that promote more sustained, inclusive and sustainable economic growth through sustainable consumption and production patterns;

(b) The formulation and negotiation of trade policies by countries and implementation and administration of trade agreements at the bilateral, regional, plurilateral and multilateral levels, while ensuring special and differentiated treatment for developing countries;

(c) More effective participation by countries in the region in global and regional value chains, including through reduced logistics overcost and increased sustainable trade.

Programme performance in 2024

Free trade agreement between China and Ecuador

21.23 Decision-making regarding changes in trade policy benefit from economic and social impact assessments, which, together with proper coordination between the public and private sectors, can help to reduce the

trap of low growth capacity, minimize social costs that exacerbate the trap of low social mobility and support institutional strengthening. In this context, the subprogramme provided technical support to Ecuador in assessing the impact of a potential trade agreement between it and China. In 2023, high-level meetings were held with negotiators and ministers, and the subprogramme produced a document with findings and policy recommendations. The subprogramme's knowledge products and capacity-building activities contributed to the negotiating process and the ratification of a trade agreement.

21.24 Progress towards the objective is presented in the performance measure below (see table 21.2).

Table 21.2
Performance measure: support for trade policy decision-making of Ecuador

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Ecuador has at its disposal simulations of the possible effects of a potential trade agreement between it and China	Ecuador and China sign a trade agreement	The National Congress of Ecuador ratified a trade agreement with China, and it comes into effect

Planned results for 2026

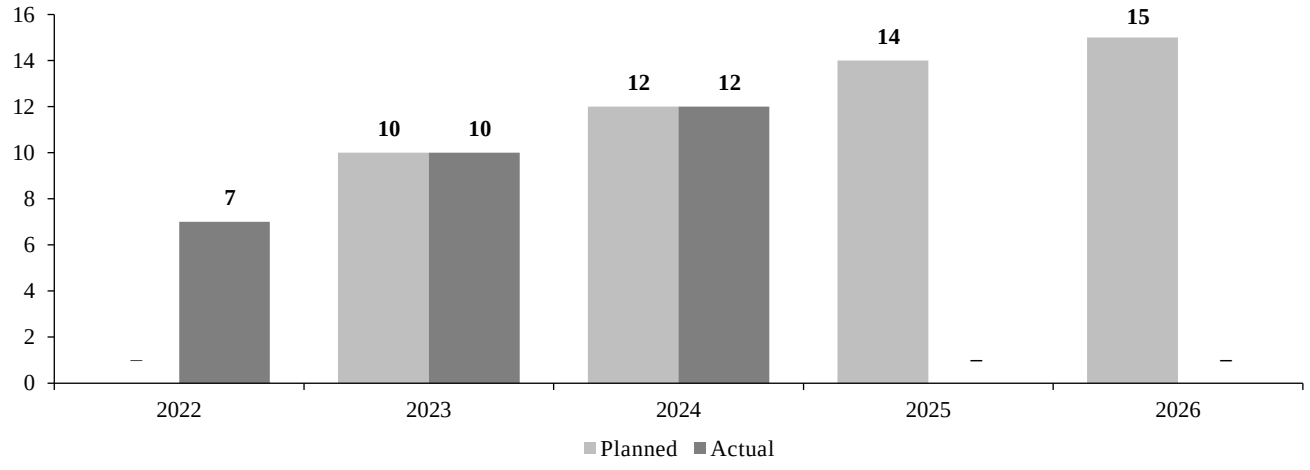
Result 1: member States promote the participation of small and medium-sized enterprises in cross-border e-commerce

Programme performance in 2024 and target for 2026

21.25 The subprogramme's work contributed to two additional national institutions implementing new policy measures to foster the digital transformation of small and medium-sized enterprises and their participation in cross-border e-commerce, which met the planned target.

21.26 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 21.I).

Figure 21.I
Performance measure: number of Latin American and Caribbean national institutions implementing new policy measures to foster the digital transformation of small and medium-sized enterprises and their participation in cross-border e-commerce (cumulative)



Result 2: improved coordination of policies on sustainable and resilient food trade, transport systems and logistics for better regional food security

Programme performance in 2024 and target for 2026

21.27 The subprogramme's work contributed to countries having access to analyses of gaps and opportunities in food security related to trade flows, transport and logistics systems. The planned target was not met owing to delays in technical assistance activities.

21.28 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 21.3).

Table 21.3
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Countries of the region proposed to establish a regional working group to support the implementation of a regional food security plan	Countries of the region agreed on strategic issues to improve coordination in agrifood trade	Countries have access to analysis and insights on gaps and opportunities in food security related to trade flows, transport and logistics systems	Countries develop policy measures to strengthen transport and logistics systems aimed at increasing resilience in food supply	Countries strengthen bilateral cooperation to support sustainable and resilient food trading and transport systems and logistics

Result 3: policies enhancing comprehensive and accessible physical integration, infrastructure, transport and logistics

Proposed programme plan for 2026

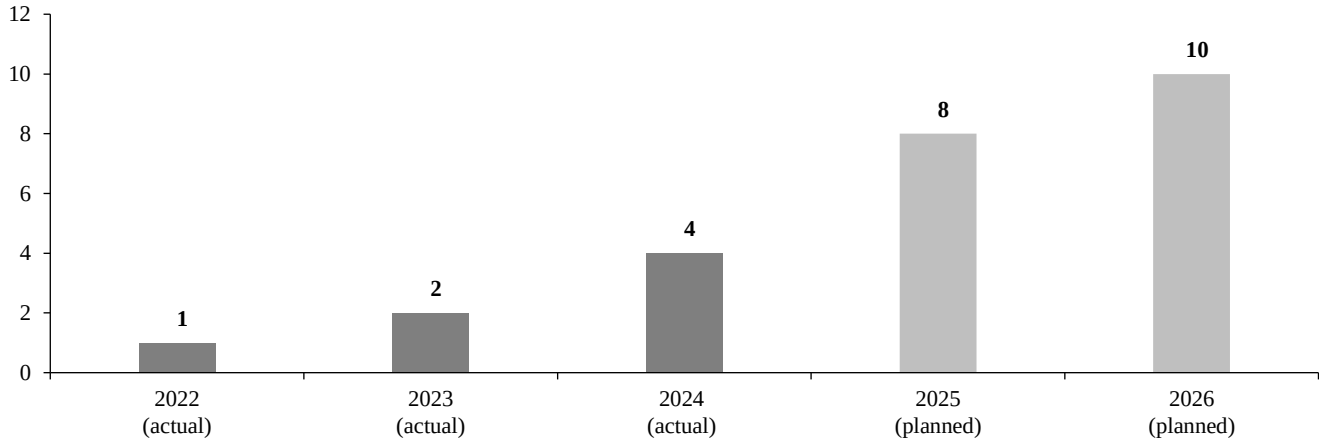
21.29 The subprogramme has made progress in developing a comprehensive database that includes infrastructure, transport and logistics data from countries of the region. This database helps with tracking and analysing key economic indicators, which can support policy recommendations and strategic initiatives and further strengthen the regional capacity to monitor and improve transport and logistics networks. Through collaboration with countries, the subprogramme has enhanced data collection on a diverse array of transport infrastructure, covering modes such as road, rail, inland waterways, ports, airports, intermodal terminals, logistics centres and border crossing points. These data are available on an accessible platform.

Lessons learned and planned change

21.30 The lesson for the subprogramme was that persistent data gaps could hinder the effective identification of challenges and the development of tailored support to member States. In applying the lesson, the subprogramme will support the development of a more comprehensive and coordinated data-collection process in close coordination with member States and will support the identification of infrastructure gaps to better tailor its offer of more targeted and timely support to member States.

21.31 Expected progress towards the objective is presented in the performance measure below (see figure 21.II).

Figure 21.II
Performance measure: number of new policy proposals related to regional physical integration, infrastructure, transport and logistics (cumulative)



Deliverables

21.32 Table 21.4 lists all deliverables of the subprogramme.

Table 21.4
Subprogramme 1: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**1**	**1**	**1**	**1**
1. Provision of infrastructure and logistics services that promote economic efficiency, social equality and environmental sustainability and increase the integration of physical infrastructure in the region	1	1	1	1
Seminars, workshops and training events (number of days)	**8**	**8**	**8**	**9**
2. Workshops and seminars on the relationship between regional trade policy and the attainment of the Sustainable Development Goals; comparative strategies for deepening regional value chains; new challenges in the region related to resilient infrastructure policies; strengthening international trade and regional integration for sustainable development; links between trade and other public policies in the light of developments in the global economy and international trade; cooperation and trade facilitation initiatives in the region; and enhanced integration in foreign trade in Brazil	8	8	8	9
Publications (number of publications)	**20**	**20**	**19**	**19**
3. *International Trade Outlook for Latin America and the Caribbean*	1	1	1	1
4. On economic relations with the United States of America; capital flows to the region; emerging trade; and financial issues in the global economy and the achievement of the Sustainable Development Goals in Latin America and the Caribbean	8	8	7	7
5. On trade and development; maritime transport, sustainable logistics, mobility and infrastructure policies and regional integration; and value chains, modern services and e-commerce in the region	11	11	11	11
Technical materials (number of materials)	**10**	**10**	**10**	**10**
6. Bulletin on the facilitation of transport and trade in Latin America and the Caribbean	6	6	6	6
7. On international trade in goods in Latin America and the Caribbean	4	4	4	4

Category and subcategory	2024 planned	2024 actual	2025 planned	2026 planned

C. Substantive deliverables

Consultation, advice and advocacy: advice to member States, upon request, on value chains, trade policy, integration, sustainable logistics, mobility and infrastructure policies, and social and sustainability issues.

Databases and substantive digital materials: databases on trade data and disputes, including the Interactive Graphic System for International Trade Data, bond issuance, spreads and credit ratings, the Maritime and Logistics Profile of Latin America and the Caribbean data tool, and other data on infrastructure services.

D. Communication deliverables

Outreach programmes, special events and information materials: *CEPAL News* newsletter.

Subprogramme 2
Production and innovation

Objective

21.33 The objective, to which this subprogramme contributes, is to enhance the diversification and structural transformation of productive structures through investment, innovation and the diffusion of new technology and to strengthen links and networks between firms.

Strategy

21.34 To contribute to the objective, the subprogramme will:

(a) Promote policy advocacy and the exchange of experiences and best practices with respect to the dynamics of productive development, with a view to encouraging diversification and structural change among stakeholders at the regional, national and local levels through meetings, seminars and virtual forums, including the provision of technical cooperation services, such as specific training courses and workshops;

(b) Focus on the integration of innovation and new, low-carbon and low-emission technologies in production processes, with an emphasis on technology convergence (i.e., the integration of the Internet of things, 5G, big data, artificial intelligence, information technology, cognitive science, nanotechnology and biotechnologies) and new manufacturing processes (e.g., the industrial Internet and biomanufacturing); on capacity-building in convergent technologies; and on mainstreaming a gender perspective on structural change, with regard to productivity, digital, employment and skills gaps;

(c) Conduct economic analyses and research on the basis of the generation, processing and analysis of information and indicators, disseminate the results of those studies and submit policy recommendations to governments, regional bodies and other relevant stakeholders;

(d) Facilitate the connection of micro-, small and medium-sized enterprises with larger firms that use advanced technologies so as to integrate them into the process of learning and competition in foreign and domestic markets and increase the dissemination of technology in dynamic sectors that ECLAC identifies as drivers of productivity growth;

(e) Analyse and measure the impact of foreign direct investment so as to devise productive development policies that will have positive effects on the diversification of production and export structures; and provide technical assistance, upon request, on the assessment, development and implementation of productive development policies and strategies, thus contributing to the attainment of Sustainable Development Goal 9;

(f) Continue to provide analysis of firms and sectors in the region and further support member States in mitigating fragilities and imbalances in the productive structure, with specific attention given to the digitalization of the productive sector;

(g) Conduct analyses and applied research on issues relevant to productive diversification and the sustainability and social inclusiveness of agriculture and bioeconomy development;

(h) Promote the coherence, integration and coordination of national and regional policies and institutions in agricultural development and provide technical assistance on issues related to sustainable agriculture, bioeconomy development and the sustainable use of genetic resources, helping member States to make progress towards the achievement of Sustainable Development Goals 2, 8, 9, 12, 13, 14 and 15.

21.35 The above-mentioned work is expected to result in:

(a) The design and implementation of productive development and technology policies by governments and regulators aimed at diversifying the productive structure and building capacities in Latin American and Caribbean countries;

(b) The incorporation of innovation and new convergent technologies into production processes;

(c) The design and implementation of policies by governments and regulators that heighten local innovation and adaptation, helping to leverage the potential of foreign direct investment;

(d) Member States moving towards more sustainable patterns of consumption and production;

(e) A diversification process associated with the creation of new opportunities for formal jobs and productivity growth;

(f) Increased resilience of the productive sectors through a significant increase in the digitalization of firms, including micro-, small and medium-sized enterprises;

(g) The incorporation of new concepts and technologies into the design and implementation of evidence-based bioeconomy- and digitization-related policies and strategies for sustainable and inclusive agriculture, food systems and rural development;

(h) The design and implementation of productive and technology policies in agriculture and bioeconomy aimed at diversifying the productive structure and increasing value addition.

Programme performance in 2024

Improved policy for closing connectivity gaps in Chile

21.36 Closing Internet access gaps is a priority in digital transformation policies in order to ensure that no one is left behind. The subprogramme supported the Senate of Chile in the development of a connectivity strategy through the generation of input, the exchange of experiences with the private sector and academia and the coordination of working groups with relevant actors in the digital arena.

21.37 Progress towards the objective is presented in the performance measure below (see table 21.5).

Table 21.5
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	Policymakers received input and exchanged experiences with stakeholders on connectivity issues in Chile	A digital connectivity policy was developed and presented by the Senate of Chile

Planned results for 2026

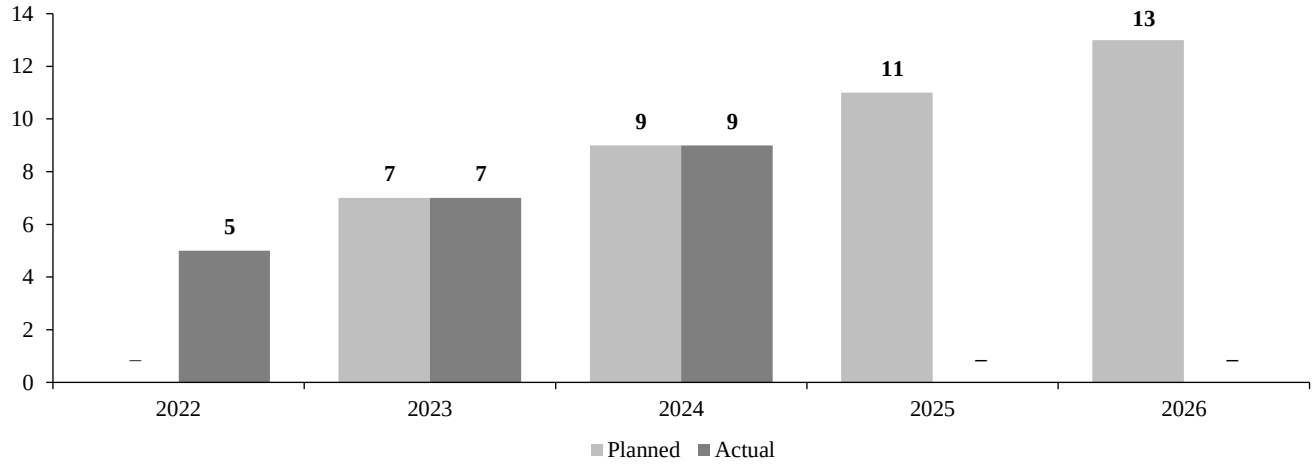
Result 1: improved policies to promote productive development in Latin America and the Caribbean

Programme performance in 2024 and target for 2026

21.38 The subprogramme's work contributed to the development of two additional public policies for local productive development, which met the planned target.

21.39 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 21.III).

Figure 21.III
Performance measure: number of policy measures implemented by government institutions to promote productive development in areas related to business strategies, investment and territorial economic development (cumulative)



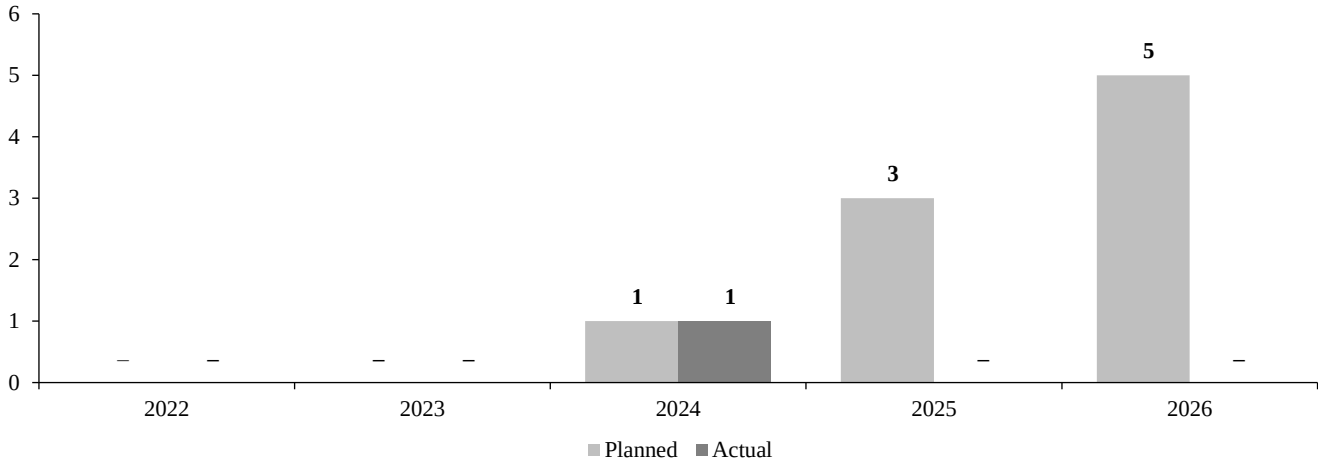
Result 2: increased and enhanced cluster initiatives and other territorial productive articulation initiatives

Programme performance in 2024 and target for 2026

21.40 The subprogramme's work contributed to the development of one additional public policy for cluster development, which met the planned target.

21.41 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 21.IV).

Figure 21.IV
Performance measure: number of new policy measures adopted by productive development governmental institutions aimed at promoting cluster initiatives or other territorial productive articulation initiatives (cumulative)



Result 3: enhanced productive development policies to drive productivity growth across key sectors

Proposed programme plan for 2026

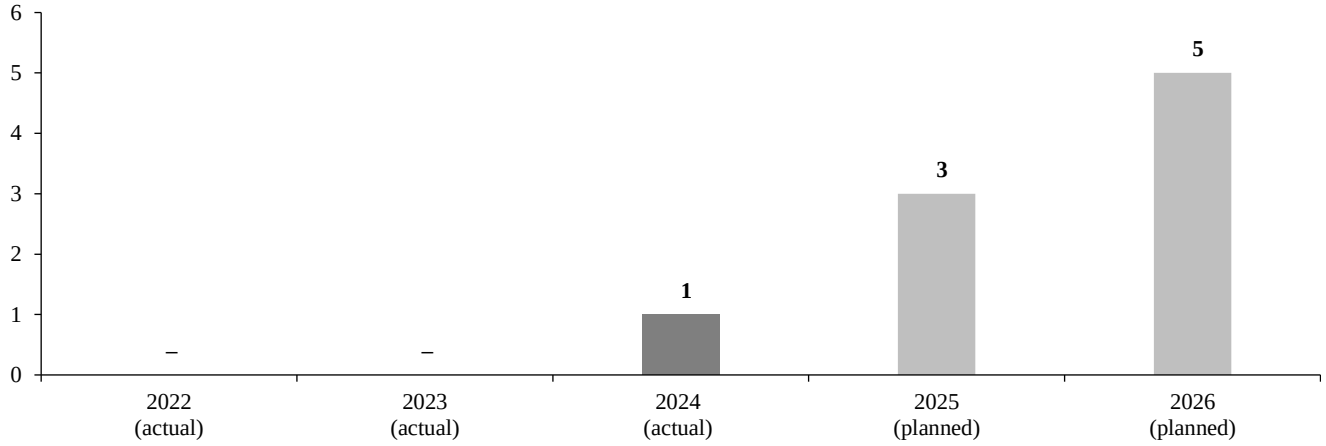
21.42 The subprogramme supports member States in addressing economic development issues such as low investment, stagnating and uneven productivity and a poor business environment by helping to strengthen institutional capacities and governance in order to improve the design and implementation of development policies. It also supports the scaling up of policies that promote innovation and technology adoption, with a focus on small-scale businesses.

Lessons learned and planned change

21.43 The lesson for the subprogramme was that policies aimed at reducing productivity disparities across sectors, regions and firm sizes could help to foster equitable economic growth and be more effective when developed and implemented through multi-stakeholder collaboration. In applying the lesson, the subprogramme will promote stronger partnerships between the public and private sectors and engage actively with stakeholders involved in policymaking to ensure inclusive and sustainable productivity growth.

21.44 Expected progress towards the objective is presented in the performance measure below (see figure 21.V).

Figure 21.V
Performance measure: number of new and/or improved productive development policies adopted by national or subnational governments to drive productivity growth across key sectors (cumulative)



Deliverables

21.45 Table 21.6 lists all deliverables of the subprogramme.

Table 21.6
Subprogramme 2: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	**6**	**12**	**6**	**6**
1. Meetings of the Conference on Science, Innovation and Information and Communications Technologies of ECLAC	–	6	6	–
2. Preparatory meetings of the Conference on Science, Innovation and Information and Communications Technologies of ECLAC	6	6	–	6
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**1**	**1**	**2**	**3**
3. On the region's production structure, foreign direct investment, new and emerging technologies and policy; and on issues related to agriculture	1	1	2	3
Seminars, workshops and training events (number of days)	**47**	**47**	**54**	**53**
4. Training and seminars on foreign direct investment and small and medium-sized enterprises, new and emerging technologies and productive structure diversification; diversification and structural transformation of productive structures to foster a productive, inclusive and sustainable future; and productive development in agriculture, the bioeconomy and the rural economy	6	6	9	10
5. Training courses on innovation policy management and economies of the region	35	35	35	35
6. Meeting of experts to analyse recent structural changes, study the trends and progress of the digital economy, and examine recent trends in the behaviour of economic agents in sectors and countries in the region; and meeting of experts to analyse productive development policies for sustainable agriculture, sustainable food systems, the bioeconomy or digitalization in agriculture	6	6	10	8

C. **Substantive deliverables**

Consultation, advice and advocacy: advice to member States, upon request, on policies and strategies for productive development and competitiveness, sustainable agriculture, sustainable food systems, bioeconomy, and digitalization in agriculture; public-private partnerships; foreign direct investment; small and medium-sized enterprises; and innovation systems and new and emerging technologies.

Databases and substantive digital materials: databases on economic activity in specific sectors; software for the analysis of the competitiveness of nations; and statistical information on the main economic agents in the region.

Subprogramme 3
Macroeconomic policies and growth

Objective

21.46 The objective, to which this subprogramme contributes, is to foster sustainable and inclusive growth in Latin America and the Caribbean by strengthening the capacity of policymakers and other stakeholders in the region to analyse current and emerging macroeconomic and development finance issues and to evaluate, design and implement development-centred macroeconomic and development financing policies that incorporate a gender perspective and are based on comparative policy analysis.

Strategy

21.47 To contribute to the objective, the subprogramme will:

(a) Prepare the annual *Economic Survey of Latin America and the Caribbean, the Preliminary Overview of the Economies of Latin America and the Caribbean, the Fiscal Panorama of Latin America and the Caribbean* and other reports focusing on Latin America and the Caribbean to support member States in responding to current and emerging macroeconomic and financing for development trends;

(b) Conduct applied analysis to support member States in the evaluation and formulation of macroeconomic and financing for development policies that promote equitable economic growth in line with the Sustainable Development Goals;

(c) Facilitate South-South interaction of policymakers and dialogue with regional and international organizations through seminars, including the annual Regional Seminar on Fiscal Policy, and through workshops on macroeconomic and financing for development policies;

(d) Foster the establishment and operation of networks of key stakeholders, including policymakers, academics, private sector analysts, members of civil society organizations and the public at large, to enable regional discussion of key macroeconomic and financing for development issues;

(e) Provide technical cooperation and advisory services, upon request, in the areas of macroeconomic, labour and financing for development policies.

21.48 These workstreams will help member States to make progress towards achieving the Sustainable Development Goals, with an emphasis on Goals 8, 16 and 17.

21.49 The above-mentioned work is expected to result in:

(a) Enhanced analysis of current and emerging macroeconomic and development finance issues by policymakers and other stakeholders in the region;

(b) Strengthened evaluation, design and implementation by policymakers of macroeconomic and development financing policies that mainstream a gender perspective and are based on comparative policy analysis.

Programme performance in 2024

Regional push for progressive global taxation to finance sustainable development

21.50 The subprogramme has supported countries in developing common positions on domestic and international tax issues in order to bolster resource mobilization efforts to finance the development and climate investment needed to achieve the Sustainable Development Goals. As the technical secretariat of the Regional Platform for Tax Cooperation in Latin America and the Caribbean, the subprogramme provided analytical input to the progressive taxation working group as it reviewed policy options, in particular for income and wealth taxes. Building on those discussions, Brazil presented a proposal for a global minimum wealth tax to the Group of 20 during its presidency.

21.51 Progress towards the objective is presented in the performance measure below (see table 21.7).

Table 21.7
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	Regional Platform for Tax Cooperation in Latin America and the Caribbean was launched and ECLAC was designated the technical secretariat	Brazil presented a proposal for a global minimum wealth tax to the Group of 20

Planned results for 2026

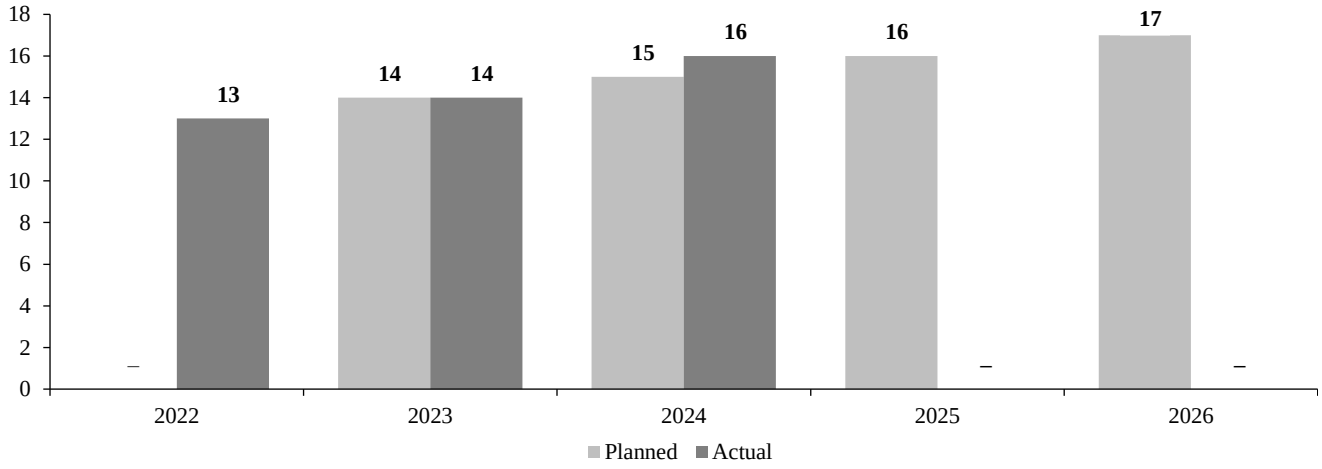
Result 1: strengthened resource mobilization to support sustainable development and the achievement of the Sustainable Development Goals in Latin America and the Caribbean

Programme performance in 2024 and target for 2026

21.52 The subprogramme's work contributed to two additional national resource mobilization, policies and strategies, in the Dominican Republic and Guatemala, which exceeded the planned target.

21.53 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 21.VI).

Figure 21.VI
Performance measure: resource mobilization policies and strategies to support sustainable development and the achievement of the Sustainable Development Goals (cumulative)



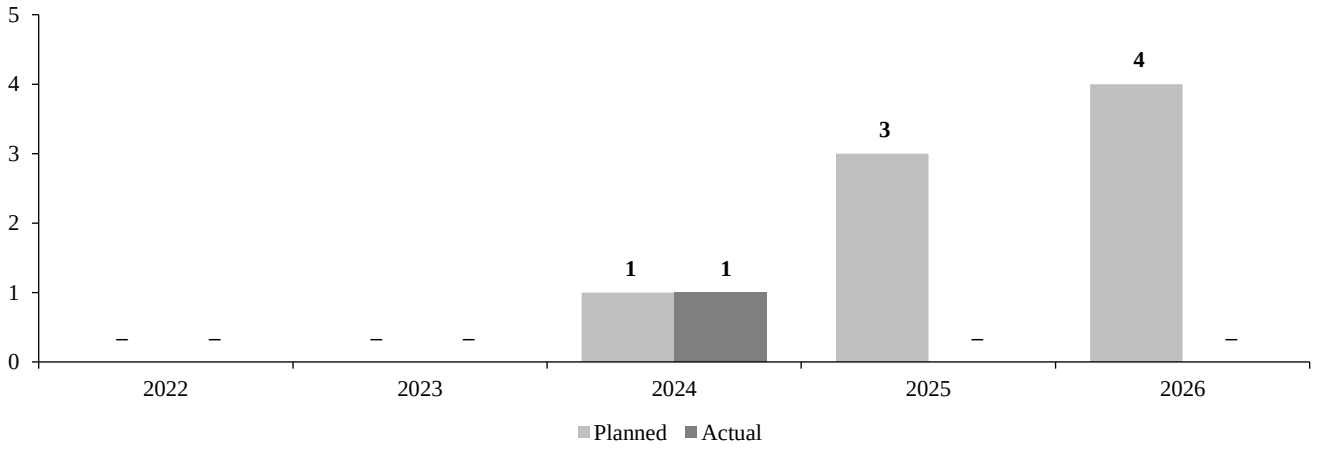
Result 2: macroeconomic and financing for development policies for economic growth, investment, fiscal sustainability and climate resilience

Programme performance in 2024 and target for 2026

21.54 The subprogramme's work contributed to the adoption of the Income Tax (Amendment) Act in Jamaica, which met the planned target.

21.55 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 21.VII).

Figure 21.VII
Performance measure: number of growth, investment or financing strategies adopted in line with objectives outlined during the United Nations climate change conferences starting in 2023 (cumulative)



Result 3: strengthened tax expenditure policymaking to support the Sustainable Development Goals

Proposed programme plan for 2026

21.56 Tax expenditure, or revenue foregone owing to preferential tax treatments, is used widely in the region and can have an impact on the resources that countries can deploy to finance the Sustainable

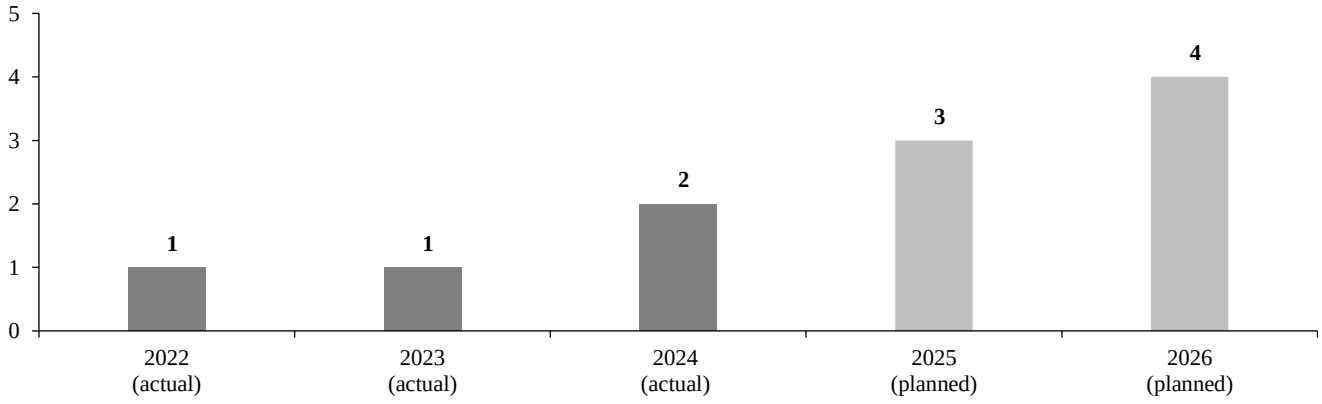
Development Goals. ECLAC estimates that revenue losses due to tax expenditure in 2021 averaged 3.7 per cent of gross domestic product in the region, equivalent to 19 per cent of average central government budgetary expenditure. The subprogramme is providing member States with technical reports and capacity-building workshops to improve the quantification of tax expenditure and the evaluation of preferential tax treatments.

Lessons learned and planned change

21.57 The lesson for the subprogramme was that countries could benefit from workshops in which they can share their experiences and learn from other countries, combined with the discussion of analytical material on emerging policy topics. In applying the lesson, the subprogramme will expand knowledge-sharing spaces in technical workshops to strengthen the capacity of policymakers to analyse and review tax expenditure with the aim of aligning them with the requirements to achieve the Sustainable Development Goals.

21.58 Expected progress towards the objective is presented in the performance measure below (see figure 21.VIII).

Figure 21.VIII
Performance measure: number of countries estimating and evaluating tax expenditure in line with the objectives of the Sustainable Development Goals (cumulative)



Deliverables

21.59 Table 21.8 lists all deliverables of the subprogramme.

Table 21.8
Subprogramme 3: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*

6. On specific economic issues in Uruguay	1	1	1	1
7. On a high-priority issue concerning macroeconomic and development policies in Colombia	1	1	1	–
8. On current and emerging macroeconomic and development finance issues in Brazil to foster sustainable and inclusive growth	1	1	1	1

C. Substantive deliverables

Consultation, advice and advocacy: advice to member States, upon request, on macroeconomic, fiscal and monetary policy analysis and formulation, macroeconomic analysis and systems for monitoring economic development, and on the design and implementation of financing for development schemes and policies geared towards financial and productive development and/or social protection; technical cooperation services, upon request, in the fields of social policy, equality and structural change in Uruguay; and technical cooperation services to public agencies of Colombia, at their request.

Databases and substantive digital materials: statistical information for policymakers, academia and private sector analysts on economic, monetary and financial variables for countries in the region; and statistical data sets covering government operations, public debt, tax revenue and revenue from non-renewable natural resources.

Subprogramme 4
Social development and equality

Objective

21.60 The objective, to which this subprogramme contributes, is to improve the overall well-being of the people of the region and achieve greater social and economic equality in line with the 2030 Agenda and with full respect for human rights.

Strategy

21.61 To contribute to the objective, the subprogramme will focus on addressing the multiple dimensions of poverty, inequality and well-being; bridging gaps in well-being and addressing inequalities; ensuring access to universal, comprehensive and sustainable social protection; promoting social and labour inclusion policies; promoting health, pensions and educational policies as key elements of inclusive social development; and improving the capacity of social policy to adapt to new and emerging challenges related to topics such as demographic transition, migration, changes in the labour market, new technologies and climate change. In implementing these priorities, the subprogramme will:

(a) Support countries in implementing the Regional Agenda for Inclusive Social Development, in line with the outcomes and agreements reached at the Regional Conference on Social Development in Latin America and the Caribbean, by conducting applied research, generating analyses, disseminating results, providing training and advisory services, and formulating policy recommendations, as well as by promoting policy dialogue for inclusive social development among policymakers, academia, civil society organizations and other stakeholders, and by facilitating the exchange of experiences and good practices;

(b) Assist countries in the design, implementation, monitoring and evaluation of strategies, policies and programmes. Research and advisory services will emphasize social protection systems with full respect for human rights, taking an equality-oriented and sustainable approach; the protection and promotion of the rights of vulnerable groups; social investment; and education and public health systems. Doing so will therefore help member States to make progress towards the achievement of Sustainable Development Goals 1, 2, 3, 4, 8, 10 and 16;

(c) Assist governments in addressing the socioeconomic consequences of crises through advisory services and knowledge-sharing activities in affected social policy areas.

21.62 The above-mentioned work is expected to result in:

(a) Deeper understanding by policymakers of the structural social challenges and disparities that characterize the region;

(b) Measures and public policies promoting greater social and economic equality and overall well-being of the people of the region;

(c) Expanded and improved social protection systems that take into consideration the social impacts that arise from crises, emerging challenges and catastrophic events and the need to build greater resilience over time.

Programme performance in 2024

Regional agreement for a sustainable, inclusive and efficient investment in education

21.63 The subprogramme, with the support of the World Bank and the United Nations Educational, Scientific and Cultural Organization, developed a document on the financial sustainability of education, which supported the discussions at the extraordinary meeting of ministers of education in Latin America and the Caribbean, held in Santiago in January 2024. In its final declaration, member States requested the creation of an ad hoc working group to develop a proposal on educational financing, which ECLAC was invited to lead and coordinate.

21.64 Progress towards the objective is presented in the performance measure below (see table 21.9).

Table 21.9
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	28 countries adopted the Santiago Declaration and committed themselves to promoting efficient, equitable and inclusive educational financing with financial sustainability, improving resource management and maintaining or increasing educational investment

Planned results for 2026

Result 1: strengthened comprehensive and universal social protection systems

Programme performance in 2024 and target for 2026

21.65 The subprogramme's work contributed to 23 countries identifying obstacles and challenges to achieving universal and comprehensive social protection systems, which met the planned target.

21.66 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 21.10).

Table 21.10
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Countries agreed on the importance of addressing social protection gaps to achieve universal and comprehensive social protection systems	Resolution 5 (V) of the Regional Conference on Social Development in Latin America and the Caribbean adopted by 18 countries, in which they reaffirmed their commitment to achieve universal and comprehensive social protection systems	Countries identified obstacles and challenges to achieving universal and comprehensive social protection systems	Countries draft strategies or programmes to achieve universal social protection systems	Countries advance plans to implement strategies or programmes to achieve universal and comprehensive social protection systems

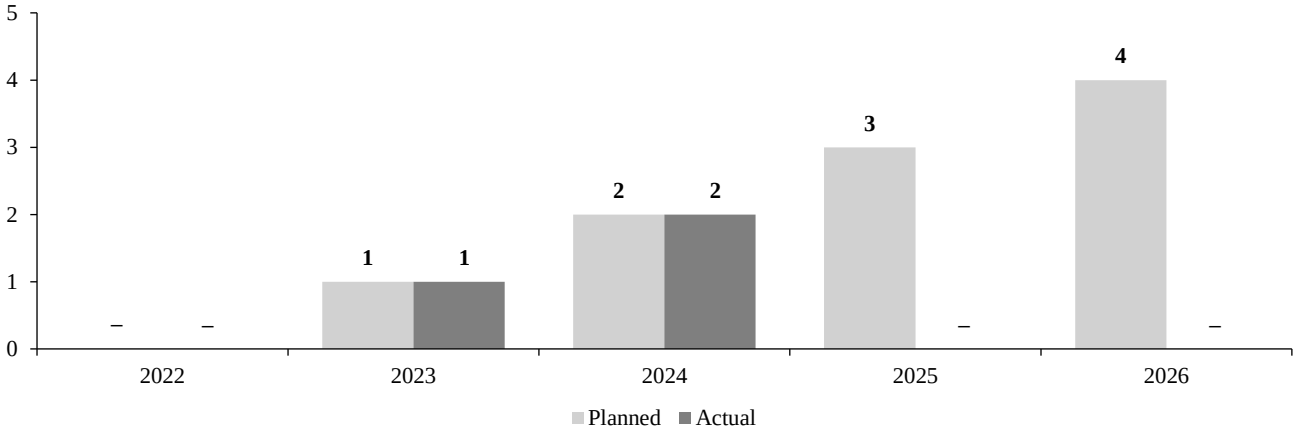
Result 2: expanding social protection systems to include informal and independent workers

Programme performance in 2024 and target for 2026

21.67 The subprogramme's work contributed to one additional national policy or strategy, which met the planned target.

21.68 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 21.IX).

Figure 21.IX
Performance measure: number of national policies or strategies that include actions for the expansion of social protection measures oriented to informal and independent workers (cumulative)



Result 3: better policies for labour inclusion, including the impacts of climate change

Proposed programme plan for 2026

21.69 The subprogramme has worked on the development of knowledge products on labour inclusion and its effects on poverty and inequality, and progress has been made on discussion on the new risk structure for social protection systems, including the impacts of climate change.

Lessons learned and planned change

21.70 The lesson for the subprogramme was that there was greater demand from member States for technical support to develop strategies and policies for labour inclusion, including the impacts of climate change. In applying the lesson, the subprogramme will tailor its technical assistance to better address the challenges related to the development of labour inclusion policies, including the impacts of climate change, prepare knowledge products with policy recommendations and promote spaces to advance technical discussions in this area.

21.71 Expected progress towards the objective is presented in the performance measure below (see table 21.11).

Table 21.11
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	–	At least one country in the region identifies gaps to advance strategies for labour inclusion, including the impacts of climate change	In at least one country, multisectoral actors collaborate to address the gaps identified to advance labour inclusion, including the impacts of climate change

Deliverables

21.72 Table 21.12 lists all deliverables of the subprogramme.

Table 21.12
Subprogramme 4: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies

Seminars, workshops and training events (number of days)	**14**	**14**	**14**	**14**
4. Meetings of experts to examine mechanisms that contribute to increasing coverage, sufficiency and sustainability within national social protection systems with a rights and equality approach and to discuss trends in social issues and challenges for social policy institutions	8	8	8	8
5. Training activities on poverty reduction, equality and well-being and access to social protection networks	6	6	6	6
Publications (number of publications)	**8**	**8**	**9**	**8**
6. *Social Panorama of Latin America and the Caribbean*	1	1	1	1
7. Position document for the Regional Conference on Social Development in Latin America and the Caribbean	–	–	1	–
8. Country office studies	2	2	2	1
9. On topics including social rights among specific population groups, social protection, productive and inclusive labour policies, pension systems, health, education, and social institutions, policies and programmes	5	5	5	6
Technical materials (number of materials)	**1**	**1**	**–**	**–**
10. On social development policies; and on analytical and methodological proposals to foster the universal implementation of social policies, including on social protection, and enhance their impact on equality gaps, to enhance intersectoral and interinstitutional cooperation and increase the effectiveness and efficiency of social policies	1	1	–	–

C. Substantive deliverables

Consultation, advice and advocacy: advice to member States, upon request, on social policies for equality, social investment and policies; analytical and methodological proposals to enhance intersectoral and interinstitutional cooperation aimed at improving effectiveness and efficiency; and the design, implementation and evaluation of social policies for the needs of the most vulnerable.

Databases and substantive digital materials: Observatory on Social Development in Latin America and the Caribbean, which includes databases on social development, young people, non-contributory social protection, social institutions and regional commitments.

D. Communication deliverables

Digital platforms and multimedia content: knowledge management tools, including on the strengthening of the Latin American and Caribbean Network on Social Development; and infographics or other material to disseminate research findings and policy recommendations.

Subprogramme 5
Gender equality and women's autonomy

Objective

21.73 The objective, to which this subprogramme contributes, is to strengthen gender equality and women's autonomy in sustainable development strategies of the Latin American and Caribbean countries.

Strategy

21.74 To contribute to the objective, the subprogramme will:

(a) Produce knowledge and develop gender statistics and indicators, expanding the scope and improving the quality of data and indicators available from the Gender Equality Observatory for Latin America and the Caribbean;

(b) Provide technical support to mainstream a gender perspective into the work of the Statistical Conference of the Americas of ECLAC and its working groups;

(c) Provide technical assistance to the countries in the region in developing policies to promote gender equality, and strengthen the capacities of national mechanisms for the advancement of women and those of national statistical offices;

(d) Foster the increased dissemination of publications and research findings among policymakers and other relevant stakeholders, including through the Gender Equality Observatory for Latin America and the Caribbean. Specific attention will be devoted to the economic autonomy of women in an integrated framework, connected to physical autonomy and to decision-making autonomy.

21.75 The above-mentioned work is expected to result in:

(a) Enhanced production of gender statistics by national statistical offices;

(b) Strengthened capacities of member States in building policies for gender equality along with the implementation of the 2030 Agenda;

(c) Advancement of gender equality across the region.

Programme performance in 2024

Latin American and Caribbean countries address the unequal distribution of unpaid care and domestic work

21.76 According to official statistics provided by ECLAC member States that are published in the Gender Equality Observatory for Latin America and the Caribbean, women undertake, on average, three times more unpaid care work compared with men. The subprogramme has delivered technical assistance to member States regarding the aspects of time-use measurements and the development of care policies. The subprogramme has also been advocating, through research, technical assistance and its contributions in support of the deliberations and agreements of the Regional Conference on Women in Latin America and the Caribbean, for the establishment of national care systems that can address the unfair distribution of unpaid care and domestic work between men and women.

21.77 Progress towards the objective is presented in the performance measure below (see table 21.13).

Table 21.13
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
At the fifteenth session of the Regional Conference on Women in Latin America and the Caribbean, member States adopted the Buenos Aires Commitment, in which they agreed to take steps towards a care society and comprehensive care systems	Colombia approved Law No. 2281, which created the Ministry of Equality and a national care system	Brazil approved Law No. 15,069, which created the national care policy, and the President of Chile signed a draft law to create the national care system “Chile Cuida”

Planned results for 2026

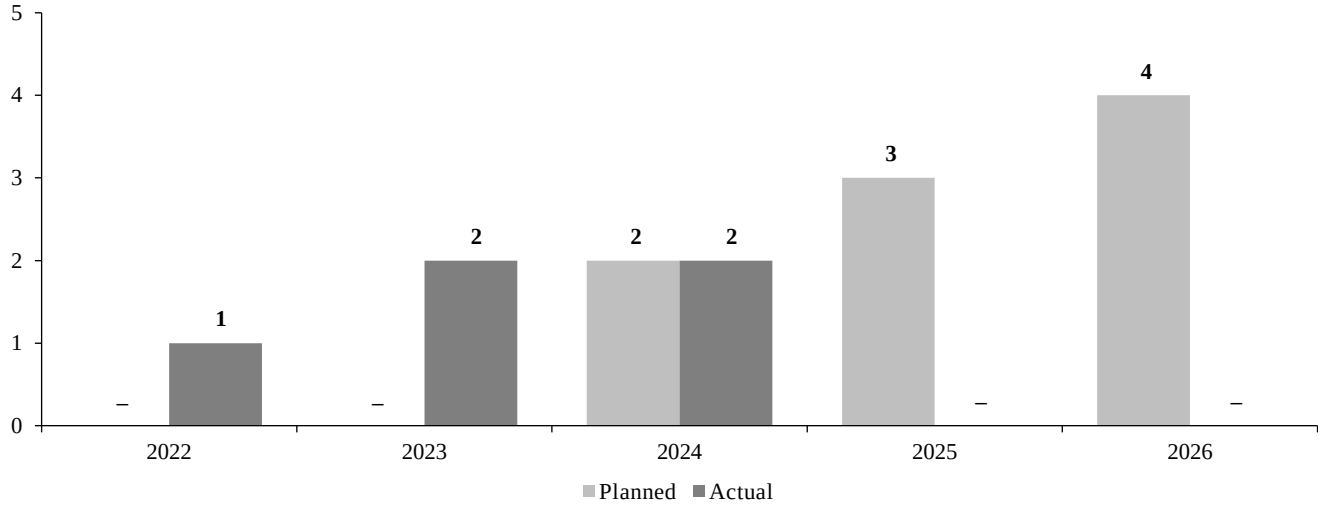
Result 1: increased use of new technologies and digital tools to design, implement and monitor care policies

Programme performance in 2024 and target for 2026

21.78 The subprogramme's work to date contributed to two national and subnational governments using new technologies for the design and implementation of care policies, which met the planned target.

21.79 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 21.X).

Figure 21.X
Performance measure: number of national or subnational governments that use new technologies for the design and implementation of care policies (cumulative)



Result 2: advances in the production of gender statistics on time use and unpaid care work

Programme performance in 2024 and target for 2026

21.80 The subprogramme's work contributed to two countries carrying out time-use surveys, which met the planned target.

21.81 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 21.14).

Table 21.14
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Countries of the region agreed to create a community of practice to advance time-use measurements	The community of practice for measuring the care society was launched within the framework of the Statistical Conference of the Americas	Chile carried out its new time-use survey Uruguay presented results from its 2022 time-use survey	Two countries present the results of time-use surveys carried out in 2024–2025	Countries are able to report on indicator 5.4.1 of the Sustainable Development Goals to the regional data bank for statistical follow-up to the Goals in Latin America and the Caribbean and to the Gender Equality Observatory for Latin America and the Caribbean

Result 3: gender mainstreaming in foreign policies and international cooperation

Proposed programme plan for 2026

21.82 Gender mainstreaming in foreign policies and international cooperation can help to address structural gender inequalities. The subprogramme has laid the groundwork for this through the establishment of partnerships, such as the collaboration among Chile, Colombia, Germany, Mexico and ECLAC in the community of practice on feminist foreign policies.

Lessons learned and planned change

21.83 The lesson for the subprogramme was the need for tailored capacity-building initiatives and accessible knowledge-sharing platforms to further advance the workstream. In applying the lesson, the subprogramme will prioritize the co-design of the community of practice with member States to ensure its relevance and inclusivity. The subprogramme will create a virtual knowledge-sharing platform hosted by ECLAC, develop model guidelines for institutionalizing these policies and provide enhanced training to government representatives.

21.84 Expected progress towards the objective is presented in the performance measure below (see table 21.15).

Table 21.15
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Mexico is the first Latin American country to adopt a feminist foreign policy	Chile launches a feminist foreign policy	Colombia adopts a feminist foreign policy	Countries have access to information on best practices for gender mainstreaming in foreign policy	At least three countries in the region begin to develop instruments for gender mainstreaming in foreign policy

Deliverables

21.85 Table 21.16 lists all deliverables of the subprogramme.

Table 21.16
Subprogramme 5: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*

5. Meetings to consider priority issues emerging from the fourteenth and fifteenth sessions of the Regional Conference on Women in Latin America and the Caribbean, and in preparation for the sixteenth session of the Conference, on best practices and challenges in the implementation of policies related to gender equality, the promotion of an economic agenda for gender equality, the monitoring of the Sustainable Development Goals and the analysis of policies on gender equality and the autonomy of women; a meeting with organizations participating in the Gender Equality Observatory for Latin America and the Caribbean; and an inter-agency meeting with United Nations agencies, funds and programmes	4	4	4	3
Publications (number of publications)	**5**	**5**	**5**	**5**
6. Gender Equality Observatory for Latin America and the Caribbean studies and series on gender analysis, including on gender mainstreaming policies, the economic and physical autonomy of women and poverty from a gender perspective	5	5	4	5
7. For the sixteenth session of the Regional Conference on Women in Latin America and the Caribbean	–	–	1	–
C. Substantive deliverables				
Consultation, advice and advocacy: advice to member States, upon request, on matters relating to the fulfilment of regional and international agreements on gender equality.				
Databases and substantive digital materials: Gender Equality Observatory for Latin America and the Caribbean; and gender statistics with data from household and time-use surveys and other sources.				

Subprogramme 6
Population and development

Objective

21.86 The objective, to which this subprogramme contributes, is to fully integrate population issues into development planning, policies and programmes of the countries of Latin America and the Caribbean.

Strategy

21.87 To contribute to the objective, the subprogramme will:

(a) Provide training on demographic analysis, population estimates and projections; and generate knowledge on population and demographic trends to underpin evidence-based policymaking and improve the use of census data, vital statistics, administrative records and surveys through the development of procedures, computer programmes and information systems, thus helping member States to make progress towards the achievement of Sustainable Development Goals 1, 3, 5, 8, 10, 11 and 17;

(b) Provide technical support in the follow-up to international agreements, including the Framework of Action for the follow-up to the Programme of Action of the International Conference on Population and Development beyond 2014, the Montevideo Consensus on Population and Development, the Madrid International Plan of Action on Ageing, 2002, and the Global Compact for Safe, Orderly and Regular Migration, with gender-sensitive, disability and ethnic analysis, and in the follow-up of the population-related targets of the 2030 Agenda;

(c) Provide technical assistance in the planning, design, implementation and dissemination of population and housing censuses and in the inclusion of a sociodemographic perspective in the design and implementation of policies at the national and local levels, and organize workshops and seminars to facilitate South-South cooperation, networking and the sharing of best practices;

(d) Conduct and disseminate applied research and analysis on issues such as population ageing, adolescent fertility, persons with disabilities, international migration, Indigenous Peoples, Afrodescendent populations and the socioeconomic impact of demographic transition, including recommendations on how to reduce inequalities;

(e) Play a leading role for the region in the United Nations Network on Migration and in other networks relevant to population issues, such as the National Transfer Accounts network.

21.88 The above-mentioned work is expected to result in:

(a) Enhanced monitoring of population trends by local and national authorities;

(b) Increased use of demographic analysis, population estimates and other evidence for policymaking.

Programme performance in 2024

Advancement of the population and development agenda and the rights of persons with disabilities in Latin America and the Caribbean

21.89 During the fifth session of the Regional Conference on Population and Development in Latin America and the Caribbean, the subprogramme, in its role as technical secretariat of the Conference and in coordination with Colombia, as Chair, organized a panel on persons with disabilities and the population and development agenda to analyse the achievements and challenges related to the realization of their rights since the adoption of the Programme of Action of the International Conference on Population and Development. The subprogramme also supported the initiation of work, in collaboration with member States, to examine possible strategies to advance the inclusion of persons with disabilities.

21.90 Progress towards the objective is presented in the performance measure below (see table 21.17).

Table 21.17
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	The issue of disability is addressed at the fifth meeting of the Presiding Officers of the Regional Conference on Population and Development	The fifth session of the Regional Conference on Population and Development establishes, in resolution 5 (V), the Cartagena group on the rights of persons with disabilities and the population and development agenda

Planned results for 2026

Result 1: countries of the region analyse the impact of population ageing on inclusive and sustainable economic growth using national transfer accounts

Programme performance in 2024 and target for 2026

21.91 The subprogramme's work contributed to strengthened national capacities on methodologies to produce national transfer accounts and national inclusion accounts in three countries, which did not meet the planned target of four countries producing updated national transfer accounts and conducting studies to examine inequalities between socioeconomic groups. The target was not met owing to delays in the availability of the United Nations national inclusion accounts manual, which underpins methodological guidance on disaggregating national transfer accounts by socioeconomic group.

21.92 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 21.18).

Table 21.18
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Colombia and Jamaica developed national studies based on national transfer accounts Colombia updated its national transfer account estimates	Guatemala published a study on national transfer accounts Representatives of Brazil, Colombia, Costa Rica, Guatemala, Jamaica and Mexico participated in technical discussions on the impact of changes in population growth and age structures on macroeconomic performance, gender equality and generational equality	Strengthened national capacities in Colombia, Costa Rica and Jamaica to produce national transfer accounts and national inclusion accounts	Two additional countries produce updated national transfer accounts and conduct studies to examine inequalities between socioeconomic groups	Two countries present at the sixth session of the Regional Conference of Population and development their progress in the use of the national transfer accounts methodology

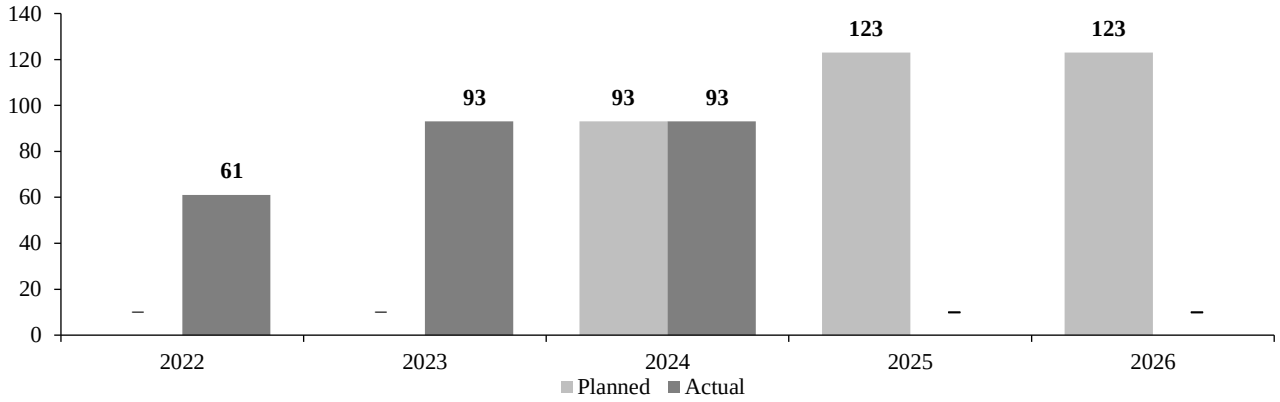
Result 2: strengthened demographic analysis for public policy

Programme performance in 2024 and target for 2026

21.93 The subprogramme's work to date contributed to 93 participants from institutions in the region certified in demographic analysis for sustainable development, which met the planned target for 2024.

21.94 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 21.XI).

Figure 21.XI
Performance measure: number of participants from institutions in the region certified in demographic analysis for sustainable development (cumulative)



Result 3: Madrid International Plan on Ageing implemented at the country level

Proposed programme plan for 2026

21.95 In Latin America and the Caribbean, people over the age of 60 are projected to comprise approximately 25 per cent of the population in 2050, up from 14.3 per cent in 2024.[1] Adjustments to various public policies are required to address these changes. To support this, the subprogramme, as technical secretariat for the Regional Intergovernmental Conference on Ageing and the Rights of Older Persons in Latin America and the Caribbean, has supported countries in the preparation of national voluntary reports on the implementation of Madrid International Plan of Action on Ageing and provided technical assistance on matters related to ageing and the rights of older persons.

Lessons learned and planned change

21.96 The lesson for the subprogramme was that there was unmet demand from Caribbean countries for technical support. In applying the lesson, the subprogramme will tailor its technical assistance and increase services provided to Caribbean countries in support of the preparation of voluntary national reports on the implementation of the Madrid International Plan of Action on Ageing.

21.97 Expected progress towards the objective is presented in the performance measure below (see table 21.19).

[1] See United Nations, Department of Economic and Social Affairs. *World Population Prospects 2024*.

Table 21.19
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
16 Latin American countries prepared voluntary national reports on the implementation of the Madrid International Plan of Action on Ageing	–	–	Countries have access to an updated guide for the preparation of the voluntary national reports	At least 20 countries in the region, including Caribbean countries, prepare voluntary national reports on the implementation of Madrid International Plan of Action on Ageing

Deliverables

21.98 Table 21.20 lists all deliverables of the subprogramme.

Table 21.20
Subprogramme 6: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	**9**	**9**	**5**	**9**
1. Session of the Regional Conference on Population and Development in Latin America and the Caribbean	9	9	–	9
2. Meetings of the Presiding Officers of the Regional Conference on Population and Development in Latin America and the Caribbean	–	–	5	–
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**1**	**1**	**1**	**1**
3. On migration; the socioeconomic impact of population dynamics; Indigenous Peoples and people of African descent; and ageing, including gender-sensitive analysis	1	1	1	1
Seminars, workshops and training events (number of days)	**29**	**29**	**70**	**29**
4. Meetings of experts on demographic change and its consequences for development, including issues related to Indigenous Peoples and people of African descent; ageing-related issues, persons with disabilities and migrants; the implementation of recommendations of the Regional Conference on Population and Development; and population censuses	5	5	2	5
5. Workshops on demographic analysis and projections; REDATAM[a] (information system on censuses); sociodemographic variables and emerging issues in development policies, programmes and projects; and population and development	20	20	20	20
6. Training course on demographic analysis with gender-sensitive analysis	–	–	44	–
7. Training courses on quantitative analytical methods and techniques	4	4	4	4
Publications (number of publications)	**8**	**8**	**9**	**9**
8. On demography and on population and development	3	3	3	4
9. On demography and a gender perspective; demographic trends of Indigenous Peoples and people of African descent; sociodemographic trends of persons with disabilities; and population and development	5	5	5	5
10. On socioeconomic development of the provinces in Argentina	–	–	1	–

Category and subcategory	2024 planned	2024 actual	2025 planned	2026 planned
Technical materials (number of materials)	**3**	**3**	**3**	**3**
11. On population projection and censuses	1	1	1	1
12. On ageing and development and on REDATAM	2	2	2	2

C. Substantive deliverables

Consultation, advice and advocacy: advice to member States, upon request, on population and development, including REDATAM-related computer applications, population and housing censuses and data collection, demographic analysis and methodologies for population projections and estimates, on the incorporation of sociodemographic variables into development policies, programmes and projects, with a gender perspective and considering specific groups, on the implementation of the Montevideo Consensus on Population and Development and the Regional Strategy for the Implementation in Latin America and the Caribbean of the Madrid International Plan of Action on Ageing, the 2030 Agenda and the Global Compact for Safe, Orderly and Regular Migration; and advocacy at intergovernmental forums in the region on population and development issues.

Databases and substantive digital materials: guidelines on the production of demographic estimates and population projections at the national and subnational levels; a regional databank of censuses on population and housing, and vital statistics; databases on demographic trends and population projections, spatial distribution and urbanization; databases on Indigenous Peoples and people of African descent and on maternity and migration; REDATAM software for the processing, analysis and dissemination of census data; and a platform to follow up on the implementation of the Montevideo Consensus on Population and Development.

D. Communication deliverables

Digital platforms and multimedia content: subprogramme's pages on the ECLAC website.

[a] REDATAM is an acronym that stands for "retrieval of data for small areas by microcomputer".

Subprogramme 7
Sustainable development and human settlements

Objective

21.99 The objective, to which this subprogramme contributes, is to ensure the integration and due consideration of environmental, climate and urban management concerns and opportunities into policymaking and policy implementation, with a rights-based approach and ensuring that no one is left behind.

Strategy

21.100 To contribute to the objective, the subprogramme will:

(a) Enhance knowledge of the region's economic, social and environmental profiles and continue to convene and involve national and subnational governments, academia, civil society and other stakeholders to foster participatory decision-making;

(b) Assess the advances made by countries in integrating sustainability criteria into public policies, including monitoring the implementation of principle 10 of the Rio Declaration on Environment and Development, as established in the Regional Agreement on Access to Information, Public Participation and Justice in Environmental Matters in Latin America and the Caribbean (Escazú Agreement), and providing support to the Forum of the Countries of Latin America and the Caribbean on Sustainable Development;

(c) Strengthen national capacities to design and implement public policies for the sustainability of human settlements and the implementation of the 2030 Agenda, the New Urban Agenda, the nationally determined contributions under the Paris Agreement and the decisions taken within the framework of the Conference of the Parties to the United Nations Framework Convention on Climate Change;

(d) Conduct the above-mentioned activities through research, knowledge products, the organization of expert group meetings, seminars and workshops, and the provision of technical

assistance to member States, upon request, helping member States to make progress towards the achievement of Sustainable Development Goals 11, 12, 13, 15 and 16;

(e) Promote the creation of networks with a wide range of stakeholders in the environmental, economic and social sectors relevant to sustainable development, including government institutions, academia, civil society, the private sector and relevant sectoral bodies;

(f) Support the formulation of public policies to transform the development model, with a focus on driving sustainable growth and strengthening environmental institutions and governance.

21.101 The above-mentioned work is expected to result in:

(a) Better-designed policies for sustainable development and environmental performance, policies to address the economics of climate change and policies that support sustainable and inclusive human settlements;

(b) Sustainable development and climate change criteria effectively mainstreamed into more areas of government;

(c) The design of guidelines for the implementation of economic plans towards a low-carbon, low-emission and more resilient economy that creates more employment and economic well-being.

Programme performance in 2024

Escazú Agreement advances gender mainstreaming and the protection of human rights defenders in environmental matters

21.102 The subprogramme supports the Parties to the Escazú Agreement through the provision of technical assistance and guidance. At the third meeting of the Conference of the Parties, the subprogramme prepared background documents that supported the discussions and provided support to the coordinators of the open-ended ad hoc working group on human rights defenders in environmental matters (decision I/6) and to the Presiding Officers by offering expert advice in consultations and negotiations.

21.103 Progress towards the objective is presented in the performance measure below (see table 21.21).

Table 21.21
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
First meeting of the Conference of the Parties to the Escazú Agreement led to the adoption of rules of procedure and to the decision to develop an action plan on human rights defenders in environmental matters	Second meeting of the Conference of the Parties to the Escazú Agreement elected the committee to support implementation and compliance	Third meeting of the Conference of the Parties to the Escazú Agreement adopts decision III/2, which entails four priority areas and 22 strategic lines of action, and decision III/4, in which the Parties are urged to continue to promote the full and effective participation of women in all their diversity, including Indigenous women, and the incorporation of a gender perspective into their national implementation plans and road maps for the implementation of the Agreement

Planned results for 2026

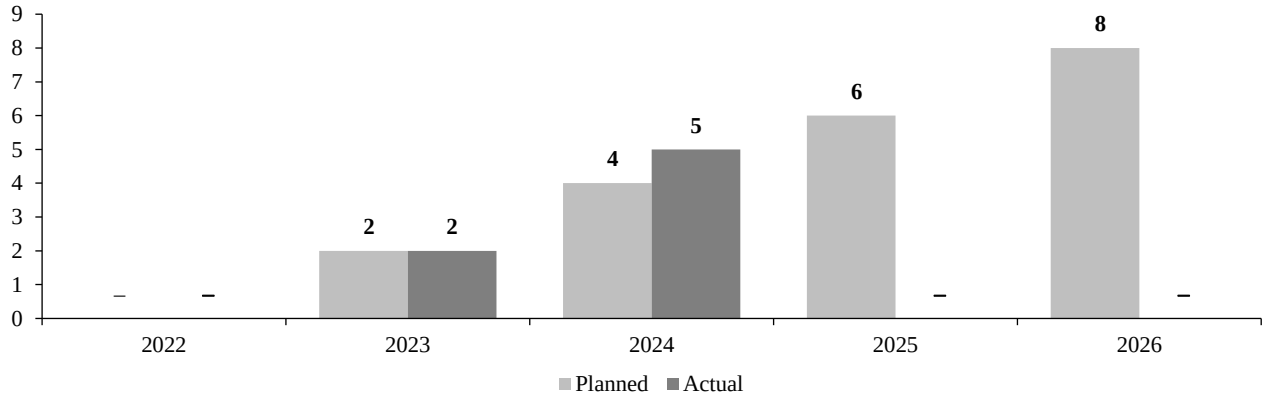
Result 1: national implementation plans aimed at strengthening environmental access rights

Programme performance in 2024 and target for 2026

21.104 The subprogramme's work contributed to the preparation of implementation plans on environmental access rights in three additional countries (Chile, Saint Lucia and Uruguay), which exceeded the planned target of two additional countries.

21.105 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 21.XII).

Figure 21.XII
Performance measure: number of national implementation plans on environmental access rights in place (cumulative)



Result 2: development of strategies on sustainable consumption and production patterns, including circular economy, for better environmental performance

Programme performance in 2024 and target for 2026

21.106 The subprogramme's work contributed to the development of strategies on sustainable consumption and production patterns for better environmental performance in Argentina, Chile and Uruguay, which exceeded the target of two additional countries.

21.107 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 21.22).

Table 21.22
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Uruguay produced a national strategy on sustainable consumption and production patterns, including circular economy	Buenos Aires (Argentina) developed a diagnosis on production chains and adopted a strategy on sustainable consumption and production patterns,	Two additional countries in the region adopt regulatory or financial instruments for sustainable consumption and production patterns,	Two additional countries in the region embrace regulatory or financial instruments for sustainable consumption and production patterns,

2022 (actual)	2023 (actual)	2024 (actual)	2025 (planned)	2026 (planned)
		including circular economy Chile and Uruguay developed a regulatory framework for recycling and second life requirements for batteries from electromobility	including circular economy	including circular economy

Result 3: improved simulations of the possible impacts of climate change to inform policy formulation and investment options

Proposed programme plan for 2026

21.108 National authorities and subregional institutions in the region increasingly demand technical support to build and strengthen capacities to incorporate climate change into economic and risk analysis and into the economic modelling of the possible impacts of climate change. The subprogramme has been technically supporting central banks, ministries of finance and ministries of planning, among others, in this regard.

Lessons learned and planned change

21.109 The lesson for the subprogramme was that it could help to further foster collaboration between authorities and academia to build a broader and more robust community of practice in scenario-based analysis. In applying the lesson, the subprogramme will design and implement training sessions aimed at developing a stable capacity of local teams to use a set of analytical tools for simulating climate-related scenarios through integrated economic modelling. Along with its partners, the subprogramme will also leverage new digital tools to more effectively achieve capacity-building objectives. This effort is intended to support policymaking and decision-making processes and guide investment decisions.

21.110 Expected progress towards the objective is presented in the performance measure below (see table 21.23.)

Table 21.23
Performance measure

2022 (actual)	2023 (actual)	2024 (actual)	2025 (planned)	2026 (planned)
–	–	The Network of Public Investment Systems and the council of ministers of finance of Central America and the Dominican Republic decided to develop scenario modelling for climate change	Two countries have installed capacities to develop analytical tools to produce economic scenarios of the possible impacts of climate change	Two additional countries have installed capacities to develop analytical tools to produce economic scenarios of the possible impacts of climate change

Deliverables

21.111 Table 21.24 lists all deliverables of the subprogramme.

Table 21.24
Subprogramme 7: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	**21**	**21**	**21**	**21**
1. Meetings of the General Assembly of Ministers and High-level Authorities of the Housing and Urban Development Sector in Latin America and the Caribbean	6	6	6	6
2. Meetings to strengthen regional cooperation and implementation on topics under the Escazú Agreement	6	6	6	6
3. Sessions of the Conference of the Parties to the Escazú Agreement	9	9	9	9
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**1**	**1**	**2**	**2**
4. On adaptation to climate change and mitigation of its impact; and sustainable cities	1	1	2	2
Seminars, workshops and training events (number of days)	**9**	**8**	**9**	**9**
5. Meetings of experts on policies for the sustainable development of human settlements and climate change; climate change mitigation and adaptation; the Conference of the Parties to the United Nations Framework Convention on Climate Change; environmental and urban dimensions of the 2030 Agenda; and experiences in implementing policies related to sustainable development in the region	4	4	4	4
6. Training courses on sustainable development and/or environmental economics; climate change mitigation and adaptation assessment and policies; human settlement issues; and strategies for the implementation of the intended nationally determined contributions	5	4	5	5
Publications (number of publications)	**8**	**8**	**8**	**8**
7. On topics that include climate change, sustainable development, the environmental impact of public policies, instruments for the reduction in and control of greenhouse gases, low-carbon and low-emission economies, sustainable recovery policies, urban areas, the reduction in waste generation, the needs of the countries of the region for the achievement of the Sustainable Development Goals and for climate change adaptation, the needs of the countries of the region in the efforts to combat plastic pollution, sustainable consumption and production patterns, including circular economy, the integration of public policies for sustainable development and institution-building, the implementation of the New Urban Agenda with a gender perspective, and greenhouse gas emissions and related public policies	8	8	8	8
C. Substantive deliverables				
Consultation, advice and advocacy: advice to member States, upon request, on environmental public policies related to sustainable development and urban sustainability, risk reduction and adaptation to climate change, and strengthening national capacities.				
Databases and substantive digital materials: input for the General Assembly of Ministers and High-level Authorities of the Housing and Urban Development Sector in Latin America and the Caribbean; and databases on sustainable development, climate change and urban issues.				

Subprogramme 8
Natural resources

Objective

21.112 The objective, to which this subprogramme contributes, is to improve the governance and enhance the sustainable use and exploitation of natural resources in Latin America and the Caribbean,

focusing on water resources management, affordable, inclusive and clean energy, extractive resources efficiency and biodiversity.

Strategy

21.113 To contribute to the objective, the subprogramme will:

(a) Support countries of the region in the design of policies related to the energy transition, including greater use of renewable sources of energy and increased energy efficiency, and to the water sustainable management transition, helping member States to make progress towards the achievement of Sustainable Development Goals 6 and 7;

(b) Carry out studies on the governance of fossil and mineral resources, taking into consideration issues and challenges relating to the collection and use of resource rents, material efficiency and decoupling, helping member States to make progress towards the achievement of Sustainable Development Goal 12;

(c) Provide technical assistance and support multi-stakeholder dialogue, within the framework of more sustainable governance of the extractive industries, focusing on critical minerals for the energy transition to make progress towards the achievement of Sustainable Development Goal 13;

(d) Reinforce the coherence, integration and coordination of national and regional biodiversity policies and provide technical assistance, upon request, to member States on issues related to conservation and the sustainable use of biodiversity, helping member States to make progress towards the achievement of Sustainable Development Goals 14 and 15.

21.114 The above-mentioned work is expected to result in:

(a) Improved management of clean and affordable energy and water;

(b) Better conservation and sustainable use of biodiversity;

(c) More sustainable extractive industries.

Programme performance in 2024

Advances in mainstreaming a gender perspective into the formulation of public policies in the mining sector

21.115 The subprogramme has been providing technical support to the Ministry of Mining and Metallurgy of the Plurinational State of Bolivia to promote gender equality in the mining sector, driving a transformative shift in the Ministry’s priorities. This support informed a multi-stakeholder dialogue process that gathered insights into priority action, enhancing communication among line ministries and establishing channels of dialogue among diverse actors in the mining sector. It also supported the formulation of a road map for gender equity in mining, presenting strategic guidelines, including equal participation and a culture of equity, as a mechanism for more inclusive, sustainable and socially responsible mining.

21.116 Progress towards the objective is presented in the performance measure below (see table 21.25).

Table 21.25
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	The Ministry of Mining and Metallurgy of the Plurinational State of Bolivia and the Vice-Ministry of Equal Opportunities of the Ministry of Justice agreed on a proposal for a joint agenda for gender mainstreaming of public policies into the mining sector

Planned results for 2026

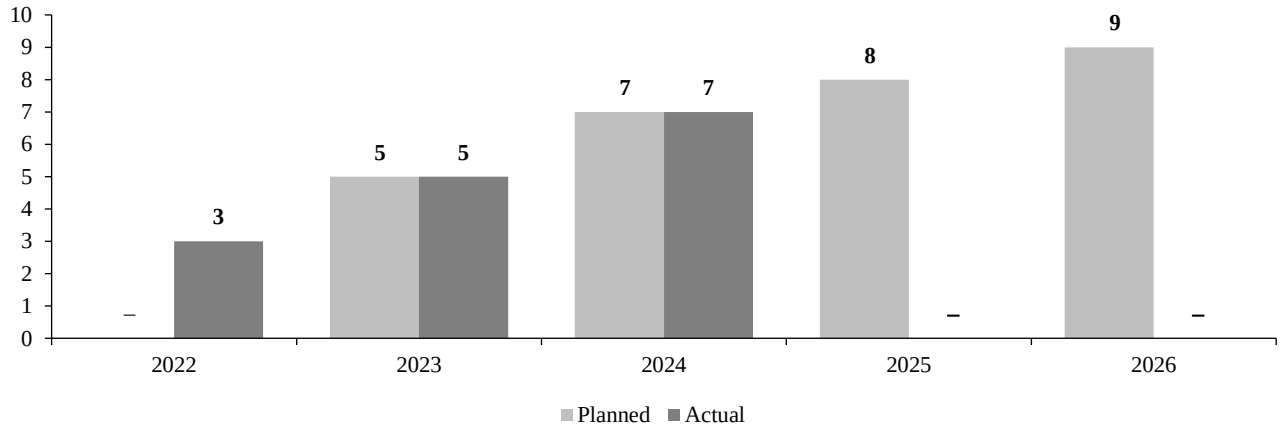
Result 1: digitalization in agriculture

Programme performance in 2024 and target for 2026

21.117 The subprogramme's work contributed to two additional initiatives to support digital agriculture based on low-cost solutions and the coordination of public and private actors, which met the planned target.

21.118 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 21.XIII).

Figure 21.XIII
Performance measure: number of initiatives implemented by countries in the region to support digital agriculture based on low-cost solutions and the coordination of public and private actors (cumulative)



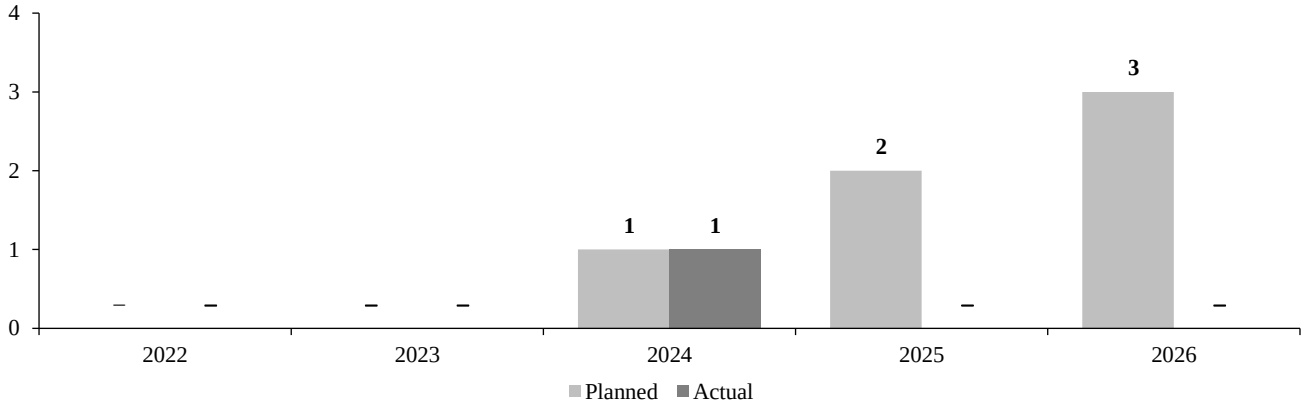
Result 2: countries in the region supply critical minerals for the energy transition with increased economic, social and environmental sustainability

Programme performance in 2024 and target for 2026

21.119 The subprogramme's work contributed to the approval of the second Biennial Action Plan of the Permanent Forum for Technical Dialogue on Innovation, Technological Development and Value Addition to lithium in the triangle countries and Mexico, which met the planned target.

21.120 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 21.XIV).

Figure 21.XIV
Performance measure: number of new initiatives developed by countries in the region to promote the sustainable supply of critical minerals (cumulative)



Result 3: new initiatives to promote the energy transition in Latin America and the Caribbean

Proposed programme plan for 2026

21.121 Latin America and the Caribbean is the region with the highest renewable electricity mix in the world,[2] but challenges that negatively affect electricity access and affordability remain. The subprogramme has carried out policy dialogues that have identified the main obstacles to universalize electricity access, increase the use of renewable energy in transport and industries and foster greater energy efficiency. In addition, there are institutional and governance issues that hinder current technical and political capacities to advance at the national level.

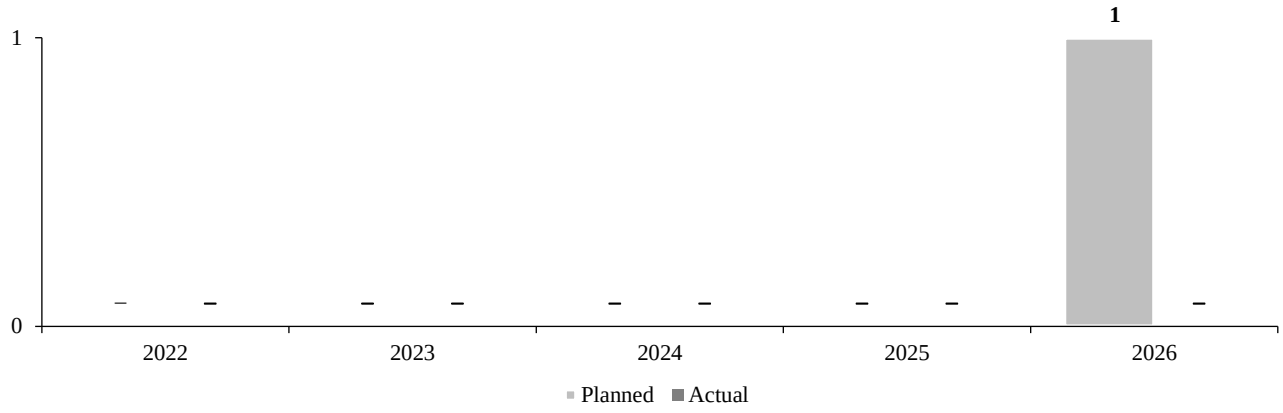
Lessons learned and planned change

21.122 The lesson for the subprogramme was that there was a demand for increased knowledge on ways to design and deploy strategies to accelerate energy transition, as well as to transform the productive and development model by producing and retaining the value added of new value chains, creating jobs in sustainable industries and leaving no one behind. In applying the lesson, the subprogramme will tailor its technical support to strengthen national capacities to accelerate the energy transition through the promotion of national initiatives such as policies and instruments, energy planning, the assessment of investment needs and methodologies that can be replicated or scaled up. The subprogramme will also promote technical, operative, political and prospective capacities, strengthen multi-stakeholder dialogues and produce evidence about the multi-dimensional benefits of the energy transition paths to support new initiatives in energy transition in the countries of the region.

21.123 Expected progress towards the objective is presented in the performance measure below (see figure 21.XV).

[2] See ECLAC, *Development Traps in Latin America and the Caribbean: Vital Transformations and How to Manage Them* (Santiago, 2024).

Figure 21.XV
Performance measure: number of new initiatives developed by countries of the region to promote the energy transition (cumulative)



Deliverables

21.124 Table 21.26 lists all deliverables of the subprogramme.

Table 21.26
Subprogramme 8: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
B. Generation and transfer of knowledge

C. Substantive deliverables				
Consultation, advice and advocacy: advice to member States, upon request, on natural resources, on the design and implementation of policies and strategies for sustainable agricultural and rural development and bioeconomy, and in areas related to water, energy and non-renewable natural resources.				

Subprogramme 9
Planning and public management for development

Objective

21.125 The objective, to which this subprogramme contributes, is to enhance planning and public management processes in the region for the advancement of equitable and sustainable development.

Strategy

21.126 To contribute to the objective, the subprogramme will:

(a) Promote the application of new methodologies, instruments and conceptual frameworks to strengthen national capacities in the entire cycle of public management, including foresight, strategic and territorial planning, digital and open government, and the monitoring and evaluation of plans and policies for participatory planning and public management, while fostering public investment and links between development and sector-based plans and budgets;

(b) Encourage cooperation, peer-to-peer learning, innovation and the sharing of experiences and good practices in planning and public management through the provision of technical cooperation services and training and by conducting applied research in areas such as increasing public sector workforce diversity and the use of artificial intelligence, thereby helping countries in the region to make progress towards the achievement of Sustainable Development Goals 5, 11, 13, 16 and 17;

(c) Enhance regional capacities for building institutional resilience to cope with challenges posed by internal and external crises produced by natural disasters and/or human activities, such as pandemics, climate change impacts, social and political disruption and economic shocks.

21.127 The above-mentioned work is expected to result in:

(a) Effective, inclusive, smart and strategic institutions and planning processes that prioritize comprehensive development through medium- and long-term visions;

(b) Reduced structural gaps by enhancing citizens' participation, deliberation and accountability, and the strengthening of territorial governance, planning and management in public policy processes;

(c) Strengthened capacities in Latin American and Caribbean institutions to withstand deep disruption and ensure the continuity of basic services while enhancing preparedness and responsive, adaptive and transformational institutional capacities, including digital solutions, at both the national and subnational levels.

Programme performance in 2024

State of Guanajuato, Mexico, approved the 2025 state development plan, created with wide participation to ensure that no one is left behind

21.128 On the basis of ECLAC recommendations to strengthen public participation in the building of a long-term vision for the State of Guanajuato, technical support requested for the implementation of a participatory co-creation approach in the design of the state's 2050 development plan was provided. The subprogramme provided methodological design and training to a team of facilitators and organized workshops in several municipalities with specific groups, including young people, persons with disabilities and women. Workshops were also held in each of the four subregions of the state to present the information gathered and to validate the results. Those activities helped to expand the participation of new stakeholders in the process of the co-creation of the state development plan.

21.129 Progress towards the objective is presented in the performance measure below (see table 21.27).

Table 21.27
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
The Guanajuato planning institute requested that the subprogramme carry out a midterm review of the state development plan 2040	–	The state development plan 2050, which presents a road map to move towards a more inclusive and sustainable society, was agreed and published

Planned results for 2026

Result 1: member States develop more efficient, collaborative and participatory public policies

Programme performance in 2024 and target for 2026

21.130 The subprogramme's work contributed to one additional country, Honduras, preparing a draft policy through a participatory process, which met the planned target.

21.131 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 21.28).

Table 21.28
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Planning authorities in Nuevo León, Mexico, made advancements in the co-creation of public policies by government together with civil society As part of a midterm review of the state's development plan, planning authorities of Guanajuato, Mexico, identified	Argentina implemented participatory planning processes in Catamarca, Salta and Jujuy Provinces for the sustainable management of mineral resources	Honduras prepared a draft policy on young people with the wide participation of young people	One additional country formulates or implements participatory public policies or participatory planning processes	One additional country formulates or implements participatory public policies or participatory planning processes

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
recommendations for improving public participation in future planning processes				

Result 2: integrated development policies to build more resilient territories to accelerate the implementation of the 2030 Agenda

Programme performance in 2024 and target for 2026

21.132 The subprogramme's work contributed to one additional country, Argentina, assessing an integrated approach to territorial development, which met the planned target.

21.133 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 21.29).

Table 21.29
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	A toolbox for the elaboration of integrated territorial development policies was piloted and applied by Costa Rica, the Dominican Republic and Panama	Santa Fe Province in Argentina assessed an integrated approach to territorial development when designing its "Metropolitan commitment Santa Fe 2040" long-term road map	At least two countries develop integrated development policies at the regional or national levels to build more resilient territories	At least one additional county develops integrated development policies at the regional or national levels to build more resilient territories

Result 3: improved technical, operational, political and prospective capacities in public institutions to manage transformations and address complex challenges in changing environments

Proposed programme plan for 2026

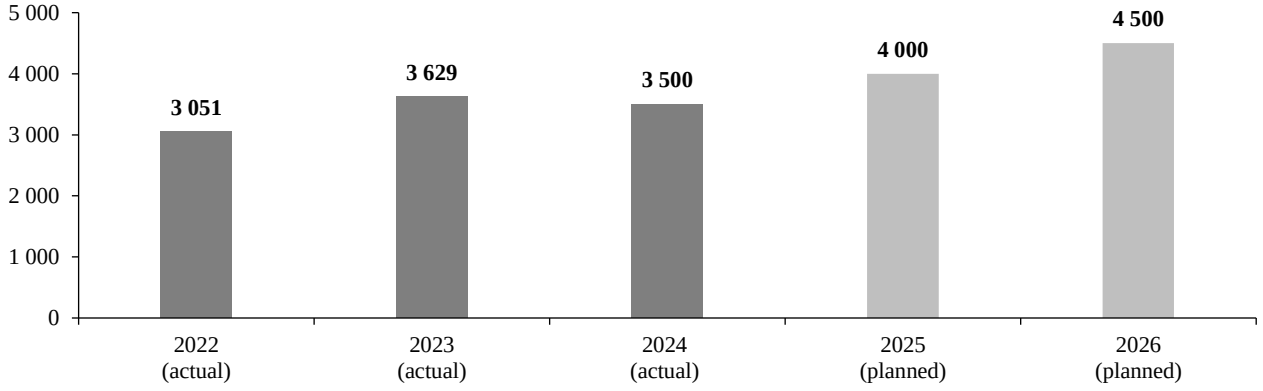
21.134 Low institutional capacity and ineffective governance can limit the implementation of transformative public policies and weakens the ability of States to respond to present and future challenges. The subprogramme provides training, capacity-building, advisory services and research to member States on planning and public administration.

Lessons learned and proposed change

21.135 The lesson for the subprogramme was that there was a need to tailor its technical support to better strengthen technical, operational, political and prospective institutional capacities. In applying the lesson, the subprogramme will work jointly with planning authorities at the national and subnational levels to improve institutional capacities in these areas in line with the work carried out in the context of the Regional Council for Planning.

21.136 Expected progress towards the objective is presented in the performance measure below (see figure 21.XVI).

Figure 21.XVI
Performance measure: number of people certified in Latin American and Caribbean Institute for Economic and Social Planning training activities towards improved technical, operational, political and prospective capacities (annual)



Deliverables

8. On planning and public management for development	1	1	1	1

Category and subcategory	2024 planned	2024 actual	2025 planned	2026 planned

C. Substantive deliverables

Consultation, advice and advocacy: advice to member States, upon request, on the strengthening of planning for development systems and institutions and integrated public management systems and practices, public policies and programmes, project formulation and evaluation, national systems for public investment, foresight for development, multilevel governance and planning, mainstreaming of a gender perspective and open government; and on assessing progress towards better planning, budgeting and implementation of government policies.

Databases and substantive digital materials: Regional Observatory of Planning for Development in Latin America and the Caribbean; technical manuals and software that support training (in situ and e-learning) and technical assistance activities; and databases on planning and public management for development in Latin America and the Caribbean.

Subprogramme 10
Statistics

Objective

21.138 The objective, to which this subprogramme contributes, is to improve the production, dissemination and use of statistics for evidence-based decision-making in the region.

Strategy

21.139 To contribute to the objective, the subprogramme will:

(a) Deliver technical assistance, training and capacity-building on the development of statistics and institutional coordination mechanisms in national accounts and economic and price statistics; environmental and climate change and disaster risk reduction statistics; poverty and inequality measurement, household survey design and the integration of data sources; the integration of statistical and geospatial information systems; the development of digital platforms and data portals to disseminate official statistics; and national coordination mechanisms for the follow-up and review of the Sustainable Development Goals;

(b) Compile and harmonize statistical indicators and geospatial data from selected primary data sources, including household surveys, economic surveys and other non-traditional data sources, to produce regional economic, environmental and social statistics and indicators;

(c) Develop and maintain the ECLAC statistical data portal (CEPALSTAT), the geospatial data portal (CEPALGEO), the regional household survey data bank (BADEHOG) and other regional statistical dissemination platforms, as well as the *Statistical Yearbook for Latin America and the Caribbean* and other publications;

(d) Provide secretariat services to the Statistical Conference of the Americas, its various working groups and the Regional Committee on United Nations Global Geospatial Information Management for the Americas;

(e) Encourage the use of administrative records and non-traditional data sources and the adoption of new methodologies for the integration of different data sources.

21.140 The above-mentioned work is expected to result in:

(a) Production of reliable economic, social and environmental statistics, geospatial data and new indicators in emerging areas and the improvement of non-traditional sources of information;

(b) Increased availability of regionally comparable data, required as a benchmark for regional statistical development;

(c) Greater regional coordination, leading to increased use of statistics at the regional and national levels.

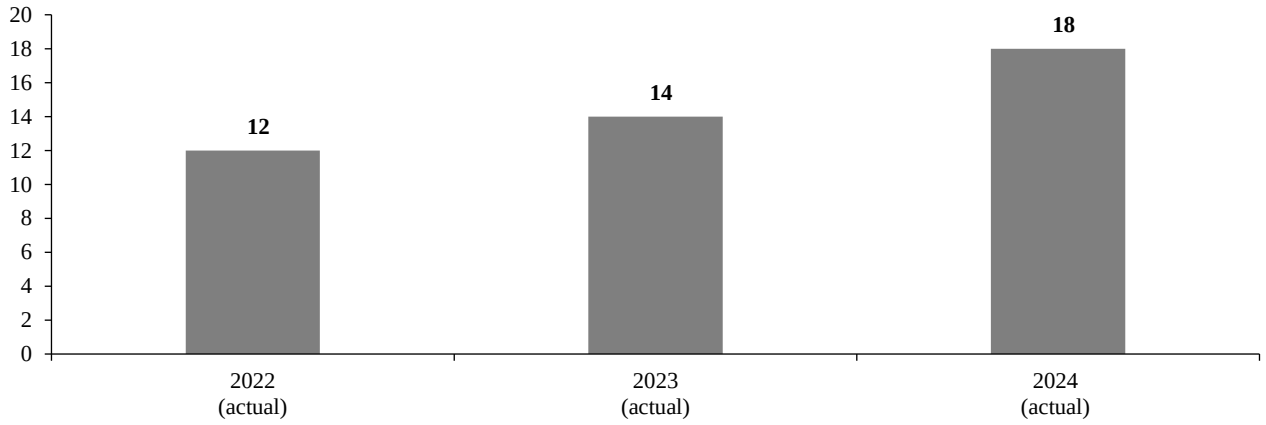
Programme performance in 2024

More accurate national accounts in Latin American and Caribbean countries

21.141 Updating the base year of national accounts helps to ensure that economic statistics are more accurate and relevant at the national and international levels and therefore more useful for decision-making. To help with accurate and timely national accounts, the subprogramme has been providing capacity-building activities and organizing workshops and seminars, including on updating the base year, contributing to four countries in the region publishing their results in 2024.

21.142 Progress towards the objective is presented in the performance measure below (see figure 21.XVII).

Figure 21.XVII
Performance measure: number of Latin American and Caribbean countries with a base year of their national accounts ranging from 2013 to 2018 (cumulative)



Planned results for 2026

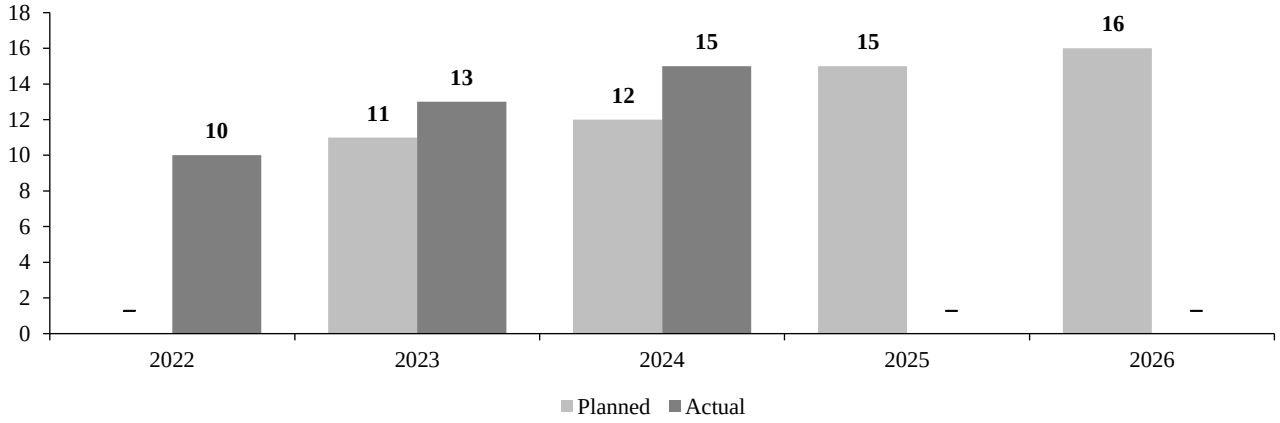
Result 1: improved data collection on prices to better inform policymaking

Programme performance in 2024 and target for 2026

21.143 The subprogramme's work contributed to 15 countries with coordinated consumer price index and International Comparison Program data-collection activities, which exceeded the planned target of 12 countries.

21.144 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 21.XVIII).

Figure 21.XVIII
Performance measure: number of Latin American and Caribbean countries with coordinated consumer price index and International Comparison Program data-collection activities (cumulative)



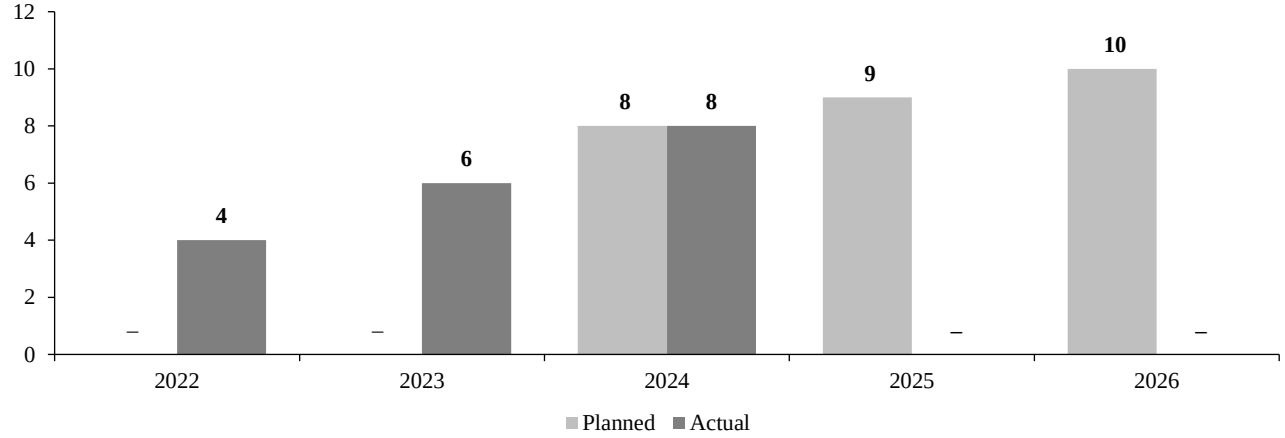
Result 2: increased implementation of the United Nations Integrated Geospatial Information Framework at the national level

Programme performance in 2024 and target for 2026

21.145 The subprogramme's work to date contributed to eight countries having taken action to implement the United Nations Integrated Geospatial Information Framework, which met the planned target.

21.146 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 21.XIX).

Figure 21.XIX
Performance measure: number of Latin American and Caribbean countries having taken action to implement the United Nations Integrated Geospatial Information Framework (cumulative)



Result 3: enhanced use of administrative registers for statistical production

Proposed programme plan for 2026

21.147 Administrative registers can complement census and household survey data, improving accuracy, cost-efficiency and timeliness. However, national statistical offices may face challenges in integrating administrative registers, including limited data access, lack of standardization, data

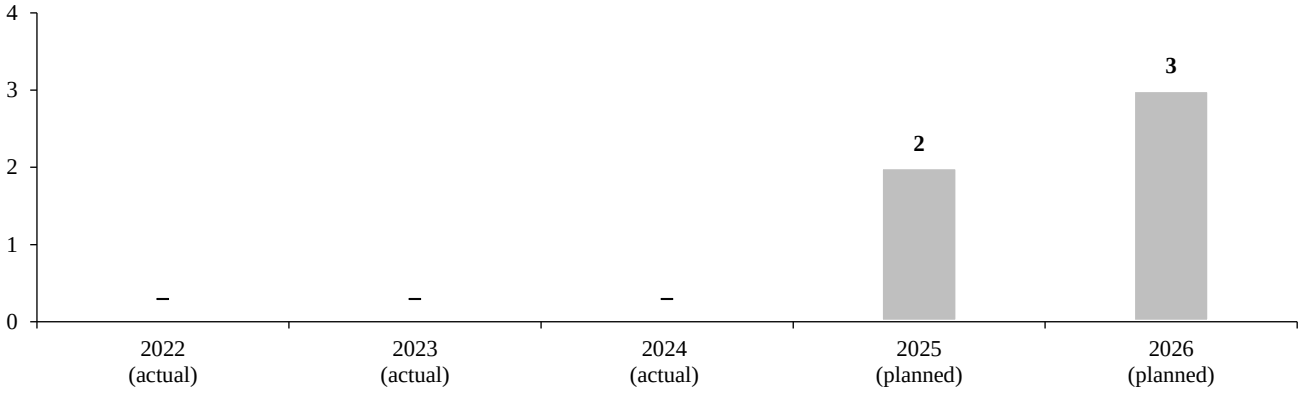
quality issues and insufficient expertise and infrastructure. The subprogramme has supported countries in the development of regional guidelines that address some of these challenges.

Lessons learned and planned change

21.148 The lesson for the subprogramme was the need to adopt a more comprehensive approach to support countries in increasing the use of administrative registers in statistical production. In applying the lesson, and upon request, the subprogramme will develop comprehensive assessments of the administrative registers, identifying strengths and areas for improvement in critical population and social records, and organize technical workshops to strengthen capacities on innovative methodologies and technologies to use and integrate administrative registers with other data sources.

21.149 Expected progress towards the objective is presented in the performance measure below (see figure 21.XX).

Figure 21.XX
Performance measure: number of countries having initiated data exchanges between national statistical offices and administrative records providers (cumulative)



Deliverables

21.150 Table 21.31 lists all deliverables of the subprogramme.

Table 21.31
Subprogramme 10: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	**6**	**6**	**12**	**6**
1. Meetings of the Statistical Conference of the Americas	–	–	6	–
2. Meetings of the Executive Committee of the Statistical Conference of the Americas	6	6	6	6
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**3**	**3**	**3**	**3**
3. On economic statistics and national accounts; household surveys, social indicators and statistics; environmental statistics; the framework for the 2030 Agenda; and statistical and geospatial information	3	3	3	3

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
Seminars, workshops and training events (number of days)	**21**	**21**	**24**	**24**
4. Seminars and workshops on social statistics and household surveys, environment and climate change statistics, the System of National Accounts, economic statistics and geospatial information	12	12	12	12
5. Meetings of experts on the System of National Accounts 2008 and on the System of National Accounts 2025 and economic statistics; environmental statistics and environmental accounts; statistics and indicators for the 2030 Agenda; improvements to household surveys and administrative records; and sessions of the Regional Committee of United Nations Global Geospatial Information Management for the Americas	9	9	12	12
Publications (number of publications)	**5**	**5**	**6**	**5**
6. *Statistical Yearbook for Latin America and the Caribbean*	1	1	1	1
7. Document of the working groups of the Statistical Conference of the Americas of ECLAC	–	–	1	–
8. On economic, environmental and social statistics and geospatial information	4	4	4	4
Technical materials (number of materials)	**6**	**5**	**4**	**4**
9. Bulletins on economic, social and environmental statistics and geospatial information	6	5	4	4

C. Substantive deliverables

Consultation, advice and advocacy: advice to member States, upon request, on environment, climate change and disaster statistics and indicators; economic statistics; household surveys, poverty, inequality and other social statistics; geospatial information; and statistics and indicators for the 2030 Agenda.

Databases and substantive digital materials: the statistical information system and databases (CEPALSTAT) for approximately 900,000 visitors annually; the household survey database (BADEHOG); and the economic survey database (BADECON).

Subprogramme 11
Subregional activities in Central America, Cuba, the Dominican Republic, Haiti and Mexico

Objective

21.151 The objective, to which this subprogramme contributes, is to improve the formulation of evidence-based public policies in the economic, social and environmental fields in the countries in the subregion.

Strategy

21.152 To contribute to the objective, the subprogramme will support the implementation of national development agendas and strategic reforms towards generating economic and social impacts, and social compacts for equality benefiting those in vulnerable situations in the countries of the subregion. Special emphasis will be placed on economic and social development, international trade, productive development, industry and integration, agriculture, food security and rural development, energy and natural resources, and climate change, thus helping member States to make progress towards the achievement of Sustainable Development Goals 1, 2, 7, 8, 10, 13 and 17. Specifically, the subprogramme will:

(a) Undertake analytical work to foster the generation, dissemination and implementation of innovative and sound approaches to address the subregion's development challenges and build national and subregional capacities to formulate more integrated and coherent policies, taking into full consideration the different national contexts in the subregion;

(b) Strengthen its multisectoral and interdisciplinary approach by maintaining and updating relevant databases and developing quantitative and qualitative analytical models;

(c) Provide training activities, advisory services and fellowships, as well as organize and promote forums in the areas of economic, social and environmental public policies.

21.153 The above-mentioned work is expected to result in the design, implementation and evaluation of effective public policies, including those focused on fiscal matters, trade and integration, productive development, energy, agriculture, food security, social protection and climate change.

Programme performance in 2024

Energy compacts: a milestone on the road to energy integration in Central America

21.154 During 2023 and 2024, the subprogramme provided technical assistance to the Central American Integration System countries in the drafting of energy compacts, focusing on universal access to electricity, a reduction in the use of fuelwood, the promotion of renewable energy, including non-conventional, and increasing energy efficiency. The subprogramme supported the discussion of the drafts through 10 webinars, participated in the review of received comments for incorporation into the documents, and contributed to their finalization.

21.155 Progress towards the objective is presented in the performance measure below (see table 21.32).

Table 21.32
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	Drafting of five energy compact proposals by Central American Integration System countries	At its seventeenth regular meeting, the Central American Integration System Council of Ministers of Energy approved the energy compacts, which are intended to coordinate agendas on climate, food security, transportation and biodiversity

Planned results for 2026

Result 1: increased contribution by subregional integration institutions to policy design on economic issues

Programme performance in 2024 and target for 2026

21.156 The subprogramme's work contributed to the Central American Tourism Integration Secretariat developing a proposal for a regional tourism policy, which met the planned target.

21.157 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 21.33).

Table 21.33
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Executive Secretariat of the Council of Ministers of Finance of Central America, Panama and the Dominican Republic started developing technical tools on specialized economic issues, such as fiscal policy and public debt	Central American Integration System had access to technical knowledge for the formulation of policy recommendations on paperless cross-border trade	Central American Tourism Integration Secretariat developed a proposal for a regional tourism policy	One regional integration institution organizes technical events to formulate economic policy analysis	One regional integration institution recommends a policy instrument to its member States

Result 2: accelerated implementation of the Sustainable Development Goals by addressing structural gaps

Programme performance in 2024 and target for 2026

21.158 The subprogramme's work contributed to three countries initiating activities on structural gaps, including care policies, which exceeded the planned target of Governments having access to specialized instruments, studies and data on structural gaps.

21.159 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 21.34).

Table 21.34
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Panama advanced the formulation of a national policy for older persons Cuba increased national capacities on care services for older adults and people with disabilities Costa Rica's national officers were trained on pension systems	At least one country in the subregion has initiated a process to integrate analysis on structural gaps into its policies	At least one Government has a new instrument/ policy that considers structural gaps

Result 3: improved anticipatory governance to inform policymaking in the subregion

Proposed programme plan for 2026

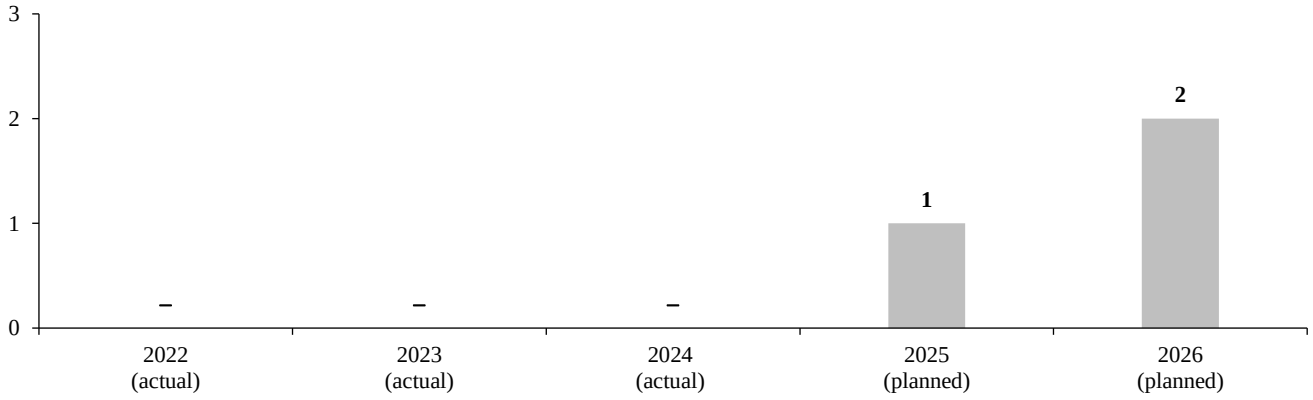
21.160 Anticipatory governance, using foresight and anticipatory tools, can help to enable proactive responses to uncertainty, identifying risks and opportunities before they arise. ECLAC has been supporting countries in the subregion in advancing anticipatory governance in policymaking.

Lessons learned and planned change

21.161 The lesson for the subprogramme was that there was greater demand from national authorities to gain access to and be better equipped with tools for anticipatory governance to address social, economic and environmental sustainability issues. In applying the lesson, the subprogramme will tailor its technical support to generate knowledge products and policy advice on the management of transformations and anticipatory governance.

21.162 Expected progress towards the objective is presented in the performance measure below (see figure 21.XXI).

Figure 21.XXI
Performance measure: number of public institutions in the subregion having access to anticipatory governance tools to help to develop public policies (cumulative)



Deliverables

21.163 Table 21.35 lists all deliverables of the subprogramme.

Table 21.35
Subprogramme 11: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**2**	**2**	**1**	**2**

3. Meetings of experts on debt sustainability, macroeconomic and public policies, social systems and structures, welfare systems and stratification, energy, food and agriculture, productive development, international and subregional trends in trade, climate change and the achievement of the Sustainable Development Goals	10	10	16	16

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
4. Training courses and workshops on policy options relating to climate change adaptation and mitigation, the Sustainable Development Goals and sustainable development, agriculture and food security	6	6	–	–
Publications (number of publications)	**11**	**11**	**13**	**12**
5. On macroeconomics, trade, external investments, social developments inclusive of labour markets, welfare systems, energy and agricultural sectors, climate change, productive development, social issues and regional integration for development	11	11	13	12
Technical materials (number of materials)	**11**	**11**	**11**	**12**
6. On trade and integration	1	1	–	1
7. On recent macroeconomic developments in the countries of the subregion	10	10	10	10
8. On social indicators	–	–	1	1

C. Substantive deliverables

Consultation, advice and advocacy: advice to member States, upon request, on macroeconomic and macroprudential policies, the 2030 Agenda, social development issues, sectoral policy, energy and climate change, international trade and integration.

Databases and substantive digital materials: databases on economic statistics and national accounts, the agricultural sector and food security, trade integration, the hydrocarbon and electricity sectors and climate change in the subregion.

Subprogramme 12
Subregional activities in the Caribbean

Objective

21.164 The objective, to which this subprogramme contributes, is to strengthen the sustainable development process in the Caribbean in the economic, social and environmental dimensions, and to enhance the subregion's cooperation with Latin America.

Strategy

21.165 To contribute to the objective, the subprogramme will:

(a) Engage member States, regional and extraregional entities and other partners in subregional and country-specific initiatives and convene intergovernmental and technical meetings related to the follow-up to global and regional initiatives and conferences, including the 2030 Agenda and the Sustainable Development Goals, and explore and articulate strategies for and approaches to sustainable development based on applied research and empirical and conceptual analytical frameworks;

(b) Support Caribbean countries in the development of evidence-based policies that promote sustainable development, helping member States to make progress towards the achievement of Sustainable Development Goals 3, 4, 5, 8, 9, 10, 11, 12, 13, 14, 15 and 17;

(c) Undertake research and analysis on emerging issues and challenges facing the Caribbean;

(d) Build capacities of development practitioners and decision makers in designing and implementing resilience-building measures for sustainable development that are inclusive of women and persons with disabilities, in close cooperation with United Nations entities and Caribbean development partners.

21.166 The above-mentioned work is expected to result in:

(a) Increased effective subregional and regional engagement and consensus, cooperation and enhanced political advocacy on issues critical to the development of the Caribbean;

(b) Advancement of the implementation of national and subregional strategies and programmes.

Programme performance in 2024

Caribbean countries use geospatial information management for time and location-based data management

21.167 In 2023, the subprogramme convened the first Caribbean regional workshop of the United Nations Integrated Geospatial Information Framework in Saint Lucia, which highlighted the need to strengthen national technological advancement and capacities to manage geospatial information. A national workshop was also organized in 2024 in Trinidad and Tobago, training 80 managerial and technical practitioners from a range of line ministries, national government agencies, the private sector and civil society groups.

21.168 Progress towards the objective is presented in the performance measure below (see table 21.36).

Table 21.36
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	Representatives of Caribbean countries at a regional workshop issued a summary statement to strengthen geospatial information management in the Caribbean	Trinidad and Tobago facilitated a public and private sector geospatial network to strengthen the application of geospatial data and related technological advancements

Planned results for 2026

Result 1: gender-sensitive policies on paid and unpaid work in the Caribbean better informed through time-use surveys

Programme performance in 2024 and target for 2026

21.169 The subprogramme's work contributed to the incorporation of a time-use module in the 2024 population and housing census of Trinidad and Tobago, which met the planned target.

21.170 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 21.37).

Table 21.37
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Dominica, Jamaica and Trinidad and Tobago incorporated time-use modules in their labour force survey and/or population and housing censuses	Grenada and Saint Lucia incorporated time-use modules in their labour force surveys	Trinidad and Tobago incorporated a time-use module into the questionnaire for the 2024 population and housing census to be conducted in 2025	At least one additional Caribbean country carries out a time-use survey as part of its population and housing census or labour force survey	One additional Caribbean country carries out a time-use survey as part of its labour force survey or as a stand-alone survey

Result 2: digital inclusion in the Caribbean

Programme performance in 2024 and target for 2026

21.171 The subprogramme's work contributed to the finalization of a draft study on the subregional priorities and indicators to measure the digital society, which did not meet the planned target of Caribbean countries agreeing on the subregional priorities and indicators as a mechanism to measure the digital society and advance digital inclusion. The target was not met because of delays in the publication and adoption of the guiding study by Caribbean countries in 2024.

21.172 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 21.38).

Table 21.38
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Caribbean countries endorsed the need for the development of metrics to facilitate action on digital inclusion	The draft of the guiding study on the subregional priorities and indicators as a mechanism to measure the digital society and advance digital inclusion in the Caribbean was finalized	At least one Caribbean country has incorporated the subregional priorities and indicators into its national statistical and data-collection framework	Subregional priorities and indicators are reflected in the digital transformation strategic plans of at least one country and incorporated into its national statistical and data-collection framework

Result 3: integration of the Antigua and Barbuda Agenda for Small Island Developing States into national development processes and agendas

Proposed programme plan for 2026

21.173 Integration of the Antigua and Barbuda Agenda for Small Island Developing States: A Renewed Declaration for Resilient Prosperity, adopted in May 2024, into national development processes and agendas will help to ensure their effective and synergistic implementation.

Lessons learned and planned change

21.174 The lesson for the subprogramme, based on earlier experience with the 2030 Agenda, was that the early provision of technical support could have encouraged increased national ownership of the 2030 Agenda and its integration into national development plans. In applying the lesson, the subprogramme will advocate for and deliver early technical support to facilitate the integration of the Antigua and Barbuda Agenda for Small Island Developing States into national development processes and agendas and its synergized implementation with the 2030 Agenda.

21.175 Expected progress towards the objective is presented in the performance measure below (see table 21.39).

Table 21.39
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	–	Two Caribbean countries develop mechanisms for synergistic implementation of the 2030 Agenda and the Antigua and Barbuda Agenda for Small Island Developing States in line with national development priorities	One Caribbean country presents a voluntary national review that demonstrates complementary implementation of the 2030 Agenda and the Antigua and Barbuda Agenda for Small Island Developing States

Deliverables

21.176 Table 21.40 lists all deliverables of the subprogramme.

Table 21.40
Subprogramme 12: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies

Field and technical cooperation projects (number of projects)	**1**	**2**	**1**	**1**
3. On a relevant issue related to sustainable development in the Caribbean	1	2	1	1
Seminars, workshops and training events (number of days)	**18**	**21**	**17**	**16**
4. Meeting of the Caribbean Development Round Table	1	2	–	1
5. Meetings on issues related to economic development and finance; information and communications technology (ICT); statistics; selected population and social development issues; and selected issues related to the environment, small island developing States and the Sustainable Development Goals in the Caribbean	7	5	7	5
6. Workshops on ICT for sustainable development; trade policy and trade reforms for sustained growth and development; and selected issues related to social development and protection in the Caribbean	6	6	6	6
7. Training courses on the use of REDATAM to process and analyse data from censuses and household surveys; and on selected environmental development issues	4	8	4	4
Publications (number of publications)	**10**	**4**	**9**	**10**
8. *Economic Survey of the Caribbean*	1	–	1	1
9. *Preliminary Overview of the Economies of the Caribbean*	1	1	1	1
10. *Caribbean Development Report*	1	–	–	1

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
11. On issues related to economic development, ICT, statistics, the environment, and population and social development in the Caribbean	7	3	7	7
Technical materials (number of materials)	**8**	**8**	**8**	**4**
12. On issues related to economic development, ICT for development, statistics, social development, environmental development, and disaster risk reduction and resilience-building in the Caribbean	4	4	4	4
13. *FOCUS* magazine	4	4	4	–

C. Substantive deliverables

Consultation, advice and advocacy: advice to member States, upon request, on ICT for development, economic policies and integration, gender equality and social, population and environmental development, disaster preparedness and risk reduction, and statistics and statistical development.

Databases and substantive digital materials: database on statistical indicators; and database on science and technology.

D. Communication deliverables

Outreach programmes, special events and information materials: *The Hummingbird* newsletter; *FOCUS* magazine; and community outreach events.

External and media relations: news items; media events; and television and radio interviews.

Digital platforms and multimedia content: ECLAC Caribbean website and social media pages.

Library services: information requests; library catalogue; inter-library loans and services; and book displays (virtual).

Subprogramme 13
Support for regional and subregional integration and cooperation processes and organizations

Objective

21.177 The objective, to which this subprogramme contributes, is to enhance regional and subregional integration processes in order to foster their convergence and the participation of the region through common positions in interregional and global political dialogues in support of the 2030 Agenda.

Strategy

21.178 To contribute to the objective, the subprogramme will:

(a) Promote coordination and cooperation among member States and associate members, subregional and regional entities, the resident coordinator system, the United Nations system, the private sector, civil society organizations, academia, extraregional stakeholders and other third parties through contributions to subregional and regional initiatives;

(b) Support the development of joint regional positions in multilateral forums and global conferences, such as the meetings of the Community of Latin American and Caribbean States, the Central American Integration System, the Southern Common Market, the Pacific Alliance, the Caribbean Community, the Association of Caribbean States, the Organization of Eastern Caribbean States and other integration mechanisms;

(c) Develop activities to strengthen subregional and regional organizations, by fostering coordination, cooperation, complementarity and synergies, and by supporting political dialogues with multiple stakeholders when the participation of ECLAC is required;

(d) Foster dialogue and cooperation through South-South, North-South, triangular, bilateral and multilateral cooperation initiatives, specifically the Regional Conference on South-South Cooperation in Latin America and the Caribbean;

(e) Support member States in capacity-building, and assessment – including using the ECLAC damage and loss assessment methodology – of the economic, social and environmental impacts of disasters, in line with the priorities of the Sendai Framework for Disaster Risk Reduction 2015–2030;

(f) Provide technical cooperation and advisory services, upon request, and training activities;

(g) Promote the sharing of knowledge and experiences to support the achievement of sustainable development, as well as promote discussions on shared targets, mainstreaming a gender perspective and in line with the Caribbean First strategy of the Commission;

(h) Promote multilateral cooperation in the context of integration schemes and organizations in the region and help the region to make progress towards the achievement of the Sustainable Development Goals, in particular Goals 16 and 17.

21.179 The above-mentioned work is expected to result in:

(a) Reduced regional asymmetries and increased South-South and triangular cooperation initiatives, including subregional integration processes and the region's strategic positioning at the global level;

(b) Common positions of the countries of the region in support of the implementation of the 2030 Agenda.

Programme performance in 2024

Regional agreement for common criteria for measuring South-South cooperation in Latin America and the Caribbean

21.180 To garner support for measuring South-South cooperation and its impact, the subprogramme published a document with an assessment of South-South cooperation in six countries of the region, which fostered discussion and facilitated dialogue at the Regional Conference on South-South Cooperation in Latin America and the Caribbean. Furthermore, the subprogramme organized capacity-building activities and workshops on approaches for quantifying South-South cooperation.

21.181 Progress towards the objective is presented in the performance measure below (see table 21.41).

Table 21.41
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	At the Regional Conference on South-South Cooperation in Latin America and the Caribbean, countries urged the Statistical Conference of the Americas of ECLAC to strengthen synergies in this direction, taking into consideration the conceptual framework for measuring South-South cooperation developed by the United Nations Conference on Trade and Development	At the Regional Conference on South-South Cooperation in Latin America and the Caribbean, a working group was created to prepare and present estimates on resource mobilization directed towards the 2030 Agenda using a common methodology

Planned results for 2026

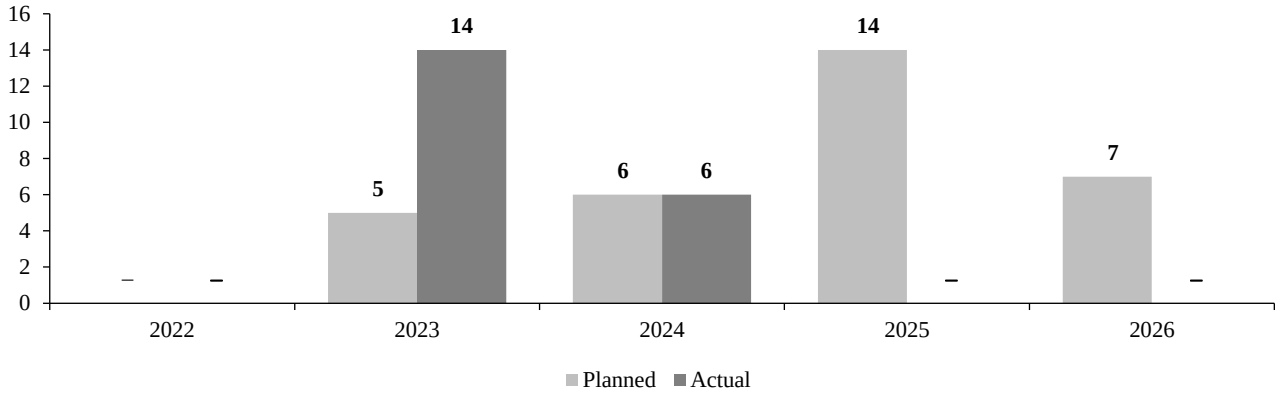
Result 1: strengthened South-South cooperation as an instrument of regional integration in line with the 2030 Agenda

Programme performance in 2024 and target for 2026

21.182 The subprogramme's work contributed to the participation of six regional and subregional integration mechanisms and intergovernmental organizations in the meetings of the Regional Conference on South-South Cooperation of Latin America and the Caribbean and of its Presiding Officers, which met the planned target.

21.183 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 21.XXII).

Figure 21.XXII
Performance measure: number of regional and subregional intergovernmental integration schemes and multilateral organizations participating in the meetings of the Regional Conference on South-South Cooperation of Latin America and the Caribbean and those of its Presiding Officers (annual)



Result 2: strengthened multi-stakeholder initiatives in South-South and triangular cooperation

Programme performance in 2024 and target for 2026

21.184 The subprogramme's work contributed to countries agreeing on a plan of action containing multi-stakeholder strategies for cooperation and providing an in-depth analysis of other means of promoting international development cooperation for the implementation of the 2030 Agenda, which met the planned target.

21.185 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 21.42).

Table 21.42
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Countries exchanged experiences and discussed challenges for innovative and coordinated work with cooperation agencies, non-governmental actors, the private sector and development banks on cross-cutting regional issues	The Presiding Officers of the Regional Conference on South-South Cooperation of Latin America and the Caribbean agreed to a plan of action	Countries identify areas of coordination, cooperation and synergies for work with the private sector and civil society	Countries implement the plan of action and share their multi-stakeholder strategies for cooperation, considering the areas of coordination, cooperation and synergies identified in 2025

Result 3: Latin American and Caribbean countries engage with extraregional actors on South-South and triangular cooperation

Proposed programme plan for 2026

21.186 At the request of member States, the subprogramme held a technical-level meeting in 2024 with the United Nations Office for South-South Cooperation with the aim of identifying new areas of cooperation and developing an action plan to enhance synergies and coordination.

Lessons learned and planned change

21.187 The lesson for the subprogramme was that greater coordination and knowledge-sharing with extraregional actors could help to amplify South-South and triangular cooperation. In applying the lesson, the subprogramme will increase collaboration with extraregional actors, including through the development of a regional engagement plan prepared in conjunction with the United Nations Office for South-South Cooperation, to enhance synergies and coordination.

21.188 Expected progress towards the objective is presented in the performance measure below (see table 21.43).

Table 21.43
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	–	Member States provide feedback on a draft regional engagement plan to amplify South-South and triangular cooperation	A regional engagement plan is adopted by member States

Deliverables

21.189 Table 21.44 lists all deliverables of the subprogramme.

Table 21.44
Subprogramme 13: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	**2**	**2**	**2**	**2**
1. Session of the Regional Conference on South-South Cooperation in Latin America and the Caribbean	–	–	2	–
2. Meeting of the Presiding Officers of the Regional Conference on South-South Cooperation in Latin America and the Caribbean	2	2	–	2
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	**6**	**6**	**6**	**6**
3. Training courses and seminars, in cooperation with government entities and regional and subregional organizations, on strategies and processes for convergence and integration; on South-South and triangular cooperation and strategies; on risk assessment and resilience-building; on regional economic and social policies; to assess progress in subregional and regional integration; and in the context of biregional dialogues	6	6	6	6
Publications (number of publications)	**3**	**3**	**4**	**3**
4. Position document for the Regional Conference on South-South Cooperation in Latin America and the Caribbean	–	–	1	–
5. On cooperation among and the integration of regional and subregional organizations and processes	3	3	3	3
Technical materials (number of materials)	**2**	**2**	**2**	**2**
6. Technical notes for intergovernmental meetings on integration and cooperation and the Regional Conference on South-South Cooperation in Latin America and the Caribbean about the inclusion of extraregional stakeholders and third parties	2	2	2	2
C. Substantive deliverables				
Consultation, advice and advocacy: advice to member States, upon request, and to regional and subregional organizations and processes, including on integration and cooperation, the 2030 Agenda, the use of the ECLAC damage and loss assessment methodology and relationships with extraregional stakeholders and third parties.				

B. Proposed post and non-post resource requirements for 2026

Overview

21.190 The proposed regular budget resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 21.45 to 21.47.

[a] Includes three temporary posts (1 P-4 and 2 P-3) that were approved pursuant to General Assembly resolution 71/272.

21.191 Additional details on the distribution of the proposed resources for 2026 are reflected in tables 21.48 to 21.50 and figure 21.XXIII.

21.192 As shown in tables 21.48 (1) and 21.49 (1), the overall resources proposed for 2026 amount to $62,841,400, reflecting an increase of $19,700 compared with the approved budget for 2025. Resource changes result from other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

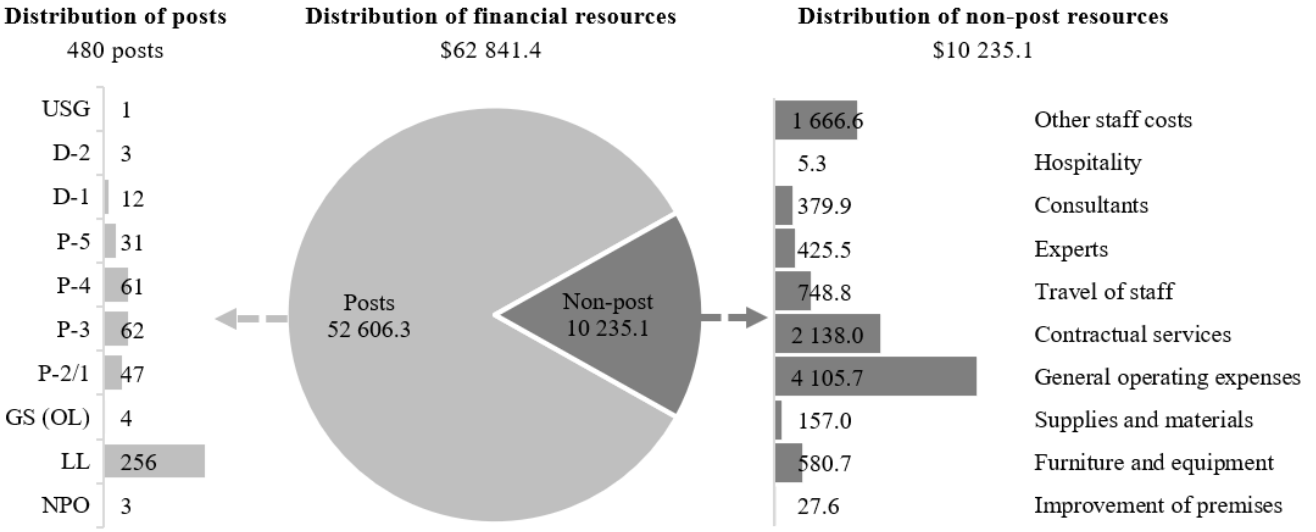
Figure 21.XXIII
Distribution of proposed resources for 2026
(Number of posts/thousands of United States dollars)



Explanation of variances by factor, component and subprogramme

Overall resource changes

Other changes

21.193 As shown in tables 21.48 (1) and 21.49 (1), resource changes reflect an increase of $19,700, which relates to an increase under programme support. The increase relates to a higher standard price of the core software package for non-field personnel outside of United Nations Headquarters.

Extrabudgetary resources

21.194 As reflected in tables 21.48 (2) and 21.49 (2), extrabudgetary resources amount to $12,222,600. These resources would complement regular budget resources and would be used mainly to provide for 53 posts (1 D-1, 1 P-3 and 51 Local level) to support activities under the programme of work, such as capacity-building and advisory and technical cooperation services for ECLAC member States and institutions of the region in areas relating to sustainable development and economic, social and environmental matters. In addition, non-post resources would be used for field projects, online and on-site training courses, applied research training and seminars and workshops in cooperation with governmental entities and academic, non-governmental, regional and subregional institutions. The goal of these activities is to foster cooperation, peer-to-peer learning, networking and the sharing of best practices at the national, subregional and regional levels.

21.195 The extrabudgetary resources under the present section are subject to the oversight of the secretariat of ECLAC, which has delegated authority from the Secretary-General.

Policymaking organs

21.196 The resources proposed under this component would provide for the policymaking organs as shown in table 21.51.

Table 21.51

Executive direction and management

21.198 The executive direction and management component comprises the Office of the Executive Secretary, the Programme Planning and Operations Division and the Public Information Unit.

21.199 The executive direction and management component of ECLAC, under the leadership of the Executive Secretary, oversees the Commission’s strategic direction, supervision and administration to ensure the effective implementation of its mandates and approved programme of work. The Executive Secretary is supported in these responsibilities by the Deputy Executive Secretary.

21.200 The Office of the Executive Secretary is responsible for coordinating regional initiatives and monitoring progress in implementing the 2030 Agenda and the Addis Ababa Action Agenda of the Third International Conference on Financing for Development and the achievement of the Sustainable Development Goals, along with other key intergovernmental agreements in Latin America and the Caribbean. It also prepares the report for the Forum of the Countries of Latin America and the Caribbean on Sustainable Development, convened under ECLAC auspices. In addition, the Office ensures the integration of cross-cutting themes such as gender mainstreaming, disability inclusion and sustainability across the Commission’s subprogrammes and support

activities. It aligns the ECLAC programme of work with other United Nations funds, programmes and specialized agencies operating in the region. The Office also includes the Secretariat of the Commission, which manages political relations and protocol with ECLAC member States and provides logistical support for intergovernmental meetings.

21.201 The Programme Planning and Operations Division is responsible for the overall coordination, guidance and advisory support to ECLAC subprogramme managers and the leadership in formulating the Commission's programme of work. It also manages the reporting process on the implementation of planned activities. In addition, the Division oversees the preparation of the annual proposed programme plan and budget and monitors the execution of the programme of work and its programme support resources. It also ensures comprehensive reporting on the implementation of the ECLAC evaluation plan.

21.202 The Public Information Unit works in close coordination with the Department of Global Communications of the Secretariat to conduct public information activities relating to the United Nations system and ECLAC, including organizing press conferences and issuing press releases, producing and disseminating booklets and information kits about the work of ECLAC and the United Nations and conducting campaigns, including through social media.

21.203 In accordance with the 2030 Agenda, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, ECLAC has integrated environmental management practices and sustainability initiatives into its operations. As part of the Commission's capital investment plan, a phased environmental strategy is being developed to enhance long-term sustainability. ECLAC remains committed to strengthening these efforts in line with the United Nations system's sustainability strategy for the period 2020–2030 (see CEB/2019/1/Add.1) and the environmental policies of its host countries.

21.204 Information on the timely submission of documentation and advance booking for air travel is reflected in table 21.53. The percentage of air tickets purchased at least two weeks before travel has shown steady improvement, increasing from 36 per cent in 2022 to 44 per cent in 2023 and 52 per cent in 2024. While operational adjustments were initially necessary to adapt to the increased workload of providing travel services to the 26 resident coordinator offices and United Nations agencies, funds and programmes in the region, the upward trend in advance ticket purchases demonstrates the effectiveness of these changes. With improved coordination in the travel planning process, ECLAC will continue to monitor the performance of contracted travel agencies and refining associated workflows based on lessons learned.

Programme support

21.219 The programme support component of ECLAC includes several key divisions and units that facilitate the execution of the organization's substantive work across various locations. These components consist of the Division of Administration, the Documents and Publications Division, the Human Resources Section, the Library, the Conference Services Unit and the Project Management Unit. Collectively, these units provide operational and logistical assistance to ECLAC headquarters in Santiago, as well as to its subregional offices in Mexico City (serving Central America) and Port of Spain (supporting the Caribbean). In addition, ECLAC operates national offices in Buenos Aires, Brasília, Bogotá and Montevideo, along with a liaison office in Washington, D.C.

21.220 The main responsibilities of the programme support component include:

(a) Conference services, for meetings of ECLAC intergovernmental bodies and special events;

(b) Documentation and publication services, including planning, editing and translation, text processing, printing and distribution of documents and publications;

(c) Library services that provide access to resources and information services to both ECLAC staff members and external users;

(d) Technical cooperation, including the management of activities that complement those funded from the regular budget. This also includes the application of research findings to the provision of advisory services and training activities for the benefit of ECLAC member States;

(e) Common services related to administration, human resources management, financial management, information and communications technology and general support services.

21.221 The proposed regular budget resources for 2026 amount to $20,565,900 and reflect an increase of $19,700 compared with the approved budget for 2025. The proposed increase is explained in paragraph 21.193 (a). Additional details on the distribution of the proposed resources for 2026 are reflected in table 21.68 and figure 21.XXXIX.

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

22.1 The Economic and Social Commission for Western Asia (ESCWA) is responsible for promoting inclusive and sustainable development in the Arab region. The mandate derives from the priorities established in relevant General Assembly and Economic and Social Council resolutions and decisions, including Council resolution 1818 (LV), by which the Commission was established, and resolution 1985/69, by which its terms of reference were amended to emphasize its social functions. The Commission's membership includes 21 Arab member States.

22.2 The adoption of the Pact for the Future (see General Assembly resolution 79/1) provides a crucial opportunity to redefine the trajectory of the Arab region, which, notwithstanding its potential and human capital, is still not on track to implement the 2030 Agenda for Sustainable Development and achieve all its Sustainable Development Goals. The development gains achieved to date continue to be jeopardized by conflict, which, in some cases, has set back decades-long progress; political instability and social unrest; governance, social and economic challenges; and the impact of a changing climate on ecosystems. The Pact for the Future offers the region another chance to harness artificial intelligence, digital innovation and predictive analytics, in line with the Global Digital Compact, to address the complex and interrelated challenges that it faces, including economic volatility, social inequalities, conflict and the impacts of climate change, and to take decisive action towards achieving the aspirations of the people of the Arab region for a prosperous future for all. Given its regional mandate, ESCWA is uniquely positioned to support national development trajectories and priorities by leveraging its expertise, toolkits and partnerships, in support of jointly owned development solutions and outcomes. The support delivered by the Commission to member States is also provided through the regular programme of technical cooperation and Development Account projects.

Strategy and external factors for 2026

22.3 The Commission's programme of work for 2026 remains guided by universal principles and rights, aligned with its mandates and centred around tailored and timely support to member States in their efforts to achieve the Sustainable Development Goals. To deliver on this commitment, ESCWA will continue to provide evidence-based, novel policy options, underpinned by analysis made possible by its suite of interactive, data-driven modelling and policy simulation tools and knowledge repositories; to provide technical advice and enhance human and institutional capacities, including through peer-to-peer exchanges and the promotion of South-South and interregional collaboration; to leverage its convening role to promote inclusive dialogue at the national, subregional and intraregional and interregional levels and forge consensus on viable development solutions; and to advocate for whole-of-government and whole-of-society approaches to accelerate progress against the Goals and their targets, while championing the region's perspective through a global lens. The programme of work remains focused on high-impact interventions as means of achieving inclusive and equitable development outcomes, which address the specific needs of groups in vulnerable situations, including women, young people, older persons, persons with disabilities and the diverse and specific challenges of least developed and middle-income countries and countries in conflict, in line with the Doha Programme of Action for the Least Developed Countries for the decade 2022–2031.

22.4 As defined by the objectives of the six subprogrammes, the Commission's programme of work remains focused on areas such as climate action and the integrated management of water resources; the transition to new and renewable sources of energy, sustainable food systems and circular

economy approaches; multidimensional poverty reduction and inclusive social protection; social and gender justice, women's economic empowerment and improved access to labour markets, as part of the commitment to "leave no one behind"; macroeconomic, fiscal and trade policies, competitiveness of business environments and opportunities for small and medium-sized enterprises; improved access to innovative sources of development finance and sustainable debt management; information technology and statistics; the transparency and accessibility of public institutions, including through digitization; innovation and digital transformation; and governance, the assessment and mitigation of transboundary risks, including conflict, and boosting the effectiveness and efficiency of public administration.

22.5 With regard to cooperation with other entities at the global, regional, national and local levels, ESCWA will sustain its strategic partnership with the League of Arab States, the Organisation for Economic Co-operation and Development/Development Assistance Committee and other intergovernmental organizations, as well as the Islamic Development Bank, the Arab Fund for Economic and Social Development and other relevant financial institutions. It will also promote South-South and triangular cooperation and further enhance its outreach to academic institutions and think tanks, civil society organizations and the private sector. New partnership opportunities will also be pursued as a means of expanding the range of the Commission's support to member States, including by facilitating access to innovation, new technologies and funding opportunities.

22.6 With regard to inter-agency coordination and liaison, as outlined in General Assembly resolution 72/279, the Commission will continue to discharge its role as co-coordinator of the Regional Collaborative Platform for Arab States and its subsidiary issue-based coalitions. It will also work closely with the Development Coordination Office, the resident coordinator offices of the United Nations, United Nations country teams, the World Bank, the United Nations Conference on Trade and Development and the United Nations Industrial Development Organization to ensure that any support that it provides to member States is relevant, timely and effective and fully aligned with the commitments outlined within the national United Nations Sustainable Development Cooperation Frameworks, while avoiding duplication of interventions and gaps.

22.7 With regard to the external factors, the overall plan for 2026 is based on the following planning assumptions:

(a) Sufficient opportunities for protecting and leveraging development gains for further progress towards the implementation of the 2030 Agenda exist, notwithstanding the volatile global, regional and national landscapes and increased need for urgent humanitarian action and peacebuilding efforts;

(b) Member States remain engaged and committed to collaborating on a range of sustainable development initiatives, with a focus on transboundary issues and emerging challenges;

(c) Development partners remain committed to collaboration on and the joint implementation of development initiatives, including their prioritization, the identification of innovative solutions and opportunities for specific contributions;

(d) The Commission's operational preparedness and adaptability enable it to maintain business continuity, also during times of compromised safety and security emerging from conflict, political and social instability and/or natural disasters.

22.8 ESCWA integrates a gender perspective into its activities, deliverables and results, as appropriate. This includes the provision of support to its member States in developing inclusive, gender-sensitive policy frameworks to address a wide range of economic and social issues and in enhancing the capacities of national institutions and actors, as well as the development of publications and technical materials specific to advancing gender equality and women's economic empowerment in the region. The Commission's commitment to gender equality remains in line with the United Nations global accountability framework, in accordance with Economic and Social Council resolution 2023/11.

22.9 In line with the United Nations Disability Inclusion Strategy, ESCWA will continue to make policy recommendations available to member States and advocate in favour of the adoption of national

frameworks that promote the greater inclusion and empowerment of persons with disabilities, including enhanced access to labour markets and basic social services.

22.10 ESCWA will integrate issues related to older persons and young people across its programme of work with the aim of augmenting their role as active contributors to the implementation of the 2030 Agenda. In this context the Commission will: (a) promote their meaningful participation and inclusion in development dialogues; (b) generate and disseminate knowledge essential for the development of policies that are responsive to the needs of young people and older persons; (c) facilitate peer-to-peer learning among member States within the region and beyond; and (d) support member States in the adoption and implementation of polices that protect the rights of young people and older persons.

Legislative mandates

22.11 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme:

General Assembly resolutions

68/196	United Nations Guiding Principles on Alternative Development
68/211	International Strategy for Disaster Reduction
69/277	Political declaration on strengthening cooperation between the United Nations and regional and subregional organizations
69/313	Addis Ababa Action Agenda of the Third International Conference on Financing for Development
70/1	Transforming our world: the 2030 Agenda for Sustainable Development
71/313	Work of the Statistical Commission pertaining to the 2030 Agenda for Sustainable Development
72/279	Repositioning of the United Nations development system in the context of the quadrennial comprehensive policy review of operational activities for development of the United Nations system
74/230	Culture and sustainable development
75/4	Special session of the General Assembly in response to the coronavirus disease (COVID-19) pandemic
76/258	Doha Programme of Action for the Least Developed Countries
78/1	Political declaration of the high-level political forum on sustainable development convened under the auspices of the General Assembly
79/1	The Pact for the Future
79/12	Cooperation between the United Nations and the League of Arab States
79/199	Follow-up to and implementation of the outcomes of the International Conferences on Financing for Development
79/202	Promoting sustainable consumption and production patterns for the implementation of the 2030 Agenda for Sustainable Development, building on Agenda 21
79/225	Eradicating rural poverty to implement the 2030 Agenda for Sustainable Development
79/226	Quadrennial comprehensive policy review of operational activities for development of the United Nations system
79/228	Towards global partnerships: a principle-based approach to enhanced cooperation between the United Nations and all relevant partners
79/236	South-South cooperation

Economic and Social Council resolutions

1818 (LV)	Establishment of an Economic Commission for Western Asia
1985/69	Amendment of the terms of reference of the Economic Commission for Western Asia: change of name of the Commission
2011/5	The role of the United Nations system in implementing the internationally agreed goals and commitments in regard to gender equality and the empowerment of women
2014/36	Redesignation of the Technical Committee of the Economic and Social Commission for Western Asia as the Executive Committee and amendment of its terms of reference
2015/10	2020 World Population and Housing Census Programme
2016/10	Economic and Social Commission for Western Asia strategy and plan of action on the 2030 Agenda for Sustainable Development

2017/7	Work of the Statistical Commission pertaining to the 2030 Agenda for Sustainable Development
2020/5	Strengthening coordination of the statistical programmes in the United Nations system
2021/3	New strategic vision of the Economic and Social Commission for Western Asia
2022/23	Situation of and assistance to Palestinian women
2024/19	Progress in the implementation of General Assembly resolution 75/233 on the quadrennial comprehensive policy review of operational activities for development of the United Nations system

Economic and Social Commission for Western Asia ministerial declarations and resolutions

Tunis Declaration on Social Justice in the Arab Region (2014)

Doha Declaration on the Implementation of the 2030 Agenda for Sustainable Development (2016)

Beirut Consensus on Technology for Sustainable Development in the Arab Region (2018)

Arab Declaration on Progress in Implementation of the Beijing Declaration and Platform for Action after 25 Years (2019)

286 (XXV)	Gender statistics for equality and empowerment of women
296 (XXVI)	Enhancing public sector institutions and resources to attain national development goals
331 (XXX)	Comprehensive approaches to technical cooperation in response to member States' emerging needs
334 (XXX)	Adoption of the reports of the subsidiary bodies of the Economic and Social Commission for Western Asia
335 (S-VI)	Programme Plan for the Economic and Social Commission for Western Asia for 2021
337 (S-VII)	Request from Djibouti for membership of the Economic and Social Commission for Western Asia
341 (S-VII)	Adoption of the session reports of subsidiary bodies of the Economic and Social Commission for Western Asia
343 (XXXI)	Programme plan of the Economic and Social Commission for Western Asia for 2025
344 (XXXI)	Frequency of the sessions of the Committee on Social Development of the Economic and Social Commission for Western Asia
345 (XXXI)	War on Gaza and support for the Palestinian people
346 (XXXI)	Effective economic governance and modernization of public administration

Subprogramme 1
Climate change and natural resource sustainability

General Assembly resolutions

71/222	International Decade for Action, "Water for Sustainable Development," 2018–2028
72/178	The human rights to safe drinking water and sanitation
72/242	Impact of rapid technological change on the achievement of the Sustainable Development Goals
73/226	Midterm comprehensive review of the implementation of the International Decade for Action "Water for Sustainable Development", 2018–2028
74/215	Agricultural technology for sustainable development
75/212	United Nations Conference on the Midterm Comprehensive Review of the Implementation of the Objectives of the International Decade for Action, "Water for Sustainable Development," 2018–2028
75/219; 79/208	Implementation of the Convention on Biological Diversity and its contribution to sustainable development
75/271	Nature knows no borders: transboundary cooperation a key factor for biodiversity conservation, restoration and sustainable use
75/280	International meeting entitled "Stockholm+50: a healthy planet for the prosperity of all – our responsibility, our opportunity"
76/300	The human right to a clean, healthy and sustainable environment
77/294	International Day of Combating Sand and Dust Storms
78/314	United Nations Decade on Combating Sand and Dust Storms (2025–2034)
78/327	Modalities of the 2026 United Nations Water Conference to Accelerate the Implementation of Sustainable Development Goal 6: Ensure availability and sustainable management of water and sanitation for all
79/171	The right to food
79/205	Disaster risk reduction
79/206	Protection of global climate for present and future generations of humankind
79/207	Implementation of the United Nations Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or Desertification, Particularly in Africa

79/211	Ensuring access to affordable, reliable, sustainable and modern energy for all	79/227	Agriculture development, food security and nutrition
79/212	Combating sand and dust storms		

Economic and Social Commission for Western Asia resolutions

281 (XXV)	Addressing climate change issues in the Arab region	329 (XXX)	Establishment of the Arab centre for climate change policies in the Arab region
305 (XXVII)	Sustainable development in the region and follow-up and implementation of the decisions of the Rio+20 Conference	339 (S-VII)	Establishment of a centre for advancing carbon emissions reduction under the Commission

United Nations Environment Assembly of the United Nations Environment Programme resolution

5/11	Enhancing circular economy as a contribution to achieving sustainable consumption and production

Subprogramme 2
Gender justice, population and inclusive development

General Assembly resolutions

66/130	Women and political participation	74/134	The girl child
66/131	Convention on the Elimination of All Forms of Discrimination against Women	74/144	Implementation of the Convention on the Rights of Persons with Disabilities and the Optional Protocol thereto: accessibility
68/143	Assistance to refugees, returnees and displaced persons in Africa	74/148	Protection of migrants
68/181	Promotion of the Declaration on the Right and Responsibility of Individuals, Groups and Organs of Society to Promote and Protect Universally Recognized Human Rights and Fundamental Freedoms: protecting women human rights defenders	74/253	Enhancing accessibility for persons with disabilities to conferences and meetings of the United Nations system
		78/195	Implementation of the Convention on the Rights of Persons with Disabilities and the Optional Protocol thereto: situations of risk and humanitarian emergencies
68/191	Taking action against gender-related killing of women and girls	78/318	Modalities of the “World Social Summit”, under the title “the Second World Summit for Social Development”
68/239	Implementation of the outcome of the United Nations Conference on Human Settlements (Habitat II) and strengthening of the United Nations Human Settlements Programme (UN-Habitat)	79/146	Implementation of the outcome of the World Summit for Social Development and of the twenty-fourth special session of the General Assembly
69/236	World Survey on the Role of Women in Development	79/147	Follow-up to the Second World Assembly on Ageing
71/256	New Urban Agenda		
73/195	Global Compact for Safe, Orderly and Regular Migration	79/149	Inclusive development for and with persons with disabilities
74/120	Promoting social integration through social inclusion	79/152	Intensification of efforts to prevent and eliminate all forms of violence against women and girls: the digital environment
74/121	Policies and programmes involving youth		
74/126	Improvement of the situation of women and girls in rural areas	79/217	International migration and development
		79/221	Implementation of the Third United Nations Decade for the Eradication of Poverty (2018–2027)
74/127	Violence against women migrant workers		
74/128	Follow-up to the Fourth World Conference on Women and full implementation of the Beijing Declaration and Platform for Action and the outcome of the twenty-third special session of the General Assembly	79/223	Women in development

Security Council resolutions

1325 (2000)

2535 (2020)

Economic and Social Council resolutions

2014/5	Promoting empowerment of people in achieving poverty eradication, social integration and full employment and decent work for all
2015/21	Taking action against gender-related killing of women and girls
2017/12	Promoting the rights of persons with disabilities and strengthening the mainstreaming of disability in the implementation of the 2030 Agenda for Sustainable Development
2019/6	Addressing inequalities and challenges to social inclusion through fiscal, wage and social protection policies
2020/7	Affordable housing and social protection systems for all to address homelessness
2020/15	Multi-year programme of work of the Commission on the Status of Women
2021/8	Future organization and methods of work of the Commission for Social Development
2024/3	Mainstreaming a gender perspective into all policies and programmes in the United Nations system
2024/4	Promoting care and support systems for social development
2024/6	Fostering social development and social justice through social policies to accelerate progress on the implementation of the 2030 Agenda for Sustainable Development and to achieve the overarching goal of poverty eradication

Economic and Social Commission for Western Asia ministerial declarations and resolutions

Muscat Declaration: Towards the Achievement of Gender Justice in the Arab Region (2016)

Arab Declaration on Progress in the Implementation of the Beijing Declaration and Platform for Action after 25 Years (2019)

304 (XXVII) The role of participation and social justice in achieving sustainable development

Subprogramme 3
Shared economic prosperity

General Assembly resolutions

69/213	Role of transport and transit corridors in ensuring international cooperation for sustainable development
77/175	Role of the United Nations in promoting development in the context of globalization and interdependence
78/139	Financial inclusion for sustainable development
78/148	Strengthening the links between all modes of transport to achieve the Sustainable Development Goals
78/162	Development cooperation with middle-income countries
78/271	Further modalities of the Fourth International Conference on Financing for Development
78/290	Improving global road safety
79/117	Report of the United Nations Commission on International Trade Law on the work of its fifty-seventh session
79/170	The right to development
79/195	International trade and development
79/196	International financial system and development
79/197	External debt sustainability and development
79/198	Promoting investments for sustainable development
79/201	Entrepreneurship for sustainable development
79/213	Promoting the social and solidarity economy for sustainable development
79/215	Towards a New International Economic Order
79/216	Role of the United Nations in promoting development in the context of globalization and interdependence
79/234	Promotion of international cooperation to combat illicit financial flows and strengthen good practices on assets return to foster sustainable development
79/235	Promotion of inclusive and effective international tax cooperation at the United Nations

Economic and Social Commission for Western Asia resolutions

214 (XIX)	Establishment of a technical committee on liberalization of foreign trade and economic globalization in the countries of the ESCWA region	332 (XXX)	Developing the work of the Technical Committee on Liberalization of Foreign Trade, Economic Globalization and Financing for Development
303 (XXVII)	Towards enhancing the macroeconomic policy in ESCWA member countries	338 (S-VII)	Establishment of an Arab integrated road safety observatory
308 (XXVII)	The regional dimension of development		
313 (XXVII)	Frequency of sessions of the Technical Committee on Liberalization of Foreign Trade, Economic Globalization and Financing for Development in the Countries of the ESCWA Region		

Subprogramme 4
Statistics, the information society and technology

General Assembly resolutions

68/261	Fundamental Principles of Official Statistics	74/229	Science, technology and innovation for sustainable development
69/282	World Statistics Day	75/316	Impact of rapid technological change on the achievement of the Sustainable Development Goals and targets
70/125	Outcome document of the high-level meeting of the General Assembly on the overall review of the implementation of the outcomes of the World Summit on the Information Society	78/311	Enhancing international cooperation on capacity-building of artificial intelligence

Economic and Social Council resolutions

2006/6	Strengthening statistical capacity	2019/19	Promoting technical assistance and capacity-building to strengthen national measures and international cooperation to combat cybercrime, including information-sharing
2011/24	Committee of Experts on Global Geospatial Information Management	2019/24	Assessment of the progress made in the implementation of and follow-up to the outcomes of the World Summit on the Information Society
2013/21	Fundamental Principles of Official Statistics	2020/13	Science, technology and innovation for development
2014/35	Establishment of an intergovernmental committee on technology for development in the Economic and Social Commission for Western Asia		

Economic and Social Commission for Western Asia resolutions

276 (XXIV); 287 (XXV)	Strengthening statistical capacities in the ESCWA region	294 (XXVI)	Establishment of the ESCWA technology centre
283 (XXV)	ESCWA member country compliance with international standards for enhancing national statistical systems	306 (XXVII)	Development of the Arab Internet Governance Forum process and sustaining efforts in the Arabic domain names field

Subprogramme 5
2030 Agenda and SDG coordination

General Assembly resolutions

67/290	Format and organizational aspects of the high-level political forum on sustainable development	75/290 A; 75/290 B	Review of the implementation of General Assembly resolution 72/305 on the strengthening of the Economic and Social Council
70/299	Follow-up and review of the 2030 Agenda for Sustainable Development at the global level		

Economic and Social Commission for Western Asia resolutions

314 (XXVIII)	The Arab Forum on Sustainable Development	327 (XXIX)	Working mechanisms of the Arab Forum for Sustainable Development

Subprogramme 6
Governance and conflict prevention

General Assembly resolutions and decisions

35/63	Restrictive business practices	75/201	Review of the United Nations peacebuilding architecture
39/248	Consumer protection	77/22	Committee on the Exercise of the Inalienable Rights of the Palestinian People
57/337	Prevention of armed conflict	77/216	Promotion of peace as a vital requirement for the full enjoyment of all human rights by all
58/4	United Nations Convention against Corruption	79/81	Peaceful settlement of the question of Palestine
68/303	Strengthening the role of mediation in the peaceful settlement of disputes, conflict prevention and resolution	79/82	Division for Palestinian Rights of the Secretariat
69/228	Promoting and fostering the efficiency, accountability, effectiveness and transparency of public administration by strengthening supreme audit institutions	79/83	The Syrian Golan
69/291; 75/327	Implementation of the recommendations contained in the report of the Secretary-General on the causes of conflict and the promotion of durable peace and sustainable development in Africa	79/90	The occupied Syrian Golan
		79/141	Assistance to the Palestinian people
		79/163	The right of the Palestinian people to self-determination
69/327	Promoting inclusive and accountable public services for sustainable development	79/229	Permanent sovereignty of the Palestinian people in the Occupied Palestinian Territory, including East Jerusalem, and of the Arab population in the occupied Syrian Golan over their natural resources
70/186	Consumer protection		

Security Council resolutions

1947 (2010)		2461 (2019)	
2429 (2018)		2558 (2020)	

Economic and Social Council resolutions

2023/28	Report of the Committee of Experts on Public Administration on its twenty-second session	2023/35	Situation of and Assistance to Palestinian Women
2023/34	Economic and social repercussions of the Israeli occupation on the living conditions of the Palestinian people in the Occupied Palestinian Territory, including East Jerusalem, and the Arab population in the occupied Syrian Golan		

Economic and Social Commission for Western Asia resolutions

271 (XXIV)	Strengthening the role of ESCWA in addressing the impact of conflict and instability within the context of social and economic development	292 (XXVI)	Upgrading the Section for Emerging and Conflict-Related Issues to the level of a division and establishing a governmental committee on emerging issues and development in conflict settings
282 (XXV)	Mitigating the impact on development of conflict, occupation and instability in ESCWA member countries	307 (XXVII); 316 (XXVIII); 330 (XXX)	Support for the Palestinian people
		326 (XXIX)	Justice for the Palestinian people: fifty years of Israeli occupation

Deliverables

22.12 Table 22.1 lists all cross-cutting deliverables of the programme.

Table 22.1
Cross-cutting deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**10**	**10**	**10**	**10**
1. ESCWA ministerial session	–	–	–	6
2. Executive Committee	10	10	10	4
Substantive services for meetings (number of three-hour meetings)	**15**	**14**	**17**	**15**
3. ESCWA ministerial session (special session)	–	–	–	4
4. Executive Committee	6	6	8	4
5. ESCWA Advisory Committee	2	2	2	1
6. Committee for Programme and Coordination	1	1	1	1
7. Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
8. Fifth Committee	1	1	1	1

Publications (number of publications)	**1**	**–**	**2**	**–**
10. ESCWA annual report	1	–	–	–
11. System-wide annual results report	–	–	1	–
12. Report on megatrends (artificial intelligence)	–	–	1	–
C. Substantive deliverables				
Databases and substantive digital materials: the Manara and ESCWA Learn platforms.				
D. Communication deliverables				
Outreach programmes, special events and information materials: selected international days; the Arab Forum for Sustainable Development; the Arab summit for small and medium-sized enterprises and the Arab Forum for Equality; and awareness-raising activities on the work of the United Nations and ESCWA.				
External and media relations: briefings by the Executive Secretary and other senior officials; ESCWA livestreaming services; and press releases on and media coverage of ESCWA activities.				
Digital platforms and multimedia content: videos and other visual content on ESCWA activities and daily ESCWA news on the ESCWA website and social media accounts; and ESCWApod.				

Evaluation activities

22.13 The following evaluations completed in 2024 have guided the proposed programme plan for 2026:

(a) Office of Internal Oversight Services synthesis review of evaluation results for regional economic commissions – contributions to economic development;

(b) Midterm assessment conducted by ESCWA of a project on climate resilience through regional cooperation for inclusive sustainable development.

22.14 In response to the results of the internal evaluation referenced above, the Commission will further enhance its interventions related to climate change by leveraging technological advances for enhanced capacity-building and knowledge dissemination and by strengthening and customizing

stakeholders' engagement and ownership utilization of outputs. In addition, the Commission will strengthen its assessment of the outcomes of its economic development activities, including through beneficiary surveys of training sessions and the monitoring of policies or action taken by policymakers.

22.15 In 2026, the Commission will conduct an internal evaluation of one of its six subprogrammes.

Programme of work

Subprogramme 1
Climate change and natural resource sustainability

Objective

22.16 The objective, to which this subprogramme contributes, is to advance climate action and integrated and sustainable policies in the areas of water, energy and food security.

Strategy

22.17 To contribute to the objective, the subprogramme will:

(a) Deploy in-house expertise and collaborate with other United Nations entities and external experts to analyse and assess the impact of trends and challenges and disseminate knowledge products pertaining to issues such as transboundary and the integrated management of water resources; land degradation and biodiversity; extractive industries and energy transitions; equitable, resilient, inclusive and sustainable agrifood systems; the transition to circular economy approaches; sand and dust storms; climate adaptation and mitigation; and a means for assessing climate finance and data-driven knowledge platforms related to climate resilience;

(b) Provide technical and policy advice and expertise to member States and strengthen capacities at the regional, national and sectoral levels to use evidence and tools to identify and operationalize solutions and mainstream considerations related to climate change, sustainable natural resource management and food security into national development plans and budgets, and identify opportunities for financing climate action and adaptation;

(c) Convene intergovernmental platforms and technical bodies to facilitate cross-sectoral dialogue, consensus-building and peer-to-peer exchanges among policymakers, practitioners, experts, civil society and other development partners from within and outside the region to promote cooperation and coordination; foster consensus towards the development of national, transboundary and regional normative frameworks on the sustainable management of water, energy and land resources; facilitate the transition to circular economy approaches; and increase access to affordable, reliable, sustainable and modern energy;

(d) Advocate with national Governments, regional intergovernmental bodies and relevant stakeholders, including through supporting the integrated, regional reporting on and monitoring of progress against specific Sustainable Development Goal targets; promote joint solutions and the harmonization of positions; and leverage partnerships in support of the implementation and financing of such commitments.

22.18 The above-mentioned work is expected to result in:

(a) The adoption by member States of national policy frameworks and regional agreements related to climate action and the sustainable use and management of natural resources; reduced emissions; making the transition away from fossil fuels in energy systems in a just, orderly and

equitable manner; resilient food systems supported by sustainable agriculture; and improved climate resilience;

(b) Strengthened cooperation on issues outlined in paragraph 22.17 above, supported by inclusive networks and participatory coordination mechanisms.

Programme performance in 2024

Member States are better equipped to prepare the next round of nationally determined contributions for climate action

22.19 The next round of nationally determined contributions under the Paris Agreement are due in 2025. The subprogramme provided member States with technical assistance on the structure of their climate finance flows, training on adaptation costing, tools for reducing risks in the deployment of renewable energy and tailored data sets to inform climate action plans. During 2024, best practices for mainstreaming water, energy and food security into nationally determined contributions were shared during five regional forums convened or co-convened by ESCWA. The aim was to empower member States to broaden sector and stakeholder engagement in nationally determined contribution preparation and to articulate evidence-based adaptation programmes alongside mitigation goals. By the end of 2024, three member States (Iraq, Lebanon and Tunisia) benefited from improved capacity and tailored knowledge products to prepare their next round of nationally determined contributions.

22.20 Progress towards the objective is presented in the performance measure below (see table 22.2).

Table 22.2
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Eleven member States costed their nationally determined contribution climate finance needs	Member States have access to knowledge products on ways to better articulate their adaptation and mitigation commitments and the related climate finance envelope	Three member States (Iraq, Lebanon and Tunisia) enhanced their understanding and capacity to prepare their next round of nationally determined contributions

Planned results for 2026

Result 1: sustainable transition to new and renewable sources of energy underpinned by a transformed extractive industries sector

Programme performance in 2024 and target for 2026

22.21 The subprogramme's work contributed to advancing national dialogues in two member States (Jordan and Saudi Arabia) on the transformation of the extractive energy sector, which did not meet the planned target of member States formulating national policy frameworks in support of transforming the extractive energy sector with a view to making the transition to affordable, reliable, sustainable and modern energy systems. The target was not met owing to liquidity-related constraints, which resulted in the lack of sufficient and dedicated resources for activities such as the organization of consultations at the national level and the production of national case studies.

22.22 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 22.3).

Table 22.3
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Member States have access to information on extractive industries in the Arab region	Member States gained access to a suite of knowledge products and evidence on the role of minerals and raw materials in supporting the energy transition in the Arab region	Two member States (Jordan and Saudi Arabia) embarked on national dialogues on transforming the extractive energy sector towards affordable, reliable, sustainable and modern energy systems	Two member States implement policy recommendations and best practices for sustainable production of critical raw materials	One additional member State commences a national dialogue on transforming the extractive energy sector towards affordable, reliable, sustainable and modern energy systems
Strategic framework and road map for enabling just, inclusive, equitable and secure transition of the energy sector, based on the circular carbon economy framework, is developed for one member State (Kuwait)	States exchanged expertise and good practice, and coordinated national actions at the regional level through the regional expert group on extractive industries as well as dedicated platform at the Middle East and North Africa Climate Week 2023			

Result 2: transitioning to sustainable food systems

Programme performance in 2024 and target for 2026

22.23 The subprogramme's work contributed to two member States (Jordan and Lebanon) having assessed their national food systems, which exceeded the planned target of one member State.

22.24 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 22.4).

Table 22.4
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Member States have access to regional tool for assessing food security	Two member States (Jordan and Lebanon) assessed their national food systems	One member State develops a framework for making the transition to sustainable food systems	One additional member State develops a framework for making the transition to sustainable food systems

Result 3: member States identify joint priority action to combat sand and dust storms

Proposed programme plan for 2026

22.25 Sand and dust storms are an urgent transboundary challenge in Western Asia owing to climate change, land degradation and water scarcity. The subprogramme enhanced the capacity of member States to monitor and mitigate sand and dust storms, including through training, by making available geospatial mapping tools and assessments of the projected change in their frequency and intensity and by fostering knowledge exchange through the United Nations Coalition on Combating Sand and Dust Storms.

Lessons learned and planned change

22.26 The lesson for the subprogramme was that the transboundary nature of sand and dust storms required coordinated response measures at the intraregional and interregional levels. In applying the lesson, the subprogramme will conduct policy dialogues in collaboration with the Economic and Social Commission for Asia and the Pacific that will coincide with the launch of the United Nations Decade on Combating Sand and Dust Storms (2025–2034). This will foster common understanding among member States in Western and Central Asia to inform the joint identification of priority interventions aimed at enhancing preparedness and collaborative planning to mitigate sand and dust storms.

22.27 Expected progress towards the objective is presented in the performance measure below (table 22.5).

Table 22.5
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Member States have access to geospatial tools for enhanced analysis of sand and dust storms	Member States have access to interregional dialogues on sand and dust storms	Member States identify joint priority action for sand and dust storm management in Western Asia and neighbouring areas

Deliverables

22.28 Table 22.6 lists all deliverables of the subprogramme.

Table 22.6
Subprogramme 1: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**–**	**–**	**12**	**–**
1. Committee on Energy	–	–	6	–
2. Committee on Water Resources	–	–	6	–
Substantive services for meetings (number of three-hour meetings)	**30**	**29**	**42**	**28**
3. Committee on Water Resources	–	–	4	–
4. Committee on Energy and its Expert Group on Extractive Industries	–	–	5	–
5. Committee on Water Resources and the Committee on Energy (joint)	–	–	1	–
6. Executive Bureau of the Arab Ministerial Council for Electricity and its committees of experts on electricity and on renewable energy and energy efficiency	6	6	6	6
7. Arab Ministerial Water Council and its Technical, Scientific and Advisory Committee	6	6	6	6
8. Joint Ministerial Council for Water and Agriculture and its High-level Joint Technical Committee	–	–	2	–
9. Arab Council of Ministers Responsible for Meteorology and Climate and its Permanent Committee for Meteorology, the Sub-Committee on Weather and Climate Risk Information Management and the Arab Climate Outlook Forum	10	9	10	8
10. Council of Arab Ministers Responsible for the Environment and its Technical Committee	8	8	8	8
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**5**	**5**	**9**	**7**
11. Climate resilience through regional cooperation for inclusive sustainable development	1	1	1	1
12. Arab Centre for Climate Change Policies	1	1	1	1
13. Centre for Advancing Emissions Reduction	1	–	1	1
14. Regional Initiative for the Assessment of the Impact of Climate Change on Water Resources and Socio-Economic Vulnerability in the Arab Region (RICCAR)	1	1	1	1
15. Arab Integrated Water Resources Management Network (AWARENET)	1	1	1	1
16. Increasing the resilience of both displaced persons and host communities to climate change-related water challenges in Jordan and Lebanon	–	–	1	–
17. Water scarcity initiative (climate change and groundwater)	–	–	1	1
18. Mashreq Waters Knowledge Series	–	1	1	–
19. Regional Initiative for Promoting Small-Scale Renewable Energy Applications in Rural Areas of the Arab Region (REGEND)	–	–	1	1
Seminar, workshops and training events (number of days)	**–**	**5**	**7**	**8**
20. Seminars and workshops on topics related to climate change and sustainable natural resource management	–	5	7	8
Publications (number of publications)	**1**	**1**	**2**	**2**
21. On topics related to climate action and sustainable natural resource management	1	1	2	2
Technical materials (number of materials)	**8**	**7**	**8**	**8**
22. On topics related to climate action and sustainable natural resource management	8	7	8	8
C. Substantive deliverables				
Consultation, advice and advocacy: expert groups on environment; water (security) and groundwater; energy; agriculture, food security, sustainable consumption and production, and circular economy approaches; and climate change, energy management and extractive industries.				

Category and subcategory	2024 planned	2024 actual	2025 planned	2026 planned
Databases and substantive digital materials: groundwater knowledge platform; and e-learning on food systems monitoring framework, on climate change and on REGEND.				
D. Communication deliverables				
Outreach programmes, special events and information materials: briefs, fact sheets and booklets on topics identified in paragraph 22.17 (a) of the present report; side events at major meetings; global and regional events; and webinars.				

Subprogramme 2
Gender justice, population and inclusive development

Objective

22.29 The objective, to which this subprogramme contributes, is to achieve equitable and inclusive social development and reduced inequality, poverty and unemployment in line with the principle of leaving no one behind.

Strategy

22.30 To contribute to the objective, the subprogramme will:

(a) Develop knowledge products and policy options and solutions, underpinned by the analysis of trends and challenges, international norms and regional perspectives on a wide range of issues pertaining to social inclusion and protection; social and gender justice; poverty reduction; labour market needs; migration; and the socioeconomic participation and empowerment of women, young people, older persons and persons with disabilities, especially those in vulnerable situations;

(b) Support mandated reviews against global commitments and agreements; provide technical and policy advice; and strengthen national capacities to assess existing policy and legislative frameworks, to identify and operationalize viable legislation and solutions and to mainstream the reduction in inequalities and equal participation, protection and specific needs of those in vulnerable situations into national development plans and budgets;

(c) Enhance existing and develop new methodologies, regional public goods and interactive tools for simulation and analysis of policy options and their impact on inclusive development trajectories;

(d) Engage member States and development stakeholders in dialogue to advocate for the adoption of policy solutions and to forge consensus on issues outlined in paragraph 22.30 (a) above, while promoting South-South (intraregional and interregional) collaboration and peer learning.

22.31 The above-mentioned work is expected to result in:

(a) National policy frameworks and strategies adopted by member States to address structural inequalities and promote social justice and greater social inclusion and the socioeconomic empowerment and participation of women, young people, older persons, persons with disabilities and migrants, especially those in vulnerable situations;

(b) Enhanced coverage of the peoples of the region, in particular persons in vulnerable situations, through social protection and poverty eradication programmes and their improved access to decent and equitable employment opportunities.

Programme performance in 2024

Reaffirmed commitment to the Beijing Declaration and Platform for Action

22.32 Periodic reviews of the Beijing Declaration and Platform for Action allow countries to measure progress against commitments and to reflect on challenges and opportunities that affect full implementation. The subprogramme encouraged all Arab member States to engage in the current iteration of the review, which marked the thirtieth anniversary of the adoption of the Beijing Declaration and Platform for Action.

22.33 The subprogramme provided technical expertise and capacity-building support to 10 of the 18 member States that conducted the review, including the facilitation of national-level consultations with lawmakers, civil society representatives, the private sector and academic institutions. During 2024, the subprogramme supported member States in finalizing their national reports and co-led, together with the League of Arab States and the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women), a regional-level review to identify key achievements and measures undertaken over the past five years to address challenges in implementing the 12 critical areas of the Beijing Declaration and Platform for Action. Furthermore, the subprogramme facilitated negotiations among member States, which led to the adoption of a regional declaration reaffirming their commitment to the Beijing Declaration and Platform for Action.

22.34 Progress towards the objective is presented in the performance measure below (see table 22.7).

Table 22.7
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Member States identified five priority areas to accelerate the implementation of the Beijing Declaration and Platform for Action and improve the status of women in the Arab region	Enhanced understanding and capacities of Arab national women's machineries to conduct national reviews	Reaffirmed commitment and enhanced capacity of all Arab member States for the full implementation of the Beijing Declaration and Platform for Action

Planned results for 2026

Result 1: skills-focused approaches to boost access to employment opportunities

Programme performance in 2024 and target for 2026

22.35 The subprogramme's work contributed to three academic institutions utilizing the Skills Monitor as part of their career-planning support to graduates and to two member States (Jordan and Qatar) adopting the ESCWA future of work initiative framework in using artificial intelligence to build more dynamic labour market policies, which did not meet the planned target of at least 10 academic institutions in the Arab region using the Skills Monitor as part of their career-planning support to graduates. The target was not met owing to a shift in the subprogramme's focus from uptake by academic institutions to the development of national policy frameworks.

22.36 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 22.8).

Table 22.8
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Working-age populations in four member States (Jordan, Kuwait, Lebanon and Qatar) were enabled to identify job opportunities based on their skills through artificial intelligence-based Skills Monitor portal	Policymakers in 11 member States gained access to evidence on factors affecting the job market (skill sets in demand, inclusiveness)	Three academic institutions (Lebanese American University, Petra University and Al-Quds University) utilized the Skills Monitor as part of their career-planning support to graduates Two member States (Jordan and Qatar) adopted the ESCWA future of work initiative framework	Two member States develop policy frameworks aimed at boosting access to the labour market	One member State implements labour market policy to enhance market skills needed for the future of work

Result 2: member States adopt multidimensional approach to poverty reduction

Programme performance in 2024 and target for 2026

22.37 The subprogramme's work contributed to two member States (Egypt and Jordan) utilizing a nationalized multidimensional poverty index and assist tool to assess drivers of poverty, including inequalities and exclusion, which met the planned target.

22.38 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 22.9).

Table 22.9
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
One member State (State of Palestine) piloted a nationalized multidimensional poverty index	Two member States (Iraq and Somalia) adopted a nationalized multidimensional poverty index as a poverty analysis tool	Two member States (Egypt and Jordan) utilized a nationalized multidimensional poverty index and assist tool to assess drivers of poverty, including inequalities and exclusion	Two member States develop policy frameworks and/or strategies for the eradication of poverty	One additional member State develops policy framework and/or strategy for the eradication of poverty

Result 3: member States leverage machine learning to forecast budget needs for social assistance programming

Proposed programme plan for 2026

22.39 Financial allocations received by Governments of developing countries to establish social assistance programmes are often ad hoc, and the level of support is determined by donors on the basis of their relevant priorities and budget availability and not on government estimates of social assistance needs. The subprogramme conducted studies to assess the effectiveness and efficiency of current social protection systems and programmes, supported in part by machine learning-aided statistical analysis.

Lessons learned and planned change

22.40 The lesson for the subprogramme was that increased data availability and enhanced database interoperability in the region's middle- and low-income countries provided fertile ground for developing and institutionalizing machine learning-based applications in support of ministries' ability to forecast social assistance budget needs. In applying the lesson, the subprogramme will assess the feasibility of such applications, including data exchange and coding requirements. The subprogramme will also develop and institutionalize a tailored machine learning-based forecasting application for member States.

22.41 Expected progress towards the objective is presented in the performance measure below (see table 22.10).

Table 22.10
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Machine learning-enabled general approach for the forecasting of budget needs for social assistance programmes developed	One member State has access to a prototype of a machine learning-enabled model for the forecasting of budget needs for social assistance programmes	One member State operationalizes social assistance budget forecasting models and dashboards

Deliverables

22.42 Table 22.11 lists all deliverables of the subprogramme.

Table 22.11
Subprogramme 2: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**–**	**5**	**12**	**12**
1. Committee on Women	–	5	6	6
2. Committee on Social Development	–	–	6	6
Substantive services for meetings (number of three-hour meetings)	**1**	**8**	**9**	**9**
3. Committee on Social Development	–	–	2	2
4. Committee on Women	–	4	4	4

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
5. Subcommittees on social protection, gender and the Sustainable Development Goals, and the intersessional group of experts on disability	1	4	3	3
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**2**	**5**	**4**	**2**
Projects on:				
6. Enhancing the employment of persons with disability	–	1	1	–
7. Assessing skills and skills matching techniques	1	1	1	1
8. Towards Beijing +30 review	–	1	1	–
9. Strengthening social protection systems	–	1	1	1
10. Women and peace and security: moving from plans to action	1	1	–	–
Seminars, workshops and training events (number of days)	**20**	**18**	**22**	**16**
11. Social justice, including integrating social justice principles into public policies and programmes	8	8	8	2
12. Gender justice and women's empowerment	4	4	4	4
13. Population development, ageing, disability and migration	2	2	4	6
14. Multidimensional poverty and social protection	6	4	6	4
Publications (number of publications)	**2**	**2**	**3**	**2**
15. On the realization of human rights for women; social protection; poverty; inequality; the future of work; and disability and migration	2	2	3	2
Technical materials (number of materials)	**22**	**20**	**20**	**22**
16. On the realization of human rights for women; social protection; poverty; inequality; the future of work; and disability and migration	22	20	20	22
C. Substantive deliverables				
Consultation, advice and advocacy: meetings of expert groups on advancement of the participation of women in decision-making; women's economic empowerment; financial inclusion; social protection; poverty; inequality; informality and the labour market; the future of work; urban development; disability; migration; ageing; and young people.				
Databases and substantive digital materials: social protection programme – rapid assessment framework; ESCWA Skills Monitor; gender justice portal; gender policy simulator platform; multidimensional poverty index; and policy simulation and optimization platform.				
D. Communication deliverables				
Outreach programmes, special events and information materials: campaign, promotional materials and closing ceremony for the 16 Days of Activism against Gender-based Violence; materials on equality in the Arab region; and advocacy campaigns on International Day of Older Persons and International Migrants Day.				
External and media relations: commentaries on violence against women and on the economic empowerment of women.				

Subprogramme 3
Shared economic prosperity

Objective

22.43 The objective, to which this subprogramme contributes, is to achieve equitable economic growth, amplify regional interconnectedness and integration, and advance the effective implementation of the Addis Ababa Action Agenda of the Third International Conference on Financing for Development in support of the 2030 Agenda.

Strategy

22.44 To contribute to the objective, the subprogramme will:

(a) Develop and provide knowledge products and evidence for policymaking related to trade, logistics and transport, including regional integration; the application of behavioural science in development, public policy monitoring and evaluation systems; economic diversification and macroeconomic stability; debt sustainability and fiscal policies as a means of enhancing investment in sustainable development priorities; and financing for development, including integrated national financing frameworks;

(b) Enhance existing and develop new dynamic, data-driven policy simulation tools (anchored in artificial intelligence and machine learning approaches) pertaining to trade flows, taxation, debt optimization, debt swaps, social expenditure, the monitoring and evaluation of development plans and contextualized economic modelling, and promote the application of modern technologies to facilitate trade and logistics;

(c) Make available to its member States policy advice and technical expertise and strengthen capacities to deploy behavioural insights and modelling and impact simulation tools in support of decision-making and policy development processes aimed at providing immediate, medium- and long-term solutions to national development challenges in the areas identified in paragraph 22.44 (a) above;

(d) Promote collaboration, coordination and the exchange of good practice; and foster consensus on priorities and joint initiatives aimed at improving regional integration, facilitating trade, promoting innovative debt solutions and enhancing fiscal space and financing for sustainable development initiatives.

22.45 The above-mentioned work is expected to result in:

(a) Evidence-backed development planning; member States adopting policy frameworks to address structural economic challenges; improved debt management and sustainability; enhanced equity, efficiency and effectiveness of public spending and budgeting, including on national development priorities; new trade opportunities and economic diversification, including enhanced operational environment for small and medium-sized enterprises; and the creation of fiscal space for social investment in basic social services and the achievement of sustainable development goals;

(b) Increased contribution of small and medium-sized enterprises to national and regional economies and greater economic participation and empowerment of individuals, including those in vulnerable situations.

Programme performance in 2024

Tunisia develops a climate/Sustainable Development Goals debt swap programme

22.46 Amid the challenges of rising debt and debt servicing, the global economic slowdown, persistent trade deficits and climate change, financing for sustainable development and climate action are becoming increasingly difficult. Considering pressures on public budgets and financing gaps, mobilizing funding without adding more debt is a priority. The ESCWA climate/the Sustainable Development Goals debt swap initiative supports member States in developing programme-based debt swaps towards enhancing fiscal space to finance climate action and the Goals. Building on the previous achievements of the initiative, the subprogramme supported Tunisia in operationalizing an inter-agency task force mandated with the development of a climate/Goals debt swap programme, including a priority list of projects, for negotiation with creditors. The projects were to contribute to achieving nationally determined contribution priority action in areas such as water, energy and the environment, while addressing climate and socioeconomic vulnerabilities. Specifically, in 2024 the subprogramme promoted an inclusive, intersectoral platform approach and provided technical

expertise and advice, including on the establishment of key performance indicators for impact assessments at the project and programme levels, which also facilitated the prioritization of projects.

22.47 Progress towards the objective is presented in the performance measure below (see table 22.12).

Table 22.12
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
One member State (Jordan) developed a climate/Sustainable Development Goals debt swap programme proposal	–	One member State (Tunisia) developed a climate/Sustainable Development Goals debt swap programme proposal

Planned results for 2026

Result 1: contextualised economic modelling informs development of economic, social and trade policies

Programme performance in 2024 and target for 2026

22.48 The subprogramme's work contributed to the upgrading of the existing computable general equilibrium models developed for two member States (Oman and United Arab Emirates), which did not meet the planned target of three additional member States using computable general equilibrium models. The target was not met owing to liquidity-related resource constraints, which impeded the carrying out of activities such as the production of related technical materials.

22.49 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 22.13).

Table 22.13
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Two member States (Yemen and State of Palestine) used national computable general equilibrium models	Three additional member States (Mauritania, Oman and United Arab Emirates) used computable general equilibrium models	Two member States (Oman and United Arab Emirates) have access to upgraded computable general equilibrium models	Two additional member States use computable general equilibrium models	One additional member State uses the computable general equilibrium model

Result 2: enhanced debt sustainability for increased investment in sustainable development priorities

Programme performance in 2024 and target for 2026

22.50 The subprogramme's work contributed to two member States (Mauritania and Oman) having access and improved capacity to deploy the tool and recommendations to optimize debt and identify innovative and sustainable debt financing strategies, which met the planned target.

22.51 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 22.14).

Table 22.14
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
A regional network of debt management practitioners and experts was established	Member States gained access to regional and country-specific analyses on debt optimization and innovative debt solutions	Two member States (Mauritania and Oman) have access and improved capacity to deploy the tool and recommendations to optimize debt and identify innovative and sustainable debt financing strategies	Two member States develop innovative and sustainable debt financing strategies	One additional member State develops an innovative and sustainable debt financing strategy

Result 3: member States reach bilateral trade agreements beyond the region

Proposed programme plan for 2026

22.52 External trade is one of the key factors that underpin sustainable economic development and diversification. Therefore, national frameworks governing it ought to align with these long-term objectives, which are crucial for achieving the Sustainable Development Goals. The subprogramme developed the Arab trade simulator interface to support evidence-based decision-making regarding trade opportunities as a first step to developing tailored national interfaces.

Lessons learned and planned change

22.53 The lesson learned for the subprogramme was that more tailored analyses for individual member States was needed to reflect specificities of domestic economic models and priorities against the backdrop of global economic and trade indicators. In applying the lesson, the subprogramme will develop national global economy-wide trade simulator interfaces, customized for each member State, which will empower users in testing and evaluating alternative trade policies and enabling preconditions at the national, regional and global levels. The subprogramme will also develop the skills and capacities of civil servants to enable them to better negotiate trade offers.

22.54 Expected progress towards the objective is presented in the performance measure below (see table 22.15).

Table 22.15
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Arab trade simulator interface is available to member States	At least two member States have access to national global economy-wide trade simulator interface platforms	One member State applies the global economy-wide trade simulator interface to develop a bilateral trade agreement

Deliverables

22.55 Table 22.16 lists all deliverables of the subprogramme.

Table 22.16
Subprogramme 3: deliverables for 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**12**	**6**	**12**	**12**

11. On issues relating to economic development	2	2	1	1
Technical materials (number of materials)	**22**	**17**	**20**	**17**
12. On public finance and inclusive fiscal policy, including in low- and middle-income countries; trade and industrial policy; trade facilitation; transport connectivity and logistics; the productive capacity of Arab least developed countries; illicit financial flows; financing for development; and climate action	22	17	20	17
C. Substantive deliverables				
Consultation, advice and advocacy: expert groups on public finance; debt and innovative financing instruments; financing for development; trade policy and facilitation; transport connectivity; dynamic computable general equilibrium economic modelling; illicit financial flows and strategic advice to the United Nations Road Safety Fund Steering Committee.				
Databases and substantive digital materials: Arab Trade Gateway; financing for development gateway; integrated budget intelligence toolkit; dynamic financing for development simulator; social expenditure monitor; debt optimization portal; macro-fiscal modelling and forecasting tool; and Sustainable Development Goal costing calculator for the Arab region.				
D. Communication deliverables				
Outreach programmes, special events and information materials: side event at the Arab Forum for Sustainable Development.				

Subprogramme 4
Statistics, the information society and technology

Objective

22.56 The objective, to which this subprogramme contributes, is to strengthen the development of official statistical frameworks, improve the quality and availability of statistics and advance the information society by accelerating the integration of technology and innovation for sustainable development in the Arab region.

Strategy

22.57 To contribute to the objective, the subprogramme will:

(a) Develop methodologies and tools to enhance the capacities of national statistical systems to implement and adapt to evolving international statistical standards, methodologies and best practices, and promote the integration of innovative data sources and geostatistical information;

(b) In line with global and regional processes, such as the Global Digital Compact and WSIS+20, develop knowledge products, models, toolkits and platforms and enhance the capacity of policymakers and practitioners in member States to produce evidence and, on that basis, develop digital policy frameworks and strategies aimed at enhancing digital infrastructure, digital transformation, digital economy, digital government and e-accessibility, in support of the implementation of the 2030 Agenda;

(c) Enhance national capacities to produce and utilize quality statistics and data for evidence-based policymaking and provide technical support for the adoption of policy frameworks, statistical methodologies and strategies to harness emerging technologies and innovative solution for monitoring and reporting on sustainable development indicators, in line with national plans and priorities, and increase the value created from statistics, geospatial-enabled data, digitization and emerging technologies;

(d) Convene intergovernmental and technical, multi-stakeholder forums to foster consensus and facilitate dialogue and exchanges, with the aim of promoting cooperation, partnerships and coordination and incentivizing investment in advancing both digital development and transformation and the production of quality statistics and data.

22.58 The above-mentioned work is expected to result in:

(a) An enhanced value chain of timely, accessible, interoperable and integrated data from diverse sources, including geolocated and disaggregated data, that is compliant with international statistical standards;

(b) Member States developing, adopting and implementing enhanced policy frameworks pertaining to digital and emerging technologies, as a means of accelerating the achievement of the Sustainable Development Goals.

Programme performance in 2024

Djibouti and Jordan apply modernized approaches to censuses

22.59 Statistical information obtained through censuses remains a core reference for the analysis and interpretation of evidence, and the accuracy, efficiency and timeliness of the data that it yields is therefore critical. During 2024, the subprogramme provided member States with technical expertise and advice on the design and conduct of national censuses, including the deployment of modern technology and the digitization of data collection (Djibouti) and the piloting of a multi-source methodology that would enable a register-based census (Jordan). Concurrently, the subprogramme

organized study tours, which promoted peer-to-peer exchanges between Djibouti and Egypt and between Jordan and Oman, and resulted in enhanced capacities of national statistical offices in Djibouti and Jordan to apply modernized approaches to data collection, further enhancing quality and compliance with international standards. Furthermore, Egypt's Central Agency for Public Mobilization and Statistics supported the Institut de la statistique de Djibouti by providing 1,400 tablets for a digitized census.

22.60 Progress towards the objective is presented in the performance measure below (see table 22.17).

Table 22.17
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Two member States (Jordan and Oman) engaged in a peer-to-peer exchange of best practices on multi-source census methodology	One member State (Djibouti) benefited from the support of another (Egypt) in the development of a digitized approach to censuses	One member State (Djibouti) conducted its first-ever digital census One member State (Jordan) piloted a multi-source (register-based) census methodology

Planned results for 2026

Result 1: Arab policymakers gain access to on-demand, reliable evidence enabled by artificial intelligence and geospatial capacities

Programme performance in 2024 and target for 2026

22.61 The subprogramme's work contributed to four member States (Egypt, Jordan, Qatar and Tunisia) generating evidence and simulating policy options and related impacts through five artificial intelligence and geospatial-enabled interactive tools, which met the planned target.

22.62 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 22.18).

Table 22.18
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Member States gained access to additional national, regional and global (statistical and non-statistical) data sets	Member States gained access to centralized, regional data management and analytics platform (United Nations Arab Region Data and Policy Support hub)	Four member States (Egypt, Jordan, Qatar and Tunisia) generated evidence and simulated policy options and related impacts through five artificial intelligence- and geospatial-enabled interactive tools	Member States have access to national data and policy dashboards through a one-stop shop for evidence-based policymaking	Three additional member States successfully integrate at least two of the artificial intelligence and data-driven tools into their policy development processes, resulting in the generation of actionable policy insights

Result 2: geostatistical evidence enhances decision-making and development planning in the Arab region

Programme performance in 2024 and target for 2026

22.63 The subprogramme's work contributed to all member States having access to an additional 12 layers of geostatistical information, in particular those related to climate and the environment, which met the planned target.

22.64 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 22.19).

Table 22.19
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Geostatistical laboratory for the Arab region was established	All member States gained access to an initial 12 layers of geostatistical information	All member States have access to an additional 12 layers of geostatistical information, in particular those related to climate and the environment	Two national statistical offices in the Arab region produce geostatistical data sets	One member State utilizes the geostatistical atlas of the Arab world to generate evidence for decision-making or policy development
	Two member States (Jordan and Lebanon) initiated pilot projects to enhance their statistical data sets with geospatial information			

Result 3: Arab member States, including least developed countries, produce external trade statistics

Proposed programme plan for 2026

22.65 The availability of trade statistics is essential for effective economic policymaking. However, such statistics remain unavailable for 6 of 21 ESCWA member States, including 3 Arab least developed countries. The subprogramme has been estimating trade data for these countries to address gaps in the external trade statistics database for the Arab region.

Lessons learned and planned change

22.66 The lesson for the subprogramme was twofold: (a) the data estimates, while used regionally, could not be incorporated into the global United Nations Comtrade Database to close the data gap for better-informed decision-making; and (b) there were risks related to the sustainability of the continued replacement of official statistics by estimates. In applying the lesson, the subprogramme will collaborate with member States to enhance their capacity in internationally agreed frameworks for the compilation of and reporting on international trade statistics, alternative methodologies and programming skills. In addition, the peer-to-peer exchange of knowledge will be facilitated through study tours, to further empower the targeted countries to produce trade statistics independently.

22.67 Expected progress towards the objective is presented in the performance measure below (see table 22.20).

Table 22.20
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Estimates for trade statistics are available to Iraq, Libya, Somalia, the Sudan, the Syrian Arab Republic and Yemen	Enhanced capacity of at least three member States, including at least one Arab least developed country, in producing trade statistics	At least one least developed Arab member State produces trade statistics

Deliverables

22.68 Table 22.21 lists all deliverables of the subprogramme.

Table 22.21
Subprogramme 4: deliverables for 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
Publications (number of publications)	**2**	**2**	**3**	**2**
13. On statistics and indicators; Sustainable Development Goals data; non-traditional data sources; national accounts; purchasing power parity; monitoring of and follow-up on the 2030 Agenda; digital development; and technology and innovation for sustainable development	2	2	3	2
Technical materials (number of materials)	**6**	**6**	**6**	**8**
14. On statistics and indicators; Sustainable Development Goals data; non-traditional data sources; national accounts; purchasing power parity; monitoring of and follow-up on the 2030 Agenda; digital development; and technology and innovation for sustainable development	6	6	6	8

C. Substantive deliverables

Consultation, advice and advocacy: meetings of experts on digital development; regulation and legislation to promote the information society; Internet governance; frontier technologies; entrepreneurship; technology transfer; and innovation.

Databases and substantive digital materials: ESCWA data ecosystem; Arab Sustainable Development Goals gateway; external trade data platform; and purchasing power parities convertor for the Arab region.

D. Communication deliverables

Outreach programmes, special events and information materials: annual statistics newsletter; and technology bulletin.

Subprogramme 5
2030 Agenda and SDG coordination

Objective

22.69 The objective, to which this subprogramme contributes, is to accelerate progress towards sustainable development in the Arab region in line with the 2030 Agenda and to advance intraregional collaboration and a multi-stakeholder approach to key regional and subregional sustainable development issues.

Strategy

22.70 To contribute to the objective, the subprogramme will:

(a) Advocate with a diverse set of stakeholders, including policymakers, the private sector, academic institutions and civil societies, for principled action towards the implementation of the 2030 Agenda, in particular in line with the commitment to “leave no one behind” and a people-centred approach to development, and leverage a broad range of partnerships, including with the private sector and financial institutions, intergovernmental and non-governmental organizations, civil society, and academic institutions and think tanks, to promote a whole-of-government and whole-of-society approach;

(b) Develop and disseminate knowledge products underpinned by the analysis of member States’ progress towards the implementation of the 2030 Agenda and its principles, including gaps in policy frameworks, and promote transformative development solutions for accelerating inclusive, sustainable development in the region;

(c) Convene and ensure ongoing support for and follow-up on various platforms, in connection with the Arab Forum for Sustainable Development, to facilitate multi-stakeholder engagement and dialogue and peer-to-peer exchanges; to foster consensus on sustainable development priorities and action; to promote subregional, interregional and intraregional (South-South) and triangular collaboration and coordination; and to support cross-sectoral cooperation and alignment of national development priorities and plans with both the 2030 Agenda and resources available for their implementation;

(d) Enhance capacities to conduct integrated monitoring and reporting, at the local, national and regional levels, of the progress against specific Sustainable Development Goal targets, including through the building of national and institutional capacity to conduct voluntary national reviews and the identification of policy gaps; identify and disseminate innovative policy solutions and recommendations; ensure that the region's perspective is reflected through a global lens; and foster cross-sectoral coordination of the Commission's support to member States' efforts to achieve the Sustainable Development Goals.

22.71 The above-mentioned work is expected to result in:

(a) Enhanced commitment of policymakers and practitioners, regional intergovernmental organizations, the private sector, including financial institutions, academia and think tanks, and civil society organizations in the Arab region to the principles of the 2030 Agenda;

(b) The adoption by member States and development stakeholders of a more participatory, whole-of-government and whole-of-society approach to the implementation of and follow-up on Sustainable Development Goal priorities and related action;

(c) Improved utilization by member States and development stakeholders of available dialogue and advocacy platforms as a means of promoting consensus, peer-to-peer learning and coordination at the national, subregional, intraregional, interregional and global levels; and mobilizing sustained, targeted financing for an accelerated implementation of the 2030 Agenda;

(d) Improved capacity of policymakers and other stakeholders to identify policy gaps and related policy opportunities and solutions and take action to advance the achievement of the Sustainable Development Goals.

Programme performance in 2024

Strengthened local governance for development through the first iteration of the Arab Mayors Academy

22.72 The Arab region faces a critical gap in capacity-building for local authorities, limiting their ability to align with global agendas such as the 2030 Agenda, the New Urban Agenda and the Pact for the Future. The subprogramme partnered with the United Nations Human Settlements Programme (UN-Habitat) and United Cities and Local Governments to launch the Arab Mayors Academy, the first regional learning initiative, collaboratively designed with local authorities. The initiative was set up as a network of Arab city leaders and global development stakeholders to empower local governance and catalyse resilience and sustainability in cities throughout the region. In 2024, the first iteration of the Academy gathered experts from more than 20 global entities, including international organizations, non-governmental organizations, academia and the private sector, to offer 11 senior city officials a hybrid curriculum, primarily in Arabic, focusing on the localization of the Sustainable Development Goals, emergency preparedness, smart sustainable cities, quality of life in cities, climate resilience, urban financing, partnerships and diplomacy, among others. Moreover, the online discussions component was open to the broader public, reaching more than 80 representatives of local authorities on each occasion.

22.73 Progress towards the objective is presented in the performance measure below (see table 22.22).

Table 22.22
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Eleven senior city officials graduate from the first iteration of the Arab Mayors Academy and are better equipped to localize the Sustainable Development Goals

Planned results for 2026

Result 1: university graduates play part in a whole-of-society, principled approach to achieving the Sustainable Development Goals

Programme performance in 2024 and target for 2026

22.74 The subprogramme's work contributed to two academic institutions in the Arab region incorporating shared principles and commitments of the Sustainable Development Goals into their curricula, which met the planned target.

22.75 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 22.23).

Table 22.23
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Sustainable Development Goals-focused research by Arab academic institutions contributes to regional and national dialogues on implementing the 2030 Agenda	One university faculty in a member State (the Artificial Intelligence, Data Science and Computing Hub at the American University of Beirut) committed to incorporating shared principles and commitments of the Goals into its programmes	Two academic institutions in the Arab region (Ali Bin Abi Taleb and Al Kawthar schools in Lebanon) incorporated shared principles and commitments of the Goals into their curricula	Academic institutions in at least four member States use *The ESCWA Stories* to promote principles of the 2030 Agenda among young people	Academic institutions in two member States benefit from awareness-raising by private sector entities on climate action and cybersecurity

Result 2: increased private sector investment in regional and national sustainable development priorities

Programme performance in 2024 and target for 2026

22.76 The subprogramme's work contributed to member States and private sector leaders engaging in a regional dialogue on support for and financing of Sustainable Development Goal priorities, which met the planned target.

22.77 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 22.24).

Table 22.24
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	The Union of Arab Banks committed to mobilizing up to $1 trillion in Sustainable Development Goal-related financing by 2030	Member States and private sector leaders engaged in a regional dialogue on support for and financing of Goal priorities	One member State and private sector representatives jointly agree on a set of sustainable development priorities for private sector contributions	One additional member State and private sector representatives jointly agree on a set of sustainable development priorities for private sector contributions

Result 3: member States identify and address policy gaps linked to the implementation of the 2030 Agenda

Proposed programme plan for 2026

22.78 Arab countries' modest progress on achieving the Sustainable Development Goals highlights the need to evaluate the adequacy of national policies and capacities for policy assessment and reform. The subprogramme strengthened the regional knowledge base on Goals-related policy frameworks, including by analysing regional trends and gaps in design and implementation, and provided a platform for knowledge exchange on the 2030 Agenda follow-up and review.

Lessons learned and planned change

22.79 The lesson for the subprogramme was that, to drive the policy change necessary to accelerate progress in the achievement of the Sustainable Development Goals, the subprogramme needed to provide capacity-building support for strengthening the analytical quality of national follow-up and review processes. In applying the lesson, the subprogramme will enhance the skills and capacities of Goals coordination teams in member States to lead cross-sectoral policy assessments and identify national Goals policy gaps and solutions. The subprogramme will also restructure its dialogue platform to ensure the more inclusive participation of relevant stakeholders and improve their access to global and regional good practices in the area.

22.80 Expected progress towards the objective is presented in the performance measure below (see table 22.25).

Table 22.25
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Member States have access to regional Sustainable Development Goal policy trends, opportunities and gaps, and commensurate policy solutions are proposed	Member States have access to regional modules and frameworks on public policy assessments	One member State identifies a national Goals policy gap and related policy solution(s)

Deliverables

22.81 Table 22.26 lists all deliverables of the subprogramme.

Table 22.26
Subprogramme 5: deliverables for 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*

C. Substantive deliverables				
Consultation, advice and advocacy: consultation with the task force of the Arab Forum for Sustainable Development; consultations on financial inclusion; advice to global and regional events on the 2030 Agenda; advice to the community of practice on voluntary national reviews; and promoting the Sustainable Development Goals among young people and educators.				
Databases and substantive digital materials: SDG Knowledge and Learning platform.				

Subprogramme 6
Governance and conflict prevention

Objective

22.82 The objective, to which this subprogramme contributes, is to advance just, peaceful and inclusive societies, especially for people living under occupation or in conflict or post-conflict settings; to improve governance and strengthen effective, efficient and accountable public institutions; and to enhance service delivery.

Strategy

22.83 To contribute to the objective, the subprogramme will:

(a) Generate and make available evidence-based policy analysis and recommendations to member States and relevant stakeholders, grounded in the principle of a human development approach, with a focus on mitigating the impact of conflict and occupation on the capacity to achieve the Sustainable Development Goals, facilitating national recovery and improving governance and institutional capacities to deliver basic services and respond to shocks; strengthening regional cooperation on governance and public administration; and boosting the competitiveness of the business environment, including consumer protection mechanisms;

(b) Provide technical expertise, methodologies and tools while enhancing capacities to identify and operationalize immediate, medium- and long-term solutions, aimed at pre-emptively addressing emerging socioeconomic, environmental and governance challenges and conflicts; enhancing prevention, recovery and development planning; improving transparency and accessibility and the efficiency of State-run services; and reinforcing competition policies and consumer protection mechanisms that uphold fair market practices and improve transparency;

(c) Foster South-South (intraregional and interregional) and triangular cooperation and build consensus on the priorities and action required to minimize the impact of conflict and any sudden shocks, inter alia, on the ability of member States to advance their national development agendas;

(d) Support the five Arab least developed countries, within the framework of the Doha Programme of Action (2022–2031), by strengthening their institutional capacities for implementing the 2030 Agenda and graduating from the least developed countries category;

(e) Enhance the capabilities of Palestinian institutions to mitigate the adverse effects of the Israeli occupation on development, including by supporting national recovery efforts and capacities in the Occupied Palestinian Territory and reducing the asymmetric dependency of its economy.

22.84 The above-mentioned work is expected to result in:

(a) Improved understanding and prevention of development challenges associated with sudden shocks, including conflict, and effective mitigation of their impact on national development and recovery trajectories;

(b) More effective public institutions, in particular in the five Arab least developed countries, with enhanced capabilities to deliver basic services in a transparent, accessible and inclusive way;

(c) Operationalization of a contextualized, people-centred approach to development planning and policy formulation;

(d) A more competitive and transparent business environment and more effective consumer protection mechanisms.

Programme performance in 2024

Oman operationalizes an integrated and evidence-based national development planning framework

22.85 As part of its effort to advance public policy across the Arab region, including by promoting effective governance and sustainable development, the subprogramme supported Oman in conducting a midterm assessment of its tenth five-year national development plan (2021–2025). The assessment evaluated economic, governance, social and environmental performance and tracked progress on 430 work programmes, 3,200 activities and 150 key performance indicators and their alignment with Oman Vision 2040 and the 2030 Agenda. Specifically, in order to foster transparency and stakeholder engagement, the subprogramme developed a dynamic platform that allowed Oman's 55 implementing entities to update data by priority, strategic goal, activity and key performance indicator, enhancing accountability and proactive problem-solving. This was followed by a facilitated consultative process, during which the assessment results served as a basis for the identification of challenges and opportunities for accelerating the plan's implementation. The support culminated in Oman identifying ways to enhance implementation and guide planning as it embarked on defining its next five-year development plan.

22.86 Progress towards the objective is presented in the performance measure below (see table 22.27).

Table 22.27
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	One member State (Oman) operationalized integrated and evidence-based national development planning

Planned results for 2026

Result 1: improved consumer protection in the Arab region

Programme performance in 2024 and target for 2026

22.87 The subprogramme's work contributed to member States exchanging knowledge and good practice on consumer protection and two member States (Egypt and United Arab Emirates) reforming their consumer protection laws, which met the planned target.

22.88 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 22.28).

Table 22.28
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
All 20 Arab member States participated in the third competition forum for the Arab region	Arab policymakers gained access to recommendations on how to improve national consumer protection frameworks	Member States exchanged knowledge and good practice on consumer protection	One additional member State establishes or reforms its consumer protection laws or enforcement procedures	Two additional member States establish new or reform existing consumer protection laws, to align them with international best practices
One member State (Lebanon) introduced competition legislation, and one additional member State (Kuwait) introduced further legislation on competition	Arab member States gained access to the Arab Legislation Portal, comprising information on existing consumer protection laws and regulations	Two member States (Egypt and United Arab Emirates) reformed their consumer protection laws		
One member State (Oman) expanded its dedicated competition authority				

Result 2: modernization of public administration systems for effective and transparent public governance and socioeconomic development

Programme performance in 2024 and target for 2026

22.89 The subprogramme's work contributed to three member States (Saudi Arabia, United Arab Emirates and Yemen) developing transparency measures to combat corruption in the public sector and member States reaching an agreement to convene on an annual basis on anti-corruption measures, which exceeded the planned target of one member State developing transparency measures to combat corruption in the public sector.

22.90 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 22.29).

Table 22.29
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Member States receive advice on workable solutions to systemic challenges facing their public administration systems for more effective public service delivery	Three member States (Saudi Arabia, United Arab Emirates and Yemen) developed transparency measures to combat corruption in the public sector Member States reached an agreement to convene on anti-corruption measures on an annual basis during the second regional dialogue on corruption (Arab Forum against Corruption)	One member State introduces reforms to modernize its public administration system	One additional member State introduces reforms to modernize its public administration system

Result 3: member States develop and deploy development policies resilient to fragility and sudden shocks

Proposed programme plan for 2026

22.91 By 2023, some 76.8 million people across seven Arab countries in conflict or post-conflict settings (16.3 per cent of the region's population) required humanitarian assistance. The subprogramme launched a regional initiative to foster transitions towards durable peace and development through a combined evidence-based and consensus-building approach that aligned national priorities in humanitarian, development and peacebuilding fields.

Lessons learned and planned change

22.92 The lesson for the subprogramme was that building resilience and enabling sustainable recovery required targeted capacity-building to enable the public sector to effectively deliver services and

foster trust. In applying the lesson, the subprogramme will enhance its capacity-building support to public institutions and other relevant national stakeholders to enable the design of policies that are resilient and adaptable to crises. In parallel, the Commission will engage member States and United Nations resident coordinators to develop operational frameworks and national implementation strategies that more effectively integrate humanitarian, development and peace efforts, thereby facilitating smoother transitions toward recovery and achieving the Sustainable Development Goals.

22.93 Expected progress towards the objective is presented in the performance measure below (see table 22.30).

Table 22.30
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Nine member States (Iraq, Jordan, Lebanon, Libya, Somalia, the Sudan, the Syrian Arab Republic and Yemen, as well as the State of Palestine) adopted the regional standard operating procedure on operationalizing integrated humanitarian, development and peace approaches in fragile settings	Two member States have enhanced capacity to integrate recovery readiness and resilience into sustainable development initiatives	Two member States develop integrated national recovery, resilience and development strategies/plans

Deliverables

22.94 Table 22.31 lists all deliverables of the subprogramme.

Table 22.31
Subprogramme 6: deliverables for 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**2**	**1**	**2**	**2**
1. Note by the Secretary-General on the economic and social repercussions of the Israeli occupation on the living conditions of the Palestinian people in the Occupied Palestinian Territory, including East Jerusalem, and the Arab population in the occupied Syrian Golan to the General Assembly and the Economic and Social Council	1	1	1	1

C. Substantive deliverables

Consultation, advice and advocacy: consultative meetings on post-conflict and durable peace; vulnerability assessments and risk mitigation; conflict prevention, post-conflict recovery and stabilization; institution-building to strengthen resilience; innovation in the public sector; public service delivery; economic governance; mitigating the impact of occupation; and advocacy for policy dialogue.

Database and other substantive digital materials: portal on open government and open data; Arab legislation portal; ESCWA violence early warning system portal; and Arab national development planning portal.

D. Communications deliverables

Outreach programmes, special events and information materials: observance of the International Day of Solidarity with the Palestinian people; and materials on the impact of conflict and occupation on the socioeconomic development of the Palestinian people.

[a] See General Assembly resolution 66/290.

B. Proposed post and non-post resource requirements for 2026

Overview

22.95 The proposed regular budget resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 22.32 to 22.34.

[a] Includes four temporary posts (1 P-4, 2 P-3 and 1 Local level), which were approved pursuant to General Assembly resolution 71/272 A.

22.96 Additional details on the distribution of the proposed resources for 2026 are reflected in tables 22.35 to 22.37 and figure 22.I.

22.97 As shown in tables 22.35 (1) and 22.36 (1), the overall resources proposed for 2026 amount to $51,162,800, reflecting a net increase of $10,600 (0.0 per cent) compared with the approved budget for 2025. Resource changes result from other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Overall resource changes

Other changes

22.98 As shown in table 22.35 (1), resource changes reflect a net increase of $10,600, representing an increase under contractual services reflecting a higher standard price of the core software package for non-field personnel outside of United Nations Headquarters; the other changes, which include the upgrade of a P-4 post to a P-5 post and the redeployment of post and non-post resources between executive direction and management and programme support, are overall cost-neutral. The details of other changes are as follows:

(a) **Executive direction and management**. The net increase of $4,794,900 relates mainly to the proposed redeployment of the Conference Management Section as the Knowledge Management Service under executive direction and management, entailing the following:

(i) The inward redeployment of 30 posts (1 P-5, 6 P-4, 4 P-3, 1 National Professional Officer and 18 Local level) from programme support, as reflected in annex II to the present report ($4,232,400);

(ii) The inward redeployment of requirements under travel ($8,500), contractual services ($207,900), general operating expenses ($25,800) and furniture and equipment ($17,200) to consolidate and streamline the content delivery and knowledge management capacity of the Commission, including intellectual support and language, documentation and conference services under the component. Justification for the proposed redeployment is provided in annex I to the present report;

(iii) Increased requirements under other staff costs ($127,000), consultants ($33,800) and contractual services ($190,100) reflect mainly the need to strengthen the capacity to design, develop and maintain specialized data solutions for member States;

(iv) The increased requirements under experts ($100,000) to provide for high-level expert group meetings in support of the decision support system and data science and of the small and medium-sized enterprise forum;

(v) The aforementioned increases are offset in part by the outward redeployment of one post of Programme Management Officer (National Professional Officer) to programme support, as reflected in annex II ($147,800);

(b) **Subprogramme 1, Climate change and natural resources**. The decrease of $50,000 under experts relates to the anticipated streamlining of activities into interrelated events and back-to-back meetings;

(c) **Subprogramme 2, Gender justice, population, and inclusive development**. The net decrease of $48,800 relates to reduced requirements under experts ($50,000) and travel of staff ($14,900), reflecting the anticipated streamlining of activities into interrelated events and back-to-back meetings, offset in part by the increased requirements under contractual services ($16,100), reflecting higher anticipated requirements for the development of enhanced and customized technical tools on gender justice, poverty reduction and social protection;

(d) **Subprogramme 4, Statistics, the information society and technology**. The increase ($23,100) under contractual services reflects the anticipated increase in the requirements for individual contractors to strengthen capacity in price statistics, digital development and statistical support to ensure the delivery of high-quality data and technical expertise for key initiatives;

(e) **Subprogramme 6, Governance and conflict prevention**. The net decrease ($25,600) relates to reduced requirements under consultants ($43,100), reflecting the leveraging of technology solutions, such as data analytics, artificial intelligence and collaborative platforms, to

streamline processes and analysis required for decision-making, offset in part by the increased requirements under contractual services ($17,500), reflecting higher anticipated requirements for enhanced and customized technical and policy tools that will provide specialized expertise in conflict prevention and recovery, institution-building, sustainable development in post-conflict settings, competition reforms in trade policy and human development, ensuring the effective delivery of the ESCWA mandate;

(f) **Programme support**. The net decrease of $4,683,000 relates to:

(i) The outward redeployment of 30 posts (1 P-5, 6 P-4, 4 P-3, 1 National Professional Officer and 18 Local level) to the Knowledge Management Service under executive direction and management ($4,232,400), as reflected in annex II;

(ii) The outward redeployment of the requirements under travel of staff ($8,500), contractual services ($207,900), general operating expenses ($25,800) and furniture and equipment ($17,200) to consolidate and streamline the content delivery and knowledge management capacity, including intellectual support and language, documentation and conference services under executive direction and management;

(iii) Reduced requirements under general operating expenses ($427,100), reflecting mainly the anticipated decrease in energy use in the ESCWA building, including through the optimization of the heating, ventilation and air-conditioning systems and the adoption of energy-efficient lighting and other smart building management systems;

(iv) Offset in part by the following:

a. The upward reclassification of one post of Medical Officer (P-4) to Senior Medical Officer (P-5) ($32,500), as reflected in annex II;

b. The inward redeployment of one post of Programme Management Officer (National Professional Officer) from executive direction and management ($147,800), as reflected in annex II;

c. Increased requirements under other staff costs ($45,000), reflecting the need to strengthen the capacity to design, develop and maintain specialized data solutions for member States;

d. Increased requirements under contractual services ($10,600) relating to a higher standard price of the core software package for non-field personnel outside of Headquarters.

Extrabudgetary resources

22.99 As reflected in tables 22.33 (2) and 22.34 (2), extrabudgetary resources amount to $12,442,800. The resources would complement regular budget resources and would be used mainly to provide for 45 posts (1 D-1, 1 P-5, 3 P-4, 3 P-3, 1 P-2, 4 National Professional Officer and 32 Local level) to perform various functions, including in the areas of economic development, sustainable development, administration and coordination. In addition, non-post resources would be used for strengthening data and information capabilities, promoting coordinated multisectoral interventions in such areas as energy, agriculture and food systems, water, gender equality, job creation and youth empowerment, decision support and data science, establishing portals and platforms for the Sustainable Development Goals to support the Arab region's digital revolution, enhancing initiatives in sustainable energy transitions, social protection, economic empowerment of persons with disabilities, and training programmes for artificial intelligence technologies and business models. In essence, the funds are intended to boost the region's capacity for sustainable development through improved data, coordination and targeted initiatives across various sectors, with a strong focus on digital transformation and modern technologies such as artificial intelligence.

22.100 The extrabudgetary resources under the present section are subject to the oversight of the secretariat of ESCWA, which has delegated authority from the Secretary-General.

Policymaking organs

22.101 The resources proposed under this component would provide for the policymaking organs as shown in table 22.38.

Table 22.38

Executive direction and management

22.103 The Office of the Executive Secretary is responsible for coordinating and providing overall leadership, policy direction and management of the ESCWA secretariat to support member States, in collaboration with other entities of the United Nations system, with strategic analysis, policy guidelines and capacity-building activities to address key development challenges and issues and to implement innovative solutions for region-wide equitable and inclusive economic prosperity, social progress and environmental sustainability. The Office provides leadership and policy orientation and establishes criteria to coordinate follow-up in the region on implementing the 2030 Agenda and the Addis Ababa Action Agenda of the Third International Conference on Financing for Development, and the mainstreaming of cross-cutting issues, such as gender equality and the empowerment of women, and sustainability perspectives, throughout ESCWA substantive programmes. The Knowledge Management Service will provide alignment with the Commission's strategic planning and project cycles, improving agility and responsiveness to programmatic needs. In addition, the Service will provide expertise in communication, content quality and multilingual support, reinforcing role of ESCWA as a knowledge-driven organization, while enhancing its visibility and coherence.

22.104 The role of ESCWA in supporting evidence-based policymaking and innovation, together with its commitment to the Secretary-General's strategies on data and new technologies, will ensure that the Arab region is not only a beneficiary of the digital revolution, but also an active contributor to the global dialogue on sustainable development through technology. The Decision Support and Data Science Division will provide foresight and analysis of regional and global trends, as well as evidence pertaining to sustainable development, necessary for informed policymaking, and will bolster innovation and the roll-out of information and communications technology solutions in support of member States and the Commission's programme delivery, including through coordination across its six subprogrammes.

22.105 The Office reinforces policy consistency and coherence and promotes effective collaboration and coordination, both within the ESCWA secretariat and among United Nations entities and development partners involved in addressing regional development issues, including through the Regional Coordination Mechanism for Arab States. It also strengthens cooperation and coordination with international and regional intergovernmental and non-governmental organizations, especially the League of Arab States and its subsidiary bodies.

22.106 The Strategy, Planning, Accountability, Results and Knowledge Section will continue to promote dynamism and innovation in the ESCWA business model and medium-term strategy and to act as a focal point for the annual results framework and related applications in Umoja. The Section will continue to be the basis for organizational learning processes, focusing on accountability and on the attainment of results, and ensuring the operational excellence of ESCWA through risk reduction and change management processes. The Section will continue to manage the broader knowledge and dissemination processes of the Commission.

22.107 The Resource Mobilization and Partnerships Section will continue to strengthen relationships with funding agencies and donors; maintain up-to-date regional and global donor mapping; coordinate and support project development, budgeting and fundraising; support and track the implementation of extrabudgetary projects; assist ESCWA cluster leaders in building and enhancing institutional partnerships (regional and global); support cluster leaders' relationships with civil society and non-State actors and partners; and develop and negotiate legally binding partnerships and donor agreements.

22.108 In accordance with the 2030 Agenda, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Commission integrates environmental management practices into its operations. In 2026, the Commission will: (a) facilitate dialogue and collaboration among stakeholders to foster policy coherence, knowledge-sharing and capacity-building initiatives that

support the implementation of the 2030 Agenda; (b) provide technical assistance and advisory services to member States, helping to strengthen institutional frameworks, enhance data-driven decision-making and integrate sustainable development goals into national policies and strategies; and (c) promote innovative financing mechanisms and resource mobilization efforts to bridge funding gaps and support sustainable, inclusive economic growth across the region.

22.109 Information on the timely submission of documentation and advance booking for air travel is reflected in table 22.40. ESCWA has made efforts to raise awareness among staff of the requirement to comply with the advance purchase guidance and, in this context, has put in place a procedure whereby travel requests not compliant with the advance booking policy have to be cleared by the Office of the Executive Secretary to hold project managers accountable for the late travel-related submissions. As a result of these measures, there has been a continuous improvement in the compliance rate. The Commission will continue its efforts to achieve its targets in 2026. It will enhance compliance with advance travel booking through regular monitoring, strengthened accountability and performance benchmarking. These measures are intended to sustain improvements, promote cost-effective travel planning and ensure operational efficiency.

Annex I

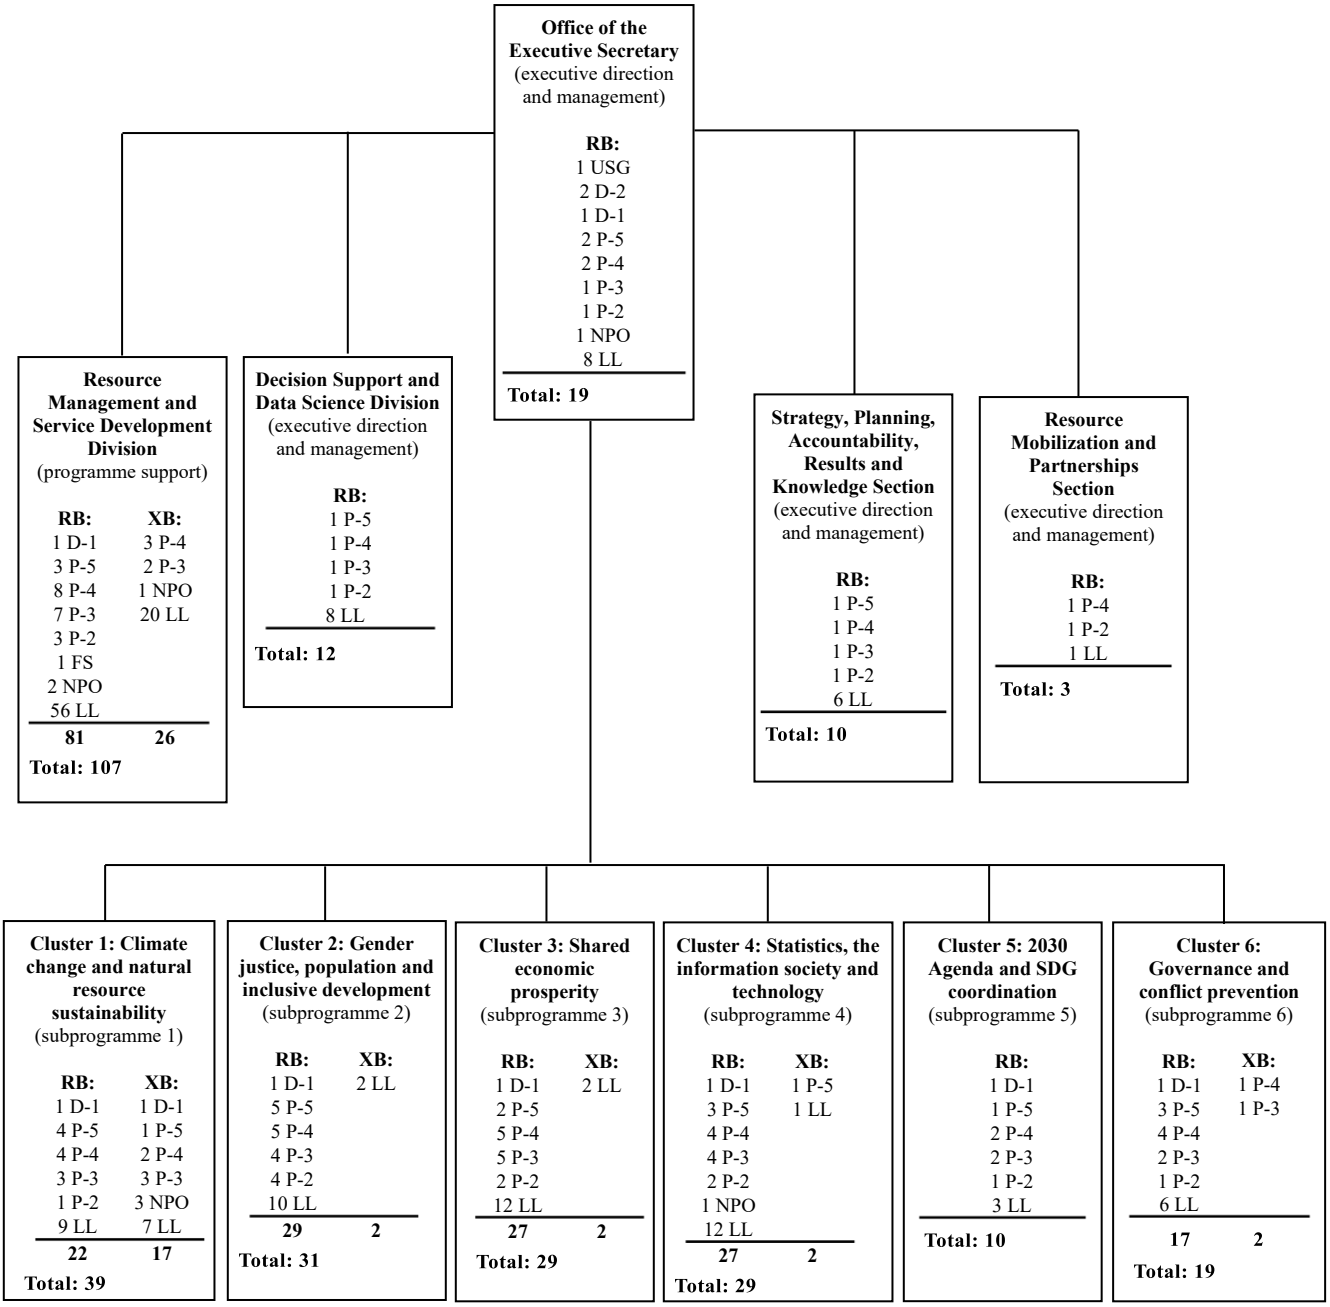
Organizational structure and post distribution for 2026

Two charts showing the organizational structure of ESCWA are presented below. Chart A reproduces the approved organizational structure for 2025 as contained in A/79/6 (Sect. 22). Chart B presents the proposed organizational structure for 2026.

Justification for the proposed changes

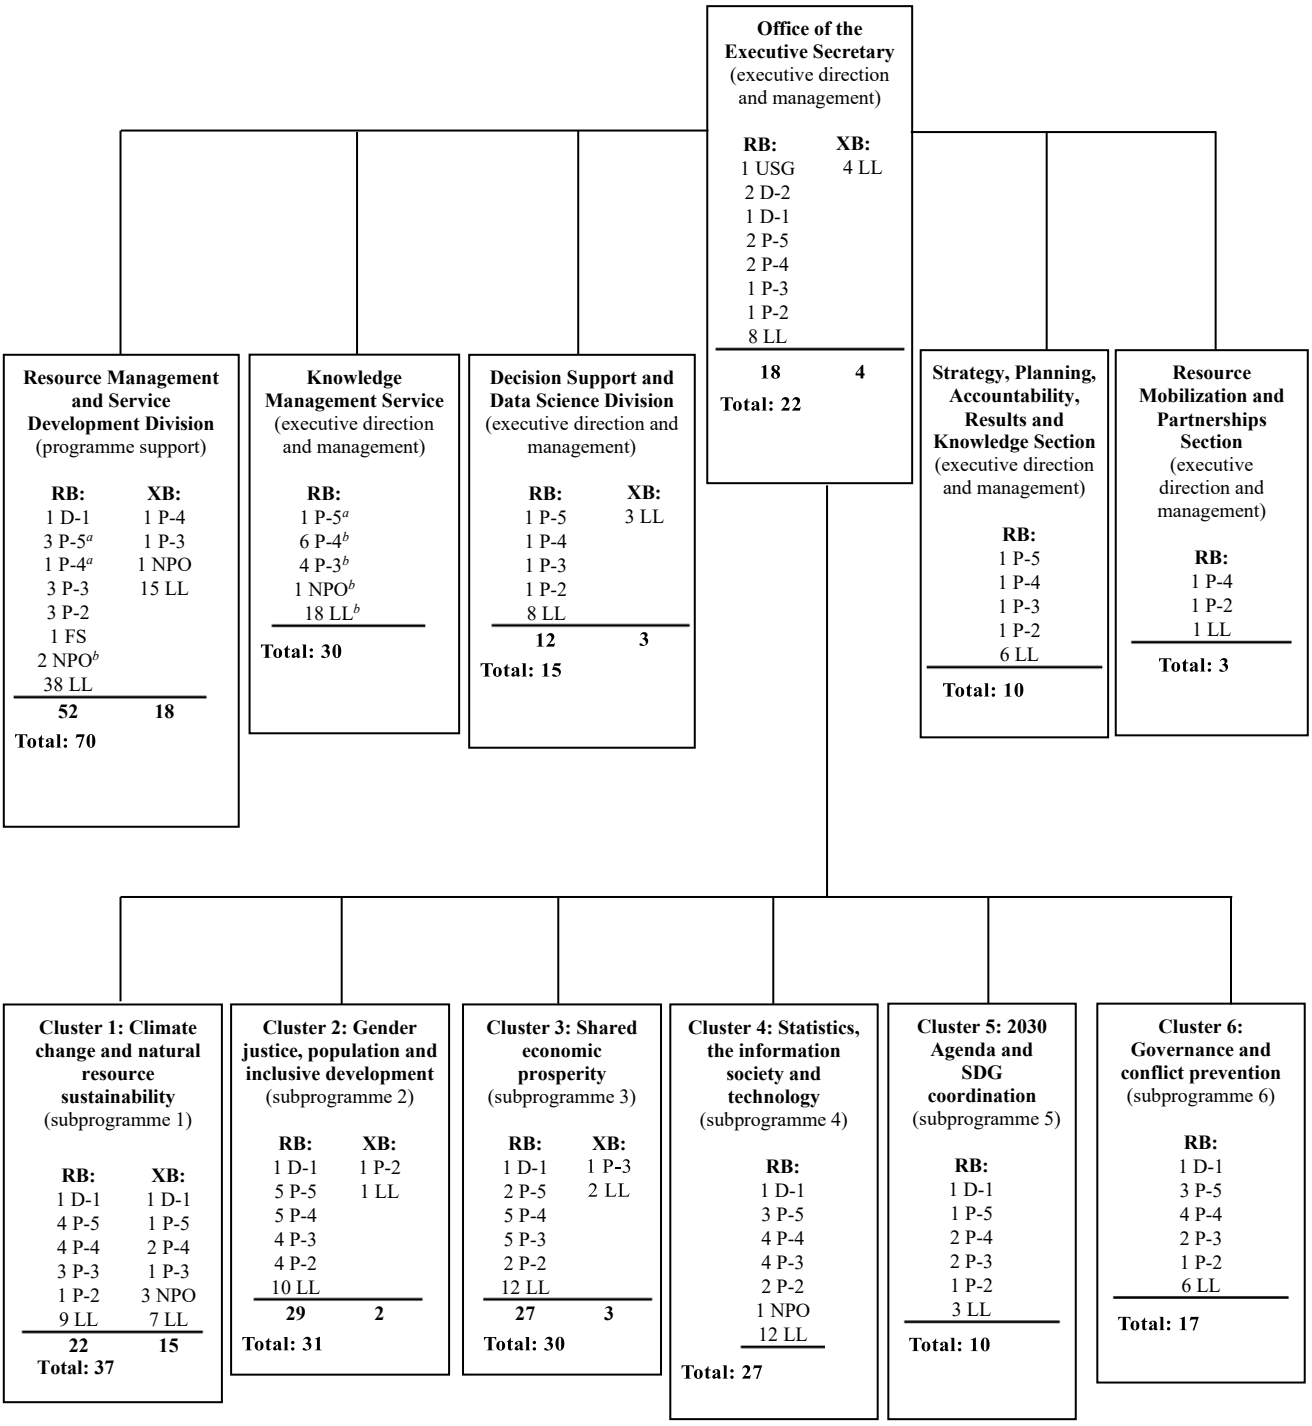
The structural redeployment of the Conference Services Section from programme support as the Knowledge Management Service under executive direction and management reflects the Commission's commitment to emphasizing efficiency, innovation and institutional learning. The Section operates at the intersection of content delivery and knowledge management, providing intellectual support through language, documentation and conference services integral to the work of ESCWA. The proposed redeployment of the Service would reinforce its ability to fulfil its role in enhancing ESCWA convening power, resonating with audiences and contributing substantively to the work programme. The proposed redeployment would facilitate closer integration with the ESCWA strategic planning and project cycles, fostering agility and responsiveness to the Commission's programmatic needs. Such structural realignment would ensure that expertise in communication, content quality and multilingual support is more directly applied to enhance the mission of ESCWA and uphold its visibility and cohesion as a knowledge-driven organization. Moreover, positioning knowledge management services under executive direction and management aligns with United Nations-wide practices, by which conference and language services typically report directly to senior leadership. The proposed Service will report to the Executive Secretary through the Deputy Executive Secretary, Programme Support.

A. Approved organizational structure and post distribution for 2025



Abbreviations: FS, Field Service; LL, Local level; NPO, National Professional Officer; RB, regular budget; USG, Under-Secretary-General; XB, extrabudgetary.

B. Proposed organizational structure and post distribution for 2026



Abbreviations: FS, Field Service; LL, Local level; NPO, National Professional Officer; RB, regular budget; USG, Under-Secretary-General; XB, extrabudgetary.

[a] Reflects the reclassification of one P-4 post to a P-5 post.

[b] Reflects the redeployment of one National Professional Officer post.

Annex II

Summary of proposed post changes, by component and subprogramme

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
Executive direction and management			**Redeployment** of the following posts from programme support:	The proposed inward redeployment of 30 posts relates to the proposed redeployment of the Conference Management Section as the Knowledge Management Service under executive direction and management, which would facilitate closer integration with ESCWA strategic planning and project cycles, fostering agility and responsiveness to ESCWA programmatic needs. Such structural realignment would ensure that knowledge management expertise in communication, content quality and multilingual support is more directly applied to enhance the mission of ESCWA and uphold its visibility and cohesion as a knowledge-driven organization.
	1	P-5	1 Chief of Section, Conference Services	
	6	P-4	3 Reviser, Arabic; 1 Translator, English; 1 Editor, English; 1 Reviser	
	4	P-3	1 Translator, Arabic; 1 Editor, Arabic; 1 Editor, English; 1 Conference Services Officer	
	1	NPO	1 Assistant Document Management Officer	
	18	LL	1 Senior Language Reference Assistant; 1 Senior Editorial Assistant; 1 Senior Documents Management Assistant; 1 Editorial and Desktop Publishing Assistant; 1 Printing Press Operator; 1 Library Assistant; 2 Language Service Assistant; 2 Graphic Design Assistant; 2 Documents Management Assistant; 2 Administrative Assistant; 1 Desktop Publishing Assistant; 1 Offset Press Operator; 2 Assembly and Binding Equipment Assistant	
	(1)	NPO	**Redeployment** of 1 Programme Management Officer	The proposed outward redeployment would consolidate the quality-, oversight-, analytics- and assurance-related capacity under the programme support component, which would strengthen quality management and assurance over organizational matters in ESCWA. The redeployment is proposed in the context of a broader strategy within the programme support component reflecting enhanced overall management efforts through improved management of human and financial resources through the Resources Management Section and the increased overall emphasis on quality, oversight, assurance and analytics through the consolidation of related capacity under the Quality Management Section.
Programme support			**Redeployment** of the following posts from programme support:	See above reason for redeployments under executive direction and management.
	(1)	P-5	1 Chief of Section, Conference Services	
	(6)	P-4	3 Reviser, Arabic; 1 Translator, English;	

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
			1 Editor, English; 1 Reviser	
	(4)	P-3	1 Translator, Arabic; 1 Editor, Arabic; 1 Editor, English; 1 Conference Services Officer	
	(1)	NPO	1 Assistant Document Management Officer	
	(18)	LL	1 Senior Language Reference Assistant; 1 Senior Editorial Assistant; 1 Senior Documents Management Assistant; 1 Editorial and Desktop Publishing Assistant; 1 Printing Press Operator; 1 Library Assistant; 2 Language Service Assistant; 2 Graphic Design Assistants 2 Documents Management Assistant; 2 Administrative Assistant; 1 Desktop Publishing Assistant; 1 Offset Press Operator; 2 Assembly and Binding Equipment Assistant	
	1	NPO	**Redeployment** of one Programme Management Officer	See above reason for the redeployment under executive direction and management.
	(1) 1	P-4 P-5	**Reclassification** of a Medical Officer (P-4) to Senior Medical Officer (P-5)	The proposed reclassification reflects the expanding role of the Medical Officer on policy-driven initiatives, necessitating high-level representation in key United Nations working groups, including the United Nations Medical Directors Network, the global mental health team leadership and the United Nations country team occupational safety and health committee, in particular during crises. It also plays a pivotal role in the common back office planning for Lebanon, ensuring the continuity of medical services across the region. In addition, the post is responsible for continuous health and psychosocial risk assessments and developing health risk mitigation strategies for pandemics, infectious diseases and work-related incidents. The proposed model for ESCWA resembles other commissions, bearing in mind the security instability affecting the national healthcare system, which requires continuing mitigation support to bridge the gap and respond in a timely manner to support the needs of ESCWA staff in normal and/or crisis situations, which involves the following: (a) Regular visits/coordination with the national hospitals/healthcare providers, the Ministry of Public Health and the World Health Organization national office;

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
				(b) Regular hospital assessments in the region for potential casualty and medical evacuations to both national and international staff with their eligible dependents. In addition, The P-4 post was originally established to oversee medical issues of ESCWA staff only. However, the current security situation in the country and the leading role of ESCWA in the region, has required the post to manage an additional Medical Officer (National Professional Officer), along with one Nurse (Local level), one Staff Assistant (Local level) and a part time stress counsellor for United Nations entities within the Lebanon north Litani River duty station and other entities in the region, namely, offices of the resident coordinator, Secretariat offices and the International Renewable Energy Agency.

Abbreviations: LL, Local level; NPO, National Professional Officer.

Overview

Overall orientation

23.1 The regular programme of technical cooperation, established by the General Assembly in its resolution 58 (I) in 1946, serves to support developing countries, least developed countries, countries with economies in transition and countries emerging from conflict in their capacity development efforts. Currently, those efforts are geared towards the implementation of the 2030 Agenda for Sustainable Development, including the achievement of the Sustainable Development Goals and other internationally agreed development goals, and the outcomes of related United Nations conferences and summits. The programme's broad objective is to support and advance processes aimed at developing the capacity of Governments, through both individuals and institutions, to formulate and implement policies for sustainable economic and social development. The sharing of experiences across countries and regions, South-South cooperation, the use of national expertise from the beneficiary countries to the extent possible and the building of knowledge networks to facilitate continued exchange and assistance and promote sustainability are characteristic of the programme.

23.2 The programme enables the Secretariat to offer Member States access to the diverse global and regional specialized development expertise and knowledge readily available within the programme's implementing entities: the Department of Economic and Social Affairs, the five regional commissions (the Economic Commission for Africa (ECA), the Economic and Social Commission for Asia and the Pacific (ESCAP), the Economic Commission for Europe (ECE), the Economic Commission for Latin America and the Caribbean (ECLAC) and the Economic and Social Commission for Western Asia (ESCWA)), the United Nations Conference on Trade and Development (UNCTAD), the United Nations Office on Drugs and Crime (UNODC), the United Nations Human Settlements Programme (UN-Habitat), the Office for the Coordination of Humanitarian Affairs and the Office of the United Nations High Commissioner for Human Rights (OHCHR).

23.3 The capacity development activities of the implementing entities draw substantively from their normative and analytical work and respond to the policy guidance and programmes of action agreed by Member States through the intergovernmental mechanisms. This enables developing countries to benefit from both the knowledge acquired through that work and from the experiences of various geographical regions, allowing for the sharing and exchange of innovative and good practices. Of equal importance is the contribution that the capacity development work brings to the normative and analytical activities and, ultimately, to the support provided to the intergovernmental dialogue.

23.4 The defining features of the programme are that it is demand-driven, quick to respond and of a short-term nature, responding to an expressed need by Member States for capacity development support. At the same time, in order to ensure that services complement and are aligned with the overall and mandated strategic priorities of the implementing entities, they cannot be delivered solely on an ad hoc basis, but rather must be part of more strategic programmatic approaches based on a thorough understanding and appreciation of national needs, also taking into account regional and subregional contexts and specifics.

23.5 Member States have recognized that part of the successful implementation of the 2030 Agenda is the adoption of new, transformative and innovative approaches to integrate sustainability into national development planning, policies, budgets, law, institutions and monitoring and accountability frameworks. Doing so will require considerable individual, institutional, analytical and statistical capacities to address the complexity and cross-cutting nature of the sustainable development challenges in a coherent and integrated fashion. While countries have made important strides in some of these areas, the challenges remain enormous. For this reason, capacity development is a central requirement to advancing the implementation of the 2030 Agenda, the Addis Ababa Action Agenda of the Third International Conference on Financing for Development and the Pact for the Future, as well as the outcomes of the upcoming Fourth International Conference on Financing for

Development and the Second World Summit for Social Development, among other key frameworks of action.

23.6 The global development landscape continues to face unprecedented challenges, including geopolitical tensions, climate change, rising inequalities and economic uncertainties that threaten to stall progress towards achieving the Sustainable Development Goals. The agile nature of the programme enables implementing entities to provide timely technical cooperation support to address emerging crises and evolving development needs.

23.7 The programme will continue to support Member States in strengthening their resilience to external shocks and global crises, including responding to food and energy crises, global financial instability and climate-related vulnerabilities, and in the sustainable management of natural resources, which is needed to contribute to social cohesion, stable financial systems and global peace and security. Through policy advice, knowledge-sharing and capacity-building initiatives, the programme aims to strengthen national institutions, address specific regional, subregional and transboundary challenges and facilitate sustainable and inclusive recovery pathways. The strength of the programme remains in its demand-driven nature, serving as a trusted asset that Member States rely on to address emerging development challenges with agility and tailored support.

23.8 While the programme cannot address many facets of these ongoing global challenges, the strategic use of the programme's resources facilitates rapid and tailored responses and initial support to emerging needs of Member States by implementing entities and is complementary to other development funds, including the United Nations Development Account and extrabudgetary resources, which optimizes the programme's impact through strengthened linkages and follow-through activities.

23.9 Global and regional entities of the Secretariat implementing activities under the programme coordinate those activities through established internal mechanisms. The Executive Committee on Economic and Social Affairs, the main focus of which is the harmonization of its members' programmes, helps to achieve a rational division of labour and complementarity between the global and regional entities by promoting programmatic coordination and identifying synergies for operational work. At another level, the engagement of implementing entities within the United Nations Sustainable Development Group brings about greater awareness by a larger group of entities of the specific expertise and operational strengths available in the United Nations system, thereby increasing potential cooperation to implement projects and undertake operational work at the country level and improving system-wide coherence in the context of relevant country processes and cooperation frameworks.

Coordination with the resident coordinator system and other partners

23.10 The implementing entities of the programme are all non-resident agencies. Accordingly, they engage with the resident coordinator and resident agencies and ensure peer learning across the countries, among other things, as part of the South-South cooperation mechanism to maximize the impact of country-level development work. Such cooperation enables access to up-to-date information on national development priorities and better positioning in the broader development cooperation environment. For resident agencies, it enables access to the knowledge and expertise of non-resident agencies, as well as to their data systems and policy tools. This cooperation can include joint programming and delivery, including through the common country analysis and the United Nations Sustainable Development Cooperation Framework, as well as joint needs assessments, joint workplans and, where appropriate, joint resource mobilization.

23.11 Regional commissions have increasingly strengthened their collaboration and engagement with the resident coordinator system and United Nations country teams, ensuring effective linkages between regional, subregional and national dimensions and recalibrating their offers in response to country needs and priorities. The regional collaborative platforms and related issue-based coalitions or inter-agency working groups help to bring together the collective expertise of the non-resident entities to provide optimal solutions to address regional, subregional and national priorities. There

has been considerable improvement in non-resident agency/resident agency cooperation in terms of better communication and coordination, including through increased awareness of one another's mandates, participation in knowledge networking and better advance planning by the non-resident agencies when undertaking country missions by engaging directly with the resident coordinator offices and resident agencies on country-level work. The development and adoption of the standard operating procedures for countries wishing to adopt the "delivering as one" approach is an important milestone in providing concrete, flexible solutions for United Nations country teams that are in line with the reform agenda, as formulated in General Assembly resolution 79/226 on the quadrennial comprehensive policy review of operational activities for development of the United Nations system. Some agencies have also developed their own standard operating procedures for enhanced collaboration with resident coordinator offices and United Nations country teams.

23.12 Cooperation with partners within the broader development assistance community, including the Bretton Woods institutions, the Organisation for Economic Co-operation and Development, regional development banks and other regional and subregional organizations, will continue to be pursued as partners work together to align with and improve the coherence of development priorities among country clusters (least developed countries/landlocked developing countries/small island developing States), within regional and subregional groupings, and at the country level for greater impact of the programme's activities in the field.

Objective and strategy

23.13 The overarching objective that guides the programming of the resources allocated to individual entities under the programme and the overall strategy and criteria followed for implementation are as follows:

(a) **Objective**. The objective to which each subprogramme of the entities of the regular programme of technical cooperation contributes can be found in the relevant fascicle of the proposed programme plan for 2026 (A/80/6), for each implementing entity;

(b) **Strategy**. The strategy consists of:

(i) Responding to the requests of Governments for urgent advice on policy-related issues;

(ii) Providing Governments with specific advice on sectoral matters relevant to their development strategies and programmes;

(iii) Assisting Governments in the formulation or evaluation of programmes and projects leading to the enhancement of national programmes;

(iv) Developing networks of experts and practitioners in the respective sectoral areas to facilitate information-sharing, synergies and potential collaboration, especially through information and communications technology, workshops and seminars;

(c) **Criteria**. The following criteria are relevant to all implementing entities of the programme:

(i) Activities should be responsive primarily to the requests of developing countries and be of a short-term nature (i.e., conceived and implemented within less than two calendar years); longer-term initiatives that require a phased approach and that build on knowledge acquired through previous interventions may continue, pending the mobilization of external resources; requests to the regular programme of technical cooperation may also lead to Development Account projects, in order to provide longer-term and sustainable support to the countries;

(ii) Activities should fall within one of the main work areas of the implementing entity as mandated by its governing body, and the entity should play a demonstrable leadership role in normative and analytical functions relating to the activities;

(iii) Activities should build capacity in developing countries, including for meeting treaty and related normative obligations and, through the sharing of experience gained at the country

level, enrich the analytical functions of the implementing entity for the benefit of all Member States;

(iv) Activities that aid in the preparation of specialized components of a country's development strategy or that help to prepare requests for larger-scale funding from other sources are encouraged.

23.14 In line with General Assembly resolution 2514 (XXIV) and Economic and Social Council resolution 1434 (XLVII), activities financed under the present budget section will continue to focus on short-term advisory services, training and field projects, as outlined below. Activities will be based on needs expressed by Member States and by regional and subregional cooperation groups, either at the request of a State or as guided by the intergovernmental process, bearing in mind the criteria set forth for the purposes and uses of the programme.

Short-term advisory services

23.15 Advisory services ensure the provision of high-level technical expertise, the transfer of knowledge from global and regional entities to Governments on policy-related issues and development strategies and the formulation, assessment or evaluation of projects and programmes. The core of the programme is built around regional and interregional advisers who are specialists in both capacity development and in the substantive knowledge of the subprogramme. These advisers represent the critical interface between the countries and the implementing entities, facilitating country-level access to the expertise of the Organization. Advisory services may also be provided by national consultants, supported by the implementing entity, or any other member of staff tasked with programming funds of the regular programme of technical cooperation. Services may be provided through an advisory mission, involving travel to the target country or virtual or hybrid means. Advisory services may lead to the formulation of technical cooperation projects, implemented either by a Government or in partnership with a United Nations entity. Advisory services may also lead to Development Account projects, providing a natural platform to pursue longer-term and sustainable support to the countries.

23.16 To ensure that the pool of interregional and regional advisers represents the highest calibre of technical skills and knowledge, all implementing entities of the programme have committed themselves to reviewing their advisory capacities so as to be able to replace advisers, as needed, to ensure that they have the best skills and knowledge to respond to the changing needs of Member States. Extensions are reviewed on an annual basis by senior-level departmental panels and include a review of the advisory services provided during the past period and an examination of a results-based workplan, which is fully integrated within the subprogramme's technical cooperation programme, for the forthcoming period. While there is an annual review of the advisory skills needed during the forthcoming period, the positions are redefined at the five-year mark to better respond to the changing needs of countries and to address new and emerging concerns. Doing so may result in a total change of competencies and skills or a redefinition of the positions' sectoral focus to address a specific technical area.

23.17 In line with past intergovernmental guidance, the implementing entities have taken steps to utilize complementary resources for the provision of advisory services, including the recruitment of short-term advisers who respond to very specific, distinct assignments of a limited duration, as well as consultancy assignments, in which national and regional expertise are drawn upon, in particular when addressing issues that are country-specific and for which expert knowledge of national or regional issues is fundamental in ensuring the most relevant and targeted support. The entities also rely on national or regional institutions, in particular in the context of national workshops, which ensures the transfer of local knowledge and expertise and promotes local follow-up actions.

Field projects

23.18 Field projects provide a link between research and analysis that is based on implementation experiences and provide opportunities to test-drive policy or other normative recommendations on

a small scale in which the impact can be gauged quickly and closely. The projects are designed in response to demands by Member States regarding a clearly articulated need, while simultaneously reflecting programmatic and subprogramme goals. They are longer-term initiatives and are often supplemented by extrabudgetary resources or the Development Account in order to scale up their activities. Such projects may be country-based but can also be interregional or subregional.

Training

23.19 Training is aimed at building knowledge and skills that will contribute to strengthening national capacity for policy development and the effective implementation of national policies. Training is often conducted through seminars and workshops, as well as through the provision of short-term fellowships, which foster peer-to-peer opportunities for learning. The exchange of good practices and South-South cooperation are fostered consistently. The main consideration guiding the training conducted under the programme is that the topics should play a catalytic role in the development process and should contribute to linking local needs and conditions with the follow-up of major conferences. Even where the organizing entity is a global one, the participation of the relevant regional commissions and United Nations country teams is encouraged in the interest of sustainability and continued regional and national support after the event.

23.20 Training is undertaken in response to an identified capacity gap in one or more countries and at the request of Member States. Interregional advisers, staff and/or consultants may lead and participate in seminars and workshops by developing training modules, facilitating discussions and providing hands-on training. Training can be held virtually, in person or through hybrid means. Seminars and workshops are held at the subnational, national and regional levels.

Alignment and complementarity of the regular programme of technical cooperation and the Development Account

23.21 Implementing entities have used the complementarity of the activities of the regular programme of technical cooperation and the Development Account, as well as extrabudgetary resources, to create multiplier effects that contribute to longer-term sustained development results. Initial support funded by the regular programme is often followed through by developing projects by the Development Account and extrabudgetary resources. For example, advisory missions undertaken under the regular programme may lead to the establishment of Development Account projects that provide a natural platform to pursue longer-term and sustainable support to countries, which serves to enhance the multiplier effect that contributes to longer-term, sustained impact.

Status of internal assessment

23.22 Considering the decentralized nature of the regular programme of technical cooperation, each implementing entity assesses the results of its regular programme activities and conducts periodic evaluations. As in previous years, the Department of Economic and Social Affairs has agreed to lead the preparation of the tenth progress report on the regular programme, in consultation with all implementing entities, covering regular programme activities conducted in 2024, in line with the recommendation contained in paragraph V.113 of the first report of the Advisory Committee on Administrative and Budgetary Questions on the proposed programme budget for 2025 (A/79/7), in which the Advisory Committee recommended that the General Assembly request the Secretary-General to continue to present the progress report on an annual basis and which was endorsed by the Assembly in its resolution 79/257.

23.23 In the same resolution, the General Assembly requested the Secretary-General to present a report on strengthening the effectiveness of the regular programme of technical cooperation, in line with paragraphs V.117, V.122 and V.123 of the report of the Advisory Committee. The report will build on the findings of the evaluation conducted by the Office of Internal Oversight Services (OIOS) in 2023 and will be presented to the General Assembly at the main part of its eightieth session, through the Advisory Committee. The OIOS evaluation was conducted in 2023 in response to the recommendations contained in paragraphs V.103, V.111 and V.112 of the first report of the Advisory

Committee on the proposed programme budget for 2023 (A/77/7), endorsed by the Assembly in its resolution 77/262, and explored the relevance, effectiveness, efficiency and coherence of the regular programme in enhancing Member States' capacity to formulate and implement national development policies, plans, strategies and laws. The evaluation report was published as a programme manager report in February 2024 and is available on the OIOS website.[1]

Overview of resources for the regular budget

23.24 As shown in tables 23.1 and 23.2 and figures 23.I and 23.II, the overall resources proposed for 2026 amount to $51,706,000, reflecting an increase of $2,000,000, or 4.0 per cent, compared with the approved budget for 2025. Resource changes result from other changes. The overall increase takes into account anticipated additional requests for support in specific areas, including increased efforts towards the implementation of the 2030 Agenda and the development of a standardized fellowship programme across all the regional commissions to support capacity-building for Member States, especially for the least developed countries, landlocked developing countries and small island developing States, in line with the recommendation contained in paragraph V.29 of the first report of the Advisory Committee on the proposed programme budget for 2025 (A/79/7) endorsed by the General Assembly in its resolution 79/257. In response to this initiative, all regional commissions, under the leadership of ECA, are jointly exploring options for a standardized fellowship programme through a common set of principles and guidelines, while allowing space for innovation, creativity and responsiveness to the unique challenges and priorities of each region. Of the $2,000,000 in additional resources proposed for 2026, the amount of $1,500,000 has been proposed by the regional commissions for dedication towards the new fellowship programme.

23.25 The proposed level of resources provides for the full, efficient and effective implementation of mandates.

I. Sectoral advisory services

1. Economic and social affairs

A. Programmatic activities delivered through the regular programme of technical cooperation

23.26 The assistance to Member States provided by the Department of Economic and Social Affairs through the regular programme of technical cooperation leverages the Department's multidisciplinary expertise and mandates on economic, social and environmental issues to support the implementation of the 2030 Agenda for Sustainable Development through the following subprogrammes: subprogramme 2, Inclusive social development; subprogramme 3, Sustainable development; subprogramme 4, Statistics; subprogramme 5, Population; subprogramme 6, Economic analysis and policy; subprogramme 7, Public institutions and digital government; subprogramme 8, Sustainable forest management; and subprogramme 9, Financing for sustainable development.

23.27 In implementing the responses, the regular programme of technical cooperation contributes to the objectives and expected results of the subprogrammes and complements the strategies and deliverables highlighted by the subprogrammes in the relevant paragraphs of the proposed programme budget for 2026 (A/80/6 (Sect. 9)).

Outreach and dissemination of guidelines to Member States on the opportunities for assistance through the regular programme of technical cooperation

23.28 The Department utilizes various channels to promote and communicate the regular programme of technical cooperation. Its newly redesigned website offers an interactive platform with project dashboards, multimedia content and updated guidelines. Recently, the Department also released a brochure outlining its capacity development resources, aimed at assisting Member States in navigating the complex process of transforming the global sustainable development agenda into actionable plans. The brochure offers a detailed overview of the Department's capacity development services, available through the regular programme and other funding sources. These resources are further supported by focused outreach efforts during intergovernmental meetings, bilateral briefings and virtual workshops to raise awareness and encourage demand-driven support from the Department.

23.29 Building on its intergovernmental role, the Department actively engages in prominent forums, such as the high-level political forum on sustainable development, the Fourth International Conference on Financing for Development and the United Nations World Data Forum. These key platforms, along with valuable insights from its capacity development programmes, empower the Department to share innovative approaches to capacity-building and critical policy recommendations across economic, social and environmental sectors. Through these engagements, the Department strengthens its position as a thought leader and provider of strategic foresight, while also enabling it to offer direct technical support to Member States, permanent missions and resident coordinator offices.

Complementarity with the resident coordinator system

23.30 All country-level interventions, including those funded by the regular programme of technical cooperation, are guided by the Department's policy for country-level support within the resident coordinator system and standard operating procedures for engagement at the country level, adopted in May 2023 and May 2020, respectively. This guidance is aimed at ensuring that the Department's country-level interventions are aligned with national priorities and contribute to the national objectives outlined in the United Nations Sustainable Development Cooperation Framework. These activities are designed to complement ongoing regional and national United Nations efforts, addressing existing capacity gaps and strengthening United Nations policy support at the country

level. In line with the General Assembly's vision for the resident coordinator system, the Department proactively engages and collaborates with resident coordinators and United Nations country teams to programme country-level activities, including through joint programming, to support the implementation of the Cooperation Framework. This collaboration has enabled the Department to form strategic partnerships and engage in joint initiatives with other United Nations entities that have enhanced the reach and impact of its capacity development support.

Review of high-level positions at headquarters duty stations

23.31 In line with the recommendation of the Advisory Committee on Administrative and Budgetary Questions endorsed by the General Assembly in its resolution 77/262, the Department continues to implement its management reform, intended to optimize the resources of the regular programme of technical cooperation, including the use of general temporary assistance positions, such as the interregional advisers. The reform is intended to mainstream capacity development work across the Department to better align the support of the regular programme with the Department's expertise and increase the capacity of the Department to respond to the evolving and increasing needs of Member States, particularly developing countries. This is expected to reduce the reliance on dedicated interregional adviser resources while ensuring the continued effectiveness of the regular programme. The role, level, duration and number of interregional adviser positions are being progressively adjusted to this approach, which was formalized in a departmental policy for the use of regular programme resources and the guidelines for the recruitment of interregional advisers. The objective is to explore ways to reduce the long-term need for interregional advisers without compromising the Department's ability to meet Member States' needs effectively. The Department will continue to closely monitor Member States' demand related to implementation of the Sustainable Development Goals and ensure that regular programme resources are effectively deployed to meet such demand.

Responses provided to Member States' requests for support in 2024

Improved accessibility for the full and inclusive participation of persons with disabilities at the Conference of States Parties to the Convention on the Rights of Persons with Disabilities
(Result 1 of subprogramme 2 (A/80/6 (Sect. 9)))

23.32 In 2024, subprogramme 2, Inclusive social development, received a request for cooperation from Indonesia to provide capacity-building on the enhancement of social inclusion in the development of the creative economy, following the adoption of General Assembly resolution 78/133 on promoting creative economy for sustainable development. The creative economy offers strong potential for the creation of decent jobs and for the inclusion of vulnerable segments of the population, and a partnership was developed with the Government of Indonesia with the intention of training government officials on the social inclusiveness of the sector in an effort to implement the resolution. The project consisted of the organization of a national event in Jakarta followed by two capacity-building workshops in Yogyakarta and Bali, with the participation of the United Nations Resident Coordinator and the Minister of Tourism and Creative Economy. The events featured well-established creative artists and entrepreneurs, and it was the first time that the Ministry of Tourism and Creative Economy had engaged directly with marginalized segments of the population. Of particular significance was the participation of representatives of groups of persons with disabilities, with whom government officials envisaged future capacity-building activities. While it was the first time that the Department of Economic and Social Affairs had engaged regular programme resources on the theme of creative economy, the nature of the activities was closely aligned with its programming and budget. These interventions will help marginalized segments of the population, notably persons with disabilities, whose specific needs were highlighted during the events, including the requirement for universal design and the importance of flexible work environments.

23.33 This work contributed to result 1 of subprogramme 2, and the related performance measure (see table 23.3), in the proposed programme budget for 2026 (A/80/6 (Sect. 9)).

Table 23.3
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Greater inclusion through introduction of official documents in easy-to-read format	Guidance and feedback on specific modalities promoting accessibility were incorporated into the organization of the Conference of States Parties	Member States and stakeholders exchanged good practices on the use of specific modalities promoting accessibility	Good practices on the use of specific modalities are incorporated to continuously enhance the accessibility of the Conference	Enhanced accessibility of the Conference results in positive feedback among participants in a post-sessional survey

Expected responses to anticipated requests for support in 2026

Strengthened commitment and action to address the unique needs of small island developing States
(Result 1 of subprogramme 3 (A/80/6 (Sect. 9)))

23.34 In 2026, subprogramme 3, Sustainable development, will focus on assisting small island developing States in providing the following: (a) technical advice on policy options and their implications, aimed at generating countries' adoption or launch of transformative policies and new commitments to advance implementation of the Antigua and Barbuda Agenda for Small Island Developing States: A Renewed Declaration for Resilient Prosperity; (b) capacity-building in the areas identified in the Antigua and Barbuda Agenda, including on climate action, the sustainable use of ocean resources, disaster risk reduction and harnessing the potential of science, technology and innovation; (c) training for government officials and policy practitioners on national strategies and plans of action, including on science, technology and innovation for Sustainable Development Goals-related road maps, and mobilizing multi-stakeholder engagement and partnerships to accelerate implementation of the Antigua and Barbuda Agenda; and (d) workshops to enhance cooperation, capacity-building and knowledge exchange between small island developing States, particularly among their institutions.

23.35 The subprogramme will pursue its capacity development goals and objectives by working closely with United Nations country teams and resident coordinators, United Nations regional economic commissions and other partners, building on complementarity and thereby boosting the capacity of small island developing States to develop and implement national development strategies and plans and to effectively implement the Antigua and Barbuda Agenda and the 2030 Agenda and achieve the Sustainable Development Goals by the target date of 2030, leaving no one behind.

23.36 The expected responses in 2026 would contribute to strengthened commitment and action to address the unique needs of small island developing States through the implementation of the Antigua and Barbuda Agenda, which is reflected in result 1 of subprogramme 3, and the related performance measure (see table 23.4), in the proposed programme budget for 2026 (A/80/6 (Sect. 9)).

Table 23.4
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
A first set of modalities of the 2024 Conference was defined by Member States	Member States, including 118 representatives of small island developing States, participated in the preparatory process for the fourth Conference, comprising 3 regional meetings and 1 interregional meeting The report of the High-level Panel on the Development of a Multidimensional Vulnerability Index for Small Island Developing States was issued	The Conference was held in Antigua and Barbuda in May 2024 The outcome document, titled the Antigua and Barbuda Agenda for Small Island Developing States, was adopted by Member States	New and additional mandates emanating from the outcome document of the fourth Conference are implemented, including the possible operationalization of the multidimensional vulnerability index Coordinated capacity-building support to small island developing States is initiated	Intergovernmental dialogue on the first report on the implementation of the Antigua and Barbuda Agenda Member States engage in a biennial review of progress made in the implementation of the Antigua and Barbuda Agenda across all small island developing States

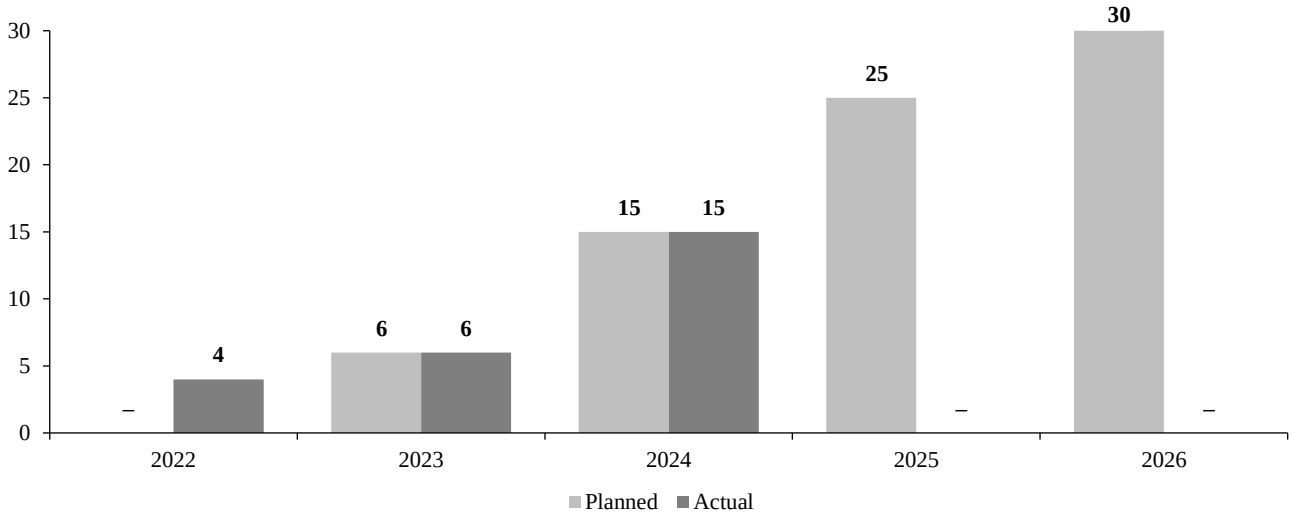
Accelerated implementation of the Integrated Geospatial Information Framework
(Result 1 of subprogramme 4 (A/80/6 (Sect. 9)))

23.37 In 2026, subprogramme 4, Statistics, will support countries in enhancing national geospatial information management capabilities and utilization. To that end, the subprogramme will provide the following: (a) technical assistance and strategic advice on the benefits of geospatial information management in addressing national priorities, leveraging the Integrated Geospatial Information Framework; (b) technical assistance and advice on capacity development on integrated geospatial information management and the availability of high-quality, timely and reliable data disaggregated by geographical location; and (c) guidance and training materials on geospatial information frameworks, standards and methods, in particular those related to the Sustainable Development Goals and the Integrated Geospatial Information Framework, and on other policy issues.

23.38 Capacity development will be delivered through a variety of means, including online and in-person training on the Integrated Geospatial Information Framework, as well as other topics, thereby contributing to the increased availability of geospatial information in support of informed policymaking and decision-making and monitoring and implementation of the 2030 Agenda. Some of these activities will be carried out as part of the regular programme of technical cooperation.

23.39 The expected response in 2026 would contribute to an increased number of country-level action plans based on the Integrated Geospatial Information Framework, which is reflected in result 1 of subprogramme 4, and the related performance measure (see figure 23.III), in the proposed programme budget for 2026 (A/80/6 (Sect. 9)).

Figure 23.III
Performance measure: number of countries that developed action plans based on the Integrated Geospatial Information Framework (cumulative)



Improved global capacity for evidence-based Sustainable Development Goals progress monitoring
(Result 3 of subprogramme 4 (A/80/6 (Sect. 9)))

23.40 Subprogramme 4 will focus on increasing the availability of high-quality, timely and reliable data for measuring progress towards the Sustainable Development Goals. To achieve this objective, the subprogramme will support national statistical offices through technical assistance, methodological guidance and training. This support will be delivered through targeted technical assistance, e-learning courses for monitoring of the Goals, the implementation of standardized data-collection tools, and support to countries in the implementation of international statistical standards for reporting on the Goals.

23.41 In achieving this objective, in 2026 the subprogramme will continue to work closely with the United Nations regional commissions, Sustainable Development Goal custodian agencies and other partners in the United Nations system. Part of the planned capacity-building and technical assistance will be delivered through the regular programme of technical cooperation.

23.42 The expected response in 2026 would contribute to an increase in the number of tier I indicators in the global Sustainable Development Goals indicator database, as shown in result 3 of subprogramme 4, and the related performance measure (see figure 23.IV), in the proposed programme budget for 2026 (A/80/6 (Sect. 9)).

Figure 23.IV
Performance measure: number of tier I indicators in the global Sustainable Development Goals indicator database (cumulative)

Total	**9 816.3**	**11 495.0**	**115.6**	**1.0**	**11 610.6**

23.43 The proposed regular budget resources for 2026 amount to $11,610,600, reflecting an increase of $115,600, or 1.0 per cent, compared with the approved budget for 2025. The proposed increase is attributable mainly to increases under contractual services ($100,000), for interpretation services and translation of materials for Member States, and grants and contributions ($92,000), offset in part by a decrease under other staff costs ($76,400), in line with expected requests from Member States in 2026.

2. Trade and development

A. Programmatic activities delivered through the regular programme of technical cooperation

23.44 The assistance provided by UNCTAD to member States to support the implementation of technical cooperation activities aimed at building their economic resilience and productive capacities and develop their capacity to formulate and implement policies on financing for development, investment, international trade, science and technology, and logistics and to support sustainable development is provided through five subprogrammes: subprogramme 1, Globalization, interdependence and development; subprogramme 2, Investment and enterprise; subprogramme 3, International trade and commodities; subprogramme 4, Technology and logistics; and subprogramme 5, Africa, least developed countries and special programmes.

23.45 In implementing the responses, the regular programme of technical cooperation contributes to the objectives and planned results of the subprogrammes and complements the strategies and deliverables presented in the relevant paragraphs of the proposed programme budget for 2026 (A/80/6 (Sect. 12)).

Outreach and dissemination of guidelines to member States on the opportunities for assistance through the regular programme of technical cooperation

23.46 To raise awareness of the opportunities for developing countries to benefit from assistance offered through the regular programme of technical cooperation, UNCTAD continues to disseminate information on various training offerings, through face-to-face meetings with government officials, including permanent representatives from developing countries, in the context of intergovernmental meetings, conferences and various capacity-building events organized by the entity. With regard to the regional courses on key issues on the international economic agenda (the “paragraph 166” course), UNCTAD continued communication and engagement with the permanent missions to the United Nations based in Geneva with respect to the nomination for participation of capital-based policymakers and on the selection of topics for short courses. UNCTAD outreach and dissemination efforts also included the use of newsletters and online platforms, especially with regard to its activities to support developing countries. In this context, the online platform (etradeforall.org) continued to provide information to member States on activities aimed at building their readiness to engage in and benefit from e-commerce and digital trade.

Complementarity with the resident coordinator system

23.47 UNCTAD will continue to collaborate with resident coordinator offices, including through involvement in the preparation of common country analyses and United Nations Sustainable Development Cooperation Frameworks. Furthermore, it will assist in the implementation of joint programmes within the framework of the digital transformation window of the Joint Sustainable Development Goals Fund under the leadership of resident coordinator offices. It will also continue to lead the United Nations Inter-Agency Cluster on Trade and Productive Capacity in “delivering as one” operational activities at the country level.

Review of high-level positions at headquarters duty stations

23.48 UNCTAD regularly reviews all general temporary assistance positions and proposes only positions deemed required for anticipated requests from member States.

Responses provided to member States' requests for support in 2024

Improved availability of digital economy statistics in developing countries

(Result 2 of subprogramme 4 (A/80/6 (Sect. 12)))

23.49 Subprogramme 4, Technology and logistics, contributes to harnessing innovation and technology, including e-commerce and the digital economy, improving trade logistics and increasing human capacity for inclusive and sustainable trade and development in developing countries and economies in transition. In 2024, the subprogramme continued its engagement with developing countries for the development and implementation of national e-commerce strategies. Funding from the regular programme of technical cooperation contributed to the development of a national e-commerce strategy for Ghana and the implementation of the national e-commerce strategy for Côte d'Ivoire. In Ghana, the strategy was developed in collaboration with the Ministry of Trade, Agribusiness and Industry as part of the digital transformation window of the Joint Sustainable Development Goals Fund, a collaborative effort by the United Nations Capital Development Fund, UNCTAD and the United Nations Development Programme, under the leadership of the Resident Coordinator Office. On the basis of the conclusions of the eTrade Readiness Assessment for Ghana published in 2023, the draft strategy was shaped through extensive national consultations, focusing on fostering a robust and inclusive digital commerce ecosystem. In Côte d'Ivoire, the strategy was developed in partnership with the Ministry of Trade and Industry, on the basis of the eTrade Readiness Assessment published in 2021 and in alignment with the regional e-commerce strategy for the Economic Community of West African States. The strategy was validated in June 2024 and, in cooperation with the Resident Coordinator Office, UNCTAD has provided support for mobilizing development partners to advance its implementation.

23.50 The above-mentioned work contributed to result 2 of subprogramme 4, and the related performance measure (see table 23.7), in the proposed programme budget for 2026 (A/80/6 (Sect. 12)).

Table 23.7
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Establishment of the international task group on measuring e-commerce value	23 member States participated in developing internationally agreed guidelines and recommendations on measuring e-commerce value	At least two countries start using the internationally agreed guidelines	An additional two countries start using the guidelines

Expected responses to anticipated requests for support in 2026

Developing countries are equipped with policy proposals and measures to develop sustainable industrialization strategies to establish more resilient economies
(Result 1 of subprogramme 1 (A/80/6 (Sect. 12)))

Enhanced policymaking to facilitate economic diversification through increased data capacities in services trade
(Result 1 of subprogramme 3 (A/80/6 (Sect. 12)))

23.51 In response to the requests for assistance coming from member States, UNCTAD is expected to continue to support government officials and policy practitioners in developing countries on key issues on the international economic agenda, with a view to increasing their capacity to build more effective and integrated policy responses to a changing global economy, as mandated in paragraph 166 of the Bangkok Plan of Action and subsequently reconfirmed by the Sao Paulo Consensus, the Doha Programme of Action for the Least Developed Countries and the Nairobi Maafikiano of 2016. It was recognized in the Bridgetown Covenant, the most recent outcome document of the fifteenth session of UNCTAD, that the activities under paragraph 166 of the Bangkok Plan of Action were of great importance and utility and should be continued.

23.52 In this regard, UNCTAD will continue to provide its flagship "paragraph 166" course on key issues on the international economic agenda for policymakers, Geneva-based delegates and other stakeholders from developing and transition economies, including those in the Africa and the Middle East and North Africa regions. The course will continue to be based on the development perspective of UNCTAD and focus on the links between trade, finance, investment, technology, logistics and macroeconomic policies in the context of major economic trends and debates in multilateral forums, but also focusing on recovery and resilience in its overall curricula.

23.53 More specifically, the subprogramme will:

(a) Continue to address in the curriculum the challenges that developing economies face, including coping with the complexity of the global trading system, economic disparities and inequalities, in addition to the economic consequences of various types of crises and building resilience and responding to shocks;

(b) Develop the modules of the capacity-building programme focusing on development, development policies and the role of international trade and finance in a globalized world; harnessing benefits from trade and changing dynamics in the multilateral trading system, as well as trade logistics, regional trade agreements and the digital economy; and enhancing the productive capacity of developing countries through foreign direct investment, enterprise development and science, technology and innovation. The overall curricula are adapted to each region, taking into consideration its particular development challenges, for instance with regard to interconnectivity or illicit financial flows;

(c) Roll out two regional courses in 2026 in two of the five developing regions, covering the Middle East and North Africa (to be held in Cairo) and for African economies (destination to be determined by the advisory body in mid-2025). These courses will be tailored to the specific requirements of each region and the countries represented in the training courses.

23.54 The expected response in 2026 would contribute to results under all five subprogrammes, including to developing countries being equipped with policy proposals and measures to develop sustainable industrialization strategies to establish more resilient economies, which is reflected in result 1 of subprogramme 1, and to enhanced policymaking capacities to facilitate economic diversification through increased data capacities in services trade, which is reflected in result 1 of subprogramme 3, and the related performance measures (see tables 23.8 and 23.9), in the proposed programme budget for 2026 (A/80/6 (Sect. 12)).

Table 23.8
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Member States had access to a vast array of sustainable industrial policy options and ideas to mobilize resources to finance sustainable industrialization through the UNCTAD Division on Globalization and Development Strategies publication entitled “South-South cooperation for climate adaptation and sustainable development”	The Bolivarian Republic of Venezuela identified its priority sustainable value chains and Brazil and Honduras started the identification process and definition of the overall integration strategy to be pursued over the period 2024–2027	Consensus reached by Brazil, Colombia, the Dominican Republic and Honduras on priority industrial policy measures to deploy at the national and regional levels to favour the development of sustainable regional value chains	At least two countries in Latin America are prepared and have the capacity to implement the priority industrial policies	Increased capacities of policymakers and other stakeholders from at least five developing countries to formulate sustainable industrial and structural transformation policies

Table 23.9
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Member States benefit from the establishment of an open-ended and time-bound working group on data for services trade and development policies	Angola and Uzbekistan revised their services trade-related policies informed by better data collection and use	Iraq and Uzbekistan implemented services trade-related policies informed by better data collection and use	At least four additional countries adopt, revise or implement services trade-related policies	At least two additional countries adopt, revise or implement services trade-related policies

Least developed countries are able to graduate through the development of comprehensive strategies and policies for a graduation with momentum and beyond
(Result 1 of subprogramme 5 (A/80/6 (Sect. 12)))

23.55 In 2026, subprogramme 5 is expected to support three least developed countries (Rwanda, Uganda and the United Republic of Tanzania), in the light of the provisions included in General Assembly resolutions 46/206, adopted in 1991, and 59/209, adopted in 2004, and the report on the first session of the Committee for Development Policy of the Economic and Social Council (E/1999/33), whereby UNCTAD would be requested to prepare a vulnerability profile on the countries that met the graduation criteria for the first time to be taken into account by the Committee at its subsequent triennial review. In this context, subprogramme 5 will continue to work on vulnerability profiles of the three countries mentioned above, found pre-eligible for graduation by the Committee in 2024.

23.56 While the vulnerability profiles are designed to be used as a background document for the Committee for Development Policy deliberations (to be held at the beginning of 2027) on the preparedness of the countries for graduation from the least developed countries category and to inform the Committee in its assessment of the economic and social progress observed in Rwanda, Uganda and the United

Republic of Tanzania, they also provide an assessment of historical and current progress to structurally transform the economy and the policy measures being taken to insulate it from further shocks. To complement the analysis included in the vulnerability profiles, the subprogramme will also undertake national productive capacities gap assessments for the above-mentioned countries to identify gaps and limitations in the countries' domestic productive capacities and recommend holistic, economy-wide policy interventions to address the development challenges.

23.57 In response, more specifically, the subprogramme will:

(a) Prepare the vulnerability profiles for Rwanda, Uganda and the United Republic of Tanzania, carry out validation workshops and participate in the drafting of their graduation assessments;

(b) Undertake national productive capacities gap assessments in the above-mentioned countries and undertake a statistical training and policy-level discussion in each country;

(c) When possible, draft a holistic programme of support on fostering productive capacities and structural economic transformation for each country.

23.58 The expected response in 2026 would contribute to the enhanced ability of least developed countries to graduate through the development of comprehensive strategies and policies for a graduation with momentum and beyond, which is reflected in result 1 of subprogramme 5, and the related performance measure (see table 23.10), in the proposed programme budget for 2026 (A/80/6 (Sect. 12)).

Table 23.10
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Least developed countries have access to policy guidance on the development of a strategy for "graduation with momentum"	Three least developed countries (Cambodia, Senegal and Zambia) that have qualified for graduation have taken steps towards the drafting of a strategy for "graduation with momentum"	Senegal adopted a systemic transformation strategy and the Comoros formulated a road map for structural transformation, concordant with the priorities articulated by the vulnerability profiles and with a view to graduating with momentum	At least two least developed countries implement industrial policy measures as articulated in the vulnerability profile At least two least developed countries have engaged in new trade initiatives to adjust their trade policies as a result of graduation	At least two least developed countries adopt industrial policy initiatives aimed at the structural transformation of their economies

B. Deliverables

Table 23.11
United Nations Conference on Trade and Development: expected deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
B. Generation and transfer of knowledge

C. Proposed non-post resource requirements for 2026

Table 23.12
Financial resources by object of expenditure
(Thousands of United States dollars)

			Changes		
	2024 expenditure	*2025 approved*	*Total*	*Percentage*	*2026 estimate)*
Other staff costs	1 253.5	1 446.6	14.6	1.0	1 461.2
Consultants	116.8	–	–	–	–
Experts	2.4	–	–	–	–
Travel of representatives	3.1	–	–	–	–
Travel of staff	128.0	325.4	3.3	1.0	328.7
Contractual services	177.8	–	–	–	–
General operating expenses	51.7	–	–	–	–
Supplies and materials	50.5	–	–	–	–
Furniture and equipment	1.5	–	–	–	–
Grants and contributions	239.9	506.0	5.0	1.0	511.0
Total	**2 025.0**	**2 278.0**	**22.9**	**1.0**	**2 300.9**

23.59 The proposed regular budget resources for 2026 amount to $2,300,900, reflecting an increase of $22,900, or 1.0 per cent, compared with the approved budget for 2025. The proposed increase is attributable mainly to increases under other staff costs ($14,600), travel of staff ($3,300) and grants and contributions ($5,000), in line with expected requests from Member States in 2026, including for advice and support for the smooth graduation process for least developed countries and to build readiness to engage in e-commerce and digital trade, including increasing their capacity to build more effective and integrated policy responses to a changing global economy.

3. Human settlements

A. Programmatic activities delivered through the regular programme of technical cooperation

23.60 The assistance to Member States provided by UN-Habitat through the regular programme of technical cooperation falls under the following subprogrammes: subprogramme 1, Reduced spatial inequality and poverty in communities across the urban-rural continuum; subprogramme 2, Enhanced shared prosperity of cities and regions; subprogramme 3, Strengthened climate action and improved urban environment; and subprogramme 4, Effective urban crisis prevention and response.

23.61 In implementing the responses, the regular programme of technical cooperation contributes to the objectives and planned results of the subprogrammes and complements the strategies and deliverables of those subprogrammes presented in the relevant paragraphs of the proposed programme budget for 2026 (A/80/6 (Sect. 15)).

Outreach and dissemination of guidelines to Member States on the opportunities for assistance through the regular programme of technical cooperation

23.62 UN-Habitat raises awareness of opportunities for countries to gain access to assistance with meetings, workshops and seminars with government officials and in the context of intergovernmental meetings. UN-Habitat conducts initial assessments of needs and attempts to match them with in-house expertise, and seeks to integrate long-term requests into programming.

Complementarity with the resident coordinator system

23.63 UN-Habitat ensured the continued alignment of housing and urban development priorities with the United Nations Sustainable Development Cooperation Framework, in coordination with the United Nations country teams and under the leadership of the resident coordinator system.

Review of high-level positions at headquarters duty stations

23.64 In response to the recommendation of the Advisory Committee on Administrative and Budgetary Questions endorsed by the General Assembly in its resolution 77/262, UN-Habitat conducted a review of existing positions and concluded that those positions continued to be required for the implementation of the work programme under the regular programme of technical cooperation in 2025.

Responses provided to Member States' requests for support in 2024

Voluntary local reviews to enhance the shared prosperity of cities and regions globally through Sustainable Development Goal localization

(Result 1 of subprogramme 2 (A/80/6 (Sect. 15)))

23.65 In 2024, the regular programme responded to requests regarding housing and sustainable urban development from a wide range of regions, countries and locations (Africa: Ghana, Rwanda, Somalia, South Africa, Tunisia and Zambia; Arab region: Iraq and the State of Palestine; Eastern Europe: Albania, Belarus, Bosnia and Herzegovina, Kosovo,[2] Montenegro, North Macedonia, the Republic of Moldova, Serbia and Ukraine; Western Europe and Others Group: Türkiye; Central Asia and Asia and the Pacific: Armenia, Azerbaijan, China, Georgia, Iran (Islamic Republic of), Kazakhstan, Kyrgyzstan, Pakistan, Tajikistan, Turkmenistan and Uzbekistan; and Latin America and the Caribbean: Bolivia (Plurinational State of), Brazil, Colombia and Costa Rica).

23.66 The participation of countries from Eastern Europe, the Caucasus and Central Asia at the twelfth session of the World Urban Forum, held in Cairo from 4 to 8 November 2024, saw a significant increase compared with previous sessions. This positive trend reflects the region's growing commitment to advancing the 2030 Agenda for Sustainable Development and the New Urban Agenda, while also highlighting its increasing international engagement in key sustainable development conferences. Notably, the region is set to host several major global events, including the seventeenth meeting of the Conference of the Parties to the Convention on Biological Diversity, to be held in Yerevan in 2026, and the thirteenth session of the World Urban Forum, to be held in Baku in May 2026. In preparation for the twelfth session of the World Urban Forum, UN-Habitat conducted several technical advisory missions to selected countries in the region, participating in national urban forums, where New Urban Agenda partners discussed local and national urban development priorities. These missions included visits to Armenia, Azerbaijan, Georgia, Kazakhstan, Kyrgyzstan, Serbia, Turkmenistan and Uzbekistan, among other visits.

23.67 With the aim of incentivizing cities to accelerate the achievement of the Sustainable Development Goals and implementation of the New Urban Agenda by recognizing outstanding achievements, UN-Habitat, jointly with the Shanghai municipal government, announced the winning cities of the second cycle of the Global Award for Sustainable Development in Cities ("Shanghai Award") in October 2024 during the global observance of World Cities Day in Alexandria, Egypt, at which five cities from Africa, Latin America and Asia and the Pacific (Agadir (Morocco), Thiruvananthapuram (India), Iztapalapa (Mexico), Melbourne (Australia) and Doha (Qatar)) were awarded. The Shanghai Manual 2024 annual report was also launched during the event, providing 18 best practice cases and 24 policy recommendations from 12 countries across six regions, which are shared globally.

23.68 Through the Development Account, UN-Habitat was able to cooperate in joint regional projects in Eastern Europe and Central Asia with various United Nations partners, with the United Nations Environment Programme on nature-based solutions to address urban air pollution and sustainable

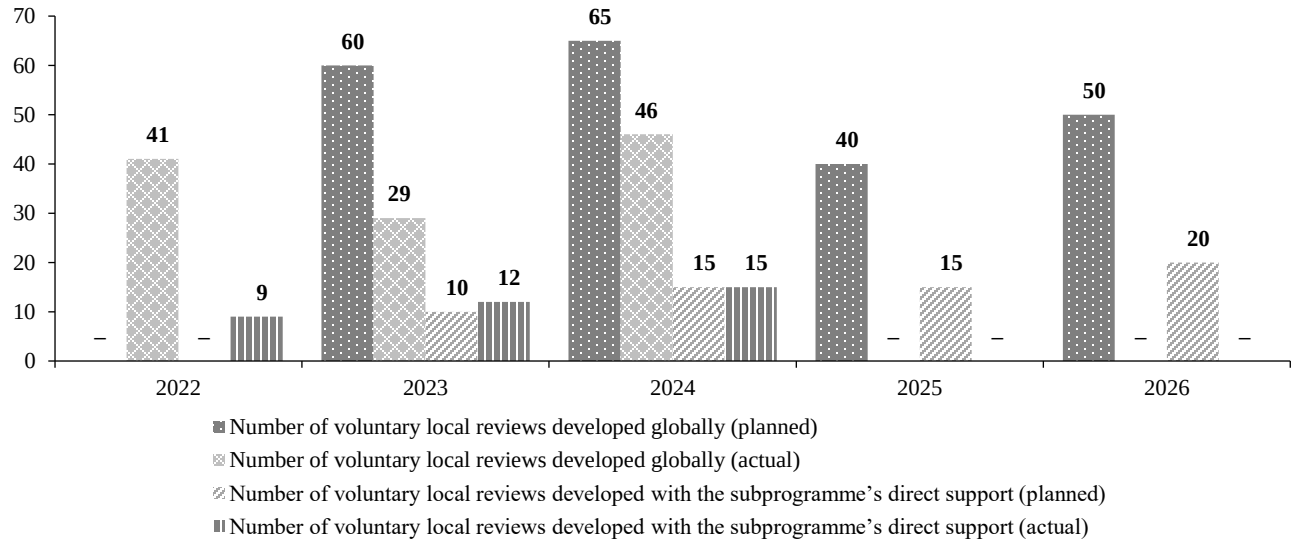
[2] References to Kosovo shall be understood to be in the context of Security Council resolution 1244 (1999).

urban mobility, with ECE in the preparation of voluntary local reviews for selected urban areas in the region, and in support of access to adequate housing for all. UN-Habitat also supports the implementation of the Secretary-General's Action Agenda on Internal Displacement, emphasizing the urban dimension of displacement, with a focus on Burkina Faso, Colombia, Iraq and Somalia.

23.69 UN-Habitat supported the urban crisis response in Ukraine, advising on the development of an urban recovery framework, and finalized a report on the status of the efforts to reconstruct the human settlements in the Gaza Strip. Additional advisory services were provided in support of refugee integration in Pakistan and the management of displacement in urban settings in diverse contexts.

23.70 UN-Habitat efforts led to the development of 15 voluntary local reviews to meet the planned target. In addition, the organization contributed to 46 voluntary local reviews globally, which, although below the target, helped to generate significant interest in voluntary local reviews as a tool for urban development planning. This momentum led to a regional initiative involving four cities in Eastern Europe and Central Asia – Niš (Serbia), Tbilisi, Bishkek and Dushanbe – as well as the launch of two Joint Sustainable Development Goals Fund initiatives in Serbia and Kyrgyzstan, both emerging from initial voluntary local review work in those countries and requests for support from Kazakhstan. The expected response would contribute to result 1 of subprogramme 2, and the related performance measure (see figure 23.V), in the proposed programme budget for 2026 (A/80/6 (Sect. 15)).

Figure 23.V
Performance measure: number of voluntary local reviews prepared by local and regional governments (annual)



Expected responses to anticipated requests for support in 2026

Digital transformation for sustainable urban development
(Result 2 of subprogramme 2 (A/80/6 (Sect. 15)))

23.71 For 2026, additional requests for technical advisory services on integrated programming are expected, as reflected in the expected increase in deliverables. This will result in more transformative action that permits countries and cities to accelerate their implementation of the urban dimensions of the Sustainable Development Goals, the New Urban Agenda and other global agendas as set forth in the decade of action and delivery for sustainable development. Particular focus will be on Sustainable Development Goal localization, housing, and climate and urban crisis response in selected countries in sub-Saharan Africa, the Middle East and North Africa, Central and South-East Asia, Latin America and the Caribbean, and Eastern Europe and the Caucasus.

23.72 In response to the anticipated requests in 2026, UN-Habitat will support result 2 of subprogramme 2 by undertaking the following activities:

(a) Providing technical advisory services in response to urban crisis situations, focusing on preparedness, response, recovery and reconstruction, as well as risk reduction, resilience and urban displacement solutions;

(b) Providing technical advisory and knowledge exchange services, particularly to countries in Eastern Europe, the Caucasus and Central Asia, on implementing the Sustainable Development Goals and the New Urban Agenda, alongside the establishment of a subregional presence;

(c) Providing technical advisory and knowledge exchange services and capacity-building support, prioritizing the least developed countries, landlocked developing countries and small island developing States, on climate adaptation, access to adequate housing and basic urban services;

(d) Promoting technical cooperation and knowledge exchange among regions, including through the Shanghai Award for 2026, the Shanghai Adapted Index and the Shanghai Manual annual report for 2026.

23.73 The expected response in 2026 would contribute to the implementation of the outcomes of the urban dimensions of the 2030 Agenda and the New Urban Agenda under result 2 of subprogramme 2, and the related performance measure (see table 23.13), set out in the proposed programme budget for 2026 (A/80/6 (Sect. 15)).

Table 23.13
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Thirty cities adopted people-centred smart city strategies	UN-Habitat Assembly adopted resolution 2/1 Fifteen cities developed people-centred smart city strategies and plans	Twenty cities piloted strategies, plans and projects to inform the development of the international guidelines on people-centred smart cities	The international guidelines on people-centred smart cities are endorsed by the UN-Habitat Assembly	Ten cities pilot the international guidelines on people-centred smart cities

B. Deliverables

Table 23.14
United Nations Human Settlements Programme: deliverables for the period 2024–2026, by category and subcategory

	2024 planned	*2024 actual*	*2025 planned*	*2026 planned*
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	**28**	**32**	**28**	**30**

C. Proposed non-post resource requirements for 2026

Table 23.15
Financial resources by object of expenditure

			Changes		
	2024 expenditure	*2025 approved*	*Total*	*Percentage*	*2026 estimate*
Other staff costs	779.8	1 086.8	–	–	1 086.8
Consultants	139.7	197.8	–	–	197.8
Travel of staff	74.6	97.7	15.4	15.8	113.1
Contractual services	74.8	114.6	–	–	114.6
General operating expenses	16.5	27.0	–	–	27.0
Supplies and materials	1.0	0.7	–	–	0.7
Furniture and equipment	3.5	7.4	–	–	7.4
Total	**1 089.8**	**1 532.0**	**15.4**	**1.0**	**1 547.4**

23.74 The proposed regular budget resources for 2026 amount to $1,547,400, reflecting an increase of $15,400, or 1.0 per cent, compared with the approved budget for 2025. The proposed increase under travel of staff ($15,400) is to provide additional technical advisory services in response to Member States' requests for support, in particular to small island developing States, least developed countries and landlocked developing countries.

4. International drug control, crime and terrorism prevention and criminal justice

A. Programmatic activities delivered through the regular programme of technical cooperation

23.75 The activities under this sector are implemented by UNODC under subprogramme 8, Technical cooperation and field support, and contribute to the objectives and expected results of all the subprogrammes. They are implemented in close coordination with the UNODC field office network, and complement the respective subprogrammes' strategies and deliverables, which can be found in the relevant paragraphs of the proposed programme budget for 2026 (A/80/6 (Sect. 16)).

Outreach and dissemination of guidelines to Member States on the opportunities for assistance through the regular programme of technical cooperation

23.76 UNODC outreach and dissemination were ensured through regular dialogues with national counterparts; national campaigns to observe the International Day against Drug Abuse and Illicit Trafficking, World Day against Trafficking in Persons and International Anti-Corruption Day; and fundraising initiatives and strategic partnerships with regional and international stakeholders. UNODC also liaises with United Nations country teams to discuss pending requests for the regular programme of technical cooperation and devise coordinated approaches to Member States' needs that fall under areas of the regular programme.

Complementarity with the resident coordinator system

23.77 UNODC has aligned with the resident coordinator system to deliver a coherent, effective, efficient and accountable response, in accordance with national needs and priorities, in country settings and the implementation of the country-level chapter of the management and accountability framework. As of January 2024, UNODC supported 150 countries and territories through United Nations Sustainable Development Cooperation Frameworks or the common country analysis. UNODC is

present in 97 countries and territories and has a non-physical presence in 53 countries. It contributes to strengthening system-wide analysis, planning and reporting through Cooperation Frameworks and regional collaborative platforms.

Review of high-level positions at headquarters duty stations

23.78 UNODC conducts regular reviews of the two advisory positions in Vienna (UNODC headquarters) and Pretoria (within the UNODC Regional Office for Southern Africa) with a view to enhancing operational efficiency, improving programming support, and ensuring the alignment of resources with strategic priorities.

Responses provided to Member States' requests for support in 2024

Enhanced national and international collaboration to combat terrorist attacks on the basis of xenophobia, racism and other forms of intolerance, or in the name of religion or belief
(Programme performance in 2024 of subprogramme 8 (A/80/6 (Sect. 16)))

23.79 In 2024, one illustrative case of the work of subprogramme 8 was addressing terrorist attacks on the basis of xenophobia, racism and other forms of intolerance, or in the name of religion or belief, which undermine social cohesion and pose significant threats to global security. Their transnational nature creates a need for increased international and regional cooperation. In line with General Assembly resolution 77/298 on the eighth review of the United Nations Global Counter-Terrorism Strategy, in which the Assembly called upon Member States to take appropriate measures to address the phenomenon, including through investigation, information exchange and cooperation, the subprogramme worked to develop effective responses to these challenges by training and raising awareness among law enforcement officials. This helped to strengthen national and international strategies against such threats, fostering collaboration among countries to address and counter phenomena related to xenophobia, racism and other forms of intolerance, or in the name of religion of belief, more effectively. In 2024, through targeted events, subprogramme 8 built expertise in investigating, prosecuting and disrupting such acts, including their financing.

23.80 The above-mentioned work contributed to enhanced national and international collaboration to combat terrorist attacks on the basis of xenophobia, racism and other forms of intolerance, or in the name of religion or belief. The work contributed to the programme performance in 2024, and the related performance measure (see table 23.16), in the proposed programme budget for 2026 (A/80/6 (Sect. 16)).

Table 23.16
Performance measure

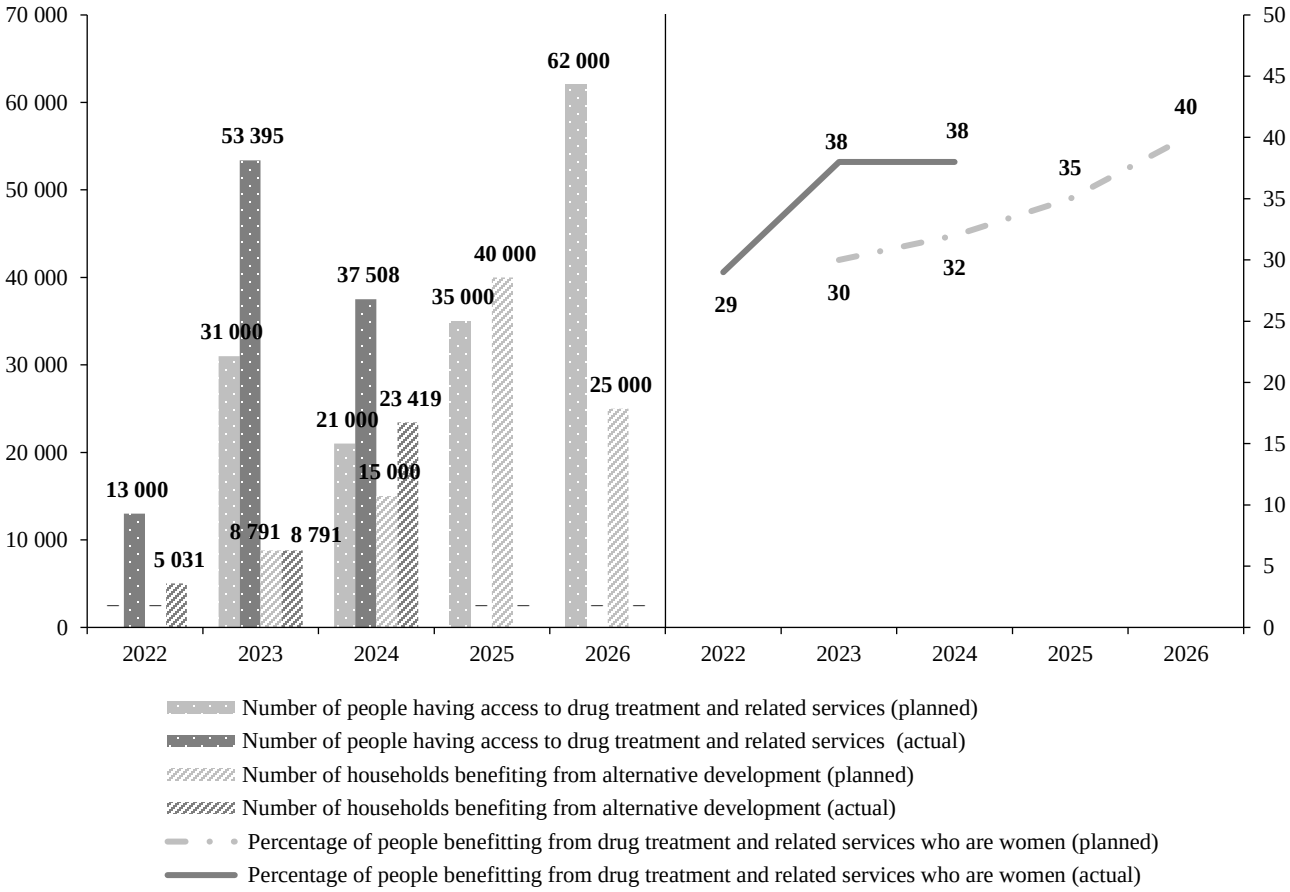
2022 (actual)	*2023 (actual)*	*2024 (actual)*
Manual on Prevention of and Responses to Terrorist Attacks on the Basis of Xenophobia, Racism and Other Forms of Intolerance, or in the Name of Religion or Belief available to Member States	Law enforcement experts increased their expertise in investigating and prosecuting cases related to terrorist acts and violent extremism on the basis of xenophobia, racism and other forms of intolerance, or in the name of religion or belief	Criminal justice officials from Latin America increased information-sharing when working on transnational cases related to xenophobia, racism and other forms of intolerance, or in the name of religion or belief that are of common interest, including with the Spanish National Police and the Department of State and Federal Bureau of Investigation of the United States of America

Expected responses to anticipated requests for support in 2026

Drug production and use are addressed through alternative livelihood and health services (Result 1 of subprogramme 8 (A/80/6 (Sect. 16)))

23.81 The subprogramme's work supported 23,419 households (2,241 headed by women) in Afghanistan in 2024, which exceeded the planned target of 15,000. The subprogramme also contributed to increased access to evidence-based drug use prevention, treatment and reintegration services, reducing negative health and social consequences, and reached 37,508 people (38 per cent of whom were women), which exceeded the planned targets of 21,000 and 32 per cent. Progress towards the objective and the target for 2026 are presented in the related performance measure (see figure 23.VI), in the proposed programme budget for 2026 (A/80/6 (Sect. 16)).

Figure 23.VI
Performance measure: beneficiaries in Afghanistan of United Nations Office on Drugs and Crime programmes on alternative development and prevention and treatment of drug use and drug use disorders (cumulative)



Navigating challenges to safety at sea through strengthened maritime safety management systems (Result 2 of subprogramme 8 (A/80/6 (Sect. 16)))

23.82 The subprogramme's work contributed to three ports becoming International Ship and Port Facility code compliant, which met the planned target. These ports include Moroni in the Comoros, Lamu in Kenya and Victoria in Seychelles, which are key to potential economic growth in the region.

23.83 This progress will support reaching the objective and the target for 2026 under result 2 of subprogramme 8, and the related performance measure (see table 23.17), in the proposed programme budget for 2026 (A/80/6 (Sect. 16)).

Table 23.17
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Enhanced regional coordination in the prosecution of maritime crime	Ports in nine countries started to conduct daily patrols and review their port facility security plans Protected radiata tortoises seized in Madagascar A new port control unit established in Maputo	One new port control unit established in Port Louis, Mauritius Three additional ports in the Comoros, Kenya and Seychelles are International Ship and Port Facility code compliant	At least one port in each of the nine countries assisted is International Ship and Port Facility code compliant	At least two ports in each of the nine countries assisted is International Ship and Port Facility code compliant

Enhanced transparency and efficiency in asset management for improved crime prevention and public trust
(Result 3 of subprogramme 8 (A/80/6 (Sect. 16)))

23.84 Seizing and confiscating crime-derived assets is crucial for disrupting organized crime, as it deprives criminal networks of their resources. Strengthening the capacity to effectively manage seized and confiscated assets is crucial for upholding the rule of law, while also generating revenue for States, which can be reinvested in crime prevention and social services. For example, the subprogramme has significantly strengthened the capacity of Mozambique to manage seized assets. Key achievements include the enactment of a dedicated regulatory framework, the establishment of the Asset Management Office and the creation of a real-time asset tracking portal.

Lessons learned and planned change

23.85 The lesson for the subprogramme was the importance of leveraging technology to enhance transparency and efficiency in asset management. The need for more advanced digital tools to streamline processes and ensure accountability was identified as a key internal improvement. In applying the lesson, the subprogramme will implement a comprehensive digital asset management system, that is fully interoperable with existing platforms, and develop an electronic auction portal to increase public participation and maximize revenues from seized assets.

23.86 Expected progress towards the objective is presented in the related performance measure (see figure 23.VII) in the proposed programme budget for 2026 (A/80/6 (Sect. 16)).

Figure 23.VII
Performance measure: asset management and revenue generation in Mozambique (annual)

Total	**1 004.4**	**1 265.5**	**12.7**	**1.0**	**1 278.2**

23.87 The proposed regular budget resources for 2026 amount to $1,278,200, reflecting an increase of $12,700, or 1.0 per cent, compared with the approved budget for 2025. The proposed increase in other staff costs and consultants would provide for additional capacity-building support required in the delivery of technical assistance as a result of the growing number of requests by Member States.

5. Human rights

A. Programmatic activities delivered through the regular programme of technical cooperation

23.88 The assistance to Member States provided by OHCHR supports the implementation of national development policies, plans, strategies and laws to address existing gaps in the protection and promotion of all human rights, according to international human rights standards, through subprogramme 1, Human rights mainstreaming, right to development, and research and analysis, and subprogramme 3, Advisory services, technical cooperation and field activities.

23.89 In implementing the responses, the regular programme of technical cooperation contributes to the objectives and planned results of the subprogrammes and complements the strategies and deliverables presented in the relevant paragraphs of the proposed programme budget for 2026 (A/80/6 (Sect. 24)) of those subprogrammes. Priority will continue to be given to the needs of landlocked developing countries, the least developed countries, small island developing States, countries emerging from conflict and other countries with special needs, such as post-conflict countries. The principles of equality, non-discrimination, leave no one behind and participation will be placed at the centre of the activities, with special attention given to marginalized groups.

23.90 In 2026, regular programme of technical cooperation-funded activities will continue to:

(a) Enhance the awareness, knowledge and skills of policymakers, public officials and regional and subregional organizations on international human rights standards and mechanisms;

(b) Enhance cooperation among Governments, national human rights institutions and non-governmental organizations within their respective regions in addressing human rights issues that require a regional approach and initiative;

(c) Foster the sharing and exchange of valuable knowledge and good practices across geographical regions;

(d) Advise on the adoption of laws to establish new national human rights institutions or strengthen the capacity of existing ones;

(e) Advance the integration of human rights, including the right to development, into development processes, to achieve the Sustainable Development Goals and contributions to be made by the United Nations in the field.

Outreach and dissemination of guidelines to Member States on the opportunities for assistance through the regular programme of technical cooperation

23.91 Outreach and dissemination of information on the regular programme takes place in the context of intergovernmental meetings and meetings with government officials, national human rights institutions and civil society, as well as through capacity-building activities, including conferences, workshops and wider consultations. These settings allow for an initial assessment of country needs, matching them with in-house expertise.

Complementarity with the resident coordinator system

23.92 Through interventions by the regular programme at the national, subregional and regional levels in the form of advisory services, global, regional and national technical cooperation projects, conferences, seminars, workshops and group training, and fellowships and partnerships, OHCHR will pursue its technical assistance goals and objectives by working closely with national and regional human rights structures, civil society and other stakeholders, the United Nations country teams and other partners for effective coordination, building on complementarity.

Review of high-level positions at headquarters duty stations

23.93 In response to the recommendation of the Advisory Committee on Administrative and Budgetary Questions endorsed by the General Assembly in its resolution 77/262, OHCHR regularly reviews its regular programme-funded positions, assessing their strategic value, impact and cost-effectiveness. OHCHR has no high-level positions charged against the regular programme, either at headquarters level or in field duty stations.

Responses provided to Member States' requests for support in 2024

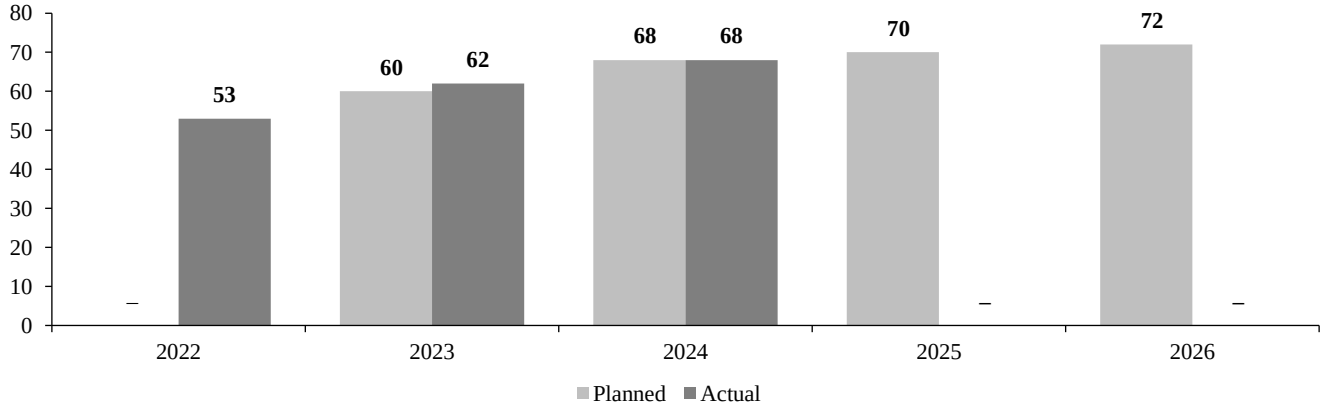
Towards implementation by Member States of recommendations emanating from international human rights mechanisms

(Result 1 of subprogramme 3 (A/80/6 (Sect. 24)))

23.94 In 2024, the subprogramme's work contributed to the provision of advisory services and the delivery of technical cooperation activities to least developed countries and small island developing States to enhance their capacity to implement recommendations emanating from international human rights mechanisms, as requested by the Human Rights Council in its resolution 51/30.

23.95 This work contributed to result 1 of subprogramme 3, and the related performance measure (see figure 23.VIII), in the proposed programme budget for 2026 (A/80/6 (Sect. 24)).

Figure 23.VIII
Performance measure: number of least developed countries and small island developing States that implement recommendations emanating from international human rights mechanisms (cumulative)



Expected responses to anticipated requests for support in 2026

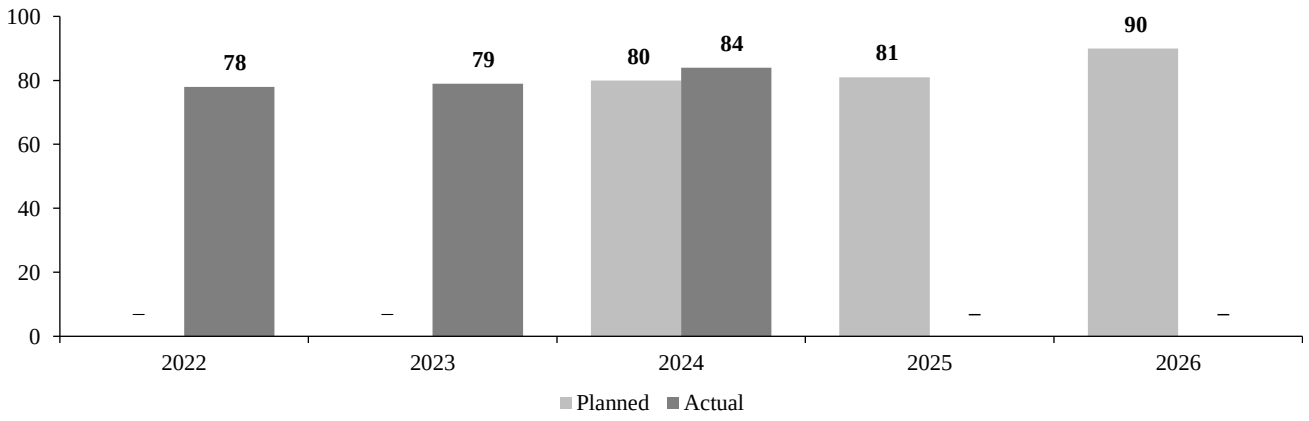
Strengthened effectiveness of national human rights institutions in line with the Paris Principles (Result 2 of subprogramme 3 (A/80/6 (Sect. 24)))

23.96 In 2026, OHCHR will continue to respond to requests linked to subprogramme 1 on human rights mainstreaming, right to development, and research and analysis to sustain efforts towards addressing implementation gaps for the protection and promotion of all human rights, including as regards the implementation of the 2030 Agenda, its Sustainable Development Goals and the principle of leaving no one behind.

23.97 The subprogramme will continue to provide Member States and stakeholders in all regions with advisory services and technical cooperation programmes to establish or strengthen the effectiveness of national human rights institutions, in accordance with the principles relating to the status of national institutions for the promotion and protection of human rights (the Paris Principles).

23.98 This work is expected to contribute to the advancement of the promotion and protection of the effective enjoyment by all of all human rights, through enhanced capacity-building, including assistance to requesting States, which would be demonstrated by an increased number of national human rights institutions established or strengthened with the subprogramme's support, as reflected in result 2 of subprogramme 3, and the related performance measure (see figure 23.IX), in the proposed programme budget for 2026 (A/80/6 (Sect. 24)).

Figure 23.IX
Performance measure: number of national human rights institutions established or strengthened in line with the Paris Principles (cumulative)



B. Deliverables

Table 23.20
Office of the United Nations High Commissioner for Human Rights: deliverables for the period 2024–2026, by category and subcategory

General operating expenses	168.8	233.0	–	–	233.0
Supplies and materials	1.1	–	–	–	–
Furniture and equipment	1.2	–	–	–	–
Grants and contributions	723.8	1 165.1	–	–	1 165.1
Total	**2 646.3**	**3 080.5**	**31.0**	**1.0**	**3 111.5**

23.99 The proposed regular budget resources for 2026 amount to $3,111,500, reflecting an increase of $31,000, or 1.0 per cent, compared with the approved budget for 2025. The proposed increase under other staff costs ($31,000) is driven by expanded technical cooperation activities in landlocked developing countries (Kyrgyzstan) and small island developing States (Fiji) in 2026, in line with expected programmatic needs.

6. Humanitarian assistance

A. Programmatic activities delivered through the regular programme of technical cooperation

23.100 The assistance to Member States provided by the Office for the Coordination of Humanitarian Affairs will support the implementation of humanitarian assistance through the following subprogrammes: subprogramme 1, Policy and analysis; subprogramme 2, Coordination of humanitarian action and emergency response; subprogramme 3, Emergency support services; and subprogramme 4, Humanitarian emergency information and advocacy.

23.101 In implementing these responses, the regular programme of technical cooperation contributes to the objectives and planned results of the subprogrammes and complements the strategies and deliverables presented in the relevant paragraphs of the proposed programme budget for 2026 (A/80/6 (Sect. 27)) of those subprogrammes.

Outreach and dissemination of guidelines to Member States on the opportunities for assistance through the regular programme of technical cooperation

23.102 The second annual report of the Flagship Initiative will be launched in April 2025, marking two years of piloting a community-focused humanitarian approach in four countries. It will document lessons learned and propose structural changes to improve humanitarian coordination. The report will be launched virtually with donors, United Nations entities and humanitarian stakeholders.

Complementarity with the resident coordinator system

23.103 The Flagship Initiative is closely aligned with the resident coordinator system through the integration of humanitarian efforts with broader development and peacebuilding objectives at the country level. Through its emphasis on community-driven priorities, area-based coordination and localized funding, the Initiative complements the mandate of the resident coordinator system to enhance coherence across humanitarian, development and peace actors. In all pilot countries, the Initiative works alongside the resident coordinator and the humanitarian country team to adapt coordination structures and align with national strategies, ensuring that humanitarian action is responsive and inclusive and contributes to long-term resilience. Regular programme activities bolster the resident coordinator system by delivering targeted technical assistance and capacity-building support, as demonstrated in the 2024 earthquake response exercise in Ecuador, the multi-risk preparedness programme in Mauritania and the Southern African Development Community Emergency Response Team induction training in Botswana. Through these complementary activities, the resident coordinator system ensures cohesive coordination among national, regional and international stakeholders, thereby enabling effective disaster preparedness and response.

Review of high-level positions at headquarters duty stations

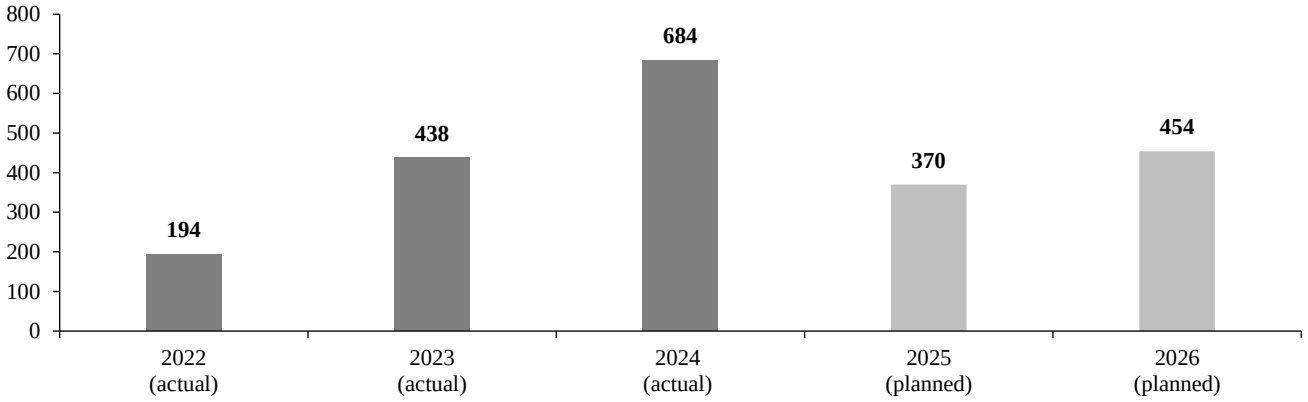
23.104 In response to the recommendation of the Advisory Committee on Administrative and Budgetary Questions endorsed by the General Assembly in its resolution 77/262, the Office confirms that the three positions currently funded by the regular programme will continue to be needed for the 2026 exercise to service Member States' requests. Specifically, the Humanitarian Affairs Officer (P-4) and the Humanitarian Affairs Officer (P-3) based in New York will provide continuous coordination of field activities. The Associate Information Systems Officer (P-2) based in Istanbul, Türkiye, will assist offices by providing technical support and advice, resolving issues and ensuring smooth communication between headquarters and field offices. Offices of the Office for the Coordination of Humanitarian Affairs indirectly support the work of Member States by hosting meetings with host country government officials, and support in times of crisis through the ability to connect with many different responding agencies.

Responses provided to Member States' requests for support in 2024

Crisis-affected people received emergency humanitarian assistance in the immediate aftermath of a catastrophe
(Result 3 of subprogramme 3 (A/80/6 (Sect. 27)))

23.105 The subprogramme's work contributed to the deployment of three United Nations Disaster Assessment and Coordination Teams to support responses to three sudden-onset emergencies in Vanuatu, Yemen and countries in the Latin America and the Caribbean region (Barbados, Grenada, Jamaica and Saint Vincent and the Grenadines). These teams established On-Site Operation Coordination Centres and supported the government-led responses with sector coordination, civil-military coordination, information management, environmental needs assessments and infrastructural damage assessments. This work supported the objectives under result 3 of subprogramme 3, and the related performance measure (see figure 23.X), in the proposed programme budget for 2026 (A/80/6 (Sect. 27)).

Figure 23.X
Performance measure: number of emergency responders trained in United Nations Disaster Assessment and Coordination Team and United Nations humanitarian civil-military coordination to deploy and respond to sudden-onset emergencies (annual)



Expected responses to anticipated requests for support in 2026

Increased engagement of communities in humanitarian response to effectively address their needs
(Result 2 of subprogramme 1 (A/80/6 (Sect. 27)))

23.106 In 2026, the Office is expected to receive more requests from Member States for data, documented evidence and lessons of best practices. Lessons learned from the Flagship Initiative are expected to be applied in additional country contexts, beyond the initial four pilot countries. Therefore, the following activities are expected to be carried out in Colombia, the Niger, the Philippines and South Sudan, and additional countries, as feasible:

(a) Field support;

(b) Learning missions and events to inform policy development;

(c) Publication of a final Flagship Initiative learning report at the global level with concluding lessons learned and approaches to be applied in other contexts.

23.107 The expected response in 2026 would contribute to an expansion of community engagement and community-led humanitarian action practice, as developed under the Flagship Initiative, to two additional countries (Ethiopia and Somalia (both to be confirmed)), as reflected in result 2 of subprogramme 1, and the related performance measure (see table 23.22), in the proposed programme budget for 2026 (A/80/6 (Sect. 27)).

Table 23.22

Seminars, workshops and training events (number of days)	**59**	**325**	**156**	**148**

C. Proposed non-post resource requirements for 2026

Table 23.24
Financial resources by object of expenditure
(Thousands of United States dollars)

			Changes		
	2024 expenditure	2025 approved	Total	Percentage	2026 estimate
Other staff costs	440.7	579.6	8.8	1.5	588.4
Consultants	59.1	80.1	–	–	80.1
Travel of staff	64.4	97.0	–	–	97.0
Contractual services	10.0	54.8	–	–	54.8
General operating expenses	15.9	16.7	–	–	16.7
Furniture and equipment	–	27.6	–	–	27.6
Grants and contributions	6.1	21.2	–	–	21.2
Total	**596.2**	**877.0**	**8.8**	**1.0**	**885.8**

23.108 The proposed regular budget resources for 2026 amount to $885,800, reflecting an increase of $8,800, or 1.0 per cent, compared with the approved budget for 2025. The proposed increase is for strengthening the coordination of field activities in responding to requests from Member States.

II. Regional and subregional advisory services

7. Economic and social development in Africa

A. Programmatic activities delivered through the regular programme of technical cooperation

23.109 The activities under economic and social development in Africa are implemented by ECA, through all subprogrammes, and are used to support African countries in their capacity development efforts and technical advisory services.

23.110 In implementing the responses, the regular programme of technical cooperation contributes to the objectives and expected results of the subprogrammes and complements their respective strategies and deliverables, which can be found in the relevant paragraphs of the proposed programme budget for 2026 (A/80/6 (Sect. 18)).

Outreach and dissemination of guidelines to Member States on the opportunities for assistance through the regular programme of technical cooperation

23.111 ECA leveraged various communication channels to raise awareness and promote the regular programme of technical cooperation. A total of 48 outreach activities were undertaken reaching all 54 ECA member States. ECA builds on its convening power through intergovernmental meetings, conferences and workshops, such as the Africa Sustainable Regional Forum on Sustainable Development, the annual Africa Climate Resilience Investment Summit and the Conference on Land Policy in Africa, to raise awareness of regular programme of technical cooperation opportunities.

Complementarity with the resident coordinator system

23.112 ECA has been implementing a strategy towards enhancing close collaboration with the resident coordinator system at all levels, including the regional, subregional and national levels, encompassing all sources of funding, including regular programme of technical cooperation. While designing their project proposals, subprogrammes have to meet several strategic criteria as defined in internal guidelines and templates updated annually, following annual reporting and recommendations emanating from United Nations legislative bodies, including the General Assembly. One of these criteria is related to the consultation and sustained collaboration with the resident coordinator system while implementing projects in line with the United Nations Sustainable Development Cooperation Framework, which will continue to be demonstrated and evidenced during reporting.

23.113 ECA also collaborates with the resident coordinator system and United Nations country teams, including on regular programme of technical cooperation projects through the Regional Collaborative Platform for Africa in which the resident coordinators request support through the Regional Collaborative Platform Joint Secretariat and relevant opportunity/initiative based coalition are deployed to provide the requested support. At the regional level, ECA works closely with the Africa office of the Development Coordination Office in planning this type of support. In addition, the ECA subregional offices which serve as non-resident members of the United Nations country teams in their respective regions, contribute to the work of the country teams, including on the development of common country analysis, United Nations Sustainable Development Cooperation Framework and technical advisory services, some of which is funded under regular programme of technical cooperation. Leveraging on its strength of convening a wide range of stakeholders on the development priorities of Africa, ECA further engages resident coordinators in the planning, organization and delivery of its intergovernmental regional platforms such as the Africa Regional Forum on Sustainable Development.

Review of high-level positions at headquarters duty stations

23.114 In response to the recommendation of the Advisory Committee on Administrative and Budgetary Questions endorsed by the General Assembly in its resolution 77/262, ECA reviewed its existing inter-agency technical advisory positions to better align with its demand-driven programme of work and the evolving strategic priorities.

23.115 In line with these above, ECA leadership assessed the existing high-level positions to better focus on the Commission's programmes and address capacity gaps resulting from these new initiatives. As a result, three D-1 and one P-5 positions were abolished, and in their place, two P-5, two P-4 and three P-3 positions were created. These positions will serve the subregional offices and the newly established subprogramme on Technology, Innovation, Connectivity and Infrastructure, ensuring a more responsive approach to demands by member States.

23.116 The main function of interregional advisers is to provide technical expertise, facilitate the transfer of knowledge from global deliberations and the latest analytical work to governments and institutions, and to contribute to the formulation, assessment and/or evaluation of national and subregional policies, strategies, programmes and projects of member States and regional economic communities upon request. Their specific roles and/or functions and/or areas of expertise are reflected in the job descriptions and/or terms of reference and are classified at the appropriate level. Any new appointments (and extensions of appointments) of interregional advisers are subject to the review and approval of the head of entity. The specific focus of each of these positions evolves over time in line with the strategic focus areas of ECA, shifting priorities of member States and regional trends.

Responses provided to member States' requests for support in 2024

23.117 In 2024, ECA received a number of requests from member States to support efforts towards implementing the African Continental Free Trade Area to deepen regional integration and boost intra-African trade. Regional integration is central to the ability of African countries to achieve the commitments under the 2030 Agenda for Sustainable Development and Agenda 2063 of the African Union: The Africa We Want. To support them, subprogramme 2 developed a programme to facilitate trade among the East African Community bloc. Subprogramme 2 also supported the development of comprehensive training curricula and established a pool of expert trainers in leadership and management development for middle managers in Customs administration and authorized operator programmes. Subprogramme 7, component 4, supported the capacity-building of policymakers and private sector actors in Djibouti (50 participants, 11 women) and Seychelles (44 participants, 32 women) on the Free Trade Area protocols on trade in goods and trade in services, to enhance their knowledge on the technical and operational instruments of the agreement, as well as to sensitize them on its opportunities and benefits. Subprogramme 7, component 2, supported the training of 50 entrepreneurs on the rules of origin to drive to foster trade under the Free Trade Area.

Harnessing Africa's Demographic Dividend

(Result 1 of subprogramme 7, component 2 (A/80/6 (Sect. 18)))

23.118 In 2024, ECA provided a response focused on operationalizing demographic dividend-sensitive budgeting in Burkina Faso, the Niger, Senegal and Togo. In these countries, as is the case with the rest of Africa, the population is largely young, with an estimated 65 per cent of the population under the age of 24. This presents an opportunity for the region to realize a demographic dividend by capitalizing on the youth bulge. However, several challenges in harnessing the demographic dividend persist, including high youth unemployment, gender inequality, inadequate education systems and infrastructure deficits, among others. In 2017, the African Union developed the Roadmap on Harnessing the Demographic Dividend through Investments in Youth under four pillars: employment and entrepreneurship; education and skills development; health and well-being; and law, governance and youth empowerment. To harness the potential of a demographic dividend, targeted investments are needed to improve youth outcomes. Therefore, ensuring that African countries strategically

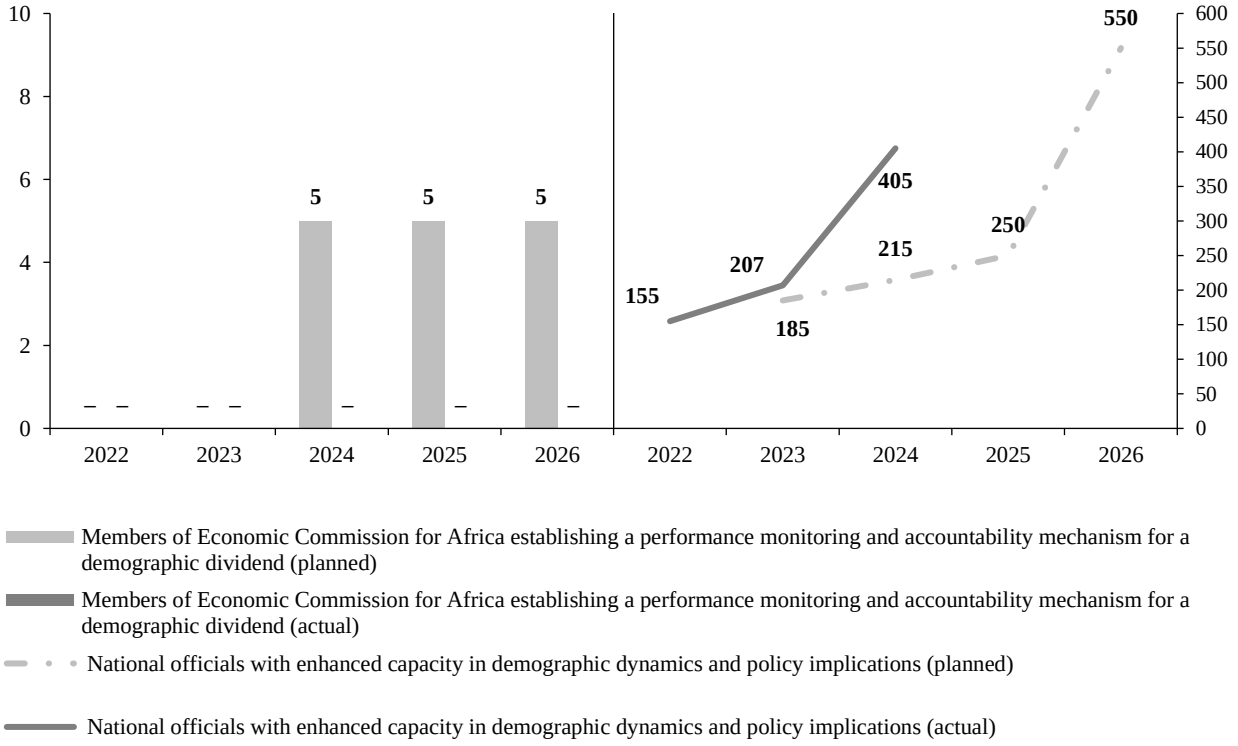
allocate resources to maximize benefits for youth is a crucial underpinning for realizing a demographic dividend.

23.119 In response, ECA supported member States to operationalize the demographic dividend sensitive-budgeting approach. ECA supported the capacity-building of policymakers, budget experts and national planning officials in these four countries in the use of demo-economics for integration of the demographic dividend sensitive-budgeting approach in national planning and budgeting cycles. ECA also supported policy dialogues targeting multidisciplinary teams of budget experts, parliamentarians and policymakers from line ministries to discuss the importance of the demographic dividend sensitive-budgeting approach in enhancing budgeting processes. The four member countries served by ECA were able to integrate demographic dividend sensitive-budgeting in budgetary and planning processes. In Burkina Faso, the Niger and Togo, demographic dividend dimensions were integrated in their 2025 budgetary frameworks, laying the foundation for resource allocation to demographic targets in national budgets. In Senegal, the Public Investment Programme (2025–2027) integrated demographic dividend dimensions. demographic dividend-sensitive budgeting is not merely a policy imperative, it is crucial to transforming Africa's youthful population into engines of economic growth and fostering sustainable development.

23.120 This work contributed to member States to strengthen budgetary and planning frameworks towards harnessing a demographic dividend, which is a result reflected under result 1 of subprogramme 7, component 2, and the related performance measure (see figure 23.XI below) in the proposed programme budget for 2026 (A/80/6 (Sect. 18)).

Figure 23.XI

Performance measure: number of national officials acquiring enhanced capacity in demographic dynamics and policy implications and number of members of the Economic Commission for Africa establishing a performance monitoring and accountability mechanism for a demographic dividend (cumulative)



Expected response to anticipated requests for support in 2026

23.121 In response to an ever-growing demand for assistance from member States, ECA would continue to provide support alongside its strategic areas of focus: macroeconomic policies and development financing; regional integration, economic diversification and sustainable industrialization; infrastructure development including energy; technology, innovation and connectivity; and climate action and food security as enablers of the 2030 Agenda and Agenda 2063, in the context of the second 10-year implementation plan of Agenda 2063. In an increasingly challenging global and continental context of recurring crises and conflicts, ECA will endeavour to address emerging issues and opportunities in Africa aimed at strengthening Africa's position and access, development, use and application of latest technologies (such as artificial intelligence), as well as upscale its pioneering work on boosting intraregional trade through the operationalization of the African Continental Free Trade Area and related protocols. ECA will pursue its work on reform of the global financial architecture and debt management as well as on innovative public and private financing and economic governance models to enhance domestic resource mobilization and seek to increase population resilience through improved food systems and targeted investments in climate action. ECA will also seek to strengthen its support on data and statistics within the framework of the outcomes of the ninth session of the Statistical Commission for Africa.

Member States develop and implement policies for resilient and inclusive agrifood systems
(Result 2 of subprogramme 5 (A/80/6 (Sect. 18)))

23.122 Subprogramme 5 provides policy advice and technical support to members of ECA, in collaboration with key partners such as the African Union Commission, the African Development Bank and Regional Economic Communities, on agriculture and food systems transformation through financing, insurance and de-risking investment; youth and women entrepreneurship; development of regional value chains; agro-industrialization; and climate resilience.

23.123 ECA receives many requests for support from members served by ECA on multiple topics, including, among others, strengthening capacity to develop policies, strategies and programmes for inclusive and climate resilient agrifood systems transformation. For example, the subprogramme has in the recent past, and upon request, supported Malawi (2022) and Guinea (2023) in promoting the application of a decision-support mapping tool for identifying investment opportunities in value chains to enhance food security and agricultural commercialization. Leveraging the power of earth observation data sets, global climate models and geospatial information has proven essential for catalysing investments from the private sector, a critical enabler and accelerator of agrifood systems. ECA also supported Uganda in 2024, on advancing agrifood systems transformation for enhanced resilience, economic diversification and intra-African trade. These interventions empower African small and medium enterprises in the agrifood industry for sustainable transition aiming to support Algeria, Tunisia and Senegal in strengthening their capacity to design and implement related policies, including guidelines for a just sustainable transition and tools to analyse climate related changes for small and medium enterprises transformation.

23.124 In response to the anticipated increased number of requests for support in 2026, the subprogramme will continue to provide technical assistance and advisory services to more countries in Africa, thereby strengthening their capacity to develop and implement policies, strategies and programmes for inclusive and climate resilient agricultural transformation. The anticipated support would lead to the enhanced national capacity of targeted countries to assess gaps, vulnerabilities and opportunities for sustainability transition as well as to design socioeconomic policies to support small and medium enterprises in the agrifood industry.

23.125 The expected response in 2026 would contribute to enhanced capacity of members of ECA and Regional Economic Communities to develop policies, strategies and programmes for resilient and inclusive agrifood systems, which is reflected in result 2 of subprogramme 5, and the performance measure (see table 23.25 below), in the proposed programme budget for 2026 (A/80/6 (Sect. 18)).

Table 23.25
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Twelve members of ECA designed policies and/or programmes to support land reforms	Two members of ECA implemented policies in line with outcomes of the African Union Specialized Technical Committee on Agriculture, Rural Development, Water and Environment on the Food Systems Summit	Two additional members implemented policies in line with the outcomes of the African Union Specialized Technical Committee on Agriculture, Rural Development, Water and Environment on the Food Systems Summit	One member of ECA or one Regional Economic Community develops a policy framework to enhance land governance and management	One member of ECA or one Regional Economic Community develops policy framework on resilient and inclusive agrifood systems

Grants contributions	1 331.8	4 018.3	564.7	14.1	4 583.0
Total	**8 843.2**	**10 983.6**	**675.2**	**6.1**	**11 658.8**

23.126 The proposed regular budget for 2026 amounts to $11,658,800, representing an increase of $675,200, or 6.1 per cent, compared with the approved budget for 2025. This increase is primarily attributed to increases under grants and contributions ($564,700) and experts ($110,500). The increase in the budget for grants and contributions is intended to enhance engagement in fellowship programmes, with particular emphasis on raising attention to small island developing States, least developed countries and landlocked developing countries. This will also create more diverse opportunities for the younger graduate generation in member States in Africa to acquire relevant skills and experiences. These individuals will subsequently contribute to the advancement of their respective countries by bolstering the provision of technical expertise and advisory services, supporting policymakers, research and development departments, the achievement of the Sustainable Development Goals and facilitating knowledge transfer through training and expert group meetings. The increase of $110,500 for experts will enable ECA to fund expert activities, ensuring engagement with high-quality, regionally diverse expertise that supports the implementation of ECA technical cooperation projects across its member States. The resulting benefits will enhance policy research outputs, tools, and capacity development, thereby maximizing the impact of the regular programme of technical cooperation.

8. Economic and social development in Asia and the Pacific

A. Programmatic activities delivered through the regular programme of technical cooperation

23.127 The activities under economic and social development in Asia and the Pacific are implemented by ESCAP under all nine subprogrammes.

23.128 In implementing these activities, the regular programme of technical cooperation contributes to the objectives and expected results of the above subprogrammes and complements their respective strategies and deliverables, which can be found in the relevant paragraphs within the proposed programme plan for 2026 (A/80/6 (Sect. 19)).

Outreach and dissemination of guidelines to member States on the opportunities for assistance through the regular programme of technical cooperation

23.129 The secretariat of ESCAP continues to enhance awareness of the opportunities for technical assistance and services that the programme offers, upon request, in particular through: (a) official documentation of intergovernmental meetings, conferences, other events and forums and related publication information; (b) regular briefings to the Advisory Committee of Permanent Representatives and Other Representatives Designated by Members of the Commission; (c) bilateral meetings of the Executive Secretary with senior officials and permanent representatives of member States; (d) official missions and advisory services of ESCAP senior management and other staff; and (e) official correspondence addressed to seats of government relating to advisory and other technical assistance offerings, available to member States upon request.

Complementarity with the resident coordinator system

23.130 ESCAP has continued working with resident coordinator offices in the design and implementation of technical assistance activities, as appropriate.

Review of high-level positions at headquarters duty stations

23.131 In response to the recommendation of the Advisory Committee on Administrative and Budgetary Questions endorsed by the General Assembly in its resolution 77/262, the Department for Economic and Social Affairs reviewed all positions under general temporary assistance to ensure that only required positions are continued into 2026. ESCAP does not have Regional Adviser positions above the P-5 level and a Departmental Panel has been in place to review all new and renewal cases since 2019 with regular updates to related guidelines, as required.

Response provided to member States' requests for support in 2024

Increased ambition of national commitments by member States towards modern and clean energy in support of Goal 7
(Result 1 of subprogramme 9 (A/80/6 (Sect. 19)))

23.132 In 2024, subprogramme 9, Energy, responded to requests from member States to build capacity for clean cooking, with a focus on South Asia and South-East Asia. For example, ESCAP delivered a series of capacity-building initiatives for policymakers in Bhutan, the Lao People's Democratic Republic and Nepal to enhance the uptake of clean cooking solutions based on electric cookstoves. Related activities undertaken (workshops, knowledge products and advisory services) enhanced the capacity of policymakers to better understand and assess acceptance of the technology by users, identify appropriate modality for implementation of electric cookstove, enhance awareness of clean cooking and develop appropriate national strategies to achieve universal access to clean cooking. In Bhutan, one of the outcomes has been the inclusion of clean cooking as an area for cooperation in the recently signed Implementation Agreement on Carbon Credits between the Government of Bhutan and the Government of Singapore, which will direct funding to clean cooking.

23.133 These interventions complement work being undertaken under subprogramme 6, Social Development on women's empowerment. It also complements the work under subprogramme 4, Environment and Development, by contributing to the improvement of indoor air quality. This work contributed to result 1 of subprogramme 9, and the related performance measure (table 23.28) of the proposed programme for 2026 (A/80/6 (Sect. 19)).

Table 23.28
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Member States provided updates on the development of sustainable energy policies at meetings of the Expert Working Group on Universal Access to Modern Energy Services, Renewable Energy, Energy Efficiency and Cleaner Use of Fossil Fuels	Member States agreed on accelerated Sustainable Development Goal 7 actions in the areas of energy access, energy efficiency and renewable energy, in support of the 2030 Agenda and the Paris Agreement under the ministerial declaration adopted by ESCAP member States at the Third Asian and Pacific Energy Forum, in October 2023	Bhutan, Cambodia, Fiji and Viet Nam announced more ambitious national commitments to increase the share of energy from renewable sources, and to adopt advanced energy efficiency and enhance access to electricity and clean cooking technologies, research, technology and investments in clean energy	Member States in Asia and the Pacific announce commitments to close gaps on achieving Sustainable Development Goal 7 targets	Member States introduce strengthened policies to achieve Sustainable Development Goal 7 by 2030 and announce more ambitious clean energy commitments towards achieving mid-century net zero targets

Expected responses to anticipated requests for support in 2026

Enhanced policies for safe and inclusive transport mobility
(Result 1 of subprogramme 3 (A/80/6 (Sect. 19)))

Increased efficiency and resilience of transport connectivity and logistics networks in Asia and the Pacific
(Result 2 of subprogramme 3 (A/80/6 (Sect. 19)))

Accelerated transition to low-emission transport
(Result 3 of subprogramme 3 (A/80/6 (Sect. 19)))

23.134 At its eighth session, the Committee on Transport noted the progress made in the implementation of the Regional Action Programme for Sustainable Transport Development in Asia and the Pacific (2022–2026) and urged member States to scale up cooperation and complete its implementation in 2026, in line with national priorities. The Committee took note of requests for technical assistance and capacity-building activities for improving road safety at the national level to achieve the goal of the Second Decade of Action for Road Safety 2021–2030. In 2026, it is expected that requests for activities supporting road safety advancements in the Asia-Pacific region will continue to be received, particularly from countries in South-East Asia and South and South-West Asia.

23.135 In line with the deliberations and decisions of the Committee, ESCAP expects to continue supporting initiatives to meet the connectivity needs of landlocked developing countries and small island developing States in Asia and the Pacific, as well as to pursue collaborative efforts to accelerate regional and interregional transport connectivity and sustainability. Relevant requests in 2026 are expected to be received from countries in North and Central Asia, the Pacific and South and South-West Asia. The expected responses will be undertaken also bearing in mind relevant decisions and requests formulated during the meetings of the intergovernmental Working Groups on the Asian Highway, Trans-Asian Railway and Dry Ports, as well as the conclusions of the Regional Dialogue on Sustainable Maritime Connectivity taking place in 2025.

23.136 Additional requests related to subprogramme 3, result 3, on the policy framework or measures required for the acceleration of low carbon transport, including electric mobility, are also expected from Mongolia and countries in South-West Asia and South-East Asia in 2026. This work will support the objectives of the subprogramme following implementation of the accelerating the transition to electric mobility for public transport in Asia and the Pacific – phase II project and the seventeenth tranche of the United Nations Development Account project on strengthening the capacity of ESCAP member States to implement low carbon and resilient transport action plans in Asia and the Pacific.

23.137 These expected responses would contribute to results 1, 2 and 3 of subprogramme 3, and the related performance measure (see tables 23.29–23.31 below, respectively), in the proposed programme budget for 2026 (A/80/6 (Sect. 19)).

Table 23.29
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
The Regional Plan of Action for Asia and the Pacific for the Second Decade of Action for Road Safety 2021–2030 was welcomed by the Committee on Transport	Bangladesh, the Islamic Republic of Iran and the Lao People's Democratic Republic formulated national road safety policies and	Malaysia, the Philippines, Thailand and Viet Nam formulated national measures to reduce road traffic deaths and injuries by at least 50 per	Three additional member States, including a least developed country, formulate national measures to reduce road traffic deaths and injuries by at least 50 per cent	Two member States in the Pacific formulate national policies to improve social inclusion by means of their transport systems

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*

Table 23.30
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Member States proposed amendments to the coverage of the eight Asian Highway routes and eight Trans-Asian Railway routes	Member States adopted amendments to five Asian Highway routes and two Trans-Asian Railway routes	Three member States shared advance information on their intention to amend the Asian Highway and Trans-Asian Railway routes involving international border crossings	Member States consider the proposed amendments to the configuration of transport networks	Member States update policy initiatives to increase the resilience and efficiency of Asian Highway and Trans-Asian Railway routes

Table 23.31
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	20 member States joined the Asia-Pacific initiative on electric mobility	Four member States establish national vertical coordination mechanisms to accelerate their transition to electric mobility	At least two member States establish pilot electric bus routes Member States consider the implementation of the regional action plan on low-emission transport at the Ministerial Conference on Transport

Local governments localize the Sustainable Development Goals and contribute to national climate strategies

(Result 1 of subprogramme 4 (A/80/6 (Sect. 19)))

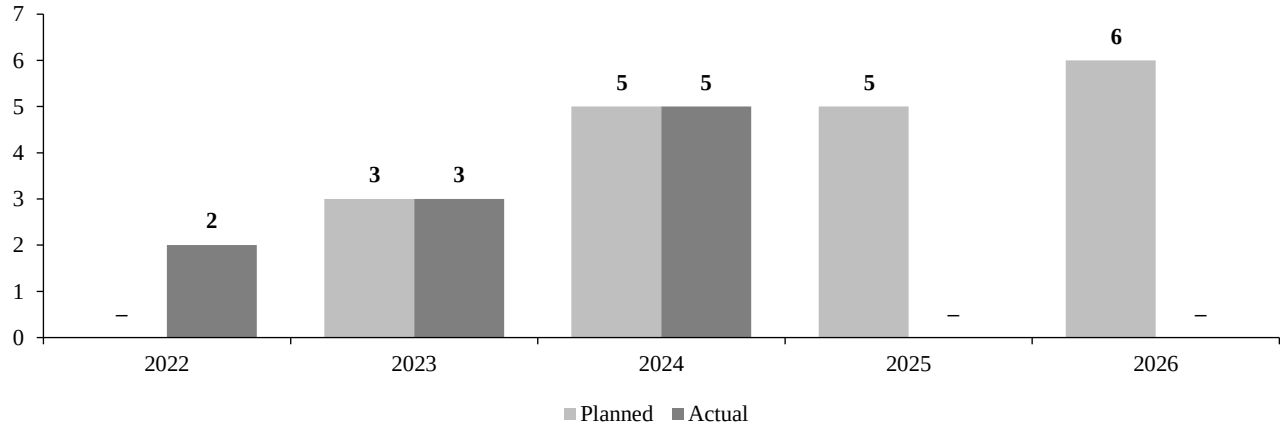
23.138 At the eighth session of the Committee on Environment and Development, member States took note of the need for localization of the Sustainable Development Goals to enhance sustainable urban development, including by promoting integrated urban planning, strengthening policy and governance, increasing financing and building capacity at the national and local levels. Subprogramme 4 focuses on supporting member States and local governments to localize the Sustainable Development Goals and on contributing to national climate strategies through the development of normative guidance and by providing country-level technical assistance and capacity to national and local officials on the development of voluntary local reviews and/or climate actions in urban areas. In addition, ESCAP is expected to implement a United Nations Development Account project (eighteenth tranche) in Bangladesh, Cambodia and the Lao People's Democratic Republic, focused on enhancing local smart city strategies and increasing women's participation in the digital economy, providing opportunities for further local actions in support of multiple Sustainable Development Goals (Goals 1, 5, 9, 10, 11 and 17).

23.139 Building on the regional guidance produced by ESCAP for voluntary local reviews and activities in 2022, 2023 and 2024 to support subnational and national authorities to develop reviews (including in Fiji, Indonesia, Maldives, Nepal, the Philippines and Thailand), and the assessment of urban content in national climate strategies across the region, ESCAP expects additional requests from countries in South and South-West Asia, South-East Asia and the Pacific for technical support and capacity-building for localization of the Sustainable Development Goals and to improve the enabling environment for local climate action.

23.140 The expected response to anticipated requests in 2026 will contribute to result 1 of subprogramme 4, and the related performance measure (see figure 23.XII below), as indicated in the proposed programme budget for 2026 (A/80/6 (Sect. 19)).

Figure 23.XII

Performance measure: number of cities developing voluntary local reviews and/or Sustainable Development Goal localization plans with the direct support of the Economic and Social Commission for Asia and the Pacific (annual)



B. Deliverables

Table 23.32
Economic and Social Commission for Asia and the Pacific: deliverables for the period 2024–2026, by category and subcategory

	2024 planned	*2024 actual*	*2025 planned*	*2026 planned*
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	**150**	**275**	**155**	**160**

C. Proposed non-post resource requirements for 2026

Table 23.33
Financial resources by object of expenditure
(Thousands of United States dollars)

			Changes		
	2024 expenditure	*2025 approved*	*Total*	*Percentage*	*2026 estimate*
Other staff costs	784.5	1 069.6	53.5	5.0	1 123.1
Consultants	1 067.5	1 376.8	(11.0)	(0.8)	1 365.8
Experts	7.2	–	–	–	–
Travel of representatives	1.9	–	–	–	–
Travel of staff	440.2	472.2	(72.2)	(15.3)	400.0
Contractual services	390.1	616.8	(200.0)	(32.4)	416.8
General operating expenses	153.7	210.1	–	–	210.1
Supplies	1.3	–	–	–	–
Furniture and equipment	0.3	–	–	–	–
Grants contributions	869.5	475.7	489.2	102.8	964.9
Total	**3 709.2**	**4 221.2**	**259.5**	**6.1**	**4 480.7**

23.141 The proposed regular budget resources for 2026 amount to $4,480,700, reflecting an increase of $259,500, or 6.1 per cent, compared with the approved budget for 2025. The proposed increase is attributable to an increase under grants and contributions ($489,200), mainly for planned capacity-building aimed at least developed countries, landlocked developing countries and small island developing States under fellowships; and other staff costs ($53,500) reflecting a 5 per cent annual increment under general temporary assistance. ESCAP will continue providing regional advisory services in response to anticipated increased demand from member States in the Asia-Pacific region for technical cooperation assistance and tailored services, including in the areas of climate finance, official statistics and environment statistics and subregional priorities in South-East Asia and the Pacific, guided by the 2030 Agenda and the Paris Agreement and taking into account other existing frameworks such as those under the Association of Southeast Asian Nations, in the case of South-East Asia, and the Antigua and Barbuda Agenda for small island developing States, in the case of the Pacific. The decreases under consultants ($11,000) results from the discontinuation of special consultancies; under travel of staff ($72,200) is due to an anticipated increase of online advisory services and workshops; and under contractual services ($200,000) is to better align with actual demands and expected requests from member States in 2026.

9. Economic development in Europe

A. Programmatic activities delivered through the regular programme of technical cooperation

23.142 The activities under economic development in Europe are implemented by ECE in support of programme 17 under all ECE subprogrammes.

23.143 Technical cooperation is focused on the United Nations programme countries in the ECE region, where ECE is a signatory of the Sustainable Development Cooperation Framework. Anchored in ECE norms and standards, ECE technical cooperation is intended to strengthen national capacities to accede to and implement the Commission's international legal instruments, norms and standards. The activities promote regional, subregional and transboundary cooperation and support Governments in accelerating the implementation and the achievement, respectively, of the 2030 Agenda and the Sustainable Development Goals.

23.144 In 2026, ECE will provide technical advice and policy expertise to Governments in the areas of environmental governance; transport and connectivity; statistics; public-private partnerships; innovation; sustainable energy; trade; forestry; urban development and population. Sectoral and cross-sectoral advisory services, training and field projects within ECE mandate and expertise areas will continue to be delivered in response to demands from member States. A fellowship programme will also be established in response to General Assembly resolution 79/257.

23.145 In line with its technical cooperation strategy, ECE will continue to work closely with the resident coordinators and United Nations country teams in the United Nations programme countries. ECE technical cooperation activities funded from the regular programme of technical cooperation will also continue to complement the United Nations Development Account projects implemented in the ECE region. Technical cooperation activities also integrate South-South cooperation, with transfer of knowledge and peer-learning components to share experience on various capacity-development approaches and policy options that could be replicated in and outside of the region.

23.146 The ECE secretariat is not able to meet all requests for technical assistance formulated by member States each year, but ECE could provide additional advisory services in cooperation with relevant partners.

23.147 In implementing these activities, the regular programme of technical cooperation contributes to the objectives and expected results of the above subprogrammes and complements their respective strategies and deliverables, which can be found in the relevant paragraphs within the proposed budget for 2026 (A/80/6 (Sect. 20)).

Outreach and dissemination of guidelines to member States on the opportunities for assistance through the regular programme of technical cooperation

23.148 ECE has established a robust outreach approach to provide information on technical cooperation opportunities for the United Nations programme countries in the ECE region. It includes: (a) targeted presentations on technical cooperation at regular ECE intergovernmental sessions (b) briefings and meetings with permanent missions to the United Nations based in Geneva; (c) outreach to sectoral ministries during technical cooperation interventions in the programme countries such workshops, advisory missions, (d) regular meetings with the resident coordinators and United Nations country teams to identify areas for partnerships and joint programming in support of governments; (e) participation in regional and subregional platforms, such as the European Union-Central Asia working group on the environment, the United Nations Special Programme for the Economies of Central Asia, the inter-State commission on sustainable development and the newly established Regional Centre for the Sustainable Development Goals for Central Asia and Afghanistan; and (f) engagement in the United Nations Sustainable Development Cooperation Framework processes, including participation in the thematic results groups.

23.149 The ECE technical cooperation tracking tool, launched in 2024, documents the demands from ECE member States and the responses provided. It will also enable the secretariat to analyse the coverage of countries and adjust its outreach if required.

23.150 In recent years, ECE has multiplied its efforts to leverage various funding sources for technical cooperation in addition to the regular programme of technical cooperation and the development account, including the Joint Sustainable Development Goals Fund and bilateral donors. In 2026, ECE looks forward to working with the recently established multi-partner trust fund under the Special Programme of Economies of Central Asia. ECE coordinates its technical cooperation portfolio with other United Nations organizations to ensure synergies and complementarities with national and subregional intervention to multiply the impact and sustainability of ECE technical cooperation interventions.

Complementarity with the resident coordinator system

23.151 ECE regularly interacts with the resident coordinators and United Nations country teams in the United Nations programme countries to ensure complementarities and collaboration to support countries in achieving Sustainable Development Goals. To this end, ECE participates in the development and implementation of the United Nations Sustainable Development Cooperation Frameworks and is a member of United Nations country teams in the United Nations programme countries. Each ECE regional adviser acts as focal point in three United Nations country teams in the region, which enables ECE to enhance national ownership, align technical cooperation to national priorities and strengthen cooperation with development stakeholders at the country level.

Review of high-level positions at headquarters duty stations

23.152 In response to the recommendation of the Advisory Committee on Administrative and Budgetary Questions endorsed by the General Assembly in its resolution 77/262, the Department reviewed the positions funded through the regular programme of technical cooperation and decided to create any new positions of regional advisers at the P-4 level instead of at the P-5 level.

Response provided to Member States' request for support in 2024

Increased number of United Nations Member States becoming parties to multilateral environmental agreements serviced by the Economic Commission for Europe
(Result 1 of subprogramme 1 (A/80/6 (Sect. 20)))

Improved reporting for monitoring the Sustainable Development Goals
(Result 3 of subprogramme 3 (A/80/6 (Sect. 20)))

Enhanced resilience of energy systems in the Economic Commission for Europe region
(Result 1 of subprogramme 5 (A/80/6 (Sect. 20)))

23.153 In 2024, ECE focused its technical cooperation on delivering integrated policy and capacity-building responses to facilitate transboundary cooperation, improve environmental governance, enhance connectivity, strengthen data and statistics systems, support green transformation and sustainable cities, promote public-private partnerships and sustainable management of natural resources and enable systems for innovations and start-ups.

23.154 To respond to member States requests in statistics, energy and environment, ECE delivered several interventions including studies, legal reviews and assessments supported by capacity-building activities. Three studies were delivered, one on "Integrating twin transition with legacy energy systems: regional overview of the selected countries in Central Asia, the Caucasus, Eastern and South-Eastern Europe"; a second one on "Establishing a national energy efficiency and renewable energy agency in Georgia: Comparative Analysis and Strategic Recommendations based on ECE member States' experiences"; and a third one on "Energy connectivity in Central Asia: an inventory of existing national energy systems, with a focus on Tajikistan" were delivered. The first study aimed at accelerating the transition from legacy energy systems to centralized analogue energy

infrastructure for better energy connectivity in Central Asia. In the area of data and statistics, at the request of the Government of Uzbekistan, a global assessment of the National Statistical System of Uzbekistan acknowledged many improvements that have been made since the previous global assessment and delivered new recommendations for the national development plan of statistics. Lastly the regular programme of technical cooperation supported Armenia to accede to the Protocol on Pollutant Release and Transfer Registers under the Convention on Access to Information, Public Participation in Decision-making and Access to Justice in Environmental Matters; at the request of the Government, ECE experts reviewed the legislative and institutional frameworks and proposed detailed recommendations for structure and management procedure of the pollutant release and transfer register systems. This last example highlights an integrated response using different modalities: advisory services, policy advice and capacity-building.

23.155 The above-mentioned work contributed to result 1 of subprogramme 1; result 3 of subprogramme 3; and result 1 of subprogramme 5 and the related performance measures (see figures 23.XIII to 23.XV, respectively, below) in the proposed programme budget for 2026 (A/80/6 (Sect. 20)).

Figure 23.XIII
Performance measure: number of Parties to multilateral environmental agreements serviced by the Economic Commission for Europe (cumulative)

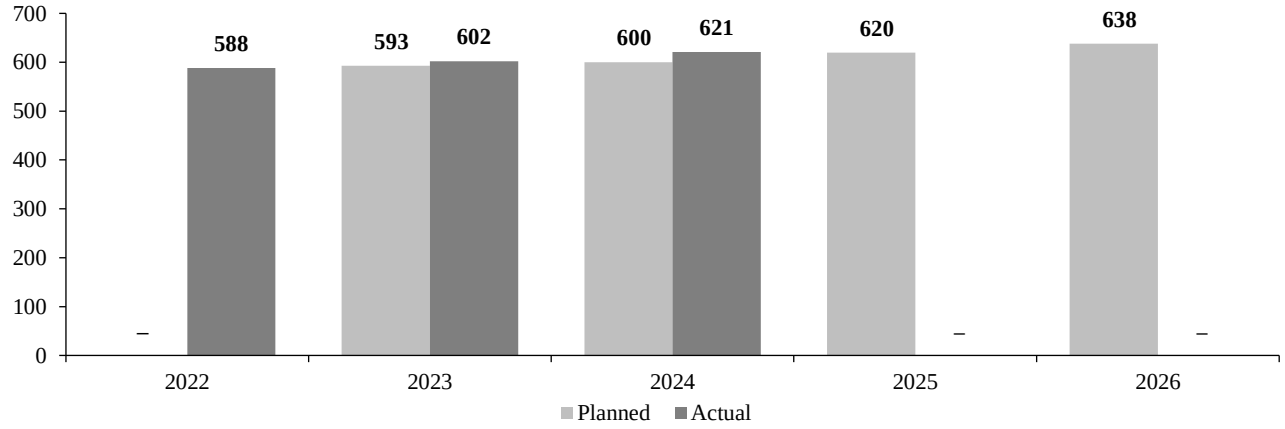


Figure 23.XIV
Performance measure: percentage of Sustainable Development Goal indicators that have sufficient data for assessing progress at the level of the Economic Commission for Europe region (annual)

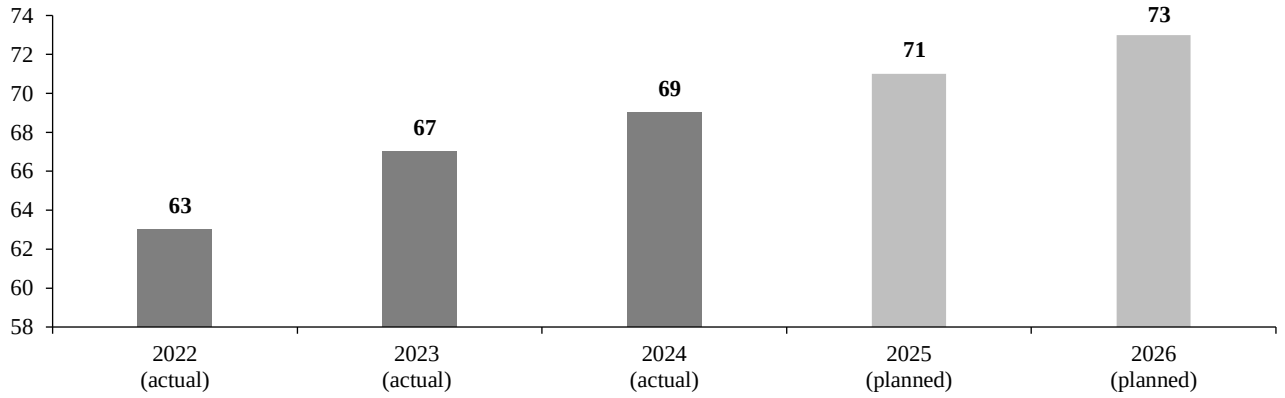

Figure 23.XV
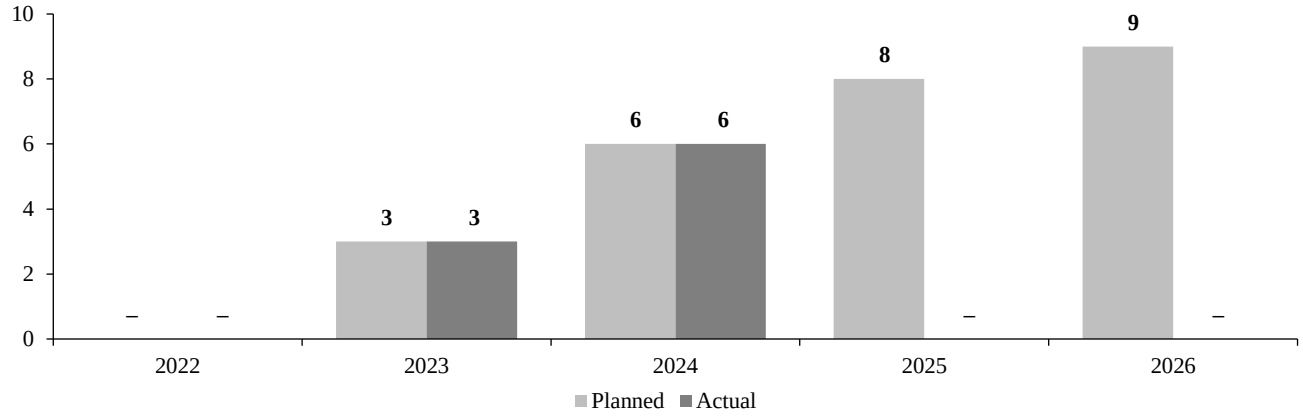
Performance measure: number of member States using Economic Commission for Europe mechanisms to enhance the resilience of energy systems in the Economic Commission for Europe region (cumulative)



Expected responses to anticipated requests for support in 2026

Increased accessions to core road safety conventions as an initial step to contribute to fewer worldwide road accident fatalities and injuries
(Result 2 of subprogramme 2 (A/80/6 (Sect. 20)))

Improved reporting for monitoring the Sustainable Development Goals
(Result 3 of subprogramme 3 (A/80/6 (Sect. 20)))

Increased adoption of electric mobility for a sustainable energy transition
(Result 3 of subprogramme 5 (A/80/6 (Sect. 20)))

Enhanced digitalization of trade
(Result 2 of subprogramme 6 (A/80/6 (Sect. 20)))

More age-sensitive and inclusive policies to respond to the opportunities and challenges of individual and population ageing
(Result 2 of subprogramme 8 (A/80/6 (Sect. 20)))

23.156 In response to anticipated requests in 2026, ECE subprogrammes will: (a) support the ratification and implementation of ECE international norms and standards; (b) address specific national, regional, subregional and transboundary challenges; (c) improve connectivity and sustainable management of natural resources; and (d) build infrastructure and environmental resilience supported by data analysis.

23.157 ECE subprogrammes, more specifically, will focus on:

(a) Supporting the accession of Tajikistan to the ECE Convention on the Transboundary Effects of Industrial Accidents through the provision of advisory services;

(b) Preparing the Kazakhstan road safety performance review to reduce road casualties and improve national road safety systems;

(c) Conducting a global assessment of the national statistical systems of Kyrgyzstan and Azerbaijan to support the development of a national plan for official statistics. Moreover, as a follow-up to the previous global assessments of the national statistical systems of Uzbekistan and Tajikistan, sector reviews of specific areas will be conducted in these two countries;

(d) Supporting Albania to transition towards increased electric mobility for a sustainable energy transition;

(e) Supporting institutional structures for innovation and technology and building enabling environment for public-private partnerships in ECE programme countries;

(f) Supporting digital trade and transport corridors using the United Nations Centre for Trade Facilitation and Electronic Business Standards in Central Asia, Caucasus, Western Balkans and Eastern Europe countries to speed up information flow and improve efficiency of international trade and transport in the region;

(g) Developing evidence-based urban and housing policies through the preparation of a country profile on housing and land management for Montenegro;

(h) Developing ageing-related policies through a situation analysis (road map for mainstreaming ageing), advisory missions or training workshops on mainstreaming ageing for programme countries.

23.158 The expected responses would contribute to results under all subprogrammes, including, for example: (a) increased accessions to road safety conventions to contribute to fewer road accident fatalities and injuries, which is reflected in result 2 of subprogramme 2, and the related performance measure (see figure 23.XVI); (b) improved reporting for monitoring the Sustainable Development Goals, which is reflected in result 3 of subprogramme 3 and the related performance measure (see figure 23.XVII); (c) increased adoption of electric mobility for a sustainable energy transition, which is reflected in result 3 of subprogramme 5, and the related performance measure (see figure 23.XVIII); (d) enhanced digitalization of trade, which is reflected in result 2 of subprogramme 6, and the related performance measure (see figure 23.XIX); (e) more age-sensitive and inclusive policies to respond to the opportunities and challenges of individual and population ageing, which is reflected in result 2 of subprogramme 8, and the related performance measure (see table 23.34) of the proposed programme budget for 2026 (A/80/6 (Sect. 20)).

Figure 23.XVI

Performance measure: number of Contracting Parties to core United Nations road safety conventions and number of events during which member States share challenges and good practices on road safety convention implementation (cumulative)

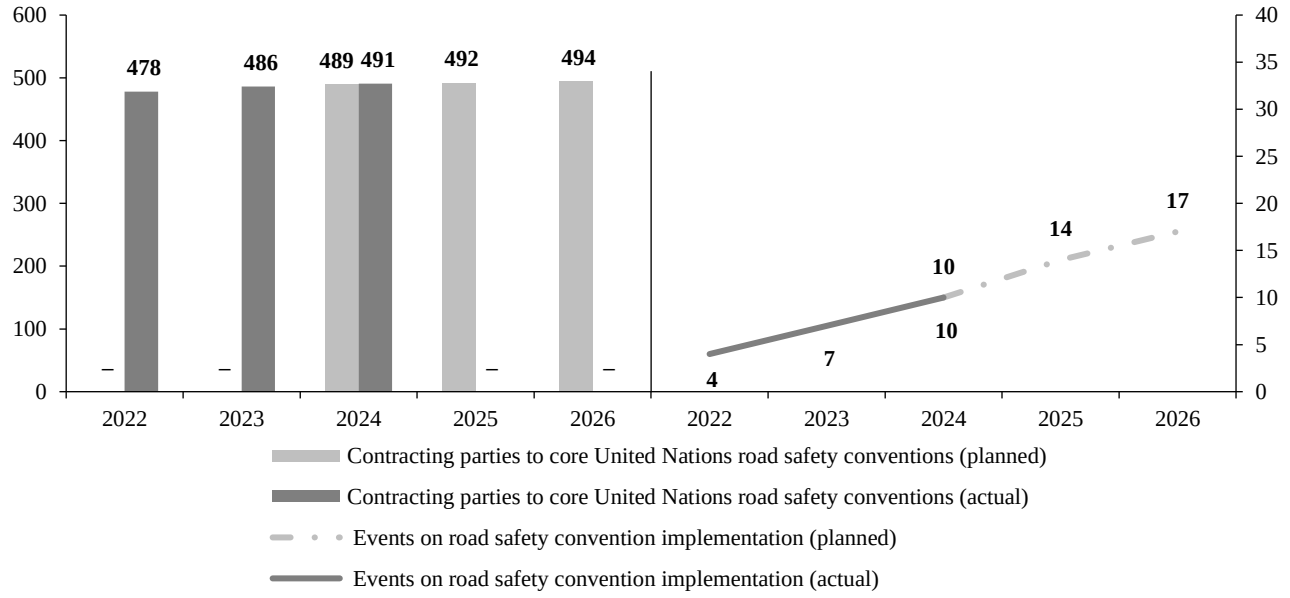


Figure 23.XVII

Performance measure: percentage of Sustainable Development Goal indicators that have sufficient data for assessing progress at the level of the Economic Commission for Europe region (annual)

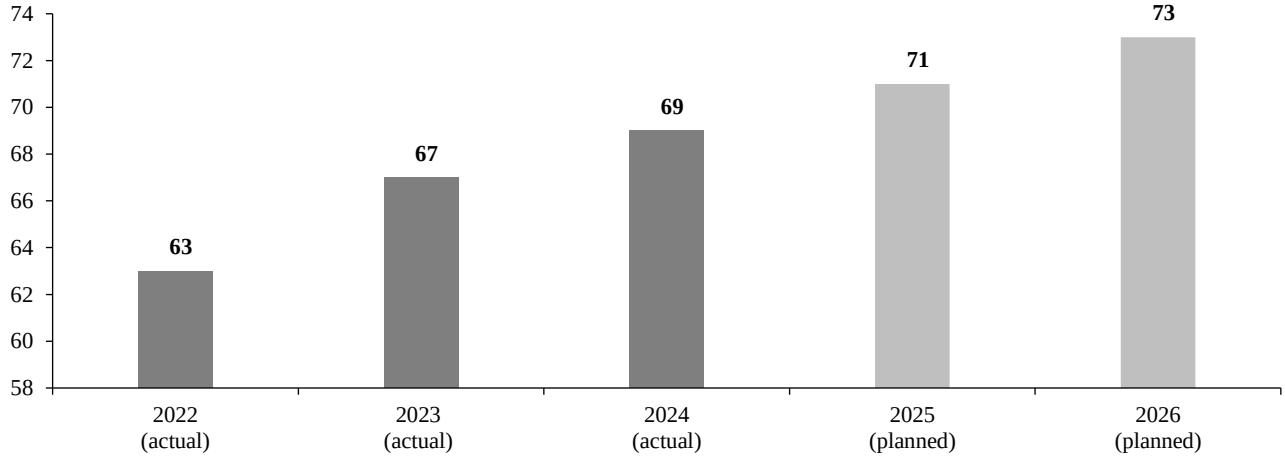

Figure 23.XVIII

Performance measure: number of member States adopting e-mobility policies that apply Economic Commission for Europe recommendations on best practices for integration of e-mobility into energy systems (cumulative)

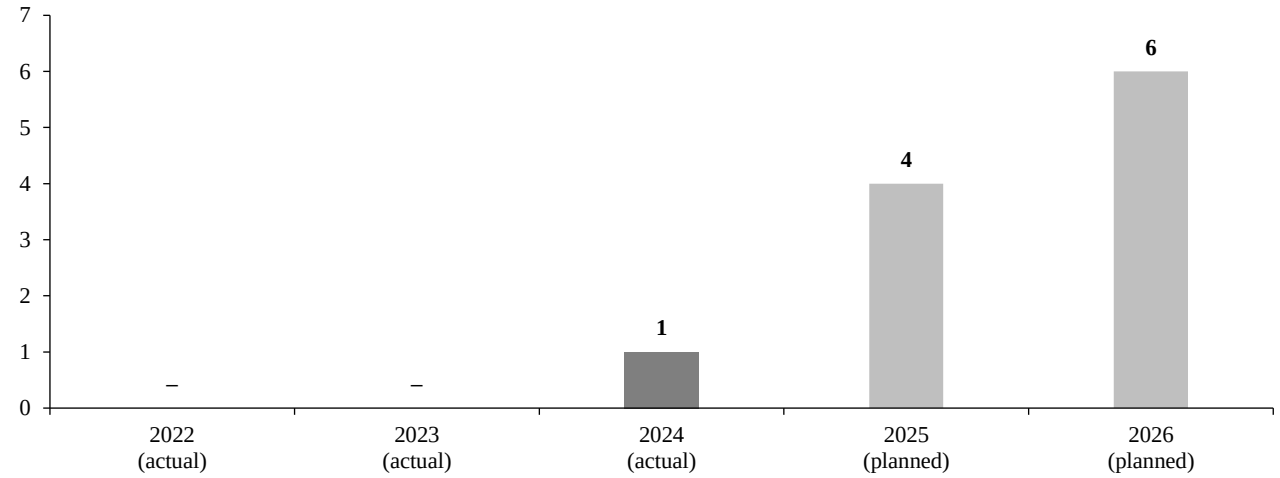

Figure 23.XIX
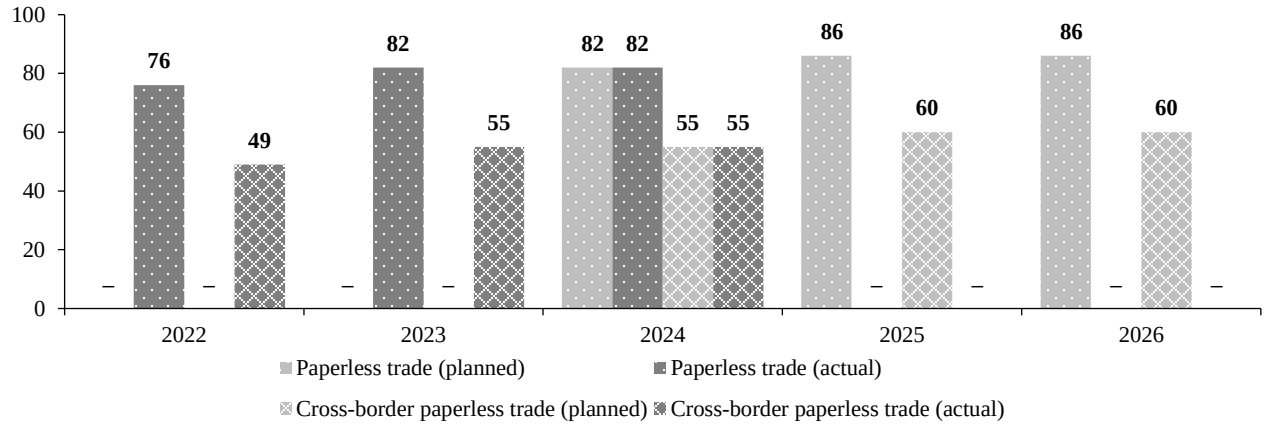
Performance measure: average implementation rate of trade facilitation measures in the Economic Commission for Europe region
(Percentage)



Note: The data are captured every two years through the United Nations Global Survey on Digital and Sustainable Trade Facilitation (available at: https://www.untfsurvey.org/) conducted most in 2023. Data for 2024 reflects achievements in 2023.

Table 23.34
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Development of an ageing policies database was included in the programme of work of the Standing Working Group on Ageing	Member States agreed on the scope and design of the ageing policies database	Member States, academia, civil society and the general public gain access to the ageing policies database	At least 15 member States share ageing-related policy updates for inclusion in the ageing policies database	At least 20 member States share ageing-related policy updates for inclusion in the database

B. Deliverables

Table 23.35
Economic Commission for Europe: deliverables for the period 2024–2026, by category and subcategory

	2024 planned	*2024 actual*	*2025 planned*	*2026 planned*

Seminars, workshops and training events (number of days)	**75**	**77**	**77**	**82**

C. Proposed non-post resource requirements for 2026

Table 23.36
Financial resources by object of expenditure
(Thousands of United States dollars)

			Changes		
	2024 expenditure	*2025 approved*	*Total*	*Percentage*	*2026 estimate*
Other staff costs	1 680.9	1 792.3	–	–	1 792.3
Consultants	299.6	466.7	14.4	3.1	481.1
Travel of staff	239.1	228.0	14.4	6.3	242.4
Contractual services	47.8	–	–	–	–
General operating expenses	14.3	–	–	–	–
Grants contributions	224.8	372.7	147.0	39.4	519.7
Total	**2 506.5**	**2 859.7**	**175.8**	**6.1**	**3 035.5**

23.159 The proposed regular budget resources for 2026 amount to $3,035,500, and reflect a resource increase of $175,800, or 6.1 per cent, compared with the approved level for 2025. The proposed increase under consultants ($14,400), travel of staff ($14,400), and grants and contributions ($147,000) are required for the establishment of a fellowship programme in ECE, building on the best practices from other regional commissions and accelerating the 2030 Agenda for sustainable development through regional advisory services with a particular focus on landlocked developing countries.

10. Economic and social development in Latin America and the Caribbean

A. Programmatic activities delivered through the regular programme of technical cooperation

23.160 In implementing these activities, the regular programme of technical cooperation contributes to the objectives and expected results of the following subprogrammes and complements their respective strategies and deliverables: subprogramme 1: International trade, integration and infrastructure; subprogramme 2: Production and innovation; subprogramme 3: Macroeconomic policies and growth; subprogramme 4: Social development and equality; subprogramme 6: Population and development; subprogramme 7: Sustainable development and human settlements; subprogramme 8: Natural resources; subprogramme 10: Statistics; subprogramme 11: Subregional activities in Central America, Cuba, the Dominican Republic, Haiti and Mexico; and, subprogramme 12: Subregional activities in the Caribbean.

Outreach and dissemination of guidelines to member States on the opportunities for assistance through the regular programme of technical cooperation

23.161 In line with the demand-driven nature of the regular programme of technical cooperation, ECLAC raises awareness of the opportunities for Latin American and Caribbean countries to access technical support from the regular programme of technical cooperation resources through outreach and notifications and announcements on various ECLAC training offerings, and face-to-face meetings with government officials, including permanent representatives, of the countries of the region, in the context of intergovernmental meetings, conferences, seminars, workshops and various capacity-building events organized by the entity. These informal settings are better suited for an initial assessment of country needs and an attempt at matching them with in-house expertise.

Complementarity with the resident coordinator system

23.162 The work of ECLAC is closely aligned with the resident coordinator system, through whose offices ECLAC receives enquiries for support from member States. After internal revision, ECLAC determines the most appropriate subprogramme(s) to provide support to the member States, taking also into consideration the mandates entrusted to the Commission. ECLAC subregional headquarters and national offices fully participate in the work of the country team and provide direct support, inputs and data on selected economic and social development perspectives to the resident coordinators and the country team in their respective countries. ECLAC also provides regular support and inputs for the elaboration of selected areas of the common country analysis and the United Nations Sustainable Development Cooperation Frameworks Cooperation Frameworks.

Review of high-level positions at headquarters duty stations

23.163 In response to the recommendation of the Advisory Committee on Administrative and Budgetary Questions endorsed by the General Assembly in its resolution 77/262, ECLAC reviewed all its positions and does not have any high-level positions at headquarters duty stations. All other positions proposed for 2026 have been reviewed in line with anticipated member States' needs.

Responses provided to Member States requests for support in 2024

Energy compacts: a milestone on the road to energy integration in Central America
(Programme performance in 2024 of subprogramme 11 (A/80/6 (Sect. 21)))

23.164 In 2024, Subprogramme 11, which contributes to improve the formulation of evidence-based public policies in the economic, social and environmental fields in the countries in the subregion, received requests from the Central American Integration System to continue the support delivered in previous years for the elaboration of energy compacts.

23.165 Building on the work carried out in previous years, which was informed by the outcomes achieved under the implementation of a project on updating the regional energy strategy for 2020–2030 and the creation of a specialized working group of the Central American Integration System to discuss energy efficiency standards, the subprogramme continued progress during 2024, which included the provision of technical assistance to Central American Integration System countries in the drafting of energy compacts, focusing on universal access to electricity; reduction of fuelwood use; promotion of renewable energy (including non-conventional); and increasing energy efficiency. In this regard, the subprogramme supported the discussion of the drafts through 10 webinars, participated in the review of comments for incorporation into the documents, and contributed to their finalization.

23.166 This work contributed to the result of the approval of the energy compacts, as reflected under programme performance under subprogramme 11, and the related performance measure (see table 23.37 below), in the proposed programme budget for 2026, (A/80/6 (Sect. 21)).

Table 23.37
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	Drafting of five energy compacts proposals by the Central American Integration System countries	At its seventeenth regular meeting, the Central American Integration System Council of the Ministers of Energy approved the energy compacts which are intended to coordinate agendas on climate, food security, transportation and biodiversity.

Expected responses to anticipated requests for support in 2026 which will contribute to a specific performance measure

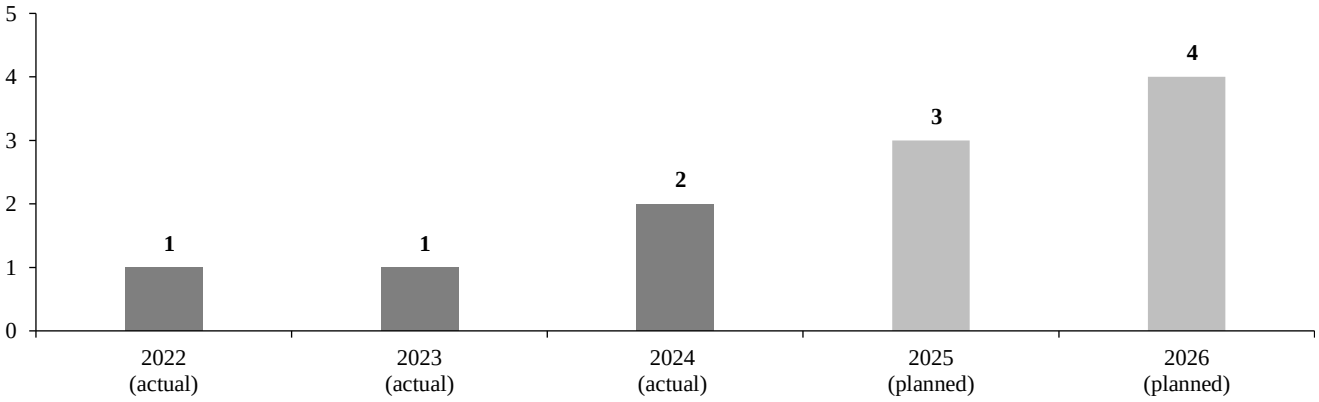
Strengthened tax expenditure policymaking to support the Sustainable Development Goals
(Result 3 of subprogramme 3 (A/80/6 (Sect. 21)))

23.167 In 2026, subprogramme 3 will continue to contribute to foster suitable and inclusive growth in Latin America and the Caribbean by strengthening the capacity of policymakers and other stakeholders in the region to analyse current and emerging macroeconomic and development finance issues, and to evaluate, design and implement development-centred macroeconomic and financing for development policies that incorporate a gender perspective and are based on comparative analysis. In this regard, the subprogramme has been providing technical support to countries of the region to strengthen the formulation of fiscal policies, and in particular regarding tax expenditures. Tax expenditure, or revenue foregone due to preferential tax treatments, is widely used in the region and can have an impact on the resources that can deployed to finance the Sustainable Development Goals. ECLAC estimates that revenues losses due to tax expenditure in 2021 averaged 3.7 per cent of gross domestic product in the region, equivalent to 19 per cent of average central government budgetary expenditure. The subprogramme is providing member States with technical reports and capacity-building workshops to improve the quantification of tax expenditure and the evaluation of preferential tax treatments.

23.168 In response to the anticipated requests in 2026, the subprogramme will expand knowledge-sharing spaces in technical workshops to strengthen the capacity of policymakers to analyse and review tax expenditure with the aim of aligning them with the requirements to achieve the Sustainable Development Goals.

23.169 The expected response in 2026 would contribute to increased capacity of national authorities to estimate and evaluate tax expenditure in line with the objectives of the Sustainable Development Goals, which is reflected under result 3 of subprogramme 3, and in the related performance measure (see figure 23.XX below), in the proposed programme budget for 2026 (A/80/6 (Sect. 21)).

Figure 23.XX
Performance measure: number of countries estimating and evaluating tax expenditure in line with the objectives of the Sustainable Development Goals (cumulative)



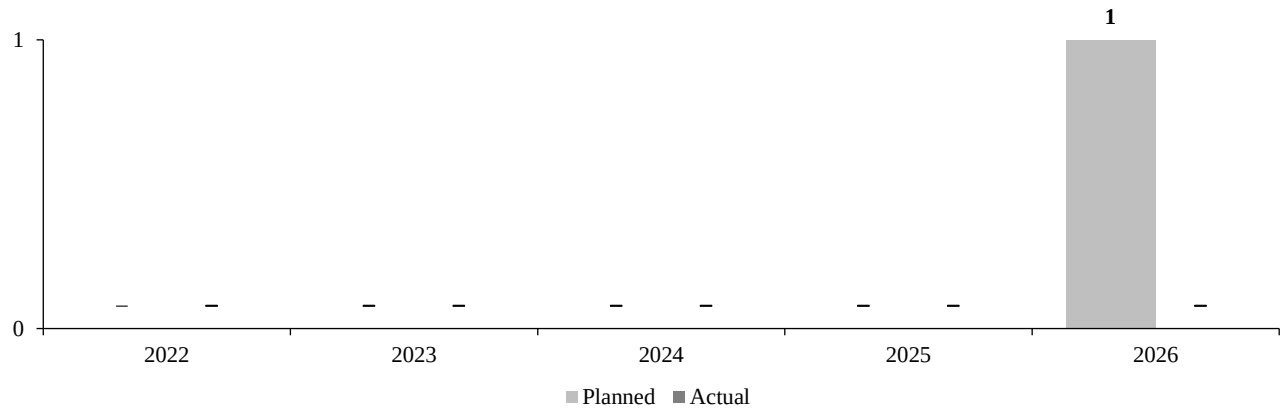
New initiatives to promote the energy transition in Latin America and the Caribbean
(Result 3 of subprogramme 8 (A/80/6 (Sect. 21)))

23.170 In 2026, subprogramme 8 will continue to support countries of the region to improve the governance and enhance the sustainable use and exploitation of national resources in Latin America and the Caribbean, focusing on water resources management affordable, inclusive and clean energy; extractive resources efficiency; and biodiversity. The subprogramme has been supporting member States in carrying out policy dialogues which have identified the main obstacles to universalize electricity access, increase the use of renewable energy in transport and industries and foster greater energy efficiency.

23.171 In response to the anticipated requests in 2026, the subprogramme will tailor its technical support to strengthen technical capacities to accelerate the energy transition, through the promotion of national initiatives such as policies and instruments, energy planning, the assessment of investment needs and methodologies that can be replicated. The subprogramme will also promote technical, operative, political and prospective capacities, strengthen multi-stakeholder dialogues, and produce evidence about the multidimensional benefits of the energy transition paths to support new initiatives in energy transition in the countries of the region.

23.172 The expected response in 2026 would contribute to new initiatives being developed by countries of the region to promote the energy transition, which is reflected under result 3 of subprogramme 8, and the related performance measure (see figure 23.XXI below), in the proposed programme budget for 2026 (A/80/6 (Sect. 21)).

Figure 23.XXI
Performance measure: number of new initiatives developed by countries of the region to promote the energy transition (cumulative)



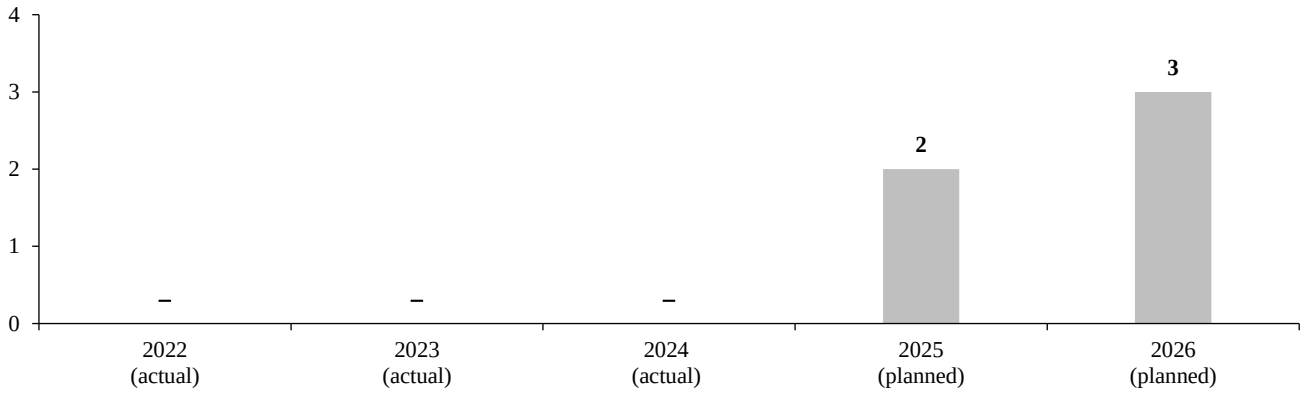
Enhanced use of administrative registers for statistical production
(Result 3 of subprogramme 10 (A/80/6 (Sect. 21)))

23.173 For 2026, subprogramme 10 will continue to support national officials and government authorities from countries of Latin America and the Caribbean to improve the production, dissemination and use of statistics for evidence-based decision-making in the region. In this regard, the subprogramme has continued to encourage the use of administrative records and non-traditional data sources and the adoption of new methodologies for the integration of different data sources. Administrative registers can complement census and household survey data, improving accuracy, cost-efficiency and timeliness. However, national statistical offices may face challenges in integrating administrative registers, including limited data access, lack of standardization, data quality issues and insufficient expertise and infrastructure. During 2024, the subprogramme supported countries of the region in addressing some of these challenges through the development of regional guidelines.

23.174 In response to anticipated requests in 2026, the subprogramme will provide technical support to the countries of the region in the development of comprehensive assessments of the administrative registers, identifying strengths and areas for improvement in critical population and social records, and organize technical workshops to strengthen capacities on innovative methodologies and technologies to use and integrate administrative registers with other data sources.

23.175 The expected response in 2026 would contribute to increased capacity of national statistical offices to initiate data exchanges with administrative records providers, which is reflected under result 3 of subprogramme 10 and the related performance measure (see figure 23.XXII below), in the proposed programme budget for 2026 (A/80/6 (Sect. 21)).

Figure 23.XXII
Performance measure: number of countries having initiated data exchanges between national statistical offices and administrative records providers (cumulative)



B. Deliverables

Economic Commission for Latin America and the Caribbean: deliverables for the period 2024–2026, by category and subcategory

	2024 planned	*2024 actual*	*2025 planned*	*2026 planned*
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	**65**	**65**	**68**	**72**

C. Proposed non-post resource requirements for 2026

Table 23.39
Financial resources by object of expenditure
(Thousands of United States dollars)

			Changes		
	2024 expenditure	*2025 approved*	*Total*	*Percentage*	*2026 estimate*
Other staff costs	2 697.4	3 145.0	–	–	3 145.0
Consultants	896.6	860.7	57.5	6.7	918.2
Travel of staff	368.0	391.5	–	–	391.5
Contractual services	85.6	179.7	–	–	179.7
General operating expenses	0.8	–	–	–	–
Grants, contributions	786.0	1 144.0	294.1	25.7	1 438.1
Total	**4 834.3**	**5 720.9**	**351.6**	**6.1**	**6 072.5**

23.176 The proposed regular budget resources for 2026 amount to $6,072,500 and reflect a resource increase of $351,600 compared with the appropriation for 2025. The proposed increase under grants and contributions ($294,100) is to provide for engagement of fellows with more attention on small island developing States, least developed countries and landlocked developing countries; and the increase under consultants ($57,500) will support the technical advice delivered to member States to address anticipated requests in area of statistics and national accounts.

11. Economic and social development in Western Asia

A. Programmatic activities delivered through the regular programme of technical cooperation

23.177 The assistance to Member States provided by the Economic and Social Commission for Western Asia to support the implementation of responses to their requests is carried out under subprogramme 1: Climate change and natural resource sustainability; subprogramme 2: Gender justice, population and inclusive development; subprogramme 3: Shared economic prosperity; subprogramme 4: Statistics, the information society and technology; subprogramme 5: 2030 Agenda and Sustainable Development Goal coordination, and; subprogramme 6: Governance and conflict prevention.

23.178 In implementing these responses, the regular programme of technical cooperation contributes to the objectives and planned results of the subprogrammes and complements the strategies and deliverables presented in the relevant paragraphs of the proposed programme budget for 2026 (A/80/6 (Sect. 22)) of those subprogrammes.

Outreach and dissemination of guidelines to Member States on the opportunities for assistance through the regular programme of technical cooperation

23.179 In December 2024, ESCWA organized the annual meeting of its technical cooperation network comprised of national technical cooperation focal points in member States to discuss their priorities and needs, highlight modes of regular programme of technical cooperation delivery and means of requesting assistance, and present an overview of main technical cooperation interventions in member States in 2024. ESCWA also sent the latest sectoral technical cooperation reports prepared for its subsidiary bodies under the different subprogrammes to the members of the technical cooperation network to keep them abreast of regular programme of technical cooperation activities in the different economic and social sectors. Finally, ESCWA sent a guiding note to representatives of national women's machineries in member States informing them about regular programme of technical cooperation and the services that ESCWA offers on women's advancement in the context of its subprogramme 2. Throughout the year, ESCWA also placed a discussion of regular programme of technical cooperation on the agendas of all formal policy dialogues held with member States in the context of intergovernmental committees, namely the Executive Committee, and the committees on women; statistics; social development; and transport and logistics.

23.180 In 2024, the Executive Secretary of ESCWA led more than five outreach visits to different member States to advance the regular programme of technical cooperation assistance provided to them, including one to Algeria, an underserved country as identified in the 2024 Office of Internal Oversight Services evaluation of regular programme of technical cooperation, which resulted in 10 new requests from the country. Throughout the year, ESCWA staff also organized briefings or participated in meetings to showcase technical cooperation services, contributing to some 70 outreach activities, including conferences, meetings and seminars on services that ESCWA renders in all areas of its work.

Complementarity with the resident coordinator system

23.181 In 2024, ESCWA attended United Nations country team meetings led by resident coordinators, following up on discussions and presenting its work when requested. ESCWA has also engaged with some country team working groups and contributed to some common country analyses. ESCWA has also continued to organize briefings to resident coordinator offices on its work and services.

Review of high-level positions at headquarters duty stations

23.182 In response to the recommendation of the Advisory Committee on Administrative and Budgetary Questions endorsed by the General Assembly in its resolution 77/262, ESCWA is reviewing the renewal of contracts of regional advisers against the requests received in their areas of work, considered as a testimony that their expertise is still required when such requests exist.

Response provided to member States' requests for support in 2024

Member States adopt multidimensional approach to poverty reduction
Programme performance in 2024 and planned target for 2026
(Result 2 of subprogramme 2 (A/80/6 (Sect. 22)))

23.183 In 2024, ESCWA, in response to requests from Egypt, Jordan, Mauritania, Morocco, Somalia and Tunisia, provided advisory and technical assistance for increasing the effectiveness and efficiency of social protection systems, including through a comprehensive mapping of all system components in four of those countries to produce national social protection profiles, through combined funding from the regular programme of technical cooperation, the development account and extrabudgetary sources. The profiles describe and assess whole systems, proposing recommendations for reform and increased efficiency, in addition to costing for proposed reform measures. In Morocco, ESCWA provided capacity development for improving the organizational framework of social protection delivery, and in Somalia, ESCWA carried out an assessment of capacity development needs and is rolling out a plan to improve efficiency and effectiveness of the social protection system. Such work is aimed at supporting the leaving no one behind principle of the 2030 Agenda.

23.184 The above-mentioned work contributed to result 2 of subprogramme 2, and the related performance measure (see table 23.40 below), in the proposed programme budget for 2026 (A/80/6 (Sect. 22)).

Table 23.40
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
One member State (State of Palestine) piloted a nationalized multidimensional poverty index	Two member States (Iraq and Somalia) adopted a nationalized multidimensional poverty index as a poverty analysis tool	Two member States (Egypt and Jordan) utilized a nationalized multidimensional poverty index and assist tool to assess drivers of poverty, including inequalities and exclusion	Two member States develop policy frameworks and/or strategies for the eradication of poverty	One additional member State develops policy framework and/or strategy for the eradication of poverty

Expected responses to anticipated requests for support in 2026

Contextualized economic modelling informs development of economic, social and trade policies
(Result 1 of subprogramme 3 (A/80/6 (Sect. 22)))

Member States reach bilateral trade agreements beyond the region
(Result 3 of subprogramme 3 (A/80/6 (Sect. 22)))

Skills-focused approaches to boost access to employment opportunities
Programme performance in 2024 and planned target for 2026
(Result 1 of subprogramme 2 (A/80/6 (Sect. 22)))

Member States adopt multidimensional approach to poverty reduction
Programme performance in 2024 and planned target for 2026
(Result 2 of subprogramme 2 (A/80/6 (Sect. 22)))

23.185 In 2024, ESCWA continued to provide support to member States, in particular Oman and the United Arab Emirates, in response to their requests to develop computable general equilibrium models for simulating economic chocks and assessing their estimated repercussions on a host of macroeconomic and social indicators, chosen by each requesting member State according to its needs. In this context, ESCWA provided technical advice and support for the refinement of national models and their digital interfaces, in addition to capacity development workshops for their use. In 2025, ESCWA embarked on work with Algeria on such a model and expects to receive more requests of that nature in 2026, due to the dire need of member States for achieving economic diversification and adopting sound macroeconomic policies, based on evidence. On the trade modelling side, in 2024, ESCWA initiated responses to requests from Egypt, Morocco, Oman, Saudi Arabia and the United Arab Emirates for the development of tailored national versions of the ESCWA global economy-wide trade simulator interface and received – at the end of 2024 – an additional request from Tunisia on the same subject. It is expected that more requests of such nature will be received in 2025 and 2026 to guide trade decision-making in an increasingly complex global trade environment.

23.186 In 2026, subprogramme 3 will have enhanced its capabilities to accelerate its response to country requests for macroeconomic and trade modelling. It will further develop the network of Member States using ESCWA macroeconomic and trade modelling tools, encouraging knowledge and experience exchange among them and leveraging South-South cooperation in that area. Work on providing tools and evidence for sound economic policymaking under subprogramme 3 will be complemented by work under subprogramme 2 on advancing evidence-based social policymaking, also based on data and information derived from smart tools developed by ESCWA such as the Skills Monitor and the multidimensional poverty assist tool. ESCWA will continue to leverage cutting-edge technology, including artificial intelligence, in line with the UN 2.0 vision, for supporting member States in preparing youth for the future of work through provision of evidence on factors affecting the job market (skillsets in demand and inclusiveness), and in utilizing a nationalized multidimensional poverty index and the multidimensional poverty assist tool to assess drivers of poverty, including inequalities and exclusion, and devise resource optimization strategies to combat poverty.

23.187 The expected response will contribute to additional member States using those tools as, reflected in results 1 and 3 of subprogramme 3 and related performance measures, (see tables 23.41 and 23.42 respectively); and results 1 and 2 of subprogramme 2 and related performance measures (see tables 23.43 and 23.44 respectively), in the proposed programme budget for 2026 (A/80/6 (Sect. 22)).

Table 23.41
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Two member States (Yemen and State of Palestine) used national computable general equilibrium models	Three additional member States (Mauritania, Oman and United Arab Emirates) used computable general equilibrium models	Two member States (Oman and United Arab Emirates) have access to upgraded computable general equilibrium models	Two additional member States use computable general equilibrium models	One additional member States uses computable general equilibrium model

Table 23.42
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Arab trade simulator interface is available to member States	At least two member States have access to national global economy-wide trade simulator interfaces platforms	One member State applies global Economy-Wide Trade Simulator Interfaces to develop a bilateral trade agreement

Table 23.43
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Working-age populations in four member States (Jordan, Kuwait, Lebanon and Qatar) were enabled to identify job opportunities based on their skills through artificial intelligence-based Skills Monitor portal	Policymakers in 11 member States gained access to evidence on factors affecting the job market (skillsets in demand, inclusiveness)	Three academic institutions (Lebanese American University, Petra University, and Quds University) utilized the Skills Monitor as part of their career-planning support to graduates Two member States (Jordan and Qatar) adopted the ESCWA future of work initiative framework	Two member States develop policy frameworks aimed at boosting access to the labour market	One member State implements labour market policy to enhance market skills needed for the future of work

Table 23.44
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
One member State (State of Palestine) piloted a nationalized multidimensional poverty index	Two member States (Iraq and Somalia) adopted a nationalized multidimensional poverty index as a poverty analysis tool	Two member States (Egypt and Jordan) utilized a nationalized multidimensional poverty index and assist tool to assess drivers of poverty, including inequalities and exclusion	Two member States develop policy frameworks and/or strategies for the eradication of poverty	One additional member State develops a policy framework and /or strategy for the eradication of poverty

Member States develop and deploy development policies resilient to fragility and sudden shocks
(Result 3 of subprogramme 6 (A/80/6 (Sect. 22)))

Arab policymakers gain access to on-demand, reliable evidence enabled by artificial intelligence and geospatial capacities
(Result 1 of subprogramme 4 (A/80/6 (Sect. 22)))

23.188 As part of efforts to provide support to least developed countries and conflict-affected ones among its member States, such as the Sudan, Somalia and Yemen (belonging to both groups), subprogramme 6 of ESCWA has launched regional initiatives to operationalize the Doha Programme of Action for Least Developed Countries for the decade 2022–2031 and to foster transitions towards sustainable peace and development through a combined evidence-based and consensus-building approach that aligns national priorities in the humanitarian, development and peacebuilding fields. In 2024, ESCWA received a request from Yemen for support in operationalizing the Doha Programme of Action, and requests from Iraq, the Sudan and Yemen to operationalize the humanitarian-peace-development nexus approach in the three national contexts. In 2026, ESCWA expects to continue receiving such requests as almost half of its member States are either least developed countries or conflict-affected countries. It will thus enhance its capacity-building support to public institutions and other relevant national stakeholders to enable the design of policies that are resilient and responsive to crises.

23.189 Moreover, ESCWA member States, especially conflict-affected ones where data is difficult to access and public institutions are sometimes divided due to wars, are increasingly requesting provision by ESCWA of means to improve data availability, geospatial capabilities and evidence-based policymaking underpinned by data and analysis. In 2024, for example, the Sudan requested subprogramme 4 support in ensuring statistical business continuity in times of crisis, and ESCWA convened a regular programme of technical cooperation workshop with speakers from the national statistical offices of Libya, the Syrian Arab Republic and Yemen, as well as the State of Palestine, to present their own experiences on the subject, while presenting a technical paper on the subject with best global practice. ESCWA has also enhanced capacity of its own geospatial lab under subprogramme 4 and expects that its use for provision of data from innovative, non-traditional sources to member States will increase in 2026.

23.190 The expected responses would contribute to result 3 of subprogramme 6 and result 1 of subprogramme 4 and the related performance measures (see tables 23.45 and 23.46, respectively) in the proposed programme budget for 2026 (A/80/6 (Sect. 22)).

Table 23.45
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Nine member States (Iraq, Jordan, Lebanon, Libya, Palestine, Somalia, the Sudan, the Syrian Arab Republic and Yemen) adopted the regional standard operating procedure on operationalizing the integrated humanitarian, development and peace approaches in fragile settings	Two member States have enhanced capacity to integrate recovery readiness and resilience into sustainable development initiatives	Two member States develop integrated national recovery, resilience, and development strategies and/or plans

Table 23.46
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Member States gained access to additional national, regional and global (statistical and non-statistical) data sets	Member States gained access to centralized, regional data management and analytics platform (the Regional Collaboration Platform for Arab States data and policy support hub)	Four member States (Egypt, Jordan, Qatar and Tunisia) generated evidence and simulated policy options and related impacts through five artificial intelligence and geospatial-enabled, interactive tools	Member States have access to national data and policy dashboards through a one-stop shop for evidence-based policymaking	Three additional Member States successfully integrate at least two of the artificial intelligence- and data-driven tools into their policy development processes, resulting in the generation of actionable policy insights

B. Deliverables

Table 23.47
Economic and Social Commission for Western Asia: deliverables for the period 2024–2026, by category and subcategory

	2024 planned	*2024 actual*	*2025 planned*	*2026 planned*

Grants and contributions	461.2	1 349.9	277.2	20.5	1 627.1
Total	**5 231.9**	**5 392.6**	**331.5**	**6.1**	**5 724.1**

23.191 The proposed regular budget resources for 2026 amount to $5,724,100, reflecting an increase of $331,500 or 6.1 per cent, compared with the approved budget for 2025. The proposed increase is attributable mainly to increases under grants and contributions ($277,200), in line with expected requests in 2026 for additional capacity development activities from least developed countries among Member States and those that suffer from conflict and political instability, which pose additional capacity challenges, namely through the fellowship programme; and under other staff costs ($54,300). ESCWA will use all additional funds to focus more on capacity-building for its member States, especially small island developing States, least developed countries and countries in conflict and transition in this regard.

I. Office of the United Nations High Commissioner for Human Rights

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

24.1 The United Nations human rights programme is responsible for the promotion, protection, enjoyment and full realization, by all people, of all human rights. The mandate derives from the provisions of the Charter of the United Nations; the Universal Declaration of Human Rights and international human rights treaties; the Vienna Declaration and Programme of Action, including its principles and recommendations subsequently endorsed by the General Assembly in its resolution 48/121; Assembly resolution 48/141, by which the Assembly established the post of the United Nations High Commissioner for Human Rights; the outcomes of relevant United Nations conferences and summits, including Assembly resolution 70/1, entitled "Transforming our world: the 2030 Agenda for Sustainable Development"; and other relevant Assembly and Human Rights Council resolutions and decisions, including the Pact for the Future (Assembly resolution 79/1) and the Proclamation of the Second International Decade for People of African Descent (Assembly resolution 79/193). In addition to international human rights law, the programme is also guided by international humanitarian law, as applicable.

24.2 The programme is guided by the principles of universality, objectivity, impartiality, indivisibility and non-selectivity in removing obstacles to the full realization of all human rights and in preventing the continuation of human rights violations, including with relevant parties. The programme has a role in supporting the implementation by Member States of the 2030 Agenda, making development equitable, sustainable and responsive to the needs of people, including in relation to conflict prevention and resolution.

24.3 The programme falls under the leadership of the High Commissioner for Human Rights, who is entrusted with the principal responsibility for the human rights activities of the Organization, under the direction and authority of the Secretary-General and within the framework of the overall competence, authority and decisions of the General Assembly and the Human Rights Council.

Strategy and external factors for 2026

24.4 In a global context affected by threats to the enjoyment of human rights by all, the Office of the United Nations High Commissioner for Human Rights (OHCHR) will continue to support the human rights mechanisms and to assist States in their efforts to comply with their human rights obligations. Increased support for and collaboration in matters regarding human rights will be provided to requesting Member States through mutually agreed bilateral frameworks. Emphasis will be placed on highlighting the importance of human rights in international and national agendas; sustaining social development and social justice (as defined in General Assembly resolution 62/10) and countering discrimination on all grounds; advancing the rights of children and women; raising awareness of human rights; responding to the needs of the vulnerable for protection; and addressing situations of international concern as identified by the Assembly, the Human Rights Council and other relevant United Nations bodies.

24.5 The Office will continue to engage with Member States and all relevant actors to assist them in their efforts to promote and protect human rights, through the provision of technical assistance, support for human rights bodies and mechanisms and, where appropriate, the establishment or strengthening of regional and country presences. Strengthened and consolidated organizational support will be provided to the Human Rights Council and its subsidiary bodies and mechanisms, the universal

periodic review, the special procedures, the Human Rights Council Advisory Committee and the complaint procedure, as well as other relevant United Nations bodies. The United Nations treaty bodies will continue to be provided with services, support and advice.

24.6 With regard to cooperation with other entities at the global and regional levels, OHCHR will use multi-stakeholder partnerships to support countries in the achievement of the Sustainable Development Goals and its transformative promise of leaving no one behind. The Office will continue to engage with a wide range of stakeholders, including civil society actors, such as non-governmental organizations (NGOs). It will also continue to help victims of human rights violations by managing the humanitarian funds that provide financial assistance for support services, such as rehabilitation and redress for victims of torture and slavery.

24.7 With regard to inter-agency coordination and liaison, OHCHR will continue to engage with the United Nations development system, both through participation in inter-agency forums and cooperation with United Nations country teams on the ground. It will also continue to cooperate with missions with a human rights component supported by the Department of Political and Peacebuilding Affairs and the Department of Peace Operations. It will also continue its collaboration with all the United Nations agencies and programmes in crisis situations, such as humanitarian emergencies.

24.8 With regard to the external factors, the plan for 2026 is based on the following planning assumptions:

(a) There is political will on the part of States to work with the programme;

(b) Extrabudgetary resources will continue to be provided for the programme.

24.9 The programme integrates a gender perspective into its operational activities, deliverables and results, as appropriate. For example, subprogramme 2 will deliver capacity-building activities on the follow-up to treaty body recommendations, including those related to the Convention on the Elimination of All Forms of Discrimination against Women.

24.10 In line with the United Nations Disability Inclusion Strategy, OHCHR will integrate disability inclusion into its operational activities, deliverables and results, as appropriate. For example, subprogramme 1 will provide expert advice on the development of standards on strengthening national human rights promotion and protection capacities as they relate to persons with disabilities.

Legislative mandates

24.11 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

47/135	Declaration on the Rights of Persons Belonging to National or Ethnic, Religious and Linguistic Minorities	61/159	Composition of the staff of the Office of the United Nations High Commissioner for Human Rights
48/121	World Conference on Human Rights	61/166	Promotion of equitable and mutually respectful dialogue on human rights
48/141	High Commissioner for the promotion and protection of all human rights	62/134	Eliminating rape and other forms of sexual violence in all their manifestations, including in conflict and related situations
55/2	United Nations Millennium Declaration	65/1	Keeping the promise: united to achieve the Millennium Development Goals
57/195	The fight against racism, racial discrimination, xenophobia and related intolerance and the comprehensive implementation of and follow-up to the Durban Declaration and Programme of Action	65/312	Outcome document of the High-level Meeting of the General Assembly on Youth: Dialogue and Mutual Understanding
57/300; 58/269	Strengthening of the United Nations: an agenda for further change	66/288	The future we want
60/1	2005 World Summit Outcome		

67/1	Declaration of the high-level meeting of the General Assembly on the rule of law at the national and international levels
68/165	Right to the truth
68/181	Promotion of the Declaration on the Right and Responsibility of Individuals, Groups and Organs of Society to Promote and Protect Universally Recognized Human Rights and Fundamental Freedoms: protecting women human rights defenders
69/147	Intensification of efforts to eliminate all forms of violence against women and girls

70/133; 76/142	Follow-up to the Fourth World Conference on Women and full implementation of the Beijing Declaration and Platform for Action and the outcome of the twenty-third special session of the General Assembly
71/189	Declaration on the Right to Peace
74/143; 77/209	Torture and other cruel, inhuman or degrading treatment or punishment
74/144	Implementation of the Convention on the Rights of Persons with Disabilities and the Optional Protocol thereto: accessibility
75/161; 77/193	Intensification of efforts to prevent and eliminate all forms of violence against women and girls: gender stereotypes and negative social norms
75/201	Review of the United Nations peacebuilding architecture
75/314	Establishment of the Permanent Forum of People of African Descent
76/130; 78/171	Persons with albinism
76/141; 78/180	Violence against women migrant workers
76/147; 78/187	Rights of the child
76/153; 78/206	The human rights to safe drinking water and sanitation
76/154	Implementation of the Convention on the Rights of Persons with Disabilities and the Optional Protocol thereto: participation
76/158; 78/207	International Convention for the Protection of All Persons from Enforced Disappearance
76/162; 78/201	Human rights and cultural diversity
76/164; 78/197	Strengthening United Nations action in the field of human rights through the promotion of international cooperation and the importance of non-selectivity, impartiality and objectivity
76/168; 78/211	Effective promotion of the Declaration on the Rights of Persons Belonging to National or Ethnic, Religious and Linguistic Minorities
76/169; 78/210	Terrorism and human rights
76/172; 78/217	Protection of migrants
77/194; 79/154	Trafficking in women and girls
77/211; 79/175	The right to privacy in the digital age
77/218; 79/176	Extrajudicial, summary or arbitrary executions
77/223; 79/178	Human rights and extreme poverty
77/317	International Day of Care and Support
77/318	Promoting interreligious and intercultural dialogue and tolerance in countering hate speech
78/177; 79/147	Follow-up to the Second World Assembly on Ageing
78/186; 79/157	Report of the Human Rights Council
78/189; 79/159	Rights of Indigenous Peoples
78/190; 79/160	Combating glorification of Nazism, neo-Nazism and other practices that contribute to fuelling contemporary forms of racism, racial discrimination, xenophobia and related intolerance
78/191; 79/162	Use of mercenaries as a means of violating human rights and impeding the exercise of the right of peoples to self-determination
78/193; 79/164	Universal realization of the right of peoples to self-determination
78/196; 79/168	Promotion of a democratic and equitable international order
78/198; 79/171	The right to food
78/199; 79/166	Enhancement of international cooperation in the field of human rights
78/202; 79/167	Human rights and unilateral coercive measures
78/203; 79/170	The right to development
78/212; 79/174	Freedom of religion or belief
78/213	Promotion and protection of human rights in the context of digital technologies
78/216	Implementing the Declaration on the Right and Responsibility of Individuals, Groups and Organs of Society to Promote and Protect Universally Recognized Human Rights and Fundamental Freedoms through providing a safe and enabling environment for human rights defenders and ensuring their protection
78/234; 79/161	A global call for concrete action for the elimination of racism, racial discrimination, xenophobia and related intolerance and the comprehensive implementation of and follow-up to the Durban Declaration and Programme of Action
78/324	Consideration of decision 14/1 of the Open-ended Working Group on Ageing, entitled “Recommendations regarding the identification of possible gaps in the protection of the human rights of older persons and how best to address them”
79/1	The Pact for the Future
79/149	Inclusive development for and with persons with disabilities

79/152	Intensification of efforts to prevent and eliminate all forms of violence against women and girls: the digital environment
79/153	Intensifying global efforts for the elimination of female genital mutilation
79/154	Trafficking in women and girls
79/158	Child, early and forced marriage
79/169	Promotion of peace as a vital requirement for the full enjoyment of all human rights by all
79/172	Human rights in the administration of justice
79/173	Missing persons
79/176	Extrajudicial, summary or arbitrary executions

Security Council resolutions

2282 (2016)	
2558 (2020)	

Human Rights Council resolutions and decisions

Decision 2/102	Reports and studies of mechanisms and mandates
4/6	Strengthening of the Office of the United Nations High Commissioner for Human Rights
6/9	Development of public information activities in the field of human rights, including the World Public Information Campaign on Human Rights
6/30	Integrating the human rights of women throughout the United Nations system
S-7/1	The negative impact of the worsening of the world food crisis on the realization of the right to food for all
8/4; 44/3; 47/6; 53/7	The right to education
S-10/1	The impact of the global economic and financial crises on the universal realization and effective enjoyment of human rights
12/2; 24/24; 36/21; 42/28; 48/17; 54/24	Cooperation with the United Nations, its representatives and mechanisms in the field of human rights
12/10	Follow-up to the seventh special session of the Human Rights Council on the negative impact of the worsening of the world food crisis on the realization of the right to food for all
14/5; 42/6	The role of prevention in the promotion and protection of human rights
16/1	United Nations Declaration on Human Rights Education and Training
16/15	Role of international cooperation in support of national efforts for the realization of the rights of persons with disabilities
Decision 18/117	Reporting by the Secretary-General on the question of the death penalty
19/23	Forum on Minority Issues
21/7	Right to the truth
21/15; 42/17; 51/23	Human rights and transitional justice
21/18	Human rights and issues related to terrorist hostage-taking
22/11	Panel on the human rights of children of parents sentenced to the death penalty or executed
24/35	Impact of arms transfers on human rights in armed conflicts
Decision 24/118	Establishment of a special fund for the participation of civil society in the Social Forum, the Forum on Minority Issues and the Forum on Business and Human Rights
28/16; 37/2; 46/16; 55/3	Mandate of the Special Rapporteur on the right to privacy
28/28	Contribution of the Human Rights Council to the special session of the General Assembly on the world drug problem of 2016
32/20; 35/22; 47/5; 54/19	Realizing the equal enjoyment of the right to education by every girl
35/21; 47/11; 53/28	The contribution of development to the enjoyment of all human rights
36/9; 39/9; 42/23; 45/6; 48/10; 51/7; 54/18; 57/19	The right to development
37/2; 42/15; 54/21	The right to privacy in the digital age
37/5; 46/12	Mandate of the Independent Expert on the enjoyment of human rights by persons with albinism
37/6; 45/9; 51/5; 57/5	The role of good governance in the promotion and protection of human rights
37/8; 46/7	Human rights and the environment
37/12; 46/9	Mandate of the Special Rapporteur in the field of cultural rights
37/23; 46/13	Promoting mutually beneficial cooperation in the field of human rights
37/24; 43/19; 52/14	Promotion and protection of human rights and the implementation of the 2030 Agenda for Sustainable Development
37/27; 42/18; 45/11; 51/24; 57/11	Terrorism and human rights
38/3; 47/9; 50/4; 53/11; 56/2	Enhancement of international cooperation in the field of human rights
38/6; 44/16; 50/16	Elimination of female genital mutilation

38/7; 47/16; 57/29	The promotion, protection and enjoyment of human rights on the Internet
39/5; 42/9; 48/5; 54/3; 57/8	The use of mercenaries as a means of violating human rights and impeding the exercise of the right of peoples to self determination
39/8; 42/5; 51/19; 57/13	The human rights to safe drinking water and sanitation
39/13; 45/12; 48/11; 51/18; 54/12; 57/15	Human rights and Indigenous Peoples
40/3; 43/15; 46/5; 49/6; 52/13; 55/7	The negative impact of unilateral coercive measures on the enjoyment of human rights
40/7; 43/11; 46/19; 52/16; 55/4	The right to food
40/10; 46/6; 49/5; 52/6; 55/16	Freedom of religion or belief
41/20; 47/17; 53/15	Impact of arms transfers on human rights
42/1	Composition of the staff of the Office of the United Nations High Commissioner for Human Rights
42/12; 48/3; 51/4; 54/13	Human rights of older persons
44/20; 56/10	The promotion and protection of human rights in the context of peaceful protests
45/13; 50/12	Human rights and the regulation of civilian acquisition, possession and use of firearms
45/31	The contribution of the Human Rights Council to the prevention of human rights violations
Decision 45/113	Postponement of the implementation of certain activities mandated by the Human Rights Council
46/15; 52/7	Torture and other cruel, inhuman or degrading treatment or punishment: the roles and responsibilities of police and other law enforcement officials
47/5; 54/19	Realization of the equal enjoyment of the right to education by every girl
47/10; 50/8; 56/4	Human rights and international solidarity
47/12; 57/14	The human rights of migrants
47/24; 50/9; 53/6; 56/8	Human rights and climate change
48/4; 54/21	Right to privacy in the digital age
48/8; 51/11; 54/4; 57/7	Promotion of a democratic and equitable international order
48/9; 54/35	Question of the death penalty
48/14	Mandate of the Special Rapporteur on the promotion and protection of human rights in the context of climate change
49/13; 55/4	Mandate of Special Rapporteur on the right to food
50/13	Access to medicines, vaccines and other health products in the context of the right of everyone to the enjoyment of the highest attainable standard of physical and mental health
51/13	Mandate of the Working Group on the use of mercenaries as a means of violating human rights and impeding the exercise of the right of peoples to self determination
51/14	The role of prevention in the promotion and protection of human rights: rule of law and accountability
51/32	From rhetoric to reality: a global call for concrete action against racism, racial discrimination, xenophobia and related intolerance
52/17; 55/6	Mandate of Independent Expert on the effects of foreign debt and other related international financial obligations of States on the full enjoyment of all human rights, particularly economic, social and cultural rights
52/19	Commemoration of the seventy-fifth anniversary of the Universal Declaration of Human Rights and the thirtieth anniversary of the Vienna Declaration and Programme of Action
53/1	Countering religious hatred constituting incitement to discrimination, hostility or violence
53/16	The right to a nationality: equality in nationality rights in law and in practice
53/23	Child, early and forced marriage: ending and preventing forced marriage
53/27	Accelerating efforts to eliminate all forms of violence against women and girls: preventing and responding to all forms of violence against women and girls in criminal justice detention
54/4	Mandate of Independent Expert on the promotion of a democratic and equitable international order
54/9	Working group on the rights of peasants and other people working in rural areas
54/14	Enforced or involuntary disappearances
54/26	Mandate of the Working Group of Experts on People of African Descent
55/2	Mandate of Special Rapporteur on the human right to a clean, healthy and sustainable environment
55/9	The right to work
55/15	Rights of persons belonging to national, ethnic, religious and linguistic minorities.
55/17	Human rights and a culture of peace
Decision 55/115	Postponement of the implementation of certain activities mandated by the Human Rights Council

56/4	Human rights and international solidarity
56/9	Human rights and the civilian acquisition, possession and use of firearms
56/19	Technology-facilitated gender-based violence
56/20	The Human in the context of HIV and AIDS
Decision 56/117	Plastic pollution implications on the full enjoyment of human rights
57/4	Marking the thirtieth anniversary of the Beijing Declaration and Platform for Action
57/6	Countering cyberbullying
57/9	Social reintegration of persons released from detention and persons subjected to non-custodial measures
57/16	Promoting accessibility for the full enjoyment of all human rights by all
57/24	Education as a tool to prevent racism, racial discrimination, xenophobia and related intolerance
57/28	Biodiversity and human rights

Subprogramme 1
Human rights mainstreaming, right to development, and research and analysis

General Assembly resolutions

41/128	Declaration on the right to development
50/156; 53/130	United Nations Voluntary Fund for Indigenous Populations
59/113 A and B	World Programme for Human Rights Education
59/174	Second International Decade of the World's Indigenous People
60/142	Programme of Action for the Second International Decade of the World's Indigenous People
60/147	Basic Principles and Guidelines on the Right to a Remedy and Reparation for Victims of Gross Violations of International Human Rights Law and Serious Violations of International Humanitarian Law
64/290	The right to education in emergency situations
65/186	Realizing the Millennium Development Goals for persons with disabilities towards 2015 and beyond
65/277	Political Declaration on HIV and AIDS: Intensifying our Efforts to Eliminate HIV and AIDS
66/124	High-level Meeting of the General Assembly on the realization of the Millennium Development Goals and other internationally agreed development goals for persons with disabilities
66/137	United Nations Declaration on Human Rights Education and Training
66/149	World Down Syndrome Day
66/285	Support by the United Nations system of the efforts of Governments to promote and consolidate new or restored democracies
67/139	Towards a comprehensive and integral international legal instrument to promote and protect the rights and dignity of older persons
68/135; 77/188	Implementation of the outcome of the World Summit for Social Development and of the twenty-fourth special session of the General Assembly
68/173	Follow-up to the International Year of Human Rights Learning
68/224; 74/232	Follow-up to the Fourth United Nations Conference on the Least Developed Countries
68/225	Specific actions related to the particular needs and problems of landlocked developing countries: outcome of the International Ministerial Conference of Landlocked and Transit Developing Countries and Donor Countries and International Financial and Development Institutions on Transit Transport Cooperation
68/238; 69/217	Follow-up to and implementation of the Mauritius Strategy for the Further Implementation of the Programme of Action for the Sustainable Development of Small Island Developing States
69/2	Outcome document of the high-level plenary meeting of the General Assembly known as the World Conference on Indigenous Peoples
69/170	International Albinism Awareness Day
69/313	Addis Ababa Action Agenda of the Third International Conference on Financing for Development (Addis Ababa Action Agenda)
70/164	Measures to enhance the promotion and protection of the human rights and dignity of older persons
70/170	Towards the full realization of an inclusive and accessible United Nations for persons with disabilities
70/176	Taking action against gender-related killing of women and girls
71/165	Inclusive development for persons with disabilities
72/161	International Day of Sign Languages
72/164; 74/158	Strengthening the role of the United Nations in enhancing periodic and genuine elections and the promotion of democratization

72/165	International Day of Remembrance and Tribute to the Victims of Terrorism
72/180	Protection of human rights and fundamental freedoms while countering terrorism
72/185	Globalization and its impact on the full enjoyment of all human rights
72/194	Technical assistance for implementing the international conventions and protocols related to counter-terrorism
72/247	Twentieth anniversary and promotion of the Declaration on the Right and Responsibility of Individuals, Groups and Organs of Society to Promote and Protect Universally Recognized Human Rights and Fundamental Freedoms
73/161	World Braille Day
73/165	United Nations Declaration on the Rights of Peasants and Other People Working in Rural Areas
73/173	Promotion and protection of human rights and fundamental freedoms, including the rights to peaceful assembly and freedom of association
73/195	Global Compact for Safe, Orderly and Regular Migration
73/209; 79/128	Protection of persons in the event of disasters
75/156	Strengthening national and international rapid response to the impact of the coronavirus disease (COVID-19) on women and girls
75/157	Women and girls and the response to the coronavirus disease (COVID-19)
75/166; 77/201	Protecting children from bullying
75/170	International Day for People of African Descent
75/199; 77/268	Education for democracy
76/146; 78/188	The girl child
76/174	Implementing the Declaration on the Right and Responsibility of Individuals, Groups and Organs of Society to Promote and Protect Universally Recognized Human Rights and Fundamental Freedoms through providing a safe and enabling environment for human rights defenders and ensuring their protection, including in the context of and recovery from the coronavirus disease (COVID-19) pandemic
76/175	Ensuring equitable, affordable, timely and universal access for all countries to vaccines in response to the coronavirus disease (COVID-19) pandemic
76/227	Countering disinformation for the promotion and protection of human rights and fundamental freedoms
77/196; 79/155	Intensification of efforts to end obstetric fistula
77/222; 79/179	Moratorium on the use of the death penalty
77/236; 79/189	Strengthening and promoting effective measures and international cooperation on organ donation and transplantation to prevent and combat trafficking in persons for the purpose of organ removal and trafficking in human organs
78/115; 79/129	Measures to eliminate international terrorism
78/208	Strengthening the role of the United Nations in the promotion of democratization and enhancing periodic and genuine elections
78/214; 79/180	Combating intolerance, negative stereotyping, stigmatization, discrimination, incitement to violence and violence against persons, based on religion or belief
78/215	The safety of journalists and the issue of impunity
78/228	Improving the coordination of efforts against trafficking in persons
78/234; 79/161	A global call for concrete action for the total elimination of racism, racial discrimination, xenophobia and related intolerance and the comprehensive implementation of and follow-up to the Durban Declaration and Programme of Action
79/126	The rule of law at the national and international levels
79/193	Proclamation of the Second International Decade for People of African Descent
79/195	International trade and development
79/226	Quadrennial comprehensive policy review of operational activities for development of the United Nations system

Human Rights Council resolutions and decisions

Decision 3/103	Global efforts for the total elimination of racism, racial discrimination, xenophobia and related intolerance and the comprehensive follow-up to the World Conference against Racism, Racial Discrimination, Xenophobia and Related Intolerance and the effective implementation of the Durban Declaration and Programme of Action
4/5	Globalization and its impact on the full enjoyment of all human rights
4/7	Rectification of the legal status of the Committee on Economic, Social and Cultural Rights
6/1	Protection of cultural rights and property in situations of armed conflict
6/11	Protection of cultural heritage as an important component of the promotion and protection of cultural rights
8/2	Optional Protocol to the International Covenant on Economic, Social and Cultural Rights
9/9	Protection of the human rights of civilians in armed conflict
11/12	Intergovernmental Working Group on the effective implementation of the Durban Declaration and Programme of Action
15/5	Forensic genetics and human rights
17/22	Migrants and asylum-seekers fleeing recent events in North Africa
21/3	Promoting human rights and fundamental freedoms through a better understanding of traditional values of humankind: best practices
22/11	Panel on the human rights of children of parents sentenced to the death penalty or executed
25/20	The right of persons with disabilities to education
26/9	Elaboration of an international legally binding instrument on transnational corporations and other business enterprises with respect to human rights
27/31; 27/31/Corr.1; 32/31; 38/12; 53/13	Civil society space
28/3	Ensuring use of remotely piloted aircraft or armed drones in counter-terrorism and military operations in accordance with international law, including international human rights and humanitarian law
31/6	The rights of persons with disabilities in situations of risk and humanitarian emergencies
32/5	Human rights and arbitrary deprivation of nationality
33/11	Preventable mortality and morbidity of children under 5 years of age as a human rights concern
33/25	Expert Mechanism on the Rights of Indigenous Peoples
34/33	Establishment of a forum on people of African descent
34/36	Elaboration of complementary standards to the International Convention on the Elimination of All Forms of Racial Discrimination
35/13	Protection of the family: role of the family in supporting the protection and promotion of human rights of older persons
35/17	Protection of the human rights of migrants: the global compact for safe, orderly and regular migration
35/30	Consideration of the elaboration of a draft declaration on the promotion and full respect of human rights of people of African descent
36/5	Unaccompanied migrant children and adolescents and human rights
36/18; 51/6	Conscientious objection to military service
37/3	Integrity of the judicial system
37/20	Rights of the child: protection of the rights of the child in humanitarian situations
37/22	Equality and non-discrimination of persons with disabilities and the right of persons with disabilities to access to justice
38/8; 47/14	Human rights in the context of HIV and AIDS
38/12	Civil society space: engagement with international and regional organizations
38/19; 53/21	The incompatibility between democracy and racism
39/3; 51/2; 54/7; 57/10	World Programme for Human Rights Education
39/10	Preventable maternal mortality and morbidity and human rights in humanitarian settings
40/11	Recognizing the contribution of environmental human rights defenders to the enjoyment of human rights, environmental protection, and sustainable development
40/14	Rights of the child: empowering children with disabilities for the enjoyment of their human rights, including through inclusive education
40/15	Thirtieth anniversary of the Convention on the Rights of the Child
41/4	Promotion of the right to peace

41/10	Access to medicines and vaccines in the context of the right of everyone to the enjoyment of the highest attainable standard of physical and mental health
42/7	World Programme for Human Rights Education: adoption of the plan of action for the fourth phase
42/11	Human rights in the administration of justice, including juvenile justice
42/13	The right to social security
42/14	Marking the twenty-fifth anniversary of the Beijing Declaration and Platform for Action
43/1	The promotion and protection of the human rights and fundamental freedoms of Africans and of people of African descent against excessive use of force and other human rights violations by law enforcement officers
43/18	Promoting human rights through sport and the Olympic ideal
43/23	Awareness-raising on the rights of persons with disabilities, and habilitation and rehabilitation
44/2	The central role of the State in responding to pandemics and other health emergencies, and the socioeconomic consequences thereof in advancing sustainable development and the realization of all human rights
44/14	Fifteenth anniversary of the responsibility to protect populations from genocide, war crimes, ethnic cleansing and crimes against humanity, as enshrined in the 2005 World Summit Outcome
44/23	Contribution of respect for all human rights and fundamental freedoms to achieving the purposes and upholding the principles of the Charter of the United Nations

Deliverables

24.12 Table 24.1 lists all cross-cutting deliverables of the programme.

Table 24.1
Cross-cutting deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**2**	**2**	**2**	**2**
1. Reports to the General Assembly	1	1	1	1
2. Reports to the Human Rights Council	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	**34**	**35**	**34**	**34**
Meetings of:				
3. The Committee for Programme and Coordination	1	1	1	1
4. The Advisory Committee on Administrative and Budgetary Questions	1	2	1	1
5. The General Assembly (Third and Fifth Committees)	32	32	32	32
B. Generation and transfer of knowledge				
Fact-finding, monitoring and investigation missions (number of missions)	**6**	**11**	**3**	**3**
6. Commissions of inquiry	6	11	3	3
C. Substantive deliverables				
Good offices: engagement with government officials.				
D. Communication deliverables				
Outreach programmes, special events and information materials: booklets, pamphlets, fact sheets, wallcharts and information kits; and the programme's website, including in the six official languages, and presence on social media.				

Evaluation activities

24.13 The following evaluations completed in 2024 by the Office have guided the proposed programme plan for 2026:

(a) Evaluations of country programmes in Cambodia and Ukraine;

(b) Project evaluation on addressing human rights, migration and climate change in the Sahel region.

24.14 In response to the results of the evaluations referenced above, several programme strategies, theories of change and planning frameworks have been updated or developed. For example, the theory of change for the Cambodia country programme has been strengthened, in particular on expanding the work on economic, social and cultural rights, and the multi-year strategy for the Ukraine country programme has been revised and the rapid response capacity strengthened. Lastly, in response to evaluation findings on the project in the Sahel region, the strategy of the OHCHR West Africa regional office has been updated to integrate considerations related to migration and climate change. Consistent with the formative approach of evaluations in OHCHR, the organizational learning

derived from these evaluations have informed not only the country and regional presences where the evaluations took place, but also overall strategic programme directions.

24.15 The following evaluations are planned for 2026:

(a) One cross-cutting thematic evaluation;

(b) Three programme/project evaluations.

Programme of work

Subprogramme 1
Human rights mainstreaming, right to development, and research and analysis

(a) Human rights mainstreaming

Objective

24.16 The objective, to which this subprogramme contributes, is to advance the promotion and protection of all human rights through strengthened integration of all human rights into areas of work of the United Nations system.

Strategy

24.17 To contribute to the objective, the subprogramme will:

(a) Lead cooperation within the United Nations system for the integration of human rights into United Nations programmes and activities;

(b) Promote the practical integration of human rights into development programmes, ensuring consistency and mutual reinforcement between United Nations-supported development activities and country engagement strategies that are jointly agreed upon with the Member States;

(c) Contribute to developing the capability and knowledge of the United Nations system regarding relevant human rights issues through training and advice, taking into account disability and mainstreaming a gender perspective;

(d) Develop methodological tools to facilitate the practical integration of human rights into United Nations policies, programmes and activities and, where appropriate, the advancement of the practical application of approaches to that end.

24.18 The above-mentioned work is expected to result in:

(a) The United Nations system further integrating human rights into its respective programmes and activities;

(b) Member States, pursuant to their request for support, building and strengthening national human rights promotion and protection capacities.

Programme performance in 2024

Increased mainstreaming of human rights in intergovernmental processes on the digital sphere and digital technologies

24.19 The Human Rights Council, in its resolution 53/29, reaffirmed the need for all stakeholders to collaborate in a more concerted way in addressing the possible impacts, opportunities and challenges of new and emerging digital technologies with regard to the promotion and protection of human rights. In 2024, the subprogramme enhanced its engagement with Member States to integrate human rights considerations into intergovernmental processes addressing the use of digital technologies. For example, the subprogramme provided advice in the negotiation process for the Global Digital Compact and for the United Nations Convention against Cybercrime. In addition, in 2024, pursuant to the abovementioned resolution, the subprogramme prepared a report for consideration by the Council (A/HRC/56/45) mapping the work and recommendations of the Council, OHCHR, the human rights treaty bodies and the special procedures of the Council in the field of human rights and new and emerging digital technologies, including artificial intelligence. The subprogramme also finalized the development of the Guidance of the Secretary-General on Human Rights Due Diligence for Digital Technology Use and convened an expert consultation on applying the Guiding Principles on Business and Human Rights to the activities of technology companies.

24.20 Progress towards the objective is presented in the performance measure below (see table 24.2).

Table 24.2
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Intergovernmental agreements and processes, such as the Global Digital Compact and the United Nations Convention against Cybercrime, reflect considerations related to human rights Wide use of A/HRC/56/45 by Member States, Human Rights Council mechanisms and other stakeholders as basis for further discussions and new initiatives on applying human rights in the context of digital technologies

Planned results for 2026

Result 1: increased understanding of the challenges for the protection and promotion of the human rights of future generations

Programme performance in 2024 and target for 2026

24.21 The subprogramme's work contributed to improved understanding of the challenges for the protection and promotion of human rights and to discussions of Member States on the Declaration on Future Generations being informed by relevant human rights norms and standards, which met the planned target.

24.22 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 24.3).

Table 24.3
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Strengthened cooperation with United Nations system entities to enhance a shared understanding of human rights and implications of the elements paper for the Declaration on Future Generations	Inter-agency coordination and human rights analysis is enhanced, to support intergovernmental negotiations for the development of the Declaration on Future Generations in preparation for the Summit of the Future in 2024	Discussions of Member States on the Declaration on Future Generations were informed by relevant human rights norms and standards	The protection and promotion of human rights informs agreed follow-up to the Summit of the Future, as applicable	Increased participation of young people in intergovernmental bodies and processes, including the Human Rights Council, to broaden the understanding of challenges for the human rights of future generations

Result 2: international human rights standards on economic, social and cultural rights are integrated into the development of State budgets

Programme performance in 2024 and target for 2026

24.23 The subprogramme's work contributed to Member States having access to tools to support integration of international human rights standards into budget processes, which met the planned target.

24.24 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 24.4).

Table 24.4
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Member States have access to tools to support integration of international human rights standards into budget processes	Member States, pursuant to their request for support, integrate international human rights standards related to economic, social and cultural rights into budget processes	Member States, pursuant to their request for support, enhance transparency, participation and accountability in budgetary decision-making

Result 3: increased promotion and protection of human rights in national policies and practices through the economic, social and cultural rights knowledge hub

Proposed programme plan for 2026

24.25 In response to Human Rights Council resolution 54/22, the subprogramme established the economic, social and cultural rights knowledge hub dedicated to technical assistance and capacity-building, to consolidate best practices and know-how in promoting and protecting economic, social and cultural rights, within the context of addressing inequalities for Member States and relevant stakeholders.

Lessons learned and planned change

24.26 The lesson for the subprogramme was that the collection of baseline data and the inclusion of metrics can enhance the sharing of best practices. In applying the lesson, the subprogramme will strengthen the collection of data to document measurable improvements for the integration of human rights in national policies and practices. The subprogramme will focus its technical assistance and capacity-building on practices that have a positive impact on the realization of economic, social and cultural rights, and will increase peer-learning and improve the availability of knowledge products.

24.27 Expected progress towards the objective is presented in the performance measure below (see table 24.5).

Table 24.5
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Human Rights Council resolution 54/22 was adopted	Member States and relevant stakeholders have access to an enhanced offer of technical assistance and capacity-building about economic, social and cultural rights from the knowledge hub to inform their decisions	An online platform is available to Member States and other stakeholders, as part of the knowledge hub	Member States and other relevant stakeholders strengthen the implementation of measures to advance economic, social and cultural rights and their integration in national policies and practices.

Deliverables

24.28 Table 24.6 lists all deliverables of the subprogramme.

Table 24.6
Subprogramme 1 (a): deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**3**	**3**	**3**	**3**
1. Report to the General Assembly	1	1	1	1
2. Report to the Human Rights Council	2	2	2	2
Substantive services for meetings (number of three-hour meetings)	**1**	**1**	**1**	**1**
3. Meetings of the Human Rights Council: thematic plenary panel on human rights mainstreaming	1	1	1	1
B. Generation and transfer of knowledge				
Publications (number of publications)	**2**	**2**	**2**	**2**
4. On human rights and the sustainable development agenda; and on environmental perspectives and human rights	2	2	2	2

Technical materials (number of materials)	**10**	**10**	**10**	**10**
5. On strengthening national protection systems, areas of human rights protection, institution-building, education and compilation of best practices on the integration of human rights aspects into United Nations policies and programmes	10	10	10	10
C. Substantive deliverables				
Consultation, advice and advocacy: advice to United Nations entities and to Member States, at their request, on the development of standards on strengthening national human rights promotion and protection capacities; integration of human rights aspects into relevant areas.				

(b) Right to development

Objective

24.29 The objective, to which this subprogramme contributes, is to advance the promotion and protection of the effective enjoyment by all of all human rights through the effective realization of the right to development.

Strategy

24.30 To contribute to the objective, the subprogramme will pursue a multidimensional strategy. The subprogramme will:

(a) Enhance awareness, knowledge and understanding about the content and importance of the right to development and identify obstacles at the international, regional and national levels, through increased engagement, research, advocacy and information and educational activities, with particular focus on least developed countries, landlocked developing countries and small island developing States;

(b) Promote the realization of the right to development across the human rights programme and encourage relevant bodies of the United Nations system, as well as funds and specialized agencies, to integrate the right to development into their work and increase focus on its practical implementation;

(c) Strengthen partnerships and collaboration with Member States, development agencies and international development, financial and trade institutions and civil society, including NGOs and the private sector;

(d) Encourage the promotion of the right to development in global development partnerships for the implementation by Member States of the 2030 Agenda, through cooperation and collaboration, advocacy, networking and technical advice and the establishment of partnerships, and in keeping with existing mandates;

(e) Provide substantive support to the Human Rights Council and its subsidiary mechanisms related to the right to development, including the Intergovernmental Working Group on the Right to Development, the Expert Mechanism on the Right to Development and the Human Rights Council biennial panel on the right to development;

(f) Provide requesting Member States with technical assistance to formulate national development strategies, such as poverty reduction papers, Sustainable Development Goals strategies and the United Nations Sustainable Development Cooperation Frameworks, taking into account the full respect of all human rights.

24.31 The above-mentioned work is expected to result in the integration of the promotion and protection of the right to development in global partnerships for development and policies and operational activities of relevant actors at all levels.

Programme performance in 2024

Increased integration of human rights norms and standards into intergovernmental processes related to financing for development

24.32 Drawing on the efforts to operationalize the right to development, the subprogramme supports efforts by Member States to reform the current international financial architecture with the objective to leave no one behind. The subprogramme worked to ensure that human rights are integrated across intergovernmental processes relevant to the United Nations Framework Convention on International Tax Cooperation and to inform the negotiations of the Fourth International Conference on Financing for Development on human rights issues related to debt, international financial institutions and development cooperation through, inter alia, submissions of policy briefs, coordination with stakeholders, including civil society, and advocacy with co-facilitators of the Conference and Member States.

24.33 Progress towards the objective is presented in the performance measure below (see table 24.7).

Table 24.7
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Human rights were included as one of the principles in the terms of reference for the United Nations Framework Convention on International Tax Cooperation

Planned results for 2026

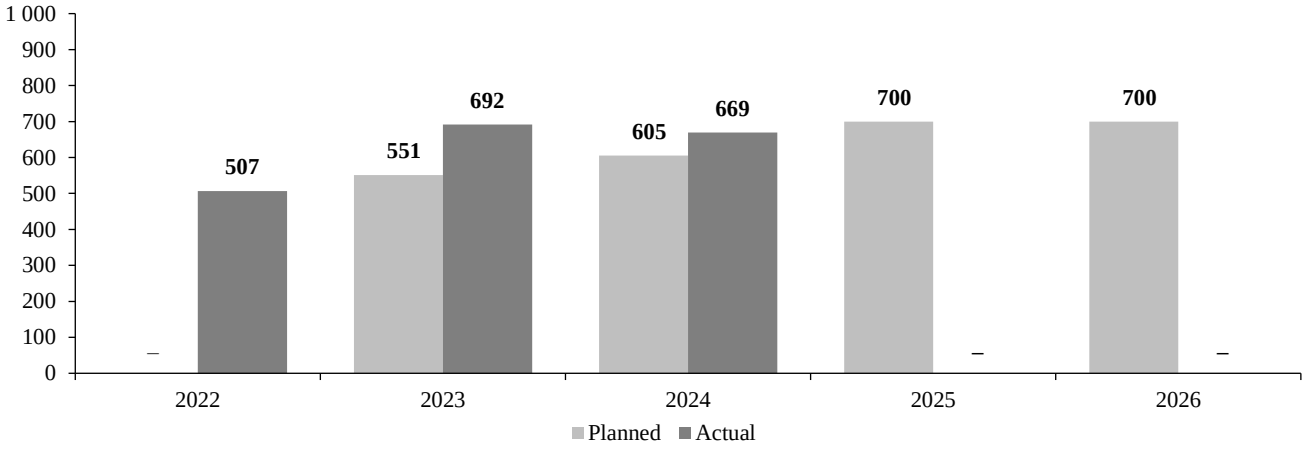
Result 1: increased participation in the Social Forum

Programme performance in 2024 and target for 2026

24.34 The subprogramme's work contributed to 669 participants attending the Social Forum of the Human Rights Council, which exceeded the planned target of 605.

24.35 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 24.I).

Figure 24.I
Performance measure: number of participants attending the Social Forum of the Human Rights Council (annual)



Result 2: anti-corruption policies and practices to address the negative impact of corruption on the enjoyment of human rights

Programme performance in 2024 and target for 2026

24.36 The subprogramme's work contributed to Member States having access to guidance on developing anti-corruption policies and practices to address the negative impact of corruption on the enjoyment of human rights, which met the planned target.

24.37 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 24.8).

Table 24.8
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Increased awareness of the nexus between corruption and human rights in accordance with Human Rights Council resolution 53/17	Member States have access to guidance on developing anti-corruption policies and practices to address the negative impact of corruption on the enjoyment of human rights	Member States, pursuant to their request for support, develop anti-corruption policies and practices to address the negative impact of corruption on the enjoyment of human rights United Nations country teams strengthen their programmes on anti-corruption and human rights	Increased number of Member States develop anti-corruption policies and practices to address the negative impact of corruption on the enjoyment of human rights

Result 3: strengthened promotion and protection of the right to development

Proposed programme plan for 2026

24.38 In line with Human Rights Council resolution 57/19, the subprogramme will engage in advocacy, research, regional technical support and capacity-building at the regional level to enhance support for the promotion and protection of the right to development.

Lessons learned and planned change

24.39 The lesson for the subprogramme was the need to address specific challenges and enhance the practical application of the right to development at both regional and national levels. In applying the lesson, the subprogramme will work closely with regional and national actors, to develop practical tools and methodologies to operationalize the right to development and will facilitate the identification and sharing of practical experiences.

24.40 Expected progress towards the objective is presented in the performance measure below (see table 24.9).

Table 24.9
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Strengthened collaboration on issues relating to the promotion and protection of the right to development between Member States, development agencies, international development institutions, financial and trade institutions, civil society and the private sector	Member States and regional stakeholders further integrate the right to development into national and regional development frameworks	Member States and other relevant actors access tailored tools and methodologies to promote the right to development

Deliverables

24.41 Table 24.10 lists all deliverables of the subprogramme.

Table 24.10
Subprogramme 1 (b): deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**13**	**13**	**12**	**12**
1. Reports to the General Assembly	1	1	1	1

B. Generation and transfer of knowledge				
Technical materials (number of materials)	**12**	**12**	**12**	**12**
7. Methodological tools and training material on the right to development	8	8	8	8
8. Research and analysis papers on the right to development	4	4	4	4
C. Substantive deliverables				
Consultation, advice and advocacy: expert advice to Member States, at their request, United Nations entities and others on the promotion of human rights, including on the development of related standards and implementation of the right to development.				
D. Communication deliverables				
Outreach programmes, special events and information materials: information products on the right to development, including in national development strategies.				

(c) Research and analysis

Objective

24.42 The objective, to which this subprogramme contributes, is to advance the promotion and protection of the effective enjoyment by all of all human rights through increased knowledge, awareness and understanding.

Strategy

24.43 To contribute to the objective, the subprogramme will:

(a) Enhance the research and analysis of human rights issues, as well as the development and application of expertise in different areas, including, but not limited to, areas such as the elimination of all forms of discrimination; the rule of law, democracy and good governance; the integration of human rights into counter-terrorism and anti-trafficking measures; the implementation of the Sustainable Development Goals and poverty reduction strategies and programmes; and the protection of human rights in the context of the fight against terrorism and business activities, including in the areas of new and emerging digital technologies;

(b) Advocate for the indivisibility, interdependence and interrelatedness of all human rights, through research, policy-oriented analysis, support to standard-setting, advocacy, the compilation of best practices and improved knowledge management and knowledge-sharing;

the provision of specialized human rights services; the development of methodologies, operational guidelines and tools; capacity-building and international cooperation; and the development and delivery of human rights training, for example, within the framework of the World Programme for Human Rights Education and the Global Digital Compact;

(c) Further develop and strengthen substantive and methodological human rights expertise to support effective engagement with countries and with global and national-level partnerships, and lead efforts within the United Nations system to meet current human rights challenges;

(d) Provide advice and assistance to requesting Member States, the United Nations system, civil society, the media and national human rights institutions in their efforts to overcome human rights implementation gaps, promote the participation and protection of rights holders, through technical cooperation, advocacy, training, policy development, analysis and advice;

(e) Follow up and implement the Durban Declaration and Programme of Action, the outcome document of the Durban Review Conference and related declarations and the programme of activities for the implementation of the Second International Decade for People of African Descent (2025–2034).

24.44 The above-mentioned work is expected to result in enhanced knowledge, awareness and understanding of human rights issues.

Programme performance in 2024

Recognition of the value of human rights in climate action by a growing number of stakeholders

24.45 The subprogramme has undertaken extensive research and analysis with respect to advancing human rights solutions in addressing issues related to climate change, particularly in the context of accountability and remediation. The 2024 reports of the Secretary-General on loss and damage (mandated by resolution 53/6), and of the High Commissioner for Human Rights on the legacy of nuclear testing in the Marshall Islands (mandated by resolution 51/35), explored the potential application of elements of a transitional justice approach to efforts to ensure accountability and access to remedy.

24.46 Progress towards the objective is presented in the performance measure below (see table 24.11).

Table 24.11
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Member States increased their commitments to the right to a healthy environment and to integrate human rights in key environmental negotiations and their outcomes	The Intergovernmental Panel on Climate Change, in its Sixth Assessment Report, found that adaptation and mitigation actions that prioritise, among other aspects, rights-based approaches, lead to more sustainable outcomes and support transformative change The Global Framework on Chemicals – for a Planet Free of Harm from Chemicals and Waste reflected a recognition of the linkages between human rights and pollution	The importance of human rights and equity-based approaches to loss and damage from climate change was recognized by stakeholders, including Member States, during meetings of the Human Rights Council and the United Nations Framework Convention on Climate Change The Human Rights Council adopted resolutions 56/8 on human rights and climate change and 57/26 on the human rights implications of the nuclear legacy in the Marshall Islands

Planned results for 2026

Result 1: promoting and protecting economic, social and cultural rights within the context of addressing inequalities in the recovery from the coronavirus disease (COVID-19) pandemic

Programme performance in 2024 and target for 2026

24.47 The subprogramme's work contributed to Member States having access to guidance on access to medicines, vaccines and other health products, which met the planned target for 2024.

24.48 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 24.12).

Table 24.12
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
The Human Rights Council, in its resolution 50/13, identified challenges in ensuring access to medicines, vaccines and other health products identified by the Human Rights Council Human rights group established within the United Nations Inter-Agency Task Force on the Prevention and Control of Non-communicable Diseases	Member States considered a report on access to medicines and therapies, rare diseases, and guidance on mental health, human rights and legislation	Member States have access to guidance on access to medicines, vaccines and other health products in the context of the right of everyone to the highest attainable standard of physical and mental health	Member States and other stakeholders have access to best practices in supporting Member States to respect, promote and fulfil economic, social and cultural rights, based on a report by the High Commissioner mandated by Human Rights Council resolution 54/22	Member States have access to comprehensive guidance and solution pathways to address access to medicines, vaccines and other health products in the context of the right of everyone to the highest attainable standard of physical and mental health

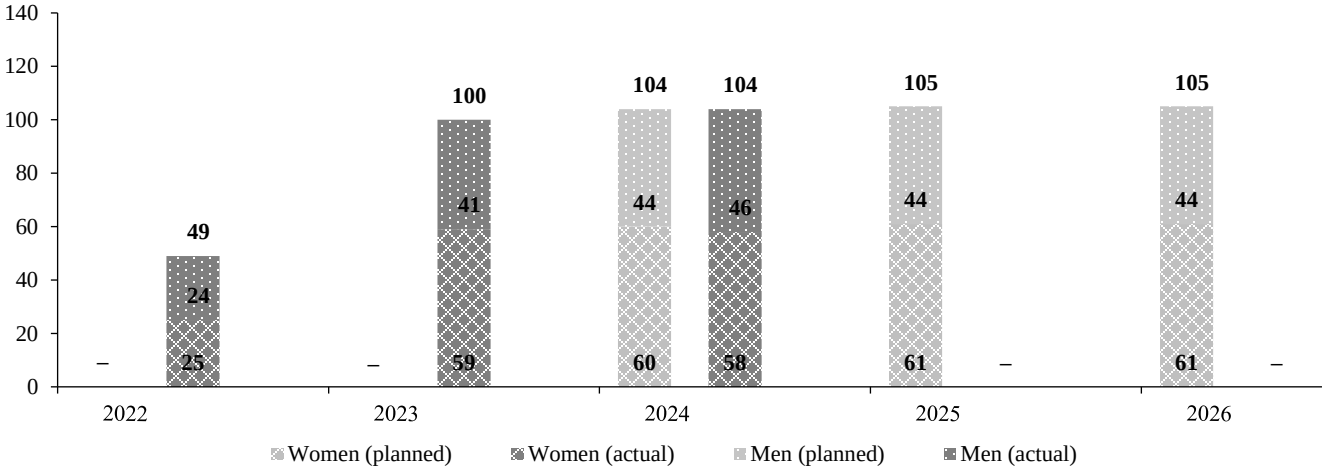
Result 2: young human rights defenders from Indigenous, minority and people of African descent communities deepen their understanding of human rights

Programme performance in 2024 and target for 2026

24.49 The subprogramme's work contributed to building the capacity of 104 Indigenous Peoples, minorities and people of African descent (58 women and 46 men) from 68 countries, which met the overall planned target.

24.50 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 24.II).

Figure 24.II
Performance measure: number of fellows participating in training programmes for people of African descent, Indigenous Peoples and minorities (annual)



Result 3: improved understanding by Member States and other stakeholders of the human rights implications of digital technologies

Proposed programme plan for 2026

24.51 Digital technologies increasingly shape how human rights are enjoyed around the world. The subprogramme has engaged in advocacy and developed and disseminated briefing papers on the impact of technology, including artificial intelligence, on human rights and the need for enhanced approaches to promoting and protecting human rights in the use of digital technology.

Lessons learned and planned change

24.52 The lesson learned for the subprogramme was that while there is an extensive body of work produced by the United Nations and its human rights mechanisms concerning human rights and digital technologies, more efforts are needed to support the practical implementation of recommendations of United Nations human rights bodies and processes. In applying the lesson, the subprogramme will provide hands-on, context-specific advice to Member States, international organizations and businesses, upon request, to develop, use and govern technology in line with human rights norms and standards. A key measure in this regard will be the establishment of an advisory service on digital technologies and human rights, as recognized in the Global Digital Compact, which will support Member States and other stakeholders in areas such as legislation and regulation, as well as how to design large-scale digital infrastructure projects.

24.53 Expected progress towards the objective is presented in the performance measure below (see table 24.13).

Table 24.13
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Increased awareness of Member States and other stakeholders of the impact of technology, including artificial intelligence, on human rights	Increased application by Member States of approaches to the governance of digital technologies and strengthening of privacy and data protection guarantees, that are compliant with obligations under international human rights law	Enhanced capacity of Member States, including in areas of children's rights, digital public infrastructure and digital transformation and in the governance of the digital space

Deliverables

24.54 Table 24.14 lists all deliverables of the subprogramme.

Table 24.14
Subprogramme 1 (c): deliverables for the period 2024–2026, by category and subcategory

9. On women's rights, racial discrimination, Indigenous Peoples and the administration of justice, in particular transitional justice mechanisms	10	10	10	10

C. Substantive deliverables

Consultation, advice and advocacy: expert advice to Member States, United Nations entities, special rapporteurs and independent experts of the Human Rights Council, and other stakeholders, including on the development of related standards.

D. Communication deliverables

Outreach programmes, special events and information materials: information products on global and national advocacy related to women's rights, racial discrimination, Indigenous Peoples and the administration of justice.

Library services: publications, training and educational materials on human rights and translations of the Universal Declaration of Human Rights.

Subprogramme 2
Supporting human rights treaty bodies

Objective

24.55 The objective, to which this subprogramme contributes, is to advance the promotion and protection of the effective enjoyment of all human rights by all, in particular through support and advice to the human rights treaty bodies and by increasing awareness among national and international actors of the international human rights treaties and the work of treaty bodies.

Strategy

24.56 To contribute to the objective, the subprogramme will:

(a) Provide support for the review of Member State reports and the preparation of general comments; for the conduct of inquiries and country visits, including to places of deprivation of liberty where provided for in the treaty or upon request of Member States; for early warning and urgent action procedures and the processing of individual complaints, urgent actions and inter-State complaints; as well as assistance and advice to the national preventive mechanisms;

(b) Support the efforts of treaty bodies to improve and enhance their working methods;

(c) Engage with Member States, national human rights institutions, United Nations agencies, NGOs and other actors to enhance awareness, knowledge and understanding of the treaty bodies' work and outputs and to promote ratification of international human rights treaties;

(d) Support States Parties, upon request, in building their capacity to implement their treaty obligations and in the preparation and timely submission of their national reports, as well as in in establishing or strengthening national mechanisms for reporting and follow-up through the exchange of experiences and good practices;

(e) Assist treaty bodies in their efforts to address reprisals when they occur, and in their responses to claims and acts of intimidation or reprisals against individuals and groups for their contribution to the work of the human rights treaty bodies.

24.57 The above-mentioned work is expected to result in:

(a) Efficient and effective functioning of the treaty bodies;

(b) Enhanced cooperation of stakeholders at all levels with treaty bodies in accordance with their working methods and mandates.

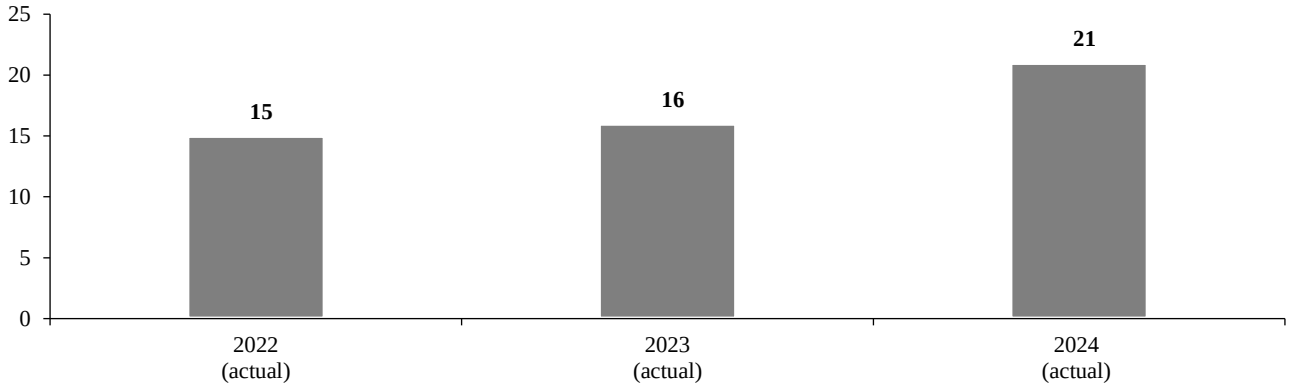
Programme performance in 2024

Increased number of ratifications of international human rights treaties

24.58 Building upon the ratification campaign started in 2023 under the Human Rights 75 initiative, the subprogramme continued its advocacy work and support to Member States contemplating ratifying international human rights treaties and their optional protocols. Through regional and cross-regional events, the subprogramme contributed to enhancing knowledge of the content of the instruments and Member States' obligations thereunder and facilitated exchanges of experiences between Member States.

24.59 Progress towards the objective is presented in the performance measure below (see figure 24.III).

Figure 24.III
Performance measure: new ratifications of international human rights treaties (annual)



Planned results for 2026

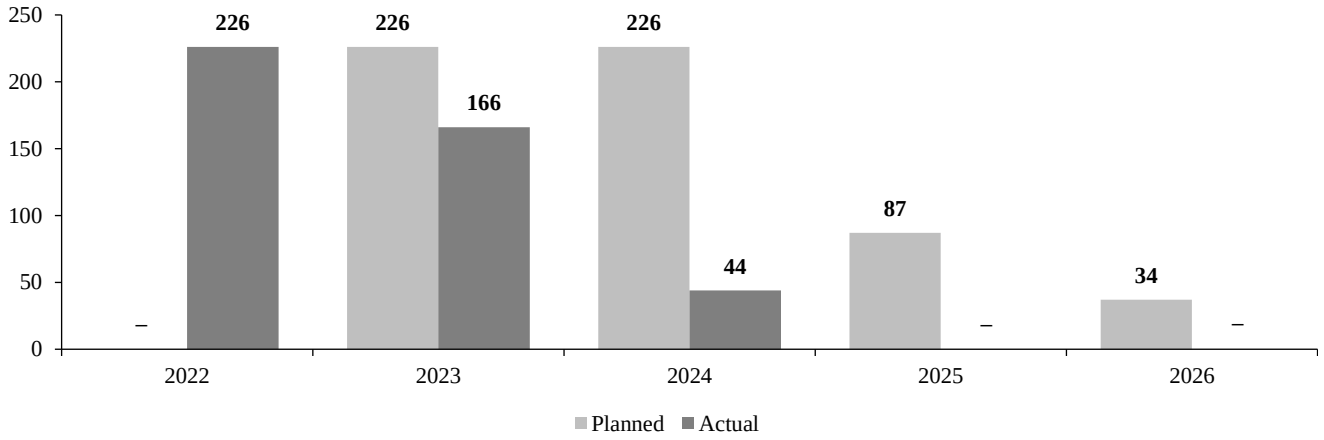
Result 1: enhanced participation of delegates in reviews by treaty bodies of reports of States Parties

Programme performance in 2024 and target for 2026

24.60 The subprogramme's work contributed to 44 hybrid meetings with interpretation, which did not meet the planned target of 226 meetings. The target was not met as there was a return to in-person meetings of treaty bodies except for those specifically mandated as hybrid, such as the official dialogues with State Party delegations, mandated by paragraph 23 of General Assembly resolution 68/268.

24.61 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 24.IV).

Figure 24.IV
Performance measure: number of hybrid meetings of treaty bodies with interpretation (annual)



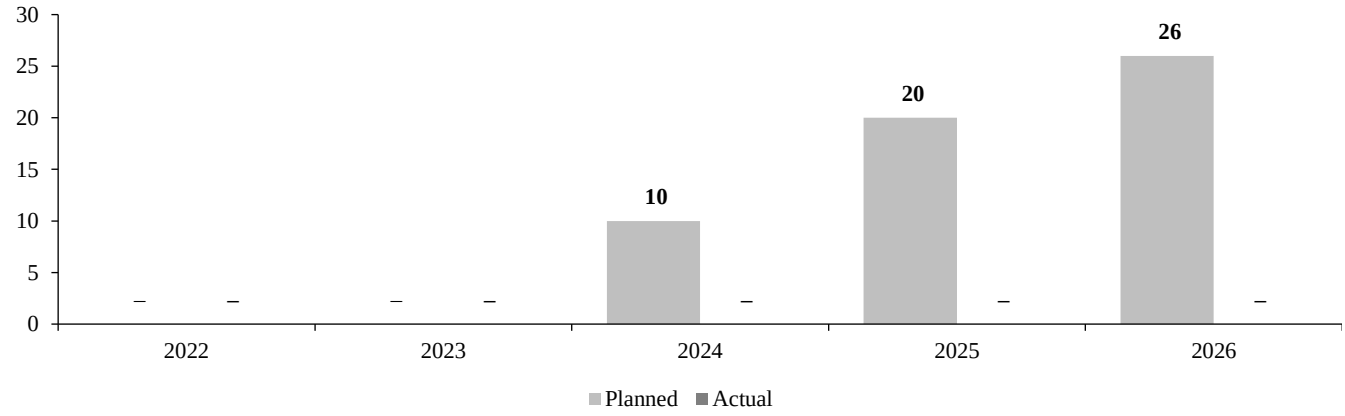
Result 2: increased international cooperation to support national mechanisms for implementation, reporting and follow-up

Programme performance in 2024 and target for 2026

24.62 The subprogramme's work contributed to identifying good practices in 10 countries on implementation, reporting and follow-up to the recommendations of the international human rights mechanisms, which did not meet the planned target of 10 countries that shared practices through the knowledge hub. The target was not met because the establishment of the virtual knowledge hub was postponed to 2025 by Human Rights Council decision 55/115.

24.63 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 24.V).

Figure 24.V
Performance measure: number of countries that have shared practices on implementation, reporting and follow up to the international human rights mechanisms through the knowledge hub (annual)



Result 3: improved access by State Parties and stakeholders to the recommendations of treaty bodies to facilitate their implementation

Proposed programme plan for 2026

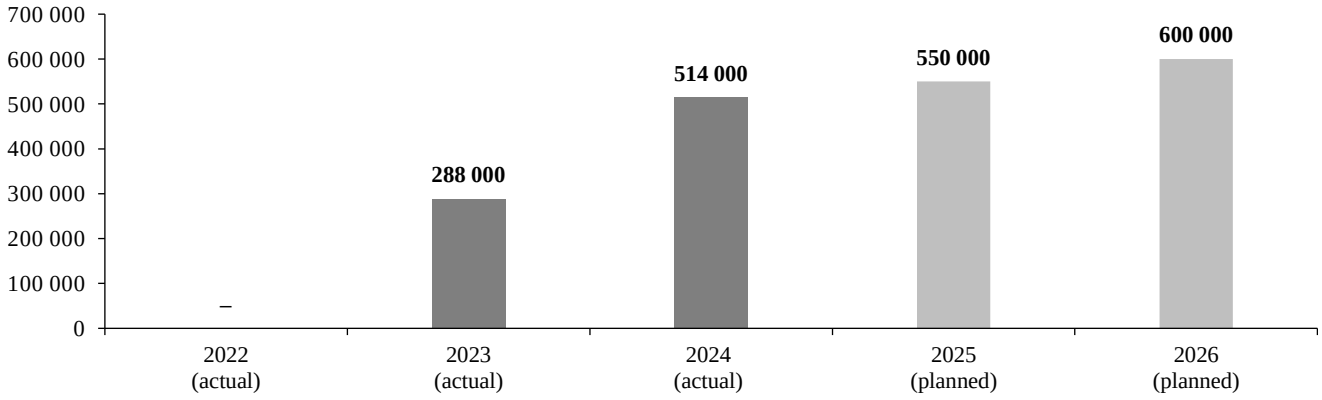
24.64 The subprogramme has launched digital tools, including the treaty body database and the Universal Human Rights Index, to enhance the capacity of Member States, rights holders and other stakeholders to access information and claim their rights.

Lessons learned and planned change

24.65 The lesson for the subprogramme was that more synergies need to be created in developing new online tools that are linked to existing online platforms, such as the treaty body database and the Universal Human Rights Index. Another lesson was to ensure that the basic infrastructure, such as the treaty body database, is continuously improved and up to date. In applying the lesson, the subprogramme will further work on updating the treaty body database and enhancing the interconnectedness between different online tools to facilitate ease of access.

24.66 Expected progress towards the objective is presented in the performance measure below (see figure 24.VI).

Figure 24.VI
Performance measure: number of users of the treaty body database (annual)



Deliverables

24.67 Table 24.15 lists all deliverables of the subprogramme.

Table 24.15
Subprogramme 2: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**733**	**934**	**694**	**702**
1. Reports of the Human Rights Committee, including concluding observations and lists of issues	37	39	37	25
2. Decisions on individual communications under the First Optional Protocol to the International Covenant on Civil and Political Rights	152	446	152	184
3. Reports of the Committee on Economic, Social and Cultural Rights, including concluding observations and lists of issues	43	20	43	25

11. Reports of the Committee on the Protection of the Rights of All Migrant Workers and Members of Their Families, including concluding observations and lists of issues	19	15	19	9
12. Reports of the Committee on the Elimination of Discrimination against Women, including concluding observations and lists of issues	104	41	55	57
13. Decisions on individual communications under article 2 of the Optional Protocol to the Convention on the Elimination of Discrimination against Women	14	8	14	18
14. Reports of the Committee on the Rights of the Child, including concluding observations on the reports of States Parties under the Convention on the Rights of the Child and its Optional Protocols on the sale of children, child prostitution and child pornography and on the involvement of children in armed conflict and lists of issues	49	45	49	53
15. Decisions on individual communications under the Optional Protocol to the Convention on the Rights of the Child on a communications procedure	18	25	18	34
16. Reports of the Committee on the Rights of Persons with Disabilities, including concluding observations and lists of issues	40	20	40	35
17. Decisions on individual communications under the Optional Protocol to the Convention on the Rights of Persons with Disabilities	5	10	5	9
18. Reports of the Committee on Enforced Disappearances, including concluding observations and lists of issues	22	13	22	19
19. Decisions on individual communications under article 31 of the International Convention for the Protection of All Persons from Enforced Disappearance	2	–	2	2
20. Report of the meeting of Chairs of the human rights treaty bodies	1	1	1	1
21. Notes by the Secretariat of the meeting of Chairs of the human rights treaty bodies	3	3	3	3
22. Notes by the Secretary-General, election of members and curricula vitae of candidates to the meetings of States Parties	4	12	12	12
23. Reports to the General Assembly of the Committees and humanitarian trust funds	16	13	16	16
24. Reports to the Economic and Social Council of the Committees on the Elimination of Discrimination against Women, on Economic, Social and Cultural Rights and on the Rights of Persons with Disabilities	3	1	3	1
25. Note by the Secretariat on results of the sessions of the Commission on the Status of Women	1	1	1	1
26. Reports of the Secretary-General to the Human Rights Council on measures taken to implement Human Rights Council resolution 9/8 and on the operations of the humanitarian trust funds	3	2	3	2

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
Substantive services for meetings (number of three-hour meetings)	**1 160**	**924**	**1 156**	**996**
27. Meetings of the pre-sessional working groups of the Committees listed under policymaking organs and the working groups of optional protocols	150	118	150	110
28. Meetings of the Plenary of the Committees listed under policymaking organs, including the meeting of Chairpersons of the treaty bodies and the humanitarian trust funds	1 002	800	1 002	880
29. Meetings of States Parties, election of members	8	6	4	6
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**235**	**246**	**240**	**250**
30. Of the United Nations Voluntary Fund for Victims of Torture	180	190	180	190
31. Of the United Nations voluntary trust fund on contemporary forms of slavery	40	45	45	45
32. Of the Special Fund established by the Optional Protocol to the Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment	15	11	15	15
Seminars, workshops and training events (number of days)	**150**	**119**	**150**	**150**
33. Training courses on reporting, individual communications, country visits and/or follow-up of treaty body recommendations to States Parties	150	119	150	150
Technical materials (number of materials)	**2**	**1**	**1**	**1**
34. Treaty-specific guides	2	1	1	1
C. Substantive deliverables				
Consultation, advice and advocacy: consultations and advocacy on legal instruments on the international human rights system with Member States, United Nations entities and other stakeholders; on the establishment and/or strengthening of national mechanisms for reporting and follow-up to the human rights treaty bodies; briefings to newly elected mandates holders of the Committees and new members of the Boards of Trustees of the humanitarian trust funds.				
Databases and substantive digital materials: the Universal Human Rights Index, with over 170,000 observations and recommendations made by international human rights mechanisms; treaty body jurisprudence databases; knowledge hub on national mechanisms on reporting and follow-up; national recommendations tracking database.				
D. Communication deliverables				
Outreach programmes, special events and information materials: informational brochures on the activities of the treaty bodies, the capacity-building programme and the humanitarian trust funds, as well as the Special Fund established by the Optional Protocol to the Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment.				

Subprogramme 3
Advisory services, technical cooperation and field activities

Objective

24.68 The objective, to which this subprogramme contributes, is to advance the promotion and protection of the effective enjoyment by all of all human rights, through enhanced capacity-building, including through assistance to requesting Member States.

Strategy

24.69 To contribute to the objective, the subprogramme will:

(a) Provide Member States, upon their request, and stakeholders at the national and regional levels with human rights legal advice, education, awareness-raising and training through mutually agreed advisory services and technical cooperation programmes, including in the implementation of the recommendations to which Member States have agreed in the universal periodic review process;

(b) Improve cooperation within the United Nations system for the protection and promotion of human rights, through joint activities, the deployment of human rights officers, interaction with OHCHR programmes in the field and relevant United Nations human rights mechanisms;

(c) Continue to deploy human rights experts and fact-finding missions, including in humanitarian emergencies, at the request of an affected country or as mandated by the relevant United Nations legislative bodies;

(d) Assist the Human Rights Council and its mechanisms, as well as other policymaking bodies and the treaty bodies, in preparing for and following up on their dialogue with Member States and ensure the efficient and effective functioning of thematic and country-specific special procedures by following human rights developments.

24.70 The above-mentioned work is expected to result in:

(a) Enhanced national capacities to translate international human rights obligations into effective laws, regulations and policies and meet the challenges to the full realization of human rights;

(b) Enhanced capacity of United Nations country teams, field presences, peacekeeping operations and peacebuilding activities to assist requesting countries in their efforts to develop national human rights protection systems, guided, inter alia, by the recommendations of the international human rights mechanisms;

(c) Prevention of human rights violations, including in situations of large-scale crisis.

Programme performance in 2024

Strengthened partnership between the United Nations and the African Union

24.71 In November 2023, the African Union-United Nations Joint Framework on Human Rights was signed by the African Union Chairperson and the United Nations Secretary-General, underlining the shared commitment to the promotion and protection of human rights on the continent. As a framework of cooperation on human rights matters, it aims to enhance the support provided by both organizations to Member States, national human rights institutions, the judiciary and civil society. In 2024, the subprogramme supported the development of an implementation matrix for the Framework, laying the foundation for African Union-United Nations collaboration on human rights for the next four years. The subprogramme also facilitated a review of the Human Rights Analytical Framework to strengthen the Continental Early Warning System of the African Union to better integrate human rights in conflict prevention.

24.72 Progress towards the objective is presented in the performance measure below (see table 24.16).

Table 24.16
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	African Union-United Nations Joint Framework on Human Rights signed	Shared priorities identified through the implementation matrix for the African Union-United Nations Joint Framework on Human Rights

Planned results for 2026

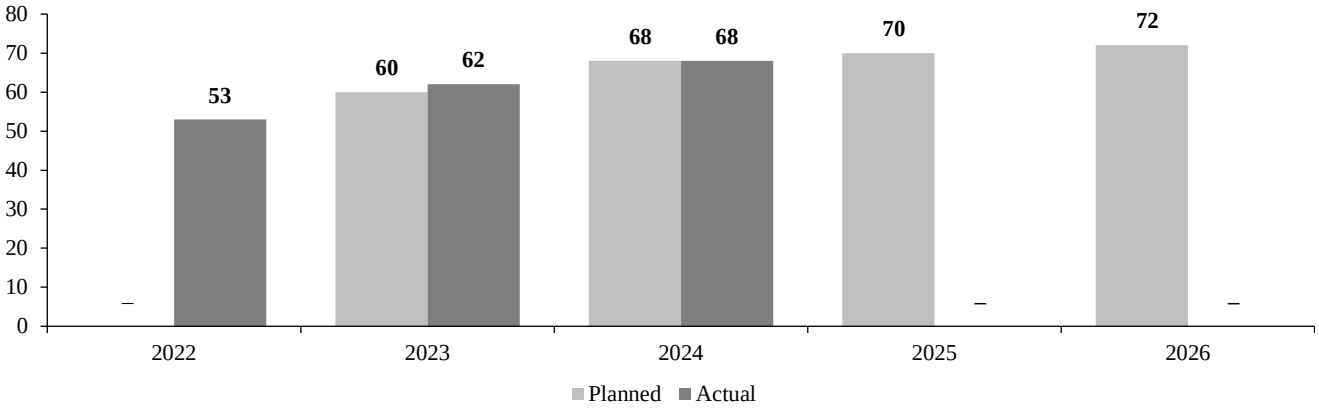
Result 1: towards implementation by Member States of recommendations emanating from international human rights mechanisms

Programme performance in 2024 and target for 2026

24.73 The subprogramme's work contributed to 68 least developed countries and small island developing States implementing recommendations emanating from international human rights mechanisms, which met the planned target.

24.74 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 24.VII).

Figure 24.VII
Performance measure: number of least developed countries and small island developing States that implement recommendations emanating from international human rights mechanisms (cumulative)



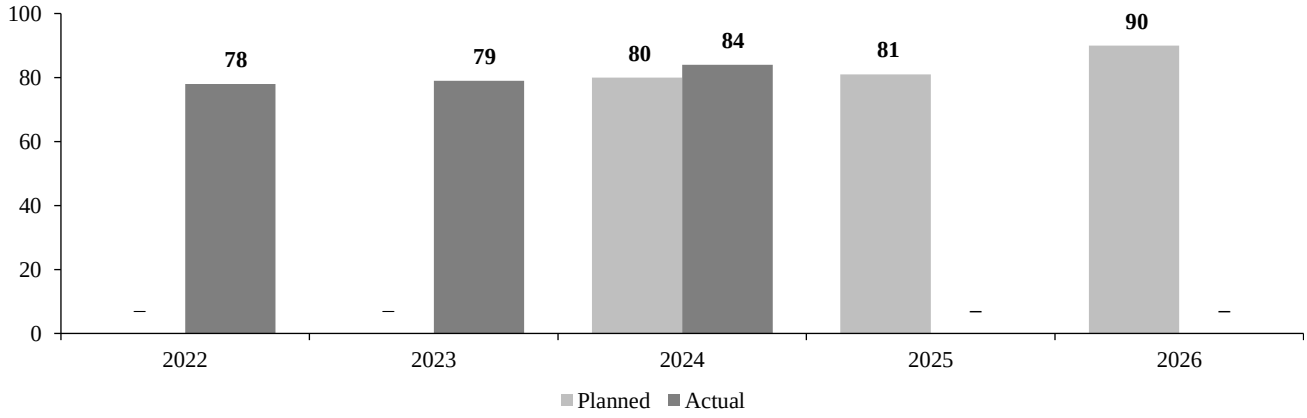
Result 2: strengthened effectiveness of national human rights institutions in line with the Paris Principles

Programme performance in 2024 and target for 2026

24.75 The subprogramme's work contributed to the establishment or strengthening of the effectiveness of 84 national human rights institutions, in line with the Principles Relating to the Status of National Human Rights Institutions (Paris Principles), which exceeded the planned target of 80.

24.76 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 24.VIII).

Figure 24.VIII
Performance measure: number of national human rights institutions established or strengthened in line with the Paris Principles (cumulative)



Result 3: increased technical cooperation to support Member States in the Caribbean Community in their efforts to promote, protect and fulfil human rights

Proposed programme plan for 2026

24.77 The Human Rights Council, in its resolution 54/33, welcomed the initiative of the Government of The Bahamas to host a regional office of OHCHR for the Caribbean Community, in particular to undertake technical assistance and capacity-building activities in accordance with international human rights obligations and to support efforts to promote, protect and fulfil human rights within the region.

Lessons learned and planned change

24.78 The lesson for the subprogramme was that the direct engagement with Member States from least developed countries and small island developing States led to increased requests for in-region technical assistance. In applying the lesson, the subprogramme will scale up its support to Member States, including to improve their engagement with United Nations human rights mechanisms, including through technical cooperation aimed at national capacity-building, public information and education, with a view to exchanging information and experience in the field of human rights.

24.79 Expected progress towards the objective is presented in the performance measure below (see table 24.17).

Table 24.17
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Signature of the host country agreement with the Government of The Bahamas	Strengthened existing partnerships and establishment of new partnerships with States and stakeholders in the region	Member States of the Caribbean Community increasingly engage with international human rights mechanisms with reduced backlog in treaty body reporting and the

13. Humanitarian assistance missions	–	–	3	3

Category and subcategory	2024 planned	2024 actual	2025 planned	2026 planned

C. Substantive deliverables

Consultation, advice and advocacy: consultations on human rights with Member States, national human rights institutions and civil society; assistance to special rapporteurs and independent experts of the Human Rights Council (country mandates); technical support and substantive and secretariat services for country-specific missions; monitoring, technical support and substantive services to human rights components in peace missions, including preparing inputs on the human rights situation mandated by the Security Council; substantive advice related to human rights challenges in humanitarian operations.

Databases and substantive digital materials: databases on geographic human rights information, including the human rights case database, a secure information exchange platform in support of the commissions of inquiry and fact-finding missions.

D. Communication deliverables

External and media relations: press releases and media briefings by country mandate holders and the High Commissioner.

Subprogramme 4
Supporting the Human Rights Council, its subsidiary bodies and mechanisms

Objective

24.81 The objective, to which this subprogramme contributes, is to advance the promotion and protection of the effective enjoyment by all of all human rights, by providing strengthened support and advice to the Human Rights Council and its subsidiary bodies and mechanisms, including the Human Rights Council Advisory Committee, the special procedures, the universal periodic review and the complaint procedure.

Strategy

24.82 To contribute to the objective, the subprogramme will:

(a) Research and develop analytical information and knowledge in support of the thematic special procedures and the universal periodic review mechanism to enhance their effectiveness;

(b) Support and provide thematic expertise for fact-finding missions and special procedure mandate holders' country visits, including through enhanced cooperation within the programme, analysis of gaps in the implementation of international human rights instruments, promotion of observance for international human rights standards and provision of timely advice for addressing gross and systematic violations of human rights;

(c) Support the international human rights mechanisms in their efforts to promote the implementation of the 2030 Agenda in accordance with the human rights obligations of Member States;

(d) Disseminate knowledge of the conclusions, recommendations and other outcomes of the universal periodic review, as well as the findings and methodology of the thematic special procedures, and improve coordination among mandate holders and other mechanisms of the human rights machinery;

(e) Support partnerships and reinforce dialogue and cooperation with Governments, national human rights institutions, civil society organizations, United Nations system and the United Nations human rights machinery and cooperating policymaking bodies, including to support follow-up to the findings and recommendations of the special procedure mandate holders and the outcomes of the universal periodic review;

(f) Provide assistance to Member States within the universal periodic review framework.

24.83 The above-mentioned work is expected to result in:

(a) Enhanced and effective functioning of the Human Rights Council and its subsidiary bodies and mechanisms, including more effective deliberations and decision-making processes;

(b) Enhanced cooperation at all levels with stakeholders that can benefit from and/or contribute to the work of the Human Rights Council and its subsidiary bodies and mechanisms.

Programme performance in 2024

Increased cooperation of Member States in Special Procedures communications

24.84 The special procedures of the Human Rights Council are independent experts with mandates to report and advise on human rights from a thematic or country-specific perspective. In 2024, the subprogramme contributed to enhanced impact of the work of special procedures. Following focused engagement with Member States, an increase in Member States' cooperation in responding to communications on alleged human rights violations was recorded in 2024. In addition, Vanuatu accepted a visit for the first time in its history, reducing the list of countries never visited by a mandate holder to 20. Similarly, six countries accepted a visit after more than five years (Benin, Guinea-Bissau, Marshall Islands, Samoa, Thailand and the United Arab Emirates). Special procedures' communications reached a higher number of individuals and victims of alleged human rights violations. Furthermore, special procedures' legal analysis interventions contributed to improving conformity of various domestic legislation with international human rights norms and standards.

24.85 Progress towards the objective is presented in the performance measure below (see table 24.19).

Table 24.19
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Increased cooperation of Member States' in responding to communications on alleged human rights violations (7 per cent increase compared with 2023)
		Special procedures' communications covered a higher number of individuals and victims of alleged human rights violations (12 per cent increase compared with 2023)

Planned results for 2026

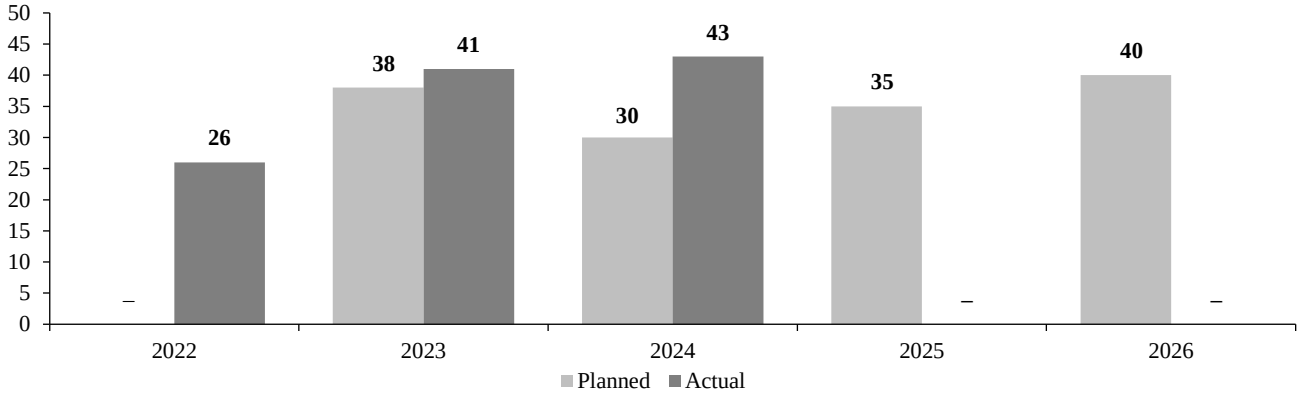
Result 1: enhanced participation of the least developed countries and small island developing States in the Human Rights Council

Programme performance in 2024 and target for 2026

24.86 The subprogramme's work contributed to participation of 43 delegates from least developed countries and small island developing States in the Human Rights Council, which exceeded the planned target of 30 delegates.

24.87 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 24.IX).

Figure 24.IX
Performance measure: number of delegates from least developed countries and small island developing States participating in Human Rights Council sessions (annual)



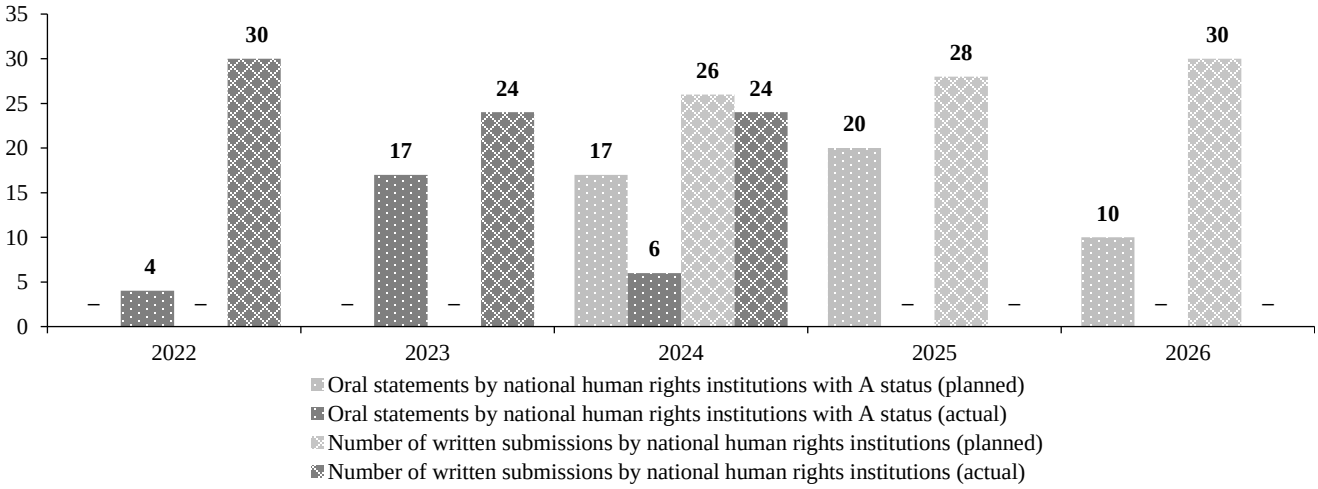
Result 2: enhanced contribution of national human rights institutions to the universal periodic review mechanism

Programme performance in 2024 and target for 2026

24.88 The subprogramme's work contributed to the submission of 30 contributions to the universal periodic review mechanism from national human rights institutions accredited in full compliance with the Paris Principles, which did not meet the target of 41 written and oral submissions. The target was not met due to the fact that several of the countries reviewed in 2024 did not have a national human rights institution accredited with "A" status.

24.89 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 24.X).

Figure 24.X
Performance measure: number of written and oral submissions made by national human rights institutions during the universal periodic review (annual)



Result 3: enhanced engagement of United Nations country teams with the universal periodic review mechanism

Proposed programme plan for 2026

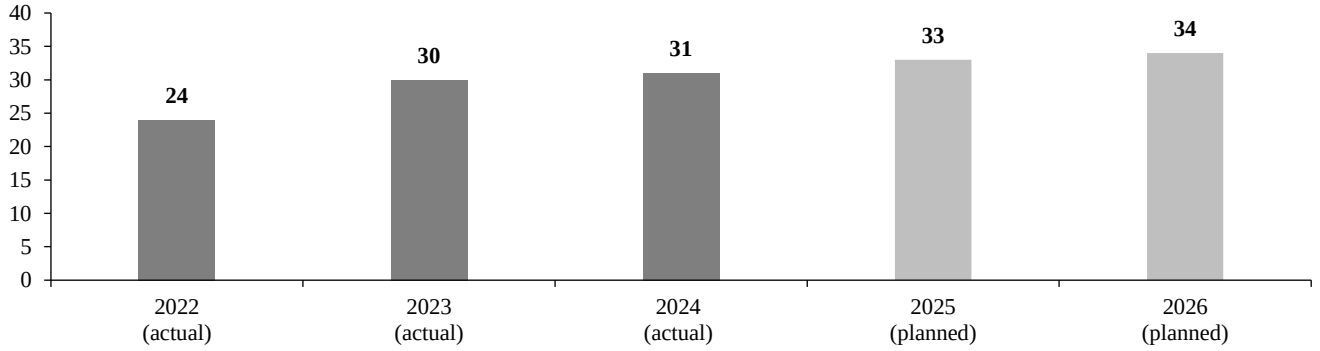
24.90 The subprogramme works with United Nations country teams, in close cooperation with the United Nations Development Coordination Office, to encourage and support their active participation in the universal periodic review.

Lessons learned and planned change

24.91 The lesson for the subprogramme was that holding regular briefings sessions with the United Nations system at the country level, as well as bilateral meetings with resident coordinators, can enhance the participation and contribution by United Nations country teams. In applying the lesson, the subprogramme will expand the above-mentioned practices and combine them with regular sharing of information on timelines and modalities of engagement to encourage their active participation in the universal periodic review.

24.92 Expected progress towards the objective is presented in the performance measure below (see figure 24.XI).

Figure 24.XI
Performance measure: number of written submissions made by United Nations country teams during the universal periodic review (annual)



Deliverables

24.93 Table 24.20 lists all deliverables of the subprogramme.

Table 24.20

24.95 Additional details on the distribution of the proposed resources for 2026 are reflected in tables 24.24 to 24.26 and figure 24.XII.

24.96 As shown in tables 24.24 (1) and 24.25 (1), the overall resources proposed for 2026 amount to $249,426,700, reflecting a net increase of $2,954,700 (or 1.2 per cent) compared with the approved budget for 2025. Resource changes result from technical adjustments, new and expanded mandates, and other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Overall resource changes

Technical adjustments

24.97 As shown in table 24.24 (1), resource changes reflect a net decrease of $7,847,500, as follows:

(a) **Executive direction and management** (decrease of $200,000). The decrease of $200,000 comprises decreases under other staff costs ($104,500), travel of representatives ($33,300), travel on official business ($18,800) and grants and contributions ($43,400), which relate to the removal of non-recurrent provisions associated with Human Rights Council resolution 55/17 that were approved for 2025 and are no longer required in 2026;

(b) **Subprogramme 1, Human rights mainstreaming, right to development, and research and analysis** (decrease of $6,219,600). The net decrease of $6,219,600 comprises: (i) a decrease of $7,080,200 under other staff costs ($4,957,100), consultants ($501,100), travel of representatives ($428,900), travel of staff ($169,400), contractual services ($87,300), general operating expenses ($156,000), furniture and equipment ($51,700) and grants and contributions ($728,700) relating to the removal of non-recurrent provisions associated with Human Rights Council resolutions from its fifty-fifth, fifty-sixth and fifty-seventh regular sessions that were approved for 2025 and are no longer required in 2026; and (ii) an increase of $860,600 under posts, which relates to the higher provision at continuing vacancy rates for 5 Human Rights Officers (P-4) and 5 Human Rights Officers (P-3) established in 2025 pursuant to Human Rights Council resolutions 55/29, 57/19 and 57/28, which were subject to a 50 per cent vacancy rate in accordance with the established practice for newly established posts;

(c) **Subprogramme 2, Supporting human rights treaty bodies** (decrease of $186,900). The decrease of $186,900 under other staff costs ($78,900), travel of representatives ($30,100) and grants and contributions ($77,900) relates to the removal of non-recurrent provisions associated with Human Rights Council decision 55/115 (postponing the implementation of mandates contained in Human Rights Council resolution 51/33) that were approved for 2025 and are no longer required in 2026;

(d) **Subprogramme 3, Advisory services, technical cooperation and field activities** (decrease of $1,016,300). The net decrease of $1,016,300 comprises: (i) a decrease of 2,064,900 under

other staff costs ($1,483,500), consultants ($95,900), travel of representatives ($21,200), travel of staff ($170,800), contractual services ($130,500), general operating expenses ($60,700), supplies and materials ($6,500), furniture and equipment ($20,000) and grants and contributions ($75,800) relating to the removal of non-recurrent provisions associated with Human Rights Council resolutions from its fifty-fifth, fifty-sixth and fifty-seventh regular sessions that were approved for 2025 and are no longer required in 2026; and (ii) an increase of $1,048,600 under posts, which relates to the higher provision at continuing vacancy rates for 2 Human Rights Officers (P-3), 9 Associate Human Rights Officers (P-2), 6 Human Rights Officers (National Professional Officer) and 6 Programme Management Officers (National Professional Officer) established in 2025 pursuant to Human Rights Council resolution 55/28 and General Assembly resolution 79/257, which were subject to a 50 per cent vacancy rate in accordance with the established practice for newly established posts;

(e) **Subprogramme 4, Supporting the Human Rights Council, its subsidiary bodies and mechanisms** (decrease of $622,900). The decrease of $622,900 under other staff costs ($482,100), travel of representatives ($31,300), travel of staff ($17,300), furniture and equipment ($3,200) and grants and contributions ($89,000) relates to the removal of non-recurrent provisions associated with Human Rights Council resolutions 52/26, 56/10, 57/13 and President's statement 18/1 that were approved for 2025 and are no longer required in 2026;

(f) **Programme support** (increase of $398,200). The net increase of $398,200 comprises: (i) a decrease of $102,800 under other staff costs ($99,600) and furniture and equipment ($3,200) relating to the removal of non-recurrent provisions associated with Human Rights Council President's statement 18/1 that were approved for 2025 and are no longer required in 2026; and (ii) an increase of $501,000 under posts, which relates to the higher provision at continuing vacancy rates for 2 Administrative Officers (P-3), 1 Legal Officer (P-3), 1 Information Systems Officer (P-3), 1 Security Coordinator Officer (P-3) and 1 Associate Finance Officer (P-2) established in 2025 pursuant to General Assembly resolution 79/257, which were subject to a 50 per cent vacancy rate in accordance with the established practice for newly established posts.

New and expanded mandates

24.98 As shown in table 24.24 (1), resource changes reflect an increase of $10,823,100, as follows:

(a) **Executive direction and management** (increase of $108,200). The increase of $108,200 under other staff costs ($61,800), travel of representatives ($18,200), travel of staff ($20,200) and grants and contributions ($8,000) relates to requirements for Human Rights Council resolution 55/17;

(b) **Subprogramme 1, Human rights mainstreaming, right to development, and research and analysis** (increase of $5,669,000). The net increase of $5,669,000 comprises: (i) an increase under posts ($228,200), which relates to the establishment of 2 posts (1 P-4 and 1 P-3) pursuant to General Assembly resolution 79/1, explained in further detail in paragraph 24.99 and annex IV; (ii) other staff costs ($3,378,800), consultants ($621,900), travel of representatives ($167,300), travel of staff ($246,600), contractual services ($220,400), general operating expenses ($208,800), furniture and equipment ($6,700) and grants and contributions ($840,800) relating to Human Rights Council resolutions and decisions and General Assembly resolutions 75/314, 79/158 and 79/193 (further information is provided in annex IV); (iii) a decrease of $250,500 under posts ($224,700) relating to the redeployment of 9 posts (4 P-4 and 5 P-3) and other staff costs ($25,800) relating to the redeployment of one finite duration general temporary assistance position (P-3) pursuant to General Assembly resolution 79/1. A breakdown by mandate is provided in table 24.27;

(c) **Subprogramme 2, Supporting human rights treaty bodies** (increase of $96,200). The increase of $96,200 under posts relates to the establishment of 1 post (P-3) pursuant to General Assembly resolution 79/1, explained in further detail in paragraph 24.99 and annex IV;

(d) **Subprogramme 3, Advisory services, technical cooperation and field activities** (increase of $3,509,900). The net increase of $3,509,900 comprises: (i) an increase of $4,842,800 under posts ($4,071,800), which relates to the establishment of 44 posts (2 D-1, 3 P-4, 20 P-3, 7 P-2, 10 National Professional Officer, 1 General Service (Other level) and 1 Local level) and one conversion (1 P-3), contractual services ($87,000), general operating expenses ($521,600), supplies and materials ($7,600), and furniture and equipment ($154,800) pursuant to General Assembly resolution 79/1, explained in further detail in paragraph 24.99 and annex IV; (ii) an increase under contractual services ($3,300) relating to requirements for Human Rights Council resolution 57/23; and (iii) a decrease of $1,336,200 under posts ($552,300) relating to the redeployment of 21 posts (1 D-1, 2 P-5, 3 P-4, 8 P-3 and 7 P-2), other staff costs ($688,900) relating to the redeployment of 15 general temporary assistance positions (4 P-4 and 11 P-3) and one conversion (P-3), and consultants and experts ($95,000) pursuant to General Assembly resolution 79/1;

(e) **Subprogramme 4, Supporting the Human Rights Council, its subsidiary bodies and mechanisms** (increase of $1,401,400). The net increase of $1,401,400 comprises: (i) an increase under posts ($1,342,800), which relates to the establishment of 12 posts (2 P-4, 7 P-3 and 3 P-2) pursuant to General Assembly resolution 79/1, explained in further detail in paragraph 24.99 and annex IV; (ii) an increase under other staff costs ($53,800) and travel of representatives ($7,600) relating to requirements for Human Rights Council resolutions 49/32 and 53/9; and (iii) a decrease of $2,800 relating to the redeployment of 1 post (1 P-4) pursuant to General Assembly resolution 79/1;

(f) **Programme support** (increase of $38,400). An increase of $38,400 under furniture and equipment relates to the requests for new posts under subprogramme 4, pursuant to the General Assembly resolution 79/1, explained in further detail in paragraph 24.99 and annex IV.

The Pact for the Future (General Assembly resolution 79/1)

24.99 With regard to the resource requirements under subprogrammes 1, 2, 3, 4 and programme support, the General Assembly, in its resolution 79/1, paragraph 74 (a), requested the Secretary-General to assess the need for adequate, predictable, increased and sustainable financing of the United Nations human rights mechanisms, including OHCHR, for efficient and effective mandate delivery to enable them to respond to the range of human rights challenges facing the international community with impartiality, objectivity and non-selectivity. The proposed programme budget of OHCHR for 2026 focuses on adequately resourcing the Office's regional presences to support more efficient and effective global mandate delivery that is impartial, objective and non-selective, including shifting resources from headquarters to the regions and prioritizing core support for the Human Rights Council and the special procedures. Additional information is provided in annex IV. The proposal covers the following:

(a) **Strengthening regional presences**. To address the critical priority gaps of over-reliance on voluntary contributions and inadequate leadership and staffing levels in regional presences, a tailored approach based on the needs of each region is proposed, to include redeploying existing regular budget and extrabudgetary posts and positions from Geneva and building on existing capacities at the regional level. Reinforcing regional offices would enhance mandate delivery and address increasing demand for human rights services and technical assistance while achieving significant cost savings and efficiency gains. This includes the following:

(i) A proposal to relocate the Regional Office for Europe from Brussels to Vienna, which involves expanding that Office's scope to become the Regional Office for Europe and Central Asia, thereby establishing it as a central hub for the entire region. This strategic move aims to enhance operational efficiency and foster stronger regional collaboration.

As the new regional hub, the Office will serve as a focal point for coordinating human rights initiatives, providing technical assistance, and facilitating dialogue among countries in Europe and Central Asia, ultimately strengthening the impact and reach of OHCHR in addressing regional human rights challenges;

(ii) To enhance the regional engagement of OHCHR, a proposal for strengthening seven key locations: Addis Ababa, Bangkok, Beirut, Dakar, Panama City, Pretoria and Vienna. The proposal includes the establishment of 47 posts (2 D-1, 4 P-4, 22 P-3, 7 P-2, 10 National Professional Officer, 1 General Service (Other level) and 1 Local level); and redeploying posts and positions from Geneva and Brussels to seven regional offices, including 28 established posts and 1 temporary post (1 D-1, 1 P-5, 8 P-4, 12 P-3 and 7 P-2), converting and redeploying 1 general temporary assistance position (1 P-3), and redeploying 16 general temporary positions (4 P-4 and 12 P-3). In terms of the requirements for senior posts, two locations are already headed by a D-1 (Addis Ababa, funded by extrabudgetary resources, and Panama City, funded by the regular budget) and it is proposed that three locations be headed by a D-1 (new posts in Bangkok and Beirut and the redeployment of 1 post from Geneva to Vienna). The location in Dakar will be headed by a P-5, who will report to the existing regular-budget funded D-1 in Yaoundé, who leads the Subregional Centre for Human Rights and Democracy in Central Africa. The location in Pretoria will be headed by a P-5, who will report to the existing D-1 in Addis Ababa. Concerning non-staff resources, resources under contractual services, general operating expenses, supplies and materials and furniture and equipment under the different regional offices are also proposed, to be offset by efficiency gains, including gains from the proposed redeployment of personnel from Geneva to the regional offices;

(b) **Strengthening human rights mechanisms**. The guiding principle is that all mandated activities should be covered in their entirety by the regular budget. In that context, the current proposal for 2026 related to the mandates deriving from the Pact for the Future includes 5 new posts (2 P-4 and 3 P-3) required to provide support and advice to the Human Rights Council, its President and its Bureau, and to Member States and other stakeholders on policy matters, rules and procedures, as well as media and communication support. Concerning the special procedures, 7 new posts (4 P-3 and 3 P-2) would support country visits and consultations, draft thematic reports and carry out other mandated activities led by multiple special procedures established by the Human Rights Council. Concerning non-staff resources, resources under furniture and equipment are also proposed under programme support.

24.100 A summary by object of expenditure of the complete budget proposal for OHCHR under the Pact for the Future and other new mandates pursuant to Human Rights Council resolutions and other General Assembly resolutions is provided in table 24.28 below.

Table 24.28
Summary by object of expenditure under the Pact for the Future and other new mandates

Total	**4 958 900**	**5 864 200**	**10 823 100**

Other changes

24.101 As shown in table 24.24 (1), resource changes reflect a net decrease of $20,900, which affects mainly the operational requirements projected for 2026, as follows:

(a) **Subprogramme 3, Advisory services, technical cooperation and field activities** (decrease of $34,800). The net decrease of $34,800 comprises: (i) an increase of $334,500 under posts ($173,300), which relates to the conversion of 1 post (P-3) supporting the Independent Expert on the situation of human rights in the Central African Republic, and other staff costs ($161,200) related to additional general temporary assistance to support the Special Rapporteur on the situation of human rights in Myanmar, replacing the use of consultants; and (ii) a decrease of $369,300 related to the conversion and redeployment of one general temporary assistance position ($199,100), consultants ($161,200), reflecting the reduced use of consultants to support the Special Rapporteur on the situation of human rights in Myanmar, and a correction of duty station under posts ($9,000) related to Human Rights Council resolution 55/28;

(b) **Programme support** (increase of $13,900). The increase of $13,900 results from an increase under contractual services ($13,900) reflecting the higher standard price of the core software package for non-field personnel outside United Nations Headquarters.

Other assessed resources

24.102 As reflected in tables 24.24 (2) and 24.25 (2), other assessed resources amount to $3,175,100, including eight posts and five general temporary assistance positions. The resources would complement regular budget resources and provide for the requirements indicated in report A/79/783.

Extrabudgetary resources

24.103 As reflected in tables 24.14 (3) and 24.15 (3), extrabudgetary resources amount to $238,346,300. The resources would complement regular budget resources and would be used mainly to provide for 1,264 posts (6 D-1, 73 P-5, 205 P-4, 292 P-3, 45 P-2/1, 314 National Professional Officer, 10 General Service (Principal level) and 319 General Service (Other level)) to perform mainly the functions of

supporting research and analysis for developing conceptual links between human rights and development; the work for the United Nations Voluntary Fund for Victims of Torture, the United Nations voluntary trust fund on contemporary forms of slavery and the United Nations Special Fund established pursuant to the Optional Protocol to the Convention against Torture and Other Cruel, Inhuman or Degrading Treatment or Punishment, as well as the work of the treaty bodies; and activities relating to the overall executive direction and management of OHCHR, including planning, monitoring and evaluation, external outreach services and the New York Office. In addition, non-post resources would be used for supporting the majority of the Office's work undertaken in the field at more than 100 locations worldwide, the work of the three trust funds established by the Human Rights Council (Voluntary Fund for Participation in the Universal Periodic Review, Voluntary Fund for Financial and Technical Assistance in the Implementation of the Universal Periodic Review and Voluntary Technical Assistance Trust Fund to Support the Participation of Least Developed Countries and Small Island Developing States in the Work of the Human Rights Council). Programme Support and Management Services is also provided with extrabudgetary resources to complement its service delivery capacity in all OHCHR locations around the world.

24.104 The Office receives both cash and in-kind contributions, which complement regular budget resources. Anticipated in-kind contributions would provide for rent-free premises with an estimated value of $1,088,700 and the provision of an armoured vehicle and running costs with an estimated value of $52,300.

24.105 The extrabudgetary resources for this entity are subject to the oversight of the High Commissioner of Human Rights as head of entity of OHCHR, in accordance with the delegation of authority by the Secretary-General.

Policymaking organs

24.106 The resources proposed under this component would provide for the policymaking organs as shown in table 24.29.

Executive direction and management

24.108 The executive direction and management component comprises the Executive Office of the United Nations High Commissioner for Human Rights, the Policy, Planning, Monitoring and Evaluation Service, the External Outreach Service and the New York Office.

24.109 The High Commissioner is the United Nations official with principal responsibility for United Nations human rights activities, in accordance with the mandate entrusted to the High Commissioner by the General Assembly in its resolution 48/141. The High Commissioner advises the Secretary-General on the policies of the United Nations concerning human rights and is responsible for

coordinating human rights activities throughout the United Nations system and for rationalizing, adapting, strengthening and streamlining the United Nations system in the area of human rights, with a view to improving its efficiency and effectiveness.

24.110 The High Commissioner provides overall executive direction, management, policy guidance and leadership for the implementation of the United Nations human rights programme.

24.111 The Deputy High Commissioner assists the High Commissioner in the overall direction and management of OHCHR. In addition, the Deputy's responsibilities include the supervision of OHCHR divisions in support of the High Commissioner and the supervision of OHCHR-wide functions centralized in executive direction and management and programme support. The Assistant Secretary-General, the head of the New York Office, allows for participation at the appropriate level in executive decision-making processes and ensures principal-level representation and access to high-level policy discussions, improving the overall efficiency and effectiveness of OHCHR.

24.112 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, OHCHR continues to integrate environmental management practices into its operations, programming and management functions. The Office, including its field presences, reports and offsets its greenhouse gas emissions annually and is committed to improving its environmental performance and reducing its climate impact. An organizational effectiveness action plan is in place for the period 2024–2027 to establish an environmental management system in order to digitize work processes, promote sustainable travel, reduce waste and energy and water consumption, and engage staff, partners and stakeholders in environmental and climate action.

24.113 Information on the timely submission of documentation and advance booking for air travel is reflected in table 24.31. OHCHR continues to use the available data to monitor and manage compliance with the advance purchase of tickets for air travel policy. Similarly, OHCHR will increase its efforts to raise awareness among staff of the requirement to improve the timeliness of submission of its documents.

24.114 The proposed regular budget resources for 2026 amount to $10,438,100 and reflect a net decrease of $91,800 compared with the approved budget for 2025. The proposed change is explained in paragraphs 24.97 (a) and 24.98 (a). Additional details on the distribution of the proposed resources for 2026 are reflected in table 24.32 and figure 24.XIV.

Advisory services, technical cooperation and field activities

24.117 The proposed regular budget resources for 2026 amount to $119,024,900 and reflect a net increase of $2,458,800 compared with the approved budget for 2025. The proposed change is explained in paragraphs 24.97 (d), 24.98 (d) and 24.99 (a). Additional details on the distribution of the proposed resources for 2026 are reflected in table 24.35 and figure 24.XVII.

Programme support

24.119 The programme support component comprises Programme Support and Management Services and the Safety and Security Section.

24.120 In order for OHCHR to implement in full its mandate at both headquarters and its more than 100 field presences, Programme Support and Management Services provides support in the form of budgeting and financial management; recruitment and human resources management; safety and security, procurement, asset management and general logistical support for field activities; travel and information technology; and staff development and training. This includes support for staff members and members of intergovernmental and expert bodies, as well as for special rapporteurs, special representatives and independent experts, and the management of premises; and information

management and technology support, including technical development and operational maintenance of the OHCHR websites, specialized databases and other systems.

24.121 The proposed regular budget resources for 2026 amount to $7,818,500 and reflect an increase of $450,500 compared with the approved budget for 2025. The proposed change is explained in paragraphs 24.97 (f), 24.98 (f) and 24.99 (b). Additional details on the distribution of the proposed resources for 2026 are reflected in table 24.37 and figure 24.XIX.

II. Committee on Missing Persons in Cyprus

24.122 The Committee on Missing Persons in Cyprus was established in 1981 by agreement between the Greek Cypriot and Turkish Cypriot communities in Cyprus under the auspices of the United Nations. The tripartite Committee is composed of two members appointed by the leaders of the two Cypriot communities and a third member (United Nations member) selected by the International Committee of the Red Cross (ICRC) and appointed by the Secretary-General.

24.123 The overall objective of the Committee is to ascertain the fate of 2,002 persons reported missing following intercommunal fighting (1963–1964), as well as the events of July 1974. In addition, following an agreement between the leaders of both Cypriot communities, the Committee was entrusted with a new role as of 2006: to investigate and excavate unknown burial sites, to recover and identify the remains of missing persons and then to hand them over to their families across the island for dignified burials. As of the end of January 2025, the Committee had exhumed 1,699 persons and identified and returned the remains of 1,052 missing persons to their families, or 52.5 per cent of all missing persons in Cyprus. It has also identified and returned the remains of 216 persons who are not on the Committee's official list. As time passes, the Committee has increased its efforts to locate more burial sites by hiring and training new investigators and investing in modern technologies.

24.124 The role of the United Nations member in the Committee is threefold: (a) mediation between the two Cypriot members and their authorities; (b) fundraising for the Committee's operational budget (4.14 million euros in 2025); and (c) co-management of Committee's operations.

24.125 On the basis of existing information regarding suspected burial sites, the project is expected to continue at the current level of activity for at least another four to five years. A new excavation team was recruited in 2024 to accelerate the process. It is assumed that, even with a solution to the Cyprus problem, the involvement of the United Nations in the work of the Committee would likely need to continue for several years to come.

24.126 While the Committee's scientific and technical operations are financed under a separate budget (using funds that were raised by the Committee and are financially managed by the United Nations Development Programme), the United Nations budget covers the three core responsibilities of the office of the third member listed above. The office of the third member is accountable to the Department of Political and Peacebuilding Affairs of the United Nations Secretariat. In Cyprus, the third member works in close consultation with the Special Representative of the Secretary-General in Cyprus.

24.127 As the Committee's secretariat, the office of the third member follows up on implementation of all Committee decisions and leads the Committee project's operational coordination. It also prepares for and documents all of the Committee's meetings. It is the guardian of all original files received by ICRC and United Nations entities on missing persons in Cyprus. The office of the third member ensures the smooth running of the bicommunal component of the Committee project that employs more than 100 locally recruited Greek Cypriot and Turkish Cypriot professionals. Over the past few years, the United Nations office of the Committee has liaised with other commissions and committees globally that work on missing persons cases and has organized numerous visits and training events for visiting scientists and policymakers every year. The Committee is in the process of constructing a dedicated conference room to better accommodate such visits. This new training centre is expected to be fully operational in 2026.

24.128 The United Nations is responsible only for the expenses of the third member, the third member's Special Assistant and Administrative Assistant and the miscellaneous operating expenses of the office of the third member. The provisions in the proposed programme budget for 2026 reflect continuity in the Committee's activities.

24.129 The proposed regular budget resources for 2026 amount to $694,500 and reflect no change in the level of resources compared with the amount approved for 2025. Additional details are reflected in table 24.38; the amount under other staff costs includes three general temporary assistance positions

(1 D-1, 1 P-4 and 1 General Service (Other level)). The proposed level of resources provides for the full, efficient and effective implementation of the mandate.

III. Independent Institution on Missing Persons in the Syrian Arab Republic

Mandate and background

24.130 On 29 June 2023, the General Assembly adopted resolution 77/301, in which it established the Independent Institution on Missing Persons in the Syrian Arab Republic.

24.131 The Independent Institution is mandated to clarify the fate and whereabouts of all missing persons in the Syrian Arab Republic and to provide adequate support to victims, survivors and the families of those missing, in close cooperation and complementarity with all relevant actors.

24.132 Pursuant to resolution 77/301, on 1 December 2023, the Secretary-General submitted a report on the implementation of the resolution (A/78/627), which outlined the steps taken and those further envisaged towards the full functioning of the Independent Institution. The Independent Institution is headquartered in Geneva, selected based on the criteria outlined in the Secretary-General's report, ensuring accessibility, operational feasibility, and strategic engagement with relevant stakeholders.

24.133 Given that the Independent Institution was not included in the proposed programme budget for 2024, a report of the Secretary-General on revised estimates relating to the Independent Institution (A/78/706) was submitted to the General Assembly to request approval of the Institution's estimated resource requirements for 2024. This included an initial staffing structure and necessary operational costs to ensure the Institution could commence its activities on 1 April 2024. The General Assembly subsequently approved the request, which provided for 28 posts and additional operational costs to support the Institution's launch.

24.134 Following the initial set-up phase in 2024, a comprehensive budget proposal was submitted for 2025 (A/79/6 (Sect. 24)), reflecting the staffing and resource needs for the Institution's full operationalization. This included an expansion of the staffing structure beyond the 28 posts approved for 2024, and non-post requirements for 2025 to support operational growth while maintaining cost-effectiveness. The Head of the Institution assumed her functions in January 2025, marking a key step in affirming the Institution's leadership and governance.

Strategy for 2026

24.135 In 2026, the Institution will build on its initial operational phase completed in 2024 and the expansion of its capabilities in 2025, continuing to advance the core pillars of its mandate: clarifying the fate and whereabouts of missing persons and providing support to victims, survivors and their families, in close cooperation and complementarity with all relevant actors. The Institution will enhance its search, data analysis and family support mechanisms while strengthening its operational presence and cooperation with relevant actors. The shifting landscape in the Syrian Arab Republic, particularly the need to be in the field working with different stakeholders, and the emergence of new evidence and documentation regarding mass graves and other potential burial sites, underscores the urgency of scaling up search and identification efforts. As part of its strategic response, the Institution will work to strengthen its investigative methodologies, enhance cooperation with relevant stakeholders and refine its forensic and contextual analysis capabilities to address these evolving challenges. The identification, documentation and preservation of grave sites and related information are essential to the Institution's mandate, ensuring that families of the missing receive credible information while upholding international best practices for data integrity and protection and the dignified treatment of remains.

24.136 Ensuring responsible and effective data and information management will remain a key operational priority in 2026. The Institution will continue to strengthen its protocols for handling and protecting sensitive information, in line with international standards and ethical best practices. It will also refine its internal review mechanisms to ensure its methodologies remain effective, adaptive and responsive to emerging challenges.

24.137 The Institution will continue strengthening partnerships with United Nations entities, forensic institutions, civil society organizations, families and national and international stakeholders, thus ensuring a collaborative and complementary approach as it continues working towards the fulfilment of its mandate while adapting to the evolving context.

24.138 In line with the evolving operational environment in the Syrian Arab Republic and the strategic vision for 2026, revisions to the entity's organizational structure to optimize resource allocation and enhance efficiency are proposed. The former Search and Data Analysis Section has been divided into two specialized sections, the Data and Digital Analysis Section and the Search and Identification Section, to better align with their distinct operational functions. The Administrative Services Section has been expanded into the Operations Support Section, consolidating key support services and redeploying existing resources under a unified framework. In addition, the Participation and Family Support Section (formerly Victim Participation and Support Section) and the Executive Office have been adjusted in composition to complement this refined structure, ensuring a balanced distribution of responsibilities across the Institution. This results in the following revised organizational units:

(a) **Executive Office**. The Executive Office, under the leadership of the Head of the Independent Institution, provides overall strategic direction, management and oversight. It is responsible for ensuring institutional coherence, policy coordination and the implementation of the Institution's mandate. The Executive Office plays a central role in engagement with Member States, United Nations entities, civil society organizations, families and other relevant national and international stakeholders. In addition to facilitating institutional partnerships and ensuring adherence to human rights principles, the Executive Office is responsible for negotiating and concluding agreements with national and international actors to enhance cooperation, facilitate information-sharing and leverage existing mechanisms and expertise. It maintains close coordination with the Independent Institution's Advisory Board and oversees the development and application of family-centred policies, compliance with legal frameworks and advocacy efforts related to missing persons;

(b) **Data and Digital Analysis Section** (referred to as the Search and Data Analysis Section in 2025, now split into two specialized sections). The Data and Digital Analysis Section is responsible for collecting, managing and analysing large datasets, incorporating geospatial mapping, open-source intelligence and digital investigations to support the Institution's mandate. In addition, it manages the registry and ensures the interconnection of multiple databases, facilitating seamless information integration across institutional functions. This section ensures the structuring, preservation and secure handling of information, in line with international best practices in data protection and confidentiality. Human Rights Officers within this section apply a multidisciplinary investigative and analytical lens to assess the credibility and contextual relevance of digital and documentary sources, ensuring the ethical and effective use of information in search efforts. The section works in close coordination with the Search and Identification Section, ensuring search operations are guided by well-verified and strategically analysed information. Beyond its core analytical functions, the section contributes across the Institution, supporting various operational needs, including facilitating information management processes essential to the Participation and Family Support Section, such as the case registration system. As the custodian of all institutional data, it oversees secure storage, preservation and structured access to critical information across the Institution;

(c) **Search and Identification Section** (referred to as the Search and Data Analysis Section in 2025, now split into two specialized sections). The Search and Identification Section is responsible for the field-based operational aspects of locating and identifying missing persons. It integrates forensic, investigative and analytical methodologies to strengthen search efforts and support affected families. The section conducts witness interviews, gathers information from families, works on contextual analysis and truth-telling initiatives and collaborates with forensic experts to ensure that search and identification processes follow international best practices and ethical standards. The section works closely with forensic institutions, family groups and other relevant actors to advance search efforts and enhance coordination among

those engaged in identifying missing persons. It also provides technical guidance on search methodologies, supports the development of standardized procedures, and ensures that information collected contributes to a more comprehensive understanding of missing persons cases. Through a multidisciplinary approach, the section ensures that search efforts are methodical, well-documented and incorporate the needs of affected families;

(d) **Participation and Family Support Section** (referred to as the Victim Participation and Support Section in 2025). The Participation and Family Support Section is at the core of the Independent Institution's victim-centred mandate, ensuring meaningful engagement with victims, survivors and families of missing persons. It is responsible for direct interaction with families and facilitating their access to information regarding search efforts. The section provides psychosocial and mental health support, integrates gender-sensitive approaches into its work and ensures that families receive legal and administrative guidance. It maintains a referral network for victim support services, coordinates with family associations and civil society organizations and ensures cultural and linguistic accessibility in all engagement processes. In addition, it works closely with the Executive Office to integrate victims' perspectives into institutional policies and decision-making;

(e) **Operations Support Section** (referred to as the Administrative Services Section in 2025). The Operations Support Section oversees all administrative, financial, procurement, logistical, human resources and information technology functions necessary for the Institution's effective functioning, ensuring compliance with United Nations regulations and best practices. The section also manages internal control mechanisms, risk management and audit coordination to ensure operational integrity. In addition, it is responsible for the Institution's security framework, coordinating with the Department of Safety and Security to ensure personnel safety, risk assessments and operational security measures. By ensuring robust operational support and institutional resilience, the section enhances the Institution's ability to function effectively while maintaining transparency, efficiency and accountability;

(f) **Advisory Board (pro bono)**. The Independent Institution includes a pro bono Advisory Board composed of nine Syrian and international independent experts, sitting in their personal capacities, including representatives of victims, survivors and families, who meet regularly to provide confidential views and advice to the Head of the Independent Institution on the Institution's programmes and operations.

Results for 2024

24.139 In its first year of operations, which commenced in April 2024, the Independent Institution focused on establishing its core structure, engaging with families and stakeholders and developing its search and data analysis capabilities. The Institution implemented foundational activities to advance its mandate while ensuring a phased and strategic approach, including:

(a) Launching its initial engagement with families of missing persons, by holding its first in-person consultation with families and civil society organizations to provide information on its operational strategy. A case registration system was designed, and initial referral pathways for psychosocial and legal support were developed. Outreach efforts also included trust-building measures to foster confidence in the Institution's work and ensure meaningful participation from affected communities;

(b) Strengthening its search and identification capacity, by mapping key actors holding data on missing persons, including forensic institutions, United Nations entities, and civil society organizations. The foundations of a search strategy were developed, incorporating investigative methodologies and structured data analysis. The Institution also began designing a centralized case management system to integrate and analyse data collected, ensuring ethical handling of sensitive information;

(c) Enhancing cooperation with Member States, United Nations entities and other key partners, thus ensuring effective coordination and information-sharing. The Institution initiated the

process of formal cooperation agreements with relevant actors, which will be critical for expanding its search efforts and improving access to existing information;

(d) Establishing its headquarters in Geneva and setting up administrative, financial, and operational frameworks necessary for its functioning. A multidisciplinary team was recruited and onboarded, and internal policies and procedures were developed to ensure compliance with United Nations regulations and rules.

Planned activities for 2026

24.140 In 2026, the Independent Institution will operationalize its strategic priorities by further developing its core functions and expanding its on-the-ground presence. With a focus on enhancing search and identification efforts, strengthening family engagement and deepening cooperation with national and international actors, the Institution will implement a series of targeted activities to ensure the effective delivery of its mandate. These activities will be structured around key operational priorities, including:

(a) Strengthening search and identification efforts by expanding investigative, contextual and forensic methodologies, integrating structured data collection, analysis and field-based assessments. The Institution will further map key sources of information, including governmental and non-governmental actors, documentation and forensic institutions, and civil society organizations, to enhance data consolidation on missing persons;

(b) Enhancing data management and analytical capabilities through the further development and implementation of a centralized case management system to incorporate information from multiple sources securely and efficiently. The Institution will introduce enhanced data governance protocols, ensuring the ethical handling of sensitive case information while improving accessibility for authorized stakeholders;

(c) Expanding family engagement and support services by strengthening outreach and engagement mechanisms to ensure meaningful participation of families of missing persons. Structured participation mechanisms for families and civil society groups will be reinforced, thereby ensuring that they are actively involved in shaping the Institution's approaches. A refined referral system will be operationalized to facilitate psychosocial, legal and administrative support, enabling affected families to access available services efficiently. The Institution will also strengthen protection mechanisms for families and individuals engaging with its work, thus ensuring their safety and confidentiality;

(d) Strengthening operational presence and field-based engagement by enhancing the Institution's ability to engage directly with affected communities and relevant actors on the ground. Increased deployment of field missions will support direct information-gathering, interviews, and verification efforts. Operational expansion will ensure a more sustained presence for investigative and support functions, thereby enhancing both search efforts and family support;

(e) Deepening institutional partnerships and cooperation mechanisms to maximize efficiency and avoid duplication. The Independent Institution will strengthen its cooperation agreements with Member States, United Nations entities and international forensic and investigative bodies to facilitate information-sharing, technical assistance and capacity-building efforts. The Institution will continue establishing protocols for inter-agency referrals and cooperation with actors already working on missing persons issues;

(f) Reinforcing engagement with national stakeholders, including government entities, forensic institutions and civil society organizations, to facilitate information-sharing, coordination and technical collaboration. The Institution will enhance structured dialogue with national actors to foster cooperation in search and identification efforts;

(g) Ensuring institutional sustainability and operational efficiency by refining internal processes, optimizing resource allocation and ensuring cost-effective programme delivery.

24.141 This set of activities will ensure that the Independent Institution continues to advance its mandate effectively, thus further consolidating its role in searching for missing persons and supporting their families while operating within a structured and efficient framework.

Reporting

24.142 A report of the Secretary-General on the activities of the Independent Institution shall be presented annually to the General Assembly, as it requested in its resolution 77/301. This reporting shall be led by the Head of the Independent Institution.

24.143 The Head of the Institution shall ensure that its outreach strategy includes regular reporting, communication and updates on the activities of the Institution, in particular for families.

24.144 The proposed regular budget resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 24.39 to 24.41.

24.145 Additional details on the distribution of the proposed resources for 2026 are reflected in table 24.42 and figure 24.XX.

24.146 As shown in table 24.42, the overall resources proposed for 2026 amount to $12,834,200, reflecting a net increase of $1,776,700 (or 16.1 per cent) compared with the approved budget for 2025. Resource changes result from technical adjustments, new and expanded mandates, and other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

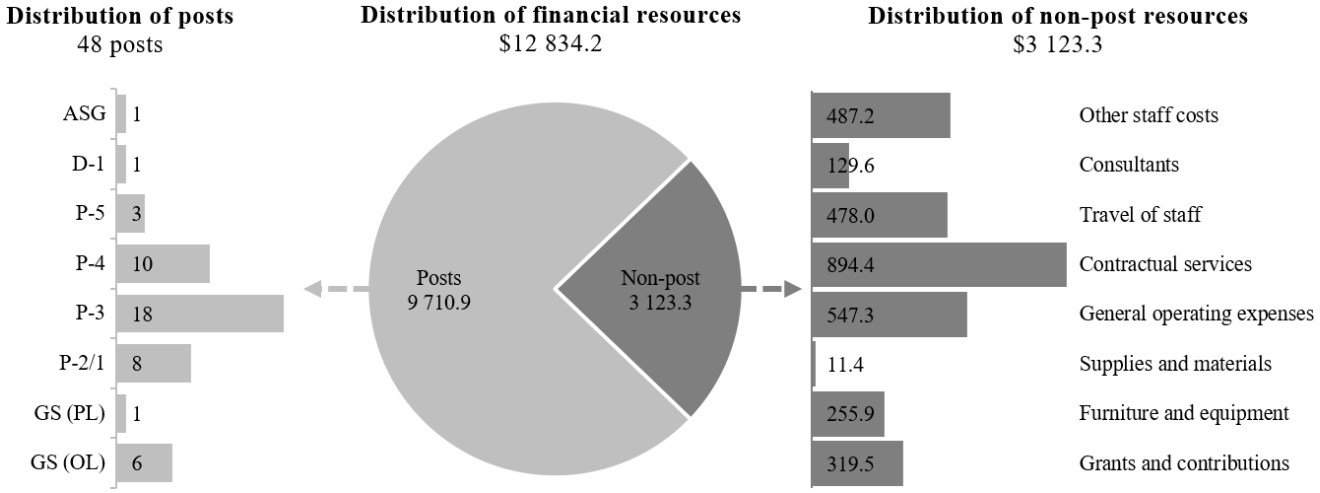
Figure 24.XX
Distribution of proposed resources for 2026
(Number of posts/thousands of United States dollars)



Explanation of variances by factor

Overall resource changes

Technical adjustments

25.147 As shown in table 24.42, resource changes reflect a net increase of $1,354,100. The increase of $1,409,200 under posts relates to the higher provision at continuing vacancy rates for the 17 posts (2 P-4, 7 P-3, 4 P-2, and 4 General Service (Other level)) established in 2025 pursuant to General Assembly resolution 79/257, which were subject to a 50 per cent vacancy rate in accordance with the established practice for newly established posts. The decrease of $55,100 under non-post resources relates to the removal of non-recurrent provisions under furniture and equipment that were approved for 2025 and are not required in 2026.

New and expanded mandates

24.148 As shown in table 24.42, resource changes reflect an increase of $341,400 under posts for the establishment of 3 posts (3 P-3), subject to a 50 per cent vacancy rate in accordance with the established practice for newly established posts. The posts were initially requested in the budget proposal for 2025 but were not approved for 2025, and are now proposed for 2026 in line with the view of the Advisory Committee on Administrative and Budgetary Questions that a phased approach should be applied, as contained in paragraph VI.55 of report A/79/7, which was approved by the General Assembly in its resolution 79/257, and in accordance with the evolving operational requirements of the Institution. Of these three proposed posts, one post is proposed at a lower grade, at the P-3 level rather than the P-4 level; the 3 P-3 posts are needed from 2026 to ensure the full implementation of the mandate of the Institution.

Other changes

24.149 As shown in table 24.42, resource changes reflect a net increase of $81,200, which affect mainly the operational requirements projected for 2026, as follows:

(a) An increase of $34,700 under posts for the upward reclassification and reassignment of a P-3 Legal Officer to P-4 Forensic Pathologist, in line with the efforts to optimize resources by rearranging the organizational structure to create a dedicated forensic capacity within the Search and Identification Section, in order to strengthen the Institution's interdisciplinary search methodologies, thereby ensuring that forensic data is effectively analysed, integrated and applied to operational strategies while optimizing resource allocation;

(b) A decrease of $25,900 under other staff costs, reflecting reduced requirements in the light of prior expenditure and projected needs;

(c) A decrease of $1,100 under consultants due to removal of the provision for specialized skills required for the creation of the digital engagement strategy, as the Institution matures into its fully operational stage and streamlines the related required functions within its existing workforce capacity;

(d) An increase of $209,800 under travel of staff in response to evolving operational requirements, particularly the need to strengthen on-the-ground engagement in the Syrian Arab Republic. Should a more permanent presence be established in the country, travel needs may be adjusted accordingly. Until then, increased travel remains necessary to advance search and identification efforts, including direct interactions with affected families, data collection with key stakeholders and field-based investigative activities essential to fulfilling the Institution's mandate;

(e) A decrease of $135,600 under contractual services made possible by enhanced efficiencies in the data management structure of the Institution, which have reduced costs while sophisticating search and forensic capacities;

(f) A decrease of $66,200 under general operating expenses, reflecting the restructuring of the Administrative Services Section into a broader Operations Support Section through the redeployment of posts and consolidation of administrative, logistical, security and information technology functions. As a result, the Institution established a more streamlined and efficient support framework, while maintaining fiduciary responsibility and segregation of duties in accordance with the Financial Regulations and Rules of the United Nations;

(g) An increase of $112,000 under furniture and equipment that responds to evolving operational requirements and would provide for the purchase of specialized technological infrastructure to support forensic investigations and digital evidence management;

(h) A decrease of $46,500 under grants and contributions due to an anticipated increase in the on-the-ground staff presence in the Syrian Arab Republic that is expected to lead to direct engagement with communities there and therefore decrease the need to transport families and victims to other destinations.

Other information

24.150 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Independent Institution will integrate environmental sustainability practices into its operations. The Independent Institution will continue to prioritize environmentally sustainable practices, particularly in collaboration with service providers for its premises and logistical infrastructure. While the Institution does not directly manage its office facilities, it will collaborate with the service provider to explore opportunities for integrating energy-efficient systems, sustainable waste management practices and environmentally responsible procurement processes. Given the operational necessity of travel, including to the Syrian Arab Republic, the Institution will seek to minimize its carbon footprint through mission consolidation and remote collaboration tools. Through these efforts, the Institution remains committed to minimizing its environmental impact and contributing to broader United Nations sustainability goals.

24.151 Information on the timely submission of documentation and advance booking for air travel is reflected in table 24.43. The Independent Institution will ensure that all missions and official travel are planned well in advance to comply with the advance booking policy and target rate. To achieve this, the Institution will implement a structured mission planning framework, consolidating travel requests for quarterly approval, except in critical, unforeseen cases. Quarterly reviews will monitor adherence and inform necessary adjustments. Improved internal coordination, including early identification of travel needs and close collaboration with administrative staff, will help ensure timely processing. Regular awareness sessions will reinforce policy compliance among staff. These proactive measures will ensure that the Institution maximizes cost efficiencies and adheres to United Nations travel management best practices.

(Footnotes to annex I.A)

_____

Abbreviations: ASG, Assistant Secretary-General; GS (OL); General Service (Other level); GS (PL), General Service (Principal level); LL, Local level; NPO, National Professional Officer; OA, other assessed; RB, regular budget; USG, Under-Secretary-General; XB, extrabudgetary.

Note: Except for 10 posts created pursuant to General Assembly resolution 68/268, posts supporting thematic work and mechanisms that are situated in regional and country offices are represented in the relevant boxes of the organization charts. These include the Development and Economic and Social Issues Branch (16 P-4, 2 P-4 (redeployment), 3 P-3 and 3 P-3 (redeployment)), the Rule of Law, Equality and Non-Discrimination Branch (1 P-4 (establishment), 2 P-4 (redeployment), 5 P-3, 1 P-3 (establishment) and 2 P-3 (redeployment)), the Human Rights Treaties Branch (1 P-3 (establishment)) and the Universal Periodic Review Branch (10 P-4 and 1 P-4 (redeployment)).

[a] The Field Operations and Technical Cooperation Division was renamed the Global Operations Division to more accurately reflect its broad mandate and impactful presence worldwide. This change underscores the Division's vital role in supporting the implementation of international human rights standards on the ground through field presences that monitor and respond to human rights challenges and deliver technical cooperation in collaboration with Governments, the United Nations system, civil society and other partners.

B. Independent Institution on Missing Persons in the Syrian Arab Republic

To align with the evolving operational environment in the Syrian Arab Republic and the strategic vision for 2026, the Independent Institution on Missing Persons in the Syrian Arab Republic has adjusted its organizational structure and post distribution to ensure the most efficient use of existing resources while addressing critical operational needs. This revision includes the redeployment of posts to enhance functional alignment, as well as the reintroduction of three of the six posts that were initially requested in the budget proposal for 2025 but were not approved at that stage by the General Assembly.

Furthermore, the former Search and Data Analysis Section has been divided into two specialized sections, the Data and Digital Analysis Section and the Search and Identification Section, to better reflect their distinct operational functions. The Administrative Services Section has been restructured into a broader Operations Support Section, consolidating administrative, logistical and information technology functions, through the redeployment of two information systems posts and other existing resources, ensuring a streamlined and efficient support framework.

In addition, the Participation and Family Support Section (formerly the Victim Participation and Support Section) and the Executive Office have been adjusted in composition to complement the refined structure, ensuring a balanced distribution of responsibilities across the Institution.

Annex II

Summary of proposed post changes

A. Office of the High Commissioner for Human Rights

Summary of proposed post changes, by component and subprogramme

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
Subprogramme 1 Human rights mainstreaming, right to development, and research and analysis	1 1 4 5	P-4 P-3 P-4 P-3	**Establishment** of Human Rights Officer **Redeployment** of Human Rights Officer	**New/expanded mandates: Pact for the Future** The incumbents would provide thematic expertise, including, pursuant to the implementation of thematic mandates of the Human Rights Council, in support of field offices, where present, and offer technical advice to States and other stakeholders in the region, upon request, to provide technical advice and support, develop guidelines and tools, identify and disseminate good practices, hold consultations, conduct comprehensive research and organize workshops at the country and regional levels. The proposal for redeployment is intended to ensure cost-effectiveness and achieve efficiency gains. The proposal includes the establishment of 2 posts, 1 in Vienna (P-4) and 1 in Beirut (P-3), to support the area of rule of law, equality and non-discrimination, and the redeployment of 9 posts to Addis Ababa, Beirut, Dakar, Panama City (2), Pretoria (3) and Vienna.
Subprogramme 2 Supporting human rights treaty bodies	1	P-3	**Establishment** of Human Rights Officer	**New/expanded mandates: Pact for the Future** The incumbent would be part of the dedicated capacity-building officers' team in regional offices to support States in the region in complying with their periodic reporting and other obligations under the treaties that the States have ratified. This would include day-to-day guidance to States and relevant national stakeholders on engagement with the treaty bodies and help to build and strengthen national capacity to fulfil obligations under the human rights treaties, briefing State officials on how to collect information for the reports, drafting reports/replies to lists of issues or lists of issues prior to reporting and preparing for the interactive dialogue with a treaty body and how to use the Universal Human Rights Index to cluster recommendations by themes. The proposal includes the establishment of 1 post in Vienna as part of the Regional Office for Europe and Central Asia.
Subprogramme 3 Advisory services, technical cooperation and field activities	2 1	D-1 D-1	**Establishment** of Representative Human Rights **Redeployment** of Chief of Service, Human Rights	**New/expanded mandates: Pact for the Future** The incumbents of the D-1 post would act as the regional representative and head of the regional office and coordinate the development of the vision and strategic direction for the work of OHCHR in the region. The regional representatives would: represent OHCHR at the regional level in all relevant settings, including United Nations inter-agency processes and regional intergovernmental organizations; oversee, coordinate and support OHCHR country presences by defining regional priorities and strategies and providing political, policy, planning and programme advice and

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
				performance evaluations; ensure that plans and budgets provide adequate programmatic (country-specific and thematic) and operational support to presences in the region. The proposal includes the establishment of 2 posts, 1 in Bangkok and 1 in Beirut, and the redeployment of 1 post to Vienna.
	2	P-4	**Establishment** of Human Rights Officer	**New/expanded mandates: Pact for the Future** The incumbents would act as regional heads of the Prevention/Early Warning/Emergency Response Team, which delivers regular updates, data, information and analysis on developments in the region, including for early warning and preventive action. The proposal includes the establishment of 2 posts, 1 in Addis Ababa and 1 in Beirut.
	2	P-5	**Redeployment** of Senior Human Rights Officer	**New/expanded mandates: Pact for the Future** The Senior Human Rights Officers and Human Rights Officers would provide technical assistance and operational support to all OHCHR presences within their regions and facilitate the delivery of substantive inputs/outputs and programme management between Headquarters (Geneva and New York) and country presences in their respective regions. The proposal includes the establishment of 7 posts in Addis Ababa (1 P-3, 2 P-2), Beirut (2 P-2) and Pretoria (2 P-2) and the redeployment of 19 posts to Addis Ababa (1 P-5), Bangkok (1 P-4, 1 P-3, 1 P-2), Dakar (2 P-3), Panama City (1 P-4, 1 P-2), Pretoria (1 P-3) and Vienna (1 P-5, 1 P-4, 3 P-3, 5 P-2).
	3	P-4	**Redeployment** of Human Rights Officer	
	1	P-3	**Establishment** of Human Rights Officer	
	7	P-3	**Redeployment** of Human Rights Officer	
	6	P-2	**Establishment** of Associate Human Rights Officer	
	7	P-2	**Redeployment** of Associate Human Rights Officer	
	1	P-3	**Conversion and redeployment** of Human Rights Officer	**New/expanded mandates: Pact for the Future** Cost-neutral conversion of a long-term general temporary position that supports the Independent Expert on the situation of human rights in Mali. The redeployment of the position to Dakar would enhance the delivery of the mandate by enabling a closer connection to on-the-ground realities and facilitating more effective engagement with local stakeholders.
	1	P-4	**Establishment** of Programme Management Officer (Risk Management)	**New/expanded mandates: Pact for the Future** The post would enable OHCHR to manage risks related to programme implementation in its regional presences and country offices. Responsibilities include developing tools and guidelines for the risk management cycle, building capacity in regional offices for risk assessment, ensuring internal controls and communication for each risk category and developing plans to address residual risks. The post would integrate risk information from various presences into the OHCHR corporate risk register and into United Nations country team risk registers and ensure continuous monitoring and reassessment of risk management plans. The proposal includes the establishment of 1 post in Vienna as part of the Regional Office for Europe and Central Asia.

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
	7	P-3	**Establishment** of Programme Management Officer	**New/expanded mandates: Pact for the Future** The incumbents would support programme delivery for the human rights mechanisms, engagement at the regional and country levels and thematic work for the entirety of global operations. The request entails the establishment of 7 P-3 posts to ensure the coordination of additional programme management capacity at the regional level and support alignment with OHCHR strategic planning, monitoring and evaluation processes. The proposal includes the establishment of 7 posts in Addis Ababa, Bangkok, Beirut, Dakar, Panama City, Pretoria and Vienna.
	6	P-3	**Establishment** of Administrative Officer	**New/expanded mandates: Pact for the Future** The incumbents would monitor and advise on compliance with internal controls, regulations and administrative guidelines to promote accountability and good governance; ensure optimal use of resources; coordinate activities related to budget funding, including the preparation and submission of programme and project proposals, and progress and financial reports tailored to regional needs and objectives; provides strategic advice and support to managers and staff on human resources-related matters; and serves as a link between regional offices, headquarters and service providers. The proposal includes the establishment of 13 posts in Addis Ababa (1 P-3), Beirut (1 P-3, 1 LL), Dakar (1 P-3, 1 NPO), Panama City (1 P-3, 2 NPO), Pretoria (1 P-3, 2 NPO) and Vienna (1 P-3, 1 GS (OL)).
	2	NPO	**Establishment** of Finance and Budget Officer	
	3	NPO	**Establishment** of Human Resources Officer	
	1	GS (OL)	**Establishment** of Administrative Assistant	
	1	LL	**Establishment** of Driver	
	6	P-3	**Establishment** of Security Officer	**New/expanded mandates: Pact for the Future** The incumbents would provide essential operational and logistical support for various OHCHR missions at both the regional and country levels. These missions often involve complex, high-sensitivity issues, including emergency response situations. Missions frequently require the physical presence of internal professional security officers to assess risk, ensure the safety of personnel and support mission-critical decision-making on the ground. Support includes coordination with local entities, facilitation of secure movement and ensuring compliance with security protocols. The proposal includes the establishment of 6 posts in Addis Ababa (2 P-3), Bangkok (1 P-3), Dakar (2 P-3) and Panama City (1 P-3).
	1	P-2	**Establishment** of Associate Public Information Officer	**New/expanded mandates: Pact for the Future** The posts would enhance media outreach capabilities and amplify the voice of OHCHR across local and regional platforms. The incumbents would develop and implement communication strategies tailored to specific audiences, strengthen media outreach by optimizing mechanisms, leveraging audiovisual social media and conducting targeted training sessions, and support the execution of communication campaigns, ensuring alignment with directives of the General Assembly. The proposal includes the establishment of 3 posts in Addis Ababa (1 NPO), Pretoria (1 NPO) and Vienna (1 P-2).
	2	NPO	**Establishment** of Public Information Officer	

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
	3	NPO	**Establishment** of Information Systems Officer	**New/expanded mandates: Pact for the Future** The incumbents would lead and coordinate work and provide support to regional hubs in the areas of innovation, data analytics, digital transformation, information technology and information and communications technology security. The post would provide advice and ensure efficient information management, secure usage of information management systems and compliance and alignment with OHCHR and United Nations-wide policies. The proposal includes the establishment of 3 posts in Dakar, Panama City and Pretoria.
	1	P-3	**Conversion and redeployment** of Human Rights Officer	**Other changes** The proposal includes the cost-neutral conversion of a long-term general temporary position that supports the Independent Expert on the situation of human rights in the Central African Republic. The redeployment of the position to Yaoundé would enhance the delivery of the mandate by enabling a closer connection to on-the-ground realities and facilitating more effective engagement with local stakeholders.
	1	P-3	**Redeployment** of Human Rights Officer	**Other changes** The proposal includes the redeployment of a post supporting the Independent International Commission of Inquiry on the Occupied Palestinian Territory (see Human Rights Council resolution 55/28) from Gaza to Ramallah.
Subprogramme 4 Supporting the Human Rights Council, its subsidiary bodies and mechanisms	1	P-4	**Establishment** of Human Rights Officer	**New/expanded mandates: Pact for the Future** The incumbent would advise the Human Rights Council, its President and its Bureau on legal and procedural matters, serving as an expert on the Council's rules of procedure. The incumbent would also guide Member States and stakeholders on the Council's practices and the workings of its subsidiary bodies and mechanisms and would liaise with other United Nations sectors and international organizations to ensure policy consistency, providing briefings and recommendations as needed.
	1	P-4	**Establishment** of Public Information Officer	The incumbents would oversee media advisory and communication outputs for the Human Rights Council and its subsidiary bodies, both during and outside Council sessions. Leading the media team, the incumbents would create outreach products for the media, social media, Member States and the public, explaining the Council's mandate and role within the United Nations system. The incumbents would also address media and public inquiries about the Council's year-round activities and mechanisms.
	1	P-3	**Establishment** of Public Information Officer	
	2	P-3	**Establishment** of Human Rights Officer	The incumbents would provide support for the organization of Human Rights Council-related meetings, including its regular and special sessions, intersessional meetings, informal consultations of its Bureau and efficiency processes, and Bureau meetings, and would support the secretariat of the Council in responding to requests from delegates, United Nations partners, national human rights institutions, regional organizations and other stakeholders on the work of the Council. The incumbents would also coordinate internally with other OHCHR units to prepare the Council's meetings.

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
	4	P-3	**Establishment** of Human Rights Officer	**New/expanded mandates: Pact for the Future** The incumbents would support the implementation of the thematic mandates of special procedures of the Human Rights Council by providing support for country visits, consultations, draft thematic reports and other mandated activities led by the special procedures.
	3	P-2	**Establishment** of Human Rights Officer	
	1	P-4	**Redeployment** of Human Rights Officer	**New/expanded mandates: Pact for the Future** The incumbent would be part of the dedicated capacity-building team in regional offices to advise and assist States in implementing the recommendations of universal periodic reviews. The incumbent would conduct research and compile data to analyse the human rights situation in the region, focusing on trends and priority areas following the universal periodic review. The incumbent would collect information on best practices for the implementation of universal periodic reviews and provide training to enhance engagement among States, civil society organizations, national human rights institutions and other stakeholders throughout the universal period review process. The proposal includes the redeployment of 1 temporary post to Vienna as part of the Regional Office for Europe and Central Asia.

Abbreviations: GS (OL); General Service (Other level); LL, Local level; NPO, National Professional Officer.

B. Independent Institution on Missing Persons in the Syrian Arab Republic

Summary of proposed post changes

Office	*Posts*	*Grade*	*Description*	*Reason for change*
Data and Digital Analysis Section	1	P-4	**Redeployment** of 1 Information Management Officer (P-4), 1 Information Management Officer (P-3), 1 Data Analyst (P-3), 1 Human Rights Officer (P-3), and 1 Associate Human Rights Officer (P-2)	**Other changes: changes across sections** The proposal includes the redeployment of 1 Information Management Officer (P-4), 1 Information Management Officer (P-3), 1 Data Analyst (P-3), 1 Human Rights Officer (P-3) and 1 Associate Human Rights Officer (P-2) to the Data and Digital Analysis Section, following the division of the former Search and Data Analysis Section into two specialized sections. The Information Management Officers and Data Analyst would focus on the collection and processing of structured data and on advanced digital analysis, strengthening the Institution's capacity for geospatial mapping, predictive modelling and case data integration. Meanwhile, the Human Rights Officer and Associate Human Rights Officer would specialize in open-source research and digital investigations. By applying an investigative and analytical lens, they would ensure that collected data are effectively structured for use in field-based search operations. In addition, these redeployments would enhance the Institution's ability to integrate digital
	3	P-3		
	1	P-2		

Office	*Posts*	*Grade*	*Description*	*Reason for change*
				methodologies through a search-focused lens, maximizing efficiency and operational impact. They would also support the Section's role in overseeing the Institution's registry, facilitating case registration processes and ensuring that family engagement is systematically linked with search and data management efforts.
	1	P-4	**Redeployment** of 1 Human Rights Officer (P-4)	**Other changes: changes across sections** The proposal includes the redeployment of 1 Human Rights Officer from the Executive Office to the Data and Digital Analysis Section to serve as Chief of Section. In this capacity, the incumbent would provide strategic leadership, manage a multidisciplinary team and oversee the Section's analytical and investigative processes. The role would be responsible for ensuring the effective collection, structuring, verification and analysis of digital and documentary information to support search efforts. The incumbent would supervise data management and analysis through a search-focused lens and ensure that geospatial analysis, open-source research, digital investigations and translation processes are integrated into broader institutional priorities. The Human Rights Officer would apply an investigative and analytical approach, ensuring that information is securely handled, properly contextualized and ethically utilized. In addition, this redeployment would strengthen the Section's ability to support family engagement. The post would also play a key role in developing methodologies, overseeing strategic partnerships with investigative and research entities and guiding the use of digital tools to enhance the Institution's ability to locate missing persons.
	1	P-3	**Establishment** of 1 Data Scientist (P-3)	**New/expanded mandates** The Data Scientist would play a critical role in advancing the Institution's technological capabilities by implementing artificial intelligence-driven automation, process optimization and scalable analytical models to enhance search and identification efforts. This role would be essential for integrating artificial intelligence and machine learning into investigative workflows, enabling the Institution to process large data sets more efficiently and extract actionable insights from complex information sources. In addition, the Data Scientist would support the Institution's long-term data strategy and enhance both the efficiency and accessibility of critical information.

Office	*Posts*	*Grade*	*Description*	*Reason for change*
	1	P-3	**Establishment** of 1 Information Management Officer (P-3)	**New/expanded mandates** The Information Management Officer, specializing in geospatial analysis, would be instrumental in operationalizing search methodologies by structuring, analysing and visualizing data across sources. The role would enhance the Institution's ability to conduct structured searches, process spatial intelligence and integrate geospatial tools into investigative workflows. The Officer would also develop protocols for data management, facilitate interoperability across different information platforms and provide technical guidance on data collection and integration. By reinforcing the Institution's capacity to handle diverse data sets with precision, the role would significantly contribute to improving search efficiency and analytical rigour.
	1	P-2	**Redeployment** Associate Human Rights Officer (P-2)	**Other changes: changes across sections** The proposal includes the redeployment of 1 Associate Human Rights Officer to the Data and Digital Analysis Section from the former Victim Participation and Support Section. The adjustment reinforces the Section's analytical and open-source research capacity to enhance data verification and contextual analysis in support of search efforts.
	1	P-2	**Redeployment** Associate Translator, Arabic (P-2)	**Other changes: changes across sections** The proposal includes the redeployment of 1 Associate Translator to the Data and Digital Analysis Section from the former Victim Participation and Support Section. The adjustment would ensure that translation capacity is embedded within the section responsible for processing and analysing large volumes of multilingual data, facilitating accurate information management and cross-referencing in support of search efforts.
Search and Identification Section	1	P-5	**Reassignment** of 1 Senior Information Management Officer (P-5) to 1 Senior Investigator (P-5)	**Other changes: entity efficiencies** The proposal includes the reassignment of 1 Senior Information Management Officer as a Senior Investigator to lead the Search and Identification Section. The role would be essential in directing and coordinating field-based search efforts, ensuring that investigative and forensic methodologies are effectively applied in locating and identifying missing persons. The Section would translate intelligence and analysis into actionable field operations, conducting on-the-ground investigations, witness interviews and forensic assessments. The Senior Investigator would oversee the development and execution of structured search operations, the collection of testimonial and material evidence and engagement with affected communities. The role would also involve supervising a

Office	*Posts*	*Grade*	*Description*	*Reason for change*
				multidisciplinary team of human rights investigators, forensic experts and analysts, ensuring that investigative strategies align with the realities of search and identification in the field. In addition, the Senior Investigator would lead efforts to produce contextual analysis and truth-telling initiatives, documenting findings from search operations to provide a more comprehensive understanding of the patterns, circumstances and impact of disappearances. The Senior Investigator would ensure that verified intelligence is operationalized effectively, allowing for methodical, evidence-informed and field-driven search efforts.
	1 (1)	P-4 P-3	**Reclassification and reassignment** of 1 Legal Officer (P-3) to Forensic Pathologist (P-4)	**Other changes: entity efficiencies** The proposal includes the upward reclassification and reassignment of 1 Legal Officer (P-3) to Forensic Pathologist (P-4), redeployed from the former Victim Participation and Support Section. The adjustment would strengthen in-house forensic expertise within existing resources to enhance search and identification capabilities. The increasing need for forensic analysis in the context of search and identification efforts has necessitated a shift towards embedding specialized forensic roles within the Institution. The Forensic Pathologist would play a critical role in examining and interpreting forensic findings, ensuring that an interdisciplinary analysis would support search efforts and case assessments. The incumbent would also lead coordination efforts with international and local forensic partners, facilitating collaboration on forensic investigations, capacity-building and the application of global best practices in the identification of missing persons. By embedding dedicated forensic roles within the Section, the Institution would strengthen its interdisciplinary search methodologies, ensuring that forensic data are effectively analysed, integrated and applied to operational strategies. This realignment would ensure that the Institution's search and identification efforts remain methodical, evidence-based and responsive to evolving operational needs.
	2	P-3	**Reassignment** of 2 Human Rights Officers (P-3) to 2 Forensic Experts (P-3)	**Other changes: entity efficiencies** The proposal includes the reassignment of 2 Human Rights Officers (P-3) to Forensic Experts (P-3) within the Search and Identification Section, redeployed from the former Victim Participation and Support Section.

Office	*Posts*	*Grade*	*Description*	*Reason for change*
				The Forensic Experts would specialize in forensic anthropology and forensic genetics, respectively. One would focus on post-mortem analysis of bodies, while the other would contribute genetic expertise to forensic casework and systems, enhancing the Institution's ability to process, analyse and interpret forensic evidence. The adjustment would strengthen in-house forensic expertise within existing resources to enhance search and identification capabilities, further strengthen interdisciplinary search methodologies and ensure that the Institution's search and identification efforts remain methodical, evidence-based and responsive to evolving operational needs.
	1	P-2	**Reassignment** of 1 Associate Information Management Officer (P-2) to 1 Associate Investigator (P-2)	**Other changes: entity efficiencies** The proposal includes the reassignment of 1 Associate Information Management Officer as an Associate Investigator within the Search and Identification Section, following the division of the former Search and Data Analysis Section into two specialized sections. The adjustment would ensure additional capacity for field-based search efforts, strengthening case verification, structured interviews and coordination with forensic and human rights officers.
	1	P-3	**Redeployment** of 1 Field Interpreter (P-3)	**Other changes: changes across sections** The proposal includes the redeployment of 1 Field Interpreter from the former Victim Participation and Support Section to the Search and Identification Section. The adjustment would ensure that specialized linguistic support is embedded within field operations, facilitating direct engagement with families, witnesses and other stakeholders during search and identification activities.
Operations Support Section	1	P-3	**Establishment** of 1 Security Coordination Officer (P-3)	**New/expanded mandates** The Security Coordination Officer would be responsible for developing and implementing a comprehensive security framework tailored to the operational needs of the Institution. The role would be critical to ensuring the safety of staff, assets and activities, particularly given the Institution's increasing engagement in the field, including in high-risk environments. The Officer would coordinate closely with the Department of Safety and Security and relevant security counterparts to assess threats, implement risk mitigation strategies and provide security guidance for personnel deployed on missions. In addition, the incumbent would conduct security briefings, oversee incident reporting mechanisms and deliver tailored security awareness training to enhance preparedness and response capacities. By embedding

Office	*Posts*	*Grade*	*Description*	*Reason for change*
				security expertise within the Operations Support Section, the Institution would ensure a proactive and structured approach to security management, directly supporting the safe and effective execution of its mandate.
	1 1	P-4 GS (OL)	**Redeployment** of 1 Information Systems Officer (P-4) and 1 Information Systems Assistant (GS (OL))	**Other changes: changes across sections** The proposal includes the redeployment of 1 Information Systems Officer and 1 Information Systems Assistant to the Operations Support Section to centralize information technology governance, digital infrastructure and information and communications technology security across the Institution. Previously part of the Search and Data Analysis Section, these roles focused on managing information systems, secure data storage and digital tools supporting institutional workflows. As the Institution expands its operations, these functions would now be better placed under the Operations Support Section, ensuring enterprise-wide information technology coordination. This move would also align with the consolidation of security-related functions, enhancing risk management, data protection and operational security across all sections.
	1	GS (OL)	**Redeployment** of 1 Administrative Assistant	**Other changes: changes across sections** The proposal includes the redeployment of 1 Administrative Assistant post from the Executive Office to the Operations Support Section to better support the Institution's growing logistical and operational needs. The adjustment would align with the consolidation of administrative, procurement and mission support functions under a unified framework, enhancing efficiency and coordination across the Institution's activities. The Administrative Assistant would provide essential logistics and travel support for field missions, workshops and stakeholder engagement and would play a key role in supporting on-the-ground operations, including assisting in security planning and coordination. The Administrative Assistant would also contribute to procurement processes, low-value purchase orders and the strengthening of internal controls, reinforcing the Institution's enterprise risk management framework.

Abbreviation: GS (OL), General Service (Other level).

Annex IV

Pact for the Future (General Assembly resolution 79/1)

I. Background and methodology

1. In action 46 of the Pact for the Future, Member States reaffirmed their commitment to ensuring the effective enjoyment by all of all human rights and responding to new and emerging challenges. In doing so, they requested the Secretary-General to assess the need for adequate, predictable, increased and sustainable financing of the United Nations human rights mechanisms, including the Office of the United Nations High Commissioner for Human Rights (OHCHR), for efficient and effective mandate delivery to enable them to respond to the range of human rights challenges facing the international community with impartiality, objectivity and non-selectivity.

2. The Secretary-General carried forward action 46, cognizant that the currently alarming human rights landscape would further stress the United Nations human rights system, including through growing requests to support Member States in addressing a broadening panorama of highly complex human rights challenges. The present annex provides a summary of an assessment and indicates immediate priority needs to urgently improve the global human rights response.

3. The need for adequate, predictable, increased and sustainable financing was assessed by reviewing reports issued by the Office of Internal Oversight Services, the Joint Inspection Unit and the Board of Auditors. The Secretary-General also considered independent evaluations and the outcomes of global organizational review exercises and incorporated relevant recommendations of the Advisory Committee on Administrative and Budgetary Questions.

II. Gaps and challenges for mandate delivery

4. The Secretary-General's assessment of reports, evaluations and reviews identified fundamental gaps and recurrent challenges that need to be addressed to enhance mandate delivery. Examples of gaps include: recommendations of the universal periodic review for which, although accepted by Member States, OHCHR has not been able to provide technical assistance to support implementation; human rights treaties for which, despite being ratified by Member States, OHCHR has not been able to deliver capacity-building to support engagement or reporting to advance implementation; requests from Member States and resident coordinators to establish in-country human rights programmes that OHCHR has been unable to support; and an inability to deliver continuing legal and political analysis and advice to support the Human Rights Council's day-to-day operations. Recurrent challenges underlying such gaps were identified as an unsustainable reliance on voluntary contributions, inadequate leadership and staffing levels, notably in regional offices, and the need to strengthen administrative, planning, programme management and risk management functions.

5. Moving away from the current unsustainable reliance on voluntary contributions, putting the human rights system on a pathway to stability and setting OHCHR a foundation to be able to deliver Member States' vision in General Assembly resolution 48/141 requires substantial investment.

6. A challenge highlighted across several reports was the steady proliferation of intergovernmental mandates not funded through the regular budget. The Office of Internal Oversight Services, the Joint Inspection Unit and the Board of Auditors underscored the need for OHCHR to rely on regular budget funding rather than voluntary contributions to implement all mandated activities.

7. A need to overcome administrative challenges to improve mandate delivery was also recurrent. Human resources issues were identified as an area to be addressed. Recruitment delays and inadequate staffing, especially in regional and country offices, were consistently highlighted as pressing concerns. Operational challenges, such as logistical and security concerns, were characterized as inhibiting the impact of OHCHR. Furthermore, there were calls for increased

attention to internal control mechanisms concerning asset management and compliance with travel and procurement policies.

8. In addition, a need to strengthen planning, programme management and risk management to improve mandate delivery was repeatedly noted. Recent reviews placed emphasis on the value of longer-term strategic plans to align programme delivery with principal stakeholders, such as Member States and United Nations partners. Reinforced monitoring and evaluation functions were seen as crucial for supporting more effective programme management, reporting against planned outputs and strengthening institutional learning and knowledge management. There was a pattern of calls for OHCHR to heighten its focus on risk management.

III. Trends in proposals

9. Proposals from reports, evaluations and reviews prioritized optimization measures aimed at delivering cost savings and efficiency gains. In this respect, the Secretary-General noted that OHCHR had already made significant progress on such optimization measures, within existing resources, due to ongoing organizational change management efforts.

10. Proposals placed a high priority on filling foundational gaps related to core capacity for regional and country presences; human rights mechanisms, especially the Human Rights Council and the treaty body system and its individual communications procedures; support for national human rights institutions; executive functions, including with respect to global communications and outreach; human rights inquiries; addressing thematic human rights challenges, including to enable flexibility in the delivery of mandated activities; supporting special procedures of the Council; administrative, strategic planning, programme management and risk management capacities; and innovation and data analysis.

11. Foremost among the proposals that surfaced recurrently in the reports, evaluations and reviews were recommendations to adequately resource OHCHR regional presences to improve mandate delivery. Shifting existing resources from headquarters to regional locations and securing core capacity for essential functions were proposed to generate transformative cost savings and efficiency gains, notably by reducing administrative, staffing and operational costs.

12. Successive General Assembly and Human Rights Council mandates that recognized the value of OHCHR regional engagement were noted in the recommendations. The 2005 World Summit Outcome led to the establishment of OHCHR regional offices. Subsequent mandates reinforced this approach, enabling targeted human rights support, including capacity-building for treaty bodies, implementation of the recommendations of the universal periodic review and addressing priorities such as the 2030 Agenda for Sustainable Development, racial justice, digital technology and human rights. Strengthening OHCHR regional offices was seen as a strategic and cost-effective response to Member States' growing demands for human rights advisory services and technical assistance.

13. With a view to beginning to address the critical priority gaps of overreliance on voluntary contributions and inadequate leadership and staffing levels in regional offices, a main feature of the 2026 proposal concerns a tailored approach to strengthened regional presences, including by redeploying existing regular budget and extrabudgetary posts to achieve efficiency gains and building on existing capacities at regional offices. Not only would the redeployment of existing posts from headquarters set the stage for further cost efficiencies, but they would place OHCHR closer to the ground to improve mandate delivery and align OHCHR with the United Nations system.

IV. Sustainable financing

14. The Secretary-General underlines that a foundation of adequate, predictable and sustainable regular budget financing for the United Nations human rights mechanisms, including OHCHR, has not yet been established. This recognition serves as a starting point to put OHCHR on a pathway to efficiently and effectively respond to the range of human rights challenges facing the international

community with impartiality, objectivity and non-selectivity. A guiding principle on this pathway is that all mandated activities should be covered in their entirety by the regular budget.

15. Fulfilling action 46 of the Pact for the Future will require an incremental approach. Two immediate priorities should be addressed in the regular budget for 2026. In the first instance, the Secretary-General would prioritize core support for the Human Rights Council, which was previously subsidized with voluntary contributions to OHCHR. Second, the Secretary-General would prioritize further progress on adequately resourcing OHCHR regional presences to support more efficient and effective global mandate delivery that is impartial, objective and non-selective.

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

25.1 The Office of the United Nations High Commissioner for Refugees (UNHCR) is responsible for leading and coordinating international action for the protection of refugees and the search for solutions to their plight. Its mandate derives from relevant General Assembly resolutions and decisions, including resolutions 319 A (IV), by which the Assembly established the Office, and 428 (V), which sets out its statute. In addition, the international legal basis for the protection of refugees finds its principal expression in the Convention relating to the Status of Refugees of 1951 and the Protocol relating to the Status of Refugees of 1967. UNHCR also has responsibilities for stateless persons pursuant to paragraph 6 (A) (ii) of its statute and article I (A) (2) of the 1951 Convention with regard to refugees who are stateless, as well as to various Assembly resolutions, including resolutions 3274 (XXIX) and 31/36 in relation to the Convention relating to the Status of Stateless Persons of 1954 and the Convention on the Reduction of Statelessness of 1961. Over the years, the mandate of UNHCR has been extended to other groups through various Assembly resolutions. UNHCR provides protection and assistance to internally displaced persons, working in cooperation with the Under-Secretary-General for Humanitarian Affairs and Emergency Relief Coordinator and in the context of the collaborative response of the United Nations system, as well as with the consent of the State concerned.

Programme of work

International protection, durable solutions and assistance to refugees

Objective

25.2 The objective, to which this programme contributes, is to ensure international protection for refugees and other persons of concern[1] and to achieve durable solutions to their plight, in cooperation with States and other organizations, without discrimination.

Strategy and external factors for 2026

25.3 To contribute to the objective, UNHCR will, in close cooperation with national and local authorities, partners in the United Nations system, non-governmental organizations, persons of concern, the private sector, development partners, academia and other relevant stakeholders:

(a) Swiftly and effectively respond to humanitarian crises, including in conflict-affected areas, by providing protection, humanitarian and life-saving assistance, while ensuring preparedness measures to respond to new emergencies with agility;

(b) Support implementation of the Global Compact on Refugees, follow up on the implementation of pledges made at the 2023 Global Refugee Forum and advocate for more active international solidarity and equitable burden- and responsibility-sharing to support communities and countries hosting refugees;

(c) Advocate adherence by States to relevant international and regional instruments, including the refugee and statelessness conventions, while promoting and facilitating the admission, reception and treatment of refugees in accordance with internationally agreed standards;

[1] Other persons of concern include asylum-seekers, refugee returnees, stateless persons and internally displaced persons.

(d) Enhance protection and assistance for internally displaced persons under the Inter-Agency Standing Committee coordination system, in line with relevant General Assembly resolutions, including 78/205;

(e) Advocate for the prevention and reduction of statelessness, and the protection of stateless persons, including by promoting accession to the relevant international instruments to facilitate the acquisition or confirmation of nationality by stateless persons;

(f) Enhance the resilience of forcibly displaced persons and their host communities faced with the adverse effects of climate change and disasters, in consultation with national authorities and in cooperation with competent agencies.

25.4 By promoting comprehensive approaches, UNHCR will contribute to the relevant goals contained in the 2030 Agenda for Sustainable Development, ensuring that refugees and other persons of concern are not left behind in development processes (A/AC.96/75/5, para. 56 and table I.16).

25.5 The above-mentioned work is expected to result in:

(a) Significant advances in the response to refugee situations through more predictable and equitable burden- and responsibility-sharing and through a multi-stakeholder approach, consistent with the Global Compact on Refugees;

(b) Strengthened national asylum systems that are compliant with international legal standards;

(c) The advancement of solutions for forcibly displaced people, including voluntary repatriation and, where appropriate and feasible, local integration and resettlement, while reaffirming the importance of support to facilitate sustainable reintegration in countries of origin;

(d) Reinforced solutions for stateless people, resulting in previously stateless individuals acquiring nationality or having their nationality confirmed;

(e) Improved access to protection and assistance for refugees and asylum-seekers through registration.

25.6 With regard to the external factors, the overall plan for 2026 is based on the following planning assumptions:

(a) Security conditions shall allow UNHCR to carry out its programmes;

(b) Humanitarian access will be granted in most countries, enabling UNHCR to respond to urgent protection and assistance needs;

(c) States and the international community at large will remain committed to contributing to and supporting the implementation of the Global Compact on Refugees, including pledges made at the Global Refugee Forum;

(d) Asylum space and policies will not further restrict admissions in some countries;

(e) Voluntary funding from donors will match the budgeted needs to respond effectively and adequately to situations of forced displacement and statelessness.

25.7 With regard to cooperation with other entities at the global, regional, national and local levels, UNHCR will continue to engage a wide range of partners in programme delivery. UNHCR will strengthen partnerships with local actors, regional organizations, organizations led by refugees and other persons of concern, development actors and international financial institutions to advance the inclusion of displaced populations in United Nations programmes and national humanitarian and development policies and plans. UNHCR will continue to strengthen feedback and response mechanisms as a means of consulting displaced and stateless people on its programmes. The Office will continue to invest in private-sector partnerships with a view to securing support for strategic and long-term responses. Efforts to address protection needs by empowering affected communities and fostering their resilience and self-reliance until durable solutions are found will be a priority.

25.8 With regard to inter-agency coordination and liaison, UNHCR will continue to cooperate closely with resident coordinators and humanitarian coordinators to ensure that overarching protection and solutions strategies are comprehensive. UNHCR will closely coordinate with other agencies, leveraging comparative advantages. This approach will strengthen synergies and maximize impact, enhancing inter-agency responses in cooperation with host countries. The Office will engage actively in relevant United Nations forums, including the Inter-Agency Standing Committee and the United Nations System Chief Executives Board for Coordination. Through its Institutional Plan on Solutions to Internal Displacement,[2] UNHCR will step up its engagement in situations of internal displacement.

25.9 UNHCR integrates a gender perspective in its operational activities, deliverables and results, as appropriate. UNHCR will remain fully committed to a non-discriminatory approach. Specifically, UNHCR will strive to strengthen gender equality, including by preventing, mitigating and responding to gender-based violence and violence against children, including sexual violence. It will ensure that survivors have access to healthcare, psychosocial support, safe shelter and legal aid, while strengthening community engagement and prioritizing awareness-raising activities. The Office will also enhance collaboration with women-led organizations and strengthen strategic partnerships with development actors to this end. By addressing these challenges and seizing new opportunities, UNHCR aims to make a lasting impact on the protection of women and girls.

25.10 In line with the United Nations Disability Inclusion Strategy, UNHCR will work with a global network of persons of concern who are living with disabilities, in collaboration with relevant organizations. The Office will advocate that their disability considerations be taken into account in the context of international protection and promote their equal access to social protection schemes.

Evaluation activities

25.11 The following evaluations conducted by UNHCR and completed in 2024 have guided the proposed programme plan for 2026:

(a) UNHCR engagement in situations of internal displacement;

(b) Decentralization and regionalization reform of UNHCR;

(c) Several country strategy evaluations;

(d) The inter-agency humanitarian evaluations of humanitarian responses in Afghanistan and Ethiopia;

(e) UNHCR support to refugee health, education and economic inclusion in West and Central Africa;

(f) The Djibouti declaration of the regional ministerial conference on refugee education;

(g) Joint UNHCR-United Nations Children's Fund (UNICEF) summative evaluation on best practices for refugee children.

25.12 In response to the results of the evaluations referenced above, the global evaluations of UNHCR engagement in situations of internal displacement and the decentralization and regionalization reform of UNHCR are informing the implementation of global strategies in 2026. The inter-agency humanitarian evaluations of humanitarian responses in Afghanistan and Ethiopia are informing UNHCR engagement under the Inter-Agency Standing Committee, in particular its leadership role in protection. Finally, evaluations of UNHCR support to refugee health, education and economic inclusion in West and Central Africa, the evaluation of the Djibouti declaration and the joint UNHCR and UNICEF summative evaluation on best practices for refugee children will inform the planning for those specific programming areas; for example, in the context of internal displacement, UNHCR will strengthen its focus on protection.

[2] See https://www.unhcr.org/media/unhcr-institutional-plan-solutions-internal-displacement.

25.13 The following evaluations are planned for 2026:

(a) Refugee employment and economic inclusion;

(b) Evaluation of emergency responses;

(c) Specific programming areas as required.

Programme performance in 2024

Increased commitment to address statelessness

25.14 Stateless people often face difficulties in accessing basic rights such as education, healthcare, employment and freedom of movement. The UNHCR-led #IBelong campaign, which concluded in 2024, aimed to raise awareness, secure commitments and catalyse global action to end statelessness. Over the 10-year campaign, more than 560,000 stateless persons acquired nationality. The period also saw renewed commitment from States to prevent and respond to statelessness, demonstrated by a 25 per cent increase in accessions to the 1954 and 1961 conventions on statelessness and over 500 pledges made through the Global Compact on Refugees by States and other actors.[3] Despite notable progress and commitments, millions of people remain stateless or of undetermined nationality, and children continue to be born into statelessness.

25.15 In 2024, UNHCR launched the Global Alliance to End Statelessness.[4] By the end of 2024, over 120 entities, including 23 States and 11 intergovernmental organizations, had become members of the Alliance, signalling continued strong global commitment to addressing statelessness.

25.16 Progress towards the objective is presented in the performance measure below (see table 25.1).

Table 25.1
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Between 2014 and 2024, more than 560,000 stateless persons acquired nationality and there was a 25 per cent increase in accessions to the 1954 and 1961 conventions on statelessness Over 120 entities joined the Global Alliance to End Statelessness in 2024

Planned results for 2026

Result 1: enhanced inclusion of displaced people through digital cash payments

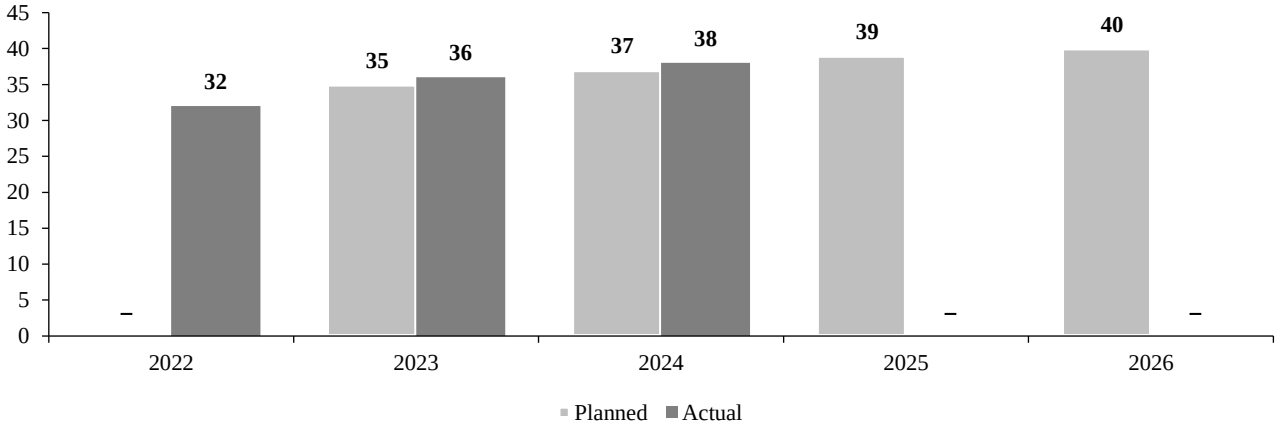
Programme performance in 2024 and target for 2026

25.17 The programme's work contributed to 38 per cent of forcibly displaced people who are recipients of UNHCR cash assistance receiving it through their own bank or mobile money accounts, which exceeded the planned target of 37 per cent.

[3] See https://globalcompactrefugees.org/pledges-contributions.
[4] See https://statelessnessalliance.org/.

25.18 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 25.I).

Figure 25.I
Performance measure: percentage of forcibly displaced who are recipients of cash assistance through their own bank or mobile money accounts (annual)



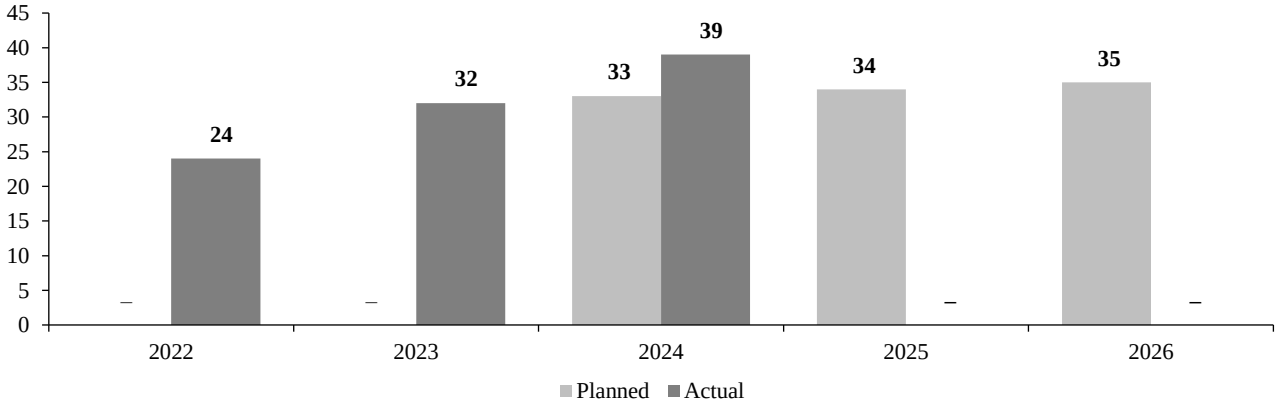
Result 2: increased prevalence of national and local partners in refugee response plans globally

Programme performance in 2024 and target for 2026

25.19 The programme's work contributed to 39 per cent of national and local partners being involved in refugee response plans globally, which exceeded the planned target of 33 per cent.

25.20 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 25.II).

Figure 25.II
Performance measure: percentage of local and national operational partners in refugee response plans globally (as a proportion of all partners)



Result 3: strengthened protection and access to services for refugees and asylum-seekers

Proposed programme plan for 2026

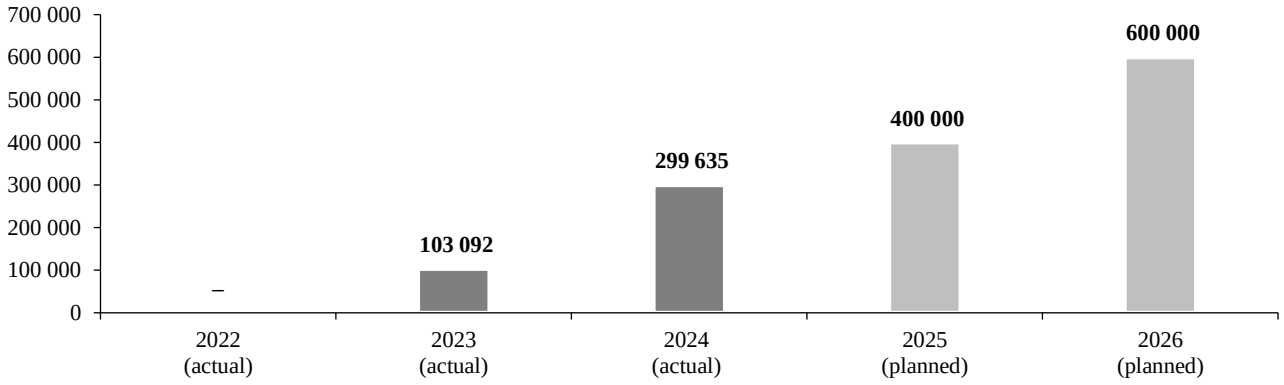
25.21 Individual registration, documentation and quality registration data are critical for the delivery of protection and assistance. The Digital Gateway[5] initiative reflects the efforts of UNHCR over the past few years to provide displaced people with online access to key information and services. This self-service solution offers functionalities such as scheduling registration appointments, accessing and updating personal data, and communicating with UNHCR through digital platforms. This approach accelerates registration, improves access to services and redefines how UNHCR will deliver protection and assistance in the future.

Lessons learned and planned change

25.22 The lesson for the programme was that the use of digital self-service tools could enable refugees and asylum-seekers to swiftly access support. The Office gained key insights from deploying the Digital Gateway registration appointment tool in Egypt and in Indonesia to enhance registration processes. These initiatives emphasized the need for adaptability and the use of automation tools to improve the effectiveness of support to refugees and asylum-seekers. In applying the lesson, UNHCR will test and refine the functionalities of the tool on the basis of the experience of pilot projects across diverse contexts, the outcomes of which will inform adjustments to ensure that the tool is fully optimized for its global roll-out in 2026.

25.23 Expected progress towards the objective is presented in the performance measure below (see figure 25.III).

Figure 25.III
Performance measure: number of persons of concern who have created digital accounts through the Digital Gateway (cumulative)



Legislative mandates

25.24 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the Office.

[5] See https://www.unhcr.org/digitalstrategy/the-digital-gateway/.

General Assembly resolutions

319 A (IV)	Refugees and stateless persons
428 (V)	Statute of the Office of the United Nations High Commissioner for Refugees
538 B (VI)	Assistance to and protection of refugees
1166 (XII)	International assistance to refugees within the mandate of the United Nations High Commissioner for Refugees
46/108; 78/185	Assistance to refugees, returnees and displaced persons in Africa
50/152; 73/151; 78/184; 79/156	Office of the United Nations High Commissioner for Refugees
58/153	Implementing actions proposed by the United Nations High Commissioner for Refugees to strengthen the capacity of his Office to carry out its mandate
70/1	Transforming our world: the 2030 Agenda for Sustainable Development
78/205	Protection of and assistance to internally displaced persons

Conventions and conference declarations

Convention relating to the Status of Refugees, of 1951, and Protocol relating to the Status of Refugees, of 1967

Convention relating to the Status of Stateless Persons, 1954

Convention on the Reduction of Statelessness, 1961

Organization of African Unity Convention Governing the Specific Aspects of Refugee Problems in Africa, 1969

Cartagena Declaration on Refugees, 1984

Convention on the Rights of the Child, 1989

San José Declaration on Refugees and Displaced Persons, 1994

African Union Convention for the Protection and Assistance of Internally Displaced Persons in Africa, 2009

Deliverables

25.25 Table 25.2 lists all deliverables of UNHCR.

Field and technical cooperation projects (number of projects)	**9**	**13**	**9**	**11**
15. On attaining a favourable protection environment, realizing rights in safe environments, empowering communities and securing solutions such as voluntary repatriation, local integration and resettlement	9	13	9	11
Seminars, workshops and training events (number of days)	**60**	**60**	**60**	**60**
16. Training courses for government and implementing partners on emergency management, refugee law, protection and operations management	45	45	45	45
17. Seminars on programme areas for UNHCR implementing partners and government officials, including on the Global Compact on Refugees	15	15	15	15
Publications (number of publications)	**32**	**32**	**22**	**32**
18. Midyear and year-end trends of global forced displacement (formerly the *Statistical Yearbook*)	2	2	2	2
19. Publications on a range of protection-related themes	30	30	20	30
Fact-finding, monitoring and investigation missions (number of missions)	**44**	**56**	**44**	**60**
20. Monitoring missions on the implementation of the programme	40	40	40	40
21. Investigations related to cases accepted by the Inspector General's Office	4	16	4	20
Humanitarian assistance missions (number of missions)	**75**	**155**	**130**	**160**
22. Humanitarian assistance missions undertaken by the UNHCR senior executive team	75	155	130	160

C. Substantive deliverables

Consultation, advice and advocacy: advice on refugee protection and solutions, and on the rights of refugees, other forcibly displaced persons and stateless persons under international, regional and national law, to approximately 136 countries; support to the legislative processes of 80 countries; dialogue and consultations with partners, including 126 non-governmental organizations and other partners.

Direct service delivery: protection services for approximately 14 million people; biometric registration for some 28 million refugees and asylum-seekers; the provision of shelter-related relief items for at least 600,000 people; legal aid to facilitate acquiring of nationality or having it confirmed; essential healthcare services for some 10 million displaced people and comprehensive healthcare for women and girls.

D. Communication deliverables

Outreach programmes, special events and information materials: World Refugee Day; the seventy-fifth anniversary of the adoption of the Convention relating to the Status of Refugees; the Nansen Refugee Award, an annual event recognizing individuals and organizations for their outstanding work for forcibly displaced and stateless people; communications on thematic priorities.

External and media relations: media and communications partnerships and media coverage on thematic areas; awareness-raising by almost 100 Goodwill Ambassadors, high-profile supporters and new influencers.

Digital platforms and multimedia content: approximately 40 stories that are co-led or co-produced with forcibly displaced and stateless people; UNHCR websites and UNHCR social media platforms.

B. Proposed post and non-post resource requirements for 2026

Overview

25.26 The proposed regular budget resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 25.3 to 25.5.

Table 25.3
Overall: evolution of financial resources by object of expenditure
(Thousands of United States dollars)

			Changes					
Object of expenditure	*2024 expenditure*[a]	*2025 approved*	*Technical adjustments*	*New/expanded mandates*	*Other*	*Total*	*Percentage*	*2026 estimate*
Posts	719.8	831.3	–	–	–	–	–	831.3
Grants and contributions[b]	46 420.7	49 635.6	–	–	–	–	–	49 635.6
Total	**47 140.5**	**50 466.9**	**–**	**–**	**–**	**–**	**–**	**50 466.9**

[a] At the time of reporting, the expenditures presented in this table and in subsequent tables are not final and may be subject to adjustments that could result in minor differences between the information contained in the present report and the financial statements to be issued by 31 March 2025.
[b] Provides for the full cost of 218 temporary posts (4 D-2, 13 D-1, 20 P-5, 36 P-4, 23 P-3, 12 P-2, 25 General Service (Principal level) and 85 General Service (Other level)) and contributes to costs for contractual services, general operating expenditure, and contributions to joint United Nations activities.

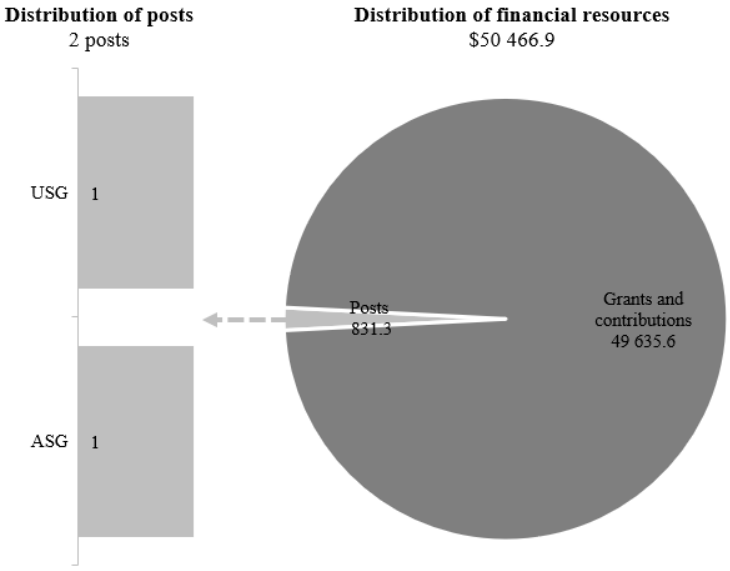
Figure 25.IV
Distribution of proposed resources for 2026
(Number of posts/thousands of United States dollars)



Extrabudgetary resources

25.29 As reflected in tables 25.6 (2) and 25.7 (2), extrabudgetary resources amount to $10,197,039,000. The resources are based on the UNHCR annual programme budget for 2025 (see A/AC.96/75/5), approved by the Executive Committee of UNHCR at its plenary session held in October 2024. The 2025 amount has been used as an estimate for 2026, pending the completion of the UNHCR annual planning exercise for 2026 in the second quarter of 2025.

25.30 In-kind contributions with an estimated value of $100,000,000, comprising goods to be distributed to beneficiaries, premises, utilities, transport and personnel provided free of charge, are anticipated for 2026.

25.31 The extrabudgetary resources under the present section are subject to the oversight of the UNHCR Executive Committee, a subsidiary organ of the General Assembly.

Executive direction and management

25.32 The executive direction and management component comprises the Executive Office, the Governance Service, the Evaluation Office, the Inspector General's Office, the Ethics Office, the UNHCR Liaison Office in New York and the Global Data Service. Reporting to the Deputy High Commissioner, and also part of executive direction and management, are Enterprise Risk Management, the Ombudsman's Office, the Legal Affairs Service, the Innovation Service and the Design and Development Service.

25.33 The High Commissioner (Under-Secretary-General), who is elected by the General Assembly on the nomination of the Secretary-General, provides the overall direction, supervision and management of activities. The functions of the High Commissioner are set out in the annex to the statute of UNHCR. In discharging these responsibilities, the High Commissioner is assisted by a Deputy High Commissioner (Assistant Secretary-General).

25.34 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, UNHCR is integrating environmental management practices into its operations.

25.35 With a goal of reducing its greenhouse gas emissions by 30 per cent from 2010 levels by 2030, by 2024 UNHCR had reduced its annual direct emissions, including buildings, fleet and travel, by 21 per cent against the 2010 baseline. In 2024, UNHCR transitioned nine of its offices to solar energy in Mauritania, Nigeria, South Africa and Uganda, which resulted in an average cost saving of 31 per cent against previous energy costs and a carbon emissions reduction of 53 per cent once the installation was completed. A further 18 offices are planned for transition in 2025. For vehicle management, the Smart Fleet ridesharing programme is currently implemented at 188 UNHCR offices, saving over $1.1 million and reducing carbon dioxide emissions by more than 560 tons during 2024. Continued scale-up is planned during 2025, with a target of 250 offices by the end of the year. In addition to ridesharing and carpooling, UNHCR is transitioning to 30 per cent more fuel-efficient vehicles across the fleet. The UNHCR global fleet includes 27 electric vehicles in use in Aruba, Hungary, India, Jordan, Kenya, Nepal and Switzerland, and 90 hybrid vehicles in 28 countries as at the end of 2024.

25.36 Information on the timely submission of documentation and advance booking for air travel is reflected in table 25.9. The actual figure for travel should be considered in the context of the UNHCR mandate, which frequently necessitates the deployment of staff to respond to urgent humanitarian needs, posing challenges for advance travel planning. Efforts to improve compliance and optimize travel costs will continue in the coming years, with a focus on increasing awareness of the need for compliance with the advance purchase policy and to ensure a broader deployment of global framework agreements with airlines.

Table 25.9

Timely submission of documentation	90	85	100	100	100
Air tickets purchased at least two weeks before the commencement of travel	16	20	30	100	100

25.37 The proposed regular budget resources for 2026 amount to $831,300 and reflect no change compared with the approved budget for 2025. Additional details on the distribution of the proposed resources for 2026 are reflected in table 25.10.

Programme of work

25.38 In accordance with article 20 of the UNHCR statute, the Office of the High Commissioner is financed under the budget of the United Nations. Unless the General Assembly decides otherwise, no expenditure other than administrative expenditures relating to the functioning of the Office of the High Commissioner shall be borne on the budget of the United Nations. All other expenditures relating to the activities of the High Commissioner shall be financed by voluntary contributions. While the statute does not define what is meant by “administrative expenditures”, the term, based on a definition proposed by the Advisory Committee on Administrative and Budgetary Questions in its first report to the General Assembly at its seventh session,[6] has been interpreted to mean expenses other than operational expenses and their related management costs. Accordingly, no regular budget resources are estimated under the programme of work component.

Programme support

25.39 The programme support component includes divisions at headquarters, regional bureaux and some parts of country programmes that, to varying extents, develop, formulate, direct and administer programmes, as well as provide programme evaluation and oversight. They also discharge functions with regard to information technology, financial management, human resources management and administration.

[6] *Official Records of the General Assembly, Seventh Session, Supplement No. 7* (A/2157), part three.

25.40 The proposed regular budget resources for 2026 amount to $49,635,600 and reflect no change compared with the approved budget for 2025. Additional details on the distribution of the proposed resources for 2026 are reflected in table 25.11.

25.41 The provision of a grant for the administrative expenditure of the Office rather than as post and non-post resources was initiated in the biennium 2002–2003 (A/56/6 (Sect. 23), para. 23.20) to simplify the work of the Office by eliminating the need for separate administrative procedures in respect of a portion of its administrative posts. It was subject to review after three bienniums. The results of a review of the lump-sum arrangement and the lessons learned from the review of the full three bienniums of 2002–2003, 2004–2005 and 2006–2007 were reported to the General Assembly at its sixty-third session, in 2008 (see A/63/537). The Assembly, in section VII of its resolution 63/263, endorsed the maintenance of the lump-sum arrangement for the funding of UNHCR in future budget presentations of the proposed programme budget, as recommended by the Advisory Committee on Administrative and Budgetary Questions (A/63/616, para. 10).

II. Summary of proposed post changes 33

*** In keeping with paragraph 10 of General Assembly resolution 77/267, the part consisting of the post and non-post resource requirements (part III) is submitted through the Advisory Committee on Administrative and Budgetary Questions for the consideration of the Assembly.

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

26.1 The United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) is responsible for providing assistance and protection to Palestine refugees. The mandate derives from the priorities established in relevant General Assembly resolutions, including resolution 302 (IV) of 1949, by which the Agency was established. Since starting operations in 1950, UNRWA has adapted its programmes to meet the increasingly complex needs of Palestine refugees and provide them with a measure of protection, relief and stability amid chronic uncertainty in the region.

Strategy and external factors for 2026

26.2 The mission of UNRWA is to help Palestine refugees achieve their full potential in human development under the difficult circumstances in which they live. In line with that mission, the Agency works towards six programmatic objectives within its strategic plan for the period 2023–2028: (a) Palestine refugees are protected through the realization of their rights under international law; (b) Palestine refugees lead healthy lives; (c) Palestine refugees complete inclusive and equitable quality basic education; (d) Palestine refugees have improved livelihood opportunities; (e) Palestine refugees are able to meet their basic human needs of shelter, water and sanitation; and (f) the most vulnerable Palestine refugees have access to effective social assistance.

26.3 UNRWA aims to discharge its mandate by providing education, health, relief and social services, livelihoods, infrastructure and camp improvement and protection to approximately 6 million registered Palestine refugees in Gaza, Jordan, Lebanon, the Syrian Arab Republic and the West Bank, including East Jerusalem. The delivery of these services has been severely complicated by the conflict in Gaza and its spillover in the region, including Lebanon. Agency operations in the Syrian Arab Republic were also affected following the fall of the prior Government. Consequently, the availability of data pertaining to the 2024 actual performance across all subprogrammes has been limited due to the ongoing conflicts.

26.4 In Gaza, the Agency has maintained a critical role in the provision of emergency food, water, shelter, primary healthcare, sanitation, non-formal education and psychosocial support to much of the local population (both refugees and non-refugees) since the onset of the conflict on 7 October 2023 and through the ceasefire that entered into force on 19 January 2025. In addition to the direct distribution of assistance, the entire aid operation in Gaza is reliant on UNRWA for critical common services and last-mile support due to its extensive presence and logistical capacity on the ground, including the distribution of non-Agency food parcels to people in need. UNRWA is the backbone of the operations of the entire humanitarian community in Gaza and remains indispensable in the provision of basic services to Palestine refugees in Gaza; UNRWA intends to resume regular operations as soon as conditions allow. However, the scale and nature of these operations in 2026 remain unknown due to the extensive damage to and destruction of UNRWA installations and civilian infrastructure. In addition, the implementation of laws passed by the parliament of Israel in October 2024 could prevent the Agency from undertaking its essential work in Gaza and the West Bank, including East Jerusalem, as mandated by the General Assembly, considering that there is no alternative to UNRWA to meet the needs of Palestine refugees. The Agency will continue to take a flexible approach to its operations in Gaza, guided by the evolving humanitarian needs of the local population, prevailing security conditions and operational restrictions that may be imposed on the Agency.

26.5 In 2024, the Independent Review Group on the United Nations Relief and Works Agency for Palestine Refugees in the Near East carried out an independent review, commissioned by the Secretary-General, of mechanisms and procedures to ensure adherence by UNRWA to the

humanitarian principle of neutrality. In its report published in April 2024, the Independent Review Group concluded that the Agency had established a significant number of mechanisms and procedures to ensure adherence to neutrality and that it possessed a more developed approach to neutrality than other similar United Nations or non-governmental entities. The Independent Review Group also made 50 recommendations to reinforce mechanisms to uphold neutrality in an immensely complex, challenging and polarized political environment. Those recommendations related to engagement with donors, governance, management and internal oversight, neutrality of staff and installations, education, staff unions and enhanced cooperation with United Nations entities. The Agency fully committed itself to implementing those recommendations in their entirety, with the support of Member States. As at the end of December 2024, four recommendations had been implemented, with implementation continuing and a total of more than 40 projected to be implemented by the end of 2026. Implementation of the recommendations will be reported through the annual report of the Commissioner-General of the United Nations Relief and Works Agency for Palestine Refugees in the Near East to the General Assembly.

26.6 With regard to cooperation with other entities at the global, regional, national and local levels, UNRWA will maintain and strengthen a wide range of partnerships that reflect its commitment to Sustainable Development Goal 17, including with host and donor Governments, non-governmental organizations, UNRWA national committees and the private sector, which assist the Agency in delivering its mandate.

26.7 With regard to inter-agency coordination and liaison, UNRWA will maintain and expand partnerships with other United Nations entities. Many of these partnerships, such as those with the United Nations Educational, Scientific and Cultural Organization and the World Health Organization (WHO), date to the Agency's founding in 1949. Inter-agency partners will continue to furnish strategic assistance to strengthen UNRWA education and health programming. The Agency will also work closely with the World Food Programme, the United Nations Children's Fund and the International Organization for Migration to extend food, nutritional, shelter, water, sanitation and hygiene assistance in Gaza, as well as with United Nations country teams in its fields of operations to improve efficiencies, including through shared services. In addition, UNRWA is actively exploring further avenues for joint programming with other United Nations partners.

26.8 With regard to the external factors, UNRWA considered applicable risks identified in its risk register and, accordingly, the overall plan for 2026 is based on the following planning assumptions:

(a) Instability and, in some cases, unrest and possible instances of armed conflict will characterize the macroenvironment throughout the year;

(b) There is broad political support for the Agency's mandate and operations;

(c) UNRWA will be able to continue to implement its mandate in Gaza and the West Bank, including East Jerusalem, in whole or in part;

(d) Demand for Agency emergency assistance and core services will remain at a high level;

(e) Sufficient supplies will be admitted into Gaza to sustain the Agency's humanitarian and early recovery operations and regular operations;

(f) The provision of humanitarian and early recovery services in Gaza will be challenged by extensive damage to Agency installations and basic infrastructure, as well as displacement and trauma affecting many UNRWA staff;

(g) Security-related movement restrictions in the occupied Palestinian territory will not increase further and may decrease;

(h) Hostility towards and prejudice against Palestine refugees in host communities, where this exists, will not increase;

(i) Voluntary contributions will be available for the implementation of the Agency's mandate.

26.9 UNRWA integrates a gender perspective into its operations, deliverables and results, as appropriate. For example, survivors of sexual and gender-based violence will receive support from Agency social workers. In addition, women and men and girls and boys will have equal access to primary healthcare, and all Palestine refugee children and young people will enjoy, on a non-discriminatory basis, an equal opportunity to learn in UNRWA schools. Women will be supported in developing their full potential through equal access to technical, vocational and higher education in Agency institutions. UNRWA will ensure that shelters rehabilitated for Palestine refugees incorporate sex-segregated rooms, where required, and will promote the right of women to own and control property. Social transfers will be targeted to vulnerable segments of the Palestine refugee population, including female-headed households.

26.10 In line with the United Nations Disability Inclusion Strategy, the Agency will: (a) reconstruct and rehabilitate UNRWA installations, especially health centres, schools and vocational training centres, to make them accessible to persons with disabilities; (b) conduct health screening for Palestine refugee infants and children to identify and extend support for those with disabilities; (c) support the inclusion of students with disabilities in the Agency's education system, in line with the Agency's inclusive education approach; and (d) conduct awareness-raising activities to reduce stigma and foster inclusion for Palestine refugees with disabilities.

Legislative mandates

26.11 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

302 (IV); 78/74; 79/88	Assistance to Palestine refugees
3331 B (XXIX)	United Nations Relief and Works Agency for Palestine Refugees in the Near East
65/272	Report of the Secretary-General on the strengthening of the management capacity of the United Nations Relief and Works Agency for Palestine Refugees in the Near East
70/1	Transforming our world: the 2030 Agenda for Sustainable Development
74/84	Persons displaced as a result of the June 1967 and subsequent hostilities
77/122; 78/73	Operations of the United Nations Relief and Works Agency for Palestine Refugees in the Near East
79/141	Assistance to the Palestinian people
79/232	Request for an advisory opinion of the International Court of Justice on the obligations of Israel in relation to the presence and activities of the United Nations, other international organizations and third States

Deliverables

26.12 Table 26.1 lists all cross-cutting deliverables of the programme.

Table 26.1
Cross-cutting deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	**5**	**6**	**5**	**5**

5. Report of the Commissioner-General of the United Nations Relief and Works Agency for Palestine Refugees in the Near East	1	1	1	1

Evaluation activities

26.13 The following evaluations completed in 2024 by UNRWA have guided the proposed programme plan for 2026:

(a) Synthesis of UNRWA evaluations conducted between 2016 and 2023;

(b) Evaluation of the reform of the UNRWA education programme.

26.14 As both evaluations were completed in the last quarter of 2024, findings will be incorporated into the Agency's activities for 2025 and 2026.

26.15 The following evaluations to be conducted by the Agency are planned for 2026:

(a) Evaluation of the social safety net programme;

(b) Evaluation of the information and communications technology for education strategy.

Programme of work

Subprogramme 1
Palestine refugees are protected through the realization of their rights under international law

Objective

26.16 The objective, to which this subprogramme contributes, is to ensure that Palestine refugees are protected through the realization of their rights under international law.

Strategy

26.17 To contribute to the objective, the subprogramme will:

(a) Mainstream cross-cutting issues that contribute to addressing protection risks and vulnerability across all UNRWA systems, processes, methodologies, programming and service delivery;

(b) Strengthen the protection of vulnerable and at-risk groups by monitoring and documenting protection incidents and trends, engaging community members in support of self-protection and providing access to medical, legal and/or psychosocial services for survivors of protection violations;

(c) Advocate for the respect, protection and fulfilment of the rights of Palestine refugees under international law by engaging in evidence-based advocacy with duty bearers, relevant external actors and other United Nations entities, including engagement with international human rights mechanisms, in accordance with resolution 78/73;

(d) Provide services equally accessible to Palestine refugee women and girls, provide holistic programming, including reproductive and maternal health services, livelihood support for

women and girls and gender-responsive education services, and advocate with duty bearers to ensure the safety of women and girls;

(e) Systematically incorporate humanitarian principles into all UNRWA services and systems, and ensure that Agency premises are managed in line with those principles.

26.18 The above-mentioned work is expected to result in:

(a) Safe and dignified access to UNRWA services for all Palestine refugees;

(b) Support for meeting the protection needs of Palestine refugees, in particular the most vulnerable and at-risk groups and individuals;

(c) Respect for the rights of Palestine refugees under international law;

(d) Empowerment of Palestine refugee women and girls and their access to services that contribute to gender equality;

(e) Adherence to humanitarian principles by all UNRWA personnel and partners across all Agency services and operations and within all UNRWA premises.

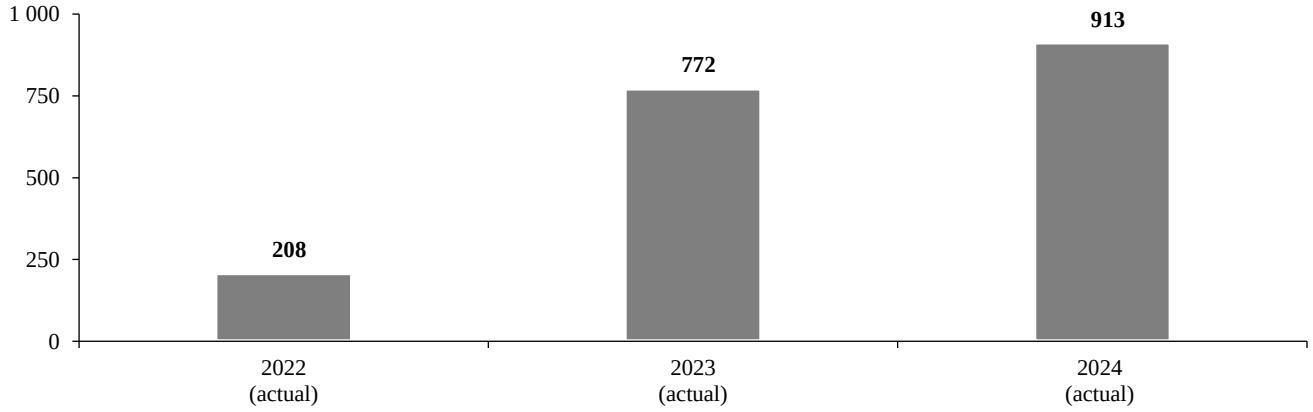
Programme performance in 2024

Rights of Palestine refugees strengthened and protected

26.19 Palestine refugees face a profound protection crisis as a result of widespread conflict, violence, occupation and instability in several areas of UNRWA operations. Many are unable to live in dignity due to precarious legal status and lack of legal protection, physical and psychological harm caused by exposure to violence and conflict, movement restrictions, barriers to education and limited access to basic services. The subprogramme advocates for the respect of the rights of Palestine refugees under international law by monitoring, documenting and raising key protection concerns through constructive engagement with duty bearers and other external stakeholders, and by advancing priorities that include: (a) prevention, mitigation and remedial measures with respect to freedom of movement, humanitarian access and access to legal and civil documentation; (b) compliance with international law, including international human rights law and international humanitarian law; (c) strengthened access to services; and (d) protection of children exposed to violence and other protection risks. The subprogramme also contributes to United Nations international human rights mechanisms on human rights violations and other protection concerns affecting Palestine refugees.

26.20 Progress towards the objective is presented in the performance measure below (see figure 26.I).

Figure 26.I
Performance measure: number of protection advocacy interventions targeting duty bearers (annual)



Planned results for 2026

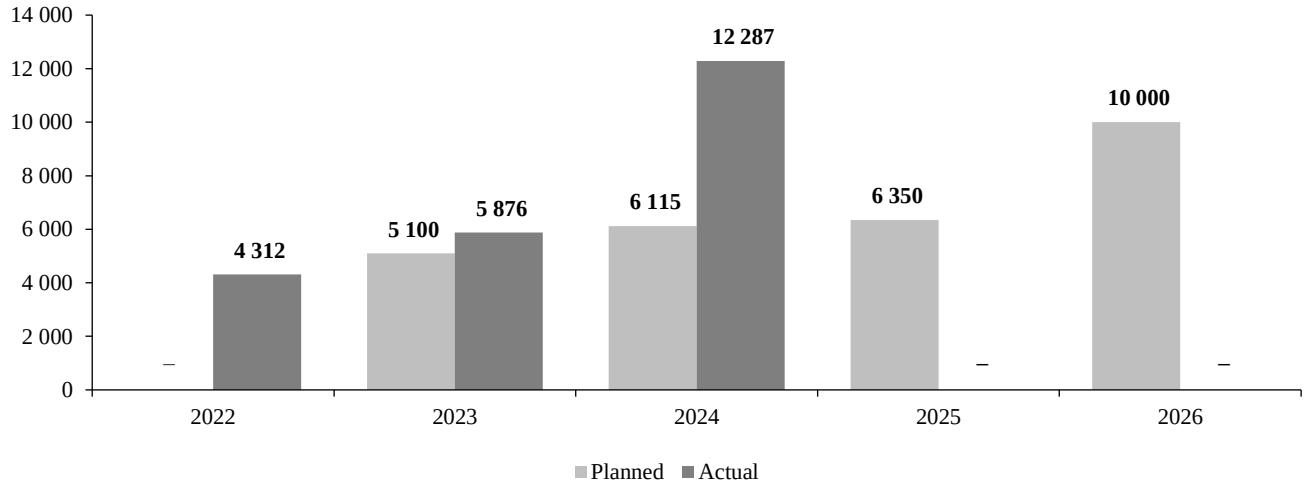
Result 1: protection of the most vulnerable Palestine refugees enhanced

Programme performance in 2024 and target for 2026

26.21 The subprogramme's work contributed to social work interventions for 12,287 Palestine refugees, which exceeded the planned target of 6,115 Palestine refugees.

26.22 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 26.II).

Figure 26.II
Performance measure: number of Palestine refugees who benefited from the Agency's social work interventions (annual)



Result 2: safety and dignity of Palestine refugees accessing the Agency's services is increased

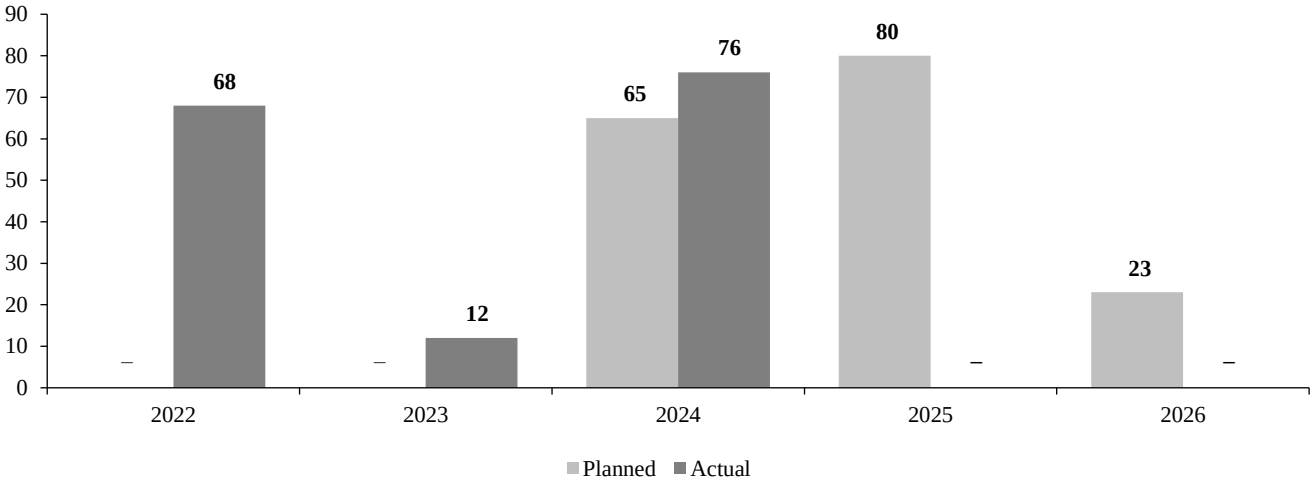
Programme performance in 2024 and target for 2026

26.23 The subprogramme's work contributed to Palestine refugees being able to access UNRWA services with increasing levels of safety and dignity, which exceeded the planned target of 65 per cent of protection alignment review recommendations being fully implemented.[1]

26.24 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 26.III).

[1] UNRWA assesses the degree of alignment of Agency programming and services with protection standards through protection alignment reviews, which are conducted on a triennial basis. Recommendations emanating from those reviews aim to address identified gaps with protection standards and improve the Agency's provision of safer and more inclusive services.

Figure 26.III
Performance measure: percentage of protection alignment review recommendations fully implemented by field offices[2]



Result 3: strengthened protection for Palestine refugees from gender-based violence

Proposed programme plan for 2026

26.25 Gender-based violence is one of the most prevalent human rights violations in the world, affecting all socioeconomic and cultural groups, particularly women and girls. In emergency contexts, factors such as increased anxiety, overcrowded shelters, scarcity of resources and the absence of community governance mechanisms exacerbate the risk of gender-based violence for Palestine refugees. The subprogramme seeks to prevent gender-based violence through engagement with Palestine refugee communities. The subprogramme also enhances the responsiveness of front-line Agency education, health and social workers to gender-based violence survivors through: (a) sensitization training to create a common understanding of the different forms of gender-based violence and improve knowledge about high-risk individuals and groups; (b) direct medical and psychosocial support for gender-based violence survivors; and (c) the expansion of internal and external referral pathways.

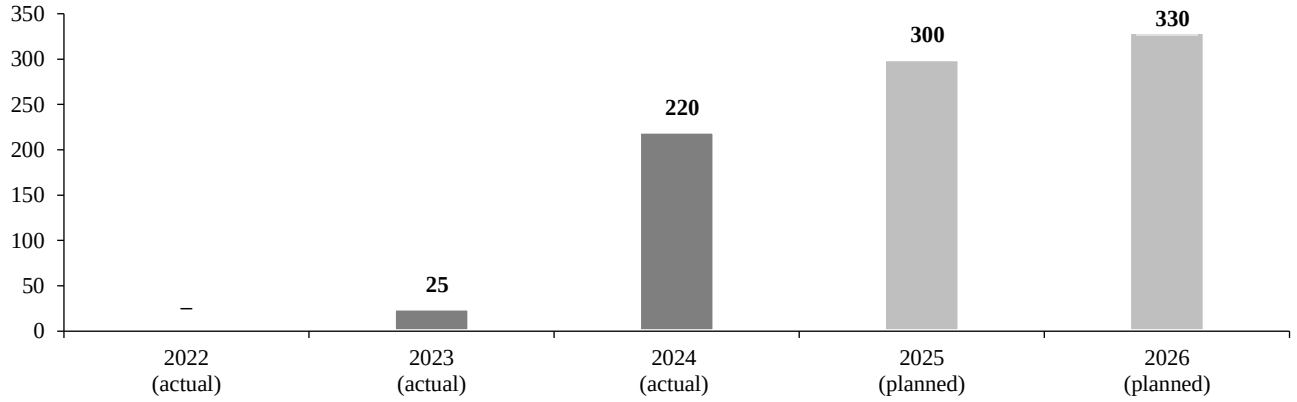
Lessons learned and planned change

26.26 The lesson for the subprogramme was the importance of engaging men and boys as key stakeholders in driving behavioural change to have a positive impact on gender-based violence prevention. In applying the lesson, the subprogramme will seek to prevent gender-based violence by prioritizing community engagement initiatives aimed at men and boys and community leaders to address the root causes of violence and promote a victim- and survivor-centred approach to the prevention of and response to gender-based violence.

26.27 Expected progress towards the objective is presented in the performance measure below (see figure 26.IV).

[2] The 2022 actual performance figure relates to the percentage of recommendations fully implemented during the 2019–2022 cycle. The 2023 and 2024 actual performance figures and the 2025 planned target relate to the percentage of recommendations fully implemented and planned to be fully implemented in the 2023–2025 cycle. The 2026 planned target relates to the percentage of recommendations planned to be fully implemented in the 2026–2028 cycle.

Figure 26.IV
Performance measure: number of men and boys who participate in structured community engagement sessions on the prevention of gender-based violence (annual)



Deliverables

26.28 Table 26.2 lists all deliverables of the subprogramme.

Table 26.2
Subprogramme 1: deliverables for 2026, by category and subcategory

Category and subcategory
C. Substantive deliverables
Consultation, advice and advocacy: meetings, briefings and formal written interventions to advocate for the protection of the rights of Palestine refugees.
Direct service delivery: legal counselling, legal information and/or referrals to legal service providers; counselling and social support for Palestine refugees; submissions to the international human rights system.

Subprogramme 2
Palestine refugees lead healthy lives

Objective

26.29 The objective, to which this subprogramme contributes, is to ensure that Palestine refugees lead healthy lives.

Strategy

26.30 To contribute to the objective, the subprogramme will:

(a) Address the maternal and child healthcare needs of Palestine refugees through the systematic delivery of preconception, prenatal and postnatal care, family-planning services, childhood immunization, child growth nutrition, and monitoring and screening for disabilities;

(b) Control the status of noncommunicable diseases and mental health issues through disease surveillance and health promotion and prevention interventions and referrals;

(c) Control the status of communicable diseases by strengthening surveillance and response capacity and participating in host Governments' mass immunization campaigns;

(d) Provide safe, quality and people-centred healthcare, even during times of emergencies, through UNRWA health centres, health points and mobile health teams.

26.31 The above-mentioned work is expected to result in:

(a) Improved maternal and child health among Palestine refugees;

(b) Improved control status of noncommunicable diseases and mental health;

(c) Improved control status of communicable diseases and the prevention and control of infectious diseases;

(d) Safe access to quality primary, secondary and tertiary health services for Palestine refugees.

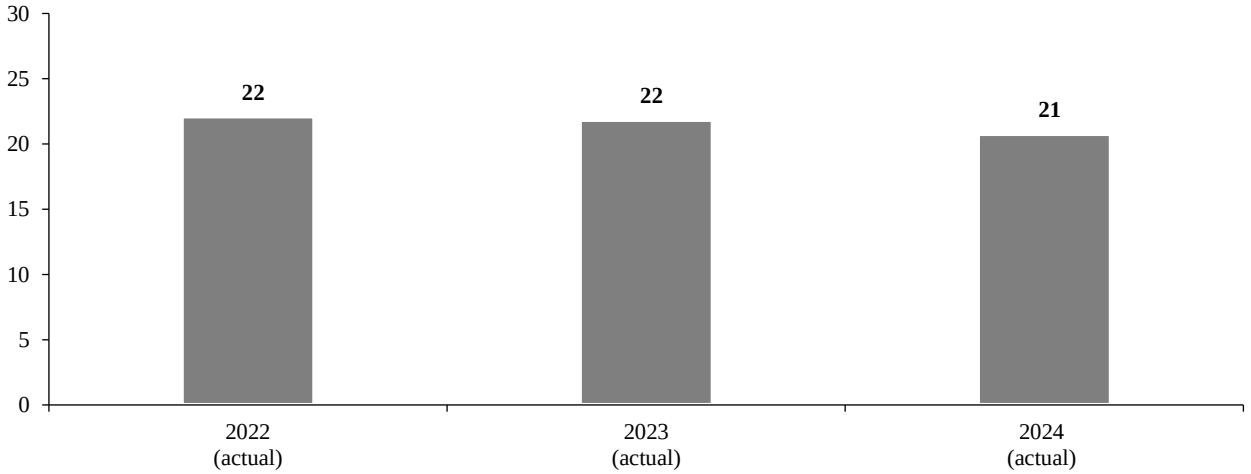
Programme performance in 2024

Reduced dependency on antibiotics

26.32 Antibiotics are used to prevent and treat bacterial infections and have been responsible for reducing mortality and improving life expectancy rates. However, because of their overuse, antibiotics have become less effective in treating infections including pneumonia, urinary tract infections, tuberculosis, gonorrhoea and food-borne diseases, resulting in higher medical costs, prolonged hospitalizations and increased mortality rates. The subprogramme seeks to reduce antibiotics use by limiting the percentage of prescriptions issued by Agency medical officers for curative diseases, aligned with the 25 per cent threshold recommended by WHO, with adherence to this limit monitored regularly. The subprogramme also introduced management protocols for the treatment of the most common health conditions encountered at UNRWA health centres.

26.33 Progress towards the objective is presented in the performance measure below (see figure 26.V).

Figure 26.V
Performance measure: antibiotics prescriptions as a percentage of total prescriptions issued by Agency health centres (annual)



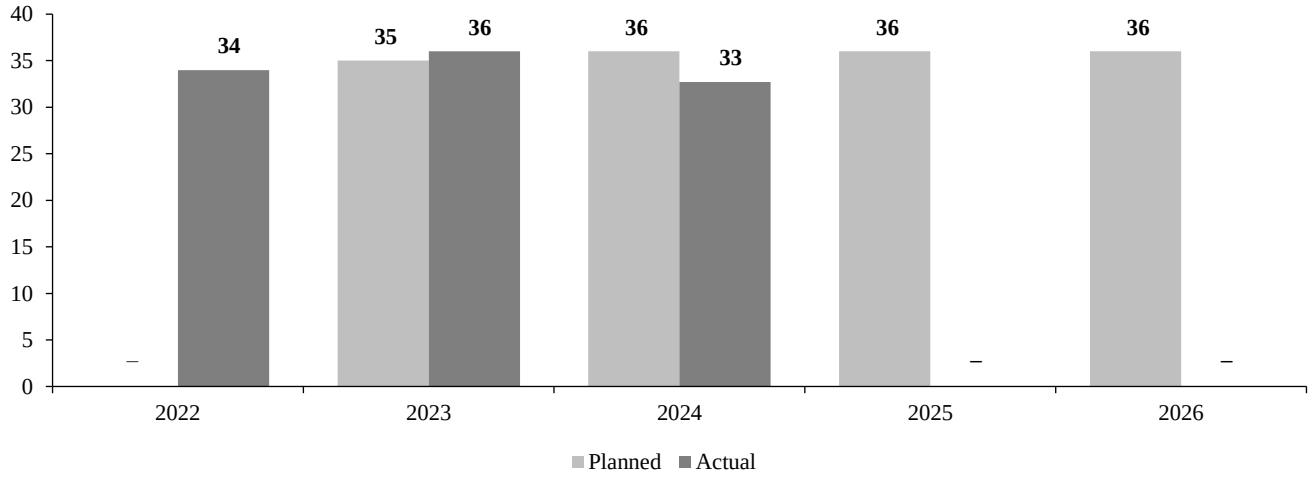
Result 1: the health of Palestine refugees suffering from noncommunicable diseases improved

Programme performance in 2024 and target for 2026

26.34 The subprogramme's work contributed to 33 per cent of patients with diabetes mellitus having their conditions kept under control, which did not meet the planned target of 36 per cent. The target was not met due to the prevailing security conditions in several fields of UNRWA operations, which limited patients' access to the Agency health centres for regular check-ups.

26.35 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 26.VI).

Figure 26.VI
Performance measure: percentage of patients with diabetes mellitus enrolled in the Agency's health centres whose condition is under control (annual)



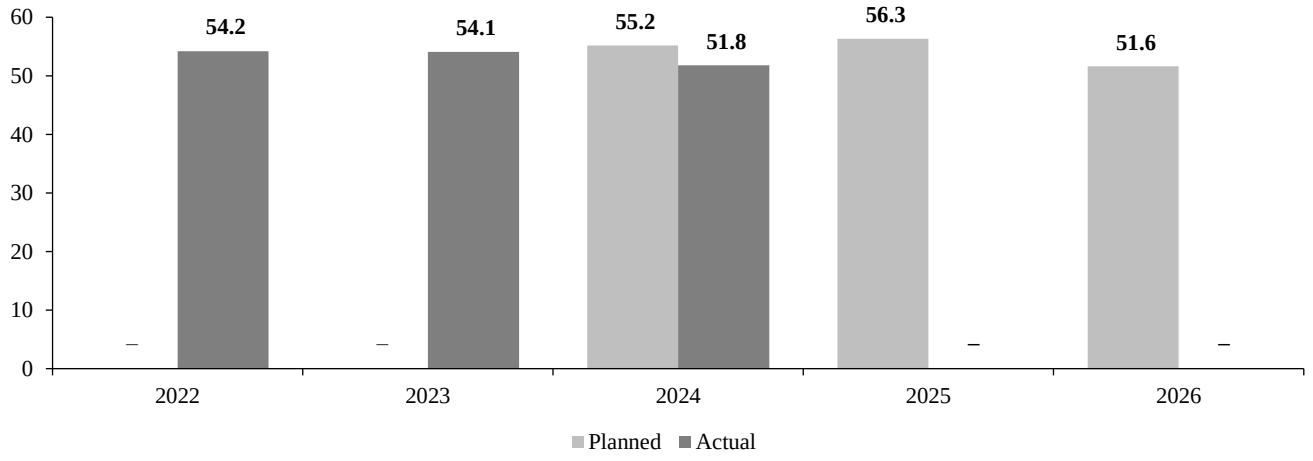
Result 2: access to preconception care and reproductive planning services for Palestine refugees is improved

Programme performance in 2024 and target for 2026

26.36 The subprogramme's work contributed to 51.8 per cent of women with birth intervals of less than 36 months, which exceeded the planned target of 55.2 per cent.

26.37 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 26.VII).

Figure 26.VII
Performance measure: percentage of women with birth intervals of less than 36 months (annual)



Result 3: infectious diseases controlled in Palestine refugee communities

Proposed programme plan for 2026

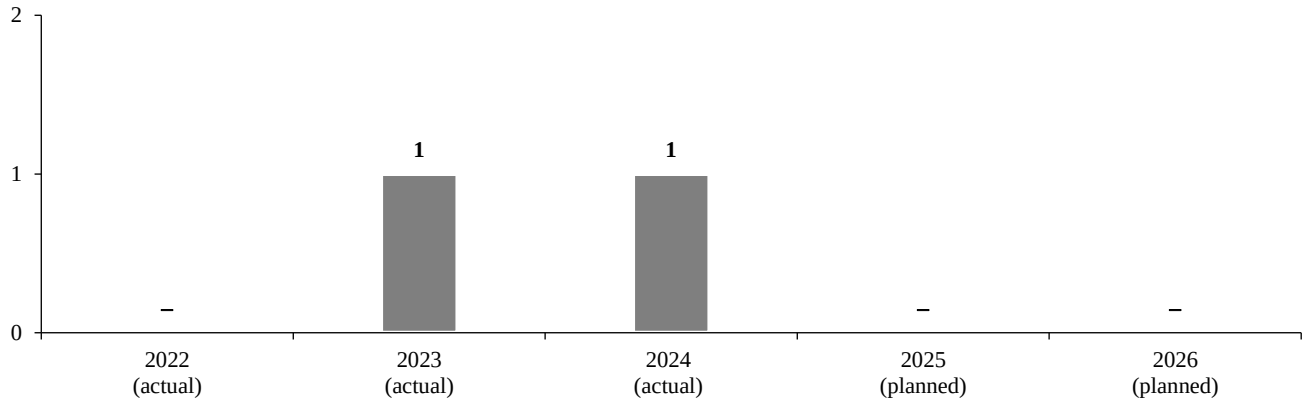
26.38 Immunization protects against deadly diseases that can be prevented through timely intervention during childhood. Through the implementation of the WHO Expanded Programme on Immunization, the subprogramme vaccinates 12- and 18-month-old Palestine refugee children against tuberculosis, diphtheria, pertussis, tetanus, polio, measles, mumps, rubella and hepatitis A and B. Despite the humanitarian crisis in Gaza and supply and movement restrictions affecting multiple fields of UNRWA operations, the subprogramme consistently surpasses the WHO immunization target of 95 per cent by: (a) ensuring a consistent supply of vaccines; (b) adhering to an appointment system for vaccinations, including follow-up with defaulting patients; and (c) participating in campaigns to encourage parents to have their children immunized.

Lessons learned and planned change

26.39 The lesson for the subprogramme, from the polio outbreak in Gaza, was the importance of preparedness and rapid response in managing public health emergencies, in particular the maintenance of a reliable vaccine supply chain and disease early warning, alert and response systems. In applying the lesson, the subprogramme will enhance coordination to prevent, detect and respond to disease outbreaks, including efforts to increase the immunization rate, strengthen cross-sectoral coordination and update outbreak preparedness plans.

26.40 Expected progress towards the objective is presented in the performance measure below (see figure 26.VIII).

Figure 26.VIII
Performance measure: number of vaccine-preventable disease outbreaks (annual)



Deliverables

26.41 Table 26.3 lists all deliverables of the subprogramme.

Table 26.3
Subprogramme 2: deliverables for 2026, by category and subcategory

Category and subcategory
C. Substantive deliverables
Direct service delivery: approximately 8 million primary healthcare consultations; some 90,000 mental health and psychosocial support consultations.

Subprogramme 3
Palestine refugees complete inclusive and equitable quality basic education

Objective

26.42 The objective, to which this subprogramme contributes, is to ensure that Palestine refugees complete inclusive and equitable quality basic education.

Strategy

26.43 To contribute to the objective, the subprogramme will:

(a) Enhance the professionalization of teachers through continuous professional development and career progression opportunities;

(b) Ensure that teaching approaches and learning materials used in UNRWA schools reflect the Agency's educational approach, through the promotion of critical thinking skills, human rights education and adherence to United Nations values and principles, including humanitarian principles;

(c) Monitor student performance, ensure safe and violence-free learning environments, facilitate parent engagement and promote inclusive recreational and extracurricular activities;

(d) Ensure that students identified as having a disability receive support to meet their specific needs, assist individuals identified as experiencing a protection risk and progressively construct or upgrade existing schools.

26.44 The above-mentioned work is expected to result in:

(a) Improved learning outcomes and critical thinking skills for Palestine refugee girls and boys;

(b) A safe and inclusive learning environment for Palestine refugee boys and girls that ensures their well-being.

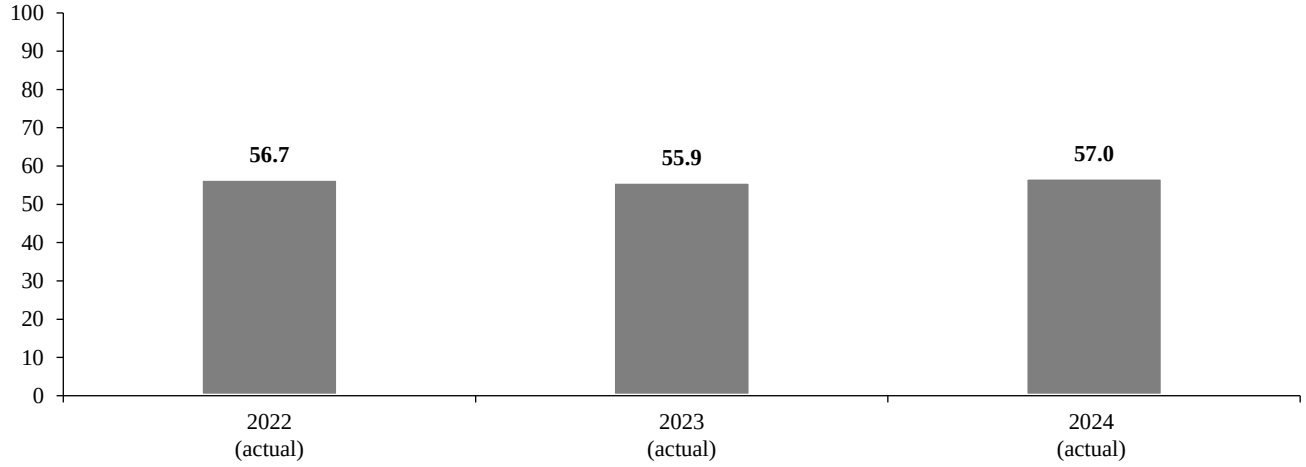
Programme performance in 2024

Needs of students with disabilities identified and met

26.45 The marginalization of persons with disabilities can limit their participation in life on an equal basis with others. Discrimination often starts during their entry into education. The subprogramme works to identify children with disabilities and support their inclusion in UNRWA schools through: (a) the training of Agency teachers to identify and support children with disabilities; (b) the work of student support teams, who assess the needs of children with disabilities and build and implement individual education plans, utilizing the Agency's inclusive education toolkit; (c) outreach with parents and students to build a supportive environment around students with disabilities; and (d) the rehabilitation and upgrading of Agency schools to improve accessibility for students with disabilities.

26.46 Progress towards the objective is presented in the performance measure below (see figure 26.IX).

Figure 26.IX
Performance measure: percentage of students in Agency schools identified with a disability receiving support to meet their needs (annual)



Planned results for 2026

Result 1: learning loss recovered

Programme performance in 2024 and target for 2026

26.47 The subprogramme's work contributed to the implementation of learning recovery plans and the promotion of digital learning methods, which did not meet the planned target of assessment of learning outcome tests demonstrating the closure of the learning gap. The target was not met due to the postponement of the tests because of the prevailing security conditions in several fields of UNRWA operations.

26.48 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 26.4).

Table 26.4
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
In-person teaching is resumed in all UNRWA schools Students take catch-up classes	Learning recovery plans are developed and implemented Teachers and students start to use digital learning methods during emergencies and for afterschool learning	Learning recovery plans are implemented Digital learning methods are promoted	Results of the assessment of learning outcome tests are analysed Learning recovery plans are revised based on the test results	Results of the assessment of learning outcome tests are analysed Learning recovery plans are revised based on the test results

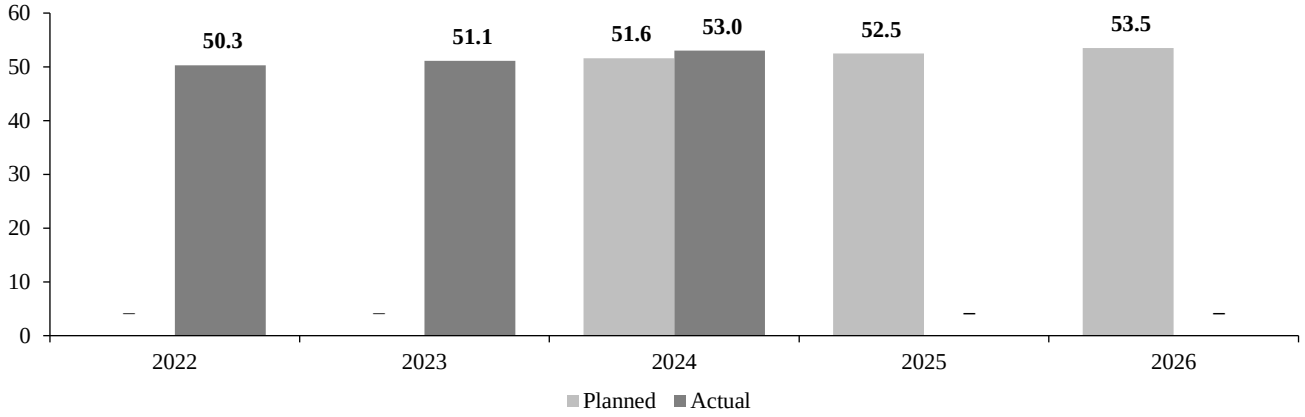
Result 2: safety and inclusiveness of the learning environment for students in Agency schools increased

Programme performance in 2024 and target for 2026

26.49 The subprogramme's work contributed to 53 per cent of UNRWA schools meeting the Agency's protection design standards, which exceeded the planned target of 51.6 per cent.

26.50 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 26.X).

Figure 26.X
Performance measure: percentage of schools run by the Agency that meet its protection design standards (annual)[3]



Result 3: social and emotional development of Palestine refugee children protected

Proposed programme plan for 2026

26.51 Conflict, exposure to traumatic events, displacement and increasing economic hardship have inflicted severe psychosocial consequences on Palestine refugee children in multiple fields of UNRWA operations that require a comprehensive response. If not addressed, these issues can lead to low academic achievement, increased school dropout rates, illness and unhealthy and dangerous behaviour. The subprogramme aims to foster an inclusive learning environment in UNRWA schools where all students benefit from quality education. This requires schools to promote students' psychosocial well-being and to recognize and address the psychosocial needs of refugee children. Through regular programming, the Agency teachers utilize the UNRWA inclusive education toolkit to identify the needs of students, with support then extended by either teachers or school counsellors. Students with more complex psychosocial needs are referred to either UNRWA health centres or external specialized service providers. In emergency settings, counselling sessions and recreational activities are provided in temporary learning spaces to nurture social and emotional development.

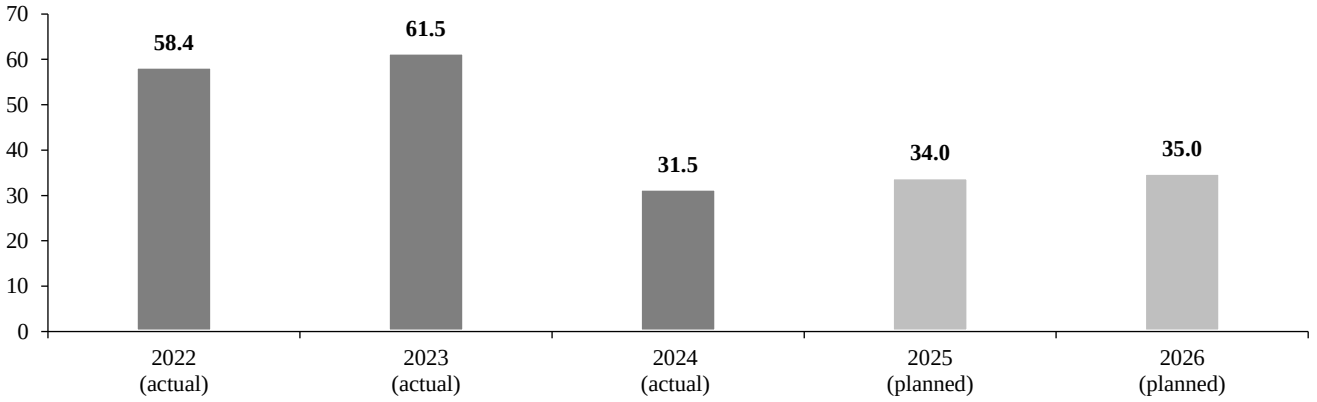
Lessons learned and planned change

26.52 The lesson for the subprogramme was that the prevailing security conditions in the region demonstrated a need for an increased provision of school counsellors to provide quality psychosocial support for students. In applying the lesson, the subprogramme will review Agency-wide norms and standards pertaining to school counsellors with a view to increasing the provision of support to address psychosocial needs.

26.53 Expected progress towards the objective is presented in the performance measure below (see figure 26.XI).

[3] Protection design standards encompass UNRWA technical procedures and guidelines pertaining to the safety, physical accessibility and gender sensitivity of Agency facilities.

Figure 26.XI
Performance measure: percentage of students identified with psychosocial needs receiving support (annual)



Deliverables

26.54 Table 26.5 lists all deliverables of the subprogramme.

Table 26.5
Subprogramme 3: deliverables for 2026, by category and subcategory

Category and subcategory
C. Substantive deliverables
Direct service delivery: education services provided to some 550,000 students.

Subprogramme 4
Palestine refugees have improved livelihood opportunities

Objective

26.55 The objective, to which this subprogramme contributes, is to ensure that Palestine refugees have improved livelihood opportunities.

Strategy

26.56 To contribute to the objective, the subprogramme will:

(a) Provide financial services, including diversified loan products, covering businesses, consumption and housing needs, to low-income Palestine refugees, women and young people;

(b) Create employment opportunities for Palestine refugees through infrastructure works and construction in camps;

(c) Provide quality and market-relevant technical and vocational education and training at UNRWA vocational training centres and education science facilities for degree-level teacher education in the West Bank, including East Jerusalem, and Jordan, focusing on vulnerable young people;

(d) Extend higher education scholarships to young Palestine refugees.

26.57 The above-mentioned work is expected to result in:

(a) Improved livelihood capacities of Palestine refugees;

(b) Improved income generation and job opportunities for Palestine refugees, especially women and young people.

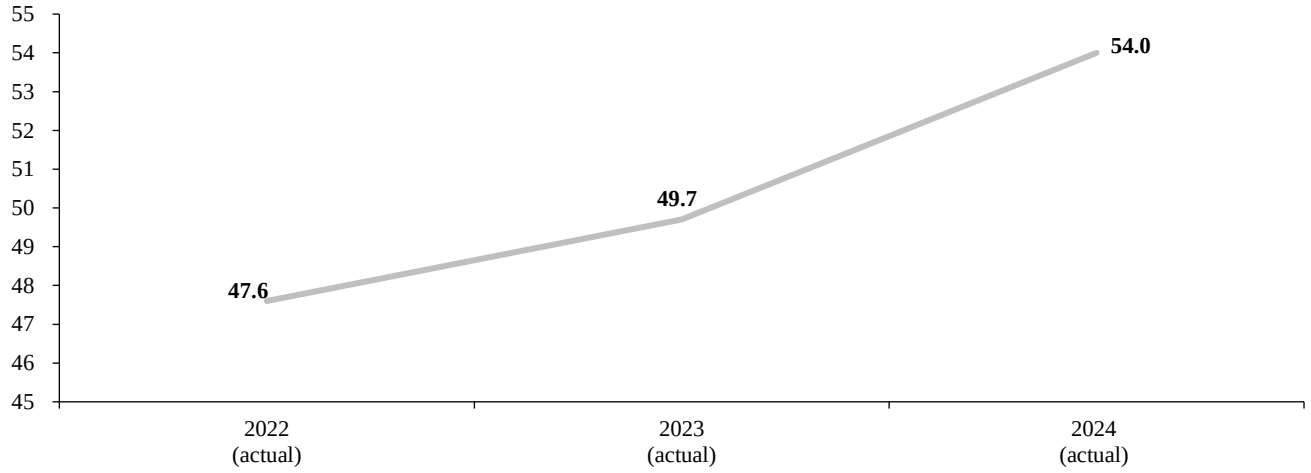
Programme performance in 2024

Expanded access of the most vulnerable to microfinance products

26.58 Despite having strong human capital as a result of the education and health structures provided by the Agency and host authorities, the majority of refugees do not have the requisite access to the full range of social, physical and financial assets needed to build sustainable livelihoods. In recent years, these constraints have been exacerbated by economic contractions in some host countries. The subprogramme provides access to credit and complementary financial services across all fields of UNRWA operations, except Lebanon, to Palestine refugees who would normally be ineligible for such services, in particular women, low-income Palestine refugees and young people. The most vulnerable receive dedicated loan products, which collectively help to create and sustain jobs, reduce poverty and promote economic empowerment.

26.59 Progress towards the objective is presented in the performance measure below (see figure 26.XII).

Figure 26.XII
Performance measure: percentage of microfinance loans disbursed by the Agency to women (annual)



Planned results for 2026

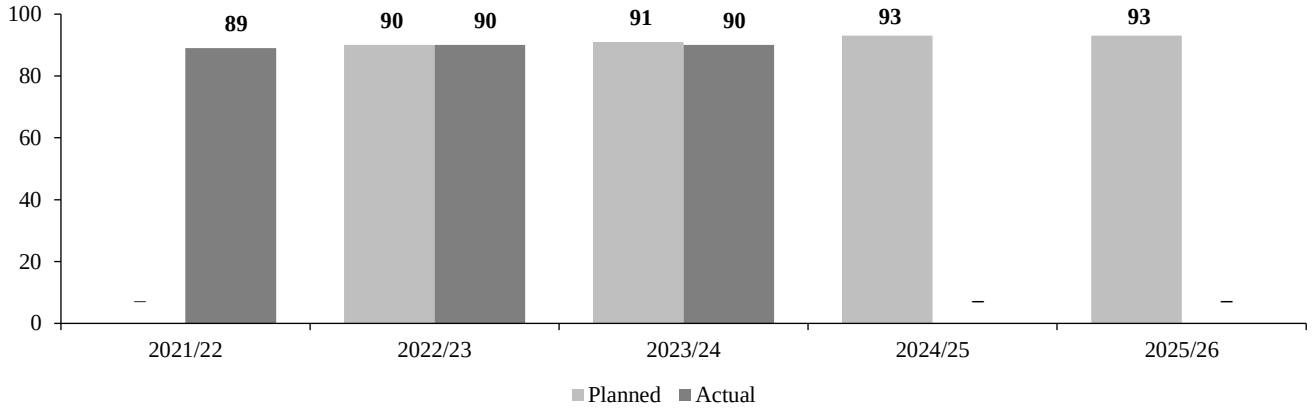
Result 1: improved access for Palestine refugees to highly skilled professions

Programme performance in 2024 and target for 2026

26.60 The subprogramme's work contributed to 90 per cent of Education Science Faculty and Faculty of Educational Sciences and Arts graduates employed or continuing their studies within one year of graduation, which did not meet the planned target of 91 per cent. The target was not met due to economic constraints in the West Bank that reduced employment opportunities for graduates.

26.61 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 26.XIII).

Figure 26.XIII
Performance measure: percentage of Education Science Faculty and Faculty of Educational Sciences and Arts graduates employed or continuing their studies within one year of graduation (annual)



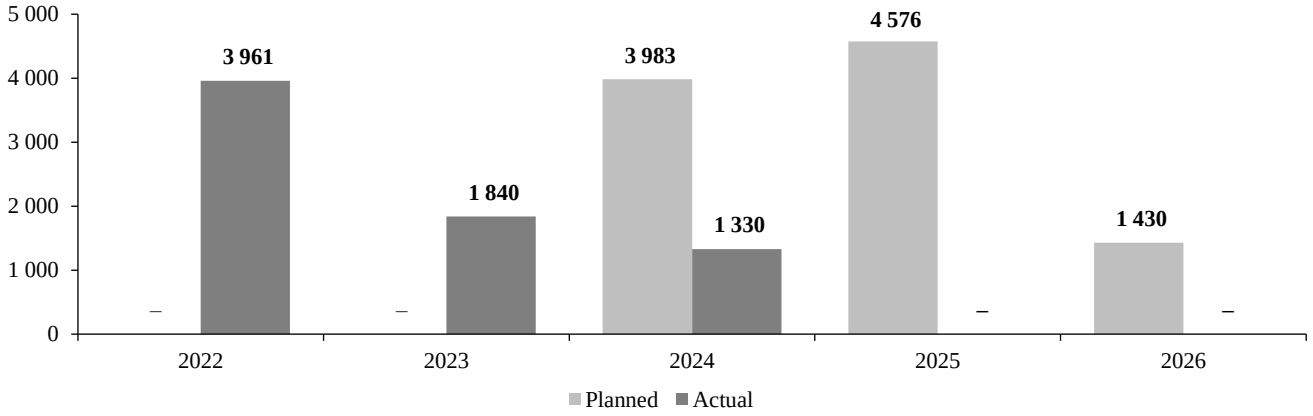
Result 2: private sector employment opportunities created

Programme performance in 2024 and target for 2026

26.62 The subprogramme's work contributed to 1,330 additional jobs being created by microfinance client enterprises, which did not meet the planned target of 3,983 jobs. The target was not met due to the suspension of microfinance operations in Gaza and a decline in economic activity in the West Bank as a result of the ongoing conflict.

26.63 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 26.XIV).

Figure 26.XIV
Performance measure: number of additional jobs created by microfinance client enterprises (annual)



Result 3: improved youth employment opportunities through vocational training

Proposed programme plan for 2026

26.64 In recent years, all UNRWA fields of operations have been beset by economic challenges. For Palestine refugees, this situation is exacerbated by structural barriers that inhibit their integration into labour markets, leading to high unemployment rates and a predominance of employment in low-paying or informal jobs. These conditions, in turn, leave many refugees trapped in poverty and reliant on social assistance schemes. The subprogramme provides technical and vocational education and training to young Palestine refugees, equipping them with skills necessary to enter labour markets.

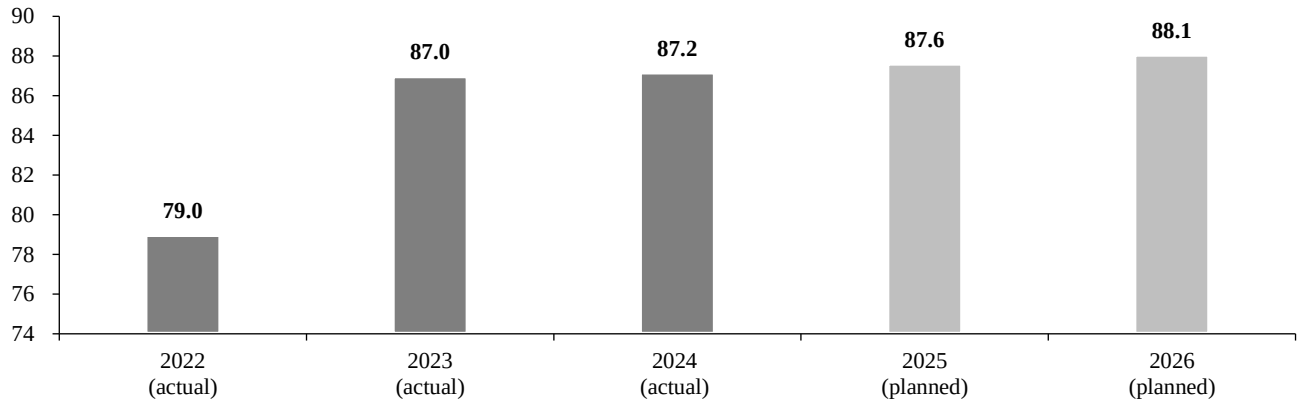
The subprogramme operates eight vocational training centres and enrols approximately 8,000 students in its courses each year, covering: (a) two-year semi-professional courses; (b) one-year trade and two-year craftsperson courses; and (c) short-term courses targeted at sectors with high demand for workers. A range of specializations are covered, including mechanics, plumbing, electronics, communication systems, hairdressing, graphic design, accounting, nursing and physiotherapy.

Lessons learned and planned change

26.65 The lesson for the subprogramme was that graduating students need support in building connections with potential local employers so that they can utilize their education, remain in the region and contribute to the development of Palestine refugee communities. In applying the lesson, the subprogramme will increase the number of prospective employers participating in Agency-organized jobs fairs.

26.66 Expected progress towards the objective is presented in the performance measure below (see figure 26.XV).

Figure 26.XV
Performance measure: percentage of technical and vocational education and training graduates employed within one year of graduation (annual)



Deliverables

26.67 Table 26.6 lists all deliverables of the subprogramme.

Table 26.6
Subprogramme 4: deliverables for 2026, by category and subcategory

Category and subcategory
C. Substantive deliverables
Direct service delivery: issuance of microfinance loans valued at approximately $47 million; approximately 8,000 students enrolled in technical and vocational education and training; some 2,520 job placements created as full-time equivalents.[a]

[a] Full-time equivalents are the number of full-time equivalent jobs, defined as total hours worked divided by average actual hours worked in full-time jobs.

Subprogramme 5
Palestine refugees are able to meet their basic human needs of shelter, water and sanitation

Objective

26.68 The objective, to which this subprogramme contributes, is to ensure that Palestine refugees are able to meet their basic human needs of shelter, water and sanitation.

Strategy

26.69 To contribute to the objective, the subprogramme will:

(a) Provide adequate and safe shelters for Palestine refugees living in camps through the rehabilitation of substandard shelters for the most vulnerable;

(b) Provide Palestine refugees living in camps with effective environmental health services, including sufficient water for their basic needs, storm water drainage systems, solid waste collection and sewerage systems.

26.70 The above-mentioned work is expected to result in:

(a) Improved living conditions whereby Palestine refugees can live in dignity in an adequate and safe built environment in camps;

(b) Improved environmental health and infrastructure services, including access to safe drinking water, sanitation, drainage, electricity and waste disposal, for Palestine refugees living in camps.

Programme performance in 2024

Palestine refugees live in environmentally sustainable conditions

26.71 With over 1,100 installations, a workforce of 30,000 personnel and services across five fields that reach approximately 3 million Palestine refugees each year, UNRWA is committed to minimizing the environmental impacts of its own operations and to advancing environmental sustainability within the Palestine refugee community. Guided by the Agency's environmental sustainability policy and environmental and social management framework, the subprogramme integrates environmental sustainability into camp improvement works. Sustainable design features are integrated into new construction projects, including building orientation, double-walling and double-glazing, while energy-efficient lighting, heating and cooling systems, solar power and hot water systems are also increasingly incorporated.

26.72 Progress towards the objective is presented in the performance measure below (see table 26.7).

Table 26.7
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Palestine refugees benefit from 40 UNRWA installations across all fields of operations upgraded with energy efficiency measures and 29 installations fitted with photovoltaic systems	Palestine refugees benefit from 33 UNRWA installations upgraded with energy efficiency measures and 14 installations fitted with photovoltaic systems	Palestine refugees benefit from 21 Agency installations upgraded with energy efficiency measures and 19 installations fitted with photovoltaic systems

Planned results for 2026

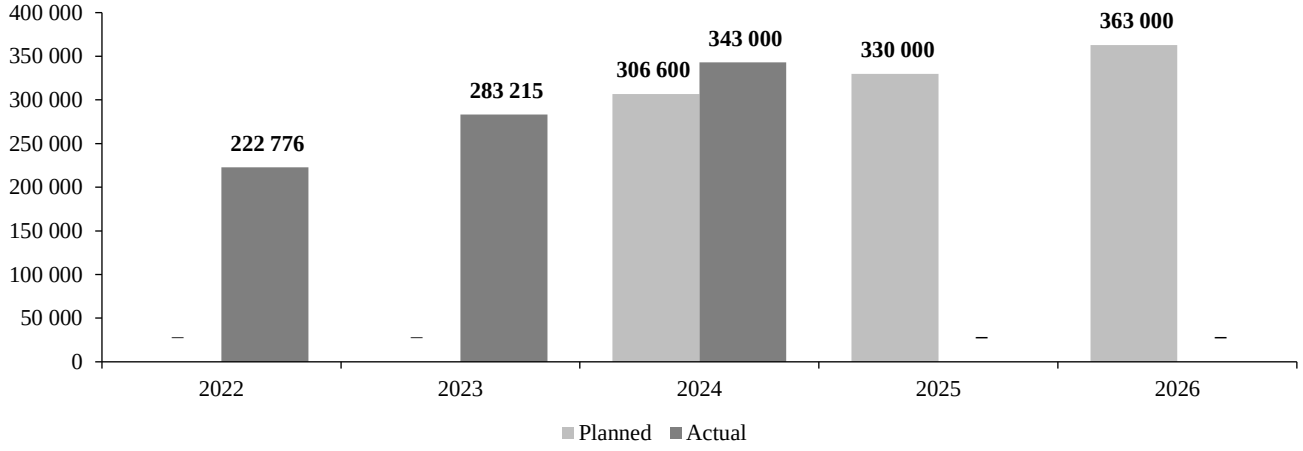
Result 1: living conditions of camp residents improved

Programme performance in 2024 and target for 2026

26.73 The subprogramme's work contributed to 343,000 refugees benefiting from the implementation of camp improvement plans, which exceeded the planned target of 306,600 refugees.

26.74 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 26.XVI).

Figure 26.XVI
Performance measure: number of refugees benefiting from the implementation of camp improvement plans (cumulative)



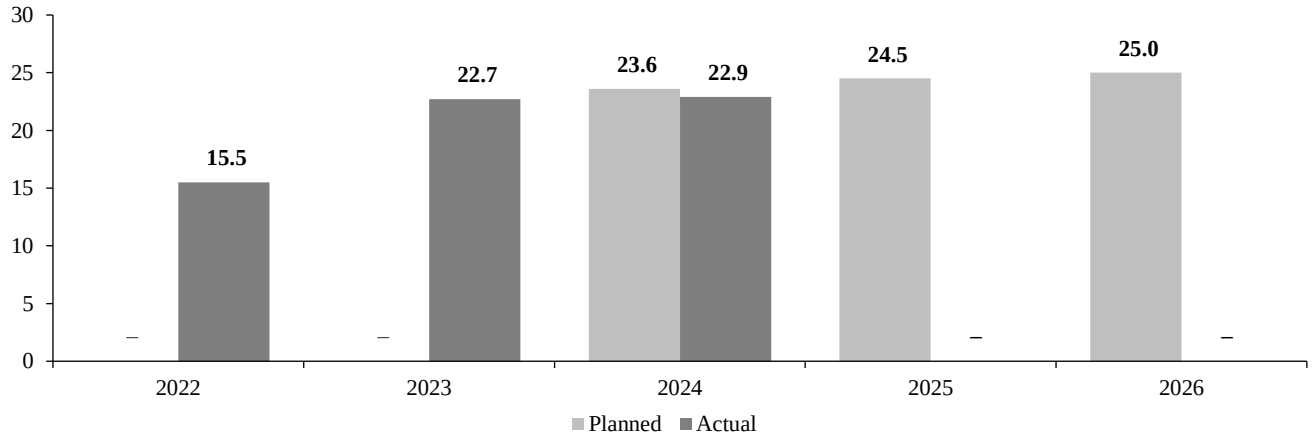
Result 2: safety and dignity of Palestine refugees living in camps improved

Programme performance in 2024 and target for 2026

26.75 The subprogramme's work contributed to 22.9 per cent of substandard shelters being repaired or reconstructed, which did not meet the planned target of 23.6 per cent. The target was not met due to the postponement of shelter rehabilitation works in several fields of UNRWA operations in the light of the prevailing security conditions.

26.76 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 26.XVII).

Figure 26.XVII
Performance measure: percentage of substandard shelters repaired or reconstructed (cumulative)[4]



Result 3: improved water quality for Palestine refugees

Proposed programme plan for 2026

26.77 Access to safe water remains unreliable in Palestine refugee camps, caused by: (a) increasing overcrowdedness, with demand exceeding the capacity of infrastructure systems; (b) ageing networks, leading to leakages and cross-contaminations between the water and sewerage networks; and (c) a lack of available water resources. In Gaza, access to safe water has also been affected by the extensive destruction of infrastructure and the displacement of refugees to areas not connected to the supply network. Inadequate clean water provision increases the risk of disease outbreaks, such as giardiasis, hepatitis A, salmonella and shigella. The subprogramme works with host authorities to conduct hydrological studies to identify new water sources and sink new wells. The subprogramme also maintains distribution pipes to minimize the risk of contamination and, during periods of emergency, endeavours to ensure the minimum supply of water for drinking, washing and bathing through the rehabilitation of damaged water wells, the provision of fuel for water pumping stations and the distribution of potable water.

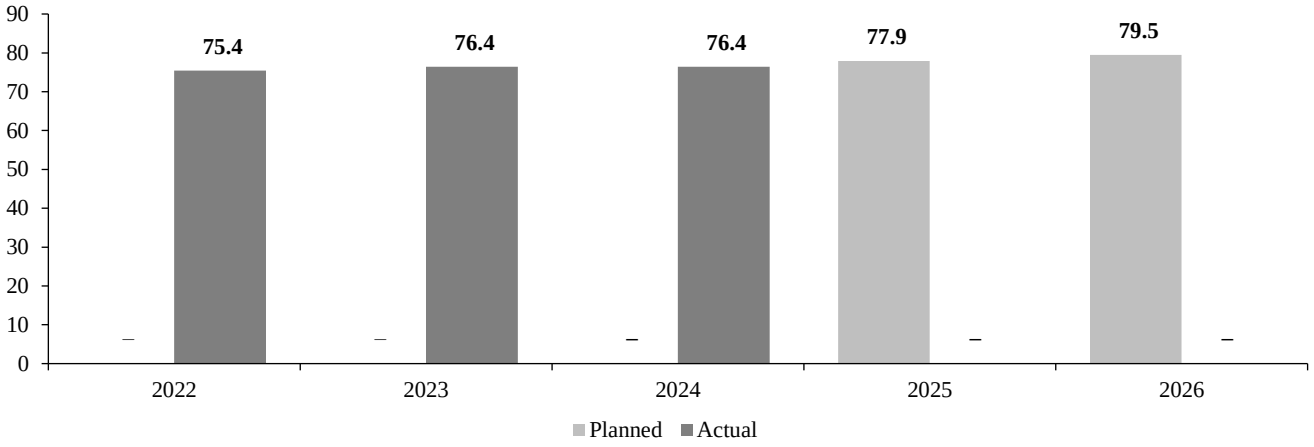
Lessons learned and planned change

26.78 The lesson for the subprogramme was the need to ensure regular water quality testing to prevent disease outbreaks, especially in locations beset by emergencies. In applying the lesson, the subprogramme will expand cooperation with host Governments, the UNRWA health programme and United Nations partners to increase the frequency of testing in emergency conditions.

26.79 Expected progress towards the objective is presented in the performance measure below (see figure 26.XVIII).

[4] UNRWA assesses a shelter to be substandard if it is physically and structurally unsafe, is made from hazardous material (e.g. asbestos) or suffers from inadequate environmental health conditions (e.g. damp or poor ventilation). Shelters damaged during conflict are not counted in this performance measure.

Figure 26.XVIII
Performance measure: percentage of shelters connected to a water supply network (annual)



Deliverables

26.80 Table 26.8 lists all deliverables of the subprogramme.

Table 26.8
Subprogramme 5: deliverables for 2026, by category and subcategory

Category and subcategory
C. Substantive deliverables
Direct service delivery: rehabilitation of 500 substandard shelters for Palestine refugees residing in camps.

Subprogramme 6
The most vulnerable Palestine refugees have access to effective social assistance

Objective

26.81 The objective, to which this subprogramme contributes, is to ensure that the most vulnerable Palestine refugees have access to effective social assistance.

Strategy

26.82 To contribute to the objective, the subprogramme will:

(a) Distribute cash-based and in-kind social transfers to the most vulnerable Palestine refugees, at risk of poverty and food insecurity;

(b) Provide preferential access to vocational training opportunities and subsidization of secondary and tertiary healthcare costs to the most vulnerable Palestine refugees in need.

26.83 The above-mentioned work is expected to result in the alleviation of poverty and food insecurity among the most vulnerable Palestine refugees in the face of economic hardship and restricted household income.

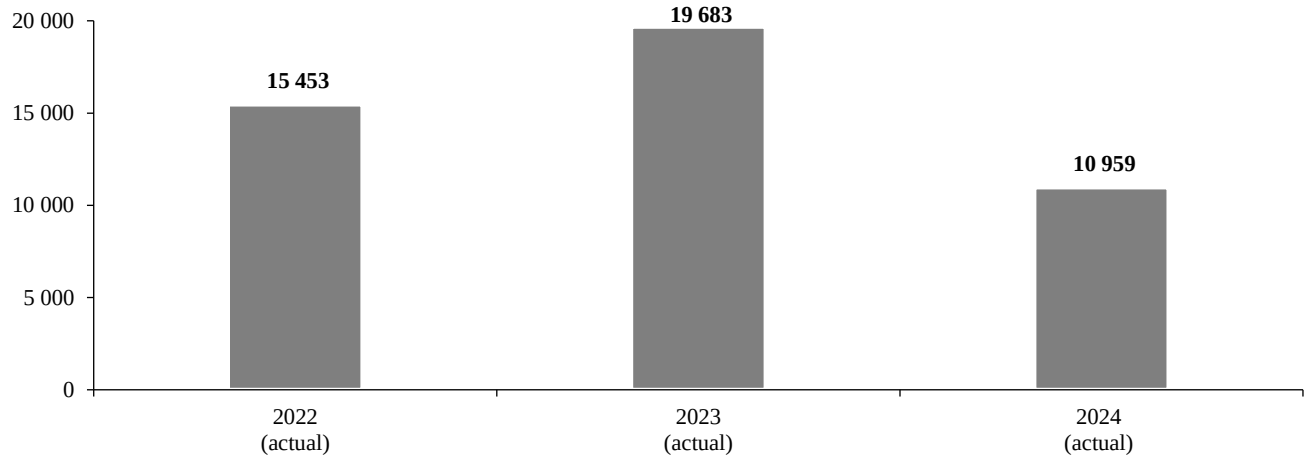
Programme performance in 2024

The most vulnerable Palestine refugees cover their basic needs with dignity

26.84 In multiple fields of UNRWA operations, Palestine refugees are affected by high levels of unemployment, rampant inflation and near universal rates of poverty. The subprogramme aims to ensure that the poverty faced by refugee households in these circumstances is alleviated through cash-based and in-kind social transfers, including cash-for-work placements. These placements not only provide a dignified way for refugees to meet their basic needs but also stimulate local economies and reduce dependency on negative coping strategies. The subprogramme provides short-term skilled and unskilled cash-for-work placements with the Agency and partner community-based organizations in areas such as sanitation work, supply and logistics, and camp improvement. Priority for these opportunities is given to the most vulnerable groups, including female-headed households, persons with disabilities and those with no alternative sources of income.

26.85 Progress towards the objective is presented in the performance measure below (see figure 26.XIX).

Figure 26.XIX
Performance measure: number of Palestine refugee recipients of short-term cash-for-work opportunities (annual)



Planned results for 2026

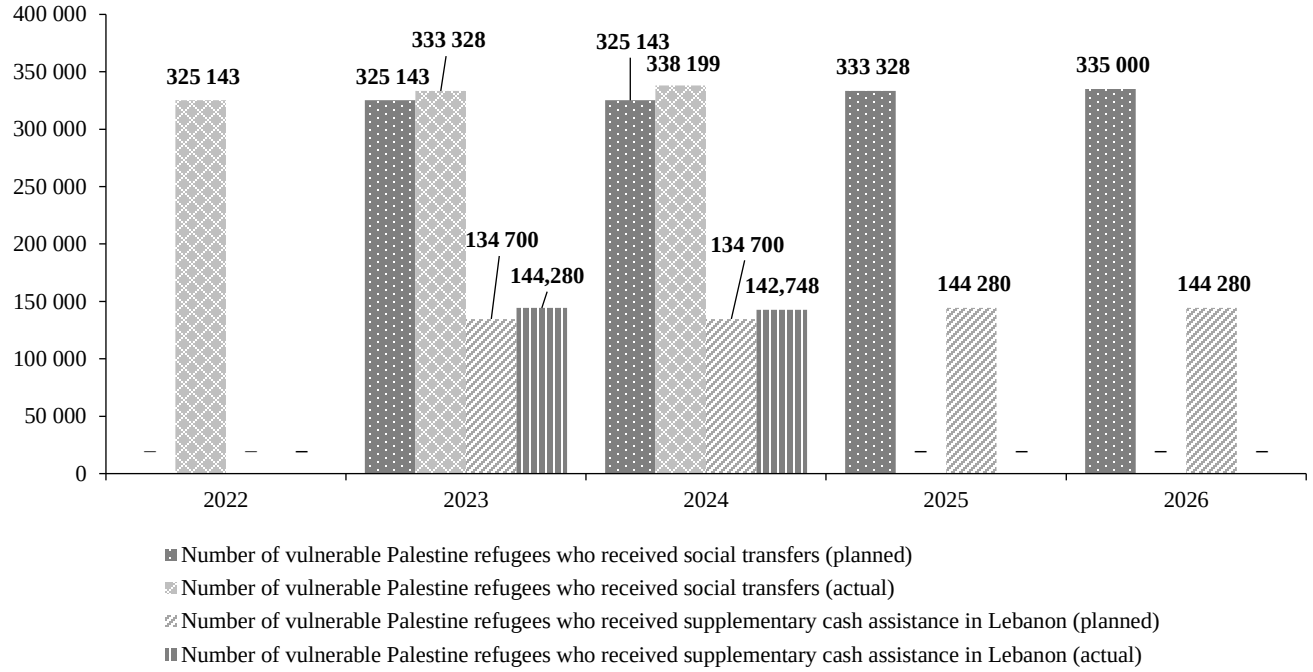
Result 1: abject poverty and food insecurity among the most vulnerable Palestine refugees mitigated

Programme performance in 2024 and target for 2026

26.86 The subprogramme's work contributed to 338,199 vulnerable Palestine refugees receiving social transfers and 142,748 Palestine refugees in Lebanon receiving supplementary cash assistance, which exceeded the planned target of 325,143 and 134,700 Palestine refugees, respectively.

26.87 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 26.XX).

Figure 26.XX
Performance measure: number of vulnerable Palestine refugees who received social transfers and supplementary cash assistance (annual)



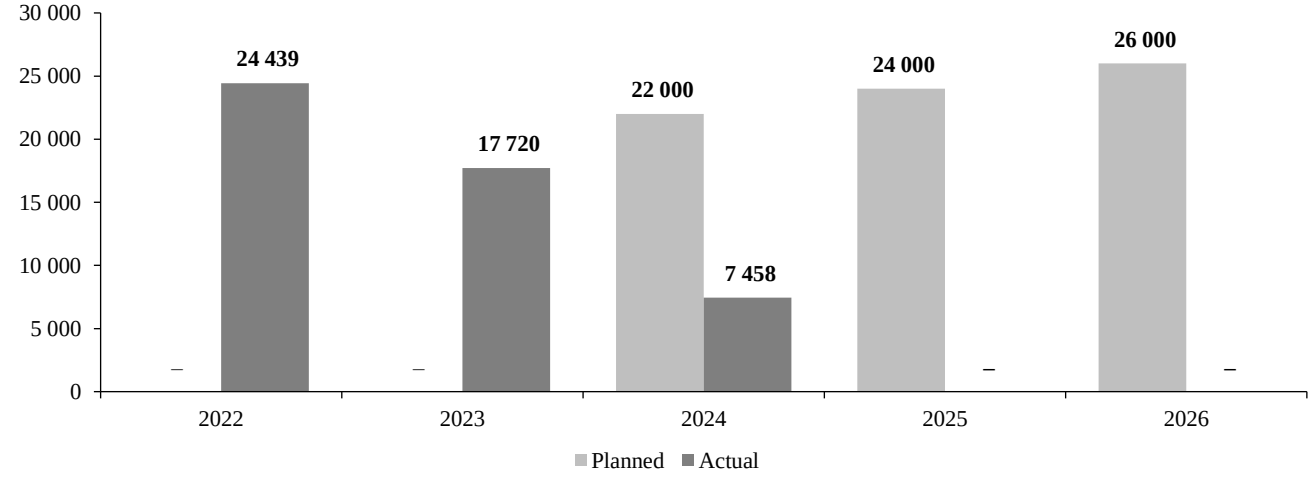
Result 2: access to affordable hospital care ensured

Programme performance in 2024 and target for 2026

26.88 The subprogramme's work contributed to hospitalization support for 7,458 vulnerable Palestine refugees, which did not meet the planned target of 22,000 refugees. The target was not met due to the suspension of hospitalization support in Gaza following the onset of the conflict.

26.89 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 26.XXI).

Figure 26.XXI
Performance measure: number of the most vulnerable Palestine refugees receiving subsidized hospital care (annual)



Result 3: social transfers for the most vulnerable Palestine refugees safeguarded

Proposed programme plan for 2026

26.90 Effective social assistance for the most vulnerable Palestine refugees is dependent on up-to-date refugee registration records and the ability of UNRWA to verify the identity of social transfer recipients. In recent years, the maintenance of updated records has been challenged by the large-scale displacement of refugees in some fields to locations far from Agency registration offices. In 2023, the subprogramme introduced the "e-UNRWA" system, an interactive bilingual mobile platform for digital registration and identity verification. The platform allows Palestine refugees to report life events, such as births, deaths, marriages and changes of address, without the need for physical presence in a registration office. It also facilitates identity verification for those receiving social transfers from the Agency, whereby users upload a photo identity document, take a live selfie and share their Global Positioning System (GPS) location. These submissions are then processed and video interviews conducted through the platform, when needed. This approach minimizes the risk of identity fraud and safeguards the provision of assistance to those most in need.

Lessons learned and planned change

26.91 The lesson for the subprogramme was that ensuring user acceptance of the platform was important considering the apprehension of some refugees in relation to data protection and system usability. In applying the lesson, the subprogramme will roll out the platform in phases, informed in each field by perception surveys, focus group discussions and key informant interviews. The roll-out will be accompanied by tailored outreach campaigns, which will provide guidance on the use of the system as well as information on how the security and confidentiality of sensitive data are ensured.

26.92 Expected progress towards the objective is presented in the performance measure below (see table 26.9).

Table 26.9
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Digital registration for all Palestine refugees within and beyond UNRWA fields of operations launched	Digital verification for social transfer recipients piloted in Lebanon	Digital identity verification expanded to social transfer recipients in other UNRWA fields of operations	Digital identity verification is a core requirement for accessing UNRWA services

Deliverables

26.93 Table 26.10 lists all deliverables of the subprogramme.

Table 26.10
Subprogramme 6: deliverables for 2026, by category and subcategory

Category and subcategory
C. Substantive deliverables
Direct service delivery: food and cash assistance provided to vulnerable Palestine refugees in Gaza, Jordan, Lebanon, the Syrian Arab Republic and the West Bank.

B. Proposed post and non-post resource requirements for 2026

Overview

26.94 The proposed regular budget resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 26.11 to 26.13.

Table 26.11

Total	**247**	–	–	–	–	**247**

26.95 Additional details on the distribution of the proposed resources for 2026 are reflected in tables 26.14 to 26.16 and figure 26.XXII.

26.96 As shown in tables 26.14 (1) and 26.15 (1), the overall resources proposed for 2026 amount to $86,518,000, reflecting an increase of $2,202,600 compared with the approved budget for 2025. Resource changes result from technical adjustments and other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

26.97 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, UNRWA is integrating environmental management practices into its operations and programmes. In 2024, the Agency made important progress towards implementing the commitments outlined in its environmental sustainability policy. The policy aligns the Agency's environmental sustainability efforts with the goals of the 2030 Agenda, United Nations development system reforms and international agreements on climate change and environmental protection and is anchored in the UNRWA strategic plan for 2023–2028, which posits environmental sustainability as a cross-cutting Agency priority. The implementation plan for the policy contains 63 actions centred around: (a) strengthening the Agency's environmental governance framework; (b) programmatic interventions to promote environmental sustainability within Palestine refugee communities; and (c) mainstreaming environmental sustainability measures into the Agency's operations. In this regard, in 2024, UNRWA delivered energy efficiency upgrades to lighting, heating and cooling systems in more than 80 of its installations, equipped 21 Agency buildings with renewable energy systems and continued the renewal of its vehicle fleet with hybrid or newer, more fuel-efficient models. Additional information is presented in paragraphs 26.71 and 26.72 and table 26.7 above.

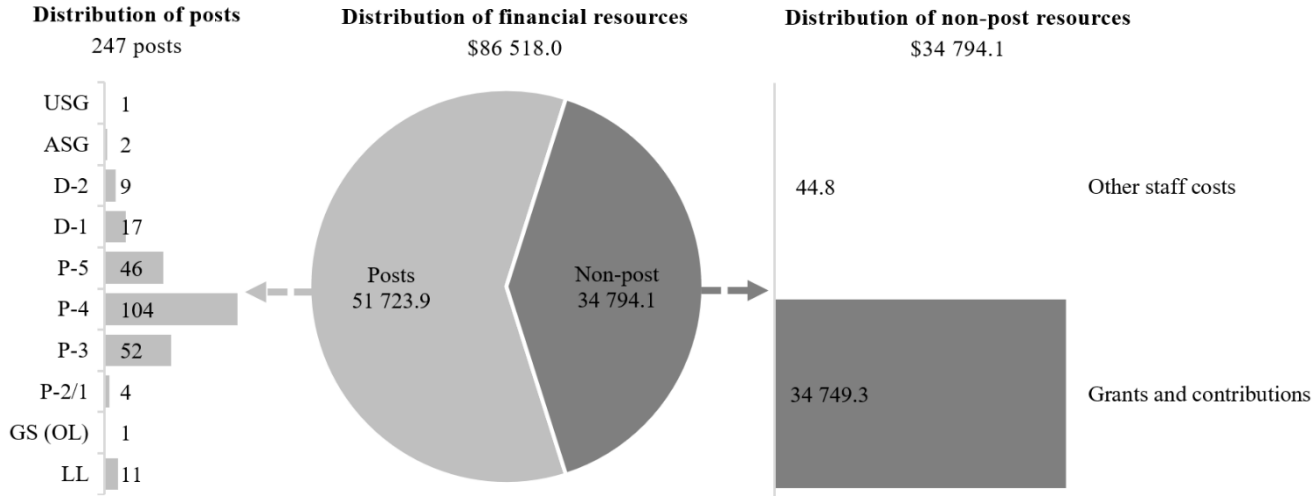
Figure 26.XXII
Distribution of proposed resources for 2026
(Number of posts/thousands of United States dollars)



Explanation of variances by factor, component and subprogramme

Overall resource changes

Technical adjustments

26.98 As shown in table 26.14 (1), resource changes reflect an increase of $2,202,600 under posts, relating to the higher provision at continuing vacancy rates for 24 new posts (7 P-5, 11 P-4 and 6 P-3) established in 2025 pursuant to General Assembly resolutions 79/257 and 79/258, which were subject to a 50 per cent vacancy rate in accordance with the established practice for newly established posts.

Other changes

26.99 As shown in table 26.14 (1), resource changes reflect cost-neutral changes, as follows:

(a) A decrease of $331,300 under posts, relating to the proposed geographical redeployment of 15 posts (1 P-5, 3 P-4, 8 P-3, 1 P-2 and 2 General Service (Other level)) from Jerusalem to Amman. Additional information is provided in annex II;

(b) An increase of $331,300 in non-post resources, under grants and contributions, due to additional requirements in support of the Agency's operational costs related to executive and administrative management functions. The proposed additional resources would be used to strengthen the Agency's monitoring, oversight and accountability mechanisms, in particular for its distribution activities, its integrated assessment of installations, and its education and health programmes.

Extrabudgetary resources

26.100 As reflected in tables 26.14 (2) and 26.15 (2), extrabudgetary resources amount to $1,021,508,800. The resources would complement regular budget resources and would be used mainly to provide for continued humanitarian support and aid to Palestine refugees.

26.101 The extrabudgetary resources under the present section are subject to the oversight of the Commissioner-General of UNRWA, who is advised and assisted by an Advisory Committee on Resource Allocation and an Executive Advisory Group, and who has delegated authority from the Secretary-General.

I. Office for the Coordination of Humanitarian Affairs

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

27.I.1 The mandate is derived from the priorities established in relevant General Assembly resolutions and decisions, including resolution 46/182, in which the Assembly set out the guiding principles of humanitarian response and affirmed the leadership role of the Secretary-General to ensure better preparation and effective response to natural disasters and complex emergencies. This mandate has been confirmed and consolidated through the normative developments of various resolutions over the past 33 years. The Office for the Coordination of Humanitarian Affairs is responsible for ensuring the timely, coherent, coordinated and principled response of the international community to natural disasters and complex emergencies and for facilitating the transition from emergency relief to rehabilitation and sustainable development. With over 305 million people in need of humanitarian assistance in 2025 and extreme poverty and hunger on the rise, owing to the compounded effects of emerging and prolonged armed conflicts and the crisis of climate change, ensuring well-coordinated and principled humanitarian assistance by the international community remains as important as ever.

Strategy and external factors for 2026

27.I.2 The year 2024 was one of the most challenging in recent history for civilians caught in conflicts. By mid-2024, nearly 123 million people had been forcibly displaced by conflict and violence, marking the twelfth consecutive annual increase. Armed conflicts continued to take a heavy toll on civilians, and the crisis of climate change exacerbated humanitarian needs. The global food security crisis affected over 280 million people daily as acute hunger spread and intensified.

27.I.3 In the face of these challenges, the Office will continue to enhance the coordination of effective and efficient delivery of humanitarian assistance, together with humanitarian organizations. The Office will continue to develop and promote a common policy on humanitarian issues for the United Nations system and its partners; coordinate response to humanitarian emergencies; mobilize United Nations capacity to expedite the provision of humanitarian assistance; and strengthen anticipatory approaches and early warning early action systems, with special attention paid to those in the most vulnerable situations. In addition, the Office will advocate and contribute to better preparedness for more timely humanitarian assistance in emergencies; advocate on humanitarian issues; and strengthen the analysis and availability of timely information on emergencies and natural disasters, in accordance with its mandate. The Office will also support the mobilization of resources for countries and communities facing humanitarian emergencies, including host communities, by scaling up timely and predictable funding, advancing innovative and anticipatory financing mechanisms and strengthening partnerships with international financial institutions to prevent, reduce and respond to humanitarian suffering. Furthermore, the Office will continue to advocate for safe and unhindered humanitarian access, the safety and security of humanitarian personnel, and respect for international humanitarian law.

27.I.4 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will continue to work with national and local governments, affected communities and other stakeholders, including regional disaster management and response organizations, other regional and subregional organizations, private sector actors and first responders, to promote principled, timely and effective humanitarian responses.

27.I.5 With regard to inter-agency coordination and liaison, the Office will continue, through the Inter-Agency Standing Committee and its subsidiary bodies, to coordinate the development of guidance for the humanitarian system, including on operations policy development and advocacy and supporting implementation of the Secretary-General's Action Agenda on Internal Displacement. The Office will provide and manage global platforms, such as the United Nations Disaster Assessment and Coordination Team mechanism and the International Search and Rescue Advisory Group, to pool resources and facilitate a coordinated response to humanitarian crises. The Office will also collaborate closely with United Nations agencies, funds and programmes, at both the Headquarters and country levels throughout the humanitarian programme cycle, to streamline the current guidance and indicators associated with thematic humanitarian issues. This will enable effective and consistent system-wide response strategies that meet the humanitarian needs of people in vulnerable situations and minimize duplication and gaps in response efforts. The Office's country, regional and liaison offices are strategically located to work with governments and assist in humanitarian preparedness and response.

27.I.6 With regard to the external factors, the overall plan for 2026 is based on the following planning assumptions:

(a) Natural disasters will continue to increase in frequency and magnitude, owing, among other things, to the adverse effects of the crisis of climate change;

(b) The impact of the global economic contraction, compounded by the impacts of natural disasters and armed conflicts, will continue to be felt and will increase the vulnerability of people;

(c) Humanitarian needs and funding requirements will remain high.

27.I.7 The Office integrates a gender perspective into its operational activities, deliverables and results, as appropriate, including through gender analysis, prevention, response and mitigation of gender-based violence, and by promoting the participation and leadership of women in decision-making.

27.I.8 The Office advances United Nations system-wide commitments on protection from sexual exploitation and abuse and sexual harassment. The Under-Secretary-General for Humanitarian Affairs and Emergency Relief Coordinator, as Chair of the Inter-Agency Standing Committee, leads and promotes Committee efforts that are aimed at ensuring that people caught up in crises feel safe and respected and can gain access to the protection and assistance that they need. The Office will promote system-wide commitments to ensure that the affected population and personnel engaged in the delivery of humanitarian assistance are protected from sexual harassment and abuse.

27.I.9 In line with the United Nations Disability Inclusion Strategy, the Office will work to make humanitarian programming and responses more inclusive of persons with disabilities, in particular by ensuring that their needs are reflected in humanitarian data. On the basis of gaps identified through the previous implementation of the Strategy, the Office will develop an action plan outlining the institutional and operational changes necessary to ensure disability inclusion.

Legislative mandates

27.I.10 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

46/182; 79/140	Strengthening of the coordination of humanitarian emergency assistance of the United Nations	52/167	Safety and security of humanitarian personnel
47/120 A and B	An Agenda for Peace: preventive diplomacy and related matters	60/1	2005 World Summit Outcome
52/12	Renewing the United Nations: a programme for reform	62/208	Triennial comprehensive policy review of operational activities for development of the United Nations system
		63/147	New international humanitarian order

68/1	Review of the implementation of General Assembly resolution 61/16 on the strengthening of the Economic and Social Council
69/313	Addis Ababa Action Agenda of the Third International Conference on Financing for Development (Addis Ababa Action Agenda)
70/1	Transforming our world: the 2030 Agenda for Sustainable Development
72/305	Review of the implementation of General Assembly resolution 68/1 on the strengthening of the Economic and Social Council
74/306	Comprehensive and coordinated response to the coronavirus disease (COVID-19) pandemic
75/290 A; 75/290 B	Review of the implementation of General Assembly resolution 72/305 on the strengthening of the Economic and Social Council
76/264	State of global food insecurity
77/288	Persistent legacy of the Chernobyl disaster
78/185	Assistance to refugees, returnees and displaced persons in Africa
78/205	Protection of and assistance to internally displaced persons
78/285	Review of the implementation of General Assembly resolution 75/290 A on the strengthening of the Economic and Social Council and resolution 75/290 B on the high-level political forum on sustainable development and the follow-up and review of the 2030 Agenda for Sustainable Development at the global level
79/1	The Pact for the Future
79/138	Safety and security of humanitarian personnel and protection of United Nations personnel
79/139	International cooperation on humanitarian assistance in the field of natural disasters, from relief to development
79/226	Quadrennial comprehensive policy review of operational activities for development of the United Nations system

Economic and Social Council resolution

2024/8	Strengthening of the coordination of emergency humanitarian assistance of the United Nations

Security Council resolutions

1265 (1999)	2690 (2023)
1894 (2009)	2727 (2024)
2222 (2015)	2729 (2024)
2286 (2016)	2730 (2024)
2417 (2018)	2732 (2024)
2474 (2019)	2742 (2024)
2475 (2019)	2753 (2024)
2532 (2020)	2755 (2024)
2573 (2021)	2759 (2024)
2615 (2021)	2760 (2024)
2616 (2021)	2761 (2024)
2664 (2022)	2765 (2024)

Subprogramme 1
Policy and analysis

General Assembly resolutions

56/89	Scope of legal protection under the Convention on the Safety of United Nations and Associated Personnel
61/117	Applicability of the Geneva Convention relative to the Protection of Civilian Persons in Time of War, of 12 August 1949, to the Occupied Palestinian Territory, including East Jerusalem, and other occupied Arab territories
62/134	Eliminating rape and other forms of sexual violence in all their manifestations, including in conflict and related situations
73/195	Global Compact for Safe, Orderly and Regular Migration

76/125	White Helmets Commission: participation of volunteers in the activities of the United Nations in the field of humanitarian relief, rehabilitation, and technical cooperation for development	79/156	Office of the United Nations High Commissioner for Refugees

Subprogramme 2
Coordination of humanitarian action and emergency response

General Assembly resolutions

68/129	Assistance to survivors of the 1994 genocide in Rwanda, particularly orphans, widows, and victims of sexual violence	79/141	Assistance to the Palestinian people
		79/185	Situation of human rights in the Syrian Arab Republic
77/10	The situation in Afghanistan		

Security Council presidential statement

S/PRST/2015/23

Subprogramme 3
Emergency support services

General Assembly resolutions

56/99	Emergency response to disasters	65/307	Improving the effectiveness and coordination of military and civil defence assets for natural disaster response
60/13	Strengthening emergency relief, rehabilitation, reconstruction, and prevention in the aftermath of the South Asian earthquake disaster – Pakistan	68/99	Strengthening of international cooperation and coordination of efforts to study, mitigate and minimize the consequences of the Chernobyl disaster
63/137	Strengthening emergency relief, rehabilitation, reconstruction, and prevention in the aftermath of the Indian Ocean tsunami disaster	69/280	Strengthening emergency relief, rehabilitation, and reconstruction in response to the devastating effects of the earthquake in Nepal

Subprogramme 4
Humanitarian emergency information and advocacy

General Assembly resolutions

51/194; 57/153	Strengthening of the coordination of emergency humanitarian assistance of the United Nations

Deliverables

27.I.11 Table 27.I.1 lists all cross-cutting deliverables of the programme.

Table 27.I.1
Cross-cutting deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	**3**	**3**	**3**	**3**
Meetings of:				
1. The Fifth Committee	1	1	1	1
2. The Committee for Programme and Coordination	1	1	1	1
3. The Advisory Committee on Administrative and Budgetary Questions	1	1	1	1

Evaluation activities

27.I.12 The following evaluations conducted by the Office and completed in 2024 have guided the proposed programme plan for 2026:

(a) Inter-agency humanitarian evaluation of the response to the humanitarian crisis in northern Ethiopia;

(b) Inter-agency humanitarian evaluation of the response to the humanitarian crisis in Afghanistan.

27.I.13 In response to the results of the evaluations referenced above, the Office will support humanitarian coordinators in improving coordination structures, operational readiness and the integration of basic services into humanitarian responses.

27.I.14 The following evaluations to be conducted by the Office are planned for 2026:

(a) Evaluation of an area of strategic importance linked to the Office's strategic priorities outlined in the strategic plan for the period 2023–2026;

(b) Inter-agency joint evaluation of humanitarian system-wide scale-up activations.

Programme of work

Subprogramme 1
Policy and analysis

Objective

27.I.15 The objective, to which this subprogramme contributes, is to improve the strategic and operational coherence of humanitarian response.

Strategy

27.I.16 To contribute to the objective, the subprogramme will:

(a) Identify emerging humanitarian trends to support the comprehensive, authoritative and evidence-based assessment of global humanitarian needs and analyse challenges and opportunities for humanitarian policy and programme development;

(b) Identify policy and programmatic solutions, best practices and lessons learned to be applied in the humanitarian field and take steps to increase preparedness and operational readiness to respond to humanitarian priorities and reduce humanitarian needs.

27.I.17 The above-mentioned work is expected to result in:

(a) Humanitarian assistance that addresses evolving challenges and reduces the gap between humanitarian needs and response capacity;

(b) A humanitarian system that remains relevant and adapts to the ever-changing operational environment;

(c) Humanitarian actors applying innovative solutions in humanitarian operations.

Programme performance in 2024

Humanitarian practitioners identified pathways for strengthening humanitarian assistance

27.I.18 In December 2024, the subprogramme, in collaboration with the United Nations Foundation, convened the thirteenth annual Global Humanitarian Policy Forum, bringing together leaders and practitioners to reflect on the state of the global humanitarian landscape. Through a series of virtual interactive sessions, participants discussed the most pressing challenges facing humanitarian assistance efforts and explored new pathways to enhance the system's ability to adapt to change and respond. The theme of the 2024 Policy Forum underscored the urgent need to rethink and reshape humanitarian strategies in response to increasingly complex challenges and escalating levels of humanitarian need. It concluded with the development of actionable recommendations for humanitarian agencies, donors and partners, including to further promote community-driven approaches to humanitarian action, scale up climate action, depoliticize humanitarian assistance and foster strategic, inclusive leadership.

27.I.19 Progress towards the objective is presented in the performance measure below (see table 27.I.2).

Table 27.I.2
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Humanitarian practitioners identified actionable recommendations to strengthen humanitarian response

Planned results for 2026

Result 1: addressing emerging risks in the humanitarian operating environment

Programme performance in 2024 and target for 2026

27.I.20 The subprogramme's work contributed to the adoption of actions for safe, ethical and effective data management in different response contexts, including in Lebanon, the Occupied Palestinian Territory and Somalia, which met the planned target.

27.I.21 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 27.I.3).

Table 27.I.3
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Member States and the humanitarian community discuss risks associated with the use of information and communications technology (ICT)	Gaps identified in the protection of the humanitarian operating environment against risks associated with the use of ICT Operational guidance on data responsibility in humanitarian action available to humanitarian community	Adoption of actions for safe, ethical and effective data management	Humanitarian community begins to implement collective solutions to address gaps in protecting the humanitarian operating environment against risks associated with the use of ICT	Humanitarian community begins to mainstream collective solutions to address known gaps in the protection of the humanitarian operating environment against risks associated with the use of ICT

Result 2: increased engagement of communities in humanitarian response to effectively address their needs

27.I.22 The subprogramme's work contributed to the adoption of improved active listening approaches in four pilot countries, which met the planned target. For example, in the Philippines, community engagement resulted in communities identifying the need to safely store livelihood assets, such as sewing machines and fishing boats, prior to a storm to ensure that valuable equipment is preserved, allowing people to quickly resume their livelihoods after a storm.

27.I.23 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 27.I.4).

Table 27.I.4
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Stakeholders in the humanitarian system, including governments, partners and communities in four countries (Colombia, the Niger, the Philippines and South Sudan), commence pilot initiative for community-centric coordination and response structures	Improved active listening approaches adopted in four pilot countries	Increased community participation and local actors' engagement in the design and implementation of humanitarian coordination and response structures, including financing, with a view to assessing practices for further scaling and replicating for other contexts	Community engagement and community-led humanitarian action practice in two additional countries

Result 3: improved collective learning through the integration of local perspectives

Proposed programme plan for 2026

27.I.24 Humanitarian efforts are most effective when they are driven by the needs and priorities of affected communities.

Lessons learned and planned change

27.I.25 The lesson for the subprogramme was that, by understanding the priorities, capacities, risks and vulnerabilities of communities and collaborating with other sectors, humanitarians can more effectively address the urgent needs of affected communities, enhance their resilience and reduce the long-term need for humanitarian assistance. In applying the lesson, the subprogramme will ensure that learning events prioritize the participation and insights of local and national actors, allowing their perspectives to shape recommendations and system-wide practices.

27.I.26 Expected progress towards the objective is presented in the performance measure below (see table 27.I.5).

Table 27.I.5
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Local and national actors provided insights on innovations and improvements for humanitarian assistance during global learning events	Increased participation of local and national actors in collective learning efforts	Practice guidance on community-driven responses available for replication in other contexts

Deliverables

27.I.27 Table 27.I.6 lists all deliverables of the subprogramme.

Table 27.I.6
Subprogramme 1: deliverables for the period 2024–2026, by category and subcategory

Subprogramme 2
Coordination of humanitarian action and emergency response

Objective

27.I.28 The objective, to which this subprogramme contributes, is to ensure a coherent, effective and timely humanitarian response to reduce and alleviate human suffering in natural disasters and complex emergencies.

Strategy

27.I.29 To contribute to the objective, the subprogramme will:

(a) Maintain an effective coordination system to convene humanitarian actors and support senior humanitarian leadership at the global level and in countries affected by natural disasters and complex emergencies, by coordinating timely and objective multisectoral assessments and analyses of humanitarian needs; supporting response planning; and programming and monitoring the provision of assistance to people in need during and in the aftermath of emergencies;

(b) Promote the delivery of principled humanitarian assistance and coordinate resource mobilization efforts to reduce funding gaps that hamper humanitarian operations, including through effective partnerships with humanitarian actors, Member States, regional organizations and civil society, and the effective management and disbursement of funding from humanitarian pooled funds;

(c) Increase the use of anticipatory approaches and early warning early action systems to prevent and reduce human suffering, especially with regard to disasters relating to the crisis of climate change;

(d) Strengthen links between humanitarian assistance and efforts to support resilience, early recovery and development to reduce the needs and vulnerabilities of affected people, ensuring that sex-, age- and disability-oriented data are taken into account in all aspects of the response.

27.I.30 The above-mentioned work is expected to result in:

(a) Improved prioritization of humanitarian responses, based on informed and timely decision-making by humanitarian actors;

(b) Reduced duplication of response interventions and reduced gaps in humanitarian response;

(c) An adequately funded international humanitarian system, to respond to increasingly frequent natural disasters and complex emergencies.

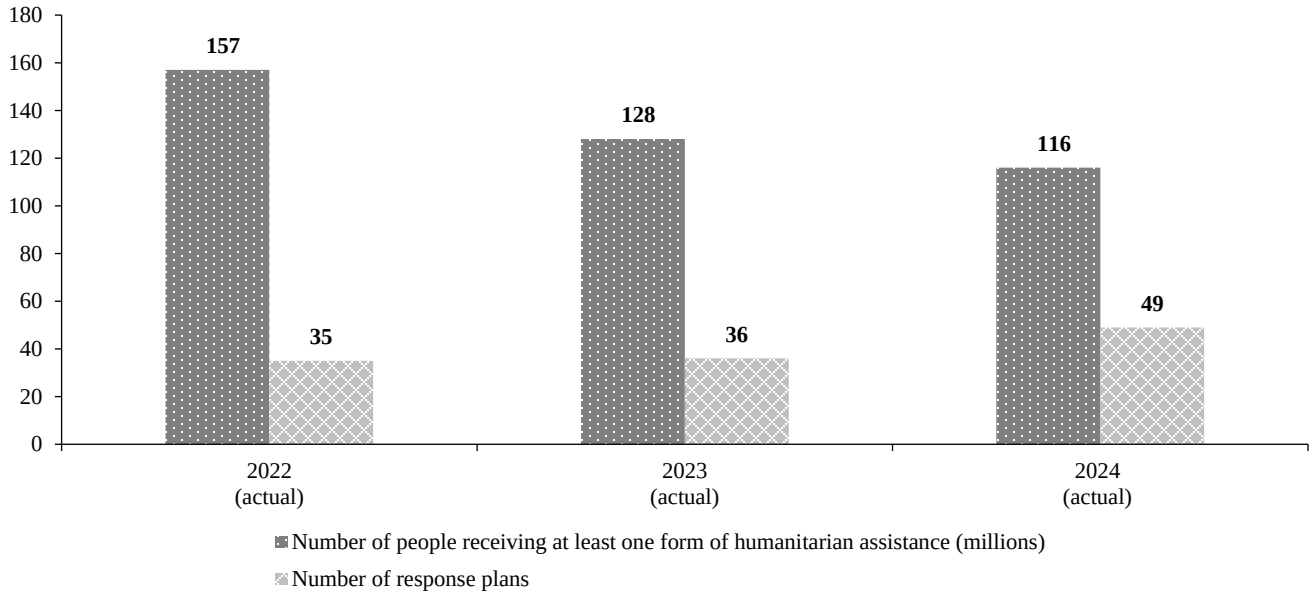
Programme performance in 2024

Reaching people in need in increasingly challenging contexts

27.I.31 The subprogramme helped humanitarian partners in Member States to organize responses through 24 country humanitarian response plans, 9 regional plans, 10 flash appeals and 6 other forms of appeals, on the basis of a common understanding of the specific humanitarian contexts, which enabled collective and coordinated responses. In 2024, the United Nations and over 2,000 partner organizations reached nearly 116 million people with at least one form of assistance. This was despite the fact that humanitarians and the services they provide came under unprecedented attack in 2024, which was the most dangerous year on record for humanitarian personnel, with 356 humanitarians killed. Local humanitarian personnel, who serve their own communities on the front lines of conflict, are the most exposed to violence. Between January and November 2024, 96 per cent of all humanitarian personnel killed, injured or kidnapped were national or local staff. Despite focused response plans and appeals, funding did not keep pace with requirements in 2024. Just 46 per cent of the amount required according to the Global Humanitarian Overview was received. These shortages have affected crises worldwide.

27.I.32 Progress towards the objective is presented in the performance measure below (see figure 27.I.I).

Figure 27.I.I
Performance measure: number of people receiving at least one form of humanitarian assistance, and number of humanitarian response plans (annual)



Planned results for 2026

Result 1: transforming humanitarian programming to improve the delivery of aid to people in need

Programme performance in 2024 and target for 2026

27.I.33 The subprogramme's work contributed to 79 per cent of humanitarian country operations reporting simplified, shorter humanitarian programme cycle processes and improved ability to focus on the delivery of humanitarian assistance, which exceeded the planned target of 75 per cent.

27.I.34 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 27.I.7).

Table 27.I.7
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Humanitarian programme, with initial tips on flexibility and streamlining narratives available to the humanitarian community	Revised humanitarian programme available to the humanitarian community, including a new joint intersectoral analysis framework and consolidated cross-cutting guidance as elements of the broader humanitarian programme cycle reform	79 per cent of humanitarian country operations reported simplified, shorter humanitarian programme cycle processes and improved ability to focus on delivery of humanitarian assistance	85 per cent of humanitarian country operations report simplified, shorter humanitarian programme cycle processes and improved ability to focus on delivery of humanitarian assistance	100 per cent of humanitarian country operations report simplified, shorter humanitarian programme cycle processes and improved ability to focus on delivery of humanitarian assistance

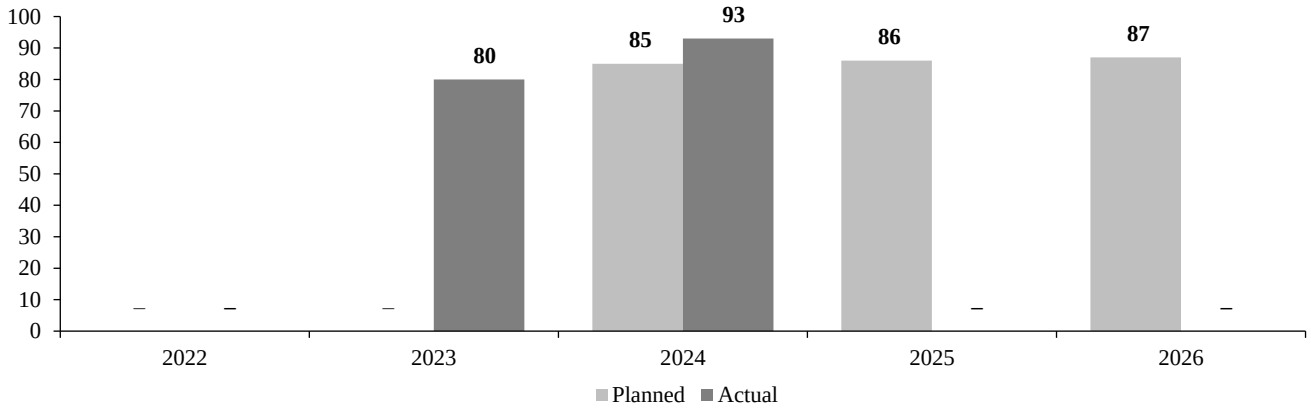
Result 2: increased participation of local and national actors in humanitarian coordination mechanisms

Programme performance in 2024 and target for 2026

27.I.35 The subprogramme's work contributed to 93 per cent of countries with local and national actors participating in humanitarian coordination mechanisms, which exceeded the planned target of 85 per cent.

27.I.36 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 27.I.II).

Figure 27.I.II
Performance measure: countries with local and national actors participating in humanitarian coordination mechanisms[a] (annual)
(Percentage)



[a] Data for 2024 are based on most recent data collected through the annual coordination survey.

Result 3: scaled up anticipatory approaches and early warning early action systems

Proposed programme plan for 2026

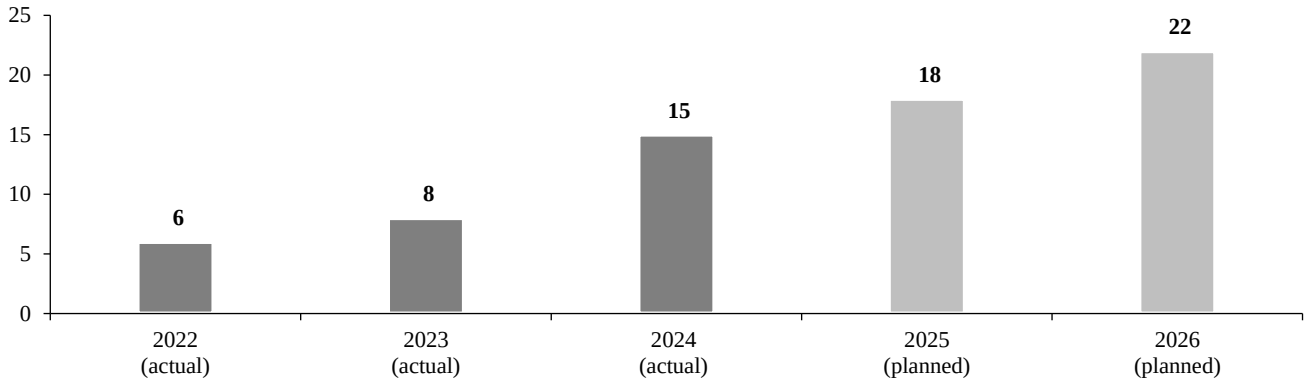
27.I.37 Anticipatory approaches and early warning early action systems are focused on action before predictable disasters strike, with a view to preventing and reducing human suffering and assisting those in need. In its resolution 79/140, the General Assembly encouraged the United Nations and humanitarian organizations to continue to scale up anticipatory approaches and early warning early action systems and encouraged exploring, developing and, where appropriate, strengthening innovative and anticipatory mechanisms and approaches, such as forecast-based financing and disaster risk insurance, to reduce the impact of disasters and address humanitarian needs.

Lessons learned and planned change

27.I.38 The lesson for the subprogramme, based on pilot projects, was that anticipatory approaches and early warning early action systems are effective in preventing and reducing human suffering and economic losses. The subprogramme is using predictive data to take action before disasters strike, through the establishment of pre-agreed anticipatory action frameworks under which predefined humanitarian interventions are triggered when specific forecasts indicate a high likelihood of a shock. This allows for a faster and more effective response by releasing pre-arranged funding, with a view to mitigating the impact before the crisis fully unfolds. Further scaling up of anticipatory approaches and early warning early action systems is needed, including through the consistent use of anticipatory financing mechanisms to ensure timely and predictable funding. In applying the lesson, the subprogramme will scale up anticipatory approaches and early warning early action systems to cover more countries and hazards, including through increased financing by humanitarian pooled funds for the coordination of such approaches.

27.I.39 Expected progress towards the objective is presented in the performance measure below (see figure 27.I.III).

Figure 27.I.III
Performance measure: number of countries with increased use of anticipatory approaches and early warning early action systems (annual)



Deliverables

27.I.40 Table 27.I.8 lists all deliverables of the subprogramme.

Table 27.I.8
Subprogramme 2: deliverables for the period 2024–2026 by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**4**	**5**	**4**	**4**
1. Report to the General Assembly on the Central Emergency Response Fund	1	1	1	1
2. High-level pledging events on the provision of international assistance to countries affected by humanitarian emergencies	3	4	3	3
Substantive services for meetings (number of three-hour meetings)	**2**	**2**	**2**	**2**
3. High-level meetings and side events of the General Assembly on the provision of international assistance to countries affected by humanitarian emergencies	2	2	2	2
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	**–**	**1**	**1**	**–**
4. Workshops on international humanitarian law and other emerging issues for resident coordinators/humanitarian coordinators	–	1	1	–

C. Substantive deliverables

Consultation, advice and advocacy: briefings to the Security Council on specific complex emergency situations; informal consultations with more than 50 Member States on specific emergency situations and the financing of humanitarian requirements; consolidated inter-agency appeals for more than 60 countries and regions affected by humanitarian emergencies; consultations with humanitarian organizations in more than 60 countries on operations, policies and coordination arrangements; and consultations with Member States, regional organizations and the private sector on common humanitarian action.

Databases and substantive digital materials: monitoring mechanisms in support of operational partners (e.g. financial tracking systems).

D. Communication deliverables

Outreach programmes, special events and information materials: meetings and special events on specific complex emergency situations; quarterly donor briefings on humanitarian financing; the Central Emergency Response Fund annual report; consolidated annual report on country-based pooled funds; and Global Humanitarian Overview.

Digital platforms and multimedia content: Central Emergency Response Fund data hub.

Category and subcategory	2024 planned	2024 actual	2025 planned	2026 planned
E. Enabling deliverables				
Administration: grant delivery allocations to United Nations humanitarian agencies and the International Organization for Migration from the Central Emergency Response Fund for new and protracted emergencies; allocation of grants from the country-based pool funds; and monitoring the humanitarian relief consignments of the United Nations humanitarian agencies and their implementing partners.				

Subprogramme 3
Emergency support services

Objective

27.I.41 The objective, to which this subprogramme contributes, is to expedite international humanitarian assistance to victims of emergencies and natural disasters.

Strategy

27.I.42 To contribute to the objective, the subprogramme will:

(a) Provide effective and well-coordinated operational response support to disaster-affected States and continue to coordinate and support humanitarian actors to prepare for, plan, deliver and monitor the humanitarian response through the humanitarian programme cycle;

(b) Strengthen the capacities of Member State mechanisms for emergency response through the management of various technical response services, including the United Nations Disaster Assessment and Coordination Team mechanism, the International Search and Rescue Advisory Group system, the environmental emergency response mechanism of the Joint Environment Unit of the United Nations Environment Programme and the Office for the Coordination of Humanitarian Affairs, as well as through the provision of training, guidance and technical support, including a continued focus on effective facilitation and functioning of inter-cluster coordination groups and their associated subgroups, and on the role and capacity of local responders;

(c) Promote collaboration with various partner organizations, including the private sector, through the Connecting Business initiative, which is managed jointly by the Office and the United Nations Development Programme, and United Nations humanitarian civil-military coordination and humanitarian negotiation services; and by continuing to conduct courses and training sessions and meeting regularly with partners through focal points in regional and country offices;

(d) Standardize and improve operational procedures for international urban search and rescue teams through the International Search and Rescue Advisory Group and activate and coordinate rapid response coordination platforms, such as the virtual On-Site Operations Coordination Centre and the Global Disaster Alert and Response Coordination System, as well as provide near real-time alerts on natural disasters around the world and tools to facilitate response coordination.

27.I.43 The above-mentioned work is expected to result in:

(a) Enhanced response capacity of local, regional and international responders for natural disasters;

(b) More efficient and timely mobilization and deployment of emergency response services;

(c) Improved effectiveness and prioritization of preparedness and response of the national emergency management authorities in disaster-prone countries, ensuring that assistance and protection reach the people who need it most;

(d) More effective operational engagement by humanitarian organizations with both local and international private sectors before, during and after emergencies. This will ensure that private sector contributions are well coordinated and recognized and that humanitarian interventions contribute to longer-term development goals.

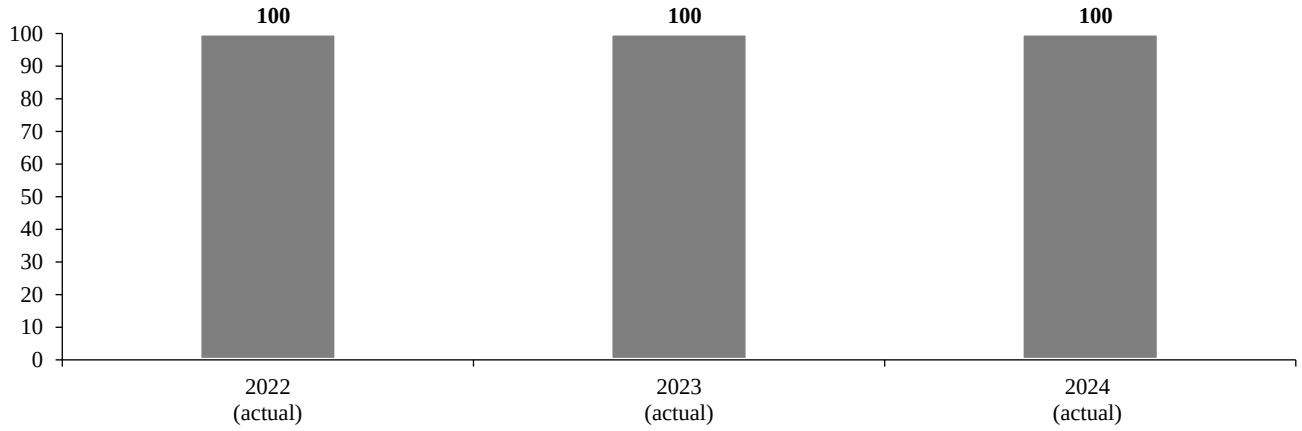
Programme performance in 2024

Member States were enabled to provide rapid response to sudden-onset and complex emergencies

27.I.44 In 2024, the subprogramme responded to sudden-onset and complex emergencies and supported emergency preparedness in four countries: Barbados, Grenada, Jamaica and Saint Vincent and the Grenadines, through the utilization of United Nations Disaster Assessment and Coordination teams and systems. On 1 July 2024, Hurricane Beryl struck Grenada and Saint Vincent and the Grenadines as a category 4 hurricane, before intensifying to a category 5. The subprogramme promptly deployed staff and United Nations Disaster Assessment and Coordination teams to Barbados and Jamaica. Funding from the Central Emergency Response Fund was also allocated to enable the United Nations and its partners to swiftly deliver life-saving aid. The Joint Environment Unit of the United Nations Environment Programme and the Office for the Coordination of Humanitarian Affairs deployed two specialists in environmental assessment and coordination within the United Nations Disaster Assessment and Coordination teams. The teams established On-Site Operations Coordination Centres in Carriacou, Grenada, and Union, Saint Vincent and the Grenadines, to facilitate a coordinated response. The International Humanitarian Partnership deployed from Barbados to Grenada and Saint Vincent and the Grenadines to support local responders, emergency management authorities, the Caribbean Disaster Emergency Management Agency, as the regional response mechanism, and the private sector. The subprogramme also laid the groundwork for assessing the scale of destruction, damage and humanitarian needs. In collaboration with partners, the subprogramme developed and launched a response plan, amounting to $9 million, to provide immediate humanitarian assistance to 43,000 people. In addition, at the request of the affected Governments for assistance, the Joint Environment Unit responded to environmental emergencies arising from sudden-onset and complex emergencies in such countries as Ethiopia, Seychelles and Yemen.

27.I.45 Progress towards the objective is presented in the performance measure below (see figure 27.I.IV).

Figure 27.I.IV
Performance measure: United Nations Disaster Assessment and Coordination teams mobilized and dispatched to the affected country within 48 hours of receiving a request for international assistance (annual)
(Percentage)



Planned results for 2026

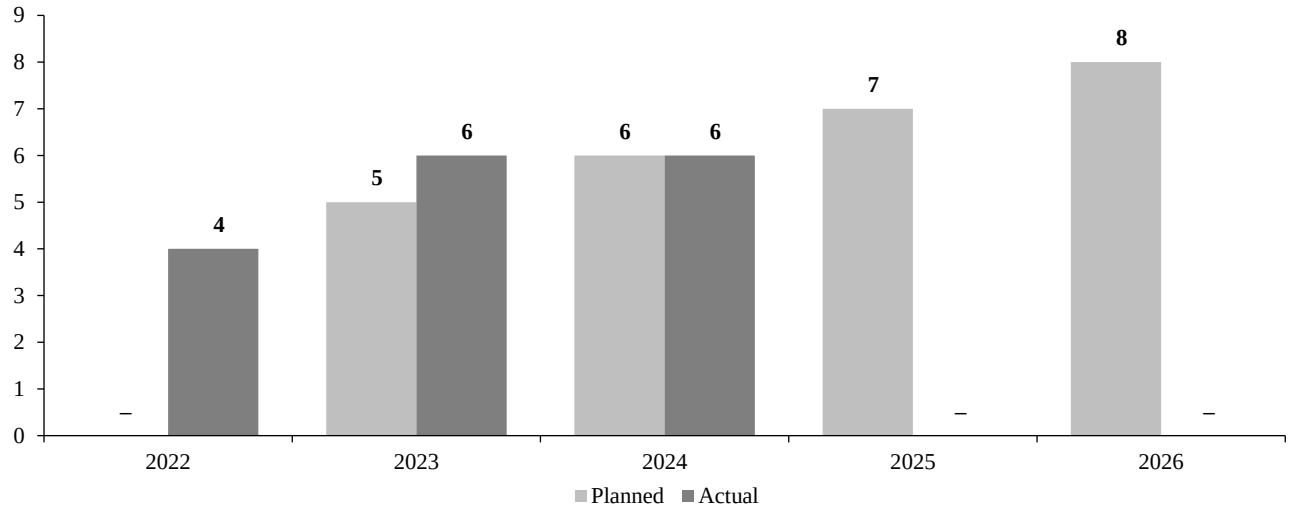
Result 1: engagement of all actors to improve access for the most vulnerable to humanitarian assistance and protection

Programme performance in 2024 and target for 2026

27.I.46 The subprogramme's work contributed to improved access for the most vulnerable to humanitarian assistance and protection through the provision of support for humanitarian negotiations and diplomacy efforts in six contexts, which met the planned target.

27.I.47 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 27.I.V).

Figure 27.I.V
Performance measure: number of contexts in which interlocutors with influence on humanitarian access engage in diplomacy and negotiations (annual)



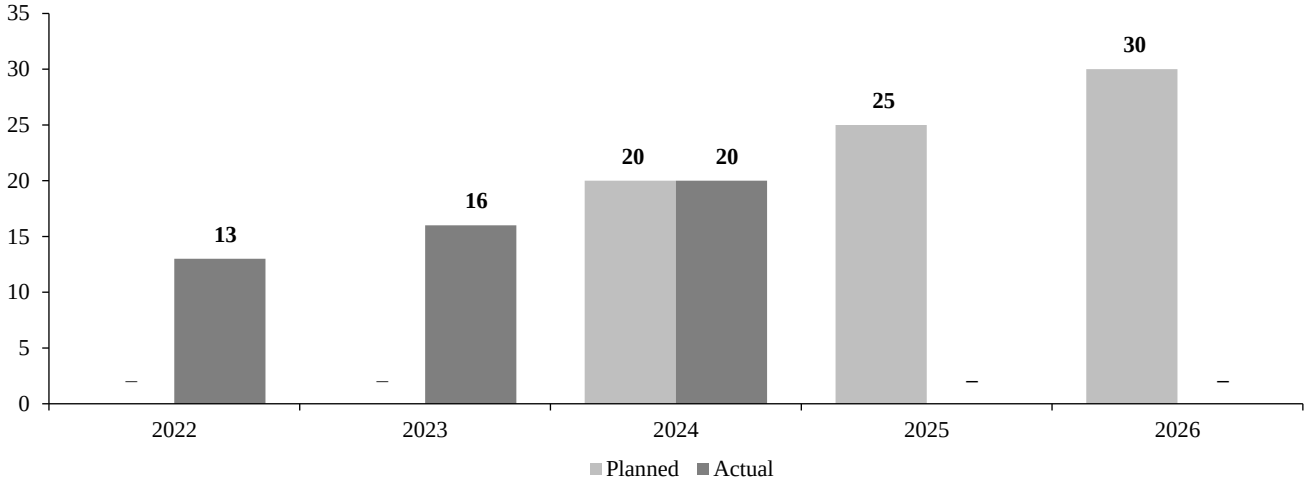
Result 2: enhanced partnership with the private sector in collective humanitarian action

Programme performance in 2024 and target for 2026

27.I.48 The subprogramme's work contributed to the establishment of 20 Connecting Business initiative-supported local private sector networks, which met the planned target. In addition, given that regional bodies are members of 3 of the 20 networks, the Connecting Business initiative is now present in over 70 countries worldwide. The networks collectively responded to 16 humanitarian emergencies in 2024, mobilizing more than $14 million in humanitarian assistance to benefit at least 2.6 million people around the world.

27.I.49 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 27.I.VI).

Figure 27.I.VI
Performance measure: number of Connecting Business initiative-supported local private sector networks that respond to crises (cumulative)



Result 3: crisis-affected people receive emergency humanitarian assistance in the immediate aftermath of a catastrophe

Proposed programme plan for 2026

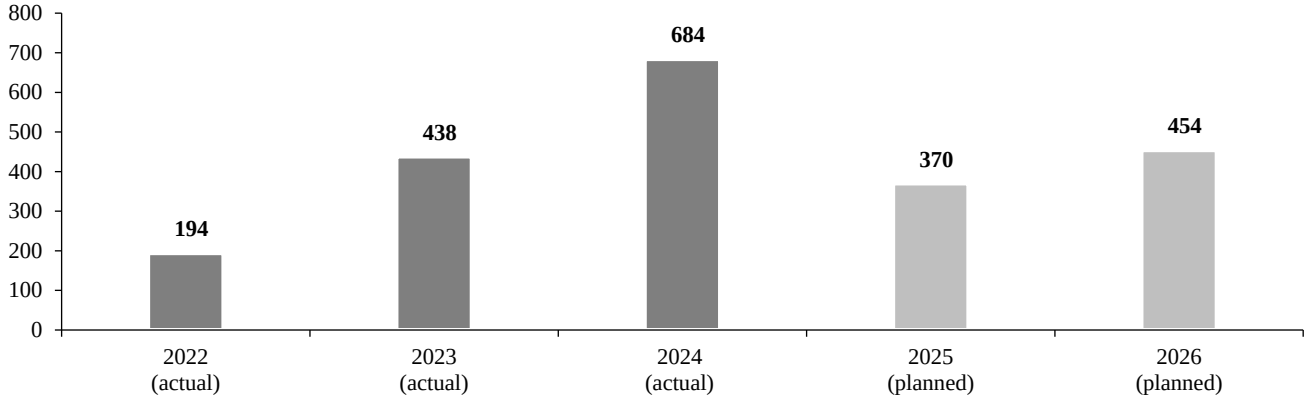
27.I.50 Climate change is intensifying the severity of weather-related disasters and severely affecting food systems. It has made the impact of events like the devastating Horn of Africa drought (2020 to 2023) much more severe and significantly increased the likelihood of their recurrence. Climate change has also increased the likelihood and destructive power of major hurricanes, such as Hurricane Beryl in 2024, which is the strongest June hurricane ever recorded in the Atlantic.

Lessons learned and planned change

27.I.51 The lesson for the subprogramme was that the increasing severity and frequency of natural disasters necessitate ongoing training and response readiness efforts for sudden-onset emergencies. In applying the lesson, the subprogramme will strengthen its capacity to respond to sudden-onset emergencies and enhance coordination for a more efficient and tailored humanitarian response. This will be achieved by enhancing the response readiness efforts of its members and partners throughout the provision of training, deploying rapid response capacities, while working with its national members, operational support partners and regional partners to strengthen local preparedness and response mechanisms.

27.I.52 Expected progress towards the objective is presented in the performance measure below (see figure 27.I.VII).

Figure 27.I.VII
Performance measure: number of emergency responders trained in United Nations Disaster Assessment and Coordination system and United Nations humanitarian civil-military coordination to deploy and respond to sudden-onset emergencies (annual)



Deliverables

27.I.53 Table 27.I.9 lists all deliverables of the subprogramme.

Table 27.I.9
Subprogramme 3: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
B. Generation and transfer of knowledge				
Field and technical cooperation projects (number of projects)	**5**	**5**	**4**	**5**
1. On the interoperability of response tools and procedures	1	1	1	1
2. On response capacity-building	4	4	3	4
Seminars, workshops and training events (number of days)	**55**	**55**	**139**	**125**
3. Training events on various response services and field coordination (e.g. United Nations Disaster Assessment and Coordination Team; United Nations humanitarian civil-military coordination; emergency response to disasters, natural hazards and adverse effects of climate change; environmental emergencies; International Search and Rescue Advisory Group classification and reclassification exercises; and humanitarian programme cycle) at the regional and international levels	55	55	139	125
Humanitarian assistance missions (number of missions)	**13**	**10**	**17**	**15**
4. United Nations humanitarian civil-military coordination support missions	6	8	10	10
5. United Nations Disaster Assessment and Coordination Team missions (subject to occurrence of disasters and at the request of disaster-affected Governments or humanitarian country teams)	7	2	7	5

C. Substantive deliverables

Consultation, advice, and advocacy: diplomacy and engagement with Member States and key stakeholders to facilitate humanitarian access; and advisory services provided to 70 key stakeholders and Member States on rapid response coordination, including United Nations humanitarian civil-military coordination and integrating environmental considerations into humanitarian response.

Databases and substantive digital materials: guidance, tools and handbooks on humanitarian coordination response services; electronic tools relating to rapid response and humanitarian coordination; and roster for humanitarian coordinators and operational partners.

Category and subcategory	2024 planned	2024 actual	2025 planned	2026 planned

D. Communication deliverables

Outreach programmes, special events and information materials: annual partnership and outreach events, and special meetings to facilitate collaboration and interoperability among 2,500 stakeholders, including humanitarian responders, governments, donors, military, civil society and the private sector; and guidance materials on emergency response services annually.

Digital platforms and multimedia content: websites for technical humanitarian response services and private sector contribution trackers.

Subprogramme 4
Humanitarian emergency information and advocacy

Objective

27.I.54 The objective, to which this subprogramme contributes, is to ensure effective advocacy for humanitarian principles and knowledge-sharing in serving populations affected by disasters and emergencies.

Strategy

27.I.55 To contribute to the objective, the subprogramme will:

(a) Intensify its efforts to raise public awareness of international humanitarian law through targeted communications, clear and accessible messages and proactive media engagement;

(b) Produce and improve its analytical information products, including digital products and services.

27.I.56 The above-mentioned work is expected to result in:

(a) Increased respect for international humanitarian law to enhance the protection of affected people and improve unhindered access to humanitarian assistance;

(b) Improved humanitarian decisions based on more timely and accurate information on humanitarian crises, including intersectoral analysis of the humanitarian situation and its severity and needs.

Programme performance in 2024

Humanitarian actors provided with more timely support

27.I.57 Since 1996, the subprogramme has managed and curated humanitarian information through the ReliefWeb platform, which has become the most utilized data source for humanitarian analysis. Its editorial team monitors and collects information from more than 4,000 key sources, including humanitarian agencies at the international and local levels, governments, think tanks and research institutions, and the media. Editors select, classify, curate and deliver the content that is most relevant to global humanitarian workers and decision makers 24 hours a day, 7 days a week, enabling them to make informed decisions and to plan effective responses. To further enhance access to critical information, in July 2024, the subprogramme launched a tool powered by artificial intelligence, Ask ReliefWeb, which is designed to improve the user experience by allowing users to ask questions about individual reports through a chatbot-like interface. By providing precise answers sourced exclusively from the selected report, Ask ReliefWeb has served to streamline information retrieval, enabling humanitarian actors to quickly access the insights they need by posing simple, targeted

questions. This advancement allows humanitarian actors to act more swiftly and effectively, translating critical data into meaningful action on the ground.

27.I.58 Progress towards the objective is presented in the performance measure below (see table 27.I.10).

Table 27.I.10
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	48,400 reports available on the ReliefWeb platform, providing humanitarian actors with timely, reliable information to support informed decision-making and effective crisis response

Planned results for 2026

Result 1: strengthened advocacy for an adequate response to humanitarian situations

Programme performance in 2024 and target for 2026

27.I.59 The subprogramme's work contributed to strengthened advocacy for adequate response to humanitarian crises, with $979 million pledged through high-level pledging conferences on Ethiopia and the Central Emergency Response Fund, which met the planned target.

27.I.60 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 27.I.11).

Table 27.I.11
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
$9.9 billion pledged through the sixth Brussels Conference on Supporting the Future of Syria and the Region, the Ukraine flash appeal and the high-level pledging conference on Afghanistan	$5 billion pledged through high-level pledging conferences on the Horn of Africa, the Sudan and Yemen	$979 million pledged through high-level pledging conferences on Ethiopia and the Central Emergency Response Fund	Pledges enable adequate response to humanitarian situations	Pledges enable adequate response to humanitarian situations

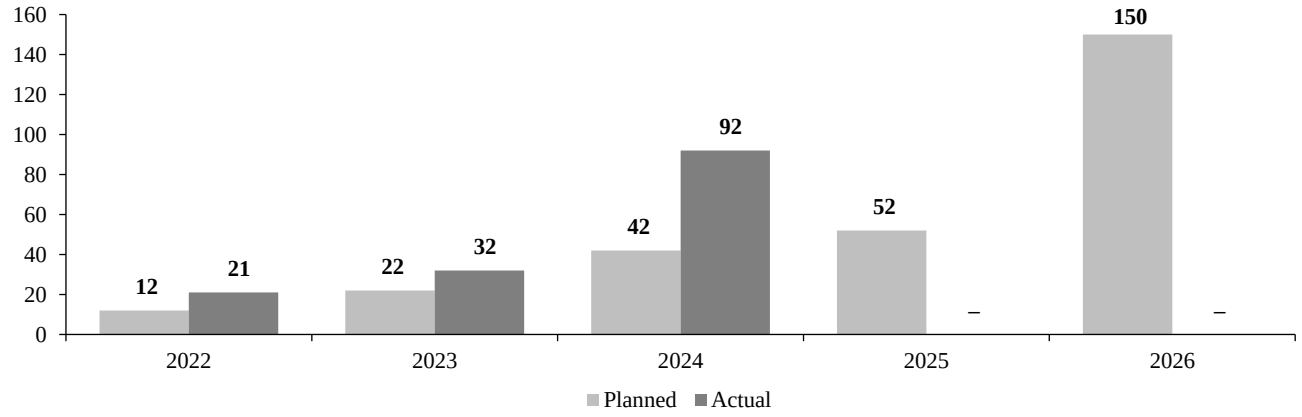
Result 2: reliable network and connectivity services for humanitarian responders

Programme performance in 2024 and target for 2026

27.I.61 The subprogramme's work contributed to 92 quick-to-deploy kits used by humanitarian responders in crisis-affected locations, which exceeded the planned target of 42.

27.I.62 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 27.I.VIII).

Figure 27.I.VIII
Performance measure: number of quick-to-deploy kits used by humanitarian responders in crisis-affected locations (cumulative)



Result 3: enhanced access to critical data and information

Proposed programme plan for 2026

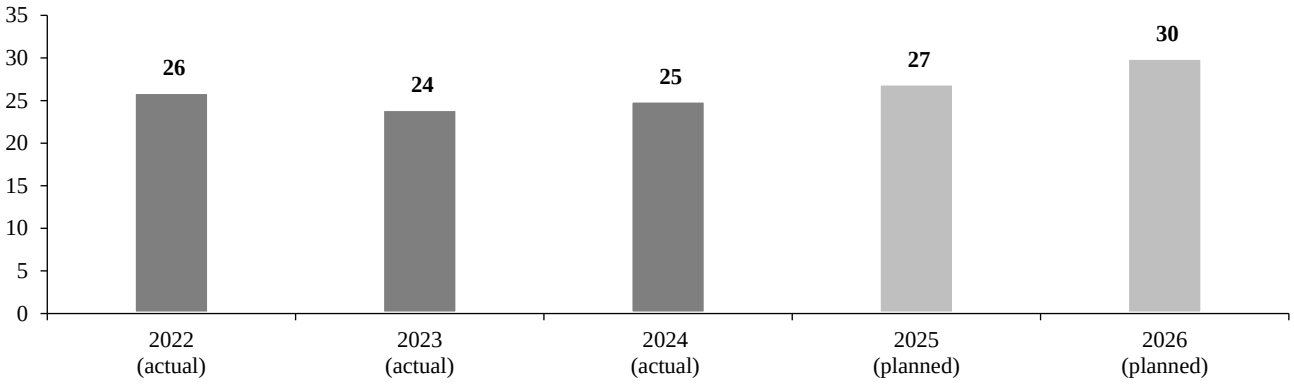
27.I.63 Efficient technology solutions and standardization are crucial for achieving a coordinated response to humanitarian emergencies. By consolidating and simplifying data access, humanitarian organizations can improve coordination among teams, partners and stakeholders, reducing delays in response efforts. ReliefWeb, the humanitarian information portal managed by the subprogramme, provides reliable and timely information to enable humanitarian personnel to plan effective responses.

Lessons learned and planned change

27.I.64 The lesson for the subprogramme was that without standardization efforts, reducing data fragmentation and improving overall coordination among humanitarian actors would be challenging. In addition, overlapping information services were found to reduce clarity and add to the workload of stakeholders in humanitarian action. Furthermore, owing to the speed and complexity of humanitarian emergencies, real-time information-sharing among humanitarian actors is increasingly required. In applying the lesson, the subprogramme will consolidate existing information services to create a more coherent information management system. The subprogramme will lead the standardization of platforms used internally and by its partners to ensure interoperability and consistency in data management and reporting. The subprogramme will also implement automated data exchange protocols to facilitate real-time information-sharing among humanitarian actors. This will enhance the accuracy and timeliness of data, reducing manual entry errors and delays, and ultimately improving the responsiveness of humanitarian operations.

27.I.65 Expected progress towards the objective is presented in the performance measure below (see figure 27.I.IX).

Figure 27.I.IX
Performance measure: audience growth on ReliefWeb from Humanitarian Response Plan countries (annual)
(Percentage)



Deliverables

27.I.66 Table 27.I.12 lists all deliverables of the subprogramme.

Table 27.I.12
Subprogramme 4: deliverables for 2026, by category and subcategory

Category and subcategory

C. Substantive deliverables

Advocacy: shared public advocacy with humanitarian partners, including a humanitarian advocacy and communications group to strengthen consistency in messaging.

Databases and substantive digital materials: field guides, maps and other reference information for more than 1,000 humanitarian operational partners; and information management, shared data standards for information exchange in the humanitarian community, databases and electronic tools, including the International Search and Rescue Advisory Group urban search and rescue directory and common risk and vulnerability assessment methodologies and tools.

D. Communication deliverables

Outreach programmes, special events and information materials: information materials on coordination of humanitarian action; and World Humanitarian Day campaign on protection of humanitarian workers.

External and media relations: daily media updates to United Nations accredited correspondents through the noon briefing in New York and twice-weekly Palais des Nations briefings in Geneva; at least 12 on-the-record and background media briefings for global media outlets and two dozen interviews to advocate assistance for people caught in humanitarian crises, to reach decision-making audiences in donor countries and countries with humanitarian situations; and comprehensive communications for the launch of the Global Humanitarian Overview (annual consolidated appeals), in support of the Central Emergency Response Fund, and of pledging conferences for large humanitarian crises.

Digital platforms and multimedia content: humanitarian community digital platforms, such as ReliefWeb, ReliefWeb Response and Humanitarian Data Exchange; guidance and templates on various reporting products for humanitarian organizations and Member States, including situation reports and humanitarian snapshots; and video, social media and other multimedia content on humanitarian issues, international humanitarian law, international human rights law, humanitarian principles, protection of civilians, specific emergency situations and resource mobilization.

E. Enabling deliverables

Information and communications technology: global information and communications technology and product support for collaboration services; and information and communications technology for emergency response and business continuity services, business intelligence and data analysis services.

B. Proposed post and non-post resource requirements for 2026

Overview

27.I.67 The proposed regular budget resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 27.I.13 to 27.I.15.

Table 27.I.13
Overall: evolution of financial resources by object of expenditure
(Thousands of United States dollars)

			Changes					
Object of expenditure	*2024 expenditure*[a]	*2025 approved*	*Technical adjustments*	*New/ expanded mandates*	*Other*	*Total*	*Percentage*	*2026 estimate*
Posts	13 481.2	14 885.3	–	–	–	–	–	14 885.3

27.I.68 Additional details on the distribution of the proposed resources for 2026 are reflected in tables 27.I.16 to 27.I.18 and figure 27.I.X.

27.I.69 As shown in tables 27.I.16 (1) and 27.I.17 (1), the overall resources proposed for 2026 amount to $18,605,900 before recosting, reflecting a net decrease of $29,700 (or 0.2 per cent) compared with the approved budget for 2025. Resource changes result from other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Table 27.I.16

Total (1+2)	**378 024.5**	**384 095.9**	**(29.7)**	**(0.0)**	**384 066.2**

[a] Excludes resources to fund country-based pooled funds, the Central Emergency Response Fund and special designated contributions that are used by United Nations and non-United Nations entities to support humanitarian action and response efforts in humanitarian emergencies and relief efforts. Special designated contributions are not part of the programme budget of the Office for the Coordination of Humanitarian Affairs but rather pass-through donor-earmarked funding for specific purposes. The combined 2024 expenditure amounted to $1.5 billion and the estimates for 2025 and 2026 amount to $1.2 billion and $1.0 billion, respectively.

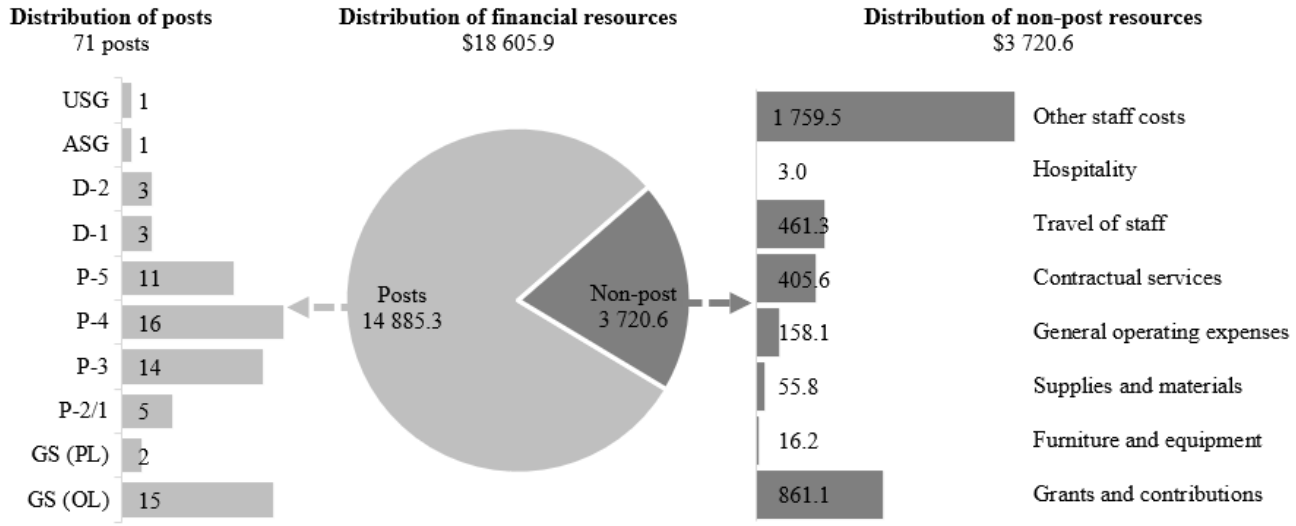
Figure 27.I.X
Distribution of proposed resources for 2026
(Number of posts/thousands of United States dollars)



Explanation of variances by factor, component and subprogramme

Overall resource changes

Other changes

27.I.70 As shown in table 27.I.16 (1), resource changes reflect a decrease of $29,700 as follows:

Programme support. The decrease of $29,700 under contractual services reflects the adjustment of standard information and communications technology standard rates for Headquarters personnel and non-field personnel outside of Headquarters for 2026.

Extrabudgetary resources

27.I.71 As reflected in tables 27.I.16 (2) and 27.I.17 (2), extrabudgetary resources (including in-kind contributions) amount to $365,460,300. The resources would complement regular budget resources and would be used mainly to provide for 2,226 posts (36 D-1, 100 P-5, 274 P-4, 319 P-3, 25 P-2, 687 National Professional Officer, 8 General Service (Principal level), 104 General Service (Other level) and 673 Local level) and related non-post resources to perform mainly the functions of coordination and delivery of humanitarian assistance.

27.I.72 The extrabudgetary resources under the present section are subject to the oversight of the Office for the Coordination of Humanitarian Affairs, which has delegated authority from the Secretary-General.

Executive direction and management

27.I.73 The executive direction and management component of the Office for the Coordination of Humanitarian Affairs comprises the Office of the Under-Secretary-General for Humanitarian Affairs and Emergency Relief Coordinator and the Office of the Assistant Secretary-General for Humanitarian Affairs and Deputy Emergency Relief Coordinator. The Office of the Under-Secretary-General oversees the Strategic Communication Branch, the Climate Team and the Internally Displaced Persons Unit. The Office of the Assistant Secretary-General oversees the Operations and Advocacy Division, the Coordination Division, the Information Management Branch, the Planning and Performance Branch, the Policy Branch, the Executive Office, the Regional, Field and Disaster Response Adviser Offices, the Gender Unit and the Financing and Partnerships Division.

27.I.74 The overall responsibilities of the executive direction and management component include the following:

(a) Provide overall direction, management and policy guidance to the offices in New York and Geneva and in the field, including leadership in the coordination of the overall response of the international community to disasters and humanitarian emergencies;

(b) Undertake humanitarian diplomacy with Governments of affected countries, including the facilitation of access to emergency areas for the rapid delivery of humanitarian assistance;

(c) Provide oversight of the humanitarian coordination leadership in the field, as well as management of the field operations;

(d) Lead on the humanitarian finances and resource mobilization functions, manage the emergency services on behalf of the United Nations system and coordinate with Member States, donors and partners;

(e) In the case of the Emergency Relief Coordinator, facilitate the work of the Inter-Agency Standing Committee on policy development and advocacy in the humanitarian sector and oversee the Working Group as chair;

(f) Act as the main adviser to the Secretary-General on humanitarian issues and cooperate closely with other United Nations offices in the planning and coordination of United Nations humanitarian assistance activities in crisis situations;

(g) Assist the Coordinator of the Executive Committee on Humanitarian Affairs in providing the overall direction, management and supervision of the offices in New York and Geneva, as well as in supporting Office for the Coordination of Humanitarian Affairs coordination in the field;

(h) Interact with Member States, intergovernmental organizations, non-governmental organizations and operational humanitarian agencies, as well as departments of the Secretariat whose responsibilities encompass peacekeeping, political and economic activities, to facilitate joint responses where applicable;

(i) Provide strategic advice on issues relating to internally displaced persons and engage with relevant partners to drive the implementation of the Secretary General’s action agenda on internal

displacement, including through membership in the Steering Group on Internal Displacement Solutions and co-chairing of the GP2.0 multi-stakeholder global platform on internal displacement;

(j) Manage and coordinate internal evaluations of the Office for the Coordination of Humanitarian Affairs and inter-agency evaluations, provide secretariat services and chair the Inter-agency Humanitarian Evaluation steering group and coordinate external oversight to ensure organization compliance with audits and evaluation recommendations;

(k) Lead the work of the Office for the Coordination of Humanitarian on gender equality and response to gender-based violence in humanitarian action, including capacity-building, technical guidance and the integration of gender perspectives throughout the humanitarian programme cycle;

(l) Promote a fair and equitable environment where all individuals are treated with dignity, through focused programmes for learning, staff growth and welfare;

(m) Provide guidance on and oversee the strategic planning and prioritization of activities of the offices at Headquarters and in the field, organization risk management, business continuity planning and performance monitoring.

27.I.75 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Office continues to integrate environmental management practices into its operations. As part of its environmental management system, the Office continues to develop an environment and climate action strategy, a policy and an information and analysis dashboard. Country-level initiatives include waste management processes that promote recycling, reduction in the use of single-use plastics and continuous guidance to countries on conducting environmental impact assessments in humanitarian action and integrating environmental and climate considerations into programming.

27.I.76 In 2026, the Office for the Coordination of Humanitarian Affairs will systematically measure and report on environmental performance through the implementation of its environmental management system. The Office will continue to map its programmatic and operational environmental impacts, work to reduce adverse environmental impacts and maintain climate neutrality through a variety of initiatives. Such initiatives include increasing its use of videoconference and remote meeting options, consistently reviewing its vehicle fleet to ensure that replacements are made only if required and moving to shared facilities when safe, practical and in line with the humanitarian principles, in order to reduce its environmental footprint.

27.I.77 Information on the timely submission of documentation and advance booking for air travel is reflected in table 27.I.19. Managers are asked to implement preventive and corrective measures. Compliance rates are monitored, and statistics and trends are distributed to managers on a quarterly basis. In 2026, the Office will continue to implement measures to improve the compliance rate for air tickets, including: (a) advance planning and nomination of travellers; (b) onboarding of staff planned in advance with contingencies in place (e.g. advance request for visas); and (c) undertaking communication to staff and managers to raise awareness of the requirement.

Table 27.I.19
Compliance rate
(Percentage)

Programme support

27.I.83 The programme support component comprises the Executive Office, the Human Resources Section, the Procurement, Asset Management and Logistics Section, the Legal and Travel Units and the Budget and Finance Section.

27.I.84 The main responsibilities of the programme support component include: (a) overseeing the financial, human resources, procurement of goods and services, and general administrative aspects of the Office for the Coordination of Humanitarian Affairs and providing guidance on administrative matters; (b) supporting senior management in formulating policies and instructions, including financial management, workforce planning and staff rostering; (c) coordinating departmental programme budgets and presentations to legislative bodies; (d) continuing to focus on workforce and succession planning, as well as career and staff development, in line with the human resources strategy and the staff strategy; (e) improving financial monitoring and projections of funding requirements for future budgets, managing and effectively utilizing resources, capturing and sharing field information and ensuring the accurate and timely reporting of financial transactions; and (f) focusing on enhancing the service orientation and client focus of its administrative support.

27.I.85 The proposed regular budget resources for 2026 amount to $1,849,500 and reflect a decrease of $29,700 compared with the approved budget for 2025. The proposed change is explained in paragraph 27.I.70. Additional details on the distribution of the proposed resources for 2026 are reflected in table 27.I.25 and figure 27.I.XVI.

II. United Nations Office for Disaster Risk Reduction

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

27.II.1 The United Nations Office for Disaster Risk Reduction is the focal point for the coordination of disaster reduction, ensuring synergies among the disaster reduction activities of the United Nations system and regional organizations and activities in socioeconomic and humanitarian fields. It provides a data-driven and people-centred approach to supporting Governments and stakeholders in identifying, reporting on and reducing existing and emerging disaster risks, with the aim of ensuring that no one is left behind in implementing the Sendai Framework for Disaster Risk Reduction 2015–2030. The mandate derives from the priorities established in General Assembly resolutions and decisions, including resolutions 42/169, 54/219, 56/195 and 77/164, as well as the Sendai Declaration and the Sendai Framework adopted by the Assembly in its resolution 69/283.

27.II.2 The General Assembly, in its resolution 69/283, tasked the Office with supporting the implementation, follow-up and review of the Sendai Framework. The Assembly, in its resolution 77/289, adopted the political declaration of the high-level meeting on the midterm review of the Sendai Framework for Disaster Risk Reduction 2015–2030, which reaffirmed the importance of effective implementation of the Sendai Framework. The Office's programme plan aligns with the outcomes of the midterm review of the implementation of the Sendai Framework. To implement its mandate, in line with its strategic framework, the Office supports regional, national and local implementation of the Sendai Framework, strengthens global monitoring and analysis of disaster risk, catalyses action for risk reduction and resilience by countries and stakeholders, and promotes effective risk communication, advocacy and knowledge management.

Programme of work

Objective

27.II.3 The objective, to which this programme contributes, is to substantially reduce disaster risk and losses in lives, livelihoods and health and in the economic, physical, social, cultural and environmental assets of persons, businesses, communities and countries.

Strategy and external factors for 2026

27.II.4 To contribute to the objective, the Office will:

(a) Co-lead the Early Warnings for All initiative, together with the World Meteorological Organization, and lead on the planning and implementation of the initiative's pillar 1 focusing on risk knowledge and management, in line with target (g) of the Sendai Framework and General Assembly resolution 77/289;

(b) Provide guidance to Member States and stakeholders on implementing the Sendai Framework and accelerating the implementation of disaster risk reduction action through the production and dissemination of knowledge resources and best practices and the provision of capacity development and assistance at the regional, national and local levels;

(c) Support Member States and other development stakeholders in strengthening the integration of climate change and disaster risk reduction into relevant strategies and policies across and

within sectors, including by delivering evidence-based advocacy initiatives with clear calls to action to invest in disaster risk reduction and climate change adaptation and raise public awareness on the importance of such initiatives;

(d) Provide support to Member States for reporting on the global targets of the Sendai Framework and for the related indicators of the Sustainable Development Goals using the Framework monitoring system;

(e) Advise Member States in identifying gaps in public spending on disaster risk reduction and ensuring that disaster risk reduction is mainstreamed into public budgeting, financial planning, expenditure, investment and procurement processes in all relevant sectors and at all levels of government, and that integrated national financing frameworks are risk-informed;

(f) Support Member States in strengthening disaster risk reduction policies and programmes in the least developed countries, landlocked developing countries, small island developing States and in humanitarian contexts, through the provision of focused assistance in overcoming the challenges, constraints and gaps that they continue to face, in line with agreed programmes of action;

(g) Work closely with Member States and stakeholders to follow up on General Assembly resolution 77/289 on the political declaration of the high-level meeting on the midterm review of the Sendai Framework for Disaster Risk Reduction 2015–2030, with a strengthened focus on the four priority areas identified by Member States, as well as on relevant commitments and decisions contained in the Pact for the Future (Assembly resolution 79/1);

(h) As co-host of the secretariat for the Santiago network for averting, minimizing and addressing loss and damage associated with the adverse effects of climate change, catalyse technical assistance for developing countries that are particularly vulnerable to the adverse effects of climate change, in line with General Assembly decision 78/546 and resolutions 78/152 and 78/153;

(i) Work with practitioners and experts around the world to strengthen awareness and understanding of existing and emerging disaster risks, including the impacts of climate change, biodiversity loss, environmental degradation and unplanned and rapid urbanization, as well as technological hazards and risks, and assist local and national governments and regional organizations in applying new risk information and analysis in their decision-making.

27.II.5 The above-mentioned work is expected to result in:

(a) Improved management and decision-making at the local, national and regional levels regarding current and future disaster risks through an evidence-based understanding of the multi-hazard risk landscape, enabling risk-informed policies, plans, regulatory frameworks and investment that align with the Sendai Framework and the 2030 Agenda for Sustainable Development;

(b) Increased accountability for and commitment to implementing the Sendai Framework;

(c) Multi-sector and inclusive disaster risk reduction interventions that address the needs of the most vulnerable, thereby contributing to leaving no one behind.

27.II.6 With regard to the external factors, the overall plan for 2026 is based on the following planning assumptions:

(a) Disasters will continue to increase in frequency and magnitude owing to, among other things, the adverse effects of climate change, necessitating the integration of disaster risk reduction, climate action and efforts to build resilience to reduce the impact of disasters;

(b) Socioeconomic disparities and political tensions have the potential to deepen vulnerabilities of people living in the most disaster-prone countries, necessitating policies, plans, regulatory frameworks and investment decisions based on an accessible and evidence-based understanding of risks;

(c) The risk of damage and losses from disasters will remain high for the least developed countries, landlocked developing countries and small island developing States, necessitating an increase in early warning coverage and support to adequately prepare for and respond to disasters.

27.II.7 With regard to cooperation with other entities at the global, regional, national and local levels, it is recognized in the Sendai Framework that, while States have the overall responsibility for reducing disaster risk, it is a shared responsibility between Governments and relevant stakeholders. Therefore, cooperation with stakeholders, including science and academia, the media, the private sector and civil society, will support an all-of-society approach to disaster risk reduction. The Office will support private sector coordination efforts with national and local governments and strengthening micro-, small and medium-sized enterprises' resilience to disasters. The Office will continue to work through its stakeholder engagement mechanism and other region-specific mechanisms to promote inclusive and coherent implementation of the Sendai Framework and risk-informed development that leaves no one behind. The Office will also emphasize cooperation at the local level by promoting disaster resilience-building in cities.

27.II.8 With regard to inter-agency coordination and liaison, as Chair of the Senior Leadership Group on Disaster Risk Reduction for Resilience and as co-lead of the Early Warnings for All initiative, the Office will align efforts and promote synergies within the United Nations system on interventions relating to disaster risk reduction and early warning systems, resulting in increased availability of people-centred, end-to-end multi-hazard early warning systems. At the technical level, the Office will strengthen coordination within the United Nations system by convening the United Nations Disaster Risk Reduction Focal Points' Group and leading the risk knowledge and management pillar of the Early Warnings for All executive action plan for the period 2023–2027. The Office will further contribute to the Climate Risk and Early Warning Systems initiative, a mechanism that funds the least developed countries and small island developing States for risk-informed early warning services, implemented jointly with the World Meteorological Organization and the World Bank.

27.II.9 The Office integrates a gender perspective into its operational activities, deliverables and results, as appropriate. In line with the Sendai Framework, the Office will work to promote the full, equal and effective participation and leadership of women in the design, management, resourcing and implementation of gender-sensitive disaster risk reduction policies, plans and programmes, and enable Governments to better incorporate a gender perspective into national risk reduction strategies, early warning systems, climate adaptation and resilience-building.

27.II.10 Noting the United Nations Disability Inclusion Strategy and recognizing that disasters and the consequent disruption to physical, social, economic and environmental networks and support systems disproportionately affect persons living with disabilities and their families, the Office will increase advocacy on disability-inclusive disaster risk reduction and ensure the participation of persons with disability stakeholder groups in processes that set the global and regional disaster risk reduction agendas, with the active involvement of its regional offices. The Office will support States Parties' efforts to implement the Convention on the Rights of Persons with Disabilities. Emphasis will be placed on supporting Member States in ensuring that persons living with disabilities and their needs are included in the implementation of the Sendai Framework and its expected results, goal and targets, including through the availability of disaggregated data.

Evaluation activities

27.II.11 An internal evaluation of the alignment of the Office's strategic goals with its ability to be catalytic in programme delivery through collaboration and partnerships is planned for 2026.

Programme performance in 2024

Enhanced risk communication capacity of the media

27.II.12 In the Sendai Framework, the media are called upon to take an active and inclusive role at the local, national, regional and global levels in contributing to the raising of public awareness and to disseminate accurate disaster risk, hazard and disaster information. In 2024, through the "Media saving lives" initiative, which was developed to enhance the role of media in disaster risk reduction and emergency response, the Office fostered greater collaboration between communities and official emergency communicators by expanding its global media capacity-building efforts to include national disaster management authorities for the first time. This expansion enabled the creation of stronger, more integrated communication networks. This collaboration enabled the issuance of early warning systems when necessary and facilitated effective responses to those warnings.

27.II.13 Progress towards the objective is presented in the performance measure below (see table 27.II.1).

Table 27.II.1
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
The Disaster Risk Reduction Media Hub was launched, enhancing media engagement and awareness around disaster risk reduction and climate change adaptation	The global media sector enhanced its capacity to raise awareness, guide preparedness and facilitate effective disaster response and recovery efforts	The inclusion of national disaster management authorities in disaster risk reduction training sessions resulted in the creation of more integrated communication networks and enhanced the capacity of media channels to strengthen preparedness and disseminate critical information in emergency situations

Planned results for 2026

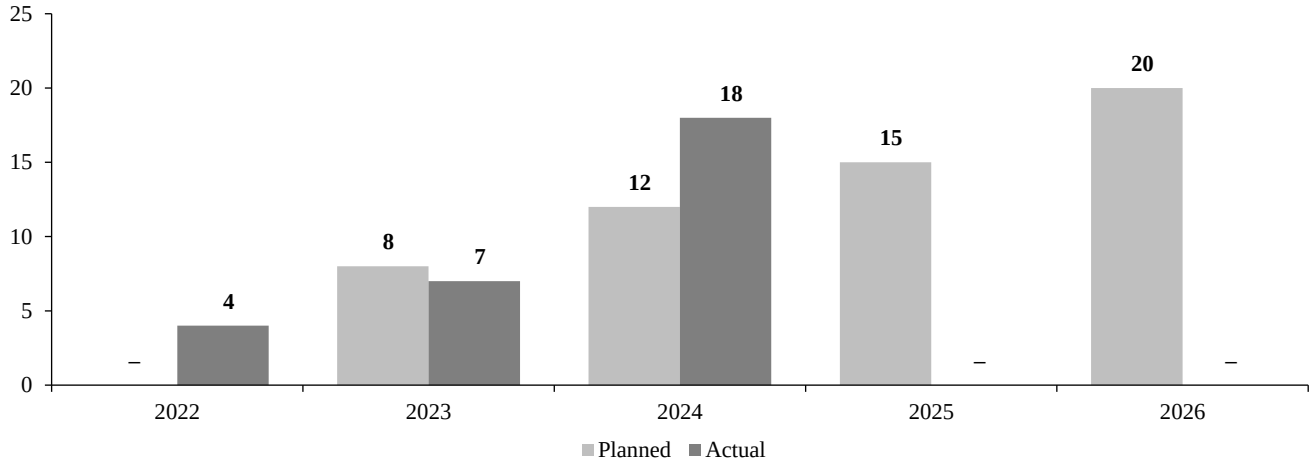
Result 1: accelerated achievement of the Sendai Framework with countries using relevant information and analysis to reduce risks and inform development decisions

Programme performance in 2024 and target for 2026

27.II.14 The programme's work contributed to 11 additional countries developing multi-hazard risk profiles, for a total of 18 countries, which exceeded the planned target of 12 countries.

27.II.15 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 27.II.I).

Figure 27.II.I
Performance measure: number of countries having developed multi-hazard risk profiles (cumulative)



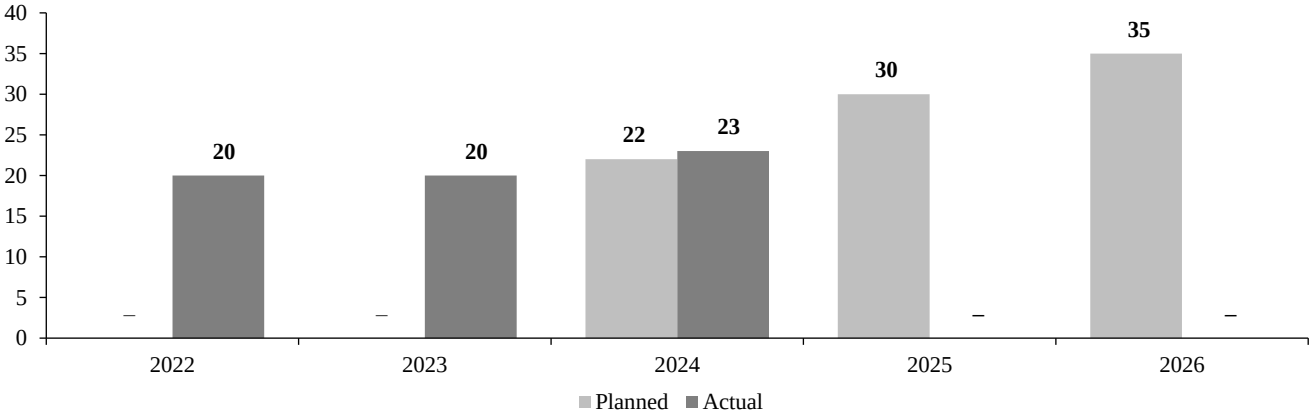
Result 2: strengthened inclusive multi-hazard early warning systems that reach the most vulnerable

Programme performance in 2024 and target for 2026

27.II.16 The programme's work contributed to three additional small island developing States, least developed countries or landlocked developing countries having accessible, understandable, usable and relevant disaster risk information and assessment available to the public at the national and local levels, for a total of 23 countries, which exceeded the planned target of 22 countries.

27.II.17 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 27.II.II).

Figure 27.II.II
Performance measure: number of small island developing States, least developed countries and landlocked developing countries that have accessible, understandable, usable and relevant disaster risk information and assessment available to the people at the national and local levels[a]



[a] Based on national reporting against target G5 of the Sendai Framework monitor.

Result 3: national strategies in place to finance disaster risk reduction

Proposed programme plan for 2026

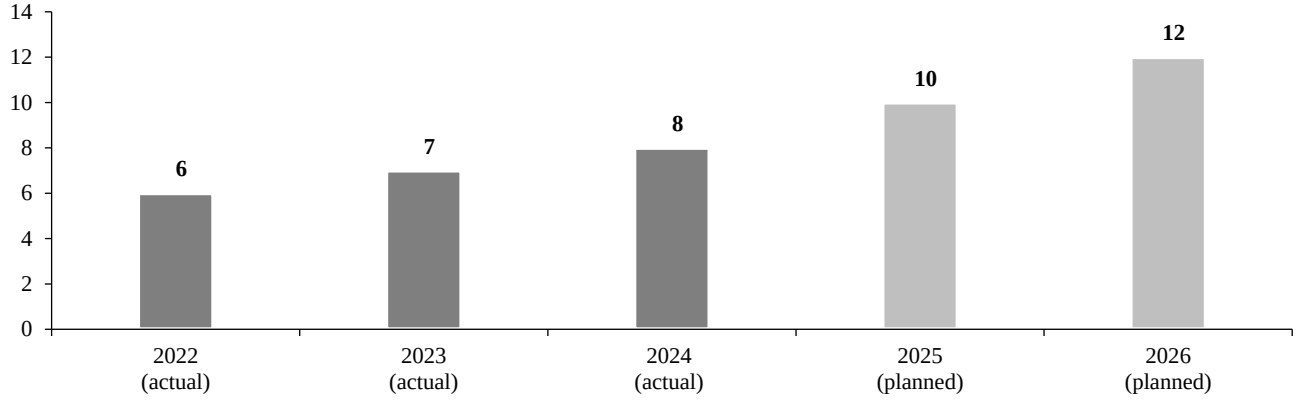
27.II.18 The General Assembly, in its resolution 77/289, adopted the political declaration of the high-level meeting on the midterm review of the Sendai Framework, in which Heads of State and Government, Ministers and High Representatives expressed deep concern that public and private investments to anticipate, plan for, reduce and prevent disaster risk remained insufficient and did not match the scale of existing and future risk. In the same resolution, the Assembly called upon States to invest in disaster risk reduction, including by developing comprehensive national and local disaster risk reduction financing strategies that leveraged the full spectrum of pre- and post-disaster financial resources from public, private, domestic and international sources.

Lessons learned and planned change

27.II.19 The lesson for the programme was the importance of supporting Member States in developing more comprehensive financing strategies for disaster risk reduction. In disaster-related financing strategies, disproportionate emphasis is often placed on post-disaster financing needs and instruments, while the financing of preventive measures is sometimes overlooked. In applying the lesson, the programme will support activities aimed at ensuring the integration of disaster risk reduction into future financing strategies by assisting countries in identifying policy reforms, institutional arrangements and approaches that serve to unlock financing for risk reduction and complement post-disaster financing instruments.

27.II.20 Expected progress towards the objective is presented in the performance measure below (see figure 27.II.III).

Figure 27.II.III
Performance measure: number of countries with disaster risk reduction financing strategies or integrated national financing frameworks with a disaster risk reduction lens (cumulative)



Legislative mandates

27.II.21 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

54/219	International Decade for Natural Disaster Reduction: successor arrangements	69/283	Sendai Framework for Disaster Risk Reduction 2015–2030
56/195; 64/200	International Strategy for Disaster Reduction	70/203	World Tsunami Awareness Day

72/218; 73/231; 74/218; 75/216; 76/204; 77/164; 78/152; 79/205	Disaster risk reduction
74/3	Political declaration of the high-level meeting to review progress made in addressing the priorities of small island developing States through the implementation of the SIDS Accelerated Modalities of Action (SAMOA) Pathway
74/4; 78/1	Political declaration of the high-level political forum on sustainable development convened under the auspices of the General Assembly
76/258	Doha Programme of Action for Least Developed Countries
77/29; 78/120; 79/139	International cooperation on humanitarian assistance in the field of natural disasters, from relief to development
77/289	Political declaration of the high-level meeting on the midterm review of the Sendai Framework for Disaster Risk Reduction 2015–2030
78/3	Political declaration of the General Assembly high-level Meeting on pandemic prevention, preparedness and response
78/153	Protection of global climate for present and future generations of humankind
78/317	The Antigua and Barbuda Agenda for Small Island Developing States: A Renewed Declaration for Resilient Prosperity
79/1	The Pact for the Future
79/128	Protection of persons in the event of disasters
79/233	Programme of Action for Landlocked Developing Countries for the Decade 2024–2034

Economic and Social Council resolutions and intergovernmental agreed conclusions

2018/14	Strategic Framework on Geospatial Information and Services for Disasters
2022/8	Report of the Committee for Development Policy on its twenty-fourth session
E/2022/27-E/CN.6/2022/16	Report of the Commission on the Status of Women on its sixty-sixth session, on the priority theme “Achieving gender equality and the empowerment of all women and girls in the context of climate change, environmental and disaster risk reduction policies and programmes”
E/FFDF/2020/3; E/FFDF/2021/3; E/FFDF/2022/3; E/FFDF/2023/3; E/HLS/2024/1	Follow-up and review of the financing for development outcomes and the means of implementation of the 2030 Agenda for Sustainable Development
E/HLS/2022/1	Ministerial declaration of the high-level segment of the 2022 session of the Economic and Social Council and the 2022 high-level political forum on sustainable development, convened under the auspices of the Council, on the theme “Building back better from the coronavirus disease (COVID-19) while advancing the full implementation of the 2030 Agenda for Sustainable Development”
E/HLS/2024/1	Ministerial declaration of the high-level segment of the 2024 session of the Economic and Social Council and the 2024 high-level political forum on sustainable development convened under the auspices of the Council on the theme “Reinforcing the 2030 Agenda for Sustainable Development and eradicating poverty in times of multiple crises: the effective delivery of sustainable, resilient and innovative solutions”

Deliverables

27.II.22 Table 27.II.2 lists all deliverables of the programme.

Table 27.II.2
Deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies

Seminars, workshops and training events (number of days)	**330**	**338**	**150**	**150**
5. Training events on disaster risk reduction planning and implementation and monitoring of the Sendai Framework for regional, national and local capacity development	330	338	150	150
Publications (number of publications)	**3**	**3**	**5**	**3**
6. Global Assessment Report on Disaster Risk Reduction and Global Assessment Report special reports	1	1	1	1
7. United Nations Office for Disaster Risk Reduction annual report	1	1	1	1
8. United Nations Office for Disaster Risk Reduction strategic framework for the period 2026–2030 and related work programme	–	–	2	–
9. United Nations Plan of Action on Disaster Risk Reduction for Resilience: Towards a Risk-informed and Integrated Approach to Sustainable Development (progress report)	1	1	1	1
Technical materials (number of materials)	**23**	**26**	**23**	**23**
10. On the monitoring and implementation of the Sendai Framework	15	15	15	15
11. On the application of risk knowledge	6	6	7	7
12. Technical contributions to outcome documents of the regional and global platforms	2	5	1	1

C. Substantive deliverables

Consultation, advice and advocacy: advocacy through high-level engagement of key audiences and decision makers; advice and support on risk information and analysis to 100 countries; advisory services for risk governance capacities of 18 regional and subregional intergovernmental organizations; and advocacy with and technical advice to Member States to integrate disaster risk reduction into intergovernmental deliberations and policy decisions at the General Assembly and the Economic and Social Council, including the high-level political forum for sustainable development, as well as the Rio Conventions on biological diversity, climate change and desertification.

Databases and substantive digital materials: the Sendai Framework monitor, used by 175 Member States for monitoring and reporting on progress against Framework targets and related Sustainable Development Goal targets and indicators; the Sendai Framework voluntary commitments online platform, with more than 175 voluntary commitments; and disaster loss databases complying with the Framework requirements, covering 120 countries and territories.

D. Communication deliverables

Outreach programmes, special events and informative materials: high-level global and regional meetings on disaster risk reduction; World Tsunami Awareness Day events; International Day for Disaster Reduction events; newsletters and notes verbales on Sendai Framework monitoring; communications campaigns on inclusive disaster risk reduction and the Early Warnings for All initiative; and increased capacity of media, institutional actors and communities to communicate about risk effectively.

External and media relations: press releases, op-eds and press coverage; and media briefings on community risk and reporting on disaster risk reduction.

Digital platforms and multimedia content: PreventionWeb, the online knowledge platform for disaster risk reduction; and web stories, posts and videos for social media.

B. Proposed post and non-post resource requirements for 2026

Overview

27.II.23 The proposed regular budget resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 27.II.3 to 27.II.5.

Table 27.II.3
Overall: evolution of financial resources by object of expenditure

27.II.24 Additional details on the distribution of the proposed resources for 2026 are reflected in tables 27.II.6 to 27.II.8 and figure 27.II.IV.

27.II.25 As shown in tables 27.II.6 (1) and 27.II.7 (1), the overall resources proposed for 2026 amount to $1,642,900, reflecting no change compared with the approved budget for 2025. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Extrabudgetary resources

27.II.26 As reflected in tables 27.II.6 (2) and 27.II.7 (2), extrabudgetary resources amount to $66,441,400. The resources would complement regular budget resources and would be used mainly to provide for 125 posts (1 Assistant Secretary-General, 1 D-2, 4 D-1, 12 P-5, 29 P-4, 34 P-3, 2 P-2, 9 National Professional Officer, 2 General Service (Principal level) and 31 General Service (Other level)) to perform mainly the functions of supporting Governments and stakeholders in identifying, reporting on and reducing existing and emerging disaster risks. In addition, non-post resources would be used to support the implementation, follow-up and review of the Sendai Framework for Disaster Risk Reduction 2015–2030 at the global, regional, national and local levels.

27.II.27 The extrabudgetary resources under the present section are subject to the oversight of the Special Representative of the Secretary-General for Disaster Risk Reduction, who has delegated authority from the Secretary-General.

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

28.1 The Department of Global Communications is responsible for communicating to the world the ideals and work of the United Nations; interacting and partnering with diverse audiences; and building support for the purposes and principles enshrined in the Charter of the United Nations. The mandate derives from the priorities established in relevant General Assembly resolutions and decisions, including resolutions 13 (I), 78/330 on multilingualism and 79/93 A and B on questions relating to information. The Department will leverage the power of communications to tell the United Nations story to global audiences in multiple languages and platforms in order to mobilize action in support of the United Nations agenda.

Strategy and external factors for 2026

28.2 The overall programme plan for 2026 reflects the Department's strategy to strengthen support for the work and purposes of the United Nations by engaging with audiences and encouraging them to act, through impactful storytelling and a focus on solutions. The Department takes the following core approaches in its work: strategic planning by identifying communications goals and target audiences; maintaining close working relationships with stakeholders, offices of the Secretariat, entities of the United Nations system and other key partners; enhancing audience reach through multilingualism and the parity of all six official languages in the preparation of news and communications products, including content on United Nations websites and social media accounts; targeted use of social and digital media to deliver information directly and instantaneously to key audiences; and measuring the impact of campaigns in order to improve the Department's work.

28.3 The Department, through its subprogrammes, delivers strategic communications campaigns to engage and inspire target audiences. It works through a global network of United Nations information centres, integrated with United Nations resident coordinator offices, to reach local audiences and provide content for global platforms. It produces accurate, objective and balanced multilingual news and communications products that convey authoritative information and solutions-based stories. It advocates on priority issues with Member States, civil society, academia, the media, young people and other partners. The Department contributes to the observance of international days and celebrations established by the General Assembly.

28.4 The Department also provides services to delegates and staff, including through the Dag Hammarskjöld Library, and promotes knowledge-sharing and internal communication by way of iSeek, the United Nations intranet.

28.5 The Department continues to place information integrity at the centre of its work and is committed to increasing access to relevant, reliable and accurate information and knowledge. In an age when misinformation, disinformation, hate speech and content inciting harm are disseminated, the Department works towards advancing the United Nations Global Principles for Information Integrity and relevant commitments in the Pact for the Future and the Global Digital Compact throughout its work.

28.6 The Department will lead and coordinate crisis communications by strengthening the United Nations response through aligned messaging and mitigating risk by developing guidance on crisis communications.

28.7 With regard to cooperation with other entities at the global, regional, national and local levels, the Department will leverage partnerships with an array of partners, including from civil society,

academia, the media and the private sector, to enhance its ability to target and deliver information to an even wider community, with a focus on young people around the world.

28.8 With regard to inter-agency coordination and liaison, the Department will strengthen the coordination of communications across the United Nations system, including through United Nations communications groups at the country and regional levels. Coordination will also be strengthened through the integration of United Nations information centres with resident coordinator offices and by streamlining processes and communication. The Department will continue its work with the Development Coordination Office to provide strategic communications support to resident coordinators in countries without an information centre presence to ensure that information is widely disseminated.

28.9 With regard to the external factors, the overall plan for 2026 is based on the following planning assumptions:

(a) All stakeholders and partners fulfil their responsibilities and obligations under service agreements and partnerships;

(b) Access by target audiences to programmes, products and services is not limited by communications technology, security or infrastructure conditions.

28.10 The Department integrates a gender perspective in its operational activities, deliverables and results, as appropriate. For example, the Department will promote the balanced presence of women and men in all its products, campaigns, events and activities.

28.11 In line with the United Nations Disability Inclusion Strategy, the Department will use its network of focal points to help to develop a common and coordinated approach to making United Nations services and activities accessible for persons with disabilities. The focal points will provide communications support to the Strategy, including by setting accessibility standards for United Nations websites.

Legislative mandates

28.12 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

13 (I)	Organization of the Secretariat
168 (II)	United Nations Day
423 (V)	Human Rights Day
32/40 B	Question of Palestine
35/201	Annual Reham Al-Farra Memorial Journalists' Fellowship Programme
36/67	International Year of Peace and International Day of Peace
54/134	International Day for the Elimination of Violence against Women
57/129	International Day of United Nations Peacekeepers
60/7	Holocaust remembrance
60/225	Assistance to survivors of the 1994 genocide in Rwanda, particularly orphans, widows and victims of sexual violence
62/122	Permanent memorial to and remembrance of the victims of slavery and the transatlantic slave trade
64/13	Nelson Mandela International Day
77/24	Special information programme on the question of Palestine of the Department of Global Communications of the Secretariat
78/182	Follow-up to the Fourth World Conference on Women and full implementation of the Beijing Declaration and Platform for Action and the outcome of the twenty-third special session of the General Assembly
78/234	A global call for concrete action for the elimination of racism, racial discrimination, xenophobia and related intolerance and the comprehensive implementation of and follow-up to the Durban Declaration and Programme of Action
78/277	Follow-up to the Declaration and Programme of Action on a Culture of Peace
78/282	International Day of Reflection and Commemoration of the 1995 Genocide in Srebrenica

78/330	Multilingualism
79/1	The Pact for the Future
79/69	United Nations Disarmament Information Programme
79/93 A–B	Questions relating to information
79/113	Dissemination of information on decolonization
79/115	Implementation of the Declaration on the Granting of Independence to Colonial Countries and Peoples: eradicating colonialism in all its forms and manifestations
79/218	Follow-up to the Fifth United Nations Conference on the Least Developed Countries
79/219	Follow-up to the Third United Nations Conference on Landlocked Developing Countries

Deliverables

28.13 Table 28.1 lists all cross-cutting deliverables of the programme.

Table 28.1
Cross-cutting deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	**3**	**3**	**3**	**3**
Meetings of:				
1. The Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
2. The Committee for Programme and Coordination	1	1	1	1
3. The Fifth Committee	1	1	1	1

Evaluation activities

28.14 An Office of Internal Oversight Services evaluation of the contribution of strategic communications to fostering public trust in peacekeeping operations was completed in 2024 and has guided the proposed programme plan for 2026.

28.15 In response to the results of the evaluation referenced above, the Department will strengthen ongoing efforts to support United Nations peacekeeping operations and to foster public trust through strategic communications, including through enhanced guidance and templates for communication strategies for peacekeeping.

28.16 An independent review of the Department's work, as called for in General Assembly resolutions 79/257 and 78/330, will begin in 2025 and continue in 2026.

Programme of work

Subprogramme 1
Campaigns and country operations services

Objective

28.17 The objective, to which this subprogramme contributes, is to mobilize audiences and strengthen support for the work, principles and purposes of the United Nations.

Strategy

28.18 To contribute to the objective, the subprogramme will:

(a) Deliver communications campaigns related to United Nations priorities, including sustainable development, climate change, peace and security and human rights, directed by the global communications strategy for the United Nations and facilitated through a variety of communications tools, including audience-targeted messaging, issue-focused content and inspiring stories;

(b) Promote these priorities through the United Nations information centres by developing multimedia content that supports targeted and localized messages and communications campaigns;

(c) Provide strategic and crisis communications guidance to resident coordinator offices and United Nations country teams in their relevant regions;

(d) Devise strategic guidance on countering misinformation, disinformation and information manipulation and develop and promote content to counter false narratives and build confidence among global audiences.

28.19 The above-mentioned work is expected to result in:

(a) Increased knowledge and engagement of target audiences around the globe, and further action in support of United Nations priorities;

(b) Global reach of communications campaigns available in the languages and on the platforms used by audiences, thus ensuring greater impact.

Programme performance in 2024

Strengthened public engagement on issues related to climate change

28.20 In its resolution 79/93 B, the General Assembly reaffirmed the crucial role of the Department in addressing the spread of misinformation, disinformation and information manipulation. In 2024, the subprogramme continued to use its Verified initiative – originally launched during the coronavirus disease (COVID-19) pandemic – to build information literacy on issues related to climate change. The Verified communications model employed a three-pillar approach to reach audiences: trusted messengers engaged audiences at the grass-roots level; global creative campaigns reached target audiences en masse; and convenings encouraged people to focus on expert insights and solutions for global cooperation. For the first pillar, the subprogramme enlisted climate experts, scientists and Indigenous leaders in Brazil, Spain and the United Arab Emirates as trusted messengers. Combined, these 43 messengers created over 220 videos to combat misinformation, disinformation and information manipulation on social media, reaching 600 million people. For the second pillar, a campaign entitled “The Future Thanks You”, launched in April 2024, appealed for a transition to renewable sources of energy. Through a dedicated microsite, over 30,000 people around the world submitted responses to questions about the future they envisioned. For the third pillar, a round table

on the theme “Winning the climate story” brought together scientists, media practitioners and campaigners to discuss communications for driving climate action. Through this multifaceted approach, the subprogramme enabled engagement of the global public on factual and evidence-based information related to climate change.

28.21 Progress towards the objective is presented in the performance measure below (see table 28.2).

Table 28.2
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	600 million people accessed reliable content on climate change from trusted messengers

Planned results for 2026

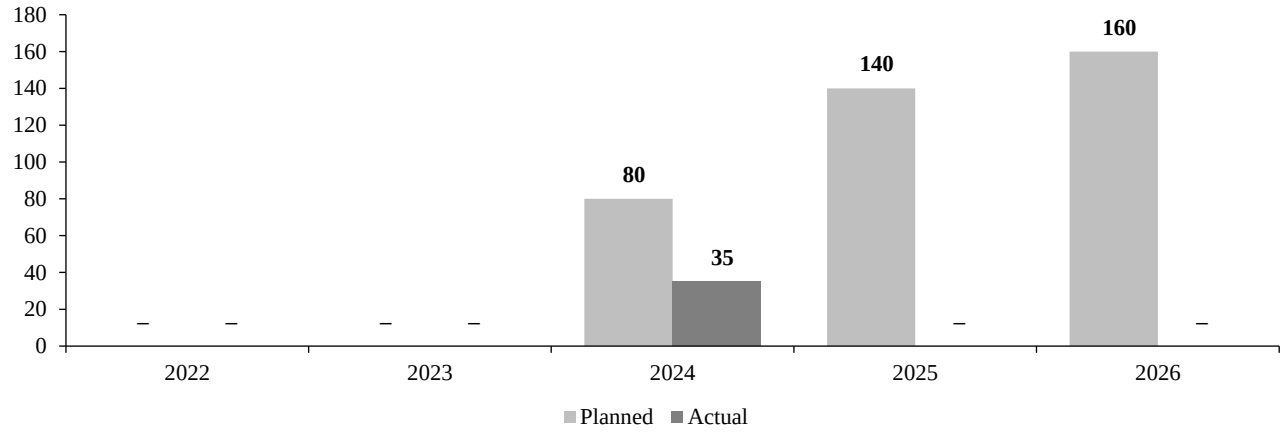
Result 1: increased public engagement with the global peace and security agenda

Programme performance in 2024 and target for 2026

28.22 The subprogramme’s work contributed to 35,000 views on the new United Nations website on peace and security issues, which did not meet the planned target of 80,000 views The target was not met due to delays in the web migration process and subsequent launch of the website in August 2024.

28.23 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 28.I).

Figure 28.I
Performance measure: views of United Nations website on peace and security issues
(Thousands)



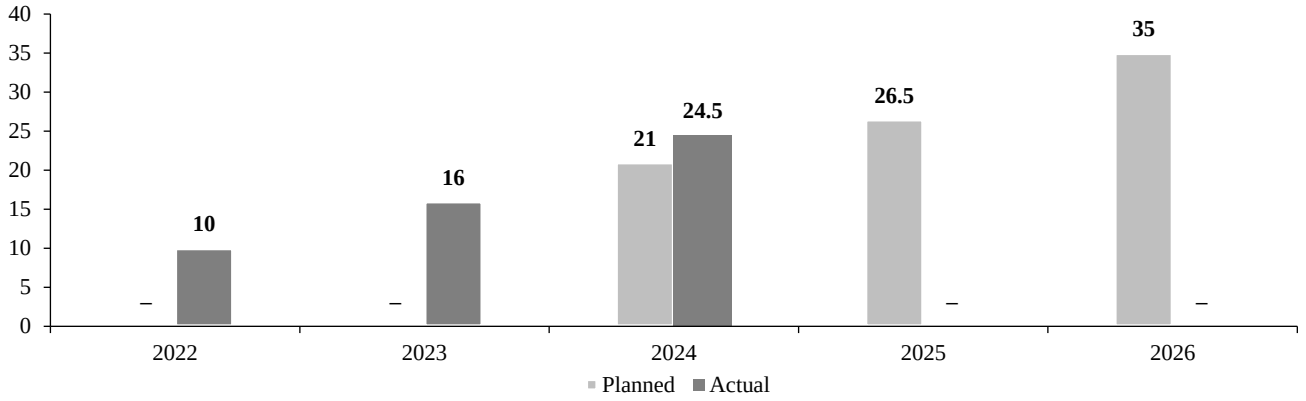
Result 2: increased action on the 2030 Agenda for Sustainable Development

Programme performance in 2024 and target for 2026

28.24 The subprogramme’s work contributed to an additional 8.5 million individual actions logged towards achieving the Sustainable Development Goals for a cumulative total of 24.5 million actions logged, which exceeded the planned target of 21 million actions.

28.25 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 28.II).

Figure 28.II
Performance measure: number of individual actions logged through the ActNow campaign (cumulative)
(Millions)



Result 3: greater public understanding of and engagement on critical issues related to the Sustainable Development Goals

Proposed programme plan for 2026

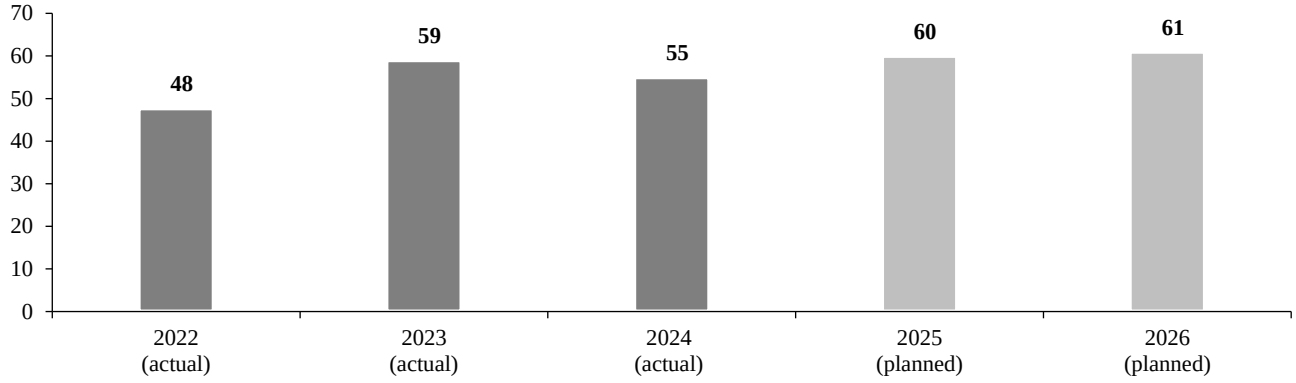
28.26 In the lead-up to the Summit of the Future, the subprogramme developed new and engaging content to explain the issues debated for inclusion in the Pact for the Future, the Global Digital Compact and the Declaration on Future Generations. All assets were made available to United Nations information centres and country offices in adaptable formats to offer content in additional languages. Pro bono advertising on billboards, bus stops, trains and other public spaces ran in 14 countries. As a result, global online engagement increased (6 million engagements and 8.6 million video views), peaking at the Summit itself.

Lessons learned and planned change

28.27 The lesson for the subprogramme was that clear, accessible content that explains key issues and offers actionable steps effectively captures audience interest and drives increasing engagement. In applying the lesson, the subprogramme will leverage the Sustainable Development Goals and Climate Action websites to expand explanatory content that is action-oriented in all six official languages. This approach will help to contribute to increasing public understanding and global participation in actions to advance the Goals.

28.28 Expected progress towards the objective is presented in the performance measure below (see figure 28.III).

Figure 28.III
Performance measure: number of views of the United Nations Sustainable Development Goals and Climate Action websites (annual)
(Millions)



Deliverables

28.29 Table 28.3 lists all deliverables of the subprogramme.

Table 28.3
Subprogramme 1: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**1**	**1**	**1**	**1**
1. Report for the General Assembly on the dissemination of information on decolonization	1	1	1	1
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	**26**	**25**	**26**	**26**
2. Training programme for Palestinian broadcasters and journalists	24	24	24	24
3. International Media Seminar on Peace in the Middle East	2	1	2	2
D. Communication deliverables				
Outreach programmes, special events and information materials: communications campaigns and strategic outreach events and programmes through the Department's field offices reaching local audiences, including lectures, exhibits and the organization of more than 100 Model United Nations conferences on priority issues or special observances of the United Nations, with specific target audiences (e.g. civil society, young people, academia, Governments and the private sector) and working in some 124 languages.				
External and media relations: press conferences, briefings and panel discussions on United Nations priorities, activities, events, publications, reports and outcomes of negotiations or other United Nations activities; media outreach, including media interviews and/or placement of opinion articles; strategic partnerships with education institutions, the media, civil society, the private sector, the creative community and other partners; and radio and television programmes.				
Digital platforms and multimedia content: flagship and other social media accounts, campaigns and multilingual websites managed by United Nations information centres.				

Subprogramme 2
News services

Objective

28.30 The objective, to which this subprogramme contributes, is to mobilize audiences and strengthen support for the work, principles and purposes of the United Nations.

Strategy

28.31 To contribute to the objective, the subprogramme will:

(a) Provide the timely delivery of accurate, impartial, comprehensive, balanced, coherent and objective news and information;

(b) Produce customized news and information materials (textual, audiovisual and photographic);

(c) Provide services to the media and other consumers, including through the use of the newest web-based and mobile distribution platforms, with an overall emphasis on multilingualism from the planning stage.

28.32 The above-mentioned work is expected to result in increased public awareness of and engagement with the United Nations through access to more user-friendly and diversified content and a broader range of options available to audiences, from traditional to social media.

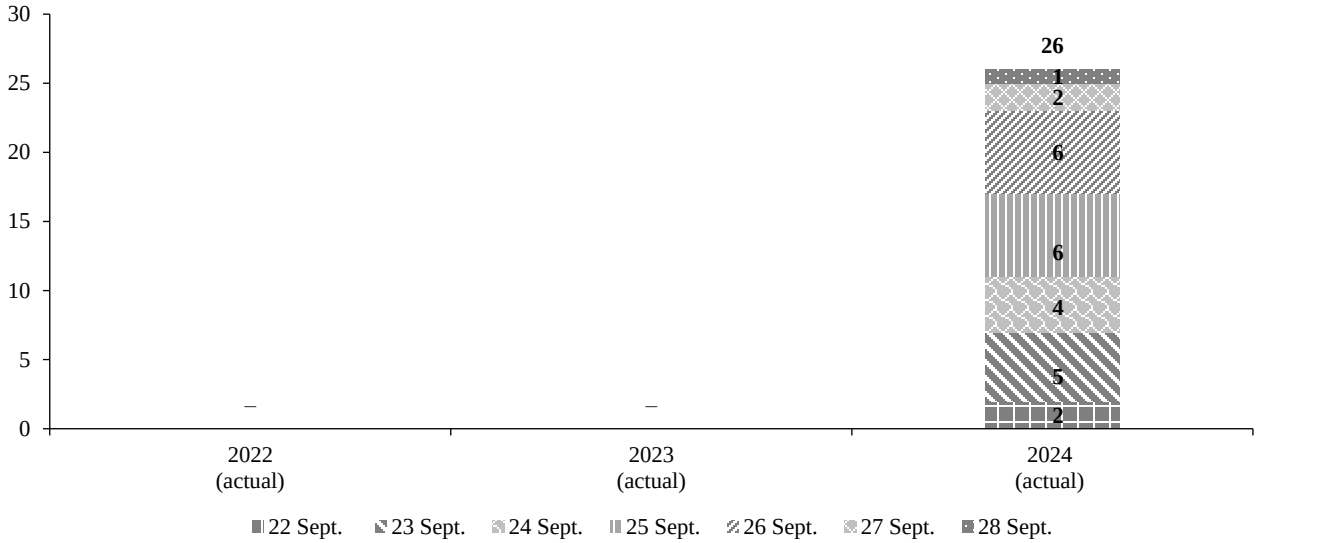
Programme performance in 2024

Enhanced real-time coverage of United Nations events for global audiences

28.33 The subprogramme, through United Nations Television and Video, broadcasts live events at United Nations Headquarters in New York to more than 70 international television networks, as well as to broadcast unions with regional client networks and international news agencies. Whenever viewers anywhere in the world see news about the Security Council or the General Assembly with multi-camera coverage, the footage comes from United Nations Television and Video. During the high-level segment of the seventy-ninth session of the General Assembly, United Nations Television and Video directed and transmitted coverage and managed access for broadcasters at the Sustainable Development Goals media zone. It also introduced, for the first time, live camera media points for broadcasters and Member States in two different locations at United Nations Headquarters. By providing access to live broadcast points, the subprogramme offered broadcasters the chance to set up live two-way interviews from United Nations Headquarters in real time, providing audiences of participating broadcasters with a unique bespoke live interview experience capturing the essence of proceedings as events unfolded. These live points enabled Heads of State and Government to address national broadcasters and allowed dignitaries and senior officials to engage with the press and broadcasters globally in live interviews. As the week progressed, broadcasters were eager to make use of the live point service offered by the subprogramme: bookings for the service increased, and positive feedback was received from all broadcasters who used the service. This growing demand allowed the subprogramme to extend its reach to global audiences that it would not otherwise have been able to engage.

28.34 Progress towards the objective is presented in the performance measure below (see figure 28.IV).

Figure 28.IV
Performance measure: number of live interviews by broadcasters during the high-level segment of the seventy-ninth session of the General Assembly



Planned results for 2026

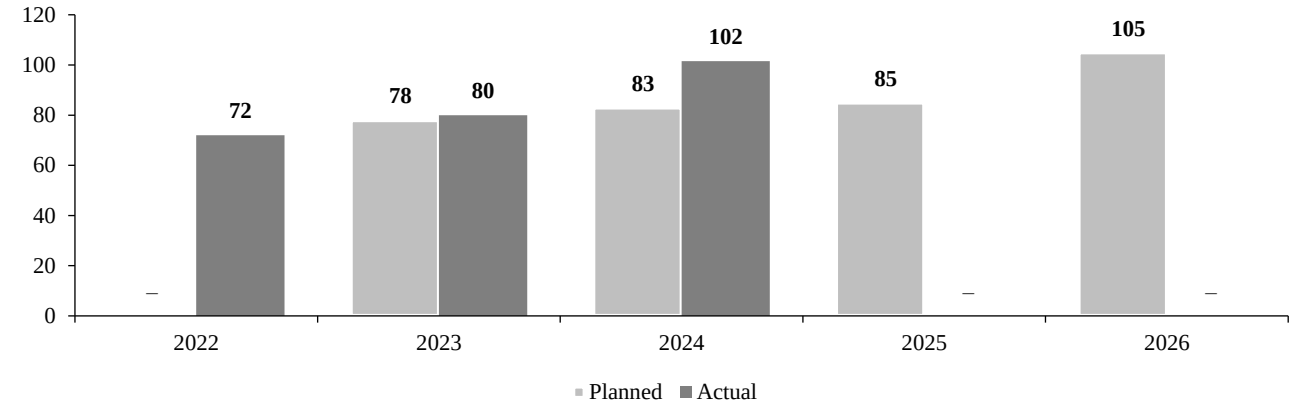
Result 1: increased global audience for the United Nations Web TV platform in the six official languages

Programme performance in 2024 and target for 2026

28.35 The subprogramme's work contributed to 101.5 million minutes of watch time on the United Nations Web TV platform, which exceeded the planned target of 83 million minutes.

28.36 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 28.V).

Figure 28.V
Performance measure: watch time on United Nations Web TV platform (annual)
(Millions of minutes)



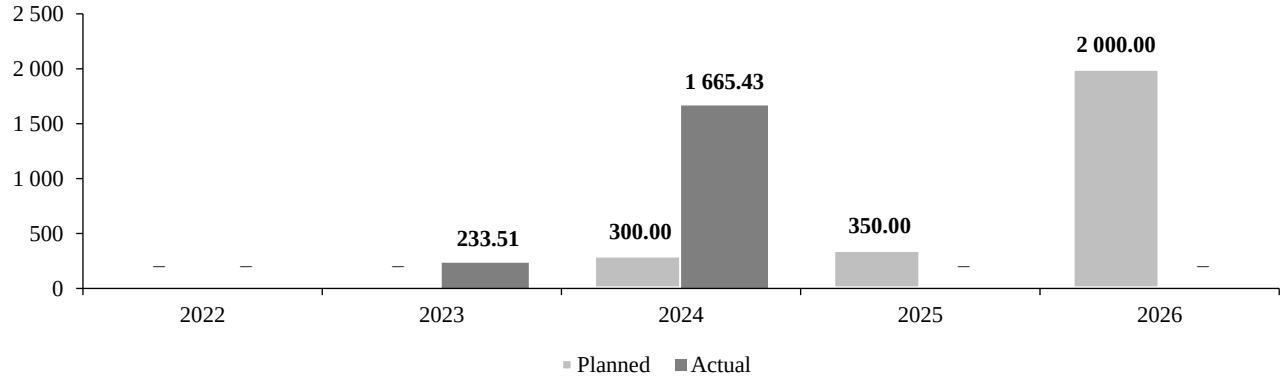
Result 2: deeper engagement of audiences through live-blogging tools and formats

Programme performance in 2024 and target for 2026

28.37 The subprogramme's work contributed to 1,665 hours and 43 minutes of audience engagement time on live blogs, which exceeded the planned target of 300 hours.

28.38 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 28.VI).

Figure 28.VI
Performance measure: audience engagement time on live blogs (annual)
(Total time spent on page: hours.minutes)



Result 3: increased audience engagement and support for United Nations international observances

Proposed programme plan for 2026

28.39 The United Nations observes designated days, weeks and years, each with a theme, or topic that is linked to the main fields of action of the United Nations. By creating special observances, the United Nations promotes international awareness and action on various issues. The subprogramme produces and maintains a dedicated website for each General Assembly-mandated international observance in the six official languages of the United Nations.

Lessons learned and planned change

28.40 The lesson for the subprogramme was that the United Nations international observances serve as powerful advocacy tools, as demonstrated by the growing interest from audiences in the subprogramme's dedicated websites for each international observance. In applying the lesson, the subprogramme will strengthen and enrich the content within each website to increase measurable engagement and support for the various themes and topics covered under United Nations international observances.

28.41 Expected progress towards the objective is presented in the performance measure below (see figure 28.VII).

Figure 28.VII
Performance measure: views of websites for international observances

Note: Data for 2023 are from 1 May to 31 December 2023. Data prior to 1 May 2023 existed in an old version of the web analytics service used and are no longer retrievable.

Deliverables

28.42 Table 28.4 lists all deliverables of the subprogramme.

Table 28.4
Subprogramme 2: deliverables for 2026, by category and subcategory

Category and subcategory
D. Communication deliverables
External and media relations: accreditation of and services to 4,800 members of the media (including 1,000 long-term grounds passes, 2,000 temporary passes and 1,800 requests for media passes from Member States); covering United Nations meetings and issuing press releases in the six official languages; coverage of intergovernmental meetings; online publication and distribution of speeches and statements of the Secretary-General and the Deputy Secretary-General and transcripts of press encounters of the Secretary-General; and photo coverage of meetings of key intergovernmental bodies and activities of the Secretary-General, the Deputy Secretary-General and the President of the General Assembly.
Digital platforms and multimedia content: daily multimedia content – audio, video and text – in the six official languages and four non-official languages (Hindi, Kiswahili, Portuguese and Urdu) disseminated through multiple platforms and channels, including online and on social media, and through partnerships with external media organizations; the core United Nations website (including the home page), 217 United Nations observances and major global campaigns in the six official languages; assistance to United Nations entities in the multilingual aspects of their websites (55 websites); live television coverage, including live streams, and the posting of on-demand webcasts of intergovernmental meetings and other newsworthy events taking place at Headquarters, including the Sustainable Development Goals Studio; and provision of audiovisual and photo library services to delegates, media outlets and others.

Subprogramme 3
Outreach and knowledge services

Objective

28.43 The objective, to which this subprogramme contributes, is to mobilize audiences and strengthen support for the work, principles and purposes of the United Nations.

Strategy

28.44 To contribute to the objective, the subprogramme will:

(a) Engage in advocacy with a broad and international range of academic institutions, students and educators, the creative community and civil society;

(b) Organize briefing programmes, special events, guided tours and interactive workshops, and engage with organizers of Model United Nations conferences;

(c) Organize outreach and education programmes on the Holocaust and the transatlantic slave trade and create publications, research guides and exhibits on the same priorities, with a special focus on young people;

(d) Develop communications materials, visual identities and branding in support of United Nations priorities;

(e) Develop and maintain strategic partnerships with the entertainment, advertising and publishing industries, major sports and international events and institutions of higher education and research, targeting young people in particular;

(f) Work with partners to develop multilingual and effective educational resources and programmes, campaigns, projects and events to inspire and encourage action for the Sustainable Development Goals;

(g) Facilitate knowledge-sharing and the preservation of United Nations information resources for internal and external audiences.

28.45 The above-mentioned work is expected to result in:

(a) A better understanding of the principles and purposes of the United Nations and the mobilization of young people and student participation in local, regional or national political, non-governmental and intergovernmental processes;

(b) Increased mobilization of youth and student activity to advance the achievement of the Goals and foster a new generation of leaders committed to the principles and values of the United Nations;

(c) Increased access to United Nations documentation and information by Member States, United Nations staff around the world, research institutions, young people, schools and the general public for improved engagement, awareness and decision-making.

Programme performance in 2024

Increased civil society engagement in support of the Summit of the Future and beyond

28.46 The subprogramme organized the 2024 United Nations Civil Society Conference, which was held on 9 and 10 May in Nairobi, in support of the Summit of the Future. The Conference was a milestone event on the road to the high-level Summit, which took place in New York on 22 and 23 September 2024. The Conference was an inclusive platform for dialogue that enabled meaningful engagement for civil society and other stakeholders with United Nations leadership, Governments, the co-facilitators of the Pact for the Future, the Global Digital Compact and the Declaration on Future Generations. With the participation of more than 1,400 organizations and 2,600 individuals representing 115 nationalities, the Conference showcased civil society's contributions towards multilateral processes. Moreover, the subprogramme's outreach with civil society contributed to the formation of 20 ImPACT Coalitions. These are civil society-generated coalitions, with varied stakeholders from across academia, the private sector, Member States and the United Nations collaborating to support the implementation of the Pact for the Future.

28.47 Progress towards the objective is presented in the performance measure below (see table 28.5).

Table 28.5
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	20 ImPACT Coalitions established by civil society organizations to support implementation of the Pact for the Future, including in the areas of artificial intelligence, children's rights, youth and intergenerational engagement, financing for development and reducing the digital divide, among others

Planned results for 2026

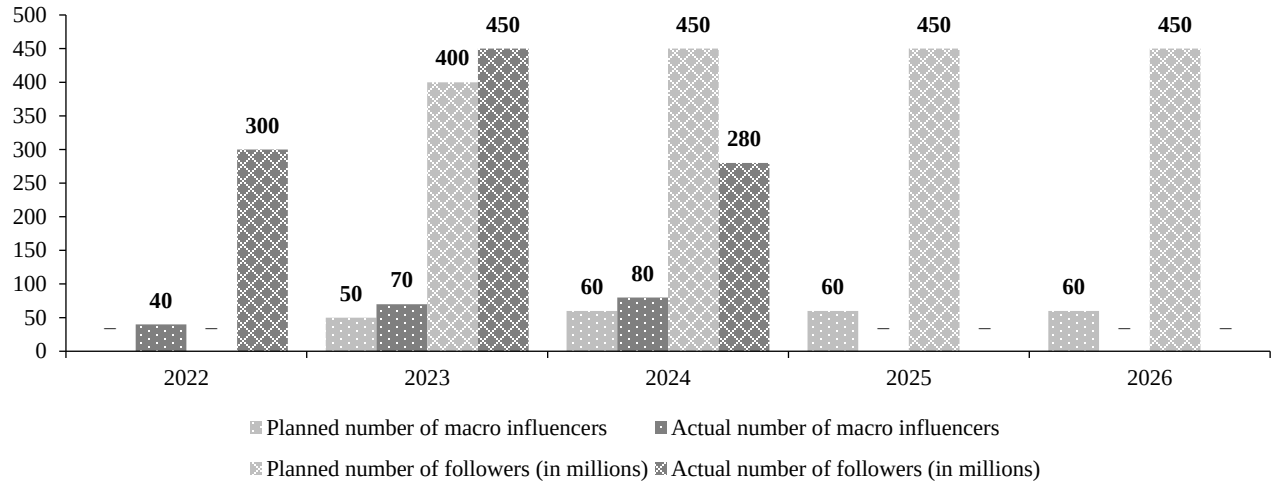
Result 1: increased communication and advocacy regarding the Sustainable Development Goals

Programme performance in 2024 and target for 2026

28.48 The subprogramme's work contributed to the participation of 80 macro influencers with a combined reach of 280 million followers in communications and advocacy efforts on the Sustainable Development Goals, which exceeded the planned target of 60 macro influencers but did not meet the planned target of 450 million followers. The target was not met due to a number of factors, including shifts in influencer selection, with a greater focus on engagement quality rather than sheer follower count, as well as reduced posting of content by some influencers with higher numbers of followers.

28.49 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 28.VIII).

Figure 28.VIII
Performance measure: number of macro influencers engaged and combined number of followers (annual)



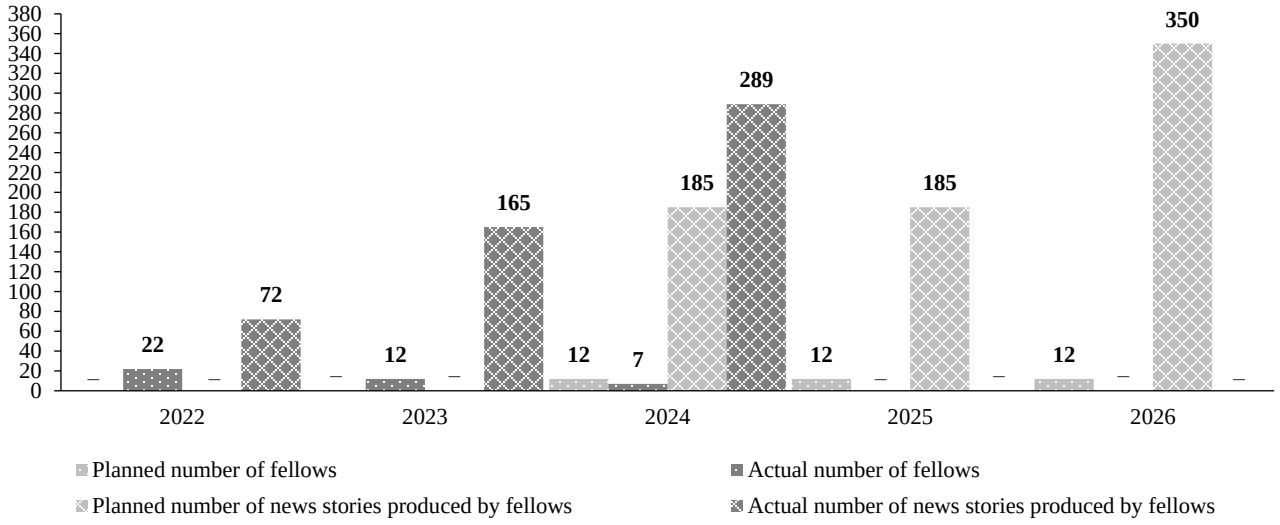
Result 2: young journalists gain access and insight into the work of the United Nations

Programme performance in 2024 and target for 2026

28.50 The subprogramme's work contributed to seven young journalists participating in the Reham Al-Farra Memorial Journalists' Fellowship Programme, which did not meet the planned target of 12 fellows. The target was not met due to liquidity constraints, which required the Programme to be conducted in a hybrid format. The fellows produced a total of 289 materials, including 60 stories published in their media outlets and 229 posts, photos and video stories on social media platforms, which exceeded the planned target of 185 news stories.

28.51 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 28.IX).

Figure 28.IX
Performance measure: number of young journalists participating in the Programme and number of news stories produced by fellows (annual)



Result 3: advancing implementation of the Sustainable Development Goals through higher education institutions

Proposed programme plan for 2026

28.52 Current progress towards achieving the 2030 Agenda falls far short of what is required to meet the Sustainable Development Goals. Higher education institutions can play a unique role in research, teaching and learning to engage scholars and leaders in focusing their work and studies on addressing the pressing global challenges. The subprogramme's United Nations Academic Impact initiative aims to drive meaningful engagement in education, research and partnerships in advancing implementation of the Goals.

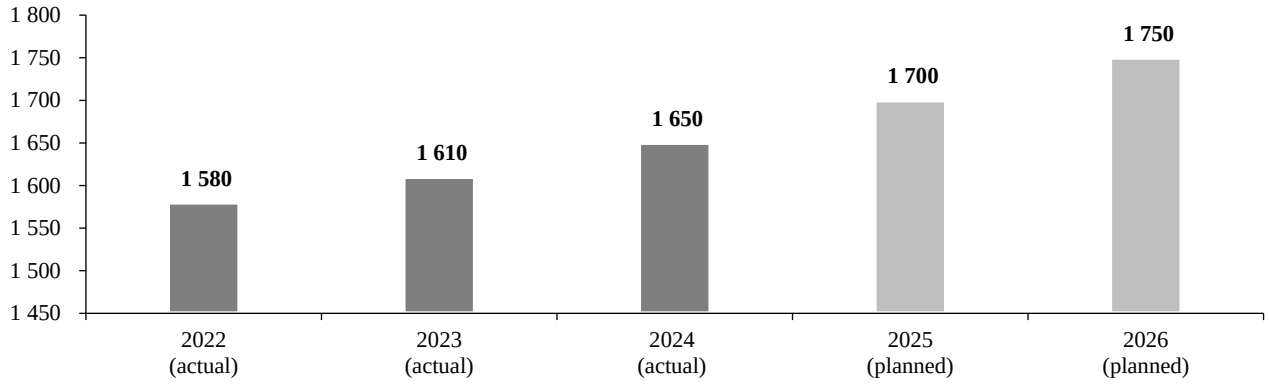
Lessons learned and planned change

28.53 The lesson for the subprogramme was the need to strengthen engagement with a broader range of universities and higher education institutions to foster greater leadership and more strategic approaches to advancing the Goals. In applying the lesson, the subprogramme will expand its outreach and will revitalize the Sustainable Development Goals Hub network. Each hub is chaired by a university and is designated to focus on one specific Goal, promoting greater research, education and global collaboration to advance that Goal. The 17 hubs will lead the work of engaging and training additional universities to focus research on critical issues, expand their curricula and

courses, and build partnerships with communities, Governments and practitioners to implement evidence-based solutions to achieve the 2030 Agenda.

28.54 Expected progress towards the objective is presented in the performance measure below (see figure 28.X).

Figure 28.X
Performance measure: number of universities that are members of the United Nations Academic Impact network (cumulative)



Deliverables

28.55 Table 28.6 lists all deliverables of the subprogramme.

Table 28.6
Subprogramme 3: deliverables for the period 2024–2026, by category and subcategory

A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**4**	**4**	**4**	**4**
1. Reports for the General Assembly on questions of information and on the activities of the Department: campaigns and country operations services, news services and outreach and knowledge services	4	4	4	4
Substantive services for meetings (number of three-hour meetings)	**20**	**20**	**20**	**20**
2. Meetings of the Committee on Information	20	20	20	20
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	**370**	**429**	**370**	**390**
3. Workshops on intergovernmental engagements for non-governmental organizations and orientation programme for newly associated non-governmental organizations	40	50	40	40
4. Training event on Dag Hammarskjöld Library services and training courses for iSeek content creators, editors and focal points	300	339	300	320
5. Training event on journalism as part of Reham Al-Farra Memorial Journalists' Fellowship Programme	30	40	30	30
C. Substantive deliverables				
Consultation, advice and advocacy: guidance and expert advice to the Model United Nations; and conferences on subjects such as slavery and the transatlantic slave trade and Holocaust remembrance.				

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*

D. Communication deliverables

Outreach programmes, special events and information materials: partnerships with civil society, academic institutions and other entities; educational and promotional materials, such as *UN Chronicle*; responses to public enquiries; exhibits at United Nations Headquarters and online; multilingual guided tours; outreach programme with prominent personalities, including Messengers of Peace and other celebrities; special events and observances of selected commemorative days and years; promotion of the United Nations or a United Nations issue in a film, television or theatre product; promotion of the Sustainable Development Goals through sports; and graphic design products in support of United Nations branding, and communication campaigns.

External and media relations: press conferences and press releases to announce new outreach partnerships and special events; and exhibit openings.

Digital platforms and multimedia content: iSeek; the United Nations delegate website (www.un.org/en/delegate); and shop.un.org.

Library services: a secure digital United Nations central repository (United Nations Digital Library) in the six official languages; online library products, loan and related services and the provision of research to representatives of Member States; management of the United Nations System Electronic Information Acquisition Consortium; and curation of diverse library content.

B. Proposed post and non-post resource requirements for 2026

Overview

28.56 The proposed regular budget resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 28.7 to 28.9.

28.57 Additional details on the distribution of the proposed resources for 2026 are reflected in tables 28.10 to 28.12 and figure 28.XI.

28.58 As shown in tables 28.10 (1) and 28.11 (1), the overall resources proposed for 2026 amount to $123,560,200, reflecting a net increase of $80,700 (or 0.1 per cent) compared with the approved budget for 2025. Resource changes result from technical adjustments, new and expanded mandates, and other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

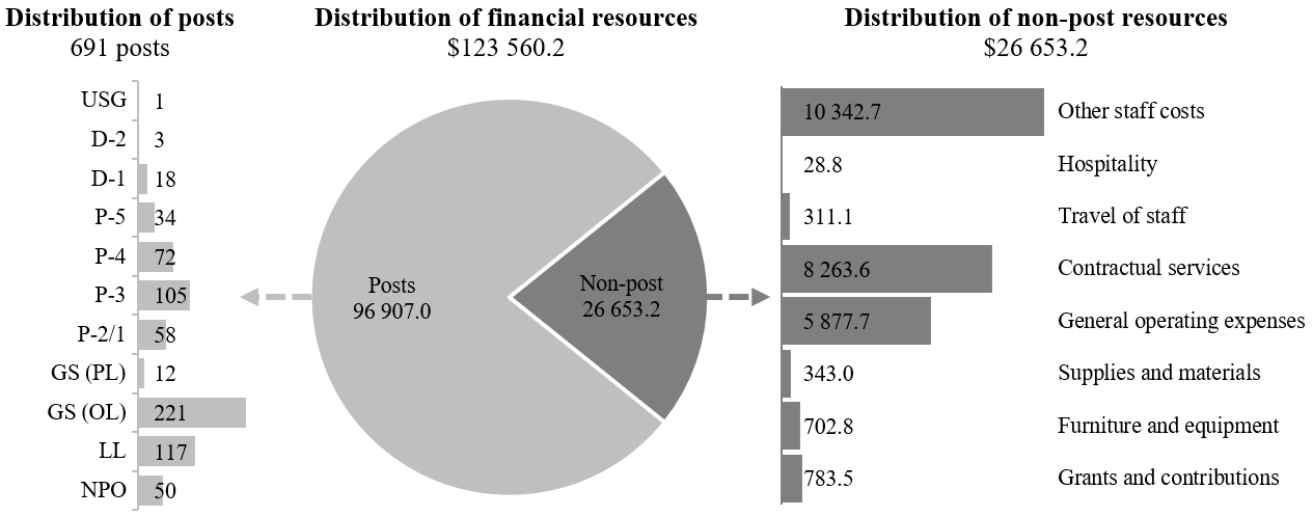
(Number of posts/thousands of United States dollars)



Explanation of variances by factor, component and subprogramme

Overall resource changes

Technical adjustments

28.59 As shown in table 28.10 (1), resource changes reflect a net increase of $52,100, as follows:

(a) **Subprogramme 1, Campaigns and country operations services.** The net increase of $118,800 comprises:

(i) An increase of $300,300 under posts relating to the higher provision at continuing vacancy rates for the posts established in 2025 pursuant to General Assembly resolution 79/258 (1 P-2 and 3 General Service (Other level)), which were subject to a 50 per cent vacancy rate in accordance with the established practice for newly established posts;

(ii) A decrease of $181,500 relating to the removal of non-recurrent provisions under contractual services ($85,500), supplies and materials ($88,100) and furniture and equipment ($7,900) for webcasting and public information services and equipment that were approved for 2025 pursuant to General Assembly resolutions 79/258, 79/199, 79/259, 79/22, 78/318 and 78/223, and are no longer required in 2026;

(b) **Subprogramme 2, News services.** The decrease of $40,900 relates to the removal of non-recurrent provisions under other staff costs ($31,600) and contractual services ($9,300) associated with meetings coverage and webcasting activities that were approved for 2025 pursuant to General Assembly resolutions 78/272 and 79/259, respectively, and are no longer required in 2026;

(c) **Subprogramme 3, Outreach and knowledge services.** The decrease of $25,800 relates to the removal of non-recurrent provisions under contractual services associated with the development of a website for the International Day of Reflection and Commemoration of the 1995 Genocide in Srebrenica that were approved for 2025 pursuant to General Assembly resolution 79/258 and are no longer required in 2026.

New and expanded mandates

28.60 As shown in table 28.10 (1), resource changes reflect an increase of $320,700, as follows:

(a) **Subprogramme 1, Campaigns and country operations services.** The increase of $11,400 under contractual services would provide for webcasting services for two substantive sessions of the working group on the prevention of an arms race in outer space in all its aspects, pursuant to General Assembly resolution 79/22. In addition, the resources reflect cost-neutral redeployments from supplies and materials ($10,200) to travel on official business ($6,900) and contractual services ($3,300);

(b) **Subprogramme 2, News services.** The increase of $51,300 under other staff costs ($44,900) and contractual services ($6,400) would provide for meetings coverage and webcasting services for various meetings and conferences, pursuant to General Assembly resolutions 79/40 on the illicit trade in small arms and light weapons in all its aspects; 79/122 on the United Nations Conference of Plenipotentiaries on Prevention and Punishment of Crimes against Humanity; 79/128 on protection of persons in the event of disasters; and 79/145 on sustainable fisheries, including through the 1995 Agreement for the Implementation of the Provisions of the United Nations Convention on the Law of the Sea of 10 December 1982 relating to the Conservation and Management of Straddling Fish Stocks and Highly Migratory Fish Stocks, and related instruments;

(c) **Subprogramme 3, Outreach and knowledge services.** The increase of $256,800 comprises the following, pursuant to General Assembly resolution 79/115:

(i) An increase of $124,800 under posts, which would cover the proposed establishment of one Programme Management Officer post (P-4) (see annex II);

(ii) An increase of $129,100 under contractual services ($77,500), supplies and materials ($31,000) and grants and contributions ($20,600), which would provide for the development and implementation of an outreach programme to mobilize educational institutions and civil society to expand their activities in the field of remembering colonialism, its root causes and consequences, in close consultation with relevant international, regional and subregional organizations, as well as with concerned former colonies among the States Members of the United Nations;

(iii) An increase of $2,900 under contractual services ($300), supplies and materials ($200) and furniture and equipment ($2,400) relating to the non-post provisions associated with the proposed establishment of the P-4 post;

(d) **Programme support.** The increase of $1,200 under contractual services relates to the requirements of the service level agreement with the Office of Information and Communications Technology associated with the proposed establishment of the P-4 post.

Other changes

28.61 As shown in table 28.10 (1), resource changes under the programme support component reflect a net decrease of $292,100 under contractual services owing mainly to the reduction of $303,600 due to the lower standard rate for information and communications technology services for personnel at United Nations Headquarters, offset in part by an increase of $11,500 relating to the higher standard rate for the core software package for non-field personnel outside of Headquarters. In addition, the resources reflect cost-neutral redeployments from general operating expenses ($900), supplies and materials ($149,000) and furniture and equipment ($19,400) to contractual services ($169,300).

Other assessed resources

28.62 As reflected in tables 28.10 (2) and 28.11 (2), other assessed resources amount to $962,200. The resources would complement regular budget resources and provide for the requirements indicated in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2025 to 30 June 2026 (A/79/783).

Extrabudgetary resources

28.63 As reflected in tables 28.10 (3) and 28.11 (3), extrabudgetary resources amount to $7,509,900. The resources would complement regular budget resources and would be used mainly to provide for non-post resources that would be used to support the Department’s capacity development work; support specific communications campaigns at Headquarters and in the field; support multimedia and operational activities in Hindi; provide webcast and website support activities; conduct activities in support of United Nations Academic Impact and the United Nations System Electronic Information Acquisition Consortium programmes; and provide administrative support for those programmes. The decrease of approximately $8.5 million in the estimate for 2026 compared with the estimate for 2025 is due mainly to the conclusion of Expo 2025 and the closure of the United Nations Development Business programme.

28.64 The extrabudgetary resources under the present section are subject to the oversight of the Department, which has delegated authority from the Secretary-General.

Executive direction and management

28.65 The executive direction and management component comprises the Office of the Under-Secretary-General.

28.66 The main responsibilities of the executive direction and management component include:

(a) The overall direction and strategic management of United Nations communications in the implementation of the Department's mandates and its approved programme of work, both at Headquarters and in the field;

(b) The establishment of departmental strategy, policies and guidelines, while dealing with specific policy and management issues and problems;

(c) The administrative, financial and personnel management of the Department;

(d) The direction of liaison functions performed by the Department with regard to intergovernmental bodies, such as the Committee on Information, and with the United Nations Communications Group;

(e) Oversight of crisis communications and reputation management, convening relevant United Nations entities and partners within crisis cells to align approaches and messaging, and providing crisis communications policy, guidance and training;

(f) The establishment of United Nations communications priorities, identifying opportunities to communicate about these within a congested media landscape, and providing coordination across the United Nations system by strengthening the United Nations Communications Group, including at the country level through United Nations information centres and the resident coordinator system;

(g) The strengthening of the information ecosystem through the implementation of the United Nations Global Principles for Information Integrity, and the development and implementation of strategies to effectively research, analyse and mitigate risks in the information environment affecting the United Nations and its work.

28.67 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Department is integrating environmental management practices into its operations. The Department will, where feasible and effective, continue to make all official documentation, publications, brochures, and communications and advocacy materials available online, rather than in print, in order to reduce its carbon footprint and save energy. It will also continue to adopt a range of sustainability practices, including reducing the photocopying and printing of internal documents, and will promote videoconferencing, in order to reduce the travel undertaken, where possible. The Department will also continue to support internal and external communications on United Nations system sustainability efforts and will encourage staff to join the ActNow campaign and other Secretariat initiatives focused on individual action related to climate change and sustainability.

28.68 Information on the timely submission of documentation and advance booking for air travel is reflected in table 28.13. With regard to the advance booking for air travel, the Department has implemented the requirement for travellers to request approval from the Under-Secretary-General for cases that are non-compliant with the policy and to provide a reason for the delayed request and justification for travel. In addition, the Department closely reviews the exceptions sought and regularly sends communications to directors, managers and staff to raise awareness of the policy requirement and the importance of minimizing the instances of exceptions.

Annex II

Summary of proposed post changes, by component and subprogramme

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
Subprogramme 3 Outreach and knowledge services	1	P-4	**Establishment** of 1 Programme Management Officer	The proposed establishment of the Programme Management Officer post is related to General Assembly resolution 79/115, wherein the Assembly requested the Secretary-General, in close consultation with relevant international, regional and subregional organizations, as well as with concerned former colonies among the States Members of the United Nations, to develop an outreach programme to mobilize educational institutions and civil society to expand their activities in the field of remembering colonialism, its root causes and consequences. The Department of Global Communications currently has four outreach programmes: the Holocaust and the United Nations Outreach Programme, which is covered by three staff (1 P-4, 1 P-2 and 1 GS (OL)); the Outreach Programme on the Transatlantic Slave Trade and Slavery, which is covered by three staff (1 P-4, 1 P-3 (GTA) and 1 GS (OL)); the outreach programme on the 1994 genocide against the Tutsi in Rwanda and the United Nations, which is covered by two staff (1 P-4 and 1 GS (OL) (GTA)); and the outreach programme entitled “The Srebrenica Genocide and the United Nations”, established pursuant to Assembly resolution 78/282, which has no dedicated posts. The incumbent would be responsible for working with relevant international, regional and subregional organizations, as well as with concerned former colonies among the States Members of the United Nations, to develop an outreach programme to mobilize educational institutions and civil society to expand their activities in the field of remembering colonialism, its root causes and consequences. The incumbent would also work with the Department of Political and Peacebuilding Affairs and would be responsible for developing and managing the outreach programme; providing strategic direction on issues, methods and approaches for mobilizing educational institutions and civil society to expand their activities in the field of colonialism, including by providing overall coordination for the preparation of substantive content related to the outreach programme; and leading the development of the outreach programme, including the associated strategy and planning. The P-4 post would be supported by programme management officers (P-3, P-2) and administrative assistants (GS (OL)) from the other outreach programmes, as required.

Abbreviations: GS (OL), General Service (Other level); GTA, general temporary assistance.

Overview

Mandates and background

29.1 The overall purpose of section 29, Management and support services, the responsibility for which is vested in the Department of Management Strategy, Policy and Compliance, the Department of Operational Support, the Office of Information and Communications Technology and the administrative services of the United Nations Office at Geneva, the United Nations Office at Vienna and the United Nations Office at Nairobi, is to enhance the accountability and efficiency of the Organization in four broad management areas, namely, finance, human resources, information and communications technology and support services, including procurement and infrastructure; to provide support services to the intergovernmental processes of the Organization; to secure financing for the mandated programmes and activities of the Secretariat; and to support the implementation of those programmes and activities.

29.2 The departments and offices under section 29 derive their mandates and guidance from relevant articles of the Charter of the United Nations, specifically Articles 8, 17, 97, 100 and 101, as well as the Financial Regulations and Rules of the United Nations; the Staff Regulations and Rules of the United Nations; the Regulations and Rules Governing Programme Planning, the Programme Aspects of the Budget, the Monitoring of Implementation and the Methods of Evaluation; and General Assembly resolutions as included in the relevant components.

29.3 Details on the composition of the deliverables proposed under section 29, together with their specific objectives, planned results and the related resource requirements, are contained in subsections 29A to 29F.

29.4 Summaries of the overall resource requirements for section 29 are set out in the table below.

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

29A.1 The Department of Management Strategy, Policy and Compliance is responsible for policy leadership in all management areas through the provision of a clear, integrated global management strategy and policy framework and through strengthened monitoring, evaluation and accountability mechanisms. The Department is also responsible, jointly with the Department of Operational Support, for managing the activities of the Office of Information and Communications Technology. The mandate derives from the priorities established in relevant General Assembly resolutions and decisions, including resolutions 72/266 A, 72/266 B, 72/254 and 73/281. The Department plays an integral role in realizing the Secretary-General's management paradigm, with an emphasis on transparency, accountability and decision-making that is closer to points of delivery.

Strategy and external factors for 2026

29A.2 The strategy for 2026 includes continuing to advance the management paradigm through an integrated approach, with five interlinked pillars: the enterprise resource planning solution; programme planning, finance and budget; human resources; business transformation and accountability; and addressing racism and racial discrimination. The Department will:

(a) Commit to new internal ways of working, including through the formulation of holistic policies and approaches that foster the achievement of tangible results, including through renewed investment in technology and a commitment to continuous improvement;

(b) Strengthen the Organization's resilience, including its preparedness to maintain business continuity in emergencies and to continually adapt to changing environments, risks and opportunities;

(c) Drive results-based management policies and practices into the daily functioning and culture of the Organization, together with an integrated cycle of planning, risk and performance management, and evaluation;

(d) Promote a culture of efficiency in the request for and use of Member States' resources for the implementation of all Secretariat activities;

(e) Foster greater transparency and accountability to engender greater credibility and trust in the capabilities of the United Nations as an organization, among both the Member States and the people whom it serves;

(f) Enhance data analysis and reporting capabilities that enable real-time, user-friendly access to data to support informed decision-making and improved management of risks to achieve the objectives of the United Nations;

(g) Create a collaborative and inclusive environment through integrated solutions and strategic partnerships throughout the United Nations system;

(h) Work towards the implementation of a dynamic human resources strategy that achieves greater workforce diversity, supports the development and integration of skills and capabilities required to fulfil mandates and respond effectively to current and future challenges, supports managers in finding the right people, provides a strengthened learning framework and a strengthened multilingualism framework, ensures a civil and safe work environment and promotes a culture of continuous learning, innovation and improvement to actively build a better United Nations;

(i) Address racism and racial discrimination more directly and effectively in the Secretariat by encouraging reporting; enhancing accountability, monitoring and transparency; and periodically reporting on efforts and progress towards racial diversity, equity and inclusion.

29A.3 The Department will continue to provide leadership in the development and delivery of integrated organizational management strategies, policies and models supporting a decentralized, field-focused paradigm in which managers are empowered through the enhanced delegation of authority framework. It will liaise with Member States and other external entities on management-related issues and foster coordination within the Secretariat, as well as with the funds, programmes and specialized agencies of the United Nations system, to build partnerships and promote best practices.

29A.4 Having laid the foundation for greater decentralization, the main challenge will continue to be to accelerate the culture shift required to implement in full the management paradigm of increased delegation of authority, transparency and accountability and a culture of continuous learning.

29A.5 The Department will continue to enable business transformation that leverages current and future trends in enterprise resource planning solutions. The Umoja solution and its accompanying business intelligence framework will allow the Department to respond to organizational requirements for better and more timely decision-making, enhanced accountability systems and the rapid adoption of newly identified best practices, as well as strengthened support for real-time data access, augmented and predictive analytics and planning and monitoring capabilities.

29A.6 With regard to cooperation with other entities, the Department will continue to support and work closely with all entities of the Secretariat and build partnerships, internally within the Secretariat and externally with the United Nations system, to find inclusive responses to challenges and develop innovative business models that cater to the evolving and specific requirements of each entity, with an emphasis on the field.

29A.7 With regard to inter-agency coordination and liaison, the Department will represent the Secretary-General in inter-agency coordination mechanisms, including the High-level Committee on Management of the United Nations System Chief Executives Board for Coordination (CEB).

29A.8 With regard to the external factors, the Department considered applicable risks identified in its risk register, and, accordingly, the overall plan for 2026 is based on the planning assumption that all stakeholders will extend their full cooperation and support to the Department in implementing its mandates.

29A.9 The Department integrates a gender perspective into its operational activities, deliverables and results, as appropriate. The Department will play a leadership role in driving the Secretary-General's system-wide strategy on the future of work and continue to support efforts to achieve gender parity and address sexual harassment in the workplace. Furthermore, the Department will work towards the equitable geographical distribution of Member States in the Secretariat workforce and prioritize the integration of environmental sustainability and resilience management into the strategies, policies and compliance and reporting frameworks of the Organization. Through its policy leadership in these interconnected fields, the Department will foster a change in culture at all levels of the Secretariat.

29A.10 In line with the United Nations Disability Inclusion Strategy, the Department will continue to elevate awareness of disability inclusion within it and support entities by mainstreaming disability inclusion into human resources strategy and policy, in particular in the areas of leadership, inclusiveness and organizational culture.

Legislative mandates

29A.11 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

52/12 A and B	Renewing the United Nations: a programme for reform	72/266 A; 72/266 B; 73/281	Shifting the management paradigm in the United Nations
58/269	Strengthening of the United Nations: an agenda for further change	77/267	Shifting the management paradigm in the United Nations: review of changes to the budgetary cycle
58/280	Review of duplication, complexity and bureaucracy in United Nations administrative processes and procedures	79/247	Programme planning
		79/257	Questions relating to the proposed programme budget for 2025
60/1	2005 World Summit Outcome		
61/245	Comprehensive review of governance and oversight within the United Nations and its funds, programmes and specialized agencies	79/258 A and 79/258 B	Special subjects relating to the proposed programme budget for 2025

Subprogramme 1
Enterprise resource planning solution, services to the Fifth Committee of the General Assembly and to the Committee for Programme and Coordination, and management advisory services

Component 1
Enterprise resource planning solution

General Assembly resolutions

60/260	Investing in the United Nations for a stronger Organization worldwide	63/262	Information and communications technology, enterprise resource planning, and security, disaster recovery and business continuity
60/283	Investing in the United Nations for a stronger Organization worldwide: detailed report		

Component 2
Services to the Fifth Committee of the General Assembly and to the Committee for Programme and Coordination

Charter of the United Nations

Chap. IV, Art. 17	Functions and powers of the General Assembly

General Assembly resolution

45/248 B, sect. VI	Questions relating to the programme budget for the biennium 1990–1991

Economic and Social Council resolution

920 (XXXIV)	Special Committee on coordination with particular emphasis on the United Nations Development Decade

Component 3
Management advisory services

General Assembly resolutions

69/273	Procurement	79/206	Protection of global climate for present and future generations of humankind
76/246 B	Special subjects relating to the programme budget for 2022	79/254	Administration of justice at the United Nations

Subprogramme 2
Programme planning, finance and budget

Component 1
Finance

General Assembly resolutions

60/283	Investing in the United Nations for a stronger Organization worldwide: detailed report	79/245	Financial reports and audited financial statements, and reports of the Board of Auditors
76/272	Improving the financial situation of the United Nations	79/249	Scale of assessments for the apportionment of the expenses of the United Nations
79/3	Scale of assessments for the apportionment of the expenses of the United Nations: requests under Article 19 of the Charter		

Component 2
Field operations finance

General Assembly resolutions

60/283	Investing in the United Nations for a stronger Organization worldwide: detailed report	79/245	Financial reports and audited financial statements, and reports of the Board of Auditors
76/272	Improving the financial situation of the United Nations	79/250	Scale of assessments for the apportionment of the expenses of United Nations peacekeeping operations

Component 3
Programme planning and budgeting

General Assembly resolutions

2617 (XXIV)	Study of the nature of the increases in the level of expenditure in the United Nations regular budget	42/211	Implementation of General Assembly resolution 41/213
41/213; 60/254	Review of the efficiency of the administrative and financial functioning of the United Nations	55/231	Results-based budgeting

Subprogramme 3
Human resources

General Assembly resolutions

52/252	Revisions to article I of the Staff Regulations and chapter I of the 100 series of the Staff Rules of the United Nations	63/256	Comprehensive proposal on appropriate incentives to retain staff of the International Criminal Tribunal for Rwanda and the International Tribunal for the Former Yugoslavia
59/164	Improvement of the status of women in the United Nations system	63/271	Amendments to the Staff Regulations
61/262	Conditions of service and compensation for officials other than Secretariat officials: members of the International Court of Justice and judges and ad litem judges of the International Tribunal for the Former Yugoslavia and the International Criminal Tribunal for Rwanda	68/265	Mobility framework
		71/263; 72/254; 77/278	Human resources management
		75/245 A; 77/256	United Nations common system
		78/275	Amendments to the Staff Regulations and Rules
		78/292	Seconded active-duty military and police personnel

Subprogramme 4
Business transformation and accountability

General Assembly resolutions

59/272	Review of the implementation of General Assembly resolutions 48/218 B and 54/244	63/276	Accountability framework, enterprise risk management and internal control framework and results-based management framework
61/245	Comprehensive review of governance and oversight within the United Nations and its funds, programmes and specialized agencies	64/259	Towards an accountability system in the United Nations Secretariat
		74/271; 77/280	Progress towards an accountability system in the United Nations Secretariat

Subprogramme 5
Addressing racism in the workplace

General Assembly resolution

76/271	Addressing racism and promoting dignity for all in the United Nations Secretariat

Deliverables

29A.12 Table 29A.1 lists all cross-cutting deliverables of the programme.

Table 29A.1
Cross-cutting deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	**10**	**16**	**10**	**10**
Meetings of:				
1. The Fifth Committee of the General Assembly	4	9	4	4
2. The Special Committee on Peacekeeping Operations	1	1	1	1
3. The Advisory Committee on Administrative and Budgetary Questions	4	4	4	4
4. The Committee for Programme and Coordination	1	2	1	1
C. Substantive deliverables				
Consultation, advice and advocacy: consultation with Member States on matters relating to the work of the Department.				
D. Communication deliverables				
Outreach programmes, special events and information materials: information and engagement events; articles and videos; and newsletters.				
Digital platforms and multimedia content: websites and social media accounts of the Department.				
E. Enabling deliverables				
Administration: 4 meetings of the Management Client Board and 2 meetings of the Arts Committee.				

Evaluation activities

29A.13 An evaluation of the evaluation community of practice, completed by the Department in 2024, has guided the proposed programme plan for 2026.

29A.14 In response to the results of the evaluation, the Department will enhance how the evaluation community of practice serves peer exchange and learning needs, with a view to strengthening

evaluation capacities and culture in the Secretariat. This will include clarifying the purpose, objectives and intended audience of the community, as well as improving the platforms for engagement and targeting activities. The Department will regularly monitor member engagement for continuous improvement.

29A.15 The following evaluations are planned for 2026:

(a) A joint evaluation by the Department of Management Strategy, Policy and Compliance, the Department of Operational Support and the Office of Information and Communications Technology on information and communications technology security, which will be completed in 2026;

(b) An evaluation to be conducted by the Department on a topic currently under consideration.

Programme of work

Subprogramme 1
Enterprise resource planning solution, services to the Fifth Committee of the General Assembly and to the Committee for Programme and Coordination, and management advisory services

Component 1
Enterprise resource planning solution

Objective

29A.16 The objective, to which this component contributes, is to improve the management of the Organization's resources for its work in line with mandates.

Strategy

29A.17 To contribute to the objective, the component will:

(a) Support business transformation in the areas of programme planning, programme management, the monitoring of programme delivery, and data and business analytics by harmonizing processes and practices and using modern technology;

(b) Support the Organization by building on its business intelligence platforms to support access to real-time data, augmented and predictive analytics, including machine learning and natural language processing, and planning capabilities;

(c) Support, monitor and upgrade the Umoja system to meet evolving business needs through continuous improvements directed by the business and work with business areas, to translate requirements into integrated functional solutions that are built, whenever possible, through out-of-the-box solutions that have sustainable road maps and meet Umoja architectural standards.

29A.18 The above-mentioned work is expected to result in:

(a) A more efficient and transparent management of the Organization's financial, human and physical resources;

(b) Effective and timely decision-making by management informed by advanced analytics;

(c) Rapid adoption and application of newly identified best practices by the Organization;

(d) The continued effective operation of the Organization and of flexible working arrangements, given that Umoja functionality will underpin the Organization's work.

Programme performance in 2024

Enhanced stability, security and user experience and improved data-driven decision-making

29A.19 The component completed the upgrade to Umoja enhancement package 8 and transitioned from Umoja business intelligence to Umoja Analytics in 2024. The upgrade was a highly complex and multifaceted undertaking that included the migration of human capital management software, the upgrading of application software, database migration and the upgrading of hardware. The upgrade to Umoja enhancement package 8 ensures continued support from the vendor, increases resilience to security threats, improves performance, enables enhanced user experience and ensures compatibility with evolving technology. The transition to Umoja Analytics enables users to have access to a state-of-the-art analytics solution, which marks an important milestone in the Organization's vision of fostering data democratization and promoting a culture of data-driven decision-making.

29A.20 Progress towards the objective is presented in the performance measure below (see table 29A.2).

Table 29A.2
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Resilience to security threats enabled through upgrade activities	Improved stability and security through upgrade activities Umoja self-service analytics accessible to staff, with trained users developing tailored dashboards	Enhanced security, performance and user experience through the upgrade to Umoja enhancement package 8 Improved data-driven decision-making through the transition to Umoja Analytics

Planned results for 2026

Result 1: digital transformation and innovations through Umoja for more effective decision-making

Programme performance in 2024 and target for 2026

29A.21 The component's work contributed to the availability of additional innovative features and enhancements to Umoja, including an improved staff separation payment process using an automated interface between the Secretariat and the United Nations Joint Staff Pension Fund, which met the planned target.

29A.22 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29A.3).

Table 29A.3
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Improvements to the financial statement process related to after-service health insurance, including system enhancements to enable the migration into Umoja of locally recruited former staff participating in after-service health insurance under the medical insurance plan The process control module was available to further support the Secretary-General's initiative to implement the statement of internal control, an important milestone towards achieving accountability for results	Availability of digital staff data certification application	Improved staff separation process using an automated interface between the Secretariat and the Pension Fund	Improved user experience through Umoja user experience 2.0, resulting in an intuitive application for staff and Member States	Transformed user experience through Umoja user experience 2.0, resulting in a seamless, intuitive and engaging experience for staff and Member States

Result 2: data-driven actionable insights through NextGen Analytics

Programme performance in 2024 and target for 2026

29A.23 The component's work contributed to the pilot availability of advanced features provided by NextGen Umoja Analytics, including predictive and prescriptive analytics using artificial intelligence and machine learning, which met the planned target for 2024.

29A.24 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29A.4).

Table 29A.4
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Pilot availability of advanced features provided by NextGen Umoja Analytics, including predictive and prescriptive analytics	Users utilize NextGen Umoja Analytics for improved data-driven decision-making	Users leverage NextGen Umoja Analytics for enhanced data-driven decision-making

Result 3: decision-making facilitated through enhancements to Member State portals

Proposed programme plan for 2026

29A.25 The component develops portals to support Member States in making informed decisions. The component strives to further enhance Member State portals based on evolving needs.

Lessons learned and planned change

29A.26 The lesson for the component was the need to meet the demand from Member States for increased access to real-time and other data from enterprise resource planning applications serving as a centralized platform. In applying the lesson, the component will enhance Member State portals to foster a culture of accountability, transparency and efficiency and facilitate decision-making by Member States.

29A.27 Expected progress towards the objective is presented in the performance measure below (see table 29A.5).

Table 29A.5
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Member States gained access to information and insights through the Member States Portal for Uniformed Capabilities Support and the United Nations Secretariat Workforce Portal	Member States gained access to additional features in the Uniformed Capabilities Support Portal that provide more information on letters of assist and death and disability claims	Greater visibility of all claim types provided to Member States through the reimbursement dashboard in the Uniformed Capabilities Support Portal	Enhancements are made to Member State portals to facilitate decision-making	Further enhancements are made to Member State portals to facilitate decision-making

Deliverables

29A.28 Table 29A.6 lists all deliverables of the component.

Table 29A.6
Subprogramme 1, component 1: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**1**	**1**	**1**	**1**
1. Progress report on the status of the functioning and development of the enterprise resource planning system	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	**3**	**4**	**3**	**3**
2. Meetings of the Fifth Committee of the General Assembly	2	3	2	2
3. Meetings of the Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
E. Enabling deliverables				
Administration: consultations with client groups, through the governance mechanisms and informally, on continuous improvements in the system to meet their business needs; Umoja Change Board meetings and informal exchanges; meetings with the Management Committee, Management Client Board and Information and Communications Technology Steering Committee; global information sessions for Secretariat staff; approximately 12 release notes on changes to Umoja; and approximately 6 internal broadcasts, including news articles on Umoja upgrades.				
Information and communications technology: the Umoja system and service desk tier 3 support.				

Component 2
Services to the Fifth Committee of the General Assembly and to the Committee for Programme and Coordination

Objective

29A.29 The objective, to which this component contributes, is to facilitate effective and efficient deliberations and decision-making by the Fifth Committee of the General Assembly and the Committee for Programme and Coordination.

Strategy

29A.30 To contribute to the objective, the component will:

(a) Improve communication on organizational and procedural aspects of meetings;

(b) Enhance substantive, technical and secretariat support to Member States and other participants in the meetings.

29A.31 The above-mentioned work is expected to result in the smooth conduct of meetings of the intergovernmental bodies serviced.

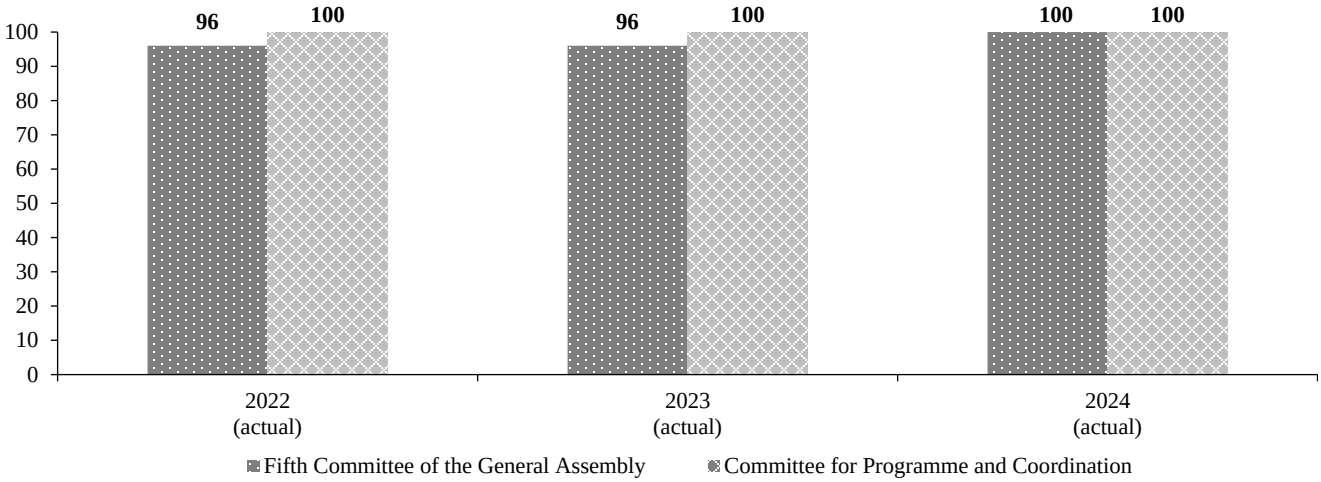
Programme performance in 2024

Enhanced interfaces in support of the work of the Fifth Committee and the Committee for Programme and Coordination

29A.32 In 2024, in addition to expanding the information available in Fifth Committee Place and CPC Place, the component rolled out additional modules in the e-deleGATE platform as part of an effort to consolidate e-services provided to Member States pursuant to resolution 77/335. With respect to the Fifth Committee, the e-Submit module was launched at the second part of the resumed seventy-eighth session, streamlining the process for submitting and receiving Member States' questions through a centralized platform directly accessible by Member States, coordinators and designated Secretariat officials. With regard to appointments under the purview of the Fifth Committee, the component launched the e-Candidatures module in time for the elections held in November 2024. Feedback from surveys highlighted favourably the use of the e-Submit module and the available information on elections and appointments. Lastly, the component launched the Fifth Committee portal on iGov, adding information on Committee proceedings, including a detailed schedule of formal and informal meetings, related documentation, a live list of speakers and an overview of action taken.

29A.33 Progress towards the objective is presented in the performance measure below (see figure 29A.I).

Figure 29A.I
Performance measure: Member States' delegates who were either "very satisfied" or "satisfied" regarding the content of Fifth Committee Place or CPC Place
(Percentage)



Planned results for 2026

Result 1: improved access to effective advice on rules, procedures, precedence, practice and working methods

Programme performance in 2024 and target for 2026

29A.34 The component's work contributed to 100 per cent positive feedback from both Fifth Committee members and Committee for Programme and Coordination members on accessibility to the secretariat staff of the two Committees and the effectiveness of services provided, including advice on rules, procedures, precedence, practice and working methods of the Committees, which met the planned target.

29A.35 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29A.7).

Table 29A.7
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Positive survey results on the accessibility of the component's staff and the effectiveness of the services provided Fifth Committee of the General Assembly: 100 per cent Committee for Programme and Coordination: 94 per cent	Positive survey results on the accessibility of the component's staff and the effectiveness of the services provided Fifth Committee of the General Assembly: 92 per cent Committee for Programme and Coordination: 97 per cent	Positive survey results on the accessibility of the component's staff and the effectiveness of the services provided Fifth Committee of the General Assembly: 100 per cent Committee for Programme and Coordination: 100 per cent	Maintain positive survey results on the accessibility of the component's staff and the effectiveness of the services provided	Maintain positive survey results on the accessibility of the component's staff and the effectiveness of the services provided

Result 2: improved access to information, including pre-sessional information, for members of the Fifth Committee and the Committee for Programme and Coordination

Programme performance in 2024 and target for 2026

29A.36 The component's work contributed to 100 per cent positive feedback from Fifth Committee members and 96 per cent positive feedback from Committee for Programme and Coordination members on the availability of preparatory and background materials prepared by the Committees' secretariat, which met the planned target.

29A.37 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29A.8).

Table 29A.8
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Positive survey results on the availability of preparatory and reference material Fifth Committee of the General Assembly: 100 per cent Committee for Programme and Coordination: 100 per cent	Positive survey results on the availability of preparatory and reference material Fifth Committee of the General Assembly: 100 per cent Committee for Programme and Coordination: 96 per cent	Maintain positive survey results on the availability of preparatory and reference material	Maintain positive survey results on the availability of preparatory and reference material

Result 3: simplified and streamlined processes and improved services for meeting participants

Proposed programme plan for 2026

29A.38 Supporting Member States' deliberations through simplified and well-established processes, as well as enhanced and harmonized access to relevant information, is critical to effective and efficient deliberations and decision-making.

Lessons learned and planned change

29A.39 The lesson for the component was that streamlining and simplifying processes could further facilitate effective and efficient deliberations and decision-making by the Fifth Committee and the Committee for Programme and Coordination, as illustrated by the use of the eSpeakers module in e-deleGATE for the formal meetings of the Fifth Committee and the incorporation of that module into the iGov portal for the Committee. This simplified inscription for Member States through a single point of entry, and allowed for the provision of up-to-date live lists, indicating position of speakers, for use by the Chair and delegations, and consolidated information, including on officials introducing reports. In applying the lesson, the component will review workflows to improve the availability of information relevant to the work of the Committees on the public websites and e-deleGATE and, where necessary, work with relevant offices to consolidate and harmonize information sources to further facilitate Member States' participation in deliberations.

29A.40 Expected progress towards the objective is presented in the performance measure below (see table 29A.9).

Table 29A.9
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Overall satisfaction with the services provided Fifth Committee of the General Assembly: 99 per cent Committee for Programme and Coordination: 98 per cent	Overall satisfaction with the services provided Fifth Committee of the General Assembly: 95 per cent Committee for Programme and Coordination: 97 per cent	Overall satisfaction with the services provided Fifth Committee of the General Assembly: 100 per cent Committee for Programme and Coordination: 97 per cent	Maintain overall satisfaction with the services provided	Maintain overall satisfaction with the services provided

Deliverables

29A.41 Table 29A.10 lists all deliverables of the component.

Table 29A.10
Subprogramme 1, component 2: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**247**	**246**	**232**	**232**
1. Notes on the programme of work of the Fifth Committee of the General Assembly	125	123	125	125
2. Notes on the status of documentation of the Fifth Committee of the General Assembly	40	26	25	25
3. Procedural notes for the Chair of the Fifth Committee of the General Assembly	40	48	40	40
4. Notes on the programme of the work of the Committee for Programme and Coordination	20	26	20	20
5. Notes on the status of documentation of the Committee for Programme and Coordination	2	2	2	2
6. Procedural notes for the Chair of the Committee for Programme and Coordination	20	21	20	20
Conference and secretariat services for meetings (number of three-hour meetings)	**200**	**168**	**200**	**200**
7. Meetings of the Fifth Committee of the General Assembly	160	123	160	160
8. Meetings of the Committee for Programme and Coordination	40	45	40	40
D. Communication deliverables				
Digital platforms and multimedia content: websites of the Fifth Committee of the General Assembly and the Committee for Programme and Coordination; and updates of information on e-deleGATE, the *Journal of the United Nations* and iGov.				
E. Enabling deliverables				
Consultation, advice and advocacy: advice to 15 Bureau members; consultation and advice to approximately 100 coordinators; and response to queries from and provision of advice to individual delegations on historical proceedings of the two Committees.				

Component 3
Management advisory services

Objective

29A.42 The objective, to which this component contributes, is to advance the transparency of administrative decision-making, fairness, integrity and the resilience of the Organization to deliver on its mandates.

Strategy

29A.43 To contribute to the objective, the component will:

(a) Strengthen the Organization's resilience, including its preparedness to maintain business continuity in emergencies and to continually adapt to changing environments, risks and opportunities;

(b) Improve the overall quality of the acquisition process and reflect those improvements in substantive policy and guidance-related recommendations, including through the use of data analytics;

(c) Objectively analyse the facts presented in requests for a management evaluation vis-à-vis the legal framework of the Staff Regulations and Rules of the United Nations and provide the requesting staff member with a reasoned, comprehensive evaluation conveying the basis for the recommendation of the Management Advice and Evaluation Section on the case.

29A.44 The above-mentioned work is expected to result in:

(a) A more resilient, agile and sustainable Organization and an innovative and thriving workforce that delivers results;

(b) An Organization better prepared for complex and long-term emergencies;

(c) A strengthened acquisition and asset disposal process;

(d) The early resolution of disputes that arise from decisions taken in the Administration on a staff member's employment;

(e) Greater staff awareness of the internal justice system.

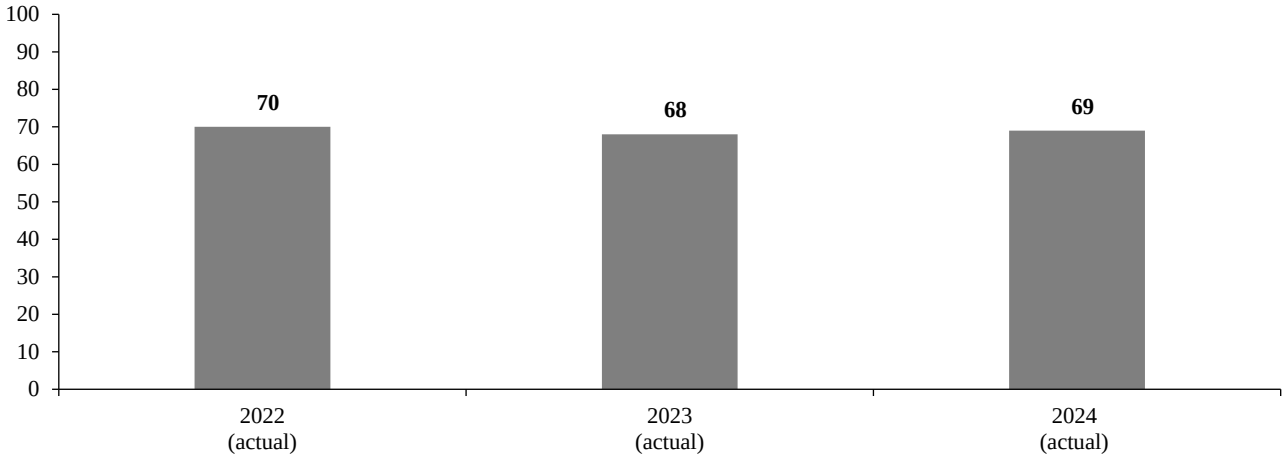
Programme performance in 2024

Consistently high level of cases pre-cleared by the Headquarters Committee on Contracts

29A.45 The Headquarters Committee on Contracts reviews and provides written advice on procurement actions to ensure that the acquisition process adheres to the procurement principles of the United Nations. In 2024, the component maintained a high level of pre-cleared cases to assist entities in meeting their operational mandates. Pre-cleared cases allow for efficient review and thus contribute to expedited procurement. The high level of pre-cleared cases resulted from establishing operational procedures and enhancing the training provided to members of the Headquarters Committee on Contracts on the review and clearance of cases.

29A.46 Progress towards the objective is presented in the performance measure below (see figure 29A.II).

Figure 29A.II
Performance measure: percentage of pre-cleared cases (annual)



Planned results for 2026

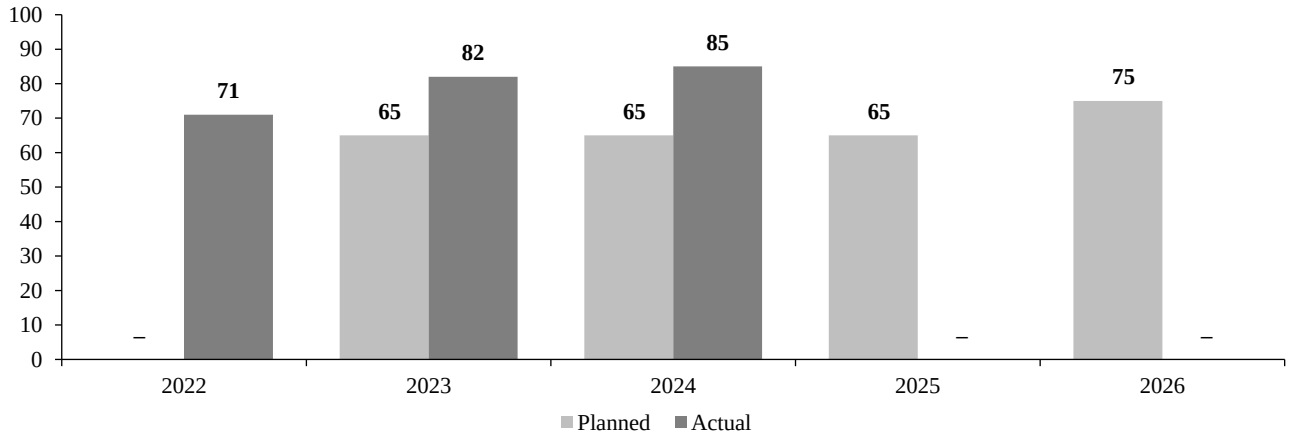
Result 1: early resolution of staff-related disputes without proceeding to litigation

Programme performance in 2024 and target for 2026

29A.47 The component's work contributed to 85 per cent of cases subject to management evaluation not proceeding to litigation, which exceeded the planned target of 65 per cent.

29A.48 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29A.III).

Figure 29A.III
Performance measure: percentage of cases submitted for management evaluation that did not proceed to the United Nations Dispute Tribunal for formal litigation (annual)



Result 2: organizational resilience management system is institutionalized in United Nations system organizations

Programme performance in 2024 and target for 2026

29A.49 The subprogramme's work contributed to the adoption of new practices by United Nations system organizations relating to the organizational resilience management system, such as the development and sharing of software for automated business continuity planning, which met the planned target.

29A.50 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29A.11).

Table 29A.11
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Online organizational resilience management system repository available to enhance information-sharing	United Nations system organizations develop and share software for automated business continuity planning	United Nations system organizations adopt additional new practices relating to the organizational resilience management system	United Nations system organizations adopt additional new practices relating to the organizational resilience management system

Result 3: recommendations of the Headquarters Committee on Contracts accepted by delegated officials

Proposed programme plan for 2026

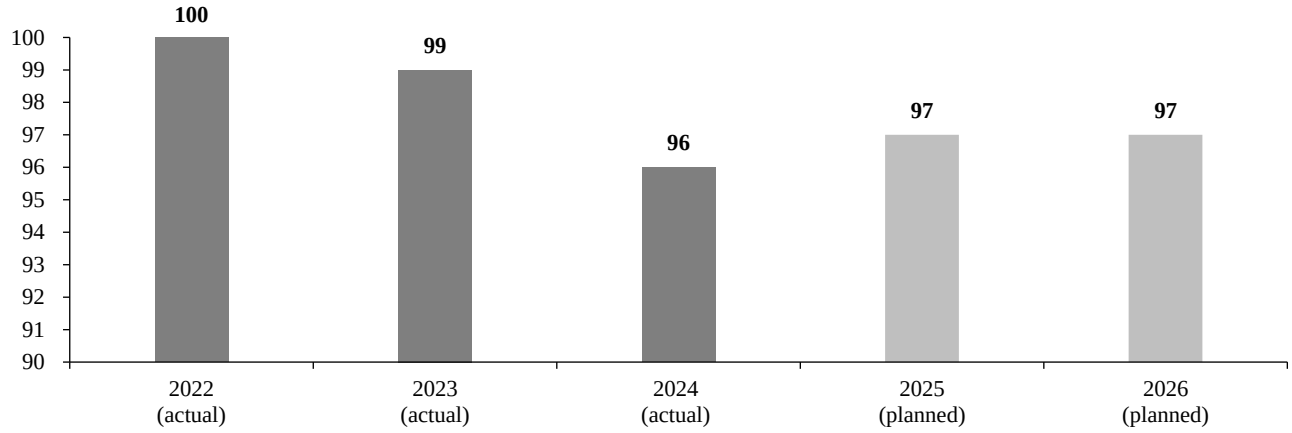
29A.51 The component supports the Headquarters Committee on Contracts, which provides written advice to delegated officials on procurement action leading to the awarding or amendment of high-value contracts and ensures that the procurement process adheres to the general procurement principles of the United Nations.

Lessons learned and planned change

29A.52 The lesson for the component was that concise and clear minutes allow delegated officials to better understand the Committee's recommendations and the reasoning therefor. In applying the lesson, the component will work towards enhancing the quality of minutes by collecting feedback from the delegated officials and providing additional training to the secretaries of the Committee.

29A.53 Expected progress towards the objective is presented in the performance measure below (see figure 29A.IV).

Figure 29A.IV
Performance measure: percentage of recommendations accepted by delegated officials (annual)



Deliverables

29A.54 Table 29A.12 lists all deliverables of the component.

Table 29A.12
Subprogramme 1, component 3: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	–	–	**1**	–
1. Progress report on the implementation of the organizational resilience management system for consideration by the General Assembly	–	–	1	–
Substantive services for meetings (number of three-hour meetings)	–	–	**2**	–
2. Meetings of the Fifth Committee of the General Assembly	–	–	1	–
3. Meetings of the Advisory Committee on Administrative and Budgetary Questions	–	–	1	–
E. Enabling deliverables				
Administration: administration of and support for the Management Advice and Evaluation Section's case management system; training and guidance for members of 29 local committees on contracts and 33 local property survey boards; and related training and guidance.				
Internal justice and oversight: recommendations on requests for management evaluation of contested administrative decisions; responses to requests for suspension of action in cases involving separation from service of staff members; substantive and technical servicing of the Headquarters Committee on Contracts and of the Headquarters Property Survey Board; reports on the functioning of the local committees on contracts; and annual reporting to the United Nations Environment Programme on Secretariat-wide environmental sustainability performance.				

Subprogramme 2
Programme planning, finance and budget

Component 1
Finance

Objective

29A.55 The objective, to which this component contributes, is to secure the financing of the Organization's expenses, pursuant to Article 17 of the Charter of the United Nations, and to ensure sound, effective and efficient integrated financial management of and reporting on United Nations resources, supported by a strong internal control environment.

Strategy

29A.56 To contribute to the objective, the component will:

(a) Ensure the proper application of the Financial Regulations and Rules of the United Nations, adapt policies relating to financial matters in response to emerging issues and strengthen the system of internal controls in support of the efficient management of resources in the context of the decentralized delegation of authority framework;

(b) Provide effective support to the Committee on Contributions, ensure the timely issuance of assessments, provide up-to-date information on the status of assessed contributions and closely monitor and forecast the collection of assessments and manage cash outflows on the basis of liquidity forecasts;

(c) Prepare International Public Sector Accounting Standards (IPSAS)-compliant financial statements for the Organization, focusing on transparency, by incorporating a financial discussion and an analysis statement, as well as ensuring that updates to accounting standards are operationalized and that all entities are appropriately guided in year-end requirements for the preparation of financial statements and are supported in the establishment, management and reporting of the extrabudgetary funds of the Organization;

(d) Manage financial risks through sound financial processes, investment management, global cash management and global banking management;

(e) Coordinate and manage the group health and life insurance programmes and provide services to the Advisory Board on Compensation Claims and the United Nations Claims Board, and administer related compensation payments;

(f) Provide governance of finance master data to ensure the integrity, standardization and harmonization of data across the enterprise resource planning system;

(g) Provide procedures, guidance and support for Umoja finance processes to ensure effective and efficient financial management.

29A.57 The above-mentioned work is expected to result in:

(a) Prudent financial management of the resources entrusted to the Secretariat;

(b) A strengthened system of internal controls that supports better programme performance management and compliance with the regulatory framework;

(c) Increased transparency and simplification of financial processes and reporting;

(d) Effective and efficient financial procedures;

(e) Better positioning of the Organization to respond to external shocks.

Programme performance in 2024

Integrity of financial postings maintained during critical system enhancements

29A.58 In preparation for the release of Umoja enhancement package 8 in April 2024, the component completed multiple test activities to ensure the integrity of financial postings generated in financial ledgers for finance and non-finance processes and put in place a risk mitigation plan for all entities using Umoja to mitigate risks during the announced system blackout period.

29A.59 Progress towards the objective is presented in the performance measure below (see table 29A.13).

Table 29A.13
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Integrity of financial postings maintained throughout the Umoja upgrade

Planned results for 2026

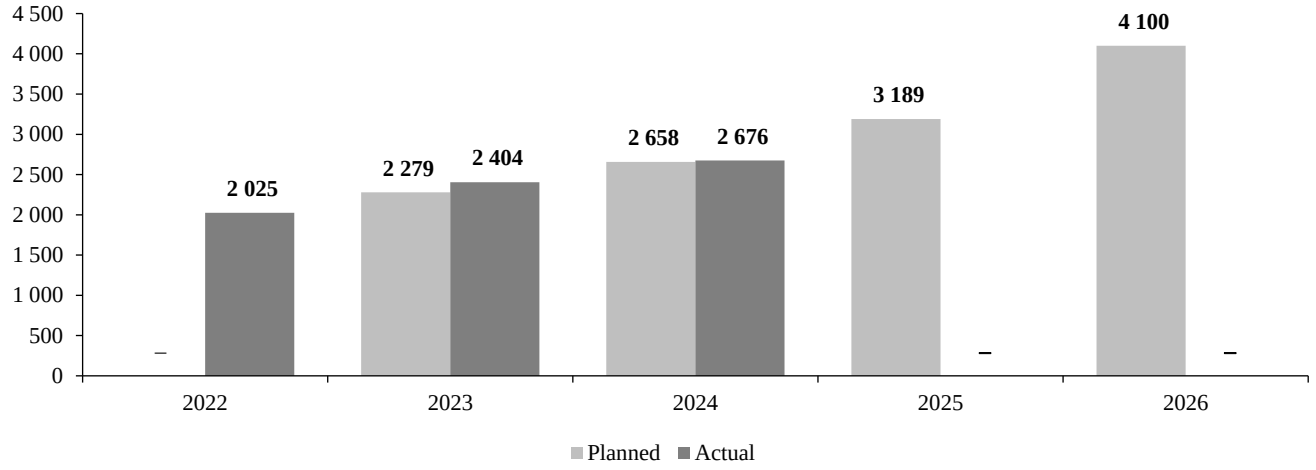
Result 1: Finance Knowledge Gateway: an integrated digital platform and United Nations global community for Umoja finance users

Programme performance in 2024 and target for 2026

29A.60 The component's work contributed to 2,676 visits to the Finance Knowledge Gateway platform, which exceeded the planned target of 2,658.

29A.61 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29A.V).

Figure 29A.V
Performance measure: increased use of the Finance Knowledge Gateway platform to resolve finance-related issues (annual)
(Number of site visits to the Finance Knowledge Gateway platform)



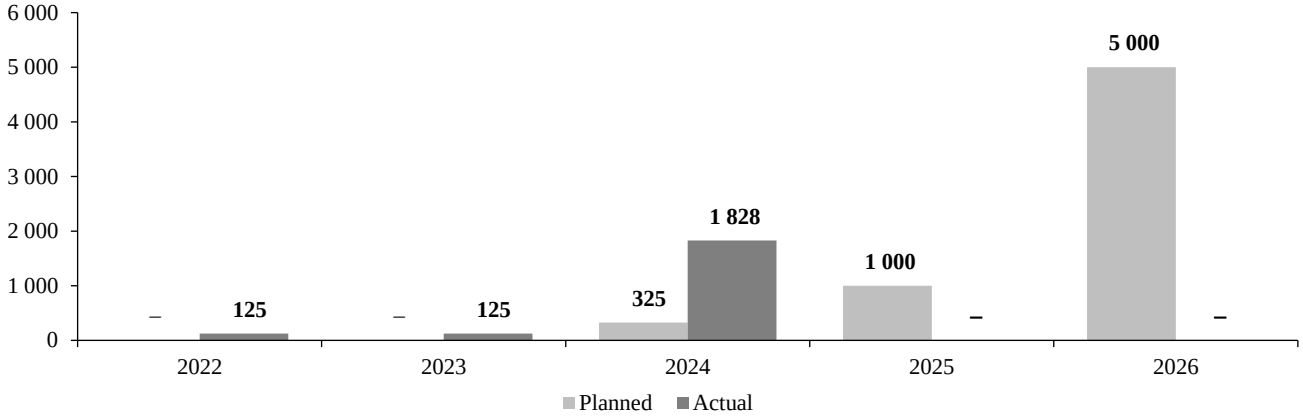
Result 2: improved client experience with United Nations global payment systems

Programme performance in 2024 and target for 2026

29A.62 The component's work contributed to 1,828 individual clients using debit cards and digital wallets as a preferred mode of payment, which exceeded the planned target of 325 clients.

29A.63 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29A.VI).

Figure 29A.VI
Performance measure: number of individual clients using debit cards and digital wallets as a preferred mode of payment (annual)



Result 3: implementation of approved updates to the International Public Sector Accounting Standards and impact analysis of upcoming changes

Proposed programme plan for 2026

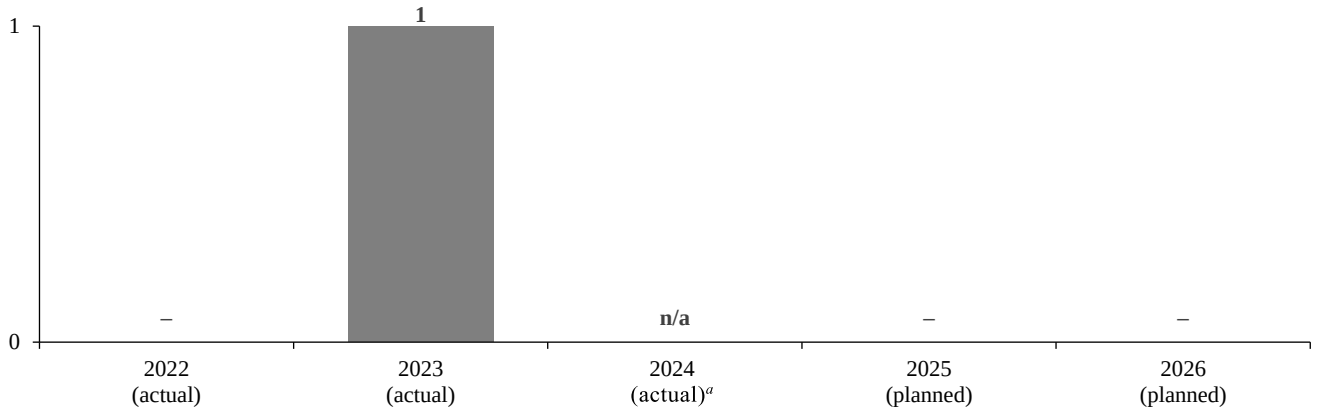
29A.64 Significant changes in IPSAS are expected in the areas of lease accounting (IPSAS 43, effective 2025) revenue (IPSAS 47, effective 2026) and transfer expenses (IPSAS 48, effective 2026), which will entail updates to existing processes through the development of corporate guidance documents, system enhancements and targeted training for affected entities. In addition, preparations will start for upcoming changes in sustainability reporting under IPSAS.

Lessons learned and planned change

29A.65 The lesson for the component was the need to plan and ensure that sufficient resources are available for changes in IPSAS and ensure that appropriate guidance related to the changes is provided to entities. In applying the lesson, the component will update accounting guidance documents, enhance the Umoja system and train affected entities.

29A.66 Expected progress towards the objective is presented in the performance measure below (see figure 29A.VII).

Figure 29A.VII
Performance measure: number of audit recommendations related to implementation of the International Public Sector Accounting Standards (annual)



Abbreviation: n/a, not applicable.

[a] The financial statements of the United Nations, volume I, for the year ended 31 December 2024 will be audited in April and May 2025.

Deliverables

29A.67 Table 29A.14 lists all deliverables of the component.

Table 29A.14
Subprogramme 2, component 1: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**11**	**11**	**12**	**11**
1. Annual financial reports to the General Assembly	2	2	2	2
2. Reports on multi-year payment plans and the financial situation of the United Nations to the General Assembly	3	3	3	3
3. Report on improving the financial situation of the United Nations to the General Assembly	–	–	1	–
4. Financial statements on United Nations peacekeeping and non-peacekeeping operations to the General Assembly	6	6	6	6
Substantive services for meetings (number of three-hour meetings)	**22**	**26**	**22**	**25**

Technical materials (number of materials)	**780**	**770**	**855**	**725**
9. Monthly reports on the status of contributions	12	12	12	12
10. Documents on the assessment of the contributions of Member States to the United Nations	13	15	13	13
11. Donor financial reports	755	743	830	700

Category and subcategory	2024 planned	2024 actual	2025 planned	2026 planned

C. Substantive deliverables

Consultation, advice and advocacy: advice to donors on the financial arrangements and status of voluntary contributions, as required; and ad hoc information on the scale of assessments, peacekeeping financing and the status of contributions.

E. Enabling deliverables

Administration:

Advice to departments and offices on the application of the Financial Regulations and Rules of the United Nations, accounting and financial matters and related systems; advice on IPSAS compliance to the United Nations finance community; monitoring and support for global bank reconciliation processes and global physical and intangible assets analysis, accounting and reporting support; global finance Umoja production support for integrated finance processes, including managing and testing Umoja enterprise resource planning system updates; Umoja finance operational guidance on the Finance Knowledge Gateway, including training materials and videos; processing of approximately 20,000 transactions serviced by the United Nations Development Programme; financial management support for the Development Coordination Office and the United Nations Office for Partnerships; CEB reporting frameworks; and processing of over 3,000 transactions for advances and payments to implementing partners as well as refunds of unspent balances.

Assessment calculations for contributions of Member States for the regular budget, the Peacebuilding Fund, peacekeeping operations and the international tribunals; and calculations for credits for peacekeeping operations.

Guidance on the interpretation of the Financial Regulations and Rules and financial management policies, procedures and guideline instruments; advice on the interpretation of the delegation of authority framework (finance-related); issuance of the statement of internal control and 3 technical documents, guidance and advocacy on the internal control framework and consultations with the Internal Control Advisory Group; roll-out of the process control component of the Umoja Governance, Risk and Compliance module to offices and departments; workshop on cross-cutting analysis on the implementation of internal controls in peacekeeping and non-peacekeeping operations; advice to Member States and United Nations offices on the management of extrabudgetary resources; accounting policies and associated corporate guidance, practices and procedures; 5 workshops on financial matters for chief finance officers and 68 chief administrative officers; reports on cases of fraud and presumptive fraud to the Board of Auditors; Umoja finance process documents; maintenance of Umoja finance master data; and Umoja financial help desk and user access provisioning requests for finance roles in Umoja.

Manage bank accounts worldwide, including bank account signatory panels; banking arrangements and contracts; payments for the house bank accounts; records of incoming funds; bank reconciliation processes; cash requirements in various currencies; database on banking details of vendors, staff and Member States; management of pooled investments; monthly United Nations operational rates of exchange for 153 currencies; Umoja finance processes; financial applications; SWIFT and global payment data; substantive support for departments on business analysis; health and life insurance policies and related activities; processing of compensation claims under Appendix D to the Staff Rules and the United Nations Claims Board, including payment of benefits; approximately 700 investment settlements; and approximately 5,000 foreign exchange transactions.

Component 2
Field operations finance

Objective

29A.68 The objective, to which this component contributes, is to ensure effective and efficient deliberations by Member States on the results to which the field and other Secretariat entities contribute, and on the resources required for the work of those entities in line with their mandates, and to ensure the effective and efficient management of resources.

Strategy

29A.69 To contribute to the objective, the component will provide strategic guidance on budgeting and financial stewardship and develop policies, methodologies and tools in that regard, in particular:

(a) Provide strategic guidance on financial management and financing issues, especially on cross-cutting initiatives affecting field operations, including guidance on formulating human resources requirements, corporate initiatives, financial strength and liquidity and strengthening of internal controls, and timely, high-quality, simplified and action-oriented responses to

managers in the field; monitor the liquidity of individual special accounts; and oversee cash-flow and operating reserves for field operations;

(b) Provide strategic guidance on global property management and real estate services, including oversight of major construction projects and long-term capital planning;

(c) Provide expert advice and guidance on property management and review financial data for accurate recording and for compliance with IPSAS and the established property management performance framework for Secretariat entities, and ensure the central supervision of projects, including by incorporating risk management principles and lessons learned in decision-making.

29A.70 The above-mentioned work is expected to result in client entities effectively and efficiently managing their resources within the approved levels, with improved accuracy in forecasts and proposals.

Programme performance in 2024

One-stop support to capital construction projects

29A.71 In 2024, the component assumed an expanded role that encompasses the finance and budget aspects of Headquarters support functions for major construction projects, in addition to its previous role of providing technical guidance and support. The component also assumed responsibility for the end-to-end process of preparing the annual progress reports of major capital projects, including servicing legislative and expert bodies during their review and approval of such reports. This streamlined workflow provided all project teams with a one-stop shop at Headquarters and also enabled the reports to be made available earlier, ensuring timely consideration and decision-making by the legislative bodies.

29A.72 Progress towards the objective is presented in the performance measure below (see table 29A.15).

Table 29A.15
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	One-stop shop for construction project teams, encompassing both financial and technical advisory support

Planned results for 2026

Result 1: smooth deliberations of legislative bodies on special political missions facilitated through proactive servicing

Programme performance in 2024 and target for 2026

29A.73 The component's work contributed to more meaningful information and enhanced performance reporting being available to the legislative bodies, which met the planned target.

29A.74 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29A.16).

Table 29A.16
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
First informal pre-session briefing held for the Fifth Committee ahead of the introduction of the budgets of special political missions, contributing to increased ability of legislative bodies to analyse evolving trends in the budgets of special political missions	Increased clarity and depth of the budget information available to legislative bodies	More meaningful information on the evolution of financial resources and performance reporting for field-based missions for air operations, mine action and construction projects provided to legislative bodies	Legislative bodies receive focused, timely information to facilitate smooth deliberations on special political missions	Legislative bodies receive detailed information through the Umoja Budget Information Pilot to facilitate smooth deliberations on special political missions

Result 2: coordination and exchanges towards synergy and standardization in facilities management

Programme performance in 2024 and target for 2026

29A.75 The component's work contributed to the exchange of good practices and the exploration of opportunities for synergy and standardization through the meeting of the Inter-Agency Network of Facilities Managers, which met the planned target.

29A.76 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29A.17).

Table 29A.17
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Meeting of the Inter-Agency Network of Facilities Managers enables the exchange of good practices and the exploration of opportunities for synergy and standardization in facilities management	Promulgation of good practices and frequent exchanges contribute to synergy and standardization, and showcase opportunities for improved efficiency and effectiveness in facilities management	Mutual learning by facilities managers within the community

Result 3: quality and cost-efficient capital construction projects of the Organization

Proposed programme plan for 2026

29A.77 In its resolution 79/258, the General Assembly emphasized that the Global Asset Management Policy Service should continue to be actively involved in overseeing projects to ensure the central supervision of capital projects, including risk management and alignment with lessons learned. The component identified ways to further strengthen policy guidance to entities in planning and executing major capital projects.

Lessons learned and planned change

29A.78 The lesson for the component was that the completion of four major construction projects in 2024 and 2025 presented an important opportunity to systematically collect, analyse and promulgate lessons learned and best practices. In applying the lesson, the component will conduct a lessons-learned exercise and undertake a review of approaches and processes in the implementation of capital projects, with the aim of producing updated guidelines for the management of construction projects in 2026.

29A.79 Expected progress towards the objective is presented in the performance measure below (see table 29A.18).

Table 29A.18
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Implementation of six ongoing capital projects, drawing on past lessons learned since the capital master plan	Implementation of six ongoing capital projects, drawing on past lessons learned since the capital master plan	Implementation of six ongoing capital projects, drawing on past lessons learned since the capital master plan	Ongoing capital projects implemented, drawing on lessons learned from ongoing projects	Entities are supported to plan and implement capital projects in a coherent manner on the basis of enhanced guidelines

Deliverables

29A.80 Table 29A.19 lists all deliverables of the component.

Table 29A.19
Subprogramme 2, component 2: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**41**	**50**	**39**	**44**
1. Reports to the General Assembly on the proposed budget and budget performance of United Nations peacekeeping operations	22	22	21	21
2. Report to the General Assembly on the updated financial position of closed peacekeeping missions	1	1	1	1
3. Reports to the General Assembly on the final disposition of assets and final performance of peacekeeping missions in liquidation	1	1	–	–
4. Reports to the General Assembly on the administrative and budgetary aspects of the financing of peacekeeping operations	7	7	7	7

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
5. Notes to the General Assembly on the administrative and budgetary aspects of the financing of peacekeeping operations	4	4	4	4
6. Reports to the General Assembly on estimates in respect of special political missions, good offices and other political initiatives authorized by the General Assembly and/or the Security Council	6	9	6	5
7. Reports to the General Assembly on major construction projects	–	6	–	6
Substantive services for meetings (number of three-hour meetings)	**70**	**85**	**73**	**92**
8. Meetings of the Fifth Committee of the General Assembly	45	39	52	40
9. Meetings of the Advisory Committee on Administrative and Budgetary Questions	25	46	21	52

C. Substantive deliverables

Consultation, advice and advocacy: consultations with all Member States on financial matters regarding field operations; specific consultations with all troop- and police-contributing countries on liabilities of missions; and advice to substantive committees of the General Assembly on potential budgetary implications.

E. Enabling deliverables

Administration: advice and guidance on budgeting and financial stewardship for active field operations; quarterly payments to troop- and police-contributing countries; formulation of resource requirements to support the assessment and planning for new, expanding, transitioning and liquidating field operations; policy, guidance and training on property management, including the Property Management Manual and performance monitoring and reporting; supplemental instructions for preparation of IPSAS financial reports on property, plant and equipment; advice and support on Umoja relating to property management; and oversight and technical guidance on major capital projects, ongoing maintenance and alteration projects.

Component 3
Programme planning and budgeting

Objective

29A.81 The objective, to which this component contributes, is to ensure the effective and efficient deliberations by Member States on the results to which the Secretariat contributes, on the translation of mandates into programme plans and on the resources required for the work of the Secretariat in line with its mandates, and to ensure the effective and efficient management of resources and transparent reporting thereon.

Strategy

29A.82 To contribute to the objective, the component will:

(a) Issue strategic guidance on the preparation of the proposed programme budget and the proposed budget of the International Residual Mechanism for Criminal Tribunals and engage with Member States from the early stages of the budget process;

(b) Finalize and present to the legislative bodies the Secretary-General's annual proposed programme budget and the proposed budget of the International Residual Mechanism for Criminal Tribunals, the budget performance reports and other reports on budgetary matters, including statements of programme budget implications and revised programme budget proposals, in accordance with the Financial Regulations and Rules of the United Nations, the Regulations and Rules Governing Programme Planning, the Programme Aspects of the Budget, the Monitoring of Implementation and the Methods of Evaluation and applicable resolutions of the General Assembly;

(c) Provide information to Member States on the potential budgetary implications of draft resolutions of the General Assembly and its Main Committees, the Economic and Social Council, the Human Rights Council and other legislative organs;

(d) Provide substantive services on programme planning and budgetary matters to the Fifth Committee of the General Assembly, the Committee for Programme and Coordination and the Advisory Committee on Administrative and Budgetary Questions and provide online tools accessible to Member States in order to facilitate deliberations;

(e) Provide strategic guidance on budgeting and financial stewardship, including on managing spending authorities, develop policies, methodologies and tools in that regard and provide advice on all budgetary matters.

29A.83 The above-mentioned work is expected to result in:

(a) Increased transparency and strengthened dialogue between the Secretariat and Member States;

(b) Efficient and effective implementation of programmes while ensuring the prudent use of resources;

(c) Improved accuracy of programme budgets.

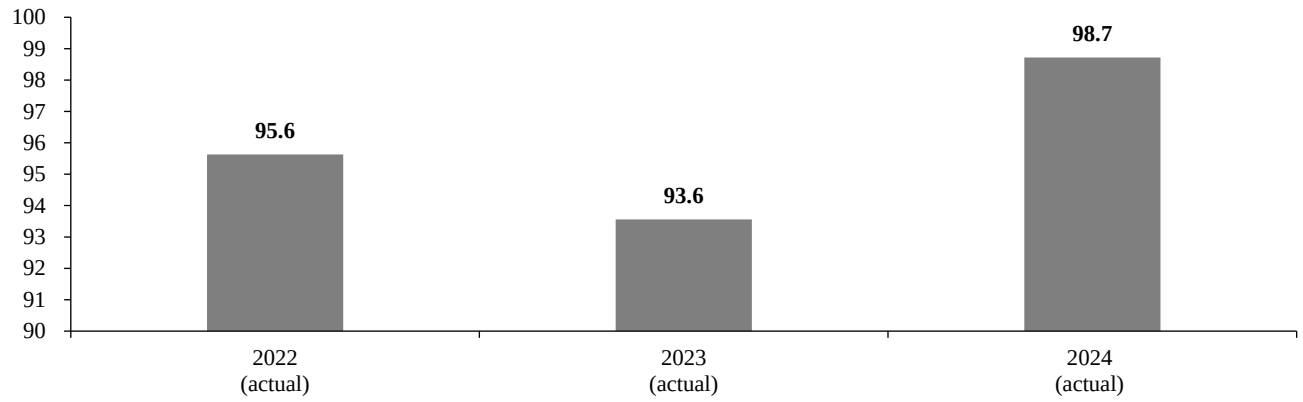
Programme performance in 2024

Increased visibility on overall programme budget resource requirements before the start of the main part of the General Assembly session

29A.84 A portion of the overall resources proposed by the Secretary-General for the programme budget is not known to the Member States at the time the Secretary-General introduces the proposed programme budget to the Fifth Committee, due to the revised estimates reports and statements of programme budget implications that are presented later in the main part of the General Assembly session. In 2024, the component introduced two changes in the timeline of the presentation of some resource requirements which mitigated this shortcoming. First, the component included in the proposed programme budget the estimated resource requirements related to the mandates to be renewed by the Human Rights Council during the year, rather than in the revised estimates report later in the session. Second, unlike in prior years, the recosting report was issued in September 2024 before the start of the main part of the session, in line with Assembly resolution 78/252. These changes resulted in increased visibility for Member States on the overall resources requirements of the proposed programme budget by the time the Secretary-General introduced the proposal to the Fifth Committee in mid-October.

29A.85 Progress towards the objective is presented in the performance measure below (see figure 29A.VIII).

Figure 29A.VIII
Performance measure: percentage of the overall recosted programme budget resources proposed by the Secretary-General known to Member States at the time of their introduction by the Secretary-General to the Fifth Committee



Planned results for 2026

Result 1: improved accuracy of budget proposals

Programme performance in 2024 and target for 2026

29A.86 The component's work contributed to an enhanced and more tailored recosting methodology, in particular the introduction of recosting for the income sections and a refined approach for the estimation of vacancy rates and of common staff costs for infrequent items with high cost, for example terminations, which met the planned target.

29A.87 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29A.20).

Table 29A.20
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Budget approved based on the consumer price index and tailored recosting for energy and travel	Budget reflecting improved accuracy of recosting estimates, based on the comparison of estimated and actual impact of recosting (A/78/614, annex II)	The application of a tailored recosting methodology to a select group of items resulted in a lower variance between the estimated and actual impact of recosting	Reduced variances between the estimated and actual impact of recosting	Continued reduction of variances between the estimated and actual impact of recosting

Result 2: enhanced transparency on the programme budget implications process for Member States

Programme performance in 2024 and target for 2026

29A.88 The subprogramme's work contributed to all six Main Committees receiving a briefing opportunity early in their sessions on the programme budget implications process, which met the planned target. Four Main Committees received such briefings. The two remaining Main Committees extended their appreciation for the opportunity and requested that the briefings be organized in advance of the next session.

29A.89 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29A.21).

Table 29A.21
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
One Main Committee (Fifth Committee) receives a briefing, at its request, on the programme budget implications process	Three Main Committees (Third, Fifth and Sixth Committees) receive a briefing, at their request, on the programme budget implications process	All six Main Committees receive a briefing opportunity early in their sessions on the programme budget implications process Four Main Committees receive a briefing	Member States from all six Main Committees have access to information at the start of their session on the programme budget implications process through a detailed guide available on a portal	Member States have access to a detailed guide on the programme budget implications process

Result 3: enhanced budgetary information available on the Budget Information Pilot to support Member States' decision-making

Proposed programme plan for 2026

29A.90 The provision of accurate and comprehensive budgetary data is a requirement for well-informed decisions by the Member States on the programme budget. The component has made information available online through the Budget Information Pilot in Umoja and has continuously increased the functionalities of the module.

Lessons learned and planned change

29A.91 The lesson for the component was that the information available to Member States through the Budget Information Pilot was not always uploaded in a timely manner and was not always easy to analyse. In applying the lesson, the component will continue to enhance the content of the Budget Information Pilot while ensuring that the information is available in a timely, granular and comparable manner to inform Member States' decision-making.

29A.92 Expected progress towards the objective is presented in the performance measure below (see table 29A.22).

Table 29A.22
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Limited information available in the Budget Information Pilot	New content available in a timely manner in the Budget Information Pilot, leading to a 5 per cent increase in usage	Enhanced content in the Budget Information Pilot enables greater analysability of data, leading to a 10 per cent increase in usage

Deliverables

29A.93 Table 29A.23 lists all deliverables of the component.

Table 29A.23
Subprogramme 2, component 3: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**84**	**76**	**85**	**76**
Reports to:				
1. The General Assembly on the proposed programme budget, including programme plan and performance information	47	47	47	47
2. The General Assembly on the proposed budget, revised estimates and performance information for the International Residual Mechanism for Criminal Tribunals	3	2	3	2
3. The General Assembly on revised estimates resulting from resolutions and decisions adopted by the Economic and Social Council and the Human Rights Council	3	2	2	2
4. The General Assembly on the programme budget implications of draft resolutions	13	15	15	15
5. The General Assembly on financial and budgetary matters	18	10	18	10
Substantive services for meetings (number of three-hour meetings)	**202**	**187**	**179**	**187**
6. Meetings of the Fifth Committee of the General Assembly and the Committee for Programme and Coordination	107	92	91	92
7. Meetings of the Advisory Committee on Administrative and Budgetary Questions	95	95	88	95
B. Generation and transfer of knowledge				
Technical materials (number of materials)	**116**	**137**	**152**	**139**
8. Oral statements of programme budget implications arising from draft resolutions	104	125	129	125
9. Letters to the Advisory Committee on Administrative and Budgetary Questions on extrabudgetary posts or positions at the level of D-1 and higher	12	12	22	12
10. Guidance material on the programme budget implications process	–	–	1	1
11. Updated standard operating procedure on spending reviews	–	–	–	1
C. Substantive deliverables				
Consultation, advice and advocacy: briefings for Member States on programme planning and budgetary matters, including training sessions for new delegates; advice on potential budgetary implications of approximately 750 draft resolutions and decisions of the Main Committees of the General Assembly; and approximately 5,600 written responses to the Advisory Committee on Administrative and Budgetary Questions and the Fifth Committee.				
E. Enabling deliverables				
Administration: advice and guidance on budgetary issues and policies relating to programme planning and budgeting for 28 programmes and 41 budget sections; and workshops to support entities' spending reviews.				

Subprogramme 3
Human resources

Component 1
Global strategy and policy

Objective

29A.94 The objective, to which this component contributes, is to ensure a decentralized, agile, field-focused management paradigm for the effective and transparent management of human resources and a high-performing, diverse and engaged workforce.

Strategy

29A.95 To contribute to the objective, the component will further develop, update and enhance the recruitment system to ensure that it is effective, fair, efficient and agile and to enable the United Nations to have a diverse workforce and foster a culture of ethics, integrity, transparency and accountability in the Organization. Specifically, the component will:

(a) Steer efforts for equitable geographical distribution under the system of desirable ranges, in accordance with General Assembly resolution 77/278;

(b) Provide strategic guidance on human resources supported by an enabling policy framework to fulfil entities' mandates, in which team, individual and organizational performance are aligned and human resources risks are transparently and effectively managed; and foster innovation as a means of improving programmatic delivery of human resources in support of cultural change across the Organization;

(c) Establish strategic policy imperatives anchored in guidance and feedback from entities, in particular from the field, continue to provide authoritative policy interpretation to ensure consistency, fairness and the equitable treatment of staff in the global Secretariat, and oversee the setting of salaries and benefits for locally recruited staff members by applying methodologies established by the International Civil Service Commission;

(d) Actively engage on all aspects of relations between staff and management and work with other organizations of the United Nations common system on salaries and allowances to advance the work of the High-level Committee on Management and the Human Resources Network of CEB, and through the International Civil Service Commission, including by leading the implementation of the United Nations workplace mental health and well-being strategy across the United Nations system;

(e) Further develop efforts towards mutual recognition over time, which calls for entities within the United Nations common system to operate according to the principle of mutual recognition of best practices in terms of policies and procedures, and lead efforts to enhance harmonization and improve efficiency in the United Nations system;

(f) Improve talent management in the Organization and, in particular, work towards implementing the new approach to mobility and organizational learning, developing a new staff selection system that is effective, fair, efficient and agile, and that enables the Organization to have a diverse workforce, adopting approaches that incorporate new values and behaviours into talent management and strengthening the performance management framework;

(g) In line with action 45 (a) of the Pact for the Future, engage in talent management actions, such as the upskilling and reskilling of staff or the creation of new job profiles, to enable the workforce of the Organization to meet the future demands identified through strategic workforce planning, and to attract and retain the best talent with due regard to geographical representation and gender parity priorities;

(h) Provide workforce data to external stakeholders for analyses of staff and affiliated personnel demographics, Member State representation and workforce trends.

29A.96 The above-mentioned work is expected to result in:

(a) A culture of staff mobility that accelerates the mobility process across the Organization, in particular movements between Headquarters and field duty stations;

(b) Talent acquisition focused on current workforce capability needs, anticipation of future needs and enhancement of existing talent through learning and development, mobility and effective performance management and career satisfaction support;

(c) Gender parity at all levels;

(d) Recruitment of staff on as wide a geographical basis as possible, a reduced number of unrepresented and underrepresented Member States, and progress made on bringing as many Member States as possible within their desirable range.

Programme performance in 2024

Business continuity and staff safety and well-being through human resources support in relation to emergencies

29A.97 In 2024, the component provided support for staff members in response to emergencies in Haiti, Israel and the Occupied Palestinian Territory, Lebanon, the Sudan and the Syrian Arab Republic. Support was provided to relevant entities through policy advice and the development of the CEB Human Resources Network administrative guidelines. The guidelines contained a summary of the human resources policy, conditions of service and compensation measures applicable to both internationally and locally recruited staff members in affected duty stations. The guidelines were developed on the basis of input from Secretariat entities, United Nations common system organizations and staff federations. They were aimed at ensuring a harmonized and consistent approach at the country level across United Nations common system organizations and finding common solutions to concerns raised in order to preserve business continuity. The component provided ongoing authoritative policy advice and interpretation on field-related allowances and benefits. It actively supported United Nations personnel working in challenging environments by monitoring conditions and addressing their needs. This included measures such as the implementation of special temporary hardship classifications, danger pay, non-family service allowances, and rest and recuperation cycles to ensure fair compensation and staff well-being.

29A.98 Progress towards the objective is presented in the performance measure below (see table 29A.24).

Table 29A.24
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Business continuity and staff safety and well-being in emergency situations were ensured

Planned results for 2026

Result 1: a more diverse workforce

Programme performance in 2024 and target for 2026

29A.99 The subprogramme's work contributed to 26 newly developed or updated generic job profiles for programme managers, programme managers having access to analytics on geographical representation and gender statistics in the application pipeline, and qualified candidates being added to the talent pools from unrepresented and underrepresented Member States, which met the planned target.

29A.100 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29A.25).

Table 29A.25
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Strengthened recruitment process, including through the availability of the Reasonable Accommodation Guidelines	26 updated or newly developed generic job profiles for programme managers Programme managers have access to analytics on geographical representation and gender statistics in the application pipeline Qualified candidates added to the talent pools from unrepresented or underrepresented Member States	Increased prevalence of future capabilities appearing in job openings based on new generic job profiles Programme managers will have greater insight into equitable geographical distribution and gender statistics and monitor progress	Increased number of updated or newly developed generic job profiles for programme managers Increased number of staff who have completed learning activities aligned with key workforce capabilities

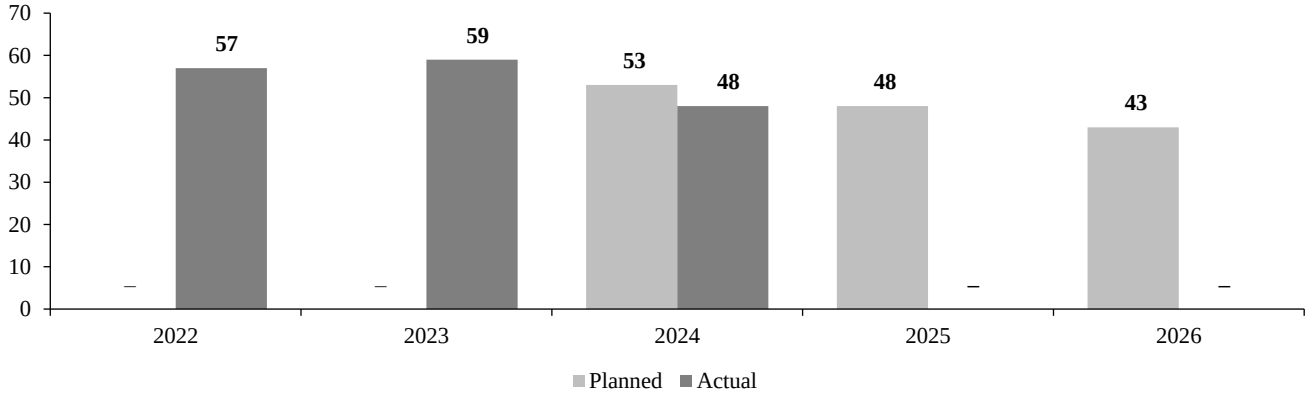
Result 2: fewer unrepresented and underrepresented Member States in the desirable ranges system

Programme performance in 2024 and target for 2026

29A.101 The subprogramme's work contributed to the inclusion of 48 unrepresented and underrepresented Member States in the desirable ranges system, which exceeded the planned target of 53.

29A.102 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29A.IX).

Figure 29A.IX
Performance measure: number of unrepresented and underrepresented Member States in the desirable ranges system (annual)



Result 3: a fair, effective, efficient and agile staff selection system

Proposed programme plan for 2026

29A.103 The component continues its efforts to attract, select and engage talented individuals who provide for the modern and future-oriented skills and capabilities needed to support the evolving work of the United Nations. In improving the staff selection system, paramount consideration is given to the necessity of securing the highest standards of efficiency, competence and integrity for building a future-ready and agile workforce, while realizing the goal of having a diverse staff. It will ensure that the staff selection system includes practices and processes that are effective, fair, efficient and agile.

Lessons learned and planned change

29A.104 The lesson for the component, based on comprehensive recruitment analyses, was the need to address systemic and structural issues in the current recruitment process to make progress towards securing the skills and capabilities needed for a future-ready workforce and achieving equitable geographical distribution. In applying the lesson, the component will work on the multi-year staff selection 2.0 programme. This initiative is aimed at establishing fair, efficient, effective and agile recruitment practices and processes aligned with securing the highest standards of efficiency, competence and integrity as stated in Article 101 of the Charter of the United Nations. The staff selection 2.0 programme includes dedicated projects to update and create future-oriented, inclusive and attractive job profiles to recruit the talented individuals needed for the jobs of today and tomorrow; implement modern and efficient screening and assessment methods, and redefine roles and responsibilities for recruiters; and establish a data platform to allow real-time monitoring of the recruitment system's accuracy, fairness and efficiency.

29A.105 Expected progress towards the objective is presented in the performance measure below (see table 29A.26).

Table 29A.26
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	–	Programme managers benefit from the advance implementation of the staff selection 2.0 programme	Programme managers further benefit from the full implementation of the staff selection 2.0 programme

Deliverables

29A.106 Table 29A.27 lists all deliverables of the component.

Table 29A.27
Subprogramme 3, component 1: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**6**	**6**	**2**	**5**
1. Reports to the General Assembly	6	6	2	5
Substantive services for meetings (number of three-hour meetings)	**129**	**106**	**129**	**133**
Meetings of:				
2. The Advisory Committee on Administrative and Budgetary Questions	6	11	6	10
3. The Fifth Committee of the General Assembly	35	37	35	35
4. The International Civil Service Commission	88	58	88	88
E. Enabling deliverables				
Administration:				
Human resources policies and procedures, including on conditions of service and delegation of authority; advice and guidance to Secretariat entities on human resources-related rules and policies; salary surveys; and provision of classification advice and related appeals.				
Talent management strategies, policies, processes and tools pertaining to workforce capabilities and skills, diversity, inclusion, mobility and outreach, leveraging innovation, creativity and best practices; partnerships with unrepresented and underrepresented Member States; outreach focused on online channels and platforms, including participation in approximately 30 career events organized with academia and professional networks; deployment of the staff selection 2.0 programme; servicing of the Staff-Management Committee; strategic workforce planning deliverables, including new and updated job profiles; workforce analytics; and Member States' dashboards of workforce demographics, including support for users in permanent missions.				
Performance management and staff development strategies, including learning initiatives to build strategic workforce capabilities and behaviour, such as leadership programmes and the senior leadership support programme; strategic advice, tools and guidance on organizational development, including the implementation of values and behaviours; workforce diversity and inclusion; professional and substantive skills development programmes, including 6 mandated corporate learning programmes and substantive skills programmes; strategies and tools for career satisfaction and staff mobility; frameworks, strategies, tools and guidance on performance management, including managerial effectiveness; enhanced learning management system; and learning needs analysis to identify high-priority and emerging staff capacity needs.				

Component 2
Administrative law

Objective

29A.107 The objective, to which this component contributes, is to strengthen accountability in line with the standards of conduct by all categories of personnel.

Strategy

29A.108 To contribute to the objective, the component will:

(a) Deploy and use a global case management system and identify lessons learned, including in relation to critical incidents involving serious reputational risks affecting the Organization's core values and norms, and develop tools and guidance material for senior leaders;

(b) Engage in capacity-building, including through the online information-sharing platform ALD Connect, direct outreach to senior managers and the ongoing development of tools and guidance materials to support senior managers in carrying out their responsibilities and exercising their authority;

(c) Review disciplinary matters for sanctioning purposes, represent the Secretary-General before the United Nations Dispute Tribunal regarding appeals against administrative decisions, continue to expand screening for integrity for the Secretariat, and continue to review and update policies relating to the conduct of personnel.

29A.109 The above-mentioned work is expected to result in:

(a) Enhanced oversight across the Secretariat and monitoring of matters that affect the reputation of the Organization, and the timely review and handling of misconduct matters;

(b) Well-informed decision-making by senior managers in relation to the management of personnel;

(c) An enhanced culture of individual accountability.

Programme performance in 2024

Improved accountability for conduct and discipline matters

29A.110 The subprogramme contributed to and supported initiatives to strengthen accountability in matters related to conduct and discipline across the Secretariat. In response to General Assembly resolutions 77/280 and 78/253, efforts were accelerated to expand the scope of ClearCheck to include all substantiated forms of misconduct, in addition to sexual harassment and sexual exploitation and abuse, in close consultation with stakeholders. The risk management toolkit was expanded to include a focus on an integrated, regional and field-based approach, data analytics was used as a risk management tool, and a digital risk assessment tool was developed.

29A.111 Progress towards the objective is presented in the performance measure below (see table 29A.28).

Table 29A.28
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Senior managers consulted the Administrative Law Division with increased frequency prior to taking sensitive conduct-related management decisions	Senior managers had a clear understanding of the administration of justice system and framework for ascertaining risks related to sensitive decisions	Senior managers regularize the practice of utilizing available tools prior to taking sensitive conduct-related decisions, resulting in strengthened decision-making and reduced risk to the Organization

Planned results for 2026

Result 1: prevention of sexual harassment in the Secretariat through a holistic, system-wide and victim-centric approach

Programme performance in 2024 and target for 2026

29A.112 The subprogramme's work contributed to increased reporting on sexual harassment, with 40 United Nations system organizations using ClearCheck, which met the planned target.

29A.113 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29A.29).

Table 29A.29
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Approximately 48 per cent increase in the number of ClearCheck screening requests received (from 81,071 in 2021 to 120,068 in 2022)	36 United Nations system organizations use ClearCheck (compared with 33 in 2022)	40 United Nations system organizations use ClearCheck	ClearCheck database includes other forms of misconduct	50 per cent of participating organizations implement expanded ClearCheck database

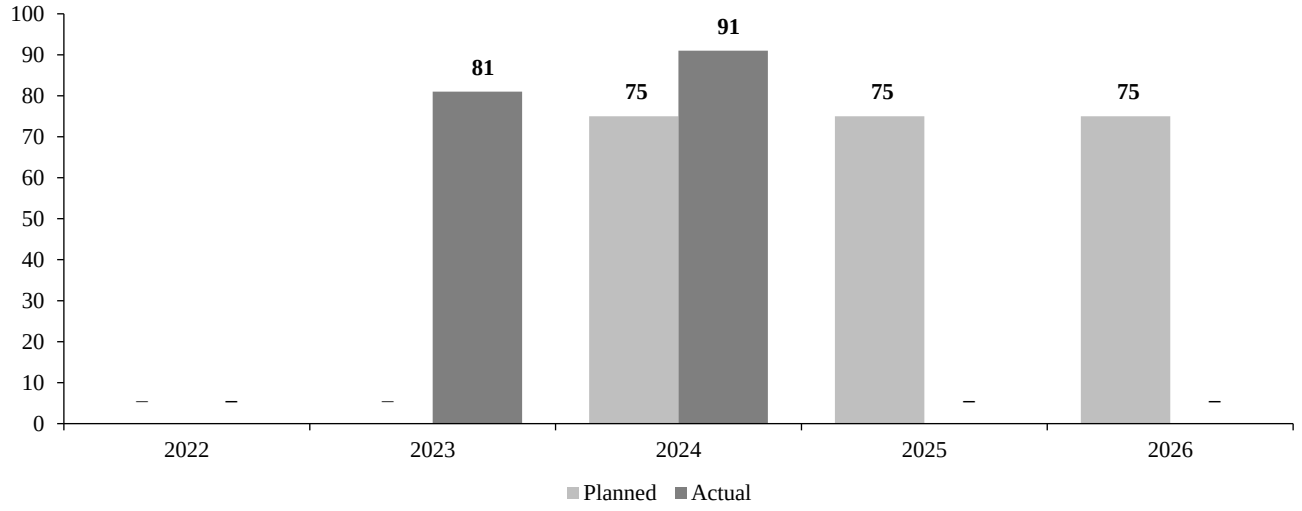
Result 2: adjustments to the Secretariat's policy framework and management practices facilitated by United Nations Dispute Tribunal judgments

Programme performance in 2024 and target for 2026

29A.114 The component's work contributed to 91 per cent of administrative decisions being upheld, which exceeded the planned target of 75 per cent.

29A.115 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29A.X).

Figure 29A.X
Performance measure: percentage of administrative decisions (non-disciplinary) of the United Nations Dispute Tribunal that are upheld (annual)



Note: The actual figure for 2023 reflects updated data.

Result 3: enhanced decision-making capacity of senior leadership in handling conduct and discipline matters

Proposed programme plan for 2026

29A.116 Leadership responsibility for creating and maintaining a harmonious work environment is built on the premise that senior-level decision makers are cognizant of the regulatory framework in place for prohibited conduct (as defined in the Secretary-General's bulletin on addressing discrimination, harassment, including sexual harassment, and abuse of authority (ST/SGB/2019/8)) and of their

specific roles and responsibilities in achieving this goal. To this end, as part of its support and advisory services, the component provides induction sessions to newly recruited senior leaders, offering a comprehensive overview of the formal and informal parts of the internal justice system.

Lessons learned and planned change

29A.117 The lesson for the component was that the induction sessions that the component currently provides to incoming leaders could be strengthened to include more practical information on handling conduct and discipline matters. In applying the lesson, the subprogramme will overhaul the induction sessions to provide heads of entity with information that would assist them in handling the common types of prohibited cases that they may face on a day-to-day basis and the types of prompt action they could take to prevent or mitigate the risk of prohibited conduct within the entity, in particular in sensitive areas involving harassment, discrimination and abuse of authority under ST/SGB/2019/8. In addition, the session will expressly cover the duty of care owed to victims of prohibited conduct and the specific tools and measures available to them.

29A.118 Expected progress towards the objective is presented in the performance measure below (see table 29A.30).

Table 29A.30
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	No appropriate action was taken by senior management in 40 per cent of cases involving prohibited conduct	Reduced percentage of cases involving prohibited conduct in which no appropriate action has been taken by senior management	Further reduction in the percentage of cases involving prohibited conduct in which no appropriate action has been taken by senior management

Deliverables

29A.119 Table 29A.31 lists all deliverables of the component.

Table 29A.31
Subprogramme 3, component 2: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**1**	**1**	**1**	**1**
1. Report for the General Assembly	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	**23**	**22**	**22**	**22**
Meetings of:				
2. The Advisory Committee on Administrative and Budgetary Questions	5	5	5	5
3. The Fifth Committee of the General Assembly	10	10	10	10
4. The Special Committee on Peacekeeping Operations	2	2	2	2
5. The Fourth Committee of the General Assembly	2	1	1	1
6. The Sixth Committee of the General Assembly	3	3	3	3
7. The Committee for Programme and Coordination	1	1	1	1

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*

C. Substantive deliverables

Consultation, advice and advocacy: advice on conduct issues to other international organizations (e.g. African Union and CEB entities); and advocacy with Member States on conduct and discipline issues.

Databases and substantive digital materials: public database and United Nations standards of conduct website.

D. Communication deliverables

Digital platforms and multimedia content: website relating to conduct and discipline.

E. Enabling deliverables

Administration: implementation and oversight, including updating, of the Organization's conduct and discipline policies; and training of the global network of conduct and discipline focal points (more than 200 practitioners).

Internal justice and oversight: representation of the Secretary-General before the United Nations Dispute Tribunal in cases challenging administrative decisions, including challenges to disciplinary sanctions; facilitation of informal dispute resolution in partnership with relevant Secretariat entities; and advice to all Secretariat entities on conduct and discipline and administration of justice matters, as well as on critical incidents involving serious reputational risks affecting the Organization's core values and norms.

Subprogramme 4
Business transformation and accountability

Objective

29A.120 The objective, to which this subprogramme contributes, is to ensure a results-oriented, data-driven, agile Organization that is efficient, accountable, transparent, compliant and driven by lessons learned and continuous improvements.

Strategy

29A.121 To contribute to the objective, the subprogramme will:

(a) Focus on simplifying the Organization's systems of accountability by evaluating overall organizational performance trends, assessing the alignment of roles and responsibilities and monitoring the exercise of delegated authority, monitoring the senior managers' compacts, mainstreaming the use of evaluation as part of the programme planning cycle, and coordinating the Secretariat's interaction with oversight bodies and identifying trends in their recommendations;

(b) Carry out capacity-building activities to support all United Nations entities in identifying, assessing, evaluating and controlling risk, using an enterprise risk management approach, and support the achievement of mandated programmatic results by training all entities in results-based management;

(c) Support the implementation of the data strategy of the Secretariat, enable entities to have access to management data from Secretariat systems and to gain access to or design analytical tools supporting data-driven decision-making, and lead and coordinate a portfolio of business transformation and innovation projects.

29A.122 The above-mentioned work is expected to result in:

(a) A reinforced accountability culture in the Organization in the areas of risk awareness, monitoring performance and the exercise of delegated authority;

(b) Greater use of enterprise data and data analytics in decision-making and programme delivery;

(c) Teams across the Secretariat adopting agile methodology and innovation and strengthening new collaboration practices using online platforms.

Programme performance in 2024

Risk management transformed through the Umoja enterprise risk management module

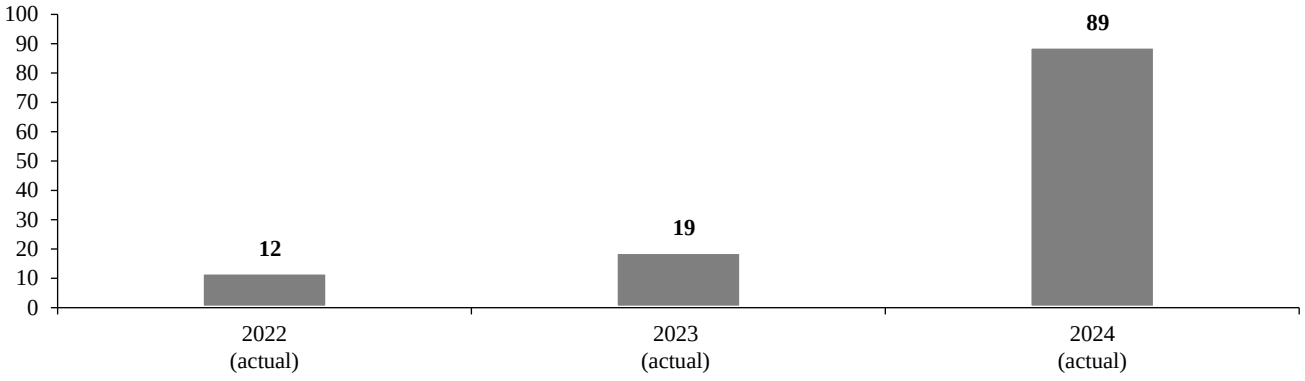
29A.123 The Secretary-General, in his report on shifting the management paradigm in the United Nations: ensuring a better future for all (A/72/492), highlighted that effective risk management is a fundamental aspect of managerial responsibility and accountability at all levels, as it safeguards the delivery of the Organization's mandate. To embed enterprise risk management as a vital management tool across the Secretariat, the Umoja enterprise risk management module was developed and implemented in several phases, commencing in October 2021. As a key enabler of a strong accountability system, the module strengthens enterprise risk management by enhancing the quality of risk assessments, supporting the development of effective risk mitigation plans and improving integration between risk management and internal controls. It also facilitates robust monitoring of evolving risk profiles at both the corporate and entity levels. Furthermore, its data analytics capabilities provide valuable insights for analysing the Secretariat's overall risk profile.

29A.124 The transition from "paper-based" risk registers to the automated module was initiated in 2021 with a group of seven entities. By 31 December 2024, the module had been successfully rolled out to 51 of the 57 entities selected for the implementation of enterprise risk management. Additional entities are scheduled to complete the transition in 2025.

29A.125 The Umoja enterprise risk management module will contribute towards strengthening the Organization's first and second lines of defence, ensuring that risk identification and management become standard and integral practices at all levels.

29A.126 Progress towards the objective is presented in the performance measure below (see figure 29A.XI).

Figure 29A.XI
Performance measures: percentage of entities utilizing the Umoja enterprise risk management module (annual)



Planned results for 2026

Result 1: strengthened exercise of delegation of authority

Programme performance in 2024 and target for 2026

29A.127 The subprogramme's work contributed to further improvement in the use of delegated authority, demonstrated by improved performance trends in mandatory staff learning, advance purchase of travel, property write-offs and human resources exception reporting, which met the planned target.

29A.128 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29A.32).

Table 29A.32
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Heads of entity have access to and use the delegation of authority framework, including policies, processes and tools	Improved use of delegated authority, as evidenced by the delegation of authority framework, and the global trends on key performance indicators	Further improvement in the use of delegated authority, as demonstrated by improved performance trends in mandatory staff learning, advance purchase of travel and property write-offs	Further improvement in the use of delegated authority, as demonstrated by the delegation of authority framework, following targeted analysis of performance against select indicators	Further improvement in the use of delegated authority, as demonstrated by the delegation of authority framework, following targeted analysis of performance against select indicators

Result 2: increased use of internal evaluation by smaller entities to inform decision-making

Programme performance in 2024 and target for 2026

29A.129 The subprogramme's work contributed to progress towards the 2025 planned target through the provision of evaluation expertise and guidance.

29A.130 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29A.33).

Table 29A.33
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	–	3 additional entities commission internal evaluations	3 additional entities commission internal evaluations

Result 3: enhanced data-driven decision-making through continuous improvement of the management dashboard

Proposed programme plan for 2026

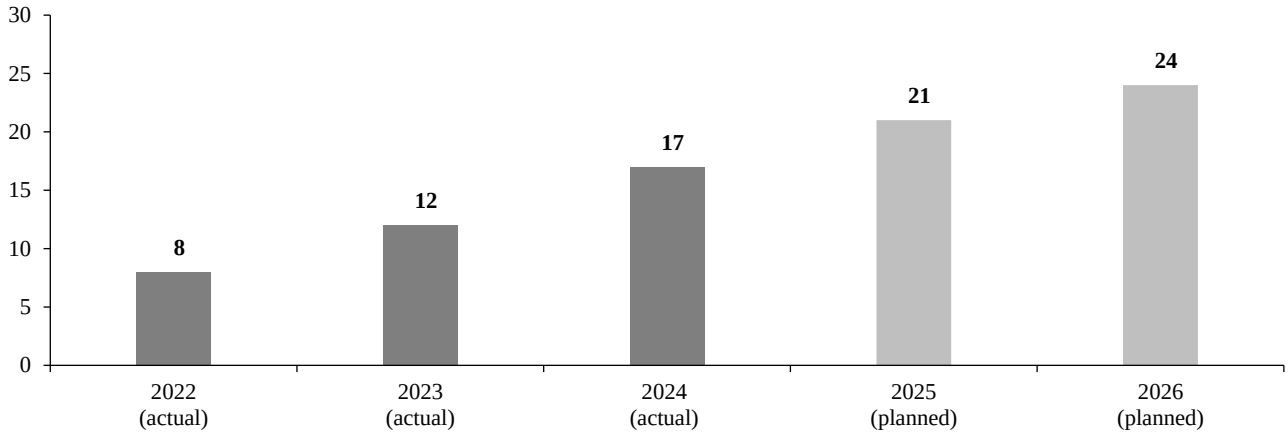
29A.131 Improved access to, and leveraging of, key corporate data are critical for more results-driven organizational performance. Through the management dashboard platform, the subprogramme has enabled targeted access to business intelligence data to support programme managers in using evidence-based systems for improved decision-making and performance.

Lessons learned and planned change

29A.132 The lesson for the subprogramme was the need for continuous improvement to the management dashboard, on the basis of client-identified needs. In applying the lesson, the subprogramme will expand the scope of reports and functionalities within the management dashboard to support evidence-based decision-making, including by integrating Board of Auditors recommendations, organizational performance indicators, an enterprise risk management dashboard and reports on analytics related to the recruitment pipeline. In parallel, the initiative will optimize the user experience design and evaluate strategies to expand its internal user base.

29A.133 Expected progress towards the objective is presented in the performance measure below (see figure 29A.XII).

Figure 29A.XII
Performance measure: number of new and/or enhanced features or functionalities available on the management dashboard (cumulative)



Deliverables

29A.134 Table 29A.34 lists all deliverables of the subprogramme.

Table 29A.34
Subprogramme 4: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**3**	**3**	**3**	**3**
1. Report to the General Assembly on accountability	1	1	1	1
2. Reports of the Secretary-General on the implementation of the recommendations of the Board of Auditors	2	2	2	2
Substantive services for meetings (number of three-hour meetings)	**12**	**9**	**12**	**10**
3. Hearings of the Advisory Committee on Administrative and Budgetary Questions	4	4	4	4
4. Meetings of the General Assembly	4	4	4	4
5. Meetings of the Independent Audit Advisory Committee	4	1	4	2
E. Enabling deliverables				
Administration: approximately 20 briefing sessions for incoming senior managers on governance, accountability and related monitoring mechanisms in use by the Administration; 2 enterprise risk management workshops for approximately 130 managers and focal points across 60 entities; enhancements to the delegation of authority portal; enterprise-wide outreach, advocacy campaigns, and network and training opportunities to raise awareness of change management, business innovation and new internal ways of working; guidance on results-based management, including training of 250 staff and Umoja strategic management application support to 90 entities; staff capability development programme for data science and analytics, from foundation to advanced level; quarterly key performance indicators report covering approximately 235 entities with delegation of authority; quarterly release of continuous improvements in analytics and corporate dashboards; senior managers' compacts performance assessment for 70 heads of entity; support for implementing the administrative instruction on evaluation in the Secretariat to all Secretariat entities; workshop for approximately 120 oversight focal points; workshops, briefings and guidance to approximately 190 compact focal points; workshops, briefings and guidance to the delegation of authority focal points of about 235 entities.				

Subprogramme 5
Addressing racism in the workplace

Objective

29A.135 The objective, to which this subprogramme contributes, is to ensure a workplace free from racism and racial discrimination, in which every staff member feels valued and respected and is treated with dignity.

Strategy

29A.136 To contribute to the objective, the subprogramme will:

(a) Implement the strategic action plan by driving progress towards a racism-free Secretariat through oversight, coordination and monitoring of all anti-racism initiatives;

(b) Review and address existing or potential racial bias in institutional policies and practices and promote data transparency;

(c) Promote advocacy, awareness-raising and training programmes to support personnel and improve organizational culture with regard to racism;

(d) Strengthen accountability mechanisms within the Organization by providing expertise to United Nations system entities on current practices and developments relating to the investigation and adjudication of racial discrimination matters;

(e) Address institutional and systemic racism by putting in place leadership accountability mechanisms;

(f) Advocate for system-wide anti-racism initiatives by collaborating and building synergies with United Nations system entities and other relevant partners to share best practices and lessons learned.

29A.137 The above-mentioned work is expected to result in:

(a) An institutionalized anti-racism culture fully embedded in policies, procedures and practices within the Organization, ensuring zero tolerance for racism and racial discrimination;

(b) The empowerment and equitable racial representation of staff at all levels and categories within the Organization;

(c) Increased trust in internal processes of administration to mediate, investigate and adjudicate fairly allegations of racism and provide racial justice.

Programme performance in 2024

An enabling environment to address racism in the Organization

29A.138 Following the establishment of the Anti-Racism Office in December 2023, the subprogramme continued to implement the series of initiatives to address interpersonal, institutional and systemic forms of racism in the Organization. The subprogramme launched an online tracking tool to monitor the implementation of the strategic action plan contained in the report of the Secretary-General on addressing racism and promoting dignity for all in the United Nations Secretariat (A/76/771) by partner departments and offices, and conducted quarterly meetings to empower and mobilize the global network of anti-racism advocates. The subprogramme organized regular awareness-raising activities in different formats: town halls, live talks, dialogues, brown bag discussions and training courses on anti-racism, to inform, educate and equip personnel with practical tools. The subprogramme has commenced making alignments in the staff selection process, specifically with

projects to support “blind-hiring” practices, require “diversity in hiring panels” and update training and guidance provided to hiring teams on reducing racial bias in recruitment. The subprogramme also intensified advocacy and strengthened processes with stakeholders involved in the administration of justice to create a safe environment for reporting allegations of racism, expediting investigations and enhancing racial justice mechanisms.

29A.139 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29A.35).

Table 29A.35
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	United Nations Secretariat entities appointed 180 anti-racism advocates, alternates and anti-racism working group members across 103 entities to actively and visibly champion and drive the implementation of the strategic action plan at the entity level	United Nations Secretariat entities appointed 192 anti-racism advocates, alternates and working group members Tracker tool available to monitor progress in the implementation of the strategic action plan by all implementing departments and offices in the Secretariat

Planned result for 2026

Result 1: strengthened accountability systems to address allegations of racism in the workplace

Programme performance in 2024 and target for 2026

29A.140 The subprogramme’s work contributed to strengthening internal mechanisms to address allegations of racism and racial discrimination, through the training of investigators in the Office of Internal Oversight Services, legal officers in the Administrative Law Division of the Office of Human Resources, experts in the Office of the United Nations Ombudsman and Mediation Services and judges of the United Nations Tribunals, as well as conduct and discipline focal points, anti-racism advocates and Staff Counsellors across the Secretariat, which met the planned target.

29A.141 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29A.36).

Table 29A.36
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Officials, including judges and Office of Internal Oversight Services investigators, have increased knowledge of racism in the workplace, to enable more effective investigation and	Investigators in the Office of Internal Oversight Services, legal officers in the Administrative Law Division of the Office of Human Resources, experts in the Office of the United Nations	Availability of the revision of Secretary-General’s bulletin ST/SGB/2019/8, on prohibited conduct, which includes updated provisions	Senior leaders review progress and challenges related to addressing racism within their entities

2022 (actual)	2023 (actual)	2024 (actual)	2025 (planned)	2026 (planned)
	assessment of complaints of racism	Ombudsman and Mediation Services and judges of the United Nations Tribunals, as well as conduct and discipline focal points, anti-racism advocates and Staff Counsellors across the Secretariat, were provided training on addressing allegations of racism and racial discrimination	for racial discrimination	

Result 2: improved institutional transparency on diversity

Proposed programme plan for 2026

29A.142 The subprogramme's work contributes to the improvement of institutional transparency through the review and reform of policies and practices. In 2024, the subprogramme finalized a background paper on the importance of collecting race-related data.

Lessons learned and planned change

29A.143 The lesson for the subprogramme was the importance of promoting data transparency in institutional policies and practices. In applying the lesson, the subprogramme will focus on building a staff-facing dashboard on staff composition and movements of personnel. The subprogramme will also be able to collect race-related data from staff and job applicants on a voluntary basis for the purpose of understanding workforce composition. The subprogramme will further strengthen the Organization's staff selection processes by working towards mandating diversity in selection panels, promoting blind-hiring practices and building common assessment methods.

29A.144 Expected progress towards the objective is presented in the performance measure below (see table 29A.37).

Table 29A.37
Performance measure

2022 (actual)	2023 (actual)	2024 (actual)	2025 (planned)	2026 (planned)
–	–	–	Staff and job applicants provide race-related data in Inspira	Availability of an interactive dashboard on diversity in staff composition and movements Increased transparency and accountability in recruitment processes

Deliverables

29A.145 Table 29A.38 lists all deliverables of the subprogramme.

Table 29A.38
Subprogramme 5: deliverables for the period 2024–2026, by category and subcategory

29A.147 Additional details on the distribution of the proposed resources for 2026 are reflected in tables 29A.42 to 29A.44 and figure 29A.XIII.

29A.148 As shown in tables 29A.42 (1) and 29A.43 (1), the overall resources proposed for 2026 amount to $69,820,500, reflecting an increase of $1,461,600 (or 2.1 per cent). Resource changes result from other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

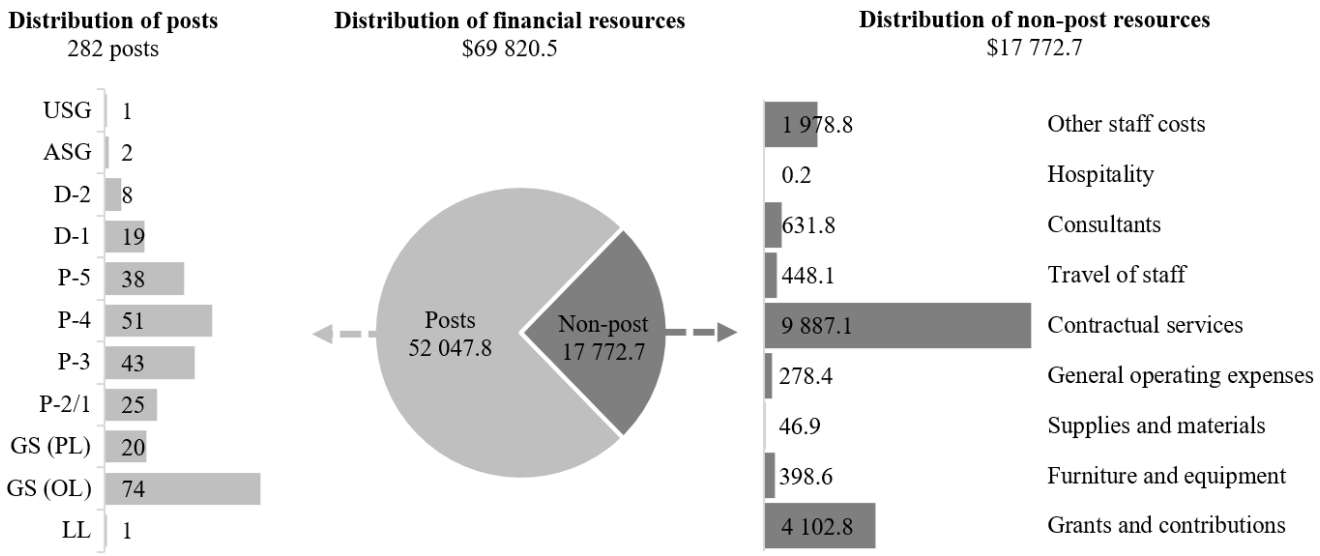
(Number of posts/thousands of United States dollars)



Explanation of variances by factor, component and subprogramme

Overall resource changes

Other changes

29A.149 As shown in tables 29A.42 (1) and 29A.43 (1), resource changes reflect an increase of $1,461,600, as follows:

(a) Lower rates for information and communications technology services (decrease of $183,300) under contractual services ($134,000) and general operating expenses ($49,300):

(i) **Executive direction and management** (decrease of $15,900);

(ii) **Subprogramme 1, component 2, Services to the Fifth Committee of the General Assembly and to the Committee for Programme and Coordination** (decrease of $5,800);

(iii) **Subprogramme 1, component 3, Management advisory services** (decrease of $12,200);

(iv) **Subprogramme 2, component 1, Finance** (decrease of $24,300);

(v) **Subprogramme 2, component 2, Field operations finance** (decrease of $5,100);

(vi) **Subprogramme 2, component 3, Programme planning and budgeting** (decrease of $26,800);

(vii) **Subprogramme 3, component 1, Global strategy and policy** (decrease of $41,400);

(viii) **Subprogramme 3, component 2, Administrative law** (decrease of $13,200);

(ix) **Subprogramme 4, Business transformation and accountability** (decrease of $25,200);

(x) **Subprogramme 5, Addressing racism in the workplace** (decrease of $5,800);

(xi) **Programme support** (decrease of $7,600);

(b) A decrease of $18,100 under grants and contributions, reflecting the regular budget share (15 per cent of $120,400) under subprogramme 1, component 1, Enterprise resource planning solution, of lower rates for information and communications technology services and rental of premises, as explained in paragraph 29A.163 (a) below;

(c) The cost-neutral conversion of six long-term temporary positions to posts, reflecting an increase of $1,257,800 under posts, offset by a decrease of $1,257,800 under other staff costs under subprogramme 1, component 3, Management advisory services (Senior Programme Management Officer (P-5), Management and Programme Analyst (P-4), Administrative Assistant (General Service (Other Level)) and Legal Officer (P-4)) and subprogramme 3, component 2, Administrative law (Senior Programme Management Officer (P-5) and Legal Officer (P-3)), as explained in annex II;

(d) The cost-neutral redeployment of resources within and between subprogrammes and components, due mainly to the realignment of resources for software licences and subscriptions under contractual services (decrease of $47,900), general operating expenses (decrease of $7,200), supplies and materials (decrease of $6,900) and furniture and equipment (increase of $65,000), under executive direction and management (decrease of $600), subprogramme 1, component 3, Management advisory services (decrease of $400), subprogramme 2, component 1, Finance (increase of $2,200), subprogramme 2, component 2, Field operations finance (increase of $200), subprogramme 3, component 1, Global strategy and policy (decrease of $300), subprogramme 3, component 2, Administrative law (increase of $100) and subprogramme 5, Addressing racism in the workplace (decrease of $1,200);

(e) Other changes (increase of $1,663,000) under:

(i) **Subprogramme 1, component 1, Enterprise resource planning solution** (increase of $19,400). The increase under grants and contributions reflects the regular budget share (15 per cent) of the annual maintenance costs for the United Nations digital identification project ($129,300), as explained in paragraph 29A.163 (b) below;

(ii) **Subprogramme 2, component 1, Finance** (increase of $418,600). The increases are as follows:

a. Increases totalling $286,800 under posts ($284,200), contractual services ($1,300), general operating expenses ($1,000) and furniture and equipment ($300) reflect the conversion from extrabudgetary resources of a D-1 post of Chief of Service to posts, as explained in annex II, and associated common services costs;

b. Increases totalling $131,800 comprise an increase under contractual services ($8,700), which reflects the regular budget share of the increase in costs for the finance master data maintenance team, and an increase under furniture and equipment ($123,100), which would provide for mandatory upgrades to the payment system/network ($67,100) and the increased cost of the investment system ($56,000);

(iii) **Subprogramme 2, component 3, Programme planning and budgeting** (increase of $25,000). The increase under travel of staff reflects requirements to support entities in conducting the annual spending reviews;

(iv) **Subprogramme 3, component 1, Global strategy and policy** (increase of $1,200,000). The increases under consultants ($60,000) and contractual services ($1,140,000) are needed for the staff selection 2.0 programme, which will update the staff selection system, as endorsed by the General Assembly in its resolution 77/278. The additional resources would fund system updates and projects related to generic job profiles, assessment tools and data visualization dashboards.

Other assessed resources

29A.150 As reflected in tables 29A.42 (2) and 29A.43 (2), other assessed resources amount to $63,897,400. The resources would complement regular budget resources and provide for the requirements indicated in the report of the Secretary-General on the budget for the support account for peacekeeping operations for 2025/26 (A/79/783).

Extrabudgetary resources

29A.151 As reflected in tables 29A.42 (3) and 29A.43 (3), extrabudgetary resources amount to $38,089,100. The resources would complement regular budget resources and would be used mainly to provide for 131 posts to perform, among other things, system-wide jointly financed activities relating to local salary surveys and personnel mental health and well-being, activities relating to personnel conduct and discipline, as well as in support of victims of sexual exploitation and abuse, activities to backstop operations funded from central programme support costs, and activities to backstop operations funded from cost recovery. In addition, financial resources from central programme support costs would also fund the extrabudgetary resources share of the Umoja enterprise resource planning solution (including business support resources).

29A.152 The extrabudgetary resources under the present section are subject to the oversight of the Department of Management Strategy, Policy and Compliance, which has delegated authority from the Secretary-General.

Executive direction and management

29A.153 The executive direction and management component comprises the Office of the Under-Secretary-General, including the Inter-Agency and Intergovernmental Service, the Office of the Controller and the Office of the Assistant Secretary-General for Human Resources.

29A.154 The Under-Secretary-General for Management Strategy, Policy and Compliance is responsible for the overall direction and management of the Department and for providing the Secretary-General strategic advice on management issues. The Under-Secretary-General represents the Secretary-General on management issues before relevant expert and intergovernmental bodies, such as the Advisory Committee on Administrative and Budgetary Questions and the Fifth Committee, the International Civil Service Commission and inter-agency coordination mechanisms, including the High-level Committee on Management of the United Nations System Chief Executives Board for Coordination, and in the conduct of staff-management consultations. The Under-Secretary-General oversees and provides direction to the Assistant Secretary-General for Programme Planning, Finance and Budget, Controller; the Assistant Secretary-General for Human Resources; the Director of the Business Transformation and Accountability Division; and the Director of the Enterprise Resource

Planning Solution Division. The Under-Secretary-General provides management oversight support to the Director of the Anti-Racism Office and, with the Under-Secretary-General for Operational Support, provides direction and strategic guidance to the Assistant Secretary-General, Chief Information Technology Officer.

29A.155 The Office of the Under-Secretary-General provides leadership in the development and delivery of integrated organizational management strategies, policies and models that support a decentralized, field-focused paradigm in which managers are empowered through the new enhanced delegation of authority framework. It provides direction to take advantage of lessons learned and innovative methods to ensure continuous management improvements to meet evolving requirements throughout the Secretariat. It liaises with Member States and other external entities on management-related issues and fosters coordination internally within the Secretariat, as well as externally with the funds, programmes and specialized agencies of the United Nations system, to build partnerships and promote best practices.

29A.156 The Under-Secretary-General is assisted by the Controller, who provides strategic and policy leadership on all planning, programming, budgetary and financial matters and on the administration of the Financial Regulations and Rules of the United Nations, and by the Assistant Secretary-General for Human Resources, who provides strategic leadership for the simplified and streamlined human resources policy framework and the mainstreaming of a gender perspective, equitable geographical distribution and accessibility into all facets of the work of the Organization through integrated strategies and policies. Working together closely under the guidance of the Under-Secretary-General, the Controller and the Assistant Secretary-General for Human Resources provide leadership in adapting strategies and policies to support new and innovative business models and enable managers to be more effective and agile in the delivery of their programmes.

29A.157 The Controller represents the Secretary-General in the committees of the General Assembly, the Advisory Committee on Administrative and Budgetary Questions, the Committee for Programme and Coordination and the Independent Audit Advisory Committee in the presentation of all programme and budget documents, including those relating to the regular budget, the peacekeeping budgets and international tribunals, as well as the financial statements of the Organization. The Controller advises the Secretary-General and the Under-Secretary-General for Management Strategy, Policy and Compliance on policy relating to the budgets and finances of the United Nations and the related plans and work programmes. Through the Office of Programme Planning, Finance and Budget, the Controller ensures that the financial policy framework enables efficient mandate delivery. The Director of the Finance Division, in addition to existing responsibilities under subprogramme 2, component 1, supports the Controller directly with regard to overseeing cross-cutting functions, such as financial policy and the Committee on Contributions, and deputizes for the Controller on all financial policies relating to United Nations system entities and other partners of the Secretariat. As the Deputy Controller, the Director of the Finance Division enables appropriate burden-sharing with the Controller in addressing matters relating to complex and critical financial management in a proactive manner.

29A.158 The Assistant Secretary-General for Human Resources leverages technologies and pursues innovative and holistic approaches to transform the organizational culture, strengthen duty of care, promote inclusion, accessibility and workforce diversity, and drive the creation of a supportive and healthy workplace. The Office of Human Resources responds proactively to issues arising in the formal and informal system of administration of justice to ensure the efficient, effective and fair implementation of the Organization’s policies, core values and norms. It builds on the integration of the conduct and discipline function for the entire Secretariat and for all categories of personnel to increase consistency, transparency and accountability in the application of the standards of conduct.

29A.159 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Department is integrating environmental management practices into its operations. In line with its functional responsibilities, the Department

will continue to mainstream environmental sustainability management into the Secretariat policy framework and the enterprise management and accountability system. Operationally the Department will continue to prioritize the reduction in its travel-related greenhouse gas emissions by optimizing the use of online collaborative and conferencing platforms, as well as streamlining and combining travel requirements.

29A.160 Information on the timely submission of documentation and advance booking for air travel is reflected in table 29A.45. The Department will continue to implement measures to improve compliance rates with the advance purchase of air tickets through the earlier planning of events and nominations of travellers, raising the awareness of programme managers and travellers and minimizing exceptions. In 2024, the Department continued to submit nearly all of its documents within the prescribed timelines.

Timely submission of documentation	97	96	98	100	100
Air tickets purchased at least two weeks before the commencement of travel	75	83	88	100	100

29A.161 The proposed regular budget resources for 2026 amount to $5,356,600 and reflect a decrease of $16,500 compared with the approved budget for 2025. The proposed change is explained in paragraphs 29A.149 (a) (i) and (d). Additional details on the distribution of the proposed resources for 2026 are reflected in table 29A.46 and figure 29A.XIV.

Gross budget resource requirements

29A.163 The proposed gross budget resources for 2026 amount to $26,124,400 and reflect a net increase of $8,900 compared with the approved budget for 2025, as follows:

(a) Lower rates for information and communications technology services and rental of premises (decrease of $120,400) under contractual services ($34,000) and general operating expenses ($86,400);

(b) Increase of $129,300 under contractual services for the annual maintenance costs for the Secretariat's portion of phases 1 and 2 of the jointly financed United Nations digital identification project, an initiative designed to provide a universal digital identity for United Nations system personnel, enabling data interoperability between organizations.

29A.164 Additional details on the distribution of the proposed resources for 2026 are reflected in table 29A.48 and figure 29A.XV.

Programme support

29A.174 The Business Partner Service assists the Under-Secretary-General in the discharge of the Department's responsibilities in the areas of human resources management, finance and general administration.

29A.175 The Business Partner Service serves as a business partner for the secretariats of the Advisory Committee on Administrative and Budgetary Questions, the Board of Auditors and the Independent Audit Advisory Committee in carrying out their financial, personnel and administrative responsibilities and administers the official travel of the members of the Committee for Programme and Coordination and the Committee on Contributions.

29A.176 The proposed regular budget resources for 2026 amount to $1,881,500 and reflect a decrease of $7,600 compared with the approved budget for 2025. The proposed change is explained in paragraph 29A.149 (a) (xi). Additional details on the distribution of the proposed resources for 2026 are reflected in table 29A.58 and figure 29A.XXV.

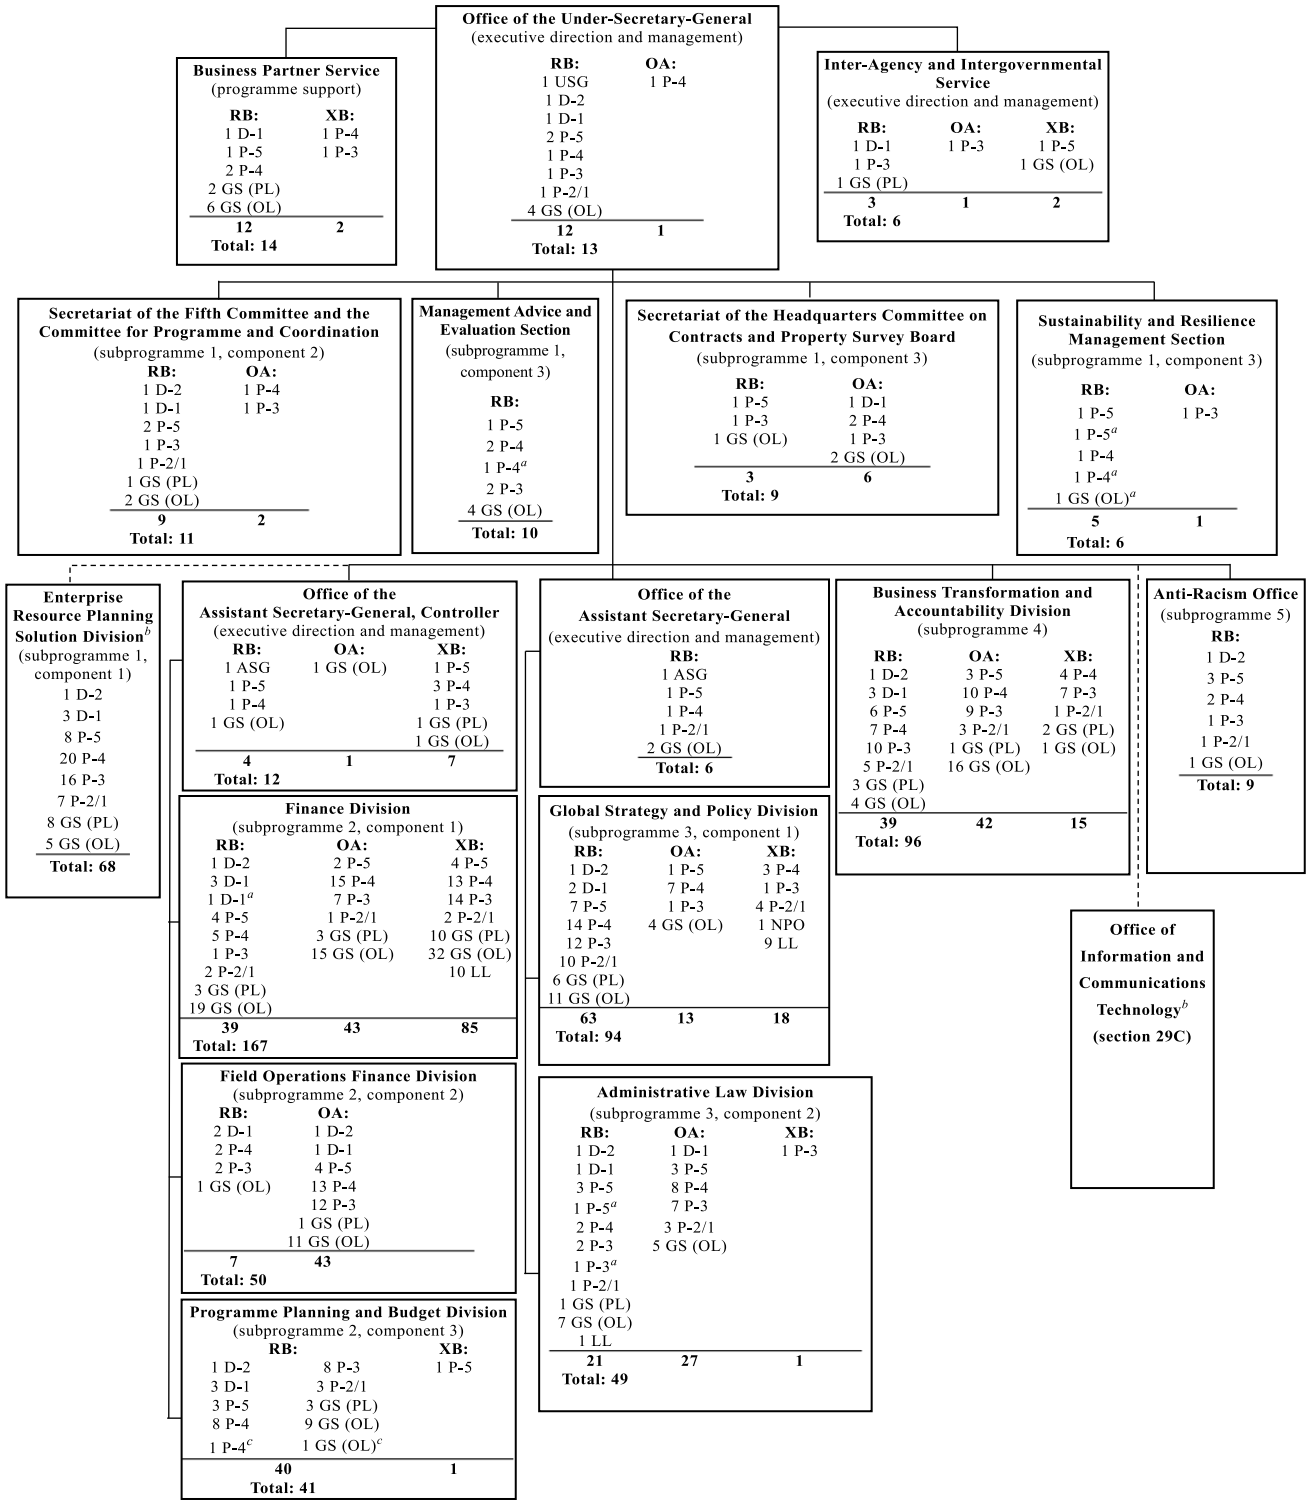
Annex I

Organizational structure and post distribution for 2026



Abbreviations: ASG, Assistant-Secretary-General; GS (OL), General Service (Other level); GS (PL), General Service (Principal level); LL, Local level; OA, other assessed; RB, regular budget; USG, Under-Secretary-General; XB, extrabudgetary.

[a] Conversion.

[b] Dual reporting to the Department of Management Strategy, Policy and Compliance and the Department of Operational Support.

[c] Reassignment.

Annex II

Summary of proposed post changes, by component and subprogramme

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
Subprogramme 1, component 3, Management advisory services	1 1 1	P-5 P-4 GS (OL)	**Conversion** from temporary positions of 1 Senior Programme Management Officer (P-5), 1 Management and Programme Analyst (P-4) and 1 Administrative Assistant (GS (OL))	The proposed conversion of 3 general temporary assistance positions (1 P-5, 1 P-4 and 1 GS (OL)) to posts would provide long-term stability in the execution of essential functions in support of the work of the Sustainability and Resilience Management Section. Lessons learned from the coronavirus disease (COVID-19) pandemic, as well as from other locally isolated emergencies, confirm the importance of having organization-wide mature and up-to-date continuity planning, with personnel and infrastructure ready to support the ongoing implementation of Member States' mandates. The conversion of the positions, which were initially created in 2008 (P-5), 2010 (GS (OL)) and 2011 (P-4), is proposed given the long-term and core nature of the functions performed by the incumbents of these positions, including as indicated below. The Senior Programme Management Officer will continue to coordinate cross-cutting strategy and policy matters relating to continuity of functions and new ways of working, with a particular emphasis on areas relating to procurement, human resources and linkages to accountability matters in coordination with the Business Transformation and Accountability Division, the Office of Human Resources and the Office of Programme Planning, Finance and Budget. The incumbent coordinates specialized policy support, to ensure that new policies and changes take into account business continuity matters and are implemented in a timely and holistic manner, utilizing a continuous improvement approach by responding to changing conditions and taking advantage of evolving opportunities and applying lessons learned. The continuation and conversion of the Management and Programme Analyst position is critical to supporting the business continuity planning efforts of Secretariat entities and overall coordination across the global Secretariat, including the sharing of best practices and lessons learned. The functions include guidance and training for continuity planning of the critical functions of the Organization, assistance to entities with the conduct of simulation exercises for practising and testing their continuity plans, and ensuring a coordinated approach across entities. The incumbent, as part of the Sustainability and Resilience Management Section, serves as secretariat to the Senior Emergency Policy Team at United Nations Headquarters. The incumbent also provides functional support in the area of business continuity management to the Headquarters Crisis Operations Group. The continuation and conversion of the Administrative Assistant position is required to provide administrative and logistical support to the Section and will develop and maintain collaborative sites on SharePoint and Microsoft Teams to ensure that the various working groups and communities of practice are active and kept well informed.

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
	1	P-4	**Conversion** from temporary position of 1 Legal Officer (P-4)	The Legal Officer position, initially created in 2008, supports the Section's capacity to address its heavy caseload and conduct the evaluation process in each case in an objective and impartial manner. As part of an often very time-consuming process, the Legal Officer conducts extensive legal research to ensure the accuracy and quality of the Section's legal analyses and avoid unnecessary litigation. The Legal Officer spends a significant amount of time gathering information and verifying facts, as well as holding the policy discussions required to ensure the integrity of the Section's recommendations. The conversion of the Legal Officer position to a post is requested given the high volume of requests submitted to the Section for evaluation each year (853 cases on average).
Subprogramme 2, component 1, Finance	1	D-1	**Conversion** from extrabudgetary resources of 1 post of Chief of Service (D-1)	Pursuant to the observations and recommendations of the Advisory Committee on Administrative and Budgetary Questions in its letters to the Secretary-General, the Secretariat proposes the regularization of one post of Chief of Service (D-1) in the Finance Division of the Office of Programme Planning, Finance and Budget. As noted by the Advisory Committee, cost recovery, liquidity management and contributions are ongoing, core functions of the Organization, which should be funded from the regular budget. The principal role and responsibilities of the Chief of Service are to act as Secretary of the Committee on Contributions, which supports Member States in managing their assessed contributions to the Organization. The Chief of Service acts as principal interlocutor with Member States to address sensitive concerns and challenges and to liaise with the United Nations Treasury and the Controller to resolve issues and optimize the financial position of Member States with respect to the United Nations. The Chief of Service also oversees other revenue-generating activities, including global cost-recovery operations and other ad hoc initiatives jointly funded with United Nations agencies, funds and programmes not covered by section 31 of the programme budget. In respect of the Chief of Service's role and responsibilities, it should be noted that the Committee on Contributions is one of the subsidiary organs of the General Assembly, and that the secretaries of such bodies are consistently positioned at the Director level. The Chief of Service is pivotal in developing measures to tackle the systemic liquidity challenges faced by the Organization to safeguard its financial health. Cost-recovery arrangements in the Secretariat continue to grow in value and complexity, encompassing a vast range of services (more than 3,000) and over 75 service providers. In recent years, the changing operational environment and the Organization's increasing use of cost recovery as a financing model for several activities have highlighted the need to ensure that cost recovery is based on consistent principles, and that it applies approved methodologies, uses processes that are compliant with the Financial Regulations and Rules of the United Nations and conforms to good practices that are generally accepted for such activities.

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
Subprogramme 2, component 3, Programme planning and budgeting	1 1	P-4 GS (OL)	**Reassignment** of 1 post of Programme Budget Officer to Data Specialist (P-4) and 1 post of Finance and Budget Assistant to Data Analysis Assistant (GS (OL))	In line with the implementation of the Data Strategy of the Secretary-General for Action by Everyone, Everywhere, and his vision to transform the United Nations into a fully data-driven Organization, it is proposed to reassign two posts to strengthen the data analytics capabilities of the Policy Coordination Unit of the Programme Planning and Budget Division and align the data-focused positions. The reassignment of one P-4 post and one GS (OL) post would allow the Division to make gains in efficiency and effectiveness by streamlining and enhancing cross-cutting data analysis applicable to all budget sections and strengthening support to client entities on how to best leverage data products, including corporate dashboards.
Subprogramme 3, component 2, Administrative law	1	P-5	**Conversion** from temporary position of one Senior Programme Management Officer (P-5)	The Senior Programme Management Officer in the Conduct and Discipline Service serves as the focal point for addressing policy and other related matters associated with the Organization's response to issues of sexual harassment, a long-standing matter that requires dedicated leadership and advocacy to promote and sustain the Organization's efforts to prevent it from occurring. The incumbent supports the Assistant Secretary-General for Human Resources and the Under-Secretary-General for Management Strategy, Policy and Compliance, coordinating with stakeholders on sexual harassment-related matters to lead the Secretariat's contribution to overall inter-agency efforts on this matter. This includes, but is not limited to, raising awareness, improving reporting and enhancing policies, especially to address victims' concerns about coming forward with complaints. The incumbent also deals with policy aspects of ClearCheck, including its expansion to other types of misconduct and its full use by all United Nations common system entities. Further to the original purpose of the position, the Senior Programme Management Officer also leads the Organization's actions to provide ongoing support to victims of domestic abuse and violence. The Officer leads and facilitates discussions on this subject at the inter-agency level geared towards determining a consistent and victim-centred approach, and works in close collaboration with the Office of the Victims' Rights Advocate to ensure that a consistent approach to dealing with victims is followed. The Officer supports and leads the review and realignment of existing policies and other administrative documentation with a view towards enabling the proactive exercise of the duty of care with regard to those victims. Given the ongoing and continuous nature of the temporary P-5 position, initially created in 2010, its conversion to a post is proposed based on the rationale provided above.
	1	P-3	**Conversion** from temporary position of one Legal Officer (P-3)	The position of Legal Officer, initially created in 2012, primarily represents the Secretary-General in United Nations Dispute Tribunal proceedings, which include extensive contact with client offices to receive instructions on facts, the preparation of written legal submissions and attendance at oral hearings. In addition, the Legal Officer is critical for providing legal advice to managers to mitigate risks in decision-making. This requires hands-on and frequent interaction with decision makers who are accountable for the direction and overall management of the resources of the Organization. Conversion of the Legal Officer position to a post is required because the number of cases handled by the

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
				component has remained consistently high and has required an ever-increasing amount of work to meet the requirements set out in the system of administration of justice, including, in particular, the representative functions needed to fully service a robust Dispute Tribunal docket. Given the spotlight placed on accountability and enforcement, the Secretariat's view is that it is clear that the functions of the Legal Officer will remain fully engaged in this area of work for the foreseeable future, thus further substantiating the request for conversion.

Abbreviation: GS (OL), General Service (Other level).

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

29B.1 The Department of Operational Support is the operational arm of the Secretariat and the client-facing interface for operational support matters in the Secretariat's management structure, which exists to support the objective of effective mandate delivery, in partnership with Secretariat entities and other clients. The mandate derives from the priorities established in relevant General Assembly resolutions and decisions, including resolutions 72/266 B and 73/281. The Department delivers rapid, effective, efficient, responsible and, where required, customized enabling solutions that help partners to meet their mandates, including in the most challenging operating environments.

Strategy and external factors for 2026

29B.2 For 2026, the Department will enable effective mandate delivery through the provision of operational support. To implement its programme, the Department will work with client entities to define requirements and co-create solutions in the areas of end-to-end supply chain management, uniformed personnel support, human resources, diverse training services, business process improvement and medical and occupational health and safety, as well as information and communications technology solutions through the Office of Information and Communications Technology. It will, in exceptional cases, exercise delegated authority on behalf of clients across the Secretariat.

29B.3 The Department will work to provide a balance of direct and advisory support, adapting to diverse client needs and ensuring a positive client experience. It will employ foresight methodologies in its planning to anticipate and respond to changes in the operating environment, fostering a culture that is agile, responsive and forward-looking. In addition, the Department will embrace technology, automation and innovation, as well as high-quality data, in order to streamline processes. It will also support relevant Secretariat actors to integrate positive legacy considerations into the design and management of their operations (including facilities, infrastructure and services) in order to maximize opportunities to provide a secondary benefit for host communities.

29B.4 With regard to cooperation with other entities at the global, regional, national and local levels, the Department will reinforce its collaboration with Member States and regional organizations, including through capacity-building activities, knowledge exchange and functional arrangements in diverse areas of operational support, in order to achieve the scale and effectiveness needed to address complex challenges.

29B.5 With regard to inter-agency coordination and liaison, the Department will progress its modus operandi for the delivery of a full range of services within and beyond the United Nations Secretariat on the basis of comparative advantage, leading a network of service providers, where the Department focuses its efforts on enhancing delivery.

29B.6 With regard to the external factors, the Department considered applicable risks identified in its risk register and, accordingly, the overall plan for 2026 is based on the following planning assumptions:

(a) There is adequate support from all stakeholders to enable effective operational support solutions in challenging operating environments;

(b) Requirements for crisis response and other special situations will not exceed the Department's capacity to respond.

29B.7 The Department will continue to integrate a gender perspective into its operational activities, deliverables and results, as appropriate. For example, activities will include camp design methodologies, improvements in the area of women's health, staffing initiatives such as the senior

women talent pipeline, and advice to field entities, upon request, to enable them to meet targets related to gender parity. In order to encourage a more equitable approach to the Organization's supply chain, the Department will continue to strengthen outreach and training for vendors, including for women-owned businesses.

29B.8 In line with the United Nations Disability Inclusion Strategy, the Department will support efforts to improve accessibility for persons with disabilities to the United Nations premises, to allow their full, meaningful and effective participation in the work of the United Nations.

Legislative mandates

29B.9 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

72/266 A; 72/266 B; 73/281; 77/267	Shifting the management paradigm in the United Nations
76/274	Cross-cutting issues
79/1	The Pact for the Future
79/257	Questions relating to the proposed programme budget for 2025
79/258	Special subjects relating to the proposed programme budget for 2025
79/259 A–C	Programme budget for 2025

Subprogramme 2
Supply chain management

Component 1
Integrated supply chain management

General Assembly resolutions

69/273	Procurement
78/250 B	Financing of the United Nations Multidimensional Integrated Stabilization Mission in Mali
78/297	Financing of the United Nations Interim Security Force for Abyei
78/298	Financing of the United Nations Multidimensional Integrated Stabilization Mission in the Central African Republic
78/300	Financing of the United Nations Peacekeeping Force in Cyprus
78/301	Financing of the United Nations Organization Stabilization Mission in the Democratic Republic of the Congo
78/302	Financing of the United Nations Interim Administration Mission in Kosovo
78/304	Financing of the United Nations Disengagement Observer Force
78/305	Financing of the United Nations Interim Force in Lebanon
78/306	Financing of the United Nations Mission in South Sudan
78/307	Financing of the United Nations Mission for the Referendum in Western Sahara
78/309	Financing of the activities arising from Security Council resolution 1863 (2009)

Component 2
Uniformed capabilities support

General Assembly resolutions

50/222	Reform of the procedures for determining reimbursement to Member States for contingent-owned equipment
67/261	Report of the Senior Advisory Group established pursuant to General Assembly resolution 65/289 to consider rates of reimbursement to troop-contributing countries and other related issues
76/275	Post-traumatic stress disorder framework
76/276	Rates of reimbursement to troop- and police-contributing countries
77/303	Triennial review of the rates and standards for reimbursement to Member States for contingent-owned equipment
78/293	Support account for peacekeeping operations

Subprogramme 3
Special activities

Security Council resolution

2719 (2023)

Deliverables

29B.10 Table 29B.1 lists all cross-cutting deliverables of the programme.

Table 29B.1
Cross-cutting deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	**4**	**4**	**4**	**4**
Meetings of the:				
1. Fifth Committee	1	1	1	1
2. Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
3. Committee for Programme and Coordination	1	1	1	1
4. Special Committee on Peacekeeping Operations	1	1	1	1
E. Enabling deliverables				
Administration: six meetings of the Management Client Board.				

Evaluation activities

29B.11 The following evaluations to be conducted by the Department are planned for 2026:

(a) Evaluation of the Knowledge Gateway;

(b) Evaluation of client orientation in the implementation of integrated supply chain management;

(c) A joint evaluation by the Department of Management Strategy, Policy and Compliance, the Department of Operational Support and the Office of Information and Communications Technology on information and communications technology security will be completed in 2026.

Programme of work

Subprogramme 1
Support operations

Component 1
Human resources support

Objective

29B.12 The objective, to which this component contributes, is to strengthen the human resources capacity of all Secretariat entities, enable improved, simplified human resources processes and offer the Organization talented and diverse staffing pools.

Strategy

29B.13 To contribute to the objective, the component will:

(a) Support Secretariat entities in the exercise of delegated authority in the area of human resources, including through:

(i) Specialized advisory support and guidance to human resources business partners across the Secretariat, including on dispute prevention and resolution, affiliated-personnel capacities and other entity-specific operational human resources needs;

(ii) Active engagement and regular analysis of support requests, with a view to communicating required policy changes to the Department of Management Strategy, Policy and Compliance on the basis of client needs;

(iii) Simplification and digitalization of human resources processes, tools and procedures, such as recruitment, rostering, testing and examination services, affiliated-personnel capacities and workforce planning, in cooperation with the Office of Human Resources and the Office of Information and Communications Technology;

(b) Offer high-quality and diverse pools of candidates by managing global Secretariat rosters across all job families;

(c) Administer the young professionals programme.

29B.14 The above-mentioned work is expected to result in:

(a) Secretariat entities accountably, effectively and efficiently exercising their delegated human resources authority in support of their mandates;

(b) Increased efficiencies and measurable reductions in delays and redundancies in human resources processes;

(c) Strengthened capacity for the timely identification and recruitment of candidates and talent that are the best fit.

Programme performance in 2024

Effective transition of United Nations Office for Project Services partner personnel

29B.15 The component provided extensive support to client entities to implement a new memorandum of understanding established in 2024 between the United Nations Office for Project Services (UNOPS) and the United Nations Secretariat, supporting the transition of entities using UNOPS for project implementation and, where exceptionally approved, as provider of partner personnel outlined in the 2014 memorandum of understanding. The new memorandum of understanding transforms the use of UNOPS to be either an implementing partner or a service provider. At the beginning of 2024, more than 2,500 partner personnel were engaged through UNOPS on an exceptional basis and had to be either transitioned to other modalities or phased out in 2025. The subprogramme supported entities in transitioning their financial agreements and phasing out the use of partner personnel through a multilayer approach. It provided guidance and capacity-building to human resources practitioners and assisted 16 client entities with the review of their existing arrangements to advise on suitable modalities for the necessary transition.

29B.16 Progress towards the objective is presented in the performance measure below (see table 29B.2).

Table 29B.2
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	16 entities received support, including briefings and guidance, to effectively implement the new memorandum of understanding and transition their partner personnel, leading to a reduction of approximately 700 partner personnel by the end of 2024

Planned results for 2026

Result 1: Secretariat entities engage in workforce planning and organizational design

Programme performance in 2024 and target for 2026

29B.17 The component's work contributed to clients gaining access to an organizational design guide and participating in dedicated briefing sessions on new workforce capabilities to enable decision-making on how the entity should be structured to achieve its goals, which met the planned target. In addition, a priority workforce capabilities toolkit was launched in August 2024 for entities to progressively incorporate the priority workforce capabilities.

29B.18 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29B.3).

Table 29B.3
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Clients have access to overview of entry-level positions to guide utilization of P-1 and P-2 and guidance on rejuvenation of the workforce Clients have increased opportunities to share best practices in the workforce planning and organizational design network, with 59 client entities represented	Clients have access to the workforce capabilities briefing sessions to be able to progressively incorporate the priority workforce capabilities (e.g., data analytics and management, digital transformation and innovation) Clients have access to an organizational design guide to decide how the entity should be structured and function in order to achieve its goals	Clients have access to dedicated workshops on the workforce capabilities in order to address their specific workforce needs Clients have access to the priority workforce capabilities toolkit to operationalize the workforce capabilities at the entity level	Clients have access to, and utilize, data-driven roster health analysis to forecast their upcoming requirements	Clients have access to, and utilize, enhanced data-driven roster health analysis to plan, prioritize and holistically forecast their upcoming requirements over a four-year horizon

Result 2: improved performance management across the Secretariat

Programme performance in 2024 and target for 2026

29B.19 The component's work contributed to increased capacity of 47 local human resources practitioners from 30 client entities to advise and guide managers on performance management through the "train-the-trainers" programme, which met the planned target.

29B.20 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29B.4).

Table 29B.4
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Managers and human resources practitioners in 48 client entities gain capacity and understanding on the different stages of the performance cycle and their responsibilities at each stage	Increased capacity of 47 human resources practitioners from 30 client entities to advise on complex performance management cases	Managers are empowered to better manage performance and respond to issues related to performance management through guidance, briefings and training	Human resources practitioners and managers increase their awareness and capacity in the area of performance management through lessons learned initiatives

Result 3: enhanced roster building and management for the global Secretariat

Proposed programme plan for 2026

29B.21 The subprogramme is planning and implementing a new roster building and management approach to ensure that all Secretariat entities have access to refreshed and time-bound rosters to enhance the quality, efficiency and fairness of the rostering process. In 2024, the subprogramme designed, in coordination with the Office of Information and Communications Technology, the necessary enhancements to Inspira. The subprogramme refined a roster health analysis tool to make informed recommendations for rosters in need of replenishment and developed a quality assurance framework. In addition, roster-building workshops were conducted with human resources stakeholders in November and December 2024.

Lessons learned and planned change

29B.22 The lesson for the component was a need for enhanced change and knowledge management, a consistent approach to roster replenishment prioritization, and operational readiness in planning, systems and training to implement the new roster building and management approach. In applying the lesson, the subprogramme will develop a communications strategy and standardize assessment services by providing guidance, implementing a planning tool for efficient rostering, and ensuring alignment with the quality assurance framework. The component will also continue to prioritize rostering exercises on the basis of workforce requirements to achieve healthy rosters.

29B.23 Expected progress towards the objective is presented in the performance measure below (see table 29B.5).

Table 29B.5
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Increased collaboration and communication with stakeholders to ensure alignment and coherence	Increased comprehension by human resources stakeholders of the new global roster management approach to effectively manage the change	Clients have access to enhanced Inspira tools to streamline roster building and management United Nations entities have access to refreshed, time-bound rosters for efficient and high-quality recruitment selections	Increased accuracy and efficiency of roster management

Deliverables

29B.24 Table 29B.6 lists all deliverables of the component.

Table 29B.6
Subprogramme 1, component 1: deliverables for 2026, by category and subcategory

Category and subcategory
E. Enabling deliverables
Administration: advice and guidance to Secretariat entities on all human resources issues, including escalation to the Department of Management Strategy, Policy and Compliance regarding authoritative policy interpretation, when necessary; affiliated-personnel administration, recruitment and rostering improvements; advice on attaining targets related to gender equality; talent programmes focused on field mission recruitment (e.g. senior women talent pipeline); examinations and tests, including the competitive examination for language positions for approximately 5,000 candidates, the young professionals programme for approximately 2,000 candidates and the language proficiency examination for approximately 6,000 participants; placement of approximately 60 young professionals programme roster candidates and reassignment of young professional staff members after their initial two years of service; roster assessment and schedule determination for refreshing rosters across 23 job families; updated procedures, assessments and tools for rostering and recruitment; guidance packages, advice and capacity-building on human resources delegation of authority, performance management, affiliated personnel administration, workforce planning, organizational design and roster management to facilitate the human resources planning process for all Secretariat entities; tools and enhancements in the Inspira talent management platform for recruitment and rostering; official status files in largely digital format for the efficient administration of peacekeeping personnel and towards a Secretariat-wide personnel records management system; and enhanced Umoja functionalities in support of human resources processes globally.

Component 2
Capacity development and operational training

Objective

29B.25 The objective, to which this component contributes, is to ensure that all Secretariat entities have the operational capacities necessary to effectively deliver on the mandates entrusted to them.

Strategy

29B.26 To contribute to the objective, the component will:

(a) Collaborate with Secretariat entities to design, develop and deliver a diverse portfolio of training and capacity-building services tailored to operational needs; create and execute comprehensive training programmes across key operational areas, such as resources stewardship, data-related capacities and other support functions, including Umoja; and emphasize the integration of e-learning platforms and apply change management strategies to facilitate effective learning outcomes and seamless adaptation;

(b) Strengthen knowledge management and innovative information-sharing to boost operational effectiveness through standardized, accessible guidance and process improvement initiatives;

(c) Expand the range and content of training programmes and learning resources to improve multilingualism.

29B.27 The above-mentioned work is expected to result in:

(a) Stronger organizational governance by senior leadership teams, as well as better trained and empowered staff to support operational decision-making, resource management and improved operational processes;

(b) Knowledge management and learning management platforms that reach a broad spectrum of practitioners across the Secretariat, resulting in strengthened awareness and competence with regard to resource stewardship and other operational responsibilities;

(c) Greater linguistic capability and diversity and improved communication capacities across the Secretariat in support of multilingualism.

Programme performance in 2024

Improved administration of rest and recuperation entitlements across the Secretariat

29B.28 In early 2024, the process improvement advisory group, to which the component acts as the secretariat, finalized the selection of 10 process improvement projects with a view to enhancing efficiency, streamlining workflows and optimizing service delivery across key Secretariat support functions. One of these projects focused on the enhancement of the administration of rest and recuperation entitlements for staff working in hardship duty stations. During 2024, the component conducted interviews, focus group discussions and surveys with representatives from 29 Secretariat entities to identify challenges and inefficiencies in the administration of such entitlements. Subsequently, business process improvement workshops were held to redesign the process to address inefficiencies in workflows and enhance decision-making. These workshops utilized behavioural science principles to uncover “pain points” in the process and identify evidence-based approaches to address them. They also offered the opportunity for different improvements to be tested to determine their utility and effectiveness. As a result, an agreement on a streamlined, simplified workflow was achieved and will be implemented in 2025.

29B.29 Progress towards the objective is presented in the performance measure below (see table 29B.7).

Table 29B.7
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	A streamlined, simplified workflow for the administration of rest and recuperation entitlements was developed and agreed by Secretariat entities, which will reduce processing time for around 20,000 requests, benefiting over 5,000 staff entitled to rest and recuperation as well as managers and human resources partners involved in the approval process

Planned results for 2026

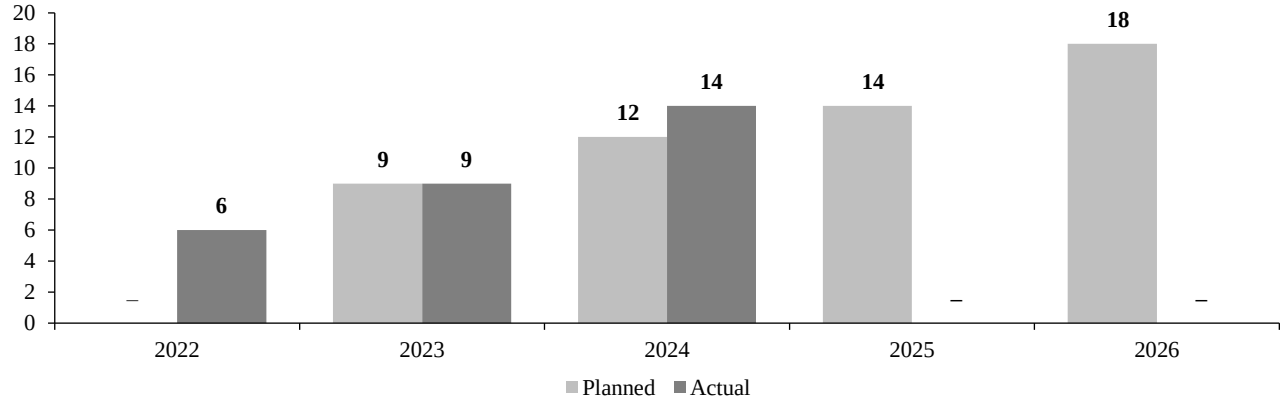
Result 1: effective resource stewardship in the Secretariat

Programme performance in 2024 and target for 2026

29B.30 The component's work contributed to the availability of 14 learning solutions on effective resource management, which exceeded the planned target of 12 learning solutions.

29B.31 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29B.I).

Figure 29B.I
Performance measure: number of learning solutions on effective resource management available to client entities (cumulative)



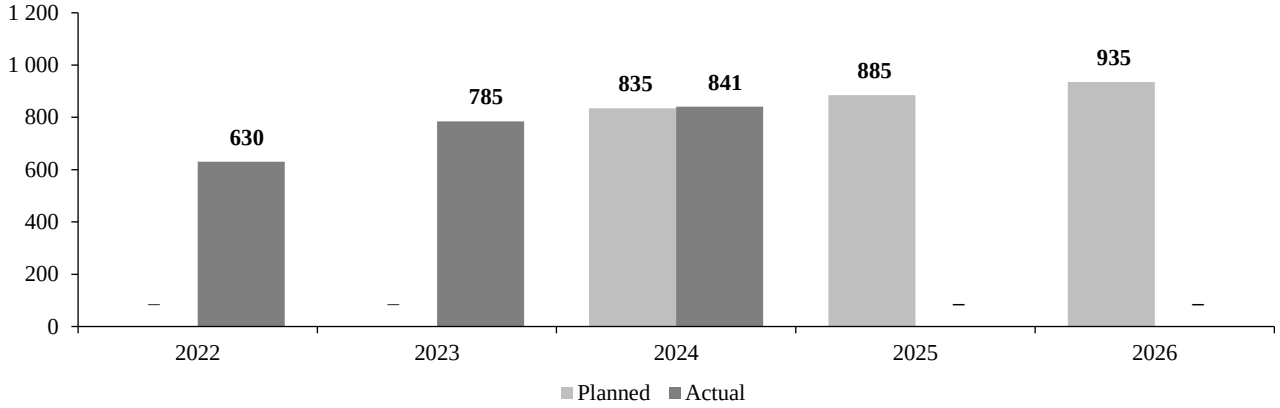
Result 2: UNTold: collective learning and innovation across the United Nations system

Programme performance in 2024 and target for 2026

29B.32 The component's work contributed to the engagement of 841 United Nations personnel in UNTold interactive learning sessions, which exceeded the planned target of 835 personnel.

29B.33 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29B.II).

Figure 29B.II
Performance measure: number of United Nations personnel engaged in UNTold interactive learning sessions (annual)



Result 3: strengthened organizational capabilities in innovation, data analytics, digital transformation, strategic foresight and behavioural science

Proposed programme plan for 2026

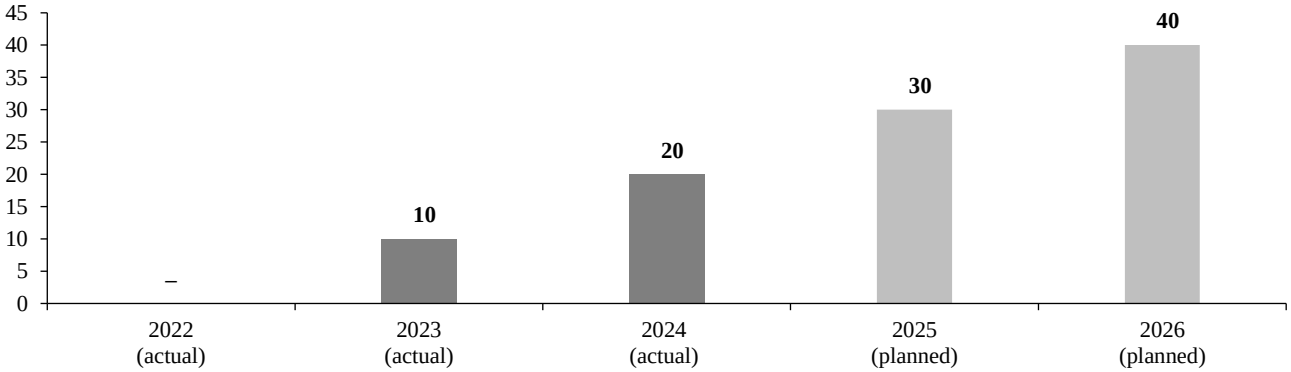
29B.34 The subprogramme works with Secretariat entities to design, develop and deliver a diverse portfolio of training and capacity-building services tailored to operational needs. In paragraph 73 (a) of its resolution 79/1, entitled "The Pact for the Future", under action 45, the General Assembly decided to achieve a more agile, responsive and resilient United Nations, in particular by enhancing the Organization's capabilities in innovation, data analytics, digital transformation, strategic foresight and behavioural science to better support Member States and deliver on its mandates.

Lessons learned and planned change

29B.35 The lesson for the component was the need to further align its learning initiatives with the five areas identified in paragraph 73 (a) of the Pact for the Future. In applying the lesson, the subprogramme will ensure that ongoing and future operational learning projects are appropriately scoped, clearly integrate learning objectives in line with paragraph 73 (a) of the Pact for the Future and are intentionally designed for maximum impact towards strengthening the Organization's capabilities in those five areas.

29B.36 Expected progress towards the objective is presented in the performance measure below (see figure 29B.III).

Figure 29B.III
Performance measure: number of operational learning initiatives to strengthen organizational capabilities in innovation, data analytics, digital transformation, strategic foresight and behavioural science (cumulative)



Deliverables

29B.37 Table 29B.8 lists all deliverables of the component.

Table 29B.8
Subprogramme 1, component 2: deliverables for 2026, by category and subcategory

Category and subcategory
E. Enabling deliverables
Administration: in-person, online and blended courses, workshops, guides, reference material, capacity development programmes and initiatives; in-person and virtual governance improvement programme for approximately 16 senior leadership staff from 2 United Nations Secretariat entities; at least 6 learning products on communication in all 6 United Nations official languages, including instructor-led training and self-paced content for 500 beneficiaries, and illustrative samples (text, video and audio) to demonstrate language production at the various United Nations levels; instructor-led and self-paced language and communication training in all 6 official United Nations languages, including direct provision at United Nations Headquarters and other duty stations, with approximately 350 initiatives and promotion of comparable online language learning licences in 14 Secretariat entities; training on the use of updated and simplified enterprise system workflows and business process improvement; guidance and best practices in more than 135 thematic areas to simplify and harmonize operational processes; and embedded accessibility tools for persons with disabilities in the Knowledge Gateway.

Component 3
Healthcare management and occupational safety and health

Objective

29B.38 The objective, to which this component contributes, is to ensure the health and well-being of the United Nations workforce.

Strategy

29B.39 To contribute to the objective, the component will:

(a) Ensure standardized credentialing for United Nations healthcare personnel and ensure that healthcare personnel with appropriate qualifications and skills are deployed to all field duty stations;

(b) Implement healthcare quality and patient safety standards at all United Nations healthcare facilities at level 1+ and above by assessing facilities, training medical personnel in healthcare quality and patient safety standards and assessment methodologies and reviewing data from the hospital evaluation tool;

(c) Promote a culture of safety at all level 1+ and above healthcare facilities by implementing a clinical adverse event reporting system to support data collection for surveillance and the reporting of patient safety risks and adverse events and by administering a culture of safety survey;

(d) Develop evidence-based chronic disease prevention and health promotion programmes and policies, based on a disease surveillance system, for implementation by United Nations medical services globally;

(e) Implement the components of an occupational safety and health management system for Secretariat entities, including an incident reporting system and a monitoring and evaluation system, through support for an oversight body, the development of policy and standards and training;

(f) Modernize business processes, including for the collection of medical entitlements through the electronic medical record system, the improved capture of the cause of sickness absences and the integration of systems covering incidents, sickness, work-related medical evacuations and service-incurred compensation;

(g) Undertake workplace and meeting risk assessments at United Nations Headquarters and implement mitigation strategies to prevent workplace illness and injury;

(h) Implement support measures for women's health, including training for the United Nations healthcare workforce on the provision of gender-sensitive medical services;

(i) Improve the access of personnel of peace operations to health facilities, including mental health services, in line with paragraph 42 (d) of the Pact for the Future, under action 21.

29B.40 The above-mentioned work is expected to result in:

(a) A reduction in adverse events and preventable harm by enhancing the health and well-being of personnel;

(b) Continued mitigation of occupational health and safety risks;

(c) Improved compliance of field and referral hospitals with United Nations healthcare quality and patient safety standards that meet the needs of United Nations healthcare professionals and staff.

Programme performance in 2024

Enhanced literacy on mental health issues for uniformed personnel

29B.41 Serving in diverse and often challenging environments, uniformed and civilian personnel in peace operations put their physical and mental well-being at risk. Recognizing the importance of building resilience and safeguarding the well-being of personnel in peace operations, the subprogramme launched, in 2023, the Mental Health Strategy for United Nations Uniformed Personnel. The Strategy underscores the critical importance of improving mental health literacy, with a view to reducing barriers to seeking support. It also outlines comprehensive roles and responsibilities in providing mental health support to uniformed personnel. In 2024, the subprogramme developed a web and mobile phone application, "UN's MindCompanion", to increase awareness and understanding of mental health issues, facilitate coping skills, enhance accessibility to mental health literacy resources, foster a positive and supportive work environment and reduce barriers to seeking support. Available in 17 languages and functioning seamlessly both online and offline, the application ensures privacy and confidentiality for the user and also includes a self-assessment feature to help users to gauge their mental well-being and track it over time.

29B.42 Progress towards the objective is presented in the performance measure below (see table 29B.9).

Table 29B.9
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	Mental Health Strategy for United Nations Uniformed Personnel launched in December 2023	"UN's MindCompanion", a digital platform (web and mobile application), available in 17 languages as of October 2024, with 4,800 downloads between October and December

Planned results for 2026

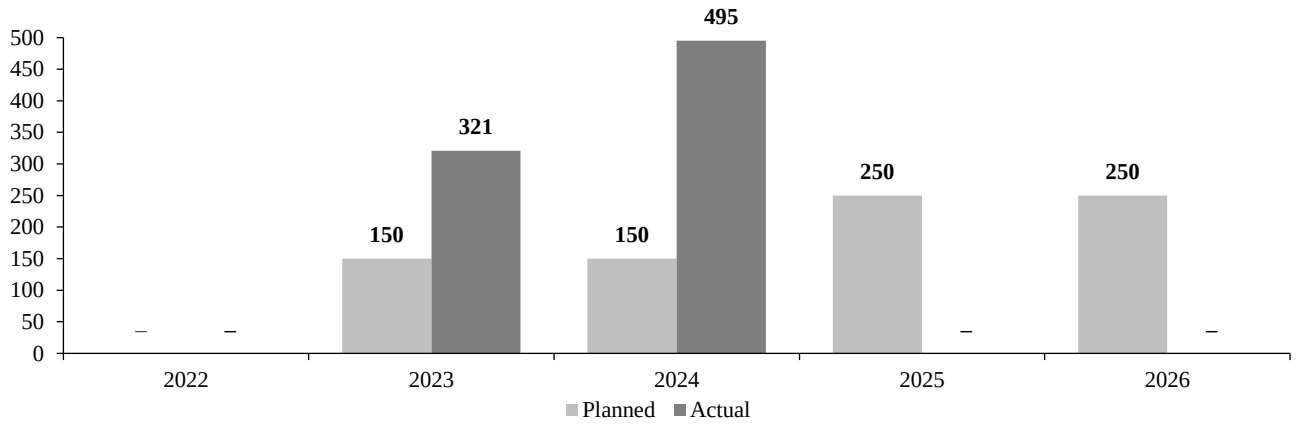
Result 1: a safe and healthy environment for female civilian and uniformed personnel in peace operations

Programme performance in 2024 and target for 2026

29B.43 The component's work contributed to 495 field medical personnel having access to training on women's health and reporting improved knowledge and capabilities for gender-sensitive services, which exceeded the planned target of 150.

29B.44 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29B.IV).

Figure 29B.IV
Performance measure: number of field medical personnel who have access to training on women's health and who report improved knowledge and capabilities for gender-sensitive services (annual)



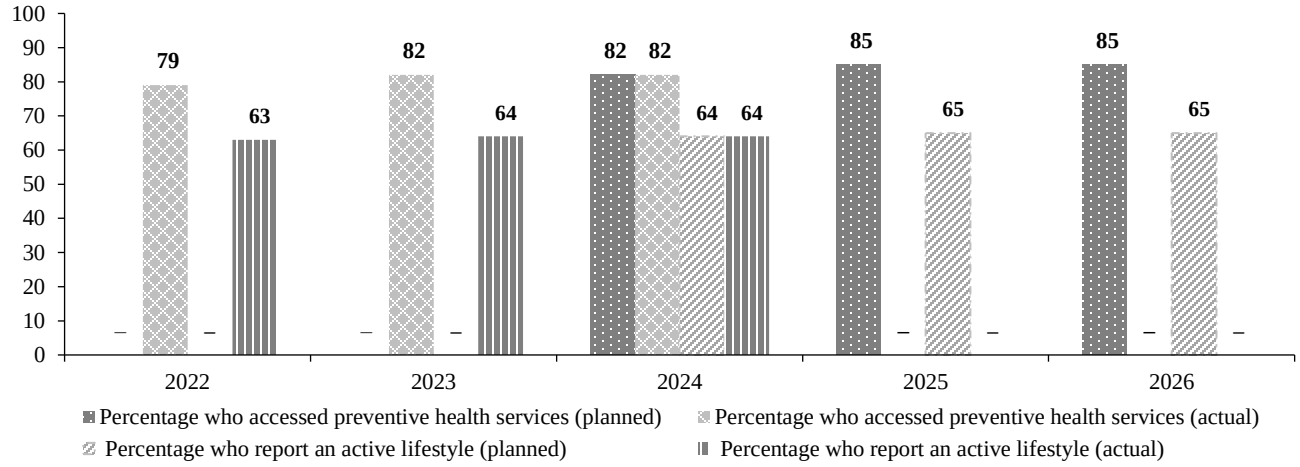
Result 2: United Nations personnel use preventive health services to improve their health and well-being

Programme performance in 2024 and target for 2026

29B.45 The component's work contributed to 82 per cent of United Nations personnel accessing preventive health services and 64 per cent reporting an active lifestyle, which met the planned target.

29B.46 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29B.V).

Figure 29B.V
Performance measure: improved health and well-being of United Nations personnel[a]



[a] The survey is conducted biennially. Data for 2024 (actual) reflect the latest available data from the survey conducted in 2023.

Result 3: improved quality of patient care

Proposed programme plan for 2026

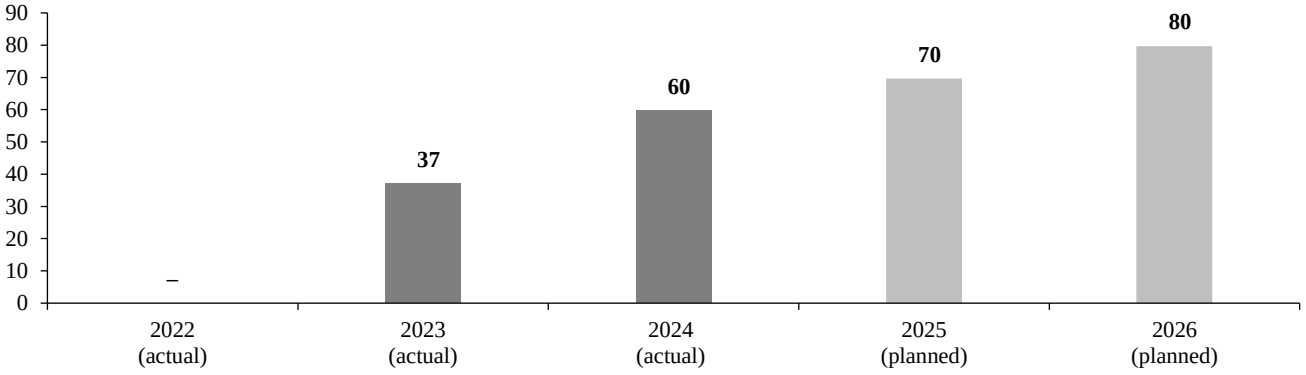
29B.47 Clinical standards and pathways contribute to improving patient care by identifying and standardizing best practices, reducing variations in treatment and promoting evidence-based approaches. The component, in collaboration with the World Health Organization, has worked to establish clinical standards and pathways for United Nations operations, and has provided extensive guidance and training to medical personnel on their implementation.

Lessons learned and planned change

29B.48 The lesson for the component was that in addition to guidance and training on the standards and pathways, it was important to continuously monitor the quality of patient care. In applying the lesson, the component will conduct continuous reviews of professional practice, including daily and monthly reviews, to assess compliance with established clinical standards or pathways. The component will also identify specific areas for improvement and corrective actions, and will engage with United Nations medical personnel to provide training and guidance to ensure the implementation of recommendations arising from reviews of professional practice. These efforts will be further enhanced through an electronic monitoring system which provides all United Nations medical personnel with immediate access to recommendations and enables them to monitor their performance, and ultimately contributes to continuous improvement in the quality of care.

29B.49 Expected progress towards the objective is presented in the performance measure below (see figure 29B.VI).

Figure 29B.VI
Performance measure: compliance rates with clinical standards or pathways (annual)
(Percentage)



29B.50 Table 29B.10 lists all deliverables of the component.

Table 29B.10
Subprogramme 1, component 3: deliverables for 2026, by category and subcategory

Category and subcategory
E. Enabling deliverables
Healthcare management and occupational safety and health: credentialing process for healthcare personnel in compliance with the guidelines for technical clearances and the technical skills framework; psychosocial services, including mental health services; medical clearance of 4,000 personnel for recruitment and travel and immunizations of 1,500 personnel; guidance on global occupational health and safety services; advice on workplace accommodation and occupational ergonomics; field health support plans for field duty stations and field missions, upon request; assessment of field hospitals for compliance with healthcare quality and patient safety standards, and training medical personnel on those standards; clinical audits of field healthcare facilities; patient experience surveys; weekly webinars for medical personnel and online courses on women's health and emergency hemotherapy; training on occupational health and safety issues and on medical entitlement for field health case managers; guidance for public health emergencies; assessments on emergency preparedness, including for mass casualty events; and emergency preparedness and response.

Subprogramme 2
Supply chain management

Component 1
Integrated supply chain management

Objective

29B.51 The objective, to which this component contributes, is to ensure the availability of the right goods and services at the right place, the right time and the right costs for effective and efficient mandate implementation by United Nations Secretariat client entities.

Strategy

29B.52 To contribute to the objective, the component will:

(a) Improve alignment of the Secretariat's end-to-end supply chain with the 2030 Agenda for Sustainable Development and operationalize 24-month rolling supply chain planning, for continuous monitoring and update of supply chain plans to meet operational requirements and priorities;

(b) Identify and ensure the availability of appropriate sourcing options and solutions, such as global and regional systems contracts, local procurement, letters of assist and memorandums of understanding, or the leveraging of existing stock, integrating practices that are client-centric, effective, efficient and gender-sensitive;

(c) Continue outreach efforts to facilitate diversity and proportionate participation in business opportunities with the United Nations, including through targeted outreach to Member States and the enhanced use of business seminars, in particular for women-owned and disability-inclusive businesses and vendors from developing countries and countries with economies in transition;

(d) Maintain the list of strategic goods and services sourced through Headquarters to improve risk management in procurement, economies of scale and standardization;

(e) Support all entities with the timely and effective sourcing and delivery of goods and services, including the fulfilment of unforeseen requirements.

29B.53 The above-mentioned work is expected to result in:

(a) The availability of the right goods and services at the right time, while taking into consideration their whole-life cost;

(b) Client entities gaining access to appropriate, effective and efficient sourcing and delivery solutions to implement their mandates;

(c) A more diversified vendor roster for more inclusive and effective international competition.

Programme performance in 2024

Safe deployment and relocation of United Nations personnel to and from Haiti

29B.54 The component supports client entities with timely and effective sourcing and delivery of goods and services, including the fulfilment of unforeseen requirements. In response to the security situation in Haiti, the component facilitated the deployment or relocation of United Nations staff and personnel to or from Haiti. In March 2024, the component supported the urgent deployment and redeployment of 64 United Nations personnel to and from Haiti. In November 2024, the component facilitated the safe relocation of 24 staff and multinational police advisers from Haiti, utilizing a United Nations contracted aircraft which was temporarily shared by the United Nations Verification Mission in Colombia. The component also established from June 2024 air ambulance services and level 3 hospital services in the Dominican Republic to provide medical support to personnel of the Multinational Security Support Mission in Haiti established by the Security Council in its resolution 2699 (2023).

29B.55 Progress towards the objective is presented in the performance measure below (see table 29B.11).

Table 29B.11
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Safe deployment and relocation of 88 United Nations staff members and multinational police advisers to and from Haiti

Planned results for 2026

Result 1: reduced environmental footprint through effective supply chain management

Programme performance in 2024 and target for 2026

29B.56 The component's work contributed to client entities having access to seven system contracts, including one for hybrid vehicles and six for turnkey renewable energy solutions for the improvement of camp infrastructure, which met the planned target.

29B.57 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29B.12).

Table 29B.12
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Peacekeeping missions have access to guidance on improved fuel utilization	Selection of vendor for turnkey renewable energy solutions	Client entities have access to 7 system contracts, including for hybrid vehicles and turnkey renewable energy solutions for the improvement of camp infrastructure	Peacekeeping missions increase the proportion of energy consumed through renewable sources to 6 per cent	Existing system contracts contribute to a further reduction of the environmental footprint of United Nations operations

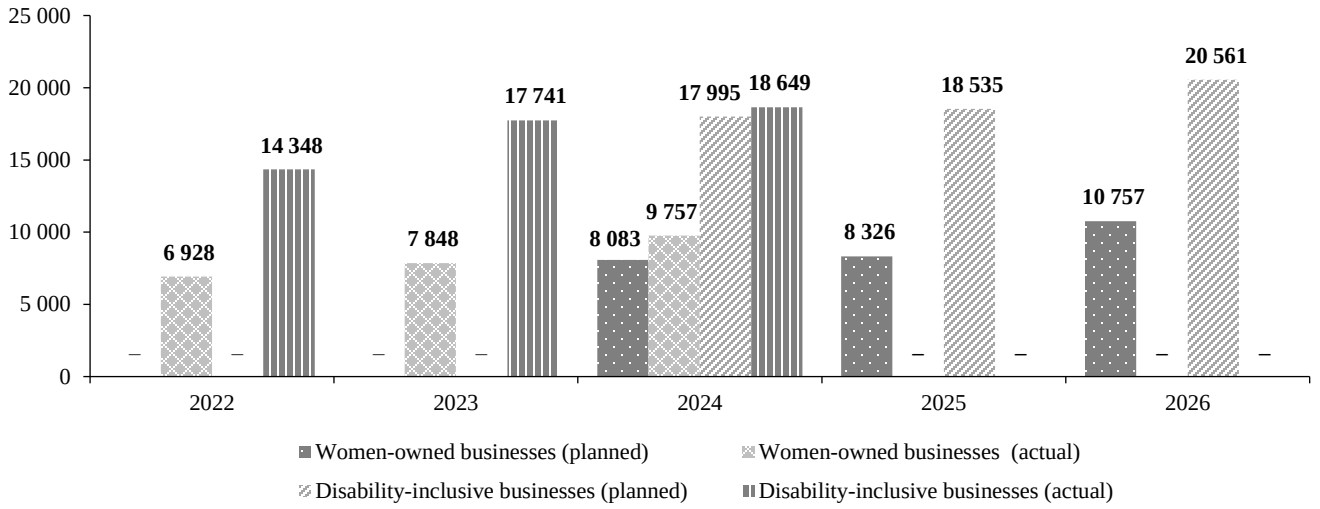
Result 2: diversified participation in United Nations business opportunities

Programme performance in 2024 and target for 2026

29B.58 The component's work contributed to 9,757 women-owned businesses and 18,649 disability-inclusive businesses registered in the United Nations Global Marketplace, which exceeded the planned target of 8,083 and 17,995, respectively.

29B.59 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29B.VII).

Figure 29B.VII
Performance measure: number of women-owned and disability-inclusive businesses registered in the United Nations Global Marketplace (cumulative)



Result 3: increased availability of on-call logistics solutions

Proposed programme plan for 2026

29B.60 The component provides cost-effective, client-oriented and efficient supply chain solutions to client entities. In its efforts to improve client experiences with fit-for-purpose supply chain solutions, the component engages with Member States to establish on-call and standby logistics solutions that further enable the United Nations to rapidly address emergency and surge requirements where speed and agility are critical, and to supplement commercial arrangements.

Lessons learned and planned change

29B.61 The lesson for the component was that the partnership with Member States can enhance the capacity of the United Nations to address critical logistics gaps in areas where commercial services are not easily available when needed and improve the Organization's responsiveness to unforeseen circumstances. In applying the lesson, the component will enhance and strengthen its partnership with Member States in various areas of on-call logistics solutions, where such solutions are available.

29B.62 Expected progress towards the objective is presented in the performance measure below (see table 29B.13).

Table 29B.13
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	–	United Nations Secretariat entities have access to logistical solutions through new or existing partnerships with Member States	Agencies, funds and programmes have access to logistical solutions through new or existing partnerships with Member States

Deliverables

29B.63 Table 29B.14 lists all deliverables of the component.

Table 29B.14
Subprogramme 2, component 1: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	–	–	**1**	–
1. Report of the Secretary-General on supply chain activities to the General Assembly (biennial report)	–	–	1	–
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	**54**	**60**	**54**	**54**
2. Seminars on how to do business with the United Nations for suppliers from developing countries and countries with economies in transition	54	60	54	54
C. Substantive deliverables				
Consultation, advice and advocacy: advice on 100 local procurement authority requests from client entities.				
D. Communication deliverables				
Outreach programmes, special events and information materials: briefings for 6 international partners, including Member States, on functional arrangements within areas of logistical cooperation in all field missions, system-wide cooperation on business operation projects and procurement cases with the United Nations entities procurement network; and outreach to vendors.				
Digital platforms and multimedia content: e-catalogue for goods and services; Ariba eTendering platform; supply chain performance management framework; business intelligence reports for all functions in the Secretariat-wide supply chain, including on supply chain performance; dedicated virtual space to encourage innovation and excellence in supply chain management; and annual update of Secretariat procurement statistics.				
E. Enabling deliverables				
Administration: advisory services on procurement matters for 44 client entities, including on optimal acquisition plans, sourcing solutions, system contracts, procurement modalities and other supply chain matters; annual supply chain plan and strategic sourcing; operationalized mutual recognition, in line with the promulgated supply chain operational guidance on cooperation with United Nations organizations; global systems contracts and turnkey contracts, air transportation service contracts and other contracts; vendor registration documents in the 6 official United Nations languages; strategic-level support within the logistics specialist areas; system-wide aviation regulatory framework; guidance on aviation safety, including that related to air service vendors; operational guidance, manuals, contract performance evaluation tools and best practices on supply chain management; and Umoja master data management and data quality assurance.				

Component 2
Uniformed capabilities support

Objective

29B.64 The objective, to which this component contributes, is to ensure the efficient and effective functioning of the peace and security pillar of the United Nations.

Strategy

29B.65 To contribute to the objective, the component will:

(a) Serve as the single point of contact for troop- and police-contributing countries on all administrative and logistical issues related to force generation, memorandums of understanding, contingent-owned equipment and reimbursement;

(b) Support the periodic review by the General Assembly of the reimbursement framework associated with uniformed capabilities deployed in formed units, support the negotiation and finalization of memorandums of understanding with troop- and police-contributing countries, expeditiously process applicable reimbursements in line with the decisions of the Assembly and facilitate the strategic integration of relevant performance data related to deployed contingent-owned equipment;

(c) Provide a streamlined reimbursement process involving an enhanced memorandum of understanding and payment processes;

(d) Provide strategic and operational support and foster enhanced partnerships with troop- and police-contributing countries.

29B.66 The above-mentioned work is expected to result in:

(a) Servicing of the General Assembly during the periodic review of the reimbursement framework for formed units and the implementation of all derivative guidance;

(b) Streamlined and timely payments to troop- and police-contributing countries for uniformed personnel and contingent-owned equipment deployed in formed units, letter-of-assist reimbursements, death and disability claims and ad hoc claims;

(c) Increased transparency and accountability of the reimbursement process and the real-time availability of data to Member States, Headquarters and field missions.

Programme performance in 2024

Safe disposal of unserviceable ammunition for the United Nations Multidimensional Integrated Stabilization Mission in Mali

29B.67 In accordance with Security Council resolution 2690 (2023), the component provided extensive support to the United Nations Multidimensional Integrated Stabilization Mission in Mali (MINUSMA) during its drawdown, withdrawal and liquidation. The disposal of the Mission's ammunition emerged as a critical priority since MINUSMA was unable to dispose of ammunition within the mission area. Given the time constraints and complex operational needs, the component was requested to assist, and in response led the drafting and negotiation of a letter of assist and managed the disposal process with an outside service entity, with technical support from the Mine Action Service of the United Nations and logistical support from the Mission's liquidation entity. The component successfully led and managed the safe disposal process that was carried out in another country in November 2024.

29B.68 Progress towards the objective is presented in the performance measure below (see table 29B.15).

Table 29B.15
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Safe disposal of unserviceable ammunition by the required time frame of November 2024

Planned results for 2026

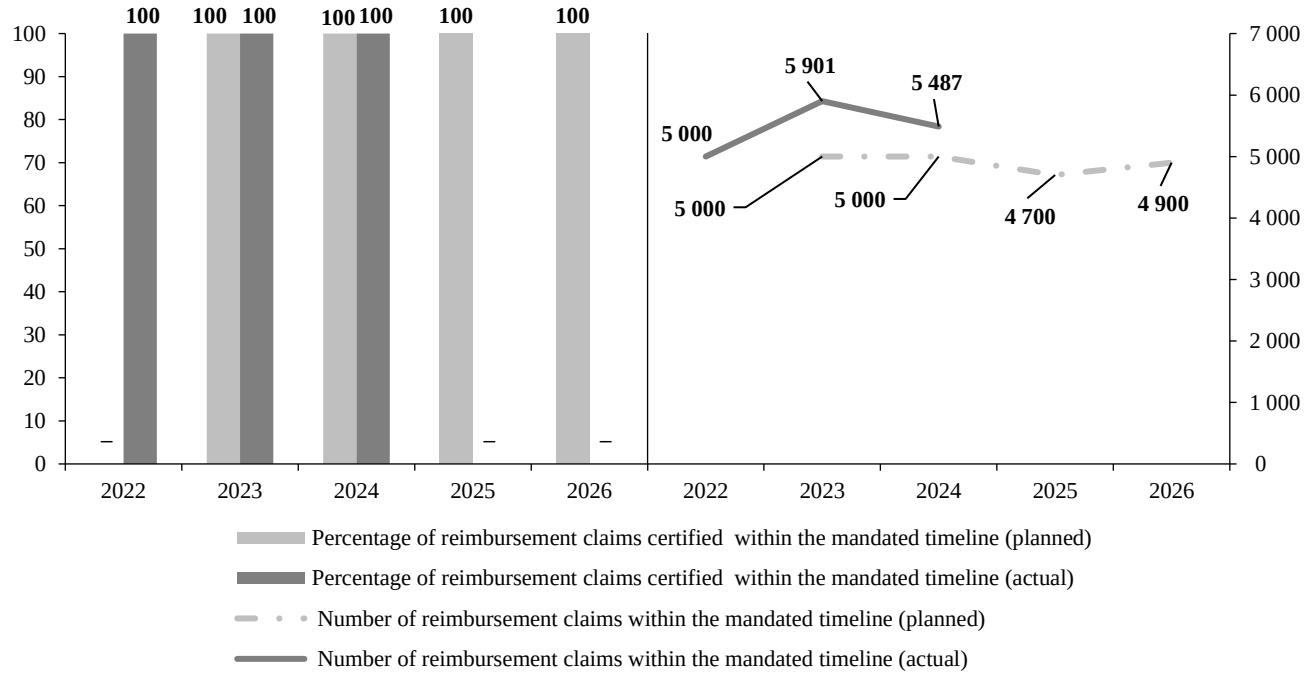
Result 1: single point of contact in the areas of administrative, logistical and financial support for troop- and police-contributing countries for faster reimbursement

Programme performance in 2024 and target for 2026

29B.69 The component's work contributed to the certification of 5,487 reimbursement claims, with 100 per cent of claims certified within the mandated three-month timeline, which exceeded the planned target of 5,000 claims.

29B.70 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29B.VIII).

Figure 29B.VIII
Performance measure: number of reimbursement claims (uniformed personnel and contingent-owned equipment) certified within the mandated three months following the end of the preceding quarter (annual)



Result 2: a secure one-stop-gateway for Member States to submit claims and access information on their deployments to peace operations

Programme performance in 2024 and target for 2026

29B.71 The component's work contributed to the development and testing of new functionalities which were further enhanced to provide more detailed information on the status of death and disability claims, which met the planned target.

29B.72 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29B.16).

Table 29B.16
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	The Member States Portal for Uniformed Capabilities Support provides basic information and visualizations	Functionalities were further enhanced to provide more detailed information on the status of death and disability claims	Troop- and police-contributing countries use the Member States Portal for Uniformed Capabilities Support to submit claims and securely access memorandums of understanding and reimbursement information	Troop- and police-contributing countries use the Member States Portal for Uniformed Capabilities Support to directly access payment letters, quarterly reimbursement letters and final quarterly contingent-owned equipment verification reports

Result 3: updated policies, procedures, standards and definitions for uniformed personnel and contingent-owned equipment

Proposed programme plan for 2026

29B.73 The General Assembly periodically reviews the standards and rates of reimbursement to uniformed personnel and for contingent-owned equipment. In 2024, the component initiated preparations for the quadrennial survey and the 2026 meeting of the triennial Working Group on Contingent-Owned Equipment, including providing guidance and briefings to Member States and Secretariat focal points.

Lessons learned and planned change

29B.74 The lesson for the component was to ensure prior engagement with the stakeholders and wider dissemination of information, resulting in more effective substantive deliberations during the formal meeting. In applying the lesson, the subprogramme will conduct pre-meeting briefings, as well as informal consultations, with all stakeholders, with the aim of achieving improved results from the quadrennial survey and the 2026 Working Group on Contingent-Owned Equipment.

29B.75 Expected progress towards the objective is presented in the performance measure below (see table 29B.17).

Table 29B.17
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Pre-sessional bureau of the 2023 Working Group on Contingent-Owned Equipment was convened	Standards and rates of reimbursement for contingent-owned equipment were updated on the basis of the 57 recommendations of the 2023 Working Group on	Member States received guidance on preparing issue papers and national cost data for the 2026 Working Group on Contingent-Owned Equipment	Sample group for the quadrennial survey nominated Completion of the mandated studies from the 2023 Working Group on Contingent-Owned Equipment	General Assembly receives the survey on the standard rate of reimbursement for uniformed personnel deployed in formed units Standards and rates of reimbursement for the Working Group on

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
	Contingent-Owned Equipment		Pre-sessional bureau of the 2026 Working Group on Contingent-Owned Equipment convened	Contingent-Owned Equipment updated on the basis of the recommendations of the 2026 Working Group on Contingent-Owned Equipment

Deliverables

29B.76 Table 29B.18 lists all deliverables of the component.

Table 29B.18
Subprogramme 2, component 2: deliverables for the period 2024–2026, by category and subcategory

E. Enabling deliverables				
Administration: reimbursement framework for formed units, including: the quadrennial survey on standard uniformed personnel reimbursements; administration of the Member States Portal for Uniformed Capabilities Support; training for Secretariat entities and all field missions with formed units on the reimbursement framework; new and amended statements of unit requirements, memorandums of understanding, letters of assist and agreements for military and police contingents deployed to field missions or pledged to the rapid deployment level of the Peacekeeping Capability Readiness System and participation in advisory, predeployment, rapid deployment-level, contingent-owned equipment verification and other visits to troop- and police-contributing countries; reimbursements to military and police personnel and for contingent-owned equipment deployed to field missions on memorandums of understanding or letters of assist, including through the calculation of premiums, deductions and death and disability and post-traumatic stress disorder compensation; servicing of the Contingent-Owned Equipment/Memorandum of Understanding Management Review Board; and comparative performance analysis and management decision reports.				

Subprogramme 3
Special activities

Objective

29B.77 The objective, to which this subprogramme contributes, is to ensure effective and efficient operational support responses by the Secretariat, including for unique and escalated requirements.

Strategy

29B.78 To contribute to the objective, the subprogramme will:

(a) Lead and coordinate the Secretariat's operational support response to emerging situations and other unique and surge-level requirements, including through planning support and monitoring, shared situational awareness, the provision of surge and specialized capacities and the facilitation of coordinated efforts;

(b) Work with client entities, major service providers in the global operational support architecture and United Nations system entities to improve service delivery, including through facilitation, coordination and the provision of specialist advice and direct support;

(c) Facilitate a robust value-for-money and resource stewardship agenda to inform efficient, effective and responsive operational support functions across the Secretariat;

(d) Coordinate and maintain bilateral and other multiparty relationships with key non-Secretariat partners in operational support, including on the implementation of Security Council resolution 2719 (2023).

29B.79 The above-mentioned work is expected to result in:

(a) Sustainable and multidimensional operational response to escalated situations and unique requirements;

(b) Fit-for-purpose support solutions that leverage existing capacities and expertise across the Secretariat and with United Nations agencies, funds and programmes to enhance efficiency, responsiveness, interoperability and operational continuity;

(c) Mutually beneficial collaboration between Secretariat and non-Secretariat entities, including Member States and regional organizations, that addresses priority needs across Secretariat entities;

(d) Measurable gains in efficiency and responsiveness across the Secretariat operational support architecture, including deepened cooperation in support operations with United Nations agencies, funds and programmes;

(e) Secretariat entities having access to guidance on operational support resourcing priorities and standards that is responsive to evolving requirements.

Programme performance in 2024

Successful drawdown and closure of the United Nations Multidimensional Integrated Stabilization Mission in Mali

29B.80 The subprogramme coordinated the engagement of the Department of Operational Support with the drawdown, withdrawal and liquidation of MINUSMA, which was one of the largest mission closures in recent history. The complexity and challenges inherent in repatriating 12,000 uniformed personnel and their equipment, separating or reassigning more than 4,000 civilian personnel, returning 15 camps to government ownership following environmental remediation and asset disposal and completing the myriad of administrative and logistical issues arising throughout the process required

close coordination of the Department's work. The short time frame available to complete the work and the prevailing security environment exacerbated these challenges. The subprogramme was instrumental in this coordination, engaging the whole Department, the Mission's liquidation entity and strategic partners to ensure alignment of efforts.

29B.81 The closure of MINUSMA offered many lessons for the Department. The importance of contingency planning, the ongoing need for flexible, innovative support solutions and the unique challenges that arise from completing a closure in a non-permissive security environment all influenced the work of the Department. The principal lesson derived from this closure, however, was the need for field entities to ensure their preparation for transition. The limited time available to prepare underscored the need for field entities to address issues throughout the mission life rather than waiting until closure. Despite all these challenges, the drawdown of MINUSMA was successfully achieved. The lessons will be incorporated into forthcoming guidance for field entities facing transition.

29B.82 Progress towards the objective is presented in the performance measure below (see table 29B.19).

Table 29B.19
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	The drawdown, withdrawal and liquidation of MINUSMA was successfully achieved in the time frame with lessons learned incorporated into guidance materials for entities facing transition

Planned results for 2026

Result 1: mutually beneficial collaboration in support operations through a support partnerships framework

Programme performance in 2024 and target for 2026

29B.83 The subprogramme's work contributed to: (a) the development of the joint African Union-United Nations road map for the operationalization of resolution 2719 (2023), with particular focus on core area (b), on mission support; (b) the development of overall mission design for a proposed successor mission to the African Union Transition Mission in Somalia, in accordance with Security Council resolution 2748 (2024); and (c) strengthened engagement of the African Union, the European Union and other regional organizations, enabling mutual understanding and interoperability on operational support matters, including through the expansion of the knowledge and expertise exchange programme with the African Union and improved coordination to operationalize the Framework Agreement between the European Union and the United Nations for the Provision of Mutual Support in the context of their respective missions and operations in the field, which met the planned target.

29B.84 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29B.20).

Table 29B.20
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Active engagement of the African Union in the development of a joint United Nations-African Union road map to renew the knowledge and expertise exchange programme Support implications for the proposed reconfiguration of African Union operations in Somalia reviewed by the African Union, the United Nations and other key partners to inform the Security Council's consideration of a future direction	Two operational support framework agreements established with the African Union that provide an overarching framework to promote responsive solutions to operational challenges faced by key partners in security Secretariat entities have access to a central repository of information on operational support framework agreements	Joint African Union-United Nations road map for the operationalization of resolution 2719 (2023) developed and endorsed Overall mission design for a proposed successor mission to the African Union Transition Mission in Somalia developed, in accordance with resolution 2748 (2024) Strengthened engagement of the African Union, the European Union and other regional organizations, enabling mutual understanding and interoperability on operational support matters	Mechanisms in place to enhance collaboration in operational support between the African Union and the United Nations in accordance with resolution 2719 (2023)	Enhanced operational support skills for African Union Commission and United Nations Secretariat staff involved in joint engagements

Result 2: enhanced through-life management of operational support functions by entities undergoing transitions

Programme performance in 2024 and target for 2026

29B.85 The subprogramme's work contributed to MINUSMA utilizing the beta version of the operational support monitoring tool in its work managing the liquidation process, which met the planned target.

29B.86 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29B.21).

Table 29B.21
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	MINUSMA utilized the beta version of the operational support monitoring tool in its work managing the liquidation process	Operational support monitoring tool and related training available to field entities	Refined operational support monitoring tool and related training is available for field entities

Result 3: efficient and improved service delivery through enhanced support and advisory services

Proposed programme plan for 2026

29B.87 The subprogramme provides direct support to entities in implementing the Secretary-General's vision for improving service delivery and has undertaken efforts to strengthen integration and harmonization across the Secretariat's major service providers, review and optimize entity-specific operational support models, address structural barriers to collaboration with other United Nations system entities and support a client-centric environment and culture.

Lessons learned and planned change

29B.88 The lesson for the subprogramme was that the complexity around the diversity of mandates and entities across the Secretariat requires the strengthening of operational structures and the provision of both cross-cutting advisory support and tailored guidance. In applying the lesson, the subprogramme will develop tools and standards that will allow entities to receive high-quality guidance tailored to their operational needs, while leveraging Secretariat and system-wide partnerships to improve service delivery and deliver effective and efficient operational support solutions. The subprogramme will also develop and roll out a new service provider common performance framework to support entities to identify and leverage shared services from existing Secretariat service providers.

29B.89 Expected progress towards the objective is presented in the performance measure below (see table 29B.22).

Table 29B.22
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	–	Full realization of the United Nations common back office initiative in three countries for all Secretariat entities	Full realization of the United Nations common back office initiative in five additional countries for all Secretariat entities
			Two Secretariat shared services available in an expanded solution across the United Nations system	Two additional Secretariat shared services available in an expanded solution across the United Nations system

Deliverables

29B.90 Table 29B.23 lists all deliverables of the subprogramme.

Table 29B.23
Subprogramme 3: deliverables for 2026, by category and subcategory

Category and subcategory
E. Enabling deliverables
Administration: 52 regular situational response and awareness reports; standardized procedures for escalated situations and an emerging situation data management platform; deployments of surge and specialized support capacities within 10 days; administration of residual entity liquidation issues; support partnerships, including arrangements that address client priority needs; workshop to review and address barriers to collaborate with agencies, funds and programmes; key performance indicator dashboard module and common client satisfaction survey for common operational performance framework; revised assessment framework for the assignment of service providers to Secretariat entities; assignment of shared service providers to two Secretariat entities; support programme and package to five Secretariat entities entering into United Nations system common back office arrangements; training programme and package on the use of the operational monitoring tool deployed to entities undergoing transitions.

Subprogramme 4
Administration, New York

Objective

29B.91 The objective, to which this subprogramme contributes, is to ensure a safe and fit-for-purpose physical environment at Headquarters and responsive facilities, as well as administrative, logistical, information and other services in support of the efficient functioning of the Organization and a public informed of the work of the United Nations.

Strategy

29B.92 To contribute to the objective, the subprogramme will:

(a) Proactively maintain and operate the Headquarters buildings to achieve efficiencies, promote a modern workplace and preserve the property value of the campus, with an emphasis on reviewing building components completed more than 10 years ago and improving accessibility for persons with disabilities and environmental sustainability;

(b) Regularly adjust the long-term planning of office accommodation to support the needs of entities in New York, centred on implementing the recommendations from the mandated assessment of the real estate portfolio (see General Assembly resolution 75/253 C);

(c) Provide efficient, timely and cost-effective services to clients in New York in the areas of building management, office space, asset and official gift management, inventory and warehouse management, travel and transportation, mail and pouch services, event management, postal administration and catering and other commercial operations;

(d) Provide effective archives and records management services to Secretariat entities globally and strengthen the subprogramme's capacity to manage the accelerated shift from paper to digital archives;

(e) Provide specialized human resources support in the areas of onboarding, separations and the processing of complex entitlements (including education grants, dependency allowances and rental subsidies) for the staff of all Headquarters-based United Nations entities and relevant field locations;

(f) Coordinate and manage commercial insurance policies to mitigate and transfer risk pertaining to property, terrorism and liability programmes, as well as the malicious acts insurance policy, for the Organization, including offices away from Headquarters and peacekeeping and special political missions; adjudicate claims emanated from these insurance programmes and obtain

settlements from the insurers; and provide insurance advice for vendor, memorandum of understanding and pro bono contracts and agreements;

(g) Ensure accurate and timely disbursement of salaries and related allowances for all staff based at United Nations Headquarters and international staff in field missions and all field staff from various entities administered by Headquarters;

(h) Process other disbursements in respect of the financial obligations of the Organization and process the tax reimbursement claims of United States taxpayers.

29B.93 The above-mentioned work is expected to result in:

(a) A highly functional, more inclusive and sustainable campus that symbolizes the ideals of the United Nations;

(b) High client satisfaction and cost-efficiency in the provision of services;

(c) Increased public awareness of the past and current work of the Organization.

Programme performance in 2024

Automation of retiring staff members' pension payments process

29B.94 The United Nations Joint Staff Pension Fund requires the submission of the separation notification form (PF4), which provides all the information that the Fund requires in order for pension payments to be released to separated staff members. The subprogramme has automated the PF4 form, in collaboration with the Umoja team and the Pension Fund. This automation replaces a previously manual, five-step process with a single-click solution in Umoja, significantly reducing processing time and human error. The primary beneficiaries of this initiative are separating and retiring staff members, who will now receive pension payments in a timely and efficient manner. The automation underwent extensive testing for over two years and was initially deployed in New York in September 2024, with full implementation across all payroll offices globally completed by November 2024. This advancement strengthens the integration between the United Nations and the Pension Fund, delivering improved tracking, transparency and reporting and reduced risk of errors.

29B.95 Progress towards the objective is presented in the performance measure below (see table 29B.24).

Table 29B.24
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Retiring and separating staff members received pension payments in a timely and efficient manner through the automation of the separation notification form (PF4)

Planned results for 2026

Result 1: shorter wait time, improved accuracy of estimates and other improvements enabled by simpler and harmonized payroll and accounts payable processes

Programme performance in 2024 and target for 2026

29B.96 The subprogramme's work contributed to an average lead time of 1 working day for off-cycle payments to be processed for personnel at Headquarters and all payroll offices globally; and to

improved accuracy of estimates of resource requirements by client entities based on full adherence to payroll processes, which met the planned target.

29B.97 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29B.25).

Table 29B.25
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Average lead time of 1 working day for off-cycle payments to be processed for personnel at Headquarters	Average lead time of 1 working day for off-cycle payments to be processed for personnel at Headquarters and 3 other payroll offices	Average lead time of 1 working day for off-cycle payments to be processed for personnel at Headquarters and all payroll offices globally Improved accuracy of estimates of resource requirements by client entities based on full adherence to payroll processes	Offices globally receive automated monthly payroll batch and invoice processing	Continued improvement in payroll and accounts payable processes, including automation of expense reports processing

Result 2: historical records digitally preserved

Programme performance in 2024 and target for 2026

29B.98 The subprogramme's work contributed to the establishment of processes to dispose digital records, in accordance with approved retention schedules, that no longer need to be kept by the United Nations, which met the planned target.

29B.99 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29B.26).

Table 29B.26
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Processes established to dispose digital records, in accordance with approved retention schedules, that no longer need to be kept by the United Nations	A comprehensive inventory of the digital records available to Secretariat entities	Digital records of enduring and permanent value preserved

Result 3: office space aligned with the needs of the Organization

Proposed programme plan for 2026

29B.100 The flexible workplace project has transformed the office environment in the Secretariat Building by introducing new work modalities and facilitating flexible working arrangements while increasing the capacity of the office space. The increased capacity has allowed the Organization to vacate several leases, including the DC-1 Building in March 2023 and the Falchi Building in October 2024, and to realize significant savings. The subprogramme will continue to further optimize the alignment of office space with the evolving needs of the Organization through the implementation of flexible workplace environments, as part of the planned renovation of the DC-2 Building.

Lessons learned and planned change

29B.101 The lesson for the subprogramme was that adjustments to the flexible workplace environment are required to effectively support operational needs, including recommendations from the Office of Internal Oversight Services to implement optimal occupancy levels and address issues of noise and lack of privacy. In applying the lesson, the subprogramme will further monitor office space requirements in order to ensure that the workplace is aligned with the evolving needs of the Organization and its personnel.

29B.102 Expected progress towards the objective is presented in the performance measure below (see table 29B.27).

Table 29B.27
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Office space aligned with the current needs of the Organization by reassigning personnel from the DC-1 Building into remaining buildings, mainly into flexible workplace floors in the Secretariat Building, in preparation for vacating the lease in March 2023	The General Assembly took note of the report of the Secretary-General on the assessment of the workplace at United Nations Headquarters (A/78/325) DC-1 lease vacated	Real estate portfolio further reduced with the lease of the Falchi Building vacated in October 2024	Lease renewal for the DC-2 Building Preparations commence for the renovation of the DC-2 Building, including consultation with occupants to identify workspace requirements	Increased availability of flexible workspaces in the DC-2 Building, as part of phase 1 of the DC-2 renovation project

Deliverables

29B.103 Table 29B.28 lists all deliverables of the subprogramme.

Table 29B.28
Subprogramme 4: deliverables for 2026, by category and subcategory

Category and subcategory
D. Communication deliverables
External and media relations: information and reception services to visitors, delegates and the general public, including responses to approximately 20,000 enquiries on the current and past work of the United Nations.
Library services: archives, records and information management services to all entities at United Nations Headquarters and field missions; guidance on record-keeping for Secretariat entities; security-screened, catalogued, stored and preserved paper and digital records; and digitized legacy paper archives.
E. Enabling deliverables
Logistics: management and maintenance of the United Nations Headquarters complex and leased premises, related facilities and assets, including gifts; office accommodations provided for Secretariat personnel; completion of approximately 7,000 service requests for facilities and commercial services; conferences and special events logistics; warehousing and transportation services; approximately 27,500 travel requests and travel documents, lump-sum calculations and host country registrations processed; airline agreements; mail services; and processing of approximately 650,000 postal, courier and diplomatic pouch shipment and messenger services.
Administration: administrative support services, including specialized human resources support in the areas of onboarding and the processing of complex entitlements, dependency benefits and rental subsidies for approximately 8,250 staff of all Headquarters-based United Nations entities and relevant field locations; transactions and claims for 6,600 staff members in the area of tax reimbursement; management of 18 commercial insurance programmes covering $2.95 billion in assets under the global property and terrorism insurance policies, 206,000 personnel under the malicious acts policy and 24,800 vehicles of diverse types under the worldwide auto policy, including the adjudication of related claims; insurance advice and review of certificates of insurance for 150 contracts and agreements; payroll for 26,000 staff and retirees, including assignment and separation payments; pension schedules for all entities at United Nations Headquarters and offices away from Headquarters; troop- and contingent-owned equipment reimbursements; payments to vendors, consultants and individual contractors; annual declaration exercise; and annual rental subsidy monitoring exercise.

B. Proposed post and non-post resource requirements for 2026

Overview

29B.104 The proposed regular budget resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 29B.29 to 29B.31.

Table 29B.29
Overall: evolution of financial resources by object of expenditure
(Thousands of United States dollars)

			Changes

29B.105 Additional details on the distribution of the proposed resources for 2026 are reflected in tables 29B.32 to 29B.34 and figure 29B.IX.

29B.106 As shown in tables 29B.32 (1) and 29B.33 (1), the overall resources proposed for 2026 amount to $101,017,600, reflecting a net decrease of $26,300 compared with the approved budget for 2025. Resource changes result from technical adjustments, new and expanded mandates, and other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Overall resource changes

Technical adjustments

29B.107 As shown in table 29B.32 (1), resource changes reflect a decrease of $540,200, as follows:

(a) **Subprogramme 2, component 1, Integrated supply chain management**. A decrease of $61,900 under contractual services, relating to the removal of non-recurrent provisions for updating the Procurement Manual in all six official languages in 2025, pursuant to section VI of General Assembly resolution 79/258;

(b) **Subprogramme 4, Administration, New York**. A decrease of $478,300, consisting of: (i) a decrease of $11,000 under other staff costs ($7,700) and general operating expenses ($3,300) relating to the removal of the non-recurrent provision for overtime and maintenance of premises, respectively, in support of the 2025 sessions of the Preparatory Commission for the Entry into Force of the Agreement under the United Nations Convention on the Law of the Sea on the Conservation and Sustainable Use of Marine Biological Diversity of Areas beyond National Jurisdiction and the Convening of the First Meeting of the Conference of the Parties to the Agreement, and the first meeting of the Conference of the Parties to the Agreement, pursuant to General Assembly decision 78/560 and resolution 79/258; and (ii) a decrease of

$467,300 under general operating expenses relating to the removal of non-recurrent provisions for office space alterations for 31 posts and temporary positions established in 2025 under section 3, Political affairs, section 9, Economic and social affairs, section 10, Least developed countries, landlocked developing countries and small island developing States, and section 30, Internal oversight, pursuant to General Assembly resolutions 79/257 and 79/258.

New and expanded mandates

29B.108 As shown in table 29B.32 (1), resource changes reflect an increase of $99,400 under subprogramme 4, Administration, New York, for a non-recurrent provision under general operating expenses for office space alterations for seven posts proposed for establishment in New York under section 3, Political affairs, pursuant to General Assembly resolution 79/1, entitled "The Pact for the Future".

Other changes

29B.109 As shown in table 29B.32 (1), resource changes reflect a net increase of $414,500, as follows:

(a) **Executive direction and management**. An increase of $10,900, reflecting the net effect of: (i) an increase of $16,300 under travel of staff, relating to the official travel of the Assistant Secretary-General for Support Operations to participate in meetings of the High-level Committee on Management that address common administrative management issues and promote reforms to enhance services and efficiency across the United Nations system, and (ii) a decrease of $5,400 under contractual services, resulting from reduced rates for information and communications technology (ICT) services;

(b) **Subprogramme 1, component 1, Human resources support**. A decrease of $15,300 under contractual services ($14,200) and general operating expenses ($1,100), reflecting lower rates for ICT services;

(c) **Subprogramme 1, component 2, Capacity development and operational training**. A net decrease of $8,300, consisting of: (i) a decrease of $17,700 under contractual services ($16,300) and general operating expenses ($1,400), reflecting lower rates for ICT services; and (ii) an increase of $9,400 under furniture and equipment, attributable to increased requirements for specialized e-learning tools and licences in support of the design, development and delivery of training and capacity development programmes. The types of tools required depend on the nature and design of the learning activity and consequently vary from year to year and enable the incorporation of new features, such as artificial intelligence capability, into e-learning licences in support of the design, development and/or delivery of various programmes;

(d) **Subprogramme 1, component 3, Healthcare management and occupational safety and health**. The net increase of $104,200 consists of the following:

(i) An increase under posts ($451,200), offset by a decrease under other staff costs ($451,200) relating to the proposed cost-neutral conversion of two P-5 temporary positions to established posts, as explained in annex II;

(ii) A decrease of $14,700 under contractual services, reflecting lower rates for ICT services;

(iii) An increase of $171,800 under general operating expenses, reflecting additional requirements for the maintenance and support of the EarthMed medical records system due to an enhancement of a safety module incorporated into the system to capture additional information ($26,200); and for the Secretariat share of the cost of administering the United Nations occupational health and safety mechanism by the World Health Organization (WHO) ($145,600). The purpose of the mechanism is to streamline and enhance the management of occupational health and safety across the United Nations system. Such a centralized mechanism would improve the coordination of occupational health and safety and well-being initiatives, reduce fragmentation and strengthen the response capabilities of the United Nations to occupational health and safety risks. The

mechanism will support United Nations system entities in fulfilling their responsibilities and obligations of providing and continually improving the occupational health and safety and the well-being of United Nations personnel. Furthermore, the mechanism will be at the forefront of efforts to assist United Nations entities in the establishment and communication of risk-based guidance in addressing emerging global occupational health and safety hazards, providing a mechanism that would enable United Nations personnel to effectively deliver the Organization's mandates while ensuring alignment with human rights standards, international labour standards and WHO recommendations;

(iv) A decrease of $28,800 under supplies and materials, attributable to lower requirements for operational supplies, due to reduced demand for influenza vaccines, the digitization of medical reports, and reduced materials and supplies for training, as the majority of courses are offered online;

(v) A decrease of $24,100 under furniture and equipment, attributable to reduced demand for the basic course licences for medical emergency preparedness training, as the component is organizing more advanced in-person courses for safety and healthcare personnel;

(e) **Subprogramme 2, component 1, Integrated supply chain management**. A decrease of $20,900 under contractual services ($19,200) and general operating expenses ($1,700), reflecting reduced rates for ICT services, including personal computing and telephone services;

(f) **Subprogramme 2, component 2, Uniformed capabilities support**. A decrease of $1,800 under general operating expenses, reflecting reduced rates for ICT services;

(g) **Subprogramme 3, Special activities**. A decrease of $4,700, consisting of the following:

(i) An increase under posts ($357,200), offset by a decrease under other staff costs ($357,200) relating to the proposed cost-neutral conversion of two temporary positions (1 P-4 and 1 P-2/1) to established posts, as explained in annex II;

(ii) A decrease of $4,700 under contractual services, relating to reduced rates for ICT services, including personal computing services;

(h) **Subprogramme 4, Administration, New York**. An increase of $359,900 reflects the net effect of:

(i) A decrease of $135,400 under contractual services, relating to reduced rates for ICT services, including personal computing services;

(ii) An increase of $495,300 under general operating expenses, relating to a non-recurrent provision for office space alterations for the post of Special Envoy of the Secretary-General for Future Generations (Under-Secretary-General), proposed under section 1, Overall policymaking, direction and coordination (A/80/6 (Sect. 1)) ($77,800), and an increase in the costs of cleaning and custodial services, based on a contractual clause for an annual escalation rate of 4.2 per cent ($433,000), offset in part by a decrease relating to lower rates for ICT services, including telephone services ($15,500);

(i) **Programme support**. A decrease of $9,500 under contractual services ($7,900) and general operating expenses ($1,600), relating to lower rates for ICT services, including personal computing and telephone services.

Other assessed resources

29B.110 As reflected in tables 29B.32 (2) and 29B.33 (2), other assessed resources under the support account for peacekeeping operations amount to $131,859,500. The resources would complement regular budget resources and provide for the requirements indicated in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2025 to 30 June 2026 (A/79/783).

Extrabudgetary resources

29B.111 As reflected in tables 29B.32 (3) and 29B.33 (3), extrabudgetary resources amount to $70,951,700. The resources would complement regular budget resources and would be used mainly to provide for 96 posts (5 P-5, 16 P-4, 14 P-3, 7 P-2, 14 General Service (Principal level), 37 General Service (Other level) and 3 Trades and Crafts) and non-post resources. The resources would be used to:

(a) Strengthen capacities for renewable energy in peacekeeping operations;

(b) Provide support and services to agencies, funds and programmes in human resources, capacity development and healthcare management in the following areas: language proficiency examinations, language and communications programmes and the administration of special exams; and the facilitation of rostering and medical consultations, travel health advisories, immunizations and other medical administrative matters, such as medical clearances, sick leave certification and recommendations for medical evacuations/repatriations. Extrabudgetary resources support the client offices funded from extrabudgetary sources in the areas of facilities management and office space, travel and transportation and pouch and mail services, human resources services for processing separations, onboarding and complex entitlements, operational and transactional functions consisting of payroll, accounts payable and commercial insurance, and the processing of tax advances and settlements of federal and state taxes for United States citizens and residents employed by the United Nations and its agencies, funds and programmes;

(c) Support procurement actions in the areas of corporate support services for field and Headquarters operations and continuation of the project to implement gender-sensitive designs for infrastructure;

(d) Support the triangular partnership programme, a capacity-building model aimed at training uniformed personnel in the peacekeeping-enabling capacity through collaboration among Member States with expertise and resources, troop-contributing countries and the Secretariat.

29B.112 In addition, following the decision of the General Assembly to transfer the improved service delivery team from the Department of Management Strategy, Policy and Compliance to the Department of Operational Support (see resolution 79/257, para. 63), financial resources from central support costs would fund the extrabudgetary share of the improved service delivery team in the Resource Planning, Analysis and Improved Delivery Service (renamed from the Resource Planning and Analysis Section, in order to better reflect the work undertaken by this entity) in the Division for Special Activities, where the team will be integrated. Financial resources from central support costs would also fund the extrabudgetary resources share of Umoja business support resources.

29B.113 The extrabudgetary resources under the present section are subject to the oversight of the Department, which has delegated authority from the Secretary-General.

Executive direction and management

29B.114 The executive direction and management component comprises the Offices of the Under-Secretary-General, the Assistant Secretary-General for Support Operations and the Assistant Secretary-General for Supply Chain Management.

29B.115 The main responsibilities of the executive direction and management component include:

(a) The overall direction, supervision and management of the Department in the implementation of its mandates and its approved programme of work, including co-chairing of the Management Client Board by the Under-Secretary-General, jointly with the Under-Secretary-General for Management Strategy, Policy and Compliance;

(b) Provision of leadership management, including on strategic planning, and data analytics. The component coordinates, develops and prepares responses to oversight body reports and follows up on the recommendations of boards of inquiry;

(c) Provision of leadership and direction to support clients across the Secretariat, through guidance and advisory services in their exercise of authorities for the successful implementation of mandates relating to human resources, healthcare management and occupational health and safety, as well as capacity development and operational training;

(d) Provision of leadership and direction, as well as the overall administration and management, of all activities relating to the organizational entities, which together form the integrated supply chain and uniformed capabilities support.

29B.116 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Department is integrating environmental management practices into its operations. The Department will provide technical guidance and advisory support to peacekeeping operations and field-based special political missions to facilitate and implement The Way Forward: Environment Strategy for Peace Operations 2023–2030, the environmental management of the United Nations campus and facilities, and environmental initiatives in the area of supply chain management.

29B.117 Information on the timely submission of documentation and advance booking for air travel is reflected in table 29B.35.

29B.118 The Department has improved its compliance rate by conducting presentations for senior leadership and staff on the implementation of the administrative instruction on official travel (ST/AI/2013/3/Rev.1) and providing clear directives on the exercise of discretionary authority for travel requests submitted less than 21 days in advance. The Department continues to monitor its compliance rate, ensures the timely scheduling of meetings and emphasizes travel policy requirements to all meeting participants. In addition, the Department has established service-level agreements with the Regional Service Centre in Entebbe, Uganda, and the Economic and Social Commission for Asia and the Pacific, leveraging local support to facilitate travel for external participants attending training in Asia and Africa.

Air tickets purchased at least two weeks before the commencement of travel	46	80	90	100	100

29B.119 The proposed regular budget resources for 2026 amount to $2,050,600 and reflect a net decrease of $10,900 compared with the approved budget for 2025. The proposed change is explained in paragraph 29B.109 (a) above. Additional details on the distribution of the proposed resources for 2026 are reflected in table 29B.36 and figure 29B.X.

Annex II

Summary of proposed post changes, by component and subprogramme

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
Subprogramme 1, component 3, Healthcare management and occupational safety and health	2	P-5	**Conversion** of two temporary positions (one Senior Medical Officer – Public health crises, and one Senior Medical Officer – Emergency preparedness and response to mass casualty events) to established posts	The proposed cost-neutral conversion of four general temporary assistance positions (2 P-5, 1 P-4 and 1 P-2/1) to established posts would provide long-term stability in the execution of essential functions in support of the work of the Healthcare Management and Occupational Safety and Health Division and the Division for Special Activities. These positions were created in 2009 and 2010, more than 10 years ago, and their conversion is proposed given the long-term and core nature of the functions performed by the incumbents of these positions, including, as indicated below: Senior Medical Officer – Public health crises (P-5): the incumbent advises the Administration on all matters and standards related to public health relevant to staff of the United Nations, including peacekeeping missions worldwide, the New York-based United Nations agencies and programmes and military contingent personnel under the Department of Peace Operations; oversees and provides health education and health promotion programmes through the development, coordination and implementation of preventive and response activities to public emergencies at duty stations with a United Nations presence; develops, reviews and revises various medical standards and guidelines on preventive measures to mitigate public health risks; provides leadership in the continuous assessment of needs, planning, development, implementation, monitoring, evaluation and/or updating policies, procedures, standards, protocols, guidelines and emergency plans in response to outbreaks of communicable diseases; monitors and analyses worldwide outbreak patterns of communicable diseases and provides strategic leadership in the development and implementation of the United Nations response to outbreaks; recommends a course of action to the Medical Director, including a communication strategy and preventive measures, in response to actual or imminent outbreak scenarios affecting the United Nations community; supervises nurses; and ensures availability of drugs and medical supplies during public health emergencies and outbreaks. The above-mentioned functions and work are critical and continuing in nature for public health crises and infectious disease outbreaks and for the coordination of health promotion and preventive health programmes for United Nations personnel globally.

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
				Senior Medical Officer – Emergency preparedness and response to mass casualty events (P-5): over the last decade, medical crisis management has moved from a general capacity to a specific domain of expertise. As the volatility of the geopolitical sphere increases and in view of the impacts of climate change, converting the Senior Medical Officer role to an established post would promote stability, effectiveness and accountability in the emergency medical response efforts of the United Nations, aligning with broader goals of humanitarian aid and medical crisis management. The scope of the position encompasses all aspects related to emergency care and medical crisis management, from single casualty and CASEVAC to mass casualty incident management, and the development of a casualty tracking system. The post would cover all United Nations entities with overarching advisory, monitoring and support and training functions to improve global medical resilience, fostering coordination, engagement and pursuance of mandates.
Subprogramme 3 Special activities	1	P-4	**Conversion** of one temporary position of Programme Management Officer to an established post	The Programme Management Officer (P-4) functions reflect a continuous requirement of a dedicated capacity to support the provision of essential services and the organization of duty of care to United Nations personnel affected by critical emergency events (including malicious acts and natural disasters). The Programme Management Officer (P-4) carries out functions in the Client Support and Special Situations Section, which serves as a dedicated capacity to support the delivery of a full range of human resources expertise in mission start-ups, surges and transitions, including crisis preparedness and response. The Programme Management Officer leads the preparedness and coordination of a rapid, comprehensive and coordinated response to critical incidents, as well as the provision of continuous support to personnel and families, before, during and after a crisis.
	1	P-2	**Conversion** of one temporary position of Associate Administrative Officer to an established post	The Associate Administrative Officer (P-2/1) functions are a continuous requirement to enable the Secretariat to have a dedicated capacity to support the provision of essential services and the organization of duty of care to United Nations personnel affected by critical emergency events (including malicious acts and natural disasters). The Associate Administrative Officer supports the work of the Programme Management Officer (P-4) in the Client Support and Special Situations Section in the coordination of preparedness and rapid response to critical incidents and in the development of training programmes to build capacity closest to where critical incidents may arise.

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

29C.1 The Office of Information and Communications Technology is responsible for the direction, strategy and delivery of information and communications technology (ICT) in the United Nations. The mandate derives from the priorities established in relevant General Assembly resolutions and decisions, including resolutions 63/262 and 72/266 B.

Strategy and external factors for 2026

29C.2 In 2026, the Office will continue to implement programmes that support the ICT strategic outcomes of ensuring an environment in which ICT allows the Organization to deliver efficiencies, facilitating coherent and integrated mandate implementation, ICT is leveraged as a critical operational and strategic enabler for the work of the United Nations and the Organization is protected from rapidly escalating threats to ICT security.

29C.3 The Office remains committed to providing resilient and secure global network and ICT systems, platforms and applications that enable collaboration and communication across the Secretariat and throughout the wider United Nations common system. Service availability and the reliability of centrally provided enterprise services and solutions necessitates upgrades and modernization efforts, where feasible and cost-effective. Operational efficiency will be enhanced through key performance indicators and reengineering processes on the basis of data insights, ensuring that ICT operational capabilities are preserved, secured, resilient and fit-for-purpose to support mandate delivery by Secretariat entities.

29C.4 The transformative potential of technology, including cloud-based platforms, enables United Nations personnel to collaborate and connect seamlessly. The Office will continue its strategic shift of leveraging hybrid cloud-based services and strengthen ICT security while maintaining enterprise on-premise solutions for legitimate business cases, such as compliance with specific resolutions and mandates. This hybrid multi-cloud strategy ensures flexibility in meeting diverse organizational needs and the agility to leverage strengths of multiple cloud providers, and further enhances operational resiliency while mitigating vendor lock-in.

29C.5 In the context of ICT security, challenges continue to grow in scale, pervasiveness and complexity. In response, the Office will centralize ICT security capacity, enhance the use of shared services of proactive threat-hunting capabilities and replace the reactive intrusion detection systems. The centralization of ICT security services will strengthen internal capacity, while a clear focus is kept on United Nations operations. Other key initiatives are also under way, including continuous improvements in networks, which is instrumental in containing threats and limiting the impact of successful attacks, the upgrade of various security solutions to detect issues of security concern and to protect end-user devices, digital identities and cloud-based services, and increased interactive awareness campaigns.

29C.6 The Office continues to support efforts to digitally transform the Organization into one that more effectively uses data and information to support decision-making and inform strategic direction. This work will be aligned with the ICT strategy (see A/77/489 and A/79/339) and the Data Strategy of the Secretary-General for Action by Everyone, Everywhere. The effective use of data across the Secretariat requires cross-cutting efforts, with the Office leading any such efforts relating to technology and the establishment of services and capacities that support the management and use of data. The Office continues to leverage technology enablers that support the exchange, reconciliation, storage and governance of data. Analytics and data solutions will also continue to be implemented, and associated standards and architecture will be formulated to achieve a consistent approach to data. Efforts will be made to address the growing demand for frontier technologies such as artificial intelligence. The Office will also support areas such as policy formulation and the governance of information management, including the use and adoption of artificial intelligence.

29C.7 In support of innovation, the Office will continue to provide access to technologies that can support a wide range of needs across the United Nations. Frontier technologies, in particular artificial intelligence, will support the work of the Organization and mandate delivery globally. Conversational artificial intelligence continues to be deployed to ensure more intuitive and efficient access to information. These solutions are designed to be foundational to ensure that they can be integrated into the various systems in use across the Organization.

29C.8 The Office will further advance its work in digital transformation, strengthening business relationships between the Office's service providers and United Nations Secretariat entities by facilitating clear communication, managing demands effectively and ensuring effective problem resolution. The Office will also continue to serve as a centralized function for global enterprise ICT project governance through the project management team, ensuring that projects comply with the project management methodology, achieving desired outcomes and aligning with strategic objectives. It will also ensure that overall Secretariat ICT budget proposals are technically reviewed by the business relationship management team.

29C.9 With regard to inter-agency coordination and liaison, the Office will continue to collaborate with agencies, funds and programmes to agree on minimum standards of ICT security and communities of practice to discuss opportunities and challenges at the inter-agency level. This will be done through the United Nations System Chief Executives Board for Coordination Digital and Technology Network, which is co-chaired by the Assistant Secretary-General/Chief Information Technology Officer and serves as a mechanism to collaborate on, harmonize and explore possibilities for better use of shared ICT services. The Office will also continue to ensure access to Secretariat platforms for personnel from United Nations agencies, funds and programmes in order to facilitate collaboration and will strategize on the mitigation of cost increases and minimizing duplication across the United Nations common system to support coherence in mandate delivery.

29C.10 With regard to the external factors, the Office considered applicable risks identified in its risk register, and, accordingly, the overall plan for 2026 is based on the planning assumption that there will be adequate voluntary contributions through effective partnering to complement regular budget resources to carry out the activities of the Office.

29C.11 The Office integrates a gender perspective into its operational activities, deliverables and results, as appropriate. The Office will continue to coordinate and host events, both virtual and in-person, to promote women in technology within the Secretariat and to highlight the contributions of women to mandate delivery across all programmes.

29C.12 In line with the United Nations Disability Inclusion Strategy, the Office will continue to improve the accessibility of enterprise applications and public information websites for persons with disabilities, including by adding functionality to, remediating or configuring existing websites and applications in accordance with the established accessibility guidelines for United Nations websites.

Legislative mandates

29C.13 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

63/262	Information and communications technology, enterprise resource planning, and security, disaster recovery and business continuity
69/262, sect. II	Questions relating to the programme budget for the biennium 2014–2015: information and communications technology in the United Nations
70/248 A, sect. V	Special subjects relating to the proposed programme budget for the biennium 2016–2017: information and communications technology in the United Nations
71/272 B, sect. III	Special subjects relating to the programme budget for the biennium 2016–2017: status of implementation of the information and communications technology strategy for the United Nations
72/262 C, sect. I	Special subjects relating to the programme budget for the biennium 2018–2019: status of implementation of the information and communications technology strategy for the United Nations
78/243	Information and communications technology strategy

Deliverables

29C.14 Table 29C.1 lists all cross-cutting deliverables of the programme.

Table 29C.1
Cross-cutting deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**1**	**1**	**–**	**1**
1. Report of the Secretary-General on the refined elements of the information and communications technology strategy for the United Nations	1	1	–	1
Substantive services for meetings (number of three-hour meetings)	**5**	**5**	**3**	**5**
Meetings of:				
2. The Fifth Committee	2	2	1	2
3. The Committee for Programme and Coordination	1	1	1	1
4. The Advisory Committee on Administrative and Budgetary Questions	2	2	1	2

Evaluation activities

29C.15 The joint evaluation by the Department of Management Strategy, Policy and Compliance, the Department of Operational Support and the Office on ICT security, which began in 2024, will continue and be completed in 2026. The evaluation entails the analysis of completed mandatory ICT security training, performance of fake phishing exercises and ICT security incidents affecting end users.

Programme of work

Subprogramme 1
Strategy and technology innovation

Objective

29C.16 The objective, to which this subprogramme contributes, is to enhance an innovative, secure, unified digital space for the United Nations.

Strategy

29C.17 To contribute to the objective, the subprogramme will continue to focus on the establishment of strategies, policies and governance, including support for the efficiency agenda, the development of technology strategies aligned with the Organization's priorities, the establishment of technical procedures and guidelines, and a review of standards and architecture. Specifically, the subprogramme will:

(a) Provide advice covering data, analytics, artificial intelligence, innovation and information management;

(b) Develop technology standards and road maps to envisage and define how United Nations technologies should be implemented in support of the core mandates of the United Nations (see General Assembly resolution 69/262, sect. II, third preambular paragraph), taking into account organizational needs, as well as strategic direction and innovation;

(c) Work closely with United Nations clients to identify their key data, information and technology requirements or challenges and, in close collaboration with internal and external partners,

design innovative, integrated and security resilient technology solutions, leveraging artificial intelligence, and facilitate an enabling environment to meet clients' needs;

(d) Support United Nations entities in assessing and reducing the level of risk to the image, resources, data, operations and safety of the personnel and ICT assets of the United Nations and ensure that ICT security risks do not hamper efforts to implement United Nations mandates or adversely affect support to Member States, through the provision of specific ICT security guidance, the performance of system security reviews and the conduct of ICT security awareness training;

(e) Reinforce the centralized capacity for ICT security in the Enterprise Data Centre in Valencia, Spain, to more effectively address the continuous growth of the global threats affecting the Secretariat and the evolution of technology and ICT security operations, enabling efficient adaptation to rapidly changing and expanded ICT security risks and strengthening core capacity for proactive vulnerability and threat and incident management Secretariat-wide, as presented in the report of the Secretary-General on capital investment planning (A/77/519);

(f) Promote ICT security campaigns, the use of advanced security features, implementation and support of security measures, strengthening vulnerability management, operational resilience and proactive threat management capabilities;

(g) Promote the effective use of data, facilitate access to data across the Organization by leveraging modern technology, strengthen data literacy by co-leading the implementation of the Data Strategy of the Secretary-General and govern information and data management.

29C.18 The above-mentioned work is expected to result in:

(a) Better awareness of and access to innovation techniques and new technologies, and increased capacity for Secretariat entities to deliver on mandates;

(b) Strengthened operational resilience of the Organization, better end user awareness of ICT security threats and reduced exposure of the digital data and infrastructure of the United Nations to various security threats;

(c) Reinforced and centralized ICT security with core capacity for proactive vulnerability management and threat and incident management, while ensuring global Secretariat coordination on ICT security matters, including compliance;

(d) Integrated, secure and innovative use of information and data by United Nations entities;

(e) A coherent ICT landscape in the Secretariat through compliance with policies, procedures and guidelines, as well as common standards, strategies and architecture.

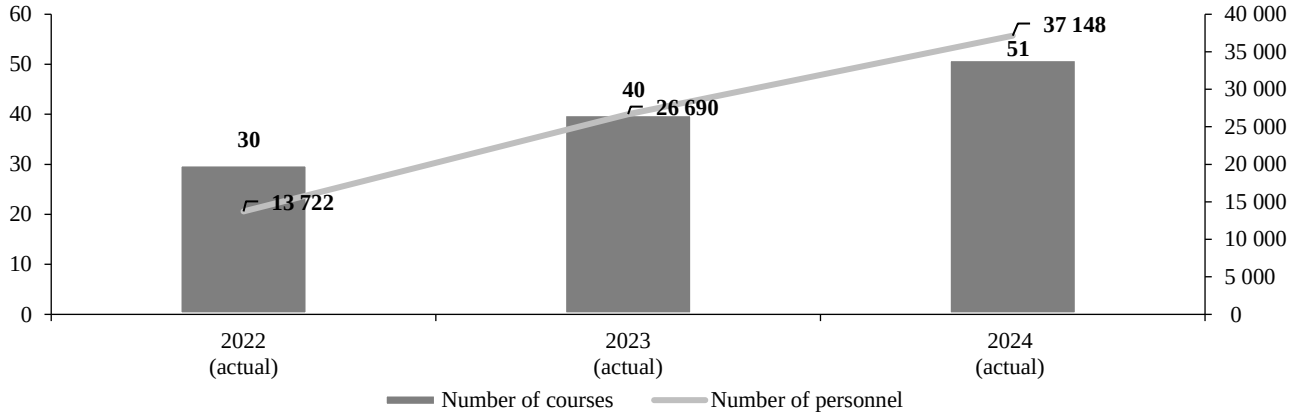
Programme performance in 2024

Unite Academy: strengthened data literacy for informed decisions

29C.19 As the United Nations becomes ever more data-driven, data literacy is critically important for improving both individual performance and achieving the mandates of the United Nations. Data literacy skills equip United Nations personnel with the acumen to navigate data landscapes, seek meaningful insights and confidently share those findings. Over time, this foundation fuels evidence-driven decisions, enhancing the quality and impact of the Organization's initiatives. The subprogramme promotes data literacy through the Unite Academy training platform. Since its launch in 2021, biannual sessions have been run offering foundational courses and more advanced and specialized courses covering a wide range of topics, from data analysis and engineering to data governance, as well as ethics and responsibility surrounding the use of new and emerging technologies, such as artificial intelligence. In 2024, the programme offered 11 new courses. The training programme is intended to enable every United Nations staff member, from any position or technical background, with the insight and skill sets necessary to leverage data for improved decision-making.

29C.20 Progress towards the objective is presented in the performance measure below (see figure 29C.I).

Figure 29C.I
Performance measure: number of United Nations personnel with improved data literacy (cumulative)



Planned results for 2026

Result 1: advance mandate implementation through partnerships on innovative technology

Programme performance in 2024 and target for 2026

29C.21 The subprogramme's work contributed to strengthened response and reduction in technological gaps for the just transitions in vulnerable places project, through an artificial intelligence-based tool that assists cities in improving data accessibility and automating land-mapping processes, which met the planned target.

29C.22 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29C.2).

Table 29C.2
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Member States have access to financial intelligence through the strengthening by United Nations entities of their ability to collect, analyse and share intelligence Innovators from the general public submitted concepts on open-source software solutions for Sustainable Development Goals 4 and 11 through open innovation competitions in partnership with the European Commission	The Joint United Nations Programme on HIV/AIDS makes use of two new technology solutions developed by young innovators to raise awareness of HIV/AIDS Strengthened engagement across the United Nations system through a joint declaration with the International Telecommunications Union on digital transformation and innovation issues	Strengthened response and reduction in technological gaps for the just transitions in vulnerable places project through an artificial intelligence-based tool that assists cities in improving data accessibility and automating land-mapping processes	Member States, the Secretariat, innovators and open-source leaders share knowledge and best practices on the use of open-source technologies for sustainable development	Innovators in the United Nations Secretariat and Member States contribute to solving global challenges by developing open-source technology solutions

Result 2: enhanced effectiveness in mandate delivery by leveraging generative artificial intelligence

Programme performance in 2024 and target for 2026

29C.23 The subprogramme's work contributed to three entities processing documents more efficiently through the use of generative artificial intelligence: the Office of Human Resources for analysing new generic job profiles and administrative law matters; the Department of Economic and Social Affairs for processing public information related to the Sustainable Development Goals and publications; and the United Nations Operations and Crisis Centre for the analysis of crisis and situation reports, which met the planned target.

29C.24 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29C.3).

Table 29C.3
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Staff have access to initial guidance on and training on generative artificial intelligence	Office of Human Resources, the Department of Economic and Social Affairs and the United Nations Operations and Crisis Centre have prototype solutions that process information more efficiently through the use of generative artificial intelligence for strengthened mandate delivery	Five additional entities process documents more efficiently through the use of generative artificial intelligence for strengthened mandate delivery	Five additional entities process documents more efficiently through the use of generative artificial intelligence for strengthened mandate delivery

Result 3: ethical and responsible use of artificial intelligence

Proposed programme plan for 2026

29C.25 In its resolution 78/132, the General Assembly stressed the need to better realize the benefits and address the challenges of artificial intelligence. The subprogramme has been at the forefront of artificial intelligence governance initiatives and the provision of technologies in support of entities in their implementation of artificial intelligence, including generative artificial intelligence solutions.

Lessons learned and planned change

29C.26 The lesson for the subprogramme was the need for a comprehensive and effective artificial intelligence management mechanism that could be applied across the Organization. Clear, comprehensive guidance to regulate the development and deployment of artificial intelligence can help to minimize ethical risks. In addition, high-quality, secure data are a prerequisite for the effective and reliable use of artificial intelligence. In applying the lesson, the subprogramme will develop a robust and comprehensive artificial intelligence management framework that can be applied across the Organization. It will include clear policies, procedures and standards for the responsible and ethical implementation of artificial intelligence. This approach will promote

consistency, accountability and transparency in artificial intelligence practices and foster trust in data and artificial intelligence processes across the Organization.

29C.27 Expected progress towards the objective is presented in the performance measure below (see table 29C.4).

Table 29C.4
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Staff have access to guidelines on the responsible use of publicly available generative artificial intelligence tools	Availability of a framework for a system-wide model policy on artificial intelligence	Selected Secretariat entities pilot a standardized model for the systematic use and adoption of artificial intelligence	Reference model for artificial intelligence management mechanisms and related instruments are accessible to all Secretariat entities

Deliverables

29C.28 Table 29C.5 lists all deliverables of the subprogramme.

Table 29C.5
Subprogramme 1: deliverables for 2026, by category and subcategory

Category and subcategory
E. Enabling deliverables
Information and communications technology: ICT and information management policies and standards; enterprise architecture, ICT risks and compliance oversight mechanism; analytics and innovation guidelines for oversight and accountability; analytics and frontier technology solutions accessible to Secretariat entities; repeatable technology solutions and conversational artificial intelligence solutions; expert advice to Secretariat entities on information management; technical guidance on controls and tools to support policies and procedures for data privacy; disaster recovery plan for critical systems; and information security framework across Secretariat entities, comprising a framework document on information security and security assessment of systems and entities.

Subprogramme 2
Operations support

Objective

29C.29 The objective, to which this subprogramme contributes, is to achieve an optimized ICT infrastructure and technology environment for all United Nations entities, within which the Organization's global technology solutions, systems and applications are used securely and in an intuitive manner.

Strategy

29C.30 To contribute to the objective, the subprogramme will continue to implement and upgrade enterprise systems and infrastructure to enable the Secretariat and Member States to effectively deliver on the Organization's work. Specifically, the subprogramme will:

(a) Implement global enterprise solutions that provide users with a single place to meet, communicate, share files and collaborate within the larger United Nations common system;

(b) Enable enterprise systems and infrastructure to support the Secretariat in operationalizing data, innovation and digital transformation through artificial intelligence-driven systems and self-service analytics;

(c) Implement key initiatives, such as the Unite Aware technology platform, which will continue to be rolled out globally and will support data-informed decision-making by senior management in peace operations and enable situational awareness;

(d) Promote and extend the utilization of geographic information systems services;

(e) Implement a hybrid multi-cloud strategy to leverage the best-in-breed solutions available in the market and the United Nations-managed systems and enterprise data centre to mitigate single vendor risks and ensure reliability, cost-effectiveness and environmental sustainability;

(f) Enhance the enterprise service desk to deliver comprehensive support for global ICT services and enterprise applications such as Umoja, Inspira and Unite Mail;

(g) Provide broadcast, audiovisual and conferencing technologies to support intergovernmental meetings and the work of Secretariat entities.

29C.31 The above-mentioned work is expected to result in:

(a) The facilitation of mandate delivery by Secretariat entities by means of modern, resilient and secure global ICT infrastructure and services;

(b) Greater collaboration across the United Nations common system that supports the Secretariat in the execution of its mandates with greater agility;

(c) A modern and secure technology environment that provides simplified access to the Organization's data and serves as the foundation for the Data Strategy of the Secretary-General;

(d) A highly capable workforce that is familiar with the systems and processes and derives insights and information that support data-driven decision-making;

(e) Timely resolution of incidents and service requests, with users expressing increased satisfaction with ICT enterprise services;

(f) Improved access to intergovernmental meetings, including in respect of remote participation, the access of Secretariat services to verbatim report-writing and translation, and the access of other audiences to interpretation, broadcasting and webcasting capabilities.

Programme performance in 2024

Enhanced collaboration and resilience through a hybrid multi-cloud strategy

29C.32 The Secretariat's adoption of a hybrid multi-cloud strategy enables seamless collaboration and real-time coordination while preventing vendor lock-in. This diversified approach enhances organizational resilience through distributed hosting and provides access to specialized services across platforms.

29C.33 To strengthen these capabilities, the subprogramme implemented a comprehensive cloud governance framework that optimizes workloads, standardizes security protocols and enhances cost management across platforms. Through active participation in the Digital and Technology Network and close coordination with United Nations entities, the Organization leveraged shared technical expertise and implemented proven best practices. This systematic collaboration enables the Secretariat to readily adopt emerging technologies to respond to evolving organizational needs.

29C.34 Progress towards the objective is presented in the performance measure below (see table 29C.6).

Table 29C.6
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Majority of enterprise users actively use cloud productivity tools Improved cloud service compliance rating	Increased use of cloud services and reduced cloud storage through optimization	Increased multi-cloud resource utilization across the Organization

Planned results for 2026

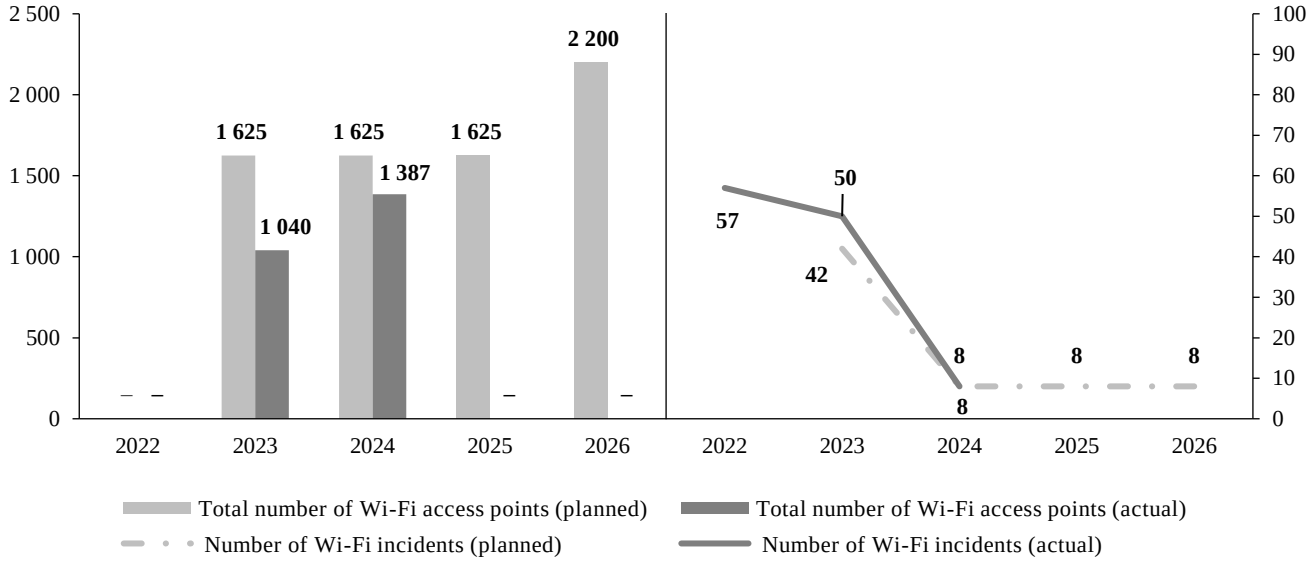
Result 1: improved wireless infrastructure coverage for delegates and staff at United Nations Headquarters

Programme performance in 2024 and target for 2026

29C.35 The subprogramme's work contributed to a reduction in Wi-Fi incidents to eight, which met the planned target, and the installation of 347 Wi-Fi access points, for a cumulative total of 1,387, which did not meet the planned target of 1,625. The target was not met owing to the measures imposed by the Secretariat to manage the liquidity situation.

29C.36 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29C.II).

Figure 29C.II
Performance measure: increased number of Wi-Fi access points results in a decrease in the number of Wi-Fi incidents



Result 2: strengthened governance of technologies that support intergovernmental meetings

Programme performance in 2024 and target for 2026

29C.37 The subprogramme's work contributed to the working group completing the broadcast and conferencing interoperability guidelines, which establish the global architecture and standards for technology investment in the domain of broadcast and conferencing, which met the planned target.

29C.38 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29C.7).

Table 29C.7
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Each entity seeks technical clearance from the Office for non-standard local technology purchases	Secretariat entities nominate members for the working group on broadcasting and conferencing interoperability	The working group completed the broadcast and conferencing interoperability guidelines, which established the global architecture and standards on broadcasting and conferencing to guide future technology investment	Broadcast and conferencing technologies are standardized, interoperable and resilient as Secretariat entities adhere to the global architecture and framework for all technology investment in broadcasting and conferencing	Working group recommendations and lessons learned inform updates to the guidelines

Result 3: reduced risks through cloud-based authentication for secure access

Proposed programme plan for 2026

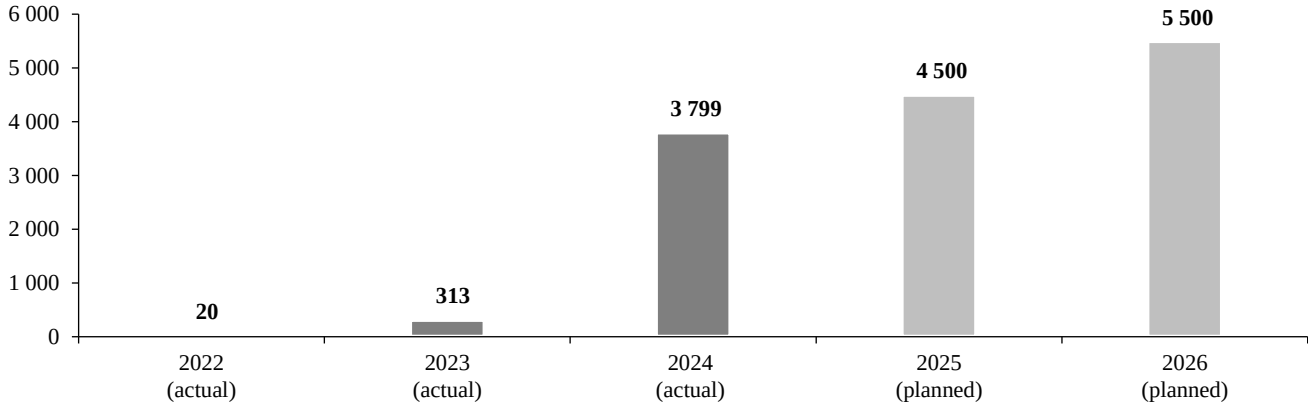
29C.39 Migrating user workstations to a cloud-based active directory to streamline workstation management, enforce policies, ensure proper configuration and maintain compliance is critical for the Secretariat to enhance its information security and operational resilience. The subprogramme has already begun to migrate workstations to the cloud through a structured project designed to minimize disruption while enhancing security, compliance and operational efficiency.

Lessons learned and planned change

29C.40 The lesson for the subprogramme was that, without ongoing modernization, the Organization remained exposed to significant risks, owing in particular to the reliance on outdated on-premise infrastructure to manage workstations. In applying the lesson, the subprogramme will take a more proactive approach to adopting cloud-based solutions, ensuring that user workstations are properly managed through security policies. By modernizing workstation management and making the transition to a cloud-based solution, the subprogramme reduces risks associated with outdated on-premise infrastructure and increases the resilience of the Organization's ICT systems.

29C.41 Expected progress towards the objective is presented in the performance measure below (see figure 29C.III).

Figure 29C.III
Performance measure: number of user workstations in United Nations Headquarters that have been migrated to cloud-based authentication (cumulative)



Deliverables

29C.42 Table 29C.8 lists all deliverables of the subprogramme.

Table 29C.8
Subprogramme 2: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Conference and secretariat services for meetings (number of three-hour meetings)[a]	**12 700**	**13 930**	**12 700**	**16 651**
Meetings of intergovernmental and expert bodies	12 700	13 930	12 700	16 651
E. Enabling deliverables				
Information and communications technology: hardware and infrastructure, and software and applications.				

[a] The Broadcast and Conference Support Section of the Office of Information and Communications Technology facilitates meeting services for intergovernmental meetings in New York only.

Subprogramme 3
Enterprise solutions

Objective

29C.43 The objective, to which this subprogramme contributes, is to ensure the effective and efficient implementation of programmatic mandates by Secretariat entities.

Strategy

29C.44 To contribute to the objective, the subprogramme will:

(a) Continue to develop bespoke software solutions that support mandate delivery and the Sustainable Development Goals by partnering with Secretariat entities and leveraging emerging technologies to meet evolving challenges and mandates;

(b) Actively support the digital transformation of the Secretariat by designing process automation and knowledge management solutions for departments and offices;

(c) Implement the Data Strategy of the Secretary-General by delivering technical solutions for data exchange between systems through an enterprise platform;

(d) Enhance digital transformation by integrating artificial intelligence into ICT solutions;

(e) Enhance identity management by leveraging cloud technology, upgrade service management solutions, enhance talent management, manage the United Nations safety and security information systems, and design and operate the enterprise web content management platform.

29C.45 The above-mentioned work is expected to result in:

(a) Contribution to the Sustainable Development Goals through technology solutions, as articulated in programmatic mandates;

(b) Introduction of artificial intelligence to complement human expertise;

(c) Increased automation of administrative support processes;

(d) Expanded data-sharing between and among the Organization's stakeholders, coordination and cooperation within and across the Secretariat and the broader United Nations system;

(e) Improved recruitment processes for the Secretariat through implementation of the new staff selection programme;

(f) Increased availability of information for professional security officers to perform their duties of protecting United Nations personnel across the United Nations system;

(g) Public information websites compliant with the Secretariat's standards.

Programme performance in 2024

Data-driven decision-making across the Organization

29C.46 The subprogramme designed and built a platform for application programme interface management to enhance system interoperability and support low-code application development. Application programme interface management enables departments and offices to gain access to real-time, up-to-date data from a single source rather than duplicating it across multiple applications. This improved data efficiency streamlines information-sharing and accelerates the development of digital solutions with low programming efforts. By facilitating more seamless data exchange, application programme interface management enables departments and offices to more easily engage in data-driven decision-making, advancing the Organization's digital transformation efforts.

29C.47 Progress towards the objective is presented in the performance measure below (see table 29C.9).

Table 29C.9
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Departments and offices are enabled in order to gain access to real-time, up-to-date data from a single source, share information more easily and engage in more data-driven decision-making

Planned results for 2026

Result 1: process automation and knowledge management solutions to support the digital transformation of the Secretariat

Programme performance in 2024 and target for 2026

29C.48 The subprogramme's work contributed to three automated business processes of the Secretariat, namely, the case management hub for the Office of Internal Oversight Services, the tracker of requests for support to the Department of Operational Support and upgraded technology of the Official Document System to a modern and sustainable standard, which met the planned target.

29C.49 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29C.10).

Table 29C.10
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
	Centralized official status file in use by the Department of Operational Support and the United Nations Office at Nairobi Bot to analyse and send notifications of job openings to target candidates in use by hiring managers Accurate computation of commercial vendor telecommunication bills in use by field missions and at Headquarters	Case management hub in use by the Office of Internal Oversight Services Tracker of request for support in use by the Department of Operational Support Official Document System technology upgrade in use by internal users of the United Nations and external users	Three additional process automation or knowledge management solutions in place, in which departments make use of process automation tools to reduce processing time and paperwork and simplify workflows	Three additional process automation or knowledge management solutions in place, in which departments make use of process automation tools to reduce processing time and paperwork and simplify workflows

Result 2: timely custom information technology solutions for mandate delivery

Programme performance in 2024 and target for 2026

29C.50 The subprogramme's work contributed to three custom solutions, namely, a civil society platform for the Department of Global Communications, a global points of contact directory on ICT security for the Office of Disarmament Affairs and an ageing policies database for the Economic Commission for Europe, which met the planned target.

29C.51 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29C.11).

Table 29C.11
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Disaster risk resilience scorecard in use by the United Nations Office for Disaster Risk Reduction Security Council resolution 2589 (2021) knowledge base in use by the Department of Peace Operations Plastic pollution CounterMEASURE II in use by the United Nations Environment Programme	Online solution for information and networking among uniformed women in use by the Department of Peace Operations and the Department of Political and Peacebuilding Affairs Assessment tool to evaluate performance of private-public partnership projects in use by the Economic Commission for Europe, and an application to accelerate customs procedures across borders Information management centre to report, validate and analyse programmatic activities in use by the Department of Global Communications	Civil society platform in use by the civil society organizations, managed by the Department of Global Communications Global points of contact directory on ICT security in use by the Member States, managed by the Office of Disarmament Affairs Ageing policies database in use by the Member States, managed by the Economic Commission for Europe	Three additional custom information technology solutions available to support mandate delivery by Secretariat entities	Three additional custom information technology solutions available to support mandate delivery by Secretariat entities

Result 3: information and communications technology solutions integrate artificial intelligence to assist in decision-making

Proposed programme plan for 2026

29C.52 Advancements in artificial intelligence and machine learning, including generative and multimodal artificial intelligence, have unlocked unprecedented capabilities and opportunities. These innovations have transformative potential for the daily work of United Nations personnel and the way in which the Organization serves its constituencies.

Lessons learned and planned change

29C.53 The lesson for the subprogramme was the critical relationship and interdependence between data access, quality and preparation for successful artificial intelligence integration and solution development. Effective artificial intelligence models rely on high-quality, well-prepared data for rapid

and efficient machine learning. In applying the lesson, the subprogramme will facilitate data access by operating the enterprise application programme interface management platform, which enables the secure and efficient sharing of data with artificial intelligence-featured applications. In addition, data quality will be improved through enforced data governance practices and clear data ownership.

29C.54 Expected progress towards the objective is presented in the performance measure below (see table 29C.12).

Table 29C.12
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Artificial intelligence solution to analyse resumes in use by the Economic and Social Commission for Asia and the Pacific	Generative artificial intelligence to build course content for training available for all departments and offices using iLearn	Generative artificial intelligence to process Indigenous languages in use by the Regional Service Centre in Entebbe, Uganda	Two additional ICT solutions integrating artificial intelligence	Two additional ICT solutions integrating artificial intelligence

Deliverables

29C.55 Table 29C.13 lists all deliverables of the subprogramme.

Table 29C.13
Subprogramme 3: deliverables for2026, by category and subcategory

Category and subcategory
E. Enabling deliverables
Information and communications technology: content management solutions for the Secretariat; ongoing enhancement and support for the enterprise website content management platform, including security, standards, accessibility and multilingualism compliance, used by Secretariat entities, field missions and permanent missions; enterprise talent management solutions; Umoja support, including the uniformed capabilities management solution with the enhanced conduct and discipline cases module, new force abandonment calculations and standardized reporting; improvement in the memorandum of understanding module and support for the Member State portal interface with the uniformed capabilities management solution; support for service management solutions for approximately 45,000 users; safety and security solutions for 122,700 users; significant functional enhancements, in accordance with Security Council resolution 2605 (2021), to strengthen the national police recruitment system; upgrade of the misconduct and sexual exploitation and abuse system; application programme interface management platform to foster process automation and system interoperability; data reporting and analytics tools to support strategic planning; and custom solutions to support mandate delivery of programmatic entities.

B. Proposed post and non-post resource requirements for 2026

Overview

29C.56 The proposed regular budget resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 29C.14 to 29C.16.

Table 29C.14
Overall: evolution of financial resources by object of expenditure
(Thousands of United States dollars)

			Changes

29C.57 Additional details on the distribution of the proposed resources for 2026 are reflected in tables 29C.17 to 29C.19 and figure 29C.IV.

29C.58 As shown in tables 29C.17 (1) and 29C.18 (1), the overall resources proposed for 2026 amount to $55,382,300, reflecting a net decrease of $7,300 (or 0.01 per cent) compared with the approved budget for 2025. Resource changes result from technical adjustments, new and expanded mandates, and other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

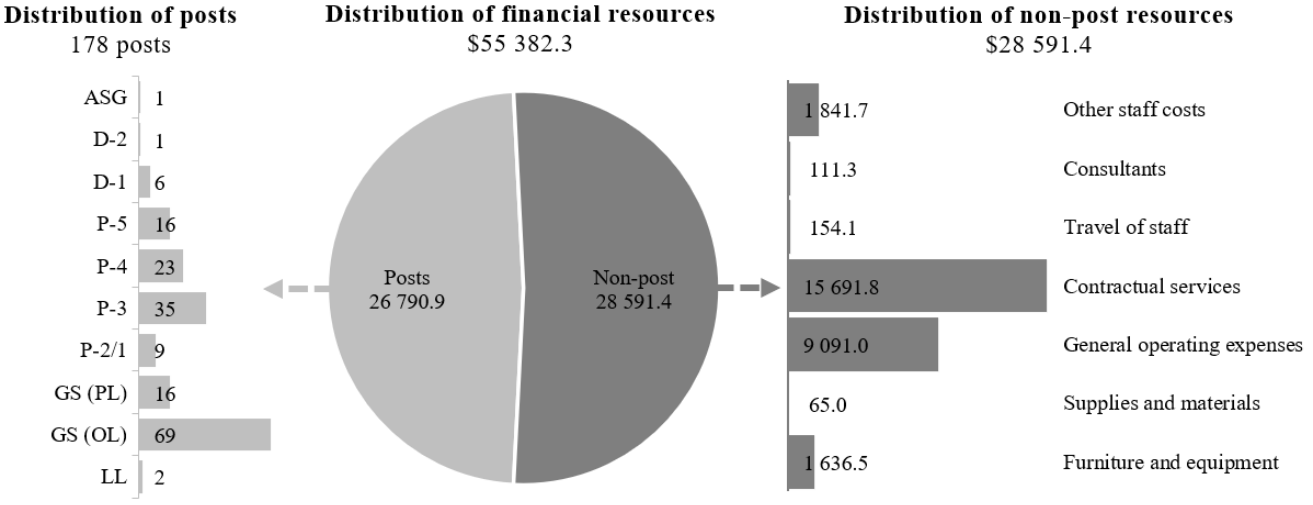
(Number of posts/thousands of United States dollars)



Explanation of variances by factor, component and subprogramme

Overall resource changes

Technical adjustments

29C.59 As shown in table 29C.17 (1), resource changes reflect a decrease of $144,300 under subprogramme 2, Operations support. The decrease, under contractual services, relates to the removal of non-recurrent provisions for conference services for 2025 in support of: (a) the Agreement under the United Nations Convention on the Law of the Sea on the Conservation and Sustainable Use of Marine Biological Diversity of Areas beyond National Jurisdiction, pursuant to Assembly resolution 78/272 ($50,800); (b) transparency in armaments, pursuant to Assembly resolution 77/69 ($15,400); (c) further modalities of the Fourth International Conference on Financing for Development, pursuant to Assembly resolution 78/271 ($25,700); (d) through-life conventional ammunition management, pursuant to Assembly resolution 78/47 ($8,400); (e) follow-up to and implementation of the outcomes of the International Conferences on Financing for Development, pursuant to Assembly resolution 79/199 ($35,900); and (f) Assembly resolution 79/237 on the open-ended working group on security of and in the use of information and communications technologies 2021–2025 established pursuant to General Assembly resolution 75/240 ($8,100).

New and expanded mandates

29C.60 As shown in table 29C.17 (1), resource changes reflect an increase of $249,300 under subprogramme 2, Operations support. The increase relates to additional requirements under contractual services for conference services in support of: (a) promotion of inclusive and effective international tax cooperation at the United Nations, pursuant to Assembly resolution 79/235 ($94,900); (b) nuclear war effects and scientific research, pursuant to Assembly resolution 79/238 ($47,500); (c) the United Nations Conference of Plenipotentiaries on Prevention and Punishment of Crimes against Humanity, pursuant to Assembly resolution 79/122 ($29,900); (d) comprehensive study of the question of nuclear-weapon-free zones in all its aspects, pursuant to Assembly resolution 79/241 ($35,800); (e) the illicit trade in small arms and light weapons in all its aspects, pursuant to Assembly resolution 79/40 ($20,200); (f) protection of persons in the event of disasters, pursuant to Assembly resolution 79/128 ($15,000); and (g) sustainable fisheries, including through the 1995 Agreement for the Implementation of the Provisions of the United Nations Convention on the Law of the Sea of 10 December 1982 relating to the Conservation and Management of Straddling Fish Stocks and Highly Migratory Fish Stocks, and related instruments, pursuant to Assembly resolution 79/145 ($6,000).

Other changes

29C.61 As shown in table 29C.17 (1), resource changes reflect a decrease of $112,300, as follows:

(a) **Executive direction and management.** A decrease of $98,400 under general operating expenses is attributable to updated centralized standard service-level agreement rates for ICT costs mainly for staff and non-staff personnel based in New York. In addition, the resources include a cost-neutral redeployment in the amount of $319,400 from general operating expenses to contractual services, to better align with expenditure patterns;

(b) **Subprogramme 1, Strategy and technology innovation.** A decrease of $69,500 is due to:

(i) The redeployment of two existing P-4 posts from Nairobi and Bangkok to Valencia, Spain, to enable reinforcement of the centralized capacity for ICT security in the Enterprise Data Centre in Valencia ($13,900);

(ii) The outward redeployment to subprogramme 3 of the resources related to the application interfaces programme and information management services, based on an internal reassessment of the activity and deliverables that determined that, as an application development activity, it was better aligned with the services delivery and programme of the Enterprise Solutions Service under subprogramme 3 ($55,600);

(c) **Subprogramme 2, Operations support.** The resources include a cost-neutral redeployment in the amount of $715,700 from general operating expenses to contractual services. The increase under contractual services is required to obtain expert advice on and technical assistance with the resolution of complex issues related to the Microsoft Unified platform. The decrease under general operating expenses is the result of lower telecommunication costs owing to the migration of telephony services to a more cost-efficient provider;

(d) **Subprogramme 3, Enterprise solutions.** An increase of $55,600 is due to the inward redeployment from subprogramme 1 of the resources related to the application interfaces programme and information management services.

Other assessed resources

29C.62 As reflected in tables 29C.17 (2) and 29C.18 (2), other assessed resources amount to $35,048,500. The resources would complement regular budget resources and provide for the requirements indicated in report A/79/783.

Extrabudgetary resources

29C.63 As reflected in tables 29C.17 (3) and 29C.18 (3), extrabudgetary resources amount to $63,611,700. The resources would complement regular budget resources and would be used mainly to provide for 13 posts (1 P-4, 1 P-3, 2 General Service (Principal level) and 9 General Service (Other level)) to perform mainly the functions of ICT services support. In addition, non-post resources would be used to provide ICT services such as a personal computing core package, collaboration and communication tools, network access, telephone service, service desk support for computers, and desktop and enterprise applications. Services would include the development and deployment of tailored technology solutions to support mandate delivery by substantive departments and offices, such as solutions that help to ensure the safety and security of United Nations system personnel, the training of uniformed personnel, rapid deployment, and public broadcasting and data analysis capabilities.

29C.64 The extrabudgetary resources under the present section are subject to the oversight of the Office of Information and Communications Technology, under its authority subdelegated from the Under-Secretaries-General of the Department of Operational Support and the Department of Management Strategy, Policy and Compliance, who in turn both have delegated authority from the Secretary-General.

Executive direction and management

29C.65 The executive direction and management component comprises the Office of the Assistant Secretary-General for Information and Communications Technology and the Enterprise Programme Management Section. In General Assembly resolutions 69/262, 70/248 and 71/272 B, the central authority of the Chief Information Technology Officer was reaffirmed and strengthened with regard to information security and the overall direction and performance of ICT activities within the Organization.

29C.66 The main responsibilities of the executive direction and management component include:

(a) Provision of overall strategic direction and central leadership for the establishment and implementation of Organization-wide ICT;

(b) Planning and coordination of ICT activities Secretariat-wide, including infrastructure and enterprise systems, with a view to achieving coherence and coordination in the area of ICT within the work of the United Nations and between the Secretariat and funds, programmes and specialized agencies of the Organization;

(c) Provision of overall strategic planning and management and coordination of the work of the internal organizational units.

29C.67 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Office of Information and Communications Technology is integrating environmental management practices into its operations. The Office will continue to provide departments and offices with solutions to support the achievement of the Goals and will continue to reduce its infrastructure footprint in data centres by moving to the cloud, thus reducing its environmental impact.

29C.68 Information on the timely submission of documentation and advance booking for air travel is reflected in table 29C.20. The Office continues to make efforts to fully comply with the advance purchase policy directive and has taken a number of steps to ensure that air travel is booked as early as possible. Travel requests that do not meet the two-week timeline are directed to the Head of Office for validation of mitigating circumstances before final review and approval. Owing in part to the implementation of such measures, the rate of compliance has constantly increased since 2022.

Table 29C.20
Compliance rate
(Percentage)

	2022 actual	*2023 actual*	*2024 actual*	*2025 planned*	*2026 planned*

Air tickets purchased at least two weeks before the commencement of travel	72	84	96	100	100

29C.69 The proposed regular budget resources for 2026 amount to $3,335,900 and reflect a decrease of $98,400 compared with the approved budget for 2025. The proposed change is explained in paragraph 29C.61 (a). Additional details on the distribution of the proposed resources for 2026 are reflected in table 29C.21 and figure 29C.V.

Annex II

Summary of proposed post changes, by component and subprogramme

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
Subprogramme 1, Strategy and technology innovation	2	P-4	**Redeployment** (geographical) of two posts of Cyber Security Officer from Nairobi and Bangkok to Valencia, Spain	It is proposed that two existing P-4 posts be redeployed from Nairobi and Bangkok to Valencia. Consolidating some of the ICT security positions in one location would enable reinforcement of the centralized capacity for ICT security in the Enterprise Data Centre in Valencia in order to more effectively address both the continuous growth of the global threats affecting the Secretariat and the evolution of technology and cybersecurity operations. This would also enable efficient adaptation to a rapidly changing and expanded ICT security risk map and strengthen core capacity for proactive vulnerability and threat and incident management Secretariat-wide. Local ICT security operations in Nairobi and Bangkok would continue to be supported by the remaining existing ICT security capacity at those locations.

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

29D.1 The United Nations Office at Nairobi was established by the Secretary-General on 1 January 1996 as a successor to the United Nations Common Services Unit at Nairobi and the two separate divisions of administration of the United Nations Environment Programme (UNEP) and the United Nations Human Settlements Programme (UN-Habitat). In its resolution 53/242, the General Assembly requested the Secretary-General to strengthen the Office and encouraged the Director-General of the United Nations Office at Nairobi to take steps to increase the level of utilization of the Office. The Office was established to strengthen the United Nations presence in Nairobi and to achieve economies of scale, and provides management, information and communications technology (ICT) and administrative services to the United Nations complex in Nairobi. Under a memorandum of understanding and specific service arrangements, the Office provides the Nairobi-based headquarters and globally dispersed offices of UNEP and UN-Habitat with a full range of administrative and other support services. As a designated global and regional service provider, the Office provides human resources administration, payroll and finance services, international travel, recruitment of consultants and procurement services to the resident coordinator system and to Secretariat offices with a regional presence, such as the Office of the United Nations High Commissioner for Human Rights (OHCHR), the International Residual Mechanism for Criminal Tribunals, the United Nations information centres in the Africa region and the International Court of Justice. In total, the Office provides services to United Nations entities in 166 countries. With the introduction of the Kenya Common Back Office, the United Nations Office at Nairobi provides administrative, ICT, local procurement and local recruitment services to more than 80 offices of United Nations agencies, funds and programmes operating in or from Kenya and other United Nations system entities, including special political missions and peacekeeping support operations operating from Kenya. In 2024, the United Nations Children's Fund initiated a relocation of some of its staff with global functions to Nairobi from New York, the United Nations Office for Project Services relocated its Regional Office for Africa from Copenhagen to Nairobi and OHCHR strengthened its presence in Nairobi.

Strategy and external factors for 2026

29D.2 In 2026, the Office will support its clients within the existing inter-agency and governance frameworks, increase its client portfolio and forge stronger partnerships in the region. It will advance its engagement in promoting the principles of the Pact for the Future, the efficiency agenda, including in common back office, common premises and the global shared services architecture, working closely with the Department of Operational Support. The Office will increase its level of utilization through partnerships with other United Nations entities.

29D.3 For 2026, the Office will maintain optimal service delivery and strengthen monitoring of key performance indicators. To increase the efficiency and effectiveness of its services, the Office will strengthen its financial management, internal control systems, risk framework and communication strategy, including through regular key performance indicator reporting, qualitative surveys and a client relations management platform.

29D.4 The United Nations Joint Medical Service will serve United Nations personnel and other patients, and the Office will provide medical and logistical support, including for evacuations, to United Nations entities in the region.

29D.5 The major infrastructure project on the conference facilities remains high on the programme agenda, with the project main works projected to commence in 2026. The Office will make greater use of the 142-acre Gigiri compound through increased use of outdoor and new office space. The efficient management of the increased number of United Nations entities and personnel in Nairobi will require sustainable funding

for the common premises and adequate expertise in engineering, sustainability and technology after completion of the replacement of office blocks A–J at the United Nations Office at Nairobi.

29D.6 The Office will deepen its engagement with the host country Government in support of its mandate and the clients that it serves, representing all United Nations entities operating in or from Kenya. As the main interlocutor with the Government of Kenya, the Office will play a key coordination role in the establishment of humanitarian hubs for United Nations entities in the region.

29D.7 With regard to inter-agency coordination and liaison, the Office will continue to work with the United Nations system organizations based in Nairobi, including through the common back office governance framework, in support of the efficiency agenda that is part of the reform of the United Nations development system.

29D.8 With regard to the external factors, the overall plan for 2026 is based on the following planning assumptions:

(a) Nairobi-based organizations of the United Nations common system maintain a commitment to collaborate with the United Nations Secretariat on ongoing activities;

(b) The extrabudgetary funding situation of client offices continues to allow for planning and implementation of the Office's activities.

29D.9 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate. It continues to support the Secretary-General's system-wide strategy on gender parity, provides guidance to clients on how to integrate gender parity throughout the recruitment process and keeps client entities informed of the impact of selection decisions. The Office also works to promote geographical representation and diversity, including by providing client entities with information on Member States that are unrepresented or underrepresented.

29D.10 In line with the United Nations Disability Inclusion Strategy, the Office will ensure that all major repairs and replacements at the United Nations complex in Nairobi consider and address accessibility concerns. The Office will strengthen an inclusive organizational culture that is supportive of staff members with disabilities and staff who have dependants with disabilities, offering regular training opportunities on disability inclusion, organizing awareness-raising events and communicating available benefits and entitlements with regard to disabilities. These activities will be pursued with the active involvement of persons with disabilities and their representative organizations.

Legislative mandates

29D.11 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

53/242	Report of the Secretary-General on environment and human settlements	79/226	Quadrennial comprehensive policy review of operational activities for development of the United Nations system
77/280	Progress towards an accountability system in the United Nations Secretariat	79/258	Special subjects relating to the proposed programme budget for 2025

Subprogramme 1
Programme planning, finance and budget

General Assembly resolutions

41/213	Review of the efficiency of the administrative and financial functioning of the United Nations	42/211	Implementation of General Assembly resolution 41/213
77/267	Shifting the management paradigm in the United Nations: review of changes to the budgetary cycle		

Subprogramme 2
Human resources management

General Assembly resolutions

59/164	Improvement of the status of women in the United Nations system	78/275	Amendments to the Staff Regulations and Rules
73/281	Shifting the management paradigm in the United Nations	79/252 A–B	United Nations common system
77/278	Human resources management	79/254	Administration of justice at the United Nations

Subprogramme 3
Support services

General Assembly resolution

69/273	Procurement

Subprogramme 4
Information and communications technology operations

General Assembly resolutions

63/262	Information and communications technology, enterprise resource planning, and security, disaster recovery and business continuity	69/262	Questions relating to the programme budget for the biennium 2014–2015 (sect. II, Information and communications technology in the United Nations)
63/269	Information and communications technology, disaster recovery and business continuity for the United Nations: arrangements for the secondary data centre at Headquarters	71/272 B	Special subjects relating to the programme budget for the biennium 2016–2017 (Sect. III, Status of implementation of the information and communications technology strategy for the United Nations)
		78/243	Information and communications technology strategy

Deliverables

29D.12 Table 29D.1 lists all cross-cutting deliverables of the programme.

Table 29D.1
Cross-cutting deliverables for the period 2024–2026, by category and subcategory

Evaluation activities

29D.13 An evaluation by the Office of subprogramme 2, Human resources management (Joint Medical Service) is planned for 2026.

Programme of work

Subprogramme 1
Programme planning, finance and budget

Objective

29D.14 The objective, to which this subprogramme contributes, is to ensure the sound, effective and efficient financial management and reporting by client offices.

Strategy

29D.15 To contribute to the objective, the subprogramme will:

(a) Oversee the financial management and internal control of the regular budget and extrabudgetary funds of the programme and that of its clients;

(b) Streamline the financial procedures and workflows of client offices and ensure strict adherence to the Financial Regulations and Rules of the United Nations, including through assurance and visibility of United Nations resources management, monitored by improved financial dashboards for the programme and client entities;

(c) Maintain the financial accounts of its clients, improve the financial integrity of data, prepare the financial statements in compliance with the International Public Sector Accounting Standards (IPSAS), support the internal and external audit processes, produce accurate and timely financial reports for donors and manage funding arrangements with implementing partners;

(d) Support client offices on results-based management and to implement the enhanced delegation of authority framework;

(e) Establish appropriate service rates and service requirements and monitor service statistics and client satisfaction;

(f) Monitor and manage the financial risks of reform initiatives mandated to the United Nations Office at Nairobi.

29D.16 The above-mentioned work is expected to result in:

(a) Operational efficiency and improved stewardship of donor funds and other resources, through increased transparency and accountability, in accordance with the enhanced delegation of authority framework;

(b) An unqualified audit opinion of the Board of Auditors for UNEP and UN-Habitat;

(c) Enhanced visibility for Member States on the impact of their contributions to the programme and the project implementation of client entities.

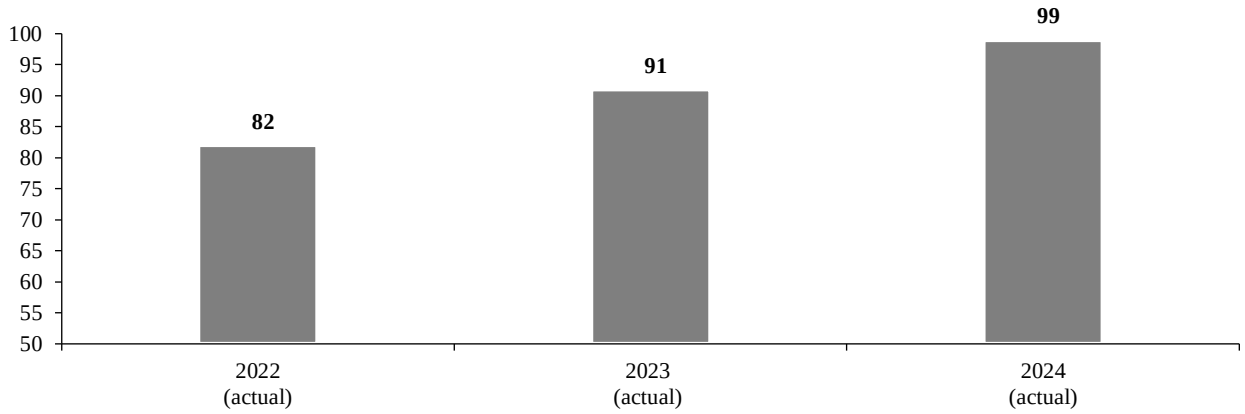
Programme performance in 2024

Closure of pass-through grants

29D.17 Since the implementation of the Umoja Extension 2 Grantor Management module, all new implementing partner agreements have been processed and managed in this module. However, a significant number of partner agreements continue to be managed by the Office's client entities using the pass-through grants modality in an older module. The closure of all pass-through grants will ensure better management of grantor agreements from inception to closure within a unified platform, while providing transparency regarding the performance of these partnerships. By processing implementing partner agreements through the Grantor Management module, entities can have better management and oversight of the grantor agreements. The subprogramme assisted client entities with the closure of 7,570 pass-through grants, representing the closure of 99 per cent of all pass-through grants.

29D.18 Progress towards the objective is presented in the performance measure below (see figure 29D.I).

Figure 29D.I
Performance measure: percentage of pass-through grants closed (cumulative)



Planned results for 2026

Result 1: improved management of resources and operational efficiency of clients through the provision of dashboards

Programme performance in 2024 and target for 2026

29D.19 The subprogramme's work contributed to clients using improved dashboards integrated with Umoja Analytics, including dashboards related to grants, accounts payable and payroll and separation payments, and contributed to increased transparency and accuracy through an automated billing system that generates the billing data of the Kenya Common Back Office, which met the planned target.

29D.20 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29D.2).

Table 29D.2
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Clients use the status of position funding dashboard	Grants and accounts payable key performance indicator dashboards developed but client access not yet provisioned	Clients use improved dashboards integrated with Umoja Analytics and additional key performance indicators on payroll and separation payments Increased transparency and accuracy through automation in billing statistics collection and processes	Improved reporting on facility projects and assets of the United Nations Office at Nairobi through dashboards integrated with Umoja Analytics (phase 2)	Improved reporting on cost recovery of the United Nations Office at Nairobi through dashboards integrated with Umoja Analytics

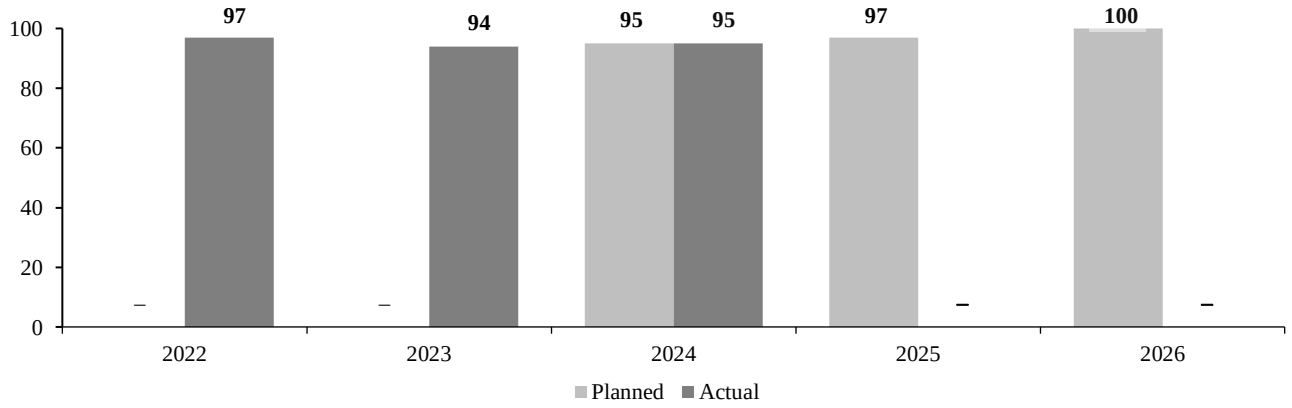
Result 2: improved assets accounting for United Nations Office at Nairobi buildings, facilities and infrastructure

Programme performance in 2024 and target for 2026

29D.21 The subprogramme's work contributed to the recording of 95 per cent of capitalizable assets, which met the planned target.

29D.22 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29D.II).

Figure 29D.II
Performance measure: comprehensiveness of recording of capitalizable assets under construction in the financial statements
(Percentage of capitalizable assets recorded)



Result 3: improved timeliness in the resolution of rejected and returned payments

Proposed programme plan for 2026

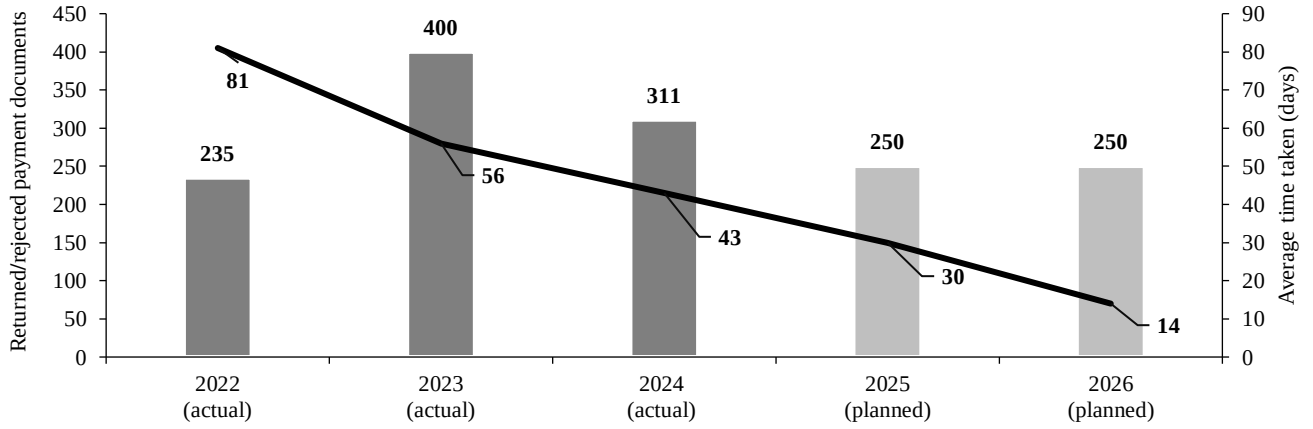
29D.23 The United Nations Office at Nairobi is responsible for processing over 80,000 payments annually from multiple bank accounts on behalf of its clients. An analysis of payments for Office clients from the period 2022–2024 showed that there was a need to further improve the timeliness of the reissuance of payments returned from the global banking system due to various bank errors and challenges.

Lessons learned and planned change

29D.24 The lesson for the subprogramme was the importance of establishing a mechanism for tracking, investigating and recalling funds, and reprocessing payments. In applying the lesson, the subprogramme, in close collaboration with the United Nations Treasury network, will enhance its investigative capacity to address rejected and returned payments, including by obtaining access to banking system investigative tools and developing an internal tracking system. The subprogramme will also further streamline its internal processes and procedures for review and investigation to enable the prompt reprocessing of payments and ensure that service providers and vendors are not adversely affected by the non-receipt or late receipt of payments.

29D.25 Expected progress towards the objective is presented in the performance measure below (see figure 29D.III).

Figure 29D.III
Performance measure: average time taken for resolution of rejected and returned payments (annual)



Deliverables

29D.26 Table 29D.3 lists all deliverables of the subprogramme.

Table 29D.3
Subprogramme 1: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	**30**	**29**	**30**	**20**
1. Training events on financial topics	30	29	30	20
Publications (number of publications)	**2**	**12**	**2**	**12**
2. Publications on financial statement volumes for UNEP and UN-Habitat	2	12	2	12
D. Communication deliverables				
Digital platforms and multimedia content: quarterly Programme Planning, Finance and Budget Section newsletter for client offices.				
E. Enabling deliverables				
Administration: financial management, including risk management, preparation and implementation of budgets and resource proposals; management of posts and 22,000 grants; financial reporting and accounting, including 1,700 donor reports; cash and revenue management; accounting services; cost recovery services; payment services; payroll and disbursements for 4,250 personnel; guidance on all financial matters; management of after-service health insurance claims for approximately 400 staff and their dependants and beneficiaries.				

Subprogramme 2
Human resources management

Objective

29D.27 The objective, to which this subprogramme contributes, is to ensure the acquisition, development and retention of a competent, diverse, adaptable and healthy workforce with the highest standards of efficiency and integrity.

Strategy

29D.28 To contribute to the objective, the subprogramme will:

(a) Facilitate the recruitment process of personnel for its clients, ensuring fair and competitive recruitment processes;

(b) Develop and refine tools to streamline the recruitment process and assist hiring managers in their evaluation of candidates, in collaboration with United Nations Headquarters and other offices away from Headquarters;

(c) Foster greater interest from women and applicants from unrepresented and underrepresented countries, including through guidance to client entities to promote the selection of qualified candidates from these categories;

(d) Develop and implement diverse training programmes for staff skills and competencies, in collaboration with other United Nations entities and external partners through jointly held training sessions;

(e) Implement outreach programmes for all staff members, through briefings and intranet platforms, on benefits and entitlements and the related authorization processes;

(f) Deliver a comprehensive health and well-being programme, including through promotion and awareness-raising on staff mental health and physical well-being, health assessments and advice.

29D.29 The above-mentioned work is expected to result in:

(a) Increased knowledge and skills of staff members;

(b) Standardized services for clients across geographically dispersed locations;

(c) Improved ability of client entities to respond to their shifting operational requirements;

(d) Increased staff productivity.

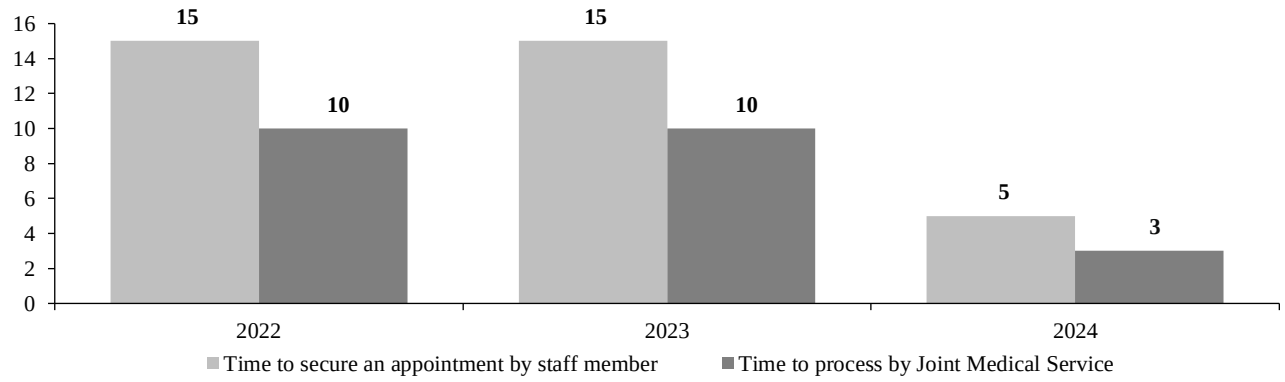
Programme performance in 2024

Increased efficiency in access to health and well-being services

29D.30 With a continued focus on improving client access to services, in 2024 the subprogramme rolled out a new platform for in-person and online access to health and well-being services. The new platform went live in May 2024 at the medical services located in Nairobi, Kakuma and Dadaab. This has led to increased simplicity for clients and higher speed of access to health services, and transparency in the different operations that the subprogramme supports in Kenya. The platform, which is also available as a mobile application, has enhanced clinical services visibility and accessibility for personnel and has improved the client experience, reducing the time spent booking appointments and subsequently reducing waiting time as appointment times are slotted according to doctor and nurse availability, with clinical operations adjusted to ensure efficiency.

29D.31 Progress towards the objective is presented in the performance measure below (see figure 29D.IV).

Figure 29D.IV
Performance measure: average time taken to secure and process appointments
(Minutes)



Planned results for 2026

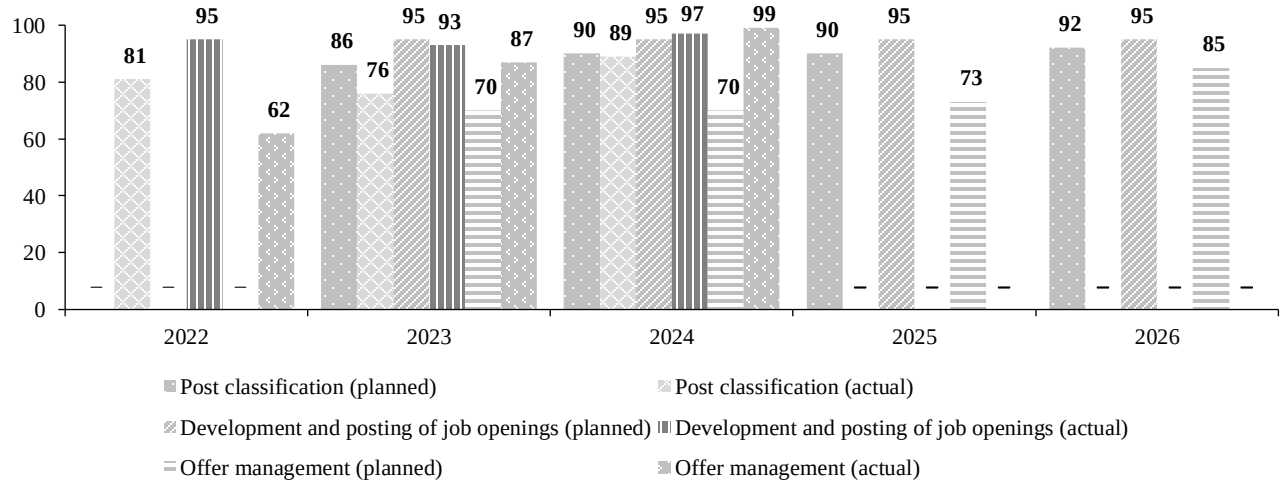
Result 1: increased effectiveness and efficiency of the staff recruitment process

Programme performance in 2024 and target for 2026

29D.32 The subprogramme's work contributed to the timely completion of 99 per cent of offer management processes and 97 per cent of processes for the development and posting of job openings, which exceeded the planned targets of 70 and 95 per cent, respectively. The subprogramme's work also contributed to the timely completion of 89 per cent of post classification processes, which did not meet the planned target of 90 per cent. The target was not met because of the complexity of some of the requests. However, the subprogramme introduced changes in the process and the training sessions offered to clients have resulted in improvement compared with 2023.

29D.33 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29D.V).

Figure 29D.V
Performance measure: percentage of recruitment processes completed within established timelines



Note: The established timelines are 15 days for post classification; 15 days for development and posting of job openings; and 31 days for offer management.

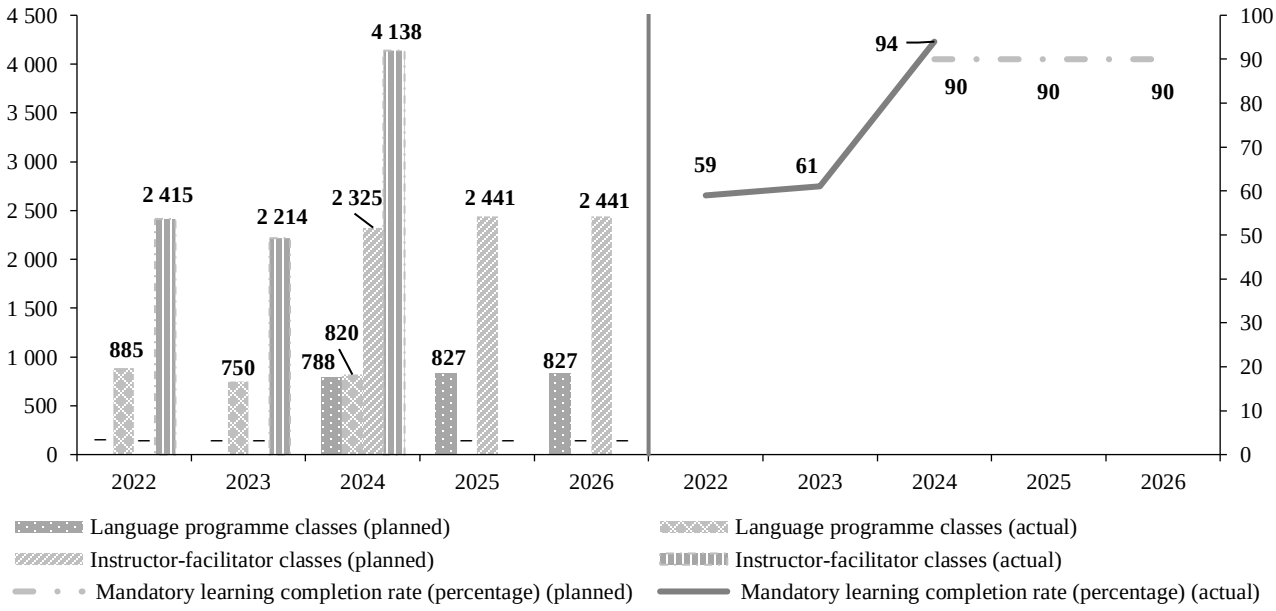
Result 2: staff and personnel acquire new knowledge and skills to improve organizational effectiveness

Programme performance in 2024 and target for 2026

29D.34 The subprogramme's work contributed to a mandatory learning completion rate of 94 per cent among personnel in Nairobi, which exceeded the planned target of 90 per cent. The subprogramme's work also contributed to the completion of language programmes by 820 personnel and of instructor-facilitated classes by 4,138 personnel, which exceeded the planned targets of 788 and 2,325 participations, respectively.

29D.35 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29D.VI).

Figure 29D.VI
Performance measure: number of personnel completing instructor-facilitated classes and language programmes, and mandatory course compliance rate (annual)



Result 3: improved timeliness of staff benefits and entitlements services for all clients

Proposed programme plan for 2026

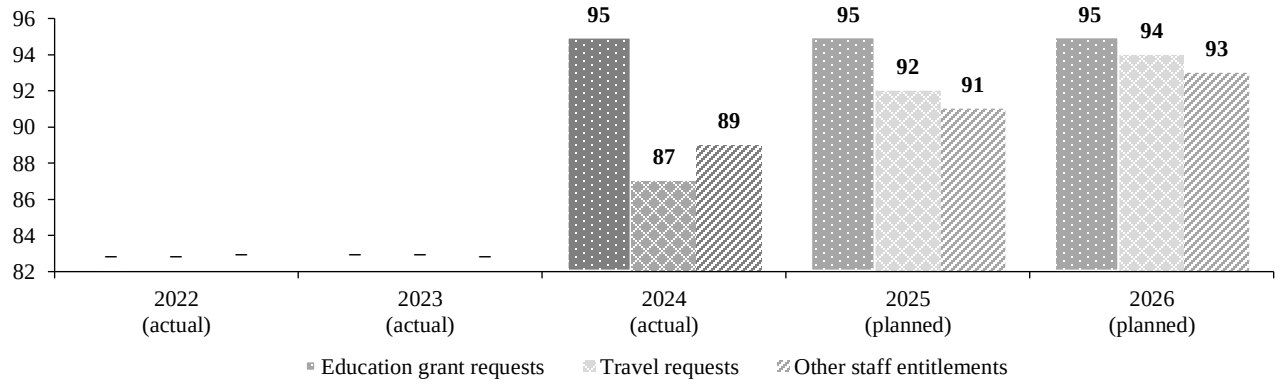
29D.36 Accurate and timely delivery of staff benefits and entitlements services is critical for the global clientele of the United Nations Office at Nairobi.

Lessons learned and planned change

29D.37 The lesson for the subprogramme was that a comprehensive key performance indicator system can help to ensure sustained improvements in service delivery for its clients. In applying the lesson, the subprogramme has developed a new key performance indicator system and a quality assurance system for clients' records to ensure transparency and accountability in service delivery. The subprogramme will collaborate closely with stakeholders to implement the new systems, which are expected to improve adherence to established timelines for the processing of staff benefits and entitlements.

29D.38 Expected progress towards the objective is presented in the performance measure below (see figure 29D.VII).

Figure 29D.VII
Performance measure: percentage of staff benefits and entitlements processes completed within established timelines



Note: The established timelines are 30 days for the education grant; 5 days for travel; and 15 days for other staff entitlements.

Deliverables

29D.39 Table 29D.4 lists all deliverables of the subprogramme.

Table 29D.4
Subprogramme 2: deliverables for 2026, by category and subcategory

Category and subcategory
E. Enabling deliverables
Administration: first-level review in administration of justice process; training and career development made available to 7,192 United Nations common system staff; performance management; inter-agency learning coordination of Nairobi-based entities; administration of 85 tests; 25 health campaigns; expert advice and guidance on staff selection processes and staff and non-staff hiring; annual staff survey on local salaries; administration of staff benefits and entitlements; outreach activities and guidance on human resources policies; administration of onboarding and separation from service; contract management; medical consultations; staff counselling services.

Subprogramme 3
Support services

Objective

29D.40 The objective, to which this subprogramme contributes, is to ensure the efficient, environmentally sound and effective functioning of client offices with regard to conference and facilities management, host country services, asset management, travel and transportation, mail and pouch services, commercial activities and procurement services, as well as archives and records management.

Strategy

29D.41 To contribute to the objective, the subprogramme will:

(a) Provide sustainable and efficient solutions with a specific focus on the management of waste, energy, water and wastewater in accordance with International Organization for Standardization (ISO) 14001; and maintain the Office's environmental management system, including requisite ISO 14001 pre-certification external audit and post-certification annual surveillance activities, training and awareness;

(b) Manage clients' changing workspace needs by optimizing usage and working conditions in the available office space, including through redesign, in consultation with client entities, and through revisions of office space standards, to support the operational requirements of each tenant;

(c) Provide staff transport solutions through an efficient distribution between internal and external transport service providers;

(d) Provide immediate and effective travel services, especially leading up to major scheduled meetings;

(e) Provide client-centric and solution-oriented procurement services to client entities and continuously strive to maximize value for money with due consideration to whole-life costs and effective international competition.

29D.42 The above-mentioned work is expected to result in:

(a) Improved physical infrastructure, optimized use of space and enhanced environmental management to support a sustainable, safe and flexible working environment;

(b) Efficient and convenient host country services for all clients, including remote service options to keep clients and staff safe;

(c) Efficient and convenient transport solutions in use by all clients;

(d) Efficient and convenient procurement services available virtually to all global clients.

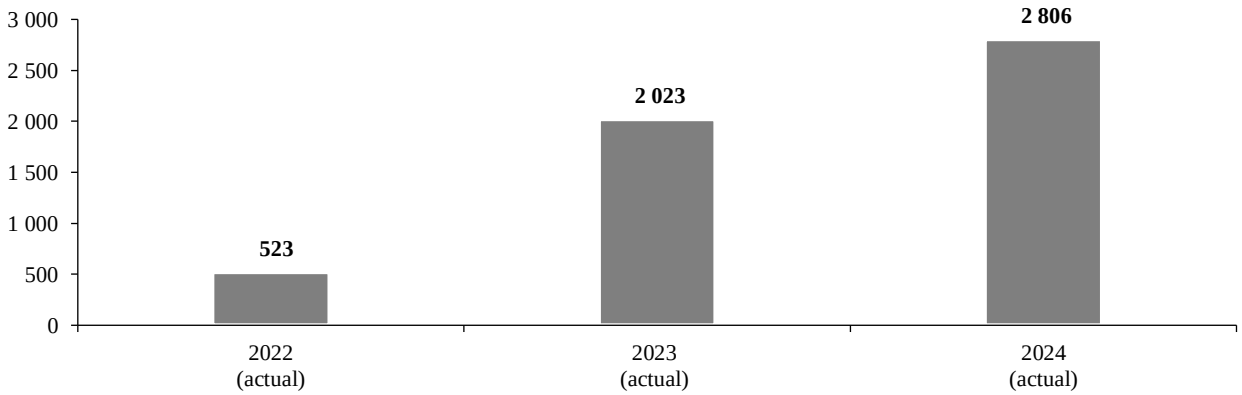
Programme performance in 2024

Reforestation of the United Nations complex in Nairobi

29D.43 The subprogramme undertook a key initiative aimed at reforesting large parts of the United Nations Office at Nairobi complex. As part of the subprogramme's reforestation strategy, the original dry upland forest environment is being restored in as much of the complex as possible through the planting of over 34 species of indigenous biodiversity-supporting trees. This reforestation strategy has already reached the milestone of 2,806 trees planted by 2024. The strategy also simplifies the maintenance of the 140-acre complex, as large lawned areas require extensive irrigation during dry seasons and mowing during and after rainy seasons. Moreover, experience has shown that shade from trees is far more effective at protecting and cooling outdoor areas, staff, vehicles and buildings, and that moisture in the soil is retained for longer in shaded areas.

29D.44 Progress towards the objective is presented in the performance measure below (see figure 29D.VIII).

Figure 29D.VIII
Performance measure: number of trees planted (cumulative)



Planned results for 2026

Result 1: improved energy efficiency of the United Nations premises in Nairobi

Programme performance in 2024 and target for 2026

29D.45 The subprogramme's work contributed to completion of the construction and installation of solar photovoltaic systems as part of the new office blocks comprising six office blocks and four logistics blocks, which met the planned target. The planned target of two blocks in the annex (logistics building) confirmed as energy-neutral following a full year of operation was not met, as that building is still being used as a temporary space in the context of the ongoing office renovation. Although the building is producing solar energy, its energy neutrality can be confirmed only once it reverts to its designed purpose as a logistics and security operations building, anticipated in mid-2025.

29D.46 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29D.5).

Table 29D.5
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Solar photovoltaic installation completed on the new annex (logistics building)	Annex (logistics building) with solar photovoltaic systems in operation and used temporarily as swing space	Complete construction/ installation of solar photovoltaic systems as part of the new office blocks comprising six office blocks and four logistics blocks	Full operation of newly constructed office blocks and refurbished blocks using solar photovoltaic systems	New office blocks (six office blocks and four logistics blocks) confirmed as energy-neutral following a full year of operation

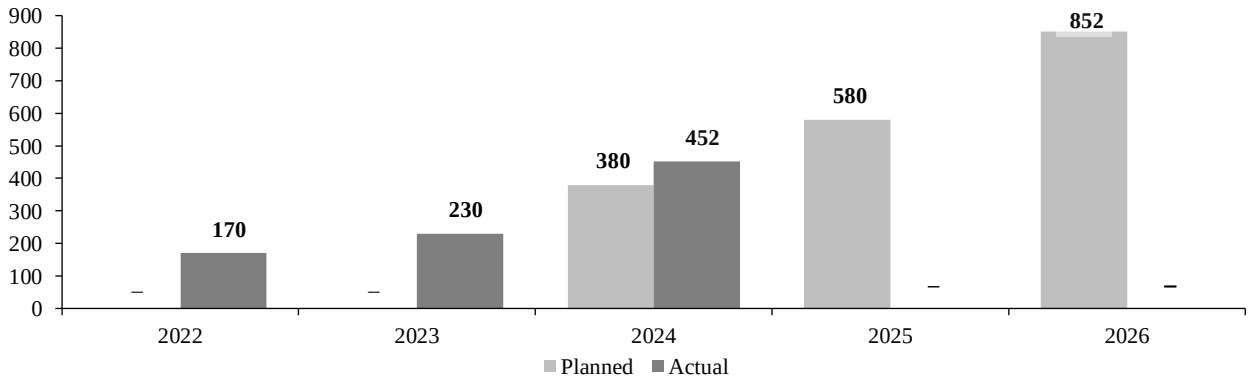
Result 2: new meeting and collaboration areas for delegates, staff and personnel

Programme performance in 2024 and target for 2026

29D.47 The subprogramme's work contributed to the availability of an additional 222 seats for meetings and collaboration, for a total of 452 additional seats, which exceeded the planned target of 380 seats.

29D.48 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29D.IX).

Figure 29D.IX
Performance measure: number of additional seats available for meeting and collaboration (cumulative)



Result 3: United Nations personnel in Kenya and the region receive smooth and efficient host country services

Proposed programme plan for 2026

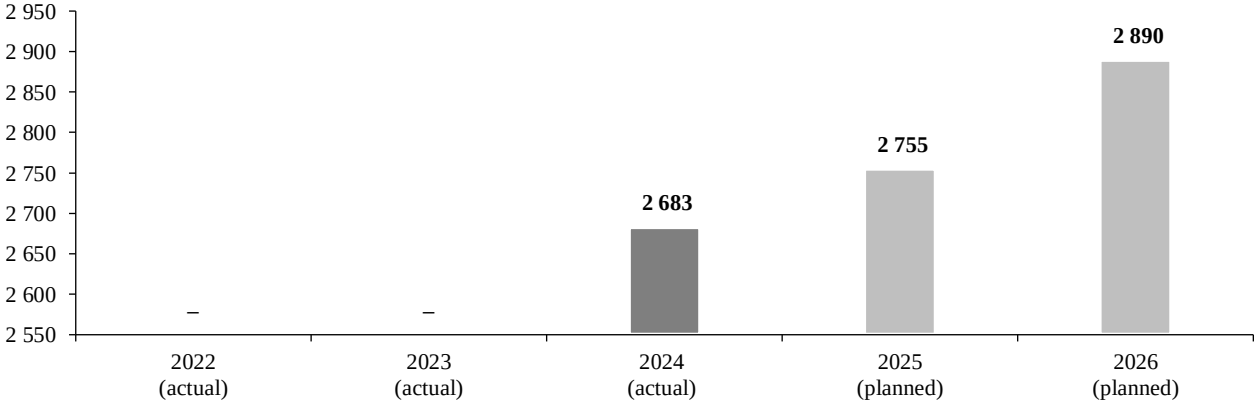
29D.49 The subprogramme provides a range of residency-related services to all personnel of United Nations agencies, funds and programmes working in Kenya and across the region. This facilitates the smooth and efficient residency of new personnel in Kenya, ensuring they have all required documentation to reside and work legally in Kenya. The number of personnel being provided with such services is expected to increase based on growth of existing regional, Kenya and headquarters functions and expanded services agreed upon with the host country to enable personnel working in hardship locations to reside in Kenya.

Lessons learned and planned change

29D.50 The lesson for the subprogramme was the need to address the needs of a number of client entities based in and working from across the region that require staff and dependants to be based in Kenya. In applying the lesson, the subprogramme is working with the host country to identify mechanisms to allow for residency for these personnel.

29D.51 Expected progress towards the objective is presented in the performance measure below (see figure 29D.X).

Figure 29D.X
Performance measure: number of United Nations personnel who receive efficient provision of host country services when onboarding in Kenya and the region (annual)



Deliverables

29D.52 Table 29D.6 lists all deliverables of the subprogramme.

Table 29D.6
Subprogramme 3: deliverables for 2026, by category and subcategory

Category and subcategory
E. Enabling deliverables
Administration: management and maintenance of United Nations-owned land/buildings (142 acres), including its newly built 6 office blocks and 4 logistics blocks, 11 refurbished M–X office blocks and 8 office blocks for the UNEP and UN-Habitat facilities, totalling 75 office floors, and 14 conference rooms; management of office space and redesign of office layouts and configurations to serve the needs of the United Nations offices, other Secretariat departments and offices of other entities in Nairobi.
Logistics: receipt and inspection for 11 United Nations entities; issuance of 400 laissez-passer and 18,000 travel requests; travel arrangements for staff and meeting participants; handling of privileges and immunities for 71 United Nations entities; procurement, sourcing and issuance support of 5,000 lines of purchase orders; inventory advice, warehousing and disposal for 15 United Nations entities; shipment of official property, bulk consignments including for conferences, and the removal of personal effects; mail, pouch, distribution, registry and archiving services.

Subprogramme 4
Information and communications technology operations

Objective

29D.53 The objective, to which this subprogramme contributes, is to advance the efficient and effective implementation of client entities' substantive programmes through innovative technology solutions, while maintaining secure, coherent and resilient technology services and infrastructure backbone.

Strategy

29D.54 To contribute to the objective, the subprogramme will:

(a) Develop proposals for end-to-end software and hardware solutions in consultation with client entities and provide advice and technical support on the implementation of new technologies;

(b) Support the roll-out of the Kenya Common Back Office and establish and maintain business relationships with clients to manage needs and requests;

(c) Develop and enhance existing innovative processes to enable testing and adoption of new technologies and solutions while supporting the accessibility, reliability, consistency and sustainability of those solutions;

(d) Collaborate closely with the Department for General Assembly and Conference Management in Nairobi, and with other subprogrammes to align and centralize under this subprogramme the end-to-end responsibilities of technical audiovisual services, engineering support and ICT infrastructure services for conference services at the Office.

29D.55 The above-mentioned work is expected to result in:

(a) Fulfilment of client entities' business needs through the agile implementation of new and innovative technologies;

(b) Empowerment of client entities to make effective decisions through access to more timely and responsive services;

(c) Effective and efficient implementation of client entities' substantive programmes.

Programme performance in 2024

Network optimization aligned with relocation and flexible workspace requirements

29D.56 The subprogramme implemented an optimized system of campus-wide cabled LAN (local area network) and Wi-Fi network coverage to meet the evolving business requirements of flexible working spaces and accommodate the new entities moving in. This improvement facilitates quicker technology configurations, aligned with the movement of agencies, funds and programmes, new clients and co-located United Nations agencies. The project's scale was substantial, with a 42 per cent reduction in cabling across the premises, and it enabled enhanced mobility across the Gigiri campus and significantly reduced the time needed to relocate clients.

29D.57 Progress towards the objective is presented in the performance measure below (see table 29D.7).

Table 29D.7
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Improvements in the campus-wide Wi-Fi network and virtual routing and forwarding enabled clients to relocate in just 3 days (compared with 14 days in previous years). Thirty-six United Nations agencies were successfully relocated within the campus

Planned results for 2026

Result 1: strengthened security of information and communications technology for the Office and its clients

Programme performance in 2024 and target for 2026

29D.58 The subprogramme's work contributed to clients adopting best practices to improve ICT security, leading to a 45 per cent reduction in information security-related risk and breaches, which exceeded the planned target of 10 per cent.

29D.59 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29D.8).

Table 29D.8
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Nairobi-based ICT systems' security maturity strengthened by several security maturity level assessments and addressing the related critical recommendations	Nairobi-based ICT systems further strengthened by implementing the remaining recommendations and findings from 2022	The Office's ICT clients adopted information security best practices, resulting in a 45 per cent reduction in information security-related risk and breaches	Information technology governance, information security and enterprise risk management are fully aligned with Secretariat security standards, policies, procedures and guidelines	The Office's technology processes and people comply with Secretariat security policies and standards, resulting in a reduction of at least 50 per cent in information security-related risk and breaches

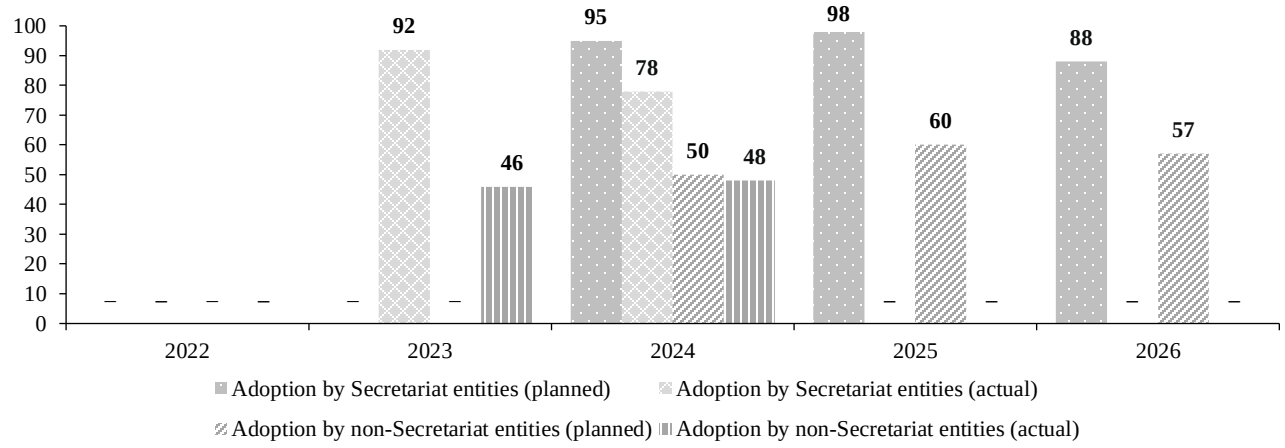
Result 2: improved alignment of information and communications technology policies and practices in the United Nations

Programme performance in 2024 and target for 2026

29D.60 The subprogramme's work contributed to onboarding 69 United Nations offices under the common back office, with 78 per cent of Secretariat entities and 48 per cent of non-Secretariat entities adopting common back office ICT service lines, which did not meet the planned targets of 95 and 50 per cent, respectively. The targets were not met due to the use of different cloud technology platforms and limited administrative rights, as well as the need to adopt a phased approach in order to provide adequate time for entities to transition from existing contracts.

29D.61 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29D.XI).

Figure 29D.XI
Performance measure: percentage of Nairobi-based United Nations Secretariat and non-Secretariat entities adopting all standard information and communications technology service lines



Result 3: smooth intergovernmental deliberations through upgrade and maintenance of conference technology

Proposed programme plan for 2026

29D.62 The subprogramme, in collaboration with the Department for General Assembly and Conference Management in Nairobi, provides technical audiovisual services, engineering support and ICT infrastructure services for calendar and non-calendar conference services at the Office.

Lessons learned and planned change

29D.63 The lesson for the subprogramme was the need for a reliable interim conference management system that will support conferencing until the Office's Gigiri master plan project is operational in 2029. Current conference technology has reached end-of-life and end-of-support status, which presents a significant risk for the servicing of meetings over the next four years. In applying the lesson, the subprogramme will work towards a limited technology solution that is cost-effective, easy to maintain and timely before the next major event, while the Gigiri master plan project is working out a future-proof, state-of-the-art technology solution. As a short-term risk mitigation measure aimed at ensuring business continuity, conference room 1 will undergo a partial technology upgrade in 2025, and the equipment released from this project will be used to maintain the other large conference rooms before the next major event, the seventh session of the United Nations Environment Assembly, and the numerous other conferences taking place until 2029.

29D.64 Expected progress towards the objective is presented in the performance measure below (see table 29D.9).

Table 29D.9
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Business continuity risk for conference operations identified	Conference room 1 technology upgrade project initiated	Calendar and non-calendar meetings, including the seventh session of the United Nations Environment Assembly, successfully held without technological disruptions, through planned upgrades	Calendar and non-calendar meetings successfully held without technological disruptions, through ongoing maintenance

Deliverables

29D.65 Table 29D.10 lists all deliverables of the subprogramme.

Table 29D.10
Subprogramme 4: deliverables for 2026, by category and subcategory

Category and subcategory
E. Enabling deliverables
Information and communications technology: technical support to over 3,700 end users; personal computing, voice, Internet, data and communication services for 3,663 users; information security compliance, software distribution and printing services for over 2,783 users; network connectivity services support to over 70 entities campus-wide through Wi-Fi and/or LAN (local area network) ports; cloud and data centre hosting services covering 232 physical server units and 152 virtual machines; preventive maintenance for 1,477 devices and equipment; operation and maintenance of 21 application systems in a secure cloud environment; 11 outreach campaigns to clients.

B. Proposed post and non-post resource requirements for 2026

Overview

29D.66 The proposed regular budget resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 29D.11 to 29D.13.

Table 29D.11
Overall: evolution of financial resources by object of expenditure
(Thousands of United States dollars)

			Changes					
Object of expenditure	*2024 expenditure*[a]	*2025 approved*	*Technical adjustments*	*New/expanded mandates*	*Other*	*Total*	*Percentage*	*2026 estimate*
Posts	11 878.5	13 087.9	–	–	280.0	280.0	2.1	13 367.9

29D.67 Additional details on the distribution of the proposed resources for 2026 are reflected in tables 29D.14 to 29D.16 and figure 29D.XII.

29D.68 As shown in tables 29D.14 (1) and 29D.15 (1), the overall resources proposed for 2026 amount to $19,015,200, reflecting a net decrease of $4,497,100 (or 19.1 per cent) compared with the approved budget for 2025. Resource changes result from technical adjustments, new and expanded mandates and other changes, and are further explained in paragraphs 29D.69 to 29D.71. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

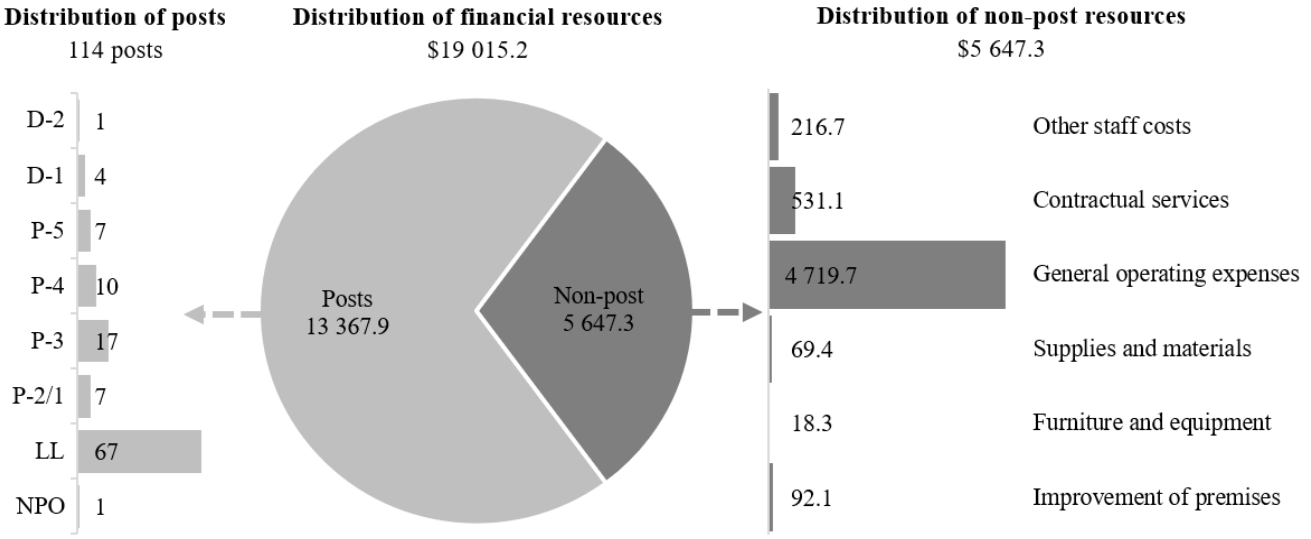
Figure 29D.XII
Distribution of proposed resources for 2026
(Number of posts/thousands of United States dollars)



Explanation of variances by factor, component and subprogramme

Overall resource changes

Technical adjustments

29D.69 As shown in table 29D.14 (1), resource changes reflect a decrease of $4,516,200, as follows:

Subprogramme 3, Support services (decrease of $4,516,200). This decrease relates to the removal of non-recurrent requirements approved for 2025 by the General Assembly in its resolution 79/258 relating to the provision for project management costs of the major construction projects for: (a) the replacement of office blocks A to J ($906,100); and (b) addressing the deteriorating conditions and limited capacity of the conference services facilities ($3,610,100). The related requirements for 2026 will be presented later in the year as part of the progress reports on the construction projects.

New and expanded mandates

29D.70 As shown in table 29D.14 (1), resources changes reflect an increase of $14,400, as follows:

Subprogramme 4, Information and communications technology operations (increase of $14,400). This increase relates to additional requirements under contractual services pursuant to General Assembly resolution 79/235.

Other changes

29D.71 As shown in table 29D.14 (1), resource changes reflect a net increase of $4,700, as follows:

(a) **Executive direction and management** (net increase of $200). An increase under post costs ($280,000) is offset by a decrease under other staff costs ($280,000) relating to the proposed cost-neutral conversions of one temporary position of Programme Management Officer (P-4) and one temporary position of Administrative Assistant (LL) to posts (see annex II). An increase under contractual services ($200) reflects higher ICT rates;

(b) **Subprogramme 1, Programme planning, finance and budget** (increase of $1,300). An increase of $1,300 under contractual services reflects higher ICT rates;

(c) **Subprogramme 2, Human resources management** (increase of $900). An increase of $900 under contractual services reflects higher ICT rates;

(d) **Subprogramme 3, Support services** (increase of $1,800). An increase of $1,800 under contractual services reflects higher ICT rates;

(e) **Subprogramme 4, Information and communications technology operations** (increase of $500). An increase of $500 under contractual services reflects higher ICT rates.

Extrabudgetary resources

29D.72 As reflected in tables 29D.14 (2) and 29D.15 (2), extrabudgetary resources amount to $30,560,100. The resources would complement regular budget resources and would be used mainly to provide for 299 posts (1 P-5, 9 P-4, 15 P-3, 10 National Professional Officer and 264 Local level) and non-post resources that would be used to perform administrative support, facilities management, common services, commercial operations and conference technology support for the United Nations Secretariat entities, agencies, funds and programmes operating in or from Kenya, UNEP, UN-Habitat and the resident coordinator system.

29D.73 The extrabudgetary resources under the present section are subject to the oversight of the Director-General of the Office, who has delegated authority from the Secretary-General.

Executive direction and management

29D.74 The executive direction and management component comprises the Office of the Director of Administration and the Organizational Resilience Management Unit.

29D.75 The main responsibilities of the executive direction and management component include the overall direction, supervision and management of administrative and related support services provided by the Office to its client organizations. It is also responsible for ensuring resilience, business continuity and risk mitigation for the Office, and conference technology support services in Nairobi.

29D.76 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Office is integrating environmental management practices into its operations. The Office broadened its waste management and recycling management initiatives by obtaining ISO 14001:2015 certification in environmental management systems in January 2023. The certification is focused on operations such as energy, water, wastewater and waste management in relation to facilities, safety, catering, medical, conferencing, printing and publication services on which the Office will continue to focus from an environmental sustainability perspective.

29D.77 Information on the timely submission of documentation and advance booking for air travel is reflected in table 29D.17. Apart from factors such as medical evacuations or urgent requirements, the Office continues to enforce official travel planning and monitoring to fully comply with the advance booking policy for air travel. The Office did not submit parliamentary documents to the Department for General Assembly and Conference Management and does not plan to submit any such reports in 2026.

29D.78 The proposed regular budget resources for 2026 amount to $1,132,700 and reflect a net increase of $200 compared with the approved budget for 2025. The proposed increase is explained in paragraph 29D.71 (a) and in table 29D.18 and figure 29D.XIII.

Programme of work

Subprogramme 1
Programme planning, finance and budget

29D.79 The proposed regular budget resources for 2026 amount to $3,782,700 and reflect an increase of $1,300 compared with the approved budget for 2025. The proposed change is explained in paragraph 29D.71 (b) and in table 29D.19 and figure 29D.XIV.

Table 29D.19

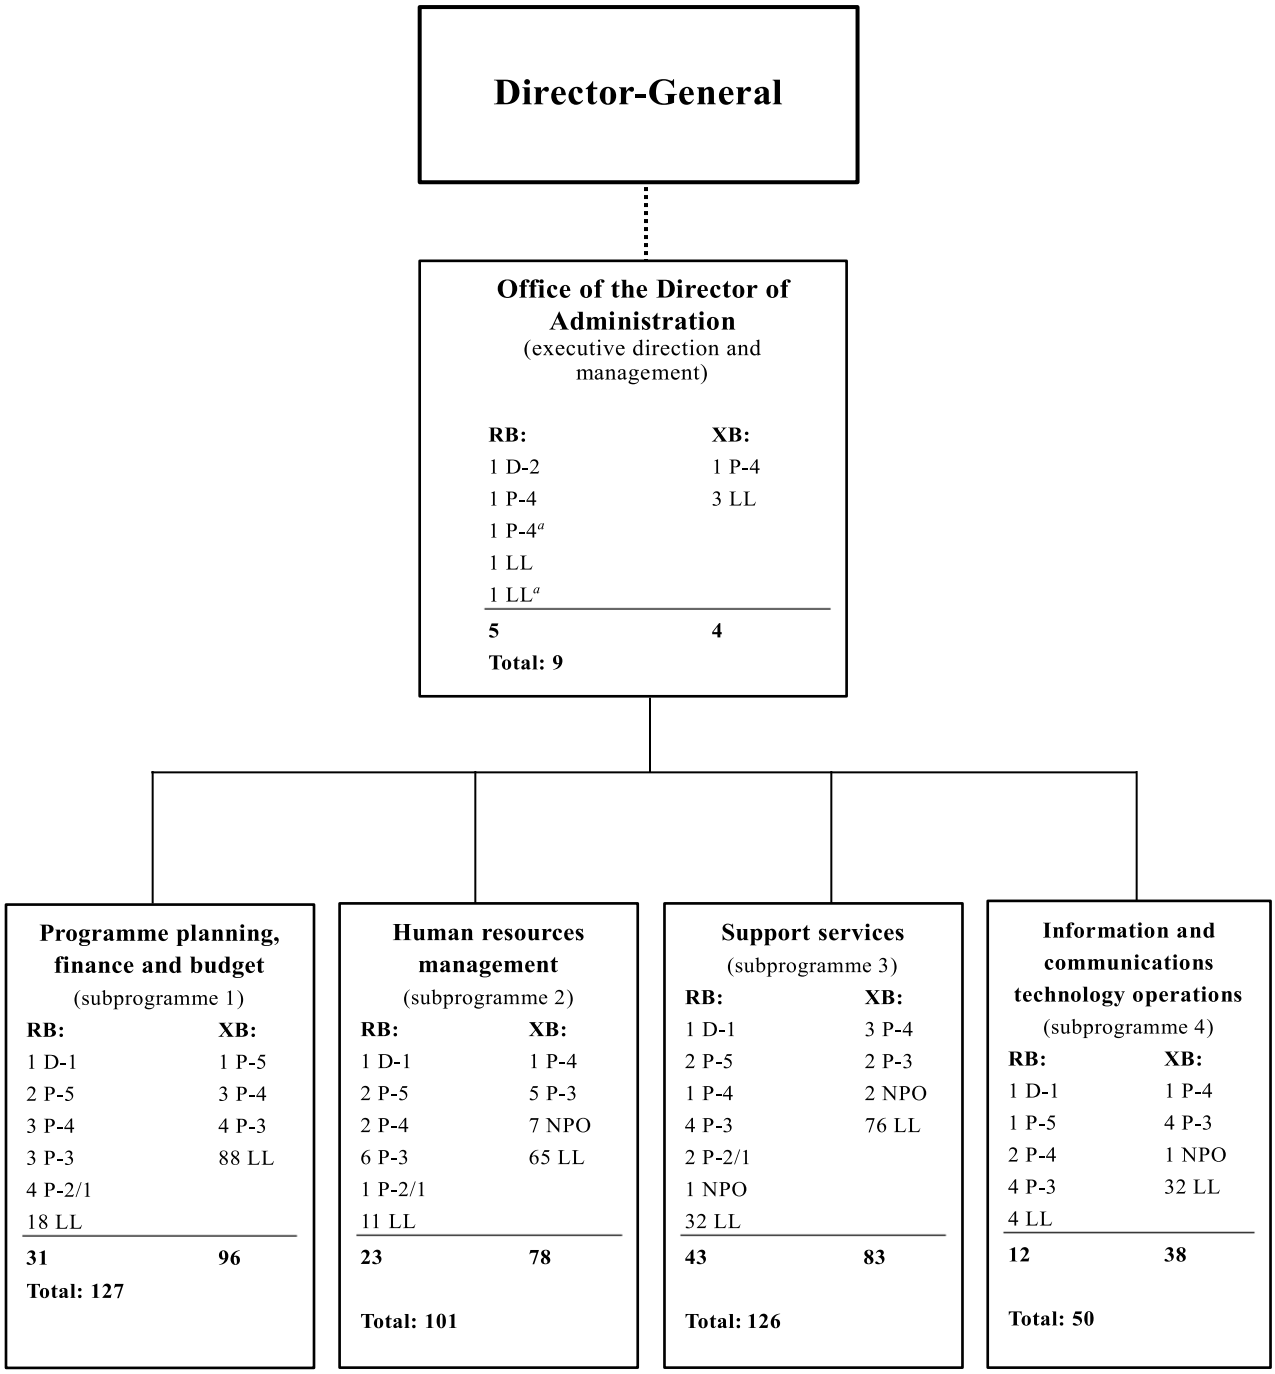
Organizational structure and post distribution for 2026



Abbreviations: LL, Local level; NPO, National Professional Officer; RB, regular budget; XB, extrabudgetary.

[a] Conversion from general temporary assistance positions.

Annex II

Summary of proposed post changes, by component and subprogramme

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
Executive direction and management	1	P-4	**Conversion** of Programme Management Officer from temporary position to post	These two temporary positions, funded under general temporary assistance, were established in the Organizational Resilience Management Unit in June 2013, over 10 years ago, following the approval by the General Assembly of the organizational resilience management system in section II of its resolution 67/254 A. The establishment of the two positions was an essential ongoing requirement for the United Nations Office at Nairobi to ensure resilience, business continuity and risk mitigation. The ongoing criticality of the functions has been proven, especially during critical security threats and health emergencies. Taking into account the proven need for the functions undertaken under the temporary positions for a long period of time, it is proposed that they be established as posts.
Executive direction and management	1	LL	**Conversion** of Administrative Assistant from temporary position to post	

Abbreviation: LL, Local level.

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

29E.1 The United Nations Office at Geneva was established in 1947 pursuant to General Assembly resolution 24 (I) and successive resolutions of the Assembly. The Office is responsible for providing administrative and support services to entities in Geneva and their field offices, and to other organizations of the United Nations common system, in accordance with policies, procedures and practices established by the Under-Secretary-General for Management Strategy, Policy and Compliance, the Under-Secretary-General for Operational Support and the Assistant Secretary-General/Chief Information Technology Officer. The Office is also responsible for providing support services to the intergovernmental processes of the Organization in line with its role as a major conference centre for international diplomacy. This includes providing technical conference support services as part of the conferencing ecosystem, which enables the work of Member States and client entities.

Strategy and external factors for 2026

29E.2 In compliance with General Assembly resolution 2 (I), the Office will offer administrative and support services in English and French. These services will include direction, management and coordination in the areas of human resources, financial and budgetary resources, information and communications technology (ICT), central support services, and library and archives services at the Office. The Office will function as landlord and manage the United Nations premises, which accommodate almost 70 tenants. The Office will also play a critical role in supporting United Nations meetings and events. From providing audiovisual and ICT support to maintaining conference rooms and equipment, the Office will remain an essential component of the conferencing network in Geneva. The Office is in advanced planning with United Nations Headquarters to establish the Office as the principal backup for Headquarters payroll, vendor payments and cashier services in the context of business continuity and disaster recovery, and will implement policy and other functions, as determined by the Under-Secretaries-General referred to in paragraph 29E.1 above.

29E.3 The Office will provide financial, budgetary and accounting services, as well as guidance and advice, in accordance with the Financial Regulations and Rules of the United Nations and relevant standards. In addition, the Office will provide staff development and learning services, career support and coaching, staff mental health and well-being activities, and medico-administrative occupational safety and health, human resources and legal advisory services. The Office will provide procurement, commercial activities, transportation, travel and other central support services for the Secretariat and the specialized agencies. It will also provide travel, procurement support and assistance in hiring consultants to 18 resident coordinator offices in Europe in support of the development pillar. In addition, the Office will provide regional ICT services and library, records, archives and knowledge services in support of the implementation of the mandated programmes and activities of the Secretariat. The Office will further ensure coordination and implementation of recommendations of oversight bodies at the Office, as well as the business continuity of administrative support and guidance for other entities in Geneva in emergency cases.

29E.4 Physical renovation works at the historic buildings of the Palais des Nations under the strategic heritage plan will continue throughout 2026. These works will modernize the information technology, broadcast and conferencing infrastructure, and ensure that buildings comply with host country building codes for fire safety, energy and accessibility while preserving the principles of the original design and historical features of existing buildings.

29E.5 The Office will analyse operation and maintenance requirements of the buildings post-strategic heritage plan to ensure the best mix of internal and contractual resources to efficiently manage these buildings and their technologically advanced components. Lastly, the Office will move forward with introducing modern preventive and regular building maintenance to safeguard Member States' investment through the strategic heritage plan.

29E.6 Client service will remain a priority in 2026. Client board meetings will be held quarterly to promote open and transparent service delivery. The Office will further improve operations in administration and support in collaboration with Geneva-based Secretariat and United Nations system entities, as well as other Secretariat service providers. To maximize client support effectiveness, the Office will further develop its Client Support Centre, which delivers tier-2 level support and accommodates 20,000 client visits and 12,000 client calls annually. Growing demand for and the escalating technical complexity of delivering side events, cultural events and activities require a more efficient event support model. To achieve this, the Office will continue its work to establish an event support centre for these types of events. Subprogramme 4 will deliver phase I (design and development of the centre) and, concurrently, subprogramme 3 will deliver phase II (establishing centralized audiovisual support for client entities and Member States). In addition, the Office will offer dedicated support for client entities moving to or relocating from the Palais des Nations (subprogramme 1) and will also implement the United Nations System Mental Health and Well-being Strategy for 2024 and Beyond (subprogramme 2). The Office will use its comprehensive communications strategy to bolster these initiatives and will conduct annual client entity and end-user surveys to monitor effectiveness and drive improvements.

29E.7 The Office will implement activities across all subprogrammes to support the Secretary-General's reform initiatives, including providing expertise in support of global administrative operational processes; supporting digital transformation, the Secretary-General's strategy on new technologies and the Data Strategy of the Secretary-General for Action by Everyone, Everywhere; providing capacity-building to the resident coordinator system; and strengthening financial management and internal control systems and the risk management framework.

29E.8 With regard to inter-agency coordination and liaison, the Office will collaborate with other Geneva-based United Nations system organizations and international governmental organizations, coordinating the Common Procurement Activities Group. The Office will continue to own and administer global United Nations contracts, conduct annual daily subsistence allowance surveys, coordinate periodic cost of living surveys, conduct place-to-place surveys and monitor the consumer price index at Geneva. The Office will work closely with other facilities managers of international organizations in Geneva to enhance inter-agency coordination on relevant policies and procedures. The Office will further collaborate with other United Nations libraries to digitize the official documents of the United Nations and will advance the streamlining of library activities, which will benefit from a common library management system used by the libraries at the Office, United Nations Headquarters, the Economic Commission for Latin America and the Caribbean, the Economic Commission for Africa and the Economic and Social Commission for Asia and the Pacific.

29E.9 With regard to the external factors, the overall plan for 2026 is based on the planning assumption that client offices will have sufficient extrabudgetary resources to pay for services provided by the Office, when applicable.

29E.10 The Office integrates a gender perspective into its operational activities, deliverables and results, as appropriate. It will contribute to improving gender equality in 2026 in offices that it supports, in line with the Secretary-General's system-wide strategy on gender parity, through consultations and briefings to hiring managers and human resources focal points in client entities regarding the impact of selection decisions, including advice on targeted outreach of job openings through established human resources networks and the targeted promotion of career opportunities in the United Nations.

29E.11 In line with the United Nations Disability Inclusion Strategy, the Office will continue to implement its disability inclusion action plan and support the strategic heritage plan in its efforts to incorporate accessibility features in renovation works.

Legislative mandates

29E.12 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

24 (I)	Transfer of certain functions, activities and assets of the League of Nations	77/280	Progress towards an accountability system in the United Nations Secretariat

Subprogramme 1
Programme planning, finance and budget

General Assembly resolutions

41/213	Review of the efficiency of the administrative and financial functioning of the United Nations	77/267	Shifting the management paradigm in the United Nations: review of changes to the budgetary cycle
42/211	Implementation of General Assembly resolution 41/213		

Subprogramme 2
Human resources management

General Assembly resolutions

58/144	Improvement of the status of women in the United Nations system	77/278	Human resources management
		78/248	Administration of justice at the United Nations
73/281	Shifting the management paradigm in the United Nations	78/275	Amendments to the Staff Regulations and Rules
77/256 A–B	United Nations common system		

Subprogramme 3
Support services

General Assembly resolutions

58/263	Report of the Joint Inspection Unit on the revenue-producing activities of the United Nations system	58/277	Report of the Joint Inspection Unit on the management audit review of outsourcing in the United Nations and the United Nations funds and programmes
58/276	Outsourcing practices		
		69/273	Procurement

Subprogramme 4
Information and communications technology operations

General Assembly resolutions

63/262	Information and communications technology, enterprise resource planning, and security, disaster recovery and business continuity	71/272 B	Special subjects relating to the programme budget for the biennium 2016–2017 (sect. III, Status of implementation of the information and communications technology strategy for the United Nations)
63/269	Information and communications technology, disaster recovery and business continuity for the United Nations: arrangements for the secondary data centre at Headquarters	78/243	Information and communications technology strategy

Subprogramme 5
Library services

General Assembly resolution

356 (IV)	Budget appropriations for the financial year 1950

Deliverables

29E.13 Table 29E.1 lists all cross-cutting deliverables of the programme.

Table 29E.1
Cross-cutting deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	**5**	**5**	**5**	**5**
Meetings of:				
1. The Advisory Committee on Administrative and Budgetary Questions	2	2	2	2
2. The Committee for Programme and Coordination	1	1	1	1
3. The Fifth Committee	2	2	2	2

Evaluation activities

29E.14 An evaluation on the activities supporting mental health and well-being at the Office was conducted the Office in 2024 and has guided the proposed programme plan for 2026.

29E.15 In response to the preliminary results of the evaluation referenced above, the Office incorporated recommendations and lessons learned to inform its work referenced in paragraph 29E.6 above to implement the United Nations System Mental Health and Well-being Strategy for 2024 and Beyond.

29E.16 An evaluation to be conducted by the Office on the usage of internal meetings rooms and collaboration spaces is planned for 2026.

Programme of work

Subprogramme 1
Programme planning, finance and budget

Objective

29E.17 The objective, to which this subprogramme contributes, is to ensure sound, effective and efficient financial management by client offices.

Strategy

29E.18 To contribute to the objective, the subprogramme will:

(a) Monitor budget implementation, report budget and financial information and conduct financial management and accounts control by coordinating with Headquarters and providing timely advice to client entities regarding a broad range of financial services, spanning from payments and disbursements services to payroll, accounting, medical insurance, and trust funds and budget management;

(b) Provide assistance, guidance and training to programme managers and administrative units of client organizations on financial management and budgetary matters;

(c) Perform financial and administrative procedures, including internal financial controls and monitoring strict compliance with the Financial Regulations and Rules of the United Nations and the financial policies of the United Nations;

(d) Identify ways to achieve a faster and more efficient client response, including through digital transformation and innovative tools in line with the Secretary-General's strategy on new technologies;

(e) Monitor the implementation of oversight bodies' recommendations.

29E.19 The above-mentioned work is expected to result in improved integrity of financial data and enhanced overall management of programme budget and extrabudgetary resources.

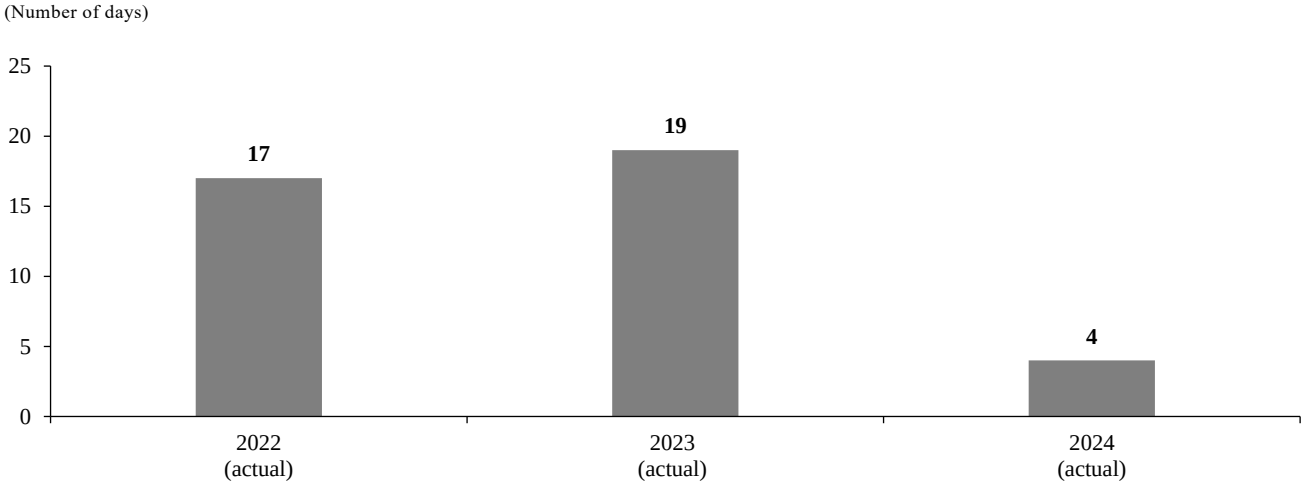
Programme performance in 2024

Faster processing times for insurance claim requests requiring medical authorization

29E.20 Improvements were needed to address inefficiencies in the turnaround time of insurance claim requests that require prior authorization from a medical adviser. The subprogramme identified that technology could modernize the practice of printing and manually signing such requests. In coordination with subprogramme 4, the subprogramme developed a tool to automate and streamline the process. Operators now enter requests for prior authorization with relevant documentation directly into the tool, where medical advisers review and authorize the claim requests online. Since the introduction of the new system, average processing times of prior authorization requests have been almost five times faster.

29E.21 Progress towards the objective is presented in the performance measure below (see figure 29E.I).

Figure 29E.I
Performance measure: average processing time of client requests for prior authorization from a medical adviser (annual)



Planned results for 2026

Result 1: improved client service at Client Support Centre

Programme performance in 2024 and target for 2026

29E.22 The subprogramme's work contributed to clients benefitting from a streamlined telephone system that ensures more efficient call routing, which did not meet the planned target of clients having more optimized service offerings. The target was not met due to competing priorities of staff involved in the initiative who were also helping to manage the liquidity crisis.

29E.23 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29E.2).

Table 29E.2
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Clients have access to both in-person and remote services	Clients have access to improved telephone support, as illustrated by a 24 per cent decrease in dropped calls	Clients benefit from more streamlined telephone system	Clients have improved access to support and additional resources through enhancements made to Client Support Centre website	Clients have more optimized service offerings

Result 2: entities have access to dedicated support when moving to or relocating from the Palais des Nations

Programme performance in 2024 and target for 2026

29E.24 The subprogramme's work contributed to the Office of the Secretary-General's Envoy on Technology having access to the new pilot centralized support model, which met the planned target.

29E.25 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29E.3).

Table 29E.3
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Clients have access to guidance documentation for entity onboarding/ offboarding	Office of the Secretary-General's Envoy on Technology has access to the new pilot centralized support model	All client entities moving to or leaving the Palais des Nations use the new centralized support model	Client entities participate in survey and provide feedback to improve support model

Result 3: resilient and efficient treasury transaction processes

Proposed programme plan for 2026

29E.26 The subprogramme processes payroll for over 7,500 staff globally and executes more than 300,000 payments and disbursements annually. Recently, the number of payment rejections and investigations has nearly tripled, rising from 785 cases in 2021 to 2,176 cases in 2024, and resulting in additional bank charges for clients. The subprogramme has identified that the increase in bank payment rejections and investigations is driven by factors such as stricter sanctions compliance, enhanced "know your customer" requirements, evolving anti-money-laundering regulations and the introduction of automated compliance monitoring systems. Those changes have heightened the need for detailed payment verification and strict adherence to regulatory frameworks.

Lessons learned and planned change

29E.27 The lesson for the subprogramme was that proactive engagement with clients to help them understand banking requirements can improve the accuracy of client master data update submissions and significantly reduce payment disruptions. In applying the lesson, the subprogramme will conduct a review of the most frequent causes of payment rejections and investigations, focusing on the largest

clients, accounting for 83 per cent of cases. On the basis of the findings, tailored workshops will be developed to inform and educate clients, equipping them with the knowledge and tools needed to meet evolving banking expectations, minimize payment delays and foster more secure and efficient transaction processes.

29E.28 Expected progress towards the objective is presented in the performance measure below (see table 29E.4).

Table 29E.4
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Generic training available on banking requirements	One client entity pilots a tailored workshop to improve the quality of payment transactions	Three additional client entities benefit from tailored workshops to improve the quality of payment transactions

Deliverables

29E.29 Table 29E.5 lists all deliverables of the subprogramme.

Table 29E.5
Subprogramme 1: deliverables for 2026, by category and subcategory

Category and subcategory
E. Enabling deliverables
Administration: financial management, risk management and internal control, and preparation and implementation of resource proposals; management of more than 700 posts; financial reporting and accounting; cash and revenue management; management of service arrangements with 50 client entities across 120 service lines; processing of payroll for more than 7,500 staff members across the world and more than 300,000 payments and disbursements annually; guidance and advice on all budgetary and financial matters; provision of medical insurance to more than 36,000 staff, retirees and dependents; processing of more than 490,000 medical invoices annually; administration of compensation claims; and delivery of quarterly client board meetings.

Subprogramme 2
Human resources management

Objective

29E.30 The objective, to which this subprogramme contributes, is to ensure a competent, diverse, adaptable and healthy workforce, to advance the highest standards of efficiency, competence and integrity and to ensure resilient organizational change.

Strategy

29E.31 To contribute to the objective, the subprogramme will:

(a) Provide expert support to clients to attract, recruit and retain talent, including women and applicants from unrepresented and underrepresented countries, by leveraging efficient workforce planning and internal human resources analytics capabilities;

(b) Strengthen tailored advisory services and adopt a cross-functional approach to case management, and promote staff well-being and an inclusive work culture;

(c) Provide learning and development activities, such as training sessions and briefings on performance management, innovation and navigation of workplace changes, as well as through language programmes to promote multilingualism;

(d) Promote a harmonious workplace with zero tolerance for prohibited conduct;

(e) Promote knowledge- and information-sharing about the work of the Office and the United Nations, and encourage intergenerational dialogue and inclusive youth engagement in those efforts.

29E.32 The above-mentioned work is expected to result in:

(a) Improved client experience, satisfaction and decision-making, on the basis of enhanced business insight using human resources data;

(b) Enhanced ability of staff to navigate workplace changes, embrace innovation and adopt new ways of working in a more agile and flexible manner;

(c) Increased awareness of the mechanisms to address prohibited conduct and of the responsibility of individual staff and management to foster an inclusive and harmonious work environment;

(d) Strengthened youth engagement and intergenerational partnership to widen the pool of young applicants and encourage and support the development of innovative ideas.

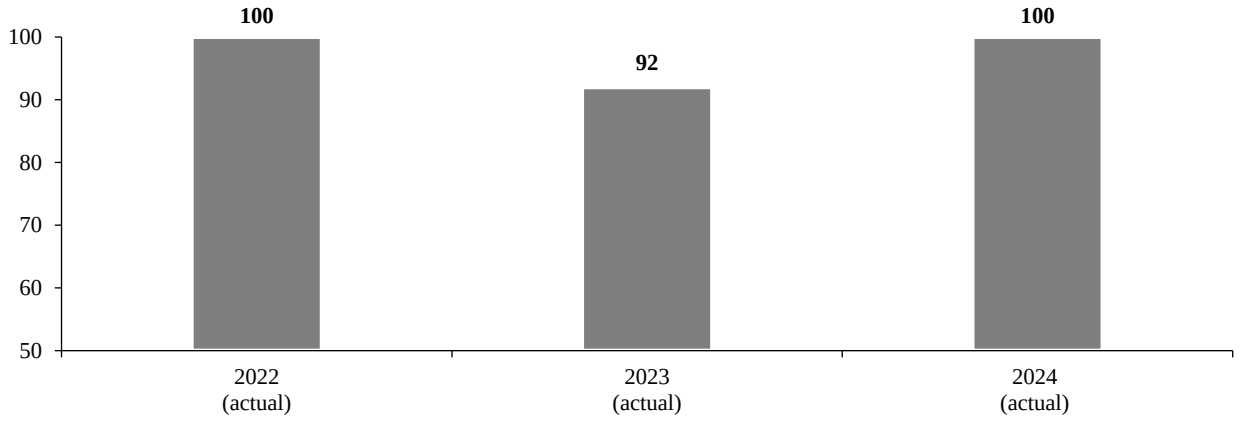
Programme performance in 2024

General Service staff empowered through the Game Shifter leadership programme

29E.33 The United Nations system leadership framework emphasizes that leadership exists across various contexts and levels. All personnel within the United Nations system, regardless of their position, duties or location, are called upon to demonstrate leadership in their work. In 2022, the subprogramme launched the Game Shifter leadership programme, specifically designed for General Service staff. As a 12-week experiential learning programme, participants engaged in blended learning and personalized coaching from business strategists, change leaders and organizational psychologists to uncover their strengths, enhance self-awareness and acquire practical skills to elevate their professional trajectories. In 2024, due to the liquidity crisis, the programme had to limit the number of participants in the programme.

29E.34 Progress towards the objective is presented in the performance measure below (see figure 29E.II).

Figure 29E.II
Performance measure: percentage of programme participants rating the programme as excellent/good



Planned results for 2026

Result 1: a more inclusive and supportive work environment

Programme performance in 2024 and target for 2026

29E.35 The subprogramme's work contributed to staff having increased access to mental health and well-being support, including webinars and materials in English and French focused on burnout and burnout prevention, which met the planned target.

29E.36 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29E.6).

Table 29E.6
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Staff have access to reasonable accommodation guidelines	Staff have an increased awareness of signs of burnout and have access to resources to help to prevent it	Staff have increased access to mental health and well-being support	Staff have access to on-demand, tailored programmes and trainings on mental health and well-being issues	Staff and managers receive an action plan to improve mental health and well-being, informed by their survey participation

Result 2: staff and external applicants better understand the United Nations recruitment process and make informed career-related decisions

Programme performance in 2024 and target for 2026

29E.37 The subprogramme's work contributed to over 12,000 end-users participating in the "Career Tips Thursday" series, a 20 per cent increase from 2023, which exceeded the planned target of a 3 per cent increase. The Career Tips Thursday initiative also won an award in the 2024 International Organizations Career Development Roundtable, in the "staff engagement" category.

29.E.38 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29E.7).

Table 29E.7
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Approximately 10,000 end users (staff and public globally) participated in the Career Tips Thursday series	20 per cent increase in end-users participating in the Career Tips Thursday series, and award received	Staff have access to career development initiatives, which respond to United Nations Staff Engagement Survey results	Young and external applicants actively use resources on United Nations career development

Result 3: expanded youth engagement and intergenerational dialogue

Proposed programme plan for 2026

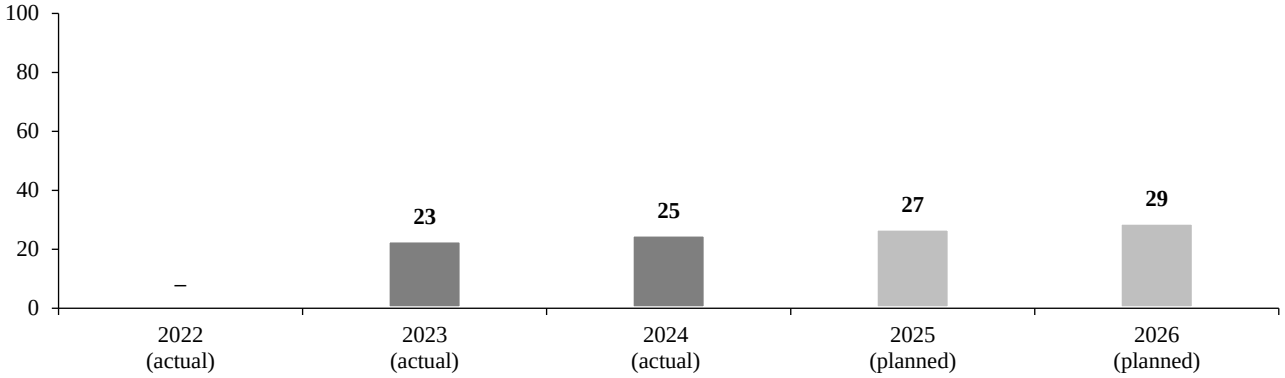
29E.39 To improve geographical representation, foster intergenerational dialogue and leverage emerging trends from academia, the subprogramme has made the Office's internship programme more inclusive and accessible. In 2023, five outreach events were held with students and university representatives, followed by seven more in 2024.

Lessons learned and planned change

29E.40 The lesson for the subprogramme was that targeted outreach improves equitable access to information about internship opportunities, particularly for candidates from unrepresented and underrepresented countries, whose participation in internship programmes increased from 23 per cent in 2023 to 25 per cent in 2024. In applying the lesson, the subprogramme will build on this success by expanding the programme while strengthening partnerships with academia, Governments and the host country to attract a more diverse pool of candidates.

29E.41 Expected progress towards the objective is presented in the performance measure below (see figure 29E.III).

Figure 29E.III
Performance measure: percentage of interns from unrepresented and underrepresented countries (annual)



Deliverables

29E.42 Table 29E.8 lists all deliverables of the subprogramme.

Table 29E.8
Subprogramme 2: deliverables for 2026, by category and subcategory

Category and subcategory
D. Communication deliverables
Outreach programmes, special events and information materials: job fairs and career presentations to identify prospective candidates, including female candidates, from unrepresented and underrepresented Member States; and knowledge-sharing in the area of human resources and staff health and well-being.
E. Enabling deliverables
Administration: talent management and job classification; administration of approximately 3,150 staff contracts; advice and guidance on human resources policies, including on the Staff Regulations and Rules and staff selection system; 500 learning activities, including training on organizational and managerial competencies, substantive and technical skills, language and communications, and career development for 13,000 staff members and others annually; administration of assessment tests; staff counselling services and psychological support; conduct of staff surveys, including on cost of living and daily subsistence allowance; 8,400 host country residence permits obtained in liaison with local authorities; occupational health and medico-administrative services for 15,000 client staff in Geneva and field offices, medical consultations and advice, medical emergency preparedness, health and well-being campaigns; and learning, career development and performance management.
Internal justice and oversight: legal services provided to the Office and 20 client entities; act as legal counsel for the Organization before the United Nations Dispute Tribunal; act as Office legal adviser in human resources matters, including in cases of alleged misconduct; defend the Organization's position before the Management Advice and Evaluation Section; negotiate settlement agreements on behalf of the Organization and work with the United Nations Ombudsman and Mediation Services; act as conduct and discipline focal point at the Office, provide regular information updates on legal and ethical topics to Office staff and client entities; and provide regular briefings for managers on best practices and lessons learned from current legal jurisprudence to increase awareness and compliance.

Subprogramme 3
Support services

Objective

29E.43 The objective, to which this subprogramme contributes, is to ensure the efficient, environmentally responsible and effective functioning of the United Nations Office at Geneva with regard to premises, office and conference facilities management; asset management; travel and transportation; mail and pouch services; procurement; and commercial activities.

Strategy

29E.44 To contribute to the objective, the subprogramme will:

(a) Provide services in the areas of facilities management, security infrastructure maintenance, assistance with conference activities, special events, project management, and property and space management;

(b) Equip meeting and conference rooms with advanced technologies, infrastructure and equipment to support virtual and blended meetings, in accordance with available funding;

(c) Provide procurement services, including collaborative procurement activities with other United Nations organizations and agencies based in Geneva through the Common Procurement Activities Group;

(d) Provide services in the areas of contract management, travel, administration of diplomatic privileges, visas, United Nations travel documents, transportation, mail and pouch services, and warehousing;

(e) Support the implementation of the strategic heritage plan, ensuring that solutions are in place to minimize the impact of any potential disruptions during renovation of the historic buildings of the Palais des Nations and operation of the new building H.

29E.45 The above-mentioned work is expected to result in:

(a) Optimized use of space and the provision of high-quality logistical services and support to client entities;

(b) Modern, high-quality conference support services, including the availability of conference rooms equipped for multilingualism;

(c) Clients' procurement needs being met;

(d) Improved workplace safety and conditions in the Palais des Nations and its annexes.

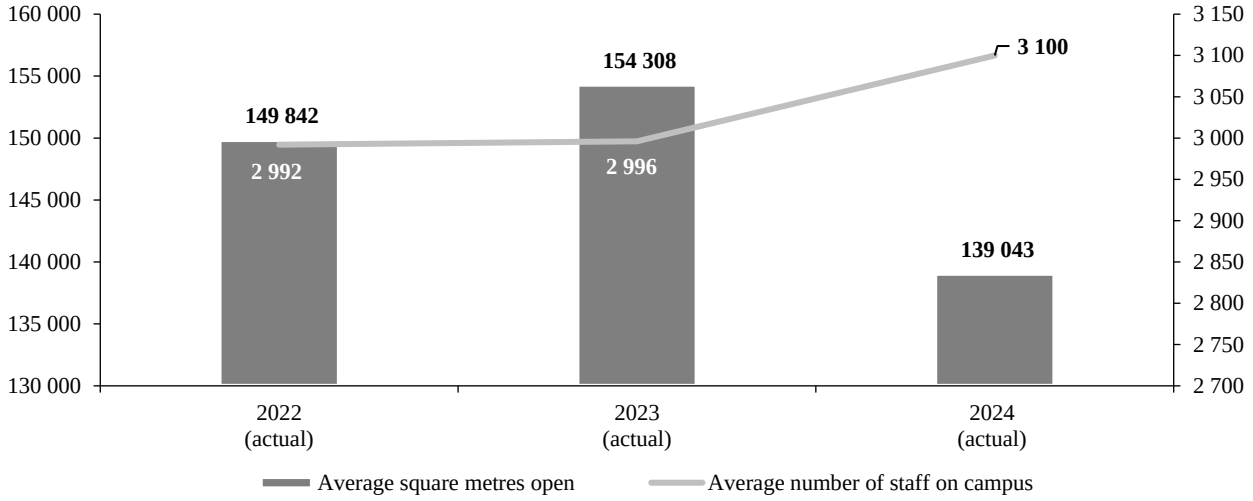
Programme performance in 2024

Continued provision of core services at the Palais during the liquidity crisis

29E.46 The subprogramme's work contributed to enabling clients and staff to continue to work from the Palais and implement their core mandate while the Office adapted to funding constraints due to the financial situation of the United Nations regular budget. The subprogramme achieved this by optimizing space to move over 1,000 staff and clients into more energy-efficient buildings, allowing advance closure of the E building office tower and temporarily closure of less energy-efficient annex buildings, closing the Palais on weekends, reducing heating and cooling in all buildings and postponing some maintenance work while providing only minimum services. As a result, the Office maintained core operations, including providing technical services for conferences and meetings, albeit with some negative impacts on users and requiring adjustments from all stakeholders.

29E.47 Progress towards the objective is presented in the performance measure below (see figure 29E.IV).

Figure 29E.IV
Performance measure: average square metres of open space at Palais versus average number of staff on campus



Planned results for 2026

Result 1: United Nations Office at Geneva campus preserved for future generations

Programme performance in 2024 and target for 2026

29E.48 The subprogramme's work contributed to facilitating an energy audit for building S1 in 2024, which did not meet the planned target of protecting Member States' investment through an assessment study of all renovated areas of the Palais des Nations delivered by the strategic heritage plan that identifies long-term preventive maintenance requirements. The target was not met due to delays in completing renovations and handing the buildings over to the subprogramme.

29E.49 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29E.9).

Table 29E.9
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Availability of a study to assess the ongoing preventive maintenance and operational costs for building H	Energy audit conducted for building S1	Long-term maintenance strategy for buildings fully handed over by strategic heritage plan in place to protect Member States' investment	Long-term maintenance strategy for additional buildings fully handed over by strategic heritage plan in place to protect Member States' investment

Result 2: event support centre, phase II: improved audiovisual support used by Member States and client entities

Programme performance in 2024 and target for 2026

29E.50 The subprogramme's work contributed to the identification of Member States' and client entities' audiovisual needs and scenarios, which did not meet the planned target of Member States' and client entities' audiovisual needs and scenarios identified and incorporated into the event support centre process road map. The target was not met due to the additional time and capacity required to incorporate identified needs and scenarios into the process road map.

29E.51 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29E.10).

Table 29E.10
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Member State and client entity audiovisual needs and scenarios identified	Member States and client entities use the centralized, improved and proactive audiovisual support for side events, cultural events and activities	Member States and client entities have access to optimized support informed by a client survey

Result 3: clients benefit from modern building facilities following strategic heritage plan renovations

29E.52 Under the strategic heritage plan, the historic buildings of the Palais des Nations are being renovated and transferred to the subprogramme for ongoing management and maintenance. In 2021, the subprogramme assumed responsibility for the newly completed building H under the strategic heritage plan and relocated staff to the building in May 2021. While certain aspects of the transition proceeded smoothly, related operational challenges continue, in particular regarding incomplete maintenance documentation and issues with the building's new electrical systems, which led to disruptions for staff.

Lessons learned and planned change

29E.53 The renewed lesson for the subprogramme was the importance of comprehensive maintenance documentation for the advanced technologies and electrical systems introduced during renovations. Such documentation is core to the maintenance strategy and ensures that each building is operational and ready for occupancy upon transfer. In applying the lesson, the subprogramme will develop and implement detailed maintenance plans for the daily operations of newly renovated buildings as they are handed over from the strategic heritage plan, including documentation of installed technologies and electrical systems. This proactive approach will help to support staff and client comfort in the modernized spaces, while safeguarding the significant investment made by Member States in upgrading the Palais.

29E.54 Expected progress towards the objective is presented in the performance measure below (see table 29E.11).

Table 29E.11
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Clients utilize renovated facilities in buildings D and AC	Clients utilize renovated facilities in building S1	Clients utilize renovated facilities in buildings A and AB	Clients utilize renovated facilities in building C

Deliverables

29E.55 Table 29E.12 lists all deliverables of the subprogramme.

Table 29E.12
Subprogramme 3: deliverables for 2026, by category and subcategory

Category and subcategory
E. Enabling deliverables
Administration: travel arrangements (27,600), visas and laissez-passer for Geneva-based United Nations Secretariat entities and other entities based at the Geneva campus; audiovisual support (6,100 meetings and 150 events); and management and maintenance of Office campus (215,381 m^2 containing 2,871 offices, 49 conference rooms, and 85 meeting rooms).
Logistics: full procurement services (amounting to $54.5 million); physical verification of 36,000 serialized equipment items and fixed assets; shipment of official property, bulk consignments for conferences (102,900 kg) and distribution services (approximately 128,400 items) for United Nations offices and other United Nations entities.

Subprogramme 4
Information and communications technology operations

Objective

29E.56 The objective, to which this subprogramme contributes, is to advance the efficient and effective implementation of client entities' substantive programmes through technologies, including a coherent enterprise ICT system and enterprise architecture; access to ICT-related technological innovations; and a secure, coherent and resilient technology application hosting and infrastructure landscape.

Strategy

29E.57 To contribute to the objective, the subprogramme will:

(a) Manage a portfolio of end-to-end hardware and software solutions and implement new technologies for clients on the basis of their business objectives;

(b) Build resilient technological capacity to meet client objectives by acquiring knowledge and expertise on relevant solutions, migrating to the most cost-effective sourcing options, exploiting economies of scale, adopting innovative technologies and discontinuing legacy systems;

(c) Manage the use of ICT resources by engaging and leading the ICT community and entities of the United Nations system in Geneva and elsewhere in Europe in the definition, adoption and deployment of ICT governance policies and procedures, as well as oversee and support ICT strategy implementation and provide security in the use of ICT services.

29E.58 The above-mentioned work is expected to result in:

(a) A safe and reliable ICT environment for all United Nations Secretariat entities in Geneva;

(b) Clients whose administrative and management decision-making processes are facilitated and empowered by new and innovative information technology solutions;

(c) Client entities with access to cost-effective services and solutions that optimize the use of resources to achieve business goals.

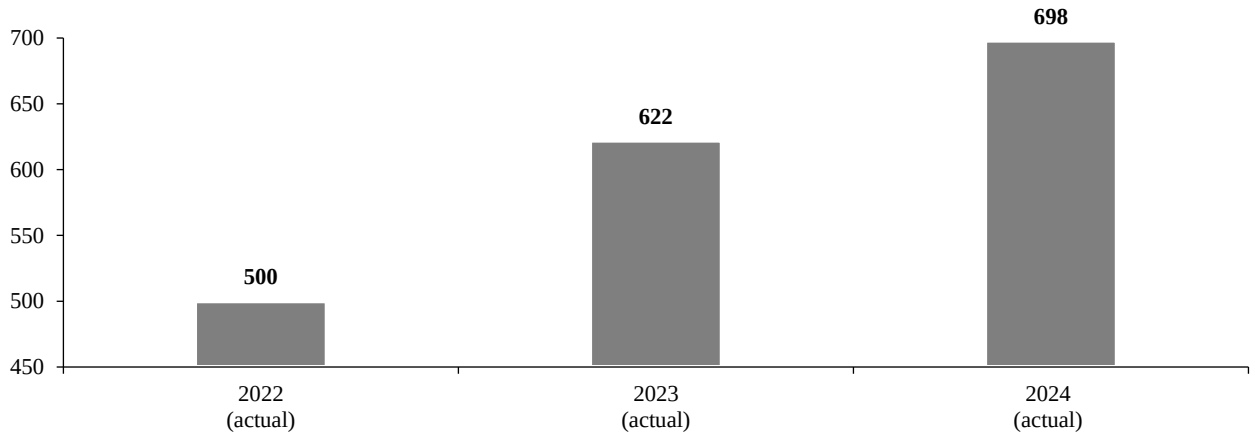
Programme performance in 2024

Clients benefit globally from cost-effective access to Adobe licenses

29E.59 In 2024, the Office received the United Nations procurement award for collaborative procurement for securing an enterprise license agreement for Adobe products. Since 2018, the subprogramme has centrally managed this global agreement that now covers 26 United Nations entities, reducing administrative burdens and enabling rapid license allocation. Clients benefit from competitive pricing, streamlined operations and inclusive tools, ensuring they have the means to fulfil their mandates effectively. Since 2022, the agreement has resulted in a 40 per cent increase in Adobe Admin Consoles – the centralized platforms used by client entities to manage licenses, allocate resources and streamline access to Adobe products, providing staff across the United Nations with greater access to cost-effective Adobe licenses.

29E.60 Progress towards the objective is presented in the performance measure below (see figure 29E.V).

Figure 29E.V
Performance measure: number of Adobe Admin Consoles used by client entities under the global enterprise license agreement for Adobe products (cumulative)



Planned results for 2026

Result 1: experience of conference participants and organizers improved through technology

Programme performance in 2024 and target for 2026

29E.61 The subprogramme's work contributed to the phased availability of new features for conference participants in building AC and the integration of new functionality for conference participants into the design of building E, which met the planned target.

29E.62 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29E.13).

Table 29E.13
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Design and conduct of a mock-up for simulation of new features for conference participants and validation of the new architecture	Phased availability of the new features for conference participants in buildings A, AB and C	Conference participants have full access to the new features in conference rooms for building AC New functionality for conference participants is integrated into the design of building E	Conference participants have full access to new features in all buildings completed by the strategic heritage plan in 2025	Conference participants have access to new features in all buildings completed by strategic heritage plan in 2026

Result 2: event support centre, phase I: clients utilize a single point of contact and online tool to organize cultural events, side events and activities

Programme performance in 2024 and target for 2026

29E.63 The subprogramme's work contributed to the design of a digital platform and a support data model, incorporating client requirements and feedback, which met the planned target.

29E.64 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29E.14).

Table 29E.14
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Staff book meeting rooms in building H including for blended in-person and virtual meetings	Staff have access to automated technology to facilitate the holding of blended meetings in building H	Design of digital platform and a support data model incorporating client requirements and feedback	Clients have access to single point of contact and online tool to request event services and support	Clients utilize online tool to manage supported event types, enabling stakeholders to interact with and efficiently oversee event services

Result 3: enhanced efficiency and security through the Internet of things for a better client experience

Proposed programme plan for 2026

29E.65 The rapid evolution of Internet of things technology offers opportunities in building management (such as smart heating ventilation air conditioning systems, lighting controls and energy monitoring), predictive maintenance, conference management (such as Internet of things-powered kiosks, digital badges, room occupancy optimization and environmental controls) and safety and security (such as connected surveillance cameras and sensors enhancing security and disaster response). The subprogramme recognizes that Internet of things solutions can enhance campus operations by improving efficiency, enabling better decision-making and providing more effective resource management. However, to harness the full potential of the Internet of things, such technologies must

be integrated into the Office's information security framework to address risks such as system vulnerabilities, data breaches and privacy violations.

Lessons learned and planned change

29E.66 The lesson for the subprogramme was that the uncoordinated adoption of Internet of things technologies across campus service areas has hindered the ability of the Office to maximize their value. In addition, information security risks associated with these solutions have grown significantly. In applying the lesson, the subprogramme will develop, in coordination with subprogramme 3, a comprehensive Internet of things implementation plan for 2026. This plan will outline how Internet of things technologies can be systematically deployed and managed to enhance operational efficiency while mitigating security and privacy risks, to provide a safer, more efficient and comfortable client experience.

29E.67 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29E.15).

Table 29E.15
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Client experience improved through ad hoc adoption of Internet of things technologies such as digital badges	Stakeholders participate in study of Internet of things adoption that identifies opportunities to enhance operational efficiency and improve client experience	Stakeholders participate in development of implementation plan to integrate proposed Internet of things technologies into information security framework to mitigate related security risks for clients

Deliverables

29E.68 Table 29E.16 lists all deliverables of the subprogramme.

Table 29E.16
Subprogramme 4: deliverables for 2026, by category and subcategory

Category and subcategory
E. Enabling deliverables
Information and communications technology: provision of security for information technology systems and data; connectivity services; hosting services; voice, video and data communications services; operation and maintenance of application systems in a secure environment; technical support for approximately 5,000 end users; and advisory services on business solutions and ICT governance coordination.

Subprogramme 5
Library services

Objective

29E.69 The objective, to which this subprogramme contributes, is to ensure the preservation of and enhanced access to past, present and future knowledge of the United Nations, to mobilize this knowledge and to increase knowledge-sharing, education and dialogue among Member States and between Member States and the international community.

Strategy

29E.70 To contribute to the objective, the subprogramme will:

(a) Provide access to United Nations documents, archives and publications, including both online and paper-based resources, and to external knowledge resources that provide information about the Organization's areas of work; and guarantee access to paper-based resources stored in the building, and online resources and services;

(b) Coordinate with the strategic heritage plan to ensure the safe storage of all collections and the accessibility of core collections during the planned closure of the Library building for strategic heritage plan renovations;

(c) Provide knowledge tools that bring together key information resources on United Nations issues and global agendas, manage the Office's art collection and digitize and preserve archives and official documents, in collaboration with other United Nations libraries and archives;

(d) Provide guidance on records management standards and best practices across the Office and at other Secretariat entities in Geneva through the provision of staff training, advisory services and records management services;

(e) Transfer official records of the United Nations, both physical and digital, to the Records Management Unit for long-term preservation;

(f) Provide support for cultural diplomacy, connect diplomats with United Nations staff, experts and global citizens through discussion and learning events, and organize learning events and cultural activities, including virtual and blended events.

29E.71 The above-mentioned work is expected to result in:

(a) More informed participation and subsequent decision-making by diplomats and staff;

(b) Improved transparency and accountability for the Organization;

(c) Preservation of institutional and historical memory;

(d) A vibrant online and on-site cultural activities programme that enables Member States to showcase their art and culture through exhibitions, film screenings and other events;

(e) Alternative learning opportunities for United Nations staff and diplomats on topics that support career development and the implementation of United Nations policies and agendas.

Programme performance in 2024

Learning the essentials of multilateralism at the United Nations Museum Geneva

29E.72 The subprogramme designs and implements exhibitions and tours featuring archives, rare books and multimedia artworks at the United Nations Museum Geneva to help visitors learn about the essentials of the work of multilateralism and its impact on humanity.

29E.73 In 2024, as part of cost-saving measures in response to the liquidity crisis, the Library building and Museum were temporarily closed for three months. To mark the reopening of the Museum, the subprogramme launched an outreach campaign featuring special guided tours for permanent missions. The tours showcased the contributions of Member States to the United Nations and their role in shaping modern multilateralism. The initiative gained popularity and was integrated into permanent mission learning and educational programmes, serving as both an informative experience and an opportunity for reflection.

29E.74 Progress towards the objective and the target for 2026 are presented in the performance measure below (see Table 29E.17).

Table 29E.17
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	181 permanent mission staff participate in United Nations Museum Geneva special guided tours and expand knowledge of multilateralism

Planned results for 2026

Result 1: improved access to information for achieving the Sustainable Development Goals

Programme performance in 2024 and target for 2026

29E.75 The subprogramme's work contributed to providing enhanced access to digital collections and United Nations Conference on Trade and Development (UNCTAD) paper archives, in partnership with the Geneva Graduate Institute, through the establishment of the Centre for Digital Humanities and Multilateralism, which met the planned target.

29E.76 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29E.18).

Table 29E.18
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Online availability of a further enhanced Sustainable Development Goals research guide Digitization of League of Nations archives finalized, with 14 million pages	Recipients have access to improved search features for online Sustainable Development Goal research guide and to a customized digital archives platform	Enhanced access to digital collections and UNCTAD paper archives through the establishment of the Centre for Digital Humanities and Multilateralism	Clients of other information management institutions and networks use packaged Sustainable Development Goal information and metadata	Enhanced access to curated and verified information resources from across the United Nations Secretariat on the Sustainable Development Goals

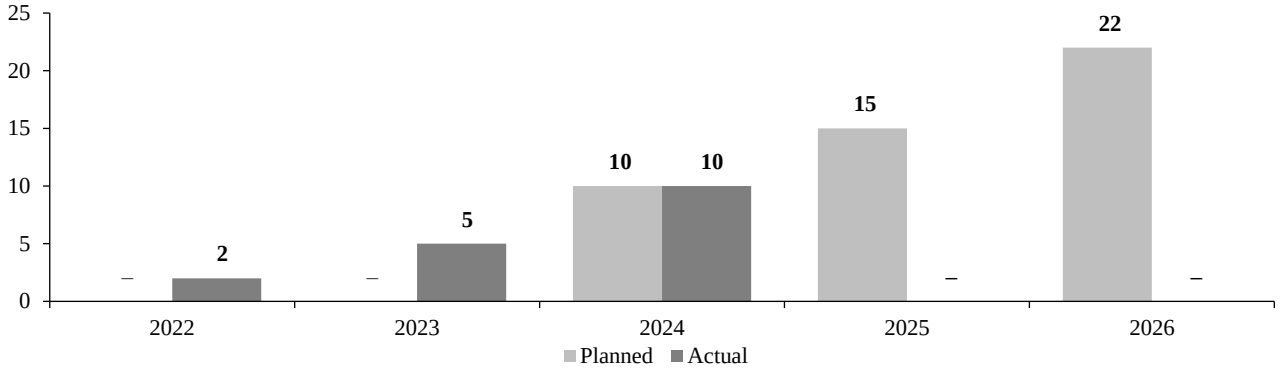
Result 2: increased availability of tools for clients to gain access to and use information resources efficiently and responsibly

Programme performance in 2024 and target for 2026

29E.77 The subprogramme's work contributed to the availability of 10 new customized tools for clients, which met the planned target.

29E.78 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29E.VI).

Figure 29E.VI
Performance measure: number of new tools (literacy guidance and learning products and services) available to clients (cumulative)



Result 3: Enhanced access to more United Nations knowledge

Proposed programme plan for 2026

29E.79 The subprogramme aims to broaden access to United Nations knowledge, making it more accessible to diplomats, staff and researchers. To achieve this, the subprogramme preserves and digitizes paper archives, official documents and publications; offers information services; and trains users in navigating online catalogues and repositories. However, as more digitized United Nations knowledge becomes available, users increasingly struggle to search for and retrieve the specific archives, documents or publications they need. This challenge has been consistently highlighted by clients during training sessions.

Lessons learned and planned change

29E.80 The lesson for the subprogramme was that improving the quality of online search results is essential to enable users to locate information independently through digital catalogues and repositories. In applying the lesson, the subprogramme will review its metadata processes, which are crucial for producing accurate search results. Metadata systematically organizes information and describes archives and documents by capturing key themes, subjects and concepts. The review will incorporate current best practices and standards for metadata creation, including exploring the use of artificial intelligence prompting. By applying these findings, the subprogramme will enhance its processes, increase metadata output and ensure users benefit from faster, more accurate and comprehensive access to United Nations archives and official documents.

29E.81 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29E.19).

Table 29E.19
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Access to training on navigating online catalogues and repositories	Improvements to user experience identified through study on current metadata processes, and best practices for metadata creation	Library and archives users benefit from improved and more accurate online search results when using digital catalogues and repositories

Deliverables

29E.82 Table 29E.20 lists all deliverables of the subprogramme.

Table 29E.20
Subprogramme 5: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
B. Generation and transfer of knowledge				
Seminars, workshops and training events (number of days)	**40**	**33**	**25**[a]	**25**
Events for diplomats and United Nations staff on the processes, working mechanisms and rules of the Secretariat and for career development	40	33	25[a]	25
C. Substantive deliverables				
Consultation, advice and advocacy: advisory services on records management for 400 clients.				
Outreach programmes, special events and information materials: cultural activities, including exhibitions, concerts and films; guided tours of the Library, Archives and exhibitions of the United Nations Museum Geneva; discussion panels and conferences for cultural exchange, education and dialogue on key United Nations issues; and exhibitions in the Library and at the United Nations Museum Geneva.				
Library services: knowledge services to enable evidence-based policymaking and research for 12,000 diplomats, delegates, United Nations staff and academics worldwide; creation and maintenance of web pages of official records and documents; unified resource management system for the Office and three United Nations Secretariat libraries; print and electronic information resources; management of 15,000 linear metres of United Nations and League of Nations archives and records in paper form; and access to on-site and online archives and records.				

[a] As per the current scope and schedule of the strategic heritage plan renovations, library spaces will be closed for part of the year. Therefore, some events will be held online.

B. Proposed post and non-post resource requirements for 2026

Overview

29E.83 The proposed regular budget resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 29E.21 to 29E.23.

Table 29E.21
Overall: evolution of financial resources by object of expenditure
(Thousands of United States dollars)

			Changes					
Object of expenditure	*2024 expenditure*[a]	*2025 approved*	*Technical adjustments*	*New/expanded mandates*	*Other*	*Total*	*Percentage*	*2026 estimate*
Posts	49 610.3	53 072.0	–	–	236.2	236.2	0.4	53 308.2

29E.84 Additional details on the distribution of the proposed resources for 2026 are reflected in tables 29E.24 to 29E.26 and figure 29E.VII.

29E.85 As shown in tables 29E.24 (1) and 29E.25 (1), the overall resources proposed for 2026 amount to $90,982,200 before recosting, reflecting a net increase of $691,400 (or 0.8 per cent) compared with the approved budget for 2025. Resource changes result from technical adjustments, new and expanded mandates and other changes and are further explained in paragraphs 29E.86 to 29E.88. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Table 29E.24

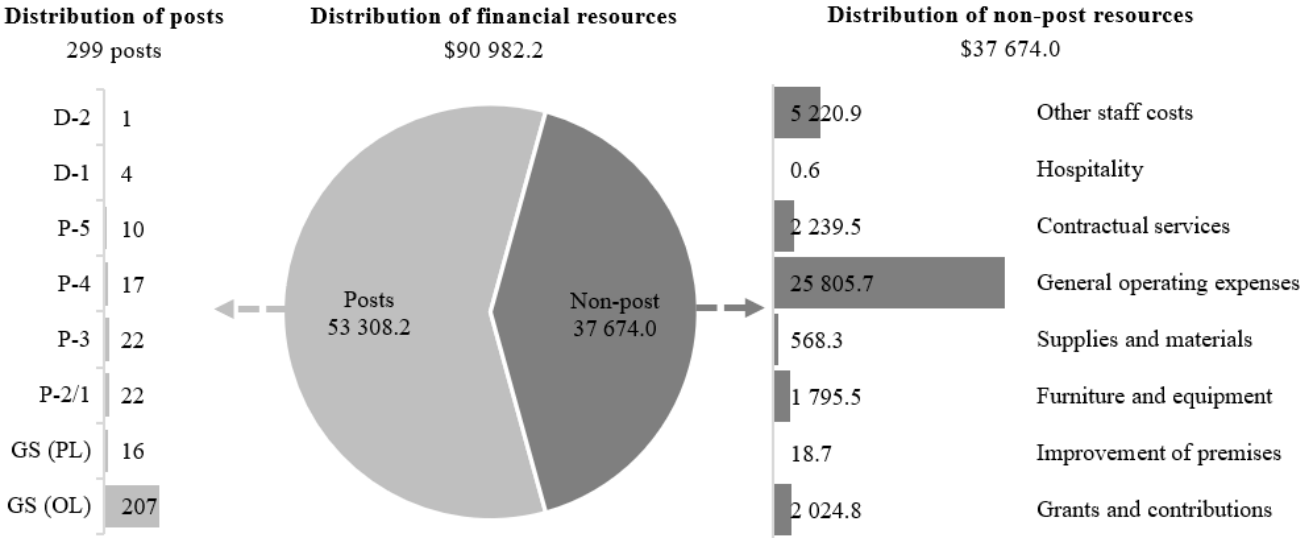
(Number of posts/thousands of United States dollars)



Explanation of variances by factor, component and subprogramme

Overall resource changes

Technical adjustments

29E.86 As reflected in table 29E.24 (1), resource changes reflect a decrease of $25,100, as follows:

Subprogramme 3, Support services (decrease of $25,100): this decrease relates to the removal of non-recurrent provisions for meeting support for 2025 in relation to mandates from the General Assembly and resolutions and decisions adopted by the Human Rights Council.

New and expanded mandates

29E.87 As reflected in table 29E.24 (1), resource changes reflect an increase of $58,700, as follows:

(a) **Subprogramme 3, Support services** (increase of $42,500): an increase of $42,500 reflecting additional requirements under general operating expenses for contractual sound operators and accessibility services ($28,900) and operating costs for office accommodation ($11,400), as well as under supplies and materials for office accommodation ($2,200), pursuant to Human Rights Council resolutions 55/29, 56/5 and 57/23, and decision 56/115;

(b) **Subprogramme 4, Information and communications technology operations** (increase of $16,200): an increase of $16,200 reflecting additional requirements under general operating expenses for information and communications technology services pursuant to Human Rights Council decision 56/115.

Other changes

29E.88 As reflected in table 29E.24 (1), resource changes reflect a net increase of $657,800 as follows:

(a) **Subprogramme 2, Human resources management** (no change): an increase under post costs ($236,200) offset by a decrease under other staff costs ($236,200) relating to the proposed cost-neutral conversion of a temporary position of Legal Officer (P-4) to a post (see annex II). In addition, the resources reflect a cost-neutral redeployment from contractual services ($137,200) to other staff costs ($137,200);

(b) **Subprogramme 3, Support services** (increase of $642,900): an increase under furniture and equipment ($18,500) reflecting anticipated increased office furniture costs, as well as under general operating expenses ($624,400) reflecting higher anticipated costs of facilities and equipment maintenance, as well as an increase in the cost of the office cleaning contract;

(c) **Subprogramme 4, Information and communications technology operations** (increase of $12,400): an increase of $12,400 under contractual services reflecting higher information and communications technology rates. In addition, the resources reflect cost-neutral redeployments from contractual services ($117,500) to furniture and equipment ($117,500) and from furniture and equipment ($7,700) to supplies and materials ($7,700);

(d) **Subprogramme 5, Library services** (increase of $2,500): an increase under furniture and equipment reflecting higher costs for the library management system.

Extrabudgetary resources

29E.89 As reflected in tables 29E.24 (2) and 29E.25 (2), extrabudgetary resources amount to $56,053,500. The resources would complement regular budget resources and would be used mainly to provide for 180 posts (3 P-5, 20 P-4, 36 P-3, 2 P-2, 3 General Service (Principal level) and 116 General Service (Other level)) and $26,228,300 non-post resources to perform the various functions in the areas of finance and budget services (e.g. accounting services, grant support and payroll processing and disbursement), human resources management (e.g. staff and recruitment administration, staff development and learning, medico-administrative services and human resources legal and policy advisory services), support services (e.g. travel processing, mail and pouch handling, procurement, conference support, ground transportation and facilities management), information and telecommunication technology services (e.g. personal computing, communications, conference support, hosting and storage) and record-keeping and library advisory services.

29E.90 The projected decrease of $138,200 is related mainly to the removal of non-recurrent requirements under subprogramme 2.

29E.91 The extrabudgetary resources under the present section are subject to the oversight of the United Nations Office at Geneva, which has delegated authority from the Secretary-General.

29E.92 In-kind contributions would provide for government-provided rent-free premises with an estimated value of $4,774,700.

Executive direction and management

29E.93 The United Nations Office at Geneva, in particular the Division of Administration, is responsible for the implementation of the programme of work under section 29E. The core functions of the Division include providing direction and coordination in human resources management, financial resources management, information and communications technology, central support services and library services at the United Nations Office at Geneva, including the management and utilization of United Nations premises and the coordination of human resources, finance and administrative policies with other Geneva-based organizations.

29E.94 The Division of Administration continues to provide administrative and other support services to Secretariat departments and offices and other entities of the United Nations system. Such services are provided to the United Nations funds and programmes, specialized agencies and other organizations of the United Nations system on a reimbursable basis, and a number of Geneva-based operations rely on the aforementioned services, in particular in the context of expanding humanitarian and human rights activities.

29E.95 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Office has an environmental sustainability

steering group and an environmental management system in line with the guidelines and best practices of the United Nations system. In 2024, the steering group met twice to oversee and drive forwards progress on implementation of the environmental management system. The steering group, newly established in 2023, comprises senior representatives from the Office's main divisions. The two main points for review in 2024 were the Office's progress towards meeting the environmental objectives of the United Nations system and the Secretariat, and the Office's new environmental action plans. Action plans are a key component of an environmental management system, and the Office has drafted these for its three main environmental impact areas: the use of energy at the Palais des Nations; waste management at the Palais; and the preservation of biodiversity in Ariana Park. The steering group will continue to meet twice annually until the Office's environmental management system is fully established. The action plans are also a deliverable under the 2050Today charter, which the Office signed in 2023. In 2024, work continued on the energy centre, the project to heat the Palais des Nations using heat pumps that extract thermal energy from Lake Geneva water. Once completed, the energy centre is forecast to provide around 80 per cent of the heat requirement of the Palais des Nations from renewable sources, leading to substantial reductions in greenhouse gas emissions. In line with the Secretary-General's vision for United Nations 2.0, the Office is committed to introducing a forward-thinking culture with regards to environmental management. The Office has therefore been improving the collection and management of environmental data, to better support decision-making. Going forwards, the aim is to apply behavioural science to enable staff and visitors to contribute to environmental management at the Palais. The Office was also selected by the Sustainable United Nations team as a pilot entity to test a waste audit methodology for the United Nations system. Three days' worth of office waste was analysed in detail, providing crucial insights into staff habits. The results of the audit should make it possible to reduce waste disposal costs and the impact on the environment.

29E.96 Information on the timely submission of documentation and advance booking for air travel is reflected in table 29E.27. The Office continues to make every effort to comply in full with the advance purchase policy directive and has undertaken a number of steps to ensure that air travel is booked as early as possible. Travel requests that are not submitted for certification 21 days before travel are routed to the Director of Administration for validation of mitigating circumstances before final review and approval. The Office did not submit parliamentary documents to the Department for General Assembly and Conference Management and does not plan to submit any such reports in 2026.

[b] Reassignment.

Annex II

Summary of proposed post changes, by component and subprogramme

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
Subprogramme 2, Human resources management	1	P-4	**Conversion** of 1 Legal Officer	The temporary position of Legal Officer (P-4), originally proposed as an established post, was approved by the General Assembly in its resolution 66/237 in 2012 as a general temporary assistance position on the recommendation of the Advisory Committee on Administrative and Budgetary Questions. A recent review of the long-term needs of the United Nations Office at Geneva, as requested by the Advisory Committee in its report on the 2023 proposed programme budget (A/77/7, para. VIII.96), confirmed the permanent nature of the position. The Legal Officer plays a critical role in ensuring the Office's capacity to represent and defend the Organization in the internal justice system, and this need is expected to continue. It is therefore proposed that it be converted from general temporary assistance to a post. There are 2 P-4 Legal Officers in the Office, one being a regular budget-funded temporary position and the other being an extrabudgetary-funded post. The analysis of the distribution of functions between these two positions and the overall workload of the Legal Unit over a six-year period showed that the percentage of extrabudgetary-related workload is lower than 50 per cent in all categories. It further demonstrates the constant workload of handling 100 cases per annum. The main case categories include appeals to the United Nations Appeals Tribunal, United Nations Dispute Tribunal proceedings, conduct and discipline cases, and management evaluation requests. The incumbent of the P-4 Legal Officer post funded through extrabudgetary resources also handles cases involving staff members supported by the regular budget. This highlights the critical need for stable and long-term regular budget funding for the Unit. A summary table is provided below.
Subprogramme 5, Library services	1	P-3	**Reassignment** of 1 post of Information Management Officer to Librarian	The P-3 post was vacated on 31 March 2024 due to a retirement. The post requires reassignment, as the generic functions of the Information Management Officer no longer correspond to the expected functions. The post is one of the management posts within the Library Services Section, which has undergone an internal review, the results of which reveal the need for a repositioning and strengthening of library services to enable the optimization of the use of digital technology, strategic communication with library clients, reinforced collection preservation and the facilitation of access to United Nations-produced knowledge. The incumbent of the post proposed to be reassigned will be responsible for a team that leads connections with clients and access to collections. The tasks of the generic job profile for P-3 Librarian correspond to these functions, whereas the tasks of the P-3 Information Management Officer no longer correspond.

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

29F.1 The United Nations Office at Vienna was established in 1979 pursuant to General Assembly resolution 31/194 with the objective of providing administrative support to the United Nations Secretariat units located in Vienna, including the United Nations Office on Drugs and Crime (UNODC), the Office for Outer Space Affairs, the International Trade Law Division of the Office of Legal Affairs, the secretariat of the United Nations Scientific Committee on the Effects of Atomic Radiation, the United Nations Information Service, the Office of Internal Oversight Services, the Office for Disarmament Affairs, the regional office of the Office of the United Nations Ombudsman and Mediation Services and the United Nations Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory. Under the terms of the tripartite memorandum of understanding of 1977 and subsequent amendments to it, the Office also provides support and administrative services, garage operations, language training and communication services on a common services basis to other international organizations based in the Vienna International Centre, namely the International Atomic Energy Agency (IAEA), the United Nations Industrial Development Organization (UNIDO) and the Preparatory Commission for the Comprehensive Nuclear-Test-Ban Treaty Organization. The Office provides safety and security and conference management services to the Vienna-based organizations, as reflected in section 34 and section 2, respectively, of the proposed programme budget. Building management services at the Vienna International Centre are provided by UNIDO, and medical services are provided by IAEA.

Strategy and external factors for 2026

29F.2 The Office will continue to provide administrative services, including the provision of an enabling policy framework and enhanced decision-making through continuous monitoring, data analysis and reporting. The strategy for 2026 will continue to include: (a) coordinating with Headquarters and providing timely advice to the entities serviced on all policy and administrative matters; (b) strengthening internal financial controls and streamlining financial procedures and guidelines to ensure effective financial management; (c) targeting enhancement of leadership, learning and career support activities guided by a performance management system supporting increased accountability, staff engagement, workplace flexibility and empowerment while ensuring a diverse and inclusive workplace; (d) maintaining efficient and cost-effective travel and transportation services through best practices; (e) promoting environmental sustainability in coordination with all departments and offices; (f) strengthening the capacity of procurement staff through online training and guidance notes to procurement practitioners; (g) monitoring significant pronouncements of the International Public Sector Accounting Standards Board and improving financial data integrity; (h) integrating new technologies into the organizational business toolkit; and (i) increasing compliance with technology standards, guidelines and methodologies, information and communications technology (ICT) policies and enterprise architecture.

29F.3 Under the leadership of the Department of Operational Support, the Office will continue to support the harmonization and improvements across the global operational support architecture to increase overall satisfaction with client services.

29F.4 With regard to the external factors, the overall plan for 2026 is based on the planning assumption that the extrabudgetary funding available to client offices and the support requirements for services provided by the Office remain stable.

29F.5 The Office integrates a gender perspective in its operational activities, deliverables and results, as appropriate, including through the implementation of the Strategy for Gender Equality and the Empowerment of Women (2022–2026) of the United Nations Office at Vienna and UNODC. It will also support clients in attaining gender parity targets and will track and report on progress in

promoting gender equality and the empowerment of women, in line with the Secretary-General's system-wide strategy on gender parity.

29F.6 In line with the United Nations Disability Inclusion Strategy, the Office and other organizations based in Vienna, as members of the joint committee responsible for managing the Common Fund for Financing Major Repairs and Replacements at the Vienna International Centre, will ensure that the accessibility report commissioned by the host country is used to prioritize the necessary renovations, updates and repairs within the Common Fund. The Office will work towards creating a more inclusive and supportive culture for staff members who have disabilities and staff who have dependants with disabilities. This will specifically involve offering training on disability inclusion and organizing events to raise awareness about disability inclusion. The Office will engage with and involve persons with disabilities and their representative organizations in these efforts.

Legislative mandates

29F.7 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

31/194	Utilization of office accommodation and conference facilities at the Donaupark Centre in Vienna	77/280	Progress towards an accountability system in the United Nations Secretariat
58/278	Report of the Joint Inspection Unit on common and joint services of United Nations system organizations at Vienna		

Subprogramme 1
Programme planning, finance and budget

General Assembly resolutions

41/213	Review of the efficiency of the administrative and financial functioning of the United Nations	77/267	Shifting the management paradigm in the United Nations: review of changes to the budgetary cycle
42/211	Implementation of General Assembly resolution 41/213		

Subprogramme 2
Human resources management

General Assembly resolutions

59/164	Improvement of the status of women in the United Nations system	77/278	Human resources management
		78/275	Amendments to the Staff Regulations and Rules
63/271	Amendments to the Staff Regulations	79/252	United Nations common system
73/281	Shifting the management paradigm in the United Nations	79/254	Administration of justice at the United Nations

Subprogramme 3
Support services

General Assembly resolutions

58/276; 58/277	Report of the Joint Inspection Unit on the management audit review of outsourcing in the United Nations	58/278	Report of the Joint Inspection Unit on common and joint services of United Nations system organizations at Vienna
		69/273	Procurement

Subprogramme 4
Information and communications technology operations

General Assembly resolutions

63/262	Information and communications technology, enterprise resource planning, and security, disaster recovery and business continuity	71/272 B	Special subjects relating to the programme budget for the biennium 2016–2017 (sect. III, Status of implementation of the information and communications technology strategy for the United Nations)
63/269	Information and communications technology, disaster recovery and business continuity for the United Nations: arrangements for the secondary data centre at Headquarters	78/243	Information and communications technology strategy

Deliverables

29F.8 Table 29F.1 lists all cross-cutting deliverables of the programme.

Table 29F.1
Cross-cutting deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Substantive services for meetings (number of three-hour meetings)	**3**	**3**	**3**	**3**
1. Meetings of the Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
2. Meetings of the Committee for Programme and Coordination	1	1	1	1
3. Meetings of the Fifth Committee	1	1	1	1

Evaluation activities

29F.9 An evaluation on the client support portal conducted by the United Nations Office at Vienna and completed in 2024 has guided the proposed programme plan for 2026.

29F.10 In response to the results of the evaluation referenced above, subprogramme 1 enhanced the information available on the portal and implemented a comprehensive quality management system driving continuous improvements.

29F.11 In support of multilingualism, an evaluation of the United Nations language programme within the context of the United Nations Language Framework, to be conducted by the Office, is planned for 2026.

Programme of work

Subprogramme 1
Programme planning, finance and budget

Objective

29F.12 The objective, to which this subprogramme contributes, is to ensure sound, effective and efficient financial management by client offices.

Strategy

29F.13 To contribute to the objective, the subprogramme will:

(a) Strengthen the monitoring of budget performance, financial management and control, and improve reporting;

(b) Provide advice, assistance, guidance and training to programme managers and administrative units of client offices on financial management and budgetary matters;

(c) Streamline financial processes and guidelines and regularly review workflow procedures to identify ways to achieve a more efficient and faster client response;

(d) Strengthen internal financial controls, monitor financial performance and risks and ensure integrity of organizational financial data;

(e) Monitor the implementation of recommendations from oversight bodies and ensure strict compliance with the Financial Regulations and Rules of the United Nations and the financial policies of the United Nations.

29F.14 The above-mentioned work is expected to result in:

(a) Improved accessibility and understanding of financial information by client offices;

(b) Increased accountability by client offices;

(c) Improved integrity of financial data;

(d) Enhanced overall management of programme budget and extrabudgetary financial resources.

Programme performance in 2024

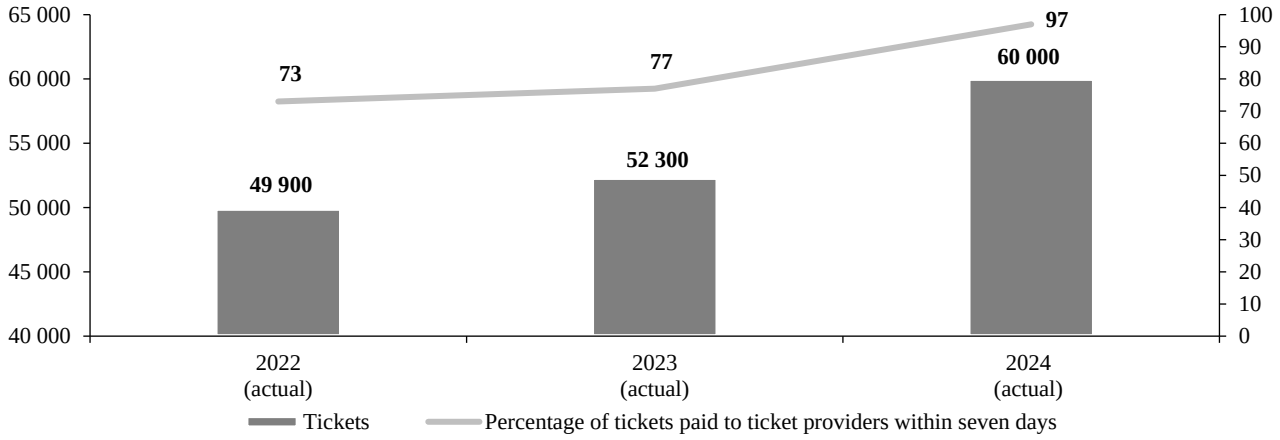
Improved efficiency in processing airline ticket invoices

29F.15 The subprogramme supports its clients in the processing and payment of airline tickets issued by 53 travel agents worldwide. The volume of ticket invoices has increased following the coronavirus disease (COVID-19) pandemic, from 21,000 in 2021 to 60,000 in 2024. To handle the increasing workload, the subprogramme undertook a systematic review to improve the efficiency of processes by analysing and resolving issues that previously hindered the automatic posting and clearing of ticket invoices in Umoja. Common issues included errors in trip and traveller numbers, delays in ticket issuance or exchange rate variations, causing costs to exceed tolerance levels.

29F.16 As a result, the subprogramme successfully managed the increased volume of ticket invoices within existing capacities while increasing timely and accurate processing. This improvement has significantly reduced the number of automatic posting exceptions requiring manual intervention by client offices and expediting payments to ticket providers. In 2024, 85 per cent of airline ticket invoices were processed automatically without exception, compared with 60 per cent in 2022, leading to faster payments to ticket providers, with 97 per cent of ticket providers of the United Nations Office at Vienna being paid within 7 calendar days in 2024, compared with 73 per cent in 2022.

29F.17 Progress towards the objective is presented in the performance measure below (see figure 29F.I).

Figure 29F.I
Performance measure: average payment processing time of provider invoices and volume of tickets (annual)



Planned results for 2026

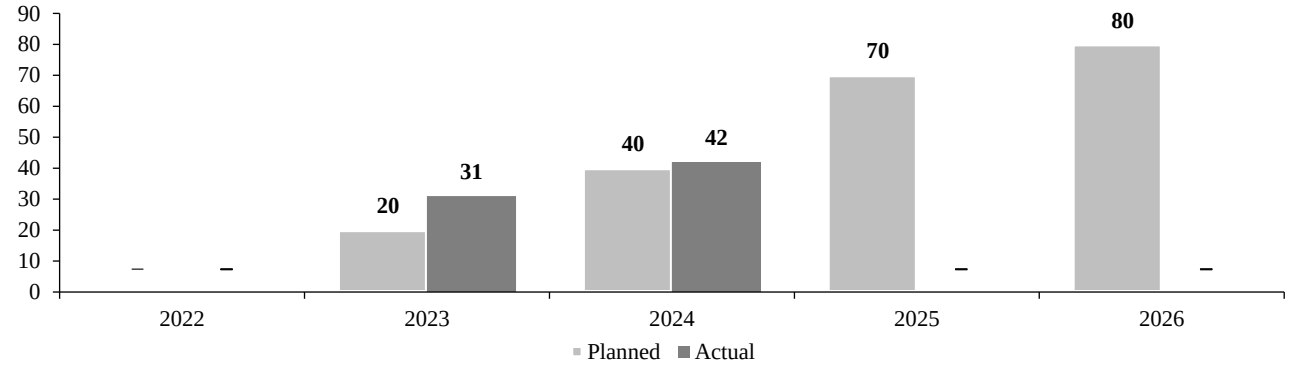
Result 1: improved stewardship of resources

Programme performance in 2024 and target for 2026

29F.18 The subprogramme's work contributed to the certification of an additional 11 staff members, for a cumulative total of 42, from substantive offices as focal points in budgetary and accounting matters and the financial regulations and rules of the organization, which exceeded the planned target of 40.

29F.19 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29F.II).

Figure 29F.II
Performance measure: number of substantive staff certified as focal points in budgetary and accounting matters and the financial regulations and rules of the organization (cumulative)



Result 2: improved financial accounting and reporting through implementation of IPSAS 47: Revenue

Programme performance in 2024 and target for 2026

29F.20 The subprogramme's work contributed to clients having access to entity-specific policies and adopting revised procedures for the implementation of International Public Sector Accounting Standards (IPSAS) 47: Revenue, on the basis of guidance developed by the Task Force on Accounting Standards, which met the planned target.

29F.21 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29F.2).

Table 29F.2
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	System-wide policy guidance on IPSAS 47 established	Clients have access to entity-specific policies and adopt revised procedures on the basis of system-wide guidance	90 per cent of clients' donor agreements assessed for accounting treatment under IPSAS 47, ensuring readiness for transition in 2026	100 per cent implementation of IPSAS 47 across all client entities, ensuring compliance and enhanced reporting transparency

Result 3: reduced unresolved financial issues in field offices

Proposed programme plan for 2026

29F.22 Effective financial management in field offices is critical to ensuring accountability and the proper use of donor funding. Field offices face recurring challenges, including high staff turnover, physical distance and time difference from headquarters, resulting in delays in resolving financial issues, which affect the closure of expired grants and the management of open accounting items.

Lessons learned and planned change

29F.23 The lesson for the subprogramme was that generalized support to field offices does not adequately address their unique challenges. In applying the lesson, the subprogramme will provide customized reports and dashboards, tailored support and knowledge-sharing updates designed to support local financial management and improve issue resolution. This will enable the more effective and timely resolution of financial issues and enhance stewardship of resources.

29F.24 Expected progress towards the objective is presented in the performance measure below (see table 29F.3).

Table 29F.3
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Field offices face inefficiencies due to staff being unclear on policies, procedures and focal points in headquarters Financial Resources Management Service	Field offices' staff are equipped with clear guidance and are actively supported by the technical team for complex issues	Reduction in open accounting items by 20 per cent due to improved capacity of field offices' staff in financial management

Deliverables

29F.25 Table 29F.4 lists all deliverables of the subprogramme.

Table 29F.4
Subprogramme 1: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**2**	**2**	**2**	**2**
1. Consolidated budget for UNODC for the biennium	–	–	1	–
2. Performance report for UNODC for the biennium	1	1	–	1
3. Annual financial report and audited financial statements for UNODC	1	1	1	1
E. Enabling deliverables				
Administration: financial management, including risk management and internal control, preparation and implementation of budgets and other resource proposals; management of approximately 2,600 posts; financial reporting and accounting, including 1,700 donor reports; cash and revenue management; cost recovery; issuance of 26,200 UNDP financial authorizations, payments, payroll and disbursements for 1,760 staff members; administration of 13,700 banking details for business partners; guidance and advice on all financial matters; management of after-service health insurance claims for 800 beneficiaries; and management of 7,300 grants.				

Subprogramme 2
Human resources management

Objective

29F.26 The objective, to which this subprogramme contributes, is to ensure the attraction, development and retention of a competent, diverse, adaptable and healthy workforce with the highest standards of efficiency, competence and integrity, giving due regard to geographical representation, inclusivity and gender balance.

Strategy

29F.27 To contribute to the objective, the subprogramme will:

(a) Foster and reinforce an enabling working environment for its clients with regard to service delivery, talent management and organizational culture, through human resources services to clients in Vienna and in UNODC field offices;

(b) Implement talent outreach and attraction initiatives to enhance gender equality, geographical representation and disability inclusion;

(c) Support personnel through talent development initiatives and promoting workplace flexibility;

(d) Reinforce a culture of zero tolerance against prohibited conduct, including through the implementation of multiple initiatives of the United Nations System Chief Executives Board for Coordination.

29F.28 The above-mentioned work is expected to result in improved staff engagement, motivation, productivity and well-being, thereby contributing to the delivery of the Organization’s mandates.

Programme performance in 2024

Staff benefits and entitlements made simple

29F.29 Ensuring staff have a clear understanding of their entitlements and benefits is critical to fostering a supportive work environment, reducing administrative errors and enhancing overall satisfaction. The subprogramme actively contributed to enhancing staff awareness related to entitlements and benefits

and introduced a targeted video initiative in 2024. The initiative consisted of five informative videos covering the following five topics: (a) flexible working arrangements; (b) education grant; (c) rest and recuperation; (d) danger pay; and (e) home leave. The videos were carefully designed to address common challenges that staff members face and were published on the internal client support portal. The videos provide concise, accessible and clear explanations of entitlement processes for staff members, with 91 per cent of staff respondents to a client satisfaction survey who watched one of the videos indicating that they found them helpful.

29F.30 Progress towards the objective is presented in the performance measure below (see table 29F.5).

Table 29F.5
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Staff found the entitlement processes easier to understand and were more satisfied with the support provided, leading to a decrease in submission errors and improved processing times

Planned results for 2026

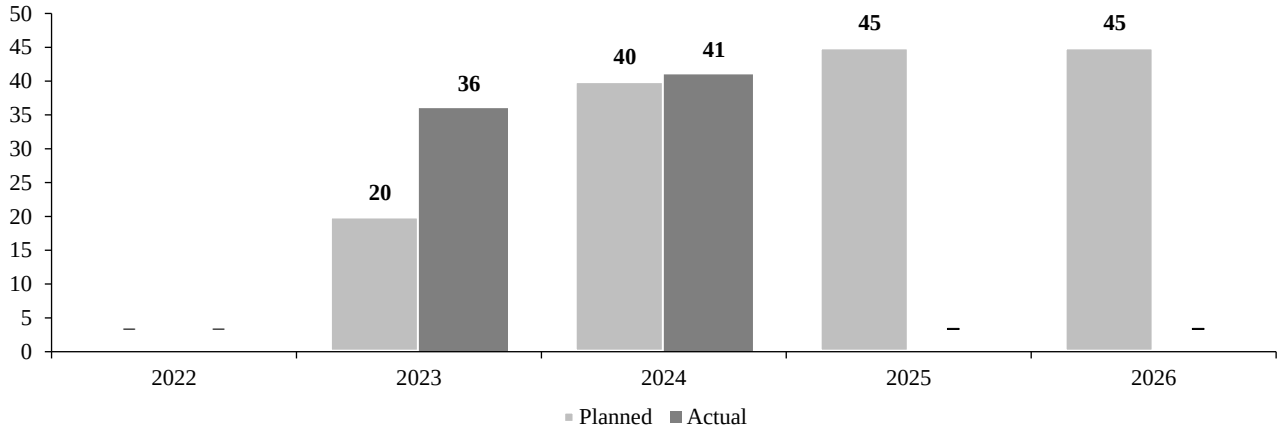
Result 1: an agile organization with a culture of learning and innovation

Programme performance in 2024 and target for 2026

29F.31 The subprogramme's work contributed to a culture of learning and innovation, with 41 clients out of 43 reporting improved confidence in applying innovative approaches to their work, which exceeded the planned target of 40 clients.

29F.32 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29F.III).

Figure 29F.III
Performance measure: number of clients reporting improved confidence in applying innovative approaches to their work (annual)



Result 2: towards inclusion of persons with disabilities in the workforce

Programme performance in 2024 and target for 2026

29F.33 The subprogramme's work contributed to staff exit surveys showing that persons with disabilities do not report higher dissatisfaction than the general staff body or dissatisfaction resulting from their disability status. They further indicated that no disability-related items were among the reasons for leaving, and physical and mental health issues were among the least relevant reasons to leave the organization, with persons with disabilities reporting satisfaction and well-being levels comparable to those of the general staff body, which met the planned target.

29F.34 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29F.6).

Table 29F.6
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Network of persons with disabilities established	Election of the first executive committee of the network of persons with disabilities	Persons with disabilities do not report higher levels of dissatisfaction than the general staff body, nor do they report dissatisfaction specifically related to their disability status	The United Nations Office at Vienna achieves "meets requirements" rating for indicator 14, "capacity development for staff", of the United Nations Disability Inclusion Strategy	The United Nations Office at Vienna increases its attractiveness as an employer for persons with disabilities by achieving "meets requirements" rating for indicator 13, "employment", and 14, "capacity development for staff" of the United Nations Disability Inclusion Strategy

Result 3: clients are informed and aware of all relevant human resources policies and developments

Proposed programme plan for 2026

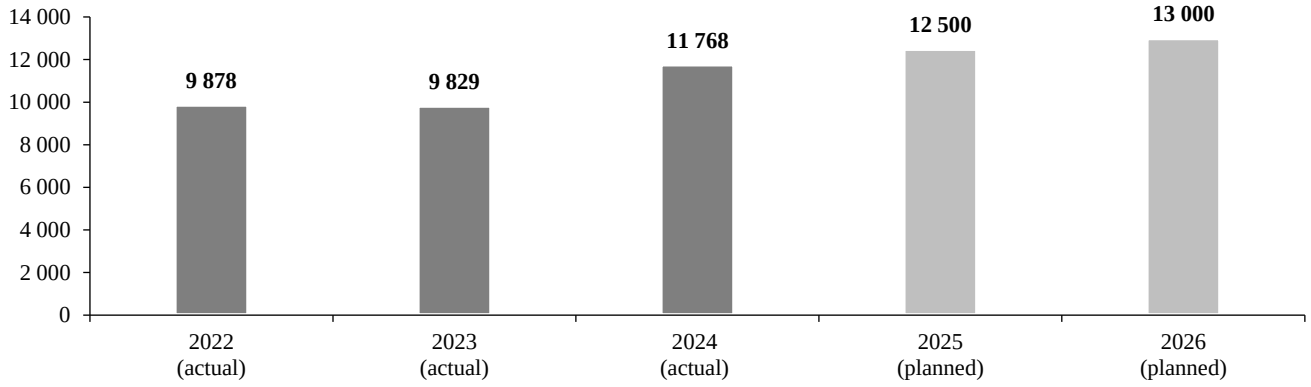
29F.35 Readily available access to timely, updated and relevant human resources information is essential for enhancing engagement, ensuring compliance, supporting talent development and contributing to a positive workplace environment, thus facilitating effective delivery of the Organization's mandates. To support this, the subprogramme publishes a monthly human resources newsletter aimed at keeping staff and personnel consistently informed and aware of relevant human resources updates.

Lessons learned and planned change

29F.36 The lesson for the subprogramme was derived from the data gathered in the 2024 client satisfaction survey, where only 60 per cent of respondents indicated that they read the newsletter. In applying this lesson, the subprogramme will focus on increasing readership among its clients. This will be achieved by implementing a more engaging format, publishing on the first working day of each month to establish a routine and generate anticipation. The structure will be redesigned to be concise, prioritizing relevant information, and will include quick links to the client support portal. In addition, it will feature information for hiring managers on gender parity and geographical diversity and will adopt a personal approach by highlighting staff voices.

29F.37 Expected progress towards the objective is presented in the performance measure below (see figure 29F.IV).

Figure 29F.IV
Performance measure: number of views recorded on the human resources newsletter (annual)
(Total annual number)



Deliverables

29F.38 Table 29F.7 lists all deliverables of the subprogramme.

Table 29F.7
Subprogramme 2: deliverables for 2026, by category and subcategory

Category and subcategory
D. Communication deliverables
Outreach programmes, special events and information materials: 25 targeted outreach programmes, including special events aligned with the system-wide strategy, information and broadcast materials, job fairs and career presentations for approximately 2,500 potential candidates.
E. Enabling deliverables
Administration: human resources services to 4,000 personnel; classification and reclassification of over 400 posts, outreach and recruitment for 380 staff posts, 2,300 non-staff engagement processes, human resources policies and legal advice; staff counselling; talent management; issuance and renewal of appointments and contracts; training on organizational and managerial competencies; facilitate access to the global orientation programme (Go2UN); medical services in collaboration with other Vienna-based entities; awareness-raising programmes on prohibited conduct and the Enabling Environment Guidelines for the United Nations System for all staff.
Internal justice and oversight: 1,000 requests for legal and policy advice to colleagues in the discharge of their official functions, and advice to senior officials and staff on the application of the Staff Regulations and Rules of the United Nations and other administrative issuances, including legal positions for administrative reviews and cases brought by staff to the Management Advice and Evaluation Section and the Office of the United Nations Ombudsman and Mediation Services; assistance in receiving, assessing and processing complaints and reports of alleged misconduct; discharging the role of the conduct and discipline focal point; awareness-raising on matters related to the administration of justice at the United Nations.

Subprogramme 3
Support services

Objective

29F.39 The objective, to which this subprogramme contributes, is to ensure the efficient, environmentally sound and effective functioning of client offices with regard to conference and facilities management, property management, travel and transportation, mail and pouch services, procurement, engagement of implementing partners, commercial activities, records management and library services.

Strategy

29F.40 To contribute to the objective, the subprogramme will:

(a) Manage an effective supply chain by building on the related Umoja functionality;

(b) Implement an environmental management system in line with the United Nations Secretariat environmental policy;

(c) Continue to improve the business continuity approach through further integration with other parts of the organizational resilience management system;

(d) Provide property management services, diplomatic pouch and mail services and manage records;

(e) Provide various travel-related services, including advice, training and policy guidance;

(f) Provide process and policy guidance on engagement of implementing partners;

(g) Provide regular support to clients on changing workspace needs within the constraints of limited office space;

(h) Engage in outreach on library services.

29F.41 The above-mentioned work is expected to result in:

(a) Effective and sustainable use of United Nations property, including office space;

(b) Effective management of clients' travel resources;

(c) An effective environmental management system;

(d) Increased use of information resources contained in the library for informed decision-making by clients and Member States;

(e) Improved planning and sourcing of all goods and services;

(f) A robust business continuity plan;

(g) Timely and accurate management of documents and mail.

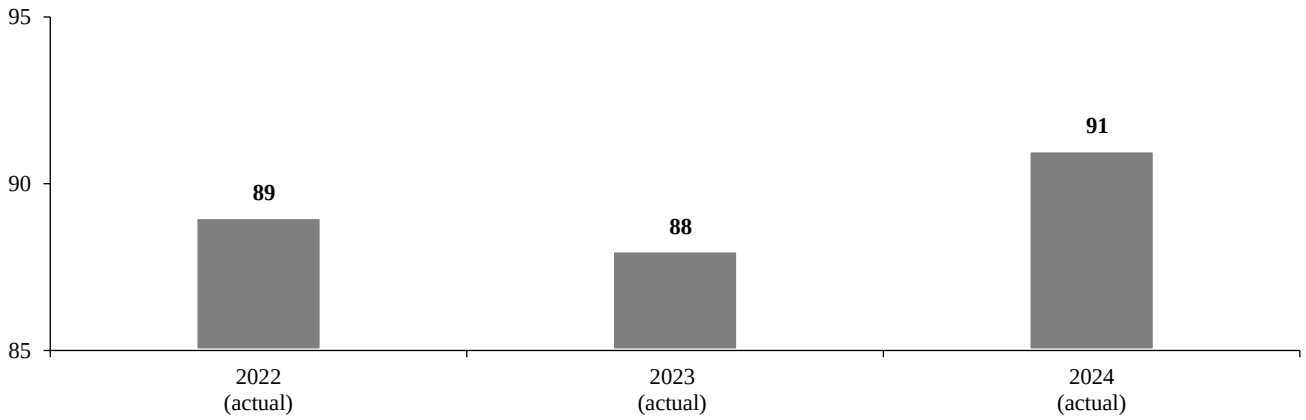
Programme performance in 2024

Improved operational efficiency in administration of travel

29F.42 The subprogramme provides travel services for the organization. Travel plays a vital role in the organization's operations, enabling personnel and meeting participants to carry out activities to deliver its mandate effectively. Significant progress has been made in ensuring that travel demands are met seamlessly and on time. In 2024, the organization processed 53,268 travel requests, exceeding the 2019 pre-pandemic level of 46,553. Notably, 68 per cent of those trips were undertaken by meeting participants, mostly experts from Member States, ensuring more active engagement and participation in key discussions and decision-making processes. This achievement underscores the organization's commitment to supporting its beneficiaries and delivering on its objectives through effective operational support.

29F.43 Progress towards the objective is presented in the performance measure below (see figure 29F.V).

Figure 29F.V
Performance measure: percentage of United Nations Office at Vienna client entities' travel requests processed in less than two days (annual)



Planned results for 2026

Result 1: improved supply chain management

Programme performance in 2024 and target for 2026

29F.44 The subprogramme's work contributed to clients gaining access to a procurement tracker, thereby increasing the up-to-date visibility of the status and costs of their procurement requests, which met the planned target.

29F.45 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29F.8).

Table 29F.8
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Clients have access to contract administration tracking tool for supply chain planning and contract management	Clients have increased and up-to-date visibility of the status and costs of their procurement requirements	Simplified procurement process for vendors and Tender Opening Committee members through an e-tendering platform	Virtual access for vendors and Tender Opening Committee members, with full traceability of cases in archived access

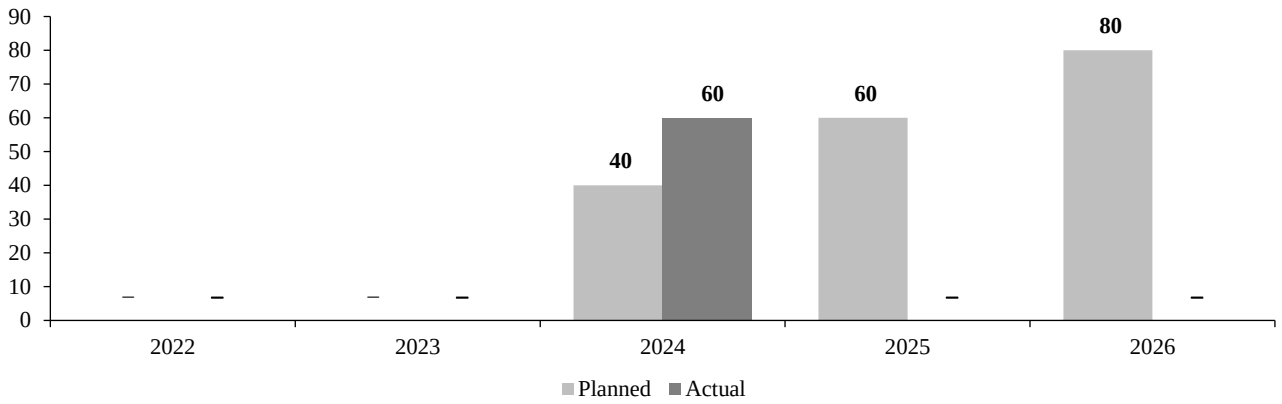
Result 2: improved monitoring of implementing partners

Programme performance in 2024 and target for 2026

29F.46 The subprogramme's work contributed to improvements in the management of external partners. Following training in four locations (Kenya, Pakistan, Panama and Thailand), 60 per cent of reports by external partners were delivered on time, which exceeded the planned target of 40 per cent.

29F.47 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29F.VI).

Figure 29F.VI
Performance measure: percentage of reports by external partners delivered on time (annual)



Result 3: a streamlined workflow for registering and distributing official correspondence

Proposed programme plan for 2026

29F.48 The subprogramme currently uses two systems for official correspondence: one for registration and one for distribution. In order to streamline the workflow and better serve both the United Nations Office at Vienna/UNODC and Member States, a new combined system is required to improve the speed and accuracy of delivery, as well as traceability.

Lessons learned and planned change

29F.49 The lesson for the subprogramme was that the method of using two independent systems was prone to errors and lacked an adequate overview of the history of registered correspondence. In addition, one of the current systems in use is a legacy system that is no longer supported. In applying the lesson, the subprogramme will develop a new system that will cover both the registration and the distribution of official correspondence. The result will be a solution that provides a comprehensive traceability of actions related to official correspondence.

29F.50 Expected progress towards the objective is presented in the performance measure below (see table 29F.9).

Table 29F.9
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Duplication of data in two independent systems	Development and testing of new streamlined system	Four client entities pilot the new system

Deliverables

29F.51 Table 29F.10 lists all deliverables of the subprogramme.

Table 29F.10
Subprogramme 3: deliverables for 2026, by category and subcategory

Category and subcategory
D. Communication deliverables
Library services: knowledge services for 3,000 library clients; digitized official documents available online; print and electronic information resources with on-site and online access.
E. Enabling deliverables
Administration: travel arrangements (53,300), visas (360) and laissez-passer (300) for staff and meeting participants for Vienna-based United Nations Secretariat entities and more than 140 UNODC field office locations; active agreements with implementing partners (260); management and maintenance of the United Nations Office at Vienna (total footprint of approximately 16,500 square metres).
Logistics: full procurement services for 2,600 items; physical verification of 12,500 assets and equipment; monitoring of United Nations property records at the Vienna International Centre and 140 UNODC field office locations; shipment of official property, bulk consignments for conferences and removal of personal effects and related insurance requirement for staff; and mail, pouch and distribution services of around 90,000 items (or 114 tons).

Subprogramme 4
Information and communications technology operations

Objective

29F.52 The objective, to which this subprogramme contributes, is to advance the efficient and effective implementation of client entities' substantive programmes through technologies, including a coherent enterprise ICT system and enterprise architecture, access to ICT-related technological innovations and a secure, coherent and resilient technology application hosting and infrastructure landscape.

Strategy

29F.53 To contribute to the objective, the subprogramme will:

(a) Place client offices' programme objectives and business needs at the centre of decisions involving ICT service offerings and the implementation of new technologies;

(b) Support enterprise application deployments and integrate local service delivery mechanisms to avoid replication of globally available services;

(c) Strengthen security in the use of ICT and data protection through the implementation of vulnerability management, continuous monitoring, the protection of classified information and related policies and procedures;

(d) Promote cloud computing through using Secretariat-wide systems contracts and increase compliance with technology standards, guidelines and methodologies by cooperating with the Office of Information and Communications Technology.

29F.54 The above-mentioned work is expected to result in:

(a) Clients having improved user experience in ICT service delivery;

(b) Conformance with global United Nations Secretariat standards and technical procedures;

(c) Clients who are empowered during the decision-making process and whose administrative and management tasks are facilitated through access to appropriate information technology tools;

(d) Reduced fragmentation of digital tools and services, with staff incorporating tools and services seamlessly into their daily business workflows with increased effectiveness, efficiency and satisfaction;

(e) Greater scalability, with systems that are more adaptable to changing needs.

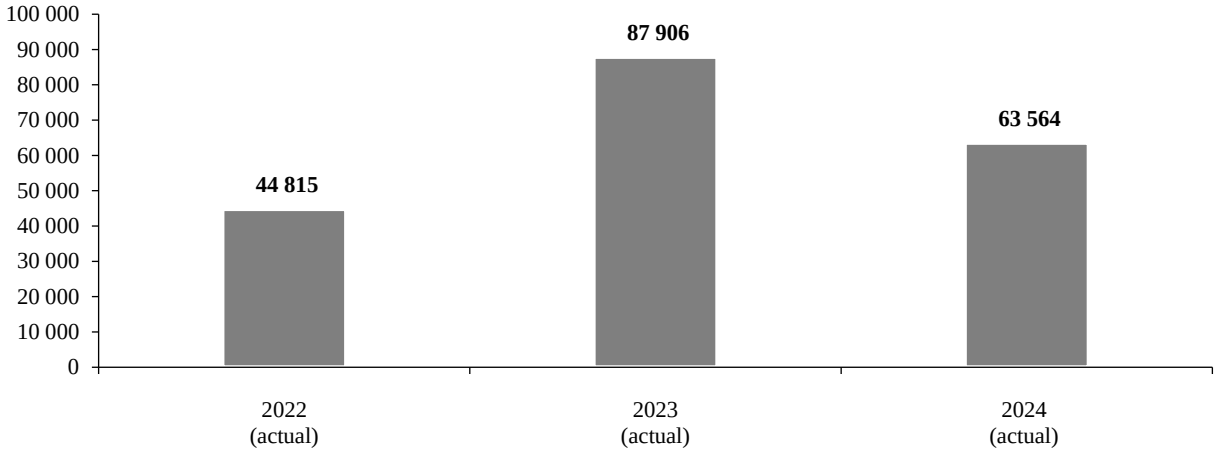
Programme performance in 2024

Improved information management across the United Nations Office at Vienna/UNODC

29F.55 The use of digital collaboration and common office tools has expanded significantly, boosting productivity and collaboration across the Organization. The United Nations Office at Vienna and UNODC experience continued growth in the volume of digital files and data, which could pose potential risks to information security, the loss of critical information and unauthorized file sharing. In response, the subprogramme established an information management champions community, bringing together 28 United Nations Office at Vienna and 61 UNODC focal points to reduce redundancies in online storage and avoid the use of outdated information. As a result, the Office and UNODC optimized online storage and strengthened information security.

29F.56 Progress towards the objective is presented in the performance measure below (see figure 29F.VII).

Figure 29F.VII
Performance measure: volume of online data storage (annual)
(Gigabytes)



Planned results for 2026

Result 1: improved information and communications technology security of the United Nations Office at Vienna and its clients

Programme performance in 2024 and target for 2026

29F.57 The subprogramme's work contributed to strengthened security maturity of field office ICT systems through dedicated security assessments of UNODC field offices in Colombia, Mexico and Senegal, as well as the UNODC Regional Centre for Combating Cybercrime, in Doha, which met the planned target.

29F.58 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 29F.11).

Table 29F.11
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Vienna-based ICT systems security maturity strengthened by several security maturity level assessments and addressing critical recommendations	Improved ICT security of Vienna-based ICT systems through implementation of remaining recommendations from 2022	Strengthened security maturity of field office ICT systems by dedicated security assessments of UNODC field offices in Colombia, Mexico and Senegal, as well as the UNODC Regional Centre for Combating Cybercrime, in Doha	Users comply with additional security controls, processes and procedures in both the Vienna headquarters and field offices	Complex ICT risks are mitigated by streamlining information security processes for threat hunting, vulnerability management and incident response

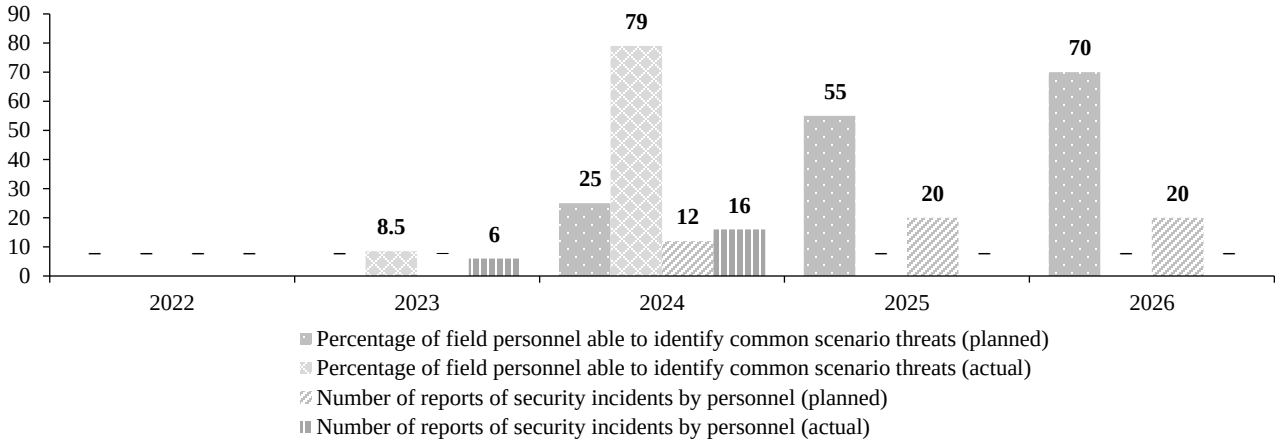
Result 2: strengthened information security in the field

Programme performance in 2024 and target for 2026

29F.59 The subprogramme's work contributed to 79 per cent of field personnel being able to identify common scenario threats and a total of 16 security incidents reported, which exceeded the planned targets of 25 per cent and 12 security incidents reported.

29F.60 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 29F.VIII).

Figure 29F.VIII
Performance measure: percentage of field personnel able to identify common scenario threats and number of reports by personnel of potential serious security incidents



Result 3: digital transformation by client entities for improved mandate delivery

Proposed programme plan for 2026

29F.61 The United Nations is only beginning to fully embrace digital opportunities. By transforming technologies, skills and processes towards digitally enabled solutions, the subprogramme can support its client entities in improving connectivity, service delivery, stakeholder collaboration and decision-making. Building on its existing capabilities, and in line with action 45 of the Pact for the

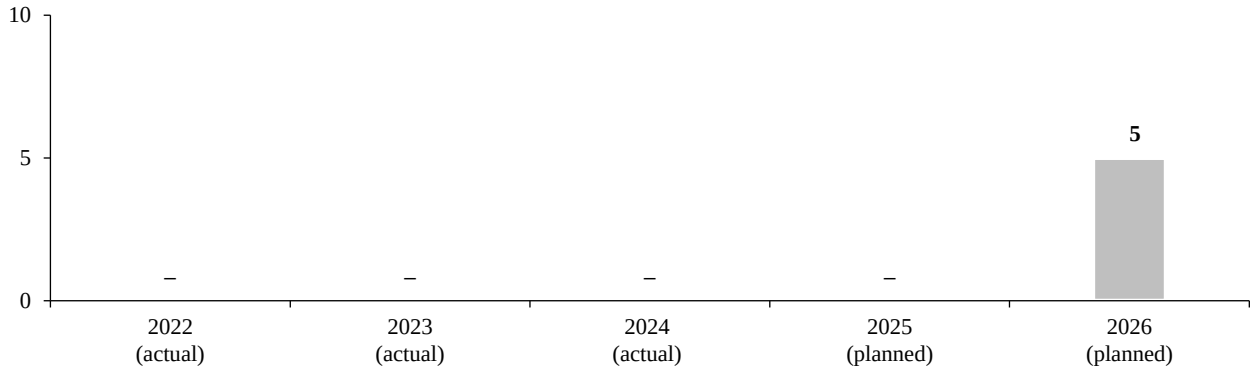
Future (see General Assembly resolution 79/1, para. 73 (a)), the subprogramme will leverage its innovation network to generate, test and scale up digital solutions to enable client entities to improve its mandate delivery.

Lessons learned and planned change

29F.62 The lesson for the subprogramme was that ensuring the success of digital transformation and innovation initiatives requires new skills, changes in work practices and routines, and a change in culture. In applying the lesson, the subprogramme will organize a series of initiatives, including training and information sessions, aimed at proactively managing the introduction and impact of new technologies and processes, enhancing adoption rates, fostering engagement and ensuring that personnel are equipped with the skills and knowledge needed to increase the effectiveness of digital transformation initiatives and, ultimately, enhance mandate delivery. To guide those efforts, in 2025, the subprogramme will develop a road map for innovation and digital transformation, providing a structure for integrating new technologies, aligning digital initiatives with strategic objectives and fostering a culture of continuous improvement.

29F.63 Expected progress towards the objective is presented in the performance measure below (see figure 29F.IX).

Figure 29F.IX
Performance measure: number of digital transformation initiatives established by client entities (cumulative)



Deliverables

29F.64 Table 29F.12 lists all deliverables of the subprogramme.

Table 29F.12
Subprogramme 4: deliverables for 2026, by category and subcategory

Category and subcategory
E. Enabling deliverables
Information and communications technology: information security for information technology systems and data; connectivity services for remote devices; hosting services; voice, video and data communications services; operation and maintenance of existing and new application systems in a secure environment; technical support for approximately 3,000 end users; and advisory services on business solutions.

B. Proposed post and non-post resource requirements for 2026

Overview

29F.65 The proposed regular budget resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 29F.13 to 29F.15.

Table 29F.13

29F.66 Additional details on the distribution of the proposed resources for 2026 are reflected in tables 29F.16 to 29F.18 and figure 29F.X.

29F.67 As shown in tables 29F.16 (1) and 29F.17 (1), the overall resources proposed for 2026 amount to $22,408,100, reflecting a net increase of $93,540 (or 0.4 per cent) compared with the approved budget for 2025. Resource changes result from new and expanded mandates and other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

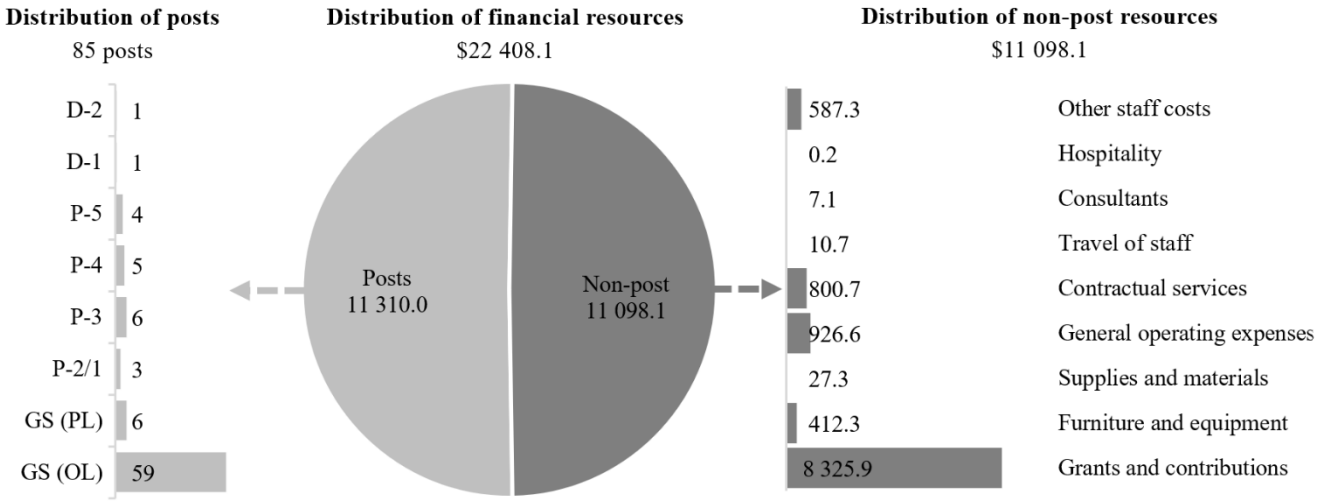
(Number of posts/thousands of United States dollars)



Explanation of variances by factor, component and subprogramme

Overall resource changes

New and expanded mandates

29F.68 As shown in table 29F.16 (1), resource changes reflect an increase of $46,100, as follows:

Subprogramme 3, Support services (increase of $46,100). This increase relates to additional requirements under grants and contributions pursuant to General Assembly resolutions 79/234 and 79/243.

Other changes

29F.69 As shown in table 29F.16 (1), resource changes reflect a net increase of $47,400, as follows:

(a) **Subprogramme 2, Human resources management** (increase of $44,000). An increase under grants and contributions reflects the higher cost of the joint medical services at the Vienna International Centre, which are managed by the IAEA under common services arrangements;

(b) **Subprogramme 3, Support services** (no change). An increase under post costs ($108,400) is offset by a decrease under other staff costs ($108,400) relating to the proposed cost-neutral conversion of a temporary position of Library Assistant (GS (OL)) to a post (see annex II);

(c) **Subprogramme 4, Information and communications technology operations** (increase of $3,400):

(i) An increase under post costs ($108,400) is offset by a decrease under other staff costs ($108,400) relating to the proposed cost-neutral conversion of a temporary position of Programme Management Assistant (GS (OL)) to a post (see annex II);

(ii) An increase under contractual services ($3,400) reflects higher rates for ICT.

Extrabudgetary resources

29F.70 As reflected in tables 29F.16 (2) and 29F.17 (2), extrabudgetary resources amount to $26,233,500. The resources would complement regular budget resources and would be used mainly to provide for 90 posts (58 GS (OL), 4 GS (PL), 4 P-2 or P-1, 14 P-3, 8 P-4 and 2 D-1) to perform the functions of implementing activities related to overall coordination and business transformation, as well as providing indirect support to the extrabudgetary activities of UNODC, the Office for Outer Space Affairs and the United Nations Register of Damage Caused by the Construction of the Wall in the Occupied Palestinian Territory. The anticipated reduction of $2,610,600 takes into account the adjusted level of cost-recovery activities expected in 2026, mainly in the area of information technology.

29F.71 The extrabudgetary resources under the present section are subject to the oversight of the United Nations Office at Vienna in accordance with the delegated authority from the Secretary-General.

Executive direction and management

29F.72 The executive direction and management component comprises the Office of the Director of the Division for Management.

29F.73 The main responsibilities of the executive direction and management component include the provision of leadership and direction regarding the management of administrative, conference and related services for United Nations entities located in Vienna.

29F.74 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the United Nations Office at Vienna and UNODC are integrating environmental management practices into their operations. Since 2020, the Vienna-based organizations of the United Nations common system have started to renew entrances, replaced existing air curtains and upgraded or refurbished all elevator cabins. While some of these projects have been completed in parts of the compound, they are still ongoing in others, will continue throughout 2026 and beyond, and will result in a further reduction in the environmental impact of the Vienna International Centre as they will increase energy efficiency. Moreover, the Centre is powered by carbon-neutral electricity from 100 per cent renewable resources.

29F.75 Information on the timely submission of documentation and advance booking for air travel is reflected in table 29F.19. Compliance rates continued to be monitored through a tailor-made mission travel request application, and awareness-raising sessions were held with staff to boost compliance rates.

Table 29F.19
Compliance rate
(Percentage)

	2022 actual	*2023 actual*	*2024 actual*	*2025 planned*	*2026 planned*
Timely submission of documentation	100	100	100	100	100
Air tickets purchased at least two weeks before the commencement of travel	71	73	77	100	100

29F.76 The proposed regular budget resources for 2026 amount to $438,900 and reflect no change compared with the approved budget for 2025. Additional details on the distribution of the proposed resources for 2026 are reflected in table 29F.20 and figure 29F.XI.

Abbreviations: GS (OL), General Service (Other level); GS (PL), General Service (Principal level); RB, regular budget; XB, extrabudgetary.

[a] Conversion.

Annex II

Summary of proposed post changes, by component and subprogramme

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
Subprogramme 3 Support services	1	GS (OL)	**Conversion** of one Library Assistant from temporary position to post	The temporary position of Library Assistant was established in December 2015, nearly 10 years ago, to meet the needs of the growing client base of the library, which has further expanded from 800 in 2012 to over 3,000 in 2025. The Library Assistant provides support for cataloguing projects, as well as substantive support in the form of research assistance for client offices that are working towards mandated activities, such as preparing publications and reports. Given that the outputs of the United Nations Office on Drugs and Crime (UNODC) include an average of 30 publications per year in addition to the preparations for UNODC commissions and for missions involving staff members, the requirements for library and information services are ongoing and no longer follow peak periods of activity. The position is considered essential, given that the library closed for six weeks in 2024 due to the lack of sufficient staffing.
Subprogramme 4 Information and communications technology operations	1	GS (OL)	**Conversion** of one Programme Management Assistant from temporary position to post	The temporary position of Programme Management Assistant was established in April 2013, over 10 years ago, and provides support for procurements, contract management and payment of information technology-related contracts that support the information technology infrastructure. The position coordinates all requisitioning of information technology requirements and contract management activities and manages the licences and subscriptions necessary for the functioning of the information technology infrastructure and for the provision of information technology services to staff members, delegates, international organizations and Member States. These activities are ongoing and no longer follow peak periods of activity. The position is essential owing to the increasing demand for compliance with more rigorous information and communications technology security and for compatibility with information technology standards, as well as the increasingly complex and specific nature of information technology contracts.

Abbreviation: GS (OL), General Service (Other level).

Organizational structure and post distribution for 2026 30

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

30.1 The Office of Internal Oversight Services (OIOS) is responsible for assisting the Secretary-General in fulfilling his internal oversight responsibilities in respect of the resources and staff of the Organization through the provision of internal audit, inspection and evaluation, and investigation services. The mandate derives from the priorities established in relevant General Assembly resolutions and decisions, including resolutions 48/218 B, 54/244, 59/272, 64/263, 69/253 and 74/257. The Office will continue to maintain its operational independence in carrying out its objectives. The Independent Audit Advisory Committee provides the Office with advice to strengthen the programme's risk-based planning and budgeting.

Strategy and external factors for 2026

30.2 In support of the Secretary-General's focus on building a more sustainable and inclusive future and on reforming the Organization to better deliver against this vision, the strategy for 2026 prioritizes internal oversight coverage of the work of the Organization in the following management areas: (a) implementation of the reforms of the management, peace and security, and development pillars; (b) strengthening of organizational culture; (c) procurement and supply chain management, including management of fraud and corruption risks; (d) management of mission drawdown or transition; and (e) strengthening of the protection against retaliation (whistle-blower) system. The Office will also continue to cover the programmes and strategies of the Organization, including cross-cutting areas such as the provision of support to Member States on the achievement of the Sustainable Development Goals and the Pact for Future, as well as the implementation of the Secretary-General's strategies on gender equality, racial equality, environmental sustainability, disability inclusion and data.

30.3 Effective engagement with the senior leadership of the Organization will help the programme to identify risks to the Organization and provide timely assurance and advice on issues relating to the efficient, economical, effective and ethical management of the Organization's resources.

30.4 The Office will strengthen the delivery of its mandated activities by: (a) strengthening the use of enterprise risk management in planning internal audit and evaluation and inspection activities (subprogrammes 1 and 2); (b) enhancing the methodology for measuring the impact of audit recommendations (subprogramme 1); (c) enhancing guidance for thematic and outcome evaluations of programmes (subprogramme 2); and (d) enhancing guidance on using data analytics to improve investigation planning and the timeliness of investigations (subprogramme 3).

30.5 With regard to cooperation with other entities at the global, regional, national and local levels, the Office will consult closely on its programme of work with the Board of Auditors and the Joint Inspection Unit and liaise, as appropriate, with relevant offices involved in the internal justice system of the Organization.

30.6 With regard to inter-agency coordination and liaison, the Office will share knowledge on good practices and innovations in oversight methodologies with the other internal oversight functions of the United Nations system through the meetings of the Representatives of Internal Audit Services of the United Nations Organizations, the United Nations Representatives of Investigative Services and the United Nations Evaluation Group.

30.7 With regard to the external factors, the overall plan for 2026 is based on the planning assumption that the Office will have unimpeded access to the staff and records of the Organization and other required information.

30.8 The Office integrates a gender perspective into its operational activities, deliverables and results, as appropriate. Subprogrammes 1 and 2 will cover the management of risks relating to mainstreaming a gender perspective. Subprogramme 3 will continue to implement a gender perspective in its victim-centred methodology for all investigations, including sexual exploitation and abuse and workplace sexual harassment.

30.9 In line with the United Nations Disability Inclusion Strategy, the Office will further advance disability inclusion by covering the management of risks relating to implementation of the Strategy.

Legislative mandates

30.10 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions

48/218 B; 60/254	Review of the efficiency of the administrative and financial functioning of the United Nations	61/275	Terms of reference for the Independent Audit Advisory Committee and strengthening the Office of Internal Oversight Services
59/272	Review of the implementation of General Assembly resolutions 48/218 B and 54/244	72/266 A and B	Shifting the management paradigm in the United Nations
60/1	2005 World Summit Outcome	74/257	Review of the implementation of General Assembly resolutions 48/218 B, 54/244, 59/272, 64/263 and 69/253
61/245	Comprehensive review of governance and oversight within the United Nations and its funds, programmes and specialized agencies		

Subprogramme 1
Internal audit

General Assembly resolutions

67/244 B	Financing of the International Residual Mechanism for Criminal Tribunals	79/246	Capital Master Plan

Subprogramme 2
Inspection and evaluation

General Assembly resolutions

55/231	Results-based budgeting	79/247	Programme planning

Subprogramme 3
Investigations

General Assembly resolutions

59/287	Report of the Office of Internal Oversight Services on strengthening the investigation functions in the United Nations	62/247	Strengthening investigations
		77/278	Human resources management

Deliverables

30.11 Table 30.1 lists all cross-cutting deliverables of the programme.

Table 30.1
Cross-cutting deliverables for the period 2024–2026, by category and subcategory

Meetings of:				
2. The Fifth Committee	8	11	8	8
3. The Committee for Programme and Coordination	12	11	3	3
4. The Advisory Committee on Administrative and Budgetary Questions	2	2	2	2
5. The Independent Audit Advisory Committee	4	4	4	4
C. Substantive deliverables				
Databases and substantive digital materials: comprehensive database and dashboard for monitoring the status of implementation of the approximately 1,000 open recommendations of the Office.				
E. Enabling deliverables				
Content on communications platforms, briefings and presentations on oversight activities; and refresher training to programme managers on the Office's recommendation monitoring system.				

Evaluation activities

30.12 The OIOS-commissioned quality assessment of the inspection and evaluation function (subprogramme 2, completed in 2024) has guided the proposed programme plan for 2026.

30.13 In response to the results of the quality assessment referenced above, OIOS has developed an action plan to improve areas such as work planning, the use of information and communications technology (ICT) and quality assurance.

30.14 An external quality assessment of the entire programme of OIOS is planned for 2026.

Programme of work

Subprogramme 1
Internal audit

Objective

30.15 The objective, to which this subprogramme contributes, is to improve the efficiency, economy, effectiveness and impact of the Organization's programmes, in keeping with best management practices.

Strategy

30.16 To contribute to the objective, the subprogramme will:

(a) Conduct internal audit activities to recommend improvements to key controls and processes and identify accountability issues, with a strengthened focus on providing assurance as to whether Secretariat entities have adequately and effectively implemented the new delegation of authority, as well as on the effectiveness and efficiency of programme performance monitoring and reporting and service delivery;

(b) Support the efforts undertaken by the Department of Management Strategy, Policy and Compliance to strengthen the United Nations Secretariat accountability system, through assurance and advice to the Department;

(c) Focus on data governance and data security in the use of ICT in the Organization;

(d) Strengthen annual work-planning processes by identifying and monitoring audit assignments that systematically cover United Nations cross-cutting priorities in the management, programme and strategy areas (including reforms, organization culture, procurement and supply chain, mission drawdown or transition and Sustainable Development Goal support) and take into consideration a gender perspective, disability inclusion, racism, human rights and the environment, as appropriate;

(e) Implement recommendations resulting from the quality assessment of the internal audit function.

30.17 The above-mentioned work is expected to result in:

(a) Strengthened accountability and transparency in the use of resources by United Nations organizations and entities;

(b) Improved risk identification and mitigation by United Nations organizations and entities;

(c) High quality of internal audit assurance provided to the Secretary-General, heads of organizations and entities and Member States on the adequacy and effectiveness of risk management and internal control systems.

Programme performance in 2024

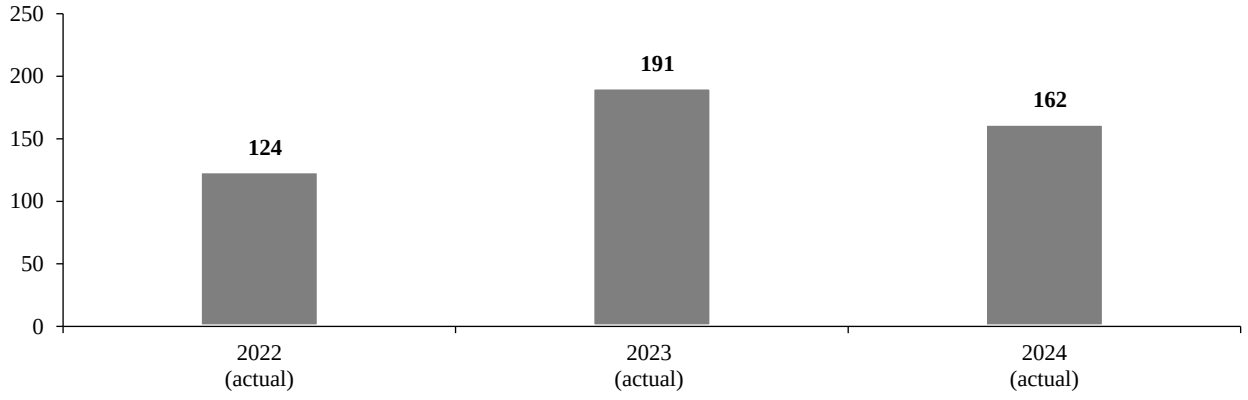
Strengthened data governance and data security in the Organization

30.18 To support the implementation of the Secretary-General's data strategy, the subprogramme continued to cover the management of information, data governance and data security in the Secretariat.

30.19 In 2024, the subprogramme conducted 22 assurance engagements covering ICT security, governance, risk management and controls. The audits resulted in 162 recommendations aimed at strengthening the governance, risk management and controls to improve the protection of information and assets and ensure the continuity of the Organization's operations.

30.20 Progress towards the objective is presented in the performance measure below (see figure 30.I).

Figure 30.I
Performance measure: number of audit recommendations accepted on data governance and data security (annual)



Planned results for 2026

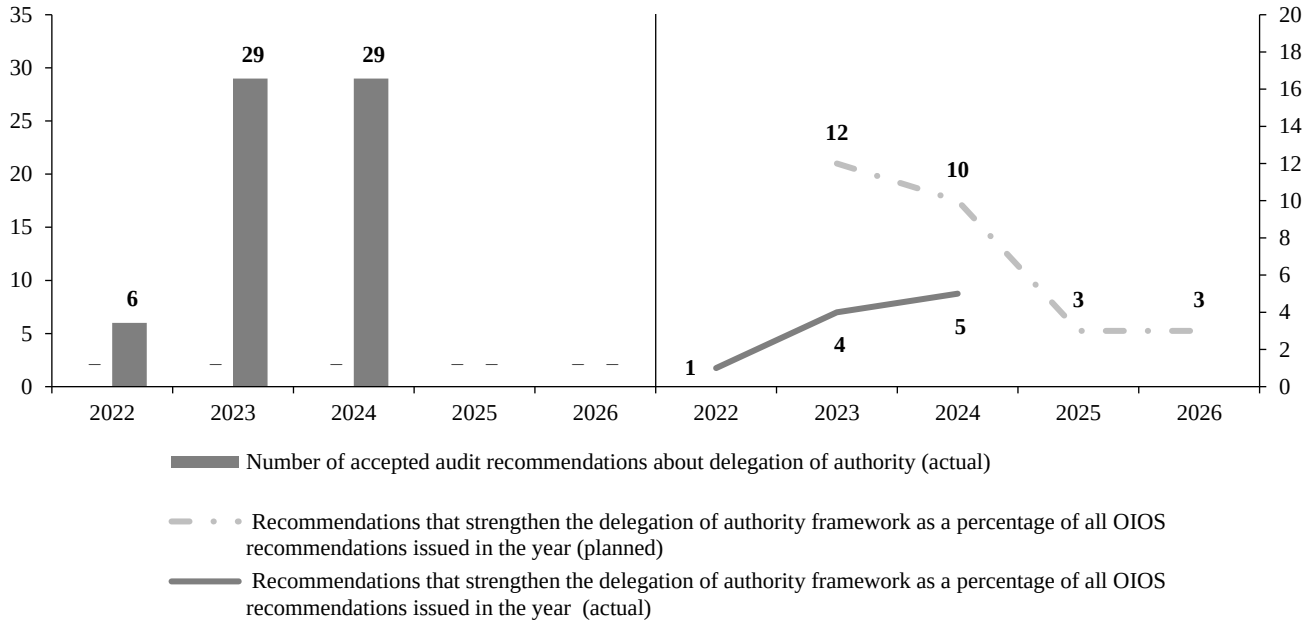
Result 1: increased accountability through transparent exercise of the delegation of authority

Programme performance in 2024 and target for 2026

30.21 The subprogramme's work contributed to the acceptance of 29 audit recommendations relating to strengthening the implementation of the delegation of authority framework, representing 5 per cent of the total recommendations accepted in 2024, which did not meet the planned target of 10 per cent. The target was not met because the subprogramme issued more recommendations than planned overall, and fewer recommendations were required on the thematic audits of the delegation of authority, evidencing more effective implementation of the framework by the Organization.

30.22 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 30.II).

Figure 30.II
Performance measure: audit recommendations accepted that strengthen the implementation of the delegation of authority framework in the Organization (annual)



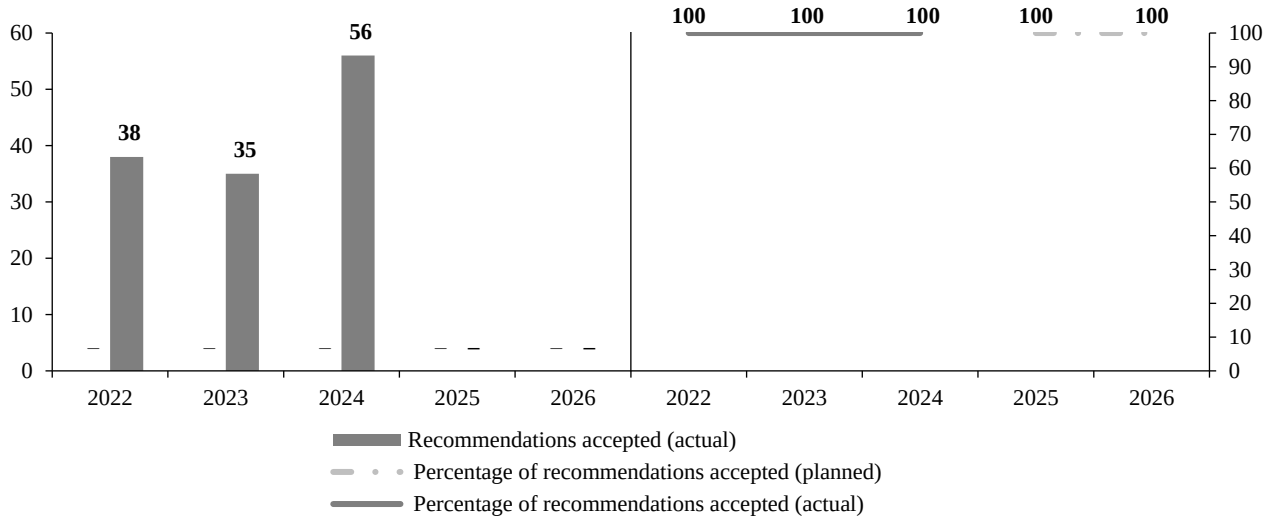
Result 2: strengthened monitoring systems to improve performance management to support programme delivery

Programme performance in 2024 and target for 2026

30.23 The subprogramme's work contributed to the issuance of 56 recommendations relating to strengthening performance management monitoring systems. All of the recommendations were accepted by the respective programme managers, which met the planned target.

30.24 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 30.III).

Figure 30.III
Performance measure: audit recommendations accepted that strengthen programme performance management



Result 3: enhanced delivery of United Nations mandates and programmes through strengthened organizational capabilities

Proposed programme plan for 2026

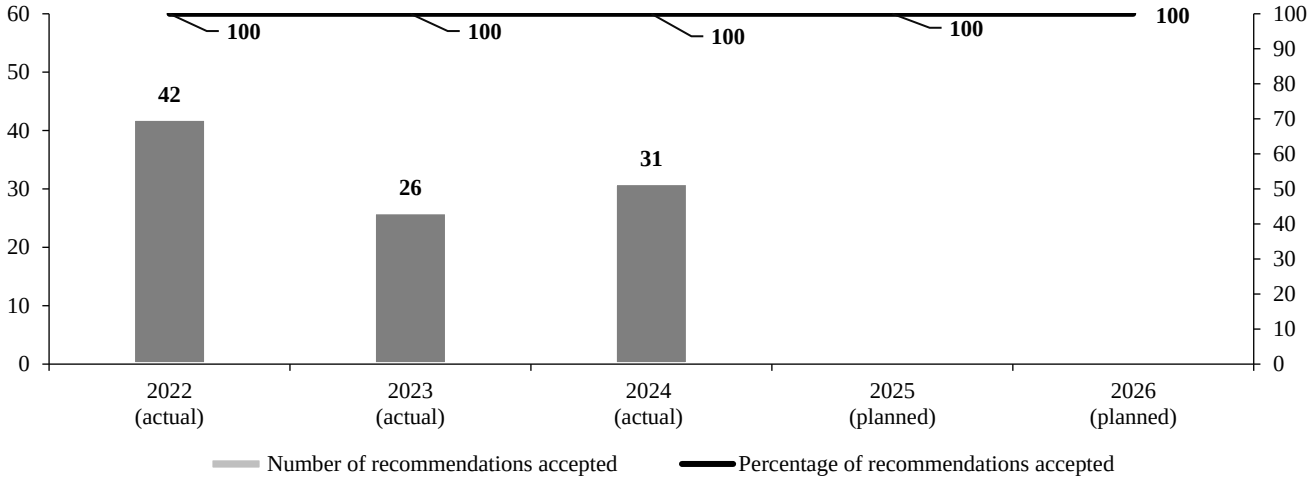
30.25 The subprogramme mainstreams assessment of the delivery of United Nations mandates and programmes, such as the support provided by the Secretariat entities to Member States on the implementation of the Sustainable Development Goals, through relevant audits and advisory assignments.

Lessons learned and planned change

30.26 The lesson for the subprogramme was that implementation of a transformed and modernized United Nations system was essential to improve support to Member States. In applying the lesson, the subprogramme will prioritize the review of implementation of approaches that enhance the work and capabilities of Secretariat entities for better programmatic and operational support to Member States, in line with action 45 of the Pact for the Future (see General Assembly resolution 79/1, para. 73 (a)), in areas such as innovation, data analytics, digital transformation, strategic foresight and behavioural science.

30.27 Expected progress towards the objective is presented in the performance measure below (see figure 30.IV).

Figure 30.IV
Performance measure: audit recommendations accepted that strengthen organizational capabilities in innovation, data analytics, digital transformation, strategic foresight and behavioural science (annual)



Deliverables

30.28 Table 30.2 lists all deliverables of the subprogramme.

Table 30.2
Subprogramme 1: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*

2. Internal audit reports (assurance and advisory)	150	113	140	140

Subprogramme 2
Inspection and evaluation

Objective

30.29 The objective, to which this subprogramme contributes, is to strengthen relevance, efficiency, effectiveness and impact in the implementation of programmes and legislative mandates of the Organization and improve decision-making, accountability and learning.

Strategy

30.30 To contribute to the objective, the subprogramme will:

(a) Focus, in conducting evaluations, on programmatic results and outcomes achieved by Secretariat entities in the areas of the peace and security, sustainable development, human rights and humanitarian assistance;

(b) Support accountability for programme improvement through the monitoring of the implementation of evaluation recommendations and their outcomes, including by conducting triennial reviews of OIOS evaluation reports;

(c) Integrate the Secretary-General's cross-cutting strategies into evaluation design and implementation;

(d) Refine its inspection and evaluation methodology and further develop and strengthen evaluation design and data collection and analysis methods;

(e) Provide evaluation methodological guidance and quality assurance support to Secretariat entities and to the wider Organization, including through collaboration with the Department of Management Strategy, Policy and Compliance, and by developing and implementing community of practice workshops, methodology seminars and other capacity-building measures;

(f) Enhance evaluation knowledge-sharing through the production of the biennial report on strengthening evaluation, as well as evaluation newsletters and evaluation synthesis reports;

(g) Support system-wide evaluation through collaboration with the United Nations Sustainable Development Group System-wide Evaluation Office.

30.31 The above-mentioned work is expected to result in:

(a) Increased learning and accountability of Secretariat entities towards achieving their planned programmatic outcomes;

(b) Strengthened evaluation capacity and performance, and greater use of evaluation findings to inform programme planning and the achievement of results within the Organization.

Programme performance in 2024

Enhanced systematic reflection of programme performance by the Secretary-General and Member States

30.32 The subprogramme contributed to enhancing systematic reflection on programmatic performance and results through contributions to the reports of the Secretary-General on the work of the Organization, as well as through communication to intergovernmental bodies and Member States, which provided independent and objective findings on the relevance, quality and usefulness of programme and subprogramme activities. OIOS has conducted two evaluations annually over the past three years that have contributed to that goal.

30.33 Progress towards the objective is presented in the performance measure below (see table 30.3).

Table 30.3
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Report of the Chair of the United Nations Sustainable Development Group on the Development Coordination Office incorporated OIOS findings on contributions of the resident coordinator system to country-level programme coherence	Report of the Chair of the United Nations Sustainable Development Group on the Development Coordination Office incorporated OIOS findings and recommendations on Development Coordination Office regional support	Report of the Secretary-General (A/79/72-E/2024/12), incorporated OIOS data on resident coordinator system support to United Nations policy advice
Department of Political and Peacebuilding Affairs report on United Nations engagement on the quota for women in Somalia elections, 2020–2022, drew from OIOS recommendations on women and peace and security to support positive outcomes for women in future elections	Office for the Coordination of Humanitarian Affairs reported OIOS findings and recommendations on coordination of humanitarian action and emergency response in briefings to donors	United Nations Human Settlements Programme (UN-Habitat) reported OIOS findings and recommendations on the UN-Habitat strategic plan in briefings to its Governing Council

Planned results for 2026

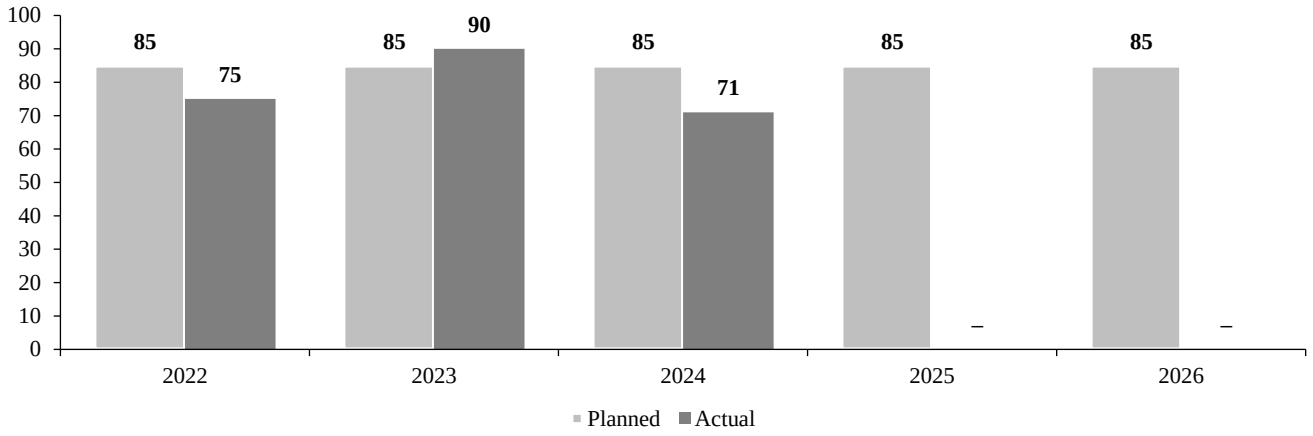
Result 1: strengthened programmatic performance and achievement of results

Programme performance in 2024 and target for 2026

30.34 The subprogramme's work contributed to 71 per cent of recommendations aimed at improving programme delivery being implemented within 24 months of issuance, which did not meet the planned target of 85 per cent. The target was not met due to changes and increased complexities in the operational environment of evaluated entities that meant that some recommendations took longer than anticipated to be fully implemented.

30.35 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 30.V).

Figure 30.V
Performance measure: percentage of recommendations implemented within 24 months of issuance



Result 2: strengthening the resident coordinator system

Programme performance in 2024 and target for 2026

30.36 The subprogramme's work contributed to an effective resident coordinator system through independent evaluations that examined the results achieved, identified lessons learned and made recommendations for improvement in the support that is provided by Secretariat entities in conflict-affected countries, which met the planned target.

30.37 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 30.4).

Table 30.4
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Recommendations accepted to enhance the achievement of the Sustainable Development Goals through more coherent United Nations policy advice	Recommendations accepted to ensure an effective resident coordinator system in conflict-affected countries, and leading and coordinating responses to humanitarian crises	Recommendations accepted by Development Coordination Office to improve global support for the resident coordinators	Recommendations accepted by Development Coordination Office to improve global support for the resident coordinators

Result 3: enhanced programme outcomes

Proposed programme plan for 2025

30.38 The subprogramme will enhance the performance of Secretariat entities in supporting Member States to achieve the pledges they made with the adoption in September 2024 of the Pact for the Future.

Lessons learned and planned change

30.39 The lesson for the subprogramme was the need to align its evaluation coverage with the Pact's five broad focus areas of sustainable development, international peace and security, science and technology, youth and future generations, and transforming global governance, as well as to develop

a robust approach to assessing programme performance in those five areas. In applying the lesson, the subprogramme will strengthen its work planning process to address the highest risks to non-performance in the five areas and continue to enhance its evaluation methodologies for assessing outcomes associated with Member State support on the Pact for the Future.

30.40 Expected progress towards the objective is presented in the performance measure below (see table 30.5).

Table 30.5
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	–	Strengthened programmatic performance in the five areas of the Pact for the Future through nine evaluation, inspection and synthesis reports, on: resident coordinator system support to least developed countries; the Office of Victims' Rights Advocate and the Office of the Special Coordinator on Improving the United Nations Response to Sexual Exploitation and Abuse; UNCTAD; the Department of Economic and Social Affairs; digital transformation and capacity-building modality; the transfer of mandated activities from peacekeeping to development; peacekeeping regional partnerships; peacekeeping digital transformation; and the International Residual Mechanism for Criminal Tribunals	Strengthened programmatic performance in the five areas of the Pact for the Future through nine evaluation, inspection and synthesis reports, on programmatic and cross-cutting thematic areas

Deliverables

30.41 Table 30.6 lists all deliverables of the subprogramme.

Table 30.6
Subprogramme 2: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**10**	**5**	**1**	**4**

5. Evaluation and inspection reports	11	14	12	13
E. Enabling deliverables				
Internal justice and oversight: advisory notes, memorandums and guidance to all Secretariat entities, including training programmes.				

Subprogramme 3
Investigations

Objective

30.42 The objective, to which this subprogramme contributes, is to enhance accountability and ethical behaviour within the Organization.

Strategy

30.43 To contribute to the objective, the subprogramme will:

(a) Receive and record all complaints of possible violations of United Nations regulations, rules and pertinent administrative policies, and decide whether they warrant OIOS investigation or some other action;

(b) Investigate reports of possible violations of United Nations regulations, rules and pertinent administrative policies;

(c) Enable prevention of and response to complaints of misconduct, including: (i) sexual misconduct, including sexual exploitation and abuse, as well as sexual harassment; and (ii) fraud and corruption, including procurement fraud and medical insurance fraud;

(d) Support the investigative capacity and capability of: (i) members of troop contingents who are responsible for undertaking investigations into misconduct; and (ii) officials who are responsible for the appointment of investigative panels or entities into misconduct.

30.44 The above-mentioned work is expected to result in:

(a) Improved ability of the Secretary-General and his delegates to make appropriate decisions on jurisdictional or disciplinary action or corrective measures;

(b) Improved ability of United Nations entities to identify and address misconduct;

(c) Improved detection of issues and better control of risks such as sexual exploitation and abuse, sexual harassment, racial discrimination, fraud and corruption.

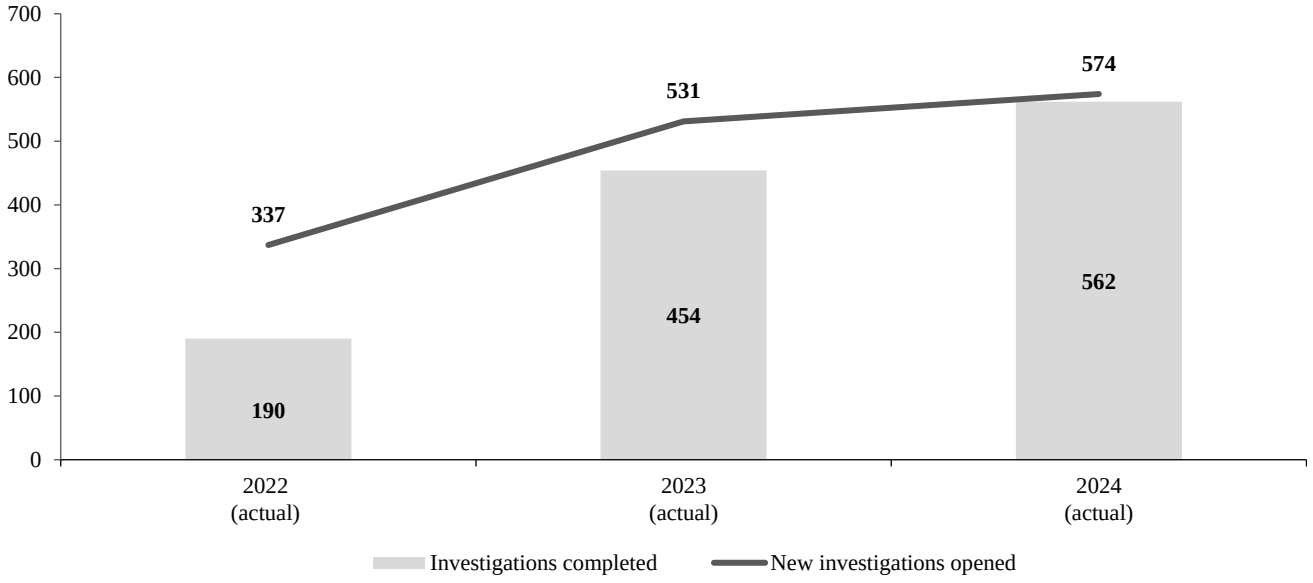
Programme performance in 2024

Strengthening the Organization's ability to protect its resources and hold its personnel accountable by responding to all allegations of misconduct

30.45 The subprogramme saw a continued growth in the number of allegations of misconduct reported to OIOS, including, for example, relating to prohibited conduct (which includes racism and racial discrimination), entitlement fraud and sexual abuse. This resulted in a parallel increase in the number of investigations opened by OIOS and in the number of investigations completed that inform subsequent corrective action by the Organization to protect its financial and human resources and hold its personnel accountable. In 2024, the subprogramme completed 562 investigations and opened 574 new investigations.

30.46 Progress towards the objective is presented in the performance measure below (see figure 30.VI).

Figure 30.VI
Performance measure: number of allegations of misconduct addressed through investigations (annual)



Planned results for 2026

Result 1: strengthened response to misconduct through improved timeliness of investigations

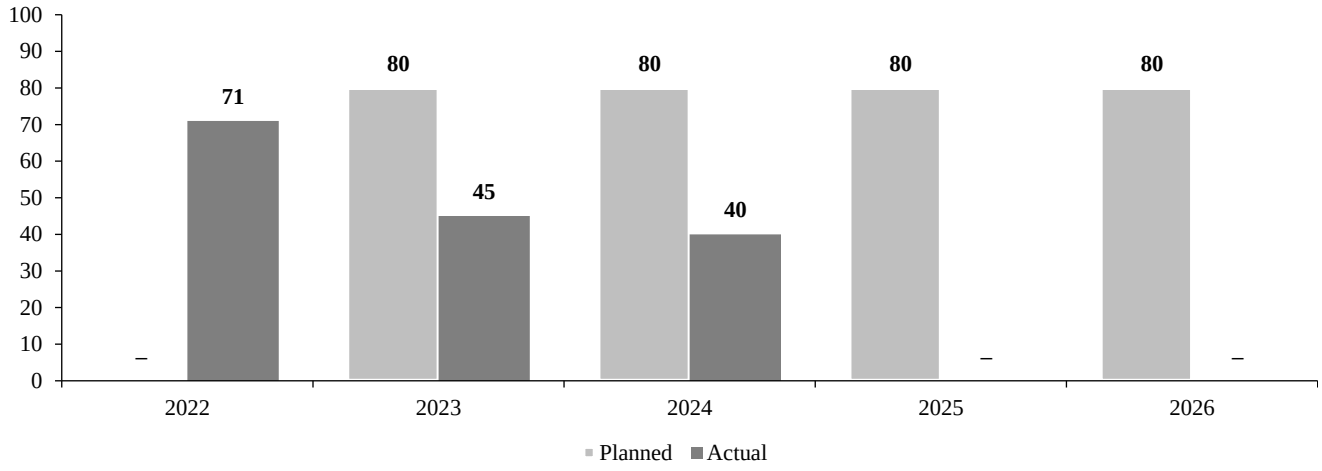
Programme performance in 2024 and target for 2026

30.47 The subprogramme's work contributed to a strengthened response by the Organization to misconduct through the completion of 40 per cent of all OIOS investigations within 12 months, which did not meet the planned target of 80 per cent. The target was not met due to a continued increase in the

number of complaints reported to OIOS. Moreover, during 2024, the subprogramme utilized enhanced monitoring analytics to focus on completing the oldest investigations (that is, those that had been open for the longest duration), meaning that, although the average age of the cases closed in 2024 was temporarily increased, the average age of the cases remaining still open was reduced to 7.2 months (compared with 8.2 months at the end of 2023).

30.48 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 30.VII).

Figure 30.VII
Performance measure: strengthened response to misconduct (annual)
(Percentage of all investigations completed in fewer than 12 months)



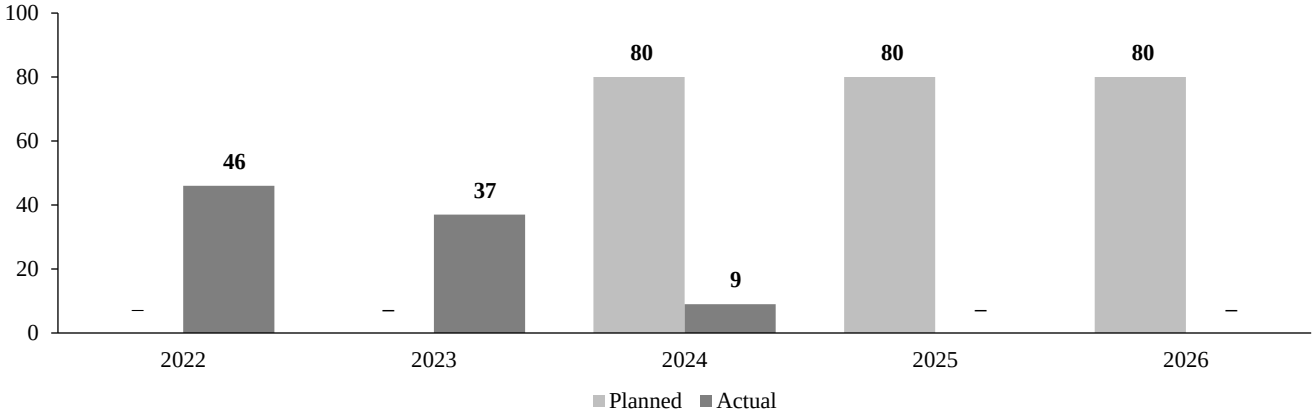
Result 2: strengthened response to misconduct investigations requiring a victim-centred response

Programme performance in 2024 and target for 2026

30.49 The subprogramme's work contributed to 9 per cent of investigations into allegations of sexual exploitation and abuse being completed within the target of six months, which did not meet the planned target of 80 per cent. The target was not met due to a combination of factors, including a high number of reports relating to sexual exploitation and abuse and the complexity of investigations and operating environments in which such investigations are conducted, as well as due to some investigations being conducted jointly with national authorities that had differing processes and timelines for investigations. Moreover, many investigations relating to sexual exploitation and abuse also entail DNA forensic genetic analysis for the purposes of paternity testing, which further increase investigation timelines.

30.50 Progress towards the objective and the target for 2026 presented in the performance measure below (see figure 30.VIII).

Figure 30.VIII
Performance measure: OIOS investigations of sexual exploitation and abuse completed within six months
(Percentage)



Result 3: improved handling of and timely decision-making on misconduct complaints

Proposed programme plan for 2026

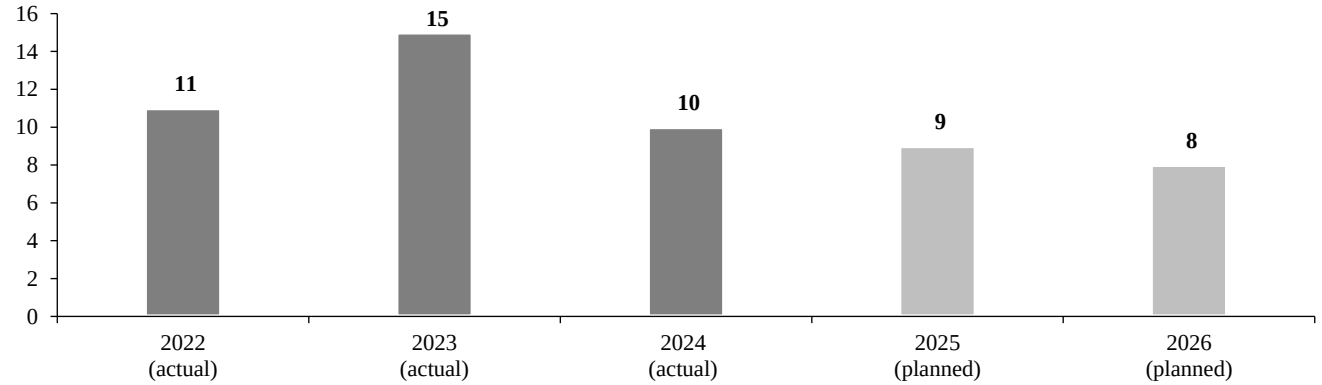
30.51 The trust of United Nations personnel in the Organization's response to reports of misconduct relies on the subprogramme's timely handling and appropriate actioning of complaints. The subprogramme receives complaints through various means, including via email and through its online reporting form, as well as through in-person contacts with complainants. The subprogramme's intake process aims at ensuring the accurate recording and timely handling of reports of possible misconduct as the first step in ensuring reliable, efficient and responsive actioning and investigation of complaints.

Lessons learned and planned change

30.52 The lesson for the subprogramme was that inefficient or ineffective handling of reports of misconduct has the potential to undermine the timely and appropriate response to allegations of misconduct. In applying the lesson, the subprogramme will strengthen the quality and capacity of the intake processes, including through the use of enhanced data analytics tools, to support an increased responsiveness and more informed decision-making.

30.53 Expected progress towards the objective is presented in the performance measure below (see figure 30.IX).

Figure 30.IX
Performance measure: timely handling of misconduct complaints (annual)
(Number of days for intake decision and action)



Deliverables

30.54 Table 30.7 lists all deliverables of the subprogramme.

Table 30.7
Subprogramme 3: deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
B. Generation and transfer of knowledge				
Publications (number of publications)	**275**	**564**	**275**	**275**

30.56 Additional details on the distribution of proposed resources for 2026 are reflected in tables 30.11 to 30.13 and figure 30.X.

30.57 As shown in table 30.11 (1), the overall resources proposed for 2026 amount to $26,284,300, reflecting a decrease of $58,500 compared with the approved budget for 2025. Resource changes result from other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

Explanation of variances by factor, component and subprogramme

Overall resource changes

Other changes

30.58 As shown in table 30.11 (1), resource changes reflect a net decrease of $58,500 as follows:

(a) **Executive direction and management** (increase of $22,500): The increase of $22,500 is due to additional requirements under contractual services to conduct the external quality assessment of the entire programme of OIOS referred to in paragraph 30.14 above;.

(b) **Subprogramme 1, Internal audit** (decrease of $17,500): The decrease of $17,500 reflects reduced requirements mainly under: (i) travel of staff, due to the increased use of

videoconferencing and teleconferencing ($11,500); (ii) contractual services owing to reduced cost of audit software licenses ($4,100); and (iii) consultancy services resulting from increased use of in-house capacity and expertise ($600);

(c) **Programme support** (decrease of $63,500): The net decrease of $63,500 reflects reduced requirements under: (i) contractual services reflecting lower ICT rates ($58,500); and (ii) general operating expenses owing to reduced communications costs based on mobile phones usage ($10,400). The decrease is offset in part by increased requirements under furniture and equipment due to the planned replacement of laptops ($5,400).

Other assessed resources

30.59 As reflected in tables 30.11 (2) and 30.12 (2), other assessed resources amount to $34,503,000. The resources would complement regular budget resources and provide for the requirements indicated in the report of the Secretary-General on the budget for the support account for peacekeeping operations (A/79/783).

Extrabudgetary resources

30.60 As reflected in tables 30.11 (3) and 30.12 (3), extrabudgetary resources amount to $14,965,400. The resources would complement regular budget resources and would provide for 46 posts (1 D-1, 7 P-5, 15 P-4, 13 P-3, 3 GS (PL) and 7 GS (OL)), to perform mainly audit functions. In addition, non-post resources would provide for audit coverage, inspection and evaluations, and investigations in support of United Nations entities funded primarily by extrabudgetary resources. All extrabudgetary resources are provided to OIOS by United Nations agencies, funds and programmes for internal oversight services carried out by OIOS pursuant to mandates provided by the General Assembly or under the authority of the Secretary-General.

30.61 The extrabudgetary resources under the present section are subject to the oversight of OIOS, in accordance with the delegation of authority by the Secretary-General.

Executive direction and management

30.62 The Office of the Under-Secretary-General provides overall strategic planning and monitoring and ensures effective coordination of the workplan for OIOS. The Office of the Under-Secretary-General coordinates the work of the three subprogrammes, liaises with the Board of Auditors and the Joint Inspection Unit and maintains a close working relationship with the oversight functions of the other United Nations system organizations. Furthermore, it provides quality control for the reports of OIOS to the General Assembly, oversees resource utilization and serves as the focal point on performance management and for compliance monitoring of OIOS recommendations.

30.63 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Office will continue to take steps to implement the environmental policy of the United Nations Secretariat, including by continuing to reduce its carbon footprint through the use of videoconference facilities for interviews and meetings, ensuring that all printers are set to double-sided printing and encouraging staff to turn off computers and monitors at the end of the workday.

30.64 Information on the timely submission of documentation and advance booking for air travel is reflected in table 30.14.

30.65 In order to comply with the advance purchase policy directive, the Office continues its efforts by implementing an internal standard operating procedure to ensure that staff schedule flights at least two weeks in advance of planned audits, inspections and investigations. OIOS continues to ensure that videoconferencing or teleconferencing facilities are utilized, if possible, for oversight assignments.

30.66 The proposed regular budget resources for 2026 amount to $1,774,300 and reflect a net increase of $22,500 compared with the approved budget for 2025. The proposed change is explained in paragraph 30.58 (a). Additional details on the distribution of the proposed resources for 2026 are reflected in table 30.15 and figure 30.XI.

Programme support

30.70 The Executive Office provides central administrative services to the Office in the areas of human resources management and financial and general administration, including the provision of advice to senior managers of the Office on administrative, financial, personnel and budgetary matters. In addition, it administers the staff, as well as the financial resources of the Office, at Headquarters, Geneva, Vienna, Nairobi and other duty stations, including the various peacekeeping missions and the International Residual Mechanism for Criminal Tribunals, under the delegation of authority granted by the Secretary-General and in accordance with the regulations and rules of the United Nations.

30.71 The proposed regular budget resources for 2026 amount to $1,509,900 and reflect a net decrease of $63,500 compared with the approved budget for 2025. The proposed changes are explained in paragraph 30.58 (c). Additional details on the distribution of the proposed resources for 2026 are reflected in table 30.19 and figure 30.XV.

I. International Civil Service Commission

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

31.I.1 The International Civil Service Commission (ICSC) was established pursuant to General Assembly resolution 3357 (XXIX) and is responsible for the regulation and coordination of the conditions of service for the United Nations common system. Under its statute, the Commission is a subsidiary organ of the Assembly. In the exercise of its functions, the Commission is guided by the principles set out in the agreements between the United Nations and other organizations aimed at the development of a single unified international civil service through the application of common personnel standards, methods and arrangements.

Programme of work

Objective

31.I.2 The objective, to which ICSC contributes, is to ensure fair and harmonized conditions of service for staff in the United Nations common system.

Strategy and external factors for 2026

31.I.3 To contribute to the objective, the Commission will:

(a) Continue to develop and strengthen a common system of salaries, allowances and benefits under the Noblemaire and Flemming principles;

(b) Apply the methodologies for determining salaries and post adjustment classifications;

(c) Provide guidance and advice on the administration of human resources management policies and systems, including job evaluation standards and tools, for all stakeholders;

(d) Lend its expertise to stakeholders and work closely with the Human Resources Network of the United Nations System Chief Executives Board for Coordination (CEB);

(e) Seek feedback from organizations on the conditions of service of staff;

(f) Conduct workshops to educate staff on the work of the Commission and on the benefits and entitlements available to staff of the United Nations common system;

(g) Monitor and report to the General Assembly on the implementation of its decisions by common system organizations, and recommend appropriate measures to ensure compliance;

(h) Analyse the conditions of service of staff in difficult duty stations;

(i) Periodically conduct comprehensive reviews of the common system compensation package;

(j) Explore options for non-financial incentives for staff of the common system.

31.I.4 In an effort to increase diversity and rejuvenate the workforce within the common system, the Commission will continue monitoring trends in the common system organizations and propose relevant updates to the General Assembly on any new developments as they relate to geographical diversity and the rejuvenation of the workforce.

31.I.5 The above-mentioned work is expected to result in:

(a) The promotion of geographical diversity and rejuvenation of the workforce;

(b) A coherent, attractive and effective common-system human resources management system that is aligned closely with the achievement of organizational goals and objectives;

(c) Adequate conditions of service for all categories of staff.

31.I.6 With regard to the external factors, the overall plan for 2026 is based on the planning assumption that organizations of the United Nations common system provide timely information, as requested by the Commission, and that they fully implement the Commission's decisions and recommendations.

31.I.7 With regard to cooperation with other entities at the global, regional, national and local levels, the Commission will continue to conduct reference checks with other international organizations to ascertain whether the organizations of the common system remain competitive and continue to be attractive on the labour market.

31.I.8 With regard to inter-agency coordination and liaison, within the United Nations common system, the Commission will continue to engage with staff and heads of common system organizations through various forums. Engaging with staff and management of the various organizations will strengthen existing partnerships and lead to greater cooperation among stakeholders and full implementation of decisions and recommendations of the Commission and the General Assembly. This will also contribute to the timely completion of reviews requested of the Commission.

31.I.9 The Commission integrates a gender perspective in its operational activities, deliverables and results, as appropriate. In 2026, the Commission will update the General Assembly on the implementation of existing gender parity policies in the United Nations common system and report on the implementation of the Commission's recommendations. The Commission will also conduct an assessment and review of the implementation of the parental leave framework, in accordance with General Assembly resolution 77/256 A–B.

31.I.10 In line with the United Nations Disability Inclusion Strategy, the Commission will continue to review the methodology and level of the allowance for a child with disabilities in conjunction with children's and secondary dependants' allowances and consider any additional measures in the context of the ongoing comprehensive review.

Programme performance in 2024

Greater consistency among United Nations common system organizations on the application of post adjustment multipliers

31.I.11 In its resolution 74/255 B, the General Assembly expressed concern at the application of two concurrent post adjustment multipliers in the United Nations common system at the Geneva duty station and noted with concern that the organizations of the common system faced the challenge of having two independent administrative tribunals with concurrent jurisdiction among organizations of the common system. Following several consultations by the Commission and the Secretary-General with the Fifth and Sixth Committees of the General Assembly, the Assembly, in its resolution 77/256 A, decided to amend articles 10 and 11 of the statute of the Commission and reaffirmed the authority and competence of the Commission to establish post adjustment multipliers for duty stations in the United Nations common system, under article 11 (c) of the statute. The Assembly, in the same resolution, invited common system organizations to complete, as quickly as practicable, formal acceptance of the amended statute and called upon all organizations that had not done so to implement the post adjustment multipliers established by the Commission, based on the results of the 2021 baseline cost-of-living surveys. The Commission engaged closely with common system organizations to promote implementation of the Assembly's decisions. By the end of 2024, 24 out of 28 organizations had formally adopted the changes to the Commission's statute.

31.I.12 Progress towards the objective is presented in the performance measure below (table 31.I.1).

Table 31.I.1
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
The General Assembly decided to amend articles 10 and 11 of the statute of the Commission and reaffirmed the authority and competence of the Commission to establish post adjustment multipliers for duty stations in the United Nations common system, under article 11 (c) of the statute	23 out of 28 organizations formally adopted the changes to the Commission's statute	24 out of 28 organizations formally adopted the changes to the Commission's statute

Planned results for 2026

Result 1: a common system compensation package that is fit for purpose, competitive and cost-efficient

Programme performance in 2024 and target for 2026

31.I.13 The Commission's work contributed to organizations, staff representatives and staff members indicating their satisfaction with the common system compensation package through the global staff survey with a higher response rate than usual (a 27 per cent response rate compared with 21 per cent in the previous survey), which met the planned target.

31.I.14 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 31.I.2).

Table 31.I.2
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
The General Assembly requested a detailed outline of the Commission's approach for the next review of the common system compensation package, including the structure, parameters and timelines	The General Assembly considered a detailed outline of the review of the common system compensation package, which was expected to commence in 2024	Organizations, staff representatives and staff members indicated their satisfaction with the common system compensation package with a higher response rate than usual	The General Assembly considers a progress report of the Commission on the comprehensive review of the compensation package	The General Assembly considers a proposal by the Commission with respect to the common system compensation package

Result 2: more flexibility afforded to staff working in extreme hardship locations

Programme performance in 2024 and target for 2026

31.I.15 The Commission's work contributed to its recommendation on the payment of an allowance in different categories of duty stations, including non-family duty stations, and to the approval by the General Assembly of the continuation of the pilot programme for payment of an amount in lieu of a settling-in grant at category D and E duty stations that are not designated as non-family until the conclusion of the comprehensive review of the compensation package, which met the planned target.

31.I.16 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 31.I.3).

Table 31.I.3
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
The General Assembly decided to continue the pilot study and to grant, on a pilot basis also, $14,000 annually to eligible staff members in category D duty stations not designated as non-family until 31 December 2024	Attraction and retention of staff, especially women, in duty stations classified as undergoing extreme hardship	The General Assembly approved the continuation of the pilot programme for payment of an amount in lieu of a settling-in grant at category D and E duty stations that are not designated as non-family until the conclusion of the comprehensive review of the compensation package (A/RES/79/252 A)	Approval by the General Assembly of the Commission's recommendation to regularize the payment of an allowance at duty stations with extreme hardship conditions	Presentation by the Commission to the General Assembly of its final proposal regarding the pilot programme

Result 3: revised standards of conduct to guide organizations on emerging issues

Proposed programme plan for 2026

31.I.17 The standards of conduct for the international civil service were first issued in 1954 and were intended to be a behavioural and ethical guide to inform and inspire staff. The passage of time and the emergence of new ethical challenges have created a need for clearer standards in relation to contacts outside the common system and more transparent accountability systems. The standards were reissued in 1986 and revised in 1998, 2001 and 2012. In 2022, the Commission decided to revise the current standards to ensure that they continued to meet the needs of the organizations. The focus was on external interactions, including political activities and conflict of interest; internal issues such as abuse of authority, harassment, all forms of violence, strengthening of accountability, duty of care and staff-management relations; and emerging issues. The Commission created a working group comprising staff, organizations and the Commission and will present the changes in its 2025 annual report, for roll-out in 2026.

Lessons learned and planned change

31.I.18 The lesson for the Commission was that any preliminary findings when undertaking such reviews should be shared widely with relevant legal offices within common system organizations before

finalizing any changes. In applying the lesson, the Commission will continue to proactively engage with legal experts within the organizations to solicit their views prior to publication so that changes can be implemented by organizations, subject to their approval by the General Assembly.

31.I.19 Expected progress towards the objective is presented in the performance measure below (see table 31.I.4).

Table 31.I.4
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Common system organizations and staff provided feedback on issues with the application of the standards	Legal offices of all common system organizations provided their views on the proposed revised standards	The General Assembly considers the revised standards	Common system organizations adopt the new standards, subject to approval of the standards by the General Assembly

Legislative mandates

31.I.20 The list below provides all mandates entrusted to the Commission.

General Assembly resolutions

3357 (XXIX)	Statute of the International Civil Service Commission	76/240; 77/256 (A–B); 79/252 (A–B) United Nations common system

Deliverables

31.I.21 Table 31.I.5 lists all deliverables of the Commission.

13. Guide to mobility and hardship scheme and related arrangements	1	1	1	1
14. Information on danger pay locations	1	1	1	1
15. Rest and recuperation framework	1	1	1	1

C. Substantive deliverables

Consultation, advice and advocacy: advice to the United Nations Appeals Tribunal and the International Labour Organization Administrative Tribunal on specific areas relating to human resources management; research papers on specific issues raised by Member States, organizations and staff representatives (restricted documents of the Commission); training on local salary survey and post adjustment methodologies; and information meetings with Member States and organizations outside the United Nations common system.

E. Enabling deliverables

Administration: International Civil Service Commission website; substantive documents for the Commission and the Advisory Committee on Post Adjustment Questions reports; and salary surveys and cost-of-living surveys for more than 60 field duty stations.

B. Proposed post and non-post resource requirements for 2026

Overview (jointly financed resources)

31.I.22 The proposed jointly financed resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 31.I.6 to 31.I.8.

Table 31.I.6

31.I.23 Additional details on the distribution of the proposed resources for 2026 are reflected in table 31.I.10 and figure 31.I.I.

31.I.24 As shown in table 31.I.6, the overall resources proposed for 2026 amount to $13,393,100, reflecting no change compared with the approved budget for 2025. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

31.I.25 In accordance with article 21 of the statute of the Commission, the budget estimates have been established after consultation with the Finance and Budget Network of the High-level Committee on Management of CEB conducted in March 2025. In the light of the ongoing significant financial constraints faced by United Nations system entities, in January 2025 the Network issued guidance to the jointly financed activities entities in formulating their 2026 budget proposals, noting that it was imperative that the 2026 budget formulation process reflect fiscal prudence and align with the financial realities of contributing organizations. To enable informed decision-making and flexibility in addressing financial constraints, the Network requested each jointly financed activities entity to submit to it two budget scenarios for 2026: one at zero growth and one with a 20 per cent reduction compared with the 2025 approved budget levels, with the caveat that if there were no vacant posts, the 20 per cent reduction might be applied to non-post resources only. That two-scenario approach was intended to enhance awareness among jointly financed activities entities of the financial challenges faced by contributing agencies, while ensuring a transparent, consultative and impact-driven decision-making process for the 2026 budgets. The Network reviewed the budget proposed by the Commission for 2026 and welcomed an initial proposal for a 5 per cent reduction, the Commission having indicated that achieving the requested 20 per cent reduction would be challenging without compromising its core functions. The Network nevertheless noted that there were clear opportunities for further reductions, including with respect to vacant posts in the Commission secretariat and with regard to travel, and requested the Commission to take the most prudent measures possible in finalizing the 2026 budget proposal for consideration by the General Assembly. The proposed resources for 2026 that are shown in the present budget submission are at the same level as those approved for 2025, as finalized by the Commission, with cost-neutral

redeployments of resources mainly from general operating expenses to contractual services and travel of representatives.

31.I.26 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which the organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, ICSC is integrating environmental management practices into its operations. In 2026, the Commission will continue its online repository, where most of its survey materials are deposited, and continue to encourage meeting participants to gain access to documents online, and, where not possible, documents have been emailed to meeting participants. Furthermore, with the use of Microsoft Teams, documents are shared with participants without the need to print hard copies. This has significantly reduced the number of documents printed and mailed.

31.I.27 Information on the timely submission of documentation and advance booking for air travel is reflected in table 31.I.9. The lower travel compliance rate was due to last-minute requests from organizations for the Commission to participate in meetings and training and late decisions by Commission members to attend meetings owing to their own obligations, as well as late visa approval for some Commission members. The Commission is faced with difficulty when staff and members of the Commission are invited to meetings on very short notice to discuss issues affecting staff in the United Nations common system.

Table 31.I.9
Compliance rate

Non-post								
Grants and contributions	4 896.1	5 093.8	53.2	–	–	53.2	1.0	5 147.0
Total	**4 896.1**	**5 093.8**	**53.2**	**–**	**–**	**53.2**	**1.0**	**5 147.0**

31.I.28 The proposed regular budget resources for 2026 amount to $5,147,000 and reflect an increase of $53,200 (or 1.0 per cent) compared with the approved budget for 2025. As shown in table 31.I.11, resource changes result from technical adjustments ($53,200) due to an increase in the United Nations Secretariat share of the budget of the Commission, from 38.0 per cent for 2025 to 38.4 per cent for 2026, as determined by the CEB secretariat in accordance with the established methodology.

II. Joint Inspection Unit

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

31.II.1 The Joint Inspection Unit is mandated, through its statute, as contained in General Assembly resolution 31/192, to review matters bearing on the efficiency of services and the proper use of funds and to provide an independent view aimed at improving management and methods and at achieving greater coordination among the organizations of the United Nations system. The Unit performs inspections and evaluations and issues reports and notes in which it identifies best practices, proposes benchmarks and facilitates information-sharing among all the organizations of the United Nations system that have adopted its statute.

Programme of work

Objective

31.II.2 The objective, to which the Joint Inspection Unit contributes, is to improve the efficiency, effectiveness and coordination of the United Nations system.

Strategy and external factors for 2026

31.II.3 To contribute to the objective, the Joint Inspection Unit will:

(a) Ensure that its programme of work includes system-wide reviews in the identified main thematic areas: accountability and oversight functions and systems; management and administration practices; the implementation of policies, strategies and programmes, as well as coordination and collaboration on the realization of internationally agreed development goals, such as the Sustainable Development Goals; and governance arrangements and mechanisms, as well as inter-agency coordination;

(b) Undertake system-wide reviews of the management and administration practices and methods of the organizations of the United Nations system in the areas of human and financial resources, administration, results-based management, strategic planning and management, change management, risk management, security and safety and information technology;

(c) Focus on system-wide issues that can be assessed across all or multiple organizations in conducting its reviews, as well as management and administrative reviews of individual organizations;

(d) Develop and implement effective platforms for the sharing of good practices and knowledge in the various thematic areas of the work of the Unit;

(e) Analyse the acceptance and implementation of the Unit’s recommendations to establish how rates of acceptance and implementation can be improved and how consideration of the Unit’s reports by legislative organs can be more effective.

31.II.4 The above-mentioned work is expected to result in:

(a) Better information for legislative body decision-making;

(b) Improved efficiency and effectiveness of the organizations of the United Nations system;

(c) Improved coordination and collaboration of the organizations of the United Nations system.

31.II.5 With regard to the external factors, the overall plan for 2026 is based on the planning assumption that participating organizations fully cooperate with the reviews of the Joint Inspection Unit and that recommendations are accepted and implemented.

31.II.6 With regard to coordination and cooperation within the United Nations system, the Unit will continue its engagement in various forums, including with the Board of Auditors, the Office of Internal Oversight Services and the audit and oversight committees of participating organizations. The engagement of a broad range of actors, including those beyond the traditional inspection sphere, is critical to mobilizing effective responses and pursuing solutions to improve business processes. This means the continued strengthening of existing partnerships with independent internal oversight entities and oversight committees in participating organizations, but also pursuing new ones that can help to foster innovative approaches. The Unit will pursue measures to continue to promote an integrated approach to support the implementation of the recommendations included in its reports.

31.II.7 The Joint Inspection Unit integrates a gender perspective in its operational activities, deliverables and results, as appropriate. The Unit will continue to examine and report on the gender policies and practices of organizations that it has identified for its management and administration reviews.

31.II.8 In line with the United Nations Disability Inclusion Strategy, the Joint Inspection Unit will also continue to accelerate the effective mainstreaming of disability inclusion, including mitigating measures to overcome any challenges while operationalizing disability inclusion.

Programme performance in 2024

Greater visibility and transparency in the selection of review topics

31.II.9 During the Unit's self-assessment exercise, participating organizations were consulted extensively. One of the observations recorded was that a more structured assessment of topics, using a set of explicit criteria, was needed as a basis for choosing the system-wide topics for review. The Unit developed selection criteria to assess the Unit's topics that included risk, priority, value for money and coordination enhancement, and also developed a scoring template to record inspectors' assessment of topics against the criteria. The criteria and scoring template were approved by inspectors and added as an annex to the internal working procedures. The application of the selection criteria in 2024 for the 2025 programme of work assures participating organizations and stakeholders of an objective basis for topic selection.

31.II.10 Progress towards the objective is presented in the performance measure below (see table 31.II.1).

Table 31.II.1
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Greater visibility and transparency for participating organizations in the selection of review topics

Planned results for 2026

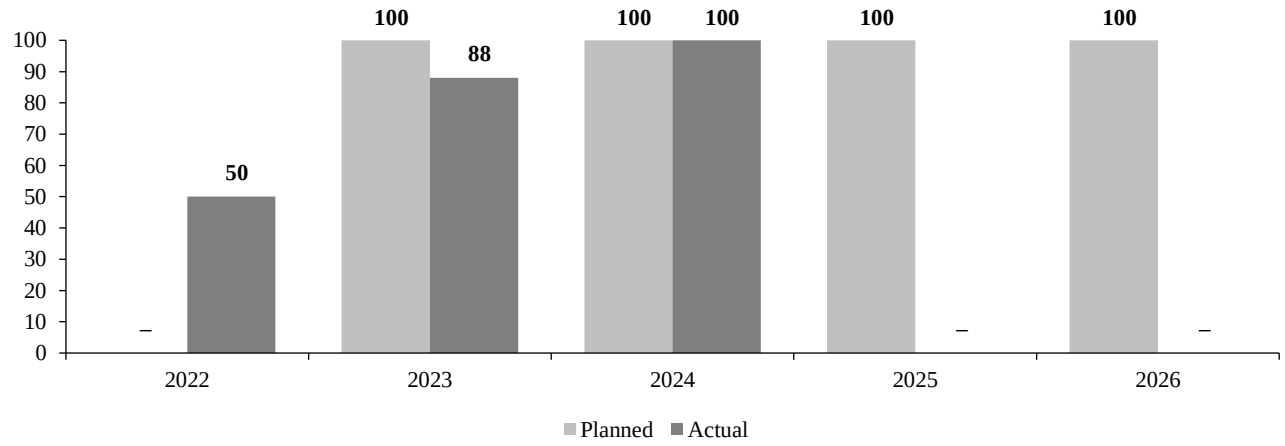
Result 1: timely availability of reviews to enable appropriate action by participating organizations to implement recommendations

Programme performance in 2024 and target for 2026

31.II.11 The Unit's work contributed to the availability of 100 per cent of reviews carried over from the previous year, which met the planned target.

31.II.12 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 31.II.I).

Figure 31.II.I
Performance measure: availability of reviews carried over from the previous year (annual)
(Percentage)



Result 2: enhanced management of administrative and programmatic issues by organizations of the United Nations system through the implementation by the Joint Inspection Unit of strategic and operational recommendations

Programme performance in 2024 and target for 2026

31.II.13 The Unit's work contributed to the improved usefulness and impact of the Unit's reports for the organizations of the United Nations system, through the improved formulation of recommendations that better identified the required elements (i.e. what, by whom, when and for what result/impact) and through the establishment of a process for participating organizations to provide inputs on draft recommendations, which met the planned target.

31.II.14 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 31.II.2).

Table 31.II.2
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Improved usefulness and impact of Joint Inspection Unit reports for organizations of the United Nations system through more efficient and enhanced data collection and data analytics	Improved usefulness and impact of the Unit's reports for organizations of the United Nations system through improved formulation of recommendations that better identified the required elements (i.e. what, by whom, when and for what result/impact)	Improved usefulness and impact of the Unit's reports for organizations of the United Nations system through outreach and communications to ensure that the results of its reports are disseminated across the United Nations system organizations and to Member States	Improved reporting on the acceptance, implementation and intended impact of the Unit's recommendations by organizations of the United Nations system

Result 3: strengthened impact of Joint Inspection Unit recommendations

Proposed programme plan for 2026

31.II.15 The value and impact of the recommendations made in the Unit's products (reports and notes) are realized when they are accepted and implemented by the participating organizations. The Unit has developed its strategic framework to focus on key intended impact areas for recommendations. The framework seeks to ensure that the Unit balances the mix of recommendations in order to have an intended impact that focuses on selected areas for the participating organizations.

Lessons learned and planned change

31.II.16 The lesson for the Unit was that it was necessary to refine the proportion and distribution of the intended impact of recommendations in order to strengthen the focus on certain identified areas. In applying the lesson, the Unit will target recommendations that will have a greater intended impact in certain areas, such as transparency and accountability; effectiveness; efficiency; and dissemination of good practices.

31.II.17 Expected progress towards the objective is presented in the performance measure below (see table 31.II.3).

Table 31.II.3
Performance measure: proportion of recommendations with intended impact in the identified areas

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	26 per cent: enhanced transparency and accountability 23 per cent: enhanced effectiveness 15 per cent: enhanced efficiency and dissemination of good practices	50 per cent: transparency, accountability, coordination, cooperation, control and compliance 30 per cent: effectiveness, coherence and harmonization 20 per cent: efficiency and dissemination of good practices	50 per cent: transparency, accountability, coordination, cooperation, control and compliance 30 per cent: effectiveness, coherence and harmonization 20 per cent: efficiency and dissemination of good practices

Legislative mandates

31.II.18 The list below provides all mandates entrusted to the Joint Inspection Unit.

General Assembly resolutions

31/192	Statute of the Joint Inspection Unit	76/261; 77/279; 78/276	Joint Inspection Unit

Deliverables

[a] Includes 11 temporary posts for inspectors at the D-2 level.

31.II.21 Additional details on the distribution of the proposed resources for 2026 are reflected in table 31.II.9 and figure 31.II.II.

31.II.22 As shown in table 31.II.5, the overall resources proposed for 2026 amount to $9,666,200, reflecting a net decrease of $170,400 (or 1.7 per cent) compared with the approved budget for 2025. Resource changes result from technical adjustments. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

31.II.23 In accordance with article 20 of the statute of the Joint Inspection Unit, the budget estimates have been established after consultation with the Finance and Budget Network of the High-level Committee on Management of CEB conducted in March 2025. The Network reviewed the budget proposed by the Unit for 2026, following the same process as outlined in paragraph 31.I.25 above for the Commission. The Network expressed appreciation with a 26 per cent budget reduction in non-post resources proposed by the Unit, which is due to the removal of non-recurring items budgeted in 2025. The proposed resources for 2026 shown in the present budget submission are as proposed by the Unit.

31.II.24 As shown in table 31.II.9, resource changes result from technical adjustments (decrease of $170,400) under furniture and equipment, reflecting the removal of non-recurrent resources approved for 2025 for the replacement of the Unit's web-based tracking system and the purchase of a new conferencing system.

31.II.25 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Unit will continue to reduce its carbon footprint by reducing the quantity of documentation printed, as well as by limiting travel and maximizing the use of possible alternatives to face-to-face meetings, whenever feasible.

31.II.26 Information on the timely submission of documentation and advance booking for air travel is reflected in table 31.II.8. The Unit requires that, for each of its review projects, a travel plan be submitted to facilitate the advance purchase of the related air tickets. Better advanced planning has

enabled the Unit to be almost fully compliant with the target requiring air tickets to be purchased at least two weeks in advance of travel, thus guaranteeing lower travel costs.

Table 31.II.8
Compliance rate

31.II.27 The proposed regular budget resources for 2026 amount to $2,631,900 and reflect a net decrease of $3,100 (or 0.1 per cent) compared with the approved budget for 2025. As reflected in table 31.II.10, resource changes result from technical adjustments and reflect a decrease of $46,400, representing the United Nations Secretariat share (27.2 per cent) of the reduction presented above under the jointly financed budget of the Unit ($170,400), offset in part by an increase in the United Nations Secretariat share of the budget of the Unit from 26.8 per cent for 2025 to 27.2 per cent for 2026 ($43,300), as determined by the CEB Secretariat in accordance with the established methodology.

III. United Nations System Chief Executives Board for Coordination

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

31.III.1 CEB, composed of the Secretary-General and the executive heads of the organizations of the United Nations system, is responsible for promoting coherence, cooperation and coordination in the policies, programmes and activities of the organizations of the United Nations system in accordance with their mandates and in response to the decisions of intergovernmental bodies. The mandate of CEB derives from the priorities established in relevant General Assembly and Economic and Social Council resolutions and decisions, including Council resolution 13 (III) and decision 2001/321. At a time when the international community is confronted by increasingly complex and interrelated global challenges, coordinated and coherent action by the entities of the United Nations system is imperative. Mobilizing the system's collective capacity is vital to supporting Member States in the integrated and accelerated implementation of the 2030 Agenda for Sustainable Development and the Pact for the Future, as well as the full range of mandates entrusted to United Nations system entities.

Programme of work

Objective

31.III.2 The objective, to which CEB contributes, is to leverage the collective capacity of the organizations of the United Nations system for the effective delivery of mandates.

Strategy and external factors for 2026

31.III.3 To contribute to the objective, CEB will:

(a) Provide vision and leadership to guide the effective, coherent and coordinated implementation of mandates by United Nations system organizations;

(b) Provide a forum for senior leaders of the United Nations system to agree on strategic action, enhance cooperation and pursue policy coherence in both programmatic and administrative areas and coordinate the use of resources, capacities and knowledge;

(c) Through its High-level Committee on Programmes:

(i) Foster strategic system-wide policy coherence and programme coordination in response to intergovernmental mandates and in support of internationally agreed development goals;

(ii) Develop shared strategies, approaches and frameworks to address emerging policy and programme issues requiring system-wide action;

(d) Through its High-level Committee on Management:

(i) Accelerate the development of innovative approaches to improve efficiency and simplify and innovate business practices, fostering the harmonization, mutual recognition and integration of business operations, as well as encourage a coordinated approach to multilingualism across CEB member organizations;

(ii) Utilize its functional networks on finance and budget, human resources, digitization and technology, procurement and safety and security to mainstream best practices, innovative management approaches and partnerships in all areas of management and to collect and publish comprehensive system-wide financial and human resources data.

31.III.4 The above-mentioned work is expected to result in:

(a) Accelerated progress towards the integrated and accelerated implementation of the 2030 Agenda by Member States and the full range of mandates entrusted to United Nations system entities, including the follow-up to and implementation of the Pact for the Future and its annexes;

(b) A more coherent, coordinated and efficient United Nations system response to global challenges, such as setbacks to sustainable development, inequalities, threats to human rights, negative impacts of climate change and risks of new and emerging technologies;

(c) Greater capacity of United Nations system organizations to provide effective management responses that drive systemic change in support of the delivery of mandates, through a focus on providing better data analytics; innovation and digital transformation; strategic foresight; and a work culture that encourages stronger results orientation;

(d) Improved analytical quality of United Nations system-wide comprehensive, comparable financial and human resources data, evidence-based advancement of the ongoing ICSC comprehensive compensation review and enhanced transparency and accountability regarding system-wide financial flows.

31.III.5 With regard to the external factors, the overall plan for 2026 is based on the planning assumption that member organizations commit themselves and make timely contributions to the issues addressed by CEB.

31.III.6 CEB integrates a gender perspective in its activities, deliverables and results, as appropriate, including in the products of its high-level committees. The CEB annual human resources statistics will continue to present data on personnel of the United Nations system by category, grade and gender, helping to systematically track gender representation across the system. The CEB secretariat will continue to collaborate with the United Nations Entity for Gender Equality and the Empowerment of Women (UN-Women) on tracking the financial contribution of United Nations activities to gender equality and the empowerment of women. In addition, the CEB secretariat will support the High-level Committee on Programmes in continuing to address gender equality and women's empowerment in a cross-cutting manner, spanning the Committee's agenda.

31.III.7 In line with the United Nations Disability Inclusion Strategy, the CEB High-level Committee on Management will continue to accelerate disability inclusion within organizations' internal operations through the activities of its cross-functional networks.

Programme performance in 2024[1]

Strengthened system-wide unity in support of climate action

31.III.8 The adverse impacts of climate change are felt by people everywhere, especially in developing countries. To bring the full weight of the United Nations system together for urgent climate action, the High-level Committee on Programmes developed and approved a set of strategic common messages to strengthen unity among organizations in support of ambitious outcomes at the twenty-ninth session of the Conference of the Parties to the United Nations Framework Convention on Climate Change and beyond. The Committee rapidly coalesced around seven key priority areas for action, which included emission reductions and climate finance, thereby effectively harmonizing

[1] For a full account of results, see the annual overview report of the United Nations System Chief Executives Board for Coordination for 2024 (forthcoming).

positions and facilitating synergies. As a dynamic product, the CEB-endorsed common messages continue to provide a shared narrative for the United Nations system to advocate for accelerated action to protect people and planet.

31.III.9 Progress towards the objective is presented in the performance measure below (see table 31.III.1).

Table 31.III.1
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
–	–	Strengthened unity, enabling the United Nations system to collectively promote key priorities and accelerated climate action for the benefit of people and planet

Planned results for 2026

Result 1: mutual recognition as an enabler of management reform across the United Nations system

Programme performance in 2024 and target for 2026

31.III.10 The CEB secretariat's work contributed to the expansion of inter-agency initiatives that employ mutual recognition in key areas such as procurement and human resources, which met the planned target.

31.III.11 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 31.III.2).

Table 31.III.2
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Successful cases of and best practices on mutual recognition identified Strategy established to address obstacles to the operationalization of mutual recognition	Bottlenecks in the application of mutual recognition principles addressed through improved awareness and operationalization of management guidance	Expansion of inter-agency initiatives that employ mutual recognition	Mainstreaming of shared services enabled by the application of the mutual recognition principle	Further mainstreaming of the mutual recognition principle to enhance operational effectiveness, supported through a community of practice and a network of mutual recognition champions

Result 2: United Nations Digital ID, a building block in enabling interoperability across United Nations organizations

Programme performance in 2024 and target for 2026

31.III.12 The CEB secretariat's work contributed to the first United Nations Digital ID use case, which was focused on maintaining updated human resources and financial data, going live to enable pension benefit calculation by the United Nations Joint Staff Pension Fund for selected sponsoring organizations, which met the planned target.

31.III.13 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 31.III.3).

Table 31.III.3
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	First use case, focused on maintaining updated human resources and financial data, went live to enable pension benefit calculation by the United Nations Joint Staff Pension Fund for selected sponsoring organizations	Digital ID available for other use cases and in use in more United Nations organizations, which enables efficient data transfer and collaboration across United Nations system organizations	Digital ID solution extended to other organizations, with additional business cases, to facilitate increased interoperability across the United Nations system

Result 3: improved coherence of United Nations system activities for the acceleration of progress towards the Sustainable Development Goals and implementation of the Pact for the Future

Proposed programme plan for 2026

31.III.14 The Pact for the Future, a wide-ranging international agreement aimed at delivering a better future for people and planet, was adopted by the General Assembly at the Summit of the Future in September 2024 to accelerate progress towards achieving the Sustainable Development Goals while rising to new challenges and opportunities. The CEB secretariat supported processes under the High-level Committee on Programmes and the High-level Committee on Management to coordinate specific United Nations system contributions to intergovernmental deliberations preceding the Summit and to enhance United Nations system internal capacities. Each process enabled a common understanding and shared position among United Nations system entities. As a contribution to implementation of the Pact, United Nations organizations have to strengthen their capabilities to better deliver on their mandates and support Governments in meeting their commitments.

Lessons learned and planned change

31.III.15 The lesson for the CEB secretariat, based on its experience supporting activities in the lead-up to the Summit, was that coherence is best achieved through inclusive consultative processes among the United Nations system organizations, leveraging their diverse technical knowledge and experience. In applying the lesson, the CEB secretariat will support the two Committees in bringing together expertise spanning the United Nations to facilitate strategic system-wide policy coherence and

coordination in programmatic and management areas of relevance across United Nations system mandates in order to contribute to accelerating progress towards the Sustainable Development Goals and implementing the Pact for the Future in a manner that complements activities being coordinated in other contexts.

31.III.16 Expected progress towards the objective is presented in the performance measure below (see table 31.III.4).

Table 31.III.4
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Agreement across the United Nations system on a conceptual framework on measures of progress on sustainable development that complement and go beyond gross domestic product (GDP)[a]	Shared vision among United Nations system organizations on: – data governance at the international level (see CEB/2023/1/Add.2) – duties to future generations (see CEB/2023/1/Add.1) – opportunities for collaboration on digital transformation	Collective thinking among United Nations system organizations on: – possible goals and principles for data governance at the international level (see CEB/2024/2/Add.1) – global governance of artificial intelligence (see CEB/2024/1/Add.1) and the responsible use of artificial intelligence in the United Nations system[b]	Improved United Nations system coherence on countering transnational organized crime Accelerated implementation of the United Nations Disability Inclusion Strategy across the United Nations system	Improved United Nations system coherence on: – measures of progress on sustainable development that complement and go beyond GDP – solutions for enhanced digital transformation capabilities in United Nations system organizations, in accordance with action 45 of the Pact for the Future

Technical materials (number of materials)	**6**	**6**	**6**	**6**
9. Reports on United Nations system financial, human resources and procurement statistics	3	3	3	3
10. Compilations and analyses of best practices in the areas of human resources, procurement, information technologies and finance and budget	3	3	3	3
C. Substantive deliverables				
Databases and substantive digital materials: United Nations system annual financial and human resources statistics (from approximately 40 reporting entities) available to all Member States and other stakeholders.				
D. Communication deliverables				
Digital platforms and multimedia content: CEB website accessible by all Member States and other stakeholders.				
E. Enabling deliverables				
Administration: summary of deliberations of two regular sessions (each) of CEB, the High-level Committee on Programmes and the High-level Committee on Management; reports for meetings of ICSC on common positions of the United Nations system relating to conditions of service; biannual promulgation of rates for freelance interpreters and translators; accounting guidance and system-wide support papers for United Nations entities; secretariat support for meetings of CEB, the High-level Committee on Programmes and the High-level Committee on Management; secretariat support for the Task Force on Accounting Standards, ad hoc inter-agency taskforce arrangements and United Nations representation at meetings of the Board of the International Public Sector Accounting Standards; maintenance of data management portal for the collection of data for the United Nations system on human resources and financial data (annual collection from approximately 40 entities); and annual headcount of United Nations system field staff.				

B. Proposed post and non-post resource requirements for 2026

Overview (jointly financed activities)

31.III.19 The proposed jointly financed resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 31.III.6 to 31.III.8.

31.III.20 Additional details on the distribution of the proposed resources for 2026 are reflected in table 31.III.10 and figure 31.III.I.

31.III.21 As shown in table 31.III.6, the overall resources proposed for 2026 amount to $4,522,600, reflecting a decrease of $179,500 (or 3.8 per cent) compared with the approved budget for 2025. Resource changes result from other changes.

31.III.22 Given that the activities of the CEB secretariat are jointly funded by agencies, funds and programmes of the United Nations common system, the budget estimates have been established after consultation with the Finance and Budget Network of the High-level Committee on Management of CEB conducted in March 2025. The Network reviewed the budget proposed by the CEB secretariat (including for the International Public Sector Accounting Standards (IPSAS) project) for 2026 following the same process outlined under paragraph 31.I.25 above for ICSC. The CEB secretariat presented two scenarios for 2026: one with a zero nominal growth and a second with an approximately 20 per cent reduction in non-post resources, as further detailed below. The Network endorsed the second scenario, with a 2026 budget level of $4,522,600 for the CEB secretariat (including $238,600 for the IPSAS project).

31.III.23 As shown in table 31.III.10, resource changes result from a reduction of $179,500 under other changes in compliance with a decision of the Finance and Budget Network on the level of resources for 2026 for the CEB secretariat, reflecting decreases under (a) other staff costs ($46,200) resulting from the downward reclassification of the temporary position for the IPSAS project from the P-5 to the P-3 level; (b) contractual services ($64,300); (c) general operating expenses ($22,400); (d) travel of staff ($17,000); (e) supplies and materials ($12,200); (f) furniture and equipment ($9,300); and (g) consultants ($8,100).

31.III.24 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, CEB is integrating environmental management practices into its operations. In 2026, in line with the Strategy for Sustainability Management in the

United Nations System, 2020–2030, the CEB secretariat will continue to ensure that all meetings that it supports are single-use-plastic-free and paper-free to reduce waste and cut carbon emissions, as well as continue to promote an eco-friendly culture.

31.III.25 Information on the timely submission of documentation and advance booking for air travel is reflected in table 31.III.9. The CEB secretariat will continue to track compliance and to pursue the advance planning and nomination of travelling staff to meetings and conferences, whenever possible.

Table 31.III.9

31.III.26 The proposed regular budget resources for 2026 amount to $1,337,800 and reflect a decrease of $70,700 (or 5.0 per cent) compared with the approved budget for 2025. As reflected in table 31.III.11, resource changes result from technical adjustments and other changes, as follows:

(a) **Technical adjustments**: A decrease of $17,600 resulting from a reduction in the United Nations Secretariat share of the budget of the CEB secretariat from 29.9 per cent for 2025 to 29.6 per cent for 2026, as determined by the CEB secretariat in accordance with the established methodology;

(b) **Other changes**: A decrease of $53,100, reflecting the United Nations Secretariat share (29.6 per cent) of the proposed decrease presented above under jointly funded resources ($179,500).

Annex II

Summary of information on the cost-sharing methodology applied in establishing the United Nations share of jointly financed activities

1. The methodology applied since 1974 in respect of the cost-sharing of the International Civil Service Commission (ICSC) budget is based on the "Consultative Committee on Administrative Questions formula", which apportions the ICSC costs on the basis of the number of staff, as contained in the personnel statistics published by the United Nations System Chief Executives Board for Coordination (CEB) secretariat. The United Nations share of the costs also includes the shares for the United Nations Relief and Works Agency for Palestine Refugees in the Near East and the Office of the United Nations High Commissioner for Refugees, on the basis of the decision by the General Assembly that the costs relating to these two entities are funded from the regular budget of the United Nations.

2. The methodology applied since 1996–1997 for the cost-sharing of the Joint Inspection Unit budget is derived from the expenditure reported in the audited accounts of the participating organizations, excluding:

   (a) Expenditure relating to peacekeeping;

   (b) Expenditure in kind, including the value of donated commodities;

   (c) A total of 50 per cent of the expenditure of the International Trade Centre corresponding to the share of the World Trade Organization, on the principle that the regular budget of the Centre is funded in equal parts by the United Nations and the World Trade Organization, which does not participate in the work of the Joint Inspection Unit.

3. The methodology applied since 2006 for the cost-sharing of the CEB secretariat's budget is based on 50 per cent of staff, in accordance with the most recently available personnel statistics, and 50 per cent of total expenditure, in accordance with the most recently available audited financial statements, minus expenditure in kind, excluding expenditure relating to peacekeeping operations.

4. The methodology applied for the cost-sharing of the system-wide International Public Sector Accounting Standards budget is based on the same cost-sharing formula used to apportion the budget of the CEB secretariat, with the exclusion of the International Fund for Agricultural Development, which is not an active member in the International Public Sector Accounting Standards project.

Annex III

Overview of financial and post resources

The jointly financed budgets of the International Civil Service Commission and the Joint Inspection Unit, as shown in the present budget submission, are for General Assembly consideration and approval, including the United Nations share. The jointly financed budget of United Nations System Chief Executives Board for Coordination is presented for information purposes, while its United Nations share is presented for approval.

Proposed post and non-post resource requirements for 2026

Overview

32.1 Under section 32, Special expenses, resources are provided to cover specific expenditure requirements for: (a) contributions to after-service health insurance; (b) compensatory payments; (c) general insurance charges; (d) bank charges; and (e) pension payments to former Secretaries-General. The proposed regular budget resources for 2026, including the breakdown of resource changes, as applicable, are reflected in table 32.1.

32.2 Additional details on the distribution of the proposed resources for 2026 are reflected in tables 32.2 and 32.3 and figure 32.I.

32.3 As reflected in table 32.2 (1), the overall resources proposed for 2026 amount to $99,735,400, reflecting a net increase of $2,476,700 (or 2.5 per cent) compared with the approved budget for 2025. Resource changes result from other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

(Thousands of United States dollars)

Explanation of variances by factor and component

Overall resource changes

Other changes

32.4 As reflected in table 32.2 (1), the net increase of $2,476,700 is due to the following:

(a) **Contributions to after-service health insurance**. The net increase of $1,809,200 relates to the projected growth in after-service health insurance participants, reflecting a continuation of the heightened rate of enrolments experienced during 2024 and during the first quarter of 2025, and increasing medical costs and utilization levels based on payment trends ($13.3 million), offset in part by a decrease of $11.5 million relating to the revision in apportionment ratios across funding sources, in line with the recommendation of the Advisory Committee on Administrative and Budgetary Questions (A/79/7 (para. X.57)), as endorsed by the General Assembly in its resolution 79/257. Following a review of the funding source for the final salary of retirees who enrolled in after-service health insurance, including an actuarial review of the impact on after-service health insurance costs of the downsizing of peacekeeping operations and the sustainability of the extrabudgetary funding modality, the current apportionment ratios, in the context of the proposed programme budget, are being revised for after-service health insurance costs at Headquarters, from the regular budget, at 77 per cent, peacekeeping, at 15 per cent, and extrabudgetary, at 8 per cent, to the regular budget, at 69 per cent, peacekeeping, at 17 per cent, and extrabudgetary, at 14 per cent,, and, for costs at Geneva and Vienna, as follows: regular budget, at 86 per cent, and extrabudgetary, at 14 per cent;

(b) **Compensatory payments**. The increase of $376,900 takes into account the increase in projected payments for 2026 after an account of the 2024 expenditure experience;

(c) **General insurance**. The increase of $399,500 relates to the increase in property insurance policy premiums in 2025 and 2026;

(d) **Bank charges**. The decrease of $9,500 reflects actual expenditure experience based on the average expenditure experience for 2023 and 2024 and does not take into possible account gains on exchange rates, which is specific to a budget period;

(e) **Pension payments to former Secretaries-General**. The decrease of $99,400 reflects a reduction in the number of pensioners based on the expenditure experience in the first quarter of 2025.

Other assessed and extrabudgetary resources

32.5 As reflected in table 32.2 (2), other assessed resources amount to $15,247,700. The resources would complement regular budget resources and provide for the requirements indicated in the report of the Secretary-General on the budget for the support account for peacekeeping operations for the period from 1 July 2025 to 30 June 2026 (A/79/783). The revision of the cost-sharing apportionment would be reflected in context of the next support account budget for peacekeeping operations for the period from 1 July 2026 to 30 June 2027.

32.6 As reflected in table 32.2 (3), the estimated extrabudgetary resources for contributions to after-service health insurance are estimated at $18,089,400.

A. Contributions to after-service health insurance

32.7 The after-service health insurance programme extends health-care benefits under the United Nations insurance schemes to eligible retirees and their eligible dependants. Coverage is provided on a shared-contribution basis in accordance with a decision taken by the General Assembly at its twenty-first session. Coverage is also provided to staff members whose appointments are terminated as a result of disability. In all cases, coverage is available only to those who are eligible to receive a periodic benefit from the United Nations Joint Staff Pension Fund or under the rules governing compensation for service-incurred death, injury or illness. In accordance with Assembly resolution 38/235, the maximum cost-sharing ratio is 2 to 1 between the Organization and the participant.

32.8 By its resolution 40/258 A, the General Assembly decided to extend after-service health insurance coverage to former locally recruited staff who had participated in the medical expense assistance plan under appendix E to the Staff Rules of the United Nations.

32.9 By its resolution 61/264, the General Assembly approved changes to the after-service health insurance provisions for new staff members recruited on or after 1 July 2007. Under the terms of that resolution, following retirement, staff members are eligible for cost-sharing of after-service coverage if they have participated in a United Nations-system contributory health insurance plan for a minimum of 10 years at the time of retirement. Staff members recruited before 1 July 2007 who have participated in a United Nations contributory plan for at least 5 years are also eligible, provided that they pay the full premium for the period for which their participation falls short of the 10-year requirement for cost-shared participation.

32.10 The General Assembly, in its resolution 64/241, requested the Secretary-General to submit to it at its sixty-seventh session a report on managing after-service health insurance liabilities, bearing in mind that the pay-as-you-go principle was one of the viable options. The Assembly also requested the Secretary-General to continue to validate the accrued liabilities with the figures audited by the Board of Auditors and to include that information and the outcome of the validation in the requested report. The report of the Secretary-General on managing after-service health insurance liabilities (A/68/353) was submitted to the Assembly at its sixty-eighth session. The Assembly, in its resolution 68/244, endorsed the recommendation of the Advisory Committee on Administrative and Budgetary Questions on the continuation of the pay-as-you-go approach to the funding of the after-service

health insurance liabilities. It also requested the Secretary-General to examine the option of broadening the mandate of the United Nations Joint Staff Pension Fund, to include the cost-effective, efficient and sustainable administration of after-service health insurance benefits, taking into account the advantages and disadvantages of that option, including its financial and legal implications, and to report thereon at the seventieth session of the Assembly, as well as to undertake a survey of current health-care plans for active and retired staff within the United Nations system, to explore options to increase efficiency and contain costs and to report thereon at its seventieth session. In his report on managing after-service health insurance (A/73/662), informed in large part by the work of the inter-agency Working Group on After-Service Health Insurance, the Secretary-General continued to apprise the Assembly of the work undertaken in response to its request. In its resolution on managing after-service health insurance (resolution 73/279 B), the Assembly endorsed the recommendations contained in the report of the Advisory Committee (A/73/792), including that the Secretary-General further explore options for the improvement of efficiency and the containment of costs, including liabilities associated with current and future staff, with a view to reducing the Organization's expenditure on health insurance plans and its after-service health insurance obligations.

32.11 The report of the Secretary-General on managing after-service health insurance liabilities (A/76/373) was submitted to the General Assembly at its seventy-sixth session. In the report, the Secretary-General responded to the Assembly's request and set out a comprehensive proposal on after-service health insurance funding.

32.12 The proposed regular budget resources for 2026 amount to $92,542,200, reflecting an increase of $1,809,200 (or 2 per cent) compared with the approved budget for 2025. The proposed change is explained in paragraph 32.4 (a) above. Additional details on the distribution of the proposed resources for 2026 are reflected in table 32.4 and figure 32.II.

B. Compensatory payments

32.13 The requirements under compensatory payments provide for compensation to members of commissions, committees or similar United Nations bodies in the event of death, injury or illness attributable to service with the United Nations. The responsibilities of the United Nations in this area, as well as the rules governing compensatory payments, are detailed in Secretary-General's bulletin ST/SGB/103/Rev.1.

32.14 Compensation is also provided to staff members or their dependants in the event of death, injury or illness attributable to the performance by the staff member of official duties on behalf of the United Nations. The compensation is governed by the specific rules under appendix D to the Staff Regulations and Rules of the United Nations (ST/SGB/2018/1).

32.15 The costs incurred on both those accounts may include monthly survivor benefits for life, monthly disability benefits for life, lump-sum indemnities for permanent disabilities, funeral expenses, sick leave credit and medical expenses.

32.16 The proposed regular budget resources for 2026 amount to $2,290,800, reflecting an increase of $376,900 (or 19.7 per cent) compared with the approved budget for 2025. The proposed change is explained in paragraph 32.4 (b) above. Additional details on the distribution of proposed resources for 2026 are reflected in table 32.5.

Total	**2 584.0**	**1 913.9**	**–**	**–**	**376.9**	**376.9**	**19.7**	**2 290.8**

C. General insurance

32.17 The provisions under general insurance relate mainly to insurance on the buildings and property at Headquarters, as well as in Addis Ababa (Economic Commission for Africa), Santiago (Economic Commission for Latin America and the Caribbean) and Beirut (Economic and Social Commission for Western Asia). The United Nations Offices at Geneva, Vienna and Nairobi, as well as the Economic and Social Commission for Asia and the Pacific in Bangkok, separately maintain property and liability coverage for their offices locally. General insurance also covers automobile liability insurance at Headquarters, liability insurance for aircraft used for travel by the Secretary-General but not owned by the United Nations, and insurance for other air travel of staff. In addition, in accordance with General Assembly resolution 41/210, the United Nations has established a self-insurance plan for general liability risk in respect of acts occurring in the Headquarters district in New York. The provisions also cover a stand-alone insurance policy for acts of terrorism, which, following the events of 11 September 2001, was established effective 2003 as a result of limitations in the scope of insurance coverage for risks, such as acts of terrorism that would normally have been covered under the general policies.

32.18 The outreach initiatives continued to encourage additional markets to bid for coverage of risks to the United Nations. Some limitations in the scope of insurance coverage, however, continue to be prevalent. Two such examples are the flood coverage restrictions introduced in the wake of storm Sandy in New York and the continued requirement for specific insurance for acts of terrorism. Actual premiums will be driven by the United Nations claims experience for previous years, and by the general state of insurance markets at the time of the renewal of the policy. The damages sustained by the Economic and Social Commission for Western Asia (currently estimated at $6 million) to its building and the contents thereof as a result of the explosion in Beirut on 4 August 2020 and other property losses continue to have an impact on the property insurance renewal premium. In addition to loss history, insurance premiums are also affected by market conditions and capacity, that is, the number of underwriters in the marketplace willing to insure the risk at the time of renewal, inflation and reinsurance costs. The insurance marketplace is constantly evolving on the basis of global economic conditions, natural and human-made disasters or regulatory requirements, and insurers' perception of specific risks relating to the United Nations.

32.19 The proposed regular budget resources for 2026 amount to $4,350,500 and reflect an increase of $399,500 (or 10.1 per cent) compared with the approved budget for 2025. The proposed change is explained in paragraph 32.4 (c) above. Additional details on the distribution of the proposed resources for 2026 are reflected in table 32.6 and figure 32.III.

D. Bank charges

32.20 The bank charges include fees for account maintenance, electronic fund transfers and other banking services used by the United Nations.

32.21 The proposed regular budget resources for 2026 amount to $195,100 and reflect a decrease of $9,500 (or 4.6 per cent) compared with the approved budget for 2025. The proposed change is explained in paragraph 32.4 (d) above. Additional details on the distribution of the proposed resources for 2026 are reflected in table 32.7.

E. Pension payments to former Secretaries-General

32.22 This component covers the retirement allowances for a former Secretary-General and for the widows of two former Secretaries-General at the half rate on the basis of the maximum retirement benefit payable as from 1 January 2025.

32.23 The proposed regular budget resources for 2026 amount to $356,800 and reflect a net decrease of $99,400 (or 21.8 per cent) compared with the approved budget for 2025. The proposed change is explained in paragraph 32.4 (e) above. Additional details on the distribution of the proposed resources for 2026 are reflected in table 32.8.

[a] Monthly expenditure for after-service health insurance is charged on a pay-as-you-go basis to the regular budget at first and then adjusted periodically at Headquarters to apportion costs across funding sources, with approximately 15 per cent apportioned to peacekeeping operations and 8 per cent to extrabudgetary resources.

[b] December 2023 expenditure includes year-end adjustments.

[c] Includes Medical Insurance Plan after-service health insurance participants who are now included in Umoja starting in 2023.

[d] 2024 expenditure was reduced owing to the application of a “premium holiday”.

[e] 2025 expenditure was updated with retroactive adjustments implemented in April 2025.

10. Office of the United Nations Special Coordinator for the Middle East Peace Process. 16

B. Major construction projects 16

Annex

Indicative estimates for the major construction projects in 2026 17

Overview

33.1 The present section covers the resources to fund capital investment requirements for the construction, alteration, periodic maintenance and improvement of, and upgrades to, facilities, buildings, equipment and general infrastructure in established offices across the global United Nations Secretariat, including for safety and security, conferencing and information and communications technology (ICT). To ensure a coherent and systematic approach to capital expenditure requirements across the Organization, such resources are requested under the present section. Section 33 does not include requirements related to posts or staffing costs in connection with the administration and management of the projects and activities proposed in the present section; those costs are included under the respective sections of the proposed programme budget for 2026 for United Nations Headquarters, the United Nations Office at Geneva, the United Nations Office at Nairobi, the United Nations Office at Vienna, the Economic Commission for Africa (ECA), the Economic Commission for Latin America and the Caribbean (ECLAC), the Economic and Social Commission for Asia and the Pacific (ESCAP), the Economic and Social Commission for Western Asia (ESCWA), the United Nations Truce Supervision Organization (UNTSO) and the Office of the United Nations Special Coordinator for the Middle East Peace Process. Section 33 does not include requirements related to special political missions, which are included in their respective budget proposals.

33.2 The resources proposed are in line with the International Public Sector Accounting Standards and encompass requirements for projects that result in an increase of the value of the asset and/or extend its useful life, including: (a) projects of a capital-intensive and of a structural nature that would substantially improve facilities or infrastructure; and (b) projects to repair, replace and/or upgrade existing installations (e.g. heating, ventilation, air conditioning, conferencing equipment and physical security equipment) along with the underlying infrastructure, hardware and other components or related systems required for their operation (e.g. electrical, information technology and other networks, associated hardware and systems). The proposed projects comprise both one-time projects and new and continuing multi-year projects. In addition, pursuant to the decision of the General Assembly in its resolution 77/263 A and previous resolutions, the proposals under the present section include a provision for the annual repayments of the loans from the host country (Switzerland) to finance the strategic heritage plan of the United Nations Office at Geneva.

33.3 In accordance with General Assembly resolution 79/258 A and previous resolutions, the Global Asset Management Policy Service (in the Field Operations Finance Division of the Office of Programme Planning, Finance and Budget in the Department of Management Strategy, Policy and Compliance) is responsible for the provision of guidance, support and technical advice with regard to the planning, management and monitoring of capital investment projects related to major construction and renovation.

33.4 At Headquarters, the projects proposed to be funded under section 33 fall under the responsibility of the Department of Operational Support in respect of facilities, the Department of Safety and Security in respect of safety and security, and the Office of Information and Communications Technology in respect of enterprise technology networks. The administrative services in Geneva, Vienna and Nairobi and at the regional commissions are responsible for the implementation of the projects at their respective duty stations.

33.5 With regard to safety and security, projects to upgrade and enhance capabilities for the protection of United Nations staff and premises globally are evaluated by, and subsequently implemented in close coordination with, the Department of Safety and Security to ensure optimal standardization, such as in the ongoing implementation of the multi-year access control project across the Secretariat.

33.6 With regard to information and telecommunications technology, the Office of Information and Communications Technology provides central leadership in the establishment and implementation of Organization-wide ICT strategy and standards in the modernization of information systems and the improvement of ICT services. The Office directs and oversees the operation and upgrade of the global ICT infrastructure at Headquarters, offices away from Headquarters and the regional

commissions, including through regular reviews. In addition, the Office operates and maintains the infrastructure and equipment for conferencing services at Headquarters. Upgrades are implemented through annual projects to upgrade the enterprise networks. Such projects also serve to progressively standardize systems, including the related infrastructure and equipment, to ensure comparable standards of functionality, quality and reliability of the related services across the Organization, including in respect of telecommunications.

33.7 The resources proposed for 2026 under the present section, as detailed below, are required for the continuation of existing and new multi-year projects that are linked to the programme of capital investments from 2026 through 2031 presented in the most recent report of the Secretary-General on capital investment planning (A/79/510).

33.8 In line with the request from the General Assembly, in its resolution 75/252, to include indicative estimates for the major construction projects in the proposed programme budget under section 33 for information purposes only, a table with the requested information related to those capital projects is provided in the annex. Such estimates may be revised in the progress reports for each project to reflect the implementation status and associated resource requests. As the estimates are provided for information purposes only, the resources for those projects, including for the corresponding project management teams under the respective budget sections other than section 33, are not proposed as part of the resources submitted herewith for section 33; in continuation of past practice, these resources will be requested in the context of the forthcoming annual progress reports of the Secretary-General to be submitted at the main part of the eightieth session of the Assembly.

Proposed resource requirements for 2026

Overview of resources

33.9 The overall resources proposed for 2026 amount to $39,856,300, reflecting a net decrease of $48,164,200 (or 54.7 per cent) compared with the appropriation for 2025. Resource changes result from two factors, as explained in paragraphs 33.10 and 33.11 below, namely: (a) technical adjustments (a decrease of $51,642,900); and (b) other changes (a net increase of $3,478,700). The distribution of the proposed resources is reflected in table 33.1.

Abbreviations: DSS, Department of Safety and Security; UNOG, United Nations Office at Geneva; UNON, United Nations Office at Nairobi; UNOV, United Nations Office at Vienna; UNSCO, Office of the United Nations Special Coordinator for the Middle East Peace Process.

[a] Includes an amount of $3,040,100 for the annual repayment in 2026 of the loan related to the strategic heritage plan.

[b] Indicative estimates for 2026 for the major construction projects are provided in the annex for information purposes only.

Technical adjustments

33.10 Resource changes reflecting a decrease of $51,542,900 are due to the removal of non-recurrent requirements for the projects approved for 2025 by the General Assembly in its resolution 79/258 A, namely: (a) the strategic heritage plan of the United Nations Office at Geneva ($32,183,700); and (b) the renovation of the conference service facilities at the United Nations Office at Nairobi ($19,459,200). The resources for those projects for 2026 will be requested in the forthcoming related progress reports of the Secretary-General, which will be submitted for consideration during the main part of the eightieth session of the Assembly.

Other changes

33.11 Resource changes reflect a net increase of $3,478,700, as follows: (a) an increase of $5,051,200 under safety and security projects; (b) an increase of $726,800 under information and communications technology; (c) a decrease of $1,922,500 under the global standardization upgrade of conferencing systems, equipment and installations; and (d) a decrease of $376,800 under alteration, upgrades and major maintenance programmes.

33.12 The resources under section 33 undergo reprogramming, including redistribution for each budget period, because they cover a portfolio of activities of which only a portion is a recurrent requirement, the remainder being either one-time or multi-year projects. Each proposed programme budget for a new budget period reflects the completion of non-recurrent activities and the introduction of newly programmed, non-recurrent investment requirements, in alignment with the most recent report of the Secretary-General on capital investment planning (A/79/510). With regard to the global standardization upgrade of conferencing systems, equipment and installations, resources are not proposed for 2026 since the formulation of the common global standards that will determine the specifications to procure and the technical architecture to install all equipment and systems supporting broadcasting and conferencing services is ongoing.

Nature of proposed activities

33.13 Table 33.2 breaks down the resource requirements into: (a) one-time projects; and (b) new and continuing multi-year phased projects. The breakdown by subcategory allows the aggregate portfolio of activities proposed under section 33 to be viewed in terms of nature and duration by location.

A. Resource requirements by duty station

1. Headquarters (including global implementation projects)

Resource requirements: $15,687,600

33.14 As summarized in table 33.3, the total provision of $15,687,600 would provide for: (a) one-time projects ($2,215,000); and (b) new and continuing multi-year projects ($13,472,600).

33.15 Under one-time projects, the provision of $2,215,000 would cover: (a) the upgrading of the fire alarm system ($1,100,000); (b) the inspection of the façade of the General Assembly and Conference Buildings, and cleaning to prevent weather-related grime and corrosion from deteriorating the façade ($800,000); and (c) the replacement of the roofing at the Secretariat entrance overhang ($315,000).

33.16 Under the multi-year continuing activities for major maintenance and improvement of facilities and general infrastructure, a provision of $879,000 would provide for: (a) upgrading the river water intake tunnel system, which provides the cooling water to the chiller condenser equipment and is necessary to maintain the cooling system in operation ($380,000); and (b) enhancing accessibility in the delegates' areas, including design and construction ($499,000).

33.17 Under the multi-year continuing activities for the improvement of ICT infrastructure, the resources proposed, amounting to $4,606,400, include: (a) the maintenance and renewal of the Check Point firewall software at Headquarters, including hardware and software licences necessary to keep the Organization protected against cyberattacks and data leakage ($577,800); (b) the annual upgrading of the enterprise network infrastructure in the United Nations Headquarters technology rooms to support mandated ICT services for the Secretariat, General Assembly and Conference Buildings ($2,358,200); and (c) the consolidated maintenance contract at Headquarters, offices away from Headquarters and the regional commissions to support full coverage of the enterprise network equipment, ensuring the same level of service across duty stations, which has become increasingly important owing to the growing requirements of central enterprise applications ($1,670,400).

33.18 Under the multi-year continuing activities for safety and security improvements, the proposed resources amounting to $6,946,000 would be required for bolstering security capabilities across the Secretariat, General Assembly, Conference and Annex Buildings. The proposal encompasses: (a) continuing the implementation of the compartmentalization of the electronic access control system, including the upgrading of hardware and software components that serve as a first line of defence and allow enhanced visitor tracking by using a smart card-based system that meets headquarters minimum operating security standards for secure access control ($2,845,700); (b) continuing the upgrades to a main security post, which provides dedicated access for delegates and their vehicles, by introducing additional ballistic protection and increasing the space that houses the security officers and systems required to control the entry/exit points ($2,662,400); (c) upgrading and expanding the existing video surveillance system to enhance security measures and improve monitoring capabilities within and around the Headquarters premises ($1,250,800); and (d) strengthening security screening and detection at access points at Headquarters premises by upgrading outdated screening systems and inadequate equipment ($187,100).

33.19 Under the new multi-year projects, the provision of $1,041,200 would provide for: (a) the replacement of the water tanks which provide backup supply for fire suppression and the water supply system ($350,000); (b) the replacement of outdated and worn out vehicular and pedestrian barriers, including motorized sliding and swing vehicular gates and motorized traffic arm barrier systems ($639,700); and (c) the acquisition of specialized firefighting units equipped with advanced fire suppression systems ($51,500).

33.20 The resource requirements for Headquarters are summarized in table 33.3.

Table 33.3

Improvement of ICT infrastructure (global)	1 670.4
Safety and security infrastructure	6 946.0
Subtotal, B.1	**12 431.4**
2. New multi-year projects	
Major maintenance of facilities and general infrastructure	350.0
Safety and security improvements	691.2
Subtotal, B.2	**1 041.2**
Total	**15 687.6**

2. United Nations Office at Geneva

Resource requirements: $8,073,100

33.21 The provision of $8,073,100 would be required to fund continuing ($6,720,100) and new ($1,353,000) multi-year activities.

33.22 Under the continuing multi-year activities, the resources would provide for: (a) the assessment and replacement of the emergency generators ($800,000); (b) the assessment and replacement of corroded heating pipes at the end of their lifespan which are not part of the scope of the strategic heritage plan ($100,000); (c) the collection and disposal of hazardous materials ($100,000); (d) the replacement of outdated technological infrastructure equipment ($880,000); and (e) the strengthening of the security screening and detection system, including the installation of revolving doors at access points to the historical buildings in the Palais des Nations campus that can be activated by electronic access control only, in order to prevent the possibility of more than one person entering at the same time, thus ensuring that access to the interior of the buildings is permitted only to authorized pre-accredited individuals ($1,800,000). The provision also includes an amount of $3,040,100 (SwF 2,502,000) for the annual repayments to the host country of the loan related to the strategic heritage plan.

33.23 Under new multi-year activities, the resources would provide for: (a) the implementation of a standard-compliant digital preservation system for born-digital data and records in order to ensure the Organization’s accountability and long-term information management for future reference and transparency ($650,000); (b) the upgrading of the integrated security operations centre ($324,500); and (c) the upgrading of the perimeter fence and the perimeter intrusion detection system ($378,500).

33.24 The selection of the proposed projects has been made in close consultation with the strategic heritage plan project team to ensure that the proposed works would not need to be redone in the future and that only essential needs and urgent repairs, particularly at the Palais des Nations, are considered while the overall renovation project is under way.

33.25 The resource requirements for the United Nations Office at Geneva are summarized in table 33.4.

Table 33.4
Resource requirements by nature of project, United Nations Office at Geneva
(Thousands of United States dollars)

Description	*Amount*
B. New and continuing multi-year projects	
1. Continuation of multi-year projects	
Major maintenance of facilities and general infrastructure	1 000.0
Improvement of ICT infrastructure	880.0
Safety and security improvements	1 800.0
Repayment of the loan for the strategic heritage plan	3 040.1
Subtotal, B.1	**6 720.1**
2. New multi-year projects	
Improvement of ICT infrastructure	650.0
Safety and security improvements	703.0
Subtotal, B.2	**1 353.0**
Total	**8 073.1**

3. United Nations Office at Nairobi

Resource requirements: $3,057,600

33.26 The total provision of $3,057,600 would provide for: (a) a one-time project ($315,000); and (b) new and continuing multi-year projects ($2,742,600).

33.27 Under one-time projects, the provision of $315,000 would cover the design and construction of a modern armoury for weapons tracking and inventory.

33.28 Under the multi-year continuing projects, a provision of $1,742,600 would provide for: (a) the annual renewal of the Check Point firewall software for information security and protection against cyberattacks ($70,000); (b) the upgrade and provision of ICT active components ($435,000); (c) the construction of a state-of-the-art integrated security operations centre and the integration of the existing security control centre and radio room at the publishing building, as well as the refurbishment of the existing secondary operations centre ($432,600); (d) the replacement of outdated access control devices with standardized models, as well as the Software House card readers and door controllers ($487,100); (e) the upgrading and improvement of the functionality of video surveillance analysis and video analytics servers ($263,900); and (f) the replacement of the existing spike barriers and compressor system ($54,000).

33.29 Resources proposed for a new multi-year project relate to the upgrading and expansion of the existing multistorey car park to meet the increased demand as a result of increased staffing on the complex ($1,000,000).

33.30 The resource requirements are summarized in table 33.5.

Table 33.5

(Thousands of United States dollars)

Description	*Amount*
A. One-time projects (new)	
Safety and security improvements	315.0
Subtotal, A	**315.0**
B. New and continuing multi-year projects	
1. Continuation of multi-year projects	
Improvement of ICT infrastructure	505.0
Safety and security improvements	1 237.6
Subtotal, B.1	**1 742.6**
2. New multi-year projects	
Improvement of facilities and general infrastructure	1 000.0
Subtotal, B.2	**1 000.0**
Total	**3 057.6**

4. United Nations Office at Vienna

Resource requirements: $2,650,200

33.31 The total provision of $2,650,200 would continue to cover both the share of the United Nations Office at Vienna to finance the maintenance and upgrades of the Vienna International Centre, which is managed by the United Nations Industrial Development Organization on a cost-shared basis through an agreement among the organizations based at the Centre and the host Government (with regard to major maintenance projects), as well as the share of the United Nations Office at Vienna in respect of the safety and security installations at the Centre, together with the associated ICT components. The requested amount is calculated on the basis of the current share of the Office, which is 23.661 per cent of the total alteration and improvement requirements, as well as safety and security improvements, and 11.831 per cent of the total major maintenance requirements. This share is based on a composite of the space, staff and workload of the four organizations in determining the respective share of costs.

33.32 For 2026, the contribution of the United Nations Office at Vienna is for: (a) the Common Buildings Management Fund for the periodic repairs, upgrades and maintenance of the Vienna International Centre ($1,411,200); (b) the Check Point firewall software for information security and protection against cyberattacks ($154,800); and (c) perimeter security improvements, including the construction of the ballistic protection and lockdown mechanism for Gate 3 at the Vienna International Centre ($813,100).

33.33 In addition, contributions to one-time projects for safety and security improvements include: (a) the replacement of end-of-life X-ray metal detectors ($149,100); (b) the replacement of network components ($67,800); and (c) the enhancement of video management system software ($54,200).

33.34 The resource requirements are summarized in table 33.6.

Table 33.6

B. New and continuing multi-year projects	
1. Continuation of multi-year projects	
Improvement of facilities and general infrastructure	654.4
Major maintenance of facilities and general infrastructure	756.8
Improvement of ICT infrastructure	154.8
Safety and security improvements	813.1
Subtotal, B.1	**2 379.1**
Total	**2 650.2**

5. Economic Commission for Africa

Resource requirements: $3,904,600

33.35 The total provision of $3,904,600 would provide for: (a) the continuation of multi-year projects ($3,400,000); and (b) new multi-year activities ($504,600).

33.36 Under continuing multi-year projects, the resources proposed would provide for: (a) the refurbishment of the Zambezi Building cladding, as the result of a technical survey revealed the need for the removal and reinstallation of large patches of the granite claddings across the building, as well as smaller-scale maintenance and repair, in order to avoid further erosion and safety risks ($500,000); and (b) the strengthening, hardening and compartmentalizing of the Commission's compound in Addis Ababa, including the perimeter wall and gates ($2,900,000).

33.37 A new multi-year project relates to the refurbishment within the ground floor of the Niger Building for the implementation of flexible workspace fit-out and the refurbishment of the security hub ($504,600).

33.38 The resource requirements are summarized in table 33.7.

Table 33.7

6. Economic Commission for Latin America and the Caribbean

Resource requirements: $1,646,000

33.39 The total provision of $1,646,000 would provide for the implementation of: (a) a one-time project ($150,200); and (b) new and continuing multi-year projects ($1,495,800).

33.40 The one-time provision of $150,200 would upgrade the existing vehicular access gates to enhance perimeter security, ensure compliance with the minimum operating security standards of the Department of Safety and Security and mitigate identified security risks.

33.41 A provision of $910,000 would cover the continuation of projects, including: (a) ongoing interventions to improve accessibility ($100,000); (b) the restoration of interior panels and furniture in the Raúl Prebisch Conference Room ($85,000); (c) ICT security operations ($320,000); (d) the digital transformation project ($305,000); and (e) the upgrading of the Commission's statistical and geospatial databanks and platforms ($100,000).

33.42 The proposal for a new multi-year project amounting to $585,800 would replace obsolete security equipment with updated technology to ensure operational continuity, system reliability and compliance with security standards.

33.43 The resource requirements are summarized in table 33.8.

Table 33.8

B. New and continuing multi-year projects	
1. Continuation of multi-year projects	
Improvement of facilities and general infrastructure	100.0
Major maintenance of facilities and general infrastructure	85.0
Improvement of ICT infrastructure	725.0
Subtotal, B.1	**910.0**
2. New multi-year projects	
Safety and security improvements	585.8
Subtotal, B.2	**585.8**
Total	**1 646.0**

7. Economic and Social Commission for Asia and the Pacific

Resource requirements: $1,357,500

33.44 The total of $1,357,500 would provide for: (a) one-time projects ($281,200); and (b) continuing multi-year projects ($1,076,300).

33.45 The provision of $281,200 would provide for one-time projects, including: (a) the enhancement of the electronic access control system by replacing outdated infrastructure with modern, high-security solutions ($205,500); and (b) the replacement of outdated access control devices, including controllers and readers ($75,700).

33.46 Resources amounting to $1,076,300 would provide for continuing initiatives, including: (a) the upgrading of existing fire alarm systems with audible and visible warning systems to comply with the accessibility requirements in the Service Building and the Conference Centre ($400,000); (b) the renovation of audiovisual facilities ($50,000); (c) the construction of a new main entrance ($100,000); (d) the replacement of shatter-resistant film on windows at the Conference Centre ($457,600); and (e) asbestos abatement, to continue the removal of low-risk asbestos-containing material discovered during surveying ($68,700).

33.47 The resource requirements are summarized in table 33.9.

Table 33.9

Subtotal, B.1	**1 076.3**
Total	**1 357.5**

8. Economic and Social Commission for Western Asia

Resource requirements: $1,979,700

33.48 The total provision of $1,979,700 would provide for continuing ($1,868,300) and new ($111,400) multi-year projects, including: (a) the continuation of the accessibility improvements project ($400,000); (b) the ongoing replacement of heating, ventilation and air-conditioning systems ($427,500); (c) the implementation of solar photovoltaic panels and power backup systems ($120,000); (d) the replacement and overhaul of major building equipment ($65,000); (e) the ongoing upgrade of integrated security systems in the information technology infrastructure ($250,000); (f) the ongoing upgrade and major maintenance of enterprise information technology infrastructure ($305,000); (g) the replacement of barriers at the vehicular entrance to United Nations

House ($133,700); (h) the replacement of turnstiles at United Nations House ($167,100); and (i) the strengthening of the United Nations House perimeter ($111,400).

33.49 The resource requirements are summarized in table 33.10.

Subtotal, B.2	**111.4**
Total	**1 979 7**

9. United Nations Truce Supervision Organization

Resource requirements: $500,000

33.50 The total provision of $500,000 would provide for the continuing multi-year project relating to the complex in Jerusalem, including: (a) renovating existing toilet facilities to meet hygiene standards; (b) replacing interior finishes to rejuvenate the appearance and functionality of interior spaces; (c) repairing roof leakage, interior cracks and drainage gutters; (d) overall painting works; and (e) enhancing the performance, efficiency and reliability of the existing central boiler system within the compound.

33.51 The resource requirements are summarized in table 33.11.

10. Office of the United Nations Special Coordinator for the Middle East Peace Process

Resource requirements: $1,000,000

33.52 The total provision of $1,000,000 would provide for a one-time project relating to the renovation of the Gaza compound to make functional the current compound, which has been damaged as a result of the current situation in Gaza.

33.53 The resource requirements are summarized in table 33.12.

I. Organizational structure and post distribution for 2026 37
II. Summary of proposed post changes, by component and subprogramme 38

A. Proposed programme plan for 2026 and programme performance in 2024

Overall orientation

Mandates and background

34.1 The Department of Safety and Security is responsible for providing leadership, operational support and oversight of the United Nations security management system. The mandate derives from the priorities established in relevant General Assembly resolutions and decisions, including resolution 59/276, by which the Department was established. The Department enables the United Nations to carry out its operations and programmes globally and provides support to approximately 180,000 personnel and 400,000 of their dependants in more than 125 States and territories.

34.2 The security environment in which the United Nations operates remains highly complex and unpredictable, owing to multiple factors, including war, conflict, civil unrest and crime, as well as the expansion by non-State armed groups of their scope and capabilities by exploiting unaddressed grievances, the indifference to international humanitarian law of some actors and unprecedented levels of climate change-induced migration, in specific contexts, which interact with social, political and economic drivers in places where the United Nations is called to deliver its mandates.

Strategy and external factors for 2026

34.3 The Department will continue to implement its activities and strengthen its capabilities in support of United Nations mandates and objectives through a risk-based approach tailored to the needs of United Nations system entities in carrying out their programmes while keeping their personnel safe in challenging operating environments. To sustain ongoing reforms for increased resilience, efficiency and results, the Department will place greater emphasis on strategic coordination between subprogrammes and across United Nations Headquarters and field locations to enhance the coherence, timeliness and impact monitoring of the Department's strategic initiatives.

34.4 The emphasis on resilience is driven by the risks that the operational environment poses to the Department's ability to carry out its mission, as articulated in its enterprise risk management system. The Department will continue to strengthen its resilience through the development of country programmes that articulate the Department's contributions to United Nations results as presented in the United Nations Sustainable Development Cooperation Framework and in humanitarian response plans, and by strengthening synergies between core strategic capacities for preparedness and emergency response and field operations. The Department will also maintain its capacities and partnerships to enhance its response to sudden, large-scale crises, drawing on rapidly deployable assets from across the Department's varied sources of security expertise and in tandem with other United Nations entities for a cohesive response.

34.5 The Department will also pursue operational efficiency across its operations to meet increased demands within existing means, including through the continued implementation of a digital transformation project. This effort will focus on further digitizing relevant processes, accelerating analytical and reporting capabilities and building digital literacy skills across the Department's workforce. Efficiency will also remain a central dimension in the Department's conduct of thematic evaluations, compliance monitoring missions and lessons learned exercises.

34.6 The Department will continue to implement the multi-year standardized access control project to upgrade the United Nations security infrastructure, as presented in the report of the Secretary-General on capital investment planning (A/79/510).

34.7 The Department will update and enhance its training programme in support of integrated security workforce performance and its ability to tailor security services to the needs of United Nations programmes around the world. The Department's advocacy and communication efforts will further stress, concretely and transparently, how security support contributes to the achievement of results by enabling

the delivery of United Nations mandates. The Department will also continue to work towards reaching gender parity and pursue geographical representation and diversity in the profile of its workforce.

34.8 With regard to cooperation with other entities at the global, regional, national and local levels, the Department will continue its commitment to close collaboration with implementing partners of the United Nations, including non-governmental organizations, notably through the Saving Lives Together framework, which promotes security-related information-sharing and best practice exchanges between the United Nations and international non-governmental organizations.

34.9 With regard to inter-agency coordination and liaison, the Department will continue to play a leadership role, through the Inter-Agency Security Management Network, in the development, updating and implementation of system-wide security policies aimed at enabling United Nations operations within acceptable risk levels, and tactical measures, including personnel security training and awareness. In particular, the Department will collaborate with the Network to finalize and implement recommendations from an in-depth review of the United Nations security management system, initiated in 2025 at the request of the High-level Committee on Management of the United Nations System Chief Executives Board for Coordination (CEB). Furthermore, the Department will continue to participate in inter-agency coordination mechanisms, including the High-level Committee.

34.10 With regard to the external factors, the Department considered applicable risks identified in its risk register and, accordingly, the overall plan for 2026 is based on the following planning assumptions:

(a) Crises and security environments will evolve quickly and unpredictably, and the ability of the United Nations to gain safe access to areas and communities for programme delivery will continue to be challenged. Simultaneous large-scale and complex emergencies will continue to require agility, flexibility and rapid security responses to support the scale-up, and adjustment as required, of the United Nations presence and humanitarian programmes;

(b) Security needs will remain high during drawdowns and withdrawals of United Nations peace operations, and active engagement with Member States will be required when such transitions occur;

(c) Personnel of the United Nations and its premises will continue to face direct and indirect threats, including from threat actors using innovative and advanced techniques, which will require new and specialized responses from the United Nations security management system;

(d) Host Governments will continue to provide security support to the United Nations; and in some cases, this support may need to be supplemented depending on the security context and capacities;

(e) Demand for enhanced levels of security risk analysis, training, advice, responses and solutions to support the security needs and obligations of United Nations Designated Security Officials and of members of the Security Management Team will continue to be high;

(f) Adequate extrabudgetary resources are available for additional security capabilities to enable programming, notably in crisis settings.

34.11 The Department integrates a gender perspective into its operational activities, deliverables and results, as appropriate. The Department will continue to strengthen its gender-sensitive approach to security management. On the basis of regular engagement with its network of focal points and in close collaboration with the Inter-Agency Security Management Network, it will also continue to refine its approach to creating a safe working environment for United Nations staff and operations and increasing awareness of and taking action to prevent sexual exploitation and abuse, among other matters.

34.12 In line with the United Nations Disability Inclusion Strategy, the Department will build a supportive environment for persons with disabilities. It will continue to incorporate disability inclusion into its risk management process and engage with organizations of persons with disabilities when developing measures to enable the accessibility of premises and to ensure the safety and security of persons with disabilities. It will maintain a regular review of accommodation and accessibility for staff and delegates with disabilities and monitor their satisfaction with the level of support received.

Legislative mandates

34.13 The list below, which was reviewed in the preparation of the proposed programme budget, provides all mandates entrusted to the programme.

General Assembly resolutions and decisions

54/192; 55/175; 78/118; 79/138	Safety and security of humanitarian personnel and protection of United Nations personnel	Decision 57/567	Inter-organizational security measures: framework for accountability for the United Nations field security management system
56/255, sect. VIII	Special subjects relating to the proposed programme budget for the biennium 2002–2003: safety and security of United Nations personnel	59/276, sect. XI	Questions relating to the programme budget for the biennium 2004–2005: strengthened and unified security management system for the United Nations
56/286	Strengthening the security and safety of United Nations premises	61/263	Strengthened and unified security management system
		78/290	Improving global road safety

Security Council resolutions

1502 (2003)	2730 (2024)

Deliverables

34.14 Table 34.1 lists all cross-cutting deliverables of the programme.

Table 34.1
Cross-cutting deliverables for the period 2024–2026, by category and subcategory

Category and subcategory	*2024 planned*	*2024 actual*	*2025 planned*	*2026 planned*
A. Facilitation of the intergovernmental process and expert bodies				
Parliamentary documentation (number of documents)	**1**	**1**	**1**	**1**
1. Report on the safety and security of humanitarian personnel and protection of United Nations personnel	1	1	1	1
Substantive services for meetings (number of three-hour meetings)	**3**	**3**	**3**	**3**
Meetings of:				
2. The Fifth Committee	1	1	1	1
3. The Committee for Programme and Coordination	1	1	1	1
4. The Advisory Committee on Administrative and Budgetary Questions	1	1	1	1
B. Generation and transfer of knowledge				
Technical materials (number of materials)	**2**	**2**	**2**	**2**
5. Security Policy Manual	1	1	1	1
6. Designated Official and Security Management Team Handbook	1	1	1	1
E. Enabling deliverables				
Safety and security: internal United Nations security management system policies, procedures and guidelines, technical support briefings on security policies, procedures and guidelines of the United Nations security management system for more than 150 designated officials for security and security decision makers and for 4,000 security professionals and United Nations personnel in the field and at Headquarters; and security-related platforms, including the United Nations Security Managers Information Network and the programme criticality database used in all 41 high- and very high-risk areas of operations.				

Evaluation activities

34.15 The following evaluations are planned for 2026:

(a) Independent evaluation of capacities and systems for preparedness and resilience of the Department;

(b) Independent evaluation of the approach taken by the Department to risk management.

Programme of work

Subprogramme 1
Security and safety services

Objective

34.16 The objective, to which this subprogramme contributes, is to ensure a safe and secure environment for all United Nations personnel, delegates, dignitaries and other visitors while conducting activities at United Nations Headquarters, offices away from Headquarters and regional commissions and while attending special events hosted by the United Nations at external locations.

Strategy

34.17 To contribute to the objective, the subprogramme will provide strategic coordination and management of the security and safety services at eight duty stations, as well as operational guidance and technical supervision with regard to security risk management, physical security, close protection, crisis management, fire safety, recruitment, resilience, training and oversight of security and safety projects at those locations.

34.18 The above-mentioned work is expected to result in:

(a) Safe, secure and efficient access of delegates, staff and visitors to United Nations premises and external special events;

(b) Effective delivery of United Nations mandates and programmes at United Nations premises and external special events.

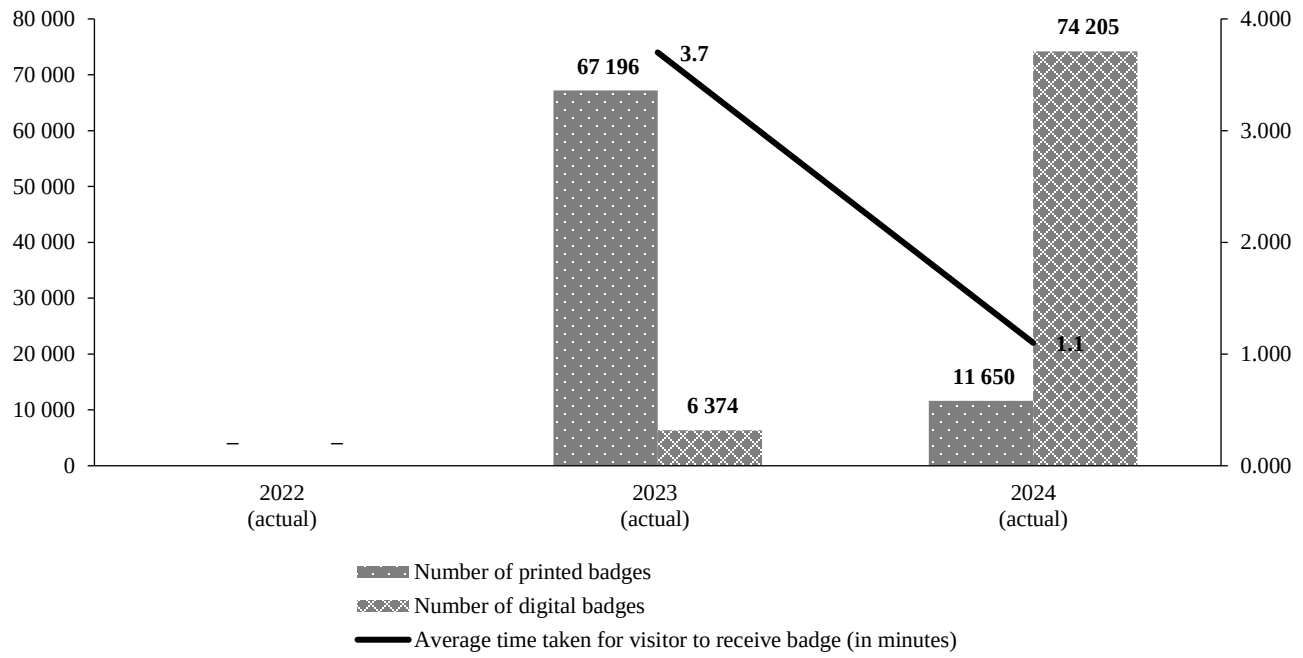
Programme performance in 2024

Conference participants and visitors utilize digital badges at the United Nations Office at Geneva

34.19 In the past, conference participants and other visitors to the Palais des Nations often had to wait in long lines to process their physical security badges before being admitted into the premises. In 2023, the subprogramme piloted a more efficient digital badging solution for delegates, conference participants and visitors to the United Nations Office at Geneva. In 2024, this solution was rolled out extensively to almost all visitors to the Palais des Nations. Registered conference participants and visitors now receive a digital badge by email, consisting of their photo, a Quick Response (QR) code, their name and the date of their meeting or appointment. Operating in a similar manner to an airline electronic boarding pass, the digital badge, once downloaded to any mobile device, enables faster entry to the premises by dispensing with the time needed to create a “physical” badge and provides visitors with an easy and convenient solution to access the premises. This solution has also contributed towards the elimination of paper, metal and plastic waste and reductions in the lead time for the processing and issuance of badges.

34.20 Progress towards the objective is presented in the performance measure below (see figure 34.I).

Figure 34.I
Performance measure: improved ease of access for visitors to the Palais des Nations (annual)



Planned results for 2026

Result 1: delegates and participants experience a uniform and consistent approach to security- and safety-related matters for conferences and special events held at external venues

Programme performance in 2024 and target for 2026

34.21 The subprogramme's work contributed to delegates and participants at conferences and special events held at external venues receiving consistent safety and security services, with similar lengths of time for the collection of credentials and security screening as at Headquarters, which met the planned target.

34.22 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 34.2).

Table 34.2
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Delegates receive security and safety services, including collection of credentials and physical security screening, according to the expertise and experience of the event security coordinator and interaction with the host country security counterpart	Delegates receive security and safety services that are consistent across conferences and are in line with benchmarks established at Headquarters	Delegates and participants at conferences and special events held at external venues receive consistent safety and security services, with similar lengths of time for the collection of credentials and security screening as at Headquarters	Efficient access for conference participants, with all conferences and special events at external venues having separate dedicated lanes for delegates, United Nations staff and external service staff for physical security screening and collection of credentials	Smooth physical security screening and efficient access to events held at Headquarters, with at least 50 per cent of delegates receiving their credentials in advance of the event

Result 2: improved ease of movement of delegates and staff across duty stations

Programme performance in 2024 and target for 2026

34.23 The subprogramme's work contributed to six of the eight duty stations utilizing a common operating system and online infrastructure, which did not meet the planned target of a common operating system and online infrastructure established to support a common credential access control card across all eight duty stations for delegates and staff. The target was not met due to challenges with implementing foundational work for integration of the common operating system in two duty stations.

34.24 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 34.3).

Table 34.3
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	Delegates and staff members have credentials which allow access to premises at the issuing duty station only	Six of the eight duty stations utilize a common operating system and online infrastructure to support a common credential access control card for delegates and staff	Physical infrastructure is in place to facilitate the ease of access of delegates and staff travelling between the eight duty stations under a common platform for access control	Two duty stations implement new United Nations grounds pass credentials

Result 3: improved registration, badging and security facilities for persons with disabilities

Proposed programme plan for 2026

34.25 The subprogramme is responsible for engaging with and ensuring the safety and security of all delegates and other participants in events at United Nations premises. From their arrival to the

premises and the conduct of physical security checking to their accreditation and badging processes, and their movements within United Nations premises, it is essential for persons with disabilities to share a similar, safe and respectful experience as all other persons entering, working in or visiting United Nations premises.

Lessons learned and planned change

34.26 The lesson for the subprogramme was that while it has adapted infrastructure to facilitate physical access for persons with disabilities, it needs to further engage with organizations of persons with disabilities to better understand their needs and requirements, integrate accessibility measures into registration and badging facilities and provide specialized training to its staff to ensure that persons with disabilities experience United Nations premises on an equal basis with others.

34.27 Expected progress towards the objective is presented in the performance measure below (see table 34.4).

Table 34.4
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Limited facilities and procedures in place at registration and badging facilities for persons with disabilities	Improved procedures and facilities in place at registration and badging facilities for persons with disabilities in two duty stations	Improved procedures and facilities in place at registration and badging facilities for persons with disabilities in two additional duty stations

Deliverables

34.28 Table 34.5 lists all deliverables of the subprogramme.

Table 34.5
Subprogramme 1: deliverables for 2026, by category and subcategory

Category and subcategory
E. Enabling deliverables
Safety and security: security and access control for approximately 6 million people per year at United Nations Headquarters, offices away from Headquarters and regional economic and social commissions; security support for approximately 84 United Nations special events and conferences held away from United Nations premises; approximately 9,000 close protection operations for senior United Nations officials and visiting dignitaries; 2,600 security incident investigations; 2,400 fire safety checks.

Subprogramme 2
Field operations

Objective

34.29 The objective, to which this subprogramme contributes, is to ensure the safety and security of personnel and the security of United Nations premises and assets in the United Nations field duty stations to enable the implementation of United Nations mandates, programmes and activities worldwide.

Strategy

34.30 To contribute to the objective, the subprogramme will:

(a) Provide operational security support for United Nations field programme delivery and field programme personnel through effective and timely security coordination and advice;

(b) Provide consistent and integrated strategic and operational support to, and guidance for, field operations in the preparation for and management of security crises, including through the integration of core strategic capacities, specifically resilience and emergency response;

(c) Deploy security professionals in a rapid and timely fashion to countries, missions and areas, including those affected by crisis situations and security contingencies;

(d) Conduct security assessment missions to field locations to review and assess local security management processes and procedures;

(e) Conduct regional workshops and global conferences for all of the Department's senior field security professionals to share operational best practices and lessons learned and to ensure consistent security management practices and procedures;

(f) Develop its capacity to capture and analyse data and deliver analytical products for security decision makers.

34.31 The above-mentioned work is expected to result in:

(a) Improved preparedness, effectiveness, efficiency, relevance and resilience of security risk management processes;

(b) Enhanced capacity to enable United Nations programmes to be carried out in high-risk environments, in line with the United Nations goal to stay and deliver;

(c) Enhanced ability of security decision makers to take risk-informed decisions;

(d) Enhanced and streamlined security management measures in the field.

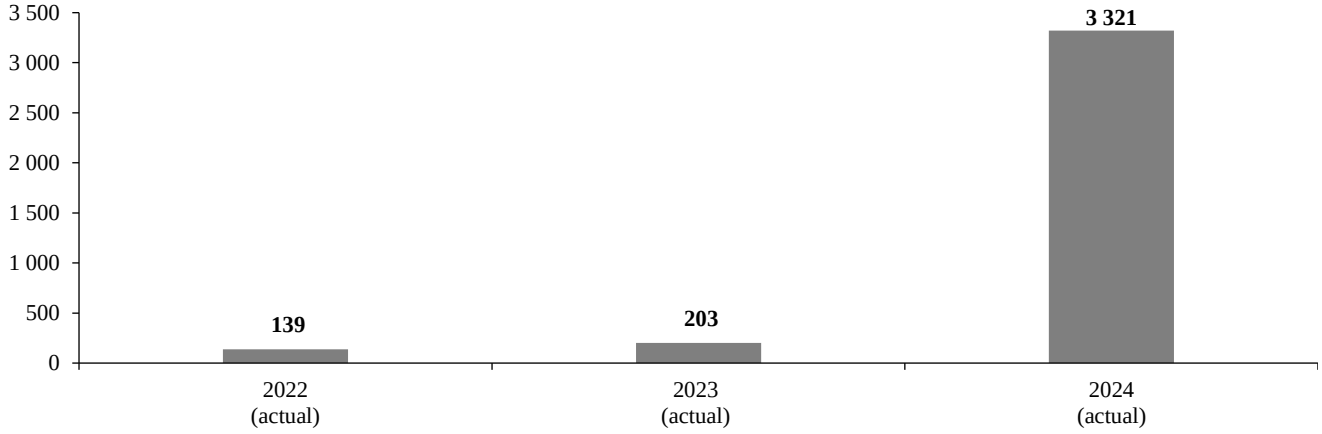
Programme performance in 2024

United Nations programme delivery enabled in very high-risk areas

34.32 The subprogramme enables the United Nations to deliver its critical mandates, programmes and activities across the globe, including in areas characterized as high risk and very high risk. The year 2024 saw further increases in instability and deepening crises across every region, with associated increased needs of civilians for United Nations humanitarian programmes to assist them. The subprogramme enabled very high-risk missions in numerous locations, including Haiti, Israel and the Occupied Palestinian Territory, Lebanon and Ukraine. These included carrying out security assessments for operational readiness and enabling missions to deliver water, food and life-saving medicine to civilians in urgent need of humanitarian assistance, investigating human rights violations, facilitating high-level engagement and expanding humanitarian access.

34.33 Progress towards the objective is presented in the performance measure below (see figure 34.II).

Figure 34.II
Performance measure: number of very high-risk missions enabled (annual)



Planned results for 2026

Result 1: improved coherence and consistency of security management processes and procedures to better enable United Nations operations across field operations globally

Programme performance in 2024 and target for 2026

34.34 The subprogramme's work contributed to improved quality, coherence and consistency of security management processes by field operations through the use of improved tools for risk assessment and security contingency planning; and to field operations using strategic foresight to identify possible emerging security threats to United Nations programme delivery and to design appropriate responses, which met the planned target.

34.35 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 34.6).

Table 34.6
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
Field operations adopted recommendations related to risk mitigation measures, such as in Somalia, where United Nations operations mainstreamed security analysis and operational responses into programming and budgeting, as well as the availability of timely and up-to-date information to Member States	Improved quality and consistency of local security management processes, procedures and tools, with local security decision makers using the Safety and Security Incident Recording System dashboard to gain real-time insights into the security and safety landscape	Improved quality, coherence and consistency of security management processes by field operations through the use of improved tools for risk assessment and security contingency planning Field operations used strategic foresight to identify possible emerging	Improved accounting for United Nations personnel in the field during crisis incidents by local security decision makers, through enhanced data management and analysis	Improved quality, coherence and consistency of security risk management documents produced by field operations globally through the integration of quality cross-checking techniques into the online security risk management e-tool, and the development and piloting of online

2022 (actual)	2023 (actual)	2024 (actual)	2025 (planned)	2026 (planned)
		security threats to United Nations programme delivery and to design appropriate responses		security planning systems

Result 2: improved preparedness and response to crises

Programme performance in 2024 and target for 2026

34.36 The subprogramme's work contributed to United Nations Designated Officials for Security, security professionals and other members of crisis management teams utilizing security management processes and procedures, including by drawing on specialized response capabilities, to effectively respond to specific crises, which met the planned target.

34.37 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 34.7).

Table 34.7
Performance measure

2022 (actual)	2023 (actual)	2024 (actual)	2025 (planned)	2026 (planned)
–	A crisis coordination mechanism was established to improve information flow and ensure more efficient response to crises in high-risk countries	United Nations Designated Officials for Security, security professionals and other members of crisis management teams utilized security management processes and procedures, including by drawing on specialized response capabilities, to effectively respond to specific crises	Timely coordination and response, with a crisis coordination mechanism established, as required, within 72 hours of a specific crisis	Enhanced readiness through operational foresight and the analysis of humanitarian crisis risk criteria

Result 3: improved security decision-making

Proposed programme plan for 2026

34.38 The subprogramme provides operational security support for United Nations field programme delivery and field programme personnel through effective and timely security coordination and advice. Given the increased number of crises, and the expanding complexity and scope of operations globally, more data and analysis are required to better inform decision-making on the allocation of limited security resources.

Lessons learned and planned change

34.39 The lesson for the subprogramme was that the Department needed to utilize a more strategic, data-informed approach to identify the best allocation of its resources. In applying the lesson, the subprogramme has initiated the development of a data-based tool that integrates the security complexity of the operational environment as well as the scale and scope of operations. This tool will enable more informed analysis and decision-making by senior security leadership on the most effective and efficient allocation of security resources, ultimately enhancing the ability of the Organization to plan and operate in high-risk environments with greater confidence and security.

34.40 Expected progress towards the objective is presented in the performance measure below (see table 34.8).

Table 34.8
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
–	–	Data sets were identified and collected, with a tool being developed drawing on the data to better inform analysis and decision-making on the distribution of security resources	The new resource allocation process is conducted using a data-based tool	The Department's field capacity is better aligned with security needs, using partner-approved criteria

Deliverables

34.41 Table 34.9 lists all deliverables of the subprogramme.

Table 34.9
Subprogramme 2: deliverables for 2026, by category and subcategory

Category and subcategory
E. Enabling deliverables
Safety and security: approximately 20 security assessment visits annually, as well as security services and surge deployments in response to emerging and newly identified needs; approximately 600 security risk management reviews; approximately 360 records per month entered into the Safety and Security Incident Recording System; approximately 5,500 premises records maintained in the premises database; workshops and training on crisis management/preparedness, analysis, security management, leadership and best practices for key security personnel of United Nations security management systems.

Subprogramme 3
Partnerships and specialized support

Objective

34.42 The objective, to which this subprogramme contributes, is to ensure the safety and security of United Nations operations, premises and personnel and to improve the efficiency and effectiveness of the security operations and security management system of the United Nations.

Strategy

34.43 To contribute to the objective, the subprogramme will:

(a) Implement an information management strategy to provide the United Nations security management system with the operational backbone required for efficient, data-driven approaches to security risk management and to build and manage business processes and technology for all aspects of security delivery, including personal protection services, emergency communications, critical incident stress management, physical security and road safety;

(b) Provide leadership, coordination and oversight for safety and security training, including on topics such as resilience-building, security risk management and operational safeguarding;

(c) Increase and diversify strategic partnerships with regional and global networks in the field of close protection expertise with the intention of benchmarking and aligning United Nations personal protection services to international best practices;

(d) Provide leadership and coordination for a rapid psychosocial support response in the aftermath of critical incidents and collaborate with the United Nations system and external partners to build the psychological resilience of United Nations security management system personnel;

(e) Lead the development of physical security guidance, standards and technical specifications and undertake physical security assessments of United Nations premises worldwide;

(f) Coordinate the development of United Nations system-wide security policy and guidance as the secretariat for the Inter-Agency Security Management Network.

34.44 The above-mentioned work is expected to result in:

(a) Effective prevention of and coherent response to security incidents by United Nations security management system actors, through timely and efficient decision-making and enhanced access to data;

(b) Effective management of risks for the movement of senior United Nations officials;

(c) Mitigation of the short- and long-term psychological impact of exposure to critical incidents on United Nations security management system personnel;

(d) Reduction of physical security risks to United Nations premises and personnel;

(e) Reduction of road crash fatalities for United Nations security management system personnel.

Programme performance in 2024

Strengthened security coordination and decision-making through digital transformation

34.45 The subprogramme has been working to modernize outdated platforms and deliver innovative digital tools and real-time insights, with a view to enhancing operational efficiency, enabling proactive security management and improving situational awareness and responsiveness for operational teams and field personnel. Key achievements included: (a) the conceptualization of a personal security profile system, including staff lists, to enhance the accuracy of information on staff presence; (b) the development of a conference management application and surge deployment dashboard to streamline the coordination of safety and security services; and (c) the phased deployment of an integrated country programme planning system to improve strategic decision-making across country operations. These scalable, secure and user-centric solutions have contributed to improving safety, crisis management and collaboration across the United Nations security management system.

34.46 Progress towards the objective is presented in the performance measure below (see table 34.10).

Table 34.10
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*
Improved data accessibility and enhanced information-sharing across the United Nations security management system through an updated information-sharing system and security communication tool	Security professionals across the United Nations security management system have access to accurate staff presence information, enhanced situational awareness data and country resource details embedded in one integrated platform	Security professionals across the United Nations security management system have access to new information management tools, enabling informed decision-making

Planned results for 2026

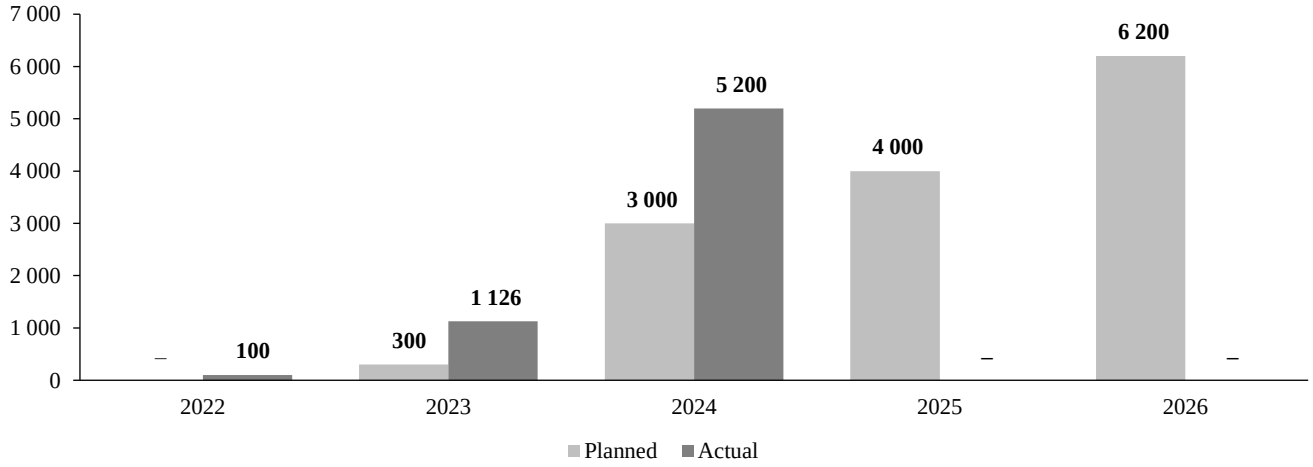
Result 1: security personnel certified to enable programme delivery with an acceptable level of risk

Programme performance in 2024 and target for 2026

34.47 The subprogramme's work contributed to an additional 4,074 security personnel having been certified to provide precise and effective security management advice, enabling programme delivery with an acceptable level of risk, for a total of 5,200 certified security personnel, which exceeded the planned target of 3,000.

34.48 Progress towards the objective and the target for 2026 are presented in the performance measure below (see figure 34.III).

Figure 34.III
Performance measure: number of security personnel certified to provide precise and effective security management advice, enabling programme delivery with an acceptable level of risk (cumulative)



Result 2: consistent and coherent operations across the United Nations security management system

Programme performance in 2024 and target for 2026

34.49 The subprogramme's work contributed to security focal points' and decision makers' increased awareness of existing policies and guidelines, and gaps in existing guidance in the areas of fire

safety, security clearance and the travel request information process being identified and addressed, which met the planned target.

34.50 Progress towards the objective and the target for 2026 are presented in the performance measure below (see table 34.11).

Table 34.11
Performance measure

2022 (actual)	*2023 (actual)*	*2024 (actual)*	*2025 (planned)*	*2026 (planned)*
United Nations security management system security focal points and security decision makers received regular briefings on emerging safety and security trends and timely assistance	United Nations security management system security focal points and security decision makers had expanded access to and were informed of changes to system policies and guidelines	United Nations security management system security focal points and security decision makers identified and addressed emerging gaps in existing guidance	All United Nations security management system security focal points and security decision makers are aware of and apply updated system policies and guidelines that take into account their operational realities	All United Nations security management system security focal points and security decision makers are aware of and share operationally informed good practices and lessons on the application of policies and guidelines

Result 3: strengthened personal protection services for senior United Nations officials

Proposed programme plan for 2026

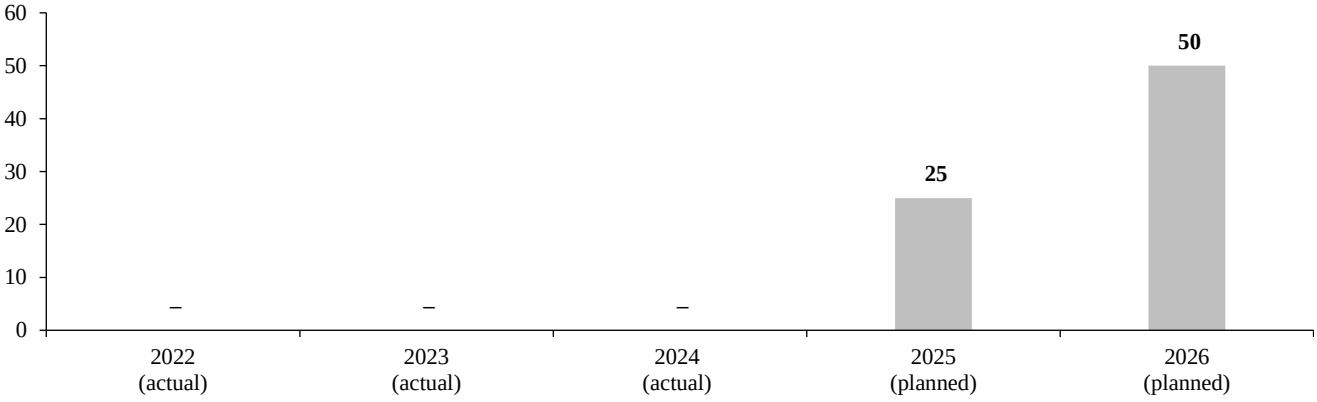
34.51 Senior United Nations officials frequently encounter increasingly complex security environments, including direct threats, both at their duty stations and during travel. To ensure that these officials can effectively fulfil their mandates, personal protection officers provide dedicated security to over 150 senior officials, including approximately 40 officials operating in medium- to high-risk environments. The Department has established the Strategy for United Nations Personal Protection Services, 2024–2028, which encompasses training programmes, operational planning enhancements and technological tools designed to align United Nations protection services with global best practices while ensuring measurable results.

Lessons learned and planned change

34.52 The lesson for the subprogramme was that protecting senior United Nations officials requires effective global coordination and operational readiness based on the highest standards. To ensure that United Nations personal protection officers excel in their field, targeted capacity-building and data-driven decision-making are essential for enhancing situational awareness and operational efficiency. In applying this lesson, the subprogramme will implement the Strategy globally, taking concrete actions to support over 400 personal protection officers. The focus will be on specialized training programmes, operational planning improvements and the alignment of United Nations protection services with global best practices to ensure optimal preparedness, effectiveness, resilience and results in increasingly challenging environments.

34.53 Expected progress towards the objective is presented in the performance measure below (see figure 34.IV).

Figure 34.IV
Performance measure: percentage of senior United Nations officials expressing increased confidence in their personal protection (annual)



Deliverables

34.54 Table 34.12 lists all deliverables of the subprogramme.

Table 34.12
Subprogramme 3: deliverables for 2026, by category and subcategory

Category and subcategory
E. Enabling deliverables
Safety and security: emotional first aid and critical incident psychosocial support for United Nations security management system personnel; stress management training for personnel in field duty stations; technical supervision sessions for United Nations field counsellors; dedicated assessments of the physical security of United Nations premises globally; topical guidance, physical security training and analysis of data provided by the physical security assessment application; security training throughout the United Nations security management system; travel tracking and coordination of protective operations related to the movement of senior United Nations officials; planning and coordination of personal protection services with respective missions; mandatory certification training for close protection officers; training on digital tools, dashboard and site development and deployment services; technical secretariat services for the Inter-Agency Security Management Network and its steering group.

B. Proposed post and non-post resource requirements for 2026

Overview

34.55 Given the dual responsibility of the Department of Safety and Security to provide for both the safety and security of staff, delegates and visitors at the main locations of the United Nations, as well as at their premises, and the safety and security of the United Nations system field operations, the activities of the Department are financed both from the regular budget and on a cost-sharing basis with other organizations covered by the security management system in the field.

34.56 The functions and activities of the Department that are jointly financed with other organizations of the security management system are those under:

(a) Security and safety services (subprogramme 1);

(b) Field operations (subprogramme 2);

(c) Partnerships and specialized support (subprogramme 3);

(d) Programme support.

34.57 With regard to the jointly financed activities of the United Nations security management system, the financial responsibility of each participating organization is based on its proportional share of the personnel operating in the field. The principles of the cost-sharing arrangement were adopted by the General Assembly in its resolution 56/255. Following the recommendation of the Assembly, in its resolution 61/263, on achieving a workable cost-sharing arrangement, the High-level Committee on Management of CEB agreed that field-related security costs would be apportioned on the basis of actual percentages of staff according to data provided by CEB. Subsequently, the Secretary-General outlined revised cost-sharing arrangements for the cost of the United Nations security management system (see A/62/641). In October 2021, the High-level Committee on Management endorsed a revision of the cost-sharing arrangement (see CEB/2021/HLCM/FB/5), effective from 2023, which, while preserving the principles adopted by the Assembly in its resolution 56/255, updated the membership fee, which had not been changed since its establishment; addressed the principle of equitability by having all organizations pay a membership fee and reinforced the notion of shared ownership for the system; and ensured that organizations in countries of the Organisation for Economic Co-operation and Development pay their fair share of the security costs. To inform future decisions on the United Nations security management system in the light of recent operational and funding shifts, the High-level Committee on Management has initiated an in-depth review of the system, led by an independent expert. The review started in March 2025 and is expected to be completed by the end of the year, with preliminary findings and recommendations to be delivered by June 2025. The review will examine a range of dimensions, including the system's governance, functions, division of responsibilities and operating modalities.

34.58 Based on the existing cost-sharing arrangement, the Secretariat share for security and safety services is 14.1 per cent for 2026, which is based on the CEB field staff census as at 31 December 2024, compared with 15.6 per cent for 2025, which was based on the census as at 31 December 2023. The level of resources proposed for 2026 for the jointly financed activities of the United Nations security management system presented in this budget fascicle was reviewed by the Finance and Budget Network of the High-level Committee on Management in March 2025. Taking into account the funding context within which United Nations system entities operate, including the ongoing significant financial constraints faced by participating entities, the Network endorsed a 2026 budget level for the United Nations security management system that reflects a 20 per cent reduction compared with the 2025 budget level for the system approved by the General Assembly in its resolution 79/258.

34.59 In addition to the jointly financed field activities described above, separate local cost-sharing arrangements govern the provision of security and safety services at the United Nations Office at Vienna, as well as other duty stations. The cost-sharing arrangements in Vienna are based on a

formula agreed upon by the four organizations located at the Vienna International Centre; similarly, the cost-sharing arrangements at the other duty stations are agreed upon locally by the participating organizations. The Secretariat share for security and safety services at the United Nations Office at Vienna is 23.7 per cent for 2026, and reflects no change compared with 2025. Those security and safety services relate to subprogramme 1.

34.60 The proposed regular budget resources for 2026, including the breakdown of resource changes, as applicable, are reflected in tables 34.13 to 34.15. Similarly, the proposed gross budget for jointly financed activities is reflected in tables 34.16 to 34.20. The gross jointly financed budget of the Department is also presented to the General Assembly for its consideration and approval, in accordance with established practice.

Resource requirements for regular budget activities

34.61 Additional details on the distribution of the proposed resources for 2026 are reflected in tables 34.21 through 34.23 and figure 34.V.

34.62 As reflected in tables 34.22 (1) and 34.23 (1), the overall resources proposed for 2026 amount to $145,245,800 before recosting, reflecting a net decrease of $5,523,900 (or 3.7 per cent) compared with the approved budget for 2025. Resource changes result from technical adjustments and other changes. The proposed level of resources provides for the full, efficient and effective implementation of mandates.

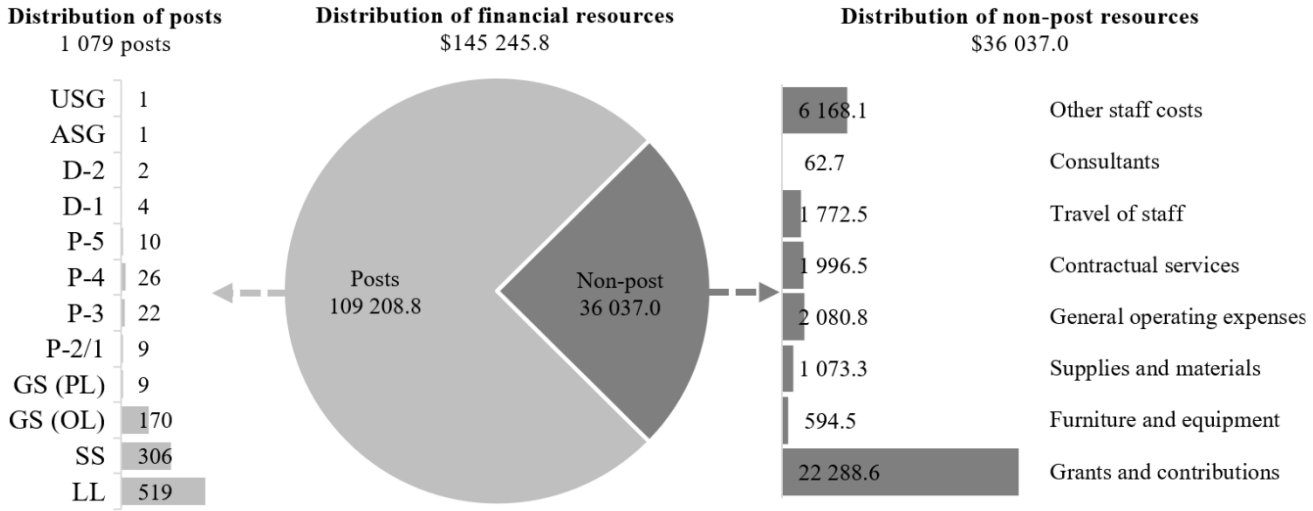
(Number of posts/thousands of United States dollars)



Explanation of variances by factor, component and subprogramme

Overall resource changes (regular budget)

Technical adjustments

34.63 As reflected in table 34.21 (1), resource changes reflect a decrease of $2,297,100, as follows:

(a) **Subprogramme 1, Security and safety services**. A decrease of $88,600 consisting of:

(i) A decrease of $23,100 under other staff costs relating to the removal of non-recurrent security personnel overtime requirements for the Preparatory Commission for the Entry into Force of the Agreement under the United Nations Convention on the Law of the Sea on the Conservation and Sustainable Use of Marine Biological Diversity of Areas beyond National Jurisdiction and the Convening of the First Meeting of the Conference of the Parties to the Agreement, pursuant to Assembly resolution 78/272;

(ii) A decrease of $65,500 under grants and contributions relating to the removal of the non-recurrent provision for three security officers deployed during the construction phase of the Gigiri master plan pursuant to General Assembly resolution 79/258 ($62,700); and a reduction in the Secretariat percentage share (14.1 per cent for 2026, compared with 15.6 per cent for 2025) in the cost of jointly financed field security operations, based on the CEB field staff census as at 31 December 2024 ($2,800);

(b) **Subprogramme 2, Field operations, subprogramme 3, Partnerships and specialized support and programme support**. A decrease of $2,208,500 under grants and contributions consisting of reductions under subprogramme 2 ($2,052,900), subprogramme 3 ($134,200) and programme support ($21,400), reflecting a lower Secretariat percentage share (14.1 per cent for 2026, compared with 15.6 per cent for 2025) in the cost of jointly financed field security operations, based on the CEB field staff census as at 31 December 2024.

Other changes

34.64 As reflected in table 34.21 (1), resource changes reflect a net decrease of $3,226,800 as follows:

(a) **Subprogramme 1, Security and safety services**. An increase of $2,000,000, which includes:

(i) The cost-neutral redeployment of $451,700 from other staff costs to posts, related to the proposed establishment of four posts (1 P-5, 1 P-4, 1 P-3 and 1 GS (Principal level)) under the global security systems, standards and projects team in the Division of Headquarters Security and Safety Services in New York, as explained in annex II;

(ii) A proposed increase of $500,000 under travel of staff for the travel of security officers who accompany senior United Nations officials during their travel, taking into account expenditure experience. One of the main functions of the Department of Safety and Security in New York is to ensure the protection of the Secretary-General, the Deputy Secretary-General and the President of the General Assembly, especially in relation to close protection during their travel. Similar to the approach in the context of the proposed programme budget for 2025, the increase of $500,000 is a step towards gradually bridging the gap between budgeted and actual expenditure for the above-mentioned travel;

(iii) A proposed increase of $1,500,000 under other staff costs for overtime requirements to provide uninterrupted security operations and services. The Department's regular budget has a historical structural funding insufficiency with regard to covering overtime of the safety and security services. Overtime is an integral part of safety and security requirements because security personnel are required to provide uninterrupted security operations and services at the United Nations Headquarters compound, including annex locations. The Security and Safety Service in New York operates on a three-shift basis, 24 hours a day, seven days a week, all year long. For safety and security services at headquarters locations and the regional commissions, overtime and night differential are required for extended security coverage after normal working hours in order to undertake the activities required for security operations;

(b) **Subprogramme 2, Field operations**. The decrease of $5,016,900 under grants and contributions reflects the Secretariat share of the proposed decrease in resources for jointly financed field operations, as explained in paragraph 34.65 below, and an alignment of the provision for the United Nations share on the basis of the agreed cost apportionment;

(c) **Subprogramme 3, Partnerships and specialized support**. The decrease of $209,900 under grants and contributions reflects the Secretariat share of the proposed decrease in resources for jointly financed field operations, as explained in paragraph 34.65 below.

Overall resource changes (jointly financed activities)

Other changes

34.65 As reflected in table 34.17, resource changes reflect a decrease of $29,898,500 under subprogramme 2, Field operations ($28,414,200) and subprogramme 3, Partnerships and specialized support ($1,484,300). The decrease reflects adjustments in line with the level of resources endorsed by the Finance and Budget Network, taking into account the funding context within which United Nations entities operate, including the ongoing financial constraints faced by participating entities. The Network also agreed that no recosting or inflationary adjustments should be applied to the 2026 budget

proposals for the United Nations security management system. Thus, the Department is planning significant adjustments to its footprint to comply with the recommendations and conclusions of the Network. In the field, these adjustments will translate into greater regionalization of functions, with more multi-country offices covering an expanded number of locations, increased nationalization of posts and the withdrawal of presence in the lowest-risk locations. At Headquarters, reductions may be achieved by consolidating both analytical and field support desk functions and pooling capacities where relevant and appropriate. Details of the footprint adjustments that will be required are not yet known, as the Department will be reviewing its presence in the coming months, location by location.

Other assessed

34.66 As reflected in tables 34.21 (2) and 34.22 (2), other assessed resources under the support account for peacekeeping operations amount to $4,550,500. The resources would complement regular budget resources and provide for the requirements indicated in the report of the Secretary-General on the 2025/26 budget for the support account for peacekeeping operations (A/79/783).

Extrabudgetary resources

34.67 As reflected in tables 34.21 (3) and 34.22 (3), extrabudgetary resources amount to $22,797,300. The resources would complement regular budget resources and be used mainly to provide security services to other agencies and organizations in various locations, special events within and surrounding the premises, and humanitarian operations amid unstable conditions in various locations, including in field offices, and for reimbursable services provided for the close protection officer certification programme, Safe and Secure Approaches in Field Environments training and other related activities.

34.68 The extrabudgetary resources under the present section are subject to the oversight of the Department, which has delegated authority from the Secretary-General.

Executive direction and management

34.69 The Under-Secretary-General for Safety and Security is responsible for the overall direction, supervision and management of the Department in the implementation of its mandates and its approved programme of work. The Under-Secretary-General is the Chair of the United Nations security management system and is assisted in the internal functioning and day-to-day management of the Department by the Assistant Secretary-General.

34.70 In managing the Department, the Under-Secretary-General is supported by the Strategic Planning Service, which is responsible for strategic planning and risk management, operational resilience and emergency response, strategic communications, gender and inclusivity, corporate governance, evaluation, compliance monitoring, lessons learned, best practices and innovation. Together, these areas enable the dissemination and implementation of a results-based focus across the Department, in line with United Nations mandates, objectives and values at the global and country levels.

34.71 In accordance with the 2030 Agenda for Sustainable Development, in particular target 12.6 of the Sustainable Development Goals, in which organizations are encouraged to integrate sustainability information into their reporting cycles, and in compliance with the cross-cutting mandate set out in paragraph 19 of General Assembly resolution 72/219, the Department is integrating environmental management practices into its operations, including in the requisition of goods and services that contribute to and support environmental stability, resilience and sustainability.

34.72 Information on the timely submission of documentation and advance booking for air travel is reflected in table 34.24.

34.73 The Department will continue to make efforts to implement advance travel planning and the early nomination of travellers. In the event of rapid security surge redeployment and close protection-related travel, the Department will work more closely with the travel unit and the agent to reserve

tickets in advance on the basis of a preliminary itinerary. Despite an improvement in compliance in 2024 compared with 2022 and 2023, the low compliance rate in 2024 was attributable primarily to rapid security surges in volatile security environments, which made advance planning challenging. Compliance with documentation deadlines remained at 100 per cent.

Table 34.24
Compliance rate
(Percentage)

	2022 actual	*2023 actual*	*2024 actual*	*2025 planned*	*2026 planned*

Air tickets purchased at least 2 weeks before the commencement of travel	44	50	56	100	100

34.74 The proposed regular budget resources for 2026 amount to $7,137,000 and reflect no change compared with the approved budget for 2025. Additional details on the distribution of the proposed resources for 2026 are reflected in table 34.25 and figure 34.VI.

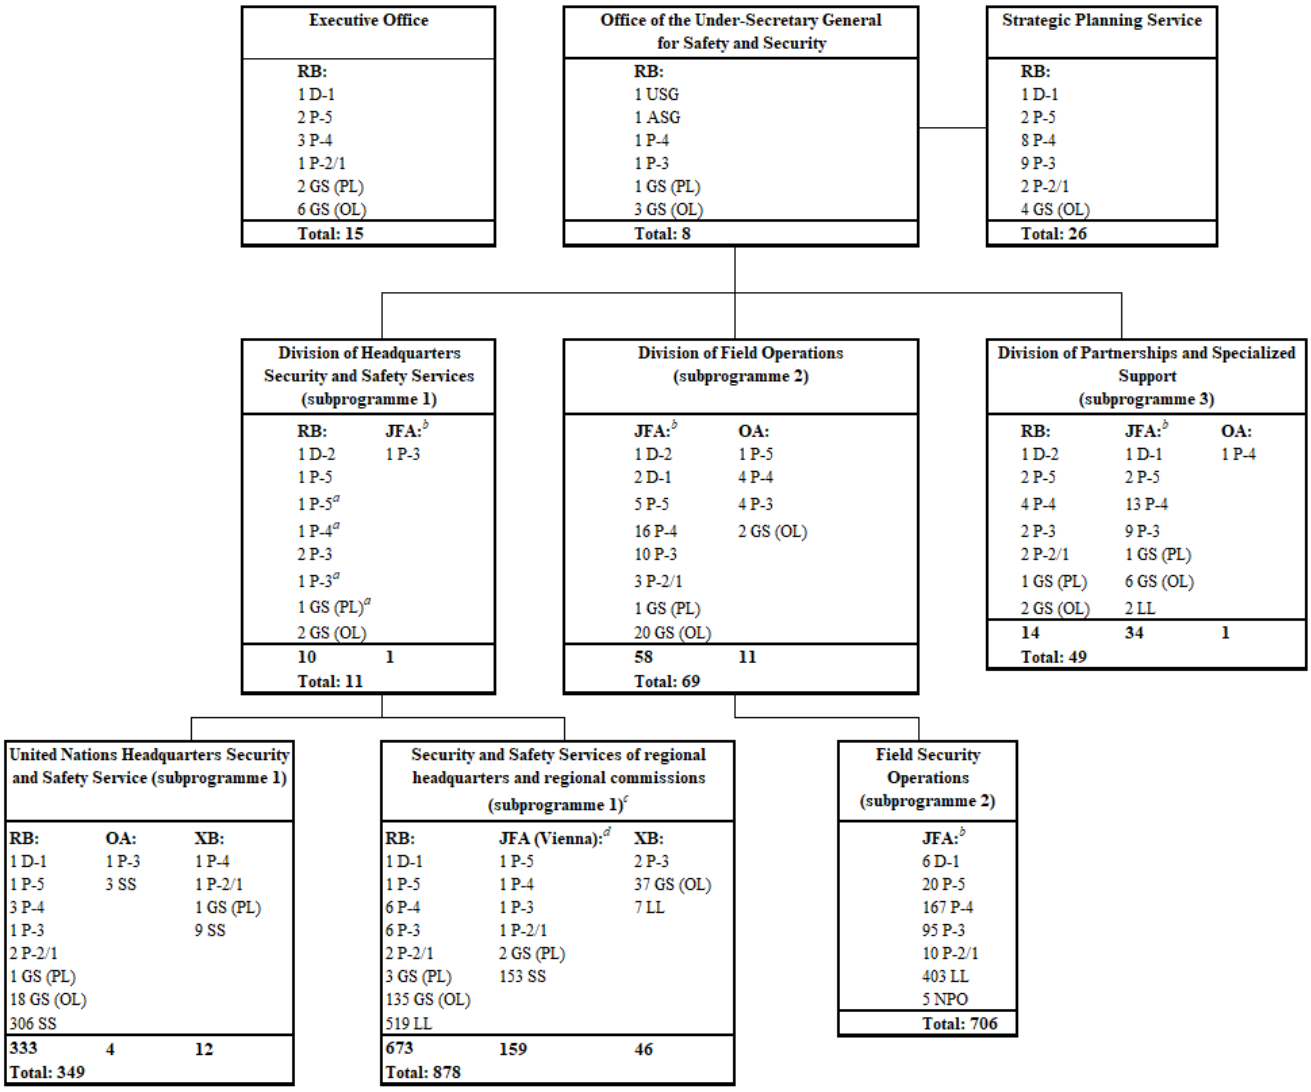
Annex I

Organizational structure and post distribution for 2026



Abbreviations: ASG, Assistant Secretary-General; GS (OL), General Service (Other level); GS (PL), General Service (Principal level); JFA, jointly financed activities; LL, Local level; NPO, National Professional Officer; OA, other assessed; RB, regular budget; SS, Security Service; USG, Under-Secretary-General; XB, extrabudgetary.

[a] Establishment.

[b] Jointly financed by all the organizations participating in the security management system in the field.

[c] Including the security and safety services at other Headquarters locations and the regional commissions.

[d] Jointly financed by all Vienna International Centre-based organizations relating to the Security and Safety Service.

Annex II

Summary of proposed post changes, by component and subprogramme

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
Regular budget				
Subprogramme 1 Security and safety services	1	P-5	**Establishment** of 1 Senior Security Officer	The proposed establishment of four posts (1 P-5, 1 P-4, 1 P-3 and 1 GS (Principal level)) under the global security systems, standards and projects team in the Division of Headquarters Security and Safety Services in New York would support the implementation of the multi-year standardized physical security improvements project at United Nations Headquarters, offices away from Headquarters and regional commissions budgeted under section 33 of the proposed programme budget (A/80/6 (Sect. 33)). As indicated in the report of the Secretary-General on capital investment planning (A/79/510), a long-term dedicated team capacity is needed to centrally manage the project, provide technical oversight for security procurement processes, standardize security systems and components, and manage security assets at the global level. These requirements are crucial for safeguarding the Organization's long-term security posture in an increasingly challenging environment, and represent a continuing requirement for the Organization beyond completion of the project, currently scheduled for 2031. Details of the functions to be performed by the incumbents of the above-mentioned posts are provided below. The Senior Security Officer (P-5) would take the lead in the overall supervision and coordination of proposals for security projects, including functional and business requirements for safety and security, related system specifications and standardization, technical validation and project execution plans. The increasing scale, complexity and global scope of physical and electronic security investments necessitate dedicated, centralized leadership to ensure consistency, compliance with United Nations standards and the long-term sustainability of security infrastructure across all locations. The Security Coordination Officer (P-4) would manage and coordinate the capital improvement projects, including upgrades to and major maintenance for security systems, from the design phase through the installation, monitoring and reporting phases. The incumbent would also identify and seek solutions to address any organizational gaps in managing common security projects and logistics, ensuring dedicated expertise and continuity in the financial, administrative and operational management of security enhancement projects across the United Nations in a consistent manner. The Security Coordination Officer (P-3) would provide a focused capacity on systems architecture, the integration landscape and applications management (such as access control, video analytics, physical security, screening and detection and cybersecurity). The incumbent would also provide technical support on the review of local procurement authority, as well as on category and asset management and data security. The establishment of this
	1	P-4	**Establishment** of 1 Security Coordination Officer	
	1	P-3	**Establishment** of 1 Security Coordination Officer	
	1	GS (PL)	**Establishment** of 1 Senior Programme Management Assistant	

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
				post would ensure dedicated technical expertise and continuous oversight of physical and electronic security systems and technologies, and their integration across the Organization. The Senior Programme Management Assistant (General Service (Principal level)) would provide the full range of administrative and operational support for the security projects team and its global activities in the delivery of outputs, including in the areas of data management, analytics, integrated reporting and communications.

Abbreviation: GS (PL), General Service (Principal level).

A. Overall orientation

Mandates and background

35.1 The Development Account was established in 1997 by the General Assembly in its resolution 52/12 B as a mechanism to fund capacity development projects of the economic and social entities of the United Nations, namely, the Department of Economic and Social Affairs of the Secretariat, the Economic Commission for Africa (ECA), the Economic Commission for Europe (ECE), the Economic and Social Commission for Asia and the Pacific (ESCAP), the Economic and Social Commission for Western Asia (ESCWA), the Economic Commission for Latin America and the Caribbean (ECLAC), the United Nations Conference on Trade and Development (UNCTAD), the United Nations Environment Programme (UNEP), the United Nations Human Settlements Programme (UN-Habitat) and the United Nations Office on Drugs and Crime. All projects funded through the Account build on the mandates and the comparative advantages of the implementing entities, including their normative and analytical capacities.

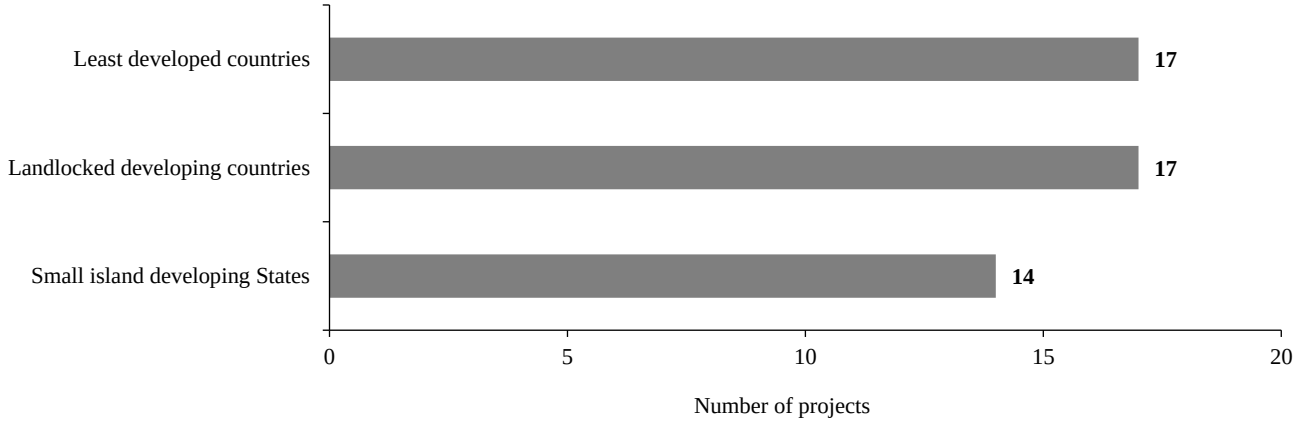
35.2 The Development Account supports developing countries in their implementation of priority areas of the United Nations development agenda, in response to expressed needs and demands from Member States, and supports the recommendations and decisions made during intergovernmental processes and by the relevant governing bodies of the implementing entities.

Strategy

35.3 The Development Account provides its 10 non-resident implementing entities with predictable funds to assist developing countries in the economic and social priority areas of the United Nations development agenda. Projects are carried out over a four-year period, with an average budget of around $675,000, and involve multiple target countries, encouraging South-South learning and experience-sharing and later feeding findings into intergovernmental processes and analytics. Projects are based on demand received from the target countries. Under the overarching theme of the eighteenth tranche, “Supporting Member States to catalyse digital transformation and an enabling policy environment for a sustainable, responsible and inclusive digital society that leaves no one behind, with a focus on gender equality and the empowerment of women and girls”, 27 proposed projects (see annex I) are spread across all regions (see figure 35.II), supporting all Sustainable Development Goals (see figure 35.III) and often supporting countries with special needs (see figure 35.I). Several of the projects are aimed at enhancing countries’ capacities to support entrepreneurship among women and to harness data and statistics (see para. 35.6 for additional details). In total, the eighteenth tranche includes eight projects that will be jointly executed by two or more Development Account entities. Furthermore, partnerships continue to be essential to all projects, including collaboration within and outside the United Nations system.

35.4 Over 95 per cent of the proposed projects of the eighteenth tranche support countries with special needs, namely, the least developed countries, landlocked developing countries and small island developing States. Figure 35.I shows the number of projects supporting countries with special needs. These numbers are likely to increase as implementing entities finalize the target countries of their projects. Some projects are focused exclusively on these groups of countries, such as the following projects: promoting a socially inclusive creative economy to support the digital transformation needs of small island developing States and the least developed countries (project D); digitalization of urban mobility in small island developing States and landlocked developing countries in Latin America and the Caribbean to address gender inequities and leave no one behind (project I); and power grid governance policies in support of inclusive digital transformation in countries with special needs (project R).

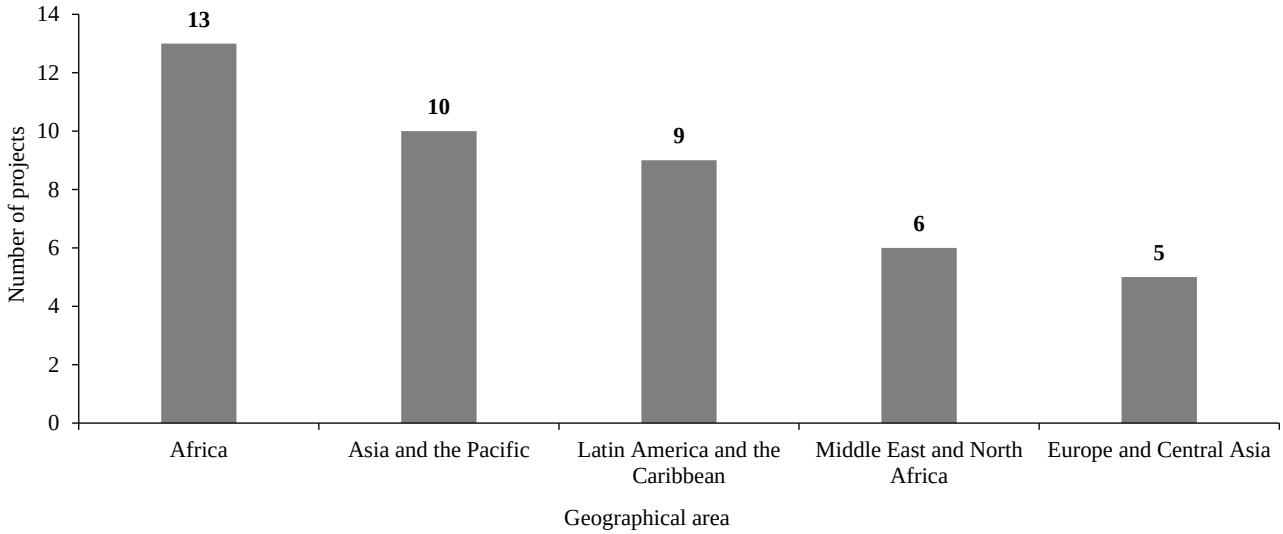
Figure 35.I
Projects supporting countries with special needs[a]



[a] Projects can have beneficiary countries from multiple groups, and some countries with special needs can belong to two groups.

35.5 Figure 35.II illustrates how the proposed projects of the eighteenth tranche are spread across different regions. While projects are proposed for all regions of the world, Africa continues to have the highest number of proposed projects, as in previous tranches.

Figure 35.II
Number of projects by geographical area[a]



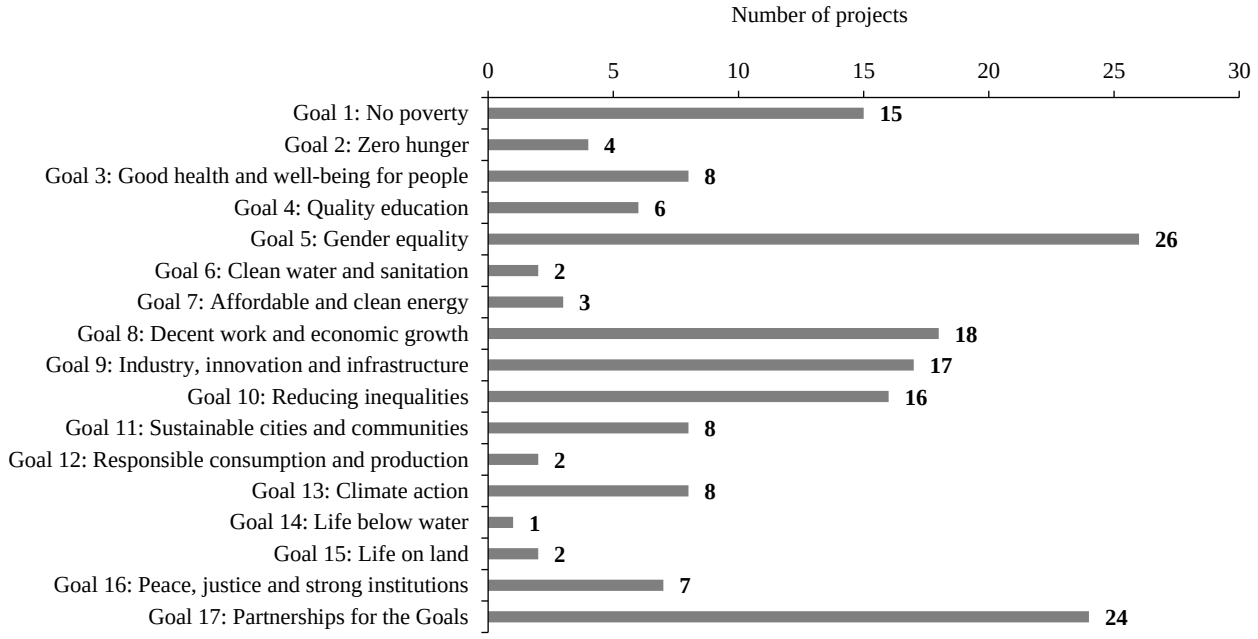
[a] One project can contribute to more than one region.

35.6 As the theme of the tranche includes elements of digital transformation – in line with Member States' goal of achieving an inclusive, open, sustainable, fair, safe and secure digital future for all, as outlined in the Global Digital Compact, adopted in 2024 – and gender equality, as a cross-cutting goal underpinning all the Sustainable Development Goals, projects are generally focused on one of these two areas or the intersections between them. As mentioned above, entrepreneurship among women has emerged as an area in which multiple projects will be providing support. Specifically, six of the proposed projects focus on this topic, including by building the capacity of selected countries to: foster digital entrepreneurship among women in Africa (project M); implement

inclusive trade strategies with a focus on vulnerable economic actors, especially for informal women-owned businesses (project N); design and implement digital policies that empower women-owned micro-, small and medium-sized enterprises (project O); implement policy measures and strategies that enable women entrepreneurs to harness digital technologies in Asia and the Pacific (project V); enable gender-responsive digital urban transformation, which includes work on e-commerce and economic opportunities for women-led small and medium-sized enterprises (project X); and drive digital transformation to improve the market access and growth of women-led small and medium-sized enterprises in the Arab region (project Y). Other common areas of work that have emerged among the proposed projects include data, statistics and the economy. Six projects are focused on enhancing selected countries' capacities in data and statistics, in the areas of: data governance and innovation for digital transformation (project A); monitoring and sharing forest-related data using innovative and digital technologies (project C); measuring digital services trade (project F); data-driven policies and services for women and marginalized groups experiencing homelessness (project K); digital transformation in the production of social and demographic statistics in Latin America and the Caribbean (project S); and the design, implementation and evaluation of data-driven digital transformation strategies for the digital economy (project AA). In addition to the aforementioned projects focused on entrepreneurship, six projects focus on other economy-related themes, including economic growth (projects M and Y), the digital economy (projects E, Y and AA), the care economy (project U) and economic opportunity in the creative economy (project D).

35.7 The proposed projects also contribute to all of the Sustainable Development Goals, as outlined in figure 35.III, with 26 projects contributing to Goal 5 on gender equality, in line with the theme of the tranche, and a notable number of projects contributing to Goal 17 on partnerships; Goal 8 on decent work and economic growth; Goal 9 on industry, innovation and infrastructure; and Goal 10 on reducing inequalities.

Figure 35.III
Contribution of projects of the eighteenth tranche to the Sustainable Development Goals[a]

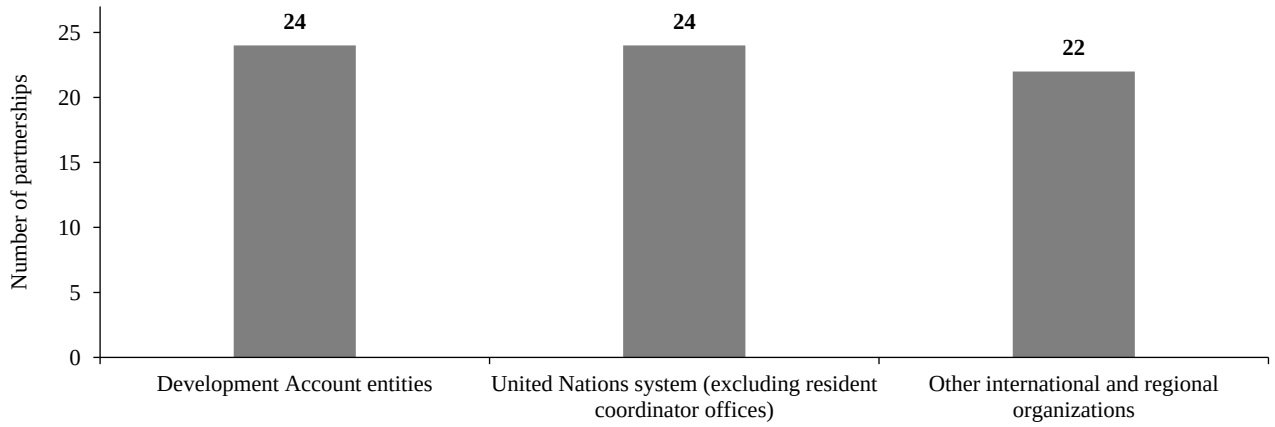


[a] One project can contribute to more than one goal.

35.8 Partnerships are essential to the implementation of Development Account projects. The proposed projects will be implemented with partners from the United Nations Secretariat and the wider United Nations system, including United Nations country teams as relevant, as well as governments and national, regional and international organizations. Resident coordinators will also be informed about the national project activities and engaged to support the projects at various levels. This helps to ensure that Development Account projects leverage the comparative strengths of both national and international partners to better achieve transformational change, respond to identified national needs while avoiding duplication of work, and work alongside national and local governments and organizations to strengthen their capacity throughout project implementation, which also strengthens the sustainability of project results.

35.9 All of the proposed projects will be implemented in partnership with other entities, including 24 of the projects working in partnership with other Development Account entities, 24 projects working in partnership with the broader United Nations system and 22 of the projects working in partnership with other regional or international organizations, as illustrated in figure 35.IV. The number of partnerships is likely to further increase as projects are finalized following the General Assembly's consideration and approval of the present budget fascicle and the projects proposed therein.

Figure 35.IV
Partnerships in Development Account projects[a]



[a] One project can partner with multiple partners.

35.10 The involvement of resident coordinator offices in Development Account projects takes different forms. Since resident coordinator offices coordinate United Nations operational activities for development within a country, they will be informed about the projects and their national activities. In addition, the implementing entities consult the resident coordinator offices in the target countries during the design phase of the projects. During project implementation, resident coordinator offices provide support for projects by, for example, identifying workshop participants, partners and government counterparts; identifying synergies with other projects; and mobilizing supplementary resources. Depending on the project, more in-depth engagement with the United Nations country team can exist through membership of the implementing entity in the country team, its participation in the common country analysis and the United Nations Sustainable Development Cooperation Framework, and partnerships with members of the country team.

35.11 In addition to the partnership arrangements described above, eight of the proposed projects of the eighteenth tranche will be led jointly by multiple Development Account entities. Joint projects build on natural areas of synergy and cooperation between Development Account entities and involve more extensive collaboration between entities, whereby each of the jointly implementing entities is responsible for the delivery of specific deliverables and receives a part of the total project budget. Entities work jointly throughout the project cycle, from the design of the project to its

implementation, as well as throughout the reporting, monitoring and evaluation phases. These projects also include the formation of a steering committee, comprising representatives from all entities, that meets throughout the project's life cycle to facilitate dialogue and cooperation, resolve any issues that arise, facilitate monitoring of the project's performance and ensure that the projects are efficient and effective in achieving results at the country level. Since joint projects require a more work-intensive governance structure and coordination, they are only undertaken in areas where there is a clear advantage to doing so. The table in annex I provides further details on which projects will be jointly implemented.

Evaluation activities

35.12 Lessons learned from programme- and project-level evaluations regularly feed into the planning, implementation, monitoring and evaluation of projects. At the programme level, a new guidance document, entitled "Working with the Development Account: a guide for implementing entities", was developed as a follow-up to the evaluation of the tenth tranche Programme on Statistics and Data. It provides implementing entities and other stakeholders with an overview of the Development Account, including its principles, key requirements and project management processes. Furthermore, a series of recommendations to guide the development of all joint projects was formulated based on the lessons learned and good practices identified through the evaluations of joint projects related to the coronavirus disease (COVID-19) pandemic. Evaluation findings have also contributed to the refinement of progress and final report templates in order to help to strengthen the ongoing monitoring of project results and enhance the availability of data to support evaluations.

35.13 In 2025, approximately half (11) of the 21 thirteenth tranche projects are being evaluated, guided by the Development Account project evaluation guidelines, a supplementary guidance note and an updated report template. Guidance notes have also been issued to support the planning of 12 fourteenth tranche project evaluations to be undertaken in 2026, as well as the selection of fifteenth tranche projects to be evaluated. In addition, the planning of a new programme-level evaluation is under way, in consultation with the evaluation units of all 10 implementing entities and other stakeholders, with the aim of launching it in late 2025.

B. Proposed resource requirements for 2026

35.14 As reflected in table 35.1, the overall resources proposed for 2026 amount to $19,011,900, reflecting no change compared with the approved budget for 2025. The proposed level of resources provides for the full, efficient and effective implementation of mandates. Four Development Account-related management posts (1 P-5, 2 P-4 and 1 P-2) are funded under section 9, Economic and social affairs.

Table 35.1
Evolution of financial resources by object of expenditure
(Thousands of United States dollars)

Regular budget

			Changes					
Object of expenditure	*2024 expenditure*	*2025 appropriation*	*Technical adjustments*	*New/expanded mandates*	*Other*	*Total*	*Percentage*	*2026 estimate*
Grants and contributions	18 502.9	19 011.9	–	–	–	–	–	19 011.9

Multi-year account

35.15 The General Assembly, in its resolution 54/15, decided to establish a multi-year account for the Development Account. The resources proposed for the Account for 2026 are for the implementation of the projects over a four-year period (2026–2029). Within the multi-year account, the breakdown of resource requirements by object of expenditure for the eighteenth tranche of projects is presented in table 35.2.

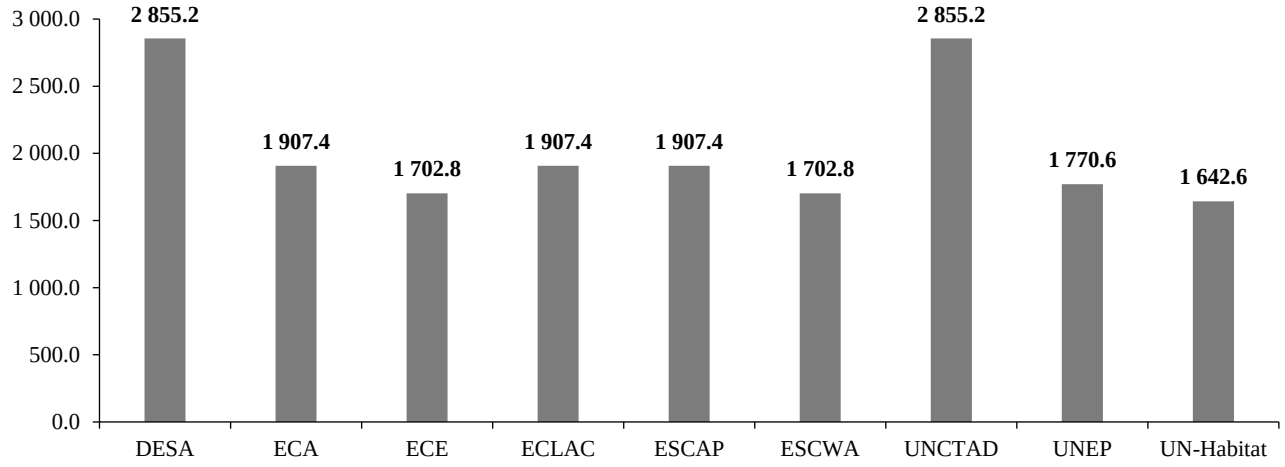
Table 35.2
Summary of resource requirements by object of expenditure
(Thousands of United States dollars)

Object of expenditure	*Amount*
Other staff costs	924.9
Consultants	6 358.4
Travel of staff	2 580.8
Contractual services	2 790.3
General operating expenses	1 841.2
Grants and contributions	4 516.3
Total	**19 011.9**

35.16 Development Account projects are designed to provide the efficient and effective use of resources. The resource requirements set forth in the present document are based on concept notes, which provide project descriptions and initial plans for project implementation. From April to December 2025, the implementing entities will work with their partners, including resident coordinators, in their region or thematic area to prepare project documents that include additional details on the theory of change, country demand, outputs, indicators, partner arrangements and a more detailed budget. They will continue to engage the potential target countries to ensure that the projects are designed to address their needs and achieve tangible results, taking into account the evolving contexts. Such engagement is often based on prior activities that have been done in this area. Following the General Assembly's decision on the proposed budget by the end of 2025, the implementing entities will launch the projects.

35.17 The distribution of resources by lead entity for the proposed projects is outlined in figure 35.V. In general, there is an equal distribution between global and regional entities. On average, entities have three projects, with the Department of Economic and Social Affairs and the United Nations Conference on Trade and Development having an additional one, and the funds and programmes with more limited regular budget funding have two projects each. It should be noted that proposed resources for jointly implemented projects, which represent eight of the proposed projects, are counted towards the lead entities' shares at the present stage. For jointly implemented projects, multiple entities receive a portion of the project budget. The final distribution is therefore only known at a later stage, after the project documents have been drafted.

Figure 35.V
Distribution of resource requirements by lead entity
(Thousands of United States dollars)



Abbreviations: DESA, Department of Economic and Social Affairs; ECA, Economic Commission for Africa; ECE, Economic Commission for Europe; ECLAC, Economic Commission for Latin America and the Caribbean; ESCAP, Economic and Social Commission for Asia and the Pacific; ESCWA, Economic and Social Commission for Western Asia; UNCTAD, United Nations Conference on Trade and Development; UNEP, United Nations Environment Programme; UN-Habitat, United Nations Human Settlements Programme.

35.18 Other staff costs (general temporary assistance) represent 5 per cent of the total budget and are used for short-term needs to carry out the activities of the projects, such as organizing workshops and data collection and engaging with resident coordinator offices in all target countries throughout project planning and implementation, as well as enhancing monitoring and improving information-sharing, coordination and collaboration with other Development Account and non-Development Account entities.

35.19 Given that the implementing entities are mostly non-resident in project target countries and that all projects have country-level activities, travel of staff is essential. Required resources for staff travel represent an average of 14 per cent of the total resources, similar to the previous two tranches. While projects typically include e-learning components, and incorporating such elements is useful for maximizing efficiencies and broadening outreach, these tools cannot replace all face to-face delivery modalities in their effectiveness, as has been found in project evaluations.

35.20 The projects typically utilize national consultants to support project implementation at the country level, as well as for collating and exchanging national best practices. International consultants, including regional consultants, are often required for projects involved in new subject areas, which require expertise that may not be available within the country or the implementing entity. International and regional consultants are also used for external programme and project evaluations, knowledge management, project review, monitoring and related activities, representing 4 per cent of

the total tranche budget. International consultants comprise approximately 18 per cent of the total number of consultants and 17 per cent of the total work-months, while 82 per cent of the consultants for the eighteenth tranche projects are national or regional. In terms of cost, international consultants represent 26 per cent of the total.

Table 35.3
Summary of consultancy requirements[a]

Type of consultant	*Number of consultants*	*Number of work-months*	*Cost (thousands of United States dollars)*
International[b]	131	658	4 180.2
National	131	528	2 178.2
Total	**262**	**1 186**	**6 358.4**

[a] This table does not include the cost of consultant travel.
[b] The requirements under international consultants include 85 regional consultants (457 work-months) at a total cost of $2,518,300.

35.21 Contractual services are used to engage national, regional or international institutions, companies or non-governmental organizations to assist with the implementation of national components of the projects, including studies, local pilots, technical work, consultations and workshops. Use of local and regional institutions and non-governmental organizations is preferred and encouraged, as it contributes to the strengthening of national capacities. Venue rentals, conference service costs and communications costs associated with workshops, training events, seminars or expert group meetings typically fall under the general operating expenses category. In the proposed projects, contractual services are budgeted for services that include the development of an online platform, the piloting of a digital system at the country level, the preparation of communications and outreach materials, the printing of materials, event organization, web design and development services, editing and design services, interpretation and translation, artificial intelligence and machine learning development services, country-level data collection, e-learning course development, technology support services and the production of video tutorials. More specifically, projects may have the following costs in this category: interpretation and translation services; editing and printing of documents for workshops; web development; reserving venues for workshops; development of online courses; customization of an online platform that uses artificial intelligence; and other technical areas of work.

35.22 The costs of workshop participants (travel and allowances), under grants and contributions, represent on average 24 per cent of the project budgets. Projects typically use national workshops for training, coordination and consensus-building. Most projects also include a smaller number of regional workshops, which are typically used for South-South cooperation and the sharing of lessons learned between the target countries. Regional and interregional workshops are often used to share the findings with larger audiences and are often organized in connection with other intergovernmental meetings or events to reduce costs.

35.23 Project deliverables fall under four general categories, as detailed in table 35.4. These deliverables are expected to have a strong focus on the national level, to help to ensure national ownership and prioritization of national processes and institutions. They are also expected to focus on different capacity development aspects (e.g. skills, institutions and an enabling environment) for increased and sustainable impact.

Table 35.4
Summary of deliverables (2026–2029 plan)

Quantified deliverables: B. Generation and transfer of knowledge		*Non-quantified deliverables: C. Substantive deliverables*	
Seminars, workshops and training events (number of days for all projects)	*Technical materials (number of materials for all projects)*	*Consultation, advice and advocacy (number of projects including these deliverables)*	*Databases and substantive digital materials (number of projects including these deliverables)*

Annex I

Projects proposed for funding from the Development Account (for the period 2026–2029)

Proposed projects and objectives	*Implementing entities, partnerships and budgets*
A. Enhanced statistical capacity for data governance and innovation across national data ecosystems *Objective*: To enhance the capacity of national statistical offices in selected developing countries to implement effective data governance frameworks and harness innovation for digital transformation	The Department of Economic and Social Affairs, in collaboration with ECA, ECE, ESCAP, ECLAC, ESCWA and resident coordinator offices ($642,000)
B. Advancing gender empowerment and innovation in Latin America and the Caribbean *Objective*: To improve the capacity of selected Latin American and Caribbean countries to implement gender-responsive digital inclusion policies and frameworks aimed at enhancing equitable access to digital resources	The Department of Economic and Social Affairs, jointly with ECLAC and in collaboration with resident coordinator offices ($938,800)
C. Innovative and digital technologies for forest monitoring and data-sharing by Indigenous Peoples, local communities, women and young people *Objective*: To build the capacity of selected countries to strengthen the engagement of Indigenous Peoples, local communities, women and young people in forest monitoring and sharing of forest-related data using both traditional and digital approaches	The Department of Economic and Social Affairs, in collaboration with resident coordinator offices ($634,400)
D. Promoting a socially inclusive creative economy to support the digital transformation needs of small island developing States and the least developed countries *Objective*: To enhance the capacity of selected least developed countries and small island developing States in South-East Asia and sub-Saharan Africa to develop policies and frameworks aimed at promoting digital inclusion and economic opportunities in the creative economy, with a specific emphasis on women, young people, persons with disabilities, older persons and Indigenous Peoples	The Department of Economic and Social Affairs, in collaboration with resident coordinator offices ($640,000)
E. Improved investment policymaking to foster an inclusive, responsible and sustainable digital economy in Africa *Objective*: To strengthen the capacity of selected developing countries in Africa to scale up investment aimed at fostering an inclusive, responsible and sustainable digital economy	UNCTAD, in collaboration with ECA and resident coordinator offices ($645,600)
F. Better statistics on digital services trade for gender-responsive trade policies in Asia and the Pacific *Objective*: To strengthen the capacity of selected developing countries in Asia and the Pacific to measure digital services trade to enable evidence-based and gender-inclusive trade policy	UNCTAD, jointly with ESCAP and in collaboration with resident coordinator offices ($938,800)

Proposed projects and objectives	*Implementing entities, partnerships and budgets*
G. Advancing gender-responsive science, technology and innovation policies for inclusive digital transformation in countries of the Association of Southeast Asian Nations	UNCTAD, in collaboration with ESCAP and resident coordinator offices ($625,000)
Objective: To strengthen the capacity of selected developing countries of the Association of Southeast Asian Nations to design and implement gender-responsive science, technology and innovation policies that serve to close gender digital divides, foster inclusive digital transformation and advance the Sustainable Development Goals	
H. Digitalization and artificial intelligence-powered transparency on trade-related regulations for gender-sensitive policymaking in Africa	UNCTAD, in collaboration with ECA, ESCAP and resident coordinator offices ($645,800)
Objective: To strengthen the capacity of selected African countries to improve transparency on trade-related regulations through digitalization and artificial intelligence in order to better develop gender-sensitive trade policies	
I. Digitalization of urban mobility in small island developing States and landlocked developing countries in Latin America and the Caribbean to address gender inequities and leave no one behind	UNEP, jointly with UN-Habitat and in collaboration with ECLAC and resident coordinator offices ($821,300)
Objective: To strengthen the capacity of selected countries in Latin America and the Caribbean to design and implement a transformative framework for transport digitalization aimed at prioritizing the complex mobility needs and intersectionality of women, girls and other vulnerable groups	
J. Better water quality monitoring using the traditional and local knowledge of Indigenous Peoples, women and other vulnerable populations	UNEP, in collaboration with ECA, ECLAC and resident coordinator offices ($949,300)
Objective: To strengthen the capacity of selected low- and lower-middle-income countries to monitor water quality in inland waters and oceans using traditional and local knowledge of Indigenous Peoples, women and other vulnerable populations in order to improve reporting and inform policymaking	
K. Inclusive solutions to homelessness and severe housing deprivations in Latin America and the Caribbean	UN-Habitat, jointly with ECLAC and in collaboration with resident coordinator offices ($819,300)
Objective: To strengthen the capacity of selected countries to develop and implement gender-responsive, human rights-based and data-driven policies and services for women and marginalized groups experiencing homelessness, extreme housing deprivation and housing-induced poverty	

Proposed projects and objectives	*Implementing entities, partnerships and budgets*
L. Innovative and inclusive transport planning and street design in Africa and the Middle East *Objective*: To build the capacity of selected countries and cities to use innovative methods and digital tools to improve their urban street design standards, implementation approaches and stakeholder engagement strategies for active mobility that is safe, efficient and universally accessible	UN-Habitat, jointly with UNEP and in collaboration with resident coordinator offices ($823,300)
M. Fostering digital entrepreneurship among women in Africa *Objective*: To strengthen the capacity of selected African countries for digitalization, with a view to advancing regional integration under the African Continental Free Trade Area and empowering women entrepreneurs for enhanced sustainable economic growth	ECA, in collaboration with the Department of Economic and Social Affairs, UNCTAD, UN-Habitat and resident coordinator offices ($634,300)
N. Improved cross-border trade involving informal women-owned businesses in Africa *Objective*: To enhance the capacity of selected African countries to implement inclusive national trade strategies with a focus on vulnerable economic actors, especially for informal women-owned businesses	ECA, in collaboration with resident coordinator offices ($637,800)
O. Enhancing the digital capacity of women-owned micro-, small and medium-sized enterprises in Africa *Objective*: To strengthen the capacity of selected countries to design and implement digital policies that empower women-owned micro-, small and medium-sized enterprises	ECA, in collaboration with ESCWA, UNCTAD and resident coordinator offices ($635,300)
P. Empowering women in urban and food-forest management at the local and national levels *Objective*: To enhance the capacity of policymakers to empower women and mainstream gender in urban and food-forest planning and management in the Western Balkans and Central Asia	ECE, jointly with UNEP and ESCAP and in collaboration with resident coordinator offices ($500,000)
Q. A digital and gender-inclusive approach to climate-resilient transport *Objective*: To strengthen the capacity of selected countries in the Western Balkans and Asia to enhance the climate resilience of their transport infrastructure	ECE, in collaboration with ESCAP and resident coordinator offices ($502,800)
R. Power grid governance policies in support of inclusive digital transformation in countries with special needs *Objective*: To strengthen the capacity of selected countries to develop comprehensive digital governance policies to better plan and manage integrated power systems for the inclusive and gender-responsive sustainable digital transformation of the energy sector	ECE, in collaboration with ESCAP, ESCWA and resident coordinator offices ($700,000)

Proposed projects and objectives	*Implementing entities, partnerships and budgets*
S. Digital transformation in the production of social and demographic statistics to improve inclusive, gender-sensitive policies in Latin America and the Caribbean *Objective*: To strengthen the capacity of national statistics offices and relevant local institutions in Latin America and the Caribbean to produce official demographic and social statistics with a gender perspective	ECLAC, in collaboration with resident coordinator offices ($635,300)
T. Improved social and economic policies and strategies for digital inclusion and transformation, with a gender perspective, in Latin America and the Caribbean *Objective*: To enhance the capacity of selected countries to design, adapt and implement social and economic policies and strategies that promote digital inclusion and transformation with a gender perspective	ECLAC, in collaboration with resident coordinator offices ($634,600)
U. Building digitally enabled care economies aimed at addressing structural gender inequalities in Latin America and the Caribbean *Objective*: To enhance the capacity of selected countries in Latin America and the Caribbean to advance the digital and economic inclusion and empowerment of women in the care economy	ECLAC, in collaboration with resident coordinator offices ($637,500)
V. Harnessing digital solutions to catalyse inclusive businesses that leave no one behind *Objective*: To strengthen the capacity of selected developing countries in Asia and the Pacific to implement policy measures and strategies that serve to enable inclusive businesses and women entrepreneurs to harness digital technologies that leave no one behind	ESCAP, in collaboration with UNCTAD and resident coordinator offices ($640,800)
W. Innovative and digital technologies for inclusive policies that leave no one behind in Africa and Asia and the Pacific *Objective*: To strengthen the capacity of selected countries in Africa and Asia and the Pacific to leverage innovative tools and digital technologies to enable inclusive policymaking that leaves no one behind	ESCAP, jointly with ECA and in collaboration with resident coordinator offices ($632,900)
X. Inclusive smart cities empowering gender-responsive digital urban transformation *Objective*: To enhance the capacity of policymakers in South and South-East Asia to improve services, gender equality and safety in smart city development	ESCAP, jointly with UN-Habitat and in collaboration with resident coordinator offices ($633,700)

Proposed projects and objectives	*Implementing entities, partnerships and budgets*
Y. Advancing e-commerce for women-led small and medium-sized enterprises in the Arab region	ESCWA, in collaboration with UNCTAD and resident coordinator offices ($600,000)
Objective: To enhance the capacity of selected countries in the Arab region to drive digital transformation in order to improve the market access and growth of women-led small and medium-sized enterprises	
Z. Catalysing digital transformation in gender-responsive and inclusive public administration in Arab countries	ESCWA, in collaboration with resident coordinator offices ($551,400)
Objective: To enhance the capacity of selected countries in the Arab region to implement gender-responsive digitalization policies in public administration to enable more transparent, accountable and inclusive governance	
AA. Empowering policymakers for an inclusive, gender-responsive digital economy	ESCWA, in collaboration with resident coordinator offices ($551,400)
Objective: To strengthen the capacity of policymakers in selected countries in the Arab region to design, implement and evaluate data-driven digital transformation strategies aimed at promoting equitable access, gender inclusivity and resilience in the digital economy

Proposed post and non-post resource requirements for 2026

Overview

36.1 The proposed regular budget resources for staff assessment for 2026, including the breakdown of resource changes, as applicable, are reflected in the table below.

Table
Overall: evolution of financial resources by object of expenditure
(Thousands of United States dollars)

			Changes					
Object of expenditure	*2024 expenditure*	*2025 approved*	*Technical adjustments*	*New/expanded mandates*	*Other*	*Total*	*Percentage*	*2026 estimate (before recosting)*
Other	302 705.6	328 136.1	1 358.0	(7 484.0)	3 342.8	(2 783.2)	(0.8)	325 352.9

36.2 In accordance with the established budgetary practice, provisions for staff assessment are made by applying the rates contained in regulation 3.3 of the Staff Regulations and Rules of the United Nations to the assessable emoluments of United Nations staff. The staff assessment amounts resulting from the application of such rates are consolidated under the present section, while the provisions for salaries are presented under other budget sections. The provisions for salaries represent the net amounts, while the gross amounts include staff assessment in addition to the net salary provisions. The gross and net amounts related to each budget section are presented in the annex to the present document.

36.3 Amounts from staff assessment are credited upfront to Member States to offset assessments for the budget period, with the exception of staff assessment credits withheld and credited to the Tax Equalization Fund for the reimbursement of taxes on emoluments of United Nations staff members, as envisaged in General Assembly resolution 973 (X) A. The amount proposed under the present section is also reflected under income section 1, Income from staff assessment (A/80/6 (Income sect.1)).

36.4 The overall resources proposed for 2026 amount to $325,352,900 before recosting, reflecting a net decrease of $2,783,200 (or 0.8 per cent) compared with the approved budget for 2025. Resource changes result from three factors: (a) technical adjustments; (b) new and expanded mandates; and (c) other changes.

Explanation of variances by factor

Technical adjustments

36.5 As presented in the table above, resource changes reflect a net increase of $1,358,000, resulting from an increase of $1,437,100 related to the additional posts proposed in support of the various mandates approved by the General Assembly, which were subject to a 50 per cent vacancy rate in 2025 and are now budgeted at continuing rates in accordance with the established practice, and an increase of $388,700 in the provisions for special political missions; offset in part by a decrease of $467,800 due to the discontinuation of non-recurrent provisions under other staff costs under various other sections of the proposed programme budget for 2026.

New and expanded mandates

36.6 Resource changes resulting from new or expanded mandates approved by the General Assembly reflect a net decrease of $7,484,000, attributable to a decrease of $8,702,300 in the special political missions, due mainly to the expiration of mandates for the United Nations Assistance Mission for

Iraq pursuant to Security Council resolution 2732 (2024) and the United Nations Transitional Assistance Mission in Somalia pursuant to Security Council resolution 2753 (2024). The decrease is offset in part by an increase of $1,218,300, attributable mainly to the proposed net increase in posts and positions under various sections of the proposed programme budget for 2026.

Other changes

36.7 As reflected in the table above, resource changes reflect a net increase of $3,342,800, resulting from a proposed increase of $3,734,000 due to the increase in the number of posts and positions, offset in part by a decrease of $391,200 in the provisions for general temporary assistance replacement under various other sections of the proposed programme budget for 2026.

Income from staff assessment

(Thousands of United States dollars)

	2024 actual	*2025 approved*	*2026 estimate (before recosting)*	*Increase/ (decrease)*
Staff assessment requirements provisioned under:				
Section 36, Staff assessment	302 705.6	328 136.1	325 352.9	(2 783.2)
Income section 3, Services to the public	2 075.7	2 141.6	2 263.1	121.5
Total, income from staff assessment	**304 781.3**	**330 277.7**	**327 616.0**	**(2 661.7)**

IS1.1 The estimates under income section 1 amount to $327,616,000, comprising the total provision proposed under section 36, Staff assessment ($325,352,900) and the staff assessment portion of the proposed post expenditure under income section 3, Services to the public ($2,263,100).

IS1.2 The revenue from staff assessment is credited to the Tax Equalization Fund established by the General Assembly in its resolution 973 (X) A. The estimated staff assessment revenue approved by the Assembly is used to offset assessments on Member States in line with the established practice.

Total	**34 090.3**	**29 815.1**	**(4 275.2)**

A. Income from rental of premises

IS2.1 The expected income under this heading, in the amount of $10,383,900, the details of which are shown in table IS2.2, relate to the payment of rent by a number of specialized agencies and other entities connected with the activities of the Organization for the occupancy of United Nations premises in New York, Geneva, Nairobi, Addis Ababa, Bangkok and Santiago. Under the terms of the agreement with the Government of Austria, the United Nations does not charge rent for the space provided for other tenants on its premises in Vienna, and rental income generated in Vienna would devolve to the Government of Austria.

IS2.2 The estimated decrease of $2,353,500 in rental income is the net effect of the following:

(a) A decrease of $1,304,900 relating to an adjustment to reflect the anticipated spendable portion of rental income, taking into account the requirements for repairs and maintenance of rented premises at the Economic Commission for Africa, including the change in office of one of the tenants from a larger to a smaller office space;

(b) A decrease of $562,600 attributable to an adjustment to align the estimated spendable portion of rental income, taking into account the requirements for repairs and maintenance of premises at United Nations Headquarters, and the reduced occupancy at Headquarters, owing to the United Nations Educational, Scientific and Cultural Organization moving out of the DC2 Building;

(c) A decrease of $525,900 reflecting an adjustment of the market rate of rental charges in the United Nations Office at Geneva following a recent survey conducted by an external real estate consultant;

(d) An increase of $42,700 relating to additional space efficiencies and a new space arrangement for a new tenant in the Economic and Social Commission for Asia and the Pacific;

(e) A net decrease of $2,800 relating to the termination of the lease-out internal contract with the secretariat of the United Nations Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or Desertification, Particularly in Africa, in the Economic Commission for Latin America and the Caribbean ($4,800), partially offset by an increase reflecting the alignment of the spendable portion of rental income ($2,000).

Table IS2.2
Income from rental of premises
(Thousands of United States dollars)

Source	*2025 approved estimates*	*2026 proposed estimates*	*Increase (decrease)*
Headquarters, New York	1 080.8	518.2	(562.6)
United Nations Office at Geneva	3 827.7	3 301.8	(525.9)
United Nations Office at Nairobi	3 539.8	3 539.8	–
Economic Commission for Africa, Addis Ababa	3 227.3	1 922.4	(1 304.9)
Economic Commission for Latin America and the Caribbean, Santiago	83.5	80.7	(2.8)
Economic and Social Commission for Asia and the Pacific, Bangkok	978.3	1 021.0	42.7
Total	**12 737.4**	**10 383.9**	**(2 353.5)**

B. Reimbursement for services provided to specialized agencies and others

IS2.3 The expected income under this heading is set out in table IS2.3. The total estimated income of $281,900 reflects an increase of $72,200, which is attributable to an increase in mail and pouch services requested by a client at the United Nations Office at Vienna, and an increase in the demand for digital printing and print-on-demand services provided to clients at the Economic Commission for Africa.

Table IS2.3
Reimbursement for services provided to specialized agencies and others
(Thousands of United States dollars)

Source	*2025 approved estimates*	*2026 proposed estimates*	*Increase (decrease)*
United Nations Office at Vienna	118.6	172.4	53.8
Economic Commission for Africa	91.1	109.5	18.4
Total	**209.7**	**281.9**	**72.2**

C. Interest income

IS2.4 It is projected that interest income in the amount of $8 million, reflecting a decrease of $3.5 million compared with the approved estimates for 2025, would be earned on general fund balances held in the cash pool during 2026 on the basis of an estimated average positive cash balance of $400 million and expectations of a 2 per cent average interest rate environment in 2026. The decrease compared with the approved estimates for 2025 is mainly attributable to a decrease in the expected interest rate environment to 2 per cent in 2026, taking into account the uncertainty in the outlook for interest rates in the United States of America.

D. Sale of used equipment

IS2.5 The expected income under this heading is set out in table IS2.4. Sale of used equipment is estimated at $148,500 for 2026, reflecting a net increase of $10,500 compared with the estimates approved for 2025. The estimates under this heading vary from year to year on the basis of the equipment that has been identified for sale at the time of preparation of the report. The net increase of $10,500 in 2026 reflects mainly higher estimated proceeds from the planned sale of equipment and furniture, including vehicles at the Economic Commission for Africa, Addis Ababa ($33,800), the Economic Commission for Latin America and the Caribbean, Santiago ($4,700), and the Economic and Social Commission for Asia and the Pacific, Bangkok ($2,100), partially offset by lower estimated proceeds at Headquarters due to the reduced number of used vehicles planned for sale in 2026 ($30,100).

Table IS2.4
Sale of used equipment
(Thousands of United States dollars)

Source	*2025 approved estimates*	*2026 proposed estimates*	*Increase (decrease)*
Headquarters, New York	37.6	7.5	(30.1)
Economic Commission for Africa, Addis Ababa	88.0	121.8	33.8
Economic and Social Commission for Asia and the Pacific, Bangkok	12.4	14.5	2.1
Economic Commission for Latin America and the Caribbean, Santiago	–	4.7	4.7
Total	**138.0**	**148.5**	**10.5**

E. Refund of previous years' expenditures

IS2.6 An estimated amount of $3,870,100 in 2026, reflecting an increase of $2,565,800 compared with the estimate for 2025, is anticipated to be refunded from prior years' expenditures. The level of refunds is influenced by external factors and is therefore difficult to predict with accuracy. The increase reflects the average actual revenue experience for the past two years.

F. Contributions of non-member States

IS2.7 Under the terms of rule 160 of the rules of procedure of the General Assembly and regulation 3.9 of the Financial Regulations and Rules of the United Nations, States that are not members of the United Nations but participate in certain activities of the Organization contribute towards the expenses of such activities at rates to be determined by the Assembly. By its resolution 44/197 B, the Assembly endorsed the revised assessment procedures for non-member States contained in paragraphs 50 to 52 of the report of the Committee on Contributions (A/44/11, A/44/11/Add.1 and A/44/11/Add.1/Corr.1). These procedures provide for assessment of contributions on the basis of a flat annual fee at the beginning of each year. That fee was calculated for each non-member State on the basis of a varying proportion of the applicable rate of assessment, which was applied to the applicable assessment base. The assessment base equals the total net assessment for the United Nations regular budget for the year, adjusted for tax refunds. By its resolution 58/1 B, the Assembly endorsed the recommendation of the Committee that the flat annual fee percentage of the Holy See should be fixed at 50 per cent of the notional rate of assessment and that further periodic review of the percentage should be suspended. By its decision 68/548, the Assembly decided that the State of Palestine was to be called upon to contribute towards the expenses of the Organization on the basis of the same procedure. The total contribution from these two non-member States is projected to be $205,400 for 2026, reflecting an increase of $33,100 compared with the estimates for 2025. The increase reflects the 2025 assessment base amounts and notional rates of assessment for non-member States.

G. Television and similar services

IS2.8 Income from television and similar services, such as publication fees charged when the images within the United Nations Photo Library are used in commercially published print monographs and service fees and royalty fees charged for the research, screening and duplication of the United Nations video and film collection, is estimated at $92,900 for 2026, reflecting no change compared with the estimate for 2025.

H. Miscellaneous income

IS2.9 Various receipts that cannot properly be classified under any of the preceding subheadings, such as contributions from agencies, funds and programmes for their prorated share of the costs of the administration of justice, are included under this heading. The expected income under this heading is set out in table IS2.5. Given its nature, miscellaneous income is, for the most part, difficult to predict with accuracy. The estimate of $6,832,400 for 2026 reflects a decrease of $1,103,300 compared with the estimate approved for 2025. The decrease is a result of: (a) a reduction in the share of agencies, funds and programmes, taking into account changes in headcount and the cost of the administration of justice ($953,600); and (b) no estimated revenue for the share of peacekeeping operations funded from the support account for 2026, since the provision for the Office of Staff Legal Assistance and the Office of the United Nations Ombudsman and Mediation Services included in the proposed budget for the support account for peacekeeping operations for the period from 1 July 2025 to 30 June 2026 (A/79/783) exceeds the overall share of the support account for the administration of justice ($149,700).

2025 approved estimates	
Gross revenue	21 881.2
Gross expenditure	21 170.4
Net revenue	710.8

Table IS3.2
Overall: proposed posts and post changes for 2026

	Number	*Details*
Approved for 2025	64	2 P-5, 4 P-4, 4 P-3, 3 P-2/1, 7 GS (PL), 42 GS (OL), 2 SS
Establishment	3	1 P-2/1, 2 LL
Proposed for 2026	67	2 P-5, 4 P-4, 4 P-3, 4 P-2/1, 7 GS (PL), 42 GS (OL), 2 LL, 2 SS

IS3.1 The activities and operations under this section, which are carried out at Headquarters, Geneva, Vienna, Nairobi, Addis Ababa and Bangkok, are coordinated and managed by the following organizational units: (a) the Department of Global Communications; (b) the Department of Economic and Social Affairs; (c) the Department of Management Strategy, Policy and Compliance; (d) the Department of Operational Support; (e) the United Nations Office at Geneva; (f) the United Nations Office at Vienna; (g) the United Nations Office at Nairobi; (h) the Economic Commission for Africa (ECA); and (i) the Economic and Social Commission for Asia and the Pacific (ESCAP).

IS3.2 The revenue projection for 2025 included in the report of the Secretary-General (A/79/6 (Income sect. 3)) reflected a net deficit of $2.7 million. In its resolution 79/257, the General Assembly decided to increase the income expected under income section 3 by $2.7 million, resulting in an estimated net revenue of $0.7 million (covering the recosting adjustment) for 2025, as approved by the Assembly in its resolution 79/259 B.

IS3.3 The projected aggregate net revenue of $128,200 in respect of all services to the public for 2026 reflects a decrease of $582,600 compared with the estimated net revenue of $710,800 approved by the Assembly for 2025, as shown in table IS3.4. The decrease in the net revenue for 2026 is based on best estimates of realistic income to be achieved in 2026 and is affected mainly by the catering operations at United Nations Headquarters in New York and United Nations Postal Administration operations.

IS3.4 Pursuant to section XV, paragraph 13, of General Assembly resolution 79/258 A, the budget proposals also include projected revenues and expenditure for the Africa Hall Visitors' Centre in Addis Ababa for 2026. The relevant details and justifications are provided under services to visitors.

IS3.5 The percentage distribution of the total gross revenue and expenditure for services to the public for 2026 is shown in table IS3.3.

Note: The following abbreviations are used in the tables: GS (OL), General Service (Other level); GS (PL), General Service (Principal level); LL, Local level; and SS, Security Service.

IS3.6 The Facilities and Commercial Activities Service of the Division of Administration in the Department of Operational Support provides the management and coordination of the activities of the United Nations Postal Administration, which will continue to publicize the work and achievements of the United Nations and its specialized agencies through philatelic sales.

IS3.7 Operations are consolidated into two entities: (a) the United Nations Postal Administration, New York office; and (b) the United Nations Postal Administration, European office, in Vienna. Each entity reports to the Chief of the United Nations Postal Administration and the Chief of the Facilities and Commercial Activities Service in New York. In addition, the United Nations Postal Administration maintains a retail counter at the Palais des Nations in Geneva and a sales office in Beijing.

IS3.8 The United Nations Postal Administration continues to face challenges as a result of declining philatelic markets and the ageing of its core customer group. Liquidity constraints at the United Nations have delayed the development of new products and the implementation of an e-commerce website.

IS3.9 In an effort to respond to changing market conditions, the United Nations Postal Administration engaged a consulting company with specialized expertise to assess its revenue-generating potential. One recommendation from the consultant was to position the United Nations Postal Administration as a unique and valuable communications asset for the Organization. The United Nations stamps have been chronicling the Organization's commitment to addressing critical world issues and building a better world for the past 74 years. They can help to tie the past initiatives of the United Nations to its current activities and continue to tell the Organization's story in a unique way.

IS3.10 The recommendations also included: (a) modernizing the marketing and e-commerce operations of the United Nations Postal Administration, with deeper integration with other United Nations communications and public information initiatives, where appropriate; (b) expansion of United Nations Postal Administration products and their sale to include United Nations stamp-themed merchandise, with the aim of introducing United Nations stamps to a younger customer base; and (c) leveraging external service providers for on-demand order fulfilment and avoiding the risk of holding merchandising inventory. The implementation of most of these recommendations has been delayed, however, due to liquidity constraints.

IS3.11 For 2026, the United Nations Postal Administration plans to reduce its requirements for contractual services by $280,000 as it shifts its focus from the development of new philatelic products to print-on-demand United Nations stamp-themed merchandise.

IS3.12 The United Nations Postal Administration will continue to offer a multilingual website to attract customers from around the world and increase its social media presence by linking the new United Nations stamps and stamp-themed products to the current activities, initiatives and communication goals at the United Nations.

IS3.13 The United Nations Postal Administration works closely with other postal administrations, dealers and philatelic agents to promote and distribute United Nations stamps around the world. It regularly works with governmental organizations and permanent missions to the United Nations to issue stamps to commemorate world events, prominent people and international days and anniversaries. It also proposes and jointly issues stamps with other postal administrations yearly and will continue to do so in 2026.

IS3.14 The United Nations Postal Administration has represented and will continue to represent the Organization at international stamp shows throughout the world to increase public awareness of United Nations philatelic products and contribute to the outreach objectives of the Organization. It is an active member of the Universal Postal Union and participates in its conferences and meetings.

IS3.15 The overall revenue for 2026 is projected to be $3,000,000. The downward projection compared with 2025 is attributable mainly to the declining sales of postage stamps in all major philatelic markets. The United Nations Postal Administration plans to build income from the sale of United Nations stamp-themed merchandise to supplement its traditional income from postage stamps, with the objective of bringing its operations back to profitability.

IS3.16 Table IS3.11 lists all deliverables, by category and subcategory, for 2026.

Table IS3.11
Deliverables for 2026, by category and subcategory

Category and subcategory
D. Communication deliverables
Outreach programmes, special events and information materials: philatelic bulletins and materials in English, French, German and Italian; United Nations postage stamps and postal stationery, including the subject, design and quantity, for an average of 7 stamp issues per year, and United Nations stamp-themed merchandise.

Resource requirements

IS3.17 The amount of $3,927,200 would provide for the financing of 18 posts, as shown in table IS3.10, of which 11 posts (1 P-5, 3 General Service (Principal level) and 7 General Service (Other level)) would be located in New York and 7 posts (1 General Service (Principal level) and 6 General Service (Other level)) would be located in Vienna, as well as non-post requirements. United Nations Postal Administration operations retain a core of General Service staff to fulfil key operational functions, such as graphic design, marketing, sales, order processing, invoicing, customer service, inventory control and accounting, and rely on a team of contracted personnel to meet the Postal Administration's production and order fulfilment workloads.

IS3.18 Non-post resources in the amount of $1,329,800, reflecting a decrease of $280,000, would provide for other staff costs, hospitality, travel of staff, contractual services, general operating expenses, supplies and materials, and furniture and equipment. The decrease under contractual services reflects the shift in focus from the development of new philatelic products to print-on-demand United Nations stamp-themed merchandise.

2. Sale of United Nations publications

IS3.19 The activities programmed for 2026 are aimed at enhancing understanding of the role, work and concerns of the United Nations and encouraging the exchange of ideas, information and knowledge in support of the goals of the Organization. The objective is to improve the visibility of United Nations publications and increase their readership in all formats through the targeted acquisition, marketing, sale, distribution, licensing and publishing of reports, books, periodicals, selected documents, databases, e-books, mobile applications and other electronic products. These activities, notably the operation of the United Nations Bookshop at Headquarters, are carried out by the Sales and Marketing Section in the Outreach Division of the Department of Global Communications at Headquarters. A related aim is to generate revenues for the Organization while supporting the widest possible dissemination of United Nations information to the public. The Publications Board, under the chairmanship of the Director of the Outreach Division, has overall oversight of the publications programme, including branding guidelines for publications.

IS3.20 The proposed plan for 2026 continues to emphasize the consolidation of the electronic publishing programme, accompanied by the creation and sale of a wider selection of publications for the general public, as follows:

(a) The electronic publishing programme is based on adding value to publications through aggregation and services. Two main platforms constitute the foundation of the programme:

(i) The United Nations iLibrary continues to increase in scope. This subscription-based platform provides access to over 10,000 United Nations publications and other substantial digital content such as data and working papers, allowing the publication of more multilingual content and searches by Sustainable Development Goal;

(ii) The e-commerce website (https://shop.un.org) promotes the work of the Organization and provides direct access to United Nations publications in print and digital formats for purchase by the general public around the world. The launch of additional functionalities and an update to the interface to enhance the ability to sell merchandise online, is expected to increase usage and sales;

(b) A wider distribution of electronic products, such as e-books and data products through new channels, will continue to be a priority;

(c) A larger, geographically diverse network of print-on-demand capability around the world will support the print programme and e-commerce sales, reducing the time needed for production in an environmentally sustainable manner and also reducing shipping costs;

(d) The development of attractive print publications for the general public, focusing on the youth and younger children markets, is a key component of the programme;

(e) In addition, the plan includes the strengthening of the rights and licensing activities relating to the commercial use of the Sustainable Development Goals logo and icons as well as digital content for institutional customers worldwide, including data aggregators, for further redistribution.

IS3.21 The publishing industry continues to change significantly, with electronic publications and aggregated platforms progressively becoming mainstream reading and research choices. At the same time, global book sales across all publishers are stagnating. United Nations publications are no exception to this global trend. In the light of the scaling back of physical book acquisitions by academic libraries and other principal institutional customers, electronic publishing continues to play an increasing role, not only as a way to deliver multilingual content to the customer but also, most importantly, to reach audiences and stimulate thought-provoking discussions and debate on the most critical issues of world affairs. The faster, mobile-responsive United Nations iLibrary platform improves usability and discoverability, which are necessary for the future success of United Nations publications in the current market environment.

IS3.22 In this context, electronic publishing becomes essential, not only as a way to deliver content, but also to enhance the visibility of United Nations knowledge. The Sales and Marketing Section will continue to leverage existing and new opportunities. These include: (a) business and revenue opportunities primarily related to new distribution channels in print and digital content, including licensing digital and other content to third parties and aggregators for further redistribution, which the Section will diligently pursue; and (b) visibility opportunities that require continued development of back-office systems, specifically with regard to the way in which the Section assigns metadata, bibliographic information, keywords and other tags to the content published by the Organization so that it can be found on the web more easily by researchers, scholars and students.

IS3.23 The Sales and Marketing Section will continue to focus on important supporting and auxiliary activities such as title management for cataloguing of bibliographic and marketing metadata and on the continuing management of the e-commerce website for the execution of orders for publications and merchandise. Other activities include the optimization and expanded use of third-party digital asset management and distribution systems and management of file processing for print, web and accessible e-book products and its integration into print-on-demand facilities at various geographic locations. In the promotional sphere, the Section will continue to effectively deploy new technologies, including social media tools, to execute cutting-edge marketing campaigns to expand the reach of United Nations publications.

IS3.24 Table IS3.15 lists all deliverables, by category and subcategory, for 2026.

Table IS3.15
Deliverables for 2026, by category and subcategory

Category and subcategory
D. Communication deliverables
Outreach programmes, special events and information materials: United Nations publications, periodicals, data and subscription products, and other print and digital published materials in all official languages, for sale and dissemination; United Nations Bookshops in New York and Geneva; and organization of "meet the author" events.
External and media relations: advertising, publicity, social media campaigns, newsletters and participation in the principal international publishing industry events, directly or through authorized representatives; and collaboration with the publishing industry on the promotion of the Sustainable Development Goals and other United Nations priorities.
Digital platforms and multimedia content: management of the United Nations iLibrary and the e-commerce platform (https://shop.un.org) to efficiently aggregate and disseminate United Nations publications in all six official languages.

Resource requirements

IS3.25 The amount of $6,018,100 would provide for the financing of 21 posts, as shown in table IS3.14, as well as non-post requirements.

IS3.26 Non-post resources in the amount of $2,829,200 would provide for other staff costs, hospitality, travel of staff, contractual services, general operating expenses, supplies and materials, and furniture and equipment.

IS3.27 The activities related to services for visitors, including guided tour operations and briefing programmes, are the responsibility of the Department of Global Communications (which oversees the Visitors' Services Section at Headquarters and the Visitors Services at the United Nations Offices at Geneva, Vienna and Nairobi) and ECA (which oversees the Africa Hall Visitors' Centre). The objective is to promote an informed understanding of the purpose, role and work of the United Nations to the widest possible audience and to promote United Nations premises as an attraction for the general public and for specialized groups, including school groups and university students from all Member States. In line with the Department's global communications strategy, there is a strong emphasis on inspiring visitors' actions and engagement in pursuing and promoting the Organization's aims, in particular the achievement of the Sustainable Development Goals.

IS3.28 In all four duty stations, in-person and online visitor activities continue to generate revenue while fulfilling their outreach mandates. The duty stations are prioritizing proactive marketing campaigns, updates and improvements to the tour route and further expansion of partnerships with civil society, academia, municipalities and the tourism industry. The Department plans to continue offering both in-person and online tours and briefings to the general public and other groups in all four duty stations and in several languages, upon request.

IS3.29 In section XV, paragraph 13, of its resolution 79/258 A, the General Assembly requested the Secretary-General to provide a budget proposal for the visitors' centre in Addis Ababa in line with corresponding staffing structures at other United Nations headquarters and offices away from Headquarters, in the context of the proposed programme budget for 2026. Accordingly, the present report includes estimates related to the operations of the Africa Hall Visitors' Centre, which are reflected in tables IS3.16 through IS3.19 and explained in relevant paragraphs below.

IS3.30 The Africa Hall Visitors' Centre is housed in Africa Hall, which is a historic building that represents the history, unity and culture of Africa. It is the birthplace of the Organization of African Unity, now the African Union. The Africa Hall renovation project modernized the existing facilities and included a significant public information component to highlight the Hall's significance in African and United Nations history. The objectives of the Visitors' Centre are to reinvigorate the Hall as an iconic legacy, promote its role in the post-colonial history of Africa and showcase the role of the United Nations in the growth and development of Africa. The Centre will feature a permanent exhibition space with multimedia presentations, and a temporary exhibition space for art and cultural displays. It will also highlight preserved artworks, including the 150 m^2 stained-glass mural. The Centre is designed to attract a diverse audience, including students, tourists, conference delegates, the general public and the media, and will employ various marketing and outreach strategies to maximize visibility and engagement. It will begin operating in 2025 and be funded from voluntary contributions.

[a] In-person and online visitors.

Headquarters

IS3.31 The Visitors' Services Section at Headquarters organizes guided tours, as well as briefing programmes and outside speaking engagements, in which United Nations officials address groups of students, representatives of non-governmental organizations (NGOs) and other audiences on a range of issues related to the work of the United Nations. Since the reopening of operations at Headquarters in April 2022, all activities continue to be offered both online and in person, with the aim of reaching a wider global audience.

IS3.32 As an innovative and supplementary source of income for the guided tour operation, the Visitors' Services Section will continue offering its six-minute virtual reality experience, showcasing the work of the United Nations Mission in South Sudan. This experience, launched during the Action Days of the Summit of the Future in September 2024, had already been enjoyed by over 600 visitors and groups – primarily students – by mid-March 2025. These included the 15 members of the Security Council, representatives of troop- and police-contributing countries and participants in the twenty-eighth International Association of Peacekeeping Training Centres conference, which brought together 210 attendees from 50 countries to discuss the evolving challenges of modern peace operations.

IS3.33 To broaden its reach and engage new audiences, the Visitors' Services Section will maintain its partnerships with renowned New York City attractions, which include the Summit One Vanderbilt observatory and Madame Tussauds wax museum. Through the creation of bundled "combo" packages and cross-promotion via each partner's marketing platforms, the Visitors' Services Section has successfully fostered sales synergies, increasing visitor traffic.

IS3.34 The Visitors' Services Section has also teamed up with the New York Adventure Club, a tour operator specializing in exclusive behind-the-scenes experiences. Through this collaboration, the Club offers a unique combination of the United Nations art and architecture tours to its clients, who visit Headquarters after regular working hours. This partnership consistently attracts several dozen visitors to Headquarters each month.

IS3.35 For the eleventh consecutive year, the Visitors' Services Section will partner with the Mayor's Office for International Affairs to cohost the annual New York City Junior Ambassadors programme. This initiative provides an educational journey for over 500 New York City young people from more than 20 schools and afterschool programmes across the city's five boroughs. Since its inception, over 5,000 New York City public school students have participated in this unique experience, learning about the Organization's work through guided tours and specialized briefings on the Sustainable Development Goals.

IS3.36 The Visitors' Services Section has seen a rise in guided tour requests from United Nations offices and mission staff for their event participants. This trend is attributed to the organization of thematic tours aimed at promoting guided tours within the United Nations community. These include art tours of the gifts collection on the second floor for United Nations Day, garden tours during the summer, and architecture and history tours of the United Nations compound throughout the year. In addition, the Section annually hosts United Nations Kids Day, offering tours for children throughout the day and a full day of fun and educational activities at the Visitor Centre.

IS3.37 The Visitors' Services Section relies on a core staff of fixed-term, full-time tour guides who conduct tours in person and online in more than a dozen languages, as well as specialized tours on a range of subjects relevant to the work of the United Nations. To ensure operational flexibility, the Section will hire additional temporary staff as individual contractors during peak seasons and to support the logistics of the virtual reality experience and manage the headsets for visitors.

IS3.38 To offset rising costs, including increases in staffing expenses due to cost-of-living adjustments, a price increase for guided tour tickets is proposed, effective January 2026. This adjustment will help the Visitors' Services Section maintain its current staffing levels and continue offering both in-person and online guided tours and briefings. Based on a market survey of comparable New York City attractions, the following price increases are recommended: from $26 to $29 for adults, from $18 to $21 for seniors and students, and from $15 to $18 for children.

IS3.39 The most recent price increase took effect in early 2023. The proposed $3 increase in ticket prices aligns with inflation and remains below the market rates for similar tourist attractions in New York City.

Geneva

IS3.40 At the United Nations Office at Geneva, the Visitors Service continues to deliver tours in 12 languages for groups, individual visitors and dignitaries. Youth groups continue to represent about 80 per cent of planned groups. The guided tour operation in Geneva is currently experiencing quantitative limitations to its operation owing to the closing down of about half of the Geneva compound since mid-2022 because of the work to refurbish the Palais des Nations under the strategic heritage plan. Owing to safety considerations vis-à-vis the construction site and to spatial restrictions linked to the closure of some buildings, several measures were taken, such as: (a) a reduction in the size of the tours to smaller groups, which reduced the ratio of visitors per guide; (b) restrictions imposed by security considerations on the number of groups permitted on the compound at any given time; and (c) the closure of the tours on United Nations holidays and major conferences.

IS3.41 Despite these challenges, the Visitors Service continues to offer a high-quality alternative tour route, which has received positive feedback and continues to generate increasing demand. The alternative tour route is offered to groups and individual visitors and for private tours. Despite the severity of the challenges at stake, the number of visitors in Geneva has been growing at a fast rate, with an increase of about 60 per cent between 2022 and 2024. While the refurbishment work at the Palais des Nations will continue in 2026, it is hoped that the growth in the number of visitors will continue

throughout 2025, subject to sufficient and timely budget allocations, as well as close cooperation with security, with a view to achieving a more flexible approach to the existing restrictions on the maximum number of visitors.

IS3.42 In addition to on-site tours of the Palais des Nations, online tours developed in 2021 are also expected to be offered in 2026. The Visitors Service will continue to offer tours adapted to the renovation work linked to the strategic heritage plan, modifying routes with new elements and including information products in various formats. Adaptations of public information support material for visitors who are visually and audibly impaired are also proposed. The Service's online sales operation continues to improve customer service.

IS3.43 Owing to the combined effect of continuing upward cost pressures and restrictions on the number of visitors, such as a smaller volume of visitors on the premises, a lower number of visitors per guide and the additional administrative cost of accrediting visitors, which increase the operating costs, the Visitors Service proposes the following slight increases in ticket prices in 2026: SwF 25 for adults (instead of SwF 22) and SwF 20 for university students and senior citizens (instead of SwF 18). The ticket price for school children and youth would be increased from SwF 11 to SwF 13 per person for children aged 6 to 13, and from SwF 12 to SwF 14 per person for those aged 14 to 17. United Nations staff members and official delegations would continue to benefit from complimentary tours. Online tours would remain at a flat rate of SwF 170 per tour and private tours for up to five persons would remain at a flat rate of SwF 280 per tour.

IS3.44 It is anticipated that, in 2026, the Portail des Nations will have opened in a new building on the compound of the Palais des Nations. While the Visitors Service will not be housed in the same building, it is expected that the guided tour offer will need to be adapted to the offer in place in the future Portail des Nations. The adaptation may take the form of the provision of joint tickets and an increase in visitor numbers. In 2026, the Service will operate from Monday to Friday from January to March and October to December and will also operate on weekends from April to September to accommodate peak demand. The anticipated impact of the opening of the Portail des Nations is taken into account in the estimate of 64,000 visitors for the year.

Vienna

IS3.45 At the United Nations Office at Vienna, the Visitors Service continued to experience high demand for, and excellent visitor feedback on, the guided tours conducted in more than a dozen languages. The educational sector remains the bedrock of tour demand in Vienna, with young people representing two thirds of all visitors. Primary and secondary school groups alone accounted for 51 per cent of the 49,263 visitors in 2024. The Service therefore specializes in tours tailored to children and young people, such as lecture programmes for academic groups, an interactive tour on the Sustainable Development Goals for teenagers and thematic tours for primary school children that are aimed at inspiring the youngest audiences through play. This focus has helped establish the Service's reputation for excellence among partners in the host country and many other Member States, but has historically made income generation on a cost-covering basis more challenging due to the need to for a large proportion of discounted tickets for children. In 2026, standard ticket prices will again be €15 for adults, €13 for students and retirees and €7 for schoolchildren.

IS3.46 In Vienna, a flexible, hybrid operating model has succeeded in continuously increasing visitor numbers, income and net revenue since in-person tours were allowed to gradually resume in September 2021. Adequate staff support in recent years has been the key to allowing the Visitors Service to work with Vienna-based organizations to improve exhibits on the tour route and offer higher-quality service in the Visitors' Centre in order to justify very robust pricing by local standards, and to pursue promotional outreach and partnerships to attract high-revenue visitors, such as tourists and professional groups, in a highly competitive local tourist market. Guided tours for individual visitors in additional languages, launched in 2024 and gaining in popularity, have further diversified the tourist base on which the Service draws.

IS3.47 The Visitors Service has pursued a business strategy over the past decade aimed at justifying robust pricing and appealing to high-revenue audiences through a focus on high-quality tours and a satisfying visitor experience, which includes the availability of an increasingly refined selection of auxiliary souvenir items. Since the end of the coronavirus disease (COVID-19) pandemic, this strategy has resulted in strong visitor numbers and income gains. Visitor numbers in 2024 were 11 per cent higher than in the previous year while income in 2024 increased by 24 per cent against the previous year, and by 50 per cent against 2019.

Nairobi

IS3.48 In 2025, the Visitors Service in Nairobi sought to strengthen its global presence by expanding partnerships with schools, travel agencies and other stakeholders. Efforts to maintain and grow visibility will continue into 2026. A wide range of outreach activities and initiatives were implemented as planned, enhancing the overall impact and reach of the Service, including welcoming hundreds of students and tourists and the launch of the workshop on gender and the Sustainable Development Goals, which have met with tremendous demand and success. The number of languages in which tours are offered has increased to seven.

IS3.49 Looking ahead to 2026, the Visitors Service will continue offering in-person guided tours of the United Nations complex, while also introducing new tour formats and thematic programmes designed to engage a broader range of audiences. A more proactive approach will be taken to engage Member States, in particular to strengthen collaboration and visibility. The Service will also expand its outreach and revive efforts to build meaningful partnerships with both traditional and new target groups visiting Nairobi, with plans to offer tours in nine languages, including the six official United Nations languages, as well as additional advertisements around the city of Nairobi and at airports welcoming visitors and inviting them to book a tour at the United Nations Office at Nairobi.

Addis Ababa

IS3.50 The Africa Hall Visitors' Centre is projected to host up to more than 250,000 visitors annually and will target 10 types of visitors. It will be managed by the ECA Publications and Conference Management Section, with a dedicated team to handle operations, tours and collaborations with various relevant local and regional institutions. Although the renovated Africa Hall was inaugurated in October 2024, the handover process did not start until the end of February 2025 due to the streamlining of some installations in the Hall. The testing and commissioning phase has been concluded and identified defects are now being rectified by the contractor, with an anticipated completion date of 16 May 2025. The operationalization of the Visitors' Centre will occur in two phases: a small-scale opening scheduled for 1 June 2025, followed by full-scale operations by January 2026. This timeline assumes that the content necessary for the permanent exhibition will be uploaded. Current activities that are progressing include targeted promotion, the employment of various systems, the setting up of the mechanisms for the visitor experience, and staff recruitment.

IS3.51 In 2026, the Africa Hall Visitors' Centre will continue to offer its services to the public, including through a guided tour programme and the use of virtual reality, featuring permanent and temporary exhibitions on pan-African history, the building's history and architectural background, African natural and cultural heritage listed by the United Nations Educational, Scientific and Cultural Organization and the impact of the United Nations and ECA on African socioeconomic progress; preserved artworks; a speaker's corner; a research station; an art exhibition; and a modern, technologically advanced conference hall. The Visitors' Centre will also include a souvenir shop where books and various United Nations-branded items will be offered for sale. For 2026, a total of 264,435 visitors are projected for the Centre.

IS3.52 Table IS3.20 lists all deliverables, by category and subcategory, for 2026.

Table IS3.20
Deliverables for 2026, by category and subcategory

Category and subcategory
D. Communication deliverables
Outreach programmes, special events and information materials: guided tours, including the development of different tour concepts for general audiences, including young people and children, as well as VIP tours for high-level officials and goodwill ambassadors in approximately 20 languages, offered at Headquarters, the United Nations Offices at Geneva, Vienna and Nairobi, and ECA; design and production of exhibits, interactive tour materials, souvenir items and books for visitors to all five duty stations in multiple languages; briefing programmes at Headquarters and United Nations offices, as well as outside speaking engagements, on various United Nations issues presented by Secretariat officials in response to requests from academic institutions, NGOs and other groups; videoconferences linking groups away from Headquarters and United Nations offices with Secretariat and/or mission officials; and engagement with visitors for promotional purposes and as multipliers of United Nations communications priorities, including on social media and through partnerships with local actors in the educational and tourism sectors in New York, Geneva, Vienna, Nairobi and Addis Ababa.

Resource requirements

IS3.53 Post resources in the amount of $2,552,500, reflecting an increase of $153,000, would provide for the financing of 18 posts, as shown in table IS3.18, for the public services of the Department of Global Communications (2 P-3, 1 General Service (Principal level) and 7 General Service (Other level) at Headquarters, 1 P-3 and 2 General Service (Other level) in Geneva, 1 P-2 in Vienna and 1 P-2 in Nairobi) and of ECA (1 P-2 and 2 Local level in Addis Ababa). The increase reflects the proposed establishment of 3 posts (1 P-2 and 2 Local level) at the Africa Hall Visitors' Centre in Addis Ababa, as explained in the annex.

IS3.54 Non-post resources in the amount of $4,382,300, reflecting an increase of $776,600, would provide for other staff costs, hospitality, travel of staff, contractual services, general operating expenses, supplies and materials, and furniture and equipment. The increase, pursuant to section XV, paragraph 13 of General Assembly resolution 79/258 A, consists of the following:

(a) An increase of $691,600 under other staff costs to cover the cost of 13 Local level general temporary assistance positions to support the smooth operation of the Africa Hall Visitors' Centre with a positive visitor experience. This team of specialized personnel would work collaboratively and would include: (i) eight Public Information Assistants (tour guides) to deliver various tours, educating diverse audiences, while maintaining up-to-date knowledge and providing excellent customer service; (ii) two Sales Assistants to manage the souvenir shop, handling orders, inventory and customer communication, thereby contributing to the visitor experience; (iii) two Cashiers to provide a crucial point of contact, by processing financial transactions efficiently and offering excellent customer service; and (iv) one Supply Assistant to support the logistical backbone of these operations, including by managing inventory and procurement, and ensuring compliance and efficient supply flow. Thus, each role would play a vital part in creating a well-organized and informative environment for visitors at Africa Hall;

(b) An increase of $75,000 under contractual services to provide for the development of an online edutainment experience at the Africa Hall Visitors' Centre. This would allow visitors to explore Africa Hall and its three artworks virtually when the Hall is occupied by meetings. In addition, this would provide for developing materials to present information in a way that is accessible and engaging for primary school audiences for child-centred storytelling;

(c) An increase of $10,000 under supplies and materials to provide for stationery, office supplies and materials, including the purchase and replacement of tour guide uniforms, cash register paper, promotional print materials and souvenir shop price tags in support of the operations of the Africa Hall Visitors' Centre.

4. Revenue services of the Department of Economic and Social Affairs

Table IS3.21
Estimates of gross and net revenue
(Thousands of United States dollars)

	2025 approved estimate	*2026 estimate*	*2026 increase (decrease)*
Statistics			
Gross revenue	1 648.3	1 648.3	–
Less expenses against revenue	862.0	862.0	–
Total net revenue	**786.3**	**786.3**	**–**

Table IS3.22
Summary of requirements by category of expenditure
(Thousands of United States dollars)

			Changes					
	2024 expenditure	*2025 approved*	*Technical adjustments*	*New/expanded mandates*	*Other*	*Total*	*Percentage*	*2026 estimate*
Non-post	686.4	862.0	–	–	–	–	–	862.0
Total	**686.4**	**862.0**	**–**	**–**	**–**	**–**	**–**	**862.0**

IS3.55 In 2026, the sales activities of the Department of Economic and Social Affairs under the present section will complement the work of the Statistics Division. The general objective of the activities is to ensure a high level of quality in the databases of the Division, including their metadata. These databases cover the international trade in goods and services statistics (UN Comtrade database), the database on business statistics, the database on national accounts statistics, the classifications registry, the global enterprise group registers and other databases of the Division. The activities also include the facilitation of data exchange between international agencies and countries and training in the use of the Statistical Data and Metadata Exchange. Within this general objective, the activities are also intended to assist developing countries in improving the quality, availability and dissemination of their official statistics for inclusion in the databases of the Division, thereby ensuring the continued value of such data for the customer base.

IS3.56 Following the actual and estimated increases in 2023, 2024 and 2025, respectively, it is anticipated that gross revenue is expected to stabilize in 2026, based on long-term projections that reflect average revenues since October 2022. In the rapidly shifting international trade landscape, UN Comtrade will continue to attract a wide and growing audience of large data users, including government and policymakers, academia and research institutes, businesses and the public, as it provides access to reliable and comprehensive trade data. With the planned update of several trade statistics manuals in 2026, it is foreseen that UN Comtrade will also be upgraded to accommodate new data variables and indicators. As it is a public service, features are gradually being added to UN Comtrade to accommodate the growing need to analyse and download trade data.

Resource requirements

IS3.57 The amount of $862,000 for non-post resources, reflecting no change compared with the approved budget for 2025, would provide for other staff costs, travel of staff, contractual services, general operating expenses, supplies and materials, furniture and equipment, and grants and contributions. The bulk of non-post resources are designated for contractual services in order to improve and maintain trade data tools for countries as part of capacity-building activities, to acquire ship tracking

data and other relevant data sets hosted on the United Nations Global Platform, to cover the cost of hosting and cloud services for UN Comtrade and other relevant databases and tools, and to update, maintain and run the platform hosting e-learning courses on international trade statistics. The grants and contributions are intended to support developing countries in improving the quality, availability and dissemination of their official statistics by organizing training workshops, study visits and on-the-job training for national statisticians.

5. Sale of gift items

Table IS3.23

Total net revenue	**619.2**	**619.2**	**–**

IS3.58 The gift shop at Headquarters provides staff, members of delegations and visitors with United Nations mementos and souvenirs, as well as handicrafts and other souvenirs from around the world. The gift shop at Headquarters is operated by a contractor that is required to provide the United Nations with a percentage of gross sales and a utilities fee.

IS3.59 The projected revenues from the gift shop for 2026 amount to $619,200, reflecting no change compared with the approved estimate for 2025.

6. Garage operations

IS3.60 The garage operations at Headquarters, Geneva and Bangkok provide parking facilities for delegates and staff under conditions and at rates established by the United Nations.

IS3.61 Revenue projections for 2026 are informed by actual revenues in 2024. At Headquarters, these are expected to be affected by the local government's congestion pricing programme and the inability to adjust garage rates since 2022. In paragraph 76 of resolution 79/257, the General Assembly emphasized that services to the public should be financially self-supporting and urged the Secretary-General to develop innovative options, while maintaining garage rates at their current level and not introducing any changes in the garage operations policies, to increase income, avoid deficit and optimize resources. In response, the garage operation at Headquarters has initiated a project to automate the processing of daily ad hoc parking requests for staff, with the aim of enhancing garage utilization. However, given the constraints outlined above and the limitations imposed by the resolution, no adjustment in garage rates will be made and hence no significant increase in revenue is anticipated for 2026.

IS3.62 The Administration is required to issue guidance and make operational policy changes from time to time to ensure the safe and effective management of parking facilities for delegates and staff at United Nations garages at Headquarters and in Geneva and Bangkok.

IS3.63 It should be noted that the garage rates at Headquarters were last revised effective September 2022. As inflationary pressures are expected to further increase costs, and revenues are expected to be

affected by the various factors described in paragraph IS3.61, the General Assembly may wish to consider adjusting the garage fees applicable to staff to ensure the self-sufficiency of the garage administration office at Headquarters. It should also be noted that the fees applicable to delegates have not been adjusted since 1984. In order to realign the revenue potential of the garage operation and ensure that it remains self-supporting, the Assembly may also wish to consider adjusting the fees applicable to delegates in line with the cost-of-living index. The Assembly may also wish to reconsider allowing revisions to the operational policy to mitigate a continued downward trend in income in future budget periods.

Resource requirements

IS3.64 The amount of $1,284,100 would provide for the financing of six posts, as shown in table IS3.26 (2 General Service (Other level) and 2 Security Service at Headquarters; and 2 General Service (Other level) in Geneva), as well as non-post requirements.

IS3.65 Non-post resources in the amount of $374,800, reflecting an increase of $19,400 compared with the approved budget for 2025, would provide for other staff costs, contractual services, general operating expenses, and supplies and materials. The increase mainly reflects additional requirements for supplies and materials due to an increase in vendor printing costs for parking permits and stickers at Headquarters ($6,400) and increased requirements under furniture and equipment for the required upgrade and replacement of ageing equipment and furniture at the garage operations at Headquarters and in Bangkok ($13,000).

7. Catering operations

IS3.66 The United Nations catering contract at Headquarters, signed on 31 December 2014, was due to expire on 31 December 2024. The current contract, which was amended to a subsidy model during the pandemic to mitigate the vendor's losses, was extended to allow sufficient time to complete the new solicitation. Six of the seven dining locations were operating as at 15 January 2025 to meet current demand. Historically, food operations at Headquarters have relied on external catering events for profitability, because the cafeterias have typically generated losses owing to narrow margins. To mitigate losses, the availability of the various dining facilities will continue to be evaluated on an ongoing basis and adjusted as required.

IS3.67 In February 2024, the Secretariat decided to implement a multistage request for proposals for the new solicitation process to attract more vendors. The request was open to all vendors. As a result, more vendors participated in the process, but it took a much longer time to complete. The solicitation process is in full compliance with United Nations regulations, taking into account the recommendations resulting from the independent assessment conducted in 2021, as well as improvements in market conditions. It is offering bidders the option to propose a "profit and loss" model, whereby they would be responsible for the financial result of the operation at the onset of the contract, or start with a "subsidy" model first and transition to a "profit and loss" model once specific targets are met. The procurement exercise is expected to conclude by the end of the second quarter of 2025 and arrangements to extend the contract with the existing provider will be made as necessary to ensure continuity of services.

IS3.68 Pending the new contract terms, 2026 estimates are projected on the basis of the current situation whereby a subsidy would continue to be required. Based on the assumption that catering revenue would increase but be partly offset by higher costs for labour, food and other expenses, including those resulting from tariff and inflationary impacts, continued losses are expected. The projected revenue for 2026 for the catering operations at Headquarters amounts to $547,400, based on the average actual experience for the past three years.

IS3.69 The catering service at ESCAP is provided for the benefit of staff, delegates and participants in meetings of non-United Nations entities and conferences held on the premises. The catering operation in Bangkok generates incidental revenue, estimated at $75,500 for 2026, reflecting no change compared with 2025.

Resource requirements

IS3.70 The amount of $2,055,300 would provide for the financing of one post (P-4) in the Division of Administration at Headquarters, as well as non-post requirements for Headquarters and Bangkok.

IS3.71 Non-post resources in the amount of $1,799,800, reflecting an increase of $17,600, would provide for other staff costs, contractual services, general operating expenses, and furniture and equipment. The increase reflects additional requirements under other staff costs due mainly to the implementation of a new salary scale for General Service staff in Bangkok ($19,500), offset in part by a decrease under contractual services relating to the revised projected costs of conducting an annual independent hygiene audit covering all food service operations in Bangkok ($1,900).

8. Other commercial operations

Table IS3.30

IS3.72 The next phase of the refurbishment work, covering the main entrance to the Visitors' Centre of the Vienna International Centre will commence in 2026, subject to the availability of co-financing from other Vienna-based organizations, such as the International Atomic Energy Agency, the Comprehensive Nuclear-Test-Ban Treaty Organization and the United Nations Industrial Development Organization. During this period, commercial activities will remain suspended, until the refurbishment is completed, resulting in no anticipated income or expenditure for 2026.

IS3.73 The total gross revenue of the United Nations Conference Centre at ESCAP is estimated at $350,000 for 2026.

IS3.74 The United Nations Conference Centre at ECA provides conference halls and exhibition facilities to other United Nations agencies, NGOs, intergovernmental organizations, government offices and others, for a fee. The rental income from the Conference Centre is estimated at $290,300 for 2026, reflecting an increase of $251,200 compared with the approved estimate for 2025. The increase is due mainly to (a) additional income from conference rooms 1 and 2, which have undergone major renovation and (b) the addition of the Africa Hall plenary conference room and two adjacent committee meeting rooms, which will be fully operational by 2026. The ongoing maintenance costs of the Conference Centre are budgeted under section 18, Economic and social development in Africa.

Resource requirements

IS3.75 The amount of $274,600 for non-post resources, reflecting no change compared with the approved budget for 2025, would provide for other staff costs, travel of staff, contractual services, general operating expenses, supplies and materials, and furniture and equipment.

B. Programme support

Resource requirements

IS3.76 The amount of $500,900 would be required to provide for the continuation of three posts (1 P-4 and 2 General Service (Other level)) in the Finance Division of the Office of Programme Planning, Finance and Budget that are responsible for revenue accounting and reporting.

Annex

Summary of proposed post changes, by component

Component/subprogramme	*Posts*	*Grade*	*Description*	*Reason for change*
Services to visitors	1	P-2/1	**Establishment** of 1 Associate Event Coordinator	The Africa Hall Visitors' Centre encompasses and features a permanent exhibition space with multimedia presentations, a temporary exhibition space for art and cultural displays, preserved artworks, a research station, guided tour operations, speakers' sessions and a book and souvenir shop. It serves as a venue for a diverse range of events, including public lectures, art exhibitions and educational activities. These events are integral to disseminating information about the work of the United Nations and engaging with various stakeholders. In this regard, the three posts (1 P-2 and 2 Local level) proposed for establishment, pursuant to section XV, paragraph 13, of General Assembly resolution 79/258, would be crucial for the successful management and execution of events and visitors' services at Africa Hall. Details of the duties and responsibilities of the three posts are set out below. The Associate Event Coordinator (P-2) would be responsible for the overall management of the Africa Hall venue, including coordinating with service providers, managing event spaces and handling enquiries related to the venue's use. The Associate Event Coordinator would also play a pivotal role in event planning and coordination involving logistical planning for, and the scheduling and coordination of, all events at Africa Hall, including by supporting the following: the organization of briefing programmes and special events facilitated by the External Communications and Media Relations Section and/or the Knowledge Management Services Section at Africa Hall, including outreach to key stakeholders, such as schools, partners, the United Nations system and embassies, to ensure a broad understanding of the work of the United Nations; United Nations Communications Group outreach events, as well as press briefings and authorized filming; and events organized by the United Nations or its partners in connection with the arts, culture and heritage, such as art exhibitions or other related creative or artistic expressions and engagements that are aligned with the work of the Organization. The Tour Coordinators (2 Local level) would be essential for managing the visitor experience at Africa Hall. The Visitors' Centre will serve as a key point of contact for the public, including VIPs, diplomats, students and tourists. The Tour Coordinators would play a vital role in managing tours through scheduling and assigning tours, providing briefings to tour guides and coordinating special tours for diverse groups. This would ensure that visitors receive informative and engaging tours of Africa Hall. The Tour Coordinators would also be responsible for ensuring that visitors have a positive and enriching experience, including by addressing visitor enquiries, managing complaints and collecting feedback to improve tour services. The Tour Coordinators would also supervise tour guides, ensuring that they adhere to professional standards, follow operational guidelines and effectively communicate with visitors. Furthermore, the Tour Coordinators would act as a liaison between tour guides, visitors and management. They would provide feedback on visitor comments and contribute to the development of marketing strategies to enhance the services provided by the Visitors' Centre.
