Japan, jointly with Israel, submitted a proposal aimed at enlarging the membership of UNCITRAL at its 52<sup>nd</sup> session in July this year. The Commission encouraged its member States to consult with each other and other interested States on the proposal during the inter-sessional period and requested the Secretariat to facilitate those inter-sessional consultations.

**This session is meant to update New York-based delegations on the topic, as the subsequent process will be for the Sixth Committee to take action on the Commission's recommendation.**
